

## TAWAS CITY

## GENTLEMEN'S NIGHT HELD BY LOCAL CLUB

Meeting Is First One Held At New Rooms In Davidson Bldg.

The Twentieth Century Club held gentlemen's night at its new club rooms in the Davidson building last Friday evening.

After the club members and guests had enjoyed a fine dinner, Mrs. Augusta Bright took over the meeting and introduced the numbers on a program beginning with songs by the audience. James F. Mark led the singing and Mrs. Lois Giddings acted as pianist.

The "Address of Welcome" was given by Mrs. Mae Dease, president of the club. This was followed by two piano solos by Mrs. Laura Bradock.

The climax of the program was the playlet, "Not a Man in the House." The following were in the cast: Mrs. Muriel Horton, Mrs. Lois Giddings, Mrs. Augusta Bright, Mrs. Nyda Campbell Leslie, and Mrs. Elizabeth Holland. The cast was involuntarily assisted by Wm. Osborne, Charles McLean and James Robinson.

The remainder of the evening was spent in playing bridge and having a general good time.

This was the first meeting held in the new club rooms. The rooms were at one time occupied by Tawas City Lodge, F. & A. M. They have been painted and redecorated and make an excellent home for the club.

## Large Birthday Greeting Will Be Sent To President

Western Union has placed its nationwide system of telegraph offices at the disposal of the President's Birthday Ball committee for receiving 25c from each person who places his signature on a multiple-signature birthday greeting. The following is the greeting which will be sent to the President:

"Happy birthday, Mr. President. I am proud to know that the cost of sending this greeting will help in the great fight against infantile paralysis, to which you have given your leadership and loaned your birthday."

Signatures from every city, town and hamlet will be mailed to New York, where they will be bound into what probably will be the greatest birthday greeting in history. One hundred per cent of the money will be turned over to the National Birthday Ball committee, which will arrange for proper credit for each community.

The President's birthday message is at the Western Union office at East Tawas. Whoever desires to contribute to this cause may do so by calling at the Western Union office and place his or her signature on the President's Birthday telegram.

## Mayor Alfred M. Boomer Resigns Monday Evening

Mayor Alfred M. Boomer tendered his resignation to the Tawas City common council Monday evening. The resignation was accepted and Harry Rollin, chairman pro tem, will complete the term of office as mayor. At the next meeting of the council an alderman will be appointed to succeed Alderman Rollin in the third ward.

## Democrats Elect Seven Delegates To Convention

Seven delegates to the state convention were named at the Isoco County Democratic convention held Saturday afternoon. They will go to Detroit unopposed.

The following delegates were elected: T. George Sternberg, East Tawas; Ed. Vaughn, Oscoda; Mrs. Jas. Hull, Oscoda; Jas. Hull, Oscoda; Henry Jacques, Whittemore; Charles Schneider, Whittemore.

## Emanuel Lutheran Church

W. C. Voss, Pastor  
Sunday, January 27—English service, 9:30 a. m.; German service, 11:00 a. m.  
Monday, January 28—Choir rehearsal, 8:00 p. m.  
Sunday, February 3—English service, 9:30 a. m., with celebration of Lord's Supper; German service, 11:00 a. m.

Note!—Announcements for Holy Communion are requested to be made on Thursday, January 31 (afternoon and evening) instead of Friday.

## LUTHERAN MISSION, HALE

W. C. Voss, Pastor  
Friday, January 25—Instruction for adults, 8:00 p. m.  
Saturday, January 26—Instruction for children, 9:00 a. m.  
Sunday, January 27—Divine services in the English language, 8:00 p. m.

Let us repair or rebuild your electric sweeper of any make, and we can make a new one out of your old one. G. Fred Ash.

## HURON SHORE CLUB FORMED

Organization Will Seek Shore Road Completion To Straits

A Huron Shore Road club was organized here last Monday evening at a meeting held at the city hall. Sam Yockey of Harrisville and Dr. E. L. Foley of Alpena were the speakers.

Mr. Yockey gave an interesting talk on the finances of the state highway department, and Dr. Foley explained the object and work of the club. The combined effort of the towns and cities along the Huron Shore highway will be directed toward securing its completion to the Straits of Mackinac.

At the meeting the following directors were elected: Charles L. McLean as chairman; Elmer Anschuetz, Alfred Boomer, Frank Dease, Edw. J. Martin and E. D. Jacques. Cheboygan, Rogers City, Alpena, Harrisville, Oscoda, East Tawas, AuGres and Omer have already joined the club.

## Whittemore Basketeers Win Three Games Friday

Whittemore high school's scarlet and grey played three basketball games last Friday night and came out victors in all of them. The boys' varsity, playing without the services of their regular forward and center, fought out a 14 to 11 triumph over Pineconing. Captain Bronson and Dunham, forwards, were high scorers for Whittemore with five points each, while Coggins and Verellon of Pineconing led their teammates with three points each.

The girls played their usual snappy game of basketball against the blue and grey of AuGres and won by the score of 20 to 14. Slavinski led her Whittemore mates with 17 points, and did not miss a free shot during the game. Shirkey led in the AuGres scoring with 12 points.

The boys' B team easily conquered the AuGres B team, 20 to 9, in the other game.

## Zion Lutheran Church

Ernest Ross, Pastor  
January 25—Announcement for Communion.  
January 27—Sunday School, 9:45 a. m., English.  
Services, 9:45 a. m., German.  
Communion Services, 11:00 a. m., English.  
January 30—Midweek Bible Study, 8:00 p. m., English, at the school.  
February 1—Board meeting, 8 p. m.

## Notice

I am making two plats of my property on Silver Creek one mile east of the United States Forest Station. The land is within the Huron National Forest. The lots will be sold at \$50.00 and up. Any party wishing a lot either write or call W. H. Grant, East Tawas.

## Notice

Hereafter my office will be closed on Wednesday afternoons of each week instead of Thursday afternoons. Dr. John D. LeClair, Dentist.

FOR SALE—Used Perfection oil range and oven. Prescott Hardware, Tawas City.

## Forty Persons Present At Yacht Club Bridge Tournament Opening

Forty persons were at the Holland Hotel on Monday evening for the opening of the bridge tournament sponsored by the Tawas Bay Yacht Association. The committee hopes that a few more tables will be filled next Monday evening. The attendance was quite favorable considering the condition of the roads and walks in the Tawas.

The standings for the first evening of play are as follows:  
Mrs. Bolen and Mrs. Green...1.000  
C. T. Prescott, Sr., and  
C. T. Prescott, Jr. ....1.000  
Mrs. Miller and R. Lixey...1.000  
Dr. Moss and A. Dillon...1.000  
Mrs. LaBerge and Mrs. Bergeron 1.000  
Mrs. Butler and Mrs. Soules...750  
Mrs. G. Prescott and  
Mrs. Tuttle .....750  
Mrs. Miller and Mrs. DeGrow...750  
J. Dimmick and M. Pollard...500  
A. Colby and Harold Colby...500  
Ed. Klenow and C. Kasischke...500  
Mr. and Mrs. L. McKay...250  
Basil Quick and Steve Youngs...250  
Mr. and Mrs. J. Carroll...250  
Mrs. Barkman and Dr. Mitton...250  
Mr. and Mrs. Lloyd Bowman...000  
Mrs. C. T. Prescott and  
Mary Lou Prescott .....000  
Mrs. Marzinski and Mrs. Mitton...000  
E. Bassler and Wm. Rescoe...000  
M. Barkman and H. Klenow...000

## Council of Religious Education Young People To Meet Here February 2

The young people of the Isoco County Council of Religious Education will hold their eighth annual conference in the Baptist church of Tawas City all day Saturday, February 2nd.

Registration will be at 9:30 and morning devotional service at 10:00 led by Mrs. Pettys of Hale.

Rev. E. W. Halpeny of Lansing, superintendent of the Michigan Council, will have charge throughout the day and give the address at the banquet in the evening.

The afternoon session holds particular interest for adults who are in any way interested in young people. For that session parents, public school teachers, church school teachers and ministers are especially invited. The topic is "Character Building."

The banquet will be served at five-thirty p. m. for the young people. The evening program will consist of several religious plays put on by the different communities and the one winning in the contest will receive a \$50.00 prize. This is the first contest in dramatics in Isoco county and all who wish to attend are invited. There will be no registration fee nor any admission, but an offering will be taken.

## Will Present Concert At M. E. Church Friday Night

The Gilliard Musical company of Brown City will present a musical concert at the M. E. church, Tawas City, beginning at 8:00 o'clock on Friday evening, January 25th. The concert is sponsored by the M. E. Ladies Aid. An admission charge of 10c, 15c and 25c will be made. The Gilliard family concerts are well known through the central part of Michigan and a most enjoyable evening's entertainment is promised.

## Notice

Dr. A. S. Allard, registered chiropractor and optometrist of Bay City, will be in East Tawas at the Holland Hotel Wednesday, January 30, specializing in the well known drugless system of treating eye, ear, nose and throat troubles, straightening cross eyes without drugs or knife. Examining eyes and fitting glasses at reasonable prices. Remember the date—Wednesday, January 30.

## Notice

IF YOU HAVE any livestock to sell—cattle, calves, sheep or hogs—write or telephone W. A. Curtis, Whittemore. Shipping every week.

## Notice

FOR SALE—Chevrolet coupe in excellent condition. Inquire at Herald Office.

## LEGION WILL HOLD BRIDGE TOURNAMENT

Next Wednesday Night Set For Opening Of Eight-Week Contest

An auction bridge tournament under the auspices of Jesse C. Hodder Post, American Legion, will commence at 8:30 p. m., E. S. T., next Wednesday, January 30, at the Legion hall. The tournament will continue for eight successive weeks.

Contestants wishing to enter can apply to H. J. Keiser, drug store, H. Read Smith, or Wm. Fitzhugh.

Cash prizes will be awarded as follows: First prize, \$10.00 per couple; second prize, \$7.50 per couple; third prize, \$5.00 per couple. These amounts will be awarded provided a sufficient number enter the tournament.

The following rules will be observed during the tourney:

Each couple shall furnish one pack of cards each night.

Standard rules of auction bridge will apply as set up in the rules of the Whist Club of New York.

Absentees may furnish substitutes or the committee can furnish substitutes if possible, and absentees must abide by the results of play by substitution. In the event no substitutes can be provided, the absentees will be credited with one rubber if the fee is paid while the partners present shall receive credit for three rubbers.

Nine o'clock, E. S. T., will be as long as partners need wait for opponents.

Second night entries will be given credit for two rubbers providing they pay the first night fee.

Any partners who do not pay the full eight weeks' fee can not compete for prizes.

Drawing of names will be done by the committee each night at 8:30, E. S. T., and their findings will be final.

## Peoples State Bank Holds Annual Meeting

The annual meeting of the Peoples State Bank was held Tuesday, January 15. The following were re-elected directors: Fred J. Adams, W. A. Evans, L. G. McKay, John Schriber, R. G. Schreck, G. N. Shattuck, Robert N. Wallace. The officers of the bank are: Robert N. Wallace, president; L. G. McKay, vice-president; G. N. Shattuck, cashier; Miss Esther Look, assistant.

## 3,547 Acres Added To Huron National Forest

The Federal Forest Reservation commission Monday authorized the purchase of 3,547 acres of cut-over land in Michigan to be added to national and state forests. This purchase includes 3,547 acres adjacent to the Huron National forest at a price of \$10,050.00.

The commission also accepted the recommendation of W. E. Tinker, regional forest director, to purchase one million acres of timber land in the upper peninsula.

## Christian Science Services

Literary Club Rooms, East Tawas, Sunday, at 10:30 a. m.—Subject "Truth."

## Late News Events

## Paul Muni Has Splendid Role In "Bordertown"

Practically all border towns are lawless, according to the author of "Bordertown," the Warner Bros. production, which comes to the Family Theatre, East Tawas, on Sunday, Monday and Tuesday, January 27, 28, and 29, with Paul Muni in the stellar role. He speaks of this as "the faint which seems to envelop all boundaries."

"Bordertown" is the story of a young man who grows up to be a power in his particular part of the underworld.

The role of Johnny Ramirez seems particularly suited to Paul Muni, suggesting a great similarity to his part in "I Am a Fugitive from a Chain Gang."

In "Bordertown" however, Muni is called upon for a greater dramatic range, since this story has greater scope. It takes him from the cantaloupe fields of Imperial Valley to the vice haunts of "Bordertown" and thence to the drawing rooms of his American society friends.

Muni is supported by Bette Davis, Margaret Lindsay, Eugene Pallette, Robert Barrat, Henry O'Neill, Hobart Cavanaugh and Gavin Gordon.

## Caterpillars Big Eaters

"Probably no creature eats more in its existence than a silkworm caterpillar," writes an authority in "Wonders of Animal Life." The lifetime capacity of one of these caterpillars is approximately 4,700 times its own initial weight.

## EAST TAWAS

R. E. Wilson, who spent a few days in Saginaw, returned home. Mrs. J. Wingrow left for Saginaw where she entered the hospital for treatment. Her daughter, Betty, is with her.

Norman Salsbery spent the week end in Dearborn with his parents. Miss Lucille Lixey is spending the week in Detroit on business.

W. A. Evans, who spent the week in Traverse City, returned home. Miss Jean Adams is nursing a broken collar bone as the result of a fall on the ice. Friends wish her a speedy recovery.

Mr. and Mrs. Orville Silverthorn of Toledo, Ohio are in the city helping to care for their father, who is very ill.

Mrs. Paul Roper and daughter, Emma Lou, who have been visiting in Shreveport, La., returned home.

Mr. and Mrs. Fred Wilkins of Alpena visited a day in the city while enroute to Florida, where they will spend three months.

For Rent—Modern house in East Tawas. Inquire of Mrs. C. L. Barkman. adv

Miss Phyllis Schanbeck of this city has been named clerk of the Isoco County Road Commission.

Harold Pritchard of Flint is visiting at the home of Mrs. Ed. Haglund.

Mrs. W. C. Davidson of Tawas City will give a short talk on the subject "Child Labor" at the East Tawas M. E. Sunday school Sunday morning at 10:00 o'clock, E. S. T. There will also be special music by the quintet.

John Miller will leave soon for Grayling, where he will spend a couple of months with relatives.

Mrs. A. C. Brown entertained two tables of bridge at her home Thursday afternoon. Mrs. Owen Hales had high score and Mrs. J. Brooks low score.

Mr. and Mrs. Chas. Hewson will leave within a few days for several weeks' visit at Detroit, Washington, D. C., and Kissimmee, Florida.

Friends of Miss Grace Hill were sorry to hear that she had undergone an operation at Tolfree hospital, West Branch, for appendicitis.

Eugene Hanson of Jackson spent the week in the city on business. Mrs. Lydia Smith was taken to a Bay City hospital for treatment. Her parents, Mr. and Mrs. Herman Joppich, accompanied her.

Mrs. Ed. Grant was called to Ionia Tuesday owing to the serious illness of her sister, Mrs. Reed.

Richard Herman spent Tuesday in Bay City.

Mr. and Mrs. Wm. Grant left on an auto trip to New York City, Buffalo, and other cities. They will be gone for a few weeks.

Mrs. Wm. Bean spent Tuesday in Bay City.

Born to Mr. and Mrs. Basil Quick on Sunday, January 20, a son.

Miss Faye Gurley left Monday for Detroit, where she will visit with Miss Irene Warren for a few weeks.

Mrs. J. Harrington entertained the Tuesday contract bridge club at her home Tuesday. Mrs. D. Berzevon won first prize and Mrs. C. Barkman low prize.

Elmer Sheldon and son are visiting in Detroit a few days.

The Ladies Literary Club held a benefit bridge party at the club rooms Wednesday afternoon. Mrs. Harlow Hennigar won first prize and Mrs. Lloyd McKay second prize. About 60 members and guests were present.

LANSING, Jan. 25—Alpena is the first city in Michigan to stage a celebration in the Michigan Centennial, when the Historical Winter Carnival which features all the winter sports of 100 years ago and bringing them down to the present time, opened yesterday. The program consists of racing, fancy skating and all ice and snow sports, and will continue until Sunday evening.

HARRISVILLE, Jan. 25—The charred body of Wayne Pierson was found Tuesday in the ruins of his home north of this city. Authorities are making an investigation. It is thought the fire was caused by an overturned lamp.

STERLING, Jan. 25—Raymond Marsh, 21 years of age, was found Sunday near his father's barn with his temple pierced with a shot from a gun he was carrying. It is thought that the gun was discharged when he slipped on some ice.

# News Review of Current Events the World Over

## World Court Adherence Proposal Sidetracked in Senate—President's Social Security Plan Arouses Storm of Discussion.

By EDWARD W. PICKARD

© by Western Newspaper Union.

**R**ATIFICATION of the world court protocols received a setback when Senator Hiram Johnson, Republican, California, bitterly denounced such action as a "back door entry" to the League of Nations, and senate leaders rather than risk an immediate vote, delayed definite action.

Sen. Hiram Johnson

Senator Johnson's attack came on the heels of a special message to the senate from President Roosevelt who asked for early ratification of the protocols. It was the most determined movement yet made to put the United States into the court.

Other senators, it is said, were ready to follow Johnson's lead, particularly Senator Borah, long time foe of the court.

Johnson supported his opening attack on the court by offering four embarrassing reservations to the resolution of ratification:

1. Prohibit the court from entertaining jurisdiction on any question relating wholly or in part to its internal affairs.
2. Permit recourse to the court only by agreement through general or special treaties between the parties in dispute.
3. Prohibit the court and the league of nations from trying to assume jurisdiction on any question which depends upon or relates to the Monroe Doctrine.
4. Declare the United States, by joining the court, assumes no obligations.

Through Johnson's action, these questions must be voted upon before a final vote can be reached on the resolution of adherence.

Although the question has been sidetracked for a time, it will be brought up soon, it is said, and Senator Robinson, Democratic leader, has stated that he was confident of ratification when the final test comes.

**T**HE third phase of testimony presented by the state in the trial of Bruno Richard Hauptmann, charged with the murder of Col. Charles A. Lindbergh's son, has begun. Eight handwriting experts called by the prosecution have completed their testimony, each declaring that in his opinion, the old ex-carpenter was author of the ransom notes, and the state now moves on to the story of finding the tiny corpse in a shallow grave in the woods near Hopewell, N. J., two months and twelve days after the kidnapping on the night of March 1, 1932. Following this, the story of how Hauptmann was captured last September through identification of one of the gold certificates which made up the ransom, will be told.

Eight men, who have qualified with the court as experts, have declared that Hauptmann penned the ransom notes. Photographic enlargements of the notes and Hauptmann's admitted writings have been shown in the court, and each peculiarity of each character has been carefully gone over.

Defense lawyers have fought each scrap of testimony bit by bit. An attempt has been made to show that some one might have forged Hauptmann's handwriting in an effort to throw suspicion on him, but this has been vigorously refuted by witnesses who have been firm in their assertions that only the prisoner could have been the author.

An attempt to forestall efforts of the defense to pin the crime on Isador Fisch, furrier, who died in Germany, is being made by New Jersey officials. Pinkus Fisch, his brother, Hannah, his wife, Czerna, his sister, Isador, and Fisch's nurse, Minne Steingnitz, have been brought from Germany to testify. Pinkus has asserted his belief that his brother is not guilty.

**T**HE Saar will be returned to Germany on March 1, a special committee of the League of Nations has decided. The proposal will be submitted to Berlin at once. Opposition to this proposal is expected, since the reich originally demanded the basin's return formally on or before February 15.

Another difficulty arises over France's demand that Article 42 of the Versailles treaty establishing a demilitarized zone should be applied to the Saarland. This would ban Nazi storm troops and Brown Shirts from the territory after its return. Compliance of this demand would be an admission from Germany that the Brown Shirts are a semi-military organization, and this Berlin has long denied in computing her military strength.

Germany won an overwhelming victory in the plebiscite held to determine the wishes of the inhabitants of the rich Saar basin. To the future status of that territory. The complete vote as announced by the commission was: for return to Germany 477,119, for annexation to France 2,124, and to return

to present status under League of Nations control 46,513. Their margin of victory exceeded the hopes of even the most optimistic Nazi leaders.

Love of the fatherland won over antipathy to Hitler principles in influencing the voters. The Saarlanders in voting to return to reich rule exchange their personal and political liberties for the regimentation of a dictatorship with its curb on the press, free speech and individualism.

**G**ENERAL REVISION of air mail rates to prevent available destruction of commercial aviation has been recommended by the bureau of air mail of the Interstate Commerce commission. An investigation conducted by the bureau discloses that most of the routes are being operated at substantial losses, and rate increases were recommended on 19 routes. Rates on one route would remain unchanged, and 11 others would be decreased. If the recommendations are carried out, the proposed new increases range up from nine cents per mile for poundage not to exceed 300 pounds per mile, while the reductions ranged as high as 13.5 cents per mile. Operation losses of \$1,757,993.39 were shown in tables submitted by the 31 existing operating companies, and it was pointed out that the industry would be endangered if the contractors were forced to continue operating at tremendous losses.

**T**HE most far-flung innovation of the New Deal has proposed thus far—the "social security plan" proposed by President Roosevelt—has aroused a storm of discussion. Administration adherents greeted the scheme with wild enthusiasm, while the opposition, led by Senator Borah, Idaho, has voiced vigorous criticisms.

All business in congress has been sidetracked to permit immediate action on the proposed measure.

Public hearings have already been started in the senate finance committee, and the house ways and means committee has postponed consideration of the bonus bill to work on the security plan. This is being done at the President's behest. The plan provides:

Flexible, but compulsory unemployment insurance under a federal-state system restricted to workers and financed by a 3 per cent tax on pay rolls after January 1, 1938. The government will aid in bearing administration costs, and the treasury will handle the fund. Ninety per cent of the pay roll tax is to be refunded to employers who contributed to state unemployment plans. A maximum of \$15 a week of compensation to begin four weeks after the worker loses his job and to last for not more than sixteen weeks is contemplated.

The second part of the plan provides for old-age pensions. The government is to co-operate with the states and pay a maximum of \$30 a month to persons over sixty-five. The national government is also to aid states in formulating a plan for persons under sixty-five which will be financed jointly by employer and employee through a pay roll tax; the funds to be handled by the federal government; the amount of pensions to be a percentage of the employee's wage; with non-manual employees receiving more than \$250 a month to be exempt from the plan.

The third section of the scheme provides for appropriations to give better facilities to caring for mothers, and dependent and crippled children, and the fourth section would furnish larger appropriations for public health aid, investigation and research.

Cost of the entire program to the federal government will be \$100,000,000 next year and \$200,000,000 in succeeding years. The cost to the states will be \$75,000,000 next year and \$150,000,000 in succeeding years. Some idea of the size of the plan may be gained from the report of the President's cabinet which said reserves for old-age pensions must be maintained after some years at \$15,250,000,000.

**O**NE of the most spectacular prison breaks in history was effected when four convicts in the San Quentin (Calif.) state prison overpowered two guards, slugged the warden unconscious, kidnaped six hostages including four members of the state prison board, and fled in a state owned automobile. The felons were captured two hours later 54 miles from the prison after a running gun fight with prison guards and posses. One of the convicts was wounded, as were two of the hostages.

Trouble has been expected at San Quentin, where some 6,000 prisoners are housed in space designed for only 3,000. Unrest has been evident for some time, especially since it became necessary to put more than one man in each cell. Only 190 guards have been regularly employed.

**E**XTENSION of life of the Reconstruction Finance corporation for two years will be asked, informed congressmen assert. The RFC's authority to make loans expires on January 31. It is rumored that the extension will include a proviso permitting the President to put the organization out of business by proclaiming the emergency ended at the conclusion of one year.

The extension plan may also carry a section doubling the length of time for maturity of loans the RFC may make. The present limit is five years. It is also said that the RFC may be permitted to extend instead of renew existing loans providing value of security is unchanged.

**T**HE final fate of NRA seems to be up to the President. Reports from the capital say the National Industrial Recovery board, successor to Gen. Hugh Johnson, who asserts NRA is "as extinct as a dodo," has avoided a direct recommendation that the institution be made permanent. Since this was evidently done with the approval of the President, the future of the Blue Eagle seems to be somewhat clouded.

**D**onald Richberg is chairman, pointed out three possible courses which the President can follow. The first course would be to make NRA permanent, but in simplified form. Under this plan, every industry would have to go under a code fixing wage and hour limits and prohibiting child labor. Trade practice provisions would be entirely voluntary. In rare cases where price fixing is employed, the government, not the industry, would fix the price.

The second course would be to extend the NRA as it now stands, but for a limited period. Unless legislation of this kind is enacted, the act will expire automatically on June 16. The third course would amend and extend the NRA.

Most members of the board, it is said, prefer the "permanent" plan which would broaden the government's regulation of business. No industry would escape the wage and hour codes. Today many industries, among them the telephone, telegraph, and tobacco industries, are not under trade codes, since these have not been able to agree on terms. The present law permits the President to impose a code only when an industry refuses to submit voluntarily, such as in the case of the cotton garment industry.

Observers are not at all sure the President wants a permanent code. Several uncertainties have made it difficult for the President to decide, one of which is the status of section 7a, the collective bargaining clause.

**A** NUMBER of important issues await the League of Nations as it convenes at Geneva on its fifteenth birthday. Five major disputes will come before the body, of which the Saar plebiscite, involving as it does the disposition of the future national allegiance of that rich territory, holds most immediate interest.

Other decisions which await action of the league include: the dispute between Iraq and Persia over alleged border violations by the latter; the border conflict between Italy and Ethiopia; the Greek complaint that Greek minorities in Albania are being deprived of their guaranteed rights; and the long war in the Chaco Boreal between Bolivia and Paraguay.

**F**IRST legislation to be put through the house of representatives was completed as the \$779,916,000 independent offices appropriation bill was passed in virtually the same form as recommended by the appropriations committee. The amount for the securities and exchange commission was increased to \$2,000,000. Efforts of Representative Blanton of Texas to reduce the \$264,043 for the home loan bank board and of Representative Taber, New York, to cut down the appropriation for the federal communications commission were defeated.

Signs of gathering storms were seen, however, as Representative Rayburn, Democrat, Texas, chairman of the house interstate commerce committee, declared on the floor that he would not support a bill to place production of oil under government control. Emergency legislation to supplant control measures invalidated by the recent decision of the United States Supreme court will undoubtedly be proposed, and Rayburn's declaration is seen as an indication that opposition may develop.

**S**WEDEN, apparently, has found a way to beat the depression. King Gustave in his annual message to parliament, reported that solution of the problem of unemployment appears near, the budget is balanced without new taxes having been imposed or new loans floated, and the national debt will be reduced this year. Only 60,000,000 kronor (about \$15,000,000) has been asked for unemployment relief, as compared to 160,000,000 kronor last year.

**I**MPROVED conditions among corn belt farmers are indicated by a federal report which shows a gain of \$82,989,592, or more than 30 cents a bushel for each grower, has been realized by farmers in 10 states who availed themselves of the government 45-cent corn loans. Only slightly more than \$500,000 of the \$120,492,250 remains unpaid. About 18,000,000 bushels are under seal under the new 55-cent price, report states.

## Ransom Notes May Be Death Warrant

These ransom notes may prove the death warrant of Bruno Hauptmann, accused of the murder of Baby Charles Lindbergh. In the upper left-hand corner is one of the initial demands made on Colonel Lindbergh. In upper center is shown the first note to "Jafsie," while in the upper right is the note telling how the money was to be tied up. The lower left shows the note telling where to leave the money, and at the right is the false note declaring the baby still alive.

## EXPERTS ANALYZE KIDNAPER'S NOTES

### Compare Handwriting With That of Hauptmann.

By W. C. WEBBER

**F**LEMINGTON, N. J.—Such seemingly innocent trivialities as failure to dot an "i" cross a "t," the slant of a letter, a byphen, may prove a deciding factor in sending a man to the electric chair convicted of the crime of murdering little Charles Lindbergh, son of the famous aviator. Those tiny, individual characteristics, which handwriting experts assert are ineradicable in each person's writing, are being fought over point by point, curve by curve, as the state introduces what some observers claim is strong evidence that Bruno Richard Hauptmann, Bronx ex-carpenter, was author of the notes which resulted in payment of the \$50,000 ransom money by Dr. J. F. "Jafsie" Condon.

Huge photostatic enlargements of certain words and letters from the ransom letters and from Hauptmann's admitted writings have been hung in the courtroom for the information of the jury. The sheets, each 6 feet in height and 4 feet in width, have been tacked to the wall behind the witness chair where the kidnaper's ladder had rested earlier in the trial. The admitted writings and the disputed writings are shown in parallel columns marked "Hauptmann writing" and "ransom notes."

Albert S. Osborn, seventy-six years old and silvery-haired, testified in a clear, resonant voice that it was his opinion the ransom notes were all written by the writer of the various papers signed by Richard Hauptmann, and that all fourteen of the ransom notes were written by the same writer.

Osborn was positive in his statement that Hauptmann penned the notes. The expert proved a good witness, despite his deafness which forced attorneys to speak very loudly when addressing him. He identified himself as an expert in 39 states and in Canada and England, and is the author of two books on the subject of handwriting. In several verbal exchanges with defense attorneys he proved himself more than a match.

In explaining his comparison, Osborn gave an exposition on the general basis for comparison of handwritings. Characteristics in handwriting, he said, are the same as the characteristics of anything else. There are many things by which handwriting might be identified exactly as a man, or an automobile or a horse is identified, by general description, and then by individual marks and scars and by characteristics which in combination make it apparent that they are not the result of accident, he continued.

When pupils learn the same system of writing, if they learn to write perfectly, one writing cannot be distinguished from another, but that does not occur, Osborn pointed out. Writing, he said, begins as an acquired qualification, it is an acquired habit first imitating the forms, and then the forms become more easily made, until finally writing becomes succession of habitual motions. Certain identical habitual motions were to be seen in both the writing on the ransom notes and the accepted writing done by Hauptmann, Osborn declared.

The letter "x" was pointed out at the start. Mr. Osborn showed that it was a clear, open "x" looking more like "ee," and that it wasn't an "x" at all. The "t," he testified, showed decided German characteristics, as did the letters "h" and "a." Hauptmann had a peculiar habit of finishing words in an awkward way with strokes that are too long, Osborn said, and also used a byphen between the two words in "New York." In the ransom notes, he said, "ts" were crossed, and the same was true of a "very large number" of the samples Hauptmann wrote for the police. Only seven of the small "t's" in the ransom notes were dotted, and the same proportion held true in Hauptmann's admitted writing, Osborn continued, and several sheets did not have a dotted "t" at all.

Another instance of similarity which Osborn pointed out to the jury was a byphen used between the two words in "New York." A specimen taken from the writing that was on the sleeping suit wrapper was pointed out as having this characteristic. A photostatic copy of Hauptmann's writing on one of the automobile registrations was then shown by Osborn to have this same name hyphenated.

Other words pointed out by the expert as showing examples of broken English and German spellings in both sets of writings were: "auer" for "our," "aus" for "us," "Wy" for "wy," "ingore" for "ignore," "singature" for "signature" and "hte" for "the."

The expert testified that he had examined about a hundred samples of hand writing which had been brought to him by New Jersey police and federal agents. Among these, he said, were samples of writing by Isadore Fisch, German furrier, who, the state contends, was actually the abductor of the baby. Fisch died later in Germany.

Fisch continues to loom in the background as the defense's chief reliance. In suggesting that Fisch wrote the ransom notes, a spokesman for the prosecution declares that this line of defense will not avail, since it does not take the eye of an expert to see the utter dissimilarity between the neat, flourishing penmanship of Fisch and the scrawl of the ransom notes. It is understood from those who have samples of Fisch's handwriting in their possession that his hand was that of a man who took pride in his penmanship, forming his letters neatly and correctly and dotting all I's and crossing all T's.

The defense has maintained that Fisch is the actual receiver of the ransom money, that it was he who kidnaped the child, and Hauptmann was his wholly unconscious dupe. Hauptmann has declared that he was associated with Fisch in the fur trade, and that he loaned Fisch \$7,500 and that Fisch left with him a package which only a few weeks before his arrest, Hauptmann discovered to be the ransom money, the bulk of which was found in his garage. The state holds it can prove that ransom notes were circulated by him many months earlier than last summer, or even last spring.

Reilly attempted to show that too few handwriting exhibits had been brought into the courtroom, then opened up a line of questioning designed to force Osborn to admit that a Scandinavian could have written the ransom notes. The expert said there was an essential difference between German and Scandinavian script.

Some connection was seen between this line of questioning and that of Reilly when Betty Gow, the baby's nurse, was on the stand, with reference to "Red" Johnson, Norwegian sailor, whom she admitted having told of activities of the Lindbergh household on the day the kidnapping occurred.

Another handwriting expert whose testimony has been unshaken under questioning of Reilly is Elbridge W. Stein, who said he had testified in the recent Vanderbilt case in New York as well as the Wendel and Ridley cases. Stein said he had first studied the ransom notes and request writings of Hauptmann in July, 1932, and declared it was his opinion that the same man, Hauptmann, wrote both. He admitted there were differences, but insisted that there were similarities between the spelling in the two sets of writing. Charts and photographs of words taken from the ransom notes and the other writings done by Hauptmann were produced by Stein in support of his statements.

As the hearing progresses, Hauptmann appears to have lost much of the calmness which marked his first appearance in court. The stolidity of the ex-carpenter which was so remarkable when he was identified by both Colonel Lindbergh and Dr. J. F. Condon is no so apparent. Emotions show in his face, although even close watchers admit there has been no sign of fear or alarm to him. Occasionally he talks to his wife in a low voice.

The accused continues to follow each word of the trial with deep interest. He appeared especially interested in the handwriting testimony, craning his neck to see as the expert pointed out on the large chart the similarities between his own and the ransom writing. Colonel Lindbergh, who has been attending all the court sessions, was also absorbed as the experts gave their testimony.

Stratosphere Balloon Poised for the Take-Off.

**A** Preparations by National Geographic Society, Washington, D. C.—WNU Service. NOTHER flight by a huge balloon into the stratosphere will be made in the summer of 1935, jointly by the National Geographic society and the United States army air corps. Capt. Albert W. Stevens will be in command of the balloon which will be piloted by Capt. Orvil A. Anderson. Like the expedition of last summer, the flight of 1935 will take off from a natural basin in the Black Hills, eleven miles southwest of Rapid City, S. D.

Preparation for such a flight is a stupendous task. From the inception of the last flight, in the fall of 1933, with the guidance of the scientific committee appointed by President Grover of the National Geographic society, no possible instruments and equipment for collecting scientific data in the stratosphere. The instruments were to be of full laboratory size to insure the greatest attainable accuracy. This meant that some would be both bulky and heavy.

To house these many large instruments, it became necessary to design a gondola larger than any that had previously been sent aloft. Finally, it became apparent that to lift the gondola and its cargo of apparatus high into the stratosphere, a very large balloon would be required. Experts were consulted, skilled in such construction, and a contract was given to design and build a larger balloon than any previously constructed—a bag which, when fully inflated, would contain 3,000,000 cubic feet of gas.

It required five months to fashion this gigantic bag, and into it went two and a third acres of rubber-impregnated cloth made from long staple cotton. While it was being built, work was begun on the gondola, a globe of dome-metal, lighter than aluminum; and in a score of laboratories and workshops from New York to California specially designed instruments were being constructed.

Meanwhile a site for the base camp of the stratosphere flight had been chosen in western South Dakota. Three considerations determined this choice: the point was far enough west to permit the balloon to drift even 700 or 800 miles to the eastward and still come to earth in relatively level, un-forested country; the record of the region was promising for good summer flying weather; and the site was sheltered from surface winds.

**Making the "Stratocamp."** Early in June a camp was established in the deep, cliff-encircled natural "bowl" near Rapid City. It quickly became known as the "Stratocamp." Capt. Orvil A. Anderson was on the scene from the start. Under his capable direction the camp developed from an almost deserted basin into a bustling little village of more than a hundred inhabitants.

Within a few weeks it had its drainage system, and sawdust-paved streets, a waterworks, two electric lighting systems, a sewage disposal plant, parking spaces, traffic officers, a hospital and ambulance. There was even a fire department with a full-size hose wagon, two professional fire fighters, a dozen fire extinguishers, and a volunteer corps to operate them, providing a safeguard against accident in handling quantities of explosive gas. No smoking was permitted in the neighborhood of the hydrogen cylinders.

Three telephone lines and two radio stations kept the Stratocamp in communication with the outside world; and there were two telegraph wires leading to teletype machines which constantly rapped out weather information from points as far away as Alaska, Cuba and Iceland. The special weather station set up at the camp, through the co-operation of the United States weather bureau, the signal corps, and the air corps, ranked, in fullness of information furnished, with the half dozen most important weather stations in the United States.

Two weeks after the camp was started Captain Stevens went up by plane from Washington, taking some special instruments. A few days later Maj. William E. Kepner flew into Rapid City, and the flight personnel was complete. Freight car loads and truck loads of the equipment necessary for a stratosphere flight had been converging on the Stratocamp for weeks. Three railroad cars filled with heavy steel cylinders containing compressed hydrogen arrived in Rapid City. Thanks to the generous co-operation of the National Guardsmen of South Dakota and their fleet of trucks, these tons of steel were soon neatly piled along one edge of the camp.

The gondola rolled in by truck, after a journey of more than a thousand miles, from Midland, Mich., and was installed in the commodious gondola house, the entire front of which could be opened up.

A few days later another truck brought in a huge box containing the balloon bag, which weighed two and a half tons, carefully packed in a water-proof container. The box was placed on blocks in the exact center of the level floor of the "bowl," protected from sun and rain by a canvas tent fly, there to remain until the day of the inflation.

The largest truck of all to traverse the winding road down into the basin arrived the following week—the liquid oxygen generator truck of the army air corps. It supplied the essential liquid oxygen used to make breathable air inside the gondola during the flyers' stay in the stratosphere.

Several airplane loads of instruments were flown to Rapid City; and daily freight and express packages arrived, their contents varying from machine-shop tools to delicate vacuum tubes.

The last of the preparatory work was completed on July 9. From that time on the flight could have taken place any day, so far as the equipment was concerned. But it was essential that the flight be made during very special—and, unfortunately, rare—weather conditions, covering the area for seven or eight hundred miles east.

At last, on July 27, the long-awaited high-pressure area had drifted in from the west and promised for the next day the conditions wanted both at the Stratocamp and to the east. When, at noon, Major Kepner announced officially that the weather was satisfactory for the flight and that the inflation would begin that evening, the camp was galvanized into activity.

**Off for the Stratosphere.** Guests were barred from the floor of the "bowl"; only men with definite jobs to perform were permitted in the camp. The balloon box was opened and the huge, billowy mass of fabric was spread out on the circular sawdust-covered canvas-protected bed that had been prepared for it.

Bus load after bus load of soldiers arrived from Fort Meade. They were the men of the ground crew who were to hold the balloon in leash while the hydrogen poured into it.

At the gondola house, those concerned with the instruments were extremely busy. A definite schedule was worked out, minutes were allotted and, one after the other, specialists climbed into the black and white ball to install batteries and to give their instruments a final tuning up.

On all sides the preparations moved ahead like clockwork. At dusk the floodlights in the great ring that extended around the floor of the basin were turned on and a little later the hydrogen gas was started through the canvas tubes into the vast maw of the balloon.

By shortly after five o'clock there remained only a few last-minute tasks to be performed—the careful cladding of rope ends for valve and rip-cords; the lashing on of a small mail sack; the lashing of warm flying clothes and parachutes.

Captain Anderson and Captain Stevens climbed into the gondola; Major Kepner to its rope enclosed top, the better to direct the take-off.

The outer ropes were dropped; the gondola and ten small hand ropes attached to it held the gigantic bag of gas to the earth. Major Kepner directed the final ground activity of the flight before the ascent—the weighing off. Ropes were slackened to test the balloon's lift. Ballast was adjusted until the upward pull seemed just right.

Then came the order, "Cast off!"—the balloon was away for the stratosphere.

# Queer Transports Still in Use the World Over

## In Odd Contrast With Modern Speedy Traffic.

Washington. — Record-breaking streamline trains and giant airliners have recently been news sensations in America; Italy is still applauding an air-minded son who sped through the air more than 400 miles an hour a short time ago; and Great Britain is just quieting down after celebrating the victory of two of her flyers who won the London-to-Melbourne air race.

Modern transportation, this. But one can still find types of transportation facilities, even in the world's largest cities and their rural neighborhoods, that were in use decades and even centuries ago.

"Cabbies" Still Available. "There is not a sizable town in the United States in which one cannot hail a taxi, and in many of them charter a plane; yet the top-hatted cabbie, whose pompous figure held sway over traffic on boulevards in the gay nineties, has not been entirely shelved," says the National Geographic society. "These 'taximen' of another era have jealously watched as new traffic lights have been installed, traffic lanes have been painted to keep modern motorists from crushing bumpers and fenders, and streets have been widened and trees sacrificed to make room for more of their rivals; yet they still constitute something of a traffic problem."

"Within sight of concrete, 40-mile-an-hour highways, and less than a hundred miles from Washington, D. C., and Annapolis, Md., ox-drawn vehicles still lumber along; while in the isolated mountain regions of the West, sure-footed burros and pack mules continue to be the only companions of many rugged prospectors."

"Millions of visitors arrive at Atlantic City by automobile, airplane and train, yet to see the 'sights' along the boardwalk, they hire three-wheeled rolling chairs. Others arrive at Bermuda aboard palatial steamships but take to bicycles to tour the island."

"On the corners of modern, wide thoroughfares of Shanghai, Hong-Kong and Canton, China, the traveler hails a riksha and weaves perilously through a maze of motor and pedestrian traffic. In the alley-like back streets of the native towns, however, he may prefer a sedan chair to avoid jostling men and women and stumbling over children to whom these mere byways are playgrounds."

Even Wheelbarrows. "What traveler leaves Durban, Natal, without employing a Zulu rikshaman? The dark-hued tribesman in gay-feathered headdress and scant clothing, is one of the colorful features of the South African city. In remote Szechwan province, China, wheelbarrows,

which are the local transports, have worn ruts in flagstone pavements; in Sumatra, if one goes native, he must travel in a buffalo-drawn cart whose thatched top is shaped like a sway-backed horse, pointed at each end. In Palermo, Sicily, the purely Sicilian way to get about town is by native cart, a two-wheeled vehicle on whose side panels are gaily depicted Bible scenes and Sicilian panoramas; and in Ireland, the Irish jaunting car on which passengers sit back to back and face outward lends atmosphere to a tour of the Emerald Isle.

"Llamas still carry loads in the Andes, and elephants still are favored among the tiger hunters of India. In spite of progress in Belgium, the morning milk is still delivered by dogcart at many a doorstep, and dog sleds are

## Insect Invasion Is Menace to Snakes

San Diego, Calif.—A plague of mites is one of the chief causes for worry that has occupied the minds of officials of the San Diego zoo recently. These tiny, dreaded insects have directed their work of destruction to the reptile division chiefly and are said to be capable of killing rattlesnakes as well as garter snakes in a few days' time.

yet the most dependable transportation in the icy wastes of the Arctic and Antarctic. The tired explorer enjoys comfortable travel in a hammock-like 'chair' borne by native porters in central Africa; the mountaineers of northern India and western China employ the yak as their beast of burden; the camel still plods the caravan routes of north Africa, Arabia and central Asia; and the carabao (water buffalo) is the dependable draft animal of the East Indian islands."

## Shield of Henry II in New York

This embossed parade shield once carried by Henry II of France has been acquired by the Metropolitan Museum of Art, New York, and is now exhibited among the recent accessions to the collections.

## British Giant Liner to Seek Sea Record

### Expects to Make Crossing in Ninety-Six Hours.

London.—New York will be brought within 96 hours of the European continent when the giant British liner "Queen Mary," launched last September, takes her place in the Atlantic steamer service.

The schedule now being worked out for the liner will provide for a 96-hour passage between Cherbourg and New York, at an average speed of 32½ knots—four knots faster than the fastest crossing ever made. This would bring her near to dirigibles with respect to speed.

One hundred and eleven hours is the present record for the Cherbourg-New York passage, made a few weeks ago by the liner Bremen. The actual At-

lantic record is held by the Italian liner Rex, which in August, 1933, covered the 3,181 miles from Gibraltar to New York in 109 hours at an average of 28.92 knots.

To make up for delay due to fog or bad weather the "Queen Mary," if the 96-hour schedule is to be maintained, will sometimes have to travel at a considerably higher speed than 32½ knots.

It is asserted, however, that the reserve of power in the propelling machinery is great enough to drive the giant at 34 to 35 knots, without causing undue vibration or making her ship much water in rough weather.

The "Queen Mary" apparently must be content with being the world's speediest ship, rather than both that and the world's largest.

While British interests are maintaining that the "Queen Mary" will be the largest liner, the French have announced a set of figures to prove it will be their "Normandie."

## Say Novice Easily Can Handle Novel Airplane

Boston, Mass.—Here's another step in the search for a foolproof airplane. It's a novel craft being built in Boston university's department of aeronautics with the collaboration of Lieut. Arthur G. B. Metcalf.

The new plane will be able to land in little more than half the distance needed by an ordinary plane, according to Lieutenant Metcalf.

It will be flown as easily by a novice as a skilled pilot flies a conventional plane. It is expected that a single afternoon will be enough to teach a beginner to handle the new ship with perfect safety.

"This new plane will entirely eliminate the need for a highly developed sense of co-ordination and flying instinct," says the lieutenant. "This new development will not detract from the efficiency or speed of the plane."

## Beavers Slowly Ousting This Man From His Farm

Reading.—A colony of beavers has all but taken over the farm of Nathan I. Ruth, near here.

And while Ruth scans the records for some form of farm relief for his particular case, the beavers under protection of state game laws, are steadily moving in on the property in greater numbers and building their homes.

Some of the damage caused by the beavers were listed by Ruth. They included:

- Felling of trees.

Building of a dam and changing the course of a stream traversing the farm. Three acres under water and converted from once dry meadow to sodden marshland.

Destruction of an acre of corn, stored away by the animals for the winter season.

Ruth is faced with a perplexing problem. He cannot trap the animals, as they are protected by state law. That action was taken several years ago by the state game commission because the beaver was rapidly becoming extinct.

It is believed the beavers moved in on Ruth's farm because it contains a large supply of aspen, birch and poplar trees—the principal diet of the beaver.

## Even King Must Pay at Britain's Toll Bridges

London.—Even King George has to "fork out" like any of his subjects when he wants to cross some of the thirty-seven toll bridges which still exist on main highways of Great Britain. Plans for doing away with the tolls on these bridges, some of which have existed for centuries, have just been announced by Leslie Hore-Belisha, the minister of transport.

Most of the toll bridges were built under special acts of parliament, which granted the owners of the bridges the right to levy tolls. In recent years they have been regarded as an increasing nuisance by motorists in this country.

In addition to the thirty-seven toll bridges on main highways, there are some hundreds of bridges, grade crossings and gates on smaller roads throughout the country, where not only motorists but even pedestrians, horses and goats have to "stand and deliver" before they are allowed to pass. The aim of the ministry of transport is to buy up as many as possible of these toll bridges and gates from their present owners and free them.

There is still one toll gate surviving in London itself, in the southern suburb of Dulwich. Every time King George passes it he has to pay toll. So does the lord mayor of London.

## Museum Sword Identified as That of Joan of Arc

Dijon, France.—The ancient art of divining, known under its scientific term of radiesthesia, has identified an old sword in the Dijon museum as the blade of Joan of Arc.

A French woman diviner, using a prismatic pendulum over the preserved signature of Joan of Arc and then over the sword, obtained the same oscillations—proving, according to her, that Joan's wave length was present in both objects.

## Just the Thing for Little Lady

PATTERN 2065

It's no wonder this young lady looks puzzled—she probably doesn't know whether to stand the way she is and let us see the front of her snug wool bloomer dress, with its unusual closing and its inset of pleats for spirited striding, or to turn around so that we may admire that important "back interest" produced by the long smartly stitched pleat. Clever mothers will make up a plentiful supply of those trim little white collars and cuffs, for they know that nothing looks prettier on bright wool dresses. The bloomers, and long sleeves for those who prefer them, come with the pattern.

Pattern 2065 is available in sizes 2, 4, 6 and 8. Size 6 takes 2½ yards 36-inch fabric and ¾-yard contrasting. Illustrated step-by-step sewing instructions included.

SEND FIFTEEN CENTS (15c) in coins or stamps (coins preferred) for this pattern. Write plainly name, address and style number. BE SURE TO STATE SIZE.

Address orders to Sewing Circle Pattern Department, 243 West Seventeenth Street, New York City.

# Smiles

## THE CAD AT EVE

Husband—If a man steals, no matter what, he will live to regret it.  
Wife (coily)—You used to steal kisses from me before we were married.  
Husband—Well, you heard what I said.—Boston Evening Transcript.

## Not an Admirer

"Your husband loves horses, doesn't he?"  
"No," replied young Mrs. Torkins. "But he is always going to the races."

"Yes. But the way he talks about the horses after he gets home is something dreadful."—Washington Star.

## Not a Chance

"Marie was afraid her engagement ring wouldn't be noticed."  
"Noticed? Why, at least three of the girls recognized it at once."

## All Right With Bill

Esther—The poets say kisses are the language of love.  
Bill—Let's have a nice chat.

YEAR AFTER YEAR QUALITY.

1935 1934 '33 '32

## TALLEST CACTUS

This cactus, located on the desert nine miles from Phoenix, Ariz., is said to be the largest in the world. It is 40 feet tall, has 51 branches or "arms," weighs ten tons and is estimated to be some three hundred years old.

# The Tawas Herald

Established in 1884  
Published every Friday and entered  
at the Tawas City Postoffice as  
second class matter

P. N. THORNTON, Publisher

## Hemlock

The seventh and eighth graders of the Greenwood school went coasting on the Bamberger hill Friday afternoon.

Will Herriman was at Turner Friday afternoon on business.

Mrs. Olive Davison and daughter, Dorothy, Miss Muriel Smith and Levi Ulman spent Wednesday evening with Mrs. Andrew Smith, the occasion being her birthday.

Mrs. Will Herriman and son, Ronald, spent Friday afternoon with the former's mother, Mrs. Reuben Smith. Miss Hazel Burt called on her aunt, Mrs. W. Van Sickle, Saturday afternoon.

Mrs. Walter Miller and baby of Detroit visited her parents, Mr. and Mrs. Wesley Coats.

Waldo Curry is driving a new Ford V-8 car.

Mr. and Mrs. Lloyd Katterman are the proud parents of a baby girl.

Mr. and Mrs. Clarence Curry have a baby boy. Mrs. Waldo Curry and Mrs. Arthur Leitz called on Mr. and Mrs. Clarence Curry and family one day last week to meet their new grandson and nephew.

Mr. and Mrs. Nelson Miller and daughter, Mabel, Mrs. Amelia Bamberger and son, Charles, and Russell Binder were Sunday visitors at the home of Mr. and Mrs. Lester Biggs.

Mrs. W. E. Smith is spending a few days in Tawas with her brother, Will Brown, and family.

Mrs. J. L. Fraser and daughter, Lois, were callers at the Herriman home on Monday evening.

**Italy's World War Rake-Off**  
The territory acquired by Italy under the peace treaty of the World war was 9,084 square miles; and the total area now is 110,744 square miles and total population as shown by the last census was 44,000,000.

**Early Art in Rome**  
Roman emperors at times staged exhibitions of their rare art possessions in the Forum or the Colosseum.

## Alabaster

The Alabaster high school girls' basketball team chalked up another victory by easily defeating the East Tawas girls at the Community Building, East Tawas, last Friday evening by a score of 19 to 9. Good team work was evident in all three divisions. Tuesday night the boys' and girls' teams played at Whittemore. Friday night the girls' team again plays at East Tawas.

Mrs. Claude Hardy and daughter, Audrey, are spending this week at the home of her mother, Mrs. Flossie Benson.

Jos. DeLosh, Harold Johnson and Wm. Roiter spent the week end at their homes.

Mr. and Mrs. Gerald McIntyre of Bay City are visiting here for the week.

Vernon Willette has gone to the Upper Peninsula, where he entered the C. C. C.

Mrs. Flossie Benson spent the week end in East Tawas.

## SHERMAN

Mr. and Mrs. Victor St. James and children of Whittemore visited relatives here Sunday.

Dr. Smith, veterinarian, of Omer was called here Sunday by John Giori, who has a sick cow.

Mrs. Geo. Smith was at Tawas City Monday.

Napoleon Morin of Whittemore was a caller here Monday.

Miss Alice Hart of Midland is visiting at her home here for a couple weeks.

Bernard Smith was a business caller at Tawas City Monday.

Dr. Hasty of Whittemore was called here on professional business Sunday evening.

Rev. B. B. Roguska of Omer was a business caller in town Monday.

A number from here attended the pedro party at Whittemore Tuesday evening.

The infant child born to Mr. and Mrs. Fred Cooper Sunday evening died the same night. Sympathy is extended to the bereaved parents.

Henry Jacques of Whittemore was a business caller in town Wednesday.

Born, at the home of Mr. and Mrs. Wm. Draeger Tuesday, a big girl.

A number from here attended the funeral of Everett Figley at Cedar Valley on Friday. Mr. Figley, formerly of this place, died of pneumonia at Flint last week.

# LOOKING BACKWARD

## 40 Years Ago-Jan. 26, 1895

Circuit court is in session at Ausable this week.

Deputy Game Warden N. Hennigar promises to make it interesting for game law violators.

The Barringer boys are having excellent luck in getting out their timber. Sleighing is very good.

Buggies and Wagons on easy payments. Call on E. D. Schermerhorn, Bagger building, Tawas City.

Dr. J. V. White is taking a post graduate course in New York City.

Dunn's Review reports a steady and decided improvement in all lines of business throughout the country.

Quiet horses that can be driven by women and children. Louis Amiot, livery, Tawas City.

The stove mill at East Tawas has been closed down this week waiting for logs.

Ticket Agent Richardson was in Bay City on business for the D. & M. this week.

Work has commenced in filling the Cleveland ice houses on Tawas bay.

The Harwood Lumber company is making extensive repairs to the mill.

Frederick Welsh, Oscoda, manufacturer of fine woolen goods for men's and women's clothing. Wools imported direct from Germany.

## 20 Years Ago-Jan. 22, 1915

Mr. and Mrs. O. S. Nichols are spending the winter at Richmond, Virginia.

The U. S. Gypsum company are making tests for rock at Alabaster. If results of the tests warrant, an expenditure of \$1,500,000 will be made in improvements during the coming year.

John Samuelson, the Watkins man, is again making his trips through the county.

A flying machine came down Wednesday near South Branch to make some repairs.

The following were elected officers of the Tawas City Christian Endeavor Society: Eva Bing, president; Bruce Campbell, vice-president; Belle McRae, secretary; Ruth King, treasurer; Elizabeth Ferguson, organist.

H. J. Jacques of Whittemore is attending the bean jobbers convention at Detroit this week.

Fred Pfahl has moved into his new house on the Meadow road.

Mr. and Mrs. C. A. Curry have been busy installing officers in the several Iosco county Granges.

## TOWN LINE

Edwin Bellinger went to Bay City last week, where he has employment.

Mrs. Elgin Ulman, daughter, Ruth, and Mrs. Nelson Ulman, Sr., of Tawas City spent Sunday with Mr. and Mrs. Charles Lang.

Mr. and Mrs. Russell Potts and children of Alabaster spent Sunday with Mr. and Mrs. John Ulman.

Mr. and Mrs. Harrison Frank of the Hemlock road and Mr. and Mrs. John Jordan and baby of Sherman spent Sunday with Mr. and Mrs. Joseph Ulman.

Clyde Proper left Sunday for Flint. Mrs. Elmer Messler visited Mrs. Paul Koepke on Sunday.

Mr. and Mrs. John Gabrielson were on the Townline Sunday.

Orville Proper and Andrew Bessey, Jr., left for Detroit to seek employment.

Friends of John Buckner are sorry to learn that he has been quite ill.

## Ebony

Ebony is the heartwood of several different tropical African and Asiatic trees. The best ebony is a deep black, although other varieties vary in color through several shades of brown. The term, ebony, is also applied to the wood of trees other than true ebonyes, including the green ebony of the West Indies and the bastard ebony of Brazil.

## The Nutria

The nutria is a South American animal. In size it is between the muskrat and beaver and somewhat resembles both animals. At one time the pelts of these animals were in great demand at good prices.

## Mortgage Sale

By reason of default in the payment and conditions of a mortgage made by Levina Arn to Edgar Loukes of Whittemore, Michigan, dated May 28th, 1931, and recorded June 22, 1931, in Register of Deeds office for Iosco County, Michigan, in Liber twenty-seven (27) of mortgages on page 142, which said mortgage was duly assigned on September 15th, 1934, to Wells W. Wiltz, of Flint, Michigan, said assignment being recorded on the fifteenth day of September, A. D. 1934, in Register of Deeds office, Iosco County, Michigan, in Liber two (2) of mortgages on page 391, upon which there is now due for principal, interest, and insurance, the sum of Two Hundred Fifty-nine and Ten One-hundredths Dollars (\$259.10), and no proceedings at law or equity having been taken to recover said sum or any part thereof;

Said mortgage will be foreclosed by a sale of the mortgaged premises described as Lot number five (5) of Block number two (2) of Sand Lake Resort, Grant Township, Iosco County, Michigan, on the second day of March, A. D. 1935, at ten o'clock in the forenoon, at the front door of the Court House in Tawas City, in said county, to satisfy the amount due at that time for principal, interest, attorney fee, and costs.

Wells W. Wiltz, Assignee of said Mortgage.  
John A. Stewart, Attorney for Assignee.  
Business Address:  
Tawas City, Michigan. 12-49

## Council Proceedings

Regular meeting of the Common Council held January 7, 1935. Present: Mayor Boomer, Aldermen Burtzloff, Frank, Leslie and Rollin. The minutes of the last regular meeting were read and approved.

The committee on claims and accounts presented the following:

August Luedtke, wrench grader ..... \$ 1.00  
Fred Neumann, team, 7 hrs. at 50c ..... 3.50

Moved and seconded that meeting adjourn. Carried.

W. C. Davidson, Clerk.

## Differences in Height

The little cartilages between the vertebrae of the spinal column in the human body diminish in size during the day because of the weight or pressure that is upon them. In some individuals the difference in height between day and night may be as much as one-quarter to one-half an inch.

## Notice of Mortgage Sale

Default having been made in the terms and conditions of payment of a certain mortgage dated July 19th, 1917, made and executed by Mabel M. Colvin of Burleigh Township, Iosco County, Michigan, to J. C. Weinberg & Co. of Prescott, Michigan, and recorded in the office of the Register of Deeds of Iosco County Michigan on the 23rd day of July, A. D. 1917, in liber 27 of mortgages on page 155, and assigned by assignment dated the 11th day of May, 1918, to the First National Bank of Bay City, said assignment being recorded in the office of the Register of Deeds of Iosco County, Michigan, on the 16th day of May, 1918, in liber 2 of assignments on page 234, and again assigned to the National Bank of Bay City, a Federal Banking Corporation, by assignment dated October 24th, 1932 and recorded in the office of the Register of Deeds of Iosco County, Michigan, on October 28th, 1932 in liber 25 of mortgages on page 174. There is now claimed to be due on said mortgage for principal and interest One Hundred Sixty-eight and 85/100 Dollars. And no suit or proceedings having been had to recover the amount claimed due or any part thereof, said mortgage will be foreclosed by a sale of the mortgaged premises, at public vendue, to the highest bidder, at the front door of the Court House in the City of Tawas City, Michigan, (that being the place where the Circuit Court for the County of Iosco is held) on Saturday, the 26th day of January, A. D. 1935, at eleven o'clock in the forenoon, eastern standard time. The premises are described in said mortgage as the east half of the east half of the northwest quarter of section twenty-two, township twenty-one north, range five east, Burleigh Township, Iosco County, Michigan.

Dated October 27th, 1934.

The National Bank of Bay City, Assignee.

By John Hoffman, Vice-President and Cashier.

B. J. Henderson, Attorney for Assignee, 308-310 Shearer Building, Bay City, Michigan. 13-44

**Meaning of "Junket"**  
The word junket as often applied to congress was originally applied to a banquet, or a picnic or excursion with feasting but it has come to mean a trip at public expense by government officials to some distant post, territory or public works for the purpose, they claim, of investigating conduct or for inspection. Congressmen, especially, have been noted in the past for their junkets to distant regions flying the American flag.—*Outlander Magazine*

SUCH IS LIFE—Such Grammar

By Charles Sughroe

Poultry

POULTRY OUTLOOK AND GOOD RATIOMS

Increase in Price of Eggs Adds to Interest.

By H. H. Alp, Poultry Extension Specialist, University of Illinois.—WNU Service.

With the seasonal increase in egg prices and the encouraging outlook for the egg market, renewed interest is being taken in laying rations by poultrymen whose flocks normally produce some 2,000,000,000 eggs annually.

There are, of course, several good laying rations, but one that has given good result at the University of Illinois College of Agriculture consists of both mash and grain mixtures. The mash is usually made up in 500-pound lots by mixing together 155 pounds of ground yellow corn, 100 pounds of wheat middlings, 55 pounds of meat scrap, 100 pounds wheat bran, 20 pounds of dried milk, 25 pounds of soybean oil meal, 40 pounds of alfalfa leaf meal and 5 pounds of salt. For winter feeding, one pint of cod liver oil is added to each 100 pounds of mash. This is kept before the birds in feed hoppers at all times.

The grain mixture, when made up in 100 pound batches, consists of 40 pounds of corn, 30 pounds of wheat and 30 pounds of oats. This is hand fed, the chickens being given 12 to 14 pounds for each 100 birds twice daily. Oyster shell, grit and any succulent green feed that may be available are given the birds free choice.

When feed prices are going up along with egg prices, there is a temptation for poultrymen to cheapen their feeding mixtures at the expense of some necessary worthwhile ingredient. This is usually a false saving, for a low-priced ration is not necessarily the most economical. It is doubtful if it would be good judgment on the part of anyone to sacrifice a proved ration simply because it has advanced in price, unless a satisfactory substitute can be found costing less money.

"BOHEMIANS" TO HER  
A New York woman who numbers both the great and near-great among her acquaintances gave a function one day which was attended by Mrs. William Astor, then the dowager of the Astor family. A few days later Mrs. Astor met her hostess and remarked casually:  
"I am having a Bohemian party, also."  
"And whom have you invited to give it the bohemian atmosphere?" she was asked, to which she replied with emphasis:  
"J. P. Morgan and Edith Wharton."  
—Boston Globe.

Quaint "Cure"  
Holding fish and frog heads in the mouths of children suffering from whooping cough is an old "cure" said to be still practiced among the Irish peasantry.

Bring Dead to Life With Late Devices

One Stimulates Heart, Another Restores Breathing.

New York.—Nearly 500 persons apparently dead have been brought back to life in New York and Chicago by two of the scientific instruments recently developed by physicians.

Many of these 500 were quite literally "dead" by ordinary tests—a few of them new-born babies whose bodies had been laid aside with the last hope given up.

The 500 were restored not only to life but to health. They are the answer of organized medicine to spectacular ideas of reviving dogs, suicides and executed criminals. They are the practical application of the same knowledge which is being used for the more sensational experiments.

The immediate objective is an annual company of American "dead" about equaling the number of automobile fatalities. It is believed that as many as 50,000 in this group could be saved yearly if the new devices reached them soon enough.

Gold Needle Saves.  
There is no progress yet toward restoring to life the person who has died of a wasting disease—nor any wish by physicians to attempt it.

About 200 of those brought back to life here and in Chicago were treated with the artificial pacemaker, a gold needle which stimulates heart beats with electrical impulses at the rate of 30 to 120 a minute.

This needle was brought out two years ago by the Witkin foundation of Beth David hospital, New York city. It grew out of the fact that up to 1930 about 60 persons, apparently

dead, had been brought back to life by hypodermic injections directly into their hearts.

Adrenalin was frequently used, but even a "shot" of caffeine similarly given restored some of the "dead." This all called attention to a mighty effort which nature herself makes in every heart, in the first 90 seconds after it stops, to get it to resume beating.

The heart quickly loses alkalinity, and its acidity rises. With rising acidity the heart becomes a better conductor of electricity, its own natural control is partly electrical, with exceedingly faint chemical-electric currents.

Gives Electric Shock.

The prick of a needle, without any hypodermic at all, is an electric shock to a heart in this condition. Realization brought the protection of the "artificial pacemaker" to supply electric impulses.

It was found, also that the heart has an electrical pacemaker of its own, a small group of cells in the right auricle, which seem to regulate the beat of the entire heart muscle. The gold electrical needle is used to substitute for these pacemaking cells.

Use of the needle tip there, instead of haphazardly about the heart appears to be frequently the direct source of recovery of life and permanent health.

The other new device for restoring the "dead" is an insufflator, sponsored by the society for the prevention of asphyxial death. It is a pressure apparatus for mechanical breathing, which goes a step farther than the "mechanical lungs," the equipment of emergency squads and artificial respiration.

Insufflation forces oxygen and carbon dioxide into the lungs. Moreover it mixes them when necessary in proportions to stimulate as well as give the ordinary effects of air.

First Manual Labor School

In 1845 free negroes of the Northwest purchased a 160-acre farm on Darby creek in Franklin county, Ohio, where they established the Manual Labor school, the first school of the kind organized on the American continent for the education of the colored race.

Capital Squirrels in Need of Dentist

Washington.—White House squirrels need a dentist. They are suffering with pyorrhea, gingivitis and plain toothache, park commission experts said recently.

A frisky young squirrel of the Coolidge administration died recently and examination of its teeth disclosed the shocking truth.

The White House squirrels are the most pampered in the world. They are overfed on soft foods and never gnaw any nut harder than a peanut.

Keeping Young

By LEONARD A. BARRETT

How old are you? Birthdays come and go. We either celebrate or forget them depending on our mood. Age is not a matter of years. It is an attitude of mind. At forty, with ideals crushed and all hope lost, we certainly could not help feeling old. If there is no "forward glance" then age has already settled upon us. But why should a person permit such attitude to dominate his mind? At three score years and ten we could be seventy years young as well as seventy years old.

Perhaps a few suggestions for keeping young may not be amiss, especially as the work of 1935 lies before us. One of the most important mistakes to avoid is the tendency to worry. Worry is like sand in a piece of machinery. It creates friction, retards progress, and may ultimately wreck the machine. If you must worry, then set aside a certain hour in each day for that purpose. Do it all at once, and then forget it. Next in importance

is to get a good night's sleep. Sleep is the time when the body repairs itself. If you do not sleep well, you will not be able to do your best. Get into the habit of going to bed at a regular hour and getting up at the same time. Avoid stimulants and depressants. Eat a balanced diet. Exercise regularly. Keep your mind active. These are some of the things that will help you to keep young.

Best in Canada

Harold Webster, forty-year-old marathon runner of Hamilton, Ont., was selected as Canada's outstanding athlete for 1934 by a nation-wide poll of sports writers. Of a possible thirty-nine votes Webster received fourteen.

The Household

By Lydia Le Baron Walker

This Tester Bedstead Is Fitted With Casters Which Are Correct for All Types of Bedsteads.

MOST pieces of furniture should be provided with casters or gliders so that they can be moved easily. This being the case, it is well to consider the comparative virtues of each kind of fitting. There is a tendency toward using gliders in preference to casters although certain articles are exempt from this rule. Bedsteads should have casters, so also should davenport, day beds, and heavy furniture such as sideboards, dining tables, etc. Lighter pieces such as chairs, smaller tables, piano benches etc., are well suited to the glider fittings.

Casters raise furniture perceptibly while gliders do not. Neither are the latter visible, while casters are unless they are those which do not swivel, and these are not satisfactory usually. The reason for this is that the piece of furniture is easily movable in one direction only. Also the casters have an inclination to scrape in moving the other direction. When buying furniture fitted with casters be sure that they are swivel casters and then you will have no difficulty in moving it in any direction.

Height of Furniture

The matter of casters raising furniture should be remembered since this is taken into consideration in the making of some pieces and so they are at the correct height only when on casters. Sometimes chairs so constructed have had the casters removed and gliders put on in order for them to match the fittings of other pieces in the room. The actual comfort of the chairs is not altered, but the person sitting down in such a chair may be slightly surprised to find it lower than expected, and many a person finds these lowered chairs not so easy to get out of. It is not hard to pick out chairs which have had casters changed to gliders. To the initiate they appear shorn of a needed fitting. However it is true that the invisible element of gliders is desirable in chairs.

Metal casters are preferable to wooden ones which in time and with wear will lose their fully circular

shape which the metal ones seldom do. Gliders are merely disks of polished metal. They must be absolutely smooth at rims as well as on surfaces. © Bell Syndicate.—WNU Service.

Romantic Ensemble

This romantic ensemble is made with a long and flowing cape. The ostrich feathers that trim it at the neck add to its charm. Shirrings at the waist of the gown give it a slender look. It is of dark green chiffon.

Versatile Canine Plays

Piano, Drums, Mandolin  
Seattle.—Micky, four-year-old fox terrier owned by Mrs. D. C. Read, is said to be America's most versatile canine musician. The dog plays the piano, drums, mandolin, zither and a one-string Chinese instrument. He started his music lessons when six months old, on a toy piano.

Mickey handles the drums with small sticks clipped to his paws. Picks for the stringed instruments also are slipped on. His selections are not always classical, but are effective.

"Englishman's Home Is His Castle"

The Englishman who owns Oyster Cottage may well assert that his home is his castle. It is a self-contained residence fitted with all modern conveniences, on an island a mile out in the channel near the municipal airport of Portland.

To live in beds not years, in thoughts not breaths, in feelings and not in figures on a dial. We should count time by heart throbs. He most lives who thinks most, feels the noblest, acts the best. © Western Newspaper Union.

South African Carries Whales in His Suitcase

Capetown.—"Anything to declare?" asked the customs officer. "Two whales," said the man with the suitcase. "Don't be funny," snapped the officer. "Just open that bag." The man opened the case—and produced the whales. They were contained in bottles—whale embryos taken from a harpooned whale.

## SYNOPSIS

Ben Elliott—from "Yonder"—arrives at the little lumbering town of Tincup accompanied by Don Stuart, old, very sick man, whom he has befriended.

## CHAPTER I—Continued

Thought of the rules swept the crowd, because Duval was edging to the right. He moved slowly, awkwardly, at the cost of great effort, on toward the center of the log. Was he trying one more trick? Not likely. A man under such a strain does not attempt strategy . . . not fair strategy. As he progressed an inch at a time Elliott countered by also creeping toward the center so his end might not dip beneath the surface.

Both men had their arms extended and Elliott's grin had faded to a sort of curious smile, a speculative alertness. . . Close and closer they came together and then, as their extended hands were all but touching, Duval suddenly flicked his right wrist in a pass at Elliott's left hand.

"Ah, th' dirty—" But Bird-Eye's high scream was cut short by an ominous roar. The Bull, facing defeat, had overstepped all rules. The slightest touch on the other's body would upset his balance, now, and after Elliott had proven himself above taking what was even recognized as a fair advantage, the last vestige of loyalty to town or whatever it was which had put men on Duval's side was whisked away.

On Duval's face was ruthlessness along with the flush of fatigue and humiliation. He would be the last man on that log, though disqualified for any prize. At any cost he would stay on that log.

But would he? Elliott, a steely quality coming into his grin, retreated until he was out of the other's reach. The log sank beneath him but he did not slow his cadence despite the fact that he ran in water. He loosed the last reservoir of his energy and by the way his feet flickered and clawed and spurned that log one might well have believed that until now he had only played with this crowned king of the river that flowed past Tincup.

Watchers felt their middles aching as they followed those straining contestants. Again the Bull sought to strike Elliott's extended hand and missed by inches. His left hand raised jerkily, up and up. His body tilted. His great torso was twisting, wrenching at the hips, and, seeing this, Elliott leaped high, came down running, sent water sloshing back and forth the length of the stick until with a throaty cry of rage and humiliation, of hatred and jealousy, the great Bull, missing a stride, went sideways and backward, disappeared beneath the surface of the pond with a mighty splash and came up blowing and shaking his black-tatched head.

Hats went into the air, then, along with yips and yells and enthusiastic oaths as Ben Elliott, panting heavily, brought the log to a stop and, hands on his knees, stood blowing and grinning and watched the man whose title he had taken swim for the boom sticks.

The Bull slunk quickly toward the boiler room of the mill, water streaming from his pants and sleeves. The pond man threw out his pike pole and brought the cedar log to shore and there Birney, the announcer and master of ceremonies, greeted Elliott with a clap on the back and, with the other hand, thrust a roll of currency at him.

"Here's your money and you sure deserve it!" he cried, close in Ben's ear to make himself heard. "You'd got it on a foul, anyhow. Better this way!"

Bird-Eye grasped his hand and shook it with congratulations as profane as they were shrill. Others surged around the victor and Elliott accepted this homage modestly.

"Luck!" he said to one enthusiastic well-wisher. "I got the breaks in luck."

"Luck be damned!" shrilled Bird-Eye. "I'll lick any man you be own old or me own heavy who says 'twas luck! You got stuff, me b'y; you got guts!"

"Thanks, chum!" Elliott laughed. "I hope you don't find me out!"

He shouldered his way slowly to his pack-sack and, surrounded by his admirers, with Bird-Eye in the fore, changed to his shoes again. He had the usual run of questions to answer that is the lot of any winner in a spectacular contest and he did it with that amiable grin, with his marked modesty and yet with a likeable frankness.

He looked about for Don Stuart, craning his neck to see over the crowd which was now moving up toward Tincup's main thoroughfare.

"Who ye mean?" Bird-Eye asked. "Owd Donny?"

"Yeah, Stuart. The old duffer's broke, on top of being sick, and I want to look out for him."

A man at his elbow said cautiously: "I'm afeerd old Don won't do much visitin' in Tincup." Bird-Eye turned to him inquiringly and the man nodded. "Brandon. He found him here while th' brin' was goin' on. He's likely made other arrangements."

Bird-Eye's face reflected concern;

the other man's a cynical acceptance of some unpleasant fact.

"Th' dirty stinker!" Bird-Eye said beneath his breath. "So he's drivin' him out already, is he? Well, th' low down—"

"Who's driving who out?" Elliott asked.

"Misther Brandon. Americky mought be a free country but Tincup ain't in it, th' in. Owd Donny ain't welcome here 'nd 't's likely he's got his orders to move on."

Elliott hitched his pack-sack higher.

"What's this? Orders? What's wrong with him? Seemed like a harmless old gaffer to me. Bent on coming to Tincup, too; wanted it like a little kid wants candy. Got my goat. . . Who's going to run him off?"

Bird-Eye had hopped nimbly to a log from which point he could see across bobbing heads.

"Ah-ha!" he exclaimed. "Sure, it's Misther Brandon hisself who's a-runnin' owd Donny off!"

Elliott craned his neck and could see, half-way to the depot, two men on the sidewalk. One was his companion in travel earlier that day; the other a man he had not seen before. The latter had Don Stuart by one arm but that contact was not the friendly assistance which Ben had offered the old fellow. As Elliott looked, the feeble old man tried to draw away but the other was insistent, scarcely hesitated in his progress toward the station.

"Train west's due now," Bird-Eye said. "Sure, 'nd pore owd Donny, he'll be a passenger. It's a cryin' shame, kapin' him away from Tincup so!"

Elliott started forward, Bird-Eye at his heels, crossing the street, leaping to the high board sidewalk and swinging on.

He overtook the two he followed just in time to hear Stuart gasp: "—ain't long to . . . live, Nick. I'd like . . . stay here. . . Ain't pleasant to . . . be sick and not . . . among friends."

"Never mind," the other said as one might to a protesting child. "I've told you any number of times to stay away."

On this reply Elliott moved abreast of the man.

"Hello, old timer!" he said, addressing Stuart. "Going some place?"

He did not look at the man said to be Nicholas Brandon. His manner on the question was almost casual.

"Oh . . . hello," Don panted. "I . . . Mister Brandon, here . . . won't let me . . . stay."

Then Elliott looked at Brandon. A man of undetermined age; not old, neither young. Powerfully built, with a peculiarly white face and eyes as black as night. Those eyes bored into Elliott's now, keenly, intelligently, with the look of a man who is accustomed to gauging others without delay or hesitation; they were the eyes of a man who knows men, the glance of one accustomed to rule men.

"Oh, this man doesn't want you to stay!" Ben said softly. And then with a smile, to Brandon: "I sort of took the old timer under my wing today. He wants to stay here quite badly. I'll look after him."

"There's no place for him here," Brandon said positively. "Come, Stuart, it's almost train time."

He twitched at the old man's arm but Ben broke in, brow wrinkled as if he wanted to handle a perplexing matter fairly.

"Well, now, say! No place? Suppose a place was made for him a few days? I'd sort of planned on that. There's a hotel here, and I'd be willing to—"

"I don't know you," Brandon interrupted and irritability crept into his voice. "I've never even seen you. I've known this man for years. He's an old employe of mine. This is my affair. I never have others, especially strangers, meddling."

A low whimper came from Stuart and Ben rubbed his chin with one knuckle.

"Yeah, I am buttin' in, I guess. But . . . You see, the old timer told me a little about himself. He's been lonesome a long time, I take it. He's not what you'd call in robust health. I figure that if I was in his shape I'd like to be with a few . . . old friends myself and it—"

In the distance a train whistled and on the sound Brandon's eyes snapped.

"I've not time to argue my affairs," he said sharply. "Come, Stuart."

"But, Nick! See . . . here, Nick. . . I'll never get back . . . again. It's lonesome, bein' sick . . . alone, where you can't . . . nick! You're . . . hurting my wrist!"

He winced from the grasp and on that the last shadow of the smile went out of Ben Elliott's face, the slightly apologetic look at interfering in a matter which was not strictly his affair passed from his eyes. He put himself squarely, before Brandon.

"Let him go," he said quietly, but his look drove hard into those black eyes. The man hesitated and flushed.

"If you aren't looking for trouble," he said, voice edged with wrath, "you'll keep out of this!"

"Fair enough. But unless you've got a better reason than I know about, let the old timer alone! Let go his wrist!"

he added sharply, as Stuart winced again.

"I'll thank you to keep out of—"

"Let—go—his—wrist, you d—d bully!"

He had grasped Brandon's forearm with both hands, letting his pack slip to the sidewalk. The clutch on Don Stuart's arm loosened. With a snarl Brandon drew back and swung for Ben's jaw. Elliott ducked, swayed forward and bending his supple body caught Brandon about the middle, drove his head into the man's chest, raised a knee to his groin, lifted him from his feet, swung, shoved and flung him free.

With a sharp oath Brandon went down in the half-thawed mire of the street, sprawling ignominiously on his back.

Well, now! This was something else again. Men had been coming, edging cautiously near during the brief argument between Elliott and Nicholas Brandon. But when Brandon, the man who ruled Tincup and its county, was seen lifted from his feet and tossed ignominiously into the mud, trampled by his horses, stirred by the wheels of his wagons and tractors, the street which led through his town, to his mill. . . Well, then they came a-running!

Bird-Eye cackled an impudent laugh and turned to watch the faces of the vanguard who came to see their liege lord, sprawled in the mud there, scrambling.

CHAPTER II

Able Armitage, justice of the peace in Tincup, looked over his spectacles into the face of the prisoner before him and a twinkle appeared in his keen blue eyes. He asked:

"Now, young man, you're charged with assault and battery on the person of Nicholas Brandon. Are you guilty?"

From the rear windows of his cluttered little office, Able had watched young Ben Elliott emerge from the status of a complete stranger to the populace to that of its latest hero by sending Mr. Bull Duval to a damp and ignominious finish in the log birling. After that he picked up an old clarinet and commenced to play a halting, aimless and not completely musical tune.

He was so occupied either with the musical performance or with his thoughts that he did not hear the tramp of many feet on the walk outside and was unaware that he was about to be called on to function in an official capacity. When the door opened, though, and Ben Elliott, Hickens, the sheriff, and Nicholas Brandon, followed, it seemed, by the total male population of the county, surged through the doorway the clarinet's squawking leaped into a shrill squeal and died away. The judge's feet dropped to the floor and he swung his chair to face the entrance.

The sheriff stated his errand, the complaint was drawn, Nicholas Brandon affixed his signature and then for the first time Able looked closely into the face of the defendant.

It was a long and searching look and was met steadily by a pair of clear, steel-gray eyes which seemed, on careful inspection, to be struggling to hold back an expression that might, if permitted to develop, have proved to be a mischievous smile.

TO BE CONTINUED.

Origin of English Toy Spaniel Much Disputed

Retrouse nose, abundant coat and highly intelligent expression—those are the chief characteristics of the English Toy Spaniel, observes an authority in the Philadelphia Public Ledger.

There are four classes of English Toy Spaniels—King Charles, Blenheim, Ruby and Prince Charles. King Charles have a black and tan coat, Blenheim have a red and white coat, Ruby a solid red and Prince Charles a tricolor coat.

Under an American Kennel club ruling in 1902, English Toy Spaniels were classed together in a general group. Another standard for the breed was adopted by the Toy Spaniel Club of America in 1909.

The origin of the Toy Spaniel is so much disputed that Pug, Maltese, Pekingese, Jap and even the Bulldog have been credited with a share in its ancestry. A cross probably was used to obtain the present short-faced specimen.

Toy Spaniels date back to the Sixteenth century. They were in high favor before the restoration of the House of Stuart in England.

Since the days of King Charles, whose name they bear, they have been closely associated with royalty. They reached the zenith of their popularity during the reign of James II, who bred them extensively.

Sensitiveness to Sound

Tests of human sensitiveness to sound show that when a paper bag is exploded near a man's ear, the pressure on his brain increases fourfold, while the rhythmic working of his stomach muscles is slowed down by a third.

Such an encounter. But here he was, with a sheriff plucking at his sleeve! He laughed a bit sheepishly. "All right, Sheriff. If it's arresting you run to here in Tincup, likely I'm in it!"

He turned for his pack-sack and as he did so observed old Don Stuart sitting weakly on the step of the vacant store building before which the scene had been enacted. Perspiration beaded his waxen face and his quick breath came through open, colorless lips. He was obviously a sick man and trouble clouded Elliott's eyes.

"Minute, Sheriff," he said and crossed to Don, thrusting one hand into a pants pocket.

"Here, old timer," he said gently. The hand came out and into Stuart's palm he pressed a thin packet of bills and some change. "Get one of your old buddies . . . Here you!"—straightening and beckoning Bird-Eye, who approached with alacrity. "Get the old timer to a hotel. Better get a doctor, too. He's heeled enough to take care of himself a few days. After that . . . we'll see."

He turned then and fastened a severe gaze on Brandon.

"And you, chum, let him alone!" he warned. "Until a doctor says he can travel, you watch your step with him!"

But Brandon ignored this. He was buttoning his coat, pushing his way through the group, which fell aside respectfully.

"All right, Sheriff," said Ben to that worthy. "Let's go!"

With A Sharp Oath Brandon Went Down Into the Half-Thawed Mire of the Street.

## Habitual Users of Coca Dead to All Ambitions

Every one who has suddenly forgotten pain in anesthesia has been grateful ever after for this benign achievement of surgical science.

With splendid skill the evil effects that often accompanied the older anesthetics and early methods of administering them have been lessened or overcome. We usually think of the chemical conquest of suffering as a modern triumph, reminding ourselves of the terrors of surgery as lately as the Civil war. We count ourselves lucky to live in a time and society that knows harmless ways of dulling pain.

Yet no further away than Peru a kindly and effective anesthetic was in common use for centuries before civilization discovered its power—and remains in too common use, perhaps, to permit much progress to be made by those who turn to it daily from lives of unbearable hardship and hopelessness. In his book of adventure in Peru and Bolivia Dr. Henry Hurd Kusby, dean of the Columbia College of Pharmacy, has interesting and characteristically unorthodox things to say about coca, anodyne of the Andes. Admitting that chewing the fresher leaves produces a drug habit, he doubts that their effect is actually poisonous to the accustomed constitution, or harmful as continued use of their extracted essence is harmful. How can it be, when lifelong addicts and descendants of generations of ad-

dicts perform prodigious feats of strength and endurance which would appall coca-less men?

This must be granted. Steadily chewing coca leaves, Aymara and Quechua will stand all day long chest deep in icy mountain waters, digging up mud that covers a railroad. They will climb with heavy loads into the desolate and breathless "puna brava," unwearied. Chewing coca, they can sneer at poverty, hunger, thirst, exhaustion, pests of the selva, lack of sleep, of clothing, of shelter from bitter cold. Babies given coca never cry, and grow up to labor. This is wonderful to behold, and the conclusion is—that the coca bush and the poppy foster excellent peons and coolies; that the southern Indians will continue to endure their burdens and their wretched lot as long as handfuls of coca leaves are a stipulated part of wages.

This is the one disadvantage that science has not been able to remove from coca anesthesia, so employed. It makes life a dream instead of a fight. As long as llamas scale the sun heights of South America with sacks of coca leaves from the sunny valleys conditions there can be borne just as they are. For this illusory leaf, so betrayingly kind, takes the place of ambition.—New York Herald Tribune.

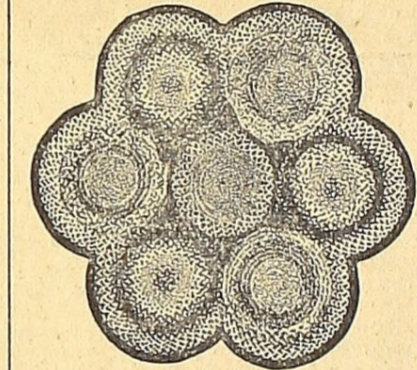

Paradoxical, but True  
When a bank's assets are liquid, that's when the bank's solid.

## RUG WELL NAMED "BED OF ROSES"

By GRANDMOTHER CLARK

The original rug shown measures 44 inches and requires four pounds of rags to complete. It is braided with three strands, but can be crocheted. A crocheted rug has better wearing properties. Many colors are used in the following combinations: Center circle in white, yellow, red, and black. Three of the outer circles in various rust shades. The other three circles in two shades of blue, and yellow. Outer edge is rose, yellow, black.

This rug shows that beautiful rugs can be made of rags. The regulation or common rag rug is either round or oval, with various color combinations, and when finished has no particular beauty. In making the above "Bed of Roses" rug,

make seven small round rugs about twelve inches in diameter, and set together as shown here, then work rows all around to size wanted. It's a different rug and only another idea of what can be made of rags.

The best material for making rag rugs is "Linkraft." When using this new material no cutting or matching of sizes is necessary. Linkraft is a round knitted material like jersey. It comes in links about five inches long, but stretches to about nine inches when linking together. These links are to be linked together in solid colors or mixed as desired. Linkraft is very durable, does not fray like rag strips and Linkraft rugs weigh about 20% less than rag rugs.

If you are interested in making rag rugs, send for Grandmother Clark's Book No. 25 on Crocheted and Braided Rugs. Twenty-six rugs are illustrated, with instructions. A wonderful selection to pick from when having a good-looking rug in mind.

Send 15c to Rug Department for Book No. 25.

Address, Home Craft Company, Dept. "C," Nineteenth & St. Louis Ave., St. Louis, Mo.

Enclose stamped addressed envelope when writing for any information.

THE REGULAR PRICE OF CALUMET BAKING POWDER IS NOW ONLY 25¢ A POUND

THERE'S A REAL BAKING POWDER BARGAIN!

## CONSTIPATION Can be Helped!

(Use what Doctors do)

Why do the bowels usually move regularly and thoroughly, long after a physician has given you treatment for constipation?

Because the doctor gives a liquid laxative that can always be taken in the right amount. You can gradually reduce the dose. Reduced dosage is the secret of real and safe relief from constipation.

Ask your doctor about this. Ask your druggist how popular liquid laxatives have become. The right liquid laxative gives the right kind of help, and the right amount of help. When the dose is repeated, instead of more each time, you take less. Until the bowels are moving regularly and thoroughly without any help at all.

The liquid laxative generally used is Dr. Caldwell's Syrup Pepsin. It contains senna and cascara, and these are natural laxatives that form no habit—even in children. Your druggist has it; ask for—

## Mother Gray's Powders

For Children They break up colds, regulate the bowels, relieve feverishness, headache and stomach disorders. A Mother Gray Walking Doll Free. Write Mother Gray Co., LeRoy, N. Y.

## THESE PICTURES SHOW Modern Three-Minute Way to Ease Sore Throat

1. Crush and stir 3 BAYER Aspirin Tablets in a third glass of water.

2. Gargle Thoroughly—throw your head way back, allowing a little to trickle down your throat. Do this twice. Do not rinse mouth.

3. If you have a cold, take 2 BAYER Aspirin Tablets. Drink full glass of water. Repeat if necessary, following directions in package.

Ease Pain, Rawness, Soreness Almost Instantly

Here's a safe, modern and effective way to relieve sore throat. A way that eases the pain, rawness and irritation in as little as two or three minutes. Many doctors advise it and millions are following this way. Try it.

All you do is crush and stir 3 BAYER Aspirin Tablets in 1/2 glass of water and gargle with it twice—as pictured here. (If you have signs of a cold, take BAYER Aspirin and drink plenty of water.)

Get real BAYER Aspirin Tablets for this purpose. They disintegrate quickly and completely, making a gargle without irritating particles.

BAYER Aspirin prices have been decisively reduced, so there's no point now in accepting other than the real Bayer article you want.

NOW 15¢ PRICES on Genuine Bayer Aspirin Radically Reduced on All Sizes

## METROPOLITAN GRAND OPERA

## CUTICURA A Pure Medicinal Soap

for every member of the family  
Protect your skin, as well as the tender skins of your children, by regular every-day use of a soap that does more than cleanse. Containing the soothing, healing Cuticura properties, Cuticura Soap safeguards the skin, protecting it from redness, roughness and disfiguring irritations. Best for you and baby too.

Price 25c. Proprietors: Potter Drug & Chemical Corporation, Malden, Mass.

**The Indian Head Penny**  
No one person posed for the design on the Indian head penny. The Treasury department always states that the designs are idealized conceptions of the artists. Very often several models are used.

**Named for white swans**  
Swansboro, N. C., was named for beautiful white swans found by an English sea captain, Daniel Bates, who explored that section and settled in 1713.

**Always Many Sick**  
It is estimated that there are always 3,000,000 persons in the United States on the "sick list."

**Bamboo Grass**  
Some bamboo grass is a foot in diameter at the base, and a hundred feet tall.

**House Built in 1635 Still Used**  
A house built in 1635 by Thomas Bird is still occupied by his descendants.

## School Notes

### High School

School resumed Monday after a short vacation due to the prevailing sickness. The semester examinations began Thursday, as a result, rather than Tuesday.

Dr. Paul Voelker, superintendent of public instruction, has designated February as Michigan School Month. It is expected that special exercises and publications will direct attention to Michigan education and Michigan schools throughout the month.

A bill to increase state aid to schools has been introduced into the senate of the Michigan legislature by Senator Wm. Palmer of Flint. This bill, if passed, would allocate the sum of \$25,000,000 to schools from next and succeeding fiscal years' sales tax receipts. Another bill by the same senator would give \$4,000,000 more state aid to the schools this year. Surveys and studies made independently by four state-wide groups place \$25,000,000 as the minimum amount needed, in addition to the Primary School Interest Fund, to maintain an essential educational program in the state.

The orations for the Advanced English class are now being learned.

**Seventh and Eighth Grades**  
Leland Malcolm quit school last week, being a little over the compulsory school age.

Many of the pupils who have been absent from our room on account of illness have returned. Everyone is studying for the examinations which begin in this room Thursday morning and will continue until next Tuesday afternoon.

William Murray is the only pupil in our room who has had perfect spelling papers for the last six weeks.

**Third and Fourth Grades**  
We have just finished the study of the Eskimos in fourth grade geography.

A number of us have been absent due to illness. At present eight are absent.

We have received a Palmer Alphabet and a position chart which came in very handy in penmanship class. We had tests in arithmetic, spelling and language Tuesday. Some very good marks were received.

**Primary Room**  
A great many first graders are absent this week. Only two second graders are absent.

The second grade is working on an Eskimo scene for the sand table. We have made an igloo and some icebergs.

The first graders are busy furnishing a doll house which was made by Mr. Fahselt. This is in correlation with their reading.

### St. Joseph School Notes

A musical tea was given at the St. Joseph school on Saturday afternoon, January 12th, for the junior members of the music department. Refreshments were served, and an interesting program including the following numbers was enjoyed:

Piano Solos—The Little Patriot, Clara Jean Benson; Fairland Music, Patricia Ann Papas; Chariot Race, William Murray; Toy Boat and Pedal Sostenuto, Virginia Look; Pearly Dew Drop, Phyllis Mae Klenow.

Saxophone Solo—Simplicity, Herbert Cox.

Tap dance numbers were given by Joyce Berzhinski, Patricia Ann Papas and Phyllis Mae Klenow.

The following pupils are on the entertainment committee for the musical tea of February 2nd: Sally Papas, Mary Blanche Herrick, Marjorie Soderquist, Joseph Slabic, Ernest Brown, Celestine Zimmeth, James Martin, James Lixey, Betty Seifert, Jerry Andrews, Elmer Ogden and Mary Margaret Bird.

### Notice

Notice is hereby given that an agreement has been made and entered into between the city of Detroit, represented by John C. Dancy, President of the Detroit House of Correction, duly authorized agent for and in behalf of said city, of the first part, and the county of Iosco, Michigan, represented by Elmer J. Britt, Chairman of Board of Supervisors, and Frank E. Dease, County Clerk, duly authorized agents for and in behalf of said county, of the second part.

The purpose of said agreement is that the county of Iosco shall have the right to send prisoners, sentenced for 60 days or more for offenses punishable by imprisonment in the county jail, to the said Detroit House of Correction and said county shall pay said first party the rate agreed upon in said agreement. The said agreement shall run for one year from and after October 30, 1934.

FRANK E. DEASE,  
County Clerk of Iosco County.

The Ages of Geniuses

Studying the ages of geniuses, a Frenchman reports that no biologist has ever revealed himself a genius very young.

### STOMACH GAS RUINS HEALTH AND BEAUTY

Stomach gas that causes loss of sleep and rest ruins your health and your beauty! Even people who have suffered for years from stomach troubles caused by acid stomach are getting relief from Bisma-Rex, a new, delicious-tasting antacid powder. Bisma-Rex brings lasting relief, too! Get it today at Leaf's Drug Store, East Tawas.

This coupon entitles me to a sample of Bisma-Rex, the wonder relief for indigestion, absolutely without cost.

Name .....

Address .....

**Bonus in "Contract"**  
In progressive contract, a game is made when one side bids and makes a trick score of 100 points or more in one hand. In addition to the trick score the premium for game is 800 points if not vulnerable and 500 points if vulnerable. The side having the higher score after four deals gets a bonus of 250. If both sides have exactly the same score, each of the four players receives a bonus of 25 points.

**Beavers Are Primers**  
Beavers are equipped with oil glands on each side of the body and with toenail combs on their hind feet, and they are constantly preening and primping, when not sleeping, eating, playing or working.—Our Dumb Animals.

**The Word "Pamphlet"**  
The word pamphlet was originally Pamphela, the name of a Greek lady who left behind her a vast quantity of literary material in the form of short notes and essays, and this proved to be of such value that it gave a name to a new style of publication.

**Not Two-Legged Kind**  
A mule derailed a passenger train near Sacramento. He was not the type of mule, however, who steps on the gas and clings stubbornly to the driving wheel.

**Light Carried by Fish**  
Deep sea fish are usually red or black in color and carry lights on cheeks, head or tail, or rows of lights along their sides like glowing porpoises.

**TINSMITHING AND REPAIRS FOR**  
pumps, washing machines, stoves, etc. Prescott Hardware, Tawas City.

**Quick Relief for BOILS, ITCH, PIMPLES!**

PEOPLE with these skin disorders, or with burns, wounds or chafes itching, allays pain, protects against infection and speeds healing. It's called HYDRASAL. We have it in liquid and ointment form. HYDRASAL is non-irritating and employs a principle quite different from common antiseptics. Come in and get HYDRASAL today.

On-the-Corner  
Phone 60 East Tawas

**Dogs Have Topknot**  
Many dogs of the Mexican hairless variety are crested with a topknot and carry a tuft of hair at the tip of the tail. In others it is bristly and upright. The eyes, lashes, are yellow, hazel or dark, bordered with pink or dark rims. Like that of an impatient race horse, the nervous tremor of the muscles and sinews is characteristic. Not classed for any particular utility, he is considered, however, a good hunter of rabbits and rats. His owners attest that his intelligence, brightness and affection more than repay that tolerance of his unprepossessing appearance.

**Old Roman Hairpins**  
Ivory hairpins, found in London and dating from the Roman occupation, are knopped with the busts of Roman ladies of the empire. One in the British museum is adorned with a little statuette representing Venus wringing the water out of her hair after rising from the sea. Another is topped by an ivory hand holding a cone and encircled by a serpent.

**The Six Toeshest**  
The six toeshest plants in the United States are the cottonwood, rabbit bush, aromatic sumach, a shrubby pennyroyal, a yucca and the peculiar gymnosperm, Ephedra. They are so hardy that they are able to maintain themselves in the White Sands of New Mexico, a deposit that is 98 per cent pure gypsum, located in an area virtually without rainfall.

**Wet Moon**  
A wet moon is a new moon having one horn much lower than the other, resembling a tilted bowl. It is erroneously believed to be a sign of wet weather.

**Produce Best Cod-Liver Oil**  
Cod-liver oil from the oldest codfish, is richest in vitamin A, the beneficial substance in the oil.

## Revival of Railroad Purchases is Necessary to National Recovery

The railroads are not only sellers of transportation; they are billion-dollar buyers of equipment and supplies. In 1929, their purchases meant jobs for 2,000,000 workers.

Today the railroads are not buying. Their revenues have been so curtailed by unfair, unregulated competition that their buying power is sharply restricted.

The railroads want to buy. They will buy when and if their purchasing power is restored.

To increase railway purchases railway earnings must be increased.

Legislative fair play for the railways will mean railway recovery.

Railway recovery will mean increased railway buying and jobs, again, for millions.

Our State Legislature and National Congress, now convened, should eliminate the unfairness in the competition between the railways and other agencies of transportation.

*New Riding Ease*  
to match Time-Proved V-8 Performance

**NEW FORD V-8 FOR 1935**

THE 1935 Ford V-8 has many advantages you'll want to investigate. But there's one that belongs at the top of the list—Comfort to match V-8 Performance.

To any one who has been behind the wheel of a Ford V-8—who knows from experience what a difference a V-8 engine makes—no other statement about this amazing car could be half so impressive.

It's a statement you can quickly prove, too—and have a lot of pleasure doing it.

There has never been a Ford like this one. And there's no better time to see it than today!

"Taking a back seat" used to mean sacrificing comfort—until the 1935 Ford introduced Center-Poise, placing back-seat passengers in front of the rear axle instead of over it. (See illustration below.)

Front-seat passengers in the New Ford find all roads easier, too—thanks to Center-Poise, another example of Ford pioneering, which combines and applies three related engineering principles in a manner certain to make motor car history:

- (1) Longer, more flexible springs, set farther apart, retain time-proved Ford advantages, and provide a longer base for spring action;
- (2) The forward placement of the engine—and other improvements in design—more nearly equalize weight distribution on all wheels;
- (3) And the forward location of all seats cradles passengers between the wheels.
