NUMBER 24

## TAWAS CITY

### ALABASTER IS SHUT OUT BY LOCAL BOYS

Lixey, Besides Pitching Fine Ball, Drives In Only Runs of Game

Tawas City celebrated their pennant-raising day at the local athletic field Sunday by blanking Alabaster, 2 to 0.

"Mub" Lixey, star southpaw, besides limiting the White City boys to five scattered hits, drove home the only two runs the 1933 champions scored with a double into left field. Lixey pitched a brilliant game and had perfect control of his fast ball and completely puzzled the visitors with his curves, striking out 13 men. He walked one batter. It was Lixey's second shut-out of the year.

It was an interesting pitching duel and unfortunately for Alabaster an error caused trouble for Erickson in the fifth when the Hi-Speeds tallied their pair of runs. Laidlaw fanned to open the fifth and Zollweg grounded an easy roller to Smith but Baker chopped the throw. Noel singled and took second when Roiter threw past third attempting to get Zollweg. Musolf rolled to the box and Zollweg was out at the plate. Musolf stole second and scored behind Noel when Lixey hit his timely double into left field. Erickson tightened up then and managed to keep home plate clear for the rest of the game but Lixey continued to be stingy with hits and protected the two runs he created.

The visitors had Lixey in trouble in the first inning when the first two batters hit safely. "Mub" bore down, however, and fanned Rollin, and Smith was doubled at third as Baker fanned. Alabaster again threatened in the second when Ross fumbled Johnson's grounder. B. Benson sacrificed but Lundquist and C. Benson both fanned to end the inning. The Hi-Speeds loaded the bases in their half but failed to score. Musolf led off with a single and was forced by Lixey. Moeller's single and Rollin's fumble of Ross' grounder filled the bases but neither Kasischke nor LeClair could come through with a hit. The locals had another scoring opportunity in the third. Laidlaw singled and Zollweg was hit by a pitched ball but Noel, Musolf and Lixey all popped to Rollin to end the rally. Tawas again put two men aboard in the sixth after two were out. Kasischke and LeClair walked but Laidlaw flied to Roiter. In the seventh Zollweg led (Turn to No. 2, Back Page)

#### Announcement

John A. Campbell wishes to announce to the people of Iosco county that he is a candidate for County Treasurer on the Republican ticket. If nominated and elected, he promises to the best of his ability a courteous and efficient administration.

#### Notice

After this date, May 9, 1934, I will not be responsible for any debts contracted by any one other than myself. Edgar Duby.

## The Closing Song

## JUDGE DEHNKE ADDRESSES CLASS OF '34

Diplomas Presented To 22 Graduates At Exercises Last Night

Diplomas were presented to 22 seniors at the Commencement exercises of the Tawas City high school held last night, Thursday, June 14, at the Baptist church, Tawas City.

The Commencement address was given by Circuit Judge Herman Dehnke of Harrisville. Miss Arlene Leslie delivered the valedictory, "For Value Received," and Arnold McLean the salutatory address, "Progress of Education." The remainder of the program consisted of the class march by Miss Gulliford and Wray Cox; invocation, Rev. W. A. Gregory; vocal solo, Mrs. Nyda Leslie; class song, "Double Quartette"; class song, senior class; presentation of diplomas; benediction, Rev. F. S. Metcalf.

The graduates were Theone J. Lincoln, H. Arlene Leslie, Irvin Wegner, Arthur E. Wendt, Ernestine M. Cecil, Martin C. Kasischke, John N. Brugger, Clifford A. Boomer, Carl Louis Frank, Dorothy E. Ulman, Arnold C. McLean, Earl B. Davis, Alvin Jean McLean, Geraldine J. Fox, Evelyn A. DePatty, Mary E. Krumm, Dorothy M. Davison, Melvin C. Groff, Velma M. Hawcer, Ruth L. Cholger, Herbert H. Zollweg, and Rose E. DePatty.

## Hemlock Takes Rose City Into Camp By 6-2 Score

Behind the four-hit pitching of C. Frank, the Hemlock baseball team Sunday boosted their average in the National division to two victories and one defeat by downing Rose City. Frank also struck out 11 men. The Hemlock boys made the best of six hits gathered off Houck, Rose City hurler, to cop the game by a 6 to 2 count.

#### Notice

A meeting of the depositors of the closed Ealy, McKay & Co. banks will be held at the City Hall at East Tawas on Monday, June 25th, at 8:00 o'clock, and at Hale on Tuesday, June 26th, at 8:00 o'clock.

John A. Mielock, Secretary.

## C. L. BONNEY DIES TUESDAY

Funeral Services Held On Thursday Afternoon

A large group of friends and relatives attended the funeral of Charles L. Bonney which was held Thursday afternoon at the family home in East Tawas. The Rev. W. A. Gregory officiated at the home, while services at the Tawas City cemetery were in charge of the Masonic order.

Mr. Bonney died at his home Tuesday morning after a short illness. He was 73 years of age, having been born in Climax, Kalamazoo county, January 23, 1861. He is survived by his wife and a son, C. A. Bonney. A daughter, Cecil, died some 13 years ago.

For more than 50 years Mr. Bonney was an engineer of the D. & M. railroad. He had many friends among railroad workers and others, not only in East Tawas but also in Tawas City where he lived at one time.

Besides numerous friends from this locality attending the funeral there was a number of out-of-town friends. Among these were Frank McRae, Chester Allen, and Mr. and Mrs. Fred Wilkins, all of Alpena; and Mr. and Mrs. Frederick Kline of Saginaw.

## McKAY WINS SUIT AGAINST McAULIFFE

Decision Given Wednesday By Judge Dehnke

"Defendant not having made or tendered payment in accordance with the terms of the purchase contract, plaintiff was undoubtedly entitled to repossess himself of the automobile in accordance with the agreement. It follows that he is entitled to judgment in the usual form in replevin," said Judge Herman Dehnke in his decision relative to the case of Lloyd G. McKay vs. Lyman McAuliffe. The decision was given Wednesday.

The defendant, Lyman McAuliffe, purchased a new Chevrolet automobile from Lloyd G. McKay. It was understood that the sale would be for cash. After the car had been delivered, McAuliffe handed the salesman, Gerald Murphy, a sealed envelope containing an order written on a reworded check, directing the trustee of the bank of Ealy, McKay & Company to pay McKay the balance due on the car. A used car had been turned in by McAuliffe on the deal. McKay started replevin proceedings in circuit court to recover the car. The suit was heard before Judge Dehnke at the March term of court. Following the trial, the attorneys were given 20 days in which to file briefs, and after a careful study of the case Judge Dehnke decided that McKay was entitled to possession of the automobile.

McAuliffe had a claim against the Ealy, McKay & Company bank deposits amounting to \$1,000.00.

The full text of Judge Dehnke's decision will be published in next week's Tawas Herald.

## Grand Opening of Rollway Camp Rustic Ballroom

Grand opening of Rollway Camp Rustic Ballroom, Saturday, June 16. The orchestra. Special features—On the high banks of the beautiful AnSable river; fireplace in ballroom; tasty home-cooked foods; music afternoons and other evenings by electrical transcription.

## 11 RECEIVE DIPLOMAS AT ST. JOSEPH

Commencement Exercises Held Sunday Evening At East Tawas

The Commencement exercises for the graduating class of St. Joseph high school were held Sunday evening, June 10, at the Community Building, East Tawas. Rev. Edward N. Alt of Bay City gave the Commencement address. Diplomas were presented by Rev. Edwin A. Kirchoff of East Tawas.

The program consisted of the following numbers: Recessional, Grande March De Concert (Wallenhandt)—Jane McCray and Edward Martin; The Glow Worm (Lincke)—Mixed Chorus; Salutatory—Charles Gates; Polka De Concert (Bohm)—Margaret Weed; Reading, "A Tale of Old Madrid" (T. Marion Crawford)—Kathleen Baker; Cornet Duet, Thoughts of Youth (St. Clair)—George Malenfant and Thomas Bergvin; Valedictory—Dorothy Schriber; Class Song—Seniors; Address—Rev. Edward N. Alt; Presentation of Diplomas—Rev. Edwin A. Kirchoff; Recessional, March Militaire (Schubert)—Elizabeth and Edward Martin.

The members of the class of 1934 were Kathleen A. Baker, Josephine M. Cieslak, Charles W. Gates, Genevieve M. Herick, George A. Malenfant, Leonard J. Patterson, Irene M. Povish, Dorothy G. Schriber, Elouise M. Sheldon, Allen A. Stepanski, and Margaret A. Weed.

## Late News Events

NEW YORK CITY, June 15—Max Baer defeated Primo Camera for the world's heavyweight boxing championship last night at Madison Square Garden, New York City. The decision was a technical knockout in the eleventh round. Baer had Camera on the canvas five times during the bout for a count of one or two. The fight was stopped at the request of Camera, who said there was nothing more he could do.

ALPENA, June 15—The Alpena Gas company, as well as other units of the Michigan Federated Utilities company and the Lower Peninsula Power company, has been purchased by the Consumers Power company, according to announcement by Vice-President and General Manager D. E. Karm of the purchasing company. Units purchased serve more than 50 Michigan communities and upwards of 20,000 customers.

MIO, June 15—The Northeastern Michigan Band association will hold its semi-annual meeting Sunday, June 17, at Mio. The bands which are expected to be present are West Branch, Rogers City, Charlevoix, Grayling, Petoskey, Alpena, Beaverton, Cheboygan, Gaylord, Midland, Rosling, and in the afternoon a massed concert will be given.

## CELEBRATION PLANNED AT EAST TAWAS

Fireworks, Baseball Game, And Water Races Are Part of Program

This year's Fourth of July festival at East Tawas will have many and varied entertainments and spectacles, according to plans advanced by business men of this section at a meeting in East Tawas Monday evening.

Fireworks, outboard motorboat and yacht races, a parade, a baseball game, and dancing are included in the present plans of the entertainment committee appointed at the meeting.

A community hall dance on the evening of July 3 will open the celebration. A parade on the morning of the Fourth will feature business men's floats, a contingent from nearby C. C. C. camps, a German band, and drum and bugle corps.

The afternoon of the Fourth will see a baseball game between Tawas City and East Tawas and also, according to present plans, outboard motorboat races with participants from several cities. The committee is quite confident of fitting the yacht race of the Tawas Bay yacht association into the day's program. If their plan carries through, a yacht race will be held from Point Lookout to Tawas Bay, with the finishing line off the East Tawas dock.

A fireworks display, its beauty enhanced by closeness to the water, will take place in the evening on the dock and in the State Park. To finish off the events, another dance will be offered in the Community hall.

An Iosco county girl will be crowned queen of the festivities. The judging will be conducted at the Family Theatre between the first and second shows Saturday evening, June 30. Prizes will be awarded. All of those interested should write E. H. Bassler, chairman of committee, East Tawas.

P. Gustav Wahlstrom was named as general chairman of the festival. Committee members assisting him are the following: Victor Marzinski, William DeGroot, Stephen Youngs, Horace Meyer, William Schill, Paul D. Kelleter, and Ernest Leaf.

## Tuscola Court No Longer Has Jurisdiction in Ealy, McKay Bank Liquidation

Judge George W. Sample, of Ann Arbor, presiding in the Tuscola county circuit court, Monday ruled that the Tuscola court no longer had any jurisdiction in the proceedings relative to the liquidation of the Ealy, McKay & Company banks in Iosco county, except as any inquiry for instructions or directions might be made by either L. G. McKay or the Bay Trust Company in the administration of the trust liquidation. The question before the court was whether that court had any jurisdiction over the assets of the banks in question and over Mr. McKay's liability to the depositors of those banks which might be transferred to the Iosco county circuit court. T. George Sternberg, attorney for the committee of depositors, had presented a petition for the removal of such jurisdiction.

This leaves the matter open for disposal elsewhere, according to Mr. Sternberg, provided, of course, other court requirements are met.

## Barbara Stanwyck Stars In "Gambling Lady"

Barbara Stanwyck will be the stellar attraction at the Family Theatre, East Tawas, on Wednesday and Thursday, June 20-21, in her latest Warner Bros. picture, "Gambling Lady," a film based on the thrillingly dramatic story by Doris Malloy.

Miss Stanwyck has the gay and sporting role of a square shooting gambler who plays the game of life with a courage few persons possess, even to tossing away love to save her husband from a crime of which she knows he is innocent.

There is a talented cast in which Joel McCrea and Pat O'Brien share honors as masculine leads and rivals for the love of the gambling lady.

## Five Unique Songs Are Sung In "Wonder Bar"

A near approach to a motion picture musical number has been attempted in "Goin' To Heaven on a Mule," which Al Jolson sings in the First National screen version of "Wonder Bar," which comes to the Family Theatre, East Tawas, on Sunday, Monday and Tuesday, June 17-18-19, according to Harry Warren and Al Dubin, composer and lyricist of that Warner Bros. musical spectacle.

Both in its musical treatment and in its screen presentation, they say, the number is unique.

For Dolores Del Rio and Ricardo Cortez, who appear as a famous dance team, also entertainers at the cafe, the lads have written a special tango.

"Wonder Bar" is the international famous musical drama with spectacular numbers created and staged by Busby Berkeley, in which 300 beautiful girls take part. Others in the all star cast are Kay Francis, Hal LeRoy, Louise Fazenda and Fifi d'Orsay.

# Ice Patrol Keeps Watch on Ocean Traffic Lanes

## Keeps Vessels Informed of Position of Bergs.

Washington.—The U. S. S. Mendota of the International Ice patrol reports 165 icebergs in the Atlantic ship lanes—the largest number since 1912 when one of the floating mountains of ice wrecked the Titanic, palatial British steamship.

"Icebergs have always been the dread of transatlantic navigators," says a bulletin from the National Geographic society. "They just drift here and there. They give no warning of their presence. They are propelled by ocean currents, winds, and waves. Fog is their constant companion."

"A vessel speeding through an area infested with moving ice, during the night or in fog, plays a game of chance. Even on a starlit night a berg cannot be seen beyond a half mile; but when the position of the ice is known to the navigator the danger is eliminated; he can alter his course to avoid the menace."

"The ice comes down every year, as it has for centuries; but now every berg that follows the eastern edge of the Grand Banks into the steamer lanes is kept under surveillance by the International Ice patrol. From this service navigators can learn the answer to the question which each asks: Where is the ice?"

is completely covered with a vast ice cap estimated to be 5,000 feet in thickness. Always the ice mantle is moving down the slope of the land toward the sea, in great glaciers, pushing out through the valleys. As the ice reaches the sea it noses out into the water until buoyancy lifts it up, and then the front of the glacier breaks off at a weak spot.

**A New Berg Is Born.**

"There is a deafening roar and a thunderous crash as the glacial fragment plunges heavily into the sea, almost submerging. The water is churned into creamy waves as the new born berg shakes off the sea, regains its equilibrium, and settles itself comfortably for a long journey southward. Only one-ninth of an iceberg may be seen above the surface of the sea. The bergs that menace Atlantic shipping come from the glaciers of west Greenland, floating southward in the cold Labrador current that keeps them intact. The east coast glaciers usually melt before they float so far south, for warmer water prevails on that side of the great Arctic island.

"The iceberg danger period is from March 1 to July 1. It is during that

## Youngest Organist Replaces Oldest

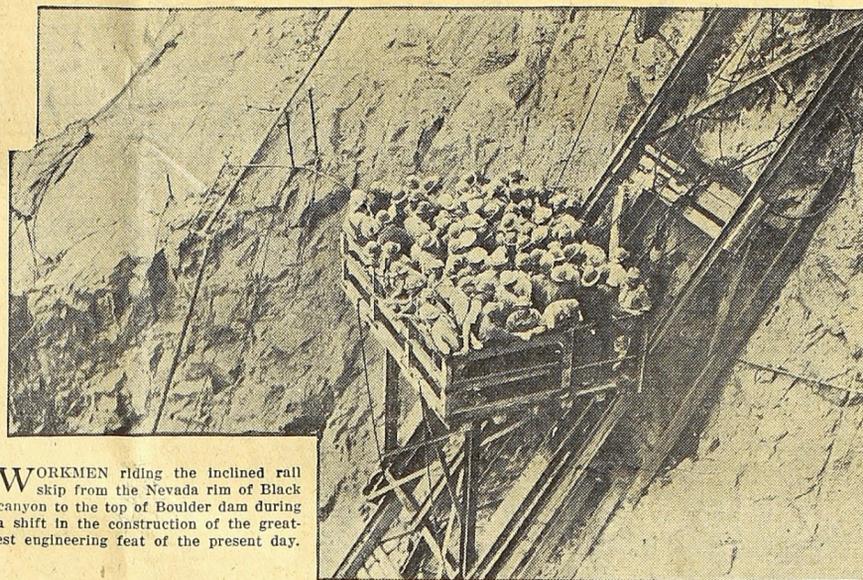

Portage, Wis.—Last year St. John's Episcopal church here claimed to have the oldest organist in the state. This year the church believes its organist is the youngest full-time paid musician in the Episcopal denomination. Alice Helen Jorns, sixteen years of age, has replaced Mrs. Josephine Shackell, seventy-nine, who died after playing the organ at St. John's for 53 years.

period that the cutters patrol the ice-endangered areas.

"The ice patrol cutter stands as traffic officer on this avenue of the sea. If the ice threatens a blockade, the cutter sets the stop sign and turns the traffic into a 'side road' traffic to the south. Like a good traffic officer, the cutter on duty answers all queries about the condition of the road and will help a ship in trouble. On one day a cutter may hear from as many as 38 vessels.

"Thousands of Americans sail to Europe during the iceberg season. Few of them are aware, as they retire to their staterooms at night, of the precautions taken for their safety as message after message from the ice patrol comes into the radio rooms of their ships."

## How They Go to Their Work at Boulder Dam

WORKMEN riding the inclined rail skip from the Nevada rim of Black canyon to the top of Boulder dam during a shift in the construction of the greatest engineering feat of the present day.

## In a Garden Chair

By ANNE CAMPBELL

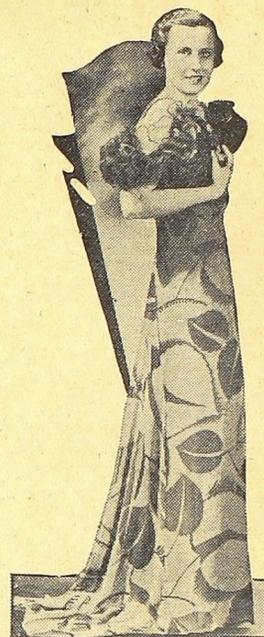

I HEAR the sea, the tumbling sea,  
And smell the spray in the clean  
salt air.  
The gulls are sailing close to me.  
The sky is blue, the horizon fair—  
And I have not moved from my  
garden chair!

The mountains rise to snowy heights.  
I climb the trail, and the way is  
hard.  
My soul moves on to new delights.  
I glimpse high heaven! I am not  
barred  
From beauty, though held to my  
own back yard.

On wings of fancy I may go  
To foreign countries and revel there.  
Old sights are sweet in memory's glow,  
And loveliness I may never share  
Is mine, as I dream in a garden  
chair!

## Covered Shoulder

A new version of the covered shoulder is found in this chic printed evening gown designed by Stein and Blaine. Ruffled black organza shoulder epaulets accent the black floral design on the orange print chiffon frock which is made for warm summer evenings.

## Commissioning the Minneapolis

View of the ceremony by which the U. S. S. Minneapolis, latest of the 10,000-ton treaty cruisers, was commissioned at the Philadelphia navy yard.

**Born of Titanic Disaster.**

"The founding of the ice patrol was a result of the sinking of the Titanic which collided with a berg on the night of April 14-15, 1912, with a loss of more than 1,500 lives. Following the disaster, a general demand arose for a patrol of the Atlantic ice area. Immediately the United States navy detailed two cruisers for guard duty until the last bergs disappeared from the steamer lanes in late June.

"During the fall of the same year the International Conference for the Safety of Life at Sea was convened at London, to organize the ice patrol on an international basis. Representatives of the principal maritime nations of the world signed the agreement on January 20, 1914, creating the international derelict destruction, ice observation, and ice patrol service.

"The United States was asked to undertake the management of this service. This country agreed to send two vessels which would patrol the danger area during the iceberg season. Each of the contracting parties consented to bear a share of the cost in proportion to its shipping tonnage.

"Not a single ship has been lost in the policed lanes through collision with an iceberg since the patrol was inaugurated.

"Greenland's 'icy mountains' are the source of most of the icebergs that come as far south as the steamer lanes, journeying about 1,800 miles before they become white 'specters' to shipping. With the exception of a small strip of coastal line, Greenland

## BEDTIME STORY FOR CHILDREN

By THORNTON W. BURGESS

### PETER LEARNS MORE ABOUT THE VIREOS

"SPEAKING of the Vireos, Redeye seems to be the only member of his family around here," remarked Peter.

"Listen!" commanded Jenny Wren. "Listen! Don't you hear that warbling song way over there in the Big Elm in front of Farmer Brown's house where Goldy the Oriole has his nest?"

Peter listened. At first he didn't hear it, and as usual Jenny Wren made fun of him for having such big ears and not being able to make better use of them. Presently he did hear that song. The voice was not unlike that of Redeye, but the song was smoother, more continuous and sweeter. Peter's face lighted up. "I hear him," he cried.

"That's Redeye's cousin, the Warbling Vireo," said Jenny. "He's a better singer than Redeye, and just as

all mixed up. If only some of them had some bright colors it would be easier to tell them apart."

"One has," replied Jenny. "He has a bright yellow throat and breast and is called Yellow-Throated Vireo. There isn't the least chance of mistaking him."

"Is he a singer, too?" asked Peter. "Of course," replied Jenny. "Every one of that blessed family loves the sound of his own voice. It's a family trait. A good thing is good, but more than enough of a good thing is too much. That applies to gossiping just as much as to singing, and I've wasted more time on you than I've any business to. Now hop along, Peter, and don't bother me any more today."

Peter hopped.

## QUESTION BOX

By ED WYNN... The Perfect Fool

Dear Mr. Wynn:

I am a boy sixteen years old and I have an ambition. I want to do something startling. Something that is bound to cause a commotion. What do you suggest?

Truly yours,  
I. DEALIST.

Answer—Something that will startle people? Very simple. Go to a ballroom during a dance on a hot summer's night and throw about ten eggs in the electric fans.

Dear Mr. Wynn:

A friend of mine said that he knew a man that was in the hospital having splinters taken out of his tongue. Could that be true? If so, how do you account for splinters in a man's tongue?

Truly yours,  
ANG. TIIOUS.

Answer—That is probably true. It most likely happened this way: The man was very stinky. He had just paid for a drink and it spilt on the floor. See what I mean?

Dear Mr. Wynn:

Do you think it is right for men to work on Sunday, thereby breaking the Sabbath?

Truly yours,  
E. VANGELIST.

Answer—I do in some cases. For instance, if it's a question which one is "broke," the man or the Sabbath, I say the Sabbath.

Dear Mr. Wynn:

What is meant by "A Man of Promise?"

Yours truly,  
SID. KNEE.

Answer—A man of PROMISE is a chap who borrows money and never pays it back.

Dear Mr. Wynn:

I am a boy eight years old. We have just started physiology in school. Tomorrow I must tell the teacher all about "The Five Senses." Please tell me what are the five senses?

Yours truly,  
I. BALL.

Answer—The five "centses," my child, are nickels.

WNU Service.

### Beginning of Cabinet Offices

Departments of State, War, Post Office, Treasury and the office of the attorney general were established with the Constitution. This latter office was officially changed to the Department of Justice in 1870. The Navy department came into existence in 1798; Interior, 1849; Agriculture, 1889; Commerce and Labor, 1903; and Labor was established as a separate department in 1913.

### Willows Produce Heavy Water

The weeping willow tree produces heavy water. The tree's roots draw in ordinary water. In the course of growth the tree breaks this water in its hydrogen and oxygen atoms.

## Round Europe Airplane Flight in August

### 1934 Contest Is Sponsored by Poland Aero Club.

Warsaw, England.—The biggest European sport flying contest, the "round Europe" flight for 1934, will be organized by the Aero club of the Polish republic, to which the winner of the last race in 1932, Franciszek Zwirko, belonged. Zwirko was killed a short time later.

The first "round Europe" flight actually was started and organized in 1929 by the Aero club of France. Participation for 1934 is assured by Poland, Germany, France, Italy and Czechoslovakia. But the failure of Britain to file notification has caused great disappointment.

The flying route covers 9,400 kilometers, as follows: Warsaw, Koenigsberg, Berlin, Cologne, Brussels, Paris, Bordeaux, Pau, Madrid, Seville, Castablanca, Meknes, Sidi Bel Abbes, Algiers, Biska, Tunis, Palermo, Naples, Rome, Rimini, Zagreb, Vienna, Brunn,

## HER GOLD SEIZED

Helen Black, teacher of social science in an Oklahoma City public school, whose small supply of hoarded gold was seized by government agents. Miss Black's safety deposit box at a local bank was broken open after she refused to accompany officers to the bank with her key.

## Prague, Kattowitz, Lvov, Vilna, Warsaw.

This route is 2,000 kilometers farther than that of 1932. The distance must be completed between September 8 and September 15, that is over 1,100 kilometers per day. With the inclusion of the African laps, for the first time the flight crosses the frontiers of Europe.

The flight starts officially on August 29 with the technical examinations, which last until September 7. This hard trial includes: Minimum speed, start and landing within the shortest stretch, examination of gasoline consumption, and dismounting and reassembling of airplanes.

After the round Europe flight, on September 16, is the speed test, always awaited with great curiosity.

## Savants Explode Ideas Regarding Pearls, Opals

Washington.—Two scientists at the Smithsonian institution have exploded the old-fashioned "humbug" regarding pearls and opals.

Dr. Paul Bartusch, curator of molluscs and authority on pearls, disproved the theory that pearls require contact with human skin once a year to preserve their beauty. Every pearl, he asserted, eventually loses its luster, no matter how preserved.

However, Doctor Bartusch continued, a pearl may have its beauty restored by a simple "operation." A layer of nacre removed by the delicate instruments of an expert does the work. Faded pearls, he added, often are bought cheaply, "operated upon," and sold as new.

"Humbug!" exclaimed Dr. James Been, institution geologist, in exploding the belief that opals, soaked in water will retain their fire.

Opals, he disclosed, are 40 per cent water. As the water evaporates the fire dies, and, Doctor Been contended, all the soaking in the world won't bring the glow back.

## Boston Artisan Builds World's Smallest Organ

Boston.—Louis Weir, organist, has built what is believed the smallest organ in the world—14 inches wide and 8 inches high. It can control all the stops of a large console and was played for the first time by him in a Boston theater.

## Town Clock 7 Minutes Fast for 681 Years

Goerlitz, Germany.—This city probably has the only clock in the world which is always wrong.

It is a distinction dear to the heart of every good Goerlitzer.

It was in 1253 that the whole thing started. A small group of dissatisfied conspirators had decided that the current town council was superfluous. With true medieval efficiency they arranged to kill them as they left the Rathaus at noon.

But one of the conspirators got a touch of conscience and set the clock on the "Monk's Tower" of the Rathaus seven minutes ahead. The result was that the civic minded conspirators arrived early, were met by the guard, and promptly rendered incapable of further activity.

Seven minutes later the councilmen moved angrily down the steps, heard of the attempt, mopped their collective brow, and proceeded on to lunch. Since then the clock has remained seven minutes fast, in honor of the occasion.

## Will Celebrate 200th Birthday of Noted Light

Nantucket, Mass.—Brant Point Light, at the entrance to Nantucket harbor, is looking forward to its two hundredth anniversary.

Second in point of age to Boston Light among lighthouses of the United States, the venerable Cape Cod marine lookout was established in 1736 and has been rebuilt seven times.

Keepers Gerald M. Reed and Frank W. Craig, who alternate on 12-hour shifts, care for the light itself, two range lights, a fog horn, and an automatic acetylene flashing light. Both live with their families at Brant Point.

## 99 Per Cent of Speeders Fined in California

Sacramento, Calif.—Alibis produced in California traffic courts by motorists cited for speeding apparently aren't "making the grade."

Figures compiled by the state department of motor vehicles show that 99 out of every 100 drivers tagged for speeding are convicted in court. The report revealed, however, that 20 per cent of those found guilty were granted probation, or received suspended sentences.

The average fine assessed for speeding amounted to \$9.11, a study of 10,000 such cases disclosed.

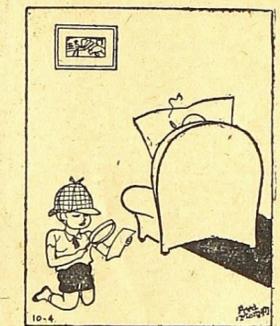

## Do YOU Know—

That golf was undoubtedly played in Colonial days, for there are court records to that effect in Albany, N. Y., where players were fined for breaking windows with golf balls.

## Mother's Cook Book

### SAUCES FOR ICE CREAMS

ONE would think of ice cream in itself as being wholesome, toothsome and satisfying, plain as it is; but the addition of a zippy sauce which is easily prepared at home makes the serving an added way of expressing the real spirit of hospitality, when one wishes to offer something more than commonplace refreshment.

A few chopped nuts sprinkled over plain vanilla ice cream and topped with a spoonful of whipped cream and a maraschino cherry makes a most satisfying sundae.

The careless preparation of a sauce to serve on or with any dish is always a convincing proof of the indifference paid to good cooking. To make a good sauce requires good taste, patience and judgment. To be good it must fit the dish where it is served—that is, be appropriate to it, smooth, artfully flavored and of the right consistency.

The opportunity to add one's individuality to a dish is well expressed in sauces served.

### Maple Pecan Sauce.

Melt two tablespoonfuls of butter, add three-fourths of a cupful of sugar and one-fourth of a cupful of water, three tablespoonfuls of corn sirup and one-fourth of a cupful of water, when tested in water. Remove from the fire, add one-fourth of a cupful of cream, three-fourths of a teaspoonful of maple, one-half cupful of pecans chopped. This makes six servings.

### Chocolate Sauce.

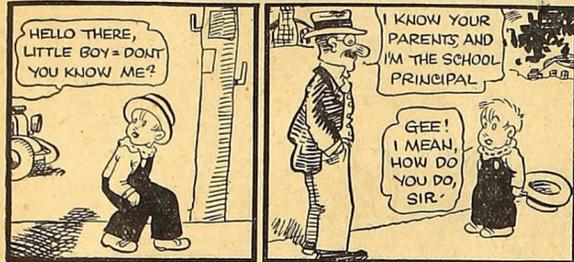

Melt three squares of chocolate over hot water, add one-fourth cupful of water and stir until smooth; now add one cupful of sugar, one-half cupful of corn sirup and boil to the very soft ball stage, or 234 degrees. Remove from the fire, add one cupful of cream

## Boys Build a Hydrofoil Speedboat

THIS speedboat, radical in design and expected to develop double the speed of present water craft of the same power, was completed by pupils of Rocky River High school in Cleveland, Ohio. The boat, powered with a standard outboard motor, is the first of its kind to be built upon the hydrofoil principle developed by Dr. Oscar G. Tietjens, nationally known research engineer. Every detail of the 15-foot craft was worked out by the students and their instructor, A. K. Skromp. The hydrofoil consists of a plane suspended underneath the boat which cuts through the water as the boat gathers speed and reduces the fluid resistance to a minimum.

SUCH IS LIFE—None Better

By Charles Sughrue

Voluble Dutchman Dupes U. S. Bigwigs

Notables Give Him Autographs and Seals.

New York.—No doubt the youthful Dutchman indulges in a chuckle or two as he paces the confines of the Ellis Island alien detention pen and awaits the word from Washington that will pack him off to his native Holland.

Hadn't he pulled the wool over the eyes of a select list of the nation's celebrities, including Secretary of State Cordell Hull, Governor Lehman of New York, Mayor La Guardia of New York city, and, apparently, President Roosevelt, too?

Pieter Jaarsma, late of Amsterdam, is the name of this super-duper who, as a sort of self-appointed good will envoy of her majesty, Queen Wilhelmina, made a specialty of gathering official seals and signatures.

A Technique All His Own.

Jaarsma, autograph collector extraordinary, had a technique all his own, and he had lots of fun crashing the highest state circles until immigration officials caught up with him and called a halt to the game.

Just why Jaarsma went about for several years posing as a Dutch newspaper correspondent collecting signatures and seals for the queen back in Amsterdam he would not say when officers pounced upon him and his album. Possibly it was merely to satisfy his vanity, possibly for a more sinister purpose.

But it is not for that that Jaarsma is languishing on hot and smelly Ellis Island. It seems that he once washed dishes in an Amsterdam hotel and that one day he abandoned his crockery

To Run in America

Luigi Beccali of Milan, Italy, who holds the Olympic 1,500 meter title, is coming to the United States to compete in the Princeton university invitation meet June 16.

and soapsuds, helped himself to 1,000 of his employer's gold guilders and several articles of clothing, and set out upon his autograph pilfering tour. This is the charge in a warrant issued by the Dutch government on which final deportation orders are now awaited from Washington. Jaarsma's, alleged theft was made four years ago and a world-wide search has been made for him since, ending in his arrest and detention here.

During the four-year interval Jaarsma went freely about collecting his seals and autographs with the aid of an adopted American name, Bernard Putnam. Hunted as a criminal, he used Queen Wilhelmina's name freely in representing himself as an international journalist in good standing and in the service of his sovereign.

Worries White House.

There was some doubt as to whether Jaarsma included President Roosevelt among the victims of his bland manner and smooth speech. Examination of his album disclosed the official wax seal of "the President of the United States" imposed upon a tri-color band of red, white, and blue. But the President's secretarial staff insisted that there was no official record of Jaarsma having made a call at the White House. They came to the conclusion that the seal was a forgery inasmuch as the State department keeps the Chief Executive's seal under lock and key. Forgery or not, the finding of the President's seal in the album was said to have caused deep concern at the White House when Jaarsma's identity was revealed.

On another page of the album there was the brilliant red paper seal of the State department beside the photograph of Cordell Hull, director of America's foreign affairs.

On still other pages there looked out gold-bordered pictures of Governor Lehman, Gov. A. Harry Moore of New Jersey, and Mayor La Guardia. Setting the photographs off in tasteful fashion were the facsimile state and city seals punched into gold-leaf rosettes. It was all very imposing.

The Hollander's glib tongue and suave manner even fooled New York's police commissioner, Gen. John F. O'Ryan. The fact that the commissioner was conferring with Alfred E. Smith did not deter Wilhelmina's "emissary" when he wanted an autograph. He simply told O'Ryan's secretary that he would like to have the commissioner's signature for the queen, and he got it.

Twins Serve 35 Years as Priests in Same Diocese

North Andover, Mass.—Rev. Michael J. Buckley of St. Michael's church here and Rev. Patrick J. Buckley of St. Patrick's church, Cambridge, first twin brothers to be ordained to the priesthood in the Boston archdiocese, recently completed 35 years as priests. Both are pastors, and by coincidence, their parish churches bear the names of their patron saints.

WAR IN 1940?

By LEONARD A. BARRETT

No sooner had Mr. H. G. Wells placed his foot on American soil than he prophesied that the next world war would occur in 1940. He even went so far as to state that he was willing to risk his reputation as a prophet upon the correctness of that statement. He is quoted as having said that it will be a "war to end war." Whatever we may think of the prophecy itself,

it is quite true that Mr. Wells unwittingly spoke the truth, that it will be a war to end war. We are wondering, however, just what Mr. Wells had in mind when he made that statement. Was he thinking of a new obligation of brotherhood that would be universally accepted? Did he have in mind the birth of a civilization in which the 'survival of the fittest' would no longer be a factor? Was he thinking of a golden age of universal peace when, "Swords should be beaten into plowshares and spears into pruning-hooks, when nations shall no more lift sword against nations?"

We do not think Mr. Wells had any such high moral ideal in mind. "War to end war" was shouted from the house tops in the last international struggle, and many a young man voluntarily went into the conflict fully persuaded that he was making the supreme sacrifice that would end all war and make the world safe for democracy.

War will never end war so long as war is at all possible, that is, so long as there are men willing to fight and plenty of ammunition with which to

Chic Print Dress

This striking bow in the back and high in front print dress is created by Lucille Dormoy for afternoon wear.

fight. War will end war only when war is no longer possible. When civilization refuses to furnish either men or guns, war will be a thing of the past. If this is what Mr. Wells meant he was right.

The peace of the world will be realized not through destructive but constructive methods. Public opinion, national conscience and reverence for personality will stop war without any bloodshed.

Another war will doubtless end further wars for the reason that chemical and aerial warfare already threatens the permanency of civilization. The way to prevent a war in 1940 is to be more concerned about the manufacture of poison gases and other preparations being carried on in almost every nation. With the constant increase in new death-dealing inventions which the airplane can and does carry, civilization in the war area is to be wiped out.

Colors of Flowers

All flowers originally are said to have been either green or white. There are still few truly red blooms.

Shark Uses Catch of Angler as Bait

Sarasota, Fla.—Bonita House went after a tarpon—and came back with a shark. The shark swallowed the tarpon that Bonita was playing on her line, and fought for an hour and a half before it was landed. When the shark was killed and cut open the tarpon was found in its stomach.

The Household

By Lydia Le Baron Walker

PRESSING is an important element in good dressmaking. Sometimes this feature is slighted when the work is done at home. The cutting, fitting, and sewing may be well done, but if the pressing is neglected, the seams will not have the professional look so coveted, and the tailored or smart appearance of the garment will be lacking, no matter what the material.

It is not enough that the dress, coat, blouse, etc., whatever it is that is being made, should be pressed when finished, although, of course, it must be. It is necessary that the ironing be done at intervals during the entire making of the garment.

Regulation seams should be pressed open. They can be dampened by running a damp cloth over them. As the pressing is done on the wrong side of the garment, no pressing cloth is required, but all the more care must be used not to scorch goods. Woolen materials and artificial silk of whatever sort require special care. A moderately hot iron pressed down firmly on the goods is as successful in ironing, as is a hot iron run quickly over the seam or other portion of the garment.

Joining Portions.

Whenever a seam is to be stitched flat when joining portions of a garment together, it is imperative that the seam be spread open and pressed first or it will rumple. Then it never looks right in the finished garment. The seam will buckle and refuse to flatten down. Be very particular about this in shoulder and arm seams.

Pleats and hems should be pressed carefully, never hurriedly. Pleats will not show stitch marks if caught along the lower or outer edge to a thin old ribbon. Pin the top of the pleated portion to the ironing board and pull the lower end taut and straight down from the top. Iron over a damp cloth laid over the pleats. Press lightly at first and firmly later on. Take the cloth up after the light pressing, to be sure the pleats are creasing properly. Then repeat the operation, pressing hard and keep ironing until the cloth is dry. If the pleats are not set then, professionally, dampen the cloth again and repeat the pressing.

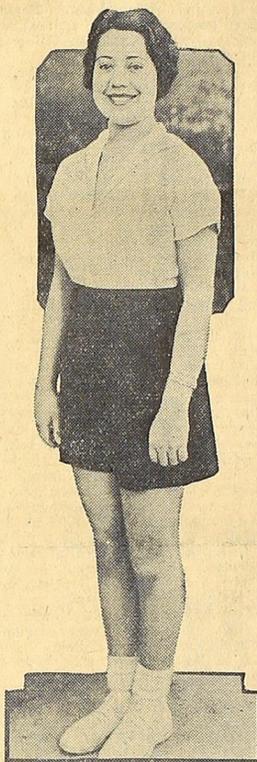

Return of Ticking.

Today there is a revival of ordinary ticking for decorative purposes. More than half a century ago there was a type of needlework or embroidery known as ticking work. It took its name from the foundation material which was of ticking. Simple and elaborate designs were worked on, over, and between the colored stripes of ticking. Like dishcloth embroidery, ticking work was in the order of peasant embroidery, in that it made beautiful a very simple material. The embroidery stitches were circumscribed by the woven stripes of the ticking. In this era when beauty must again be wrested from inexpensive materials, it is interesting to note the return of ticking into methods of decoration.

During the lapse of years the material has developed into one with

many designs as well as the customary stripes. Some require no stitching to add embellishment. It can be made up in sofa cushions, lamp shades, bags, beach pillow covers, bathing suit bags, padded covers for outdoor chairs, benches, etc., and be used in the proverbial "thousand and one" ways. The beauty of ticking work depends upon the suitability of the pattern to the purpose to which it is put, that is when the textile is unadorned. The ornamental attractiveness of embroidered ticking work depends upon the combination of colors of the embroidery mediums and the stitching.

Queen of Health

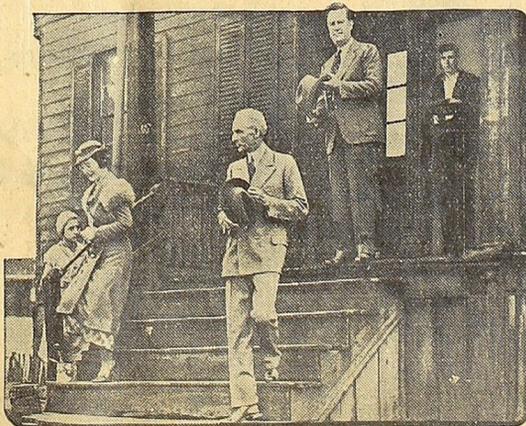

For the second time in as many years, Lillian Saul, Choctaw Indian maiden from Muskogee, Okla., was the recipient of the title of "Queen of Health" at the annual "play day" of the University of Kansas at Lawrence. She scored 100 in every test and her posture is said to be perfect.

Money in Body Helps Man Pay Hospital Bill

Washington.—A patient at St. Elizabeth's hospital here learned that his bill would not strike as deeply into his pocketbook as he had anticipated when he found that \$14 had been removed from his body in an operation. Aside from the \$14 in nickels, dimes and quarters, a miscellaneous collection of bottle tops, nails and spoons was found, according to the report. The entire collection approximated eight and one-half pounds. The patient, Edward C. Nickels, came to the hospital with an entirely different ailment. When he complained of stomach trouble during his convalescence, a diagnosis revealed the collection.

Henry Ford Buys Foster Birthplace

Henry Ford, the automobile manufacturer, is here seen leaving the birthplace of Stephen Collins Foster, composer of "My Old Kentucky Home," which he has bought and which will be removed from Pittsburgh, Pa., to Greenfield Village, Mich., to be another exhibit in the Ford museum.

That Body of Yours

By JAMES W. BARTON, M. D.

Natural Defenses of the Body

ALTHOUGH man has a wonderful brain, there are a number of things done by the body to protect him that are not directed by man's will.

Something irritates the nose and a sneeze removes it. Something irritates the throat or bronchial tubes and a cough sends it up and out of the body.

Some food or other substance, placed in the mouth, is irritant (acid) or likely to interfere with free movements of the parts and immediately there is a great flow of saliva or the mouth digestive juice. This dilutes the substance so as to be less irritant, or if it disturbs movements it is washed away.

If an offending substance gets down into the stomach, it is usually quickly thrown upward and outward by the walls of the stomach.

Similarly with the eye. Although it is set in a bony socket, and has a quick acting curtain (the eyelid) to shield it from harm, little substances do get into the eye. When this happens the tears flow abundantly to wash the substance out.

However, as Dr. Walter B. Cannon, Harvard, points out, there are other processes going on in the body which, while they do not act as quickly as sneezing, coughing, vomiting, and the flow of tears, are protecting you all the time from various troubles.

Something rough rubs or presses the skin and a callous is formed which serves both as a cushion and as a shield.

If the skin is broken, little blood vessels appear in the clot which fills the gap, and the surrounding skin reaches out and fills the gap, with only a whitish scar remaining.

In a person living at or about sea level the number of red corpuscles is about 5,000,000 to the cubic millimeter, whereas if they go to live in high mountains, 14,000 feet, the number slowly increases to 7,000,000, thus providing more oxygen which is now needed.

If the need continues, the blood forming organs in the marrow of the long bones become more active and the blood is thus enriched until the individual comes down to the lower altitude again.

Then there are the white corpuscles of the blood which attack and kill harmful organisms that enter the body.

The above are just a few of the natural defenses of the body. Surely we are fearfully and wonderfully made.

Lessening the Distress in Hay Fever

YOU are a hay fever victim. You have tried the pollen extracts and find yourself one of the number not helped by them. You have heard about the air chambers or air rooms where victims may spend a number of hours a day free from the irritation of the pollen that is in the air, but there is one of these chambers in your vicinity or you are unable to afford the time and money even if there were.

What can you do to lessen the irritation from hay fever?

There is no question but that some of the preparations sold by your druggist will give you some relief. Most of them contain adrenalin, and some have some pain killing preparations mixed with the adrenalin.

Is there anything else you can do to help carry you through this trying time until the frost brings relief?

Hay fever sufferers have found that if they keep themselves in good condition physically, paying strict attention to their diet and to intestinal movement, they get a great measure of relief from the hay fever symptoms.

Diet is most important. It has been found that an acid diet aggravates the symptoms in a great many cases, so that while acid foods must be eaten they should be eaten in smaller quantities during the hay fever season.

This means that cereals, meat, eggs, fish, coffee and tea must be cut down; butter and sugar kept at their usual amounts; and vegetables, fruits and milk increased.

The bowels must be kept active by the use of fruits and rough or coarse vegetables. In some cases very small doses of epsom salts—a half teaspoonful—every morning has been found helpful.

No one ever dies of hay fever but it is a very miserable ailment during the weeks it exists, and until a cure is found for each case, following the above suggestions may be of some help.

Pure Natural Mineral Water May Help

MILLIONS FIND IT VERY BENEFICIAL

For over 2,000 years the great mineral waters of the World, given to us by Mother Nature, have proven themselves very beneficial in the treatment of "rheumatic" aches and pains, arthritis, sluggishness, certain stomach disorders and other chronic ailments.

It has been estimated that Americans alone have spent \$100,000,000 a year in going to the mineral wells and health resorts of Europe. Over \$1,000,000 of these foreign mineral waters are imported annually into this country to help suffering humanity.

But it isn't necessary to go to Europe to find fine natural mineral water. We have many marvelous mineral waters in our own country—many excellent health resorts to which you can go for the mineral water treatment for "rheumatic" aches and pains.

Most surprising of all, however, is the fact that today you can make a natural mineral water in your own home at a tremendous saving in expense. For Crazy Water Crystals bring you, in crystal form, healthful minerals taken from one of the world's fine mineral waters. Just the natural minerals. Nothing is added.

All you do is add Crazy Water Crystals to your drinking water, and you have a great mineral water that has helped millions to better health and greater happiness.

A standard size box of Crazy Water Crystals costs only \$1.50 and is sufficient for several weeks thorough treatment for rheumatic pains. Crazy Water Co., Mineral Wells, Texas.

are for sale by dealers displaying the red and green Crazy Water Crystals sign. Get a box today.

PHONE 214 TAWAS CITY

Miss Marion Lossing visited Miss Leah Frank.

Mr. and Mrs. Judson Freil and family spent Saturday in Bay City with their son-in-law and daughter, Mr. and Mrs. Gerald McIntyre.

Walter Londeau came from Detroit last Saturday to spend the summer with his grandparents, Mr. and Mrs. Joseph Freil.

Mr. and Mrs. John Gabriel entertained their son from Flint over the week end.

Clyde Proper and Floyd Ulman of Flint spent the week end with their parents, Mr. and Mrs. William Proper and Mr. and Mrs. John Ulman.

Mr. Hill of Tawas City put a new coat of paint on John Gabriel's house Monday.

We are very glad to know Elgin Ulman is able to be around again.

Mr. and Mrs. John Jordan and baby of Sherman visited here on Wednesday.

**Culture**

Culture pearls are genuine pearls whose growth is confined to the oyster shell.

The principal difference between cultured pearls and natural pearls is that the former have a flat surface, while the latter are round.

The pearl has been known since the shell. However, it has been devised whereby the pearl is introduced into the mantle of the oyster without touching the shell, and pearls of this type resemble natural pearls so exactly that the difference cannot be discovered except by cutting the pearl open.

Cultured pearls of this high type can be used in jewelry and string for necklaces just as natural pearls can be.

**First Petroleum in Ohio**

Petroleum was first found in Ohio, and it is believed in the world, in what is Noble county, by Robert McKee, an early pioneer who struck a crevice containing oil while drilling for salt water.

Because of the great trouble this oil gave him in the manufacture of salt, he abandoned this well to drill others so as to obtain salt water free of oil.

**Dairen Dam Cost \$1,525,000**

The dam in Dairen, Manchukuo, is the largest in the Far East, required seven years to build, cost \$1,525,000, is 2,000 feet long and will hold 120,000 tons of water.

## Reno News

Mr. and Mrs. Bert Goodrich and children of Flint called on relatives and friends here Sunday.

Mr. Hall, assistant receiver of the Clare County Savings Bank, was a business visitor here Tuesday. He was accompanied by Mrs. Hall and son, Gar.

Margaret Thompson of Prescott enjoyed her 12th birthday at the home of her grandparents, Mr. and Mrs. Chas. Thompson, one day last week. She was joined by her parents, brothers and sister in the afternoon. Ice cream and cake was served, and a real good time was enjoyed.

Otto and Lloyd Johnson of Flint came up on Tuesday morning to accompany their parents, Mr. and Mrs. Louis Johnson, to Flint, where they will make their home.

Mr. and Mrs. Johnson have lived here a number of years, but owing to failing health they are forced to leave the farm. During their residence here they have made many friends who regret to see them go, but wish them better health and an abundance of success.

Mrs. Will White and daughter, Vernita, Mrs. L. B. Perkins and son, Blair, and Miss Lois Leslie were at Bay City on Thursday last week.

Mr. and Mrs. Earl Daugharty of Flint spent the week end with relatives here. On their return they were accompanied by Miss Alice Latter and Miss Eleanor Mason, who will spend the week there.

Mr. and Mrs. Harry Burlew, son, Leon, and Miss Sara Burlew of Detroit spent the week end with Mrs. Allee Waters and family.

Mr. and Mrs. Josiah Robinson were business visitors and called on relatives and friends at Wilber and the Tawas.

Sherman Dobson of Detroit is here looking after his interests, and while here is a guest of Mrs. A. Waters and family.

A family gathering was held at the William Latter home Thursday in honor of Mrs. C. Smith's birthday.

Mr. and Mrs. Chester Smith and children, Mrs. Alice Waters and Miss Florence Latter were supper guests Sunday evening of Mr. and Mrs. Will Waters in honor of Mr. Waters' birthday.

Mrs. Will Latter, daughters, Iva and Florence, and Mrs. Smith and daughter, Florence, spent Friday with Mrs. Jennie Ostrander in Burleigh.

A young people's meeting under the direction of Mrs. Rheta Pettev, assistant pastor of the Baptist church, was held at the church on Sunday evening. A social and a meeting to organize will be held on Friday evening, June 22, at the home of Mr. and Mrs. Will Waters. The meeting this Sunday evening will be postponed owing to the young people's retreat to be held at Sand Lake.

A number from here attended a reception given in honor of Mrs. Rheta Pettev at the Baptist church in Hale on Friday evening.

Dennis Farney of Mt. Morris came Sunday to spend the summer months with his uncle, Mr. Polleugh.

Alva Angel spent the week end with his family in Bay City and was at Saginaw on business Monday.

Charles Robinson of Boyne City was a week end visitor at the home of his sister, Mrs. Jesse Shortt.

Mrs. Sibley and son, Norman, Mrs. R. A. Bentley and children were Saturday evening callers with Mrs. Chas. Thompson.

Mr. and Mrs. Hiram Sheppard and daughter, Leola, of Flint spent the week end at their cottage here.

Mrs. Will Waters and daughter, Shirley, Mrs. Will Latter and daughters, Iva and Florence, spent Wednesday at Long Lake.

**U. S. Grant at West Point**

Ulysses S. Grant, the Ohio general whose whole career hinged on his West Point training, was accorded the favor of attending that institution by chance (the dismissal of another young Ohioan), and accepted reluctantly (through his father's persistence), as he himself confessed.

**Lawyers on Witness Stand**

The Code of Ethics of the American Bar association says that when a lawyer is a witness for his client, except merely as to formal matters such as the attestation or custody of an instrument and the like, he should leave the trial of the case to other counsel. Except when essential to the ends of justice, a lawyer avoids testifying in court in behalf of his client.

**JACQUES FUNERAL PARLOR**

## SHERMAN

Mr. and Mrs. Geo. Ross of Flint spent the week end with relatives here.

Mrs. Rodie DeRivers and children of Ottawa, Canada, are visiting at the home of her mother, Mrs. Jos. Jagline, for a month.

Fred Head is building a big frame barn on his farm. Manuel Cox is doing the carpenter work.

Matt Jordan is running his saw mill for a few days.

Mrs. Catherine Ross left Sunday for Flint and Detroit, where she expects to visit for a month.

Mrs. Nelson Bessie was taken to the hospital at Bay City the first part of the week, where she was operated on for appendicitis.

Mrs. Marie Roush and Mrs. Bert Westcott were at Bay City on Saturday.

A number from here attended the ball game at Sand Lake Sunday.

Mr. and Mrs. Peek Ross of Flint spent the week end with relatives here.

Mrs. Al. Core of Detroit and Mrs. Chas. Schneider of Whittemore called on relatives here Tuesday.

Mr. and Mrs. Elmer Dedrick entertained company from Flint Sunday.

Mrs. Floyd Schneider and brother, Henry Kane, of Tawas City, were callers here Tuesday evening.

Mr. and Mrs. Frank Schneider and son, Earl, were at Flint the first part of the week.

**Protected With Pitch**

Noah's Ark is described as "pitched within and without" to guard it against the floods. According to Pliny, the early Greeks, too, preserved their ships with a preparation of boiled wax, after which "neither the sea nor the wind nor the sun can destroy the wood thus protected."

**World's Best Archers**

The world's greatest archers are the Tarascans, a tribe of Mexican Indians. With their bows and arrows, many of them it is claimed, can split a grain of wheat at 30 feet.

## Ordinance No. 89

An ordinance to be termed the Annual Appropriation Bill, making provisions for and appropriating the several amounts required to defray the expenditures and liabilities of the City of Tawas City for the ensuing year.

The City of Tawas City ordains: Sec. I. That there shall be raised upon the taxable property of Tawas City the following sums: The sum of \$4000.00, which amount so raised shall be placed in and constitute the Contingent Fund; the sum of \$1200.00, which amount so raised will be placed in and constitute the General Street Fund; the sum of \$1200.00, which amount so raised will be placed in and constitute the Light Fund; the sum of \$200.00, which amount so raised will be placed in and constitute the Cemetery Fund; the sum of \$3000.00, which amount so raised will be placed in and constitute the Indebtedness Fund.

Sec. II. The foregoing appropriations and provisions are made and required to defray the expenditures and liabilities of the corporation of the City of Tawas City for the ensuing fiscal year, payable from the several funds heretofore mentioned and set forth, and it is hereby determined and set forth, that the above stated amounts are necessary to be raised by levy and taxation upon the tax rolls of the City of Tawas City for the year A. D. 1934, and to be paid into the several funds, the object and purpose of each general fund. This ordinance is in conformity with Section 30 of the compiled laws, year 1915.

Sec. III. This ordinance is enacted and ordered to take immediate effect.

**Rubber Content of Goldenrod**

The rubber content of goldenrod is entirely in its leaves. It has been found after analysis of 21 species.

## SCHOOL REGISTRATION NOTICE

Notice is hereby given to the qualified electors of the School District No. 2, Frl., of the township of Burleigh and city of Whittemore, state of Michigan, that a regular registration of the qualified school electors will be held in the following places: Secretary's residence any day except holiday up to Saturday, June 30, 1934; on

Saturday, June 30, 1934 at High School rooms, 9:00 a. m. to 8:00 p. m.

Boards of Education may appoint Boards of Registration to be in session at the places and days as indicated between the hours of three o'clock and eight o'clock in the afternoon of registration days, and such additional hours as the board of education may direct.

All Trustees to be placed on ballot by petition.

This registration is in accordance with Part II, Chapter 7, Section 2, (349) General School Law, Revision of 1931.

Registration—How conducted. A registration of the qualified electors in each district shall be made at such place or places as the board of education may direct, and the name and address of each person registering, and whether the owner of property assessed for school taxes or a parent or legal guardian of children of school age. Such registration shall in all respects not herein specified be conducted in the same manner as the registration required or provided for with reference to general elections.

No unregistered person shall be allowed to vote at any school election unless such person has qualified

under oath under the provisions of law regulating voting in general elections. The first registration of voters shall be made in said district at least thirty days previous to the date of the annual school election as fixed by law, or of any special election that may be ordered or provided by law, such registration to continue until eight o'clock p. m. of the second Saturday, and subsequent registrations shall be made at any time until eight o'clock p. m. second Saturday preceding any election in such district, and whenever the board of education may provide for a general registration therein.

The board of education may provide for a particular day or days at some particular place or places when any unregistered voter may register, and it may appoint two or more persons who shall act as a board of registration and whenever the board of education makes provision for such registration, board of registration shall be in session in the place or places established by the board of education continuously between the hours of three o'clock and eight o'clock in the afternoon on registration days, and such additional hours as the board of education may direct.

Theo. Bellville,  
Secretary of Board of Education.  
Dated June 1st, A. D. 1934.

**Finicky About Car Colors**

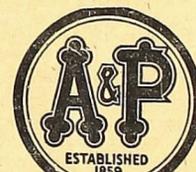

Black automobiles cannot be sold to superstitious natives of India because the color is considered unlucky. Use of red is forbidden, even as a trimming on the body and wheels, in some countries because of efforts to suppress Bolshevism.

**Notice**  
**TO CREDITORS AND DEPOSITORS OF IOSCO COUNTY STATE BANK, TAWAS CITY, MICHIGAN STATE OF MICHIGAN.**  
 RUDOLPH E. REICHERT, State Banking Commissioner, having appointed E. T. Burns, Receiver for the Iosco County State Bank, at Tawas City, Michigan, said appointment having been approved by William A. Comstock, Governor of the State of Michigan, in pursuance of section 6 of Act No. 32 of the Public Acts of 1933, did on June seventh, 1934, order:

I. That all persons having claims against the Iosco County State Bank, at Tawas City, Michigan, a Michigan Corporation, present the same and make proof thereof to E. T. Burns, Receiver, on or before October 8, 1934.

II. That all persons having claims of whatever kind or nature against said Iosco County State Bank, failing to file such claims on or before October 8, 1934, shall thereafter be forever barred from filing their claims against the said Iosco County State Bank, and shall be deemed to have no valid claim of any kind against any of the assets of the Iosco County State Bank, in the hands of said Receiver, unless time for filing has been extended on cause shown.

III. That on or before October 18, 1934, said receiver shall file with the said Commissioner of Banking, a schedule of all claims presented to him, together with his recommendation thereon as to their allowance or rejection; that a hearing will be had in the offices of the Receiver, at Tawas City, Michigan, on the 24th day of October, 1934, at nine o'clock in the forenoon, at which time the Banking Commissioner, or one of his representatives will be prepared to hear objections on the allowance of any claims filed.

IV. That a copy of this Order be published once each week for twelve successive weeks (thirteen publications) in a newspaper of general circulation in the city, village or county where the Iosco County State Bank is located, and if no paper is published in such county, then this notice shall be published at the nearest county seat.

R. E. REICHERT,  
 Commissioner of the Banking Department.  
 PATRICK H. O'BRIEN,  
 Attorney General.  
 BYRON GELLER,  
 Assistant Attorney General.  
 ATTEST: A True Copy. 13-21

French Sardines From Algeria  
 Most of the French sardines and anchovies come from Algeria.

**Hemlock**

Mr. and Mrs. Clarence Herriman, son, Gerald, and daughter, Marion, of Detroit visited from Thursday until Sunday at their parental home.

Mr. and Mrs. W. E. Smith of Mio were Sunday dinner guests of Mr. and Mrs. N. C. Miller.

Mr. and Mrs. Geo. Warner and family and Mr. and Mrs. Raymond Warner spent Sunday with Mr. and Mrs. E. Warner.

Mr. and Mrs. Andrew Smith were Whittemore callers on Saturday.

Mr. and Mrs. Russell Binder and Mrs. Louis Binder spent Sunday evening with Mr. and Mrs. John Katterman, Jr.

The Board of Review is in session this week.

Mr. and Mrs. Charles Brown, Thomas Frockins and Mr. and Mrs. Russell Binder spent Sunday in Oscoda with Mr. and Mrs. Raoul Herman, it being their wedding anniversary.

Mrs. Marshall Warren and son, Clair, of Flint are spending the week with the former's mother, Mrs. C. Smith.

Mr. and Mrs. W. E. Smith of Mio spent Sunday evening with Mr. and Mrs. Chas. Brown.

Ervin Wood and George Pringle spent Sunday at Sand Lake.

Mrs. Charlotte Smith, Mrs. Marshall Warren and baby and Rhea Pfahl spent Monday afternoon with Mrs. Will Herriman.

Dorothy Herriman spent Sunday in Tawas City with her aunt, Mrs. Clarence Fowler.

Carl Reinke of Detroit spent the week end here.

Allan Herriman and Orville Youngs of Flint spent the week end at their homes here.

Mrs. Ed. Youngs, son, Orville, and Mrs. Wilfred Youngs spent Saturday in Bay City visiting Mrs. W. Youngs' mother, Mrs. John Anshuetz, who underwent a serious operation at Mercy hospital a week ago. She is doing as well as can be expected.

Mr. and Mrs. W. VanSickle and H. Herriman spent Sunday in Prescott.

**No Family Tree Worries**

Chrechen, a Tibetan oasis, harbors one of the most enigmatical groups of people in the world. Numbering about 3,000, they are the last living representatives of about a hundred extinct races and nations, and not one of them possesses any knowledge of his ancestry.

**Don't Have to Brag**

"A great man don't have to brag about hisself," said Uncle Eben. "He kin leave de braggin' to his friends and admirers while he goes right along tendin' to business."

**Hale News**

Mr. and Mrs. J. H. Johnson were week end guests of Mr. and Mrs. Emil Giegling of Grayling.

Messrs. Harry Westcott, Jack Johnson, Stanley Morrison and R. D. Brown attended a special meeting of Portsmouth Lodge, F. & A. M., at Bay City on Monday afternoon and evening.

The editor of the Herald, Percy Thornton, of Tawas City was a Hale visitor last week Saturday.

Miss Marion Jennings has finished her work in the Royal Oak schools for this year and returned home on Friday to spend the summer months.

Mrs. Rex Jennings and little daughters of Puerto Barrios, Guatemala, Central America, who have been visiting for a month with Mrs. Nellie Jennings, left on Sunday for Lansing. After a short visit with Mr. and Mrs. Clayton Jennings they will go to New York City, and from there sail to their home in Central America.

Friends of Miss Luella Follette will be interested to know of her marriage in Detroit to Don Wandrie of that city on Saturday, June 2. The wedding was quietly solemnized, only relatives and intimate friends attending. The bride, the daughter of Mrs. E. B. Follette, was born in Hale and her early school days were spent here. For the past four years she has been working in Detroit. Friends are extending congratulations and best wishes.

Mrs. Dell Kessler and family, Mrs. Charles Ballard, Mrs. L. A. Ewing, Mrs. Mable Allen, Mr. and Mrs. Duell Pearsall and Mr. and Mrs. R. D. Brown attended the Commencement exercises at Oscoda last week Friday evening. Miss Vivian Ballard and Miss Lilah Morrison were members of the class and two of the nine honor students in the class of 25 members.

Mrs. E. B. Follette went to Detroit to attend the marriage of her daughter, Luella, and is visiting for a few weeks with her sons, John and Paul.

W. Williamson of Pontiac is a business visitor in the village this week.

A reception was held on Friday evening of last week for Mrs. Pettys, assistant pastor of the Baptist church, who, with her daughter, has taken up her residence in the parsonage. The reception was held in the church and was well attended. Visitors from the Reno and Prescott churches were present and each church contributed to the program presented. Ice cream and cake was served.

The Dorcas Society met for an all day meeting with Mrs. John Brown at her Loon Lake cottage on Thursday of this week.

Mr. Vaughn of Detroit has his new home on his Loon Lake resort property about ready for occupancy.

**When There Were No Flowers**

There were no flowers on earth during very early stages of its history.

**LOOKING BACKWARD**

**50 Years Ago--June 12, 1884**

There has been excitement in lumber shipping interests during the past two days at AuSable caused by a strike of the stevedores. They ask for 40 cents per hour. The prevailing wages for this class of work has been 30 cents.

Whittemore Bros. are opening a grocery store in the building vacated by V. H. Bagger, who has just erected a new building.

M. Murphy plans to open a pool room in the building formerly occupied by the Dupraw barber shop.

Over 2,000,000 feet of logs are being hauled from the East Branch every week over the railroad.

Tawas City and East Tawas plan a spectacular Fourth of July celebration with fireworks, races and athletic events. Bowery dances will be held at Whittemore and Hale station.

King's new opera house at Oscoda is calculated to seat 600 people.

On account of the storm Monday we had no boats from Bay City or Alpena.

Prescott & Sons are protecting their lake front with spiling.

Dr. R. M. Pelton of East Tawas has purchased the dental practice and instruments of Dr. Schunck at AuSable and will take possession Monday.

**25 Years Ago--June 9, 1909**

The following graduate from the Tawas City high school: Nina J. Sawyer, Grace M. Birney, Willena Deacon, Lois Taylor, May M. Murray, Anna M. Sands, and James F. Mark.

Minnie Reynolds, Jean Campbell, Evelyn Brabant, Hazel Lemmon, Bella Bixby, Lois Garber, Mary McGarvey, Ethel Garber, Jennie Birney, LaVina Cox, Marguerite Baguley, Hazel Market and Olga Haglund are members of the fifth county normal class.

James Henderson of Columbus, Ohio, has secured a lease on 50,000 acres of land near Roscommon and has commenced drilling a test well in search of oil.

The auditor general estimates the amount of state tax to be raised this year at \$5,899,719.74.

John Samuelson, the Watkins man, is again calling on his customers in this county.

N. C. Hartingh has this week made a gift to the Tawas City library of 150 new books.

L. O. Pettys has a crew of men building the four culverts on the Gregory drain.

Joe Minor, who is employed by the sugar company, reports that prospects are most flattering for the production of a large amount of beets in the county.

Edward McGarry has vacated the New Bay Side and that hotel is now closed.

**Tawas Breezes**

VOL. VIII JUNE 15, 1934 NUMBER 3

"Well," said the farmer, "I noticed that the only door to the bathroom opened right into my room, and I was all the time wondering if somebody would be wantin' to take a bath before I could get up and dressed."

"Ten years ago I went to America with one pair of patched trousers—and I have returned with a million."

"What on earth are you going to do with them?"  
 Old Lady: "Here is a penny, my poor

man. How did you become so destitute?"

Beggar: "I was like you, mum—giving away vast sums to the poor and needy."

**Mortgage Sale**

Default having been made in the terms and conditions of a certain mortgage made by Louis H. Braddock and Laura V. Braddock as husband and wife, of Tawas City, Iosco County, Michigan, Mortgagees, to Thomas Davison, of the same place, now deceased, Mortgagee, dated the 8th day of October, A. D. 1927, and recorded in the office of the Register of Deeds for the County of Iosco and State of Michigan, on the 11th day of October, A. D. 1927, in Liber 22 of Mortgages, on page 578, on which mortgage there is claimed to be due, at the date of this notice, for principal and interest, the sum of two thousand one hundred sixty-five dollars and forty-four cents (\$2,165.44).

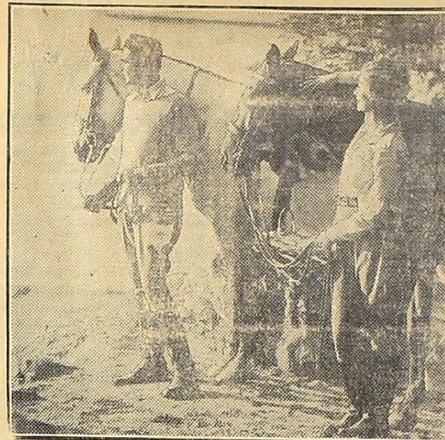

Said Mortgage was assigned to Julia Davison, of Tawas City, Michigan by order of the Probate Court for the County of Iosco on the 15th day of February, A. D. 1930, and recorded in the office of the Register of Deeds for the county of Iosco and State of Michigan, in Liber 3 of Miscellaneous Page 125 and 126, on February 15, 1930.

No suit or proceedings at law or in equity having been instituted to recover the debt secured by said mortgage or any part thereof; Now, therefore, by virtue of the power of sale contained in said mortgage and pursuant to the statute of the State of Michigan, in such case made and provided, notice is hereby given that on Saturday, the seventh day of July, A. D. 1934, at 10 o'clock A. M., Eastern Standard Time, said mortgage will be foreclosed by a sale at public auction, to the highest bidder, at the front (southeasterly) entrance to the County Building in the City of Tawas City, Iosco County, Michigan (that being the building where the Circuit Court for the County of Iosco is held), of the premises described in said mortgage, or so much thereof as may be necessary to pay the amount due, as aforesaid, on said mortgage, with the interest thereon at six per cent (6%) and all legal costs, charges and expenses, including the attorney fees allowed by law; which said premises are described as follows: All those certain pieces or parcels of land situate in the City of Tawas City, in the County of Iosco, and State of Michigan and described as follows, to-wit: Lot No. 4, Block 14, Scheffler & Company Addition to Tawas City, Iosco County, Michigan; and SE 1/2 of Lots 7 and 8, Block 12, Wheeler's 2nd Addition to Tawas City, Iosco County, Michigan.

Dated at Tawas City, Michigan April 12, 1934.

JULIA DAVISON,  
 Assignee of Mortgagee.  
 H. Read Smith,  
 Attorney for Assignee of Mortgagee. 13-14

**MICHIGAN BELL TELEPHONE CO.**

**BACK FOR ANOTHER VACATION IN MICHIGAN**

Year after year, vacationists from other states return to Michigan to enjoy the many advantages our state offers. Here they have found everything in scenic beauty, historic interest and opportunity for healthful play on land and water that one could desire.

Michigan's tourist and resort business brings large sums of money to the state each year. It provides employment for thousands, and greater prosperity for all of us. We can increase that business further by telling out-of-state friends about Michigan's vacation advantages and by spending our own vacations here.

And, no matter which part of Michigan you visit this summer, banish worry by telephoning home and office frequently. Call ahead for reservations, or to tell friends that you are coming. Long Distance calls will add but little to the cost and much to the enjoyment of your vacation.

**SYNOPSIS**

Ranceford Kershaw, last male member of the Kershaw clan, dies suddenly while riding with his daughter, Lorry, the close of the Mexican war. Robin Kershaw, with his bride, rode into northeastern California. Here he found an ideal valley for cattle raising. They christened it Eden Valley. Below Eden Valley is a less valuable tract which Kershaw's wife christens Forlorn Valley. Joel Hensley, a Texan, settles in the lower half of the valley. There is bad blood over fences and water for irrigation. Kershaw kills Hensley and the blood-feud is on. By 1917, Rance Kershaw, his son Owen, and daughter Lorry are all that remain of one clan. Nate Tichenor is the sole survivor on the Hensley side. He goes to help Lorry in her car and finds her father has died of heart disease. Elias Babson, Forlorn Valley banker, schemes to control the irrigation and hydro-electric possibilities of Eden Valley. He proposes to play Nate against Lorry, assuming that they are carrying on the old feud, in this way getting control of the key lands necessary to the project. Nate, however, has no intention of carrying on the feud.

**CHAPTER V—Continued**

The deputy sheriff rolled a comical eye at the editor. "I haven't seen the boy since he was in high school here, but from what little I know o' his tribe I should say none o' that breed ever made a threat. They made promises—an' kept 'em."

"I sized him up that way," the editor replied.

After eliciting from Brainerd all the news the latter had, Mr. Rooney strolled away to distribute his tidbit of gossip around Valley Center. Almost the first place he went was to the Bank of Valley Center. Henry Rookby, in charge during Babson's absence, received him.

"I see young Nate Tichenor's back in the country. An' Rance Kershaw's kicked the bucket. Died o' heart disease right smack in front of the Bar H gate, an' Nate Tichenor an' Lorry Kershaw 've been in town together an' thicker'n thieves."

"When the cat's away the mice'll play, I suppose. Who told you all this?"

"Brainerd. Tichenor was in an' gave him the story."

"That Nate Tichenor's a bad lot," Mr. Rookby murmured darkly. "I never liked him. D'ye mean to tell me he's around with Lorry Kershaw now, helping her out in her trouble?"

Mr. Rooney nodded.

"The hypocrite! He's back here to smash the Kershaw outfit. Not another reason in life, Bill. Rance Kershaw's estate must owe Tichenor more'n three hundred thousand dollars an' for the past three years old Rance has been using clam shells and woodpecker's heads for money. Interesting situation. Very interesting."

When he turned to wait on a customer Mr. Rooney continued on to the Valley Center garage to discharge another load of his interesting information.

Arrived back at the Circle K headquarters with Lorry Kershaw, and Miss Lizzie Bachman, Nate Tichenor, after the fashion of a rural neighbor, did the chores. He realized that, with the men all away, Lorry would have had to do them.

He ate his dinner in silence, for both he and Lorry were acutely aware of the presence of Miss Bachman and distrusted her. After dinner he kindled a log fire in the living room fireplace. He was a straight, well-set-up young man, not overly thick but muscular; he had a little crescent out of his left ear and a faint white scar about three inches long ran across his left temple and disappeared into his hair. His teeth were strong, even, white and well cared for. His nose, thin and high and a fraction too long, tended to spout what would otherwise have been a handsome face, but lent to him an air of distinction. It was the nose of a thoroughbred, a thinker. His eyebrows, heavy and almost black, were a bit overhanging, thus giving to his glance an expression of alertness and directness, particularly when he asked one a question.

Lorry had already observed that he moved with quick, precise motions, like one very sure of himself and in the pink of physical condition.

About eight-thirty the nurse retired; as her bedroom door closed behind her Nate Tichenor arose, shoved an easy chair toward the fire and waved Lorry into it. He remained standing until she had seated herself.

"Too bad your father wasn't here when I called this morning. I might have preserved his life for many years," Tichenor snapped his fingers. "Kismet!" he murmured.

"We thought you were waiting until we got in so deep we couldn't swim out, then you could smash us more easily."

"Had I chosen to smash you a long time ago there was nothing to stop me. You were helpless."

"Then why didn't you?"

"I didn't need the money and I knew I could always protect myself. I could have gotten the ranch at 25 per cent of its value. As a matter of fact, I did plan to buy your mortgage. Sure, you do not think I am so careless

as not to have kept a close watch on the Kershaws."

"Your people always wanted all of Eden Valley, of course. So you planned to buy the mortgage and foreclose."

"No, I planned to buy it and hold it, because only in that way could I be assured the Kershaws wouldn't be annoyed. I planned to give you time to work out of the jam you are in; then, if you couldn't make the grade, I planned to buy your outfit, lock, stock and barrel, at a fair price. Owen was dead, your father was a cripple and you couldn't operate the business—"

"Of course I could operate it," she challenged. "And I shall. The cattle business is bound to recover. It's getting better every day. Within two years beef will be selling at ten cents on the ranch."

"I do not doubt that. Who is your father's foreman?"

"I am. Since graduating from the university in 1921 I have operated this business. I do a man's work. I know

son's probably as hard as a picnic egg, but he may have an unsuspected soft spot."

"I wish I could agree with you, but I find that impossible. Our ranch was mortgaged to a San Francisco bank, but recently Babson bought it from them—"

"He has a hen on," said Nate Tichenor, "and I'll have to find out whether it's a Bantam or a Plymouth Rock. A coward and a potential crook. Money-mad. A schemer. Miss Lorry, he wants the Circle K ranch. When he ascertained from my attorney that the Bar H was not for sale, he decided to acquire the Circle K, so immediately he purchased your mortgage."

"But why has he developed this sudden interest in Eden Valley?"

"I do not know, but I intend to find out. However, he'll never own the Circle K. Whenever you find yourself unable to hang on to it, I'm the rightful heir to it. Understand?"

"Perfectly. You're sure you will not permit him to crowd me? Sure this isn't a generous impulse because you find me in such a sad case today? An impulse you may, with reason, regret next week?"

He drew a checkbook from his inner breast pocket, went to her desk and signed a check in blank. "You fill that in for what your father's estate owes Babson and his bank," he ordered curtly, "and secure me with your promissory note."

She tossed the check in the fire. "What's your interest in me?" she demanded. "I can understand sympathy and gentlemanly kindness but not a blank check that could be filled in for nearly two hundred and ninety thousand dollars."

"I met your brother, Owen, in France. It was before Cantigny, I was the chief of No. 4 section of my battery, and my gun got bogged in a small shell-hole in the road. The teams were new, half-trained and unused to draft—and the drivers were worse, so I had a lot of plunging and tugging—no co-ordinated effort—and there we stuck. There was an infantry regiment resting by the side of the road, and pretty soon a private came up and told the green lead driver to dismount and let him try. I saw by the way this doughboy soothed the excited horses that he knew horses—so I took the place of the driver on the swing team. Fortunately, I had a good driver on the wheel team, so presently, with the cannoneers and spare drivers at the wheels and pushing behind, we gathered our teams and made one steady, concentrated pull—and the gun came out. And when the infantryman dismounted from the lead team, Owen Kershaw and I recognized each other. I said: 'Thanks, Kershaw. I'm obliged to you. Good luck to you.'"

"What did Owen say?" the girl asked softly.

"Nothing, Miss Lorry. His face sort of twisted. You see, we were all exhausted and hungry and thirsty and we'd been through a lot of mud and blood and I suppose we each had the same thought—that the Hensley-Kershaw feud was a pitiful thing. I know I had a vision of Eden Valley just then. Perhaps Owen did, too, because he commenced to cry silently; and then he came toward me and I commenced to cry, too. We didn't say anything, because there was nothing to say; just leaned against each other and thumped each other's backs and were quiet about it. Owen walked beside me up the road a little, his arm through mine; and finally he said: 'Nate, maybe my dog tag will beat me back to Eden Valley. But if you take

"Had I Chosen to Smash You a Long Time Ago There Was Nothing to Stop Me."

care of yourself, you're liable to go back with both your dog tags; and when you do, call on the old man and Lorry and tell them it's an order from me that you're to stay for dinner."

"Did he say anything about the water?"

"Yes, he said we were to have it and that he'd write home about it as soon as he got the opportunity. So I told him you'd already promised to let my people have it and that pleased him. And I promised him I'd be a good neighbor and fight as hard for the Kershaws hereafter as our clan had ever fought against them. That affected him very deeply and he dragged me off the road and we swore blood brotherhood, each to the other—and then we embraced like two sentimental Frenchmen and were ashamed of it because we were both hillbillies—and I went on with my section and he went back and flopped with his weary squad—and here I am, and I've been a long time getting here."

"Why did you delay, Nate?"

"I kept remembering him"—he pointed to the bedroom door—"and how he spoke to me that morning I came to ask for the water. I was afraid he'd never understand—so I thought I'd wait and not bother him and gradually inculcate in him the belief that I wasn't a bad sort of citizen. I see now that was poor strategy."

"Life," the girl said drearily, "is a game that is played to be lost."

His hand strayed over and imprisoned hers. "Poor little sister!" he murmured. "So hopeless and bitter—and the sun just rising over Eden after a long eclipse. Life may be a game that is played to be lost, but we'll play it like sportsmen and go smiling to our defeat."

**CHAPTER VI**

Nate Tichenor slept at the Bar H that night, but returned to the Circle K early next morning, with two men he had picked up in Valley Center. He set them at once to the task of digging Rance Kershaw's grave in the family cemetery, Lorry Kershaw pointing out to them the desired spot. About noon the coffin arrived from Valley Center and he helped the man who delivered it place Kershaw in it. Then he lunched with Lorry and Miss Bachman. At one-thirty he and Lorry drove a team to a wagon and he hitched it around and tied the team in front of the house. At two o'clock the girl met his inquiring glance bravely and said:

"We might as well proceed, Nate. Nobody's coming to my father's funeral."

With the aid of two of the hired men he carried Rance Kershaw out to the wagon and, mounting the seat, drove his late enemy on the latter's last pilgrimage, while Lorry, Miss Bachman, and the two laborers followed in the Kershaw car. At the grave Tichenor read the funeral service, the men covered the grave, Tichenor gave them each a ten-dollar bill and with Lorry and Miss Bachman returned to the house.

He was rather proud of the manner in which Lorry had carried on, even though he had expected her to exhibit the traditional courage of her clan.

"That Affected Him Very Deeply and He Dragged Me Off the Road and We Swore Blood Brotherhood."

Throughout the remainder of the afternoon he sat with the two women in the ranch house veranda and was talkative to a degree only excusable in his own mind because he had the customary masculine belief that it was his duty to keep Lorry's mind off her troubles. Evidently Miss Lizzie Bachman was similarly inspired. He enjoyed (and was certain Lorry did also) the efforts of Miss Bachman to elicit from him information as to his comings and goings since he had left Eden Valley. For three hours he withstood her assaults; then, weary and discouraged, excused himself and motored back home to the comforting presence of his silent valet.

TO BE CONTINUED.

**Antelopes Are Among Most Deceitful of All Wild Animals; Despise People**

Visitors to zoos have nothing but kind words and sympathy for one group of animals on exhibit—the antelopes. The graceful build, expressive eyes and the dainty manner in which they handle their food and step around their enclosures perhaps is accountable for this. Yet the truth is, says a writer in the Detroit News, that there is no single group of wild animals more feared by their keepers and of a more vicious and treacherous nature than these same creatures, be they gnus, hartebeests, waterbucks, Blesboks, reedbucks, impalas, oryxes, springbucks, kudus or any one of the dozen or more "gentle-eyed" gazelles.

There is hardly a zop in existence that has not recorded either serious or fatal encounters with these animals.

Antelopes are among the most deceitful of all wild animals. They may appear kind, gentle and lovable and stir a desire on the part of the spectator to pet them. Apparently they are the personification of contentment and trustfulness, but lurking under their hide is a lasting desire to kill, which is likely to assert itself at the most unexpected time. This is one lesson directors of all zoos try to drive home to their animal keepers. Never trust an antelope under any circumstances. A buck deer, during the rutting season, may be dangerous, but its

attack is a gentle breeze compared with a cyclone when likened to an antelope at any time of year.

Antelope do not need our sympathy. They live by right of hoof and horn and are likely to use both at any time on anything that resembles man.

**Hair Worms**

Hair worms are objects of curiosity, not only to those who know their habits, but also, to people unaccustomed to seeing them. The life-history of the hair worms is by no means complete. It is known that the eggs are laid in water, and that the young worms begin their lives as free moving animals, which enter the bodies of aquatic insects, which in turn are eaten by fish. After a time they are passed out of the fish's stomachs into the water. After this, little is known, until they are found as parasites inside insects of various kinds, such as beetles, grasshoppers, crickets, etc. They are not poisonous.

**Dulse Is Seaweed**

The name dulse is commonly applied to two species of edible seaweed which are largely distributed over the coasts of northern Europe and the Grecian archipelago. In Iceland, dulse is stored to be eaten with fish; it is dried and eaten raw or cooked in Scotland and Ireland.

**OLD WHITBY**

Scotch Lassies Work at Whitby During Fishing Season

Prepared by National Geographic Society, Washington, D. C.—WNU Service.

MELLOWED by time, Whitby, climbing the cliffs of the North sea coast to which it has clung for centuries, draws many visitors who are lured by the atmosphere of old England.

Most of the old part of the town remains as it was hundreds of years ago, dominated by the parish church, St. Mary's—built in 1100—and the famous ruins of Whitby abbey.

Today Whitby is a fishing port only, and its real splendors belong to the past: to the days of the old Saxon monastery of St. Hilda and Caedmon; to the days of the Great Synod in 664, when Saxon kings and the leading ecclesiastic lights of the land met with pomp and circumstance to settle the vexed question of the date of Easter; to the days of wooden ships and wooden ship-building, when Whitby was fifth port in England and her sturdy, oak-bull ships were famed across the seven seas; to the days when Whitby was one of the chief bases of the Greenland whaling industry, and Cook and Scoresby sailed from the port on their exciting enterprises; to the days when 1,500 men were regularly employed mining and carving jet (a black semi-precious mineral) and twice this number were engaged in the alum industry along the coast.

There is no shipping now. At the dawn of the great Iron age some of the "yards" turned to iron, and many fine screw steamers were built on the stocks which then lined the upper harbor. But the shallowness of that harbor and the distance from foundries and rolling mills were fatal handicaps, and Whitby found annihilating rivals in the ports of the Tees and the Tyne.

The alum industry died with the discovery of a cheaper method of production.

A trade which depends on the fickleness of feminine fashion is built on sand, and from a peak of prosperity reached in that glum period of court mourning that followed the death of Queen Victoria's consort, Prince Albert, the jet trade declined, until today it supports scarcely more than a dozen craftsmen.

of a genuine piece of Queen Anna. Moreover, while jet is found elsewhere, notably in Spain, Whitby jet is distinctive.

Most of the famous craftsmen are dead, and there has been a tendency for their successors to keep the standardized designs. But here and there one of them will show a flash of originality, and hope endures that the pendulum of fashion may swing back.

The fossils which form the second bow of the Whitby jet dealers have a more strictly scientific interest. The commonest is the ammonite. It is found in immense profusion along the entire coast, but from the geologist's point of view its most interesting aspect is its extraordinary variety. The ammonite, of course, was a marine animal belonging to the family of squids and octopuses. Its nearest existing relative is the nautilus. Its variations are distinguished by size, by number and shape of the corrugations of its shell, by the presence or absence of spines or tubercles.

The ammonite, which is particularly abundant on the rocks at the foot of the Abbey cliff, has given rise to an interesting legend which still finds credence among Whitby fisher folk. They believe it to be the petrified remains of a snake. Rarely, however, is a specimen found with its "head" intact. The story goes that in the days of St. Hilda, the district suffered from a plague of adders. The holy lady was prevailed upon to use her influence against them, with the result that first their heads were prayed off and then their bodies were turned into stone.

**Cottages of the Fishermen.**

From the main streets of Whitby—Baxtergate, Flowergate, Church street—and from Skinner street, Sandgate, Haggsgate and St. Ann's Staitth, narrow lanes twist among the old cottages or lead to watery dead ends.

The cottages are built in amazing confusion. One has the impression that they must have pushed themselves up, mushroom fashion, from the ground wherever there was space. They have no gardens. They have, with few exceptions, no view save into their neighbor's parlor or down his chimney stack. They are, however, all built on one general plan, which gives a kitchen, parlor, a best room, two bedrooms, and an attic. Their architects and builders were all men of the sea. Today it is chiefly the fishermen who live in them.

Even the fishing trade of Whitby has suffered more than an ordinary share of economic vicissitude. Old residents of the town can remember the time when, in summer, during the height of the North sea herring season, the harbor was a forest of masts. And they have since seen the time when the unloading of a solitary herring drifter created a sensation. The herring trade has vanished. But that spirit without which no industry can thrive has remained alive in the breasts of the sturdy Whitby men, and the port has of late years experienced a revival in the crab and lobster trade.

**Coble a Fine Surf Boat.**

That view to the east across the harbor, so beloved of painters and photographers, would not be complete without the fishing craft, moored hard up to the very threshold of the cottages; without the lobster pots stacked upon the quays, the salmon nets spread out on poles to dry in the sun; without the groups of blue-berseyed, salt-tanned men, busy with their gear or gossiping. Some of these men are old, white-bearded, and loquacious; but most of them are in their prime, tall, square-shouldered; soft, catlike in the way they move about, restrained in their speech, watchful.

The type of craft characteristic of the coast is the coble. No photograph can show its superb sailing qualities. Its design is the evolutionary outcome of conditions. It is pre-eminently a surf boat.

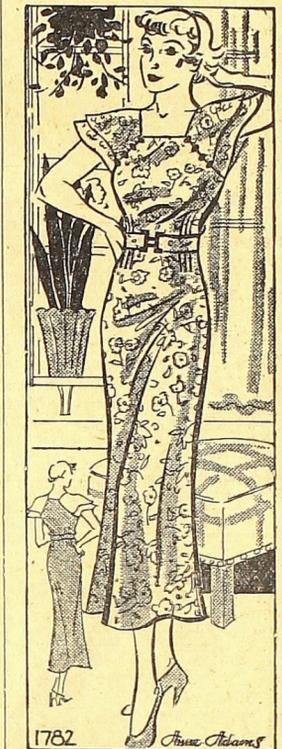

The coble's greatest draft is forward, and on an open shore it is landed stern first, its slender bows offering no resistance to the surf. It sails fast and very close to the wind, because its long rudder acts as a keel. But the rudder is also a source of danger, for it may foul a mass of seaweed or become entangled in anchored fishing gear when the boat is in a heavy breeze. The coble, like a spirited horse, demands expert handling.

**PATTERN SUITED TO PROCKS OF VARIOUS TYPES AND FABRICS**

PATTERN 1782

You'll soon be needing one of these completely new morning dresses, as warm days are well on the way. The design of this little frock is so adaptable to ideas of your own, you can use the same pattern to make several different dresses. Make it all of a printed wash silk or of solid-colored pale blue, green or rose cotton fabric. Or you can make the wing-like sleeve effect of a harmonizing or contrasting material—and you'll have still another new and very exciting dress. Really as lovely for afternoons as for mornings, and expresses gaiety in no small way!

Pattern 1782 is available in sizes 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40, 42 and

1782. Size 16 takes 3 1/4 yards 36-inch fabric. Illustrated step-by-step sewing instructions included.

Send FIFTEEN CENTS (15c) in coins or stamps (coins preferred) for this pattern. Write plainly name, address and style number. BE SURE TO STATE SIZE.

Address orders to Sewing Circle Pattern Department, 243 West Seventeenth street, New York City.

**Smiles**

**AWAITING DECISION**

Mrs. W. H. writes: "Bobby was attending summer school at St. Monica and was dawdling along in that direction one morning when a friend of his mother came along. 'Which is it today?' she asked. 'Is it school or fishing?' 'I'm not sure,' hesitated Bobby. 'I'm just fighting with my conscience.'"—Boston Transcript.

**Real Trouble**

At Atlantic City—Mo says he ran into a vaudeville team who explained that they weren't working on account of sinus trouble. "Sinus trouble?" echoed Mo, kinda surprised. "Yeah," said the male half of the act. "Nobody will sign us!"—Pittsburgh Post.

**Generosity**

"Is your boy Josh going back to college?" "I'm not sure," answered Farmer Cornstossel. "Josh seems to think that if a college professor knows anything worth tellin' he'll rush to the radio and give it to you free."

A HARD RIVER TO CROSS

(Copyright, W. N. U.)

## Ocean to Yield Up Wealth?

Extraction of Bromine, of Immense Value in Industry, Now Being Carried On, and Scientists Are Promising Other Miracles.

Ten years ago commercial extraction of any of the score of valuable elements present in the ocean was as impossible as alchemy. Today it is an accomplished fact in the production of bromine, a vital ingredient in the manufacture of anti-knock gasoline.

"And I feel safe in predicting that within the next decade—and possibly within the next year—we will be able to recover gold, silver, radium and all the other untold wealth from the sea," says Thomas Midgley, whose research promises this modern miracle.

Midgley, who received the William H. Nichols medal of the American Chemical Society for his discovery of knockless gasoline through the application of tetraethyl lead, then continued: "Now that we have made one dream a reality, it is only a matter of further technical development and refinement of processes before we make the sea loosen its hold on fortune so fabulous that it staggers the imagination. "The process for taking gold from sea water is no more difficult a problem today than was the task of extracting bromine ten years ago. Tomorrow we shall probably be wondering how we overlooked some simple discovery that will unlock the door.

"In fact, the sea is the greatest storehouse of wealth on the earth. Once the secret of tapping it is known, it will give man an inexhaustible treasurehouse of riches he will be able to draw on for thousands of years without striking bottom."

Bromine is used in synthetic chemistry, medicine and the color industry, but its chief value at present is

in the manufacture of what motorists know as "ethyl."

It is a dark reddish-brown non-metallic liquid never found free in nature but occurring in spring waters, salt deposits and certain silver ores in addition to sea water. Heretofore it has been commercially prepared from bittern, the residue left after salt has crystallized. Midgley's company has been working for years on the problem of producing bromine directly from sea water, its logical source.

One factor making the extraction of gold at the plant a probability of the near future is the theory that in extracting the bromine, the gold content in the sea water becomes ionized, or electrically conductive. Gold, being in the form of a colloidal suspension, is much more difficult to remove than bromine, but if it becomes ionized, it could be filtered by making it adhere to some cheap chemical substance.

One of the chief obstacles to the

Man's Measurement

An American writer once said: "The place to take the true measure of a man is not in the darkest place or in the amen corner, nor in the cornfield, but by his own fireside."

"I care not what the world says of him; whether it crown him boss or pelts him with bad eggs. I care not a copper what his reputation or religion may be; if his babies dread his homecoming and his better half swallows her heart every time she has to ask him for a \$5 bill, he is a fraud of the first water, even though he prays morning and night until he shakes the eternal hills."

profitable extraction of gold from sea water has been the prohibitive cost of pumping. With the water already running through the plant for the elimination of bromine, gold could be made a by-product. The water pumped up in the course of one day in the bromine process contains more than \$1,000 in gold. It also contains, in varying quantities, radium, silver and many other valuable elements.

There are 600,000,000 pounds of bromine in a cubic mile of water. In the plant, 15,000 pounds a day are removed from 30,000,000 gallons of water, or approximately \$2,000,000 worth of bromine annually. In that same cubic mile of water there is \$10,000,000 in gold and there are approximately 300,000,000 cubic miles of water in the oceans of the world. —Popular Mechanics Magazine.

### KINDERGARTEN'S VALUE

It is my belief that the most important time for education in fundamental habits, especially social habits, is the pre-school period; and the kindergarten training should be, and perhaps is, the most important formal training that the child gets during his whole educational period. —J. H. Sinclair, department of education, Occidental college, Los Angeles, Calif.

# CHOOSE THE TIRE CHAMPIONS BUY Firestone

Tires have been on the winning cars in the gruelling Indianapolis 500-Mile Race FOR 15 CONSECUTIVE YEARS

EVERY winner in the 500-Mile Indianapolis Race—the most gruelling tire test in the world—drove to victory on Firestone High Speed Tires.

Race drivers know that heat generated by friction inside the cotton cords is the greatest enemy of tire life. These men will not risk their lives on any but Firestone Tires, because they know the high stretch cords in every Firestone Tire are protected by the Firestone patented process of Gum-Dipping.

Gum-Dipping soaks the high stretch cords in liquid rubber and saturates and coats the millions of fibers inside the cords, counteracting destructive friction and heat. It provides greater adhesion between the plies of the tire, and between the Gum-Dipped cord body and the tread.

Firestone chemists and engineers kept pace with new car developments by building stronger, safer tires to meet the exacting demands. See your Firestone Dealer or Service Store today and equip your car with new Firestone High Speed Tires for 1934, with deeper, thicker, flatter, and wider non-skid tread, more and tougher rubber, more traction, giving you more than 50% longer non-skid mileage.

Remember, in Firestone High Speed Tires there is Greater Strength—Greater Safety—and Greater Blowout Protection than in any tire made.

### THE ADHESION TEST

Note how the rubber in a Firestone Tire clings to the high stretch Gum-Dipped cords. This greater adhesion and strength is made possible by the Firestone patented process of Gum-Dipping.

Note how the rubber in an ordinary tire pulls away from the cords that have not been soaked and insulated with rubber. This causes friction and heat within the cords, resulting in separation.

COME IN AND MAKE THIS TEST FOR YOURSELF

## THE NEW Firestone AIR BALLOON FOR 1934

The new Firestone Air Balloon for 1934 embodies all the improvements in the new Firestone High Speed Tire. The lower air pressure provides maximum traction and riding comfort. Gum-Dipping safety-locks the cords, providing 30 to 40% greater deflection and blowout protection.

Get 1935 low-swing style by equipping your car today with these new tires and wheels in colors to match your car. Your Firestone Dealer or Service Store will give you a free trial on your car.

**Ohio Fire Lands**  
The Fire Lands, a tract of 500,000 acres in Erie and Huron counties, Ohio, had nothing to do with fires. This land was set aside by the national government for the citizens in Connecticut whose towns were destroyed during the Revolution.

**Caterpillars Big Eaters**  
"Probably no creature eats more in its existence than a silkworm caterpillar," writes an authority in "Wonders of Animal Life." The lifetime capacity of one of these caterpillars is approximately 4,700 times its own initial weight.

**No. 1 Continued from the First Page**

Mr. and Mrs. Archie McCardell and sons, Archie, Jr., Allen and Arnold, of Detroit are spending a few days at the home of their parents, Mr. and Mrs. Jos. Watts.

Mr. and Mrs. Don Garber and son, Pat, of Flint spent the week end in the city.

Mrs. Ed. Mielock and Mr. and Mrs. Wm. Laidlaw of Detroit came Saturday to attend the alumni banquet and visit relatives and friends. They returned Sunday.

Mrs. Hugo Groff and Mrs. Jos. Stepanski motored to Beulah on Friday.

Miss Annie McNair, former teacher in our schools, died at the home of her brother, Charles McNair, of Detroit, on Friday, June 8th. Miss McNair taught about 12 years in the sixth and seventh grade room in the Tawas schools and also was cashier in the Ealy, McKay & Company bank for a couple of years. Funeral services were held Saturday in Detroit and burial was made Sunday at Gaines.

The alumni of the Tawas City high school held their annual banquet Saturday evening at the Masonic hall. The class of 1934 were the guests of the alumni. The class of 1909 celebrated their 25th anniversary and several members from out-of-town attended. The following officers were elected: President, Wallace Leslie; vice-president, Lucille Krumm; secretary, Viola Burtzloff; treasurer—Arnold McLean; trustee, Mrs. Grace Murray. A fine program was given, with Mrs. Elizabeth Holland as toastmaster. Dancing in the annex followed the program.

**No. 2 Continued from the First Page**

off with a single but was caught on a snap throw from Tate to Baker. Noel fled to Johnson and Musolf lined a double over Roiter's head but was left as Lixey fouled to Rollin.

Smith, Alabaster's second baseman, was the only one able to solve Lixey's pitching. He singled his first three times up. Roiter and Johnson were credited with the two other hits. Zollweg and Musolf, with a double and single apiece, were the only Hi-Speeds that got more than a hit off Erickson.

Next Sunday Tawas City travels to Beaverton to take on the division leaders. Tawas City hopes to return with a victory and go into a tie for first place in the American division. The following Sunday Beaverton returns to the local diamond and this game ought to be one of the feature games of the year, providing the Hi-Speeds take Beaverton into camp next Sunday.

**Whittemore**

Miss Verna O'Farrell returned on Saturday from several days' visit in Flint with Mr. and Mrs. George Hunt.

Mr. and Mrs. Earl Goupil and son and Mrs. Simon Goupil of East Tawas were callers in town Sunday.

Mrs. Henry Jacques, who has been seriously ill for several weeks, is some better.

Clinton Wise was brought home from the West Branch hospital the first of last week after undergoing a very serious operation. He is gaining very slowly.

Arden Charters and Ernest Partlo were in West Branch Monday evening.

E. D. Jacques of Tawas City was in town Wednesday evening.

Dr. and Mrs. E. A. Hasty left Sunday night to attend a medical convention in Ohio. From there they will go to Chicago to spend a few days at the Century of Progress exposition. They expect to be gone a week.

Mrs. Charles Schuster left Tuesday for a two-weeks visit in Toledo, Ohio, with her sister.

Mrs. Roy Charters, Theda and Donna Charters were in Standish Tuesday forenoon.

Mrs. C. H. Ridgley and family are in Detroit this week visiting Mr. Ridgley, who is still confined in the Marine hospital with a broken ankle he suffered in March.

Mr. and Mrs. Richard Fuerst and family spent Sunday in Detroit. A little daughter was born to Mr. and Mrs. Frank Pierce on Monday night. However, it was not spared to them long, dying at birth. Mr. and Mrs. Pierce have the sympathy of the community.

Dr. Jardine of West Branch was in town Tuesday looking after Dr. Easty's office calls.

Mrs. Bert Webster returned Saturday from a visit in Flint.

Elbridge Cataline, who has employment in Flint, spent the week end with his parents, Mr. and Mrs. Cataline.

Mrs. H. Davis is confined to her bed with illness.

The Ladies Literary Club will sponsor a Mother and Daughter banquet Thursday night, June 22, at 7 o'clock. The banquet will be served by the O. E. S. ladies in the dining room of the Masonic hall. A splendid program is being prepared and a good speaker will be present.

Mr. and Mrs. Harold Karr of Lincoln spent Sunday in the city with the latter's parents, Mr. and Mrs. Henry Jacques.

**No. 3 Continued from the First Page**

Mrs. J. Halligan and Mrs. McGillis and daughter, who spent a week with Mr. and Mrs. Roy Hickey and Mrs. John Henry, returned to their home in Detroit Sunday.

Mrs. Grant Shattuck and daughter spent Saturday in Marshall.

Mr. and Mrs. L. Smith and children of Mt. Morris have come to reside in East Tawas. They are building a large chicken farm on the Shore road between East Tawas and Oscoda.

Miss Mildred Kelly of Ida, Mich., who has been teaching in the schools of Flint this year, was a visitor in the Applin home last week end.

Miss Regina Barkman left Thursday for Detroit, and also at Ann Arbor, where she will spend the week end with her brother, Aaron.

Mrs. H. N. Butler is spending the week in Bay City and Detroit.

Mrs. Lawrence Gardner and daughter, who spent ten days in Imlay City with her brother, Richard, and wife and daughter, returned home Wednesday.

Mrs. Hazel Hallanger and Una Eyenson left Sunday for Detroit, where they will spend a week before going to their homes in the Upper Peninsula for the summer.

Mrs. Greenwood of Bay City spent the week at the home of her son, Henry Greenwood, and family. She returned to Bay City Thursday.

Several members of the American Legion and Auxiliary attended the tenth district meeting at Midland on Thursday evening.

Rev. Dr. John Wargelin, Mrs. John Wargelin and daughter, Sylvia, of Hancock, Mich., visited last week with Miss Helen Applin. Philip Wargelin, son of Rev. and Mrs. Wargelin, who has been teaching in the Oscoda schools this year, spent the week end at the home of his mother.

Rev. Wargelin is president of Suomi College at Hancock. Mrs. Wargelin will be remembered to the Hoikka, daughter of Rev. J. J. Hoikka, who was pastor of the Finnish and Swedish Lutheran churches in East Tawas in the 80's. The family moved to the upper peninsula in 1900. Rev. Wargelin left Saturday on a speaking tour in the East and to attend a church conference in Boston, Mass. Mrs. Wargelin, with her son and daughter, returned to Hancock.

**W. A. EVANS FURNITURE CO.**

**There are 7 STEPS**

**In Cleaning and Pressing Your Suit**

1. Pockets and cuffs are thoroughly brushed.
2. Your suit is placed into a washer, where for 45 minutes it is revolved under a continuous flow of fresh, clean solvent.
3. It is then thoroughly deodorized.
4. Spots and stains that are not soluble in naphtha are individually treated.
5. Your suit is then put on the repair table where missing buttons are replaced and minor repairs made with no extra charge to you.
6. It then goes to a steam pressing machine where the shape and lustre are restored.
7. Inspection. Work with faults that you yourself might never notice is sent back to be redone.

There is a reason for every one of these steps. They insure you a clean, fresh sterilized and neat appearing suit.
