## TAWAS CITY

### AGREE BEFORE PUBLIC UTILITIES COMMISSION

A. E. Greve of the Hale Telephone company, Fred C. Larter of the Reno Farmers Telephone company, and representatives of the Southern Michigan Light and Power company and Michigan Bell Telephone company settled their right of way difficulties before the Michigan Public Utilities Commission Monday.

The power company agreed to furnish the labor for erecting a new pole line along the highway between Hale and Whittemore of the Hale Telephone company. The Reno Telephone company will be allowed to use this pole line for their circuit, as the highway department would not allow two pole lines along the highway. In order that the high tension power line will not interfere with the telephone circuit, the power company will erect their transmission lines on the opposite side of the road.

In anticipation of widening the highway which the State Highway Department contemplates, the telephone companies hope to secure a right of way about 12 feet from the fences inside of the fields. This would save the cost of making another change when the road is widened, and this plan of the highway department, it is anticipated, will be consummated in the very near future.

### IOSCO SUNDAY SCHOOLS

Everyone is interested in reports of the attendance contest now on among the schools of the county. Ten schools have reported to date. On February 9th, Alabaster led with the men numbering 80% of the adult attendance; Tawas City L. D. S., 56%; Hale Baptist, 42%; Reno, 41%; Hemlock, 40%. Three schools showed an increase in the attendance of men on February 23—Hale M. E. an increase of 11%; Reno an increase of 9%; Tawas City M. E. an increase of 6%. In increase of total attendance, the schools line up according to February 23rd reports as follows:—Alabaster, 80%; Tawas City L. D. S., 33%; Whittemore M. E., 26%; Hemlock, 23%; East Tawas M. E., 12%; Hale M. E., 5%; Tawas City M. E., 3%. All other schools reported a decrease. It is also interesting to note that the total attendance of the ten schools February 23rd showed that 46 more persons were present than on the previous Sunday, which amounts to a 10% increase. Present reports show Hale M. E. in the lead in increased attendance of men, while Alabaster holds first place in the increase of total attendance. It is hoped reports from every school in the county may be in next week.

The Leadership Training class attendance on Tuesday evening numbered 25. On Wednesday evening 14 were present. The Wednesday evening class meets at 7:30 at the City Hall of Tawas City. Credit students may still enroll and visitors are always welcome.

Mrs. Helen Shattuck of East Tawas addressed the Bay County Sunday School Convention at the West Bay City Baptist church February 25th. Bay county ranks high in Leadership Training work, five classes having just completed twelve-week courses and other classes now being organized. An outstanding feature of the convention was the large number of ministers present, each pledging his personal support to the co-operative program of the County Council.

Oscoda M. E. is the first school to send its 1930 gift for the work. Thanks for the \$500 check. One dollar was also received from Mrs. W. J. Grant of Oscoda. Whittemore M. E. held its Father and Son banquet February 21st. A similar banquet will be given by the Tawas City M. E. church February 28th. The Hale Baptist and the East Tawas M. E. schools plan Father and Son banquets at an early date.

### EMANUEL'S LUTHERAN CHURCH

Beginning with Wednesday, March 5th, and every Wednesday thereafter until Easter, two Lenten services will be conducted in the evening, one in the German language beginning at 7 o'clock and one in the English language beginning at 8 o'clock, Central Standard time.

The topics for these Lenten services consist in a biographical series dealing with individual characters who play a part in the Passion of our Lord and will be in their order as follows: Judas, Caiaphas, Peter, Pilate, Herod, Barabbas, Testas and Jesus.

May these services be a blessing to members of Emanuel's Lutheran and to all who may come out of interest in a discussion of the main events in the suffering of the Saviour of mankind. "Christ died for all." You are welcome!

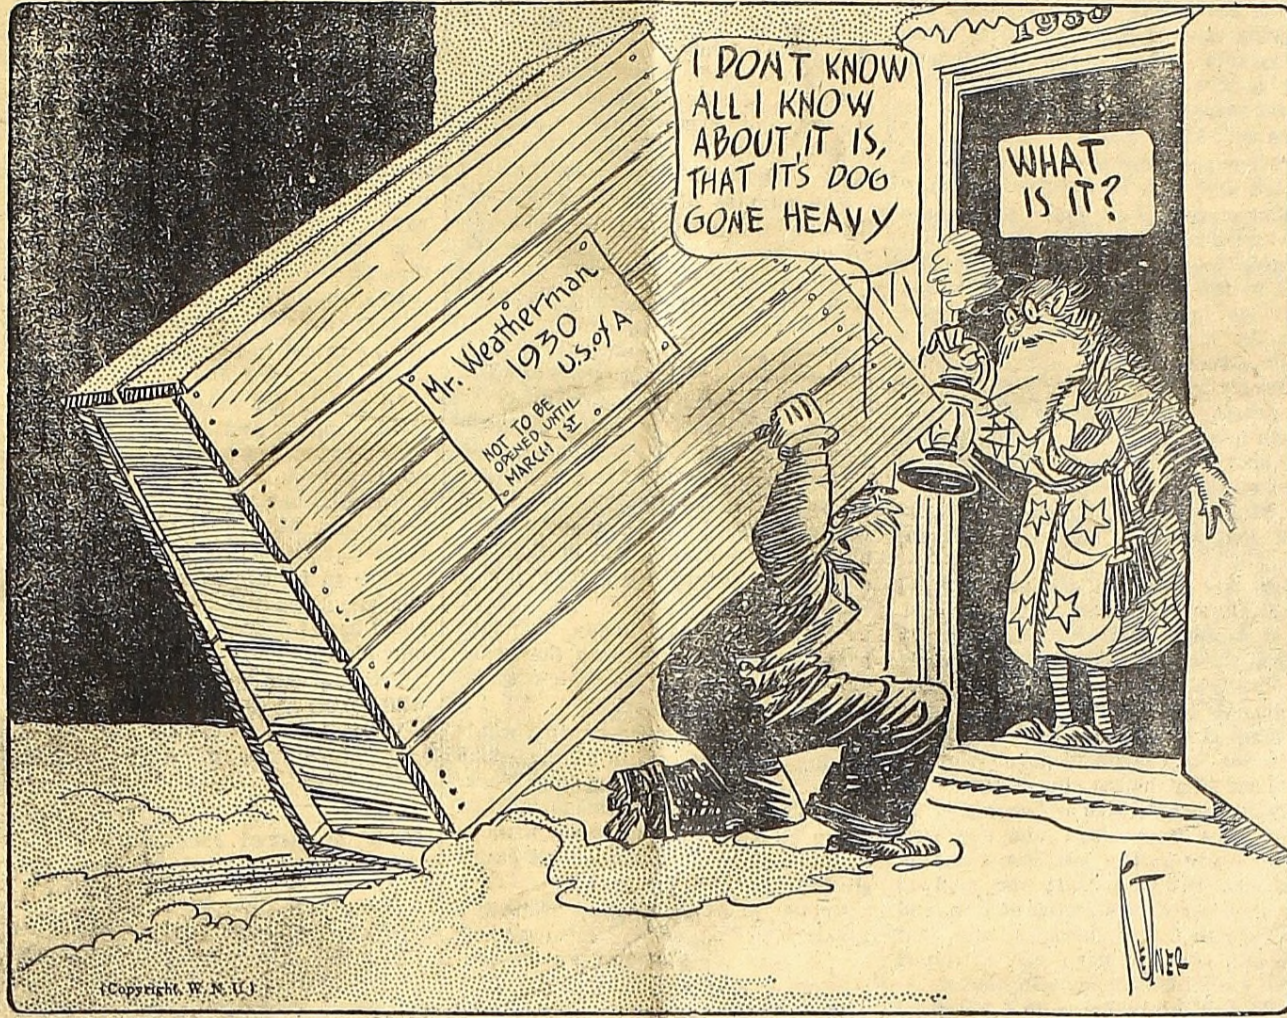

### NOTICE

I am now taking orders for monuments and markers for spring delivery.

### JOHN SULLIVAN, East Tawas

FOR SALE—Chevrolet truck with self-dump gravel box and stake body. Inquire B. M. Drumm, over East Tawas postoffice.

## Lion or Lamb

### JOSEPH BARKMAN GETS CENSUS APPOINTMENT

Joseph Barkman has been appointed enumerator for Iosco county for the census of distribution under Census Supervisor Fred N. Potter of Alpena. Mr. Barkman will gather statistics for the Census Bureau during March from retail stores, filling stations, restaurants and manufacturing plants. The enumerator asks the co-operation of all concerned in filling out the schedules that will soon be distributed among them.

### SCHOOL NOTES

#### High School

Our Honor Roll for the past school month lists the following names: Seniors—Irvin Burtzloff, Harold Hartmann, Elvera Kasichke and Stewart Roach; Juniors—Alvera Goedecke; Sophomores—Glen Barnes Viola Burtzloff, and Elsie Mueller; Freshmen—Dora Mark and Clair Thompson.

As a result of the declamatory contest held at the high school Friday afternoon, Louis Frank, Clair Thompson and Martin Zollweg will represent the Freshmen class at the local contest. Viola Burtzloff, Bessie Brown and James Mark will represent the Sophomore class. The contest was very interesting and entertaining. We were pleased to have so many people present and we hope that a like interest may be shown in the oratorical contest, which will be held Friday afternoon of this week and in the local contest to be held in the high school auditorium Wednesday evening, March fifth.

Friday of this week the students in the Public Speaking class who have written orations, will compete with each other to see who will represent the class at the local contest. The orations that have been prepared have been well written and the contest promises to be very exciting. Reverend and Mrs. Edinger of East Tawas and Miss Worden have kindly consented to act as judges.

Seventh and Eighth Grades

Our teacher is reading Ford's "Sandy MacDonald's Man" to us. This is a true story of fur trading days in Michigan.

The pupils of our room listened to the declamatory contest given in the high school room last Friday. Below is a poem written by one of our seventh grade pupils, Agnes Reach.

Mother  
Who watches everything you do?  
Who is the one who is always true,  
Who cheers you up when times are blue?

No one, but Mother!  
When your birthday comes around,  
Who makes a cake, big and round?  
Who bandages your sore when you fall on the ground?

No one, but Mother!  
Who cooks your meals every day?  
Who mends your clothes when torn in play?

When you are asked of whom you are proud, who would you say?  
No one, but Mother!

Fifth and Sixth Grades  
Honor Roll for month of February: Phyllis Bigelow, Isabelle Dease, (Turn to No. 3, Back Page)

### ORGANIZE CAMP FIRE

Organization of a guardian association for Iosco county followed the talk. The following officers were elected: Chairman, Mrs. Wm. Leslie of Tawas City; Vice-Chairman, Mrs. Dahne of Whittemore; Secretary and Treasurer, Mrs. R. G. Schreck of East Tawas; National Representative, Mrs. W. A. Evans of East Tawas.

### SELLS ONE-HALF INTEREST IN SAND LAKE HOTEL

A. F. Cowan has sold one-half interest in his hotel, store and camp ground at Sand Lake to W. K. Webber of Saginaw. A large addition will be built containing private dining room catering to special club and party dinners, several bedrooms with hot and cold water, a large lobby with fireplace, heating system, etc. Material is now being placed on the ground for the above and it is expected all will be in readiness for the spring opening. An Indian curio shop will be one of the features of the hotel. The dining room service will be done by Indian girls in their native costume. Indian people will occupy their tepee on the camp ground.

### BASKETBALL TOURNAMENT MARCH 6-7-8

A. W. Thompson, director of high school athletics in Michigan, estimates that approximately 4,500 boys will take part in the forthcoming district basketball tournaments to be held in 43 villages and cities about the state. This is by far the greatest number of participants in the annual court jubilee has ever drawn.

Proof that the tournaments are gaining rapidly in popularity is seen in the fact that it has been necessary to increase the number of district events from year to year.

Information available in Mr. Thompson's office indicates that there will be at least 500 schools represented this year. Each one will have from eight to ten boys ready to answer the referee's starting whistle. The State Association allows expenses for nine players.

Popularity of basketball has grown largely because the smaller schools find it a relatively inexpensive sport, it requires the least number of players of any of the interscholastic team sports and usually the place for the games is provided by the school gymnasium.

Preparations for the district tournaments have been in the making for several weeks. The last minute details are now receiving attention.

Charles E. Forsythe, assistant director, has been visiting various sections of the state to meet with tournament managers. At these meetings regulations on which the tournaments are to be conducted come up for explanation and discussion. This means that the tournaments will be uniform in all respects. Decision to select only those men whose names appear on the approved list of officials guarantees competent handling of the contests.

Attendance records at the district tournaments, over the entire state, have been broken every year. Proper handling of teams, orderly and uniform methods of elimination have made the tournaments exceedingly popular. A team is seldom requested to play so far away from its home in district events but that the home town rooters may follow without undue inconvenience.

The entries to date in the District Tournament to be held at East Tawas on March 6, 7, and 8, are:

Class C—Standish, East Tawas; (Turn to No. 1, Page 8)

### TAWAS INDIES DOWN Y. M. C. A. QUINTET; 27-21

On last Friday evening the local Independent basketball club annexed its sixth straight victory by taking a close and hotly contested game from the Bay City Y. M. C. A., the score being 27 to 21. The visitors were without doubt the best basketball squad seen on the local floor thus far this season and started the game off in rare fashion, jumping into an eight point lead in the first few minutes of play. The locals' defense crumbled in the first quarter of play and allowed the fast Bay Cityans to pile up a considerable score. The second quarter proceeded on more even basis, although the play was fast from start to finish, the half ending 17 to 10 with the visitors holding the long end of the horn. After the rest period the locals began in earnest, and with baskets by Maaske and Hogan and a gift shot by Lixey, had the count tied before much of the third quarter had elapsed. The play continued hard and fast, but the locals took advantage of short passes and increased the slight margin of lead as the game ended. All credit is due the visitors, who displayed a snappy brand of basketball and threatened all through the game. The clean sportsmanship and spirit of fair play was manifest throughout the game, boosted in no small way by the very commendable officiating of Rev. Fr. Brogger.

A capacity crowd was on hand to witness the game and the very enthusiastic support given both teams evinced the growing popularity of basketball here this season.

M. Lixey, g	3	1	7
Stevenson, g	0	0	0
Totals	13	1	27

Far from the least of the evening's entertainment was the preliminary between the fats and leans. As was to be expected, this proved to be a barrel of fun for the spectators, and we are not so sure that the participants did not enjoy their much needed exercise fully as well. Action was plenty as "Spot" Gardner blew the opening chorus and let the boys "go to it." The elusive ball was chased the length of the court many times before Shattuck finally collected the interest on a short shot before the basket and the score was Fats 2, Leans 8.

### "SALUTE" HAS EVERYTHING, VERDICT ON NEW PICTURE

Youth, romance, drama, thrills. Those four words describe "Salute," the West Point-Annapolis all-talking Fox Movietone picture which plays at the State Theatre next Tuesday and Wednesday, benefit of Baptist Ladies Aid. Admission 15c and 40c.

"Salute" is unusually fine screen entertainment. The story is different, compact, graphically unfolded, with many a laugh to relieve tense moments, and has a smashing finish.

The tale concerns two brothers—George O'Brien, an athlete here at West Point, and William Janney, a midshipman at Annapolis who tries hard but unsuccessfully to duplicate his famous brother's athletic triumphs. O'Brien's dominant personality sweeps all before him, but when the handsome athlete seems about to take the heart and hand of Helen Chandler, Janney realizes for the first time that he too loves her.

The brothers meet in the annual Army-Navy football clash at the Polo Grounds, New York, O'Brien as an All-American halfback and Janney as a substitute end. A surprising and entirely satisfactory finish has been provided by Tristram Tupper and John Stone, the authors, while the dialog, written by James Kevin McGuinness, is most commendable.

O'Brien proves himself perfectly at home in the talking screen medium, while Miss Chandler, in her first leading film role, registers as a distinctly new and pleasing personality. Excellent performances are given also by Janney, Stepin Fetchit, Frank Albertson, Joyce Compton and David Butler, the noted director, who appears as the Navy coach.

The colorful and realistic Annapolis and West Point backgrounds prove the wisdom of the two months' location trip of Director John Ford and his entire company. And the football game, the first to be filmed in sound, is a knockout.

L. D. S. CHURCH  
9:45 a. m.—Sunday School. Mrs. Olive Davidson, Superintendent.

11:00 a. m.—Sacrament and Social services. Pastor in charge.

7:30 p. m.—Preaching. Speaker from out of town.

You are welcome to attend any or all of our services.

### EAST TAWAS NEWS

Mike Toska left Friday for a few days' visit in Detroit.

Misses Edith and Cora Davey left Friday for a few days' visit in Detroit with relatives.

Mrs. Harriett Grant spent the week end in Detroit with her sister, Mrs. S. Bridge.

Mrs. Edna Acton left Saturday for a few days' visit in Detroit with her son, Carl, and wife.

Mrs. J. Erickson and daughter, Dorothy, of Oscoda, spent Saturday in the city.

V. F. Marzinski left Wednesday to spend the remainder of the week end in Detroit on business.

Paul Neucumb of Mio spent the week end in the city.

Mrs. E. Grosbeck and sister, Miss Lois Fraser of the Hemlock, and Miss Helen Courtade spent Saturday in Bay City.

Misses Dorine Pollard and Nina Heglund left Friday for a few days' visit in Detroit with their parents.

Mrs. Jas. Teare is in St. Charles with her daughter, who is ill.

Mr. and Mrs. Rust and Miss Hazel Jackson of Detroit spent the week end in the city with their parents, Mr. and Mrs. C. R. Jackson, Sr.

Tawas Bay Fish Market—now open. Fresh and smoked fish every day. Call and see us. John Martindale, manager.

Donald DeFrain, who attends Notre Dame college at South Bend, Ind., returned Tuesday after spending a few days with his parents, Mr. and Mrs. L. DeFrain.

Richard Hewson, who has employment in Detroit, spent the week end with his parents, Mr. and Mrs. Chas. Hewson.

Miss Faye Adams of Ann Arbor spent the week end with her parents, Mr. and Mrs. Fred Adams.

Mrs. E. Gates spent a few days in Ypsilanti with her daughter, Josephine, who attends college there.

Mrs. Ann Daley of Oscoda spent a few days at the home of Mrs. T. Curry.

Ralph Harwood of Alma spent the week end in the city with his parents.

Howard Curtis spent Friday in Rose City.

Mr. and Mrs. J. Johnson spent the week end in Bay City.

Miss V. Dillon spent the week end in Flint.

Misses Beatrice Klump and Mildred Hewson spent the week end in Detroit.

Mrs. Arland Lundy of Detroit is in the city visiting with her brother, Eugene Hanson, for a few days.

Mr. and Mrs. H. B. Goodale, who have been visiting in Detroit and Flint, returned home.

Miss Selma Hagstrom, who spent the week in Detroit, returned home Monday.

February 28 to March 1, 8 O'clock coffee, 3 lbs., 65c; Pillsbury's and Gold Medal flour, 24 1/2 lb. sack, 99c; Pure lard, 8 lbs., \$1.00; Sugar, \$5.55 per 100 lbs. A & P. adv.

Mrs. Orr, who spent three weeks in the city with her daughter, Mrs. H. McMurray, returned to her home in Saginaw Saturday. Mrs. McMurray accompanied her to Bay City for the day.

Misses Irene McDonald, Winnifred Burg and Regina Utecht spent the week end in Alpena with their parents.

Aaron Barkman of Bay City spent Sunday in the city.

Mrs. C. L. Barkman and son, Milton, spent Monday in Bay City.

Miss Julia Nolan of Bay City spent the week end in the city with her mother, Mrs. K. Nolan.

Mrs. W. B. Piper entertained the Tuesday bridge club at her home Tuesday evening. Mrs. Lang won first prize. Lunch was served.

Mrs. S. W. Cowan entertained 12 lady friends at her home Monday afternoon. Bridge was played. Mrs. A. Christenson won first prize. Mrs. A. Carlson second, and Mrs. C. F. Klump house prize. A lunch was served.

Norman Salsbery spent the week end in Dearborn with his parents.

W. A. Pollard, who has been in Detroit, came Monday to spend a few days with his family in the city.

Good Kentucky coal. Dairy feeds of all per cents. Scratch feed, egg mash, corn, cracked corn, barley, wheat, buckwheat, oats, winter wheat bran, middlings, and corn meal can be obtained at the Iosco Elevator Co., East Tawas. adv.

Robert Lynd of Birmingham spent Monday and Tuesday in the city on business.

Mr. and Mrs. P. Stasinos spent Monday in Bay City.

Mrs. Grant Shattuck spent Tuesday and Wednesday in Bay City.

Mrs. Alva Misener left Wednesday for a week's visit in Detroit with her son, Carl, and wife.

Mrs. Ed. Alford spent Wednesday and Thursday in Bay City.

Miss Amy Butler, who has been visiting in Bay City for a few days, returned home.

Earl McElherson, James Mielock and the Misses Klenow and Dillon attended the K. of C. party at Bay City Monday evening.

Mr. and Mrs. John Anderson, who spent the winter in California with their son, William, and family, returned home Thursday.

Born to Mr. and Mrs. Dave Sims on Monday, a daughter.

Dr. Forester of Bay City spent Wednesday in the city on business. (Turn to No. 4, Back Page)

# Black Sheep's Gold

by Beatrice Grimshaw

WNU Service

Men have gone down to the South Seas, stayed a few months or a year or two and have come back and written novels of varying degrees of accuracy; mostly romantic, glamorous and colorful tales which have captured public interest. Not one of them has the authenticity of the novels of Beatrice Grimshaw. All of the other South Seas writers combined have not equaled her output of stories, neither have they attained to anything like her huge audience in Europe, America and other parts of the world.

During nearly a quarter of a century she has lived in that romantic district and has written its novels for about the same length of time. She has sailed the sapphire and turquoise waters and visited the spiceladen, tropic-laden, coral-built atolls and islands from Papua to the limits of Polynesia and groups farther eastward. She knows not only the various types of natives, but also the polyglot specimens of humanity that have been attracted from other parts of the world; and she has first-hand knowledge of the physical attributes and the flora and fauna of that fascinating section of the globe.

Beatrice Grimshaw is an authority on the South Seas. She draws with a sure hand whether she be depicting world vagabonds and beach-combers, natives, traders, sailors, gold hunters, explorers, government officials or adventurers of type. Above all she draws the country, with its waters, its mountains, its verdure and its detached mystical characteristics. And she has the gift of romanticism; the ability to construct plots and weave the fascinating elements of the region into novels. One has never read a real South Seas story until he has read the fiction of Beatrice Grimshaw.

## CHAPTER I

The cigar was unwontedly good; it had made me peaceful and dreamy—that, or the reaction after the fuss of getting aboard and away. At all events, I leaned back in the cushioned smoke-room chair, and gave myself up to enjoyment; let the sounds and sights and the smells of the great liner flow pleasantly over me. They were all there, the things that I had known and forgotten. And the beat, beat of the great steamer heart, that was to carry on, day and night, until Hongkong; and the barely heard, long wash of the Coral sea, as we ran north from Cairns in Queensland up towards Torres straits, through all the sapphire and topaz glory of a tropic winter day.

I had the sum of one hundred and seventy-two solid pounds, mine since yesterday, in the care of the ship's majestic purser. There's nothing makes a man feel so innocently drunk, as a haul of cash, when he has been a long time short. This cash of mine was the result of a lucky win in a sweep on the English Derby; nothing more respectable than that—but the strictest purist could hardly have found fault with my way of spending it. I was down in Cairns upon business (very small business and cheap) when the windfall came; and wisely, I decided to go home at once, instead of waiting for the monthly B. P. boat. One treat I must have, I decided; and the call of the Catalpa suggested its kind. I would spend eight of my precious pounds on a two-day run to Thursday Island, and get back thence to New Guinea by cutter. For two days, I would dream that I was back in the spacious days of Home and riches; the years when my father owned a fine country house, and a small town house, and I had been going to be an English squire, some time or other, and life and society and the "right people," and what one was going to do with oneself after Harrow and the Varsity had all been changeless, solid as fixed stars.

Nothing sadder than that house, the long avenue with the firs and the crackling gravel, the cottages and farms that were ours, the garden and its strange old-fashioned roses—rice roses, Scotch yellow, moss roses, cabbage. Nothing more sure than the passing for ever and ever the same, of those slow summers and winters in the north of England climate; pale suns and pretty, passionless flowers, rain and short days and snow. Everything set, unalterable.

In one half hour, it was swept away. My father fell dead of unsuspected heart trouble. The solid house, the firs and the avenue, the cottages and farms, Harrow, Cambridge, the "right people," the set, unalterable way of living, all went down the winds of the world together, swept by the same great hurricane. He had speculated. . . . Anyone can fill in the rest.

That was in '14. You know what followed. I was eighteen years of age, hearty and husky of build. There was only one thing to do; I did it. In '19, demobilized, aged twenty-three, I faced the world with some scars and medals to my credit; also two crosses. Nothing much more.

I had been in Egypt! Mesopotamia. The sun lands had got me. I took up land in Australia; failed; went north and north; landed at last at Papua. I had a trading store at the wild west end of the country. I was some years older, a little wiser, a little tougher than even the war had left me. The wild lands had marked me for their own.

And, on that jeweled day of equatorial winter, I was on board the Eastern liner Catalpa, having my treat; with no thought of anything but a couple of days' enjoyment, under circumstances that had been mine, and were not; with no dream of anything fateful, anything significant, in the brief journey. I was merely going back to Daru by "T. I." So I thought. What I did not know (—you remember; you did not know—) was that I

was, on that day, running right into the double fate that was to change my life.

It began in the oddest manner conceivable. I had finished my cigar, looked at myself in the long mirror as I strolled out on deck, and decided that I was at least unrepentant. I was in a peaceful mood; I found a chair, and dropped into it, wishing I knew how to purr like a cat; for I felt that way.

I was simply lifted out of the chair, before I had time to settle down, by shrieks proceeding from forward, where there was a wide unoccupied space of deck. Girls' shrieks—at least three were in it; and they were screaming at the top of their voices. Of course I made for the space of foredeck, extremely ready to come to the aid of beauty in distress. I don't know what I expected; certainly it was not what I saw.

Three ship's officers, attired in all their tropic glory of white drill and gold, were cantering down the deck like horses. On the shoulders of each sat, astride, an extremely pretty girl, dressed in a bathing suit of the kind known as "one-piece." The girls had jockey caps on their heads, and they

One of Them—a Tall, White-Limbed Lass With Red-Boobed Hair—Was Apparently Winning.

were flogging their mounts along with silk handkerchiefs, and screaming encouragement at the top of their rather high voices.

I saw all this in a moment and guessed, without much difficulty, that the riders were three musical comedy actresses, going to join a revue company touring the East, of whom I had heard when taking by passage. One of them—a tall, white-limbed lass with red boobed hair—was apparently winning; her mount, the chief officer, was yards ahead of the rest. I saw that. I saw, too, the face of a girl on the opposite side of the deck; staring hard at the racers; she had a profile like an Italian coin, dark hair close shingled, and exceedingly blue eyes. That face held me for an instant; it was as if the owner had suddenly called. . . .

Then I saw what made me leap across the deck, tear off my jacket and fling myself over the rail of the Catalpa, down thirty feet into the sea.

In the excitement of winning, the red-haired girl had let go her hold of the chief officer's forehead, waved her arms, and lost balance completely. They were near the rail; she began to topple, and I saw she was bound to go. I didn't wait for her to fall; I sprang first. I think we went through the air almost together; she struck the water about as soon as I, and we both went down, in a smother of foam and boiling blue.

We came up well in the rear; when I had grabbed the girl, and got the water and my own hair out of my eyes, I could see the steamer's immensely tall stern-already hundreds of yards away, and leaving us as if no body had seen us go overboard.

Of course they had; they were getting a boat out, and taking the way off the ship, as quickly as might be—but if ever you have been left in the midst of the inhospitable ocean by a liner running at full speed, you will realize that I had plenty of time to grasp the situation; plenty of time, too, to wonder if we weren't both likely to be drowned before help could reach us. Because the red-haired girl, in spite of her stage bathing costume, couldn't swim at all.

She was plucky; no one could have been pluckier. She gasped a good bit, but did not cling; she did as I told her, put her hands on my shoulders, and let her legs swing out to support her. "I—I can float—a bit," she said chokingly. "I—I'm not a scrap afraid. Never say die; th—that's my motto."

If she was not afraid, I was; abominably so. Because I had seen something she, with her face toward my back, had not seen; something I did not want her to see. A black, sharp finger, the finger of death, and ugly death, that beckoned to us both.

I didn't need to look at the Catalpa—now motionless, a long way off—to know that the boat she had lowered stood no chance in that life-and-death race. I knew what a shark could do in the way of speed, when once it scented food. This shark was only cruising—so I thought—but if it made up its mind to attack us, twenty seconds would see the finish.

The shark was getting curious; zig-zagging about; coming nearer with every tack. "Look here," I said suddenly. "Are you game to do just what I tell you and ask no questions?" "Aren't I? Try me."

"Then put your mouth down to the water, and blow as hard as you can." She stared; was about to speak—but something in my face (I think) checked her. Awkwardly she bent her lips to the swaying green that barely held us up; strugglingly but determinedly blew. I blew also. Bubbles went streaming from our lips under water; a string of silver bells, a web of pearls. Years ago, in mid-Pacific, I had heard about this way of keeping off sharks; had even seen the girls who swam in the Prussian-blue pools of Niue, blowing bubbles every now and then, just as a measure of precaution.

But was there really anything in it? Had any human creature, attacked, or in danger of attack ever kept away these tigers of the deep by merely puffing bubbles at them? I didn't know. I only knew that there was nothing else to do.

It was impossible to go on blowing forever. We halted, for a rest. By this time the girl had certainly guessed what was happening; but she said never a word. Her laughter, her silly bravado, had vanished; she held to my shoulder with a clutch of iron, and her breath came short as sobs, but she still kept her head, still refrained from grabbing or hampering me.

I looked at the fin again. "G—d," I said, and didn't know I spoke, "it's coming"—for it had turned end on, and I saw it as a black spike sticking out of the water. Incredibly huge.

I put my mouth down again, and blew—blew till my lungs were one hot pain all down my back. The black fin poised. I felt the girl's finger nails like claws in my neck; heard her spluttering uselessly into the water, gasping to the last; swung her round, I don't know how, so as to get my body between her and the tiger that was hungering for our blood; saw it go off with a rush like a torpedo, and thought the end was come.

What I had forgotten about was the boat.

I don't think for a moment that our blowings and bubbings had any effect upon the shark, other than to excite its curiosity. It was the near approach of the ship's whaleboat, furiously rowed, that gave it pause. I say, because, when the boat had dashed between us and the shark, and four strong arms were busy hauling us up over the gunwale—a thing that can't be done in seconds, try how you may—the shark suddenly seemed to realize that its dinner was leaving it, and made such a determined charge that the sailors had to fight it off with all the available oars.

They got us into the boat, and the chief had a lot of whisky ready. I never saw a man look more as if he wanted one himself, but that was small wonder; if he had not been playing the giddy goat, nothing would have happened. I think I told him as much; also, that I was not in the least cold, and would have a dry shift in ten minutes; didn't need a drink. The lady, I said, had better have one.

She and he shared it. Her face looked very white, under her wet red hair, and I dare say he may have thought she would take cold; anyhow, he put his uniform coat round her, and was making all fast with his arm when she wriggled apart from him, and flung herself down on the seat beside me.

"I'm going to sit next the bravest man I ever met," she said, her breast heaving up and down very fast under the white and gold coat. I saw she was almost in hysterics, so I simply answered, "Rats. We fell over together." And nobody said anything more, till the whaleboat nosed against the ship's side.

When they got us on board, it was the very devil for five minutes. People came and shook my hand, and told me I was a brave man; some of them thumped my back; several wanted me to come and have a drink.

"We all know Gin-Sling is game," said somebody, "but you're gamer." "We couldn't have done without Jimmy," cut in some one else. "No, by Jove!"—"Jinny for ever!"—"Gin-Sling's preserver!"—"Hooray!"

They would have it; I was fairly mobbed. I could hardly get to my cabin for a change of clothes without being carried on the shoulders of the crowd. But that I was determined against; I slipped down a steward's companion, and got away.

I dropped on the lounge; it was some time before I even thought of dragging off my sodden shoes, and shedding my wet clothing. I had not touched the chief officer's flask, or accepted the champagne that others had been anxious to uncork for me, but I was drunk, mind and body, on one look that I had caught as I came slowly—drenched with weariness and wet—up the ship's ladder. A look from blue eyes below black shingled hair. A look that cast a girl's fair soul at my feet.

(TO BE CONTINUED)

## SANDY COULD SEE A SILVER LINING

(© by D. J. Walsh.)

FROM the little shanty in the midst of his melon patch, Sandy Clay watched the black clouds rolling down from the northwest. "Nobody'd stop to steal melons in the face of a storm like that," he mused. Then he started for the cornfield, a short cut for home.

Five minutes later he emerged, limping onto the porch and dropping into an old rocking chair, to recover his breath. Mrs. Clay and the two children were peering anxiously from the outside cellarway.

"Come out!" he commanded in a cheery voice. "It's no cyclone. Too late in the season. Anyhow, you never see twisters from clouds that reach clear across the sky like that."

"No," retorted Mrs. Clay, somewhat reassured but still apprehensive, "and you never heard of a stray shot from a hunter's rifle hitting you in the foot and laying you up for several weeks—till it did."

"There, now," said Sandy, "it might have been worse. Get into the house and we'll shut the door—it's safer. Here come the overture."

The overture included howling winds driving sheets of rain in all directions while vivid lightning cut the blackness. Then came an ominous lull. A sharp click and a blue flash, instantly followed by an earth-jarring crash, started the children crying.

"There, now," said Sandy, "nobody's hurt—and it might have been worse." "Listen!" cried Mrs. Clay. "Worse is coming—hall!"

In five minutes all was over. Even the ground was still white with frozen pellets, the sun was breaking through the clouds and a beautiful rainbow formed the proscenium arch set with financial tragedy for Sandy Clay.

A neighbor, driving by, paused at the gate. "Well, Sandy," he shouted, "your melon vines are pounded out of sight and your corn here is shredded, but the hail never touched your long forty in the lower bottom. The storm was just playing out when it reached there."

"Good!" exclaimed Sandy. "That lower forty is good for seventy bushels of corn to the acre, so it might have been worse. Guess I'll hitch up and drive round a bit—it's too muddy for the old car."

A few minutes later Sandy had returned from the stable and stood facing his family with an odd expression. "Well?" queried Mrs. Clay. "It might have been worse," replied Sandy. "That crack of lightning might have burned the barn, but—we haven't any team now. I—I guess I'll walk over and take a look at the bottom forty while—you're getting supper."

In three-quarters of an hour he returned. The family ate their supper in silence till near the close, when Mrs. Clay spoke: "I thought I heard a roaring sound. Is it another storm?"

"No," said Sandy, pushing back from the table, "but the river is booming. Maybe also the noise of the work trains coming with trainloads of stone and steel rails, to hold down the bridge and the long trestle. They've got wire reports from up river, and they think the big fill across the bottom is sure to go."

Mrs. Clay eyed her husband sharply and then, at sight of his wry grin, burst into a hysterical laugh and exclaimed: "Go on! Tell me the south forty is a total loss, and don't forget to explain that it might have been worse!"

"It might," replied Sandy, gathering the children in his arms. "We've got Bud and Sis yet, with all their lives, except five or six years, before 'em—and—the mortgage on the farm isn't due till next month."

"And maybe by that time your foot will be well enough to walk when we start tramping," said Mrs. Clay, still laughing back the tears, "and maybe by then you'll have learned the folly of throwing up a good position for that of the glad, free and independent life of the jolly husbandman."

"When one's clear down," replied Sandy, "there's only one direction remaining—straight up. Now we'll have no horse feed to buy, no melon guards to hire, no corncribs to build—and—so forth."

The river continued to rise until all former high water records were broken. The railroad fill and the trestle across the valley were swept away. The bridge, undermined, fell into the main channel, and the temporary accumulation of drift threw the force of the raging current lengthwise across the long forty, sweeping away the black loam as well as the corn, and leaving channels and pits twenty feet deep in the variegated subsoil.

One evening, a week afterward, Sandy returned from what he had facetiously termed the daily exploration of the basement of his bottom forty. "Do you know," he said to Mrs. Clay, "that by some strange quirk of the glacial drift, I happen to have the only gravel pit of any magnitude in this part of the state? There's enough to gravel all the highways in four counties—and half can't riddle the crop. Get me a pillow and blanket, for I'm going to camp out there tonight!" "Sandy Clay, you needn't tell me

that gravel is so precious that you'll have to guard it like a melon patch!" Mrs. Clay's voice showed signs of strained patience, as she continued: "Has the hot sun on that wet ground filled you full of malaria and affected your head?"

"Not so much that I don't know I've found one of the largest and best preserved skeletons of the ancient mastodon ever brought to light. I had Professor Dean of the university on the phone today. He agrees with me, that such a fine specimen should bring a high figure. He's coming tomorrow. Meantime, I'm taking no chances of some other person having seen the find before I saw it."

"And the railroad company wants to buy the land. They'll give me a year to remove the gravel, then with a little dredging they'll change the course of the river to run through the long forty, cutting out the troublesome bend. They will relocate their track across the valley, bringing a bridge across the new channel before diverting the waters, so you see it might have been—"

Mrs. Clay interrupted: "How much is that washed-out forty, that I advised you not to buy, going to bring—bones, gravel and all?"

"It should net \$20,000 or more," replied Sandy. "And by the way, Professor Dean said I could have my old position back within the year, at a substantial increase in salary, as there is to be a number of changes in the faculty, and—"

"Are to be Prof. Sandford Clay. If you are going back to the university, you'll have to commence polishing your language."

Professor Clay was giving his erstwhile lame foot the benefit of a few setting-up exercises as he replied: "That advice might have been worse."

## How Squirrel Helps to Promote Forest Growth

All trees, you know, grow from seeds which other trees of the same kind bear. These may be real seeds, or they may be fruit with the seeds inside, or nuts, which are a form of seed themselves.

Now, squirrels eat nuts, acorns, berries and other forms of seeds, and they store them away for winter use by burying them in the ground. In the autumn when the nuts are ripe, the squirrel frequently climbs to the end of the limb of a tree, where he cuts off the nuts with his teeth and lets them drop to the ground. After cutting off a lot of them, he descends to the ground, finds a nut, carries it in his mouth until he finds a place that suits his fancy and there digs a hole three or four inches deep and large enough to hold his treasure. Then he drops the nut in the hole, pushes it down firmly with his nose and covers it with dirt.

Having buried one nut he goes and gets another and repeats the process. He will continue doing this for several hours at a time if he is not disturbed, and he will do it every day as long as the weather is fine and the nuts are plentiful. Eventually he has buried a lot of nuts, and then he forgets where he has put them!

During very cold weather the squirrel sleeps, but when a sunny winter day comes along he wakes up and is hungry. So he climbs out of his snug nest and goes down to the ground to find some nuts to eat, hunting until he finds some of those he buried several months before. But he buries many more nuts than he can use during the winter and many of these are left right where he puts them, where they start to grow, continuing as long as they are not destroyed by animals or in some other way. These little trees form the young growth of the forest.

Thus each year these animals help to renew the growth of trees, which replace those destroyed by accident or by enemies. It is because of them that the forest seems to remain just about the same all the time, unless it is cut down by men or razed by fire, and if there were no squirrels the forests would be much different from what they are.—Washington Star.

## Won Fame in Many Lines

William De Morgan, artist and novelist, was born in London on November 16, 1839. Educated at University college and the Academy schools, he became a member of the circle which gathered around Rossetti, William Morris and Burne-Jones, and experimented in various forms of decorative art. He set up a kiln, discovered some of the secrets of the old potters, and formed a firm to develop the manufacture of tiles and pottery on a commercial scale. Many fine examples of his work are in the ceramic galleries of the Victoria and Albert museum, London. In 1905, when he was over sixty-five, he retired from business and began his successful career as a novelist. "Joseph Vance," fragments of which had been rescued from destruction by his wife, appeared in 1906. He died in London of trench fever on January 15, 1917.

## Twice as Much Surface

Mrs. Lastery—Your prices are getting awfully high. You're charging twice as much for cleaning this pair of gloves as I paid for cleaning a dinner gown last week.

The Clerk—Yes'm. Y'see, there's two gloves.

## Spoiling the Metaphor

Mr. Oldsport—Do you doubt my love? Look in my eyes and read it there. The eyes are the windows of the soul.

Miss Goldetide—Windows of the soul! That's so. Your eyes do look awfully glassy.

**JESUS TEACHING ABOUT HIMSELF**

**LESSON TEXT**—Matthew 11:2-12:50.  
**GOLDEN TEXT**—Come unto me, all ye that labor and are heavy laden, and I will give you rest.  
**PRIMARY TOPIC**—Jesus the Friend of All.  
**JUNIOR TOPIC**—Jesus the Great Helper.  
**INTERMEDIATE AND SENIOR TOPIC**—Who Jesus Was.  
**YOUNG PEOPLE AND ADULT TOPIC**—Our Lord's Testimony Concerning Himself.

I. How the Kingdom Was Received (ch. 11).  
 In showing the attitude of heart of the people, four classes of hearers are described.

1. The perplexed hearers, like John the Baptist (vv. 2-11).  
 John believed that Jesus was the Christ (v. 2), but was somewhat perplexed as to the manner of the establishment of the kingdom. The Baptist had in his preaching mainly emphasized the line of prophecy which made the King to be a mighty conqueror (Matt. 3:10-12). He said that the ax is laid unto the root of the tree and that there was to be a separation of the chaff from the wheat and a burning of the chaff. John saw Christ as the one who would remove the sins of the people by the shedding of His blood (John 1:29), but he failed to see the interval between the time of His suffering and the time of His triumph.
2. Violent hearers (vv. 12-19).  
 These were willing to receive the kingdom according to their own way, but were unwilling to conform to its laws. They seized it with violent hands. They would not repent when called upon to do so by John, nor rejoice to do so when called upon by Christ (vv. 17-19).
3. The stout-hearted unbelievers (vv. 20-24).  
 In Chorazin, Bethsaida and Capernaum, Christ had done most of His mighty works, but the people deliberately set their hearts against Him and His message. Tyre and Sidon were filled with immoral profligates and idolaters, but they will be more tolerably dealt with in the Day of Judgment than will those who willfully reject Jesus Christ.
4. Hearers who are babes in spirit (vv. 25-30).  
 There were some among the people who heard Jesus with childlike faith. They believed that Jesus was the Messiah and opened their hearts to receive Him.

II. The Antagonism to Jesus (ch. 12).  
 In chapter eleven we saw the shameful indifference of the Jews to the King. In this chapter we see the positive and bitter antagonism manifesting itself against Him. The immediate occasion of their wicked determination was Christ's relation to the Sabbath.

1. The Son of Man is Lord of the Sabbath (vv. 1-8).  
 The hungry disciples were plucking corn on the Sabbath. With this the Pharisees found fault. To their cavils Christ replied, and showed that God's purpose in instituting the Sabbath was to serve man's highest interests and to contribute to his happiness.

(1) He is greater than their greatest King, David (vv. 3, 4). (2) He is greater than their sacrifice and priesthood (v. 5). (3) He is greater than the temple (v. 6). The temple, with its gorgeous rites and ceremonies, was but typical of Himself. (4) He is greater than the Sabbath (v. 9), for He is the very Lord of the Sabbath.

2. Healing the withered hand (vv. 9-14).  
 In order that they might accuse Him, they asked, "Is it lawful to heal on the Sabbath days?" Jesus' reply was both a question and a declaration.
3. The unpardonable sin (vv. 22-32).  
 The occasion of their blasphemy against the Holy Ghost was the casting out of the demon. In this act, Christ displayed His power to cast out demons. The effect of this miracle was twofold: (1) Upon the multitude. They were amazed, and cried out, "Is not this the son of David?" (2) Upon the Pharisees. When they heard what the people were saying, their anger and satanic malice were aroused. They said He was casting out demons by the prince of the demons. With unanswerable logic, He met their accusations and demanded decision. He charged home upon them their awful guilt. They had attributed the work of the Holy Spirit to the devil. This Christ calls the blasphemy against the Holy Ghost, for which there is no pardon.

**The Last Step Wins**

It is the last step that wins, and there is no place in the pilgrim's progress where so many dangers lurk as the region that lies hard by the portals of the celestial city. It is when heaven's heights are full in view that hell's gate is most persistent and full of deadly peril.—A. B. Simpson.

**Stability and Sincerity**

Stability and sincerity go together. A true Christian will hasten from wrong.—John Timothy Stone.

**FLANNEL POPULAR FOR SPRING; TOGGED OUT JUST LIKE MOTHER**

**Prettily Styled Flannel Frock.**

AT YOUR pleasure, madam or mademoiselle, fashion now bids you choose a dainty flannel frock for spring wear, in whatsoever lovely pastel tint fancy dictates. Incidentally, as a hint it might be well to call attention to the favor Paris couturiers are according light blue, either "baby" aquamarine or turquoise. Then there is haze pink, one of the most delectable shades imaginable and ever so fashionable. There are yellow-toned flannels, too, and some pale grays which are lovely.

A prettily styled flannel rock is shown in the picture. Notice its box plaited skirt. There is spirited rivalry going on between plaits and circular flares for the skirt. Select either and Dame Fashion will set her sign and seal of approval on the decision. The fine plaits at the neckline and for the tiny jabot are of organdie, for lingerie touches are playing an important part in feminizing the new and lovely colorful flannel frocks registering for the coming months. Felt hats, matching the color of the dresses with which they are worn, are also very much in vogue.

It's a toss-up whether to choose a flannel suit or a flannel one-piece frock in any one of the entrancing pastels. To acquire both, is one way of solving the problem. Should the dress win out in the debate, then be sure to buy enough of the worsted weave to make a matching detachable cape. Of course if you are purchasing a finished model, there will be no difficulty in finding diverse cape-types.

For that matter caped suits are as numerous as caped frocks. Some of these charming flannel suits now shown really constitute three-piece ensembles, in that their jackets are topped with capes, which detached are so styled as to be wearable with the skirt at one's volition.

The cunningest lingerie tuck-in blouses are to be had, to wear with the pastel flannel jacket and skirt or cape and skirt as you wish. Some of these are of net, fine'y tucked and wears a blouse of eggshell satin, which is, in every detail a replica of those styled for her elders.

Later on little daughter will be wearing in place of a covert cloth suit, a jacket and skirt of pique. Thus again will she follow in the footsteps of her elders, for black and brown pique coat-and-skirt costumes are the "last word" in the adult realm.

Just to vary the program of the suit this spring, fashion adds colorful jersey to the list of eligible media for the suit. For youngsters' cunning suit types are made also of wool crepe, in dark rich reds especially.

Among advance spring models for little girls there are as many. If not more, suits with either capes or boleros as there are jacket types.

Sometimes the jacket itself is styled with a shoulder cape, but in many instances the cape is waistlength or longer and together with the skirt constitutes a smart and pleasing two-piece.

A very popular style for little folks tops a skirt of plaid or print with a bolero in solid color, either of velvet or silk crepe or some one or other of the new light woolens.

Now that little Miss is to have her "spring suit" just like other members of the family, her next interest rests in the cunning new blouses, which are on display in junior departments.

In considering materials for the blouse, upon which so much of the success of any suit depends, keep in mind shantung which is to be had in a range of delectable colorings. There's no more popular weave cited than shantung for the making of the practical blouse. A little girl's wardrobe should include several such.

Figured challis is given a place among blouse materials. Fine handkerchief linen in pastel tones daintily pin-tucked or designfully fagoted and embroidered is registered on the list of fabrics for the blouse. Newest of all is the peek-a-boo printed or plain net blouse, often sleeveless and usually fancifully trimmed with lace.

JULIA BOTTOMLEY.  
 (© 1930, Western Newspaper Union.)

face trimmed with either no sleeves at all or else cunning puffs or caps to cover just the top of the arms.

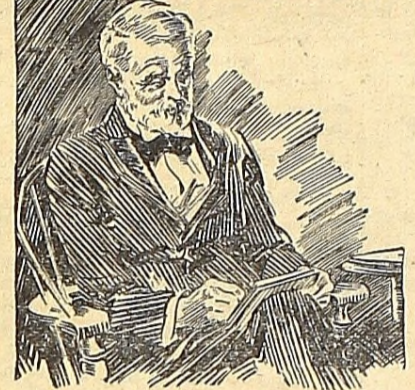

**Dressed Like Mother.**

Juvenile apparel as presented in midwinter and spring collections, strengthens the feeling that fashionists are working along the theory of like mother like little daughter. An instance of this tendency to repeat the styles of grownups for little girls occurs in the illustration herewith. This cunning jacket-and-skirt suit is made of brown covert. It carries, in miniature, as it were, much the same appearance as the types which mother and sister will be wearing this spring. With this smart two-piece Miss Junior

**Odd Happening Seems to Bear Out Superstition**

It is an old superstition that a hive of bees will leave or die unless informed of the death of any inmate of the house. The truth of this is confirmed by a very curious coincidence. Colonel X— had just died. His wife immediately sent for the gardener and gave him explicit instructions to go to the hives at once and to tap on them, saying: "Colonel X—is dead." The gardener pooh-poohed the idea, yet did not dare to entirely disobey Mrs. X—'s orders. Whether to express his disbelief or to test the theory, he only tapped on two of the four hives, i. e., every other one. The story is that all the bees in the hives which were passed over were the next morning found dead, having been attacked by wasps overnight. The other two hives—the second and fourth—were left entirely untouched.—London Mail.

**ONE PRESCRIPTION MADE FAMILY DOCTOR FAMOUS**

Seldom has any single act been of greater benefit to mankind than that of Dr. Caldwell in 1885, when he wrote the prescription which has carried his fame to the four corners of the earth.

Over and over, Dr. Caldwell wrote the prescription as he found men, women and children suffering from those common symptoms of constipation, such as coated tongue, bad breath, headaches, gas, nausea, biliousness, no energy, lack of appetite, and similar things.

Demand for this prescription grew so fast, because of the pleasant, quick way it relieved such symptoms of constipation, that by 1888 Dr. Caldwell was forced to have it put up ready for use. Today, Dr. Caldwell's Syrup Pepsin, as it is called, is always ready at any drugstore.

**Give It a Chance**

"I like the house, but it's small."  
 "What can you expect? It is only three years old."

There is some excuse for the man who frankly admits that he is lazy.

**Whiter washes easy with these thick, safe suds**

**Rinso**  
 The granulated hard-water soap washes clothes whiter

Guaranteed by the makers of LUX—Lever Brothers Co., Cambridge, Mass.

If you want to see how snowy your wash can be—try Rinsol! Without hard rubbing or boiling, it washes clothes whitest ever!

The suds do it! Rinsol suds are thick and creamy even in the hardest water. One cupful of this safe, granulated, hard-water soap gives more suds—does more washing—than two cupfuls of lightweight, puffed-up soaps.

The makers of 38 leading washers say, "Use Rinsol for safety, and for whiter washes." Great for tub washing, too; saves scrubbing; and so saves the clothes, saves your hands. Get the BIG household package.

It Was Always Thus  
 Nan—Donald is certainly tickled with his new mustache, isn't he?  
 Belle (with shy blush)—Yes, but not half as much as I am.

Aviation Note  
 "Just the same, man will never fly like the birds."  
 "Oh, I don't know. Beats the parrot right now."

**"I Could Never Get Along without 'Kitchen-Tested' Flour"**

**Mrs. Roy Smith Declares This New-Type Flour Banishes Baking Failures and Worry**

"I could never get along without GOLD MEDAL 'Kitchen-tested' Flour," says Mrs. Smith. "When I use this new-type flour there's nothing to worry about, no matter what I make. I am sure that one who uses it need never worry about losing her husband if the old saying is true that, 'The way to a man's heart is through his stomach'."

**Baking Failures and Worry Are Now Banished Forever**

Now when women bake they are always sure of perfect results—no watching, waiting and worrying until bread or pastry comes out of the oven.

They use a new-type flour for all baking purposes—GOLD MEDAL "Kitchen-tested" Flour—that simplifies baking remarkably and banishes the cause of most baking failures.

Failures, experts found, were mostly due to the fact that 2 sacks of the same flour often acted differently, even with the same recipe...

It was not uniform in oven action. So now all GOLD MEDAL Flour is "Kitchen-tested" before it comes to you. As each batch comes through the mill it is tested by actual baking—bread, cakes, biscuits, pastries—in an oven just like yours. Only flour which acts the same every way every time is allowed to go out to you. Thus you know

in advance exactly what your results will be.

**Special "Kitchen-tested" Recipes In Every Sack (Changed Every 3 Months)**

Please accept, free of charge, simplified recipes for 12 of Betty Crocker's most delicious baking creations. Recipes for the daintiest cakes, the finest cookies, the most popular pastries known. Each one is "simplified" until it is remarkably easy, too.

All 12 of these simplified "Kitchen-tested" recipes are inside every sack of GOLD MEDAL "Kitchen-tested" Flour. You can get a full set today—simply ask your grocer for GOLD MEDAL "Kitchen-tested" Flour.

WASHBURN CROSBY COMPANY

## HEMLOCK

Mrs. Harry VanPatten and sons, Ralph and Burt, Celia Smith, Ralph and Hazel Burt spent Wednesday evening with Mr. and Mrs. Fred Pfahl.

The Greenwood ladies quilted a quilt at the town hall on Thursday. 13 ladies were present. A bountiful dinner was served.

Mr. and Mrs. Reuben Smith and son, Henry, visited their daughter, Mrs. Wm. Herriman, in Whittemore Wednesday.

Mr. and Mrs. Lou's Binder entertained on Sunday, Mr. and Mrs. Robert Biniger of Sherman, and Mr. and Mrs. Nelson Ulman and family of Tawas City.

Mrs. John Burt spent a few days this week with Mr. and Mrs. Will Herriman in Whittemore. She was also in Standish for medical aid.

Mr. and Mrs. George Warner are the proud parents of a baby girl. Sam Bamberger arrived home from Alabama for a visit with his mother, Mrs. Amelia Bamberger.

Mr. and Mrs. Lester Biggs and family, Mr. and Mrs. Chas. Brown and daughter, Leona, spent Thursday evening with Mr. and Mrs. Harry VanPatten.

A large number from here attended the dance in Whittemore Saturday night.

Mr. and Mrs. Chas. Brown received word that their daughter, Muriel, was ill with the flu in Flint.

A large crowd gathered at the Grant town hall Saturday night for an oyster supper. A good time was reported.

Mr. and Mrs. John VanWagon and family of Millington spent the week end with her parents, Mr. and Mrs. Reuben Smith.

Russell Binder and Leona Brown spent Sunday with Mr. and Mrs. John McArdle.

Chas. and Sam Bamberger spent Sunday evening with Mr. and Mrs. Chas. Brown.

The friends of Mrs. Chester Smith of Flint will be sorry to hear of her serious illness.

Mrs. Alfred Lang is visiting her sister in Twining this week.

Jane VanSickle, daughter of Mr. and Mrs. Stanley VanSickle, who has been very ill, is some better at this writing.

Thomas Frocks, Jr., of Reno visited with his sister, Mrs. Chas. Brown and family, a couple days this week.

Mrs. L. D. Watts returned home from Flint Saturday. She was accompanied by her son, Earl Daugherty, who spent the week end here and in Reno.

Mr. and Mrs. J. L. Fraser and daughters, Miss Lois and Mrs. Ed. Cressbeck, spent Sunday in Bay City with Mr. and Mrs. Whitney.

Mr. and Mrs. M. Brown and G. H. Curry of Pigeon spent a few days here. Mr. Curry is in poor health.

**Shakespeare Mutilated**  
"Macbeth" is Shakespeare's shortest play, and is evidently much mutilated.

## WHITTEMORE

Mr. and Mrs. Mahlon McNeal of Flint spent the week end at the home of George Wereley.

Mr. and Mrs. Rolandis Harsch and children of Flint spent the week end at the home of Mr. and Mrs. Joseph Harsch.

Mr. and Mrs. Joseph Danin spent Sunday in Bay City.

Rev. and Mrs. David Shugg of Standish and mother, Mrs. Veele, of Chicago, were callers at the Danin and Charters homes Monday.

Glade Charters has been on the sick list the past week with tonsillitis.

The Father and Son banquet last Friday night was largely attended. Rev. Doty of Bay City was the speaker, together with Rev. Ethan Bray of Turner.

Rev. Smith of Whittemore acted as toastmaster. Judd Little and Mr. Commins of Prescott, Elmer Britt and son of Turner, and Ira Horton of Tawas City attended the Father and Son banquet here Friday night.

Mrs. Roy Leslie spent last Friday in Bay City.

Charles Fuerst and son, Richard, were in Bay City last Thursday.

The community was shocked when word came Monday that Jack Secore had passed away in General Hospital, Bay City, following an operation for appendicitis. He has worked at the plant at National City the past year and has made a number of friends here. He went to Bay City two weeks ago to spend a few days with his wife, who has employment there, and was taken sick during his visit. The funeral was held from the home of his sister in Bay City Wednesday. Interment in Bay City. His wife, who was Golah Charters of Reno, and his parents, besides several brothers and sisters, survive him.

## SHERMAN

Mrs. Joe Schneider visited with friends at Tawas City Saturday.

Mr. and Mrs. Peter Sokola and family autoed to Bay City on Saturday.

A number from here took in the show at Tawas City Wednesday evening.

Mr. and Mrs. Robert Stoner visited relatives at Prescott Sunday.

Mrs. Mat. Jordan and son autoed to Tawas City Sunday.

Miss Dorothy Bischoff of East Tawas spent the week end with Miss Mildred Schneider.

Peter Sokola's children were badly shaken up and cut up some when their car tipped over while driving to National City Saturday evening. The top was wrecked.

Peck Ross and A. B. Schneider were at Maple Ridge on business Thursday.

Mr. and Mrs. Geo. Henning and family of Twining visited at the home of her mother, Mrs. A. Pavlock, Sunday.

Harvey and Floyd Schneider of Flint spent Sunday at their homes here.

Albert Draeger was at Whittemore on business Tuesday.

Mr. and Mrs. Frank Smith spent Sunday with relatives in Tawas City.

Mr. and Mrs. Ham. Nichols, Jr., are the proud parents of a baby born at their home Saturday night.

Jos. and Louis Klish of Tawas City visited at the home of their sister, Mrs. F. Smith, Saturday.

John Jordan was at Tawas City the first part of the week.

## HALE

The Dorcas society held its regular meeting on Thursday of last week. They are preparing entertainment for their annual party to be held the first week in March, when they will entertain their husbands and friends.

D. G. Bernard, master of the local lodge, F. & A. M., with several of the officers and members, attended a Masonic meeting in Bay City Wednesday evening.

A. E. Greve attended a meeting of the Public Utilities Commission at Lansing on Monday. The meeting was called to arrange matters between the lines of the two telephone companies and the Consumers Power Co. between Hale and Whittemore.

Mr. and Mrs. C. Johnson and children of Detroit are here to spend a few weeks with Mrs. Johnson's parents, Mr. and Mrs. A. E. Greve.

The Ladies Aid held an all-day meeting with dinner, on Wednesday at the church annex.

The progressive pedro party sponsored by the local chapter, O. E. S., at the Masonic hall on Thursday evening of last week was well attended, thirteen tables being played. Lunch was served to sixty-two persons. The first prizes were won by Clarence Peck and Miss Grace Graves; consolation, Gordon French and Mrs. George Wilson. The committee in charge was Mrs. A. E. Greve and Mrs. R. D. Brown. The party was a very enjoyable affair.

Mr. and Mrs. Howard Atkinson are up from Flint for a few weeks.

Mr. and Mrs. Duell Pearsall entertained a large number of friends at their home last Thursday evening. Progressive pedro was played, first prizes being awarded to Mrs. Jas. LaBerge and Forrest Streeter; consolation to A. E. Greve and Mrs. J. H. Johnson. A delicious lunch was served at twelve. Mr. and Mrs. Jas. LaBerge of East Tawas were out of town guests.

Mr. and Mrs. W. C. Davidson called on Hale friends on Saturday of last week.

Mrs. Joe Krutz and little son are guests of her parents, Mr. and Mrs. R. D. Brown.

Mr. and Mrs. Jas. Wilson are the proud parents of an eight pound baby girl born Tuesday, February 25th.

Miss Winnie French is visiting at the parental home for a few weeks.

Mrs. Belle Curtis is home after spending several months in East Tawas.

Mr. and Mrs. C. Brandal returned home Sunday from a three weeks' visit in Flint.

Mrs. J. J. Graves entertained the M. E. Sunday school with a taffy pull and pop corn Friday evening, February 21. The program presented was very good and all voted it a delightful evening.

## ELECTION NOTICE

To the Electors of the Township of Reno, Isoco County, Michigan: NOTICE is hereby given that at the regular township election to be held in the township of Reno, Isoco County, Michigan, on Monday, the 7th day of April, 1930, there will be submitted to the vote of the electors of said township the question of ratifying and confirming the certain public utility franchise contained in the ordinance adopted by the Township Board at its meeting, which said ordinance is entitled as follows:

AN ORDINANCE, granting to SOUTHERN MICHIGAN LIGHT AND POWER COMPANY, its successors and assigns, the right, power and authority to construct, maintain and commercially use electric lines consisting of towers, masts, poles, cross-arms, guys, braces, wires, transformers and other electrical appliances on, along and across the public highways, streets, alleys, bridges and other public places, and to do a local electric business in the TOWNSHIP OF RENO, ISOCO COUNTY, MICHIGAN, for a period of thirty years.

Harold F. Black, Township Clerk  
By Order of the Township Board.

**REGISTRATION NOTICE**  
For All Elections, April 7, 1930  
To the Qualified Electors of the Third Ward of the City of Tawas City, State of Michigan:  
Notice is hereby given that in conformity with the "Michigan Election Law," I, the undersigned City Clerk, will, upon any day except Sunday and a legal holiday, the day of any regular or special election or primary election, receive for registration in said city not already registered who may APPLY TO ME PERSONALLY for such registration. Provided, however, that I can receive no names for registration during the time intervening between the Second Saturday before any regular, special, or official primary election and the day of such election.

The last day for General Registration does not apply to persons who vote under the Absent Voters' Law. (See Registration by Affidavit.)

Notice is hereby given that I will be at my office  
Tuesday, March 18, A. D. 1930  
(The Twentieth Day Preceding Said Election, As provided by Section 3, Chapter 3, Part II, P. A. 306,  
Session of 1929)  
From 8 o'clock a. m. until 8 o'clock

## NATIONAL CITY

Mrs. Edgar Jones left Saturday to join her husband at Detroit, where they expect to make their home.

Donald and Mavis Schuster, Iva and Violet Carroll, Evelyn Freeland and Meredith Hamman are on the sick list this week.

A number from here attended the dance at Whittemore Saturday evening.

Mr. and Mrs. Wm. Brown spent the last of the week at Reno with relatives.

Mrs. August Freeland and Mrs. Geo. Freeland spent Thursday and Friday at Bay City on business.

Harry Blust was a caller here last Friday.

## Evil-Smelling Gas

"Mustard gas" was given the name because it had a mustardlike odor. It is said that some of the French mustard gas smelled more like garlic than mustard.

**Date of First War Loan**  
The first war loan was made to an ally of the United States on April 25, 1917. Two hundred million dollars was loaned to Great Britain on this date. Other loans followed.

**Visitors Not Encouraged**  
In some South American countries a gentleman is expected to kiss every woman to whom he is introduced, but they don't run Sunday excursions to that place.—Exchange.

**Three Big Essentials**  
It is advisable that a man should know at least three things: First, where he is; secondly, where he is going; thirdly, what he had best do in the circumstances.

**Solid Concrete**  
Little Girl (to grandfather)—Grandpa, why don't you grow hair on your head?

## Reasons

why we recommend

# INDIAN RED

for your car

**5** Your engine is sure to last longer if your crankcase oil receives the least possible amount of dilution. Because Indian Red turns itself into power without "left-overs" or waste, there is less thinning out of your crankcase oil. Result: less dilution; less frequent changes—longer engine life.

You can identify Indian Red by the pump globe and the harmless red dye used to give a distinctive color.

- 1** It is BOTH 100% petroleum product and anti-knock.
- 2** It gives instant response to BOTH starter and accelerator.
- 3** It instantly mixes with air in the manifold and makes a "dry" gas.
- 4** More miles per gallon.
- 5** Longer engine life—less oil dilution.
- 6** Absence of gum forming elements.

**Affidavit for Registration**  
STATE OF MICHIGAN,  
County of ..... ss.  
I, ....., being duly sworn, depose and say that I am a citizen and duly qualified elector of the..... Ward of the city of..... in the county of..... and State of Michigan; that my postoffice address is No. .... street ..... P. O. ....; that I am not now registered as an elector therein and that I am voting by absent voter's ballot at the election (or primary election) to be held upon the..... day of..... 1930, the application for which ballot accompanies this application; that I make the following statements in compliance with the Michigan Election Law: Age.....; Race.....; Birthplace.....; Date of Naturalization..... I further swear or affirm that the answers given to the above questions concerning my qualifications as an elector are true and correct to the best of my knowledge and belief.

Signed,.....  
Notary Public in and for said County, State of Michigan.  
Taken, subscribed and sworn to before me this..... day of..... 1930.  
My commission expires.....1930.

Note—If this acknowledgment is taken outside of the state the Certificate of the Court that the person taking the acknowledgment is a notary must be attached.

Registration of Absentee by Oath  
If any person whose name is not registered shall offer and claim the right to vote at any election, or primary election, and shall UNDER OATH, state that he or she is a resident of such precinct and has

resided in the WARD TWENTY DAYS next preceding such election, designating particularly the place of his or her residence and that he or she possesses the other qualifications of an elector under the constitution; and that, owing to the sickness or bodily infirmity of himself or herself, or some member of his or her family or owing to his or her absence from the city on public business or his or her own business, and without intent to avoid or delay his or her registration, he or she was unable to make application for registration on the last day provided by law for the registering of electors preceding such election, then the name of such person shall be registered, and he or she shall then be permitted to vote at such election. If such applicant shall in said matter, wilfully make any false statement, he or she shall be deemed guilty of perjury, and upon conviction, be subject to the pains and penalties thereof.

Provided, That any city may provide by its charter or by resolution approved by a majority of the members of its legislative body for the registration of such sick and absent voters on the last Saturday preceding any election or primary election at the places of voting in the several voting districts of such city, instead of an election or primary election day.

**Provision in Case of Removal to Another Precinct**  
Any registered and qualified voter who has REMOVED from ONE ELECTION PRECINCT of a Ward to another election precinct of the same Ward shall have the right, on any day previous to election day, on application to the City Clerk, to have his or her name transferred from the registration book of the precinct from which he or she HAS REMOVED to the registration book of the precinct in which he or she THEN RESIDES. Such elector shall have the right to have such transfer made ON ELECTION DAY, or Primary election day, by obtaining from the board of inspectors of election of the precinct from which he or she HAS REMOVED a CERTIFICATE OF TRANSFER, and presenting the said certificate to the BOARD OF ELECTION INSPECTORS OF THE PRECINCT IN WHICH HE OR SHE THEN RESIDES.

Dated February 15, A. D. 1930.  
W. C. Davidson, City Clerk.

THE TAWAS HERALD

TAWAS CITY, MICHIGAN, FRIDAY, FEBRUARY 28, 1930

ANNUAL TAX SALE.

STATE OF MICHIGAN, County of Iosco.

The Circuit Court for the County of Iosco in Chancery.

In the matter of the petition of Oramel B. Fuller, Auditor General of the State of Michigan, for and in behalf of the State of Michigan, for the sale of certain lands for taxes assessed thereon.

On reading and filing the petition of the Auditor General of the State of Michigan, praying for a decree in favor of the State of Michigan, against each parcel of land therein described, for the amounts therein specified, claimed to be due for taxes, interest and charges on each such parcel of land, and that such lands be sold for the amounts so claimed by the State of Michigan.

It is ordered that said petition will be brought on for hearing and decree at the March term of this Court, to be held at Tawas City, in the County of Iosco, State of Michigan, on the 25th day of March, A. D. 1930, at the opening of the Court on that day, and that all persons interested in such lands or any part thereof, desiring to contest the lien claimed thereon by the State of Michigan, for such taxes, interest and charges, or any part thereof, shall appear in said Court, and file with the Clerk thereof their objections thereto on or before the first day of the term of this Court above mentioned, and that in default thereof the same will be taken as confessed and a decree will be taken and entered as prayed for in said petition. And it is further ordered that in pursuance of said decree the lands described in said petition, for which a decree shall be made, shall be sold for the several taxes, interest and charges thereon as determined by said decree, on the first Tuesday in May thereafter, beginning at 10 o'clock a. m. on the day of the sale, and the proceeds of such sale, as may be necessary to complete the sale of said lands and of each and every parcel thereof, at the office of the County Treasurer at such convenient place as shall be selected by him at the county seat of the County of Iosco, State of Michigan; and that the sale then and there made will be a public sale, and each parcel described in said petition, separately exposed for sale for the total taxes, interest and charges, and the sale shall be made to the person paying the full amount charged against such parcel, and accepting the same, and the whole parcel undivided fee simple interest therein; or, if no person will pay the taxes and charges and take a conveyance of less than the entire thereof, then the whole parcel shall be offered and sold as one parcel of land cannot be sold for taxes, interest and charges, such parcel shall be passed over for the time being, and shall, on the succeeding day, or on such second offer, or during such sale, the same cannot be sold for the amount offered, the County Treasurer shall bid off the same in the name of the Hon. Herman Dehnke, Circuit Judge, and the seal of said Circuit Court of Iosco County, this 21st day of January, A. D. 1930.

FRANK R. DEASE, Clerk.

STATE OF MICHIGAN.

To the Circuit Court for the County of Iosco in Chancery:

The petition of Oramel B. Fuller, Auditor General of the State of Michigan, for and in behalf of the State of Michigan, for the sale of certain lands for taxes assessed thereon, and which taxes have not been paid, together with the total amount of such taxes with interest thereon, and the several parcels of land, and collection fee and expenses, as provided by law, extended against each of said parcels of land. Your petitioner further shows to the Court that said lands were returned to the Auditor General under the provisions of Act 206 of the Public Acts of 1893, as delinquent for non-payment of said taxes for said years respectively, and that said taxes remain unpaid; except that lands included in said "Schedule A" for taxes of 1890 or prior years were returned to the Auditor General as delinquent for said taxes under the provisions of the general tax laws in force prior to the passage of Act 206 of the Public Acts of 1893, and which taxes remain unpaid.

Your petitioner further shows that in all cases where lands are included in "Schedule A" as delinquent for taxes of 1890 or of any prior year, said lands have not been sold for said taxes or have been heretofore sold for said delinquent taxes and the sale or sales so made have been set aside by court of competent jurisdiction and have been cancelled as provided by law. Your petitioner further shows and avers that the taxes, interest, collection fee and expenses as set forth in said "Schedule A" have not been paid, and the several parcels of lands described in said schedule. Your petitioner further shows that the said taxes on the said described lands have remained unpaid for more than one year after they were returned as delinquent; and the said taxes not having been paid, and the same being now due and remaining unpaid as above set forth, your petitioner prays a decree in favor of the State of Michigan, for the sale of said parcels of land, for the payment of the several amounts of taxes, interest, collection fee and expenses, as computed and extended in said schedule against the said parcels of land included therein, and in default of payment of the said several sums computed and extended against said lands, that each of said parcels of land may be sold for the amounts due thereon, as provided by law, and that you pay the lien aforesaid. And your petitioner will ever pray, etc.

Dated January 20, 1930.

ORAMEL B. FULLER, Auditor General of the State of Michigan, for and in behalf of said State.

VOL. IV FEBRUARY 23, 1930 NUMBER 19

Published in the interest  
of the people of Iosco  
County

**Wilson Grain Co.**  
BURLEY & LEE, Editors

Hexite will keep your cows producing a good flow of milk, and will make your herd profitable. Price, \$2.15 per 100 lbs.

The speaker was getting tired of being interrupted. "We seem to have a great many sim-pletons here to-night," he said. Wouldn't it be ad-visable to hear one at a time?" "Yes," said a voice. "Get on with your speech."

Just received a car of Blackburn's Best flour. Price, per 24½ lb. sack, 95c.

Just received a car of Dixie Star coal \$8.50 per ton. Egg coal, \$8.00 per ton. Delivered in either town.

Corn, \$1.25 per bu.; cracked corn, \$2.40 per 100 lbs.; oats, 65c per bu.; ground oats, \$2.10 per 100 lbs.; corn and oat chop, \$2.20 per 100 lbs.; scratch feed, \$2.40 per 100 lbs.; bran, \$2.00 per 100 lbs.; middlings at \$2.40 per 100 lbs.; chicken wheat, \$2.40 per 100 lbs.; wheat screenings, \$2.10 per 100 lbs.

## LOWER HEMLOCK

Mr. and Mrs. Geo. Thomas entertained Mr. and Mrs. Wm. Osborn at a six o'clock dinner Saturday. Maurice Lorenz left Tuesday evening for Toledo, Ohio, to visit for a couple of days. Mr. and Mrs. Geo. Fisher entertained on Thursday evening, Mr. and Mrs. Guy Tift, Mr. and Mrs. E. Latham, and N. Miller. Several ladies from Lower Hemlock attended the quilting bee at the town hall on Thursday. Mr. and Mrs. Geo. Thomas spent Sunday with friends in Tawas City. Mrs. Waldo Curry visited her cousin, Mrs. Will Holzheuer, Sunday afternoon.

About 15 young folks gathered last Friday evening and pleasantly surprised Waldo Curry, Jr., the occasion being his 15th birthday. Progressive flea and other games were played, everyone having a fine time. Lunch was served, and Waldo was presented with many useful and lovely presents. They left at midnight, all wishing him many more happy birthdays. Mrs. Geo. Fisher spent Monday with Mrs. C. E. Earl. Mrs. Arthur Lietz and grandmother, Mrs. John Anschuetz, of East Tawas visited at the Waldo Curry residence Wednesday afternoon. Miss Belle Frank was at home over the week end. On Friday evening, about thirty-five friends went to the J. Chambers home to help Miss Lois celebrate her nineteenth birthday. Music and games were much enjoyed and several prizes were given in various guessing contests. Mr. Anderson kindly assisted in entertaining with his accordion and magic card tricks. Lois received many lovely, useful gifts. A delicious lunch was served which included a beautiful birthday cake. Everyone left at a late hour, having enjoyed a wonderful time, and wishing Lois many more happy birthdays. Clarence Curry and Lloyd Katterman left Friday evening for Flint, returning Saturday afternoon, Clarence driving home a new Chevrolet roadster.

Derived From Poison  
The word "intoxicating" is derived from the Latin "intoxicare," which is a combination of "in" and "toxicum," the latter being a poison in which arrows were dipped.

**Famous Plane Preserved**  
The San Francisco the first successful amphibian plane constructed, which has visited every country of the western hemisphere, has been placed in the airplane collection of the Smithsonian Institution.

Moved by Musolf and seconded by Wendt that the sum of Twenty Dollars be appropriated to the East Michigan Tourist Association. Roll call. Yeas: Britting, Wendt, Musolf and Schrieber. Nays: None. Carried.

Moved and seconded that meeting adjourn. Carried.  
W. C. Davidson, Clerk.

**STATE OF MICHIGAN**  
The Probate Court for the County of Iosco.

At a session of said Court, held at the Probate Office in the city of Tawas City, in said county, on the 11th day of February, A. D. 1930. Present: Hon. David Davison, Judge of Probate.

In the matter of the Estate of Veronica Kane, deceased.  
John A. Stewart, executor, having filed in said court a petition, praying for license to sell the interest of said estate in certain real estate therein described.

It is ordered, that the 8th day of March, A. D. 1930, at ten o'clock in the forenoon, at said probate office, be and is hereby appointed for hearing said petition, and that all persons interested in said estate appear before said court, at said time and place, to show cause why a license to sell the interest of said estate in said real estate should not be granted.

It is further ordered, that public notice thereof be given by publication of a copy of this order, for three successive weeks previous to said day of hearing, in the Tawas Herald, a newspaper printed and circulated in said county.

DAVID DAVISON,  
Judge of Probate.

A true copy. 3-7

## NOTICE

To the owner or owners of any and all interests in or liens upon the land herein described:

Take Notice, that sale has been lawfully made of the following described land for unpaid taxes thereon, and that the undersigned has title thereto under tax deed or deeds issued therefor, and that you are entitled to a reconveyance thereof at any time within six months after return of service of this notice upon payment to the undersigned or to the Register in Chancery of the county in which the lands lie, of all sums paid upon such purchase, together with one hundred per centum additional thereto, and the fees of the sheriff for this notice, or cost of publication of this notice, to be computed as upon personal service of a declaration as commencement of suit, and the further sum of five dollars for each description, without other additional cost or charges. If payment as aforesaid is not made, the undersigned will institute proceedings for possession of the land.

**DESCRIPTION**  
State of Michigan, county of Iosco, SW¼ of SE¼, Section 33, Town 24, North Range 8E. Amount paid, taxes for years 1921, 1923, 1924 and 1925—\$29.86. Amount necessary to redeem—\$64.72, plus the fees of the sheriff.

George W. Schroeder, Place of business: McIvor, Mich.  
To William V. and Woodworth C. Penoyer, last grantees in the regular chain title of such lands or of any interest therein as appearing by the records in the office of the Register of Deeds of said county.

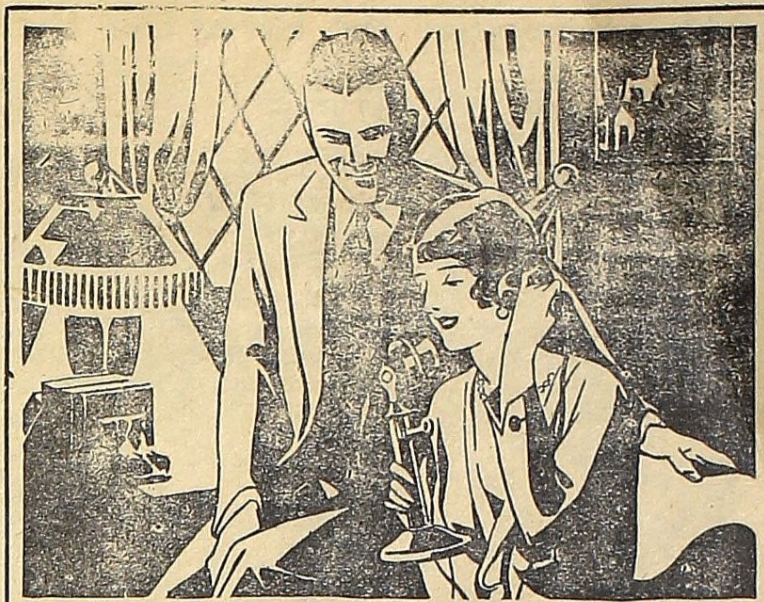

To Andrie Simmons, Trustee, grantee under the tax deed issued by the Auditor General for the latest year's taxes appearing on record in said registry of deeds.

The Sheriff of Iosco County has been unable to ascertain the post-office addresses or whereabouts of William V. and Woodworth C. Penoyer, last grantees in the regular chain of title, or of Andrie Simmons, Trustee, grantee under the tax deed issued by the Auditor General of the state of Michigan for the latest year's taxes. 4-7

**MORTGAGE SALE**  
Default having been made in the conditions of a certain real estate mortgage, whereby the power of sale therein contained became operative, made by Charles M. Curry

and Lutie I. Curry, husband and wife, to Bert J. Dyer, dated April 21st, 1927, and recorded April 26th, 1927, in the office of the Register of Deeds for Iosco county, Michigan, in Liber 24 of Mortgages on page 365, upon which mortgage there is claimed to be due at the date hereof the sum of three thousand seven hundred and fifteen and 11/100 dollars for principal and interest, and the sum of one hundred thirty-nine and 21/100 dollars for taxes paid on said land, making a total debt of three thousand eight hundred and fifty-four and 32/100 dollars, and no suit at law or equity having been brought to recover said debt or any part thereof, said mortgagee having elected to declare and consider the whole amount unpaid on said mortgage debt to be now due and payable by reason of the non-payment of certain installments of principal and interest as provided in said mortgage, notice is hereby given that on the 17th day of May, 1930, at ten o'clock in the forenoon, Central Standard time, at the front door of the Court House in Tawas City, Iosco County, Michigan, that being the place for holding the Circuit Court for Iosco County, the undersigned mortgagee, by virtue of the power of sale contained in said mortgage, will sell at public auction to the highest bidder on foreclosure of said mortgage, the lands described therein to satisfy the amount due thereon with interest, all legal costs and an attorney fee as set forth in said mortgage, which said premises are described as being in the Township of Plainfield, Iosco County, Michigan, and further described as Outlot Number One of the Plat of Hygeia, situated on the southeast quarter of section Number thirty-one of said township and county, excepting a parcel thereof described as commencing at the corner of said lot at the intersection of Main and Leslie streets of said plat, running thence southeasterly along the southwesterly boundary of said Leslie street eighty-five feet to the easterly side of said lot, thence southerly along the east side of said lot forty feet, thence westerly to a point in the northwesterly side of said lot on Main street, fifty feet southwest of the point of beginning, thence to the point of beginning.

Dated February 20, 1930.  
Bert J. Dyer, Mortgagee  
O. J. Hood and W. S. Seeley, Mason, Mich., Attorneys for Mortgagee. 13-8

'Hello, Mother, how are you?'

Young folks are apt to forget that Mother grows lonely when they move away. It would please her to get a Long Distance telephone call from "the children" occasionally. Why not call home today? Long Distance rates are surprisingly low.

For **\$1.75** or less

you can call the following points and talk for THREE MINUTES.  
From Tawas City to: Day Station-to-Station Rate

CINCINNATI, OHIO	\$1.70
BROWNSVILLE, PA.	1.60
HOUGHTON, MICH.	1.65
GREENCASTLE, IND.	1.65
GREENSBURG, PA.	1.60
FOWLER, IND.	1.50

The rates quoted are Station-to-Station Day rates, effective 4:30 a. m. to 7:00 p. m.

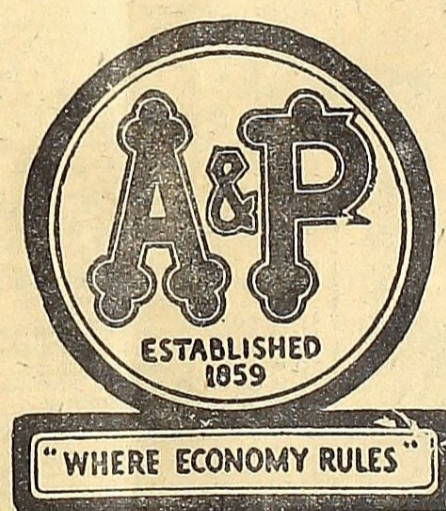

Evening Station-to-Station rates are effective 7:00 p. m. to 8:30 p. m., and Night Station-to-Station rates, 8:30 p. m. to 4:30 a. m.

The fastest service is given when you furnish the desired telephone number. If you do not know the number, call or dial "Information."

# THE GREAT ATLANTIC & PACIFIC CO.

"Burying" the River Des Peres at St. Louis

St. Louis engineers have nearly completed the gigantic task of enclosing the River Des Peres in the largest sewer ever built in the world. The photograph shows the construction methods.

SUEZ CANAL SHAFT

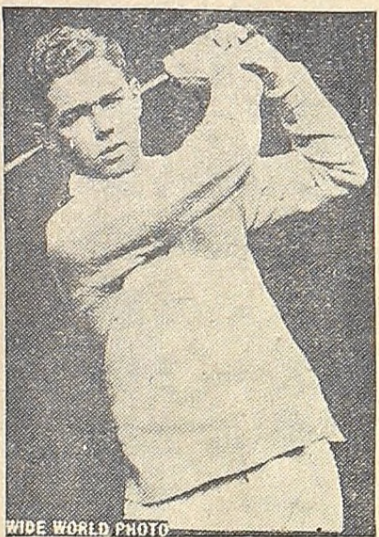

This striking monument, combining the ancient art of Egypt with modern art, will be erected by the Compagnie Universelle du Canal Maritime de Suez, to commemorate the sixtieth anniversary of the opening of the Suez canal. The monument, designed by the architect, Roux-Spitz, and the sculptor, Raymond Delamarre, will mark the spot where the Orient and the Occident meet.

GETS G. O. P. JOB

James L. West, chief political writer of the Associated Press at Washington, who has been appointed director of publicity for the Republican national committee, succeeding Henry J. Allen.

WINNER AT GOLF

Richard Stevenson of Stanford university, who won the Pacific coast intercollegiate golf championship at Del Monte, Calif.

Ancient and Unique

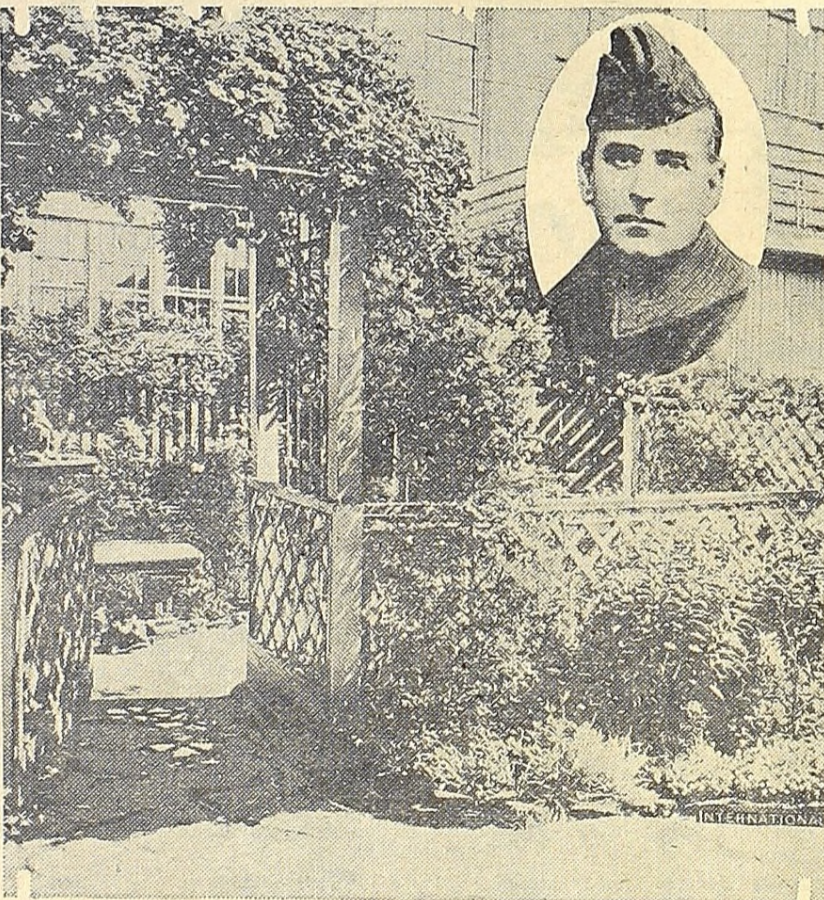

The cactus has a clean-cut pedigree, which goes back farther than the lines of any human family, but it is found growing wild only in the western hemisphere. "It is America's most striking expression of plant life developing defense armor when forced to live under arid conditions," Dr. Jacolyn told the Desert Forum. In like manner Dr. Thomas MacBride defines it as, "an ancient adaptation to an ancient desert, possibly pre-Cretaceous, and it takes possession of the world, just as fast as the world becomes desert."

Honored for Rare Devotion to Duty

Secretary of War Hurley decorating Maj. George C. Beach, Jr., United States Army Medical corps, with the Distinguished Service medal in recognition of his extraordinary services at Camp Greene, North Carolina, during the influenza epidemic in 1918. The citation states that the surgeon's efforts "were untiring and he continued until he was stricken with the malady in its most serious form."

Wins Yard and Garden Contest

Ernest J. Rawleigh of Buffalo, N. Y. (inset), and his beautiful backyard garden which won first prize in the National Yard and Garden contest. Rawleigh is a war hero, having been cited for valor on the battlefields of France. He also served as official photographer for General Pershing. His health impaired by army service, Mr. Rawleigh turned to gardening. He transformed his 40-foot lot in a Buffalo factory district into a veritable fairland of growing things. During this work of beautification Rawleigh won back his former good health.

TOLD IN A FEW LINES

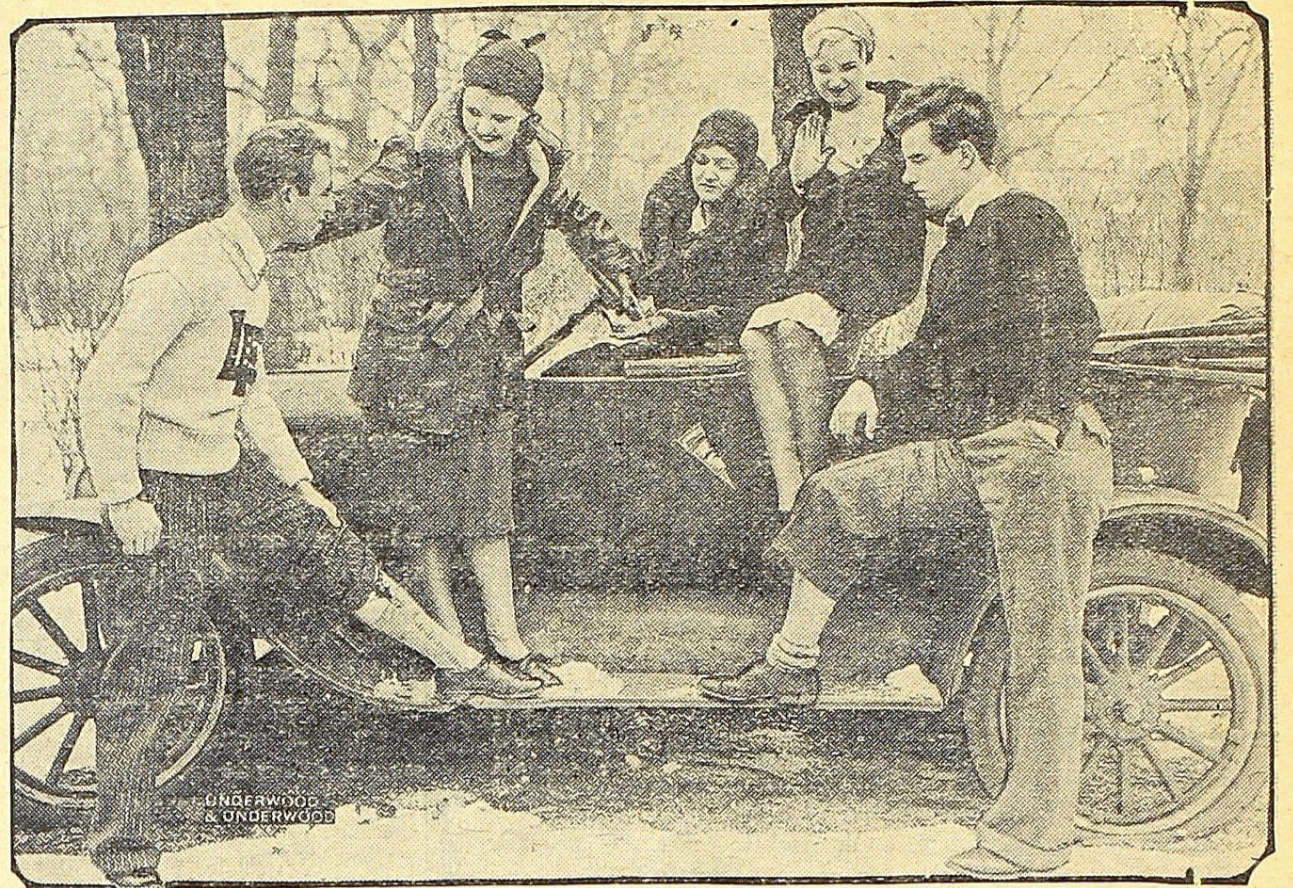

There are more than 5,000,000 citrus fruit trees in the Rio Grande valley. Russia is importing merino sheep from Uruguay, with the purpose of producing better wool. Tracks made millions of years ago by 20 kinds of animals have been found in the Grand canyon. Fruit bats, sometimes called flying foxes, are much larger than the small bats usually seen in this country.

The oldest glass vessels were not blown, but molded. India is now exporting eggs to England in such quantities that the country may soon be taking the place of China as the chief egg supplier to Britain. In Palma, Balearic islands, George Bernstein for many years had posed as a humpbacked beggar, but when he died the authorities found that his hump was artificial and in it was stored \$50,000 in valuables.

Lake Forest Coeds Win Their Garter Strike

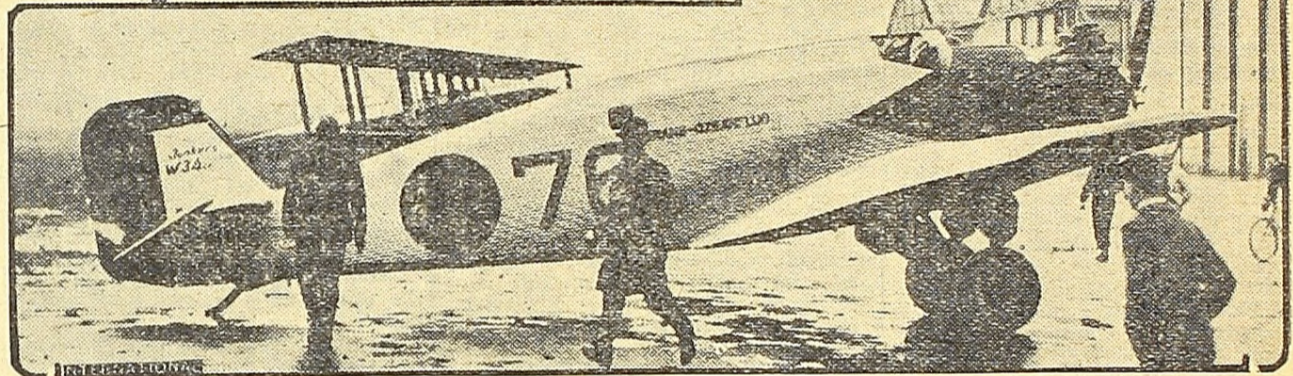

Coeds at Lake Forest College, Lake Forest, Ill., have won their strike and once again the social calendar teems with teas and dances. The male students have capitulated to a decree issued by the coeds to the effect, "Rolled Socks, No Dates." The boys resisted a long time but now they are wearing garters.

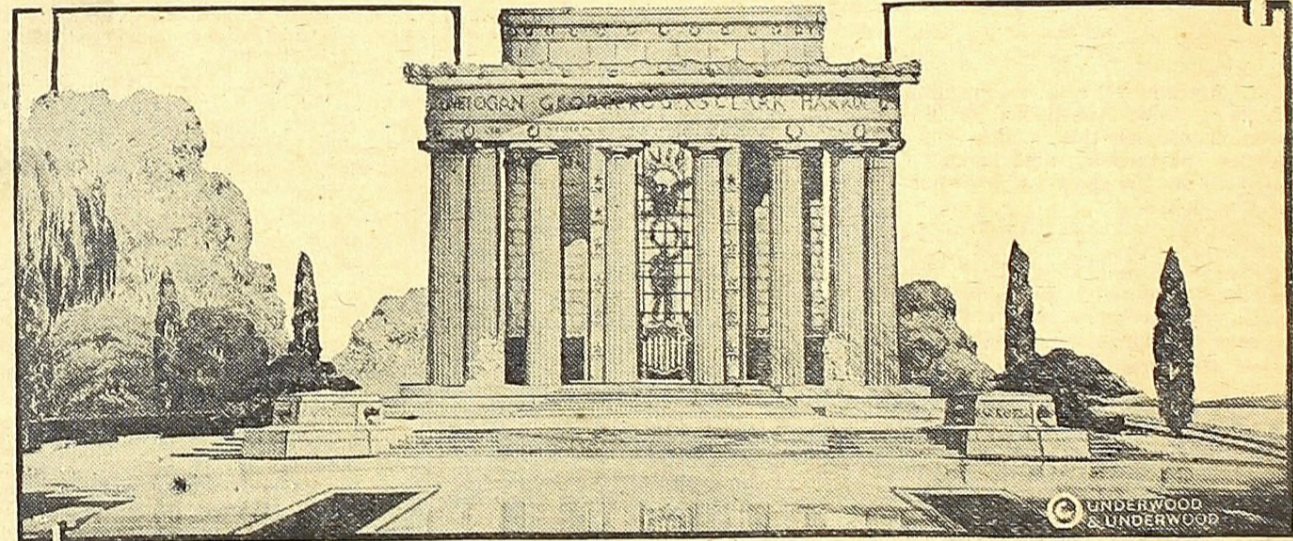

ANOTHER ATLANTIC FLIGHT IS PLANNED

Lucio Luisaga and Captain Vasquez, Bolivian aviators, are here shown, together with the Junkers monoplane in which they will attempt to fly across the Atlantic from France to New York in the not distant future.

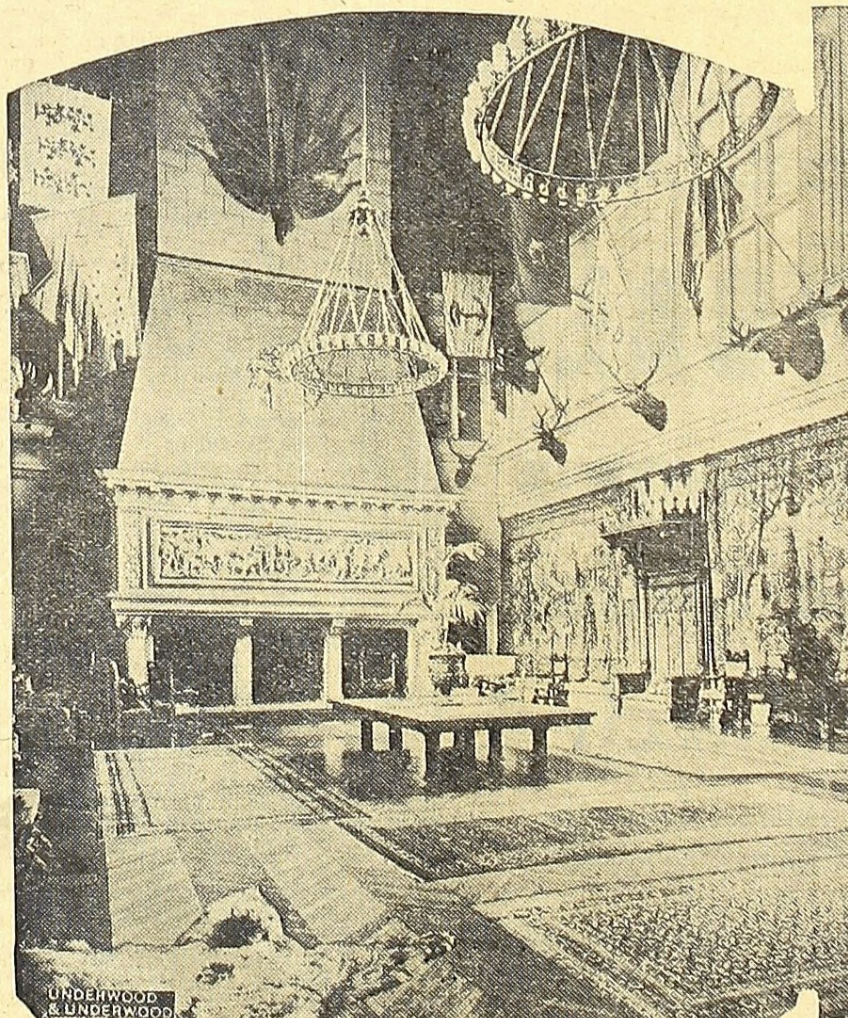

Design for the George Rogers Clark Memorial

First photograph of the plans for the memorial to George Rogers Clark, noted western pioneer and explorer, which have just been approved by the fine arts commission at Washington. The memorial is to be erected at Vincennes, Ind.

Public to See "Biltmore Mansion"

One of the first interior views ever taken of the famous George W. Vanderbilt "Biltmore Mansion" at Asheville, N. C., which is now to be opened to the public certain days each week that its treasures may be enjoyed. This picture shows the ancient Norman banquet hall with its triple fireplace, five rare Gobelin tapestries and marble sculptures by Karl Bitter.

"MISS EUROPE"

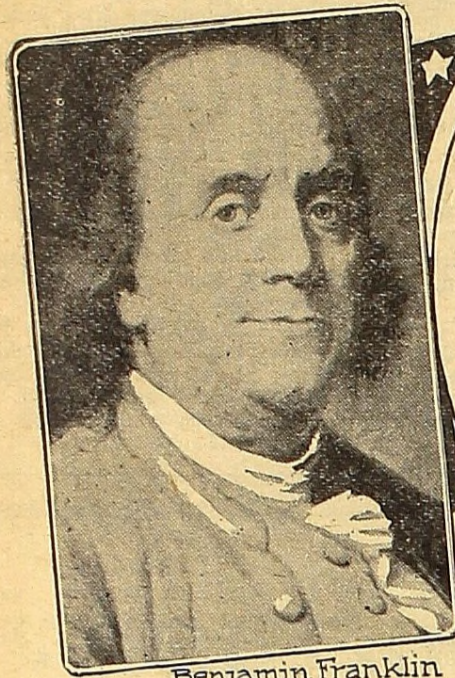

This modern "Greek Goddess" is Mlle. Aiki Diplapakou, who was first selected by her country to be "Miss Greece" at the international beauty contests, and has now been chosen to represent all of Europe under the title of "Miss Europe."

Concerning Haiti

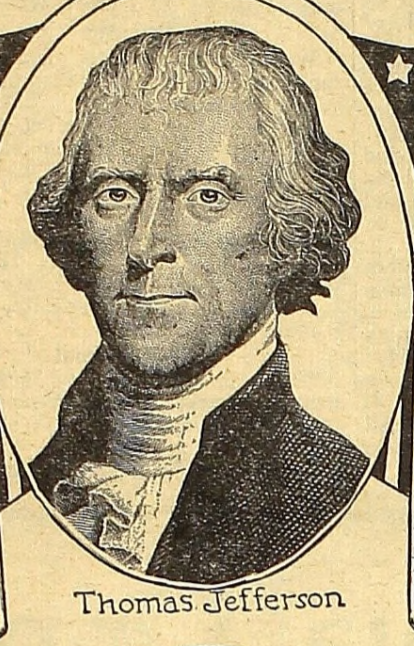

The republic of Haiti, which embraces only the western portion of the island known as Haiti, has an area of about 10,200 square miles. The population, chiefly colored, is 2,080,000. The eastern part of the island is occupied by the Dominican republic, which has an area of 19,300 square miles and has an estimated population of 708,000. The language of Haiti is chiefly French or a patois of French, while the language of the Dominican republic is influenced more by Spanish.—Pathfinder Magazine.

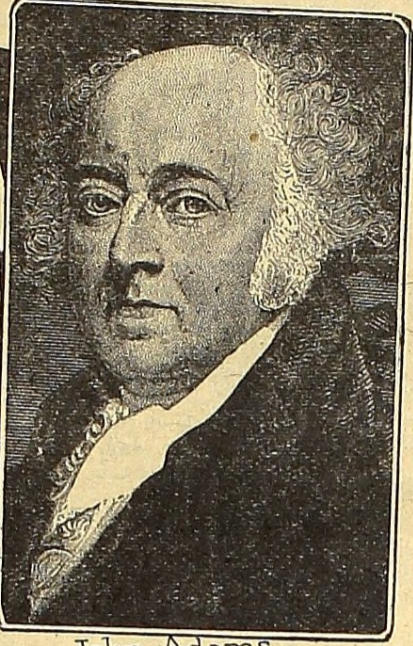

# The Great Seal of the United States

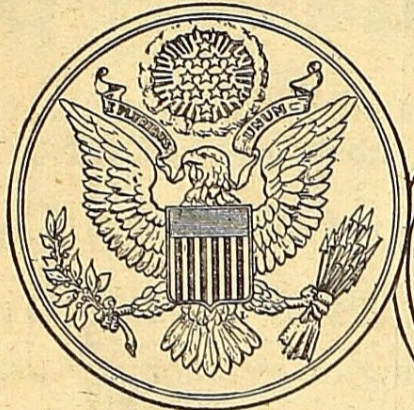

Benjamin Franklin

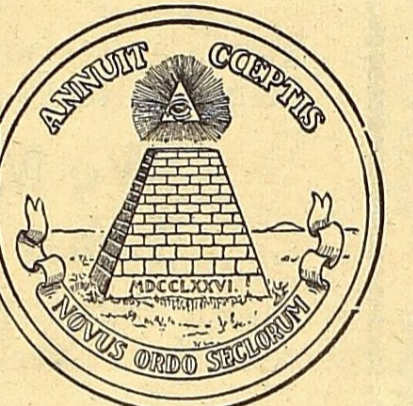

Thomas Jefferson

John Adams

First Great Seal of the United States

Second Great Seal of the United States

By ELMO SCOTT WATSON

WHENEVER President Hoover signs an important state document, there is another ceremony which is necessary before the document becomes official. That consists of affixing to it the great seal of the United States, which is in the shape of a metal disk two and a half inches in diameter and engraved with the coat of arms of this nation. And when that is done, the document bears the imprint of the oldest national arms in the world, despite the fact that the United States is a "young" nation. For our coat of arms has retained its original design for nearly 150 years, longer than has that of other nations which are much older than ours.

The history of the great seal goes back to the founding of the republic. Soon after the adoption of the Declaration of Independence in 1776, a resolution was passed by the Continental congress naming Benjamin Franklin, Thomas Jefferson and John Adams as a committee to design a coat of arms for the new nation. The original suggestion for the coat of arms was that the shield should be divided into six quarterings, each bearing the emblem of those countries whose colonists made up the greater part of the population of the United States. Two of the features included in this committee's design were later included in the present coat of arms, but nothing definite was accomplished at that time.

On March 25, 1779, the matter was again brought up for consideration and a second committee submitted a design in which the "radiant constellation of thirteen stars" first made its appearance. It also provided for thirteen alternate red and white stripes which were to be placed diagonally across the shield. But this committee's design was not accepted. Then a third committee tried its hand at the job and the members of this one called to their assistance a noted authority on heraldry, Dr. William Barton of Philadelphia.

The design submitted by this committee was a complicated one. It provided for thirteen stripes or pales, a constellation of thirteen stars, an eagle poised on the summit of a Doric column, a helmet of gold on which was a cap of dignity, surmounted by a cock armed with gaffs; on the right side was a figure of the genius of America and on the left a man in armor. Over all gleamed the eye of Providence and below the shield was the motto "Deo favente" (Favored by God). Above the crest was another motto "Virtus sola invicta" (Virtue alone is unconquerable).

Finally out of the suggestions put forth by the three committees the coat of arms in its present form, proposed by Doctor Barton and making use of some of the elements contained in the previous designs, was adopted by congress on June 20, 1782. By this time the seal had been stripped of every emblem that suggested monarchy and included those which emphasized the idea of democracy. The outstanding features were the eagle, the shield and the stars.

The eagle, typical of those found in this country and unlike those which appear on the imperial arms of Austria, Germany and Russia, stands for power and authority. In its right talon it holds an olive branch and in its left a bundle of thirteen arrows, these denoting power in peace and in war. The ancient symbol of peace, the olive branch, was placed in the right talon to indicate that the first gesture of the new republic should be peace instead of war, but the arrows in the left talon indicate that the nation stands ready to defend itself if need be. The escutcheon was set across the breast of the eagle without any other support to show that the United States was to rely on its own strength.

The Journals of the Continental congress afford an interesting analysis

of the coat of arms. This tells of the significance of the escutcheon in the relationship between the individual states and the federal Union. In terms of heraldry it is composed of a "chief" and thirteen "pales," that is, an "azure" (blue) crossbar resting on stripes of "gules" (red) alternated with "argent" (white).

"The pieces pale," reads the old text, "represent the several states all joined in one solid compact entire, supporting a Chief which unites the whole and represents congress. The Motto alludes to this Union. The pales in the Arms are kept closely united by the chief and the chief depends on that Union and the strength resulting from it for its support to denote the Confederacy of the United States of America and the preservation of their Union through congress."

The colors of the escutcheon are the same as those adopted for the flag in the famous Flag resolution of June 14, 1777—white for purity and innocence, red for hardness and valor and blue for vigilance, perseverance, and justice. In its beak the eagle holds an unfurled scroll on which on a crimson ground are the words "E Pluribus Unum" (One out of many). Above this is the "glory" or the constellation of thirteen stars on an azure field, breaking through a surrounding halo of clouds—symbolical of the new nation emerging from the storm and stress of the Revolution. The white stars against the background of blue also point to the unity of the states, since if a line be drawn between the outer ones it forms a perfect six-pointed star.

At the same time that this seal was adopted another one, intended to be the reverse of the coat of arms and to be used for stamping the wax on a ribbon attached to an important state paper, thus making a hanging seal, was also adopted. On it is a pyramid of thirteen steps with a culminating triangle suspended above it. On this is the all-seeing eye of Providence looking down upon the unfinished pyramid, by which it was intended to indicate that the United States had not attained a final state of spiritual perfection, a goal toward which it must strive. According to heraldry, the pyramid stands for strength and durability. The eye is the symbol of the eternally vigilant Providence which had favored the American cause so many times and this thought is carried out in the Latin motto "Annuit Cœptis" (God has favored the work) across the top of the seal. The date MDCCLXXVI at the base of the pyramid is 1776, when the nation was founded, and the Latin motto beneath "Novus Ordo Seclorum" declares that then began "A New Order of Ages."

The original seal was cut in brass and is believed to have been used for the first time on a commission dated September 16, 1782, in which congress granted Washington the power to arrange with the British for an exchange of prisoners of war. This was signed by John Hanson, president of the congress, and countersigned by Charles Thomson, secretary. The design of the seal remained unchanged in any particular for more than fifty years. During the time Daniel Webster was secretary of state a second seal was cut. On this occasion the artist placed six instead of thirteen arrows in the eagle's left talon. This seal was used until 1885 when a new

one was made and the traditional number of arrows was restored to the seal. Not only is the American seal the oldest national seal but it is also said to be the most perfectly balanced and most beautiful of all national insignias.

It has often been remarked that the makers of the seal were unaffected by the superstitious fear of the number thirteen. Instead, thirteen is the keynote of the whole design. Not only are there thirteen stars and thirteen stripes, but there are thirteen arrows in the eagle's talon and thirteen stars in the glory. The motto E Pluribus Unum contains thirteen letters, there are thirteen leaves on the olive branch and the same number of berries on the branch. The eagle has thirteen feathers in each wing and thirteen in its tail. The title "The Coat of Arms of the United States of America" contains 39, or three times thirteen, letters, and if one counts all these he will discover that the number thirteen is repeated thirteen times in the whole design.

Since the great seal contains several emblems which symbolize the fact that the nation was founded by rebellion against the tyranny of England, it is worthy of note that one of them, the eagle, is of English origin. In that it was suggested to John Adams by Sir John Prestwich, an eminent British antiquary. The choice of this bird, which came to be popularly regarded as the national emblem, was very distasteful to another member of the national great seal committee, Benjamin Franklin. In a letter to his daughter, Mrs. Sarah Bache, written on January 26, 1784, while Franklin was in France, he said:

"For my own part, I wish the bald eagle had not been chosen as the representative of the country; he is a bird of bad moral character; he does not get his living honestly; you may have seen him perched on some dead tree where, too lazy to fish for himself, he watches the labor of the fishing hawk; and when that diligent bird has at length taken a fish and is bearing it to his nest for the support of his mate and young ones, the bald eagle pursues him and takes it from him. With all this injustice he is never in good case, but like those among men who live by sharping and robbing, he is generally poor and often very lousy. Besides, he is a rank coward."

Modern science, however, has refuted some of these charges, especially the one of cowardice.

The eagle as a symbol of racial and national power dates back to the time of the Etruscans, the race that preceded the Romans. Rome, after the days of Marius, also adopted the eagle as its standard of legions. It was represented with outspread wings. Later the Byzantine emperors adopted the double-headed eagle, which symbolized their claim to the eastern and western empires.

In the fourteenth century the German emperors adopted the eagle as their national emblem. Other European countries followed Germany's lead. Prussia's emblem was distinguished by the black eagle; Poland's by a white eagle. Napoleon made the eagle represent imperial France. The emblem was dropped by the Bourbon rulers, but was restored by Louis Napoleon on January 1, 1852.

## HOW TO LIVE LONGER

By JOHN CLARENCE FUNK  
A. M., Sc. D.

Director of Public Health Education,  
State of Pennsylvania.

### Vacationing for Health

THE amount of interest that in recent years has been developed in parents for their children's physical welfare speaks admirably for official and unofficial medicine. The time has long since passed when the young people are largely left in the hands of chance regarding this all important phase of life.

Directed play, dental hygiene, pure milk, toxin antidotes and physical examinations have been so emphasized that these matters are now mostly routine.

And to his worthy solicitation is annually added the benefits of a safe and healthful vacation. Consequently, each season millions of youngsters are to be found in organized camps where the outdoors, plus intelligently supervised work and play, are most advantageously utilized.

Strange as it may seem, many parents consider the vacation problem completely solved when they have seen their children safely in camp. What they forget is that they themselves need a healthy change quite as much, and in many cases more so, than do the children.

Contrary to a popular notion, one is not required to go deep into the woods and live a monk-like life to derive health from a two weeks' sojourn. But on the other hand, one emphatically does need to limit excitement chasing and fatiguing practices, if the body is to store up energy and health for the winter's work.

This great world with its fresh air and sunshine and mountains and seas can do as good a health building job for you as it can for the children, if you will permit it to do so.

Therefore, have all the fun you want. Mix a bit of excitement with it if you are inclined that way, but give health more than a sporting chance on that next vacation of yours.

### Procrastination

PROCRASTINATION is not only the thief of time but it is also frequently the thief of health. In living one always has more time, but it often happens that with health gone there is no more of that to be obtained. Which makes matters bad, indeed.

Consider, for instance, that old and powerful scourge tuberculosis. It is the physician's usual experience that the majority of those who seek his advice upon the suspicion that they may have lung trouble are suffering with an advanced condition when they first turn up.

Tuberculosis is an enemy seriously to be reckoned with no matter what the stage may be. Nevertheless, if promptly discovered and subjected to proper treatment, it often can be readily controlled, permanently arrested and in many other cases absolutely cured. The fact remains, however, that this great devitalizer of human life is still among the leading killers. And delayed discovery is to blame.

Like other slayers tuberculosis can be, and unfortunately is, most stealthy in its approach. On the other hand, there are always warning signs, apparently unimportant though they may appear to be. Here they are:

1. Easy tiring.
2. A persistent cough.
3. Continued loss of weight.

The presence of any one of these, singly or in combination, is ample reason to seek medical counsel at once. True, any or all of these conditions may be present and there will yet be a negative diagnosis for tuberculosis. But such a serious possibility should not be dallied with even for a day. Procrastination may be suicide. So, up and do! Save a life—especially your own.

(©, 1929, Western Newspaper Union.)

### Maya Indians Advanced

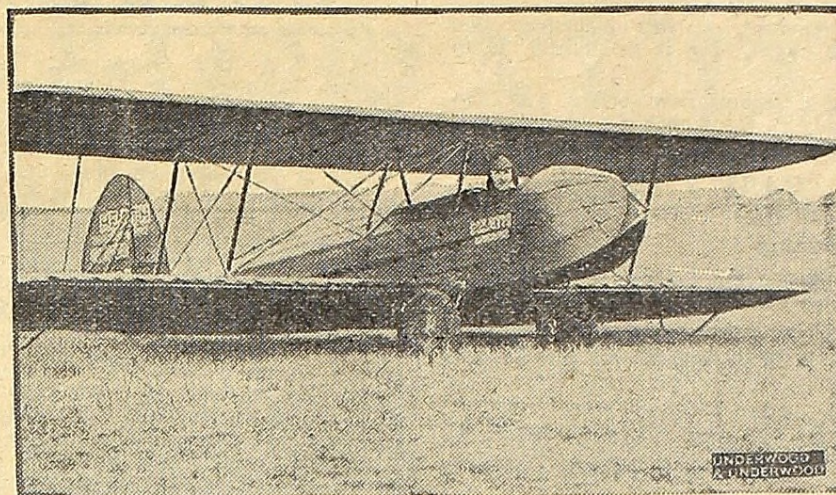

#### in Practical Dentistry

Mayan Indians who lived in Central America more than 1,000 years ago practiced dentistry and knew something about the technique of drilling holes in teeth and filling up the cavity with metal. Two teeth containing circular holes filled with iron pyrites were among the significant discoveries reported by J. Eric Thompson, leader of the Capt. Marshall Field archeological expedition to British Honduras.

The teeth were found in a vaulted burial chamber in the ruins of the Maya city of Tzimin Cax, which means "Mountain Cow." A good collection of Mayan painted pottery was found in the chamber. Other burial chambers yielded skeletons and pottery types hitherto unknown in the Mayan art, also jade ear-plugs and apple-green jade beads.

While digging in a large mound in the ruins of the city, the expedition made the first authenticated find of a mirror from a site of the old Empire of the Mayan tribes, that is, from the period between 400 and 800 A. D., Mr. Thompson stated. The object consisted of a number of small, squares of iron pyrites, which apparently had made a shiny metal looking glass with a pottery back. Heretofore it has been generally supposed that the inhabitants of the early Mayan cities were unacquainted with the use of mirrors.—Kansas City Star's Science Service.

## First Glider to Make Four Loops

E. Heath of Chicago, a pioneer in the airplane industry, with the glider in which he recently performed the unprecedented feat of making four loops. His glider was towed to a considerable height to enable him to do the looping before it landed.

## DIESEL ENGINE IS PRAISED BY EXPERTS

### Develops Great Power and Fuel Cost Is Low.

Berlin.—Following the successful flight of the new Junkers Diesel engine, which has been in the course of construction for the last two years, definite specifications have been announced by engineers concerning the power plant.

The flight was made after the engine had been on the testing block, closely guarded from observers, for eighteen months.

The normal rating of the power plant is 600 horsepower, but its maximum output is 850 horsepower. It has six cylinders and a maximum crankshaft revolution per minute of 1,600.

"The broad distinction between the gasoline and Diesel aircraft engine," explained one of the company engineers, "is that in the former, air and gasoline are mixed to form the combustion, while in the latter, air and oil are used.

### No Spark Plugs.

"In the gasoline engine, air and gasoline are first mixed in the carburetor, the mixture is then carried to the cylinder by the intake manifold, is compressed in the cylinder on the up-stroke of the piston, and is fired when the compression is substantially at maximum by an electric spark generated at the spark plug by means of a magneto or battery and coil combination.

"The expansion of the hot gasses resulting from the explosion forces the piston down on the power stroke at the end of which the exhaust valve opens, the gases are discharged and the cycle is repeated.

"Only pure air is compressed on the compression stroke in the Diesel engine, so consequently there is no carburetor required to mix the fuel with the air. Intensely heated by compression, the air ignites the oil fuel which is slowly sprayed into the cylinder. The fuel burns as fast as it is sprayed. In this manner the hot gases are formed which force the piston down on the power stroke, the same as with the gasoline engine.

### Use Cheap Fuel.

"Owing to the intense heat developed by the highly compressed air of the Diesel engine, it is feasible to run these engines on much less volatile fuels than gasoline since the heat is sufficient to vaporize the heaviest grade of petroleum oils, practically in the condition of the crude oil as it comes from the ground."

Two of the greatest factors in favor of the engine are its reliability and freedom from interfering with radio. Its lack of spark precludes any interference with radio which is now entering its era of growth to aviation.

A greater payload will result with the oil burning engine, it is pointed out. The plane that now carries 10 passengers and 500 gallons of gasoline will be able to carry 14 passengers as a result of the saving in weight. Single motor planes instead of tri-motor ships, costing about 25 per cent as much to operate, will result with the adoption of the new engine, the engineers declared.

### Graf Zep's Next Flight

#### to Be to South America

Berlin.—The next flight to be made by the Graf Zeppelin, round-world dirigible, will definitely link the European continent with South and North America.

This is learned from Zeppelin officials, who say that in May the Graf Zeppelin will leave its base at Friedrichshafen, fly across the Atlantic to Rio de Janeiro, Brazil, and then fly northward to Lakehurst before returning to Friedrichshafen.

This will be the farthest south flight of any dirigible ever made, and will be the first time the Graf will cross the equator. Arrangements are now being completed for the erecting of a mooring mast at Rio de Janeiro.

Both passengers and freight, including mail, will be carried on the flight, which will be the first dirigible venture in a commercial way linking South America with any other continent.

### Signal to Come Down

Air traffic police in France, when discovering planes violating government regulations in flight, eject a stream of black smoke from a device on their craft as a signal to the delinquent to ground his ship.

## BRITISH WAR BIRD BECOMING SWIFTER

### Army's Air Force Now Flies at 180-Mile Speed.

London.—An improvement in the equipment of the royal air force is providing England with a fighting air army 30 miles an hour faster than that which it previously possessed. In round figures Great Britain's air force is passing from the 150-mile stage to a 180-mile clip.

A replacement of the older types of aircraft by more modern planes is taking place in four classes—single seater fighters, interception fighters, fleet fighters, and day bombers.

Four squadrons of the royal air force are being equipped with the new Bulldog fighter, which, with a speed of 174 miles an hour at 10,000 feet altitude, replaces a type plane which made 158 miles an hour. At 20,000 feet ceiling the new plane makes 167 miles an hour against its predecessor's 154. It climbs to 20,000 feet in 14½ minutes, 8½ minutes faster than the old plane, and has a service ceiling of 27,000 feet, 4,000 feet higher than the present fighter.

Research work is also under way to perfect new interception planes, particularly to develop rapid climbing. This improvement was necessitated by the production of faster day bombers, which the last air maneuvers over London showed could break through and theoretically destroy the city.

England's latest fast bomber will make 177½ miles an hour at 5,000 feet, 172 miles an hour at 10,000 feet, 163 miles an hour at 15,000 feet, and 129 miles an hour at 20,000 feet, in every case with a full load. It climbs 15,000 feet in 16 minutes.

The increase in speed of the British fighting machine is due to the research in developing the machine which won the Schneider trophy. The important factors are improved engine design, giving greater power for the same weight; improved superchargers; and aerodynamic improvements cutting down air resistance.

The British also are reported to be developing some other remarkably speedy airplanes.

## Glanders Are Warned of Towing Dangers

New York.—Student glider pilots are warned against the auto and airplane method of towing in a statement made by officials of the National Glider association.

"Primary training gliders should never be towed behind airplanes, and advanced types only when piloted by experts behind airplanes previously tested for the purpose," the statement warns. "Auto towing should be attempted only by experienced pilots. Gliding by the shock cord method is perfectly safe when proper equipment is used and ordinary precautions taken."

The association has approved the system of auto towing on the ice used to instruct University of Michigan students, because there is a suitable unobstructed area available and the instruction is carefully supervised. This system consists of giving the student short hops, gradually increasing them as he becomes accustomed to the controls.

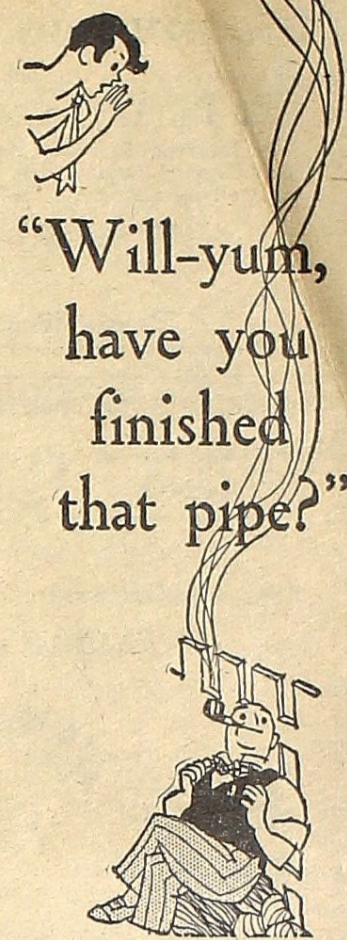

The association's technical committee is preparing new regulations governing motorless flight and has been promised the co-operation of the Department of Commerce in controlling the new sport. An illustrated Manual of Flight, offering detailed instruction to students preparing for their first hop, also is in preparation.

### U. S. Air Expenditures

#### \$508,063,439 Since '24

Funds appropriated by the United States government for the support of aviation activities of the army, navy, coast guard, Post Office department, Department of Commerce, Department of Agriculture and the national advisory committee for aeronautics have reached a total of \$508,063,439 in the last five years, according to a statement of the War department made public by the house committee on appropriations.

The amount spent in 1925 was \$85,325,867. Last year the figure had mounted to \$125,319,510.

"Will-yum, have you finished that pipe?"

You don't have to take the old briar outdoors if you fill it with Sir Walter Raleigh's tobacco. Wives like the fragrance of Sir Walter—husbands say it's the mildest, mellowest smoke that ever came out of the South. And the gold foil wrapping inside the tin keeps it fresh to the very last pipeful. Sir Walter can bring your pipe out of the woodshed into the parlor.

## No. 2 Continued from the First Page

some." At this stage the Leans, with Pelton out in front, came in for a counter and a free toss when Kunze was caught fouling Curtis, the shifty center from Dillon Drugs. We think Elmer imagined he was still in the veterinary business judging from the manner in which he "hog-tied" all opponents within reach. The game then proceeded with a maximum of effort but a minimum of scoring, to the great delight of the packed house. The final score stood 8 to 5 in favor of the Leans, and they are now the proud possessors of the Silver (tin) Loving Cup graciously donated by the Tawas Hardware & Sporting Goods company. All in all it was an evening very much worth while and all regret the ankle injury suffered by Dewey King as a result of the evening's play.

### INDEPENDENTS MAKE IT SEVEN STRAIGHT

Smothering the highly touted all stars from Essexville under a 38-21 score, the local Independents made it seven straight at the Community House on Tuesday evening. Although the visitors put up a plucky fight, they were unable to cope with the fast play and basket shooting of the local Independents, and were covered by the tight defense of the Tawas lads throughout the game. The locals jumped into the lead at the first whistle and were never in danger thereafter. The score at half time was 22-7.

### Preparation of Adobe

Adobe may be made from any material which becomes hardened on exposure to the sun. The process of baking consists in first exposing the molded bricks to the direct rays of the sun for a day, and then turning them, exposing different faces for from seven to fourteen days. Because of the lack of coherency, adobe can be employed only in regions of limited rainfall.

## No. 1 Continued from the First Page

Class D—Alabaster, Harrisville, Oscoda, Prescott, Rose City, St. Anne (Alpena), St. Bernard (Alpena), Sterling, Whittemore.

C. E. Forsythe, assistant State High School Athletic Director, has supplied Hugo Swanson, District Tournament Manager, with the classification to be used in place of a gun for substitutions; two official basketballs; two trophies, which will be placed on display in local stores; an official score book, which will be returned to Lansing at the end of the tournament and placed on file there; and the necessary tickets, both season and single. The price of tickets will be as follows: Season—Students, 75c; Adults, \$1.25. Single—Thursday afternoon, 15c and 35c. For the remaining contests, which will be Thursday, Friday and Saturday evenings, 25c and 50c.

The D class requires an extra game for two schools. This game will be played Thursday afternoon, March 6, at 3 o'clock. Thursday night 8 Class D schools will play; Friday, 4 Class D schools; and the final games for Classes D and C and the third place in Class D will be played on Saturday night.

## No. 3 Continued from the First Page

Laurine Frank, Robert Roach, Albertina Herman, Jean Robinson and Arthur Ziehl.

In the attendance contest for February the fifth grade won.

Third and Fourth Grades  
We are enjoying our new library books. We have a set of books by Lucy Fitch Perkins telling about the children of other lands.

We were very glad to receive a letter from Myrton Leslie, Thelma Herman brought some pussy-willows to school Wednesday.

Primary  
We were pleased to receive a letter from Miss White, our last year's teacher.

Those having a perfect attendance record for this month are: Harlan Fowler, Mable Ulman, Harold Wegner, Herbert Ziehl, Merion Zolweg, Dorothy Blust, Richard Hill, June Hill, Nina Lickfeldt, Lloyd Marshall, Irene Preston, June L. Smith, Howard Scholtz, Betty Ulman.

Ward School  
The second grade had 100% attendance during the past month and only one tardy mark to mar its record.

The percentage of attendance for the third grade was 93.8%; for the first grade it was 95%.

Our perfect spellers for last week were: Herbert Cox, Ardith Westcott, Victor Girard, Bob Fitzhugh, Arnold Rollin, Norma Jean Musolf, Myrle Bowen, Ellen Malcolm, and Norma Malcolm.

## No. 4 Continued from the First Page

Mrs. R. G. Schreck entertained 20 lady friends at her home Wednesday evening. Bridge was played. Mrs. M. Bolen won first prize, Mrs. Lang second and Miss Courtade consolation prize. A lunch was served.

The Blue Bird group, conducted by Mrs. B. Moss, Mrs. R. G. Schreck and Miss Evanson enjoyed a sleigh ride party Thursday, February 18.

Mrs. Eli Miller spent Thursday in Bay City. Mrs. Chas. Hewson is spending Thursday and Friday of this week in Bay City.

The Ladies Literary Club held its meeting Wednesday afternoon. Due to the icy streets, few attended.

Mrs. S. Fox and baby of Detroit are in the city at the home of her father, E. E. Kunze.

## Family Theatre

EAST TAWAS

Sunday-Monday-Tuesday  
March 2-3-4

Sensational Drama of the  
Daredevils of the  
AIR!

with  
**JACK HOLT**  
**LILA LEE**  
**Ralph GRAVES**

A FRANK R. CAPRA  
production

A romantic love story fold against the most spectacular aerial action ever photographed! Mighty drama of adventure in the sky—the most sensational air feats ever photographed.

Planes zooming, darting and sweeping through the clouds—thrilling battle formations, tailspins, loop-the-loops, death-defying parachute leaps and hazardous landings—breath-taking moments never before pictured on the screen are shown in "Flight," the Titan of all sky pictures!

Made with the Full Co-operation of the Marine Corps

NOTE—The management, having seen "Flight," can personally assure our patrons that this special attraction is Bigger and Better than "Wings."
