

TAWAS CITY

STATE FARMERS BEAT WORST DROUGHT YEAR

Report Shows Michigan Plan Of Diversified Crops Insures Harvest

Michigan's 1934 crops of fields were worth \$24,318,000 dollars more than the harvests of 1933, according to the reports of Verne H. Church, agricultural statistician.

This report should be a matter of pride to every Michigan resident as it proves the natural resources of this state can defeat exceedingly bad weather conditions. The great value of the crops and fruits also proves the soundness of the diversified crop growing practices here. Michigan can come through with a harvest under most any set of weather conditions.

Yields of some crops were down, approximately the same for other crops, and higher than in 1933 for potatoes. The fertility of producing great quantities of one crop when the same crop is grown as extensively in other sections is illustrated by the figures on Michigan potatoes. The 1934 harvest was 34,304,000 bushels worth \$9,605,000. The 1933 crop totaled 20,670,000 bushels and had a farm value of \$13,436,000. Michigan farmers produced nearly 14,000,000 more bushels in 1934 and received almost \$5,000,000 less for the greater crop.

Corn yields were down almost 9,000,000 bushels but the value was up more than \$7,000,000. Wheat production dropped more than 2,000,000 bushels but the value of the crop was slightly greater in 1934 than in the preceding year.

The hay crop, which was cut more by the drought than any other, decreased in yield more than a million tons but the value is up nearly 13 million dollars. Hay has the greatest value of any Michigan crop. Its greater value this year is not an unmixed blessing because the greater part of it is fed on the farm where it is grown and the increase in price adds expense to the production of livestock. Farmers fortunate enough to have hay for sale, of course, benefit by the high price.

Both production and values of the 1933-1934 crops of field beans showed relatively little change. A slightly (Turn to No. 1, Back Page)

January P-T Meeting Held Last Thursday

The Tawas City P-T. A. held its monthly meeting Thursday, January 10, at the high school. The assembly sang The Battle Hymn of the Republic and America the Beautiful with Mrs. A. E. Giddings at the piano and Miss Lucille Morris directing. The minutes of the December meeting were read after Rev. E. Ross had offered prayer. The membership committee made their report and suggested a plan whereby the membership could be increased. Mrs. Georgina Leslie, chairman of the program committee, then introduced the Moore orchestra which entertained the assembly with several numbers both at the beginning and at the close of the program, featuring Miss Donna as soloist, who delighted her audience in a most pleasing manner. Norman Salsbery of East Tawas sang, I Love a Little Cottage and One Day As I Was Walking, which were enjoyed by the association. Rev. E. Ross gave the address of the evening, choosing as his topic "The Advantages of a Small Town." Mrs. Chas. McLean and Mrs. Geo. Ferguson served a light lunch in the basement after the meeting was adjourned.

New Harding-Montgomery Film Has Wit and Charm

If you like sparkling dialogue, rapid-fire action, some of the most gorgeous mountain scenery ever to be flashed on a screen, and players admirably cast, go to the Family Theatre, East Tawas, where Metro-Goldwyn-Mayer's "Biography of a Bachelor Girl" is showing Sunday, Monday and Tuesday, January 20, 21 and 22.

Ann Harding and Robert Montgomery are co-starred in the new photoplay. It is their first appearance together since the hit, "When Ladies Meet," and again they prove themselves a delightful romantic team.

Miss Harding has never been better than in her new role as a portrait painter who has had quite a lot of boy friends in the past and who scares them all to death when she decides to write the story of her life.

Montgomery as the editor who presses her to write the book, finds himself surrounded on all sides by persons who would find their lives and careers somewhat embarrassed if their former admiration for the lovely artist came to light in print.

Among these are Edward Everett Horton and Edward Arnold, who give excellent portrayals in their half-comic, half-serious roles. Others in the supporting cast include Charles Richman, Una Merkel, Greta Meyer and Willard Robertson, and they are all good.

Emanuel Lutheran Church

W. C. Voss, Pastor
Sunday, January 20—English service, 9:30 a. m., with reception of newly accepted members; German service, 11:00 a. m., with installation of newly elected officers.
Monday, January 21—Choir rehearsal, 8:00 p. m.
Sunday, January 27—English service, 9:30 a. m.; German service, 11:00 a. m.

Zion Lutheran Church

January 19—Saturday School of Instruction in Religion, 9:00 to 11:30 a. m.
January 20—Sunday School, 9:45 a. m., English.
Services, 9:45 a. m., German.
Services, 11:00 a. m., English.
January 23—Bible Study, 8:00 p. m., English, at the school.

Notice

Dr. A. S. Allard, registered chiropractor and optometrist of Bay City, will be in East Tawas at the Holland Hotel Wednesday, January 30, specializing in the well known drugless system of treating eye, ear, nose and throat troubles, straightening cross eyes without drugs or knife. Examining eyes and fitting glasses at reasonable prices. Remember the date—Wednesday, January 30.

Action Of Supervisors To Ban Slot Machines Praised

At the last meeting of the Hale Parent-Teacher Association attention was called to the action of the Isosco county board of supervisors regarding the enforcement of the law against slot machines and punch boards in the county and the following resolutions were passed by unanimous vote:

Be it resolved: That the Hale Parent-Teacher Association commend the action of the board of supervisors of Isosco county demanding that the law regarding slot machines and punch boards be enforced in Isosco county.

And be it further resolved: That this resolution be sent to the Tawas Herald for publication.
Committee.

Warms Drivers Whose Licenses Have Expired

At least 205,250 motorists in Michigan have failed to renew their drivers' licenses and as a result are placing themselves in jeopardy of the financial responsibility law. In most instances, according to Secretary of State Orville E. Atwood, the failure to secure new licenses is due to oversight and not to any desire to circumvent the law.

On January 1, 1932 there were 765,093 licenses issued while on January 1 this year but 559,835 renewals have been issued.

JAN. 29th IS FINAL DATE FOR FILING

Candidates for circuit judges and for the various county offices elected in the spring must file nominating petitions by 4 o'clock Eastern Standard time on January 29, if they are to secure places on the primary ballots March 4.

All candidates for circuit judge must, under the law, file their petitions with the Secretary of State while candidates for county office file with the county clerk. In order to secure a place on the ballot candidates for circuit judge must file petitions containing signatures of at least one per cent of the vote cast for their party's candidate for secretary of state in the judicial circuit. The same percentage of signatures is required for county candidates filing with the clerk.

This year the spring primary will be held March 4 and the general spring election April 1. Nominations for the state officers to be elected are made by conventions of the various political parties.

Builds Fire With Gasoline, Lewis Nunn Badly Burned

Lewis Nunn, supervisor of Plainfield township, was badly burned Tuesday when he mistook a can of gasoline for kerosene while building a fire at the town hall. The explosion, which followed, set fire to his clothing. He ran from the hall and extinguished the flames by rolling in the snow. The hall was being prepared for the regular meeting of the Grange.

Notice

Hereafter my office will be closed on Wednesday afternoons of each week instead of Thursday afternoons.
Dr. John D. LeClair, Dentist.

Better Housing Notes

The general committee for the Better Housing campaign for Isosco county met on Thursday night of last week to discuss plans for the coming campaign. The campaign is ready to start as soon as arrangements can be completed to bring financial assistance to those wanting to avail themselves of the opportunity of borrowing under the terms of the Federal Housing Act. The general committee consists of: T. George Sternberg, general chairman; Ruth Kasichke, general secretary; Eugene Bing, N. C. Nielsen, Mrs. R. D. Brown, Mrs. Clara Barkman, Mrs. James W. Hull, Percy N. Thornton, C. L. McLean, Robt. Dahne, John Larson and James W. Hull.

Mrs. R. D. Brown of Hale was elected as chairman of the Women's committee in the Better Housing campaign at a meeting held in East Tawas. It was decided to divide the county into three divisions; namely, one including Oscoda and the north end of the county, another including East Tawas and Tawas City, and a third including the western portion of the county—Hale, Whittemore and vicinity. Mrs. Brown will represent the Hale-Whittemore division; Mrs. Clara Barkman, selected as vice-chairman, will represent the East Tawas-Tawas City division, and Mrs. James Hull of Oscoda, selected as vice-chairman, will represent the Oscoda division. Mrs. Brown, Mrs. Barkman and Mrs. Hull will represent the Women's committee on the general committee of the campaign which now also includes Eugene Bing and N. C. Nielsen as representatives of the Building Industry committee.

Senator Carpenter Is Appointed Chairman Of Conservation Committee

Senator Ben Carpenter of this district was appointed on seven committees and is chairman of two—conservation and penal institutions. He will act on the following committees: Conservation, penal institutions, blind and deaf, elections, Federal relations, industrial schools and liquor control.

All Relief Orders Must Be Approved By Investigator

Since January 15 no orders are issued by the relief administration without the approval of the investigator of the township, according to an announcement made Monday. Direct relief orders are issued on the 1st and 15th of each month.

In the announcement Mrs. C. E. Edinger, the administrator, said:

"The present quarters are more commodious for the staff, but are so crowded for clients that we feel that it will save time for you and make you far more comfortable to make arrangements for an interview if for any reason it is necessary for you to see either the Works Division Superintendent or the Administrator. The days set aside for such interviews are Tuesday for the Works Division and Wednesday and Thursday for the Administrator."

Twelve Pound Pike Is Speared At Sand Lake

Last Friday morning Otto Kobs, Jr., of Tawas township caught one of the largest pike taken out of Sand Lake in several years. Fishing through the ice with his brother, Charles, who was operating the decoy, he speared a 12 pound grass pike which measured exactly three feet in length.

Given 90 Days At House of Correction

Milo Ecker, 20 years old, of Whittemore, was given 90 days in the Detroit House of Correction in Justice W. C. Davidson's court. Ecker had pleaded guilty to larceny.

Twentieth Century Club

The Twentieth Century Club will hold their annual Gentlemen's Night on Friday, January 18, in their new club rooms in the Davidson building at 6:30 o'clock.

WHITTEMORE CHURCH TO HOLD CELEBRATION

Methodists Will Observe Fiftieth Anniversary Next Sunday

The 50th anniversary of the Whittemore Methodist Episcopal church will be observed next Sunday, January 20, with an all day program. Rev. Herbert E. Davis is pastor.

Morning Session
11:00 A. M.—Worship.
Sermon-Lecture, "The Romance of Methodism," by Rev. Sidney D. Eva, district superintendent.
Dedication of new memorial windows.

Afternoon Session
2:00 P. M.—"Our History," Charles McKenzie, a former pastor, chairman.
Historical Sketch—Norman Schuster.
Reminiscences, by former pastor and old members.
Fellowship period.
4:00 P. M.—"An Ideal Church," Dr. Eva.
5:00 P. M.—Adjournment.
Music for both sessions will be furnished by an enlarged choir and a men's quartette.

East Tawas Basketeers Defeat Standish Five

The fast, accurate playing of the East Tawas Indians enabled them to defeat a strong Standish five by a score of 17 to 7 last Friday night at the Community Building. The down-staters threatened only once during the game. In the first quarter they held the Indians to one point. From then on through the remainder of the game East Tawas showed their superiority.

The second team registered their eighth straight victory by defeating the Standish seconds, 14 to 12. The girls, although displaying more strength than in any of their previous games, lost to a veteran team from down-state, 17 to 1.

In six years of basketball relationship Standish has gained only one victory over the East Tawas basketeers.

The line-up of the game was as follows:

G. Staudacher	F. Mueller
Pollard	F. Dragomer
H. Staudacher	G. Galazin
Gurley	G. Reichle
Lixey	G. Raynak

Score by quarters—
Standish 4 0 3 0—7
East Tawas 1 6 4 6—17

Special Road Meeting To Be Held Monday Night

A meeting will be held in the city hall, Tawas City, on Monday evening, January 21, starting at 8:00 o'clock for the purpose of seeking the completion of the eastern Michigan scenic highway. Dr. Foley of Alpena will be the principal speaker. Other outside speakers will be present and address the assembly. All persons interested in the completion of the Shore Road are urged to attend this meeting.

Late News Events

LANSING, Jan. 18—G. N. Fuller, secretary of the Michigan Historical Commission, is urging the various communities of the state to take part in the Michigan Centennial by having local celebrations during 1935 and 1936.

SPRUCE, Jan. 18—Last week while Ray and Bruce Whipple were carrying a can of gasoline from the barn it became ignited from the lantern. Ray's clothing also caught fire. He rolled in the snow to extinguish the flames. The fire in the barn was beaten out with shovels before it got any headway.

MIO, Jan. 18—The new community building here was recently damaged by fire. The loss was placed at \$1500.00. The building is of log construction and was built as a G.W.A. project. The fire is thought to have started from an overheated stove.

LANSING, Jan. 18—John S. McDonald, chairman of the state liquor commission, announced Wednesday that dancing will not be permissible in establishments where liquor or beer is dispensed without the approval of city councils or township boards.

WEST BRANCH, Jan. 18—The Ogemaw oil field has continued to boom during the past week. Three 100-barrel wells were completed and 16 new permits granted. There are now 34 producing wells in the field. The outlook for the field looks bright.

EAST TAWAS

Misses Margaret LaBerge, Dorothy Herman and Betty Wingrow spent Saturday in Bay City.

Mrs. Emma Lomas was called to Detroit owing to the death of a relative.

Special—Ranger shells, 12 gauge, 69¢ per box. Prescott Hardware, adv

E. Haire of Owosso is visiting in Wilber with Clyde Haire and family.

Miss Josephine Gates, who has been in Lansing attending Michigan State College for a few weeks, returned home.

Miss Dorothy Schriber is visiting in Detroit this week.

Miss Jean Black, who has been visiting at the home of Miss Jane McCray, returned to her home in Bay City. Misses Jane McKay and Jane McCray entertained at two parties in Miss Black's honor during her visit here.

Mr. and Mrs. Eli Miller, who spent several weeks in Memphis with relatives, returned home.

Miss Gayle St. Martin has gone to Detroit to visit with relatives.

Mr. and Mrs. Francis Schriber of Flint are visiting the former's parents, Mr. and Mrs. John Schriber, a few days this week.

Dr. and Mrs. O. W. Mitton and daughter, Shirley, spent Sunday in Bay City with relatives.

Mr. and Mrs. Jack Soules and children, who spent the week end in Bay City, returned home.

Mrs. Chas. Wesendorf entertained the Tuesday contract bridge club on Tuesday. Mrs. Harry Carson had high score and Mrs. Wm. DeGrow low score.

The American Legion Auxiliary held their regular meeting Monday evening. A membership drive will be staged for one month, with Mrs. A. Bartlett and Mrs. C. L. Barkman as captains of two sides. Mrs. May McMurray of Tawas City spoke about the public library to be located in this city and the members of the unit have taken action to see what can be done. A pot luck lunch was served.

Dr. R. Klenow and sister of Bay City spent the week end in the city with their parents, Mr. and Mrs. L. Klenow.

Fred Johnson left for Detroit, where he has employment.

Mrs. Basil Quick is entertaining her mother from Chicago for a few weeks.

Mrs. George Nash left for Bay City, where she has employment.

Mrs. O. W. Mitton entertained her contract bridge club Tuesday evening at a six o'clock dinner. Mrs. Milo Bolen and Dr. Moss had high scores.

Arvon Barkman spent the week end in Midland and Bay City.

A. P. Krueger Taken At Grand Rapids Monday

A. P. Krueger, former manager of the Northern Oil company, was arrested Monday at Grand Rapids by Sgt. Edward Cooper of the Lansing State Police. He is charged with embezzlement of \$2,000.00 by Albert Schiller, president of the company.

Krueger was brought before Justice W. C. Davidson Tuesday where he waived examination and was bound over to circuit court.

Shortly after Krueger's disappearance in August, Schiller petitioned for the dissolution of the Northern Oil company. The petition was granted in circuit court.

Christ Episcopal Church Holds Annual Parish Meet

The annual parish meeting of Christ Church, East Tawas, was held Monday evening, January 7. Opening with vespers in the church at 6:00 o'clock, the congregation repaired to the Guild hall where a delicious supper was served by the committee, of which Mrs. Fred Adams was chairman. After supper, the business meeting was called to order by the Rector, the Rev. C. E. Edinger. Reports were then read, received and filed—the Vestry, Mr. Hickey, treasurer; the Woman's Guild, Mrs. Murchison, treasurer; the Church School, Buddy McKay, treasurer. The report for the Tawas field was read by Mrs. Edinger, field secretary. The report of the committee on repairs was referred to the joint committee on building and finance.

After the adjournment of the parish meeting, the Vestry chose the following officers: Senior Warden, C. A. Pinkerton; Junior Warden, Edward Alford; Treasurer, Harlow Hennigar; Secretary, W. H. Fitzhugh, Jr.; Finance Committee, F. J. Adams and R. W. Hickey.

The Woman's Guild, at its meeting, chose the following officers for the ensuing year: President, Mrs. Paul Kelleter; Vice-President, Mrs. Harlow Hennigar; 2nd Vice-President, Mrs. F. J. Adams; Treasurer, Mrs. N. D. Murchison; Secretary, Mrs. O. H. Carpenter.

Supreme Court Takes Up Gold Clause Abrogation Case—Senate Committee Favors World Court Adherence—Congress Gets the Budget.

By EDWARD W. PICKARD

© by Western Newspaper Union.

HAVING given the New Deal a slight swat by holding the petroleum control feature of the NIRA unconstitutional, the Supreme Court moved rapidly toward a judgment as to the legality of the abrogation of gold payments. Several cases challenging this act were lumped and oral arguments were heard. This being a matter of vast importance, involving \$100,000,000,000, Attorney General Homer S. Cummings himself appeared to present the case for the government. Mr. Cummings is an excellent lawyer, but not much can be said in praise of the legal abilities of most of the men whom the exigencies of politics have shoved into his office in Washington. So probably he was wise to handle this matter himself.

Cummings defended the constitutional authority of the President and congress to adopt the present monetary policy as inherently the right of the government to preserve itself.

In an argument distinguished for oratorical display as well as for its legal aspects, Cummings said an adverse decision by the court would:

1. Increase the public and private debt of the nation by \$69,000,000,000.
2. Create a special class that would be beyond the pale of the general financial structure, a class composed of those holding bonds demanding payment in gold.
3. Reduce the balance in the United States treasury \$2,500,000,000.
4. Add \$17,000,000,000 to the public debt and increase the interest charge on this debt alone by \$2,500,000,000 a year.

The latter sum alone, Cummings said, is equal to twice the value of the 1934 wheat and cotton crop.

The attorney general referred to the troubled state of the country in the spring of 1933 and added, "I contend and shall show that the congress and the President of the United States acted reasonably in a period of very great difficulties and that their acts were not the product of caprice."

From the questions asked by the justices, observers gained the impression that there was a sharp division of opinion among them.

SENATOR JOSEPH T. ROBINSON, majority leader of the senate, being informed that the foreign relations committee had voted 14 to 7 in favor of the project for American adherence to the World court, said he would bring the resolution up on the floor of the senate as soon as possible. However he recognized the sentiment against it was strong and would not predict the outcome of the fight.

The new resolution as approved by the committee is slightly altered to meet the objections of other nations to what is known as reservation five. Mr. Robinson said:

"The legal import and effect of reservation five has been preserved in full. It is provided that discussions may take place under the Roosevelt protocol, but in the end the court may not entertain over the objection of the United States any request for an advisory opinion on any dispute or question in which the United States has or claims an interest."

Of the Democrats on the committee Senators Lewis and Murray voted against the resolution; Republicans who favored it were Vandenberg and Capper.

PETROLEUM control provisions of the National Industrial Recovery act, specifically section 9 (c), are held by the Supreme Court of the United States to be invalid as unconstitutional abdication of legislative power to the President. Eight of the justices united in rendering this decision, Justice Cardozo alone dissenting, and the opinion was read by Chief Justice Hughes.

The section declared void authorized the President to ban interstate shipment of "hot" oil—that is, oil produced in excess of state quotas.

While the opinion did not deal with other phases of the recovery act, it aroused widespread speculation as to disposition of other cases. This was the first major "New Deal" case to come before the court.

Emergency legislation by congress to remedy the situation and to meet the objection of the court was reported to be an immediate likelihood.

THOSE Democrats and Republicans, eminent and otherwise, who are banded together as the American Liberty league are now really getting into action against what they deem the radical features of the administration's program, and their executive council has put out a ten-point platform. It declares the league's opposition to such practices as sweeping delegations of legislative authority to the President, lump sum appropriations to be doled out by the White House, socialization

of industry and regimentation of American life.

In the first plank of its platform the league pledged itself "to preserve American institutions which safeguard to citizens in all walks of life the right to liberty and pursuit of happiness" and at the same time "to combat the growth of bureaucracy, the spread of monopoly, the socialization of industry, and the regimentation of American life."

Invasion of the law making and law interpreting functions by New Deal administrators was also rapped by the league in promising "to uphold the American principle that laws be made only by the direct representatives of the people in the congress, and that the laws be interpreted only by the courts."

Other points in the 10-point declaration of policy pledged the league to fight for government economy, a sound federal fiscal policy, a stable currency, protection for investors, and individual liberties.

BECAUSE work relief must be carried on the federal budget will not be balanced for the coming fiscal year, and probably not for several years thereafter. In presenting the budget to congress, President Roosevelt admitted this, but without qualms. He estimated \$8,520,000,000 as the amount of money necessary to carry on the government's activities for the 1936 fiscal year beginning July 1 next. The expenses for the current year, partly estimated, are \$8,531,000,000.

If one wishes to know who spends all these huge sums, an idea may be obtained from these figures showing the estimated expenditures for the fiscal year 1936:

1. Legislative, judicial and executive 36,595,000
 2. Civil departments and agencies 788,057,169
 3. National defense ... 792,484,265
 4. Veterans' pensions and benefits 704,885,500
 5. Debt charges: Interest 375,000,000 Retirements 636,434,000 6. Refunds 64,946,200 7. Recovery and relief 4,582,011,475 8. Supplemental items (for above groups 1 to 4 inclusive) 40,000,000
- Total expenditures...\$8,520,413,608

Total receipts for the same period are put at \$3,991,904,639, so the estimated deficit will be \$4,528,508,970.

Of the recovery and relief fund the President asked that \$4,000,000,000 be placed at his disposal to be allocated by him "principally for giving work to those unemployed on the relief rolls."

Here are some other vital things disclosed by the message:

The national debt will increase from \$31,000,000,000 at the close of this fiscal year to \$34,239,000,000.

No new taxes are requested. Congress is asked to continue the so-called nuisance taxes which expire soon and the 3-cent stamp rate.

A national defense appropriation of \$899,948,065—the greatest in the history of the country—is requested.

A total of 137,134 federal workers are to be dismissed.

Veterans pensions in 1936 will reach the staggering total of \$704,000,000.

The accumulated New Deal deficit for three years on June 30, 1936, will total \$11,700,000,000.

While the trend of recovery and relief expenditures is downward, regular federal expenses will increase.

MARY PICKFORD went before Judge Ben Lindsey in Los Angeles and obtained a decree of divorce from Douglas Fairbanks; and thus came to an end the union of the "royal couple" of moviedom, who for ten years were regarded as the model wedded pair so far as happiness and worldly success went.

Mary's suit, filed more than a year ago, charged Doug with mental cruelty, indifference and neglect. She told Judge Lindsey the charges were true and that a fair and just property settlement had been made; and after Elizabeth Lewis, Miss Pickford's secretary, had testified the decree was granted and Mary left the courtroom almost in tears.

Fairbanks, in St. Moritz, Switzerland, was informed of the divorce but declined to comment.

EX-PRESIDENT HERBERT HOOVER has been elected a director of the New York Life Insurance company, at the instance of Alfred E. Smith. He was first offered the place two years ago when the death of Calvin Coolidge created a vacancy. Mr. Hoover said: "I have accepted in the hope of contributing something to the protection and advancement of the interests of millions of policy holders, for in these great insurance trusts lies one of the most vital of personal securities to the women and children of the country."

THE world's biggest book is in the British museum. It is a gazetteer and atlas of the world printed in Amsterdam in 1556, and is six feet high, four feet wide, and six inches thick. It has a wall space to itself, and students have to consult it as it stands in the position. The British museum also has some of the world's smallest books. Some are slightly smaller in size than a postage stamp. There was a great vogue for these tiny books a century back, and they were carried in the waistcoat pocket.

PUBLIC WORKS ADMINISTRATOR PICKES has resumed his contest with Arizona over the building of the Parker dam in the Colorado river and wants the Supreme court to keep that state and its "navy," consisting of one scow, from interfering with the job. Solicitor General Biggs asked permission of the court to file suit for an injunction.

The governor of Arizona recently called out his militia and his navy to keep the public administration from completing the dam. He held that it would interfere with the distribution of irrigation water in his state.

PREMIER R. B. BENNETT of Canada, appealing for support for his administration, promises to give the Dominion a "New Deal" that bears a close resemblance to President Roosevelt's economic and social program. He outlined his proposals in a speech in which he demanded "an end to the reckless exploitation of human resources and the trafficking in the health and happiness of Canadian citizens."

IN THE highly dramatized trial of Bruno Hauptmann for the kidnaping and murder of the Lindbergh baby the state continued to weave a strong net of circumstantial evidence around the defendant. Lindbergh first identified his voice as that of the man who received the ransom; next was Amanda Hochmuth, eighty-seven-year-old man who told of seeing Hauptmann driving a "dirty-green" car with a ladder in it into the Lindbergh lane March 1, 1932, the day of the kidnaping. Then John Perrone, Bronx taxi driver, identified him as the man who paid him \$1 to deliver a ransom note to "Jafsie."

"Jafsie," otherwise Dr. John Condon, the aged Bronx educator who undertook the negotiations with the kidnap, next went on the stand and in his garrulous way identified Bruno as the man with whom he dealt and to whom he handed the \$50,000 ransom money. His long and somewhat rambling story was bitterly assailed in cross examination by E. J. Reilly, chief of defense counsel, but seemingly the great value of his evidence was not much shaken.

Detective Arthur Johnson of New York was on his way home from Europe bringing relatives of the late Isadore Fisch to testify for the state. Hauptmann claimed in his defense that the ransom money found in his possession was given to him by Fisch, a business associate in New York. Fisch later returned to his home in Germany, where he died.

AN APOLOGY to the Canadian government and payments of \$50,666.50 damages is the penalty imposed on the United States for sinking the rum running schooner I'm Alone in the Gulf of Mexico in March of 1929. This decision was announced by Willis Van Devanter, associate justice of the United States Supreme court, and Sir Lyman Poore Duff, chief justice of Canada, who were the commissioners of arbitration under the ship liquor treaty of 1924 between the United States and Great Britain for controlling liquor smuggling.

Of the damages awarded, \$25,000 is to be paid as compensation to the Canadian government and \$25,666.50 to the master and members of the crew of the I'm Alone or their families. Included in the latter is \$10,185 to the widow and children of Leon Mainguay, a French citizen of St. Pierre, Miquelon, who drowned when the schooner was sunk by the coastguard.

The commissioners found that the master and members of the crew were not parties to a liquor smuggling conspiracy.

THERE were huge sighs of relief in the chancelleries of Europe when the success of the conversations in Rome between Foreign Minister Pierre Laval of France and Premier Mussolini was announced informally. For two days the two statesmen discussed the points at issue between their nations and conditions in general in central Europe. Emerging from the last of their meetings, Laval, smiling broadly, said to a group of French and Italian war veterans.

"I am glad to tell you that Premier Mussolini and I are now in complete accord."

Without waiting for an official communique, those best informed said Laval and il duce had reached a full agreement, the principal features of which are a joint declaration to preserve the independence of Austria, a five or six power pact of noninterference, and provisions for colonial concessions in Africa. The pact agreeing not to interfere with one another's internal affairs presumably will include Italy, Czechoslovakia, Yugoslavia, Austria, and Hungary; and later England, France and Rumania may be asked to adhere to it.

SENATOR HUEY P. LONG, after attacking the administration on the floor of the senate, betook himself to the radio and continued the assault. He declared the Roosevelt policies were hopeless, and summoned all the people to flock to his banner and help wipe out all fortunes above three or four millions, "making every man a king."

Meantime the revolt against the kingfish in Louisiana was growing. Citizens by the hundreds were joining the Square Deal association which is pledged to march on the capitol in Baton Rouge unless the legislature repeals certain of Huey's dictatorial laws.

THEY arranged to meet the messenger with the safe at a certain point in the journey.

Agar carried the old carpet bag filled with shot and this was quickly substituted for the gold dust.

The loot was divided into three equal parts and the mystery might never have been solved if it had not been for the old carpet bag.

WNU Service.

WORLD'S BIGGEST BOOK

The world's biggest book is in the British museum. It is a gazetteer and atlas of the world printed in Amsterdam in 1556, and is six feet high, four feet wide, and six inches thick. It has a wall space to itself, and students have to consult it as it stands in the position. The British museum also has some of the world's smallest books. Some are slightly smaller in size than a postage stamp. There was a great vogue for these tiny books a century back, and they were carried in the waistcoat pocket.

JOHN BOETTIGER resigned as a Washington correspondent for the Chicago Tribune to accept a post with Will Hays, movie czar, and it is rumored that his engagement to Mrs. Anna Dall, daughter of President and Mrs. Roosevelt, will soon be announced.

Mystery of the Old Carpet Bag

ONE hundred thousand dollars in gold, packed in iron boxes, and these in turn placed in a safe with a Chubb lock, was stolen during the trip from Folkestone to Boulogne.

That is to say, the gold was in the safe when it left the office of the express company and it was not there when it reached its destination.

To add to the mystification there were only three keys to the safe and the whereabouts of each one was known.

The traffic superintendent in London had one; the head of the Folkestone railway had another, and the captain of the Folkestone-Boulogne boat had the third.

The outside of the safe gave some evidence of having been tampered with, but the iron boxes, instead of holding gold dust, were filled with small shot.

When had the gold been stolen? Where had the change been made from the gold to the shot? Who could have been guilty of this audacious robbery?

These were the three questions which troubled the police of two countries.

It was annoying, irritating and all of the other things in the calendar.

The boats running between the two ports were carefully searched. The waiting rooms at both ends of the line were subjected to a keen scrutiny, and altogether the detectives used up all of the tricks of the trade in trying to find a clue to this astonishing theft.

Finally they found an article that cast a ray of light on the case.

It was in the form of an old carpet bag which was located in the station at Folkestone.

The ownership of the bag was traced to a man named Peter Agar.

That in itself meant nothing.

The great big fact was that the photograph of Peter Agar occupied a place of honor in the Rogues gallery at Scotland Yard.

Numerous copies of this photograph were made and were shown to conductors, sailors, storekeepers and others, and as a result of this it was pretty well proved that Peter Agar had been seen loitering in the vicinity of the Folkestone-Boulogne boat on the day the money disappeared.

But if he were guilty of the theft how could he have gotten the money from the locked safe?

In the meantime the police started to look for Peter.

It might have taken them a long while to locate him if Peter had not been conveniently arrested for forging checks.

The detectives visited him in jail and asked him to tell what he knew of the robbery of the safe with the gold dust.

He was quite indignant at this, and intimated that he considered it highly unprofessional to ask a man if he is a safe robber when he is already serving time as a check forger.

In a word, he declined to give the authorities any information.

One morning a woman named Mrs. Kay called at Scotland Yard, and without any preliminaries told the amazed officials that the gold-dust robbery had been committed by Agar, John Pierce and Charles Tester. Tester was employed in the traffic department at London bridge.

They asked her what motive she had in "squealing."

She answered in one word: "Revenge!"

It seems that when Agar went to jail on the forgery charges he left \$45,000 with Pierce to support Mrs. Kay, who was his "dear friend."

Pierce sent her money once or twice and then ceased payment altogether.

It was evident that he intended to cheat her.

She was furious and a furious woman is dangerous.

The state of affairs was explained to Agar and he told the whole story.

Agar and Pierce had conceived the scheme of robbing the safe, but in order to do so it was necessary to get the assistance of some one connected with the railway.

They took Tester into partnership, and the first move came when Pierce visited the Folkestone office with a handful of wax and secured an impression of the key of the safe. After that it was simply a matter of arranging the details.

They arranged to meet the messenger with the safe at a certain point in the journey.

Agar carried the old carpet bag filled with shot and this was quickly substituted for the gold dust.

The loot was divided into three equal parts and the mystery might never have been solved if it had not been for the old carpet bag.

Outstanding Engineering Accomplishments of 1934

Economic Geography of the World Affected by Projects.

Washington.—How the physical and economic geography of the world was affected by important construction projects during 1934 is outlined in a bulletin from the National Geographic society, which lists outstanding engineering accomplishments of the past twelve months.

"The year," says the bulletin, "saw the completion of the 1,200-mile oil pipe line in Iraq, Palestine, and Syria; first use of the world's largest underwater traffic tunnel beneath the Mersey; the shaping up of the first transcontinental railway route through the backbone of the Rocky mountains, west of Denver; the inauguration of travel by streamline, Diesel-engine-driven railway trains; the completion of San Francisco's gigantic water supply system from the Hetch Hetchy valley; the end of construction on the first bridge to cross the lower Zambezi river in Africa; and the throwing open for use of an eleven and one-third-mile railway tunnel through the Apennines, in central Italy—the longest double-track railway tunnel yet constructed.

Unusual Project.

"The most unusual engineering project of the year probably was the starting of work to air-condition and cool the world's deepest gold mine, a maze of shafts and passages near Johannesburg, South Africa, which reaches to a depth of 8,380 feet.

"From the ways near Glasgow, Scotland, on September 28, came the hull of a thirty-million-dollar giant passenger ship, christened 'The Queen Mary.' The hull was 1,018 feet long and it was estimated that its tonnage would pass 75,000. At the same time, at St. Nazaire, France, another huge ship, 'The Normandie,' which will have a tonnage of more than 79,000, was nearing completion.

"The railway pattern of the world continued to undergo the changes that have been shown during the past few years. In the United States, more trackage was abandoned than the new trackage constructed. The outstanding addition in the United States was the Dotsero Cut-Off, a 38-mile length of track between Oresto and Dotsero in western Colorado. It put into use for the first time for a transcontinental route, Moffat tunnel through the Continental divide west of Denver, saving 175 miles between Denver and Salt Lake City.

"One of the notable bridges completed during the year was the first structure to cross the Irrawaddy river in Burma. It is near Mandalay.

"Work was carried on during the year on the two bridges at San Francisco, across the bay and across Golden Gate—two of the greatest bridge construction jobs ever undertaken.

"The largest lift-bridge ever constructed was put into use at Middlesbrough, England, across the River Tees. The movable deck is 270 feet long and lifts 100 feet above the water.

"The largest dam finished during the year was the Matur irrigation dam in the Cauvery river, Madras province, India. More than a mile long, and 176 feet high, it will impound 660,000,000 gallons of water.

Hydroelectric Projects.

"Tremendous Boulder dam, in the Colorado river near Las Vegas, Nev., has steadily grown during the year as millions of tons of concrete have been dumped into its forms.

"Three large hydroelectric and irrigation projects in the West were gotten under way during the year: at Grand Coulee, Wash.; at Bonneville, Ore. (both on the Columbia river); and at Fort Peck, on the Missouri river, Mont.

"In the Tennessee valley the Norris dam is rising in the Clinch river near Knoxville, and the Wheeler dam is taking shape in the Tennessee river above the Wilson dam.

"Highways were extended, broadened, and modernized in hundreds of sections of the United States and in many foreign countries. Outstanding among completions of new highways was that of the New Highlands road in Scotland, from Glasgow to Inverness.

"Work continued on the first highway from the Texas border to Mexico City. It was estimated late in the year that grading will be completed on the last link of 60 kilometers in March, 1935."

"The railway pattern of the world continued to undergo the changes that have been shown during the past few years. In the United States, more trackage was abandoned than the new trackage constructed. The outstanding addition in the United States was the Dotsero Cut-Off, a 38-mile length of track between Oresto and Dotsero in western Colorado. It put into use for the first time for a transcontinental route, Moffat tunnel through the Continental divide west of Denver, saving 175 miles between Denver and Salt Lake City.

"One of the notable bridges completed during the year was the first structure to cross the Irrawaddy river in Burma. It is near Mandalay.

They're Out to Get the Kingfish

Allan Blackburn (left), executive director of the Museum of Modern Art in New York, and Philip Johnson, chairman of the museum's architectural department, have resigned their posts to prepare for a political invasion of Louisiana. Their purpose is to get a line on the doings of Senator Huey Pierce Long, and to build up a private anti-Long political party. They will call it simply "the National party" and will use a flying wedge for their emblem.

18-Hour Service Over Ocean Is Predicted

New York to London Round Trip Flights Planned.

New York.—An eighteen-hour "personal" express service between New York and London may be inaugurated within a short time if George Hutchinson, head of the famous family of "Flying Hutchinsons," is successful in demonstrations he is planning.

Hutchinson two years ago had the entire world worried about his wife and two little girls, who were with him in a plane lost somewhere in Greenland. Now he declares his intention of beating two great companies, with unlimited resources, which plan to establish transatlantic lines next summer.

Hutchinson himself has no capital backing, but if his first round-trip flights to London, now being arranged, are successful, he hopes to add three more ships to his new low-winged monoplane with a 700-horsepower Cyclone motor.

Declaring that with a two-stage supercharger this ship will approach 300 miles per hour in the stratosphere, Hutchinson said:

"If Los Angeles is only twelve hours from New York, why is London more than eighteen hours from this city?"

With two companions, a radio man and a navigator, Hutchinson can carry 600 pounds of payload to England. At 88 cents an ounce, he figures he can make \$10,000 a trip.

He plans on regular landings at Harbor Grace, Newfoundland and at Galway, Ireland.

Gold Rush Will Disturb Ancient Village Dead

Edmonton, Alberta—Graveyard gold! That sounds like a fiction title, but those two words promise to produce a frenzied treasure hunt in the Far North this summer.

Remains of an ancient Indian village, which stood for hundreds of years on the Yellowknife river north of Great Slave lake, will be disturbed this summer in the white man's unrelenting search for gold.

Gold even has been discovered in an old native graveyard, it was revealed by C. J. Baker, English mining engineer, who passed through Edmonton en route to the North by airplane.

Last summer 40 claims were staked on this location by Maj. L. T. Burwash, noted Toronto explorer, and samples for quartz veins on these claims, which extend into the ancient village and its graveyard have analyzed "highly satisfactory."

Arrangements are being made here for a crew of men with diamond drills to fly in next spring. Silver and lead also were found and some northerners predict this may develop into one of the richest mineral areas of the North.

"Merry Widow" Composer Buys Hungarian Barony

Vienna, Austria.—Franz Lehár, world famous musical comedy composer, whose works include "The Merry Widow," soon will become a baron as a result of the newly established friendship between Austria and Hungary.

In accordance with the request of the Austrian government, Hungary will create Lehár Baron Komarom, Komarom being the town in Czechoslovakia where the composer was born. At that time it was in Hungary.

The strange request came about this way: The Karszag music publishing house and the Theater an der Wien, where "The Merry Widow" was first presented thirty years ago, were taken over by the Credit Anstalt, banking institution here, which is state controlled.

Lehár, it is now revealed, had a claim of one million schillings (the schilling is quoted at 18.86 cents) against the music publishing house for royalties alleged to be owing him from America. He agreed, however, in a compromise with the Credit Anstalt to accept a baronetcy in relinquishment of his claim. And, since titles may not be granted in Austria, the Vienna government asked its Budapest friend to make Lehár, who has retained his Hungarian citizenship, a baron.

King Peter Is Youngest Ruler in World Today

Belgrade, Yugoslavia.—Eleven-year-old King Peter, a gentle child with a troubled and inquiring look on his face nowadays, is by many years the youngest monarch in the world. But there is one living ruler who ascended the throne at an earlier age. Queen Wilhelmina of the Netherlands was only ten when she succeeded in 1890.

Next in youthful accession came three Oriental rulers. The sultan of Morocco was only sixteen when he came to the throne in 1927; the king of Afghanistan was nineteen, and the king of Iraq twenty-one when they became kings last year.

The temporary King Michael of Rumania was only seven on his accession.

King Peter has a tradition of hard and long working hours before him one day if he is to follow in the footsteps of his late father. It was possible to have audience of the scholarly King Alexander in the palace at 8 in the morning, by which time he had mo-

Inventor Says His Auto Runs by Compressed Air

Amsterdam.—Jan Wardenier, twenty-two, of Wolvega, the Netherlands, asserted that he had invented a powerful automobile motor which needed only compressed air to make it work and would cost but \$16 a year to operate.

Motor experts reported that a 13,000,000 builer (\$8,789,000) consortium was being formed to establish two factories at which the motor would be manufactured.

The car, it was said, has one cylinder, two by eight inches, and does not use gasoline or water.

British Royalty Shown on Canadian Currency

Ottawa, Ont.—The likenesses of seven members of the British royal family and two distinguished Canadians are portrayed on Canada's new paper currency, to be issued shortly by the newly-formed Bank of Canada.

The royal family likenesses portrayed on the new bills are King George, Queen Mary, Prince of Wales, Princess Mary, Princess Elizabeth, duke of York and duke of Gloucester. On the reverse are portrayed allegorical figures symbolizing agriculture, transportation and "power."

"COLONIAL GIRLS" FEATURE OF THIS APPLIQUED QUILT

By GRANDMOTHER CLARK

Here is a good idea for needle-workers who like to do applique work. A quilt made of a group of six different Colonial ladies dressed in beautiful colorful prints and each in a different position. The patches are stamped with lines for cutting. The eighteen inch block is stamped with lines for applique work and outline embroidery stitch.

Six of these eighteen inch blocks are used for a single bed quilt, and twelve blocks for double bed quilt.

If you will send 15c to our quilt department we will mail one complete stamped eighteen-inch block with material of the block pictured above, also a picture of a quilt showing the six different girls in this set.

A set of six blocks with applique material will be sent for 75c. A set of twelve blocks for \$1.50. The beauty of this can really only be appreciated after you see a block worked in beautiful colors.

Send money to Department D. Address—Home Craft company—Nineteenth and St. Louis Avenue—St. Louis, Mo.

Enclose stamped addressed envelope when writing for any information.

To keep clean and healthy take Dr. Pierce's Pleasant Pellets. They regulate liver, bowels and stomach.—Adv.

Gamblers' Chances

Mathematicians have figured out that the odds against the hopeful player who pushes nickels into a slot machine of average type are a trifle more than 38 to 1. Losses are fed into them at the rate of \$4,000,000 a month in New York, and losses at Monte Carlo hardly reaches that in a year. Rival gangs fight to control their profits, as in the case of bootlegging, leading to frequent homicides and all sorts of lesser lawlessness.—St. Louis Globe-Democrat.

MURINE FOR YOUR EYES. A Few Drops Every Night and Morning Will Promote a Clean, Healthy Condition! At All Drug Stores. Write Murine Co., Dept. W, Chicago, for Free Book.

On the Contrary! Chin music is exercise, but it removes no double chins.

COLD'S Creomulsion. Your own druggist is authorized to cheerfully refund your money on the spot if you are not relieved by Creomulsion.

Lard of Flowers

Sidewalk Solarium at St. Petersburg.

Prepared by National Geographic Society, Washington, D. C.—WNU Service.

THE southern trek of winter vacationists of eastern America to Florida is on. As northern resorts close their portals, tourist agencies are besieged with queries about Florida resorts; and railroads, and steamship lines spend their annual advertising appropriations, boasting the merits of cities on their routes.

North Florida is as different from south Florida as lower Alabama is from Cuba. Colonists had settled and developed an ante-bellum cotton and tobacco aristocracy at Tallahassee and thereabout when lower Florida was still a howling wilderness. Even today, we are told, one-fifth of all Florida's population was born in Georgia and Alabama; but that will not be true a decade hence.

Long ago, when bears fattened on crabs and turtles' eggs where Miami Beach and Palm Beach now blossom, Spaniards built St. Augustine and Pensacola and connected them with a 400-mile military highway. You motor over much of this same old line now when you drive from Jacksonville west to Mobile and New Orleans. In the Cathedral at St. Augustine are to be seen crumbling, parchment-bound records of marriages and baptisms among Spaniards and Indians dating back to 1600. Yet Florida—but for that settled strip along her upper edge—stood still for generations, while the rest of America was in the making.

The reason, of course, was the trend of migration to the Great West. Till recent years, when better communication came and America's food habits began to change through intensive distribution methods, refrigerator cars, and high-power advertising, there was no great consumer market for the golden winter fruits and green vegetables which the state today grows. Nor, till long after the Civil war, did manufactured fertilizer, on which Florida agriculture now depends, come into general use.

Also, years ago, there was yellow fever. In epidemic days it paralyzed Pensacola, New Orleans, and Havana. Then came Reed, Carrol, Gorgas, and other great men of medicine, and through science life was made safe for whites in mosquito lands.

"Flagler's Folly."

As science whipped mosquitoes, so bold builders conquered swamps and jungles, and humanized coral-born keys, tying to the nation's railway net a new world of strange sights and smells. Down to Tampa the steel was thrust, annexing a quaint, Spanish-speaking city. And down this line in '98 roared boys in uniform, "average Americans," seeing Florida first on their way to help in a war of independence.

"Remember the Maine," cried girls at wayside stations, as troops rolled south to Tampa. Old men rang church bells; boys ran to enlist for the war in "Cuby," Uncle Sam's first armed racket overseas since 1815. Far down the then empty east coast pushed yet another spearhead of twin steel, a "seagoing" railway. "Flagler's Folly," critics said of the one man with vision who built and paid for it. "A railroad and a string of railroad-owned, millionaire hotels way down in that empty wilderness! There's no freight to haul, no passengers, no customers for all those palatial hotels."

But Flagler looked across at Cuba; he looked up, saw the sun, and felt the trade wind's kiss. Then, in his mind's eye, he probably saw what critics with sensory eyes alone could not see—he saw the earth tracking in space, tilting first one end and then the other, making the play of seasons, but leaving Florida more sun than any other place in the eastern United States!

On down the coast he went with his horse and buggy. Back in New York, where many calamity howlers lived, it was below zero; yet all about the warm sunshine bathed this Land of Flowers that lured Ponce de Leon centuries before. "The people will come," Flagler said. And they came. Hotels built decades ago—and flocks of newer hotels—at times turn real dollars away in droves, so great is the mass demand for bed and board; and thousands more rush on, down over his seagoing railway, to Havana. "Flagler's Folly" indeed!

Then freight came—an amazing traffic with Cuba—even as Flagler dreamed. Cuba is our second best customer in all Latin America, trade statisticians tell us.

They Go by Plane, Too.

Sliding down the sunbeams, like giant roller coasters of the sky, come now the planes. Into greater Miami, with its many airports, flying fields, and seaplane docks, from Cuba, Haiti,

Puerto Rico, Nassau, Panama, and South America come and go the big three-motored cabin ships. Customs men are at the airports to inspect bags and ask for duties, while immigration officials examine passports.

Restless, absorbing America! Land of magic economic change that fathered Florida! You sense its fine aggressive spirit when, riding in from sea, you watch Miami and Miami Beach silhouette their towering architectural masses against a sunset sky. Amazing they are, in their effect of stark simplicity and power, lifted by puny men from the sand pits and mangrove swamps of yesterday.

Always the contrast persists. Ten miles west, the Everglades; a crane gurgling down a wriggling snake, a homing Seminole, silent, watchful, in his dugout; abysmal waste, solitude, fascinating to the naturalist.

Yet, if you think in time and not space alone, you can vision what Florida's population must some day be. It is the way of subtropic lands, where living is easy, as in the West Indies.

Life here has a different tempo, a sort of tropic rhythm. Sun, sand, the blue sparkling waters of the Gulf Stream, blossoms of every hue, and waving palms bring a sense of luxury even to the masses.

Tobacco and Tourists.

West of Tallahassee one rides past many tobacco fields where plants are grown under "shades." These shades are made by stretching thin cotton cloth over frames of poles and wire, for farmers have found they may best grow certain vegetables under the same properly tempered conditions in all seasons. Tobacco seed, for planting in Virginia and elsewhere, is often grown in Florida, since better seed develops where plants enjoy the longest periods of daily sunshine.

Of course, sharp clashes of ideas, to make conversation an adventure, are rare among tourist groups here. They have too much in common. In fact, there's a mass attitude, or attitudinizing, and a standard terminology for all popular tourist themes, such as fishing, golf, tennis, pitching horseshoes, the folly of booms, or the "bad weather back home." A blizzard in Pennsylvania, or any northern section from which tourists largely come, is always a front-page story in Florida papers.

One intellectual oasis, however, is the "open forum" at St. Petersburg. In a park there, after the band concerts, crowds of many hundreds remain for organized debate and good-natured harangue. Argument is rife on any theme from egg-laying contests to whether the influence of Ibsen is permanent or evanescent.

Socially speaking, in Florida the whole is not equal to the sum of the parts. You cannot add St. Petersburg, for example, to Palm Beach or Miami, because you cannot add unlike things.

Life among the idle well-to-do at east coast resorts, as pictured in Sunday rotogravures, is a familiar theme. Sunburned beauties sprawling under beach umbrellas; self-anointed social queens in raiment that would discount Joseph's coat of many colors, being trundled along under the palms in an "atomobile"; fleets of private yachts and comfortable houseboats at anchor; gay race crowds or dancing groups under moonlit palms—all these are well-advertised aspects of Florida winter-visitor life among those who, with many servants and mountains of baggage, move leisurely north each year, following the march of spring from resort to resort, up and down the Atlantic coast. Just the same, one finds at the principal resort centers like Miami and Palm Beach the finest sort of concerts and lecture series made up of world-famous artists and cultural speakers, and there is an overflowing attendance.

But in all America there is probably no group just like the 150,000 or 200,000 fine type of farmers and small-town folk who visit St. Petersburg. It is an amazing sociological phenomenon, peculiar to this unusual state. It is worth contemplating.

Here flourish 31 different clubs and societies, formed among tourists from various cities and states. There are even clubs of Canadians and Scandinavians, half a world away from their homes. There are dance, dramatic, and sunshine card clubs; clubs of roque, croquet, and shuffleboard players and a Three-Quarter Century club, all of whose members are more than seventy-five years of age. And there is a municipal solarium, with its Sun Bathers' club—in all more than 1,000 people—who lie about in little more than nothing every day, exposed to the sun's rays, to store up health at a minimum cost—and they are serious-minded folk, not publicity-seekers.

Chic and Practical Is This Ensemble

PATTERN 1943

Here is a practical idea which is at the same time devastatingly chic—it is, as you see, an ensemble consisting of skirt, blouse and jacket. Make it up of black satin and wear it on warm days without the jacket. The contrasting bodice frill and collar are delightfully fresh looking and becoming. The trim linked jacket is a stunning addition, and the whole smart affair goes with the best possible grace under a top coat. Of course it would be a very nice thing in wool, as well.

Pattern 1943 is available in sizes 12, 14, 16, 18 and 20. Size 16 takes 3 1/2 yards 39-inch fabric and 1 1/2 yards contrasting. Illustrated step-by-step sewing instructions included.

Send FIFTEEN CENTS (15c) in coins or stamps (coins preferred) for this pattern. Write plainly name, address, style number. BE SURE TO STATE SIZE.

Address orders to Sewing Circle Pattern Department, 243 West Seventeenth Street, New York City.

Smiles

QUEST OF INFORMATION

"Why are you going to the public library, Mrs. Brown? Taken up science?"

"The doctor told my husband he was bibulous, and now he's torn the page out of the dictionary."

Impatience

"What is your opinion of the old-age pensions?" asked the human questionaire.

"They're all right," answered Senator Sorghum. "But too many folks won't wait for the years to bring an excuse for collecting something for doing nothing."—Washington Star.

Wanted That Settled

"He told me he could live on my love forever." "How romantic! And are you going to let him?" "Not until I find out what I'm going to live on."

Or Maybe Eleven

"If you had the finest library in the world and fire broke out," asks a librarian, "which 12 books would you save?" "The 12 nearest the door."

WILBER

Mr. and Mrs. Wm. Phelps, Mr. and Mrs. Henry Dorsey and Mr. and Mrs. Herbert Phelps have gone to Detroit to attend the funeral of Mrs. Clarence Phelps. Mr. and Mrs. Clarence Phelps once resided at the place where Stanley Alda now lives.

Mr. and Mrs. Leonard Bellant and son of Flint spent the week end at the John Newberry home.

Hollis Abbott and son, Morris, of Flint spent the week end at the home of Mrs. E. F. Abbott. Morris will attend school here for the remainder of the term.

Mr. and Mrs. George Shindler and family and Frank Hardy of Port Huron spent a few days at the home of Mr. and Mrs. John Shindler.

Alva Callahan attended the recent meeting of the board of supervisors at Tawas City.

Russell Tomlinson is spending a few days in Flint.

Gordon Greene and Francis Cogley spent the New Year holidays with the latter's relatives in Detroit.

Mrs. C. Thompson, Miss Joyce Thompson and Forrest Maule spent the Christmas holidays at the home of Mr. and Mrs. Charles Maule in Flint.

Some of the men of this community are helping to build a log cabin for Everett Harrod.

Miss Ruth Thompson has returned home from Flint, where she had employment.

An oyster supper will be given by the men of the Wilber M. E. church on January 21 at the church. Everyone is welcome. Bring your neighbor.

Oldest Rococo Building

The Amalieburg in the Schloss park, Munich, looks back on 200 years of existence. It is the oldest Rococo building in Germany. The palace, built for the Electress Amalie, contains valuable woodcarvings, and mirrors and chandeliers of finest cut glass.

Accommodation

So that the 600 inhabitants of Little Burstead, England, would not have to take an 8-cent omnibus ride to Billerica to buy stamps, a post office was opened in the kitchen of the Little-Burstead rectory.

Driven Out by Yellow Fever

More than 20,000 whites left Memphis, Tenn., from 1876 to 1878 because of yellow fever.

STOMACH GAS RUINS HEALTH AND BEAUTY

Stomach gas that causes loss of sleep and rest ruins your health and your beauty! Even people who have suffered for years from stomach troubles caused by acid stomach are getting relief from Bisma-Rex, a new, delicious-tasting antacid powder. Bisma-Rex brings lasting relief. Get it today at Leaf's Drug Store, East Tawas.

This coupon entitles me to a sample of Bisma-Rex, the wonder relief for indigestion, absolutely without cost.

Name

Address

Whittemore

Mr. and Mrs. James Meer of Detroit are visiting Mr. and Mrs. Melvin Bowen.

Mr. and Mrs. Elmer Britt and daughter, Catherine, and Mr. and Mrs. Cross of Turner attended P. T. A. here Tuesday night.

Miss Verna O'Farrell spent Saturday night in Turner.

Miss Mildred Bowen left Sunday for two weeks' visit in Detroit.

Miss Ella Fuerst of Detroit spent Sunday with her parents, Mr. and Mrs. Richard Fuerst.

The Misses Verna O'Farrell, Lois Charters, Elizabeth Lail, Gladys Ruckle and Cecelia Emerson, and Oramel O'Farrell spent Thursday in Bay City.

Mr. and Mrs. Henry Hasty of Detroit spent the week end with Dr. and Mrs. E. A. Hasty.

Mr. and Mrs. Kenneth Nelson and daughter spent the week end in Alma.

Paul Spielvogel of Detroit was a caller in town Sunday.

Clark Albertson of Rose City spent the past week at the Hasty home.

Mr. and Mrs. Otto Fuerst, Mrs. Richard Fuerst and Charles Fuerst, Sr., spent Saturday afternoon in West Branch.

Byron Lomason entertained his sister from Caro over the week end.

Sheriff John Moran of Tawas was in town on official business Saturday night and Monday.

Mrs. Russell Williams was called to Bay City last week to attend grand jury.

Mr. and Mrs. Charles Partlo and family and Miss Lois Freel attended the wedding of Mrs. Partlo's sister, Miss Erma Shear, in Saginaw Sunday.

Arden Charters returned Sunday after spending two weeks in Tawas.

Byron Lomason celebrated his 80th birthday anniversary Friday. Mr. and Mrs. Lomason entertained about 30 relatives with a sumptuous birthday dinner at noon at which a huge birthday cake centered the table. In the evening he entertained friends from far and near with a free dance at the Roll-Inn hall. His many friends wish him many more such happy birthdays.

Rev. H. Davis, his daughter, Mrs. Russell McKenzie, and his father-in-law met with quite a serious accident last Wednesday between Twining and Omer when his car skidded on the road and overturned in a deep ditch.

Rev. Davis, who was not hurt, succeeded in getting the other two occupants out of the car and a passing motorist brought them to Dr. E. A. Hasty's office where X-rays were taken. Both victims are much better at this writing.

Charles Bellville motored to Bay City Monday and brought William Thompson, who has been a patient at the Samaritan hospital, to his home here. His condition remains about the same.

Mrs. Roy Leslie is still confined in the West Branch hospital and is recovering very slowly.

A miscellaneous shower was held at the home of Mrs. Clarence McKenzie on Tuesday evening in honor of Mrs. Russell McKenzie, a recent bride.

Special—Super-X 12 gauge shells, \$1.00 per box. Prescott Hardware. adv

Notice

Notice is hereby given that an agreement has been made and entered into between the city of Detroit, represented by John C. Dancy, President of the Detroit House of Correction, duly authorized agent for and in behalf of said city, of the first part, and the county of Isosco, Michigan, represented by Elmer J. Britt, Chairman of Board of Supervisors, and Frank E. Dease, County Clerk, duly authorized agents for and in behalf of said county, of the second part.

The purpose of said agreement is that the county of Isosco shall have the right to send prisoners, sentenced for 60 days or more for offenses punishable by imprisonment in the county jail, to the said Detroit House of Correction and said county shall pay said first party the rate agreed upon in said agreement. The said agreement shall run for one year from and after October 30, 1934.

FRANK E. DEASE,
County Clerk of Isosco County.

Mortgage Sale

By reason of default in the payment and conditions of a mortgage made by LeVina Arn to Edgar Loukes of Whittemore, Michigan, dated May 28th, 1921, and recorded June 22, 1931, in Register of Deeds office for Isosco County, Michigan, in Liber twenty-seven (27) of mortgages on page 142, which said mortgage was duly assigned on September 15th, 1934, to Wells W. Wiltz, of Flint, Michigan, said assignment being recorded on the fifteenth day of September, A. D. 1934, in Register of Deeds office, Isosco County, Michigan, in Liber two (2) of mortgages on page 391, upon which there is now due for principal, interest, and insurance, the sum of Two Hundred Fifty-nine and Ten One-hundredths Dollars (\$259.10), and no proceedings at law or equity having been taken to recover said sum or any part thereof;

Said mortgage will be foreclosed by a sale of the mortgaged premises described as Lot number five (5) of Block number two (2) of Sand Lake Resort, Grant Township, Isosco County, Michigan, on the second day of March, A. D. 1935, at ten o'clock in the forenoon, at the front door of the Court House in Tawas City, in said county, to satisfy the amount due at that time for principal, interest, attorney fee, and costs.

Wells W. Wiltz,
Assignee of said Mortgage.
John A. Stewart
Attorney for Assignee
Business Address:
Tawas City, Michigan.

LOOKING BACKWARD

40 Years Ago--Jan. 19, 1895

About one o'clock Wednesday morning the Monarch house was discovered to be on fire. The flames were soon extinguished with little damage.

Nat Robinson returned last evening from Florida. He was accompanied home by his brother, George.

Following are the newly elected officers of the Odd Fellows Mutual Aid association: F. F. Taylor, president; J. L. Swartz, vice-president; D. C. Howell, physician; T. J. Hopper, secretary; C. C. Swindell, M. Morrison, William Brownlee, Collin McRae, board of managers.

The following supervisors are attending the January session: Frank Betz, James Wallace, Thomas Galbraith, Wm. J. Angell, J. H. White, Frank Duplanty, J. E. Dillon, F. W. Latham, J. A. Jackson, Leander Gardner, Frank Horton, M. Murphy, A. J. Rodman, Chris. Yockey, A. F. Zeiter.

The supervisors adopted Wednesday a resolution to submit the question of the adoption of the county road system to the voters of Isosco county.

I will receive bids on 100 cords of first class 18 inch hardwood for the use of Tawas City schools. Bids will be opened January 21, 1895. N. C. Harting, director.

20 Years Ago--Jan. 15, 1915

E. B. Van Horn of Tawas City has disposed of his ice business to George Gates.

Those who received prizes at the Ladies' Congress held last Friday at Whittemore were: Amy Beardslee, Florence Latter, Beulah Johnston.

The following were elected officers of the Isosco County Agricultural Society: John Preston, president; Len J. Patterson, secretary; Jos. G. Dimmick, treasurer; George Hadwin, Geo. C. Anschuetz, Ernest Brown, Percy Scarlett and F. F. Taylor, directors.

The Tawas Butter company announces that their business showed in 1914 an increase of 36% over that of 1913.

Stowing Ship's Canvas

Seventeenth century captain's orders to stow some of the ship's canvas: "Haul down the foretopgallant sail and maintopgallant sail! In with the spritsail! Let go the spritsail! Haul down the clew lines! In with the maintopgallant! Cast off the topgallant bow lines!"

Notice of Mortgage Sale

Default having been made in the terms and conditions of payment of a certain mortgage dated July 19th, 1917, made and executed by Mabel M. Colvin of Burleigh Township, Isosco County, Michigan, to J. C. Weinberg & Co. of Prescott, Michigan, and recorded in the office of the Register of Deeds of Isosco County, Michigan on the 23rd day of July, A. D. 1917, in Liber 22 of mortgages on page 155, and assigned by assignment dated the 11th day of May, 1918, to the First National Bank of Bay City, said assignment being recorded in the office of the Register of Deeds of Isosco County, Michigan, on the 16th day of May, 1918, in Liber 2 of assignments on page 234, and again assigned to the National Bank of Bay City, a Federal Banking Corporation, by assignment dated October 24th, 1932 and recorded in the office of the Register of Deeds of Isosco County, Michigan, on October 28th, 1932 in Liber 25 of mortgages on page 174. There is now claimed to be due on said mortgage for principal and interest One Hundred Sixty-eight and 85/100 Dollars. And no suit or proceedings having been had to recover the amount claimed due or any part thereof, said mortgage will be foreclosed by a sale of the mortgaged premises, at public vendue, to the highest bidder, at the front door of the Court House in the City of Tawas City, Michigan, (that being the place where the Circuit Court for the County of Isosco is held) on Saturday, the 26th day of January, A. D. 1935, at eleven o'clock in the forenoon, eastern standard time. The premises are described in said mortgage as the east half of the east half of the northwest quarter of section twenty-two, township twenty-one north, range five east, Burleigh Township, Isosco County, Michigan.

Dated October 27th, 1934.

Reno News

The Appleblossom Club, from the Central State Teachers College of Mt. Pleasant, will present an entertainment at the Taft school Friday evening, January 25th. The club is composed of students from the rural department. Dr. M. L. Smith, head of that department, will be present and give an address, "The Present Rural Situation." The meeting will be open to all, with no admission charges. A welcome is extended to everyone in the county.

Mr. and Mrs. Clark Kerr were Wednesday evening supper guests of Mr. and Mrs. Will White.

Miss Vernita White spent the week end with Miss Lulu Robinson at her home in Tawas.

Mr. and Mrs. L. I. Murray of Hale spent Monday with relatives here.

Mr. and Mrs. Chas. Harsch and Mr. and Mrs. Will White spent Saturday evening with Mr. and Mrs. A. T. Vary in honor of Mr. Vary's birthday.

Mrs. Clark Kerr is spending the week with her parents, Mr. and Mrs. Lewis Myrtle, of Pinconning. Mr. Kerr, accompanied by Charles Latter, spent the week end at the former's home at Sterling.

A number from here attended the dance at the Logan town hall Saturday night.

R. A. Hamilton of Bay City was a caller at the Bentley ranch Saturday.

The Sibley family are enjoying the beautiful summer weather to the full extent in Florida. They can hardly realize there is any winter.

Miss Margaret Worden was speaker at the Parent-Teacher Association meeting Wednesday evening. Her subject concerned modern methods in rural education.

Harold Cline of Flint spent the week end at the home of Mr. and Mrs. Arlie Sherman.

Word has been received that Mr. and Mrs. Leland Barker of Elkhart, Indiana, have a son born December 15th. Mrs. Barker was formerly Miss Myrtle Robinson of Reno.

Mrs. Arthur Latter of Curtisville spent a few days with relatives here the first of the week.

Mr. and Mrs. Cholcher spent Monday evening with Mr. and Mrs. Ernest Vance.

The Alpena Baptist Association met at the Reno Baptist church Monday, January 14, for the mid-year session.

An unusually large number attended in spite of the recent snow storm, every church in the association being represented. Rev. Larson, former pastor of the Reno church, now of Cheboygan, was also present. The program was full of interest from beginning to end. The speakers were as follows: Rev. Ralph Taylor Anderson, secretary-director of the state association, Rev. Drury Martin and Rev. Roy B. Deer of Lansing, Mrs. W. H. Dorrance, president of the Women's Home Mission Society, of Detroit, Rev. Floyd Carr and Dr. Bruce Kinney of New York City.

Dinner was served in the basement of the church, 62 being present. Supper was served to 125. Everybody reports a wonderful time.

The English Language

The English language belongs to the great Germanic branch of the Teutonic family of languages. It was brought to the British Isles during the Fifth and Sixth centuries by the invasions of the Angles, Saxons and

SHERMAN

Ben Randall of Detroit called on relatives here Saturday.

Mr. and Mrs. Clarence Curry are the proud parents of a baby boy born at their home Monday evening.

Mr. and Mrs. Peck Ross of Flint called on relatives here over the week end.

The work on the National City schoolhouse which has been in progress under the instructions of Jos. E. Parent as foreman has been O. K. The work will continue under Jay Thomas and should be completed in a few weeks.

Miss Wilmont Bessie is visiting at Flint for a couple weeks.

Dr. Mitton of East Tawas was called here on professional business Monday.

Nick Klouf of Saginaw is doing some carpenter work for Dewey Ross for a couple weeks.

Nearly all the voters attended the special school meeting at the town hall Wednesday. They voted to raise \$1,500.00 to finish the school building at National City which is about half completed. Two carpenters and a crew of men started to work Monday morning. The work is progressing as rapidly as possible and it is expected the building will be ready for school in about four weeks.

Alabaster

ALABASTER WINS ONE; LOSES ONE

The Alabaster girls' basketball team defeated the Prescott girls' team in a fast game Friday, January 11. The teams were evenly matched and the game was hard fought from start to finish. Helen Furst and Marcella Martin, our flashy forwards, gave the Alabaster girls an early lead which they never lost. The final score was 18 to 15.

The Alabaster boys' team, working at a considerable height disadvantage, lost to the fast Prescott team by a score of 21 to 8.

Miss Florence Benson spent last week end in Au Gres.

The card party and dance given by the Alabaster Seniors at the school January 12 was a great success.

Mr. and Mrs. John Bowen spent Saturday in Bay City.

Dorothy Roiter and Marie and Carlton Nosa spent the week end at the Herman Roiter home.

Wm. Roiter, Jos. DeLosh and Harold Johnson of Silver Creek C. C. C. camp spent the week end at their homes.

The Isoco County Child Health committee meeting held at the Alabaster high school Monday, January 14, was well attended. Miss Hamilton gave a very interesting address.

Miss Simmons' and Miss Miller's rooms gave the following program: My Toothbrush—Johnny Erickson; Our Song of Health—Dialogue; A Germ Drive—Playlet; Healthy Children—Mary Louise Isola; What Our Fingers Say—Clara Jean Benson; Playing Visit—Alice Martin and Inez Furst; Toothbrush Song—Third Grade; Mr. Cold, You Can't Catch Me!—Third, Fourth and Fifth Grades.

Household Use of Sugar

Of the 5,500,000 long tons of sugar used, about 2,655,000 tons are devoted to household use.

Chancery Notice

State of Michigan, the Circuit Court for the County of Isoco, In Chancery. Hazel Groth, Plaintiff,

vs.

Martin Groth, Defendant. A suit pending in the Circuit Court for the County of Isoco in Chancery, at the Courthouse in the city of Tawas City, Michigan, on the 15th day of January, A. D., 1935.

Present: Nicholas C. Hartingh, Circuit Court Commissioner. In this cause, it appearing to the above named Circuit Court Commissioner, from the affidavit hereto attached, that the above named defendant, Martin Groth, is a resident of the State of Michigan, but cannot be served with process by reason of his continued absence from or concealment within said state.

Therefore, on motion of John A. Stewart, attorney for the plaintiff, it is ordered that the said defendant enter his appearance in said cause on or before three months from the date of this order, and in default thereof, the bill of complaint filed therein be taken as confessed; and that within forty days, the plaintiff cause this order to be published in the Tawas Herald, said publication to be continued once in each week for six weeks in succession.

Dated January 15, 1935.

Nicholas C. Hartingh, Circuit Court Commissioner for Isoco County, Michigan.

SUCH IS LIFE—A Natural Mistake

Gold Hunters Rush to Mojave Desert

Rich Strikes Recall Glamorous Days of '49.

Mojave, Calif.—Following one of the most amazing and sensational gold strikes in all history, California is witnessing a new gold rush which recalls her glamorous days of '49.

The first huge strike—the Silver Queen—already has been optioned to a South African syndicate for \$3,250,000.

Scarcely had the first rush of adventurers filled this small desert town to overflowing, when dusty miners came with news of two more rich strikes, only a few miles distant.

Gold mining experts from all parts of the world hastened to Mojave. For months the news was kept secret. Then it leaked out—and the rush was on.

Located in 1933.

The Silver Queen was first located in September, 1933, by George Holmes, thirty-two-year-old former student of the University of Southern California.

Holmes, who has prospected the Mojave area for fourteen years, found a fragment of gold-bearing ore broken off a ledge while scouring a hillslope about seven miles from Mojave.

Holmes asked a friend, Bruce Minnard, twenty-eight-year-old practical miner, to help him find the ledge. By

Queen of the Turf

For the first time in over two centuries a woman heads the list of money-winning owners of thoroughbreds. She is Mrs. Isabel Dodge Sloane of the Detroit automobile clan, and she ranks in history with Queen Anne of England.

In 1714 Anne had a horse named Star that won the first actual cash horse race in the world, with \$50 going to the winner. In 1934 Mrs. Sloane had a horse named Cavalcade which won \$111,233 to bring her total for the season up to the top figure of \$251,138.

Rich Strikes Recall Glamorous Days of '49.

a thousand-to-one shot, they dug a trench and discovered the mother-ledge—only six feet below the surface.

Holmes gave Minnard a 20 per cent share. They then drew in Virgil Dew. For his digging under a blistering sun he, too, was given a 20 per cent share.

Minnard and Dew furnish the first tragedy of the new gold rush. As months slipped past they lost confidence.

Eventually Minnard sold his holdings to Cy Townsend for \$500. Shortly afterward Dew also sold his share for \$1,000. Townsend and his associates bought him out.

Finally a syndicate offered Holmes and his father, who own 60 per cent of the claim, \$10,000 for the ledge. They refused it. Succeeding offers of \$75,000, \$250,500, \$300,000 and \$750,000 likewise were rejected.

Option for Three Million.

Then the world's most noted gold-mining experts began to arrive. Among the first were the old Goldfield crowd—Senator Key Pittman of Nevada, George Wingfield and Walter Trent. Also came former Senator Tasker L. Oddie of Nevada, who, with Jim Butler, discovered the rich Tonopah field, and Al Myers.

In all, gold fields of South Africa sent fifteen men to Mojave. And not long afterward the South African company took an option on Holmes' Silver Queen for \$3,250,000!

It was when news of the big option price leaked out recently that the world at large first became apprised of California's new amazing gold strike. And the rush was on!

The highway leading to Mojave is jammed with automobiles, busses, heavy trucks hauling lumber and mining machinery, and thousands of cars of tourists and sightseers.

Early in the rush, however, announcement was made that the new strike would prove of little value to the casual prospector. Hunt for the precious metal around Mojave is no game for the inexperienced.

Queen of the Turf

The ruins of Palmyra and Petra, in the Near East, are said to be among the most romantic relics of the ancient world.

Sun Spots Promise Era of Prosperity

San Jose, Calif.—Eleven years of redoubled shining on the part of the sun, bringing animal and vegetable fertility and general prosperity to the world, were forecast by Dr. Albert J. Newlin, director of the Ricard Memorial Observatory at the University of Santa Clara.

Sun spots, Doctor Newlin said, indicated the increased solar activity. His observations were borne out by the opinion of Dr. Orestes Caldwell, vice chairman of the advisory committee of the American Museum of New York.

OUR BEHAVIOR
By
LEONARD A. BARRETT

Spinoza, who wrote about 1650, expressed many profound truths in terse and pithy sentences. We quote the following:

"Men believe a thing when they behave as if it were true."

A later American philosopher, William James, voiced the same thought when he coined the phrase "the pragmatic test," by which he meant that the final test of the validity of any statement was the testimony of experience. The way we behave convinces others that we believe what we say. Someone has recently said that one of the most difficult problems in life is to get a person honestly to believe what he thinks he believes and to act accordingly. In other words, we can never successfully convince another of something we do not our-

It's Up to the Hen

down between edges with the needle. With a fine furrier's needle threaded in 40 cotton or 0 linen, in black or white, overcast edges together. Avoid deep stitches. They must be taken just as close to the edges as possible without tearing. Use a medium tension, not too tight, and surely not too loose.

The skin is flattened out after sewing and must lie smooth. Therefore a trifle of play should be permitted. This is by way of caution for those who may pull the thread too hard. Stitches may be close and single, or not so close, and the sewing be done both ways. This makes a cross stitch, with the needle put in the same stitch holes in the second journey across the seam as they were the first time. A seam taken in single or double stitchery will not be discernible on the right or fur side.

Matching Fur

When the fur needs patching, either use fur from the article itself or from a skin exactly matching. It is possible in a coat to take the collar fur lining and replace it with satin in the same color as the fur, and use this fur for patching. This is a common method. A perfect match is then assured and the cost of the satin is the only outlay.

Make a paper pattern of the exact size and shape of the patch needed. Lay this on the skin of the fur, and trace around it with a pencil or crayon. With a sharp knife cut through the skin following the outline marked. Fit this patch into the hole and seam edges as described. The patch will be invisible on the fur side provided the nap of the fur patch matches that of the article around the patch. This matter of having the fur lie the same way is of imperative necessity. Also the color of the fur must coincide with that of the piece removed. Fur is often streaked or spotted and the patch must correspond with the nature of the skins themselves.

Fur needles are triangular about the

selves believe. In the circus life, Barnum may have been right, that the people wanted to be fooled, and he proposed to fool them. On the other hand, from a much more responsible source, we have the thought that while we may fool some of the people some of the time we cannot fool all the people all of the time. True! We believe a thing when we behave as if it were true.

Nowhere is the truth of this saying more fully attested than in the business world. Unless our attitude convinces a customer that we believe in the things we offer for sale, we will not get far in closing a contract. Unless the workmanship in the article proves to be what we claim for it, a return order is not likely to be received. Unless we ourselves believe what we say is true, we shall have a difficult time in convincing others no matter how meritorious may be the proposition under consideration.

In the realm of character the same law holds true. "What you speak so loud I cannot hear what you say." We may believe in those traits of character essential to success, but unless we behave as we believe, our friends soon lose faith in us and we wonder why. In King Lear we read, "I am justly killed with mine own treachery."

The Household
By Lydia Le Baron Walker

FUR can be pieced and sewed by any woman who finds her collar, scarf, coat, etc., in need of repairing, provided she follows the directions given today. She will be able to do an excellent bit of work which cannot be detected, if she works carefully. Mending fur saves expense, and while it appears difficult, it becomes easy with practice, and is not really hard at any time. It is imperative to work from the skin (or under side) of the fur, since it is the skin which must be cut, not the fur, which will readily separate once the skin is severed. Also the sewing must be done on the skin, on the side without the fur so that the hairs are not caught down but allowed to lie as they should.

When the temperature in the house becomes so cold that the water freezes in the drinking fountains, brooder stoves are recommended. The stove should be surrounded with wire netting to keep the litter away.

Preparing for Summer

Snappy featherweight garments for summer wear defied snow and ice of the Chicago and New York winter to acquaint women with what will be what in active sports, on the beach and for lounging and strolling next summer. Interesting among them were a collection of related and interchangeable garments in a special clinky fabric, created by Vermae Rylands to supply a complete wardrobe for every daytime occasion next June, July and August, and to carry over into the winter for home use. Shorts, slacks, kerchief, pull-over blouse, wrap-around skirt, pajamas and robe in harmonizing shades of navy, brown, green and raspberry were displayed.

Matrimonial Success

When young people begin their married life with the determination to make of their union one of the most beautiful of homes, to meet differences with loving effort to see the other's point of view, and the resolve to stand by each other through thick and thin, through happy days and troublesome times they have high aims which if steadfastly pursued will bring them to their desired haven. Most of the unhappy marriages, most divorces are the result of swerving from the delightful ideals with which those involved started out. Too many young married people fail to appreciate that life cannot be rid of problems through marriage, any more than it can be free from them when one is single.

Eat Alligator Tail

Colored persons in the South look upon alligator tail as one of the best foods.

Blessing the Skis at Val Morin

One of the most picturesque events of the winter sports season in the Laurentians, in Canada, is the annual mass of the skis held in the small Roman Catholic church at Val Morin, when the blessings of the patron saint of skiers are invoked for the current season. Special permission had to be obtained to make this photograph.

POULTRY FACTS

MAKE CHANGES IN POULTRY HOUSES

Farmers Insulate the Walls and Ceilings.

Farmers are looking to the comfort of their hens this winter. They find it pays. Egg production is more constant during the cold winter months. Many farmers have reduced the cubic content of their chicken houses, and others have installed heating systems to be used when the weather is so cold the water in the houses freezes.

Many farmers have reduced the cubic content of their chicken houses, and others have installed heating systems to be used when the weather is so cold the water in the houses freezes.

Preparing for Summer

False ceilings are installed to cut the cubic capacity of the houses. Some are made with wire netting above, in which straw is stuffed. Other farmers employ a good insulating material.

Because warm air rises, it is the roof that needs to be insulated. Some poultrymen also insulate the walls in their poultry houses, some with straw held in place by wire netting, others with commercial insulating material.

Still others go further, modifying the window arrangement by eliminating the bafflers formerly recommended and fitting all of the openings with glass windows or glass substitutes.

Poultrymen also are worrying less about damp floors in their poultry houses. Results recently announced by experiment stations point to temperature control as more important than keeping the house thoroughly dry.

When the temperature in the house becomes so cold that the water freezes in the drinking fountains, brooder stoves are recommended. The stove should be surrounded with wire netting to keep the litter away.

Incubator Eggs and Baby Chicks Subject to Codes

Even incubator eggs and baby chicks are subject to codes. The outstanding feature of the proposed 1935 hatchery code is the development of a national breeding and disease eradication program in the poultry industry of the United States. This program is under the direction of the secretary of agriculture.

The purpose of the code is to prevent unfair competitive practices and misleading and deceptive methods of advertising, and to promote the best interests of the industry in all possible ways. It is also aimed to aid workers in the hatcheries by specifying the hours of labor and wages. Also, an attempt is made to protect the buyer against misrepresentation and fraud.

Hatching Chicks

In the day to day operation of the incubator there is perhaps nothing more important than frequent and regular turning of the eggs. The more turning the better, at least up to four times in each 24 hours. Turning is more effective during the first half than during the latter half of the incubation period. This suggests that it should be begun early. It is considered sound practice to continue turning until the eggs begin to pip. One should not be in too much of a hurry to remove the chicks from the incubator. They should be given time to become thoroughly dry. Chilling at that time constitutes a serious handicap. If the hatch is good the moisture from hatching chicks may be enough to chill them.—Successful Farming.

Fish Oil Aids Production

Two years experimental work at the Dominion experimental farm, Scott, Sask., has shown that pichard (fish) oil added at the rate of 2 per cent to the laying mash of equal parts by weight of oat chop, barley chop, bran, shorts and beef scrap, has increased egg production 31 per cent over the production from pullets fed the same mash without the oil. Cod liver oil, fed at the same rate, increased production 23 per cent. Where fish meal was used to replace beef scrap in the mash, the production remained practically constant and no objectionable flavor was detected in the eggs. When bran and shorts were replaced by ground whole wheat, production was increased by 3 per cent.

Sex of Wild Geese

The way to tell the difference between a male and female in wild geese is by the shape of the bird. The males are usually much larger than the females, longer necked, and coarser bodied. The male always keeps his head up higher than the female, and is usually "on guard" so far as protection to the flock is concerned. When the male and female mate in the spring the noise made by either one is of equal proportions. The markings are identical on both male and female.

Thin-Shelled Eggs

Produce eggs with thick shells by eliminating from the breeding pen each year all birds that lay thin-shelled eggs and feeding the layers plenty of oyster shells or other forms of calcium carbonate (the shell being composed largely of calcium carbonate) and plenty of vitamin D (such as is found in cod liver oil) or give the birds access to adequate sunlight, because a lack of vitamin D often results in thin-shelled eggs, says the Wisconsin Agriculturist.

New Theory Put Forth to Explain Bird Flight

Flight of birds as a kind of rocket action, like that imagined for stratosphere rockets or for the still more fantastic vehicles conceived as traveling some day to other planets or to the stars, is a new idea proposed in France by Dr. E. Bataut, life-long student of bird behavior.

A bird's muscles are larger and stronger in proportion than the muscles of animals which do not fly, but Doctor Bataut says there is no proof that this difference is great enough to justify the conventional flight theories. Gliding flight is easy to explain, on the same basis of taking advantage of air currents as is used by human aviators, but this does not account for abilities of birds to do many things inexplicable by gliding; for example, to rise in still air.

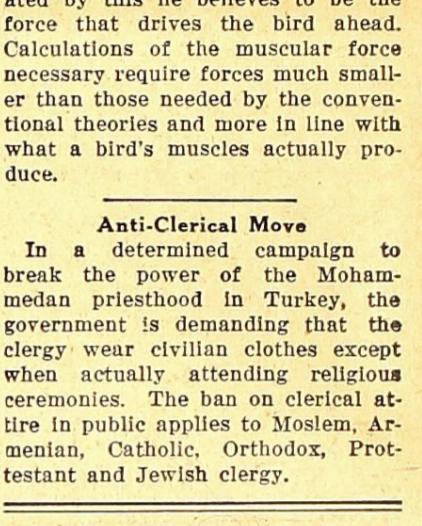

Doctor Bataut's new theory is that the feathers of a bird's moving wing create a continual stream of air backward along the wing surface, like the exhaust gases of an airplane engine or the gaseous discharge of a rocket. The forward reaction created by this he believes to be the force that drives the bird ahead. Calculations of the muscular force necessary require forces much smaller than those needed by the conventional theories and more in line with what a bird's muscles actually produce.

Anti-Clerical Move

In a determined campaign to break the power of the Mohammedan priesthood in Turkey, the government is demanding that the clergy wear civilian clothes except when actually attending religious ceremonies. The ban on clerical attire in public applies to Moslem, Armenian, Catholic, Orthodox, Protestant and Jewish clergy.

ASK YOUR DOCTOR FIRST, MOTHER

Before You Give Your Child an Unknown Remedy to Take

Doctors Say PHILLIPS' For Your Child

When it comes to the frequently-used "milk of magnesia," doctors, for over 50 years, have said "PHILLIPS' Milk of Magnesia—the safe remedy for your child."

Remember this—And Always Say "Phillips' When You Buy. Your child deserves it; for your own peace of mind, see that you get it—Genuine Phillips' Milk of Magnesia.

Also in Tablet Form:

Phillips' Milk of Magnesia Tablets are now on sale at all drug stores everywhere. Each tiny tablet is the equivalent of a tea-spoonful of the spoonful of Genuine Phillips' Milk of Magnesia.

BE WARNED BY THE FIRST SNEEZE

Don't take a chance with a cold. So often it runs into bronchitis, influenza or grippe. Lane's Cold Tablets quickly and effectively relieve the congestion that gives colds a chance to get started. Keep a box always on hand. Take two tablets at the first sign of a cold. At all druggists. 25c size only.

LANE'S COLD TABLETS

WNU Service.

CHAPTER I

It was Armistice day in Tincup. The time was so far removed from that delirious date in 1918 that in many parts of the country the eleventh of November had come to be regarded as simply another day, but Tincup was a mill town and the surrounding country was timber land and in such a community almost any anniversary from the Fourth of July on down to the millwright's birthday is seized upon as an excuse to lay off and play.

So the camps which turned Nicholas Brandon's standing hardwood and hemlock into saw logs, and the mills which chewed them into dimension stuff and flooring and shingles were deserted, and the entire population of a big territory which had commenced pouring into town the evening before was joined for the day with the residents of Tincup in competing or watching or cheering or listening.

In consequence a mere event such as the arrival of the eastbound passenger train drew no attention whatever and so none but the station agent was there to greet the stranger as he dropped down from the rickety red smoking car between his pack-sack, slung from one shoulder, and old Don Stuart, literally dangling from his other arm. The agent, trundling his express truck and in a hurry to be done with duty and get back to the more exciting affairs which occupied the rest of the town, spoke:

"Hul-lo, Don! Back home, eh? Well . . . Glad to see you! "Better git up to the big doins'. Log rollin's just goin' on. Big time!" As if to vindicate this prideful boast of one of its own, all Tincup and its company at the moment opened lips and compressed chests to send up a mighty, roaring shout of acclaim.

"Come on, Dad," the younger man said, looking toward the crowd. "He says it's a big time. Big noise, anyhow. Let's investigate."

Slowly, then, the sharply contrasting pair moved off, the younger still half supporting the elder and moderating his gait to a stroll so Stuart's quick and audible breathing should grow no more pronounced.

A slender young man was climbing a jammer in the mill yard. He lifted himself above the heads of the crowd and held up a hand for silence. This, however, was not readily obtained. A drenched and dripping citizen was only just pulling himself from the chill waters of the pond, a self-conscious grin glued to his lips as the black hair was plastered to his brow by the soaking it had received. On a peeled cedar log in the pond a giant of a man in a gaily checkered shirt, peavey in his hands, balanced and surveyed the throng, a picture of frank and boastful self-satisfaction.

The slender man on the jammer continued to wave his hands and finally these jibes and compliments were smothered by other cries for silence.

"Give Birney a chance, now!" a man shouted.

"Gents!" the man called Birney cried from his vantage point. "As chairman of the committee, I'm asking for help! This committee's worked hard. We got a long program of sports for today but this log-birling's going to flop unless we get more contests! All these folks

He had watched the Bull's Every Move.

"We come to town more to see this match than anything else on the card and what we've showed 'em?"

"Why, nothin'," he answered his own question. "We had two preliminaries and a semi-final between the winners of them matches. Then this final which was a joke. There stands Bull Duval, whose partner in the preliminaries defaulted and who dumped the winner of the semi-final without half trying. I ask you, has he earned twenty-five dollars?"

A laugh arose and Duval, on the log, twisted his mustache and leered at the speaker.

"Here we raised a twenty-five dollar prize and half you river hogs got cold feet just because Duval said he was 'goin' to roll!" Birney was truly an-

noted and took no pains to conceal it. "Ain't any of you lads got the sand to hand in your names and tackle the Bull. Where's your guts?" he pleaded. "Ain't there anybody here that needs twenty-five dollars?"

Another laugh went up and when it had subsided a voice said:

"Here's one. What'll I do to get it?" This was a full, even, good-natured voice, and a quick silence fell upon the crowd, followed by an expectant buzz as the stranger moved forward, his bronzed face uplifted to the man on the jammer.

"Atta boy!" Birney cried. "All you got to do, friend, is to put Mr. Bull Duval off that log and stick by rules!"

The stranger slipped the pack strap from his shoulder, seated himself on a log, unlaced his shoes and unstrapped the bag. While he drew from its depths a pair of calked river boots and the cluster about him grew thicker a half dozen old men crowded around Don Stuart, shaking his hand and saying the usual things that men say to an old friend they have not seen for long.

One of these was a short, wiry little man with upturned nose and blue eyes and long lip.

"Nd who's th' b'y, Donny?" he asked. "Who's th' b'y that's goin' to try Mistor Brandon's pet bull?"

Stuart shook his head.

"He's a fine young gentleman, Bird-Eye, and that's all I know. Found me at th' Junction . . . broke and went in to . . . get back home to Tincup. Paid my fare . . . and helped me. Fine gentleman!"

"He'd better be all o' that!" the other commented with an emphatic nod. "Nd here's hopin' he's a log rollin' rascal 'nd that he dumps Mis-

ter Brandon's bull 'nd thin drowns him, so I do!"

Others came up, greeted Stuart and eyed him with true concern. Any could see that heavy sickness was on him.

Birney was bending over the stranger as he drew taut the laces of his river boots.

"Well, gents, we got one more to try for this prize money. Mistor Bull Duval, king of the Mad Woman, will now take on Mistor Ben Elliott . . . Mr. Ben Elliott of—Where'd you say you come from, Elliott?"

The stranger, so addressed, was hefting a peavey judiciously. He turned that good-natured smile on the spokesman and waved one hand in an indefinite but inclusive gesture.

"Yonder," he said and grinned.

"Mr. Ben Elliott of Yonder will now roll against Mr. Bull Duval for the grand prize of twenty-five bucks! That rope around the log marks the middle, Elliott. Stay on your own end, don't touch the other man and anything else goes!"

As a helper used a pike pole to drag the cedar with Duval upon it, close, Elliott stood still and surveyed his adversary. His glance held that light of good nature and did not linger long on the Bull's glowering countenance. Rather, it dwelt on his pants and the river boots, shedding water in oily beads. After this, he looked Duval in the eye and grinned broadly.

A sound like a breath which is almost a laugh ran through the crowd. A likeable grin, that was, good-natured, frank, fearless; men take to a grin of its kidney and on the instant, Ben Elliott, the stranger, had the crowd with him as against Bull Duval, said to be king of the river.

The cedar came against the boom stick and Elliott took his place on it with a light leap. It was a good log, nearly two feet through at the small end, twenty feet long, with a small taper, dry and peeled; a sprightly log, indeed, for such a contest, a log to try the mettle of any man matched with any sort of contestant. Add to this, Bull Duval, the best river hog in Tincup, who hefted his peavey and glowered at the stranger.

"I give 'y two 'minutes," he growled.

"Thanks, buddy!" Elliott retorted. "I'd say that's sweet of you!"

"Are you two ready?" Birney cried from shore.

Both nodded.

"Then let her go!"

A hush. Balanced on the log, faced in the same direction, double an arm's length from one another, they poised. And then Duval's right toe lifted, the heel pressing downward; the buoyant

log moved quickly. His left foot raised free, sharp corks in its sole clawed savagely and with a mighty drive of the leg he had the cedar spinning beneath them.

Ben Elliott did not offer resistance. He followed the moving footing, walking for the first three or four turns and then, adding his impetus to the birling stick, commenced to trot, with each stride forcing the tempo of the turning.

Faster and faster, now. The trotting became a run; the run waxed to a nimble dance.

They watched one another. Ben Elliott still grinned. The Bull glared. His black brows were drawn together and he ground down on his chew savagely, almost hatefully.

Up and down, up and down; a mad gallop of supple limbs, now and then—

Duval leaped. He leaped high and without warning and, feet spread, drove his corks deep into the log again, hunching his shoulders, thrusting his peavey before him for balance, bending forward. The spin of the stick was checked sharply and had his opponent been caught unprepared, he certainly would have pitched face foremost into the pond.

But Elliott was not unprepared. He had watched the Bull's every move. He did not jump when Duval jumped; he waited a split instant, eyes on Duval's feet, and when he saw the toes pointed stiffly downward he rose nimbly into the air, a galloping break in his swift run, and came down, poised, spread-legged himself, crying out in an ejaculation of mock distress as he balanced on the cedar which swayed and heaved beneath them.

A great roar went up, cries of en-

couragement for the stranger, some shouts of admonition for their townsman. The Bull would have no cinch in this contest!

Now it was Elliott who started the log, cautiously and slowly, watching Duval.

On the shore Bird-Eye pranced up and down, swinging his arms.

"Duck him, Elliott!" he yelled. "Duck th' big chunk! Sure 'nd he needs him a bath!"

The smooth bole gathered momentum swiftly and Elliott began to skip and dance, breaking the steady measure of his run. As his weight came and went irregularly upon the cedar it commenced to teeter, causing Duval's feet to splash in ankle-deep water. Again without warning, the Bull leaped. He went higher, this time, but instead of driving his spikes into the far side of the log and stopping its spin as he had done before, he drove them into the near side, increasing rather than checking the momentum.

"Got you, big boy!" Elliott cried as he, too, came down running . . . and grinning.

That was quick thinking, instantaneous action. To leap was simple; but to determine the opponent's move and meet it with complacency and poise was another matter. To have come down to a stance, then, would have flung the challenger to wet defeat.

"Ah, th' big chunk as a Bull's goin' to get that bath he needs!" Bird-Eye shrielled into the roar.

But this was only one man's enthusiasm, his animosity for Duval ending voice. The outcome was far from a certainty. Tincup knew that; and Ben Elliott knew it as well. He—like the town—was waiting for the king of the Mad Woman to draw more items from his bag of tricks before he should assume the offensive.

Without a flicker of warning Duval dropped the pick of his peavey, twisting the shaft in his hands, flipping the hook open. The point jumped into the water, the hook bit into the log simultaneously and as the handle swung upward in a swift arc the man drove his weight on it. His body twisted, he grunted and his face wrenched into a lightning expression of great strain as the cedar, in a quarter turn, stopped dead. . . . And Ben Elliott, back bowed acutely, peavey high above his head, teetering back to balance on one foot, laughed aloud!

"Quick work, big boy!" he cried. "Almost got me!"

But Duval had nowhere near gotten him; he knew it, and Elliott's manner was infuriating to him. He cursed

sharply and spat and jerked at the brim of his slouch hat as he shook loose the peavey and commenced again to birl.

They ran a moment easily, each waiting for the other to try some fresh trick. The Bull leaped and came down running; he leaped four times in the space of as many quick breaths. And then, as though ready to leap again, dropped the hook of his peavey into the cedar. He wavered when the handle, swept upward by the rush and weight of the spinning log, bore against his great palm. His body swung sharply to the left. He cursed as the smooth handle slipped from his clutch and Bird-Eye Blaine danced in a frenzy of delight as the peavey, handle smacking the water, disappeared in the pond and the Bull, waving his arms for balance, ran the log desperately to hold his place. A great shout went up from the crowd.

The odds, then, were no longer equal. Like a fencer with a broken foil, like a boxer with one eye closed, like a runner with a strained tendon, so Duval was now.

"Polish him off, now!" Bird-Eye screamed, like an audacious, saucy boy. "Polish him good, Mistor Elliott! He's yawlin' for help 'nd the ain't no fer him!"

That was what Tincup believed. A quick finish seemed certain, with the Bull so handicapped, without his peavey for offensive moves or to hold for balance.

But what happened stilled the clamor quickly, as though sound were a tangible mass and a great blade had sheared it quickly and cleanly.

Ben Elliott shifted his peavey. He had held it across his body, arms wide

The Thrill, the Action, the Adventure That Are Part of an Outdoor Story You Will Find Them All in This Gripping Tale of the North Woods

Harold Titus has no peer in the field that he has chosen to make his own—the American woods. He has won a large following with his "Code of the North," "Below Zero," and other novels, as well as with many stories in the leading magazines of the country. In "THE MAN FROM YONDER" he has written a fast-moving tale that ranks among his best.

Read this opening installment and follow the story through to its satisfactory conclusion.

They watched one another. Ben Elliott still grinned. The Bull glared. His black brows were drawn together and he ground down on his chew savagely, almost hatefully.

Cookies Seem to Take High Place

By No Means Out of Favor Even When Holidays Are Ended.

The holidays may come and go, but some of my readers seem to remain interested in the question of cookies, says an expert on the subject. In spite of previous articles devoted to their home manufacture, readers are still avid for more recipes. I also had a letter from one reader, saying that she had not been able to make brownies and walnut wafers, though she followed my recipe exactly. I, myself, have made them hundreds of times, and always with success.

If you have tried walnut wafers, you have probably discovered that care must be used in removing them from pans after they have been baked. They must cool for a moment before they are hard enough to be lifted with a spatula. If you let them stand too long, they will get brittle. In this case they may be put back in the oven for a moment to soften. A little experience will show you that even this one difficulty is not hard to overcome. So far as the brownies are concerned, I often call this recipe my foolproof recipe. A critic said the brownies were not hard at the end of 30 minutes in a moderate oven. Brownies should never be hard. They should be soft whenever taken out of the oven.

I am going to give you a real treat in some of the recipes I publish today. They have been sent in to me by a generous reader who has translated from her German cook book several of her best recipes which have been tried out year after year at holiday and at other times. I know you will appreciate, as I do, her kindness in sharing them with us.

I am giving you by request of a reader, a recipe for one of the most modern types of cookies; the so-called ice box or refrigerator recipe. The dough for these cookies may be shaped into rolls, wrapped in wax paper and stored almost indefinitely in the refrigerator. Whenever you desire a hot cookie, slice the dough with a sharp, hot knife, and bake. This recipe calls for dates and nuts. You may vary it by using other fruits which, however, must always be chopped very fine or run through a meat grinder, so that the rolls may be easily sliced. Sometimes the dough is packed into a small bread pan and sliced in oblongs. If you compare German recipes with this you will notice that they also use a very easy way for forming cookies. In several of these recipes the dough is rolled into small balls, placed on baking sheets on which it will spread into rounds. The filled cookies, or Christmas balls, as they are called, are most attractive little cakes. I know you will like the chocolate macaroons as well.

Chocolate Macaroons.

3 eggs
6 ozs. sweet chocolate
1/2 lb. confectioners sugar
1/2 lb. chopped almonds
1/2 teaspoon vanilla

Beat three eggs thoroughly, put in double boiler and add 6 ounces sweet chocolate and 1/2 pound confectioners sugar. Mix thoroughly until lukewarm; take from stove and add the almonds and vanilla. Stir until cooled. Drop batter by teaspoonfuls on well greased cookie sheets and bake very slowly (300 degrees Fahrenheit) for about 15 minutes. Drop batter 2 inches apart. Let stand a few minutes before removing macaroons very carefully from baking sheet.

Filled Cookies.

(Christmas Balls)
1/2 lb. (3/4 cup) butter
2 egg yolks
1/2 cup sugar
Grated rind of lemon
1/2 cup flour
Chopped almonds
Egg whites
Jam

Cream butter, egg yolks and sugar; add lemon and flour, mix well, form balls size of walnut, and make impression in center. Fill impression with jam; dip top of ball in egg white (unbeaten) and then roll in chopped almonds. Bake in a slow oven at 300 degrees Fahrenheit on well greased cookie sheets for about 15 minutes.

TO BE CONTINUED.

100,000 Butterflies

The most enthusiastic butterfly hunter who ever lived, a Swiss named Hans Fruhstorfer, made a wonderful collection of 100,000 butterflies, and this has been lent to the Natural History museum in Paris. He began his collection in Brazil when he was twenty-two; then took his net to Java, where he spent three years; then he followed his pursuit for two years in the Malay archipelago. He traveled through South America, Japan, China and Siam, darting about with that abstracted look of the butterfly-hunter here, there and everywhere until he had brought his net over some of the rarest creations in the world. His 100,000 specimens have nearly 7,000 varieties.

First to Adopt Christianity

The Armenians, not the Romans, were the first people to adopt Christianity as a national religion, says Collier's Weekly. The Armenian king, Tiridates, established the Georgian Armenian (Christian) church in 301, which was 33 years before Constantine proclaimed Christianity as the state religion of the Roman empire.

And the Unthinking

Folly is joy to him that is destitute of wisdom.

ESKIMO CANNIBALS

The Far North as well as the tropics has some cases of cannibalism even today. Eskimos, on the

verge of starvation, have been known to devour human flesh within the last couple of years in northern Canada.

A Doctor Knows!

And doctors use a liquid laxative

There's a very good reason why doctors and hospitals have always used liquid laxatives! You'd use a liquid, too, if you knew how much better it makes you feel.

A liquid laxative can always be taken in the right amount. You can gradually reduce the dose. Reduced dosage is the secret of real and safe relief from constipation.

Just ask your own doctor about this. Ask your druggist how popular liquid laxatives have become. The right liquid laxative gives the right kind of help, and the right amount of help. When the dose is repeated, instead of more each time, you take less. Until the bowels are moving regularly and thoroughly without any help at all.

People who have experienced this comfort, never return to any form of help that can't be regulated! The

"Leave the rest to nature"

liquid laxative generally used is Dr. Caldwell's Syrup Pepsin. It contains senna and cascara, and these are natural laxatives that form no habit—even in children. Its action is gentle, but sure. It will relieve a condition of biliousness or sluggishness without upset. It's the ideal family laxative because it's a family doctor's prescription, and perfectly safe and effective for family use.

If you are seeking something that will relieve your occasional upsets safely and comfortably, try Syrup Pepsin. Give regulated doses until Nature restores regularity.

years, caused a column of water and steam to spurt 700 feet from the crater lake.

Now Relieve Your Cold "Quick as You Caught It"

1. Take 2 BAYER Aspirin Tablets. Make sure you get the BAYER Tablets you ask for.

2. Drink a full glass of water. Repeat treatment in 2 hours.

3. If throat is sore, crush and stir 3 BAYER Aspirin Tablets in a third of a glass of water. Gargle twice. This eases throat soreness almost instantly.

For Amazingly Fast Results Remember Directions in These Simple Pictures

The simple method pictured here is the way many doctors now treat colds and the aches and pains colds bring with them!

It is recognized as a safe, sure, QUICK way. For it will relieve an ordinary cold almost as fast as you caught it.

Ask your doctor about this. And when you buy, be sure that you get the real BAYER Aspirin Tablets. They dissolve (disintegrate) almost instantly. And thus work almost instantly when you take them. And for a gargle, Genuine Bayer Aspirin Tablets disintegrate with speed and completeness, leaving no irritating particles or grittiness.

BAYER Aspirin prices have been decisively reduced on all sizes, so there's no point now in accepting other than the real Bayer article you want.

Old French Settlement

The first European settlement made in the northern part of what is now the United States was made in 1604 by Pierre de Gast, Sieur de Monts when he built a fort on St. Croix island and spent the winter there with a party of French explorers.

School Notes

REP. FRED C. HOLBECK
A FRIEND OF EDUCATION

The following is a portion of a letter recently received by the school from Mr. Holbeck, our representative in the state legislature:

"You can depend on my doing anything possible within reason to maintain the efficiency of our public school system in Michigan. Last year, as you probably know, I offered an amendment to the Sales Tax Bill allocating the first fifteen million to schools. The amendment was accepted in the bill when it passed the House. It was later changed in the Senate. When the Chain Store Tax Bill was passed, I offered an amendment to the bill allocating the entire proceeds to a fund to be divided for the benefit of teachers up to the eighth grade in Michigan. I am today presenting an income tax bill to the legislature which, if passed, will bring in about fifteen millions annually and the moneys received from this bill are being allocated entirely to the primary school fund.

"I mention these things to show you where my heart lies and you can depend that I shall do everything in my power to bring about a successful issue to the present controversy with reference to the proper maintenance of public schools.

No. 1 Continued from the First Page

smaller crop brought more money to growers in 1934.

One of the newest farm groups, alfalfa seed, did not show the great decrease in yields that alfalfa hay did. This is one of the promising lines of agricultural production. The acreage of seed harvested is steadily growing and Michigan is able to grow a quality of seed which is hard to duplicate in other sections. The value of the 1934 crop was 40 cents greater than that of 1933.

The values given to Michigan farm crops do not include any benefit payments made by the federal government. The figures are computed upon the sales prices the farmer could get at the farm.

The Man from Yonder

A New Serial by HAROLD TITUS

No one knew anything about Ben Elliott when he arrived in Tincup, but it wasn't long before his name was on every tongue, for hadn't he given "Bull" Duval, Nick Brandon's hired thug, a beating he would never forget; hadn't he taken over the impossible job of running the Hoot Owl outfit after many an older and more experienced man had failed; and hadn't he had the courage to defy Brandon himself, the man who held Tincup in the hollow of his hand?

The old-timers stood by and scratched their heads—here was a youngster doing things that couldn't be done and doing them well, in spite of fire and dynamite and many another hazard. And Ben carried on, unconscious of the magnitude of his job, carried on for the sake of a little girl whom he had never seen—until one day he discovered that she was a little girl no longer, but a lovely young woman—and the one person in all the world that Nick Brandon really cared for.

Here, indeed, were complications, but Ben Elliott thrived on complications though he had to admit that the winning of Dawn McManus was the toughest job he had ever tackled.

Harold Titus tells this thrilling tale of romance and adventure in his latest North Woods story, "The Man From Yonder." Readers of this paper who are familiar with the clean, vigorous stories that Titus writes will be glad to know that we have obtained the publication rights to "The Man From Yonder." All of our readers, we are sure, will enjoy reading it as it appears serially in these columns.
