

TAWAS CITY

STATE THEATRE WILL REOPEN NEXT WEEK

Mrs. Fred Swartz and Mrs. John Swartz spent Saturday in Bay City. Mr. and Mrs. S. Ferguson were business visitors in Bay City on Tuesday.

Mrs. Bert Van DeWarker of Lansing and Mrs. Ruby Wendell (formerly Ruby Love of Hale) are visiting Mrs. Wm. Davidson for a couple days.

Mrs. Fred Buch, Mr. and Mrs. Emil Buch spent Tuesday in Bay City.

Mr. and Mrs. Chas. Moeller spent Tuesday in Bay City.

Mr. and Mrs. Wm. Brown spent Wednesday in Bay City.

Mrs. John Lanski and mother, Mrs. J. S. McGuire of East Tawas, were Bay City visitors on Wednesday.

Mr. and Mrs. Ronald Curry, Mr. and Mrs. Chas. Curry were Bay City visitors on Wednesday.

Jas. H. Leslie announced today that the State Theatre will re-open next week after being closed during the past month. The exact date of opening will be announced later.

Mr. Leslie said that he wished to thank the business men and citizens of the city for their whole-hearted support in making it possible to keep the theatre open.

Mr. Leslie states that he has booked a program of excellent pictures for the future months and that at least one night each week special vaudeville features will be given with the show. The State theatre is modernly equipped and has many conveniences not ordinarily found in the small show house, and the patronage will undoubtedly warrant its continued operation. Many have come to the conclusion that a theatre is a real asset to the city.

An especially fine program is being planned for the opening night, states Mr. Leslie.

IOSCO INDEPENDENTS DEFEATED BY ALABASTER

The Iosco Independents, with three regulars out of the line-up, suffered a 7 to 6 defeat at the hands of Alabaster at the Sand Lake diamond last Sunday. The box score:

Elizabeth May Case, wife of Ira Case of East Tawas, passed away at her home last Friday morning, June 3, at 6:30 o'clock. She had been ill since last fall and seriously ill the past few weeks. Mrs. Charles Lynch, who is a daughter of the deceased, arrived last Thursday to be with her mother before she passed away. Two sisters of Mrs. Case arrived from Canada during the night of Thursday and were with her before she died. Dropsy and heart trouble was the cause of death. She was 73 years and seven months of age.

SCHOOL NOTES

High School

The girls of the Sewing Club had a very delightful time at a roast held at Sand Lake Monday evening. The evening was spent playing games and rowing boats.

Pictures were taken Friday afternoon in preparation for the cuts which will appear in the annual school edition of the local paper in a couple of weeks. These pictures will consist of the Senior class, the scholastic group that went to Mt. Pleasant, and the baseball team.

The Seniors appeared more than ordinarily dignified Wednesday afternoon. The added dignity was evidently caused by the fact that they were wearing their caps and gowns for the first time. These will be used in the different programs of Commencement week.

Don't forget the Baccalaureate exercises at the Zion Lutheran church at 8 o'clock, Eastern Standard time, on Sunday, June 12. Rev. Walter Voss, B. A., will give the address.

Final examinations will begin in the high school Friday afternoon and continue until Wednesday night. The annual banquet given to the Seniors by the Juniors of the high school will take place Friday evening at the Masonic Temple. The Baptist Ladies Aid is furnishing the banquet for the group. It is expected that about fifty guests will be present to enjoy the affair.

A sixth inning comedy of errors, both of omission and commission, gave our baseball team eleven runs and eventually a 17 to 1 victory over the East Tawas high school nine. While Allan Herriman was holding our opponents to three scattered hits and lone run, our boys pounded Alvenson for 15 hits, which, intermingled with errors and bases on balls, scored our 17 runs. James Mark and Marvin Mallon were the batting stars of the game, James getting four singles in five times up, while Marvin clouted two doubles and a home run in five official trips to the plate, the home run coming in the first inning with one on. Marvin is proudly displaying a new pair of baseball spikes, his father having promised him a new pair whenever he hit a home run.

IOSCO VETERANS ATTEND LEGION MEETING AT MT. PLEASANT

Ernest Burtzloff, H. J. Keiser, M. C. Musolf, H. E. Read Smith, Charles Miller, H. E. Friedman, Fred T. Luedtke, P. N. Thornton, Mr. and Mrs. Jay Platt, Mr. and Mrs. Dewey Soderquist, George Klump, Lawrence Gardner, William DeGraw, Ed. Erickson and Mrs. C. L. Barkman attended the 10th district meeting of the American Legion Monday evening at Mt. Pleasant.

Plans are being made by members of the two local posts to entertain the annual 10th District American Legion convention which will be held July 17.

NOTICE

In view of present hard times, we are lowering our milk prices. The high quality will remain unchanged. R. E. Beebe Dairy, Phone 340.

Released

MRS. IRA CASE

Elizabeth May Case, wife of Ira Case of East Tawas, passed away at her home last Friday morning, June 3, at 6:30 o'clock. She had been ill since last fall and seriously ill the past few weeks. Mrs. Charles Lynch, who is a daughter of the deceased, arrived last Thursday to be with her mother before she passed away. Two sisters of Mrs. Case arrived from Canada during the night of Thursday and were with her before she died. Dropsy and heart trouble was the cause of death. She was 73 years and seven months of age.

HALE CHAPTER, O. E. S., INSTALLS OFFICERS

On Thursday evening, May 26, at the close of the regular meeting of Hale Chapter, O. E. S., eighty members of the order and their guests witnessed the beautiful installation service of the Eastern Star as exemplified by Mrs. Sara Brown, installing officer, assisted by Mrs. Sarah Johnson as Marshal, Mrs. Nellie Slocum, Chaplain, and Miss Olive Streeter, pianist.

BUKOSKI—MIELOCK

Miss Carrie Bukoski of East Tawas, daughter of Mr. and Mrs. Joseph Bukoski of Standish, was united in marriage to John Mielock, son of Mr. and Mrs. Jacob Mielock of East Tawas, Monday morning at 6:00 o'clock at the St. Florian church in Standish by Rev. Fr. B. G. Winowieski.

Mr. and Mrs. Wm. Rouiller, daughters, Evelyn and Bessie, Evelyn Frank and Beatrice Carroll motored to Bay City Tuesday.

Mr. and Mrs. James LaBerge, Mrs. James Daley and daughters, Edna and Leota, spent Tuesday in Bay City.

George A. Prescott, Jr., leaves Friday (today) to spend the week end in Cleveland, Ohio. George Prescott III and C. T. Prescott will accompany him.

The Dorcas Society of the Baptist church will hold its last meeting of the year on Tuesday evening at the home of Mrs. G. A. Prescott. Sr. Every member is urged to be present.

Summer cottages built anywhere, \$290.00 up to any price. Come and see plans. Financed if desired. Novess, Phone 122.

A clinic for examination of preschool children was held at the City Hall Wednesday afternoon. Dr. T. H. Johnston made the examinations, assisted by Myrtle Kuntze, the county nurse. Mrs. J. A. Campbell, Mrs. J. L. Swartz and Mrs. Eugene Bing also assisted with the clinic.

Mrs. George Leslie and mother, Mrs. J. A. Campbell, spent Saturday in Bay City.

The room was beautifully decorated with spring flowers and the installing officers wore corsage and wrist bouquets, the gift of the retiring Matron, Mrs. Muriel Greve. A short program of musical numbers preceded the installation. Five little girls dressed in the Star colors, with a march and pretty courtesies, presented the ladies representing the Star points with baskets of flowers. The officers installed were:

Mrs. Catherine Streeter—W. M.; Forrest Streeter—W. P.; Mrs. Edith Dorsey—A. M.; Duell Pearsall—A. P.; Mrs. Sara Brown—Sec'y; Mrs. Mary Bernard—Treas.; Mrs. Isabelle Westcott—Cond.; Mrs. Agnes Harsch—A. Cond.; Mrs. Beatrice Wilson—Chaplain; Mrs. Pearl Streeter—Marshal; Mrs. Sarah Johnson—Organist; Mrs. Alice Bernard—Adah; Mrs. Florence Bielby—Ruth; Mrs. Laura Healy—Esther; Mrs. Olive Pearsall—Martha; Mrs. Iva French—Electa; Mrs. Muriel Greve—Warder; George Wilson—Sentinel.

The bride was employed in the telephone office at Standish for four years prior to her transfer about two years ago to the Michigan Bell Telephone Company office at East Tawas where she has been chief operator since that time. They many friends extend congratulations.

ALABASTER HIGH SCHOOL RAPIDLY GAINING IN NUMBER OF STUDENTS

Sanitary Inspector Reagan of West Branch met with the Alabaster Board of Education on Saturday evening to discuss several minor changes which will be made in the school building this summer. In the four counties included in the Health Unit over which Mr. Reagan has charge, the Alabaster school ranks second. When the few changes are made this summer the school will rank approximately 100%. It has been the policy of the Board to cooperate closely with all authorities in matters of school operation. The school was placed on the list of approved twelfth grade schools for the year 1932-1933.

Many parents have expressed themselves as in favor of an accredited school in Alabaster, and with the rapid growth in the number of high school students it seems that their hopes may be realized shortly. The number of students in the high school this term totaled 30 as compared with four a few years ago. Next term there will be about 40 with the possibility of a few pupils from Arenac county entering.

The entire force of teachers has signed contracts to return next year. This will include E. R. Erickson and Miss Bolen in the high school, and Miss Anderson, Miss Miller and Miss Klisch in the grades.

EMANUEL LUTHERAN CHURCH

Friday, June 10—Choir rehearsal, 8:00 p. m.

Sunday, June 12—English confirmation service at 9:30 a. m. A class of five catechumens, who have been duly instructed in the chief doctrines of the Christian faith, will be examined and confirmed in Sunday's service, thereafter to be permitted to partake of the Lord's Supper. The class consists of the following: Herbert Zollweg, Charles Kobs, Marilyn Haglund, Martha Becker and Elsie Wojahn. Every body is welcome to attend our services.

Monday, June 13—Choir rehearsal, 8:00 p. m.

Friday, June 17—Choir rehearsal, 8:00 p. m.

W. C. Voss, Pastor.

APPOINTED DIRECTOR OF DEPARTMENT OF HORSES AND COLISEUM FOR STATE FAIR

Appointment of George A. Prescott, Jr., of Tawas City, one of the oldest members in point of service or the Board of Managers of State Fairs, to be director of the department of horses and coliseum during the forthcoming fair, September 4th to 10th, was announced following an organization meeting of the board.

Mr. Prescott is one of Michigan's pioneer agriculturists. His first connection with the Michigan State Fair antedates 1920. His selection as director of the fair's horse department was unanimous as the honor has been an annual one for him almost since his earliest days with the fair.

ALABASTER HIGH SCHOOL DOGS MUST BE KEPT ON PREMISES WARNS SHERIFF MILLER

All dogs must be kept on owners' premises, warns Sheriff Charles Miller. This applies to dogs in cities as well as country. He said that dogs found away from their owners' homes and not under someone's care would be killed.

14 AUTOES WRECKED IN FILMING "CROWD ROARS"

Fourteen racing automobiles were wrecked in the "shooting" of scenes for "The Crowd Roars," the Warner Bros. special production starring James Cagney and Joan Blondell, which plays at the Family Theatre, East Tawas, Tuesday, Wednesday and Thursday, June 14, 15 and 16. Four of the wrecks occurred at the Indianapolis Speedway where How ard Hawks, director and co-author, took a special crew. The ten other accidents occurred in and around Hollywood.

COMPLETE VISION TEST OF SCHOOL CHILDREN

Dr. Sara D. Schweinsburg, Children's Fund ophthalmologist, has just completed her work of vision testing of school children referred by the nurse or school authorities. Over 100 pairs of glasses have been prescribed and furnished to school children in Iosco county.

Besides the children who have had vision defects cared for by the Children's Fund, during the past year parents who were able to do so have responded to notices sent home by the doctor or nurse regarding poor vision very well, and a fairly large number of children have secured glasses promptly. The children who have had their vision defects corrected, in general have shown improvement in class work and on subsequent examination have shown improvement in the condition of the eyes.

Mrs. Tomlinson left Monday for Detroit to visit with her daughter.

Mrs. T. Warren entertained the first Tuesday bridge club at her home Tuesday evening. Mrs. Chas. Dimmick won first prize.

Mrs. Fred Wilkins of Alpena spent Thursday in the city with her mother, Mrs. Carrie Brown.

Mrs. Frank Klinger and daughter spent Tuesday in Bay City.

Misses Helen Misener and Regina Barkman spent Tuesday in Alpena.

Mr. and Mrs. H. Hennigar spent the week end in Alpena.

Mrs. McDonald, who has been visiting with her daughter, Mrs. Hennigar, for a week, returned to her home in Alpena.

Get your new ice box or refrigerator now. We have some real bargains. Evans Furniture Co. adv

The annual East Tawas high school alumni and Iosco County Normal banquet was held at the Holland Hotel on Saturday evening, March 4. Places were set for 110 guests. Roy McMurray of Saginaw acted as toastmaster. The following officers were chosen for the ensuing year for the County Normal: Mrs. Emma Anschuetz, President; Miss Clara Bolen, Vice-president; Miss Dorothy Anderson of Alabaster, Secretary and Treasurer. The following were chosen for the high school alumni: Mildred Hewson, President; Helen Misener, Vice-President; and Carl Sighn, Secretary and Treasurer. The tables were decorated in the alumni and County Normal colors of green and white, with bouquets of sweet peas. After a short program consisting of toasts and musical selections, a dancing party followed at the Community Building, where an enjoyable time was had.

(Turn to No. 3, Back Page)

RELIGIOUS RETREAT HELD AT SAND LAKE

A religious retreat, held under the auspices of the Young People's Council of Religious Education in Iosco county, was very successful. It was held at the Y. M. C. A. Camp Iroquois Lodge at Sand Lake, June 3, 4 and 5. Mrs. Ralph Beebe, president of the council, with thirty-five other young people attended.

The leaders were as follows: H. R. Haddock, secretary of the Y. M. C. A. of Bay City, with his wife, Dr. and Mrs. D. H. Glass of Saginaw; Mrs. C. S. Brown of Harrisville; and Mrs. W. A. Evans, director of the Young People's work in the county. Mrs. Price and Mrs. Will Leslie had charge of the kitchen.

Morning dip was at 7:30 o'clock, breakfast at 8:00 o'clock, followed by clean-up and inspection, Bible Study filled the rest of the morning. The entire afternoon was given over to recreation.

On Saturday evening a very beautiful candle-light service was given, Mrs. Beebe being in charge.

ODDFELLOWS, REBEKAHS WILL HOLD MEMORIAL SERVICES ON SUNDAY

The Oddfellow and Rebekah Memorial services will be held at the Oddfellow Temple this coming Sunday morning at 10:00 o'clock, Eastern time. The following program will be rendered:

Opening hymn, "Bless Be the Tie That Binds."

Prayer by Frank F. Taylor, P. G.

Sacred music by Odds Trio.

Scripture reading by Rev. G. Walstrom.

"Rock of Ages," by Odds Trio.

Under the direction of Captain of the Staff, Lena Herstrom, the Rebekahs will conduct the memorial. Noble Grand Mae Dease will sing "The Old Rugged Cross," and Elsie Ahonen will sing "The Haven of Rest." Mary Anderson will be at the piano. The following Rebekahs will assist in various ways and parts: Elizabeth Tuttle, Maud Klump, Cora Davey, Mildred Dekette, Jessie Bennington, Edith Davey, Lucile Klump, Anna Hanson, Ada Sullivan, Sedit Grunden, Lorna Schanbeck, Ollie Cecil, Nettie Dillon, and Leona Smith.

Benediction by the Trio.

This is a public meeting at which time the Rebekahs and Oddfellows urge you to come and join with them in an hour of worship.

MONTGOMERY STARS IN BRITISH COMEDY DRAMA

British races, a London playhouse, and the gathering places of the high society in the British capital are woven into a lulling romance and comedy interlarded with a delightful love story in "But the Flesh is Weak," Metro-Goldwyn-Mayer's new Robert Montgomery starring picture coming Sunday and Monday, June 12 and 13, to the Family Theatre, East Tawas.

The picture, based on Ivor Novello's famous London and New York stage success, "The Truth Game," shows Montgomery as a debonair and aristocratic London fortune hunter—who tries to marry for money until another girl comes along with whom he falls in love.

Comical trials and tribulations run high, and Montgomery romps through a maze of whimsically comic adventures, in which there is also a dramatic heart-interest story.

An elaborate cast appears supporting Mr. Montgomery, including Nils Asther, returning to the screen now that he has mastered English, Nora Gregor, Heather Thatcher, C. Aubrey Smith, Edward Everett Horton, Frederick Kerr and many others.

CHILD HEALTH COMMITTEE TO MEET AT HIGH ROLLWAYS

The County Child Health Committee meeting for June will be held Tuesday afternoon, June 14, at the High Rollways on the AuSable river. The Wilber township group will have charge of the entertainment, after which will be a pot luck picnic supper. Everyone is welcome.

MT. ETNA'S ISLAND

Sicilian Boys Pressing the Essence From Lemon Rinds.

(Prepared by National Geographic Society, Washington, D. C.)—WNU Service.

SICILY goes back to work as the summit of Mt. Etna, famous landmark of the Mediterranean island, resumes its peaceful, eternal steaming. Recent rumblings and explosions within the mountain have preceded devastating lava flows in the past.

The present "threat" recalls the eruption of the huge volcano in 1928 when a lava stream, flowing like a 2,500-foot ribbon from one of its craters, flooded the eastern slope, one of the island's most fertile regions.

Orchards, vineyards and forests were destroyed; also the villages and towns that thrived on their products. More than a quarter million people live on the slopes of Mount Etna. The eastern slope is the most thickly populated with one town almost adjoining another. Almost every foot of ground not used for dwellings is cultivated, yielding abundant crops.

Etna has terrorized this district many times before. Whether the traveler goes by train or automobile down the east coast of Sicily, he passes flow after flow of lava. Some of them are centuries old; others more recently deposited from some of the two hundred craters that pepper the side of the cone-shaped mountain. The town of Acireale perches on a 300-foot cliff formed of seven distinct layers of lava.

Within the Christian era, Mount Etna has boiled over its crater rims more than a hundred times. It has wiped out cities, towns and villages and spelled doom to thousands of homes. Almost daily Mount Etna rumbles, and its summit constantly emits steam, but it takes more than these "suggestions" of action even to arouse the Sicilian's curiosity. The homes of their ancestors are sandwiched between two of the lava flows, and many of the present generation, like those of Mascali and Nunziata, chief sufferers of the last decade, have watched their homes sink beneath a new molten bed.

Catania, Birthplace of Bellini.

Catania, lying at the foot of the mountain, has been destroyed and rebuilt many times. Catanians know Mount Etna so well that the famous volcano has to spit fire and boil over its rim before they seek shelter.

To the Catanian who loves his modern city, Etna has been a benefactor. To the traveler in search of antiquities it has been a despoiler, for ancient Catania of Greek, Roman, Saracen and Norman days is buried, save for a Greek theater, a Roman amphitheater, some baths and a few unimportant monuments.

Catania is more interested in its wide thoroughfares, public squares and parks, and in honoring her illustrious sons than in digging up ancient relics of a restless past. Bellini the composer was born there in 1802, and Catanians are not allowed to forget it. A statue of the composer adorns villa Bellini, one of the city's finest parks where on summer evenings one can sit and listen to Italian melodies played by a fine Sicilian band. The vine-clad slopes and the white head of Mount Etna form a magnificent background.

Another statue of the composer adorns the Piazza Stesicoro through which runs the Via Etna, Catania's main street from the southern part of the city to the foot of the great mountain. A third statue stands among those of kings and great Italian and Sicilian patriots in the cathedral. There is also a Bellini theater, once the finest in Italy, and the Catania guides point with pride to the tablet which marks the house in which the composer was born.

The cathedral, and a lava elephant atop a tall marble base at its front door, are two of the most popular monuments of early Catania. The elephant's origin is unknown but the cathedral is credited to the prosperous reign of the Norman King Roger. Built in 1901, it was badly damaged by successive earthquakes and eruptions of Mount Etna, but each time it has been restored and used.

Agatha, the Patron Saint.

More honored than even the kings' monuments in the cathedral is that of St. Agatha, Catania's patron saint. The head of her statue is said to contain the head of the saint who in defense of her virtue was tortured by a Roman praetor in the Third century. Among her relics is a veil which is said to have miraculously diverted a lava stream that menaced Catania in 1689.

Once a year, in February, Catania turns out en masse to honor her. The statue, mounted on two long poles, is

borne through the streets from church to church by white-robed men. The route of the procession is jammed to suffocation, old balconies groan under the weight of humanity and every roof has its quota of spectators. At night there are torchlight processions which brilliantly light up the city, and in nearly every window a candle or two throws feeble beams. The yelling and whistling and confusion of the day continue, augmented by the booming of colorful fireworks, the toll of church bells and the occasional roar of a cannon.

The St. Agatha celebration is only once a year. Before and after, Catania is busy with its commerce and industry. The harbor is filled with commercial craft whose flags add a colorful touch to the view from the Flora della Marina, a narrow but beautiful parkway near the water's edge.

Catania is not only the second largest city in Sicily but one of the island's chief gates of export through which some 600,000 tons of merchandise pass annually. Sulphur, fruit and wine have made fortunes for Catanians, and these and other industries keep many of the city's 271,000 inhabitants employed.

Attractive to Travelers.

Interest in Mount Etna's moods is not entirely confined to the volcano's immediate neighborhood. All Sicily feels the death-dealing blows of lava flows as much as all America feels the lash of a hurricane sweeping Florida. Normally, however, Sicily is an island garden spot which nature has endowed with a warm sunny climate and all the charm that might go with it.

Its wild mountain scenery, ancient history, and picturesque inhabitants make it a mecca of European winter tourists. Travel in the interior was formerly considered unsafe because of brigandage. Such conditions, however, have long since been eliminated. Now the visitor is safe, and in addition to native inns, comfortable pensions are conducted by French, German and English landlords of many years' residence in the country. Provincial towns of Sicily are famous for their situation, high up on picturesque hillsides or on rocky promontories jutting into the blue waters of the Mediterranean. Many of these towns are built on Greek foundations and contain ruins of Roman, Saracen, and Norman origin. A few Greek temples and theaters are practically intact.

Natives Are a Cheerful Lot.

Racial types among the peasantry vary from classic Greek and swarthy Arab to blond Norman and haughty Spanish. In spite of his mixed ancestry, however, the Sicilian of today is distinctly a Latin product in matters of disposition, culture and religion. Travelers unite in testifying to his cheerfulness, quickness of perception, and hospitality. Stable government and education are said to be doing much to stamp out superstition and secret vengeance and terrorism. This movement for better conditions is exemplified by wholesale prosecutions against outlaw gangs now taking place at the old Roman bathing resort of Termini Imerese.

In Roman times the Island of Sicily was called the granary of Italy, and, while no longer specializing in wheat it is one of Europe's mainstays in the production of citrus fruits. Only California rivals Sicily as a grower of lemons. A part of the lemon crop is marketed in the form of citrate of lime and lemon extract.

For thousands of years this football at the toe of Italy has been the melting pot of many races. Its early inhabitants, the Sikels, who gave the island its name, were conquered by Greeks, whose great cities such as Syracuse dominated the land for five hundred years. Next came the rising power of Rome, during whose heyday Sicily was given over to the plunder of successive governors. Roman oppression grew so cruel that gangs of plantation slaves twice rose in revolution. Succeeding centuries saw Saracen conquests, Norman kingdoms, and Bourbon misrule. Finally, freed by Garibaldi, Sicily became a part of the kingdom of Italy.

During the last half century industrial conditions and political relations have not always been to the liking of the Sicilians, so that the island has been called the "Ireland of the South." Many thousand sons of the racial melting pot emigrated to America, some districts being stripped bare of men of working age. One town whose present population is 25,000, has sent 15,000 emigrants to the new country.

Beauty Talks

By

MARJORIE DUNCAN

Famous Beauty Expert

Fear of This and That

SOME women are born worriers, always full of apprehension. Think of all the things you have dreaded and feared. How many of them have really happened to you? Whether you are twenty-five or eighty—you have probably spent a lot of energy worrying about things that never happened. The energy wasted in apprehension would have accomplished many worthwhile things! Fear, worry, and apprehension kept you from doing or attempting many things you would have liked to attempt, things you would have enjoyed and which would have made you a more versatile and interesting personality. For such emotions react upon the nerves. They diminish initiative and creative ability. Why meet life like a child in the dark, who fears there is a bear in the dark recess of the hall, and a bug-aboo in the closet? Build up your resistance by using your energy for exercises which build and strengthen muscles; by sleeping in well-aired bedrooms; by keeping your house at a reasonable, even temperature; by taking baths and rubbing the body briskly with a Turkish towel to remove all clogging dead flakes of skin. You will improve your circulation to an extent which will increase your resistance against taking colds.

Sensible diet and avoiding constipation will increase your resistance against colds and against many other ills.

If you are always fearing this or that disease, you are probably always fearing this or that accident. If you are, you are depleting your physical health, and are depriving yourself of so many pleasure and personal contacts. Build up your health and tackle some of the fearbugs. Do some of the things you fear to do, and rid yourself of such phobias.

Arm yourself with common sense judgment as to precautions against disease and the accidents of recklessness, but don't be a coward. Cultivate a valiant spirit. Then the beauty treatments I prescribe will have a firm foundation. For an uplifted spirit will lift the face, without pain, danger or expense! You all know the adage "don't trouble trouble until trouble troubles you." It is a wise saying—that.

Be Natural and You Will Be Lovely

IT SEEMS to me that youth's greatest assets are naturalness, the health, the sparkle, glow and enthusiasm that are youth's rightful heritage. And youth's stumbling blocks are self-consciousness and overemphasis on physical beauty.

Youth is impatient to grow up, to be a definite personality, to make the world aware of that personality. The longest letters beauty editors receive are from the sweet young things. The greatest number of questions are asked by girls of twenty and under and twelve is the age at which they usually start. And the greatest mutiny against the powers that created them are voiced by these young girls. Nose too long and legs too short, too much hip and too little bust, hair too straight and too much curve to the figure. These are only a very, very few of the complaints. Youth's impatience. Young girls of fourteen should not attempt to adopt strenuous reducing regimes. Let nature take its course. A little excess fat for a few years won't hurt, and the gods may yet be good to you if you bide your time.

People seeking advice on how to cultivate a charming manner clearly indicate over-anxiety and self-consciousness. Be natural, be yourself, and you will be lovely. Let common sense guide you.

As for actual beauty aids, very few are necessary. Scrupulous cleanliness should be your creed. The health rules should be religiously observed.

A cleansing cream and good skin tonic and a little nourishing cream make a splendid group of facial preparations for the young girl of sixteen or so. A very good powder can grace her dressing table—but it should be very lightly applied. A good hair brush is a necessity, quite as much as the tooth brush. Beyond that, with the possible exception of the personal daintiness effects such as a deodorant, bath salts, body powder, and manuring articles, nothing is necessary. And speaking of manicures, too-pointed nails and too brightly painted are all out of place on a sixteen-year-old hand.

Youth—natural lovely youth—eyes, clear and sparkling, skin glowing, body vibrant with health, is something we all try to cling to when it starts slipping. Cultivate a love of life and health. For fine living and fine thinking, interest and enthusiasm will give you more beauty and more lasting beauty than all the cosmetics in the world. Don't be impatient to grow up and make-up. Enjoy the bubbling beauty that is the very essence of youth.

Man With Vision

Initiative is the middle name of the up-and-at-'em fellow who believes there is always a better way to do something, a better product to be made, a better job to be had. He holds no sacred belief in things as they are, but wants something bigger and better.—Grit.

Modern Contract Bridge

No. 4.

The Rule of Eight

DURING the play of the thirteen tricks of a hand, four tricks will be won by aces, about four or five with other honor cards, and the remainder with lower cards. Thus we get a yardstick for the trick measurement of a hand.

The Yardstick of Tricks.

Honor-Tricks	Low Card Tricks
8	5
(possibly 8½)	

In suit bids these low card tricks are won by trumps, or by end cards of set up side suits. At no trumps, all tricks are won either by honors or by end cards of suits.

In measuring your total trick expectancy, in accordance with your honor-tricks you may use the following count:

The 4-5-5½ Count		(At No Trump)	
Honor-tricks	Will de-	So that the	held between
partners.	card	tricks	tricks
4 to 4½	2 to 3	One-odd	(or down 1)
5	3	Two-odd	
5½ or more	3 to 4	GAME.	

When you and your partner are bidding a suit, it is highly improbable that against your trump defense the opponents will be able to win any low card tricks. So you have only the definite fear of their defense in honor-tricks. Therefore a partnership holding of 5½ honor-tricks with strong trumps puts you in the game zone with a major suit bid. To carry you over the long hard road to game at a minor suit, where the opponents must be held down to two defensive tricks, some additional honor strength is usually needed.

To give a brief outline of the specific use of the yardstick in the most generally recurrent situation, let us assume that you are in the position of responding to your partner's original suit bid of one. If he has bid first or second hand, you know that he has at least 2½ honor-tricks. He may have more than 2½ honor-tricks, even, possibly, as many as 5. If so, these surplus tricks will be shown in subsequent rounds. For the present you must assume that he holds the minimum, an unbreakable rule in this system.

We will suppose that you have counted your honor-tricks immediately upon sorting your hand so as to be ready for any emergency. How you have only to add your number to the minimum of 2½ shown by partner to know whether or not your partnership total of honor-tricks (5½) puts you in the desired game zone. If you find this to be the case, you must serve prompt notice of the important fact on your partner. This notice may be served in any one of three ways which you deem advisable. First, by an immediate bid for game at your partner's declaration; second, by a bid for game at no trump; or third, by a jump forcing take-out, of one more than necessary, in another suit.

If your partner has opened with a major suit in which you have length or strength, and you have a short side suit that gives you the probability of making some separate use of your trumps, it is usually best to choose your partner's suit for the game try.

Lacking trump assistance, or another biddable suit, a three no trump bid would, naturally, be your only recourse. But when you hold with your 3 honor-tricks a long or strong suit of your own, the game probability should be announced by a forcing take-out. This forcing take-out is the most important and the most often employed of the three unconditional forcing bids of the forcing system. It will be fully outlined in a later article.

Learned to Leave Fire Alone

One of the most amusing incidents of the early days of anthracite was when a firm of wire manufacturers, early in the Nineteenth century, attempted to substitute anthracite coal for soft coal in their rolling mill. After working for two days and using two cartloads of coal they were about to give up. The attendants of the fire, who had done a lot of work with pokers, laid down these tools and went to lunch. When they returned they were astonished to note that the furnace was red hot. Opening the door they found the interior glowing with intense white heat. So, accidentally, they found that the way to make an anthracite fire burn was to leave it alone!

Remarkable Tide Ranges

The United States coast and geodetic survey says that the largest periodic range of tide on the coast of the United States proper occurs in the St. Croix river, Maine. In this locality there is an average range of 20 feet and a spring range of about 23 feet. In Turnagain arm, Cook Inlet, Alaska, there is a mean range of approximately 30 feet and a spring range of approximately 33 feet. The largest known periodic tides in the world occur in Minas basin, Bay of Fundy, Nova Scotia, where a mean range of 42 feet and a spring range of 45 feet have been reported.

When in Venice Royalty Does as Venetians Do

WHEN the king and queen of Italy visited Venice to take part in the opening of the International Exhibition of Art they boarded a gondola and lead the gorgeous procession which is here seen passing the famous Ducal palace.

FRENCH PASTRIES

THE beautiful small cakes and pastries which are so attractively decorated and we find so expensive when we come to purchase, may be prepared at home with little work.

There are several kinds of foundations, the puff paste, chow paste (this is the kind used when making cream puffs), then the cake foundation and short bread pastry.

Almond Slices.

Spread the entire sheet of cake with a tart jelly or jam beaten to a paste, then cut it into strips three to four inches long and one and one-half inches wide. Spread the sides with jelly. Top each with a heavy meringue made with two egg whites, eight tablespoonfuls of sugar and one-fourth teaspoonful of almond extract. Arrange with a pastry tube, then sprinkle with powdered sugar and top with shredded almonds. Place in a slow oven to lightly brown.

Neapolitan Squares.

Cut the cake into two-inch squares, spread half the squares with apricot jam, currant jelly or orange marmalade, cover with the squares and press together between boards until firmly joined. Now spread the sides with jelly beaten to a paste with a few drops of water and dip each into finely chopped coconut. Ice the tops with a thick chocolate icing and in the center place a halved maraschino cherry, cut side down; add stem and leaves of citron or green icing.

Fruit Pastries.

Use the cake foundation, cut into strips, squares or rounds, put together with a custard cream of orange, lemon or jelly. On top of each place a halved pear or peach which has been cooked until transparent in a heavy sirup, using one cupful of the juice and three-fourths cupful of sugar. While cooling paste with this sirup as this will give a nice glaze. When the fruit is arranged pipe a border of whipped cream, sweetened and flavored, all around the sides and top.

For early spring days the elegant black taffeta Eton jacket made with double capes is the latest thing.

Children's Story

By THORNTON W. BURGESS

To do a thing that must be done There's usually more ways than one.

THIS means, of course, that if one way fails you shouldn't give up and think the thing cannot be done. You should try to find some other way. Often it will be a most unexpected way, a way that you discover by accident. There was the case of Busy Bee and her fellow workers when Buster Bear found their storehouse and began to rob it of their honey. They had done their best to drive him away. They had used the sharp little lances in their tails for all they were worth. If it had been anyone but Buster Bear they would have succeeded in driving the robber away. But though they

Down He Came to the Ground With a Thump That Would Have Knocked the Wind From Anyone but Buster Bear.

fought as hard as they could, and stung with all their might, they couldn't drive Buster away from that honey. To Buster's way of thinking that honey was worth all the pain of the stings. And then, quite by accident, they discovered a way of getting rid of him. Some of them flying about found Farmer Brown's Boy watching what was going on, and in the blindness of their anger mistook him for another enemy, and promptly treated him as they had treated Buster Bear.

Now Farmer Brown's Boy has no such thick skin as has Buster Bear.

At the first sting, which felt as if a red-hot needle had been thrust into him, he jumped from his hiding place. Before you could say Jack Robinson half a dozen bees had stung him and a cloud of them were about him. He forgot his interest in Buster Bear. In fact he forgot all about Buster Bear. He had but one thought, and this was that he couldn't get away from that place quick enough. It had suddenly become altogether too hot a place for him. He let out a yell. Yes, sir, he let out a yell, and it was a good loud yell. Then he started to get away from there as fast as his legs would take him, and he didn't care how much noise he made in doing it.

Now Buster Bear had been so greedily stuffing himself with honey that he had had no thought for anything else. He had no idea that Farmer Brown's Boy was anywhere near. Usually his ears and his nose are ever ready to warn him of the presence of others, but this time his ears were filled with the angry hum of the bees, and his nose was clogged with honey. So he had not heard Farmer Brown's Boy approach, and he had not smelled him. Then right into the middle of his enjoyment broke that wild yell. He couldn't help hearing that.

Now, as you know, the one thing Buster Bear fears is man. He knows all about the dreadful freesticks which no one but man carries, and at the least suspicion that man is about Buster runs away. If he were cornered and couldn't run he would fight as bravely as the bravest, but he is a firm believer in the old saying that he who runs away will live to fight another day, when man is concerned.

The instant he heard that wild yell he forgot everything but that he was caught in a bad fix. He was caught up a tree and that was no place for a bear to be with a man about, even though that man were only a boy. He lost all interest in honey. He had but one thought, and that was to get away from there as quickly as ever he could. To climb down would take too long. So Buster just simply let go and dropped. Yes, sir, that is what Buster Bear did, he let go and dropped. Buster's bones are not like other bones. They are not brittle and easily broken. The branches below broke his fall somewhat, and he broke the branches. Down he came to the ground with a thump that would have knocked the wind from anyone but Buster Bear. And the instant he touched the ground he rushed through the Green Forest as if the Old Nick were at his heels.

Sammy Jay and Drummer the Woodpecker saw it all, Farmer Brown's Boy running for all he was worth in one direction, stumbling as he ran and slapping at angry bees, and Buster Bear tearing off in the opposite direction with a little whimper of fright with every jump, his face and coat all smeared with honey, and dirt and leaves sticking all over him. It was so funny that they laughed until they almost made themselves sick.

But Busy Bee and her fellow workers wasted no time chasing either Farmer Brown's Boy or Buster Bear. They promptly fell to work to save what honey was left and take it to another storehouse which they knew of. And this is how it happened that Buster Bear got only half a feast after all.

ON BEING A BORE

By DOUGLAS MALLOCH

I AM not what you'd call a clam; I don't know what to do about it. I am at times the great I Am. Not merely say it, fairly shout it, And fill the family with shame, A self-made man of self-made fame.

The things I know, or think I know, It seems I'm always telling someone.

It seems I am a Dora, though I must admit I'm not a dumb one. I think I am a wit so bright, And people say that I'm half right.

My little jokes I like to crack, And people always laugh politely, And yet they say, behind my back, I should converse more eruditely. Last night, invited out to dine, I swore no more I'd try to shine.

So, when there came a painful pause, I kept as silent as I meant to; And I must say the dinner was About the worst I ever went to. I didn't say ten words, I guess, And all the others even less.

(© 1932, Douglas Malloch.)—WNU Service.

All Made of Cotton

This costume, designed especially for wear at summer resorts, is entirely of cotton. It has one of the new shorter swagger coats in red, matching the eyelet embroidery on the white bastiste dress.

KITTY McKAY

By Nina Wilcox Putnam

The girl-friend says she adores dogs; hot-dogs, swell dogs, comfortable dogs, gay dogs, and, oh, yes, pups!

MERCURY DEPOSITS FOUND IN ARKANSAS

Washington.—Discovery of deposits of mercury in Arkansas adds another important metal to that state's list of mineral resources.

"New domestic mercury deposits are important because more mercury is used in the United States than in any other country, and more than one-third of the domestic consumption now must be imported from Europe," says a bulletin from the National Geographic society.

"Mercury has been known for at least 2,500 years, but its wide use is a development of recent centuries. Today it is employed in about a thousand ways.

"A thin stream of the silvery liquid metal sealed in a glass thermometer tube has long been man's aid in determining temperatures; in barometers, weather forecasters depend upon it to foretell changes in weather; in altimeters, it aids aviators to determine how high they are flying; and marine engineers use it in meters to estimate the flow of water.

"Mercury often does its best work where man least expects it. The life of many a sleeping voyager is guarded by huge lighthouse beacons that revolve on floating mercury bearings, and many toothaches have been avoided by gold or silver amalgam teeth fillings made possible by mercury. The life of dry batteries is prolonged because mercury protects their zinc plates.

The golfer plays on velvety greens and the farmer harvests healthy crops because a small quantity of mercury, mixed with fertilizers, kills insects that attack plant roots. The ship owner cleans the scale from the boilers of his ships with paint containing mercury because it thwarts the rapid growth of barnacles. When fashion decrees that felt hats should be 'nappy,' the hat manufacturer produces the desired effect with mercury.

"In many ways the metal loses its identity in various kinds of mixtures. It is in milady's rouge box and lipstick case where it is available to produce synthetic pink cheeks and red lips. The 'silvered' mirror into which she peers to apply her cosmetics is in reality, a 'mercuried' mirror.

"About one-third of the world's supply of mercury is used in the drug and chemical industries. It helps to produce soda used in the manufacture of artificial silk and is an ingredient of some dyes.

"It is mercury that produces the green lights and helps to produce the blue lights in colored light advertising signs. Because it is dependable in maintaining even temperature during oil distilling operations, it is an important 'tool' of the oil industry.

"As a safe, dependable detonator for explosives, it was one of the so-called

war minerals during the World war. In peace times its detonating uses are legion. It helps to blast tunnels through mountains and gouge cuts for railroads and highways, razes tree stumps and stones to clear land for many purposes, loosens limestone, granite and barble from quarries for new buildings, and dislodges minerals from mines.

"Radio programs are amplified in American living rooms by radio tubes in the manufacture of which mercury had a part, and many electrical devices used in modern buildings were produced with the aid of mercury. One of the most outstanding recently developed uses of mercury is in power plants. The new plant uses mercury vapor instead of steam.

"Now and then mercury is found in its liquid metal state but more often it appears in a red mercury-sulphur ore called cinnabar, from which the metal is extracted by a roasting process.

"Mercury is known to exist on every continent but most of the world's supply comes from Spain and Italy, with Spain leading in production. The mines which give Italy second rank among mercury-producing countries

Statistics Refute

"Weaker Sex" Idea

Washington.—The "weaker sex" idea has been overthrown, officially.

Public health records show that: Girls have a lower mortality rate at birth and during childhood.

They begin to walk at six weeks to two months before their supposedly stronger brothers.

They begin to talk from two to three months earlier in life than the boys.

Women can stand more pain than men.

The statistics came from numerous searches and hospital tests recorded in the health service and census files.

are situated near Trieste and in Tuscany. The United States is third on the mercury production list, with California leading the 'mercury states' which include Oregon, Nevada, Washington, Texas, and Arizona. The metal also is mined in Alaska, Mexico, Canada, China, Russia, Czechoslovakia, Austria, Algeria, Japan, Rumania, New Zealand and Australia. Peru once was an important South American source of mercury, but production ceased several years ago."

"Varmint" Hunters Busy in California

As part of a drive to rid an area within a radius of 50 miles around San Francisco of wild beasts that destroy domestic animals, the state "varmint" hunters have been very busy in Marin and Mendocino counties and bagged a number of bobcats, black bears and coyotes. Some of them are here shown with a bobcat that had been killing calves on a dairy ranch.

U. S. Plans Library of Crime

Washington.—The most ambitious and far-reaching program of scientific criminal identification ever undertaken is being quietly pressed here by the bureau of investigation of the United States Department of Justice.

Under a new division of identification and information of the bureau, a nation-wide campaign, in which 4,000 police departments and other agencies are co-operating, is under way to build up in Washington an exhaustive national library of finger-print records and other crime data.

Already finger-prints of 1,750,000 male and female lawbreakers have been secured, classified and filed, and 1,700 cards are being added every day. Over 3,500,000 cards containing names and aliases of criminals already have been collected.

Against this unprecedented assembly of crime records Scotland Yard is said to have only 500,000 sets of fingerprints. Under the new plan, wherever an infraction of the law occurs in the United States, even though a minor offense is involved, duplicate

fingerprints, with accompanying data, are immediately sent on to Washington by the local police. There search of the files is made to determine whether identical prints are already on file under the same name, or some alias. So efficient is the classifying and filing system that the average search requires but from three to five minutes.

Often the offender is discovered to have committed a crime in another part of the country. Out of every 100 sets of prints sent to Washington previous records are found in 37 cases and data on the offender's past life is reported back to the local authorities within 48 hours.

Beginning July 1 all applicants for United States government jobs will be required to submit to fingerprinting. Out of 1,000 applicants for Christmas postal jobs the government found that 14 had criminal records, as revealed by the fingerprint division. The army has found 53 criminals out of 1,000 enlisted men.

Hordes of Monkeys Lay Siege to City of Delhi

Delhi, India.—A monkey plague disrupted Delhi's normal life as thousands of chattering, screaming monkeys invaded the city from outlying districts.

A special monkey officer was appointed to deal with the situation. He and his aides captured hordes of screaming prisoners and dumped them outside the city limits, but the monkeys returned immediately.

The Municipal council rejected a proposal to establish a monkey house near Delhi, on the ground that it was impractical. Meanwhile the monkeys dominated the city.

Vet Wants Compensation for Corns War Gave Him

New Orleans.—Claiming that rigorous wartime drilling gave him "incurable corns" on the bottom of his feet, Willie Lee Johnson, World war veteran, appeared in Federal court here and asked full disability payment under provisions of the war risk insurance act. Johnson, a railway brakeman by trade, said he had been unable to follow his profession since his discharge.

Cross of 1,000 Pieces

Brockton, Mass.—A carved cross, two feet high and containing 1,000 separate pieces of wood, was made by Daniel Stittils. No twine, pegs, glue or nails were used.

Control Plane Traffic With New Light Pistol

Washington.—A "spotlight" for air traffic control has been perfected by the aeronautics branch of the United States Department of Commerce.

The projector, which resembles an overfat pistol, works on the same principle as ground traffic lights at street crossings. It throws a red or green beam and thus can be used to signal a pilot whether or not to land. Of course, other forms of signaling may be devised.

Col. Clarence M. Young, assistant secretary of commerce in charge of aeronautics, recently conducted a flight over Washington to test the new projector. An assistant stood on the ground holding the light while the plane flew from 2,000 to 3,000 feet overhead, and at as great a distance as six miles from the airport. The projector operator manipulated the trigger which controls the light, and the beam shifted from green to red and red to green. By means of sights the operator could spot the plane and direct the beam at it. The beam was clearly discernible to the occupants of the plane.

The department's new device gives a beam of 37,000 candlepower, which makes it visible day or night at great distances, and even though the visibility be poor.

107,744 Italians Go Back to Old Country

Rome.—A total of 107,744 Italian laborers returned to Italy from abroad in 1931. Of the number, 22,895 returned from the United States; 32,199 from France; 17,120 from Switzerland; 14,581 from Argentine and the balance from other South American and European countries. Italian census figures, revised from April, 1931, give the population as 42,521,667 as of January 31, 1932.

One Birthday Party Takes Care of Their Children

Bridgton, Maine.—Mr. and Mrs. Howard Ashby's children celebrated their birthday anniversaries with one big party.

Charles was born January 22, 1915. Mabel was born January 22, 1917. Carrie was born January 22, 1919.

Bell Rings 147 Years

Lossiemouth, Scotland.—"Lady Gordon," a bell weighing over a quarter of a hundredweight, first started ringing in 1785 and can still be heard at Ramsay MacDonald's Scottish home, the Hilllocks, as it rings in its turret at Lossiemouth railroad station.

This Is for Salvage, Pearls or Sponges

EMIL KULK, inventor, explaining his deep sea salvager, the child of his brain, to Miss Esther Tafel, at the Fourth International Patent exposition in Grand Central palace, New York. The queer-looking apparatus is suitable for deep-sea salvaging, undersea photography and pearl, coral and sponge fishing.

THE TAWAS HERALD

P. N. THORNTON, Publisher

Published every Friday and entered at the Tawas City Postoffice as second class matter

HALE

Two popular young people were married last Saturday, June 4, when Miss Thelma Morgan became the bride of Earl Slosser. Mr. and Mrs. Slosser will make their home in Hale. Friends are extending congratulations and best wishes.

Business visitors noted in the village this week from neighboring towns were Percy Thornton of the Tawas Herald on Monday and H. Jacques and C. Ridgley of Whitteville on Wednesday.

Mrs. R. Wendall and little daughter of Cincinnati, Ohio, Mrs. Van DeMarker and Mrs. Alice Lamb of Lansing are visiting relatives and friends in Hale this week.

Mrs. John Brown of Loon Lake left on Wednesday for Birmingham to attend the commencement exercises of Birmingham high school. Her son, Roland, is a member of the class.

Mrs. Rose Kelly and daughter, Anna, moved into their farm home on Wednesday of last week. The new 5-room house sets a little south and east of the log house, the family home for many years.

Mr. and Mrs. C. Franklin of Rochester, Mich., visited Mrs. Franklin's mother, Mrs. Roy Barnard, last week.

Next Sunday, June 12, Children's Day exercises will be held at the M. E. Sunday School at the usual Sunday School hour. You are invited to attend.

Big Mystery

Another thing we don't understand about this "truth serum" is where they get the stuff to make it with.—Arkansas Gazette

TOWNLIN

Mr. and Mrs. James Graham of Swan Creek, Mr. and Mrs. Willer Brown and family of Harrisville visited at the home of Mr. and Mrs. James Brown Sunday.

Mrs. William Bellinger attended the funeral of her cousin, LaVerne Bellinger, at Bay City last week.

Mr. and Mrs. Ervin Ulman and Frank Ulman and children were Sunday visitors at the home of Mr. and Mrs. John Ulman.

Mr. and Mrs. Charles Koepe are moving on their farm on the lower Townline this week.

Mr. and Mrs. W. Curtis of Detroit have moved in their new home.

Mr. and Mrs. Charles Hughes and family of Tawas City visited Mr. and Mrs. Beryl Hughes Sunday.

Mrs. George Biggs visited relatives here Monday.

Miss Grace Free is home after working two years at National City.

Old Roman Hairpins

Ivory hairpins, found in London and dating from the Roman occupation, are knopped with the busts of Roman ladies of the empire. One in the British museum is adorned with a little statuette representing Venus wringing the water out of her hair after rising from the sea. Another is topped by an ivory hand holding a cone and encircled by a serpent.

No Perfect Timepiece

No clock or watch keeps absolutely perfect time. Astronomical clocks are very carefully regulated and errors determined regularly by observations of the stars. In distributing time by telegraph and radio the distributing clock is adjusted to within a few hundredths of a second of the correct eastern standard time.

Prolific Breeder

A female muskrat will produce from 25 to 50 young a year.

SHERMAN

J. C. Barber returned from Paulding, Ohio, last week, where he visited for a week.

Mr. and Mrs. Stanley VanSickle of Grant visited relatives here Saturday evening.

Clarence Dedrick, who has been working at Sand Lake for the past two weeks, returned home Sunday.

Riley and Peck Ross of Cedar Valley called on relatives here Monday evening.

Word was received here that James Richard, a resident of this town some years ago, died at his home near Toledo, Ohio, last month.

Grace Free, who has been clerking for Calvin Billings for the past couple of years, left her job Saturday to go back to help her mother at her home on the Townline. Elizabeth Jordan is working at the store now. We believe that the month of June means more to Grace than clerking.

Jos. and Geo. Smith and A. B. Schneider, accompanied by Ed. Smith of Alabaster were at Bay City on business Friday.

Misses Lucille Kane and Helen Gates of Tawas City visited friends here Tuesday.

Wedding bells are ringing. Charles Rouch left Saturday for Detroit for an indefinite time.

Mr. and Mrs. Philip Johnson spent Sunday at the home of her parents, Mr. and Mrs. Webb, at Hale. They were accompanied back by her mother.

Mr. and Mrs. Robt. Gillespie of Flint and their niece of Reno, visited their cousin and family, Mr. and Mrs. P. E. Hamman.

Hugh Croff of Holland, Mich., and Mr. and Mrs. Harold Croff of Jackson were called to Bay City by the serious illness of their father, Ganson Croff, who was operated on at Samaritan hospital. G. Croff was accompanied to Bay City by his wife and two step-daughters, Mrs. P. E. Hamman and Mrs. Bert Westcott.

Orville Brown of Tawas City and Miss Lucille Hamman attended the dance at Sand Lake Saturday night.

Misses Marie Fortune and Lilian Schroeder were guests at a six o'clock dinner Saturday at Mr. and Mrs. Lee's cottage at Sand Lake.

Mr. and Mrs. Will Stoutenburg and son, Melvin and family, of Flint visited a few days at his brother's, Albert Stoutenburg.

Mr. and Mrs. Simon Schuster spent Sunday with her mother, Mrs. J. Norris.

Alberta Hamman returned home after a week's visit at Five Channels Dam with her cousin, Opal Sloan, and uncle and aunt, Mr. and Mrs. B. Westcott. She was accompanied home by Opal and Orlando Westcott for a few days. Her cousin, Lucille Hamman, went home with Opal for a few days.

Mr. and Mrs. Sid Lawrence and family of Flint visited her brother, Albert Stoutenburg, Sunday.

Fred Aspin called on Mr. and Mrs. P. E. Hamman Saturday evening while enroute to Sand Lake with his sister-in-law where he has work on her cottage.

Madeline Fortune, and Mr. and Mrs. Jos. Collins of Whittemore spent Tuesday in Bay City.

Mrs. Ganson Croff came home from Bay City for a week, where she has been staying with her husband, who was operated on two weeks ago. Mr. Croff will not be home for another week as he has to stay for treatments.

Bonus in "Contract"
In progressive contract, a game is made when one side bids and makes a trick score of 100 points or more in one hand. In addition to the trick score the premium for game is 300 points if not vulnerable and 500 points if vulnerable. The side having the higher score after four deals gets a bonus of 250. If both sides have exactly the same score, each of the four players receives a bonus of 25 points.

Chips Off the Old Block
The man who carved watch charms out of peach stones left three boys: One invented the breakfast nook, another the rumble seat and the third was responsible for the little folding chairs that go with bridge tables.—Detroit News.

Penalties of Genius
Temperament is a sort of thermometer by which we register the boiling point of genius.—Los Angeles Times.

RUSSET RAISERS MEET
Reno's Real Rural Russet Raisers, Isosco County's only 4-H potato club, which was organized by and is under the leadership of Norman O. Sibley, held its first regular meeting at the home of Gerald Fournier on Saturday, June 4th.

Eleven members were taken into enrollment and the club officers were elected as follows: President, Alfred Anderson; vice-president, Harold Wagner; secretary and treasurer, Gerald L. Fournier; and news reporter, N. O. Sibley.

An advisory board consisting of Messrs. Fred Wolf, Karl Bueschen and Charles Fournier, all prominent and progressive farmers of Reno, was appointed.

KENO'S REAL RURAL.
Reno's Real Rural Russet Raisers, Isosco County's only 4-H potato club, which was organized by and is under the leadership of Norman O. Sibley, held its first regular meeting at the home of Gerald Fournier on Saturday, June 4th.

Eleven members were taken into enrollment and the club officers were elected as follows: President, Alfred Anderson; vice-president, Harold Wagner; secretary and treasurer, Gerald L. Fournier; and news reporter, N. O. Sibley.

An advisory board consisting of Messrs. Fred Wolf, Karl Bueschen and Charles Fournier, all prominent and progressive farmers of Reno, was appointed.

RENO

Children's Day exercises will be held at the Baptist church Sunday evening at 8 o'clock, E. S. T. Everybody is invited.

Mr. and Mrs. Chester Smith and Miss Taylor motored up from Flint Sunday and spent the day with relatives and friends. On their return they were accompanied by Norbert, son of Mr. and Mrs. Smith, who spent last week at the home of his aunt, Mrs. Will Waters.

Mr. and Mrs. Harry Latter visited friends in Detroit the latter part of the week. On their return Monday they were accompanied by their daughter, Clara, who has just finished her school term, and Mrs. Will Sugdeon and son, Harry Lee, who will visit here for a while.

Ruth, Helen and June Latter attended the religious conference at Sand Lake over the week end.

Mr. and Mrs. Henry Seafert, Sr., son, Albert, Mr. and Mrs. H. Wesnick and son, Lionel, attended the funeral of their uncle, Chas. Urmann, at Imlay City last Thursday.

Mr. and Mrs. Sam Hutchinson and Mr. and Mrs. H. Hutchinson and son, Roy, spent Sunday evening with Mr. and Mrs. Henry Seafert, Sr.

Mr. Senski of Standish was in the vicinity Monday in the interests of the National wool pool.

Mr. and Mrs. Henry Seafert, Sr., were Sunday dinner guests at his parental home.

Mr. Murphy of Tawas was a caller at the Will White home last Wednesday evening.

Mrs. Chas. Jackson is very sick at this writing.

Mr. and Mrs. Lester Biggs and two children spent Sunday afternoon with Mr. and Mrs. Verne Papple.

Mr. and Mrs. Karl Bueschen and daughters, Alma, Ella and Wilma, were callers at the Bentley and Vary ranches Sunday.

Mrs. Alvin Redman and children spent last week at her parental home.

Lester Robinson lost a valuable cow one day this week.

Mr. and Mrs. Chas. Beardslee of Tawas City, Mr. and Mrs. Arthur White of Prescott spent Sunday with Mr. and Mrs. Ed. Robinson.

Mrs. Barnard of Hale was a Monday guest of Mrs. H. Sherman.

Mr. and Mrs. Elmer Brown and children of Detroit visited here the first of the week.

Josiah Robinson and son, Lyle, visited at John Schreiber's in Wilber one day last week.

SUMMER PLEASURES await them in MICHIGAN

URGE relatives and friends who live outside of Michigan to spend their vacations in this great summer play-land. Michigan's scenic beauties, her resorts, hotels and fine highways are world renowned. Summer visitors return again and again. The millions of dollars spent each year by Michigan's thousands of visitors add to the prosperity of the state. Let us also spend our own vacations in Michigan this year, thereby contributing still further to its prosperity.

And wherever you go, dispel worry by telephoning home and office frequently. Call friends to tell them when you will arrive. Telephone ahead for hotel accommodations. Long Distance rates are low.

HEMLOCK

We are sorry to hear that Mrs. Andrew Smith is very ill at this writing and hope for a speedy recovery.

A number of the Sunday School class of girls and boys spent the week end at the Y Lodge at Sand Lake.

Mrs. John Burt visited one evening with Mrs. Clyde Roberts.

Mr. and Mrs. Claud Irish entertained company the past week.

Mr. and Mrs. Frank Long entertained company Sunday.

Russell Binder was a Sunday dinner guest of Mr. and Mrs. Ed. Youngs.

Miss Theodora Parker of Lupton is the guest of Miss Ada Herriman.

Mr. and Mrs. Ed. Youngs entertained at dinner on Sunday, Mrs. Lee Force and son, Jimmie, of Detroit, Mrs. Frank Kessler and two children of Flint, Mr. and Mrs. George Gates and mother, Mrs. Rapp, of Tawas, and Mr. and Mrs. Carl Youngs of Flint.

Miss Beatrice Ruddock of Lansing came Saturday for a visit with friends here.

Miss Muriel Smith is home from Whittemore helping care for her mother, who is ill.

Mrs. Olive Davison of Tawas City spent last week with her mother, Mrs. Andrew Smith.

Miss Ruth Herriman spent Saturday with her cousin, Erma Lou Pfahl.

Chester Smith and son of Flint spent Sunday with his mother, Mrs. R. Smith.

John VanWagton returned to his home in Millington. His wife and two children will remain for another week.

Russell Binder and Miss Leona Brown spent Sunday evening with Mr. and Mrs. John Katterman.

Mrs. Clara McIvor and son, Harvey, of Roseville came Tuesday for an indefinite stay. They will spend

the summer with her brother, Paul Brown. We welcome them back after spending the past five years in Detroit and Roseville.

Robert Hayes returned Tuesday from a visit in Mio.

Mr. and Mrs. George Heckmann entertained at a house party Saturday evening.

Mr. and Mrs. John Katterman visited with Mr. and Mrs. Eugene McCarthy on Sunday.

Mrs. Louise McArdle, Mrs. John McArdle and daughter, Betty, were at Whittemore visiting Monday, and also called on Mrs. Chas. Brown.

Mrs. Clarence Herriman and son, Jerry, returned to their home in Fraser Sunday. They were accompanied by her brother, Harold Latham. He returned home Tuesday.

Mr. and Mrs. Gerald Bellen of Whittemore called on her parents, Mr. and Mrs. Andrew Smith, on Sunday.

Ed. Louks of Whittemore was here on business Tuesday.

Norman and Lois Van Wagton spent Tuesday afternoon with their cousins, Ruth and Don Herriman.

Mrs. Louise McArdle spent Friday with her daughter, Mrs. John Katterman.

Mr. and Mrs. George Bishop of Saginaw spent the week end here with Mr. and Mrs. Harry VanPatton.

Fresh Air and Warmth

The public health service says that fresh warm air of a proper degree of moisture and free from appreciable draft is now recognized as essential to indoor workers. The old idea that a cold room necessarily contains fresh air and that comfortably warm rooms necessarily contain bad air has been discarded.

Almost a Monopoly

California produces practically all the lemons grown in the United States.

Woods Colored by Hand

There is no known means of fixing the color of any soft woods when they are exposed to light and weather. All woods fade in a more or less degree (ebony, satinwood, Cuba or Spanish mahogany, the least) under exposure. The richness and color of the woods chiefly used now in furniture and paneling is largely produced by the art of the French polisher, but fine quality hard woods will retain their color (indoors only) for centuries.

A Mouthful

A literal translation of the German word, Oberammergau Passionsspiel, is Oberammergau Passion Play. The Oberammergau Passion Play Alpine Herb Monastery Delicate Breakfast Cheese.

Person's "I. Q."

The intelligence quotient or "I. Q." of a person is determined by multiplying the mental age by 100 and dividing by the actual age. Thus the intelligence quotient of a normal person is 100. A person with an "I. Q." below 80 is rated as subnormal, while one with an "I. Q." above 120 is rated as gifted. About five persons in 100 will be found to be 20 below normal and about five 20 above normal.

Ironclad

The British Warrior, the first ironclad, was launched December 29, 1860; length, 330 feet; breadth, 53 feet; plate, 4 1/2 inches thick; tonnage, 6,170; cost, \$2,000,000. In the same year, the French launched an ironclad, the Gloire, but it was not termed an ironclad, a term used first by England. In 1812, John Stevens, of New Jersey, designed an ironclad steam battery. Robert L. Stevens, of the same state, was commissioned to build an iron-plated war vessel to be propelled by screws.—Literary Digest.

STATE OF MICHIGAN

The Probate Court for the County of Isosco.

In a session of said Court, held at the Probate Office in the City of Tawas City, in said county, on the 18th day of May, A. D. 1932.

Present: Hon. David Davison, Judge of Probate.

In the Matter of the Estate of Frank L. Sheppard, deceased. Lena B. Sutton having filed in said court her petition praying that said court adjudicate and determine who were at the time of his death the legal heirs of said deceased and entitled to inherit the real estate of which said deceased died seized.

It Is Ordered, that the 14th day of June, A. D. 1932, at ten o'clock in the forenoon, at said Probate Office, be and is hereby appointed for hearing said petition.

It Is Further Ordered, that public notice thereof be given by publication of a copy of this order, for three successive weeks previous to said day of hearing, in the Tawas Herald, a newspaper printed and circulated in said county.

DAVID DAVISON, Judge of Probate.

A true copy. 3-21

Mrs. Marvin Benson and Miss Dorothy Anderson spent Tuesday in Standish.

Truman Litwhiler, who spent several days here, returned to Ringtown, Pa., Monday.

The Alabaster commencement exercises were held at the school auditorium Friday evening. Mr. Bush of Central State Teachers College, Mt. Pleasant, gave the address. Mr. Bush, also, sang four vocal solos which were very much enjoyed. Mrs. Bush accompanied him. The graduates were Harold Rollin, William Rescoe and Bernard Benson.

Mrs. Minnie Benson is spending a few days with Mrs. Edwin Peterson.

Mrs. August Benson, who spent several days with her sister, Mrs. George Lickfelt at Prescott, returned home Friday.

Manners Count for More

It's mighty fine to have company clothes to wear on special occasions, but it's still finer to have every day manners that are so good they don't have to be changed when you're entertaining company.—Cincinnati Enquirer.

STATE OF MICHIGAN

The Probate Court for the County of Isosco.

In the matter of the estate of Charles A. Hewitt, late of Plainfield Township, deceased.

Notice is hereby given that four months from the 23rd day of April, A. D. 1932, have been allowed for creditors to present their claims against said deceased to said court for examination and adjustment, and that all creditors of said deceased are required to present their claims to said court, at the probate office, in the city of Tawas City, in said county, on or before the 23rd day of August, A. D. 1932, and that said claims will be heard by said court on Friday, the 26th day of August, A. D. 1932, at ten o'clock in the forenoon.

Dated June 8th, A. D. 1932.
DAVID DAVISON,
Judge of Probate.

3-24

STATE OF MICHIGAN

In the Circuit Court for the County of Isosco, in Chancery

Lloyd G. McKay and Rose M. McKay, his wife, and the First National Bank of Bay City, Michigan, Trustee—Plaintiffs,

vs.
Oscar Johnson and Catherine Johnson, his wife—Defendants.

Pursuant to a decree of the Circuit Court for the County of Isosco, in Chancery, made on the twenty-seventh day of February, A. D. 1932, and entered on the 12th day of May, A. D. 1932, in the above entitled cause, I, the subscriber, Circuit Court Commissioner of the said County of Isosco, shall sell at public auction or vendue to the highest bidder, at the front door of the Court House, in the City of Tawas City, in said County, on the 2nd day of July, A. D. 1932, at ten o'clock in the forenoon, Eastern Standard Time, all those certain lands and premises, as one parcel, to-wit:

The Northwest Quarter of the Southeast Quarter, and North Half of the Northeast Quarter of the Southwest Quarter of Section No. 27, Township 22 North of Range 6 East, containing 60 acres of land more or less, in the County of Isosco, State of Michigan.

Dated May 13th, 1932.
Nicholas C. Hartingh,
Circuit Court Commissioner in and for Isosco County, Michigan.

John A. Stewart,
Attorney for Plaintiff,
Business Address:
Tawas City, Michigan. 6-21

NOTICE

To the owner or owners of any and all interests in or liens upon the land herein described:

Take Notice, that sale has been lawfully made of the following described land for unpaid taxes thereon, and that the undersigned has title thereto under tax deed or deeds issued therefor, and that you are entitled to a reconveyance thereof, at any time within six months after return of service of this notice, upon payment to the undersigned or to the Register in Chancery of the county in which the lands lie, of all sums paid upon such purchase, together with one hundred per centum additional thereto, and the fees of the sheriff for the service or cost of publication of this notice, to be computed as upon personal service of a declaration as commencement of suit, and the further sum of five dollars for each description without other additional costs or charges. If payment as aforesaid is not made, the undersigned will institute proceedings for possession of the land.

DESCRIPTION

A parcel of land beginning 188 feet West of the N. E. corner of Section 22, thence south 133 feet, thence west 150 feet, thence north 133 feet, thence east 150 to beginning, Section 22, Town 23 North of

Range 5 East. Amount paid for 1927 tax, \$25.93. Amount necessary to redeem, \$56.86, and costs of service.

To George E. Keys and wife, Mary Keys, as owners of east 70 feet of said 150 foot lot, unfound.

All located and being in the county of Isosco, State of Michigan.
Dated this 1st day of March, 1932.
(Signed) Frank E. Dease.

VOL. VI JUNE 10, 1932 NUMBER 6

If you want to make nice blue blocks or foundations for your building, we handle the famous Huron Portland cement which produces a uniform color.

"How do you spend your income?"

"About 30 per cent for shelter, 30 per cent for clothing, 40 per cent for food, and 20 per cent for amusement."

"But that adds up to 120 per cent."

"That's right!"

Hexite is only \$1.30 per 100 lbs.; No. 1 wheat, \$1.40 per 100 lbs.; bran, \$1.25 per 100 lbs.; flour middlings, \$1.30 per 100 lbs.

We handle growing mash for chickens, egg mash for laying hens. No. 1 wheat screenings at \$1.10 per 100 lbs. We carry chick starter, oyster shells.

"Johnny, I hear you didn't go to the party, but played baseball instead."

"Why, Mother, it isn't true—and I've got two fishes to prove it!"

If you want a large yield of garden vegetables or potatoes, use our garden and potato fertilizer.

We have a quantity seed buckwheat and millet seed for sale.
We are still grinding every day.

"How is you-all getting on wid yo' rithmetic, Sam?"
"The figgers bodder me a little, but I done learn to add up de oughts."

"How come you are working today? Don't you know what the Fourth of July is?"

"No. I'm not good at fractions."

"Our school has an all-star team." "Is any one of them Sirius?"

Salt: 100 lb. sacks, 50 lb. sacks, 25 lb. sacks, and salt blocks.

The New SUPER-POWERED FRIGIDAIRE

SAVINGS ANALYSIS

GET YOUR FREE COPY
Use this interesting chart to figure for yourself how Frigidaire pays for itself.

BEST OF ALL

Low cost Electricity places the use of Electric Refrigeration within reach of all.

Averaging only a "dime-a-day" for electricity—you are repaid over and over in saved foods, health and convenience.

Here's a most unusual offer. Never has it been so easy to buy Frigidaire. Now give yourself the pleasure and economies of Electric Refrigeration—with this Special Offer.

Let us show you how Frigidaire actually pays for itself out of what it saves you. With the new Savings Chart—a few minutes' figuring—and you have your own answer. Use the special terms—terms so easy that no longer need you say, "I can't afford a Frigidaire."

NOW . . . SUPER-POWERED

Only Frigidaire has the new SUPER-POWERED unit in all models—a new design bringing new benefits and economies not found elsewhere. What is SUPER-POWER? It's a new 2-cylinder unit instead of the older 1-cylinder types—double action—a step ahead that gives you faster freezing—more ice in less time—better food protection on even hottest days—and lower operating cost.

Come in this week. See the new models—use this SPECIAL OFFER with present low prices and two years to pay. Come in or just phone for interesting details.

SUCH IS LIFE—Two Popular Numbers

NEXT GREAT DELUGE IS FORECAST BY SCIENCE

Washington.—We still speak of "the Ice Age" as if it belonged to the remote geological past. Geologists have reached the conclusion that there were several ice ages. What is more, the last Ice Age, known as the quaternary, is only about half over, despite our blistering summers. "Eternal ice" or "eternal snow" are figments of the poetic imagination. Very slowly the great ice sheets in the Arctic and Antarctic regions are melting and pouring their torrents into the oceans. The earth must inevitably change its aspect and its climate.

The light of the information gathered in the Antarctic regions by the Byrd expedition and in Greenland by the ill-fated Prof. Alfred Wegener and his companions. The glacial sheets that now cover the North and South poles were once 12,000,000 square miles in extent—more than one-fifth the present total land area of the globe. In the course of about 700,000 years they have melted down to their present area of about 600,000 square miles. The ice on Greenland alone is ten times newer than the area of the State of New York. Wegener's echo soundings showed that it is over 9,000 feet thick near the center of the island and about 4,000 feet thick near the edges of the bowl over which it spills. Here, then, we have enough ice to provide a layer of water one mile thick over 700,000 of Greenland's 827,275 square miles of surface. To this we must add another layer of mile-deep water which would be spread over 3,300,000 square miles of Antarctica's 5,400,000 square miles.

Vice President Gets His Buddy Poppy

Little Betty Joan Christian, daughter of a deceased war veteran, sells a buddy poppy to Vice President Curtis, in the national annual sale for the benefit of veterans of foreign wars, as well as for the widows and orphans of war veterans. Betty lives with her brother and sister at the V. F. W. National Home for widows and orphans of ex-service men in Eaton Rapids, Mich. The buddy poppies are made by disabled and needy ex-service men.

READING AND CHARACTER

By THOMAS ARKLE CLARK
Emeritus Dean of Men,
University of Illinois.

He was twelve, perhaps, sitting all humped up upon the floor in one corner of the office building reading the evening news, his bag of undelivered papers on the floor beside him.

"What are you reading?" I asked, knowing that nothing ordinary would keep him so engrossed.

"Hickman," was the only word he uttered.

"Do you find it interesting?" I inquired.

"I say so," he answered, and kept on with the reading.

I knew very well what was holding his childish attention. His young mind was concerning itself with the sordid details of the trial of "the Fox," which was at that time holding the front page of practically every newspaper in the country. It was a crime so brutal, so horrible, so revolting that I could not bring myself to the point of reading about it. My chief interest was that the unhappy perpetrator should be put away as soon as possible, and as justice should decide, and that we should be permitted to forget the horror of it all.

And the boy was only twelve, whose mind was so engrossed with the lurid picture of the crime, that he could not go on with his evening task. It was to me pitiful.

What is the effect upon childish immature minds of the stories of youthful crime? It cannot be good. The impressions and the influences which come to a child between the ages of twelve and eighteen are the most lasting impressions.

The details of crime are what the people want, the news editor says, and if the paper is to succeed, that is what they must be given. I wonder, however, if it is necessary to broadcast the horrors of crime always upon the front page, to center the attention upon them by the use of heavy-faced streamers, and photographic representations of the most revolting scenes connected with these crimes. When Mrs. Snyder was electrocuted, the details of her execution were so minute as almost to take one into her presence to see her agony, and to hear her moans. Such reading is bad enough for adults whom experience has hardened, but for children!

Upside Down Woman Is Cured

London.—The extraordinary case of a woman who spelled backward and read books and drew pictures upside down is recorded in the current Lancet, British medical journal, by Dr. R. Eger and Dr. J. W. Fisher of the Devon Mental Hospital.

After a cure by hypnosis the woman found that she was unable to read passages which she had written before her treatment.

The woman, a house servant in Devonshire, was subject to such trembling of the hands that she broke more than the usual number of cups and saucers. After an illness she was committed to the hospital for examination. She had previously been classed as a congenial mental defective.

In the hospital, failure of speech necessitated her writing her wants on a slate, but the nurses could not understand the script. Each word was written backward, though put down from left to right in the customary manner, and with the right hand. The letters were correctly oriented, though in reverse sequence.

Thus, requested to write "policeman," she put down "nameclorp"; for "Devon," she spelled "Noved"; all words were similarly reversed.

In mathematics, she wrote all the figures upside down, and did the same thing in drawing elementary objects like dogs, cats and houses. In cleaning up a room she turned pictures and vases upside down.

After certain tests of vision based on the theory that the psychic shock which had temporarily deprived her of speech had upset the co-ordination of other closely related centers of the brain, the physician put the patient under light hypnosis.

The cure seems to have been complete, and the woman has spent a large part of her time lately writing normal letters to her friends, ridiculing her previous eccentricities.

OF INTEREST TO THE HOUSEWIFE

- To soften hard brown sugar store in the bread box for a day.
- Half an hour is ample time to allow for baking of medium-sized apples.
- Leftover breakfast bacon can be used to good advantage in potato soup.
- When frying fish or other foods don't forget to drain all the pieces carefully after lifting them out of the fat.
- Before boiling a cracked egg rub the shell with lemon juice. The egg albumen is quickly coagulated by the acid.
- When using only egg yolks in a cake, add one tablespoonful of cold water and beat well. This will make the yolk mixture fluffy and it will blend better with the other ingredients.

FARM POULTRY

REMOVE BIRD WHEN OUT OF CONDITION

May Check Spread of Coccidiosis in Flock.

Chronic coccidiosis in adult fowls cannot be distinguished by external symptoms from other wasting diseases, and only by the use of the microscope after death, says a writer in the Rural New-Worker. Unlike the acute form occurring in chickens, the ceca do not display the evidences of the infection, which are to be found in the intestinal contents or in scrapings from the intestinal walls.

Either in chronic coccidiosis or other diseases showing the loss of appetite, dirty plumage, gradual loss of flesh, paleness of comb and wattles and perhaps paralysis of the legs found in such disorders, all affected birds should be removed from the flock and watch kept for new cases. The quarters used should be placed in good sanitary condition and the old ruins discarded.

The parasites causing coccidiosis and other infections of like intensity infest ground that has been used for a considerable length of time by poultry flocks, and healthy birds must be kept from such ground if avoidance of infection is to be expected. Chronic coccidiosis spreads slowly in an adult flock and removal of sick birds with sanitary precautions to prevent infection of the healthy members should be observed.

No Raiser Can Report Profit From Dead Hens

Dead hens make the largest item of flock depreciation, and this depreciation is the third largest item, next to feed and labor, or about one-fifth, of the total expense of the laying flock, says Prof. E. G. Misner of the New York State College of Agriculture, after a study of ninety-two New York state flocks in 1930.

The percentage of mortality varied from 3 to 73 per cent of the average number of laying birds. The mortality averaged 23 per cent, with no difference between large or small flocks. When hens are valued at \$1 each at the beginning of the laying season and are worth 75 cents at the end of the year, a mortality of 10 per cent makes the depreciation 34 cents to the hen. If the mortality were 40 per cent, the depreciation to the bird would be 69 cents. Professor Misner warns poultrymen to give close attention to disease and parasite control.

Use Judgment in Mating

It is poor policy to mate up any fowls, least of all male birds, that have previously shown any signs of disease or weakness. It is unwise to mate up undersized females to oversized coarse males, or vice versa.

The mating seldom "nicks," and it is almost impossible to secure medium sized, normal healthy progeny. Born poultry breeders know by intuition just how many males a certain flock of females will need to get best results.

As a general rule, in flock matings, not more than eight or ten lightweight males are required to 100 females. With heavyweight varieties, ten males are about right, providing there is little fighting among males. Otherwise it were best to make smaller flock matings.

Birds Carry Diseases

Birds such as the English sparrows should be fenced out of poultry houses, says the Idaho Farmer. These pests travel far and wide and visit everybody's poultry yard in a community, and if possible, carry diseases from the insanitary yards of one poultryman to clean yards of another. Careful poultrymen also make it a point to keep promiscuous human visitors away from their poultry houses and runs, as they, too, readily carry troubles from one poultry yard to another. When visitors are allowed in the well-kept poultry yard they should be provided a box of litter or sawdust, thoroughly disinfected, into which to step before entering the premises.

Don't Cut Down on Feed

This is no time to cut down on the flock's feed even though egg prices are low. In fact, low egg prices make it all the more necessary that birds be fed generously and thus be kept at the height of their ability to produce. The laying flock should have a mash before it all the time during the summer months. In addition it should be given some grain. The only feeding change should be the cutting down and finally the elimination of the morning feeding of scratch grain.—Exchange.

Hens Averaged \$4

Hens averaged this net profit over feed cost last year for Mrs. John Niblo, Muscatola, due to careful feeding, culling and breeding. A hatcheryman had an order for chicks from eggs of a profitable flock—he had to know the record of the flock. Mrs. Niblo had this information—she has kept records three years. Chicks from her flock satisfied the customer so well a second order was placed and other orders have followed. Quality gets the best price.—Kansas Farmer.

Mercolized Wax Keeps Skin Young

Get a ounce and use as directed. Fine particles of aged skin peel off until all defects such as wrinkles, liver spots, tan and freckles disappear. Skin is then soft and velvety. Your face looks years younger. Mercolized Wax brings out the hidden beauty of your skin. To dissolve wrinkles use one ounce Powdered Sassafras in one-half pint water. At drug stores.

TEACHER OR COLLEGE STUDENT for summer months, handling school guide in sales field. Healthful, enjoyable, refined position. Salary \$180 for 60 days and bonus. Write DEPT. D, 909 FRANCIS PALMS BLDG., DETROIT, MICH.

Wonderful Clock Made by Italian Artificer

A clock so complicated that no watchmaker alive could possibly understand its workings has been completed by a patient man named Costanzo Renzi of Rimini, Italy, after two years of assiduous attention. The 36-hour clock, almost entirely made of bamboo and built in the form of the Fascist emblem, is 3 feet high. Besides marking the hour, the minute and the second, this wonderful timepiece also shows the phases of the moon, the day of the week, the month and the day of the month. Besides, here are some more extravaganzas: When the clock strikes, a small flag with pictures of the king and Il Duce appears and the chimes play "Glovinazza," the Fascist hymn. When these are over a small mortar on the top of the clock fires a salvo and a tiny tricolor makes another appearance. Inventor Renzi assured school children that try as he might he couldn't get the contrivance to do home lessons.

PARKER'S HAIR BALM
Removes Dandruff—Stops Hair Falling—Keeps Color and Beauty to Gray and Faded Hair—Soft and Silky—50 cents at Drug Stores. Hirsch, Chem. Wks., Paterson, N.J.

FLORESTON SHAMPOO—Ideal for use in connection with Parker's Hair Balm. Makes the hair soft and fluffy, 50 cents by mail or at drug stores. Hirsch Chemical Works, Paterson, N.J.

Reptile Traveler Welcomed

A young emperor boa constrictor is making his home in the Philadelphia zoo after a journey from the jungles of tropical Brazil in a bunch of bananas. The snake caused a near-panic when Philip Braverman, who operates a fruit store, unwrapped the cover from a bunch of bananas he had bought from Brazil. The snake dropped to the floor and police were summoned, captured it and turned it over to C. Emerson Brown, director of the zoo. Brown said that it was a rare specimen and that he had never heard of a boa constrictor making the trip from Brazil in a bunch of bananas.

KILLS ANTS

Peterman's Ant Food is sure death to ants. Sprinkle it about the floor, window sills, shelves, etc. Effective 24 hours a day. Inexpensive. Safe. Guaranteed. More than 1,000,000 cans sold last year. At your druggist's.

PETERMAN'S ANT FOOD

Rock Gardens

A woman who had fallen prey to the mania for rock gardens had constructed what she regarded a most artistic example of the prevailing fad. The flag paths, concrete pedestal surmounted with sun dial, flowers planted among the rocks and all the other accessories presumably necessary to form the complete whole. The woman was contemplating her finished work with much satisfaction when a teamster pulled up to the curb and called out: "Say, missus, would you like to have them there rocks hauled away? I'll do it cheap for ye!"

Asia's "Enlightenment"

A traveler who recently toured Asia says that 75 per cent of the people of that country are in total ignorance of what is going on in the world outside of their immediate vicinity. Few have ever heard of the World War. Many of them know nothing of the League of Nations, and the news of the present Manchurian situation is likely to reach them long after it has been cleared up. But even this is regarded as a great sign of hopefulness, for a few decades ago the percentage of ignorance was related at 95.

To live long, work long.

Cross and Peevish maybe its worms

When your little one is irritable, restless or cross, the chances are he has worms. Wise mothers give Dr. Jayne's Vermifuge at the first symptom of worms. This proved remedy has been used for the past 100 years by millions of grateful mothers. Don't punish the lot when what he really needs is Jayne's Vermifuge. If worms are present your child will have a new lease on life after taking the first bottle. No other preparation is so efficient. Get a bottle today from your druggist. DR. D. Heart of the North

By William Byron Mowery

Copyright by William Byron Mowery.

(WNU Service.)

THE STORY

Six bandits hold up the steamer Midnight Sun, on the Mackenzie, kill Jimmy Montgomery, and escape with gold dust and furs. At the Mounted Police post at Fort Endurance, Sergt. Alan Baker disputes with his incompetent superior, Inspector Haskell, regarding plans for the capture of the bandits. Baker starts out in the police launch with five men. At the MacMillan trading post, Joyce MacMillan is thrilled at the arrival of the police launch. She had expected to marry Baker, and had been stunned at news that he was to marry Elizabeth Spaulding. Stolen furs are found on the MacMillan place and evidence points to Joyce's father. Joyce defends him. Alan leads his expedition up the Big Alouka and catches sight of the bandits.

CHAPTER IV—Continued

After several minutes of waiting, Larry pointed across the lake and stated quietly:

"You see that big patch of brownish flags over there, about thirty or forty yards back from the water? See that little run leading back into them? That's where our men are hiding. They're laying low along that little run. I just noticed a rat start up that run. He come back in a hurry. Then, there's a silent spot over there where I don't hear any bird or animal calls. And then some other signs. . . . He was silent for half a minute. Finally he whispered: 'I'll show you a sign. You see that pair of canvasbacks a-coming this way? They're flying low, making for this lake. Canvasbacks like blue water. Watch 'em close.'"

Skimming just over the flags, the pair of graceful ducks came on; but just as they stopped beating and started the glide down upon the lake, they suddenly breasted high up in the air, exactly over the spot Larry had indicated. Veering away, they winged swiftly out of sight into the west.

Lying there in the reeds and bog, Alan studied the bandit covert and tried to plan. If all five of his men had been along with him, the outcome would have been swift and certain. He could have come at the bandits from either side, cut off any chance of escape, boxed them between two fires and deliberately shot them down. But he had split his party at the Alouka Forks, as Haskell ordered. Now, at the crucial hour here in the Thal-Azzah, Pedneault and those other two men, uselessly following that south branch, were a hundred and forty miles away.

He planned, rejected and planned again, and finally came to a decision. "We've got to carry the fight to them, and we've got to keep them from getting away by that creek yonder. There's only one way we can do both those things. Bill and I are going to circle around them on foot and come at them from the other side. We'll get there somehow, even if we have to swim part way. With any luck at all we ought to get into a position where we can put two or three of them out of business at the very beginning, before they wake up to us. They won't fight if they can help it. Why should they take chances on some of them getting wounded or killed, if they don't have to? They'll try to whip back across this lake and dodge into that channel yonder. Now, Larry, you'll stay here to head that off. Keep out of sight yourself; have a couple or three extra magazines handy, and wait till they get into the middle. When they get in good range, open up on them. Sink those canoes. We don't care about those men. Let them swim ashore and hide if they want to. On foot a man can't make ten miles a week in this muskrat country. With no tent, no shelter, the mosquitoes and flies would drive them crazy in less than a day, and they'd fall into our hands. If you understand now what's cut out for us, we'll be starting."

Both men nodded. Bill and Alan backed away with infinite caution, for one flushing waterfowl would raise all the others. Yard by cautious yard the two men slipped back into the rushes till they were a safe distance from the lake.

Then they began the long hard job of circling around the bandits. Wet, muddy, tortured by insect pests, they pushed steadily on, mindful of coming twilight.

It took an hour and a half to make the wide careful circle and start coming in toward the bandits from the north. With the sun cut in two by the western horizon and the chill of twilight in the air, those six men would shortly be on the move. But Alan's hopes had risen again; it seemed that he indeed "had taken his luck along." The bandits did not know they were being stalked. In half an hour more, if luck held, he and Bill would be in position to open on them all unawares.

Dropping at last to hands and knees, the two of them crawled along through muck and water, keeping only their guns dry. They came up within a hundred yards of their quarry.

As he parted the reeds in front of his face Alan saw the tops of a clump sway suspiciously. A moment later he glimpsed the dim outline of a man standing up, stretching himself, sitting down again.

In actual sight now, those men who had killed Jimmy Montgomery! And only a pistol shot away! But to take them . . . Alan cursed savagely at the thought of Pedneault and those two men a hundred and forty miles distant. As he remembered what Haskell said about the Law being behind his patrol, his lips curled in scorn at the cant expression. . . . "The Law that's supposed to be back of us, I wonder where in hell it is now! What does it mean to Bill and me now?" Here in this watery wilderness in the creeping twilight, he and Bill were going up against six men who had stood off fifty and who had murder charges hanging over their heads. And if they broke away, Larry single-handed would have to stand the whole brunt of stopping them.

At his gesture Bill slid cautiously up beside him. In whispers, Alan said to him: "Bill, we've got to get closer. We've got to get across this pond.

They Came Up Within a Hundred Yards of Their Quarry.

Those muskrat houses out there are particularly good luck for us. By keeping down in the water, with these little reeds to help hide us, we can sneak from one house to the next. The last one isn't a dozen yards from those men. If we make it we'll have point-blank range and the best kind of cover to shoot from."

Taking off their hats and jackets, they wriggled carefully out of the tall flags, eased into the water and squirmed toward the first muskrat house, which stood up four feet above the surface and entirely hid their approach. Behind it they stopped a moment, chose their next one, and sank back into the water.

As they crouched down behind the third little dome of mud and reeds, a towering red-bearded man parted the flags they were staring at, bent and scooped up a hatful of water, took a swallow, threw the rest down with an oath at its vile taste; and then, slaking the water out of his hat, he disappeared again.

Alan's last secret doubt about these bandits being utter strangers in the country was dispelled now. He had had a clear view of this huge red-bearded leader; he could say positively, as Ashmun and all the passengers had sworn, that he had never laid eyes on the man before.

To Bill he whispered: "When we reach that last house, I'll splash or do something to draw their attention. They'll come out to the flags edge again to see what it is. Don't shoot when just one man shows up. We'll wait till we have three of them in plain sight. If we get three of them at the first crack, we'll be fighting the other three on even terms. Now, Bill, when you're looking down a rifle barrel at those men, don't hesitate. Aim straight. We can't make prisoners of that outfit. This is a finish fight. One

Found It Hard to Convince Mother-in-Law

The small town mother-in-law of a New York girl had visited the couple once in their New York apartment and went home with serious misgivings about this always gay wife of her son William's.

Soon after the first baby arrived the girl went to the small town, several hundred miles from New York, to visit her mother-in-law and show off the baby.

Her lonesome husband telephoned to her one night, and said that his good old pal Bob was there and wanted just to say hello and that then he would take the phone back and talk fast for his money.

The mother-in-law heard her saying, "Why, hello, Bob," before the conversation was ended, and then, "I love you, too, sweetheart, and nobody else but you."

or the other party is going to get wiped out."

They started for the fourth muskrat house.

Halfway there, disaster overwhelmed them, sudden and stunning.

It came from the air, in the shape of a pair of red-throated loons. Flapping heavily out of the west, the birds dropped with a loud splash not ten feet away from the two men.

At the splash Alan heard a muffled oath over in the flags; then a rustling movement, as though the bandits had nervously jumped for their guns; then silence. And then a voice from the twilight among the reeds:

"Nothin'. Jus' a pair of divers plumped down."

The alarm would have blown over if the loons had swum off. But the birds, crop-heavy and indolent, stayed where they were, showing no intention of moving away. As the female started preening herself, the mate turned its eye suspiciously at the two strange objects sticking above the water.

What startled it Alan never knew. Bill did not move; he himself did not bat an eyelash. But in that jumpy taut silence the male suddenly threw open its beak and sent up a raucous maniacal shriek, as though some animal had seized it by the neck.

Instantly its mate joined in. The jarring, ear-splitting discord set muskrats diving off their houses and flushed every waterfowl in the lake a hundred yards distant. With a last frantic peal the loons taxied over the water, finally managed to take wing, and flapped heavily away.

But the damage had been done beyond retrieve. All that hour and a half of careful stalking, all the great caution and pains of slipping unawares upon the bandits, had been set at naught by the crazy shriek of a crazy loon.

Over in the murky twilight of the flags there was a commotion, sharp orders, the click of rifle bolts. At the edge of the flags a gun cra-a-check, a rope of flame reached out, a bullet ricocheted off the water.

It was a shrewd maneuver from the bandits, a tentative shot to draw the fire of their stalkers and discover where they were. Alan was quick-witted enough to see their motive and to lie low; but Bill jerked his rifle against his cheek and shot point-blank at the spurt of fire.

A cry of pain went up. His bullet had scored. But the shot gave away their hiding. With all hope gone now of getting the drop, Alan scrambled behind cover of a muskrat house, fairly dragging Bill after him.

Half a dozen rifles exploded in the flags. Alan thrust his rifle over the top of the house and emptied it at the flashes. A bullet from a Savage, a sharp-cracking deadly Savage, hit his weapon, smashed the mechanism, numbed his hand, and drove jagged fiery bits of steel into his fingers.

For several minutes the bullets of the bandits beat a thudding tattoo against the mud mound. As best they could Alan and Bill lifted their belt-guns over the top of their shelter, and fired back. They heard no more yelps of pain. They were shooting wildly, aimlessly. Realizing this, believing the bandits had crept into the run and were sheltered by its banks, Alan stopped shooting and checked Bill.

Yonder in the reeds the fire died away raggedly. A silence fell. A minute lengthened into two, three, four. Alan heard, or thought he heard, a faint rustling, a faint gurgling of water. He listened intently, but did not hear it again.

With his plans all shattered, with the twilight steadily deepening, he was torn with desperation. If he and Bill moved, it was sheer suicide. If they crouched much longer where they were, the bandits would certainly slip away from them in the coming dark.

As he fought to think of a plan that would break this deadlock, he heard a long whistle, a clear shrill whistle from Larry's direction. It was Larry signaling.

He sprang up. "Bill! They've backed away, they've slipped up, they're breaking for the lake! Larry's alone. We've got to help Larry!"

(TO BE CONTINUED.)

The Ring

BY JANNIS PARKER

(© by McClure Newspaper Syndicate. (WNU Service.)

SHE lay on the Indian blanket she had bought from an old squaw in Reno, slid the slim wedding-band from her right hand to the left hand then back again, thereby confusing the man, hidden in the sumac, who watched her avidly.

His painter eyes loved the set. A grove picketed by tall trees, a willowy girl in white reclining on a bright blanket.

He completed the picture, he with his shock of jet hair against the flaming sumac, his bright blue eyes riveted spellbound on the unsuspecting girl. Under the sustained pressure of his moccasined foot a twig snapped. The girl swung around. They stared, their tense poses shattered only by a startled blue-jay screaming through the woods.

"I thought you were in Europe," she spoke in a throaty monotone, her creamy cheeks and neck hotly tinged. "I'm not." The man stepped from behind the sumac, softly tread the thickly packed pine-needles. "Nor am I shadowing you. I thought you were in Reno."

There was an awkward pause. Can't we reminisce awhile? It can't be called collusion now that we're nicely divorced?"

She hesitated. "What is there to reminisce about?"

"I can think of something," planting himself squarely on the blanket. "First, who told you I'd gone abroad?"

"Andy." She chose a tiny corner of the quilt.

"So you still see him?" he snapped. "Don't be ridiculous, Ronald. Andy is my adopted brother."

"He forgot that," he reviewed past events. "All right—the man loved you—he couldn't help it. But he could have helped loitering around! He with his legal mind framing situations and buttoning them on me! Then goading you till you saw things that weren't there. Why did you seek his advice? If you wanted to lose me why didn't you tell me?"

She ignored this. "By the way, I haven't received your announcement. The man was non-plussed."

"Yours and Gert's," she explained. "Surely you remember Gert? Long fair hair and the best back in the country. You said so yourself."

"Little idiot! The man roared up at the clouds. 'How can you pretend such things! I never have got chummy with my models. Why the unrelenting spotlight on me when Andy led you around by that funny little nose? Andy was a lawyer, darling, you shouldn't have believed all he said. Didn't he just tell you I'd gone to Asia?'"

No answer.

"Because he wanted you himself he imported a fabric of lies to hoist over your vision and distort it. He picked his time when I was slaving on that fresco order, spending every minute with my model! You should have been your usual sane self and realized an unknown painter doesn't reap orders like that every day."

"You might have let me know when you flung me back to the world's other women."

"What do you mean?"

"Isn't it customary to let a fellow know when you're through with him? When the matrimonial bond is severed shouldn't an impressive document go forth? Suppose I had wanted to marry Gertrude?"

"Never mind," he continued tenderly, his tone sent the blood surging up her neck, "I never wanted to know."

He sighed and rose heavily to his feet. "Maybe you're right. Reminiscing isn't so good. Instead of switching that poor ring around why not throw it away? Why, Ann! You're crying!"

In an instant he was on his knees, had gathered her quivering form close. "Annsome!"—it was his pet name for her—"darling, don't leave like that, you'll wear yourself out!"

"I've done something terrible!" she sobbed.

He took his big handkerchief and mopped her eyes. "Sweetheart, we're both in a fog. Pull yourself together, dear, you're marrying me again tonight. I don't want to take a woman to the altar who's crying her heart out."

But Ann, muddled up in her own straining confession, hadn't heard. "Ronny, I couldn't get it on non-support. You provided beautifully. You actually spoiled me."

He stroked her hair. "I'll provide better in the next world. Artists aren't appreciated till they die."

"I couldn't get it on cruelty! And I knew it wasn't another woman. Although I could have clawed out that Gertrude's eyes the way she oogled you."

His voice was soothing. "She only oogled me, dearest, because I was the only artist who hadn't oogled her. Why did his honor take pity on you?"

She lifted woe-begone eyes. "I went all the way to Reno, went through all the motions, and then—I couldn't accuse you unjustly, could I? And I couldn't make up anything horrid, not about you, Ronny—so I didn't go through with it." She sniffed. "Whatever you want to do now I'll abide by."

DAIRY FACTS

FEWER AND BETTER ANIMALS IN HERD

Illinois Specialist's Advice to Dairymen.

Approximately \$20,000,000 could be added to the annual income of Illinois farmers keeping dairy cattle, and no more milk would be put on the market, if the 1,099,000 cows in the state were replaced by 654,239 cows as good as the average cow in the dairy herd improvement associations, according to Prof. C. S. Rhode, dairy extension specialist of the college of agriculture, University of Illinois.

Fifty-five of these associations organized in 73 counties by the college extension service are helping herd owners increase their net returns. The associations supply dairymen at low cost with production and feed records and give them help on feeding and management problems.

A cow has to give about 250 pounds of butterfat a year before she returns enough to pay for her feed, and an equal amount to cover other expenses, according to records which Professor Rhode has tabulated on 12,694 of the association cows. As it is, the average cow in the state produces about 180 pounds.

"This is evidence enough that under present low prices higher efficiency in production and improved feeding practices are essential for satisfactory returns."

"Cows with a production of approximately 400 pounds of fat returned \$149 above cost of feed. A 50-pound increase in production was good for an additional income of \$26 above cost of feed."

New Production Record Set by Holstein Herd

The purebred Holstein herd owned by the Cherokee State hospital at Cherokee, Iowa, has set a new national production record for a herd of 50 or more cows. According to the Holstein-Friesian Association of America, this herd completed its year in the herd improvement registry test with an average of 15,721 pounds of milk containing 556 pounds of fat. There were 50 cows in the herd and 13 were class A cows, milked four times a day and 37 class B cows, milked three times a day. In the United States there have been 417 herds tested located in 41 states and the Cherokee herd exceeds the national average of all tested herds by 188 pounds of fat and also exceeds the average of all herds milked three or four times a day by 157 pounds of fat.

Milking Thrice Daily

At the Canadian national exhibition our representative had a chat with George Innes, the member of the famous firm of J. W. Innes and Sons, who manages the big farm where the prize-winning Jersey herd is kept. He mentioned the manner in which the men were rotated to take care of the three-times-a-day milking. "Do you milk three times a day to get higher records or to increase the commercial production?" he was asked. "Principally to make a better showing in R. O. P., I guess," was the answer. "Aside from records altogether, do you think it would pay to milk three times daily?" "Yes, I believe it would," replied George after a little thought. The same answer has often come from other men of experience.—Montreal Family Herald.

Cream Farming

It would be a good thing for dairy farming if more of the folks engaged in it were selling cream instead of whole milk. For several reasons: The dairyman selling cream keeps on the farm a considerable amount of fertility (in the skim milk). The cream dairyman has lower hauling and shipping charges, has fewer board of health troubles, can arrange his chores to better advantage, and at present enjoys a little better income for his product. Surplus milk at present prices is not very profitable.—Farm Journal.

Pays to Test Cows

The only way to tell how much a cow is worth is to test her with scales and the Babcock test, states Cow Tester Martin Swelbore of the Woodford County (Ill.) Dairy Herd Improvement association. He pointed out that two of the cows in his association freshed within three days of each other. At the end of nine months milking one of the cows had returned a profit over feed costs of \$61.20 more than the other, although the profitable cow did not look the part and would have been the one selected for sale had the test not been used.—Prairie Farmer.

The Poor Cow a Liability

It costs 36 cents for each pound of butterfat to feed a cow that is producing only 100 pounds of fat a year, according to records kept on 1,500 cows. If the cow produces 200 pounds of fat it costs only 21 cents. For the cow producing 300 pounds a year the feed cost is 16 cents a pound. For the 400-pound cow it is 14 cents. When labor, housing and other costs are included the margin in favor of the high-producing cow is still larger.—Capper's Farmer.

FIVE ORGANS JOIN IN MIGHTY VOLUME

Huge German Instrument Is World's Largest

At Passau, the ancient city on the Danube, the "Castra Batava" of the Romans, in the cathedrals of St. Stephen, one of the most noted sacred edifices in Europe, is the biggest organ in the world, the creation of the Steinmeyers of Oettingen, Bavaria, who have been building organs for generations. It has 208 registers, five manuals and 16,105 pipes.

Five separate organs combine to make it. The main and largest organ is enclosed in a baroque house more than fifty feet high. The so-called Epistle and Evangel organs, also in baroque houses, stand in the side naves of the cathedral, the choir organ is in a niche of the presbytery, and its tones come through cancelli. Most wonderful of all is the echo organ, built in under the ceiling. All five organs are played from one main player's bench.

A walk through the main organ leads through a veritable forest of pipes. Narrow paths permit the organist and tuners to keep the organ in order. Here are the "principal" with its full tone, the "viola da gamba," and, farther back, the "Gemshorn" or alpine horn, which sounds like a real horn. Pipes of wood, tin and copper alternate. The biggest of all are those of the pedal—the deep tones of the mighty bass contrapuntal 32 and the contra-bombe 32. The largest of these, perhaps the biggest organ pipe ever constructed, is some thirty-seven feet long and twenty inches in diameter. Of zinc, reaching up four stories, it weighs 673 pounds. But across from it one finds the smallest pipes, hardly thicker than a wheat straw and only a third of an inch long. Their tone is a whole ten octaves higher than that of the vast bass pipes.

There are two motors for the main organ and one for each of the other four. The main organ requires up to 100 cubic meters of compressed air a minute. More than 425 miles of wire were required for the various connections.

During the summer season the organ is played at noon every day, and the great cathedral is filled by visitors. To hear it is an experience which no one will ever forget.—Boston Transcript.

War Is Paying Business

"Armament makers apparently have no fatherland and nothing to lose but their business," says a recent issue of Social Science Abstracts, a digest of the writings of social interest appearing in over four thousand magazines, in a review of an article in The World Tomorrow. "Both Prussian and Austrian armies were equipped with Krupp artillery in 1866; Willingen, a large German arms company, was partly owned by French capital and had two Frenchmen on its board of directors. Vickers, a British company, supplied the Boers with the machine guns to be used against England, and Vickers-Terni built the modern Italian fleet, although Italy was officially a member of the Triple alliance. British-built mines were responsible for British ship losses at the Dardanelles."

Lucky Accident

LeRoy Dunakey, of Seattle, never thought he would like to participate in a serious traffic accident, but he is now glad that he was in a car that overturned and burst into flames. He married the seventeen-year-old girl who helped pull him out of the wreckage and took him to a hospital.

No. 1 Continued from the First Page

Harold Timreck, who has been attending the University of Detroit, returned Friday to spend the summer with his parents, Mr. and Mrs. Chas. Timreck, Jr.

Mr. and Mrs. Wm. Wendt, Jr., spent Sunday in Saginaw.

Mr. and Mrs. Ernest Moeller, Jean Moeller, Mrs. L. McFadden, and Hugo Marwinski were week end visitors in Traverse City.

Mrs. Ralph Warner of Flint is the guest of Mrs. Chas. Timreck, Jr., this week.

Mr. and Mrs. Chas. Curry and Mrs. Thos. Curry attended the funeral of Miss Lu Ahner of Saginaw on Monday.

Mr. and Mrs. M. H. Barnes, Mrs. Arthur Staudacher and Mrs. Ernest Moeller spent Monday in Saginaw, where they attended the funeral of a friend.

Mr. and Mrs. John Swartz, Sr., Mr. and Mrs. Fred Swartz spent Sunday in Midland with the LaRue family.

Mrs. Albert Mallon spent Monday in Bay City.

We are now displaying a wonderful line in Lloyd Loom goods, both in fibre and maple suites. Just the thing for that new porch. W. A. Evans Furniture Co. adv

On Thursday evening, June 2, Mrs. Harry Rollin entertained at a miscellaneous shower in honor of her daughter, Alice Ruth. A number of young friends enjoyed games, contests and music, after which a dainty lunch was served. Miss Rollin was the recipient of many beautiful and useful gifts.

Mr. and Mrs. Frank Mueller, Mr. and Mrs. Ernest Mueller were business visitors in Bay City on Saturday.

Mr. and Mrs. John L. Swartz, Jr., returned Saturday from a week's visit at Midland. Mr. Swartz also visited in South Bend, Ind., for a couple days.

Mrs. Ed. Marzinski spent Monday in Bay City.

Misses Mary Krumm, Ernestine Cecil, Reva Sims and Marjorie Morton, accompanied by Miss Crosby, enjoyed a pleasant week end party at Camp Natsiki as guests of Miss Mildred Quick.

Seventh and Eighth Grades

Miss Egbert visited our room on Wednesday.

Madelle Brugger was absent Tuesday on account of sickness.

We will start examinations on Friday afternoon.

The Sewing Girls of the room had a picnic supper at Sand Lake on Monday evening.

Fifth and Sixth Grades

We are planning on having our picnic next Thursday at Sand Lake. Jean Moeller visited our room this week.

We shall start writing examinations Friday, June 10.

Third and Fourth Grades

Jean Moeller and Marian Krumm were visitors in our room this week. Allan Miller and Norma Malcolm spelled the fourth grade down in a spelling contest this week.

We have finished our book in third arithmetic and are now reviewing.

Come in and see our porch gliders. Evans Furniture Co. adv

Army of Tree Dwellers

When a tree was cut down on a banana plantation it was found to be quite a residential quarter. It was the home of 3 snakes, 4 families of birds, 1 opossum, 2 hives of domestic bees, 1 hive of native bees, myriads of white ants, many wood grubs, and of course, thousands of tiny insects.

Care of House Plants

When a potted plant starts decaying there may be worms in the soil, so water the soil with strong soap suds or use water containing ammonia—one teaspoonful to a quart of water. The worms that are not killed by the solution will come to the surface for air and can be destroyed. Use the suds several times but it is better to pour it through a funnel to prevent its getting on the plant.

Sound Never Duplicated

The action of throat muscles in speaking, which has been recorded by a new apparatus, has led its inventor to believe that no spoken sound has ever been uttered twice in identically the same way.

Hair's Growth After Death

Certain claims have been made that in rare cases hair has been proved to have grown after death. The United States public health service has stated there are no authentic records of such cases. The widespread belief in this growth is held to be caused by the shrinking of the skin toward the roots of the hairs, giving an appearance of hair growth. The same may be said with regard to growth of nails.

British and French Flags

The British flag at the time of the American Revolution was a blue field with the crosses of St. Andrew and St. George; St. George, white cross; St. Andrew, red. The standard of France at this period was white with the fleur de lis, or lily.

Bunyan's Great Work

Before John Bunyan left prison he had begun his great book, "Pilgrim's Progress." Bunyan's formal pardon is dated September 13, 1672. The first issue of "Pilgrim's Progress" appeared in February, 1678.

Jerusalem's Area

The city of Jerusalem is on a quadrangular plateau one-half mile square, surrounded on the three sides by steep valleys. The walls of modern Jerusalem inclose 210 acres.

Monster Sturgeon

The biggest sturgeons in the Great Lakes weigh 200 pounds or more and measure as much as eight feet in length, which accounts for the fact that they are sometimes excitedly thought to be sea serpents.

Important Announcement!

To All Folks Who Want to Serve Fresher Coffee at Less Cost.

Buy a Pound on Approval

And let your taste decide the fine flavor in our McLaughlin Coffees. Money back if you are not satisfied.

65% More Flavor Less cost of packages, cans and advertising, 4 to 10c a pound.

All McLaughlin Coffees are double roasted—the only double roasted coffees in the country. This is a very expensive process because it removes the excess moisture from coffee. This means that more coffee is required to weigh out one pound. The advantage to you is that you get more flavor per pound. Double roasting also takes out the harsh, bitter flavor and develops a smooth mellow flavor.
