REPUBLICANS ENDORSE HOOVER FOR PRESIDENT

The Iosco County Republican Convention held here Wednesday and apparent unanimity in opinion. Twenty-seven delegates were present. Dr. C. F. Klump was chosen chairman of the convention and H. J. Keiser secretary.

After the reports of the committees on credentials and organization were read and adopted, the chairman of the committee on resolutions, Geo. A. Prescott, Jr., read the resolution prepared by that committee. The resolution was unanimously adopted by the convention.

The following is the text of the resolution:

"Whereas, the principles of the Grand Old Republican Party have brought peace, prosperity and happiness to this great Nation; and whereas, the leadership of Calvin Coolidge has been one of rigid economy and of faith kept with the people, therefore be it resolved that we, the Iosco County Republican Convention, heartily endorse the National Administration:

"And Whereas, we firmly believe that the Coolidge policies should be continued in the White House by a strong and capable man, we therefore heartily commend the candidacy of Herbert C. Hoover for President. His work as Food Administrator during the World War, as Secretary of Commerce, and his work on matters of flood control, demonstrate that he is a man eminently qualified to carry on the affairs of these United States:

"And Whereas, the affairs of this State have been ably carried on by Governor Fred W. Green and his present Administration; and whereas, the Governor, through his untiring efforts, has increased the Workmen's Compensation, has successfully carried the fight to abolish the 'King Ben' Colony at Bensor Harbor, which was a dark blot on the State of Michigan; and whereas, the Governor's interest in matters of Conservation pertaining to Fire Prevention and an increase of fish and game has given the State of Michigan a definite Conservation Program, be it resolved that we highly endorse Governor Fred W. Green and his Administration.

"And whereas, Roy O. Woodruff has very ably represented this District in Congress, in securing pensions for the widows and War Veterans, and in appreciation of his outstanding work as a member of the Naval Affairs Committee, be it further resolved that we endorse

A CHALLENGE TO IOSCO COUNTY SUNDAY SCHOOLS

"Iosco does everything. No county can get ahead of Iosco. Name your project and it will show you an equal or a better one."

Bernard C. Coggan gives Iosco the above "send-off" in the last issue of the Michigan Sunday School Advance.

"I am sure that I have had no contact this year in the state that seems more hopeful and prospective than the one in Iosco County. You people are venturing what others have been unwilling to try. You have a group of fine young people in your county and it means much to have leaders giving youth a chance to express itself."

Thus writes Fred A. Replogle, State Director of Young People's Work.

NOVARRO FINDS IDEAL IN "THE STUDENT PRINCE"

Ramon Novarro, hero of "Ben-Hur," and other, famous plays, has found the ideal vehicle for his romantic type of portrayal in "The Student Prince," the spectacular Metro-Goldwyn-Mayer production coming to the State Theatre Sunday and Monday. In the role made famous on the stage by Richard Mansfield, Novarro has what he believes is the best part of his career. Norma Shearer plays the heroine, and Ernst Lubitsch, the famous German director, directed the play. A huge cast of principals and some two thousand extras appear in the huge production.

TO ATTORNEYS PRACTICING IN THE 23rd JUDICIAL CIRCUIT:

In order to make it as convenient as possible for litigants and counsel to obtain prompt action in any matters requiring attention, I wish to offer the following suggestions:

When not regularly holding court in this Circuit, or assisting in other Circuits, I shall try to leave Mondays available for business, requiring attention at Tawas City, and hold myself in readiness to go there if necessary. It is also my plan, so far as possible, to be at my office in Harrisville on Saturday of each week, where business which can be disposed of at Chambers, or cases pending in the Alpena County Circuit Court, can be taken care of.

Counsel interested in cases pending in Oscoda County are requested to arrange for hearing by letter or telephone.

In case it is desired to communicate with me while engaged away from home, you will be able to ascertain from the county clerk at Harrisville where I can be reached.

Counsel are requested to plan their work in this Circuit with these suggestions in mind, where it is possible for them to do so; and in any event, in order to avoid waste of time and effort, a definite understanding should be arranged with opposing counsel, if any, and myself, as far in advance as possible, where the business to be presented is of such a nature as to permit this to be done.

Counsel having matters which they wish to present during the regular March and April terms, relating to cases in which I am disqualified from acting, are requested to advise me immediately, with particulars, so that they may be duly notified of the attendance of a judge qualified to act.

Very truly yours,
Herman Dehnke,
Circuit Judge.

Wm. Binder purchased another load of Hexite today. He says he gets more milk and cream from Hexite than any other feed he can use for anywhere near the same amount of money.

It is true love if it endures after hearing her describe 82,942 different things as 'perfectly precious.'

We are carrying a full line of clovers and timothy seed, Alfalfa, sweet clover, and millet.

Our car load of Hexite is here.

Feeds we carry in stock—Cracked corn, whole corn, coarse corn meal, corn and oat chop, ground oats, middlings, bran, oil meal, meat scrap, cotton seed meal, Hexite and chick starter.

Sometimes after a girl has fished for a man and landed him she doesn't know how to get him off the hook.

Wheat for chickens at \$2.20 per 100 lbs. Call and look it over, it is good feed.

What a splendid thing it would be if people who lost their tempers were unable to find them again.

Never judge a woman's smile by her teeth, both may be artificial.

We also have lime, cement, plaster and fertilizer.

Howard B. Bloomer,

Bring this complete automobile show into your own home

THE national automobile shows in New York and Chicago were too far away for most Americans to attend. But by clipping the coupon below, you can bring a representative automobile show into your home.

At the shows General Motors exhibited a complete line of automobiles—"a car for every purse and purpose."

They are the quality cars of their respective price classes. They range in price-at-the-factory from \$495 to \$5,500. They include 89 models of every type and kind. They embody improvements tested and proved at General Motors' Proving Ground, which, together with the Research Laboratories, is maintained to assure continuous progress.

"A car for every purse and purpose"

The General Motors cars are briefly described below. The new models offer more performance, more comfort, more beauty than ever before in automobile history. All have 4-wheel brakes. All closed bodies are by Fisher. All have Duco finish. All are built of quality materials. And for their convenient purchase, General Motors has provided the standard low-cost GMAC Plan.

CHEVROLET. 7 models, \$495 to \$715. Bigger and better than ever before. 4-wheel brakes. Longer wheel base. Still more powerful engine. Luxurious Fisher Bodies. Shock absorber springs. New hood. New Duco colors. New instrument panel and other improvements. ALSO truck chassis: 1/2-ton, \$395. 1-ton, \$495.

PONTIAC. 8 models, \$745 to \$875. The lowest-priced quality "six." Improved from radiator to tail-light. For example: 4-wheel brakes, new GMR cylinder head, increased power, locking device, more luxurious Fisher Bodies. Finished in Duco in new colors.

OLDSMOBILE. 7 models, \$925 to \$1085. Entirely redesigned by General Motors, the new Oldsmobile has earned the title of "The Fine Car at Low Cost." Longer, roomier, more powerful—and the last word in styling. Fisher Bodies. 4-wheel brakes.

OAKLAND. 9 models, \$1045 to \$1375. The All-American Six. Advanced engineering and precision construction. Longer, lower and more beautiful. Bodies by Fisher. Every convenience. 4-wheel brakes. New Duco colors. Harmonic balancer.

BUICK. 16 models, \$1195 to \$1995. The largest value in Buick's famous history. Beautiful low bodies by Fisher. Getaway like an arrow from a bow. Vibrationless beyond belief. Famous 6-cylinder "Valve-in-head" engine. Sealed-in chassis.

LASALLE. 16 models, \$2350 to \$2975. This beautiful car was designed as companion car to Cadillac. Has V-type 90 degree 8-cylinder engine which has made Cadillac the standard fine car of the world. Built in Cadillac factory. Continental in appearance.

CADILLAC. 26 models, \$3295 to \$5500. "What," General Motors asked last year, "can possibly be done to improve Cadillac?" The result is embodied in the new models now on display, representing the high-water mark of Cadillac's long history. Sumptuous bodies by Fisher and Fleetwood. 500 color combinations to choose from.

FRIGIDAIRE—The Electric Refrigerator. General Motors has applied the processes which have made the automobile available to every family, to the production of electric refrigerators. Frigidaire is the refrigerator made by General Motors and it is now the world's largest selling product in its field.

DELCO-LIGHT Electric Plants. Provide the conveniences and labor-saving devices of the city for the farm. Electric light and power plants, water pumps, etc. Used in more than a quarter-million homes.

(All prices F. O. B. at the factories)

CLIP THE COUPON

Mark on the coupon below the General Motors product or products that you would like to see. Check all of them, if you wish, for the illustrated catalogues are so detailed as to form a show in themselves. In your own home you may examine the whole General Motors line, point by point, at your leisure. With the catalogues will be sent free a little book entitled "Principles & Policies." You will find it unusual reading, for it takes you behind the scenes and shows just what General Motors is and what it is doing to continue to merit public goodwill.

Sensational Success
—based on sensational value

You need to know only a few of the exclusive superiorities offered by today's Pontiac Six to understand that its sensational success is based on sensational value. It is the lowest priced six in the world with body by Fisher. It is the lowest priced six offering the G-M-R cylinder head, the cross-flow radiator and the AC fuel pump. Add to these evident advantages in design the fact that it is the lowest priced six built by General Motors—and then you will know why Pontiac Six sales are continually reaching new record-breaking heights!
