Events in the Lives of Little Men

"The Old West" With Modern Improvements

Scene outside the post office at Pitchfork, Wyo., as Uncle Sam's representative, who might be a reincarnation of Buffalo Bill, arrives from the plains with his sacks of mail. One might have expected to see the carrier arrive on horseback but the motor car has replaced the old pony express.

When TEETHING makes HIM FUSSY

One of the most important things you can do to make a teething baby comfortable is to see that little bowels do their work of carrying off waste matter promptly and regularly. For this nothing is better than Castoria, a pure vegetable preparation specially made for babies and children. Castoria acts so gently you can give it to young infants to relieve colic. Yet it is always effective, for older children, too. Remember, Castoria contains no harsh drugs, no narcotics—is absolutely harmless. When your baby is fretful with teething or a food upset, give a cleansing dose of Castoria. Be sure you get genuine Castoria with the name:

Chas. H. Fletcher

CHILDREN CRY FOR IT

The Realist and the Sea
S. S. Slog, the noted bibliophile, was condemning on the Lafayette a realistic novelist.

"The man's view of life," he said, "reminds me of a servant girl who had never seen the ocean. Finally she was taken to Ocean City, and her mistress led her down to the beach and said, waving her hand over the great windy spread of rolling waters and white sands and wheeling gulls: "There it is, Maggie. What do you think of it?" "Phew! said Maggie. 'It smells like stale oysters, don't it?"

Flexible Railway Ties
Flexible railway ties recently were announced as the discovery of a German inventor. They are nearly oval in cross section and are open at the bottom so they give to the weight of trains. Their open centers are filled with ballast. Steel plates keep them from slipping, says Popular Science Monthly.

STOP YOUR COLD IN 6 HOURS WITH

Knowledge Through Eyes
Dr. Milton Metfessel of the University of California finds that 65 per cent of the knowledge of the normal human being is assimilated through the eyes. Twenty-five per cent is obtained through auditory experiences, and 10 per cent by touch, taste and smell.

HEARTBURN... COULD NOT SLEEP

Allegan, Mich.—"Dr. Pierce's medicines have helped me most wonderfully and I want to thank him. Before I began to use the 'Golden Medical Discovery' I could not sleep well and had heartburn so much," said Leonard Emerick of Route 4, Box 25. "It seems that everything was wrong! I never felt like doing anything. I am farming now and feel so much better. I took Dr. Pierce's Pleasant Pellets and several bottles of the 'Medical Discovery,' but the first bottle helped me." All druggists. If you want free medical advice write to Dr. Pierce's Clinic, Buffalo, N. Y. For 10¢ Dr. Pierce will send you a trial package of **Dr. Pierce's Discovery**

Unfair Exchange
The Vicomte de Rohan, president of the French Automobile club, said at a dinner in New York: "The modern girl is a cynic. I once heard a modern girl in Paris condemning marriage. "Marriage!" she said. "Pah! What is marriage but the exchange of the attentions of a dozen men for the inattention of one?"

SECOND CANAL WILL NOT BE NEEDED FOR YEARS

Panama Can Handle Traffic for Several Decades.

Washington.—Surveys conducted by the War department may postpone construction of a second canal connecting the Atlantic for several decades if not until the end of the century. Scientific inquiries have disclosed, according to reports submitted to Washington, that the growth of traffic will not necessitate any addition to the present inter-oceanic canal facilities until 1950 at the earliest. The consensus expressed in official conclusions was that when added lockage facilities are needed, a third series of locks should be added to the Panama canal before work is begun on a second canal.

No Need for Many Years.
The findings reached by the inter-oceanic canal board headed by Col. Ernest Graves of the United States army and the engineers for the Panama canal indicate that the present capacity of the Panama canal will suffice until 1970 and that with additional locks the canal would not reach capacity for possibly 100 years. To build this third set of locks would cost \$140,000,000 while construction of the proposed canal through Nicaragua would cost more than \$700,000,000. The traffic through the canal today runs around 30,000,000 tons annually. The present tonnage capacity of the canal is set at 70,000,000. With a third set of locks the capacity would be 140,000,000. On the basis of Panama canal estimates that tonnage will not increase faster than 1,000,000 tons a year, it is estimated that 100 years would elapse before the canal would reach capacity. The inter-oceanic board said the proposed Nicaraguan canal would increase the traffic capacity through Central America by 80,000,000 tons.

Defense Another Matter.
Notwithstanding the array of traffic statistics lined up by the inter-oceanic board and the canal engineers, the possibility exists that other factors rather than cargo capacity may dictate an earlier start on a new Nicaraguan canal than now seems probable. These include the advantages a second canal would give to national defense and the greater assurance two canals would give of uninterrupted

Porcupines Found New Foe of Colorado Trees

Durango, Colo.—San Juan national forest officials have discovered a new enemy of trees—porcupines. The animals rub trees with their sharp quills, stripping a ring around them and causing them to "spike top," or die at the top first. Forest Supervisor Andrew Hutton estimated porcupines have caused as much damage to the timber during the last few years as that caused by fire. A campaign against them, he said, would be made this winter.

Dog Gives Fire Alarm in Church

Colusa, Calif.—Bingo is a smart dog. When he discovered that the roof of his master's church was on fire he ran into the church, barked at his master, Rev. John R. Bailey, and stopped the preaching of D. Tully C. Knoles, president of the College of the Pacific. During the interruption the congregation looked around and discovered the roof was on fire. The church and its annex were destroyed.

Rattlesnakes Help to "Keep Wolf From Door"

Denver.—Ingenuity is valuable at all times, but during a depression it may keep one from starving, or euphemistically, "keep the wolf from the door." Theodore Tausch, who was unemployed, started catching rattlesnakes and selling them to zoos. By so doing, he declared, he was able to support his family and keep his children in school. Here's how he does it: "First, I approach a snake in a friendly manner. When it sees me, I stand still a few minutes to let the reptile get acquainted. Most people approach a snake antagonistically and the snake feels it has to fight for its life. "In about twenty seconds, the snake learns I do not mean to kill it. I then can reach down and pick it up."

BRITISHERS GRAB SPEED RECORDS

Pilots Have Great Year in Air, Land and Sea.

London.—Despite the Englishman's reputation of being a slow and easy-going individual, Britishers this year retained and lowered the world's most coveted speed records—air, land and water. Great Britain also during the year recaptured the world's fastest rail record, recently held by Canada. New records for flights between London and Cape Town, and London and Port Darwin, Australia, were also established, but the average speeds were far slower than were made during the year in the United States in somewhat comparable double trans-continental flights. The coveted speed records now held by Great Britain are: Air—407.5 miles per hour, established by Flight-Lieut. G. H. Stainforth, September 29, 1931, on a Vickers supermarine Rolls-Royce S.G.B. monoplane over a three-kilometer course at Calshot, England. Land—245.736 miles per hour, es-

tablished by Sir Malcolm Campbell, February 5, 1931, in his speed car, Blue Bird, at Daytona, Fla. Water—110 miles per hour, established by Kaye Don, July 9, 1931, on Lake Garda, Italy, in his speedboat, Miss England II. Rail—77.25 miles per hour by the Great Western railway's Cheltenham Flyer, which covered 77 1/2 miles, Swindon to London, in exactly one hour. Early in November, C. A. Butler, an Australian airman, flew from Lympe airport, England, to Port Darwin, Australia, in 9 days 1 hour 42 minutes, beating the record held by the London-born Australian airman, C. W. A. Scott, by 1 hour 18 minutes.

Colorado Hunter Kills Deer With Odd Antlers

Canon City, Okla.—Many a nimrod laid claims to having bagged the largest buck during the hunting season just closed, but Coleman Cooper of Coaldale believes he found the freak deer of the season. Cooper brought down a 210-pound specimen that had antlers, where antlers should be, covered with velvet, another pair of antlers beginning to grow just above the eyes, and other points along the side of the head, indicating rudimentary antlers.

Son Sues His Father for Costs of Education

Denver.—Because he promised to give his son a college education and then assertedly failed to pay the bills, A. V. S. Smith, wealthy New York attorney, is defendant in a \$1,950 suit on file in Denver District court. William V. S. ("Bill") Smith, the plaintiff, a Denver insurance man, was formerly fullback and captain of the University of Colorado football team. He graduated in 1930, but claims he was unable to collect the costs of his education from his father.

Boy Born in Nebraska, Twin Sister in Iowa

Sioux City, Iowa.—Twins, a son and a daughter, were born to Mr. and Mrs. F. H. Simpson of South Sioux City, Neb. The son was born at the family home shortly after midnight and then the mother and the babe were hurried in an ambulance to a Sioux City hospital. An hour later the daughter was born. So one baby is a native of Nebraska and the other of Iowa.

Italian Gets Pension for Walking 53 Years

Ferrara, Italy.—"Hike for life if you want to be happy." Is seventy-one-year-old Luigi Marani's advice to the young. He has set a record by covering 14 1/2 times the globe's circumference. He took 53 years to do it, but it is done at last, and so he is retiring on an Italian state pension.

WINNER IN PET SHOW

Eva Morales with the sacred white deer, "Princess de Plata," (Silver Princess), which was brought to San Francisco from Guatemala by Don Ubico, consul in San Francisco for that country. The white deer, which is sacred in the eyes of the North American Indians, won the honors in the animal class of the San Francisco pet show.

Japanese Jonah and the Whale

THIS Japanese Jonah was not actually swallowed by the whale because he and his fellow-whalers had made the big fellow secure long before they got within reach of his jaws.

Giant on Court Team

This is Capt. Jack Stewart of Alabama Polytechnic Institute's 1932 basketball team, whose 6 feet 5 1/2 inches height gives him the tip-off on practically every opponent at center.

Lines of Velvet Coat Models Are Simplified

Velvet coats are finding favor with smartly dressed women. A brown velvet model for formal afternoon wear is offered by Patou. The collars, cuffs and bottom are trimmed with brown astrakhan.

Embroidered Crepes

A shop noted for the beauty of its fabrics is making a feature of crepes embroidered in all over design and created for the fashioning of blouses and knee length tunics to wear with plain color wool crepe skirts.

Baffled by the Lowest

There is not so contemptible a plant or animal that does not confound the most enlarged understanding.—Locke.

THIS AND THAT

PLACE one teaspoonful of grated orange peel or lemon peel in the tea pot when making tea. It gives a delightful flavor and makes ordinary tea taste like the expensive teas.

Mild Rarebit. Cut one-half pound of cheese into small bits. Sprinkle crumbs over the bottom of a buttered baking dish, cover with one-third of the cheese and seasonings, using one and two-thirds teaspoonfuls of salt, one-third teaspoonful of paprika; when the dish is full add one and one-half cupfuls of milk and set into a pan of hot water.

Cheese Souffle. Take three tablespoonfuls of quick cooking tapioca, cook in one cupful of milk until the tapioca is clear. Add one cupful of grated cheese, stir until melted, cool, add three beaten egg yolks, one teaspoonful of salt and fold in the stiffly beaten egg whites. Place in a pan set in water and bake until the souffle is firm. Serve at once. This serves four.

Apple Souffle. Add four and one-half tablespoonfuls of tapioca and a little salt to one

tracks. These were in a double row, and it was very plain to Peter that whoever made them was in no great hurry.

"So this is where Jimmy Skunk is spending the winter," said he. "I've wondered a good many times where Jimmy's winter home could be, and now I know. This snow is certainly fine for finding out secrets. I certainly am learning things tonight. Now I'll see whom else I can learn about."

And, kicking his long heels together for sheer joy, Peter started on to look for more tracks.

KITTY MCKAY

By Nina Wilcox Putnam

The girl-friend says the stingiest man she knows wouldn't testify at a trial for fear of giving himself away.

cupful of scalded milk. Cook in a double boiler until the tapioca is clear, stirring frequently. Add one-half cupful of sugar, cool and add the beaten yolks of three eggs, one-half tablespoonful of lemon juice and one cupful of grated raw apple, fold in the stiffly beaten egg whites and bake in ramekins or casserole set in water. Serve hot with sweetened whipped cream, flavored with almond.

Here's the World's Rarest Bird

WHAT is said to be the world's rarest bird has been added to the collection of Gilbert Lee, famous Los Angeles agriculturist. The blue-rumped parrot, scientifically known as "Pittacus Insertus" and thought the only one of its kind in captivity, was recently brought by sailors from the uninhabited island off the Malay peninsula which is the only place in the world the bird is found.

Before you CATCH COLD. Why wait till you have undermined your resistance with frequent winter colds? Scott's Emulsion of Cod Liver Oil, taken every day, builds up in you that reserve of Vitamin A...

Scott's Emulsion OF NORWEGIAN COD LIVER OIL

No Need to Sigh for Those "Good Old Days" Factory working hours varied with the sun back in the 1850s, for candles provided unsatisfactory illumination. Each employee was given a "bell card," showing what time the factory starting bell would ring for each day.

COLDS

RUB Musterole well into your chest and throat—almost instantly you feel easier. Repeat the Musterole-rub once an hour for five hours... what a glorious relief!

MUSTEROLE BETTER THAN A MUSTARD PASTER. You prevent many causes, prevent also the chief cause of ill health. Involves no sacrifice, no inconvenience, no mental method, no advice, no medicine, no treatment, no effort, no pain, no skill.

Gaelic Sign Too Attractive Merchants of Dingwall, Scotland, decided that during the annual Mod week last year they would make a hit with visitors by having all signs over their stores in Gaelic. One non-

Save your money not for a rainy day, but for a sunshiny one when you can spend it. not fill so many pages as the distressing ones.

MILDRED CAN'T COME BECAUSE IT'S WASHDAY. SHE'S SCRUBBING HER CLOTHES—JUST IMAGINE! HOW OLD-FASHIONED! LET'S TELL HER ABOUT OUR "NO-WORK" WAY. The girl-friend says the stingiest man she knows wouldn't testify at a trial for fear of giving himself away.

SO YOU TOOK OUR ADVICE, MILDRED! ONLY RINSO CAN GET CLOTHES SO WHITE—ESPECIALLY IN THIS HARD WATER. YES, AND IT SAVES SCRUBBING AND BOILING, TOO. NEXT WASHDAY. Rinso

No softener needed with this safe hard-water soap. EVEN in hardest water Rinso suds are creamy, lasting. These rich suds loosen dirt without a bit of hard rubbing. Clothes last longer! And you don't need a softener with Rinso. It's so economical! Cupful for cupful it gives twice as much suds as lightweight, puffed-up soaps... because it's granulated and compact.
