TAWAS CITY, MICHIGAN, FRIDAY, OCTOBER 2, 1931

NUMBER 40

TAWAS CITY

LOCALS STOP ROGERS CITY SUNDAY, 6-5

Tawas City nosed out the Rogers City Y. M. C. team last Sunday at the local athletic field before a small crowd of fans. The final score stood at 6-5.

While piling up a 6-1 margin during the course of the first eight innings the locals put forth every effort toward holding this lead. It was not until the ninth frame that their hold was in danger. In this frame the Rogers City squad made a final attempt at victory and came within one run of tying the count before their side was retired.

The locals played good ball throughout the contest, and Brown handled his pitching assignment in excellent style. The game saw Boudler, of the locals' pitching staff, in a new role. He took care of the receiving end of the battery and handled the job like a veteran. Rogers City played an excellent defensive game, but met with difficulty in "finding" Brown, and although but one error was chalked against them in the field their lack of hitting placed them on the short end of the score.

Brown struck out ten Rogers City batters and held them to four hits until the ninth, when he was nicked for three more safeties. L. Mulka, his opposing hurler, found the going hard. Manager Henry Neumann's charge, bothered him to the extent of twelve good, solid hits off his offerings, and he retired after the sixth in favor of C. Mulka. The latter finished the game, allowing one run.

Road Commissioners Attend Labor Relief Meeting Friday

Members of the Iosco county road commission have been summoned to a meeting of road officials of 27 northern Michigan counties at the Park Place hotel at Traverse City Friday, called by Governor Brucker's unemployment relief commission. The meeting will begin at 10:00 (Eastern Standard time) and continue through the afternoon, addressed by William "Good Roads" Connelly of Grand Haven, J. W. Hannen of Lansing, secretary of the Michigan Good Roads association, and officials of the highway department. Attendance of all road officials in the northern Michigan counties is considered imperative in the cause of unemployment relief this winter.

W. J. Grant and Harry VanPatton, of the Iosco county road commission, J. N. Sloan, engineer, and Supervisors C. L. McLean and Frank Brown are attending the meeting.

Will Organize P.-T.-A. At Hale Wednesday

There will be a P.-T.-A. meeting at the Hale school house at 8:30 Wednesday evening, October 7, for the purpose of organizing. Clark Kerr of Sterling will speak and will assist in the organizing.

REPORT OF THE COUNTY NURSE FOR SEPTEMBER

Every school in Iosco county was visited by Dr. T. H. Johnston, the new director of Health District No. 2, and by the county nurse. Classroom charts have been left in the class rooms to aid the children in checking of health habits and several schools have already organized their health clubs to promote health in their schools. 127 children have been inspected, 101 of whom show some defect. Most of the children still show some need of dental care which much work was done last year both by the staff dentist and by local dentists. Ten prenatal and postnatal visits were made, 26 to infants, 31 visits to pre-school children, 39 in the interest of school children, four to orthopedic cases and five tuberculosis visits.

"THEIR MAD MOMENT" HAS UNUSUAL THEME

Most caterpillars become butterflies, but here is a butterfly who wanted to turn into a caterpillar! Though this may sound like the prelude to a radio bedtime story, it is in reality the plot of the Fox romantic drama "Their Mad Moment," co-starring Warner Baxter and Dorothy Mackall, which comes to the Family Theatre next Wednesday and Thursday, October 7-8.

Baxter appears as the Basque sportsman who returns yearly to his peasant home in the Pyrenees for the harvest, while Miss Mackall is the social butterfly who longs for one fling at romance before her marriage to a wealthy Englishman, and seeks it with the supposedly poor but undeniably handsome Basque.

Nance O'Neil and ZaSu Pitts head the supporting cast. Hamilton MacFadden and Chandler Sprague co-directed.

Nationals Shut Out Saginaw Merchants

National City gained a shut out victory over the Saginaw Merchants last Sunday at the Sand Lake diamond. Score: 2-0.

Frank, of National, and Tessin, of Saginaw, put on fine pitchers' battle from the start. Frank allowed five hits, struck out nine, hit two batters and walked two, while his opponent granted but four safeties, whiffed ten, hit two batsmen and gave one base on balls.

SCHOOL NOTES

High School
The first meeting of the local Parent-Teacher Association will be held at the school building Thursday evening, October 8. Come.

The botany class made its "annual pilgrimage" Monday to view the common barberry in the woods. This is probably the only example of this species in the vicinity.

The annual convention of the district of the Michigan Education Association will be held in Saginaw October 22 and 23. This will be four weeks from Thursday and Friday of this week. All of the teachers of the local school expect to attend.

At their first class meeting, the Freshmen chose Marvin Mallon for president, Jack Nelem for vice-president, and Bessie Rouiller for secretary-treasurer.

Tuesday morning was election in the high school. The competition was very keen among the candidates for officers of the Student Council. The platforms of the nominees were ably presented in the campaign speeches which were received with great applause. The results of the election are as follows: President, Ellwood Daley; Senior Representative, Herbert Colger; Junior Representative, Robert Hamilton; Sophomore Representative, Arlene Leslie.

BERT WHEELER IN "TOO MANY COOKS" AT STATE

The State Theatre offers in its double program for Tuesday, Wednesday and Thursday, "Too Many Cooks" and "Arizona."

The story of "Too Many Cooks" is designed for laughing purposes only and revolves about the antics of thirteen members of the Cool family, who take an active interest in the courting affair of a young couple, played by Bert Wheeler and Dorothy Lee. From the beginning to the end the film is a whirlwind of funny situations, snappy dialogue, humorous character work and bizarre camera action. Contributing highly amusing roles to the picture are Roscoe Ates, Florence Roberts, Robert McWade, Sharon Lynn, Hal Lam Cooley and several others.

20TH CENTURY CLUB OBSERVES 25TH YEAR

The first meeting of the Twentieth Century Club for this season will be held tomorrow (Saturday) afternoon at the Horton cottage at Sand Lake. A pot luck supper will be served. Members will furnish their own dishes.

This meeting will mark the twenty-fifth anniversary of the Twentieth Century Club. The meeting is also Presidents' Day, with Mrs. J. P. Mark the president for the coming year. Greetings from the past presidents will be one of the interesting features of the club history, also reading of the club history written by Miss Jessie Robinson and Miss Margaret E. Worden.

The following is the program for the ensuing club year:

October 3, 25th Anniversary—Hostess, Mrs. Horton at Sand Lake; Roll Call, Reminiscences of Club Life; Club History; Miss Jessie Robinson, Miss Margaret E. Worden; Greetings from Past Presidents.

October 17—Roll Call, Name a State Committee Chairman; Reports from District Convention at Bay City; Mrs. Ruth Keiser, Mrs. Elizabeth Tuttle, Mrs. Lois Giddings; Music.

October 31—Hallowe'en Party.
November 14—Roll Call, Name a State or General Federation Officer; Federation Report, Delegate; Music.
December 5—Washington Memorial Tree Planting; Address, Mrs. Eben Mumford, General Federation Director.

December 19—Christmas Party.
January 2—Roll Call, Favorite Book; Book Review, Miss Edna Otis; Music.

January 15—Gentlemen's Night.
January 30—Drama.
February 13—Roll Call, Quotation from Lincoln; Election of Officers.

February 27—Roll Call, Name a Spanish Statesman; Political Situation.

(Turn to No. 3, Back Page)

INGENIOUS PLOT MARKS "GUILTY HANDS" AT FAMILY

At last we've discovered what the talkies need. It is more pictures like "Guilty Hands," which opens Sunday and Monday at the Family Theatre, East Tawas, with Lionel Barrymore in the featured role.

Here is something absolutely different, even for mystery plays, written especially for the screen by Bayard Veiller, master dramatist who has thrilled millions with such plays as "Thirteenth Chair" and "The Trial of Mary Dugan."

Although murder is still his theme, Veiller takes advantage of the camera's scope to tackle his problems in another way than he did in his stage plays. In fact, he has conceived a plot so weird and original, the story scarcely can be compared with any other, he has given us in the past.

It was a happy choice by Metro-Goldwyn-Mayer officials that placed Barrymore in the magnificent characterization of the veteran prosecutor and criminal attorney who finds himself confronted with the necessity of committing a murder himself and trying to pass it off as a suicide. The climax of this baffling plot comes with startling suddenness and amazing conception. We guarantee you won't guess it.

Kay Francis and Madge Evans play the leading feminine roles.

County Child Health Meeting Held Friday

The county child health meeting for September was held last Friday, the 25th, at Sand Lake hotel. In spite of bad weather about 40 were present for the meeting and pot luck supper following. Miss Hamilton, director of nurses for the Children's Fund, spoke of the importance of an active child health committee in the county. Dr. Johnston spoke on nutrition and Dr. Keticik gave a report of the dental work done last year.

The next meeting will be at Oscoda October 13th at 2:00 p. m., Eastern Standard time, at the auditorium.

S. S. Conventions At Whittemore and Tawas, Oct. 9-10

The annual convention of the Iosco Council of Religious Education will convene at the Whittemore M. E. church, Friday, October 9, and at the Tawas City Baptist church Saturday, October 10th.

The afternoon services will be held from 2:00 to 4:00, Eastern time, and will be in the nature of round-table conferences on general church school work.

The evening meetings are scheduled for 7:30, Eastern time. A sacred concert by the various church choirs will be followed by an inspirational address.

Rev. Bernard Coggan of Lansing will be present, as well as many able local leaders. Every person in our county who is interested in Christian education is urged to sacrifice if necessary, in order to attend this convention.

WALTER HUSTON, CHIC SALE HEAD "STAR WITNESS" CAST

Walter Huston and Chic Sale head the brilliant cast in "Star Witness," Warner Bros. latest film blending melodrama with quaint humor and humanity. Chic Sale is a whole show in himself. Few there are who do not know him through his score or so of vaudeville characterizations, his radio program or his syndicated articles—and now he makes his screen bow in a story built about one of his most lovable creations—Gran'pa Summerill, the Man Who Knew Lincoln.

Gran'pa Summerill on a forty-eight-hour leave from the Soldiers Home—visits his daughter and her family—sees a man shoot another just outside the window while he and his folks sit at dinner—making them all liable to be called as witnesses before the district attorney—who is played with consummate art by Walter Huston.

The family, all but Gran'pa Summerill—are intimidated into silence. The little boy of the household is kidnapped and his father waylaid. Gran'pa meanders through the streets, near the supposed haunts of the thugs, playing his life as he goes.

He frees his grandson—rounds up the thugs—gives some clever tips to the local cops—and caps the climax by appearing at the trial of the killer as star witness. But what thrills and laughs there are along the way—before this is accomplished.

Frances Starr splendidly portrays Gran'pa's daughter and mother of the stolen boy. Other parts are deftly interpreted by Sally Blaine, Grant Mitchell, Edward J. Nugent, Dicky Moore, age five, Ralph Ince.

HUFF GETS SIX MONTH IONIA SENTENCE

Wm. R. Huff of East Tawas, charged with breaking and entering last January a cottage owned by George B. Walbridge on Tawas Bay, was convicted in circuit court in session here last week. He was sentenced by Judge Herman Dehnke to be confined at Ionia for a period of not less than six months or more than 15 years.

The various other cases on the calendar were disposed of as follows:

Nelson McIvor, convicted of assault with intent to maim, was sentenced to be confined at Ionia for a period of not less than two years nor more than ten years. Neil Gay was placed on probation and ordered to reimburse the county the sum of \$100.00 for costs incurred with his arrest and detention. Gay is to pay this at the rate of \$5.00 per month.

People of the state vs. Shyril Cassidy—Rape. Jury disagreed and were discharged. Put over until next term of court.

James Harrison plead guilty to the charge of violation of the liquor law. Will be sentenced Saturday.

Civil Causes
Ralph E. Irwin vs. Beatrice V. Killian—Assumpsit—Consent judgment of \$110 awarded the plaintiff.

George Popp vs. Joseph Danin—Assumpsit—Settled out of court.

The Progressive Finance and Realty Co., a corporation, vs. Anthony J. Berube, doing business as the Family Theatre—Assumpsit—Judgment granted.

Pfaelzer Brothers, a corporation, vs. Katherine Cowley—Garnishment—Settled.

In the matter of the estate of Francis G. Cowley, sometimes known as Frank G. Cowley—Appeal from Probate Court—Settled out of court.

The W. T. Rawleigh Co. vs. A. Wayne Mark, W. S. Mark, Peter E. Hammon—Judgment granted.

Ray Thomas vs. W. T. Hill—Appeal—Dismissed.

Empire Mutual Fire Insurance Company, a corporation, vs. Forrest Streetier and Pearl Streetier—Appeal—Case submitted.

(Turn to No. 4, Back Page)

Ladies' Literary Club Opens Year's Work Next Wednesday

The Ladies Literary Club of East Tawas will hold its first meeting Wednesday afternoon, October 7, at the club rooms, beginning at 2:30 Central Standard time. After the president's address, Nyda Campbell-Leslie will interpret a group of songs, with Lois Velte Giddings as accompanist. A report will also be given on the northeastern district meeting of Michigan State Federation of Women's Clubs by the delegate. A lunch will be served.

EAST TAWAS HIGH SCHOOL NEWS

Dr. Corrothers, in charge of high school inspection for the University of Michigan, dropped in Tuesday morning. The result of his report determines whether the school stays on the accredited list for the next two years.

The Hi Y club of East Tawas high had a little outing over the week end at McKay's cottage at Indian Lake. There were ten fellows in all, counting Mr. Youngs and Mr. Swanson, the advisors. Mr. Youngs was the chief cook of this party, and no such a bad one either. Sunday morning a short service was held with Alfred Gurley as leader. Thanks to Mr. McKay for the use of his cottage.

There is still one high school girl who wishes to work for room and board. Anyone wishing to take a girl or knows someone who can, kindly get in touch with the high school at once by phoning 295 or Supt. Swanson's residence, 241.

The following are the officers and the advisor which were chosen for the eighth grade: President, Marion Haglund; vice-president, Rosemary Haglund; secretary-treasurer, Elizabeth Roper; advisor, Miss Hallanger.

Officers and the advisor which were chosen for the ninth grade are as follows: President, Kermit Gurley; vice president, Mabel Ross; secretary, Geraldine Frasier; treasurer, Mary Askey; advisor, Miss VanHorn.

EMANUEL'S LUTHERAN CHURCH

Sunday, October 4—German service, 9:30 a. m.; English service at 10:45 a. m. Subject: Sixth commandment. "Thou shalt not commit adultery." Holy Communion will be celebrated in connection with the English service. Announcement, are to be made Friday, October 2, at 2:00, 5:00 and 7:00 to 9:00 p. m.

Monday, October 5, 7:00 p. m.—Senior adult instruction class will meet.

Tuesday, October 6, 7:30 p. m.—Bible class—Augsburg Confession. Thursday, October 7, 7:00 p. m.—Junior adult instruction class will meet. Walter C. Voss, Pastor.

EAST TAWAS

Mrs. G. Bigelow spent Saturday in Bay City.

Wade and Fred Lomas were visitors in Detroit last week.

Mrs. Hattie Grant was a Saturday visitor in Bay City.

Aaron Barkman and Edward LaEerge left Sunday for Bay City, where they will attend Junior College the coming year.

Mrs. Edna Acton spent Saturday in Bay City.

Mrs. S. Bridge and daughter and Mervin McRay of Detroit spent the week end in the city with Mrs. Hattie Grant and Mrs. Ida Warren.

Mr. and Mrs. H. Miller and son, Milton, of Bay City spent Friday in the city.

Roy McMurray of Saginaw spent the week end in the city with relatives.

Now is the time to fix your roof with Carbo Kote. W. A. Evans Furniture Co. adv

Misses Helmie Huhtala and Una Eivensen spent the week end in Petoskey with friends.

Mrs. C. C. Harwood and son spent Saturday in Bay City.

Mr. and Mrs. L. Hayes, who spent a week in Detroit, returned home.

Mr. and Mrs. D. Griffiths, who spent the summer in the city, returned to Crystal River, Florida, for the winter.

Mr. and Mrs. Charles Sauther of Detroit spent the week with relatives in the Tawas.

Mr. and Mrs. Chas. Wesendorf spent last week in Detroit and attended the American Legion convention while there.

Misses Margaret and Dorothy Merschel left for Mt. Pleasant, where they will attend college the coming year.

Friends of Mr. Piper are pleased to hear that he is some better at the hospital in Bay City.

Mr. and Mrs. Jos. Dilworth and daughter, Lillian, Charles Grabow, son, Arthur, and daughter, Minnie, called at the home of Albert Grabow in Alpena on Sunday.

Jas. Sheldon of Detroit dropped dead Monday in that city. His brothers, Elmer, Albert and John of East Tawas, left Tuesday for Detroit to attend the funeral.

Clifford Turner left for East Lansing, where he will attend college.

Mrs. Fred Ash, who has been in Detroit several weeks, returned home Saturday. Mr. Ash went to Detroit after her.

Mr. and Mrs. Chas. Conklin spent the week end in Traverse City with relatives.

Miss Mildred Hewson, who spent a week at Detroit, returned home Wednesday.

Mr. and Mrs. Leaf spent a week at Detroit.

Mrs. Ed. Alford and granddaughter, left Monday for Leadville, Colorado, where they will spend a few weeks.

Mrs. E. Colburn and son, Lawrence, of Memphis, Mich., spent a couple days with Mrs. Wm. E. Piper.

Misses Cora and Edith Davey spent a few days in Midland. Their sister, Mrs. J. Thompson, and children of Midland returned with them for a few days.

Mr. and Mrs. McGee of Flint spent the week end in the city.

Miss Elsie Hennigar left for Bay City, where she will attend college for the year.

Mrs. Hennesy of Alpena spent a few days with Mrs. R. LaBerge and family.

How Norway Lives

Inflated Moby Dicks in Tow.

(Prepared by the National Geographic Society, Washington, D. C.)

Why did Norway make a counter claim with Denmark over a segment of the east coast of Greenland, a land once inhabited by Eskimos but now barren and ice choked most of the year? Perhaps the Norwegians seek to extend their fisheries, for a large part of Norway's population lives on the generosity of King Neptune.

Only a little more than 3 per cent of Norway is under cultivation. The country lacks the chief prerequisite of modern industrialism—the juxtaposition of iron and coal. The Norwegians, striving to the utmost, cannot eke out a living from the soil. They import much food. Nor can they depend, as does England, upon the exchange of the products of their factories for the products of other people's farms.

Even the skies frown often upon Norway. The west coast for a good part of the year is shrouded by a pall of mist, fog and drizzle, with 200 days of rain out of the year. The annual rainfall at Bergen is more than six feet. The country is traversed by a great dorsal plateau standing stark and high above sea level. In these rocky, sterile soils, useful plant life will not take root. A great wall of mountains known as the Keel defines the Swedish frontier.

Southernmost Norway is in the same latitude as northern Labrador, with northernmost Norway lying far within the Arctic circle. Norway is hardly more than a fringe, or shelf, washed by the Arctic and the North Atlantic oceans and deeply indented by salt water inland canals, known as fjords. For the most part, agriculture is limited to nooks and corners. Little farms cling to the base of mountains like shipwrecked sailors to a life raft. Sixty per cent of Norway's farms are less than five acres; 98 per cent are less than 25 acres.

Norway seems to be one of nature's climatic mistakes. Too much daylight in summer, too little in winter; too much worthless water here, too much sterile mountain there. But what the country may lack in quality is more than offset by the quality of the people who inhabit it. Norwegians are happier than the common run of mortals. They are essentially open-air country people, knowing nothing of the misery and abject poverty of city slums and tenements. They have learned to live comfortably with themselves, having a wealth of inner resources on which to draw. They go down to the sea in ships and see the earth and the fullness thereof. Before them lies the panorama of mountains, glaciers, cloud racks floating through the lofty defiles of their fjords.

They know the world, too, from the inside of books. They are a bookish people, prizing education. Illiterates are about as plentiful in Norway as horned toads on Boston common. When it comes to exchange of intelligence, Norway has more telephones than Spain or Poland, with populations from seven to ten times as great.

Its Face and Character.

Each country, like each human being on this planet, has a face and character of its own. Chile, another elongated mountainous coast country fronting the western sea, in a considerable area of its homeland is parched and rainless, while Norway is drenched with moisture. Greece and Italy suffer from too much sun, while Norway hasn't enough to go around. Greece, Albania, Portugal, Estonia, and Norway are the only European countries which grow no sugar beets—too much sun in the Mediterranean countries, too little in Norway. Contrast the loiterers basking in the winter's sunshine on the steps of the Piazza di Spagna, Rome, with the Norwegians clad in furs and oilskins adventuring over cold, gray, fog-covered waters. Italy and Norway from early antiquity bred a race of sea-rovers, adventurers, discoverers.

Norway and Greece, looking seaward, present the appearance of once compact lands that have been shot to pieces by titanic subterranean explosions. Their deeply indented coasts are fringed and tasseled with island groups. The sea is sown thick with fragments like celestial star dust in the Milky Way. The islands of Greece furnish goats, currants, and material for poetic rhapsodizing.

The Norwegian coast is an exaggerated southern Alaskan coast. Skipper navigate big ships through Norwegian fjords just as they do through the deep-cut Alaskan inner canals.

The fjords, whether the result of glacial erosion or faulting of the earth's crust, are of awesome beauty and of considerable human utility.

Saved by Gulf Stream.

The warm Atlantic drift from the Gulf stream supplies Norway with both climate and fish. But for this beneficence of nature, Norway would be a bleak and inhospitable waste and most of the Norwegians would be compelled to emigrate or starve.

Fish, following family tradition, crowd into the shoal waters of the North sea to feed and breed. They've been doing it for thousands of years, and they'll probably keep on just so long as this poor earth's pale history runs. They return like the swallows in the spring.

Roughly speaking Norway has three strings to its fishing bow: cod, whale and herring; but the herring is king. Herring, because of their abundance, give rise to the greatest of the world's fisheries. They are as gregarious as the starlings which cluster by night in the tops of trees on Pennsylvania avenue, Washington. They run in immense schools, with some of their life cycle still shrouded in obscurity, although it is probably as well known as that of any other important fish.

Norwegian herring fisheries were famous before William the Conqueror. The Norwegian fish catch runs to about one and three-quarter billion pounds, of which approximately one billion pounds are contributed by the herring tribe. The live herring is something of a traveler, but the dead herring goes farther. What one may call a "pickled-herring-raw-cucumber-sour-cream belt" includes a better part of eastern Germany, Poland, the three Baltic states, Finland and Russia.

The Norwegian cod, unlike the herring, travels southward rather than eastward. Cured codfish enjoys the esteem to all classes of society in southern Europe, particularly in the Catholic countries where meatless days are prescribed. Some years ago, when Norway was trying out prohibition, a serious effort was made to exclude the importation of the more heady Spanish and Portuguese wines. The Iberians naturally resented the affront to their delicious wines and threatened reprisals upon the Norwegian codfish. The anti-codfish campaign was too much for the Norwegians. They capitulated by throwing open their doors to Mediterranean wines.

Development of Fisheries.

Norwegian fisheries have developed from small beginnings, when little wooden boats put out a mile or two from the shore scrambling for a meager catch of herring. Now great steel power boats make catches of 10,000 barrels of fish in a day. Once estimated by the pound, the catch is now estimated by the ton.

Norway has come largely to control the world's whaling industry, once a great American business, with Yankee ships sailing from New England ports. About the turn of the century it looked as if the whaling business the world over was doomed to early extinction. Defenseless monsters, the poor whales do not get an even break! Nature ironically dooms them by causing them to signal their own destruction. If whales were equipped to remain beneath the surface even as long as the modern submarine, they would be more than a match for the energetic Norwegians, with their big steel ships and long-range harpoon guns.

Norway's annual production of whale oil rose from 19,000,000 pounds in 1906 to 311,000,000 pounds in 1927. The Norwegian annual herring catch would load a solid train of steel gondola cars reaching from New York to Philadelphia, or, if converted to Norwegian cars, a solid train 300 miles long. It would require at least double these train lengths to handle the annual catch of whales.

The Norwegians are the northernmost and the southernmost workers of the world. Their operations cover a wider range than the flight of the Arctic tern. Annually 10,000 Norwegians work in Antarctic seas close up to the great ice barrier. Just as many work in the Arctic seas on the outskirts of the polar cap.

Norway's climatic eccentricities bear an intimate relation to Norwegian agriculture. In Norway farming within the Arctic circle is by no means a desperate enterprise. As the snows retire, vegetation is quickened by long days of sunlight. Even dairy farming prospers within the Arctic circle, despite the accepted notion that only reindeer thrive in these latitudes.

SAVING TIME

By THOMAS ARKLE CLARK
Dean of Men, University of Illinois.

"It isn't the money one makes that counts," the proverb says, "but what one saves."

I am not so sure that the principle holds with reference to time. It isn't the time one saves that really matters, it is what one does with it.

Foreigners are amazed at the number and the complicated character of our time-saving devices which run from automatic telephones that eliminate the hello girl to electric washing machines which make doing the family washing a brief morning delight.

"What do Americans do with all the time they save?" some one asked me not long ago. It is a question the answer to which is not so easily found.

The Galtons have scrapped their hot-air furnace and put in gas. It took so much time shoveling coal and taking out ashes and cleaning up the dirt which the sooty old coal furnace made, that Mrs. Galton was kept running up and down continually. The new heating apparatus is automatic, you know. All you have to do in the fall when the first cold spell comes on unexpectedly, is to light the pilot, turn on the gas, and there you are. A thermostat with the intelligence of a human being takes care of the rest. That is, maybe it does.

Mrs. Galton does not find that she has a great deal more time than she previously had. The clock which controls the thermostat has to be wound,

and there are certain mechanical devices which have to be looked after, and then she is afraid of an explosion, or that something will happen to the machinery, so she puts in a good deal of time worrying, or she runs up and down the cellar stairs to look things over almost as often as she did when she was shoveling coal, and she doesn't find that she has any more real leisure than she had before.

I have never been sure, for instance, that the time we are supposed to save by the use of the telephone is not more than offset by the time that is wasted by that same device.

I am afraid we waste as much time keeping time-saving devices in order as we save.

Nickel an Ally in Battle on Rust

Its Non-Corrosive Qualities Make It Valuable.

Washington.—Industry is mobilizing a number of metals and alloys in the chemists' war on the waste of rust. Chromium, copper, brass and other copper alloys, and aluminum are substances whose industrial use, in part at least, have been augmented by the fight on rust. One of the major new allies on the non-rust battlefront is nickel.

"One of nickel's chief industrial attributes is its 'willingness' to mix with other metals, although it also is used in its pure state," says a bulletin from the National Geographic society. "It readily associates with several

hundred metals and metallic alloys, toughening the mixtures, increasing their heat resistance, and improving their non-corrosive qualities. It also is used as a whitener of dark metals.

"Nickel and products of nickel machinery are seldom out of range of man's fingertips. In modern homes they may be found in many articles ranging from kitchen sinks to door knobs, stove trimmings, electric iron, percolator, toaster and waffle iron heating elements and plating, radio tube grids, safety razors, plumbing fixtures, cabinet shelves and the metal that is hidden beneath bathtub enamel. Silver plated ware usually is nickel alloy covered with a film of silver.

"In city streets huge nickel alloy 'thumb tacks' flank pedestrian lanes, nickel alloy building towers and trimmings gleam overhead, while underground telephone wires 'wear' small nickel alloy loading coils to make telephone conversation clearer and to speed transmission.

"Because of its toughening effects on fellow metals, nickel helps make travel safer. Frames and engine parts of many automobiles contain nickel. Once all the bright parts of automobiles were nickel plated. Chromium has taken the place of nickel plate but nickel is often hidden beneath chromium plating.

"Many modern steamships are equipped with nickel alloy hardware and fittings because the metal resists salt water corrosion.

"White gold is white because nickel (15 per cent) is mixed with ordinary gold. A lesser amount of nickel makes flesh-colored gold while a still lesser amount makes green gold. German 'silver' is a mixture of brass whitened with nickel.

"The American 'nickel' is one-fourth nickel. The other three-fourths is copper.

"No one knows how long nickel has

Capt. Ralph Hewitt

Forty-four candidates for the football team reported when training started at Columbia university, and the Lions are expected to do great things under the leadership of Capt. Ralph Hewitt, star quarterback and the best kicker on the squad.

New Texas Oil Field Is Largest in America

Effect on Industry Is Not Yet Fully Realized.

Dallas, Texas.—The new East Texas oil field is so vast that six of the largest pools in the United States could be superimposed upon it.

A study of the geology and economic importance of the field reveals that its immense size, the consistent results of drilling, and its effect upon the industry have not yet been realized by the most experienced and farsighted oil men.

A map of the field shows that the Lathrop pool is so large that the Hobbs pool of New Mexico, heretofore considered of immense proportions, could be tucked into it, with plenty of room left over for the Oklahoma City and Seminole pools.

The long, narrow Kettleman Hills

(Calif.) field would stretch its length from the lower reaches of the Joiner pool of Rusk county and extend through the Kilgore pool into southern Gregg county. There would be plenty of room left to stow away the Yates and Hendricks pools of west Texas.

Geologists have learned that this tremendous oil producing area thousands, even millions of years ago, was a huge sea. The earth's constant mutations left it high and dry, bearing the remains of trillions of minute shellfish.

It is the bodies of these shellfish, lying at an approximate depth of 3,500 feet, that have turned into oil.

Oil comes from what geologists know as Woodbine sand, in this particular field. The fact that this sand occurs at almost the same depth in all parts of the field has contributed in a large measure to the sensational exploitation, as drilling costs are thus considerably lower.

The thickness of the Woodbine sand varies from a few feet on the eastern side of the field to 60 or 70 feet thick about two miles west of the eastern limit of the field in the Lathrop pool.

Historic Chapel Pews Will Be Sold to Grads

Cambridge, Mass.—Historic Appleton chapel of Harvard university must give way to a new memorial house of worship, but its old pews will not be destroyed.

The pews will be sold privately faculty members having first preference. The Harvard-Yale-Princeton club of Chicago was reported as in the field for several of the pews.

Aids in Cancer War

Dr. Harry Coke, twenty-five-year-old physician of St. Mary's hospital, Paddington, England, who has produced, in conjunction with S. G. Billington, bacteriologist, a serum which retards the growth of cancer. The serum is the result of seven years' work.

OF INTEREST TO THE HOUSEWIFE

Bananas are inclined to turn black when put into the icechest.

Light brown sugar gives good flavor to apples baked or stewed.

Keep rubber bands in tightly closed tin box and they will last longer.

A few bread crumbs added to scrambled eggs will improve the flavor and make the eggs go farther.

To keep sponges wet wash them occasionally in warm water in which a little tartaric acid or soda has been dissolved. Rinse well in clear, warm water.

Baby Pheasants Seek Help From Pedestrian

Harrisburg, Pa.—Crows were swooping from a fence toward a railroad track, apparently attacking an enemy. A pedestrian investigated and found the crows were attacking a covey of pheasants apparently only a few days old.

Four of the tiny birds ran to the man for protection. Six others had been pecked to death by the crows.

The man turned the pheasants over to the state game commission.

GABBY GERTIE

"A man can't sit further forward than the front row so he wears glasses to improve his looks."

Police Learn How to Handle Thugs

Marksmanship is not the only matter that receives attention at Camp Perry, Ohio, where the national rifle matches are held. Police officers go there to get instruction in the best way to disarm desperadoes in hand-to-hand encounters and in similar work. One of them is here seen obtaining a little lesson in Jiu-jitsu from Capt. James F. Strain.

THE FEATHERHEADS

A Form Letter

Roofs to Be Landscaped at Cost of 18 Millions.

New York.—The Rockefeller interests have revealed details of the plans for transforming the roofs and terraces of the ten structures in the \$250,000,000 Radio City here into what is intended to be a modern equivalent of the hanging gardens of Babylon, to include illuminated waterfalls and promenades among tall trees planted far above the street.

The largest of the first three units will be a 66-story office skyscraper, with 16-story wing, to take up more than half of the center block in the area bounded by Fifth and Sixth avenues, Forty-eighth and Fifty-first streets. This unit will have a total floor space of 2,500,000 square feet, about 350,000 feet more than is contained in the Empire State building.

About Ready to Start.

The second will be the International Music hall, planned for the west half of the block between Fifth and Fifty-first streets, with a 31-story office building flanking it on the Sixth avenue frontage. The third unit is a sound motion picture theater for the west part of the block between Forty-eighth and Forty-ninth streets.

Excavation work on the sites of those structures is well advanced and construction will start this fall. The theaters are scheduled to be finished by October 1, 1932, and the office building the following spring. Plans for seven other buildings have been drawn. A large area in the lower block has been left for possible use by the Metropolitan Opera company for a new opera house, concerning which negotiations still are pending.

Century Old Clock Is Keeping Perfect Time

Belfast, N. Y.—The wooden cogs in a century old clock were spinning at full tilt here today. Jerome F. Gleason, reclaimed the timepiece, which was built in 1822, from attic dust. He found the wheels jammed with dust and soot and the face broken. A few hours of tinkering put it in shape, and now, Gleason says, it "keeps railroad time."

The object of all satire is to make people see where they are wrong.

Wilderness Is to Be a National Park

The section of Virginia, about fifteen miles long and ten wide, where was fought the Battle of the Wilderness has been designated by the government as a national park and work is under way. The view above is of the spot where Gen. Stonewall Jackson was accidentally shot by his own troops. Within the area named were fought the battles of Fredericksburg, Spottsylvania and Chancellorsville.

To Plant Gardens Above Radio City

Roofs to Be Landscaped at Cost of 18 Millions.

The garden plans call for seven acres of landscaping with waterfalls, fountains, pools, trees, formal flower beds, and statuary. Plans for covering the outer walls of the buildings with a lacework of living ivy also are a tentative part of the beautification program.

A Curved Waterfall.

An acre of ground space will be given over to a sunken plaza with a 30-foot fountain in the center. The Rockefeller interests estimated that more than \$17,500,000 worth of land will be left open for beautification, and between \$250,000 and \$500,000 will be spent on landscaping.

Forty feet above the roof of the 16-story wing of the center building

Roofs to Be Landscaped at Cost of 18 Millions.

will be a curved waterfall with a 50-foot spillway and cascades ending in a reflecting pool, about 80 by 25 feet, on the roof. Thirty-foot trees and other landscaping will form its background.

Two levels of landscaping are planned above the studios of the National Broadcasting company, in the lower roof areas between the main building and the main east wall of the 16-story wing.

They will be connected by stairways and will resemble a formal garden on some suburban estate.

On the north side of the music hall and south side of the sound theater there will be 30-foot hedges of beech, hemlock and linden trees. The remainder of these roofs will be devoted to formal gardens. Trees rising to a height of 30 and 35 feet will be a part of the general scheme.

Bombing Planes Used in War on Mosquitos

Experiment Tried in Panama Proves Effective.

Washington.—Bombing planes have been used with such success in combating malarial mosquitos in the Panama Canal Zone, the office of the chief of the air corps has been advised that similar tactics may be employed by airplanes over insect infested sections of the United States.

The apparatus is so simple that it can be placed in a large plane of the bombing type within 15 minutes. The poisonous mixture is also simple and cheap, one part by weight of paris green being mixed with four parts by weight of dust obtained from local clay.

The results showed clearly that the mixture destroyed the malarial carrier in the larvae stage, but failed to kill other varieties of mosquitos which, although not dangerous, constitute a pest. Oil mixture is believed to be effective against these non-malarial insects.

A bombing plane was selected as the most suitable type of aircraft with which to conduct the mosquito dusting operations, because of its greater weight-carrying ability, and for the further reason that it permitted the placing of the dusting apparatus without modifying the structure of the plane in any way.

The mosquito-breeding area was first dusted on July 28 and thereafter at weekly intervals. On each

trip two flights were made with approximately 600 pounds of the dusting mixture. The time required for each flight was from fifteen to twenty minutes, the actual dusting operations consuming from ten to twelve minutes.

The altitude of the bomber was from 20 to 40 feet. The report stated that it is necessary to repeat the dusting at weekly intervals to destroy all larvae before they can develop into the mosquito, and that from seven to ten dustings in the malaria season will kill practically all the larvae of the malaria variety.

Sea's "Undertow"
The coast and geodetic survey says while it has not studied the matter, the existence of the phenomenon known as undertow is generally recognized by competent authorities on the subject of waves.—Washington Star.

Multiplied Misfortunes
There is scarcely a calamity which does not find mention in the "Iliad." Therefore, a succession of misfortunes is sometimes called "an Iliad of woes."

Hammer Man's First Tool?
The first tool evolved by ancient man is believed to have been the hammer. At first the hammer was a stone held in the hand. Next a strip of skin was wrapped around it, and finally the hammer took the form of a real invention when man gave it a handle by means of a stick fastened firmly to the stone with rawhide or the stout fibers of some plant.—Gas Logic.

"Mummy Trees" Protected
Seed trees left by a large lumber company operating in Arkansas and Louisiana have been dubbed "mummy trees" by negro cutters, who zealously guard against cutting them down. Several large trees previously marked with a distinguishing white streak are left on each acre to assure the seeding in of a new crop of young trees, according to the United States Department of Agriculture.

Appeasing the Dead
The expression "to appease his manes" means to do when a person is dead what would have pleased him when he was alive. The spirit or ghost of the dead was called his "manes" by the Romans, and it was supposed never to rest quietly in the grave as long as survivors left its wishes unfulfilled. February 19 was the day when all the living sacrificed to the shades of dead relatives and friends.

Buffalo Bill's Ancestry
According to the biography of Buffalo Bill, compiled by his sister, Mrs. Helen Cody Wetmore, the family is descended from Milesius, a king of Spain, whose three sons founded the first dynasty in Ireland. The Cody family is descended through the son Heremon. Several members of the family emigrated to America in 1787 and settled in Maryland, Pennsylvania and Virginia. Buffalo Bill was born in Scott county, Iowa.

Earth as Seen From Above
The following is a quotation from Professor Piccard's story of his trip to the stratosphere: "At an altitude of 16,000 meters the earth is a marvelous sight. Yet it is terrifying, too. As we rose, the earth seemed at times like a huge disk, with an upturned edge, rather than the globe it is. The bluish tint of the atmosphere grew red-tinted and the earth seemed to go into a copper-colored cloud, and then all but disappear in a haze."

Leprosy in Lower Animals
There are no records of leprosy having been transmitted from rats to human beings, either by bite, association or other means. There is a disease of rats known as rat leprosy, but it has not been shown conclusively that it is the same as leprosy that affects human beings. If a pet rat appears to have any disease, either rat leprosy or any other affection, it is believed it is to the best interest of all that the animal be killed.—Washington Star.

FINNEY OF THE FORCE

And No Foolin'

Truck Gardener Discovers New Comet

Masaji Nagata of Brawley, Calif., an obscure Japanese who grows lettuce and cantaloupes by day and studies the heavens by night, is credited with the discovery of a brand-new comet. The finding of the forty-four-year-old Oriental was announced by the Mt. Wilson observatory. Dr. F. H. Seares, acting head of the observatory, said that in all probability the comet would be named after its discoverer.

PRESENT DAY CANUTE

This is Knut Holm who, according to Harold Hansen, the Danish genealogist and historian, is a direct descendant of King Canute who ruled England in the early years of the Eleventh century. Knut Holm is the only child of a young Danish farmer of the same name. For twenty-three generations all male Holms have been christened "Knut."

Heat in Arctic Causes Herring Eggs to Freeze

London.—There have been several complaints about warm weather in the Arctic this summer, but it remained for British scientists to make the first official protest in behalf of herrings, which have been driven from the North sea.

The herrings were forced to migrate because of frigid water. The scientists explained that heat in the Arctic produces very cold currents. They estimated that only 1 per cent of the herring eggs would hatch, thus causing British deep-sea fishers to lose large amounts of money.

Elephant Knocked Out, but He's Never Down

Norwalk, Conn.—An elephant was in the embarrassing position of being out but not down here. The driver of an elephant truck of a circus tried to drive under a low bridge. The elephant's head protruded. The bridge scored a clean knockout. The truck was so narrow, however, that the beast just leaned dizzily against the sides and the truck continued on.

When TEETHING makes HIM FUSSY

One of the most important things you can do to make a teething baby comfortable is to see that little bowels do their work of carrying off waste matter promptly and regularly. For this nothing is better than Castoria, a pure vegetable preparation specially made for babies and children. Castoria acts so gently you can give it to young infants to relieve colic. Yet it is always effective, for older children, too. Remember, Castoria contains no harsh drugs, no narcotics—is absolutely harmless. When your baby is fretful with teething or a food upset, give a cleansing dose of Castoria. Be sure you get genuine Castoria with the name:

Mr. and Mrs. Thos. Norris visited relatives at Turner on Sunday. Floyd and Harvey Schneider of Flint spent Sunday at their homes here.
 Dr. Smith of Tawas City was called here Thursday evening by the illness of Mrs. Harry Fore. Miss Irene Jordan of Flint spent the week end at her home here.
 Mrs. Geo. Smith is spending a week with friends at Flint.
 S. Pavelock made a couple trips to Twining the first part of the week.
 Mr. and Mrs. Wm. Draeger of Bay City were in town on business last week.
 Dewey Ross of Flint spent the week end with his family here.
 Mr. and Mrs. Wm. McDowell of Milwaukee, Wis., returned Monday after spending two weeks at the home of Mr. and Mrs. Matt Jordan.
 Miss Frances Klish of Tawas City visited friends here Sunday.
 Mrs. Victor St. James and Mrs. Roy Bowlsby of Whittemore were callers in town Tuesday.
 A number from here attended the ball game at Sand Lake Sunday between Saginaw and National City, the latter winning by a 2-0 score. National City plays at Saginaw next Sunday.

Townline

Mr. and Mrs. Jos. Ulman spent Sunday at Prescott.
 Mr. and Mrs. Glenn Hughes of East Tawas called on relatives here Sunday.
 Miss Ida Bessey came home Saturday from the hospital at Bay City, where she underwent an operation for appendicitis.
 Mr. and Mrs. A. Cataline of Whittemore visited Mr. and Mrs. Jos. Ulman the past week.
 Mr. and Mrs. Carroll Symons and little daughter of Gaines are visiting their parents, Mr. and Mrs. Jos. Freil.
 Mrs. William Bellenger returned to her home here after spending a couple of weeks at Bay City with her daughter, Mrs. Don Frank.
 Mr. and Mrs. Ervin Ulman of Tawas City visited relatives here Sunday.
 Mr. and Mrs. Paul Koepke of Tawas City visited relatives here Sunday.
 Mr. and Mrs. George Freil and family of National City called on relatives here Sunday.
 Ted Freil of National City visited here Tuesday.

Won Fame as Aviator

The aviator known as the Flying Parson was Belvin W. Maynard. He was born September 28, 1892. He served with the A. E. F., was discharged from the army May 3, 1920, was appointed a reserve officer June 3, 1921. In 1921 he was killed at Rutland, Vt., in an airplane accident.

Laidlawville

Frank Wood, Will and Robt. Rushford of Bay City spent the week end at the Woods farm.
 Mr. and Mrs. E. B. VanHorn and grandson, Herbert VanHorn of Gladstone, called on Mrs. C. M. VanHorn Friday.
 Mr. and Mrs. Walter Anschutz and children and Mr. and Mrs. Will Horton of Flint were Sunday guests of Mr. and Mrs. Andrew Anschutz.
 W. C. McGowan of Alma called on Mr. and Mrs. Wm. Moore and Mr. and Mrs. C. M. VanHorn Sunday evening.
 Misses Marie McLaughlin and Loretta Woodburn of Detroit were week end guests of Mrs. John Springer.
 Mr. and Mrs. Arnold Anschutz and family of Indian Lake were Sunday dinner guests of their parents, Mr. and Mrs. John Anschutz.

MCIVOR

The Iosco County Young People's Society will have a meeting at the McIvor church on Friday evening, October 2, 8 o'clock fast time.
 Mr. and Mrs. Stanley VanSickle of Grant township spent Sunday with Mr. and Mrs. Dewey Ross.
 Miss Lillian Schroeder spent the week end with Miss Olive Streeter of Long Lake.
 Mrs. Elmer Durant and family of East Tawas were callers at the Walter Pringle home Saturday evening.
 Mrs. Walter Kelchner and Mrs. Thos. Norris were callers in Tawas one day last week.
 Don't forget the dance at Sherman town hall Friday evening, October 2. Everyone welcome.
 Mr. and Mrs. Wm. Horton of Flint were callers of Mr. and Mrs. M. Eckstein over the week end.
 Mr. and Mrs. Fred Latta of Reno spent Sunday with Mr. and Mrs. Frank Schneider.

Miss Georgena Pringle of East Tawas spent the week end at her home here.

Advertising a State Georgia was one of the first states in the Union to proclaim its attractions through advertising. General Oglethorpe having used space in the London papers as early as 1733 to extol its climate and other advantages.

Mrs. Emily Couchy and son, George, of Mio were week end visitors at the home of her brother, Harry Latter.

Miss Clara Latter of Detroit spent the week end with relatives here.

N. Larson returned home to Flint Saturday.

Miss Hazel Robinson, who has been employed at the Sherman Johnson home, returned to her home in Tawas City Friday.

N. Larson and Thos. Frockins were business visitors at the Tawas last Friday.

Miss Leona Brown and Russell Binder were Sunday guests of Mr. and Mrs. Will White.

Mrs. Frockins was pleasantly surprised Friday evening when a few of her relatives walked in to help her celebrate her birthday. A very sociable evening was spent, and lunch and hot coffee was served.

Mrs. Geo. Thomas was a caller at the Harsch ranch one day last week.

Mr. and Mrs. Harry Webster of Onaway were week end visitors with Mr. and Mrs. Chas. Harsch.

The Reno Home Economic Extension Group in first year clothing held their meeting at the township hall Thursday afternoon. The meeting was called to order by the chairman, Mrs. L. W. Ross. A short business meeting was held, after which it was turned over to the project leaders, Mrs. Alex Robinson and Miss Ella Ross, who gave the lesson in "Home Sewing Made Easy." They showed right and wrong material as to color and design for attractive house dresses. Ten members and one visitor were present.

Harry, Elmer and Sara Burlew of Detroit were called to Tawas by the illness of their mother. They were callers at Mrs. A. Waters enroute.

Mrs. C. O. Weckler, Mrs. Jas. Carlon and Mrs. Jos. Erwin of Flint were callers at Elon Thompson's Tuesday.

Mr. and Mrs. Henry Vance and children of Luzerne spent Sunday with Mr. and Mrs. Ernest Vance.

Mr. and Mrs. Harry Latter and Mr. and Mrs. Earl Daugharty spent Tuesday evening with Mr. and Mrs. L. D. Watts.

Mr. and Mrs. Lloyd Johnson of Flint spent a few days with his parents the latter part of the week.

Mr. and Mrs. Loren Wesenick, Ed. Degrow and Mrs. Clara Latter spent Saturday afternoon and evening with Mr. and Mrs. Earl Daugharty.

Wm. Latter, Mrs. Fred Latter and Mrs. Will Waters accompanied Rev. Larson to Tawas City Monday, where they attended the school of Christian education held at the Baptist church that afternoon and evening.

Mrs. Earl Mason, daughter, Opal, and Eleanor Mason spent Saturday at the Seafert home.

Mr. and Mrs. Charles Katterman and family were Sunday afternoon callers with Mr. and Mrs. Seafert.

Samuel George spent Tuesday evening in Tawas with friends.

Mrs. Sam Hutchinson visited Mrs. G. Robinson at Tawas Saturday.

Mr. and Mrs. Arthur Latter and Mrs. Slocum of Curtisville were Saturday evening visitors at Sam Hutchinson's.

More People, Speedier Money

The more densely populated a locality the more rapid will be the velocity of circulation, because there will be readier access to people from whom money is received or to whom it is paid. A lady who has a city house and a country house states that in the country she keeps her money in her purse for weeks, whereas in the city she keeps it but a few days.

Heart Kept Busy

The human heart pumps over 2,000,000 times in the average lifetime. It accomplishes almost 150,000 foot-pounds of work a day, which is equivalent to raising one ton a height of 75 feet.

Nickname of Distinction

Maryland is called the Cockade state because of the cockades worn by the Maryland Revolutionary troops.

Hemlock

The Ladies Aid will meet at the home of Mrs. Fred Pfahl next week Thursday, October 8, all day.

Mrs. Bamberger and son, Charles, called on Mr. and Mrs. N. C. Miller Sunday.

Mr. and Mrs. John McArdle returned after a few days' visit in Detroit.

Mr. and Mrs. James Chambers and son, Chelsea, Mrs. Lucy Allen and Mrs. Marshall Harris spent Saturday in Bay City. They called on Marshall Harris at Mercy hospital.

Miss Eva Birkenbeck at Samaritan hospital and Austin Allen and Russell Ford at Omer.

Miss Eva Birkenbeck was operated on for appendicitis at Samaritan hospital. Last report, she was doing fine.

Mr. and Mrs. Eugene McCarly went to Flint Saturday.

Mr. and Mrs. Henry Biggs of Saginaw spent the week with Mr. and Mrs. Lester Biggs.

Harvey Anschuetz of Detroit spent the week end with his uncle and aunt, Mr. and Mrs. Waldo Curry.

Kenneth Lovelady returned after a trip through Illinois and other parts.

Austin Allen returned home on Tuesday from Omer hospital much improved in health.

Mr. Whitney and son, Jerry, of Bay City spent a few days at their farm here.

The little son of Mr. and Mrs. George Whitney was badly hurt when he fell on a broken milk bottle. Mr. and Mrs. Whitney were formerly of this place.

Billie Bamberger returned from Saginaw where he attended the fair.

Mr. Kunze is testing cows in this vicinity.

Mr. and Mrs. Charles Katterman and family spent Sunday in Reno. National City baseball team won out over the Saginaw Merchants in a walk-away game Sunday.

Mr. and Mrs. Will White of Reno called here and attended the ball game at Sand Lake Sunday.

TAFT

Born to Mr. and Mrs. Jackson, a baby boy.

Mrs. Westervelt spent a week at Rose City at the home of her son, Cecil, returning Thursday.

Mr. and Mrs. Claude Crego and Mrs. Judd Crego were at Hale Friday.

Arlie Sherman brought up a truck load of grapes from outside.

Cecil Westervelt was a Taft caller Thursday.

Mrs. Morgan is able to be out again.

Mr. and Mrs. Wilford Lawrence visited at the Williams home last week.

Mr. and Mrs. Judd Crego were Sunday dinner guests of Mr. and Mrs. Claude Crego.

Silo filling is the order of the day. Mr. Fenton of Mills Station and Mr. Louks of Whittemore were here on business Tuesday.

The state cow test is in our vicinity testing cattle for T.B.

Sound Philosophy

It is good to laugh. And we should do so every chance we get. There will be plenty of other times for moans and groans.—Exchange.

Alabaster

Lloyd Johnston of Detroit spent the week end with Mr. and Mrs. J. E. Anderson.

Mrs. Amelia Anderson and daughter, Miss Virginia Pickett, have returned from Detroit, where they spent several days.

Mrs. Rudolph Gingerich and son, Donald, returned to Turner Sunday after spending a few days with her parents, Mr. and Mrs. A. Featheringill.

Fred Neilson of Detroit spent the week end with relatives here.

Mrs. E. Hendrickson has returned to Detroit after spending several weeks with relatives here.

Lloyd Johnston, Fred Neilson and J. E. Anderson spent Sunday in Leer.

Mr. and Mrs. Russell Rollin and children spent the week end in Detroit.

Methodism's Growth

When Bishop Asbury reached America there were but three Methodist meeting houses. At the time of Bishop Asbury's death there were about 300.

Pastoral Ruse

Some popular pastors, receiving calls to deliver Sunday sermons in other cities, find they must cloak their movements in secrecy in order to avoid a reduction in attendance at their own churches while they are away. One of the best known New York preachers never lets his congregation know in advance when he plans to be absent. Not until the churchgoers enter the pews and receive programs do they find it out.—New York Times.

Baseball's Beginning

Baseball began officially with the organization of the Knickerbocker club in September, 1845, and the first baseball match ever played took place between rival nines selected by that club at Hoboken, N. J., June 19, 1846. At the end of four innings, the leading nine had made the requisite 21 runs and were declared winners.

Possessing the basic goodness of sound design and fine manufacture

To achieve perfect fly-wheel balance, Chevrolet utilizes a special micrometer to hold every inch of the fly-wheel to uniform thickness.

Chevrolet connecting rods are matched in sets of six to within one-quarter ounce, and are individually fitted by hand to the crankshaft. Bearings are of babbit metal cast into the rods under heavy air pressure and at 800 degrees Fahrenheit.

Chevrolet pistons are weighed individually, matched in sets of six to within one-half ounce, and fitted by hand to three one-thousandths of an inch clearance. Piston pins are individually tested for size on special micrometer gauges.

Countless miles of service, in the hands of several million owners, have established this fact about the Chevrolet Six: You can buy a Chevrolet and know you are getting a genuinely good automobile—soundly designed, soundly built, basically and technically right.

From the selection of raw materials to the completion of the finished product—each process of building, assembling and checking the Chevrolet Six is marked by extreme care and precision. An exhaustive system of test and inspection makes certain that every part meets specified dimensions exactly. Many of these parts are held to limits of one ten-thousandth of an inch. No manufacturer in the motor car industry uses more care or precision in building and testing than Chevrolet.

Just as every part of the car is soundly built, every feature is soundly designed. In planning the

motor, Chevrolet engineers were not content to offer the public anything less than tried and proved design. They knew that the only satisfactory way to get smooth, flexible power in a car is to use at least six cylinders. So they adopted the six-cylinder engine without compromise. And this is what you get in today's Chevrolet Six.

Important, too, is the fact that Chevrolet mounts the six-cylinder motor rigidly on the frame at three different points. This construction stays fixed and stable throughout the life of the car, and prevents the loosening of connections and other vital parts. Millions of miles of driving have proved the worth of this standard practice.

As a result of this sound designing and sound manufacturing, you can invest in a Chevrolet Six with full confidence of getting a genuinely good automobile! Thousands of miles from the day of purchase, you'll be glad you chose a Chevrolet Six.

Brookins, Mrs. Roy Charters and family, Jane Lail, Dr. and Mrs. E. A. Hasty, Mr. and Mrs. John Gillespie, Mrs. Wm. Austin, Mrs. Celia Mills, Mr. and Mrs. Thos. Shannon, Mr. and Mrs. Cecil Ruckle and family and Maori Bronson.

"Chemistry"
The word chemistry is derived from the Egyptian word "chemi," meaning the land of Egypt, especially with reference to its black soil. Originally chemistry signified simply Egyptian black magic.

Suspicion's Handicap
Suspicion is a heavy armor, and with its own weight impedes more than protects.—Byron.

Summing It Up
Ah! if men but knew in what a small dwelling joy can live, and how little it costs to furnish it!

Chinese Surnames

There is a book published in China giving 100 of the most common and well-known surnames called the "Pa Chia Sing"—i. e., the 100 family surnames. In Dr. Herbert A. Giles' Chinese-English dictionary there is a list of Chinese family names or surnames given. The list comprises over two thousand names.

Famous London Street

In London the word "circus" is used as we use "circle" in many cities in the country. Piccadilly circus is a circular concourse into which a number of streets run. In the center is a tube station.

Why Most People Fail

Most people fail because they stop too soon. When odds are against them they lose faith in themselves—they have not the courage to fight obstacles that seem insurmountable. Men cannot think failure and win success.

Now is the time to fix your roof with Carbo Kote. W. A. Evans Furniture Co. adv

WATCH FOR YOUR NAME IN STATE ADVERTISEMENTS

If your full name appears in a State Theatre advertisement it will entitle you and your husband or wife or friend to attend any show billed in that particular advertisement. Your name may be in this week.

WHEN you see that signature on a cartoon in these columns look carefully at the cartoon. It will have been drawn by M. G. Kettner, one of the leading cartoonists of America. We are proud of the fact that he is numbered among the contributors to our columns, and know that his work appeals to all of our readers. In a kindly way he pictures our kind of "folk" and his cartoons are never of the offensive type. Call them to the attention of your friends.

LEGAL NOTICES

MORTGAGE FORECLOSURE SALE

Notice is hereby given that a mortgage dated the sixth day of May, 1918, was executed by Richard Thompson and Maud Thompson, his wife, of Grant Township, Isoco County, Michigan, to Stella Van Camp, and recorded in the Register of Deeds' office in Isoco County, and State of Michigan, in Liber 21 of Mortgages, on page 262 on the 21st day of May, 1918. That said mortgage was duly assigned by the said Stella Van Camp to Har'ie M. Talbott, Trustee Rachel B. McNair Estate, by a written assignment dated the 25th day of July, 1918, and recorded in the Register of Deeds' office in said Isoco County, in Liber 20 of Mortgages on page 432.

Said mortgage was thereafter duly assigned by the said Hattie M. Talbott, Trustee, to Harriet M. Talbott by a written assignment dated the eighteenth day of July, 1922, and recorded in said Registry of Deeds in Liber 20 of Mortgages on page 577. Said mortgage was thereafter duly assigned by the said Harriet M. Talbott to Rachel T. Beatty, guardian of Eleanor M. Talbott, a minor, by a written assignment dated the eighteenth day of July, 1922, and recorded in said Registry of Deeds in Liber 26 of Mortgages on page 273. That said mortgage was thereafter duly assigned by the said Rachel T. Beatty, guardian of Eleanor M. Talbott, a minor, to Mary M. Banghart by a written assignment dated the second day of January, 1926, and recorded in said Registry of Deeds in Liber 26 of Mortgages on page 305. Said mortgage was thereafter duly assigned by the said Mary M. Banghart to Harriet M. Talbott by a written assignment dated the twenty-second day of June, 1931, and recorded in said Registry of Deeds in Liber 26 of Mortgages on page 313.

That default has been made in the conditions of said Mortgage and in payment of interest, principal and taxes with interest due thereon, whereby the whole sum secured by said mortgage has become due, and is hereby declared to be due, according to the terms of said mortgage, and there is claimed to be due on said mortgage at the date of this notice the sum of Fifteen Hundred Two Dollars and Thirty-three Cents;

That under the power of sale in said Mortgage contained, said Mortgage will be foreclosed by a sale of the Mortgaged premises, at public vendue to the highest bidder on Monday, the thirtieth day of November, 1931, at two o'clock in the afternoon, Eastern Standard Time, at the front door of the Court House in the City of Tawas City, in said Isoco County, and that said premises are described in said mortgage substantially as follows: All that certain piece or parcel of land situate and being in the Township of Grant, County of Isoco and State of Michigan, described as follows, to-wit: The south half of the northeast quarter of section thirty-four, in township twenty-two north, of range six east, containing eighty acres of land more or less; and will be sold as aforesaid, to satisfy the amount due on said Mortgage with the interest that may accrue thereon after this date and the cost of foreclosure.

Dated September 4, 1931.

NOTICE OF FORECLOSURE

By reason of default in the payment and conditions of a mortgage made by Jacob H. Kocher and wife, Mina S. Kocher, to Lloyd G. McKay, Cashier, dated December 5th, 1917, recorded December 6th, 1917 in Liber 21, page 297, of mortgages in Register of Deeds' office for Isoco County, Michigan, and afterwards on the 6th day of July, 1927, assigned by the First National Bank of Bay City, as Trustee of Lloyd G. McKay, Cashier, and Ealy, McKay & Co., to Eugene Fifield of Bay City, recorded in Liber 24 of Mortgages at page 368 on the 7th day of July, 1927, in said Register's office; and afterwards on the 24th day of September, 1929, duly assigned by the Northern Title & Trust Company, as Administrator with the will annexed of the Estate of said Eugene Fifield, deceased, to the undersigned, duly recorded September 27th, 1929, in Liber 25 of mortgages at page 85, in same Register's office;

That default has been made in the conditions of said Mortgage and in payment of interest, principal and taxes with interest due thereon, whereby the whole sum secured by said mortgage has become due, and is hereby declared to be due, according to the terms of said mortgage, and there is claimed to be due on said mortgage at the date of this notice the sum of Twenty-six Hundred Twelve Dollars and Seventy-two Cents.

That under the power of sale in said Mortgage contained, said Mortgage will be foreclosed by a sale of the mortgaged premises, at public vendue to the highest bidder on Monday, the second day of November, 1931, at two o'clock in the afternoon, Eastern Standard Time, at the front door of the Court House in the City of Tawas City, in said Isoco County, and that said premises are described in said mortgage substantially as follows: All that certain piece or parcel of land situate and being in the Township of Plainfield, County of Isoco and State of Michigan, described as follows, to-wit: The south one-half of the southeast quarter of section seventeen, in township twenty-three north, of range five east, containing eighty acres of land more or less; and will be sold as aforesaid, to satisfy the amount due on said Mortgage with the interest that may accrue thereon after this date and the cost of foreclosure.

Dated August 7, 1931.

MORTGAGE SALE

DEFAULT having been made in the conditions of a certain real estate mortgage, whereby the power of sale therein contained became operative, made by William G. Van Natter and Leah Van Natter, his wife, and Leah Van Natter in her own right, to Peoples State Bank of East Tawas, Michigan, dated May 9, 1928, and recorded in the Isoco County, Michigan Register of Deeds' office on May 12, 1928, in Liber twenty-four (24) of mortgages on page four hundred seventeen (417) upon which mortgage there is now claimed to be due and payable for principal, the sum of \$1450.00; and for interest, the sum of \$118.46, making a total of \$1568.46, and no suit at law having been brought to recover the moneys secured by said mortgage, or any part thereof.

NOTICE IS HEREBY GIVEN, that by virtue of the power of sale contained in said mortgage, and the statute in such case made and provided, on Saturday the 10th day of October, A. D. 1931, at ten o'clock in the forenoon, the undersigned will, at the court house in the city of Tawas City, that being the place where the Circuit Court for the county of Isoco is held, sell at public auction, to the highest bidder, the premises described in said mortgage, or so much thereof as may be necessary to pay the amount so as aforesaid due on said mortgage, with seven per cent interest, and all legal costs, together with an attorney's fee, as provided for in said mortgage, to-wit: The Southwest quarter (SW $\frac{1}{4}$) of the southwest quarter (SW $\frac{1}{4}$) of section thirty (30), town twenty-three (23) north of range seven east, including Van Natters Subdivision, excepting Lots one to three inclusive block one, Lots one to six inclusive block three, Lots one to five inclusive block five, Lots one to three inclusive block six, of Van Natter's subdivision, all in the township of Wilber, County of Isoco and State of Michigan. Peoples State Bank, John A. Stewart, Mortgagee.
Attorney for Mortgagee,
Tawas City, Michigan.
Dated July 10, 1931. 12-28

MORTGAGE FORECLOSURE SALE

Notice is hereby given that a mortgage dated the twelfth day of January, 1918, was executed by Andrew Tottingham and Ruth E. Tottingham, his wife, of Plainfield Township, Isoco County, Michigan, to Amos B. Lobdell, and recorded in the Register of Deeds' office of Isoco County, and State of Michigan, in Liber 21 of Mortgages, on page 243 on the 16th day of January, 1918. That said mortgage was duly assigned by George Waigle, executor of the Estate of said Amos B. Lobdell, deceased, to Lewis P. Lobdell by a written assignment dated the 18th day of February, 1920, and recorded in the Register of Deeds' office in said Isoco County, in Liber 2 of Assignments on page 259.

Said mortgage was thereafter duly assigned by the said Lewis P. Lobdell to Ealy, McKay & Company by a written assignment dated the eleventh day of March, 1924, and recorded in said Registry of Deeds in Liber 26 of Mortgages on page 290. Said mortgage was thereafter assigned by the said Ealy, McKay & Company to Hattie M. Talbott, Trustee, by a written assignment dated the twenty-first day of July, 1924, and recorded in said Registry of Deeds in Liber 26 of Mortgages on page 308.

That default has been made in the conditions of said Mortgage and in payment of interest, principal and taxes with interest due thereon, whereby the whole sum secured by said mortgage has become due, and is hereby declared to be due, according to the terms of said mortgage, and there is claimed to be due on said mortgage at the date of this notice the sum of Twenty-six Hundred Twelve Dollars and Seventy-two Cents.

That under the power of sale in said Mortgage contained, said Mortgage will be foreclosed by a sale of the mortgaged premises, at public vendue to the highest bidder on Monday, the second day of November, 1931, at two o'clock in the afternoon, Eastern Standard Time, at the front door of the Court House in the City of Tawas City, in said Isoco County, and that said premises are described in said mortgage substantially as follows: All that certain piece or parcel of land situate and being in the Township of Plainfield, County of Isoco and State of Michigan, described as follows, to-wit: The south one-half of the southeast quarter of section seventeen, in township twenty-three north, of range five east, containing eighty acres of land more or less; and will be sold as aforesaid, to satisfy the amount due on said Mortgage with the interest that may accrue thereon after this date and the cost of foreclosure.

Dorothy's Mother Proves Claim

Children don't ordinarily take to medicines but here's one that all of them love. Perhaps it shouldn't be called a medicine at all. It's more like a rich, concentrated food.

It's pure, wholesome, sweet to the taste and sweet in your child's little stomach. It builds up and strengthens weak, puny, underweight children, makes them eat heartily, brings the roses back to their cheeks, makes them playful, energetic, full of life. And no bilious, headachy, constipated, feverish, fretful baby or child ever failed to respond to the gentle influence of California Fig Syrup on their little bowels. It starts lazy bowels quick, cleans them out thoroughly, tones and strengthens them so they continue to act normally, of their own accord.

Millions of mothers know about California Fig Syrup from experience. A Western mother, Mrs. J. G. Moore, 119 Cliff Ave., San Antonio, Texas, says: "California Fig Syrup is certainly all that's claimed for it. I have proved that with my little Dorothy. She was a bottle baby and very delicate. Her bowels were weak. I started her on Fig Syrup when she was a few months old and it regulated her, quick. I have used it with her ever since for colds and every little set-back and her wonderful condition tells better than words how it helps."

Don't be imposed on. See that the Fig Syrup you buy bears the name, "California" so you'll get the genuine, famous for 50 years.

Lots to Learn

Gerald—Well, I will say that I have a pretty good opinion of myself.

Beniah—Yes; you never have studied yourself very much, I suppose.—New Bedford Standard.

WHEN FOOD SOURS

ABOUT two hours after eating many people suffer from sour stomachs. They call it indigestion. It means that the stomach nerves have been over-stimulated. There is excess acid. The way to correct it is with an alkali, which neutralizes many times its volume in acid.

The right way is Phillips Milk of Magnesia—just a tasteless dose in water. It is pleasant, efficient and harmless. Results come almost instantly. It is the approved method. You will never use another when you know.

Be sure to get the genuine Phillips Milk of Magnesia prescribed by physicians for correcting excess acids. 25c and 50c a bottle—any drugstore.

All Close

"Who is your closest relative?" "It's impossible to get money from any of them!"

Everyone in this world must do something useful to justify his presence there.

A walking cyclopedia is nice to have around if he will only answer questions.

Forty years old But looks 20

Mrs. JOHNSON has lived in her town for forty years. Everybody knows how old she is. But everybody still calls her "young Mrs. Johnson." For "pep" and interest in life, she can't be beat! How does she do it? What is her secret of beauty and health?

Nothing else but that fine old tonic, Fellows' Syrup, whose valuable iron and salts doctors have prescribed for years.

Mrs. Johnson takes Fellows' Syrup regularly. She knows that beauty is an outward sign of internal health. Take a tip from her and visit your drug-gist today. Ask him for Fellows' Syrup. Take a few doses and notice how much better—how much younger—you feel!

FELLOWS' SYRUP

Explorers by Air Find Ancient Inca Fortress

tification before the Spaniards came are here clearly pictured by the aerial cameras of the Shippee-Johnson expedition which has just returned to New York after nine months of exploration and adventure in Peru.

HOW the ocean in olden times provided the Incas with a natural stronghold for their dwellings is evident in the site of this silent Canete valley village, south of Lima, Peru, atop what was once an island in the sea. Probably, archeologists say, it was a literal fortress, built as the Pacific's recession turned the island into a coastal promontory. Remnants of a wall that belted the ancient fort

BEDTIME STORY FOR CHILDREN

By THORNTON W. BURGESS

PETER RABBIT HAS A CLOSE CALL

A CLOSE call means a narrow escape. That is what Peter Rabbit had the night he gave the warning that saved some of the geese in the pond of Paddy the Beaver. Peter knew just how much risk he was running when he thumped that warning. He knew that just on the other side of the pond, hiding in the Black Shad-

Old Man Coyote Was So Close That It Seemed to Peter as If He Could Feel His Hot Breath.

ows, were Old Man Coyote and Reddy and Old Granny Fox, and he knew, too, that they would be very, very angry because he had spoiled their chances of getting a fat goose for dinner. So the instant Peter had thumped his warning he started for the nearest bramble-tangle. It was a long way off, but it was the nearest safe hiding place he knew of.

Lipperty-lipperty-lip ran Peter, and as he ran he listened with all his might for sounds of some one following him. "Perhaps," thought Peter, hopefully, "they won't try to catch me tonight."

Now Peter never runs very far at a time without stopping to look and

listen. He had run about a third of the way to the bramble-tangle when he stopped and sat up. With his ears standing straight up he listened with all his might. It was very still there in the Green Forest where he was, but back where he had come from he could just hear the gabbling voices of the geese, and so he knew that they had been awakened in time. He knew perfectly well that the wisest thing for him to do was to hurry on, but his curiosity would not let him. Perhaps, after all there was no real danger. He would stay where he was and then if no one followed him perhaps he could slip back to Paddy's Pond and learn just what had happened after he had thumped. He wondered if Honker the Goose knew that

it was he, Peter, who had given the alarm.

For some little time Peter sat there listening and heard nothing but the distant sound of the voices of the geese. Then suddenly his heart gave a jump. What was that? He listened harder than ever. As surely as he was sitting there he heard footsteps! They were very, very light footsteps, but they were coming straight toward him. He waited only long enough to make sure and then once more he started for the bramble-tangle, lipperty-lipperty-lip, and this time he didn't intend to stop until he got there. Those light footsteps were made by Old Man Coyote! Peter knew them too well to be mistaken.

It was true. You see the instant Old Man Coyote, hiding there by the pond of Paddy the Beaver, had heard the thumps of Peter he had known that there wasn't the least chance in the world for him to catch one of those geese that night and he had at once made up his mind that if he couldn't dine on a fat goose he would do his

Scene During Hankow's Great Flood

THE flooded Ping Ho road in the Japanese concession at Hankow after the waters of the Yangtse river rose to a new high level since the floods of 1870. As a result of the disaster many thousands of Chinese were drowned and millions of dollars' worth of property was destroyed.

Mother's Cook Book

They do not live in vain who keep Close watches where the children sleep. And give stitches which repair The little garments children wear. Edgar Guest.

NOW IS THE TIME

THIS is the season when we begin to look up our cherished recipes to use for canning and pickling. That is, the thrifty housewife does, for often a recipe is mislaid until too late to prepare it.

Cucumber Mustard Pickles.

This is one of the recipes that will be cherished, for the pickles are firm and good up to the last one. Prepare a jar with a gallon of vinegar, a cupful of ground mustard, and half a cupful of salt. Drop the fresh cucumbers, well washed, daily into this pickle until the jar is full. They will be ready to eat in two weeks.

Chili Sauce.

Take twenty-four large ripe tomatoes, seven white onions, two green peppers, five cupfuls of vinegar, two tablespoonfuls of salt and one cupful of sugar. Bring the vinegar and sugar to the boiling point, add the other ingredients which have been put through a food chopper and cook one hour at the boiling point.

Tomato Catsup.

Take three dozen ripe tofatoes, three red peppers, six onions, all chopped fine. Add two teaspoonfuls each of whole cloves, stick cinnamon and ground mustard. To three cupfuls of vinegar add one and one-half cupfuls of brown sugar and three table-

spoonfuls of salt. Cook until smooth, put through a sieve, reheat and bottle.

Cherry Olives.

Cover pitted cherries with vinegar and let stand over night. In the morning drain and add equal measures of sugar and cherries. Stir until well dissolved before putting away for winter use. The jar should be covered with a cloth and lid, but need not be sealed. These cherries are most delicious to serve with meats, as are the pickled cherries.

Spiced Grapes.

Remove the pulp from six pounds

Dark Corners

By DOUGLAS MALLOCH

IF THERE'S a corner in your house A little dark, you lift the shade; If there's a corner in your heart A little dark—well, I'm afraid You sit and worry, worry thin, And just won't let the sunshine in.

If there's a corner in your room A little dark, a lamp you light; If there's a sorrow in your breast, I fear you sit there in the night Among the shadows, in the gloom, When many lamps might flood the room.

If there's a corner in your house A little dark, the curtain raise, If there's a corner in your heart A little dark, then build a blaze Upon the ashes that are dead, Light some new dream, and look ahead.

German Threat

Germany has developed a new decathlon star who is expected to cause much embarrassment to America's versatile track and field stars in the 1932 Olympic games to be held at Los Angeles, Calif. His name is Kurt Weiss, and he is here seen hurling the discus.

best to dine on Peter himself. He knew just as well as Peter did that there was no safe hiding place for Peter nearer than the bramble-tangle and he made up his mind that that was just where Peter would start for. You see Old Man Coyote is very smart. Yes, indeed, Old Man Coyote is very smart. He knows all about Peter and his ways, and he felt quite sure that Peter would do just as he did do—stop to listen to what was going on back there at the pond.

By this time Old Man Coyote was not far behind him and his nose was in Peter's tracks. Now Peter can run very fast for a short distance, but for a long distance Old Man Coyote can run very much faster than Peter. That safe old bramble-tangle was still some distance away when Peter, looking back as he ran, saw Old Man Coyote almost at his heels. The sight of those grinning teeth seemed to give Peter more speed. Never had he run as he ran then. His heart was thumping so that it seemed as if it would burst. His breath was almost gone. The bramble-tangle was only three jumps away, but Old Man Coyote was so close that it seemed to Peter as if he could feel his hot breath. One jump! Two jumps! Three jumps! Peter felt the friendly old brambles brush against him and then there was a sharp pull at his tail. With a little scream of fear Peter pulled with all his might and then—he was safe! He looked back. Just on the edge of the bramble-tangle stood Old Man Coyote and in his mouth was a little bunch of white hairs. Peter looked at his funny little tail. It looked funnier than ever. There was a hole in the middle where the hair had been pulled out.

The DAIRY

ROPY MILK MAY NOT BE FAULT OF COW

Look Well to Cleansing of Milking Utensils.

Ropy milk may be the result of something wrong with the cow in the way of mastitis, but it is more likely caused by bacteria in the utensils where the milk is handled or stored, and the cow not responsible for it at all. The germ making this special ropy or slimy milk is a very persistent one and cannot be got out of the pails, pans or other vessels holding it except with very unusual cleaning and scalding. It is quite possible that it may be in the pail or other vessel where you keep the milk, and thus every new lot of milk that is brought becomes affected by the germ left in the vessel. You will know whether this is possible or not. The best plan is to clean very thoroughly and then boil it in water for at least 15 minutes, which ought to remove any germ there. Another possibility is of course that the utensils which are on the farm where the milk is made have this same germ.

A sure way to tell whether the cow is responsible or not is to milk some from each quarter of the udder into a thoroughly sterilized glass, then cover to let it stand. After a time you can tell whether the cow is at fault and the special quarter of the udder, if any, that is giving this ropy milk. Of course if it is milk from a herd, this would be more difficult to detect. We do not think it a good plan to use milk of this character. It may be that it is harmless, but it is probable that this is being caused by some harmful germ and we should certainly want to find out just what it is.—Rural New Yorker.

Relative Value of Home and Ready-Mixed Ration

The dairyman shall mix his own feeds or buy ready-mixed rations is still an important question. Before it is definitely decided the dairyman should ask himself these questions:

1. Are the feeds I can buy as good as are contained in the ready-mixed rations?
2. Is it possible to secure a continuous supply of a large variety of ingredients?
3. Can the ingredients be mixed as thoroughly as they are in the commercial mixtures?

Undoubtedly he may be able to mix a ton at less money than he will have to pay for a similar commercial mixture, but when all things are considered there may not be the advantage that formerly existed.

Milk Production Lessened

Latest figures from the United States Department of Agriculture indicate that throughout the entire country milk production per cow was about three per cent less on June 1, than on the same date last year. This shows quite a reduction since May 1, when production per cow was five-tenths of one per cent lower than last year. This reduction comes principally from western states where pastures have been suffering from dry weather.

Milk production per cow does not tell the whole story, because the number of cows is about 3 per cent greater than it was at this time last year.

Dairymen will be particularly interested in United States Department of Agriculture figures on oleomargarine manufacture. These figures show that 18,900,000 pounds of oleomargarine were produced in April as compared with 27,500,000 pounds manufactured in April last year, a reduction of 31 per cent.—American Agriculturist.

Fewer but Better Cows

I do not think it would be wise to attempt to forecast a five to ten-year outlook for dairying as we are now at a time of great world distress with dairying expanding in exporting countries faster than is good for all of us. However, I feel quite sure that the next decade will witness a great weeding out of uneconomical producers of milk and that this weeding out process will to some extent regulate the present tendency toward over-production. Also with the opportunities before the dairy farmer of doubling the average annual production of milk from the same number of cows and with the definite percentage of dairying and marketing dairy products making great gains, those who can survive the present dairy distress will reap a tangible reward in the future.—Charles W. Holman, Secretary, the National Co-operative Milk Producers' Federation.

Cheap Winter Rations

How cheaply can we feed heifers this winter? It all depends on the kind of roughage on hand. At the Minnesota station, heifers averaging about ten months of age were started on alfalfa hay and corn silage—no grain. They made an average gain of 1.1 pounds daily. Where there is no legume hay, heifers need two to three pounds of grain daily if you expect them to be in good condition in spring, and half of this should be a protein concentrate.

Mercolized Wax Keeps Skin Young

Get an ounce and use as directed. Fine particles of aged skin peel off until all defects such as pimples, liver spots, tan and freckles disappear. Skin is then soft and velvety. Your face looks years younger. Mercolized Wax brings out the hidden beauty of your skin. To remove wrinkles use one ounce Powdered Squalite dissolved in one-half pint witch hazel. At drug stores.

Will Excavate Forest

A forest of petrified trees in Yellowstone National park will be excavated by a group of men from the Milwaukee Public museum. The work will be done at the request of the federal government and is sponsored by the national park service. Dr. S. A. Barrett, museum director, said the Yellowstone forest of stone is unusual because so many of the trees are upright. The national park service will build a trail to the excavation district and open it to tourist traffic.

AND YOU SAY THIS NEW KIND OF SOAP SAVES SCRUBBING? TELL ME MORE ABOUT IT, LAURA! YOU KNOW HOW I'VE ALWAYS HATED WASHBOARDS

"This easy way gets clothes whiter" Laura tells her friend

"It's a real short-cut way to do the wash. Just soak everything in thick Rinso suds—and forget about scrubbing. You don't even need to boil. Clothes soak so white, you'll hardly believe your eyes! All you need to do is rinse."

Easy on clothes

The scrubbles Rinso way saves the clothes. Sparing the hands, too. And Rinso is a real thrift soap; cup for cup, it gives twice as much suds as lightweight, puffed-up soaps. Lively, lasting suds—even in hardest water.

Great in washers, too. The makers of 40 famous washers recommend Rinso. And nothing like it for dishwashing—for all cleaning. Get the BIG package.

MILLIONS USE RINSO in tub, washer and dishpan

JAYNE'S Vermifuge

John Gresham's Girl by Concordia Merrel

THE STORY By chance James Lee meets Lucy Gresham, daughter of Sir John Gresham, wealthy ship builder...

CHAPTER IV—Continued

"My love, what could I have done? Oliver had the matter well in hand. . . . Oliver is a just man, Lucy. . . ."

"I'm interrupting you," Lee said. "You were talking of . . . ?" He paused questioningly.

"An unfortunate affair that happened some years ago," began Sir John, but Lucy suddenly looked up square into her husband's face.

"About that man I told you of, Jim . . . who . . . ?"

"Went to prison for robbing a pay clerk?" he put in quickly, answering her look. . . . "Yes, I remember."

"Lucy seems to think that I ought to have seen him when he asked me to see him," went on Sir John.

"Instead of which you . . . ?" asked Lee smoothly.

"Instead of which, daddy and I went on a yachting cruise," she said. "We went out on the open sea . . . while . . . he . . ."

"My love," said Sir John, "you are too tender-hearted. The man deserved all he got . . . Gresham's has no use for highwaymen. Neither has the world at large. . . . What do you say, Lee?"

"I? Oh, I'm afraid I was scarcely listening, sir," said Lee with a short laugh. "I was thinking. . . ."

"Just wondering whether it had occurred to you to speculate as to what he might do . . . when he comes out." The words fell slowly.

"I think he's out by this time. Three years was his sentence, if I remember right. And he hasn't turned up so far. Well, an avoird, my children. . . ."

"When he was gone, Lee faced Lucy. "Well, I've warned him," he said challengingly.

"Yes," she said, through unsteady lips. . . . "We were out there, Jim . . . on the sea . . . while you . . ."

"The words broke from her and died shakily away. "I don't want your pity!" he said roughly.

"I'm not pitying you, Jim. This has been too . . . big for pity. But I believe I understand."

In a way, it was hard to lay the blame on any one person, as far as she could see. Ames had obviously acted in all good faith. Her father very probably, could have done nothing—and yet they were responsible for this appalling warping of a living soul.

Everything that was fine in him was in deadly peril of destruction from the spirit of revenge that held him in thrall. Perhaps upon her lay the onus of delivering him from the power of the enemy.

How was she to decide what was the first thing to do? She knew nothing of his plans in any detail. Nothing of how he intended to wreak his vengeance upon her father. . . . Had he any definite scheme . . . ?

"If I asked him, point-blank," she mused, "I wonder if he would tell me. . . . He is so . . . queerly honest with me. . . . That I almost believe he would. . . ."

But she didn't ask him immediately. She was afraid of rushing things; afraid that by one false step she might spoil her chances of success. So instead of saying more, she turned and left him.

CHAPTER V The Truth About Linforths Uncertainty and wondering made her restless, and two weeks went rather wretchedly by. One day she had been to see her father, and as they were having tea together, he was called to the telephone. When he came back, it was clear that he was a good deal worried.

"It was Oliver," he told her as he sat down again, "getting through to me on a trunk call. . . . Most disturbing news, most disturbing! It's that Norwegian deal. It hasn't gone through, after all. . . ."

"Oh, daddy, I am sorry. But is it terribly important?"

"It means losing some of the best timber we've ever had the chance of. Oliver imagined that a definite arrangement had been reached before he left, although the contract hadn't actually been signed."

"What a pity he left before it was signed," put in Lucy.

"He was wanted over here, and had to come back. And now Linforths . . ."

"With the name Sir John thumped a fist on the little tea table with a force to make the tea things rattle. . . . Linforths have gone over our heads and collared the deal."

"Well, they are our traditional enemies, dad. Always have been. I suppose Linforths made up their mind to beat us at this at any cost, and went all out over it."

"They must have got hold of new capital. Oliver's a good deal troubled. He says it won't end here."

"I suppose he is," said Lucy. "Oliver takes his responsibilities so tremendously seriously, doesn't he?"

"Sir John agreed with a nod, and they continued to talk the matter over for the remainder of Lucy's visit.

At dinner that evening, a good deal to her surprise, Lee asked her where she had been during the afternoon. He did not usually ask questions as to her movements. She told him that she had been with her father, and noticed that he gave her a quick little look, but he didn't say anything further. But later, when she was in her room, preparing to go to bed, she was startled to hear him knock on the door that divided her room from his.

"Come in."

He opened the door, slowly, and, slowly, came a pace or two into the room. Then stopped and stood looking across at her. Her face showed girlish and flushed between long swaths of gold.

"What's the matter? Do you think I'm going to eat you up?" he asked abruptly.

"Don't be ridiculous. . . ." she said, with an attempt at lightness.

"Don't look afraid of me then," he countered.

"I'm not afraid. Only you startled me. What do you want, Jim?"

"How was your father when you saw him today?" he asked.

"She was surprised at the question; utterly unable to see its drift.

"He was very well," she answered. "But a lot worried. Linforths have beaten us over a big deal." She looked at him to see how he'd take it, but his face was expressionless.

"It gives you pleasure to hear that, I suppose?" she added sharply. But he didn't answer. Instead, he looked round the room, as if he were noting everything in it.

"Your room," he said, only half aloud. . . . "And I've scarcely seen it . . . since it has been yours."

His eyes came round to her face then, but hers were lowered. She didn't know how to meet this mood in him; didn't know what he meant. His manner was so changed. His suggestion that she was frightened by him, was absurd. But her heart was beating hotly, all the same.

"I've never seen you with your hair down before," he said, in an odd voice. She flashed a quick look up at him, and saw that his hand was half outstretched toward the long ripple of gold that lay over her shoulder.

She was amazed. And, quite suddenly, angry, all on edge, she stepped back, shrinking away from the big, shapely hand.

"Don't touch me, Jim!" she cried sharply, in a low voice, just as she had cried the same words the morning after her wedding day. His hand closed to a fist upon which knuckles stood out white. She saw his eyes go sullen and his lips shut to a line. Then he drew a breath; dropped his hand to his side, turned and strode into his room without a further word and shut the door sharply behind him.

Lucy sank down rather shakily into her chair. If only his nearness didn't stir her so! If he knew how much more afraid she was sometimes of herself, than ever of him.

Things went quickly after this, for the very next morning, as she was crossing the hall, she heard voices from the study; St. Abb's and Jim's mingled for a moment, then St. Abb's alone.

"After this, you can hardly expect me to stay . . . I'm going, sir, going at once. . . ."

A pause, then her husband's deep voice.

"That's exactly as you like, of course. . . . Go when you will, Perry."

Aware, suddenly, that she was eavesdropping, Lucy went quickly to her sitting room. St. Abb was going. Leaving Jim. Why? Because he had just discovered that awful business of three years ago? From what she had heard, that seemed likely. . . . In the middle of these thoughts she heard a step across the hall, and a moment later saw St. Abb pass the door of her room on the way, apparently, to his own. . . . On an impulse she called to him and he stopped.

"Come here a moment, will you?" she said.

He came in reluctantly, and trying, rather boyishly, to hide the fact that he was reluctant.

"You want to see me?" he said, with rather elaborate ease.

She looked at him a moment. His young, attractive face was white, and he looked upset; badly shaken.

"Perry," she said quickly, as if she had something to say that she wanted to get over. "I was passing the study just now. . . . The door was open. I heard you and Jim talking. . . . And I heard what you said. . . . You told him you were going to leave him."

"Yes." The short word, so shortly said, sounded odd from Perry St. Abb. "You really meant it, I suppose?"

"Absolutely."

"When are you going?" she went on.

"Now. I was on my way to my room to pack when you called me," he answered.

"Will you tell me why you are going?" There was a touch of abruptness in that. His answer was more abrupt still.

"No." But after a second he added, "I beg your pardon, Lucy. I'm . . . just a bit. . . ."

"I can see you are," she said gently. "You have thought a great deal of Jim, haven't you?"

"There was no one I thought more of," he said, boyishly impulsive.

"Then what has happened to make you change?"

"I have changed, anyway. . . . And I'm going, in consequence," he equivocated.

"That doesn't answer me," she insisted.

"I can't answer you any more clearly. Please don't ask me to." He turned back towards the door, as if he were going to leave her. But she stopped him.

"Don't go. This is . . . most tremendously important to me. . . ."

"Most Disturbing News, Most Disturbing!"

Perhaps you scarcely guess just how tremendously important it is."

"You can't know anything of this," he said. "It isn't possible. . . . If you want to know, please, Lucy, ask him; not me."

"It's something you have discovered about him, isn't it?" she said, the words coming more as an assertion than a question.

He nodded.

"Something that seems utterly . . . discreditable," she went on.

He nodded again.

"Well, perhaps you'll be surprised to hear that not only do I know about it, but that very probably I know more than you do. . . ."

"And yet I haven't . . . gone."

"You . . . you really know and can take it so quietly!" he half stammered.

"It isn't always safe to judge a man by what you hear he . . . has been . . . or has done . . ." she answered slowly.

"But this is what he is . . . what he is doing!" cried the young man. She looked at him sharply, opened her

Easier to Write Poem Than Make Good Joke

To every fifteen persons who can write verses there is only one who can write a joke, a wisecrack or a line of satire. At least, that's our experience. Ought not "wisecracking" be cultivated in the halls of learning as well as poetry? It is a perform of literature quite as respectable. And so rare that all the satirists are remembered—while all the poets are not—not by a million or so.

We believe that the fund of humor and witicism in the world would be enormously amplified if they were pursued as an art. It is not even an "exercise" where learning is taught. One can write poetry—such as it is—with scarcely a thought; but to say something smart demands an intellectual activity as strenuous as the physical activity that gets results in

baseball, football and the other athletic sports.

Next time that you sit down with your overflowing sentiment—and presumably inspiration—to write a poem, seek to turn it—if only as a pastime—into an epigram or a bit of persiflage—and see what you get.—F. H. Collier in the St. Louis Globe-Democrat.

Curiosity From the Bog Uncovering the bog at Ralaghan, in the county of Shercock, Ireland, a curious bit of wood carving was brought to light which is perplexing the archeologists and scientists of Ireland and England. The specimen is evidently of great age, 500 years at least, and probably much more. It is about 3 feet in length and represents a woman, but the arms are missing, and it is the work of a skilled carver. There are some curious inscriptions upon it which are legible. The specimen has been placed on exhibition at the Dublin museum with the hope that some student may offer some explanation of the origin and use.

Not Effective Substitute One reason why prayer is not effective for some folks is because they try to substitute it for brains and elbow grease.—Capper's Weekly.

STAGE COACH TALES

By E. C. TAYLOR

Forced to Fight

JAMES BUN, a veteran driver of stage coaches out of Washington, Pa., despite his long years at the reins and his hard life, was a peaceful man. He was reputed to be a man of great muscular power, but of quiet demeanor.

Nearly all cities and sections of the countryside a century ago, when stage coaches were the only means of travel between the east and the west, had their local "bullies" who wanted to fight every one who would stand up against them. Some, having conquered their local fields, set out for new conquests.

There was a "bully" in Cincinnati, whose name has not been handed down to posterity, who had achieved a local reputation of having "licked" everybody in and around Cincinnati. So like Alexander of old, he sighed for new victories.

Hearing of James Bun's great strength, he set out for Claysville, Pa., where he was informed Bun could be found. He traveled by steamboat from Cincinnati to Wheeling, W. Va., and took a stage coach to Claysville, where he "put up" at the tavern of William Kelley, the stopping place of Bun's stage line.

Upon entering the tavern, the stranger asked for Bun and was politely informed by the landlord that the driver was at the stable looking after his teams and soon would be in.

Bun entered a short while later, and Kelley remarked to the stranger: "This is Mr. Bun."

The stranger, who was somewhat larger than Bun, said: "Bun, I have been told that you are the best man in all this country and I have come all the way from Cincinnati to fight you and lick you, if I can."

"Well," said Bun, "you have come a long distance for a job like that, and besides I don't know you and there is no reason why we should fight."

"But you must fight me," the stranger said. "I insist on it and will not leave here until you do."

Bun persisted in declining the proffered combat, and finally went upstairs and went to bed to rest up after his long drive.

After half an hour of rest he came downstairs again, without any more thought of the pugilistically inclined stranger.

To his utter surprise, the aggressive visitor met him at the foot of the stairs and again demanded a trial of strength.

Bun's good nature departed then. Stepping back, he warned his assailant to look out, and with one blow of his fist, felled the man.

Bun then went to a rear room of the tavern and washed his face and hands preparatory to dinner. On his return, the stranger was still prostrate on the floor.

"Hasn't that man got up yet?" Bun asked.

Water was thrown over the vanquished bully, and after he had fully recovered, he departed, a wiser if not a better man. He was never seen again in Claysville.

Bun became the hero of Claysville, and the story of that blow was carried all along that section of the National road. Efforts were continually made after that to match Bun with others of the "Pike Boys" who were famous for the fistic prowess, but Bun always declined to be drawn into any more fights. Kelley told every detail of that famous encounter to anyone who would listen, for years after it occurred.

David Gordon, six feet tall and weighing 200 pounds of solid bone and muscle, but peaceful like Bun, also was driving a stage coach of Washington at the time, and many efforts were made to get the two men together in a ring.

Tradition has it that the two men had a reciprocal fear of each other, but they never collided, and it never was settled who was the better man. (© 1931, Western Newspaper Union.)

Cleopatra's Needles

Cleopatra's Needle in Central park, New York city, is 67 feet high to the apex, and 7 feet 7 inches in diameter at the base. The two famous needles of Cleopatra were first erected by Thothmes III at Heliopolis and were in Ptolemaic times, transported to Alexandria. One was taken thence to London in 1878, and the other to New York by the ship Dessoug, under the direction of Lieut. Commander Gorings, U. S. N., at the expense of William H. Vanderbilt, in 1880. It was erected in Central park February 22, 1881.

Millionaires' Club

In 1893 Jekyll island, off the coast of Georgia, was bought by its present owners, the Jekyll Island club, a group of America's richest men, whose membership represents one-seventh of the wealth of the world. Here they have their magnificent homes and a palatial clubhouse where they spend the months of January, February and March, seeking relief from the cold winters of their northern climate. The club membership is limited to 100.

HEADACHE

Nerves on edge. A head that throbs. You can't stop work, but you can stop the pain—in a hurry. Bayer Aspirin will do it every time. Take two or three tablets, a swallow of water, and you're soon comfortable. There's nothing half-way about the action of genuine aspirin. If the box says Bayer, you will get complete relief. These tablets should be in every shop, office, and home. Ready to relieve any sudden ache or pain, from a grumbling tooth to lumbago. Don't suffer with that neuralgia, neuritis, rheumatism, etc; or lose any time because of colds or sore throat. Get some Bayer Aspirin and just follow those proven directions for instant relief. Get the genuine tablets, stamped with the Bayer cross. They cost very little, especially if you buy them by the bottle. Any doctor will tell you they are harmless. They don't hurt the heart. They don't upset the stomach. So take them as often as you have the least need of their quick comfort. Take enough for complete results.

BAYER ASPIRIN

United States Praised in Cuban School Books

As I walked about the streets of Havana and rode through the country districts, speaking in long-neglected Spanish, I wondered what could be in the minds of these Cubans concerning Americans. They are embarrassingly polite; it was hard to find the truth.

"Why don't you look in our school books and see what they teach us about the United States?" one young Cuban asked me. I followed his excellent advice.

There are two standard school histories in the Cuban schools, one for the primary grades and one for high schools. I turned to the pages that told of the rescue of Cuba from Spain.

There was Roosevelt's picture and Taft's; General Wood's and Magoo's.

In the primary history there are three solid pages of praise for the "Norte Americanos" and how they drove the Spaniards out of the land. It is embarrassing praise for it covers the Stars and Stripes with glory.

The high school history goes into detail. It shows how we challenged old Spain, how we sank her navy and drove Weyler out, and then it tells how our government scientists helped Cuba to conquer fevers and miasma and make the country a safe and beautiful place in which to live.

This praise of us has been put into the heads of Cuban children, in their school rooms, for almost two generations. It is there yet, in the minds of all adults.—William G. Shepherd in Collier's.

Rev Jonathan Goble, an American Baptist missionary, invented the Jirikisha in 1871. He was in Yokohama at the time and devised it as a vehicle in which his invalid wife might take the air.

Noisy Tourists
The noisy type of tourist can be found everywhere, but they are not the body of the country, or its brain—only its noise.—American Magazine.

Like a Potato
Love is like a potato—it's got eyes, but it's blind.—Collier's Weekly.

Served Useful Purpose
"Antimacassars" took the name from the fact that Macassar oil was a popular hair oil, and it was to protect chairs and sofas from this and other hair oils that doilies were put on the furniture.

No Cracks in Currency
The paper in currency is so prepared that the bills do not crack in time; old bills show wear, but not cracks.

For Pickling
Tarragon is a perennial aromatic herb used for flavoring vinegar, mustard pickles, sauces and salads.

Freshman Representative, Marvin Mallon. We are sorry more were not present to be entertained by the inaugural addresses.

After a number of class meetings the Sophomores have elected the following officers: President, Herbert Zollweg; vice-president, Arnold McLean; secretary, Theone Lincoln. A treasurer has not yet been chosen, perhaps because there is no treasury to treasure.

Seventh and Eighth Grades
Delma Kehoe from Port Huron has enrolled in the seventh grade. Seventh graders have started work in the new grammar work books. The name of the book is "Practice Sheets in Grammar," by Harriet Lockwood.

Primary
We had 100% attendance on Tuesday and Wednesday of this week. Junior DePotty and Nona Frances Rapp have earned gold stars in spelling.

Gordon Jones is back at school after a week's absence. We were all weighed and measured Wednesday.

Madison's Proud Distinction
James Madison is often known in history as the "Father of the Constitution" because of his important work in framing the federal Constitution and getting it adopted.

Divisions of the Week
Sunday is the first day of the week, according to our state law regulating legal holidays and according to general custom. It is the day following the Jewish Sabbath, which is celebrated on the seventh day of the week.

No. 3 Continued from the First Page

Worden; Legislative and Library—Mrs. Lydia Bing, Mrs. Jessie McLean, Mrs. Rose Watts, Mrs. Lillian Leslie; Social—Mrs. Elizabeth Tuttle, Mrs. Nellie Wilson; Parliamentarian—Miss Margaret E. Worden.

Used Every Day in Bridge
Our Mr. Ripley reports that "smajsmrjmlmeboetalejvpenenvgttavjras" was the word used by Galileo to hide the secret of his discovery of Saturn. And, as near as we can recall, a lady bridge player the other night used the same word to hide her discovery that her partner had reneged and that the opposition, instead of going down one, would make the contract.—Arkansas Gazette.

Bulls Used in the Arena
Bulls used in bull fights in Spain are of well-known lineage and reared in special establishments. The best bulls are worth from \$200 to \$300. About 1,300 are killed annually. In many of the bull fights as many as a dozen at a time may be employed. It is also estimated that 6,000 horses are used annually in Spain for this amusement.

Truly Successful Life
To live with a high ideal is a successful life. It is not what one does, but what one tries to do, that makes the soul strong and fit for a noble career.—P. P. Tenney.

Ancient "Currency"
Ancient gold rings from the Viking days, weighing 350 grams (12 ounces) were found in a field at Havor, on the Swedish island of Gothland, in the Baltic sea. They are shaped like small spirals and were used at a time when no currency existed.

Penalty of Vanity
People who are very vain are usually equally susceptible; and they who feel one thing acutely, will so feel another.—Bulwer-Lytton.

Vera Curtis vs. Roy Curtis—Divorce—Decree granted.
Howard W. Bowman vs. Joseph L. Webber, James B. Webber and Matthew Neiderstadt—Injunction—Held open.

Petition of S. J. E. Lucas and others to discontinue a highway in Plainfield Township—Petition to Discontinue Highway—Hearing set for October 3.

Changing Color of Gold
The color of gold can be changed by alloying it with various other metals. The old method was to alloy it with about five times as much silver, but as such articles readily tarnished, a new process was introduced which does away with the use of silver. Certain base metals are added to give the white appearance, the amount of gold and of alloy being the same as in the case of ordinary gold of various carats.

Diseases Caused by Mind
We should be surprised if, suffering from rheumatism, we went to a doctor and, instead of being given medicine, we were told to cease our cynicism and the rheumatism would depart. Yet that may be the procedure shortly, for it has been established that certain diseases are caused by the action of the mind—the thoughts we think, and the feelings and emotions thereby raised.

Many Have Same Thought
One often hears the saying, "The sin is not in the sinning but in the being found out." "Scandal is the greatest part of the offense," recites Dryden, the poet, and Moliere says, "The harm is only the noise that one makes." A popular eleventh commandment is, "Thou shalt not be found out." The French put the following twist on it: "Guard yourself from being found out so that you may be at fault freely."—Boston Globe.

Egyptian Cigarettes
Egyptian cigarettes are sold all over the world, yet the growing of tobacco in Egypt is forbidden.

Sings at His Work
Give me the man who sings at his work, be his occupation what it may. He is equal to any of those who follow the same pursuit in silent sullenness. He will do it better. He will persevere longer.—Carlyle.

Not Asleep
We talk of certain people "waking up to find themselves famous," but they have probably been wide awake all the time.

Odd Medicaments
Elephants' tusks, rhinoceros' horns, and the teeth of tigers and crocodiles, reduced to powder, figure prominently in the remedies of the Siamese.

Lingering Anguish
A song writer in New Hampshire makes the proud boast that he wrote 3,000 before he made a hit. But that does not abate the anguish caused by the singing of the 2,999 that preceded the hit.—Boston Transcript.
