

TAWAS CITY

Mr. and Mrs. C. L. McLean and daughter spent Thursday in Bay City.

Honorable Roy O. Woodruff of Bay City is the guest of George A. Prescott for a few days this week to enjoy the bird season.

Mr. and Mrs. Jas. H. Leslie spent Wednesday in Detroit.

Mrs. Chas. Loker and daughter, Miss Catherine Loker, returned Sunday to Lansing after spending a couple of days here with Mrs. L. B. Smith and Mrs. Edw. Stevens.

Dr. Glenn Wilmore of Cleveland, Ohio, is visiting Mr. and Mrs. C. T. Prescott this week.

Mr. and Mrs. Wm. Glumm and sons of Lansing spent the week end with Mr. and Mrs. Fred Neumann.

Let's go! Dance at Edgewater, East Tawas, Saturday night, October 19th.

New and used ranges. Prescott Hardware, Tawas City.

Rev. and Mrs. E. E. Kasischke and daughter, Doris, of Yale visited relatives in the city several days this week. Mrs. Emil Kasischke, who had spent a week with her son and daughter-in-law at Yale, accompanied them here Sunday.

Floyd Schneider of Flint spent the week end with his wife.

Mrs. Ed. Martin and Mrs. H. Bird of this city and Mrs. Elmer Sheldon of East Tawas spent Saturday in Saginaw.

Mr. and Mrs. Delbert Schroeder of Flint spent the week end with Mr. and Mrs. F. Schneider.

Mr. and Mrs. Wm. Osborne are visiting relatives in Flint and the Georgian Bay district for two weeks.

Miss Anne M. Brown of Bay City spent the week end in the city with her sister, Mrs. L. H. Braddock.

Mr. and Mrs. Ernest Kasischke visited Sunday with their daughters in Midland.

The following youths have enrolled in the C. C. C. and left for Whitmore: Charles Malcolm, Jr., and Leland Malcolm of Tawas City; Blaine Williams of East Tawas; Frank Sabin of Hale, and Henry Szumski of Osoda.

Bruce Myles and Louis T. Braddock attended the Town Hall program at Bay City Wednesday night.

Mrs. O. Carson, daughter, Anna, and son, Hugh, of Asheville, N. C., spent the week end with Mr. and Mrs. Chas. Brown. Mrs. O. L. Carson of Detroit accompanied them.

Mr. and Mrs. Lewis Fraser and son, Robert, of Detroit spent Sunday with their parents, Mr. and Mrs. F. J. Bright.

Mr. and Mrs. Leon M. Abbey and family of Flint are spending the week end with their parents, Mr. and Mrs. L. H. Braddock.

George Francis, of the Francis Engineering Co., Saginaw, was in the city Thursday night assisting in the starting of the water works project.

New and used ranges. Prescott Hardware, Tawas City.

Mrs. Howard Hatton and Miss Amanda Hamilton of Detroit spent the week end in the city.

Miss Edyth Walker entertained the following friends on Saturday and Sunday: Mrs. Geo. Van Houten, Mr. and Mrs. Allen Potter and daughter, Mary, of Detroit.

Mr. and Mrs. Burley Wilson and Mr. and Mrs. Chas. Duffey visited in Sandusky the first of the week. Cement and Miss Margaret Stepanski of Detroit visited Sunday with their parents, Mr. and Mrs. Jos. Stepanski.

Albert Siegel has returned from a business trip to Marquette.

The Twentieth Century Club will meet at the club rooms Saturday, October 19.

Mrs. Janet Shader, Miss Agnes Freel and mother of Bay City were Sunday guests of Miss Edyth Walker.

Mr. and Mrs. R. A. Hamilton, Miss Marion and Robert, of Pontiac and Mr. and Mrs. Wilbur Johnson of Milford spent Sunday with friends in the city.

Mrs. Allen F. Prescott and little son of Cleveland, Ohio, are visiting Mr. and Mrs. Chas. T. Prescott and other relatives for a couple weeks.

Mrs. Walter Moeller left Monday for a week's visit with her mother in Alma.

Born to Mr. and Mrs. Walter Laidlaw on October 6th, a daughter. She has been named Brinda Jo.

Mr. and Mrs. John Forsten are attending the teachers' institute at Flint and spending the week end at Owosso with the latter's parents.

Mr. and Mrs. Clare Long and daughter, Virginia, and Miss Frances Long of Detroit spent the week end at the Frank Long home on the Hemlock.

Justin Carroll, Ernest Cecil, Edward Sieloff and Albert Krueger opened the bird hunting season at Fostoria. They were guests of Roy Kinney.

Religious Education Council Will Hold Institute October 22

TAWAS CITY WILL BE HOST TO GATHERING

Interesting All-Day Program Has Been Arranged By Committee

The Iosco County Council of Religious Education will sponsor an institute for parents and teachers of children next Tuesday at the Tawas City Baptist church. In announcing the institute, Mrs. Helen N. Shattuck, superintendent of the children's division of the council, said, "Everyone is welcome at the institute. Parents and workers with children are especially urged to attend."

PROGRAM Morning Session

Mr. F. R. Dease of Tawas City, Chairman

10:00 Devotional—Rev. Wahlstrom, East Tawas Abigail Lutheran church.

10:30 Who is Responsible for the Religious Training of the Child? (a) The Home—Rev. J. Silas, Osoda Indian Mission; (b) The Sunday School Teacher—Mrs. Mary Stevens, Osoda M. E. Sunday School; (c) The Minister—Mrs. Petrus, Minister of the Hale Baptist Church.

11:00 Discussion of above topics.

11:30 Vocal Duet—Rev. and Mrs. Silas.

11:40 Value of the County Council of Religious Education—Mrs. Jas. Chambers, Hemlock Road.

11:50 Discussion of plans for 1936 in the Children's Division.

Appointment of committees.

12:15 Pot luck lunch.

Afternoon Session

Mrs. Norman Brown of Alabaster, Chairman

1:30 Devotional—Wm. Latter of Reno.

2:00 Teaching Songs to Children—Mrs. Nyda Campbell Leslie of Tawas City.

2:30 Worship Service—Mrs. W. C. Davidson and Miss Dora Mark of Tawas City.

3:00 Teaching a Model Sunday School Lesson—Mrs. W. E. Glendon of Hale.

3:30 Vocal Duet—Mrs. Herbert Phelps and Mrs. Olson of Wilber.

3:40 Offering.

3:45 Question Box.

4:00 Dismissal.

In order to make the song and worship service, as well as the class session, very practical, interesting and instructive, a group of small children from the Tawas City public school will be present for the afternoon.

First Of Regular P.-T. A. Meetings Held Thursday

The first regular meeting of the P.-T. A. was held at the high school auditorium last Thursday evening. Mr. Colby, the new president, gave an interesting report on the P.-T. A. Association meeting at Bay City. After a short business meeting, Mrs. Nyda Campbell Leslie presented the following pupils in a musical program: Duane Leslie, Marion Bing, Janet McLean, Evelyn Colby, Kathleen Bing, Patricia Braddock, Marguerite McLean.

After the meeting adjourned, a delicious lunch was served.

Iosco County Council Of Religious Education

An executive meeting of the Council was held at the home of the president, Mrs. W. C. Davidson on Friday, October 11. The work of the various departments was discussed and some definite plans were made. A Children's Division Institute will be held at the Tawas City Baptist church Tuesday, October 22. All workers with children are urged to attend this meeting.

Rev. F. Metcalf, who is educational director of the Council, is planning to conduct a teacher's leadership training class this fall. Please watch for announcement of particulars regarding this class.

It is hoped that all the Sunday schools of the county will heartily cooperate in the activities of the Council and thus will the desired results be obtained.

All Sunday schools and individuals desiring to renew their pledge to the Council may do so by notifying the secretary-treasurer, Mrs. F. R. Dease.

Save by buying your oil stove now at the fire sale—1/2 off. W. A. Evans Furniture Co.

NOTED LECTURER WILL SPEAK HERE MONDAY EVENING

DR. NO-YONG PAO

Dr. No-Yong Pao, graduate of the University of Minnesota and authority on Far Eastern questions and international relations, will speak next Monday evening at the Tawas City high school building. The lecture will begin at eight o'clock.

Dr. Pao is the author of "Making a New China," and for the past ten years he has been lecturer on the Far East at various universities and colleges. The political unrest in China and throughout the Orient makes Dr. Pao's lecture of special interest.

In commenting Dr. Pao, the Christian Science Monitor said, "His wide travel in the prosecution of his profession throughout the United States, and the contacts with American opinion which he has made through his audiences, fit him to speak with some authority upon American civilization, while his Oriental mentality leads him to discern absurdities as well as virtues which do not immediately suggest themselves to the American mind."

New License Plates On Sale Next Monday

F. F. Taylor, branch manager, announced last night that 1935 plates will be on sale Monday, October 21, for new cars only. They will be on sale for all cars on November 1.

Iosco County Share Of Third Quarter Weight Tax Payment \$9,437.58

Murray D. Van Wagoner, state highway commissioner, turned over vouchers to the auditor general totaling \$2,949,244 as the third quarter return to the counties from weight tax receipts. Iosco county's share of the third quarter weight tax payment was \$9,437.58.

The current payment brings the total return to the counties to date this year to \$15,467,715 from the weight tax. It also increased the total returns to the counties to date from all state highway revenues to \$20,242,715.

Counties have been vouchered all that is due them to date. In addition, they will receive an estimated \$1,725,000 before the end of the year. The second half of the gasoline tax return amounting to \$1,275,000 together with the final quarter of the weight tax are the only items remaining. Commissioner Van Wagoner estimated the final quarter of the weight tax return will not exceed \$450,000 inasmuch as most operators have purchased their 1935 license plates.

Dr. P. J. Misner Goes To Glencoe, Illinois

Dr. Paul J. Misner, for seven years principal of the Roosevelt Campus Laboratory High School at Michigan State Normal College, Ypsilanti, has resigned the post to accept the superintendency of schools at Glencoe, Illinois. Glencoe is a suburb of Chicago, just north of Winnetka.

The major emphasis at Glencoe during the coming year, Dr. Misner states, will be upon the organization of curricula, with social studies as the core. This fall the Glencoe system will begin an experiment based on elimination of grade organization and the substitution of an ungraded primary system. Dr. Misner also will be associated with Northwestern University in the capacity of lecturer for one or two classes during each semester, and a full-time lecturership during summer sessions.

While in Michigan, Dr. Misner has been six years a teacher and superintendent at Otisville, two years superintendent at Goodrich, three years assistant director of college extension at Michigan State Normal College, and seven years principal of the Campus Laboratory School.

Dr. Misner holds the A.B. degree from Ypsilanti, the M.A. and the Ph.D. from the University of Michigan. Dr. Misner is a son-in-law of Mr. and Mrs. M. H. Barnes of this city.

East Tawas Boy Injured In Gun Accident Tuesday

Jack Halligan, 15 year old son of Mr. and Mrs. Joseph Halligan of East Tawas, was painfully injured the first day of hunting season when hit by a charge of bird shot from his brother's gun.

The two Halligan boys, Jack and James, and a companion, Joe Reinke, were bird hunting Tuesday near Tawas Lake. A partridge was flushed and James fired. Jack was within range of the charge. Pellets hit his forehead, in his mouth and about his arms and legs. The wounds were painful but no serious complication has arisen.

This is the first gun accident of the season reported here.

In Memoriam

In loving memory of Mildred C. Rempert, who passed away October 17, 1934.

Loving and kind in her ways, Upright and just to the end of her days; Sincere and true in her heart and mind, A beautiful memory she left behind. Sadly missed by her parents, sisters and brothers.

3rd Annual Trap Shoot Will Take Place Next Sunday at Tawasville

MANY PRIZES ARE OFFERED TO SHOOTERS

Plans Completed For Event Sponsored By Tawas Gun Club

Plans have been completed for the third annual trap shoot of the Tawas Gun Club which will be held next Sunday afternoon, October 20, at Tawasville. According to reports from various sources a large number of trap shooters will be in attendance.

Three cash prizes amounting to \$15.00 will be given by the club in the three classes. In addition to the cash prizes there will be a large number of merchandise prizes given by local business men and the following firms in other cities: Morley Bros., Saginaw; Jennison Hardware, Bay City; Bay City Hardware, Bay City; Tyler-Lowry Company, Bay City; and Saginaw Hardware, Saginaw.

A handsome combination hunting knife and axe has been given by Hon. Roy O. Woodruff to the club for a prize. Congressman Woodruff is an honorary member and in past years has attended functions of the club.

A chicken and fish dinner will be served at the club grounds following the shoot.

Last year's trap shoot was very successful and some of the best shots in northern Michigan were in attendance.

Practice shooting will start at one o'clock. The Lewis class shoot will start at two o'clock and all entries must be registered before three o'clock.

Lonely Punta Arenas

The nearest town to Punta Arenas on either side is 2,000 miles away. It is the southernmost city in the Western Hemisphere.

EAST TAWAS

Mrs. John Lee of Detroit spent the week in the city with her parents, Mr. and Mrs. R. LaBerge.

Mrs. Ethel Ughart Bishop of Alberta, Can., who visited a few days with Mrs. S. Searle, left Wednesday for Nova Scotia where she will spend a few weeks with friends.

Mrs. Edna Acton and mother, Mrs. Rose Anker, left Saturday for a week's visit in Detroit.

Miss Helen Applin, who spent a few days in Grand Rapids, returned home.

New and used ranges. Prescott Hardware, Tawas City.

Arnold Lomas left Sunday for Detroit, where he has employment.

Mrs. Morel and son of Chicago, who spent a few days in the city with Mr. and Mrs. Basil Quick, returned Sunday to their home. Mrs. Quick and children accompanied them and will spend a few weeks there with her parents.

Let's go! Dance at Edgewater, East Tawas, Saturday night, October 19th.

Wedding bells will ring soon at Tawas Point.

Mrs. M. Ducharme and daughter spent the week end in Alpena.

Nathan Barkman spent the week end in Bay City and Saginaw.

William DeGrow, Fred Holbeck and Charles Conklin spent Friday in Lansing on business.

Clinton Kilpatrick spent Monday in Standish.

Mrs. Gladys Vogel and Mrs. Harry Anker of Saginaw visited in East Tawas on Tuesday.

The I. O. O. F. will have a chicken dinner Thursday, October 24, in honor of Dr. J. W. Weed after their regular meeting. Dr. Weed has been a member for 50 years.

Mrs. C. L. Barkman spent Monday and Tuesday in Standish on business.

Mrs. H. Marsh and Mrs. H. Jennings of Au Gres spent Sunday in the city with Mrs. O. Carpenter.

Miss Margaret Durant of Saginaw spent the week end in the city with her mother.

New and used ranges. Prescott Hardware, Tawas City.

Miss Muriel Evans of Detroit spent the week end in the city with her mother, Mrs. R. Evans.

Mr. and Mrs. P. Creaser and William Creaser of Alma spent the week end in the city with Mr. and Mrs. C. J. Creaser and family.

George Bergevin, Sr., spent the week end in Ann Arbor with his son, who is at the hospital.

Gordon McAndrews, who spent a week at Tawas Point with his parents, returned to the Marine hospital where he is a patient.

Mrs. S. E. Ostrander of Flint spent a few days in the city.

Mrs. Ernest Kelly of Flint spent a few days in the city with friends.

Mr. and Mrs. Torrey Osgerby of Saginaw are rejoicing over the arrival of a daughter.

Mrs. C. L. Barkman and Mrs. H. Barkman spent Wednesday in Bay City and Saginaw.

Great Musical Hit At Family Theatre

Enchanting music, spectacular dance routines set in backgrounds of unprecedented splendor, a pageant of the world's greatest entertainers headed by Jack Benny, and an intriguing story all combine to make "Broadway Melody of 1936," Metro-Goldwyn-Mayer's most spectacular musical extravaganza, the season's outstanding eye and ear entertainment of the year. "Broadway Melody of 1936" comes to the Family Theatre on Sunday, Monday, Tuesday and Wednesday, October 20, 21, 22 and 23.

Of first importance among the new personalities is Eleanor Powell, "the world's greatest feminine tap dancer" who plays the leading romantic role opposite Robert Taylor.

Una Merkel, as a wise-cracking secretary; June Knight, as a spoiled darling of New York society; Vilma and Buddy Ebsen, famous comedians and dancers; Nick Long, Jr., noted acrobatic dancer; Frances Langford, radio's song bird, and Harry Stockwell, concert baritone, all deserve the highest praise for their amazing entertainment talents.

Notice

Dr. A. S. Allard, registered chiropractor and optometrist, of Bay City, specializing in eye, ear, nose and throat treatments without drugs or surgery, will be in East Tawas at the Holland Hotel, Wednesday, October 30. A nerve impingement can cause serious eye trouble, often resulting in cataracts. Let me examine your eyes. Glasses fitted at reasonable prices. Remember the date—Wednesday, October 30.

Cornfields at Waterloo

The ground of the battlefield of Waterloo is today an intensively cultivated district of rich cornfields.

WILL BE LOADING OUT POTATOES.

Call for prices. Chas. Timreck, Tawas City, phone 190-F3.

News Review of Current Events the World Over

Italy Is Outlawed by League of Nations, Austria and Hungary Objecting—Hauptmann's Death Sentence Upheld by Appeals Court.

By EDWARD W. PICKARD

© Western Newspaper Union.

BECAUSE it was prosecuting an undeclared war on Ethiopia, Italy was condemned as a violator of the covenant of the League of Nations and virtually declared to be an outlaw against which economic and financial sanctions are to be applied. That was the decision of 52 members of the league in a memorable meeting of its assembly in Geneva. Three nations, Italy itself and Austria and Hungary, refused to associate themselves with the assembly's action. The Austrian and Hungarian representatives already had announced that they would not participate in any sanctions against Italy because of their political and economic relations with the Fascist government.

Baron Aloisi

If any of the nations concurring in the league's decision wishes to declare war on Italy, it now has the legal right to do so. The nature of the penalties to be imposed and the manner of procedure was to be determined by a committee including all members of the league council, except Italy, and all Italy's neighbor nations except Austria and Hungary.

The meeting of the assembly first heard an eloquent speech on Italy's behalf by her chief delegate, Baron Pompeo Aloisi. He charged that the league had been unfair, that it had used "two weights and two scales" in its work, that it had acted against Italy where it did not act against Japan in the Manchurian crisis, that it did not even consider Italy's complaints against Ethiopia.

"Why not Japan?" he asked. "Why not Bolivia and Paraguay in the Chaco war? Why Italy?"

Before the decision nation after nation registered its adherence to the league covenant.

"I shall make only a brief declaration," said Pierre Laval of France. "France will face her obligations. I said this before the council. I repeat it before the assembly. The covenant is our international law."

"Action must now be taken," said Anthony Eden of Great Britain. "I declare the readiness of his majesty's government to take full part in such action."

Vladimir Potemkin of Russia announced that his government was determined to fulfill its obligations. Switzerland also emphasized its willingness to participate.

"No other delegation has asked to speak," said President Benes quietly. "I interpret the silence of all as indicating the concurrence of their governments with the opinion of the members of the council. The assembly will place this on record."

Austria and Hungary cannot of themselves supply Mussolini with much in the way of raw materials for war; but there is the chance that he may receive, through those countries, materials from Germany if the neutrality proclaimed by Hitler does not prevent. Already the big packing companies of Brazil had suspended negotiations for the sale of 22,000 tons of meat to Italy, and Greece has stopped the shipment of donkeys to the Italian army. The economic sanctions also will put an end to much of Italy's export trade, as well as her imports.

MAKING good on his threats and promises, Benito Mussolini sent his armies crashing across the border of Ethiopia, starting a war that gave all Europe theitters. Under the command of Gen. Emilio De Bono, chief of the Italian colonial armies, the Italian troops laboriously advanced from Eritrea, crossing the Mareb river frontier and capturing Adigrat and other towns that had already been practically ruined by bombardment from planes. The immediate objective was Aduwa, the scene of the terrific Italian defeat 39 years ago. After several days of hard fighting against the defending Ethiopians, who lost probably 2,000 killed, the invaders marched into Aduwa, and considered that the disgrace of 1896 had been avenged. The Italian soldiers of General Marivigna's command entered first, carrying to the principal square and there erecting a big stone monument inscribed "To the fallen heroes of Aduwa."

Gen. De Bono

Italy officially announced that all of Tigre province was in Italian hands, and at the same time her columns were advancing into Ethiopia from the south and east, with the city of Harrar and the country's one railway as their objective. Squadrons of bombing planes were flying here and there, destroying towns and killing many of the inhabitants.

Recent reports from Addis Ababa said the Italian minister, whose departure had been requested by the emperor, announced that the Italian forces in the north sector had occupied the holy city of Aksum, the ancient capital of the queen of Sheba. There was no resistance, and the Ethiopians saved their sacred relics. The king of kings asked that other Italian legation officials depart with the minister. The legation, he declared, had kept its radio communications in use after being requested to desist. In Rome it was announced that Mussolini would retort by giving passports to the members of the Ethiopian legation and would launch a new drive toward Addis Ababa. Ethiopian cavalry made a daring raid into Eritrea, killing some Italians and capturing others; but there was a report that a son-in-law of the emperor and another Ethiopian general lost their lives in this operation.

FIRST giving assurance, in his speech at San Diego, that the United States would not be drawn into any foreign war, President Roosevelt issued two important proclamations. One proclaimed the embargo on all shipments of war material to the belligerent nations. The other warned Americans that travel on Italian or Ethiopian vessels would be at their own risk. Since Ethiopia has no shipping, the latter proclamation was directed solely against Italy. In yet another statement the President reversed our national policy by declaring that Americans who engage in "transactions of any character" with either of the warring nations "will do so at their own risk." In the past the United States has argued for the right of neutral citizens and commerce to "freedom of the seas."

The task of preventing shipment of American arms and munitions to Italy and Ethiopia was undertaken by the coast guard and customs service.

UNANIMOUS decision of the New Jersey court of errors and appeals is that Bruno Richard Hauptmann was given a fair trial on the charge of murdering Col. Charles Lindbergh's baby son; that his conviction was in accordance with the evidence and that his death sentence was legal. Every contention raised by the defense was overruled. In its opinion the court said: "Our conclusion is that the verdict is not only not contrary to the weight of the evidence, but one to which the evidence inescapably led. . . . From three different and, in the main, unrelated sources the proofs point unerringly to guilt—viz: (a) Possession and use of the ransom money. (b) The handwriting of the ransom notes. (c) The wood used in the construction of the ladder."

Bruno Hauptmann

Hauptmann's attorneys immediately began preparations for an appeal to the Supreme Court of the United States. Their only way is to ask that tribunal for a review of the New Jersey court's action. To prevent the death sentence being carried out while such a petition was pending in the Supreme court, it would be necessary to have a "stay of execution" issued by the New Jersey courts or by a justice of the United States Supreme court. If a review is denied the case will be closed and Hauptmann probably will die in the electric chair late in November or early in December.

GREECE changed back from a republic to a monarchy overnight in a bloodless coup d'etat engineered by the royalists in the armed forces. Led by Gen. George Kondylis, the army officers demanded that Premier Tsaldaris immediately proclaim restoration of the monarchy. He refused and resigned, and a new government with Kondylis as premier took hold. This former minister of war then forced out President Zaimis, abolished the republican constitution, decreed the restoration, and was named regent by the national assembly pending the return of King George II, who was called back from exile. Though the change of form of government thus seemed completed, the assembly directed that a plebiscite on the question be held November 3, and in London the Greek king's equerry said George would await the result of this vote.

QUITE inadvertently, Secretary of the Navy Swanson revealed the fact that our government is preparing to take part in another naval conference in London within three months. Mr. Swanson, replying to some question at his press conference, said he would send Admiral William H. Standley, chief of operations, to the London meeting as the navy's representative because of his good work at the last conversations on naval limitation. It is supposed the naval powers will try to formulate a limitation program which would take the place of the treaties that are to be terminated January 1, 1937.

HAMILTON FISH, JR., congressman from New York, is going to be a candidate for the Republican Presidential nomination and will throw his hat into the ring about the middle of December. He will enter the primaries in the western, mid-western and southern states. Mr. Fish has not yet formally announced this intention, but he told an interviewer the other day that if he were elected he would have a non-partisan cabinet that would include the best brains in the country regardless of political affiliations. He even went so far as to give out a long list of the men and women from which he would choose his cabinet members. For instance, his secretary of state will be either Senator Borah, Senator Hiram Johnson, Bainbridge Colby, John W. Davis or Newton D. Baker. For secretary of commerce he would have either Herbert Hoover or Frank Phillips of Oklahoma. Senator Carter Glass heads the list for secretary of the treasury; Edward A. Hayes for secretary of war; R. B. Creager of Texas for postmaster general; Judge Charles Lockwood of Brooklyn for attorney general; Al Smith for secretary of labor; Frank O. Lowden for secretary of agriculture; Theodore Roosevelt, Jr., for secretary of the navy, and former Vice President Charles Curtis for secretary of the interior.

Rep. Fish

American Federation of Labor opened its annual convention in Atlantic City with many problems up for discussion. In its report the executive council advocated preservation of the national constitution, without amendment for the present, as best for industrial recovery. It said: "That some control must be exerted over the former system of laissez faire cannot be denied. The experiment," the report added, "(NRA), which has been concluded, has helped to point the way to the goal which we must seek. How is congress to acquire that control over the industry and trade of our country which will make possible the necessary reforms? 'Until exhaustive studies have been made with respect to attaining this great objective, under our present constitution, we cannot recommend just what steps should be taken in connection with this particular problem.' The federation's determination to keep out the Communists was emphasized by its action in refusing to seat E. M. Curry, president of the International Foundry Workers' union, because he was a Communist candidate for congress in Michigan three years ago.

Justice Charles Evans Hughes and the eight associate justices of the Supreme court of the United States took possession of their new ten million dollar home which on the outside resembles a Corinthian temple. Everything in the handsome building was new except the nine chairs the eminent jurists occupy, and these would have been replaced if the architects and decorators had had their way. There was a big crowd present to see the justices open the first term of court in the palatial structure but only a few spectators could get inside. The first business was the admission of more than 150 lawyers to practice before the court. Then the calendar was read. On this calendar are six cases which hold the fate of the New Deal. The most important of these is one which will determine the validity of the agricultural adjustment act. That ruling may rank with the Dred Scott decision in its political consequences.

Other important cases are those challenging the Bankhead cotton control act, the Tennessee Valley authority, the right of the Public Works administration to condemn land for housing projects, the corporate reorganization act, and the right of states to tax the property of the Reconstruction Finance corporation.

ANAPOLIS was full of navy men, ranging from admirals down to ordinary seamen, on October 10, for that was the ninetieth anniversary of the founding of the United States Naval academy and it was celebrated in fine style. Heading a group of distinguished guests not identified with the service was Prof. Wilder D. Bancroft, whose grandfather, George Bancroft, famous historian, founded the academy when he was secretary of the navy under President Polk. A feature of the exercises was a sham battle in which midshipmen landed from boats, scaled the seawall and attacked the academy under protection of a barrage laid down by a sub-chaser.

DOWN in Lower California aboard the cruiser Houston President Roosevelt called Secretary Ickes and WPA Administrator Harry Hopkins into his cabin and studied the work situation on the basis of reports from Washington. After long consideration he formally approved \$26,000,000 in works projects in Pennsylvania. After some fishing in Arenas bay, Mr. Roosevelt headed straight out into the Pacific ocean for Cocos Island off the coast of Costa Rica, a rendezvous of the old-time pirates where search is often made for supposed buried gold. He had good luck angling there last year, and went to try it again.

Chief Justice Hughes

Government Employees Work on Theater Stage

WITH the largest number of employees in Washington since the war, the government is so crowded for office space that it has taken over the Washington auditorium. The photograph shows a division of the FERA at work on the stage of the big theater.

Bedtime Story for Children

By THORNTON W. BURGESS

THE HUNTED WATCHES THE HUNTER

IT WAS so quiet and peaceful and altogether lovely there in the Green Forest where Lightfoot the Deer lay resting behind a pile of brush near the top of a little hill that it didn't seem possible such a thing as sudden death could be anywhere near. It didn't seem possible that there could be any need for watchfulness. But Lightfoot long ago learned that often danger is nearest when it seems least to be expected. So, though he would have liked very much to take a nap, Lightfoot was too wise to do anything so foolish. He kept his beautiful great,

It Was the Hunter and Across One Arm He Carried the Terrible Gun.

soft eyes fixed in the direction from which the hunter with the terrible gun would come if he were still following Lightfoot's trail. He kept his great ears gently moving to catch every little sound.

Lightfoot had about decided that the hunter had given up hunting for that day, but he didn't let this keep him from being any the less watchful. It was better to be overwatchful than the least bit careless. By and by Lightfoot's keen ears caught the sound of the snapping of a little stick in the distance. It was so faint a sound that you or I would have missed it altogether. But Lightfoot heard it and instantly he was doubly alert, watching in the direction from which that faint

sound had come. After what seemed a long time he saw something moving and a moment later a man came into view. It was the hunter and across one arm he carried the terrible gun. Lightfoot knew now that this hunter had patience and perseverance and had not yet given up hope of getting near enough to shoot him. The hunter moved forward slowly, setting each foot down with the greatest care so as not to snap a stick or rustle the leaves. He was watching sharply ahead, ready to shoot should he catch a glimpse of Lightfoot within range. Right along through the hollow at the foot of the little hill below Lightfoot the hunter passed. He was no longer studying the ground for Lightfoot had left no tracks. He was simply hunting in the direction from which the Merry Little Breezes were blowing because he knew that Lightfoot had gone in

that direction and he also knew that if Lightfoot were still ahead of him his scent could not be carried to Lightfoot. He was doing what is called, "hunting up wind." Lightfoot kept perfectly still and watched the hunter disappear among the trees. Then he silently got to his feet, shook himself lightly, and noiselessly stole away over the hilltop towards another part of the Green Forest. He felt sure that hunter would not find him again that day.

Eve's Epigrams

Too many girls think they can hold a man's interest by using their necks instead of their heads.

Do You Remember a Day in October?

By ANNE CAMPBELL

DO YOU remember an October day, A gold and crimson day of long ago, When for a little while you passed my way To touch the maples with a deeper glow?

Do you remember the New England hills, Where little trees reached up to autumn skies? Today June meets October and distills The roses borrowed from our Paradise.

Do you remember words we did not speak, Long silences that told us more than words, The joyous ripple of the silver creek, And the soft answer of the bright-eyed birds?

Do you remember an October day Far lovelier than this, when for an hour Bright blue October skies reached the gray, And blest affection burgeoned into flower?

cheese to suit the taste. Cook in a covered dish until the rice is soft. Cover with the grated cheese and brown in a hot oven.

QUESTION BOX by ED WYNN, The Perfect Fool

Dear Mr. Wynn: I am taking an examination for a letter-carrier's position. One question seems to stick me. I know you will help me, so here's the question: "What has four legs and flies all around?" Truly yours, WILL I. PASS.

Answer: Well, it's a question which answer the government wants from you. Two canary birds have four legs and fly all around, but I think the answer you want is as follows: "A dead horse has four legs and flies all around!"

Dear Mr. Wynn: I have trouble in keeping my silver-ware clean. They say that whiskey is the best polisher of silver. How is it used? Sincerely, IMA HOUSEKEEPER.

Answer: Just drink the whiskey and then blow on the silver.

Dear Mr. Wynn: I notice articles, in the newspapers, which refer to something or other happening in the great peace town, but they never mention the name of the town. I must confess my ignorance and ask you to please tell me the name of the great peace town. Sincerely, U. R. BRIGHT.

Answer: The greatest peace town I know of is Reno.

Dear Mr. Wynn: I just entered college this year. My father wants me to be a lawyer and I want to be a doctor. Can you tell me just what you think of these two professions, so I can choose? Yours, COL. EDGE BOYE.

Answer: A doctor is a man who puts medicine, about which he knows little, into your stomach, about which he knows nothing, while a lawyer is a

man who takes money from your enemy and keeps it for himself.

Dear Mr. Wynn: I have been reading the pro and con discussions on "When a Man Is Drunk." Please tell me when a person can be absolutely sure that a man is drunk? Truly yours, Y. B. SOBER. Answer: A man is absolutely "drunk" when he comes home late, puts the candle in bed, then blows himself out.

Mother's Cook Book EVERYDAY DISHES

A GOOD ox tail soup is a favorite dish with many. The following stew is worth adding to the card index:

Ox Tail Stew. Wash the short lengths of ox tail and brown in its own fat. Cook two chopped onions in two tablespoonfuls of butter, add to the meat with two and one-half quarts of water. Simmer until the meat is tender. A half hour before serving add four diced carrots, two diced turnips and one large potato, two teaspoonfuls of Worcestershire sauce, two teaspoonfuls of sugar, salt and pepper to taste. When the vegetables are soft thicken the stew with flour and water mixed to a paste. Cook until well thickened.

Pilaf. Fry one sliced onion in butter, using two tablespoonfuls, when soft and yellow add two cupfuls of boiling water, one cupful of uncooked rice, two cupfuls of canned tomatoes, one cupful of round steak ground, two teaspoonfuls of sugar, salt, pepper and grated

Pretty Tweed Coat

Loosely woven tweed, in dark blue, wine and white, makes this long belted-back coat that is worn over a dark blue one-piece dress. The shoulder yoke and pockets echo the rounded line of the collar.

DADA KNOWS—

"Pop, what is a plenipotentiary?" "Shipment of gold lace."

When the Yankee Came to Grief

THE once trim cup yacht Yankee was a sorry sight after her mast was blown clear during a race with the Shamrock, the Velsheda and the Endeavor at the Dartmouth, England, regatta. The yacht capsized but there were no casualties. The Yankee is shown being towed into Plymouth for repairs.

Do YOU Know—

That the jockey in gay colors is the idea of a British king? In Henry VII's private purse expenses for February (1530), appeared items of money paid to a tailor for making doublets "for the running boys of the stabul" and to the "mylanner (milliner) for ryding cappes of black satin."

Bits of France in U. S. Recalled by Celebration

Strong Influence Seen in Numerous Names.

Washington.—"In celebrating its bi-centennial recently, Sainte Genevieve, Mo., calls attention to the strong influence the French have exercised in the United States, particularly in the Mississippi valley," says the National Geographic society. "From the Great Lakes to the Gulf of Mexico, the region on each side of the Mississippi is sprinkled with French names. Towns, rivers, lakes, and forts bear the appellations of French saints, of French monarchs, or early fur traders.

"In the Seventeenth and Eighteenth centuries, when French towns were strung like beads along the banks of the St. Lawrence, the woods of southeastern Canada swarmed with coureurs de bois. These were fur trappers trying to make fortunes by shipping furs back to France to be made into the muffs, capes, and beaver hats demanded by a luxury-loving court.

"Hardy and daring, these coureurs de bois adopted the habits of Indians, setting their traps in frozen solitudes, paddling down stream and lake to new hunting grounds, carrying their birch bark canoes or dugouts, overlaid from headwater to headwater.

Fur Traders Come.

"The fur traders went up the St. Lawrence and westward through the Great Lakes; they poured southward by hundreds into what are now Michigan, Wisconsin, and Illinois.

"Frequently accompanying the fur traders, or exploring the wilderness alone were groups of black-robed Jesuits, bent on Christianizing the natives.

"After Joliet and Marquette and La Salle explored the Mississippi valley, traders in canoes and flat-bottomed boats traveled down the Mississippi, establishing on its banks trading posts over which flew the banner of the fleur-de-lis.

"The Mississippi valley not only received fur traders and Jesuits from the North, but in the South it drew settlers from France, exiled Acadians from Nova Scotia, and refugees from the French West Indies. These founded New Orleans, naming it after the Duke of Orleans. French names, such as the Rue des Bons Enfants, and French customs are still so prevalent in the city that it has frequently been called the 'Paris of America.'

Many French Names.

"As early French settlers roamed up and down the Mississippi valley, even venturing as far afield as what is now Pennsylvania and North Dakota, they left behind a scattered trail of names that tell the story of their travels, beliefs, and their dealings with Indians.

"In Missouri where one finds Sainte Genevieve, one also finds St. Louis, first established as a French fur trad-

ing post, and still a fur center of importance. Des Moines and Dubuque, Iowa; La Salle, Ill.; Eau Claire, Wis., all show French influence. Idaho claims Boise and Coeur d'Alene, 'heart of an awl,' the epithet which French traders applied to shrewd Indians of that region. Marquette, Mich., is named in honor of the famous Jesuit explorer who tried to Christianize the Indians of that section. Detroit stands on the bank of a strait, the French name for which is 'Detroit.'

"Terre Haute and Vincennes are found in Indiana; Pierre and Rousesau in South Dakota. Minnesota has Cloquet, Duluth, and St. Charles.

"Central Kentucky is sprinkled with French names: Paris, Versailles, and La Grange.

"Louisville, Ky., though bearing a French name, was not settled by French but by English colonists, who named it in honor of Louis XVI for his help in the Revolution. Louisiana, however, was christened in honor of

Old Indian Village

Antedates Christ

Geneva, N. Y.—Archeologists, excavating inside the east shore of Seneca lake, have unearthed what they believe to be the remains of an ancient Algonkin village, antedating the birth of Christ.

The expedition is headed by William A. Ritchie, of the Rochester Museum of Arts and Science.

Among the curious articles unearthed were hunting and fishing equipment, sinkers, drills, hammers, adzes, awls, perforators, and a pestle, apparently used for grinding vegetable feed.

Louis XIV by La Salle. One of the earliest French settlements in that state is Baton Rouge, meaning 'red baton or stick.'

"Around Pittsburgh, Pa., an original French settlement called Fort Duquesne, are many French names, among which are Versailles, Du Bois, and the city of Duquesne. Near Erie is Presque Isle. Three Pennsylvania counties—Fayette, Dauphin, and Luzerne—bear the names of French noblemen.

Triumph for Young Opera Singer

Jean Tennyson, one-time 'Follies' prima donna and now soprano of the Chicago City Opera company, who won acclaim following her appearance at the Salzburg music festival. She is one of the youngest artists ever to appear at this musical event, which brings together leading singers from all over the world. Her beauty is a far cry from the overfed divas of yesteryear who tripped through 'Madame Butterfly' like yodeling pachyderms. The modern trend is toward good-looking opera stars. Witness Maria Jeritza, Coe Glade, Lily Pons, Helen Jepson and Grace Moore. Now for slimmer tenors!

Work for 72,000 Jobless on New Surveys

Will Gather Information on Three Separate Lines.

Washington.—Plans to pick 72,000 jobless white collar workers, for employment on three census surveys, are being drafted by the census bureau.

Forms are being prepared, eligibility tests are being drawn and supervisors are being instructed on holding the examinations. Under the present schedule the full organization will be at work January 2. The surveys will occupy from six months to a year.

All workers will be picked locally from the lists prepared after the tests. The major requirement is that they must be selected from relief lists.

The program, split into three divisions, will cost \$9,881,948, and will embrace a business census, a card index system of persons eligible for old-age pensions and a retail trade survey.

The business census, major branch of the program, will have its headquarters in Philadelphia and will cost \$7,784,000. The staff of supervisors who will direct the field organization is now being completed.

The retail trade survey, also slated to be directed from Philadelphia, will cost \$203,000. This unit will assemble information on employment, pay-

rolls, net sales and distribution costs. St. Louis will be headquarters of the pension card index system, for which \$1,804,948 has been allocated by PWA. This program will check ages, in anticipation of pension applications from between 250,000 and 500,000 next year and some 100,000 annually thereafter.

The business canvass will embrace all business enterprises except manufacturing and farming. Under the direction of W. L. Austin, director of the census bureau, this unit will assemble information classifying businesses and covering employment, payrolls, volume of turnover and money received by individual business ventures.

17-Year-Old Mystery of Sea Remains Unsolved

Salem, Mass.—"A. H. S." must go into annals as an unsolved mystery of the sea.

In 1918 the crew of a fishing schooner found the body of a woman floating off the coast. She was given a sea burial and her jewelry returned to the commonwealth.

The three initials, inscribed in tiny letters on one of the woman's four rings, was the only clue to her identity—and it was not enough. The state of Massachusetts holds \$100 for any heir who may be found.

The remainder of the \$350 realized for her jewelry, which also included a platinum and diamond pendant and a gold bracelet, was divided among the members of the crew and used to pay for the investigation.

Town Expected to Junk Only Municipal Railroad

North Brookfield, Mass.—This town soon may lose its municipally owned railroad, believed the only one in the country.

The Boston & Albany railroad proposes to abolish the line operating between here and East Brookfield. Townsfolk soon will vote on the proposal. The road has been in operation nearly 50 years.

Worker Snares Fish by Hand Off Wake Island

Honolulu.—David K. Richard, sixty-one-year-old Hawaiian, who spent 14 lonely weeks with Pan-American Airways' "ground crew" establishing air bases in mid-Pacific, would have been

willing to stay on one of the desolate islands indefinitely if he'd had some pol.

Fish plenty Richard found at Midway and Wake during his dangerous work dynamiting coral heads in the lagoons where clipper ships will land. All he lacked was the porridge-like food made from pounded taro root for the Hawaiians' favorite combination of fish and pol.

"Lots of fish out there," Richard said. "The mullet so tame they come up to your hand. As I work I grab my next meal. I can't do that in Honolulu. The fish are too wise."

ALCOHOL CONTROLLER

Franklin Chase Hoyt of New York city, who has been appointed head of the alcohol control unit of the Treasury department by President Roosevelt.

Picture Life Quarter of Mile Below Sea Surface

Saint-Raphael, France.—A motion picture study of life a quarter of a mile below the surface of the Mediterranean has been undertaken by Jean Painleve, son of the late French statesman Paul Painleve, near here.

The young scientist has a diving sphere three feet in diameter with windows of fused-quartz glass.

Half a mile down there is no other light than that provided by luminous fish, all plant life ceases and all animals are believed parasitic, carnivorous or cannibalistic. For specimens of life at that depth, Painleve depends upon the use of steel net traps.

Smart Play Frock That's Easy to Sew

PATTERN 2382

2382

Three Oldies

Pleated for play, in a very new way, this child's frock gives her plenty of room for rope-skipping. Her mother will find this smart frock so easy to cut and put together, and a very economical pattern, since bloomers are included with the dress. You can make these up in the same material, or just plain white to wear with other frocks, and no child can have too many pairs. The buttoned closing of the frock takes a new slant, and don't worry about those four pleats! They're as easy a decoration as you've ever made. Colorful novelty cotton for that crisp look, and a choice of short or long sleeves.

Pattern 2382 is available in sizes 2, 4, 6 and 8. Size 6 takes 2 1/2 yards 36 inch fabric and 3/4 yard contrasting. Illustrated step-by-step sewing instructions included.

Send FIFTEEN CENTS (15c) in coins or stamps (coins preferred) for this pattern. Write plainly name, address and style number. BE SURE TO STATE SIZE.

Address orders to the Sewing Circle Pattern Dept., 243 West Seventeenth St., New York City.

Smiles

AGREEABILITY

"Why don't you try to make yourself agreeable?" asked the reproving friend.

"My dear," said Miss Cayenne, "a desire to be agreeable has spoiled my disposition. You can't be agreeable to some people without saying sharp things about others."

Down on the Farm

"What are the boarders kicking about now?"

"The old mill."

"Heh?"

"They say they can't ride on that wheel."—Philadelphia Bulletin.

Nobody Else

"Did you hear Erica is marrying her X-ray specialist?"

"Well, she is lucky, nobody else could ever see anything in her."—Ireland's Own.

Reno News

Lyle Sawyer of Ohio called on Mr. and Mrs. Will White Sunday.
Mr. and Mrs. L. B. Perkins entertained the following on Sunday: Mr. and Mrs. Bert Clark and children, Mr. and Mrs. Don La Veque and son, Bernard, Mr. and Mrs. Frank Kinosh, Miss Mary Gleason and Floyd Perkins, all of Flint. The occasion was Mr. Perkins' birthday. He was the recipient of many useful gifts.
J. M. Johnston's many friends here were sorry to learn of his illness caused by an auto accident last Thursday. Mr. Johnston is still in the hospital, suffering from severe cuts and bruises and unable to use his arms. His granddaughter, Odesa, driver of the car, was badly shaken up and bruised. She received a cut on her nose requiring three stitches. After first aid treatment at the hospital she was sent home. The car was a total wreck.

Mr. and Mrs. H. H. Hoyt of Marshall are spending a few days with Mr. and Mrs. Vary.

Miss Rosamond Sanderson of East Tawas was the guest of Miss Alice Latta over the week end.

Miss Clara Latta and Miss Marion Witherrite of Detroit motored up from that city Saturday to bring Miss Ruth Latta there the latter part of the week.

Mrs. Jennie Campbell of Bay City is spending a couple of weeks with her cousin, Mrs. Will Latta, and other relatives.

Miss Lulu Robinson attended the teachers' institute held at Detroit last Thursday and Friday.

Mr. and Mrs. Kulha of Bay City were Sunday visitors at the home of Mr. and Mrs. R. A. Bentley.

Wm. Latta went to Detroit with a carload of cattle Saturday.

Mr. and Mrs. Louis Johnson left Monday to spend the winter in Flint.

Miss June Latta of Detroit was an overnight visitor at her parental home Saturday.

Mr. and Mrs. Floyd Killey and family, Mr. and Mrs. Henry Pake and Miss Ella Ross were Sunday visitors with Mr. and Mrs. Herman Wesenick and helped Mrs. Wesenick celebrate her birthday. Mr. and Mrs. Chas. Katterman and family, Mr. and Mrs. H. Hutchinson and family, Mr. and Mrs. G. Provost and family, and Mr. and Mrs. Henry Seafert and family came in the evening and helped her complete a perfect day.

Lionel Wesenick of Flint was home for the week end.

Mr. and Mrs. Russell Binder and little son spent Saturday evening with Mr. and Mrs. Will White.

Mr. and Mrs. Floyd Sherman, daughter, Jean, and Earl Larson of Standish spent Sunday with Mr. and Mrs. Frank Larson and Mrs. Clara Sherman.

Bathtub Was Not Popular
The bathtub was invented in 1842, but at the beginning its use was frowned upon by doctors. It took about 80 years before the bathtub became generally acceptable everywhere.—Pearson's Weekly.

The Tuft-Hunter
The term tuft-hunter is applied to a person who tries to curry favor with the wealthy and great for the sake of feeding on the crumbs which fall from the rich man's table.

No Cows Brought by Pilgrims
No cows were brought by the Pilgrims to the United States in 1620. The first cows imported were in 1624, by Governor Winthrop, according to Albert S. Bolles in the Industrial History of the United States. These cows were raised primarily for hides, secondarily for meat, and only incidentally for milk.

Gibraltar the Key
Gibraltar, commonly called the key to the Mediterranean, is a British colony strongly fortified. It has a population of about 20,000 and depends for its prosperity on the trade provided by the local population and the services stationed there.

Books Painted in Colors
Books of the prehistoric Maya empire of Central America were written in hieroglyphics, painted in colors on parchment made from the leaves of the century plant.

3-Way Weapon of 16th Century
Back in the sixteenth century in England a maker of hand weapons produced a combination weapon. It consisted of a pistol, dagger and knuckleduster, or brass knuckles.

"Cradle of Liberty"
Faneuil hall, in Boston, is known as the "Cradle of Liberty," because it was a famous gathering place of Revolutionary patriots and many speeches for freedom were made there.—Pathfinder Magazine.

Moose and Reindeer
The moose is the largest animal in Europe and America and stands over six feet tall. The reindeer is the only deer which has antlers on both sexes.

Clock Directs Time in 4 States
A grandfather clock in a Philadelphia electric company directs the time for 8,000,000 people in four states and the District of Columbia.

Expansion of R. R. Rails
Trains ride more smoothly in hot weather because of rail expansion; a railway 400 miles long expands 333 yards in hot weather.

Delinquent Tax Notice
The 1933 and prior taxes will be sold May first, 1934.

Pay your 1933 and 1934 taxes before November first, 1935, and avoid interest and tax sale expense.

The 1932 and prior taxes can still be paid on the ten year plan.

The Check-up

YOU have your car inspected at regular intervals. It is of even greater importance to have a check-up of your automobile insurance made by an experienced insurance man. Let us give your automobile insurance the "once over" and make sure you enjoy the proper financial safeguards.

W. C. Davidson
Tawas City

"PAYING FOR DEAD HORSES" never builds a good highway system!

ROADS that need constant re-construction keep the taxpayer always "paying for dead horses." Year after year his taxes are paid, yet there's little money for new highways, widening, grade separations and other permanent improvements.
What a difference when each year's program includes new concrete highways! Reports from 18 states show that concrete costs far less to maintain—\$114 to \$469 per mile less per year—than other surfaces.
As you get more concrete and less inferior roads, annual maintenance costs are cut, releasing more and more funds for new roads, arterial streets, bridges and grade separations.
Even in first cost, concrete saves money over other pavements of equal load-carrying capacity. Concrete carries you safely and comfortably and with low cost for gas, oil, tires, and car repair.
Write for "Road Maintenance Costs" which tabulates in detail the experience of 18 states with more than 100,000 miles of pavement.

Write for free copy of "Road Maintenance Costs."

Peanuts Are Popular
 The history of peanuts in America is an interesting one. Up to the time of the Civil war a few peanut plants were grown in gardens in Virginia and the Carolinas for family use and curiosities. During the war the soldiers found the nuts to be excellent food, with the result that in the years following the end of hostilities the acreage assigned to them steadily increased. But it was not until the peanut thrasher, the mechanical peanut picker and the sheller were invented that they were grown and harvested on a large scale.

The Continental Divide
 The continental divide has been so carefully surveyed by topographers that there are places in southern New Mexico where the line is established although the slope in either direction is indistinguishable to the naked eye.

SHERMAN
 The woods are full of hunters these fine days. We believe everyone is doing his share of shooting.
 Mr. and Mrs. Hiram Pierce of Tawas City were here on business Saturday.
 Miss Grace Norris was at Mount Pleasant Saturday, where she is attending school.
 Mr. and Mrs. Jay Thomas, who spent the summer at Midland, stopped here while enroute to their home at Sand Lake.
 A number from here attended church at Whittemore Sunday.
 Mr. and Mrs. Silas Thornton were at their farm home near Harrisville Saturday, where they had an auction sale.
 Mrs. Calvin Billings and daughter, Mrs. C. Roush, were at Saginaw on business one day last week.
 Clarence Dedrick of Flint spent the week end at his home here.
 Mrs. Matt Jordan was at Omer Saturday, where she took her daughter for medical treatment.
 The bean threshers are in this vicinity. The crop is fairly good.

TOWN LINE
 Mrs. Thomas Ulman, who has been very ill, is some better at this writing.
 Mr. and Mrs. George Quick have returned to Bay City after spending a week with their parents, Mr. and Mrs. Arthur Freel.
 Mrs. William Bellinger is on the sick list this week.
 Howard Messler has returned to his home here after visiting relatives in Ohio.
 Mrs. Omar Frank returned home from Bay City much improved in health.
 Mr. and Mrs. Elmer Messler and daughter, Joyce, and Mr. and Mrs. Chas. Koepke spent the week end in Toledo, Ohio. Miss Joyce will remain there for the winter.
 Mrs. Joseph Freel has returned home after spending two weeks in Flint and Detroit with relatives.
 Fred Ulman is visiting his brother, Joseph Ulman.
 The hunters enjoyed the opening of the season this week.

Oldest School in Western World
 In Warwick parish, Bermuda, is the oldest school in the western world. Warwick academy, which once paid its schoolmasters 255 pounds of tobacco a year as salary. According to the records, it is more than three hundred years old.

Old Church Razed, Rebuilt
 After serving as an Anglican place of worship in Leeds, England, for 87 years, St. Phillip's church was torn down and the materials used to rebuild it at Middleton.

The Largest Whale
 The largest whale of which there is scientific record is the one 54 feet long which was captured and killed in 1907 and is on exhibition at the American Museum of Natural History.

State of Michigan
ORDER OF THE CONSERVATION COMMISSION — RACCOON IN THE LOWER PENINSULA.
 The Director of Conservation, having made a thorough investigation relative to trapping of raccoon in the Lower Peninsula, recommends certain regulations.
 THEREFORE, the Conservation Commission, by authority of Act 230, P. A. 1925, hereby orders that for a period of one year it shall be unlawful to trap raccoon in the lower peninsula, north of the north line of T 16 N, and west of Saginaw Bay excepting from November 15 to December 15, inclusive, and east of Saginaw Bay excepting from December 1 to December 15, inclusive.
 Signed, sealed and ordered published this 10th day of July, 1935.
 P. J. HOFFMASTER, Director,
 Department of Conservation, Conservation Commission by:
 W. H. Loutit, Chairman.
 Ray E. Cotton, Secretary. 3-41

Notice of Mortgage Sale
 Default having been made in the conditions of that certain mortgage dated the twentieth day of October, 1924, executed by Rupert A. Bentley and Margaret L. D. Bentley, his wife, as mortgagors, to The Federal Land Bank of Saint Paul, a body corporate, of St. Paul, Minnesota, as mortgagee, filed for record in the office of the Register of Deeds of Iosco County, Michigan, on the twenty-seventh day of October, 1924, recorded in Liber 24 of Mortgages on Pages 118 and 119 thereof,
 NOTICE IS HEREBY GIVEN THAT said mortgage will be foreclosed, pursuant to power of sale, and the premises therein described as All of Section Three and North Half of Section Ten, Township Twenty-two North, Range Five East; lying within said County and State, will be sold at public auction to the highest bidder for cash by the Sheriff of Iosco County, at the front door of the Court House, in the City of Tawas City, in said County and State, on Tuesday, January 7, 1936, at two o'clock P. M. There is due and payable at the date of this notice upon the debt secured by said mortgage, the sum of \$11,440.44.
 Dated October 5, 1935.
 THE FEDERAL LAND BANK OF SAINT PAUL Mortgagee
 R. J. Crandell, Attorney for the Mortgagee Standish, Michigan 12-41

First to Play Juliet
 In the first Shakespearean productions it was the custom to use boy actors for feminine roles. The part of Romeo was played by Burbage and an unidentified boy played Juliet in the earliest performances. Between the time of Burbage's death and the Restoration there are no records of Romeo and Juliet on the stage. From 1642 to 1660 parliament prohibited public stage plays. After the lifting of this prohibition, Sir William D'Avenant received from the king exclusive stage rights for the play. His original Juliet was Mary Saunderson, afterward Mrs. Thomas Betterton, who is apparently the first woman ever to have played the part of Juliet.

Second Largest Sugar Mill
 The huge sugar mill at San Fernando, do, Trinidad, is the largest in the British empire and the second largest in the world. Forty thousand tons of sugar were turned out there in one year.

First Steamboat on Pacific
 The first steamboat on the Pacific was the Beaver, launched at London in 1835.

United States Treasury Building
 From 1900 up to 1934 the leaf tobacco used for cigarettes increased from 13,084,037 lbs. to 326,093,357 lbs.; an increase of 2392%
 It takes mild ripe tobacco to make a good cigarette.
 During the year ending June 30, 1900, the Government collected from cigarette taxes \$3,969,191
 For the year ending June 30, 1934, the same taxes were \$350,299,442 an increase of 8725% —a lot of money.
 Cigarettes give a lot of pleasure to a lot of people.
 More cigarettes are smoked today because more people know about them—they are better advertised. But the main reason for the increase is that they are made better—made of better tobaccos; then again the tobaccos are blended—a blend of Domestic and Turkish tobaccos. Chesterfield is made of mild, ripe tobaccos. Everything that science knows about is used in making it a milder and better-tasting cigarette. We believe you will enjoy them.

SUCH IS LIFE—Natural Precaution

Housewife's Idea Box

To Prepare Prunes
Prunes, if properly prepared, are very healthful and delicious and require no added sugar or sweetener. Wash the prunes the night before, using warm water. Then place them in a saucepan and cover them with water. The next morning bring them to a boil. Cool and they are ready to serve.

THE HOUSEWIFE.

Stop on White
From now on a white cane is a stop signal in Memphis, Tenn., and motorists seeing one at an intersection must stop until cane and owner get across the street. Only blind persons may carry the white cane. It's a new ordinance.

Don't Guess But Know

Whether the "Pain" Remedy You Use is SAFE?

Don't Entrust Your Own or Your Family's Well-Being to Unknown Preparations

THE person to ask whether the preparation you or your family are taking for the relief of headaches is SAFE to use regularly is your family doctor. Ask him particularly about Genuine BAYER ASPIRIN.

He will tell you that before the discovery of Bayer Aspirin most "pain" remedies were advised against by physicians as bad for the stomach and, often, for the heart. Which is food for thought if you seek quick, safe relief.

Scientists rate Bayer Aspirin among the fastest methods yet discovered for the relief of headaches and the pains of rheumatism, neuritis and neuralgia. And the experience of millions of users has proved it safe for the average person to use regularly. In your own interest remember this.

You can get Genuine Bayer Aspirin at any drug store—simply by asking for it by its full name, BAYER ASPIRIN. Make it a point to do this—and see that you get what you want.

Bayer Aspirin

Quick, Complete Pleasant ELIMINATION

Let's be frank. There's only one way for your body to rid itself of the waste matters that cause acidity, gas, headaches, bloated feelings and a dozen other discomforts—your intestines must function.

To make them move quickly, pleasantly, completely, without griping. Thousands of physicians recommend Milnesia Wafers. (Dentists recommend Milnesia wafers as an efficient remedy for mouth acidity).

These mint flavored candy-like wafers are pure milk of magnesia. Each wafer is approximately equal to a full adult dose of liquid milk of magnesia. Chewed thoroughly in accordance with the directions on the bottle or tin, then swallowed, they correct acidity, bad breath, flatulence, at their source and at the same time enable quick, complete, pleasant elimination.

Milnesia Wafers come in bottles of 20 and 48 wafers, at 35c and 60c respectively, or in convenient tins containing 12 at 20c. Each wafer is approximately an adult dose of milk of magnesia. All good drug stores carry them. Start using these delicious, effective wafers today.

Professional samples sent free to registered physicians or dentists if request is made on professional letter head.

Warlike Habits of Butterflies Are Bared

Some Show No Hesitation in Attacking Birds.

Washington.—Butterflies are not pacifists. Boldness and pugnacity are mingled in species whose habits have been studied intensively by Austin H. Clark, Smithsonian Institution biologist. Some of the smallest species are among the most impetuous and warlike.

Thus, Mr. Clark observes, the little buckeye butterfly, common after midsummer in northeastern United States, will fearlessly attack wasps, bees, large flies, and butterflies much larger than itself. They will assault any other insect that passes within six or eight feet of them as they sit upon the ground.

Involved in Constant Feuds.
"They are very quarrelsome among themselves," Mr. Clark says. "There is a constant feud between them and the males of the pearl crescent butterfly, which swarm in moister spots along the roads."

"Perhaps the most interesting peculiarity of the buckeye is its intense dislike for the common Carolina locust. If one of these clumsy insects jumps up and takes to flight and there is a male buckeye near, the latter at once gives chase, flying behind, or on either side of it, but always keeping from two to four inches away. If the locust alights on the road, the butterfly alights simultaneously four or five inches to one side and slowly waves its wings in a menacing fashion. If the persecuted locust takes off again the butterfly is after it once more. If a locust pursued by a buckeye passes within 10 feet or so of another buckeye, the second will join in the pursuit, and sometimes a third will join.

"A Carolina locust pursued by a buckeye and trying to escape is a sight that may be witnessed a hundred times a day wherever the two insects are common."

Pearl Crescent a Fighter.
Another fighter, Mr. Clark finds, is the pearl crescent, one of the commonest butterflies in weedy fields. It will dart viciously at larger grasshoppers, flies, bees, and especially at the larger brown butterflies, against which it seems to maintain a special enmity.

Some common butterflies, Mr. Clark says, have no hesitation in attacking birds. One of these is the Camberwell beauty, which he describes as "bold, pugnacious, and aggressive. When two meet they will often rise battling to a height of 20 feet or more. In the open it will dart viciously at the larger dragonflies that venture too near the willows on which it rests, and will also dart at the smaller birds, sending them to cover."

The only other butterfly that habitually attacks birds is the common "milk-weed butterfly," which normally is one of the most peaceful in disposition of all its race. Between males of this species there are only feeble, half-hearted fights; but it entertains a special animosity for hummingbirds.

"In spite of its essentially peaceful disposition," Mr. Clark says, "it is not without courage, for it will attack most viciously a hummingbird so incautious as to approach too near the flower on which it is feeding, always badly frightening the bird, which makes off in a straight line as fast as possible."

Golf Ball Mine Found
Clinton, Mass.—ERA workers, clearing brush from the woods near the Runaway Brook club at Bolton, discovered 627 golf balls. The balls, which filled a bushel basket, had been lost during the 37 years that the club has been in existence.

RED INK
By LEONARD A. BARRETT

In one of our recent financial journals we read the report of a corporation engaged in selling ink. As an explanation of the decrease in profits, reference is made to decline in orders for red ink. Prosperity is returning and more business concerns are declaring dividends. Books are being closed with black ink, when formerly red ink was used. Perhaps it was not intended that these remarks should be taken seriously, nevertheless, we believe fewer corporations need the use of red ink in closing their books.

Economists are arguing that we are rapidly emerging out of the depression. Prosperity, they say, is slowly but surely creeping upon us. The old order is passing and the new, with its optimism and enthusiasm, is at hand. Perhaps these economists are right. It may be true that we are in the last days of the depression. Perhaps it is

Infant Prodigy

Dr. Bryng Bryngelson, director of the University of Minnesota speech clinic, described twenty-month-old Jackie Grub of Robbinsdale, Minn., shown above, as a "genius." Jackie, who is left-handed, has a vocabulary of 1,100 words. He has an intelligence rating of 260 on the Binet-Simon scale on which 165 is supposed to indicate genius. Jackie has passed the test for three-year-olds and two of the tests for four-year-olds.

not untimely that we ask the question, are we any better off because of the depression? Has it taught us anything of permanent value? Has the anxiety, hardship and hunger of the past three years revealed to us anything of real value? Are we going to profit by our experience? Opinion seems to be equally divided on this question.

Human nature is a strange mixture. We very soon forget. The psychology of the mob is intensely interesting. Perhaps it is fortunate at times that we do so easily forget, at other times it may be very unfortunate. In this early period of recovery we hear the remark, that things will be just the same as they were before. We shall witness the same extravagance, the same riotous living in high places. We are wondering if this is going to be the case? It hardly seems credible that a country that suffered so deeply should not retain something beneficial upon which to build the new order of things. We prophesy that it will. We suggest that the future era of prosperity will rest upon a more solid foundation than speculation and fictitious values, we shall build less upon borrowed money, a less number of homes will be mortgaged for pleasure purposes, and the system of "time" payments will be less abused. We further suggest that the basic moral values of integrity and economy will have a greater claim upon us. Do those who read this article agree, or is this only a wild gesture of the imagination? Will any permanent good come out of the depression?

The Household
By Lydia Le Baron Walker

IRONING boards must be properly covered if the ironing done on them looks expert. Irons must be in best condition also, and be of the right temperature. With electric irons the heat is intermittent as with the ordinary irons heated from without instead of within themselves. With the electric iron this is because of the need of alternating current. With the ordinary flat iron the change of temperature comes with the cooling of it during use, and the increase of heat when it is exchanged for one from the stove. The great advantage in using an electric iron in hot weather is that no fire is needed. The current of heat from the iron does not permeate the room and the temperature can be kept lower than when a fire must be going. With either kind of iron the work can be equally as well done.

An ironing board must be well padded. The padding must be without seams, and be in one piece. It must be long enough to extend the full length of the board and be wide enough to reach from side to side of the widest part of it. Boards can be padded with material at hand or pads can be bought. Unless they fit your particular size of board they are inadequate. One pad may do, but two pads are preferable. The more give there is to the board when ready for use the better, up to a certain point. Too deep padding retards ironing.

Extra Padding.
If extra padding is needed for ironing embroideries, etc., which should be in relief, use a pad of soft cloth, such as a Turkish towel. The reason why the board must be free from seams, from patches and creases, is that each one will make its imprint on the ironed garments, and mar the perfection of the work.

The board must be straight and even. A warped board or a split one should be discarded, unless mended to even it. Sometimes planing a warped board will renew its usefulness, and strips screwed underneath the board may restore a broken one. The end of the board over which garments are positioned must be smooth and free from pins, tacks, or anything that might catch materials.

Irons should be waxed occasionally to make them glossy smooth. An ordinary candle end will do the job as successfully as will other lubricants. If starch gets onto the iron, use a knife held with blade flat against the iron and scrape and then rub with wax. Always rub the freshly waxed iron well on paper or a cloth before iron-

ing clothes with it as the wax will make grease marks.

Thoughts and Actions.

Few persons understand that there is a time of reaping of the seeds of thought and action which they sow. Youth is the lavish time for sewing, mature years are those for garnering. Many of these little seeds, however, block up our way with rank weeds that have thorns and dense growth, through which it is difficult to plough our way. Not all seeds are those of good or bad actions. Many are of thoughts, apprehensive thoughts that tangle our ideas, worrying thoughts that cause sleeplessness and frequently bring illness in their wake, jealous thoughts that rend our hearts and bring unhappiness to us and often to those we love. The reaping is as sure as the sowing.

"No one will know, if I do this or that," so youth and adults often reason. Yet in time the effect of what was sown is plainly to be seen in the lines of a face, in the look in the eye, in the bloated visage, or the loose mouth, or it may be in the reverse, and loveliness of character shines forth with its mellowing grace that illuminates a face even though it may have far from handsome features. We all know faces of these descriptions and we realize it is not chance that causes the repulsive or the charming look. Each is evidence of the seeds the person has sown.

Sheath-Like Gown

Madonna sheer blue silk is developed into a sheath-like gown with the fullness concentrated in front. A handsome lame wrap of silver and purplish blue to match the dress completes the ensemble. Jeweled ornament of antique design.

Cross-stitch is about the simplest thing in handwork. Little girls make their stitches in cross-stitch. These six-inch blocks are stamped in cross-stitch designs on white muslin and little girls to grandmothers will enjoy making them into everything from small dollies to pillow tops, scarfs and bedspreads. Easy to carry around, working one at a time and then assembling into article wanted when all the squares are finished.

Outfit No. 46-4 consists of 6 of these six-inch stamped squares and will be mailed to you for 10 cents.

Address Home Craft Co., Dept. A, Nineteenth and St. Louis Ave., St. Louis, Mo.

Energy

The longer I live, the more I am certain that the great difference between men, between the feeble and the powerful, the great and the insignificant, is energy—invincible determination. A purpose once fixed, then death or victory. That quality which will do anything that can be done in the world.—Buxton.

OLD KING COLE
IS A MERRY OLD SOUL
NOW THAT HE EATS ROAST BEEF...
HE HAS HIS TUMS
IF HEARTYBURN COMES...
THEY GIVE HIM QUICK RELIEF!

LEARN HOW TO EAT FAVORITE FOODS

Without Heartburn... Gas... Sour Stomach
MAKE the test that has switched millions to Tums. Munch 3 or 4 of them after eating a meal of your favorite foods or when too much smoking, hasty eating, last night's party or some other cause has brought on acid indigestion, sour stomach, gas, belching or heartburn. See how food "tums" vanish. You are not taking any harsh alkalis which physicians say may increase the tendency toward acid indigestion. Instead a wonderful antacid that works in an unusual way, by dissolving only enough to correct stomach acid... just like candy. Only 10c a roll. At all drug stores.

FREE: This week—at your drugstore—Beat the Heat with the purchase of a 10c roll of Tums or a 25c box of NR (The All Vegetable Laxative).

Wise Determination

The truest wisdom is a resolute determination.—Napoleon I.

A Three Days' Cough Is Your Danger Signal

No matter how many medicines you have tried for your cough, chest cold or bronchial irritation, you can get relief now with Creomulsion. Serious trouble may be brewing and you cannot afford to take a chance with anything less than Creomulsion, which goes right to the seat of the trouble to aid nature to soothe and heal the inflamed membranes as the germ-laden phlegm is loosened and expelled.

Even if other remedies have failed, don't be discouraged, your druggist is authorized to guarantee Creomulsion and to refund your money if you are not satisfied with results from the very first bottle. Get Creomulsion right now. (Adv.)

PARKER'S HAIR BALSAM

HELP KIDNEYS

WHEN kidneys function badly and you suffer backache, dizziness, burning, scanty or too frequent urination, getting up at night, swollen feet and ankles; feel upset and miserable... use Doan's Pills.

Doan's are especially for poorly working kidneys. Millions of boxes are used every year. They are recommended by users the country over. Ask your neighbor!

DOAN'S PILLS

New Twin Destroyers Are Launched

Scene in the navy yard at Charlestown, Mass., as twin destroyers, latest additions to the American navy, were launched. The Conyngham, at left, was named for Capt. Gustavus Conyngham, who served in the Continental navy during the Revolution. The Case, at right, was named for Admiral Augustus Ludlow Case, hero of the Mexican and Civil wars.

World's Most Famous Babies Eat Oatmeal

The Dionne Quintuplets, wards of the King, eat the same cereal that is eaten by millions of babies who don't get their names in the papers—oatmeal. The Canadian government chose a staff of special experts for the care of the Quints. And these experts, their scientific knowledge endorsing the instinctive choice of mothers the world over, have chosen oatmeal for the cereal of the famous five.

Oatmeal, eminent medical authorities agree, has an abundance of everything a child's cereal should have—body-building minerals, muscle-building protein, and the supremely important Vitamin B for keeping fit.

Food science says that Vitamin B is the best safeguard against those dangerous enemies of childhood—nervousness, constipation, and poor appetite due to lack of that vitamin in the diet.

Domesticated Wolves

The Moscow zoo boasts of two wolves which apparently are as tame and trustworthy as dogs. They were captured when they were puppies and ever since have been given kind and patient training. Their utter lack of viciousness and desire to return to their native element seems to indicate the fallacy of the belief that grown wolves become dangerous even though they have been trained from puppyhood.—Pathfinder Magazine.

NO UPSETS

The proper treatment for a bilious child

A cleansing dose today; a smaller quantity tomorrow; less each time, until bowels need no help at all.

ANY mother knows the reason when her child stops playing, eats little, is hard to manage. Constipation. But what a pity so few know the sensible way to set things right!

The ordinary laxatives, of even ordinary strength, destroy all hopes of restoring regularity. A liquid laxative is the answer, mothers. The answer to all your worries over constipation. A liquid can be measured. The dose can be exactly suited to any age or need. Just reduce the dose each time, until the bowels are moving of their own accord and need no help.

This treatment will succeed with any child and with any adult. Doctors use a liquid laxative. Hospitals use the liquid form. If it is best for their use, it is best for home use. The liquid laxative they generally use is Dr. Caldwell's Syrup Pepsin. Any druggist has it.

WATCH THE CURVES

By **RICHARD HOFFMANN**

Copyright by Richard Hoffmann WNU Service

CHAPTER X—Continued

Her cheek moved, touching his, until their lips came together in the gentle beginning of belief; and then the soft, near shadow of her husky whisper said, "Poor, dear darling—they haven't even let you"—she paused for the shadow of her soft chuckle too—"let you shave."

The exultance of laughter that ran from Hal's swelling lungs was a month of sunny convalescence crowded in one liquid moment; and he let her precious body free then, long enough to take away the hat that kept her hair from shining over this improbable return of all hope.

"Kind heaven!" he whispered. "My own dearest, don't you care what I've done? Are you taking me back out of the rotten, empty death I made for myself? Barry, you—"

"You've done nothing to me," she said against his speaking, her head nodding in a gentle negative: "except be all the things I want you to be—except make me love you." And her soft lips came back more closely.

Under his full, aspiring enchantment, brisk thoughts began to hurry about the means of preserving this miracle among its dark circumstances, to build up the sedulous patienties that must guard ecstasy forever now, against anything. He said carefully, unanxiously, "Barry, who knows where you are?"

Her head moved a little, and she said, "No one, my darling." "You can stay hidden then—a little while—till I can get my discharge or sneak out of this d—n place, and we can get a boat for Japan, Australia, anywhere far away."

She made a quick exclamation, almost as of pity; both her hands came to his cheeks in a more precious cherishing of him; and as her head moved back, he saw tears come to the sudden wonder of her eyes.

"You would," she said in marveling softness, "You'd do that for me." There was reverence, an awed humility in her slow kiss. Then she raised her head again to watch his eyes, and she said, "I didn't kill him."

Before his new incredulity, she half straightened over him, one hand smoothing the hair back from his temple.

"No," she said in dreaming gentleness, "I didn't kill him. I didn't have to."

"Kerrigan!" said Hal with swift conviction, swift remorse at having forgotten him till now. "They haven't caught him," he stated slowly.

"No," she said. "And they won't. He's gone somewhere; he wouldn't tell me. I said good-by to him last night. I've got a letter for you from him."

He moved his fingers over her smooth brows, down the sure modelling of her cheek to the full, honorable lips. And all the time her tender eyes watched him as if he were the thing so difficult to believe in all this.

Inside Kerrigan's long fat envelope were his letter, four or five telegrams, and a folded document. Hal went first to the letter:

CAUGHT in the WILD

Robert Ames Bennett's new thrill-novel of a plane lost in the untracked North.

How Alan Garth fought to save the lives of three tenderfeet—while they were plotting to kill him and seize his platinum strike—is one of the most exciting stories yet to come from this favorite author. CAUGHT IN THE WILD begins next week in this newspaper. Be sure to begin with the first installment.

Don't miss a single chapter of this serial starting next week in this paper

"Sport. Besides my ambition to kill a man in the cool of the blood (which is satisfied and cured, let me tell you), I've wanted to play god to people I loved. It isn't going to be so very godlike unless I get away with it. It was tough standing you in the corner so long. But the thing was no soap unless it embodied the latest aerodynamic principles. There wasn't much time to read up on those during our slight buggy ride of the other night; and I had a h—l of a time getting your girl's unconditional promise to go straight to you—before the fireworks."

"The police get my confession today, as near a perfect example of the confessor's art as an old legal friend can make it. You're left out of everything entirely. They'll have to see Barry, I guess, but she knows her story (you'd be surprised how tough it is sometimes to whip the truth into plausibility). The thing may not be watertight, so I'll be watching in the bushes till it's over; and if anything blows up, I'll take care of it. You stay out of it. For Barry's sake, your father's, mine, anybody's. Do me that one holy favor, Hal. Don't go chivalrous on us. It would wreck the works."

"Enclosed please find documents, which hide under some lonely cobblestone till everything's in the bag, then burn. Here are telegrams about who you are and aren't, and that incrimination the late Martin Crack got from Barry's father."

"Do this for me too, sport, will you? The first three days of the next month after it's all over, run a Personal in the Chicago Tribune, addressed 'Colonel,' saying you're married, what town you're living in, and whether your father's N. Y. bank is a good place to write you congratulations."

"Some day we'll hoist a couple more, and I'll tell the kids about Wyoming. Hasta la vista; and good luck, you lucky guy; but always be sure there's one old railroad man who believes you rate it. K."

Hal looked up at Barry when he had finished. And quietly she explained: "He killed him, Hal, and then he went down to the street and stood there for an hour—to keep me from going in. It had taken me so long to—find my courage."

Her head was up, the grace of its carriage unoppressed by anything that had happened or nearly happened, invulnerable to shame and fear and remorse because the bravery behind her eyes could not invite those things. The beauty of her face was so simply, so wonderfully arrived at: the white, straight nose; the faint indrawing of her smooth cheeks that seemed to make her untouched lips push a very little forward; the clear candor of her eyes that wanted to show him anything he should desire; the direct curve of eyebrows and the white forehead; the rich, parted fold of gold so simply ended in the thick upturnings at her neck. Whether it was more painfully beautiful to believe in the possession of her or to believe her a dream, Hal couldn't tell. He knew he would risk nothing of that beauty again—ever, in the smallest way. It might still be the boat for Australia. And in the meantime, in case the police—

"Barry," Hal said in the crispness of immediate necessity, "the first thing you've got to do—"

Her cool hand came against his mouth. "The first thing—" she said, her quiet voice near huskiness, her clear eyes untouched by his concern: "more important than any old unshaven thought of yours—" She bent over in quick, supple grace and whispered at his ear, "Hal, do you love me?"

[THE END]

Wet and Wetter Seasons
Most of us are familiar with the fact that tropical countries usually have two seasons, wet and dry. But the Malay peninsula, where we find the Federated Malay states, has as much rain that the seasons are known as the wet season and wetter season.

Crescent City

Many of New Orleans' Paving Stones Came from Europe.

Prepared by the National Geographic Society, Washington, D. C.—WNU Service.

LOUISIANA to the average layman means New Orleans. Whenever the visitor goes in Louisiana, he starts from and returns to the metropolis of the Delta state. He may find it necessary to travel over many states to match in some measure the varied features and resources of Louisiana; he will travel the length and breadth of the land and yet never encounter another New Orleans.

To the business man, it is a great port, second in the United States in tonnage of foreign imports and exports; to students it is the seat of three splendid educational institutions, Tulane, Loyola and Newcomb; to the artist it furnishes a rich field for work.

One can imagine that after the astute and adventurous French Canadian, Jean Baptiste Le Moyne, Sieur de Bienville, had selected the site for the future city of New Orleans in 1718, he said to his engineer and city planner, Le Blond de la Tour, "Let's have a cup of coffee while we discuss the details of our new settlement."

At any rate, few affairs of importance or otherwise have been discussed in New Orleans since that historic date except "over a cup of coffee." Here, as in the Near East, business seems to function more easily to the accompaniment of sips of the bitter, black, "French drip" than in any other way, and the most harassed executives will pause for ten minutes in mid-morning, leave their offices and go to the restaurant or the hotel in the same or the next block for a cupful of coffee—nothing more.

After a few weeks in New Orleans the visitor is led to wonder how the great two-million-dollar coffee terminal is able to handle the imports of the brown berry for the state's own use, much less provide for the "every third cupful consumed by the nation."

They All Drink Coffee.
On the top floor of one of the most progressive banks in the state—and in countless other establishments, no doubt—there is a special kitchen and dining room to which the employees retire when the bank doors close to the public at three; after their cup of coffee they return to their desks. In one big manufacturing plant every workman brings him each morning a small coffee pot, which he deposits under his pet steam-leaking valve, so that, as the condensing hot water drip-drip-drips constantly, he provides himself with small quaffs of the beverage throughout the day.

But coffee is not New Orleans' sole contribution to gastronomic indulgence. In no other city in the country is a visitor within the gates invited to dine oftener or more lavishly than here. The Creole tradition has handed down for 200 years the French respect for and art in the preparation of food.

In the old French quarter, which looms so large in the life of New Orleans, but which in area occupies only a few blocks in this city spreading over nearly 200 square miles, there are half a dozen restaurants whose reputation is nationwide. Their appointments are not lavish and they are modest in size, but when, for example, one of the Alcatrazes welcomes you to his establishment—there are two branches of this family of famous restaurateurs, each a bitter rival of the other—and you ask him to plan your dinner, you will feast upon dishes over which the original Lucullus might have gloated.

The visitor's first impression of his table is that it has a peculiarly "bare" appearance. Then he realizes that salts and peppers and sauces are conspicuous for their absence. When you are served with, let us say, some of those marvelous baked oysters on shells imbedded in salt crystals to keep them hot, and garnished with a mysterious spinach concoction, you may be sure that they are seasoned exactly to the taste.

Don't Insult the Chef.
Of course, if you have a "boorish" taste and require more salt, or more tabasco, or more whatnot, you may have it for the asking, but it will not be flattering to your vanity to catch the fleeting glint of contempt in the eye of your server, and it is well that you do not hear the comments of M'sieur le Chef when he receives a report concerning your sacrilegious behavior!

In its physical aspects and problems, New Orleans is unique among cities of the United States. It has been built in a vast crescent which the Mississippi describes here, 107 miles from the South Pass outlet into the Gulf.

This crescent gives the city special advantages, in that it affords an almost unlimited river frontage for shipping; but it also handicaps the metropolis of the South in a way that only exceptional engineering genius has been able to overcome.

Practically the entire city lies below the mean level of the Mississippi, and in times of occasional extreme high water the river surface is as much as 22 feet above some sections.

Such conditions not only make necessary the maintenance of great levees to keep the river water out of the city, but entail tremendous problems in disposing of rain and seepage.

Drainage Is a Problem.

To meet these natural handicaps, a corps of engineers has designed a unique drainage pumping system. Experts come from all parts of the world to study its operation. So heavy is the burden which a long, hard rain imposes on the vast network of pipes upon which New Orleans sits, that the pumps must have a capacity of seven billion gallons a day to lift the flood waters out of the city into Bayou Bienvenue and Lake Pontchartrain. In comparison with the entirely separate water supply system, the drainage system could pump enough water in three days to supply the whole city for a year.

The sewage of New Orleans, discharged into the Mississippi below the city, 20 feet below mean water level, requires still a third and independent system, whose modern development has come since 1907. And in the story of its installation lies one of those romances which one encounters on every hand in this city, to which a gifted local historian has so aptly applied the title, "Fabulous New Orleans."

The sewage pumps originally designed for the system developed only 50 per cent efficiency, whereas contracts specified 60 per cent efficiency. The contracting manufacturers, in defense, declared that no pump could be built that would meet the requirements.

Just when this impasse had been reached, a young engineer, recently graduated from Tulane university, appeared on the scene with a set of drawings and specifications for a revolutionary type of pump. He succeeded in convincing the authorities that it might do the work.

And the pump did work. And the best part of the story is yet to come: The young engineer, offered many times his then modest salary to go with various manufacturers and municipalities, preferred to remain and help to solve other engineering problems for New Orleans. He was given the opportunity to design the bigger pumps of the present drainage system, and thus he has been provided with a great practical laboratory in which to develop his ideas.

Difficulties for Builders.

The geographical location of New Orleans presents difficulties to architects no less than to waterworks and sanitary engineers. The land upon which it rises is the soft alluvial soil brought down through the centuries by the river. There is no bedrock upon which to establish heavy structures, yet the city's skyline is serrated with lofty spires, domes, and airy rectangles. When a big building is projected in New Orleans, instead of steam shovels and blasting drills, a fleet of pile drivers goes into action. Huge crosstied timbers are sunk side by side on the site. In the case of foundations for towering office buildings, hotels, auditoriums, and apartments, these piles are often 80 feet long. Each pile, after being driven down to the ground level, is countersunk to a depth of 10 or 20 feet. Then the top soil is scraped off and the substructure begun on its 80-foot-thick wood foundation.

Few visitors who come under the spell of New Orleans are inclined to think of the city in terms of merchandise and manufacture. Here one finds so much that is matchless in its mellowness that solid statistics are as a dull appendix to an absorbing volume of romance and adventure.

The very stones of the pavements, many of them brought from abroad, have their fascinating story to tell. Upon the small plot of ground known originally as the Place d'Armes and now called Jackson Square have been enacted some of the most stirring events in American history. Here the French troops were accustomed to parade; here the sovereignty of Louisiana was transferred from France to Spain; here most of the important meetings affecting the lives of the Colonists were held; here took place the ghastly executions of Colonial times, as when revolting Swiss mercenaries were nailed alive in their coffins and then sawn in two!

Hamburg Steak Is Good Choice in Preparing Very Quick Meal

Hamburg steak is a good choice for the meat at a quick meal. The easiest and quickest way to cook it is to season the meat and form it into one flat cake. Place this under the broiler or in a hot oven. When it has browned take it out and sprinkle with finely minced raw onion. If it is baked in the oven the onion may be put on top before cooking and browned.

Another way of seasoning Hamburg steak is to make it "white with salt, black with pepper, yellow with mustard" before cooking. I am suggesting rice instead of potatoes to serve with the meat.

Rice can be cooked in about twenty minutes. After it is drained it may be stirred into a frying pan containing about two tablespoonfuls of melted bacon fat and a quarter of a cup of minced green pepper. It should be stirred with a fork over the fire until heated through.

New cabbage, shredded, will cook in boiling water in about ten minutes. Be sure not to cover it while cooking. It is good dressed with a little cream or top milk after it has been drained.

Grape conserve is a favorite winter jam, and if you get an opportunity to buy a basket of grapes at a reasonable price you will get full value for your money, for grape conserve and buttered toast are an unbeatable combination.

The ever-popular dill pickle is one which is usually made in large quantities, but there is really no reason why they cannot be made in smaller lots, if desired.

- Dill Pickles.**
Grape leaves
Bunch of dill
Cabbage leaves
1 1/2 gallons water
1 lb. coarse salt
1 peck 6-inch cucumbers

Add salt to water, bring to boiling point, skim. Scrub cucumbers, dry, put layer in bottom of crock, add layer of grape leaves, then bunch of dill. Repeat until all cucumbers are used, and cover top with cabbage leaves. Put ten-pound weight on and fill with brine. Cover and let stand until cucumbers are transparent and light in color—two to three weeks.

- Indian Curry Sauce.**
3 tablespoons oil
3 white onions
3 tablespoons curry powder
1/2 teaspoon ground mixed spices
1 can tomatoes
1 cup stock
1/2 green pepper
1/2 lemon
Use heavy kettle if possible.

CARE IN CHOOSING BOOKS FOR CHILD HAS ITS REWARD

The story of Abraham Lincoln and his struggle for education gives the cue to Alma H. Jones' article, "Satisfy Your Child's Book Hunger," in Hygeia.

"Books are to the mind what sunshine is to the body," implies that just as the well cared for child receives daily sun exposure as an aid to physical growth, so also should he receive early "exposure" to lullabies, rhymes and stories, which constitute aids to mental and emotional growth.

Very early the child needs to establish right attitudes toward books. By the time a child is fifteen or eighteen months old he can easily learn to handle a book without tearing the pages, if the paper is strong and the pages are not too large. Young children who are not yet able to read enjoy picture books or picture-story books.

Though considerable emphasis is placed on the importance of children of school age reading for themselves and in quantity this should not be interpreted as a reason for ending the reading or story-telling hour of parents and other adults. Through such means the young boy or girl may be stimulated to more difficult reading on new subjects, for the parent or adult may interpret through voice or explanation much that would otherwise be lost on the child who does not read easily. There is permanent value as well as present pleasure in the story hour.

The general characteristics of a good book include large clear type, an uncluttered, well-paragraphed page, a pleasing appearance, a lively tale and a well-sustained reader interest.

Brown chopped onion in the oil. Add remaining ingredients, except lemon, and allow to simmer gently all day until cooked down to the consistency of a sauce. Last half hour add the lemon chopped fine. Place in glass or stone crock, cover and store. Serve with lamb, chicken, ham.

- Pumpkin Chips.**
2 pounds pumpkin rind
2 lemons
1 green ginger root
1 1/2 pounds granulated sugar
3/4 cup water, if needed

Remove outer skin and seeds and cut rind into stripes about one inch wide. Cut strips crosswise into thin chips. Place the chips in a deep dish with alternate layers of sliced lemon and sugar. Allow to stand twenty-four hours. Add the water and ginger and cook gently until the pumpkin is transparent and tender and sirup like honey. Pour into hot jars and seal with paraffin. Serve with fowl and cold meat.

IT'S NOT IN MANY CEREALS

Nothing anyone eats is more important than Vitamin B—the vitamin for keeping fit. Yet it isn't in many cereals, when cereals are supposed to be our best source of this food element.

Many are nervous, poor in appetite, system out of order, because their daily diets lack enough of the precious Vitamin B for keeping fit. Few things keep them back like a lack of this protective food element.

So give everyone Quaker Oats every morning. Because in addition to its generous supply of Vitamin B for keeping fit, it furnishes food-energy, muscle and body-building ingredients. For about 1/2c per dish.

Start serving it tomorrow for a 2-weeks test. Quaker Oats has a wholesome, nut-like, luscious appeal to the appetite. Flavors, surpassingly good. All grocers supply it.

IN VITAMIN B FOR KEEPING FIT... 1c worth of Quaker Oats equals 3 cakes of Fresh Yeast

Quaker and Mother's Oats are the same

Ambitious Man
An ambitious man puts it into the power of every malicious tongue to throw him into a fit of melancholy.

Dyes Kill Cultures
Minute quantities of aniline dyes known as brilliant green and mala chite green will kill cultures of the parasitic fungus that causes "athlete's foot."

Kings Died of Tuberculosis
In the 500 years when the Valois and Bourbons ruled France, 21 French kings died from tuberculosis, says Hygeia, the Health Magazine.

Switching Off Current
It is more economical to switch off the electric lights even for a few minutes. For switch-controlled electrical machinery, such as motors, that consume a relatively large amount of current in attaining maximum speed and efficiency, it is probably cheaper to let them run for a short period when not needed, rather than switch them off and on.

The Canada Goose
The Canada goose is the best known and most highly valued of the several species of wild geese that breed each summer in the far reaches of the Northwest territory. Nests of the Canada goose have been found as far north as Great Bear lake through which the Arctic circle passes.

Canada Has 18 National Parks
Canada's national parks number 18 and have a total area of 12,059 square miles.

N. Y. Had First Hotel Elevator
The first hotel to install an elevator was the Fifth Avenue in New York city in 1859.

Growth of Fishes
The growth of fishes probably decelerates with age, but under favorable circumstances it never stops. If fish growth were shown on a graph, the weight curve would show a steady upward line, but the length curve would ascend rapidly at first, then almost straighten out. That is because as the fish grows large, the corresponding increase in girth tends to make the weight increase rather constant.—Detroit Free Press

Indeterminate Sentences
In criminal law an indeterminate sentence is a sentence which fixes the period or amount of punishment only within certain limits, leaving the exact term or amount of punishment to be determined by the executive authorities, usually a board of managers. The term is applied to such sentences where the release before service of the maximum period is upon parole as well as where it is by absolute discharge.

Rights "Rent the Sea"
The only country in the world which allows individuals to collect a private toll from deep-sea fishermen is Denmark. For many centuries it has held steadfast to a law which gives the owner of shore land the right to "rent the sea" in front of his property for fishing. In some years this total rent has amounted to as much as \$250,000.—Collier's Weekly.

Ozone Lower than Believed
The ozone layer in the atmosphere is lower than scientists have believed. Seventy per cent of the ozone is below the 18-mile height. Balloons carrying spectroscopes are used to study the ozone layer.

Solomon Islands
The discoverer of the Solomon Islands named them for King Solomon because it was believed that these islands supplied the gold for his temple. There is no proof of this, however. The natives eat lizards, crocodiles and missionaries. Tobacco is used as currency there.

Mourning Doves
Mourning doves subsist chiefly on seeds, but bird lovers say that the service they perform is almost equal to that of the insectivorous species. The season for feeding their young comes opportunely, says the Indianapolis News, as they consume great quantities of weed seeds. Such grain as they eat is mostly waste in stubble fields. The United States Department of Agriculture, through its biological survey, has classed the dove as one of the useful birds and while it is shot in the South as a game bird, it is protected in most of the states and Canada.

Fiance, Fiancee
Both masculine and feminine forms fiance, fiancee, are pronounced alike—fian'se—[as in police, as in art] with a nasal sound, e as in prey and the main stress on the final syllable.—Literary Digest.

School Notes

High School
The Freshmen, after having amused the assembly during the day with their quaint costumes, were pleasantly entertained Friday evening as guests of the Sophomores. After the grand finale, a tour through the dark halls of the school building which previously had been crowded with all kinds of encumbrances, the Freshmen felt sure they would at last be accepted as members of the Tawas City high school.

We desire to call attention to the talk to be given in the high school assembly room Monday evening, October 21, at eight o'clock by Dr. No-Yong Pao. Dr. Pao is a graduate of the University of Minnesota, and holds the degrees of Master of Arts and Doctor of Philosophy from Harvard University. The price of admission for students is ten cents and twenty cents for adults.

The second lecture of the Parent Education Series of the University of Michigan will be given at 1:30 over W.J.R. Sunday. The topic is: "Causative Factors of Juvenile Misbehavior."

Seventh and Eighth Grades
Gloria Wright visited our room Tuesday afternoon. Miss Huhtala has been giving us some lessons in music appreciation. These lessons are very interesting when the victrola is used in connection with them.

We are glad to have a vacation Thursday and Friday, when Mrs. Bielew will attend the Teachers' Institute in Flint.

Fifth and Sixth Grades
The fifth grade hygiene class is making health posters on cleanliness.

Richard Prescott and Ellen Malcolm wrote the best geography papers on the British Isles in the sixth grade.

Primary Room
Janet Musolf is absent this week. She is visiting in Lansing. Inez Ulman is back at school after a two weeks absence due to illness. Mary Louise Kaiser entered the first grade Thursday.

Game License Fees

| | |
|--|-------|
| Resident small game, including fur-bearing animals except beaver and muskrat | 1.00 |
| Resident deer, including bear | 2.25 |
| Camp permit for deer | 8.00 |
| Non-resident small game | 5.00 |
| Non-resident deer | 25.00 |
| Taxidermist | 5.00 |
| Beaver trapping (limit eight in season, \$1 seal attached to each pelt) | 2.00 |
| Muskrat trapping, 20 traps | 2.00 |
| Each additional trap over 20, 10 cents each. Not more than 100 traps may be used | |
| Resident fur dealers | 10.00 |
| Non-resident fur dealers | 50.00 |

Notice
We are offering for prior sale, used car timbers ranging in sizes 3 1/2, 4, 4 1/2 and 5" thick x 7 and 9" wide x 34 ft. long. Please address the undersigned for prices.
R. W. Hickey, Purchasing Agent, Detroit and Mackinac Ry. Co., 4-42 Tawas City, Michigan.

Stew in Own Shade
There are few spots on earth where trees, and people and things like that have to stew in their own shade. But Tahiti is one of them when the noon hour rolls around. The sun is exactly at its zenith, and shadows fall so perpendicularly that the outline of each coconut palm is traced evenly around the base of its own trunk.—Detroit News

Bay of Broad Creek
About four miles down the Potomac river below Alexandria, Va., on the Maryland shore, is the bay of Broad Creek and the community of Broad Creek, Md. More than 240 years ago an Episcopal church was organized here by the first dwellers. The parish was at first known as Piscataway, afterwards King George's and the Church of St. John's. The first house of worship was of logs and was built in 1694. It was rebuilt with brick in 1722 and enlarged to its present dimensions in 1763.

1,600-Acre "Classroom" Used
One classroom at Montana university, Missoula, Mont., covers 1,600 acres. It's the forestry school's laboratory in Pette canyon—a stand of virgin yellow pine, five times the size of the campus.

The Check-up
YOU have your car inspected at regular intervals. It is of even greater importance to have a check-up of your automobile insurance made by an experienced insurance man. Let us give your automobile insurance the "once over" and make sure you enjoy the proper financial safeguards.

Sale Of Eggs By Weight Effective November 1st

Sale of eggs by weight instead of by the dozen is provided for in the new egg grading regulations established recently by Commissioner of Agriculture James F. Thomson. The regulations become effective November 1st and are in keeping with similar regulations established in leading egg producing states throughout the nation.

Commissioner Thomson's order establishes four grades of Michigan eggs, fancy, and grades A, B, and C. All eggs will be classed in one of these grades on a quality basis irrespective of size. Thomson maintains that the regulations will improve the reputation for Michigan eggs; that producers will be encouraged to take better care of their flocks; that dealers will have the authority of the state back of them in classing eggs in respective grades, and that the consumer will receive the exact quality and quantity of eggs for which he pays.

A state wide committee of seven members representing the producers, dealers, retailers and consumers has collaborated with Commissioner Thomson in formulating the rules.

Michigan produced 84,670,000 dozen eggs in 1934. The average price was 23.7 cents per dozen. The average price paid in California was two cents per dozen higher and in New York state three cents per dozen higher, due to improved marketing regulations, Thomson said. The Commissioner believes the new regulations in Michigan will bring considerable more revenue to egg producers in the state.

A dozen eggs will average about twenty-two ounces. The large eggs known as the jumbo size will weigh about twenty-six ounces for a dozen. The new regulations provide permit fees for all dealers in eggs other than producers to be classed in three groups as follows:

1. Those who buy from producers or others and sell to the consumer, a fee of \$3.00 a year.
2. Those who buy eggs from producers and sell to merchants, dealers or storage houses, a fee of \$25.00 a year.
3. Those engaged in the business of removing eggs from the shell in preparation or manufacture of egg products, a \$25.00 fee.

In an effort to better determine future policies under these regulations the Commissioner plans to create an advisory council of seven members, consisting of two representatives of the egg producers, two representatives of the egg dealers, two representatives of the egg retailers and one representative of the consumer.

"The new regulations protect the retail grocer against off-grade products," Commissioner Thomson said. "In order to assure this protection the grocer should share in the cost. We hope that the regulations will prevent unfair trade practices that prevail now in the egg business. As far as the consumer of eggs is concerned he will get exactly what he pays for both in quality and quantity."

Common Stock
Common stock is that part of the capitalization of a company upon which dividends may be paid only after satisfying the requirements of the floating debt, bonds, and preferred stock. It is common stock represents the speculative ownership in a corporation as a rule.

Women Attack Tigers
In the Khond country of India, women wood-cutters form the tiger's chief fodder. The wonderful pluck with which these women will attack a man-eater with nothing but a stick of wood while he is in the act of carrying off one of their number is said to be a thing to marvel at.

Fleas Carry Typhus Germs
Rat fleas are largely responsible for the spread of typhus fever in America. The fleas are not mere mechanical carriers, according to an authority, who states that the virus of the disease multiplies in the bodies of these insects.

Flamingoes Nest in Africa
Flamingoes in north Africa build nests, some of which are conical structures rising two feet above the water level.

Lion-Fixing in South Africa
Lion-fixing was formerly a profitable occupation in South Africa. Natives would poison an antelope, kill it and place it in a likely spot. Lions eating the poisoned meat would become groggy, and white hunters, for a price, were then permitted to shoot the beast in the open without danger to themselves.

Lisbon's Oldest Cathedral
Se Patriarchial, Lisbon's oldest cathedral, was founded in 1150, wrecked by an earthquake in 1344, rebuilt in 1380, wrecked by another earthquake in 1755, and has managed to lead a reasonably quiet existence ever since. The choir loft is now the only remaining feature of the original building.

Fighting for Posterity
"My ancestors were fighters," said Hi Ho, the sage of Chinatown, "who wished to bestow peace on posterity. I reverence their memories and would rather go on fighting for posterity, as is the custom."

Hindu Philosophy
To the Hindus, a system of philosophy is an insight, a "darsana"; a vision of truth and not a matter of logical argument and proof.

The Federal Deposit Insurance Corporation Protects Your Funds in This Bank

There can be no question about the security of funds entrusted to this institution.

Through the Federal Deposit Insurance Corporation, created by Congress as a permanent Federal agency, all of our depositors are protected against loss of their deposits to the extent of \$5,000 in each account.

The additional security for deposits made possible by this insurance should be a real incentive for you to open an account here. It furnishes a sound basis for confidence in the safety of your funds under all conditions.
