Three Big Essentials
It is advisable that a man should know at least three things: First, where he is; secondly, where he is going; thirdly, what he had best do in the circumstances.

PHINEAS B. BOOMER

Phineas B. Boomer died Friday, March 9, at his residence in this city, after an illness of several months. Mr. Boomer had been a resident of this city for 40 years and was 86 years of age.

Phineas B. Boomer was born February 26, 1852, in Canada. In 1877 he was united in marriage to Matilda Beemer. A few years following they came to Michigan. A large portion of the time since then they spent in Tawas City.

Mr. Boomer was a mason by trade. The deceased is survived by the wife, three sons, Milton Boomer of Washington, George Boomer of California and Peter Boomer of Detroit, and two daughters, Mrs. Winnie Porter of Bay City and Mrs. Lelia Spicer of Detroit.

The funeral services were held Monday afternoon at the L. D. S. church. Rev. Jas. Sharpe officiated. Interment was made in the Tawas City cemetery.

TWENTIETH CENTURY CLUB
Club met in open session at the high school Tuesday evening, March 8th.

The educational film secured for this meeting was "Trees of Righteousness," in three reels, showing that the work of saving the virgin forests in the United States is a paying proposition.

A one-reel film, "The Ox Warbler," showed the development of this cattle pest from the time the egg was laid in the leg of the animal until the maggot works through the hide. This is one of the hardest cattle pests to get rid of, as no insecticide has been discovered which will destroy it. It not only punctures the hide of the cattle and lowers their selling price, but often makes the meat unfit for use.

A reading, "Mr. Pim Passes By," by Mrs. Osgerby, was very well given and greatly enjoyed by all.

The next meeting, March 17, is in charge of the Civic Committee, which has prepared a St. Patrick's program. This meeting will be held at Bradley's at 2:30. Meet at Keiser's drug store at 2:15.

CARD OF THANKS
We wish to thank the many friends and neighbors, who so kindly assisted us during the sickness, death, and burial of our husband and father, also the singers and the pastor, Rev. Sharp, for the message, and Mr. Sommerfield for the use of the church.

Mrs. Phineas Boomer and Children.

WILLIAM HAINES STARS IN HILARIOUS COMEDY ROMANCE
"Head down—eyes on the ball—hit it!"

This was the daily drill that William Haines went through, just as a while ago he was doing—"Squads right" and "Right about face"—or as he caught baseballs or tackled football players.

The new picture is a hilarious comedy romance laid on the golf field, with Haines in the role of a shipping clerk who teaches the boss golf—and is thereby introduced into a country club amid many trials and tribulations, all of a hilarious nature.

"Probably before I get through pictures I'll qualify as an all round athlete," says Haines. "I learned plenty about football, if black and blue marks mean anything, marched myself stiff when a Marine Sergeant educated me, and the baseball picture got me at least the knowledge that you can't catch a ball with your thumb out and play a piano afterward."

ROSCOMMON IS VICTIM OF WHITTEMORE CAGERS

To wind up the basketball season in good shape, the Whittemore Independents were victorious in two games played at Whittemore Tuesday evening, March 13. They won the first game by defeating the Roscommon Tramps by a score of 24 to 17, and winning the second game from the Iosco County Normal team by a score of 42 to 20.

The winning of the first game was a sweet revenge for the Independents, after losing a game at Roscommon three weeks ago by a score of 21 to 17. The game was fast but cleanly played throughout, Whittemore leading from the start. The score at the end of the first half was 17 to 7 in favor of Whittemore. J. Forsten, center for the Whittemore Independents, was high point man of the game, getting 12 baskets and one foul shot for a total of 25 points.

"THE ENEMY"

You will want to see "The Enemy," by Channing Polluck, which the Normal Class will present in the near future. It is the greatest play produced in the last decade.

It has been said of this drama: "Unless the whole world is so blind that it simply will not see, Channing Polluck is going to do more towards the realization of universal peace than Woodrow Wilson's Fourteen Points, The League of Nations, The World Court, and a dozen assorted Geneva Conferences." For in his play, "The Enemy," performed for the first time at the Schubert Theatre, he preaches a sermon more vital, more moving, more potent than anything the theatre has ever known.

An eight year old Chicago boy came down to breakfast and his hands and face just had a "lick and a promise" as grandma

used to say. "Come up to the bathroom," said his father, "and I'll give you a real good wash."

When he got to school his teacher commented on his clean features—"Why Ralph," she said, "you look so wonderfully clean. Who washed you?" "My dad washed me" declared Ralph "and say, if you ever want to be good and clean you just go to dad. You will be clear all right, when he gets through with you."

John Burgeson has just purchased another ton of Hexite. John says it is No. 1 feed for milch cows.

Nervous Old Lady—Are you sure the train will stop

when you pull that rope? Conductor—Absolutely, the other end is tied around the engineer's neck.

Hotel Guest—Say, what's a big idea? Someone's running up and down the halls and I can't get a wink of sleep.

Clerk—Sorry, sir but you see, we have no control over the fire department.

Feed your cows Hexite and get more milk and cream. Ask your neighbor what results he gets.

Electric Bug Discovered

In Nigeria has been found an electric caterpillar which feeds on mistle toe flowers. A tingling sensation, distinctly resembling an electric shock was felt by the collector while handling them, although the insects had no bristles or other protrusions to cause irritation.

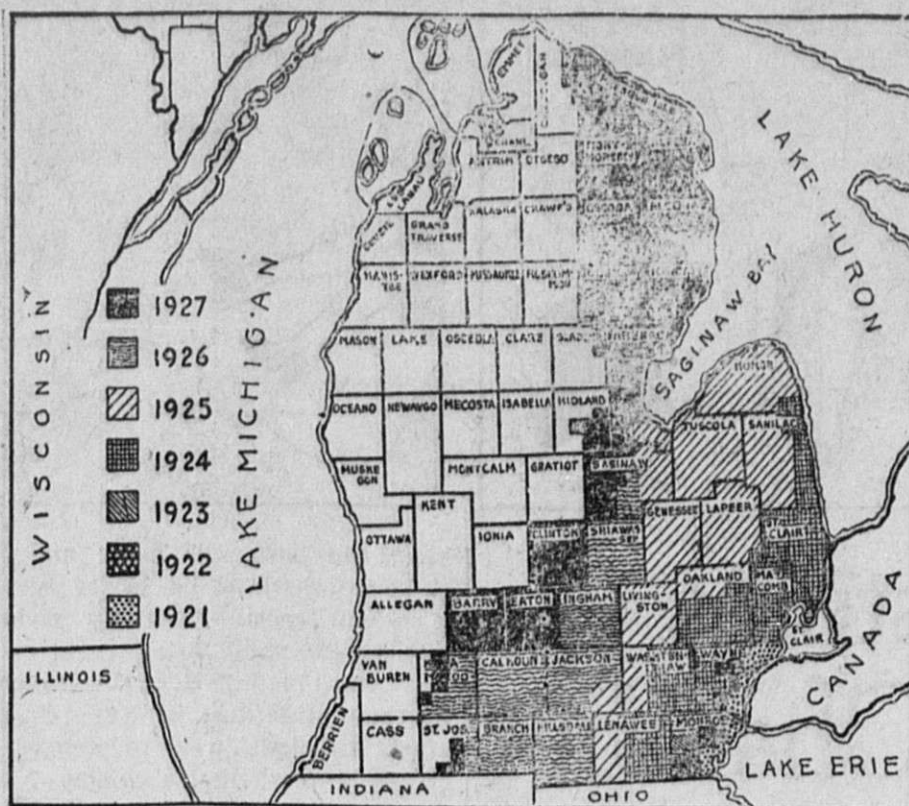

No Tigerloof Truants

Mr. Cyril Wright of Leicester, England, who was on the teaching staff of the Tigerloof native institution for five years, declares that the most effective punishment for a native child is to order it to remain away from school for a day or two. Most native children, he says, would prefer to be whipped.

Long Distance Rates Are Surprisingly Low . . . For Instance,

for \$2.00

Or Less, After 8:30 P. M.,

You can call the following points and talk for THREE MINUTES at the rates shown. Rates to other points are proportionately low.

BELLEVILLE, KANS.	1.75
MINOR, N. D.	1.90
BRISTOW, OKLA.	1.90
CHARDON, NEBR.	2.00
SAVANNAH, GA.	1.75
JACKSONVILLE, FLA.	2.00
BLACKWELL, OKLA.	1.90
PANAMA CITY, FLA.	2.00

The rates quoted above are Station-to-Station night rates, effective from 8:30 p. m. to 4:30 a. m.

A Station-to-Station call is one that is made to a certain telephone, rather than to some person in particular.

If you do not know the number of the distant telephone, give the operator the name and address and specify that you will talk with "anyone" who answers at the called telephone.

Day rates, 4:30 a. m. to 7 p. m., and evening rates, 7 p. m. to 8:30 p. m., are higher than night rates.

A Person-to-Person call, because more work is involved, costs more than a Station-to-Station call. The rate on a Person-to-Person call is the same at all hours.

Additional rate information can be secured by calling the Long Distance operator

SERRADELLA FARM

PRODUCTION FOR 1927

The average production of a herd counts more in herd efficiency than the spectacular record of an individual.

Over a year ago the entire Serradella Farm milking herd was placed under S. O. test. Thirty-nine head finished S. O. records during 1927. The average of these 39 head was 16248.1 lbs. of milk, 681.43 lbs. of butter for an average of 337 days.

Leaders in this Serradella production are:

Doress Canary Rag Apple	1121.65
Huron Hill Pontiac Sarcastic	1027.05
Lady Riverside Canary	987.65
Dora Riverside Colantha	947.44
Queen Pieterje Mink DeKol	918.88
Lady Pieterje Wayne Paul Pride	951.63

Average 994.40
Two of these six made these records at past ten years of age. Three of these are sisters, by same sire, the average of these three sisters is, Milk—23572.5, Butter—1006.90.

There is a mother and daughter in this leader class whose average is 21253 lbs. milk, 967.55 lbs. butter. Seventy-one per cent of the entire herd are under five years of age, and sixty-eight per cent are Serradella bred animals. Forty-five cows calved, giving birth to forty-nine living calves.

The average production of all cow test associations in the state for 1927 was 7536 lbs. milk, 368 lbs. butter. The average production of 25,431 cows tested under S. O. supervision is 15720 lbs. milk, 655 lbs. butter.

The Serradella Farm herd is Federally accredited.

IOSCO ADVANCES FROM 57th PLACE TO 19th PLACE
Do you remember when school report cards were marked in figures? and when each pupil was given a "rank in class"? and the thrill you felt when your average rose from 70 to 80, or you were advanced from rank seven to rank three? If you do remember, then you know how the Iosco County Sunday School Association feels right now!

In 1926 Iosco showed a percentage of 88, ranking 57th among the Michigan counties as graded by the State Council. Word has just been received that Iosco's percentage for 1927 was 58, placing our county 19th in rank. Iosco County Sunday School Association is doing things!

For an Emergency

Take a piece of cardboard and copy on it the telephone number of the fire department, family physician, your husband's office or other numbers that you might find necessary to use in an emergency. So often in an emergency, such as a sudden illness, a neighbor or some one else to whom the numbers are not familiar may do the telephoning. Hang this above your telephone and see what a convenience it is.

Don't forget St. Patrick's supper and party Saturday evening, at the Masonic temple, Tawas City. Given by American Legion. adv

Color Cures

By replacing white walls and red coverlets in hospital with delicate green, yellow and mauve ones, it is claimed that patients are kept in a better temper, sleep well, and leave the hospital three days sooner than under the old conditions. One individual, afflicted with chronic insomnia, went to sleep within an hour in the restful atmosphere of a room decorated in mauve.

Odd Scene in Sky

During a rainstorm at Hereford, England, a remarkable spectacle was seen in the sky. Suddenly the heavy clouds seemed to part, and a huge moving ball of incandescent light was seen, the black clouds being illuminated as if by a searchlight. For a moment it appeared to be stationary, then it slowly sank until it vanished behind the hills.

Grouchy Failed Napoleon

Marshal Grouchy was the commander assigned by Napoleon Bonaparte to hold in check the German army under Blucher after the latter's defeat at Ligny. This, Napoleon hoped, would leave Wellington without support at Waterloo, but Blucher reached Waterloo late in the afternoon of the battle, when it was practically won.

Maxim American-Born

St. Hiram Maxim was born in the state of Maine in 1840, but the greater part of his life was spent in England, where he became a famous engineer and inventor. Among his many inventions the machine gun, called after him, the Maxim, is the best known.

The fifth and sixth grade gave us a doll house. We wish to thank them. We are slowly getting it furnished.

Dorothy Anderson visited our room last Thursday.

The Lambs won in the spelling contest. The Lambs received 32 perfect marks while the Lions only had 29. The Lions are entertaining during class period Thursday.

Our people were pleased to see Golden Ziel dressed up like a little Dutch girl.

We are placing bird pictures in our room in the order of their appearance this spring.

Florence McDonald has returned from her visit in Flint.

Those having perfect spelling lessons last week were: Ada Malcolm, Emma McCormick, John King, Myrton Leslie and Thomas Metcalf.

Snake's Rattles

Some folks insist that you can tell the age of a rattlesnake by the number of its rattles. Nature authorities say this isn't true, because rattles may be added to the tail at uncertain times in the year, and as rattles are brittle and get broken, it is impossible to tell the age accurately, by counting them.—Exchange.

Ancient British Book

Domesday book is a register containing the result of a survey of England, made by William I, the Norman conqueror, in 1086. The name is derived from the word "doom," meaning valuation or judgment. This famous work in two volumes is in the museum of the record office, London.

Fabled Monster

Happy was the name of a fabulous, filthy-winged creature mentioned in the works of Homer, the ancient Greek poet, and in the works of the later Latin poet, Virgil.

Built on the Sand

If hedging a growing youth about with more wire fences will keep him straight, then his intellectual growth is not worth a copper.—James Huneker.

"Invisibility" a Myth

The bureau of standards says that there are invisible inks and stains, but a magnifying glass is not used to detect them. A colored glass is employed for this purpose.
