Two Dollars Per Year

TAWAS CITY, MICHIGAN, FRIDAY, NOVEMBER 1, 1935

NUMBER 44

## TAWAS CITY

### SUPERVISORS APPROPRIATE \$5,000 TO ERA

#### \$250.00 Made Available For Boy Scout Building Project

The Board of Supervisors, at the October session which ended Thursday of this week, appropriated \$5,000.00 as Isosco's share of the E. R. A. fund. The county had been asked to provide 40%—about \$20,000.00—of the estimated total to be expended here for relief the coming year, the remaining 60% to be taken care of by the state. A survey of Isosco's financial condition made by C. V. Smadel, a member of the finance committee of the state E. R. A., found the county unable to furnish that amount, whereupon it was asked to attempt raising one-half, or \$10,000.00. Toward this sum, credit will be given the county by the state E. R. A. for the allowance of \$820.00 for operating expenses of the local office and \$2,500.00 for widows' pensions in addition to the \$5,000.00 appropriation, making a total of \$8,320.00.

In order that the county budget could include this item and at the same time remain within the limits set by the Isosco County Tax Commission, limitations were placed on the amount that may be spent by the Poor Commission. The sum of \$5,000.00 was appropriated for hospitalization of indigents and a limit of \$2,000.00 was placed on the year's expenses at the poor farm. Louis Phelan, a member of the poor commission, was appointed as a county representative to act with the Isosco E. R. A.

The mileage of Poor Commissioners, Road Commissioners, supervisors on committee work and all other county officers, including deputy sheriffs, was cut from 10c to 5c per mile. This arrangement will apply to all cases not otherwise provided for by statute.

The board appropriated \$250.00 as a part of the local contribution for an Isosco County Boy Scout building at Tawas Point. The building when complete will cost \$3,500.00. Eight hundred dollars of this will be made up of the county's gift and contributions from citizens and civic and social organization. The balance of the cost will be a grant from the Federal government.

#### Krumm-Wojahn

Miss Lucille Krumm, daughter of Mrs. Mary Krumm, and Albert Wojahn, son of Mr. and Mrs. Edw. Wojahn, of this city, were quietly married Saturday afternoon, October 26. The ceremony was performed at the Detroit Ev. Lutheran church by Rev. G. Trinklein, with Miss Mary Krumm and Stanley Humphrey of Detroit as their attendants.

The bride was attired in plum colored velvet with accessories to match and carried a bouquet of sweet peas and tea roses.

The young couple will make their home in this city.

#### Mother Earth Plays Halloween Prank

About one o'clock Friday morning many citizens of Isosco county were awakened by a severe shaking of their homes. At first the tremors were ascribed to boys celebrating Halloween or, in some instances, a bad case of nerves. The tremors, however, proved to be a Halloween prank of Old Mother Earth, herself. Late morning radio reports said that the quake was one of the most severe noticed in years and was felt in all sections of the United States.

## Au Sable River Harbor Project Given Approval

Oscoda fishermen and boat owners were assured of an adequate river passage when President Roosevelt signed the approval of the AuSable River Harbor WPA Project. Official notification was received last week from the Oscoda township board by Lawrence Westbrook, Assistant Federal Administrator, when completed the improved harbor will not only be of benefit to Oscoda boat operators, but will be a much needed emergency storm refuge for lake yachtsmen.

Oscoda township sponsored the project in cooperation with AuSable township under a recent act by the state legislature, contribution. The sharing the local contribution, total expenditures will be \$24,998.70, total expenditures contributing the federal government contributing the \$20,000.00 for labor. Both the AuSable and Oscoda boards have passed resolutions covering their contributions. AuSable and Bay City fishermen have pledged themselves for service of tugs, dredges and lighters.

## Fall Invasion

#### Dedrick-Jordan

A pretty wedding was solemnized at St. James church, Whittemore, on Saturday, October 26, at 10:00 a. m. when Miss Naomi Dedrick, daughter of Mr. and Mrs. Elmer Dedrick, became the bride of Lawrence Jordan, son of Joseph Jordan, of Sherman township. The ceremony was read by Rev. Fr. B. B. Roguszka of Omer. They were attended by Miss Bernice Wood and Charles Thornton.

The bride was charming in a white satin dress and veil and carried a bouquet of pink and white baby mums, while the bridesmaid was attractively attired in blue crepe and carried a bouquet of red and white roses.

A wedding breakfast and reception was held at the home of the bride's parents. About 25 relatives and friends were present.

Out of town guests were Mr. and Mrs. George Guarnieri of Toledo, Ohio; Mr. and Mrs. John Fowler and son, Johnnie, William Carter and Howard Fowler of Harrisville; and Mr. and Mrs. N. Needham of Flint.

Mr. and Mrs. Jordan left Sunday for Flint, where they will make their future home. Both are employed by the Fisher Body company. Their relatives and friends extend congratulations and best wishes.

A shower will be held for the bride Saturday afternoon, November 2nd, at the home of Mrs. Joseph Schneider in Sherman.

#### John C. Walker

John C. Walker of Bay City, a former East Tawas resident, died from a heart attack Tuesday morning while hunting near Glennie. He was a stepson of Dr. A. E. Stealy and was well known here.

Mr. Walker suffered the attack at about nine o'clock. His two companions, Sgt. Roberts Rushford of the Pay City Police department and Joseph Stern, also of that city, hurried the stricken man to Glennie for medical attention, but he died on the way. He is survived by the wife, formerly Gertrude Woods of this place.

## Isosco Agricultural Society Meeting Is Called By Secretary

A. W. Colby, secretary of the Isosco County Agricultural Society, announced yesterday that a meeting of the society will be held next Friday, November 8, at the court house. The meeting was called for the purpose of determining whether the society should retain its right of holding fairs at the fair grounds or give a release to the county.

When the grounds were turned over to the county several years ago the right to hold fairs there was retained. The Board of Supervisors voted to sell the grounds to the Federal Government. In order that a clear title may be given to the government, the committee of supervisors in charge of the sale seeks a release.

The meeting will begin at two o'clock. All members of the society and others interested in the Isosco county fair are urged to be present.

#### Bleau-Johnson

At a lovely ceremony performed before the altar adorned with white chrysanthemums, by Reverend Father Michael J. O'Reilly, Miss Mary Blanche Bleau, daughter of Albert L. Bleau of Pontiac, formerly of Alabaster, became the bride of Dr. Leroy C. Johnson, son of Mrs. Anna L. Johnson, on Monday morning, October 28th.

The bride was lovely in a white satin gown fashioned on princess lines, with long sleeves extending to points over her hands. Her veil was of floor length and had an off the face cap of pointed lace. She carried a bouquet of Johanna Hill roses and white chrysanthemums. Miss Genevieve Bleau, the bride's sister, was maid of honor. Her gown was of light blue chiffon crepe with a short jacket, and hat to match. Her bouquet was of pink and white chrysanthemums.

Dr. Johnson was attended by Sylvester Klinkhamer.

E. C. Bleau of Port Huron, an uncle of the bride, sang the "Ave Maria" during the offertory of the Mass.

Several guests were present from Port Huron, Detroit, Lansing, and Ferndale.

After a reception at the home of the bride's father, the young couple left for a short wedding trip. On their return they will make their home in Pontiac.

## Pulp Wood From National Forest Goes To Muskegon Mills

Eight hundred cords of jack pine pulp wood from the Huron National Forest has been delivered at the West Tawas Detroit & Mackinac yards for transportation. The wood was cut by C.C.C. boys. It will go to the paper mills at Muskegon.

#### Trap Shoot Sunday

The Tawas Gun Club will hold a trap shoot next Sunday at Tawasville. The shoot will begin at 10:00 o'clock. Prizes will be given.

#### Notice

The DelMar Beauty Shop will be located in the Brown apartments, East Tawas, for the winter. Phone 224.

## TAWAS BALL CLUB HONORED

Friends of the Tawas Baseball Club gathered Wednesday evening at the Masonic temple to fete and honor the 1935 Northeastern Michigan League champions. About 65 Tawas City and East Tawas people were present.

John Campbell, veteran amateur ball player and ardent fan, acted as toastmaster. Addresses were given by James H. Leslie, sponsor of the banquet, and A. J. Noel, newly-elected president of the Northeastern Michigan Baseball league. Mr. Leslie expressed the feeling of pride with which the club is held by the community and his own in the way the team had held up the honor of "Hi-Speed." All of the members of the club responded to the call of Toastmaster Campbell. Walter Laidlaw, manager of the club, expressed the team's appreciation of the graciousness of Mr. and Mrs. Leslie and the

#### Twentieth Century Club

The Ladies Literary Club of East Tawas and the Literary Alliance of Whittemore will be the guests of the Twentieth Century Club at their club rooms Saturday afternoon, November 2.

Miss Marie Behnke of Mt. Clemens will address them on the subject, "Temperance Education."

#### Notice

Field Manager Jay Selleck will be at Barkman's store on Thursday, November 7, from 9 to 4 o'clock, to take care of all pickle slips.

Golden Pickle Co., Pinconning.

Beds, springs and mattresses. Invest in rest. Barkmans. adv

## BEN FRANKLIN STORE OPENS SATURDAY

### E. A. Leaf Invites Friends To Visit New Store Opening Day

E. A. Leaf's new Ben Franklin store in the Hickey building at East Tawas will open Saturday, November 2. During the past week L. E. Dooley of Chicago, store engineer for Ben Franklin stores, has been supervising the arrangement of the equipment and stock. A special bargain day has been planned for the opening and Mr. Leaf invites his many friends throughout the county to visit him Saturday.

During the past few weeks the Hickey building has been enlarged to 100 feet in length for the new store. The interior has been handily decorated and furnished with modern fixtures and attractive mahogany display cases. It has been filled with popular 10c to \$1.00 merchandise. The stock is so arranged as to bring everything within view for the convenience of the customer. The merchandise is the latest that the markets afford. The size of the stock and beauty of the appointments of the store compare favorably with stores in larger cities, stated Mr. Dooley yesterday.

The Ben Franklin store at East Tawas is one of a chain of more than 5,000 in the United States. The establishments are set up by Ben Franklin stores of Chicago for independent owners. The company assists the owner with modern merchandising plans and expert advice and information on merchandise. Policies which have made the modern chain store popular with shoppers are established. The stores were described by Mr. Dooley as "independently owned chain stores."

Mr. Leaf believes that the opening of the new store will fill a need in the county. The establishment of the business here is in answer to a popular demand, Mr. Leaf said.

Mr. Leaf's success in East Tawas as a druggist leads his friends to anticipate a bright future for the new establishment.

#### Henry Grabow

Henry Grabow, resident of Wilber township for 52 years, passed away at ten o'clock last Saturday evening. A heart attack was the cause of death.

The deceased was born December 2, 1859, at Strassfurt, Germany. At the age of 24 years he came to America, settling in Wilber township. He is survived by the wife, Henriette Ellen, and ten children, Charles and Otto of Wilber; Selma, whose whereabouts is unknown; Fred of Wilber; Mrs. Joseph Dilworth of East Tawas; Albert of Alpena; William of Jackson; and Edward, John and Myrtle at home.

The funeral services were held Tuesday afternoon from the Emanuel Lutheran church, Tawas City. Rev. W. C. Voss officiated. Percy B. Allen, Oscoda, director. Interment was in the Emanuel Lutheran cemetery.

#### McMullen-Tait

Miss Hazel McMullen, daughter of Mr. and Mrs. John McMullen, and Temple Tait were quietly married September 14th at the home of Mr. and Mrs. Edw. Zaharias of East Tawas.

Mr. and Mrs. Oscar Anderson of Ferndale were their attendants. Rev. P. G. Wahlstrom performed the ceremony. They will make their home in East Tawas.

Miss Lucille Lixey spent last week in Bay City with friends.

Edmund Sauve and family of Lansing spent a few days in the city with his mother, Mrs. I. Sauve. (Continued on last page)

## Ladies Democratic Club Will Meet At East Tawas Nov. 5

The Isosco County Ladies Democratic club will meet next Tuesday evening at the city hall, East Tawas. All women are invited to attend.

## 61-Mile County Road Project To Start Soon

State WPA Administrator Harry L. Pierson has approved for immediate construction projects calling for federal allotments of approximately \$350,000 in District 2, north central Michigan with headquarters at Clare. They embrace a comprehensive program for this area, calculated to absorb a large proportion of those now on the relief rolls of the 14 counties, in the next few weeks.

Included in this program is a 61-mile road project in Isosco county. The project was set up by the Board of County Road Commissioners and includes improvements on rural roads

#### Card of Thanks

We wish to thank the many friends and neighbors who so kindly assisted us in our sorrow at the death of our husband and father, especially for the beautiful flowers, for the loan of cars, Rev. Sommerfield for the consoling words, and the singers for the beautiful hymns.

Mrs. M. C. Davis,  
Mr. and Mrs. James Davis and family,  
Mr. and Mrs. Millard Davis,  
Mrs. Rose Preston,  
Mrs. Lillian Oliver,  
Mrs. Abbie Scanlon.

## EAST TAWAS

Mrs. Marie McMullen and Mrs. Chas. Nelem spent a few days in Detroit.

Mrs. A. B. Allen, daughter, Barbara, and Don Wagner of Detroit spent the week end in the city with Mr. and Mrs. Henry Pelton.

Mr. and Mrs. Elmer Sheldon and son Mr. and Mrs. L. Bowman spent Sunday in Curran.

Norman Salsbery spent the week end in Dearborn.

Mrs. Fred Wilkins of Alpena spent Thursday with her mother, Mrs. C. Brown.

Mrs. Wm. Boldt visited in Bay City on Thursday.

Harold Dickinson of Alpena was the guest of Victor Marzinski over the week end.

J. Harrington was a business visitor Thursday in Bay City.

Philo, Zenith and Grunow radios. See our complete display. Barkmans. adv

Squire Woods of Flint spent Wednesday with his grandmother, Mrs. E. Woods. Mr. Woods, who is now playing in an orchestra at the Knickerbocker Club, Flint, will leave soon for Fort Wayne, Ind.

Miss Eloise Sheldon spent Monday and Tuesday in Detroit.

Mrs. C. L. Barkman, Mrs. Elmer Sheldon and Miss Selma Hagstrom spent Tuesday in Bay City with Miss Frances Klenow.

Mrs. Koshier spent a couple days in Detroit.

Matthew Haglund left for Flint, where he secured a position with the Chevrolet Motor company.

Mr. and Mrs. George J. Bergevin spent the week end in Ann Arbor with their son. Friends are pleased to hear he is getting better.

William Schill and Frank Bean spent Friday in Bay City.

Dr. Russell Klenow and sister, Miss Frances, of Bay City spent the week end here with their parents.

Mrs. Eliza Murray will leave soon for Bay City to visit her granddaughter, Mrs. Wiles, a few weeks. Later she will go to Pleasant Ridge to spend the remainder of the winter with another granddaughter, Mrs. J. Shivas.

Mr. and Mrs. John Owen and W. G. Dancy of Detroit spent a few days with Mrs. Owen's parents, Mr. and Mrs. Eli Miller.

Mr. and Mrs. Frank Sedgeman of Saginaw spent a few days in the city with relatives.

Mr. and Mrs. L. R. Hodson and daughter, Virginia, who have been visiting in Traverse City, returned home.

Ray Boy and Glow Boy circulators. Trade in your used stove. Have the comfort you have always wanted. Barkmans. adv

Mr. and Mrs. C. B. McMullen and niece, Miss Achee June Seely, and Mr. and Mrs. Austin, all of Lansing, spent a few days at the home of Mr. and Mrs. Ed. Alford.

Charles and William Pinkerton of Detroit spent the week end in the city with their parents, Mr. and Mrs. Chas. Pinkerton.

The Silver Tea given by the Eastern Star at the Masonic hall on Saturday was a very successful event. A delicious lunch was served and a fine program presented.

Dr. and Mrs. John Weed entertained Mr. and Mrs. G. Herman, Mr. and Mrs. E. A. Leaf and Mr. and Mrs. Crocker at Dr. Weed's ranch near Glennie Sunday.

Dr. and Mrs. Wendall and son of Bay City spent Sunday with Dr. and Mrs. O. W. Mitton.

Miss Lucille Lixey spent last week in Bay City with friends.

Edmund Sauve and family of Lansing spent a few days in the city with his mother, Mrs. I. Sauve. (Continued on last page)

Beery and Cooper Score In Great Circus Drama

At last, a circus picture that is all circus.

It is "O'Shaughnessy's Boy," which plays at the Family Theatre, East Tawas, on Sunday, Monday and Tuesday, November 3-4-5.

For the first time, the spirit of the circus with all its thrills, excitement and color has been brought to the screen. It is a superb entertainment for every age.

Comedy, pathos, spectacle and a dramatically powerful story are deftly blended into a picture that wins new honors for its co-stars—Wallace Beery and Jackie Cooper.

The picture is a fitting successor to "The Champ" and "Treasure Island," which so firmly established Beery and Cooper as one of the screen's greatest partnerships.

In no picture has the circus been filmed so completely. Circus men have put their stamp of approval on the circus as it is depicted under the Big Top and behind the scenes. It is complete from elephants to peanuts.

Christian Science Services

Literary Club Rooms, East Tawas. Sunday at 10:30 a. m.—Subject: "Everlasting Punishment."

Mrs. Lillian Oliver returned on Wednesday to Alpena after attending the funeral of her father, M. C. Davis.

Mr. and Mrs. Wm. Golding of Bad Axe and Mr. and Mrs. Ed. Golding of Cass City were Sunday guests of Mr. and Mrs. Wm. Leslie.

Mr. and Mrs. John L. Swartz and children returned Sunday evening to Alpena after spending a few days with Mr. and Mrs. Chas. Duffey.

# News Review of Current Events the World Over

Hoare Promises Britain Will Not Fight With Italy—Laval's Peace Efforts Continued—President Roosevelt Returns to Washington.

By EDWARD W. PICKARD  
© Western Newspaper Union.

SIR SAMUEL HOARE, British foreign secretary, assured parliament and the world that Great Britain has no intention of fighting Italy and would not alone apply military sanctions against that nation. He held out strong hopes that the war in Africa could be settled without resort by the league to extreme measures. His speech was plainly an invitation to Italy to talk peace terms.

Sir Samuel Hoare

Denying that the government's policy is hostile to Fascism, Sir Samuel said: "We have not the least intention of interfering in the domestic affairs of other people."

"The unbroken solidarity of the empire is behind the government's policy," he said. "Let those prophets of misfortune who have marked the empire down for decay and dissolution observe this fact of overwhelming importance."

Hoare hinted at British isolation from continental affairs if the league collapses.

Next day Prime Minister Stanley Baldwin warmly endorsed all that Hoare and Capt. Anthony Eden have done at Geneva. He deprecated even the use of the word war, but called for a rearming of the empire, saying: "In the interests of world peace it is essential our defensive services should be stronger than they are today."

Baldwin announced the adjournment of parliament on October 25 and the election of a new parliament on November 14. The campaign already is under way and is lively, with the international situation furnishing the main issues. The Labor party accuses the government of delaying action in the Italo-Ethiopian imbroglio until too late to prove really effective, and impugns its motive in seeking rearmament.

MUSSOLINI made one conciliatory gesture toward Great Britain when he agreed to withdraw a division of troops from Libya; and at the same time he urged that France and Britain make quick reply to his peace conditions. But it became known the troops were to be moved from Libya to Tripoli, where they would be almost as much a menace to Egypt; and as the duke's peace terms were so drastic that there was no prospect that they would be accepted by anyone concerned. They included disarmament of Ethiopia, an international protectorate over the central regions and an Italian protectorate over the remainder.

Addressing the foreign affairs committee of the French chamber of deputies, Premier Laval promised he would seek only a compromise that would be fully acceptable to the League of Nations. He told the committee that France's battleships would steam immediately to the assistance of Britain if the latter's fleet was attacked by Italy.

WHILE Premier Pierre Laval of France was still trying desperately to find a way of settling the Italo-Ethiopian quarrel that would be acceptable to both Great Britain and Italy—apparently without regard to Ethiopia's real interests—fifty-two members of the League of Nations declared a boycott on all Italian goods and an embargo on various key exports to that country. The boycott binds these nations to prohibit importation of "all goods consigned from and grown, produced or manufactured in Italy or in Italian possessions from whatever place they arrive."

If rigidly enforced, this would cut off about two-thirds of the export trade upon which Italy depends in getting funds for prosecution of the war in Africa. The countries applying the sanctions agree to aid one another in compensating losses by increased trade facilities, credits, cash and loans if possible, and discriminating against league members such as Austria and Hungary which continue to trade with Italy.

Austria, Hungary and Albania spoke against the sanctions. Switzerland, which seeks to preserve her traditional neutrality, was silent. Some South American republics made complicated reservations.

It was decided that the sanctions should be put in force on October 31, and Laval thus had time to continue his peace efforts. These seemed to center on a way to "legalize" Italian occupation of that part of northern Ethiopia which Mussolini's troops have seized and to arrange for Italy's partial control over the entire empire.

GEN. RUDOLFO GRAZIANI'S forces in southern Ethiopia were reported to have won several important victories in their advance toward Harrar and the railway. They captured

some towns despite desperate resistance by the natives, and took many prisoners. The main movement in that region was up the Webbe Shitbell river. The Ethiopians were repeatedly dispersed by aerial bombs.

In Tigre province, on the north, the Italians were consolidating their positions and preparing for another big thrust toward Addis Ababa. Their line there extended nearly 70 miles from Adigrat through Aduwa to the holy city of Aksum.

PRESIDENT ROOSEVELT, deeply tanned and in fine spirits, returned to the White House, his holiday tour ended. When he landed on the cruiser Houston at Charleston, S. C., he told a big crowd gathered to welcome him that the country is on its way back to prosperity under the planned economy of his administration, "and don't let anybody tell you differently."

At an informal press conference just before he left the cruiser, the President was asked to comment on the "impending collapse" of his drive to put three and a half million employables on relief to work by November 1. He replied that November 30 was 39 days off and that November 1 had never been set as the deadline, and that he had been very careful to say that substantially three and a half million persons would be put to work. If three million are at work by November 30 he said he would be satisfied with the four-billion-dollar program, and that it could not then be considered to have fallen down.

One of Mr. Roosevelt's first appointments in Washington was for a talk with Secretary of State Hull on the European situation.

FOR the third time in his career Mackenzie King is now prime minister of Canada, following the victory of the Liberal party at the polls. Richard B. Bennett and his Conservative cabinet resigned and King was called on to form the new government, which he did at once.

He himself was sworn in as prime minister, president of the privy council and secretary of state for external affairs. Thomas A. Crear of Winnipeg was made minister of mines, immigration and colonization, interior and Indian affairs. Charles A. Dunning of Montreal is the new minister of finance and W. D. Euler of Kitchener has the trade and commerce portfolio. All the cabinet positions except that of agriculture were filled at once.

The resignation of W. D. Herridge as minister to Washington was accepted and became immediately effective. The department of national revenue announced cancellation of dumping duties on the following commodities entering Canada: Plums, prunes, radishes, spinach, and peaches.

ONE of the government's much publicized efforts to punish alleged income tax evaders of Louisiana failed when a jury in Federal court at New Orleans brought in a verdict not guilty in the case of Abraham L. Shushan, one of the close associates of the late Senator Long. The prosecution claimed he owed \$71,000 in taxes. The verdict was greeted with loud cheers by the crowd in the courtroom, and in the ensuing confusion several news photographers were beaten up by former members of Long's bodyguard—which seems to be a habit in Louisiana.

NEARLY 5,000 men and women from all parts of the United States gathered in Chicago and held a national convention of the Townsend plan, which, as most people know, would give every person sixty years of age a \$200 per month income if the person agreed to spend it all within the month, did not work or have an income all told of more than \$2,400 a year.

The elderly California doctor who devised the plan was present, and the delegates seriously undertook the work of formulating a campaign to compel the adoption of the plan at the coming session of congress.

FIRST of the big eastern railroads to seek reorganization under the amended bankruptcy act is the New York, New Haven and Hartford, which serves one of the most densely populated sections of the country. Its petition was filed because it was unable to meet taxes of \$4,000,000 and interest of \$2,200,000.

The railroad had sought another loan from the government, but the Interstate Commerce commission rejected the plea. The company had cleaned its treasury of collateral to secure loans of \$7,639,000 from the Reconstruction Finance corporation, \$3,531,000 from the Railroad Credit corporation, and \$16,000,000 from banks. The Pennsylvania system, which controls about 15 per cent of New Haven stock, did not appear ready to guarantee a further extension of credit.

"GERMANY is becoming a barren nation, intellectually, culturally and scientifically, under Hitler." That was the way Alfred E. Smith opened an appeal for financial aid for non-Aryan Christian and political refugees from Germany, at a dinner in New York held under the joint auspices of the American Christian Committee for German Refugees and the Emergency Committee in Aid of Political Refugees from Nazi-ism.

"I am informed that at this very moment I am speaking, 2,500 German refugees are on the verge of starvation," the former New York governor said. "Centers now operating and serving these refugees in Europe must be supplied quickly with money. They need aid, or will be forced to discontinue their work."

Dr. Albert Einstein, the eminent scientist, also was present and said German Fascism is directed mostly "against my Jewish brothers. The reason given is to purify the Aryan race in Germany. As a matter of fact, no such Aryan race exists and the myth of same has been invented solely to motivate the persecution and robbery of the Jews."

ALL states and communities have been asked by Aubrey Williams acting WPA administrator, to make better provisions for the care of "unemployables," for federal aid for the needy will soon be confined to providing jobs. In an interview Mr. Williams said that with six states already cut off the dole, progress of the work relief program would bring liquidation of relief administrations in "the great majority of the remaining states" during November. This will leave those physically or mentally unable to work, the aged, mothers with dependent children, and other handicapped families and individuals, dependent upon local efforts.

DR. HUGH S. MAGILL, who as president of the American Federation of Investors has been annoyed by congressional investigators, has written to all members of congress a letter asking whether American citizens "still have the right to express their approval or disapproval with respect to pending legislation without being harassed by 'inquisitors.'"

The federation opposed the recent enactment of the "death sentence" for "unnecessary" holding companies and was under investigation by the senate lobby committee.

In an open letter to senators and representatives, Magill said he had "refused" to permit representatives of the committee "to read my personal and private correspondence." He asserted the federation "is not a lobbying organization as that term is commonly used."

DEATH came to an eminent American, Maj. Gen. Adolphus W. Greely, U. S. A., retired, at the age of ninety-one years. He passed away in Walter Reed hospital, Washington, and was buried in Arlington national cemetery with full honors. General Greely was universally known as the leader of the ill-fated expedition into the Arctic regions in 1881 from which only he and seven others returned alive. But he had already served in the Civil war with distinction, and his later scientific accomplishments won him international fame.

ARTHUR HENDERSON, president of the world disarmament conference and a most determined foe of war, died in a London nursing home. He was seventy-two years old and had been ill for a long time, so ill that he had not been permitted to see a newspaper for six weeks and did not know that another war had broken out and that the peace of Europe was threatened. The former iron molder of Glasgow who became a leader of the Labor party and was foreign secretary when it was in power, was awarded the Nobel peace prize in 1934. His crusade for peace and disarmament was inspired by the death of his eldest son in the World war. He was a gentle, much loved man, a genuine idealist whose latter years were made sorrowful by the repeated failure of the disarmament conference to get results.

HELENA, capital of Montana, and all the western part of that state were terrified by a series of earthquake shocks extending through a number of days. There were only two fatalities, but numerous buildings were wrecked or so weakened that they had to be razed. Hundreds of persons were driven from their homes, and the suffering was intensified by a sudden fall of the temperature to below freezing.

EDWARD HENRY CARSON, who in 1921 was made Baron Carson of Duncairn, died in London at the age of eighty-one years, ending a strange and stormy career concerned mainly with Irish politics. A Protestant, he became leader of the Ulster party, organized and led the threatened Ulster rebellion in 1914 against the home rule bill and secured its postponement. When the war broke he turned his army to the battlefields of France and himself entered the British cabinet.

After the war Carson threw himself into the fight against the establishment of the Irish Free State and succeeded in securing the partition by which the six Ulster counties separated from the rest of Ireland.

## Veteran Actor Turns Railway Magnate

WILLIAM GILLETTE, the veteran actor, is here seen riding on the railway line he has built on his estate at Hadlyme, Conn. The locomotive was designed by him and uses gasoline for fuel. The tracks are three miles long. Mr. Gillette's hobby is to meet his guests at the "Grand Central station" of his railroad and run them into his estate.

## Bedtime Story for Children

By THORNTON W. BURGESS

### LIGHTFOOT AND PADDY BECOME PARTNERS

THE instant Lightfoot the Deer saw Paddy the Beaver he knew that, for the time being at least, there was no danger. He knew that Paddy is one of the shyest of all the little people of the Green Forest and that when he is found working in the daytime it means that he has been undisturbed for a long time. Otherwise he would work only at night.

Paddy saw Lightfoot almost as soon as he stepped out on the bank. He kept right on swimming with the branch of a poplar tree until he reached his food pile, which, you know, is in the water. There he forced the branch down until it was held by oth-

"That's Bad News, Lightfoot. I'm Sorry to Hear It."

er branches already sunken in the pond. This done, he swam over to where Lightfoot was watching. "Hello, Lightfoot!" he exclaimed. "You are looking handsomer than ever. How are you feeling these fine autumn days?"

"Anxious," replied Lightfoot. "I am feeling terribly anxious. Do you know what day this is?"

"No," replied Paddy, "I don't know what day it is and I don't particularly care. It is enough for me that it is one of the finest days we've had for a long time."

"I wish I could feel that way," said Lightfoot wistfully. "I wish I could feel that way, Paddy, but I can't. No, sir, I can't. You see, this is the first of the most dreadful days in all the year for me. The hunters started looking for me before Mr. Sun was really out of bed. At least one hunter did and I don't doubt there are oth-

### CASHMERE COAT

This fashion suggestion solves the one-coat problem in designing a bronze-green cashmere coat that is very formal when worn with a Baume Marten scarf.

ers. I fooled that one, but from now to the end of the hunting season there will not be a single moment of daylight when I will feel absolutely safe."

Paddy crept out on the bank and chewed a little twig of poplar thoughtfully. Paddy says he can always think better if he is chewing something. "That's bad news, Lightfoot. I'm sorry to hear it, I certainly am sorry to hear it," said Paddy. "Why anybody wants to hunt such a hand-

some fellow as you are I cannot understand. My, but that's a beautiful head of horns you have!"

"They are the best I've ever had, but do you know, Paddy, I suspect that they may be one of the reasons I am hunted so," replied Lightfoot, a little sadly. "Good looks are not always to be desired. Have you seen any hunters around here lately?"

Paddy shook his head. "Not a single hunter," he replied. "I tell you what it is, Lightfoot, let's be partners for a while. You stay right around my pond. If I see or hear or smell anything suspicious I'll warn you. You do the same for me. Two sets of eyes, ears and noses are better than one. What do you say, Lightfoot?"

"I'll do it," replied Lightfoot.

## QUESTION BOX

by ED WYNN, The Perfect Fool

Dear Mr. Wynn: Would you be kind enough to settle an argument between my wife and me? I say a person with great talent and a genius are one and the same thing, while my wife says there is a vast difference between the two. Who is right, and why?

Yours truly,  
WRIGHT INGPAD.

Answer: Your wife is right. The difference between talent and genius is that talent gets paid every Saturday.

Dear Mr. Wynn: I bought a horse yesterday at a sale, and drove him home. He kept stopping every few minutes. Today I took him out again and he did the same thing. What do you think is wrong with him?

Sincerely,  
KEN TUCKKIE.

Answer: He is probably deaf and is afraid he won't hear you say whoa, so he just stops to listen.

Dear Mr. Wynn: Can you tell me what is meat by a crazy bone?

Truly yours,  
U. MER.

Answer: A crazy bone is a dollar spent foolishly.

Dear Mr. Wynn: This morning I tried to see how long I could stand on my head. After three minutes I had to give up because the blood rushed to my head. When I stand on my feet how is it the blood doesn't rush there?

Yours truly,  
CON. TORTIONISTT.

Answer: Your feet are not empty.

Dear Mr. Wynn: I am an artist. I entered a contest but my painting did not get a prize. The men who judged the paintings were not artists. Do you think it possible for men to tell a good or bad painting when they can't paint one themselves.

Truly yours,  
CHAS. KALE.

Answer: Sure, they can. I can tell a bad egg and I never laid one.

Dear Mr. Wynn: Every time I take a railroad trip I have an argument with the train conductor about sticking my head out of

## MOTHER'S COOK BOOK

### A FEW DESSERTS

A MEAL is unfinished without something in sweets or a made dessert to end the meal.

**Adam's Cream Pie.** Scald one cupful of milk, add one cupful of sugar and one-eighth teaspoonful of salt. Mix two teaspoonfuls of corn starch with a little cold milk; add to the scalded milk, stirring constantly. Cook until smooth; then pour on two well-beaten eggs mixed with a cupful of cream; pour into a pastry lined tin and sprinkle with cinnamon. Bake until firm in the center. Remove at once from the oven and serve cold.

**Steamed Cherry Pudding.** Drain canned cherries from the sirup. Make a batter of one cupful of flour, one teaspoonful of baking powder, one-fourth teaspoonful of salt and milk to mix into a drop batter. Butter pudding cups and add a table-

spoonful of the mixture, then a tablespoonful of the cherries—a bit of juice with them will not matter. Cover with another spoonful of batter, leaving plenty of room in the cup for rising. Set the cups into hot water, cover closely and boil fifteen minutes. Use the juice lightly thickened for the sauce, adding a little butter.

**Orange Rounds.** Cut rounds from rich pastry and bake. Put together with orange filling prepared as follows: Melt four tablespoonfuls of butter in a saucepan, add five tablespoonfuls of sugar, the juice of one orange and half of the grated rind. Beat in the yolks of three eggs, stirring constantly, add two tablespoonfuls of finely chopped or grated candied orange peel and two tablespoonfuls of chopped candied pineapple, stir and cook until the filling is thick enough to spread. Use as filling for two rounds of the pastry.

## Equine Giants Win Championship

THERE are giants, still—these days—in the horse world—great one-ton giants that still bear burdens for us, just as man's oldest, most useful friend has always done. And a new world's heavyweight championship record was made in the work horse world, at Hillsdale County fair, Michigan, recently when two giants, Rock and Tom, trained by Russell Sando of Piqua, Ohio, defeated the giant champions of the East and hauled a load of 25 1/2 tons for 20 consecutive starts. A "dynamometer," operated by Michigan State college, was used to measure the pulls scientifically. Expert horsemen and engineers were all amazed at this record. Rock and Tom are here shown doing their stunt.

# PERUVIAN VISTAS

Switchback Railway in the Peruvian Andes.

Prepared by the National Geographic Society, Washington, D. C.—WNU Service.

FROM the old-fashioned diversions of hanging around cantinas, standing on street corners, or attending bull fights and cock fights, Peruvian men and boys have turned largely to athletics, and association football has become to them what sand-lot baseball is in our country. The bull ring is still there and cocking mains exist, but they are rapidly losing their appeal.

Lima, the Peruvian capital, is most fortunately located with reference to both winter and summer resorts, whither the people can go quickly whenever climatic conditions tend to become oppressive.

A fifteen minute motor ride brings one to Miraflores; and the wealth of its flowers and foliage justifies its name. Here is the American-British colony. The streets are lined with double rows of trees, and some of them have central parking, while a few ramble about in that charming informality of a fine old English town. The houses borrow all the best in Spanish architecture and combine it with the most comfortable in British-American residential construction.

Barranco begins where Miraflores ends, and delightfully straggles along the edge of an uneven cliff about 100 feet above the sea, at the base of which is a fine beach reached by a long, covered ramp and a peculiar elevator not unlike the Lynton-Lynmouth lift in north Devon.

Chorrillos joins Barranco as the latter emerges out of Miraflores. Although totally destroyed during the war with Chile, it has been rebuilt and is the meeting place of the wealth and fashion of Peru during the summer season.

Some thirty miles up the Rimac, at an elevation of 2,800 feet, is Chosica, Lima's principal winter resort. When the low, damp, dripping fogs of winter hover over the capital city, the suburban trains are crowded with those who know that, however dismal it may be on the coast, at Chosica the sun is surely shining, for this winter suburb is above the range of the coastal clouds.

## Callao Is Lima's Port.

Two years after Lima was founded, Callao, its port, began to rise at the mouth of the Rimac. Here were laden the Spanish galleons that carried the wealth of the land back to Spain. Here, too, centered for generations the trade of all South America, for the royal edict was that even the trade of Buenos Aires and Montevideo should clear through Callao. Many were the times that it was pillaged by pirates. And then, on October 28, 1746, came the terrible earthquake which rivaled in destructiveness that at Port Royal, Jamaica, a half century before.

Of the city's 6,000 inhabitants only two remained to tell the story. But, unlike Port Royal, even such a catastrophe could not forever banish it from the map. A bigger and better Callao arose on the ruins of the destroyed city. Today the government is planning to build modern docks and custom house equipment which will make it a port where cargo can be received and discharged with as much facility as shipments are handled in modern North American ports.

Irrigation is therefore a miracle worker ready to transform barren wastes into fertile fields. So the government is irrigating the desert with matches, paradoxical as that may sound. And that involves Peru in a "bootleg" problem of her own, though it has nothing whatever to do with spirituous liquors. Matches and cigar lighters take the place of beer and whisky as the bootleggers' wares, and when one embarks on a Peru-bound steamer in New York the bulletin board is found to carry a warning against taking foreign matches or cigar lighters ashore in any Peruvian port.

One of the nation's greatest needs is the establishment of new irrigation projects, through which new areas may be redeemed from the desert. Yet this costs money. The government decided that its smokers should finance these projects, and the Swedish Match company was on hand with an offer of \$8,000,000 a year for the exclusive right to manufacture and sell matches in the republic. This offer was accepted, the concession to run for twenty years.

## Development of Irrigation.

There are four albums in the offices of one of the larger British houses in Lima which tell an eloquent story of the role of irrigation and of capital in promoting the living standards of the people. They contain pictures illustrating the development of a large irrigation project by this firm, its destruction by the floods of 1925, its re-

construction, and its subsequent operation.

The first album shows a desert valley, with here and there a wretched hut inhabited by an undernourished Indian family. When the transformation began the available labor, recruited from far and wide, was so emaciated and underfed that a full day's work was entirely beyond its strength.

The contractors set in to build houses for the families of their laborers, to furnish them with ample food, and to abolish the toll of poverty. The concluding pictures of this album show a contented, happy, and well-nourished lot of laborers and their families and give glimpses of the holidays of 7,500 people who had been able to transmute misery into comfortable well-being because foreign capital converted a desert into a garden.

The next album shows the flood of 1925, the first one within the memory of the natives. Higher and higher it rose. The adobe houses melted before the downpour as snow before a spring-time sun. The rushing torrents swept away the sugar mills and cotton gins, tore out the railroads, carried the bridges from their abutments, and wrought general havoc.

The third collection shows conditions after the flood subsided, revealing that it had indeed torn down the whole structure of the erstwhile thriving community, from turret to foundation stone. Back it was to its original despair. What would become of those 7,500 people who had found a decent livelihood there? Must they go back to the unemployment, the pitiless poverty from which this industry had brought them?

Happily, the fourth picture volume answers no. For the House of William and John Lockett had a frugal financial policy in days of its prosperity. It had laid aside its savings and had established a good credit; so it was able to begin immediately the work of restoration and on an extended scale. As one turns the pages, it can be seen that every laborer was busy, and the final pictures show the rebuilding complete, the crops flourishing once more, and the thousands of natives again in full possession of the opportunities to earn a living wage.

At her back door Lima has one of the mightiest mountain areas in the world, and the wealth that comes down out of them from such great mines as those of Cerro de Pasco and from the smelters of Oroya rivals in value the streams of precious metals which flowed into the Lima or long ago on the backs of llamas and donkeys.

## Wonderful Railways.

Excursion trains run from Lima nearly to the summit of the Andes every Sunday, over the Central railway of Peru, and those who make the trip enter into one of the great wonders of the earth. Here nature, ancient man, and modern civilization seem to have conspired to create the greatest engineering show ever staged. The mountains rise to a height of more than 17,000 feet at the lowest pass; the eastern faces of their subordinate ridges are smooth, and the western slopes usually are a riot of unweathered rock, where one may read in the thousands of broken and twisted strata the strength of the titanic hand which nature fashioned them.

The railroad, in its turn, shows how modern engineering can triumph over the obstacles nature has placed in its path. Rising to a summit of 15,693 feet in the Calera tunnel, it has to pass through 61 tunnels, over 41 bridges, and around 13 zigzags or switchbacks.

It reaches nearly a mile higher than any standard-gauge railroad in North America, a quarter of a mile higher than the summit of Pikes Peak—even higher than Mont Blanc itself.

Here it takes the bed of the Rio Blanco and gives the stream a tunnel. At Puente del Infiernillo (the Bridge of the Little Hell) it passes out of a tunnel onto a bridge and into another tunnel. Near San Bartolome it enters a covered way of concrete whose roof is the artificial bed of a stream it did not want to cross.

No less amazing than the magnificent engineering that drove the Central railway three miles up to the summit of the Andes in a short stretch of 103 miles are the vast series of staircase farms which ancient man built on those mountain sides. Mile after mile, from Chosica to Rio Blanco and beyond, they stretch, often with the first terrace at the bottom of the gorge and the last one at the top of the ridge, with hundreds between. Their builders captured the waters of many an Andean counterpart of Yosemite falls and led them along the mountain sides for miles, from which they sluiced down over the terraces below.

## WHAT YOUTH NEEDS MOST

YOUTH is often maligned and some times given credit for the trend of the times by some middle-aged pseudo-philosophers. This is avowedly unjust and untrue. After almost two decades of close contact with both generations young and old, I have come to the conviction that the older generation has dodged some definite and fundamental obligations to youth along moral and spiritual lines. If the moral tone is lowered today, and I say "If" since some people think so, I firmly believe it cannot be laid upon the shoulders of youth.

Not long ago a minister in Chicago said to me, "It is surprising and distressing, isn't it, how modern youth looks on love and marriage?" "No," I said, "this is not as surprising to me as how middle age looks on love and marriage today, for the divorces are coming largely from the older generation. What else could we expect from youth with such examples to follow?"

Youth learns largely by imitation. Children learning to talk, speak correctly or otherwise, as they hear it in the home. The same is true of behavior. Because of this fact, one of the deepest needs of youth today is the need for "models more than critics."

A young lad who was once dropped from his college for gambling, made the plea for himself that he had heard his father from childhood speak of his gains from gambling with friends in clubs, races and sports. A young under-dressed freshman once told me how clever her parents were in securing half rate fares for her through her high school years. This as an ethical question had never even occurred to her. Her parents were her pattern.

There is a deep need in the lives of youth today, as I see it, a need of more enlightened parenthood. Establishment of homes as centers where human life is developed along the highest lines physically, emotionally and intellectually; homes where parents are models, not masters of their children.

If our silver screens would go as far in educating our youth for noble manhood and womanhood as they have assiduously torn down the ideals of our youth about love, marriage and home life, there would be no need today of a crusade of decency against them. One other and greatest of all needs, which looms large as a forgotten responsibility of the older generation to the younger one, is the need of spiritual interpretation of the world today. Some one has rightfully said we are living in the Twentieth century scientifically, but only in the Sixteenth century spiritually. Are we equipping youth to finely manage these scientific forces of the world, for if this power be mismanaged, civilization's light may be extinguished.

## YOUTH LOOKS AT MIDDLE AGE

A CHARMING young freshman with bobbed curly hair sat facing me across my desk one morning recently. She had failed in mathematics. "Did you ever fail in high school?" I asked. "Yes, once," she answered, "but that was the teacher's fault." "Why do you think so?" I inquired. "Because she was too old to teach," came the ready response. "Too old? How old was she?" Young seventeen looked out of the window with narrowed eyelids, and thinking a moment, came back with this remark: "If she was a day, she was thirty-five." The surprise was like a cold dip to me, for I, too, was above thirty-five. I drew her into conversation about her teacher, and discovered the following. "She rarely smiled," said the girl, "the students annoyed her and became afraid of her. She not only refused invitations to our parties, but ridiculed them; she was always criticizing youth. This is why I am sure she was too old to teach." In my heart I agreed with this child before me, for "age is a thing of the spirit, not years." One can never reach the heart of youth by negative criticism alone. Praise and encouragement warm their hearts and make them grow. For "the way to make a man is to think him one." The process we call "growing old" does not mean withdrawal from joy and happiness. Rather it is fulfillment of life's richest experiences.

We all have seen men and women past the sixties who are twenty years young, whose capacity for deep enjoyment and self-realization far surpasses that of inexperienced youth. Youth should be taught that life is a progression, of which youth is not the apex. It is wrong to tell youth their "teen time" is the happiest, for this is untrue. Adolescence is the most carefree time, but who wants to live continuously without life's obligations? Just as the sunset brings deeper colors than the dawn, the fall trees and flowers richer shades than spring, so is this growing old, "the best . . . yet to be, the last for which the first was made." Lives like this grow more radiant as the years pass. When we cease to grow, we begin to grow old. This is the secret, let us keep our hearts young even though our hair grows gray.

# LET JUNIOR MAKE OWN SIMPLE FROCK

PATTERN 9606

Lives there a Junior Miss who couldn't "fall" for this smart yet simple school frock? We just know she will want to make her first fall frock from this pattern, because it's so very easy to cut, assemble and stitch, and if Mother is too busy to supervise the operation, take the pattern and some pretty cotton to sewing class and work on it there. The youthful, square neck adopts a scarf-like collar to slip under its tab, the puffed sleeves have a hearty slash. Action pleats grace back bodice and skirt, a box pleat, the side front skirt.

Pattern 9606 may be ordered only in sizes 6, 8, 10, 12 and 14. Size 12 requires 2 1/2 yards 36 inch fabric and 3/4 yard contrasting. Complete diagrammed sew chart included.

Send FIFTEEN CENTS in coins or stamps (coins preferred) for this pattern. Be sure to write plainly your NAME, ADDRESS, STYLE NUMBER and SIZE.

Send your order to The Sewing Circle Pattern Dept., 232 West Eighteenth St., New York, N. Y.

# Smiles

## PASS THE SMELLING SALTS

Gushing Young Thing—It was wonderful of you to drop 10,000 feet in a parachute. Do tell me your sensation.

Bored Aviator—Oh—er—it was just a kind of sinking feeling.

## It's a Fine Art

"Me father and a man named Dooley have been fighting for 20 years, but now they've stopped."

"Why? Did they bury the hatchet?"

No; they buried Dooley.—Exchange.

## Joint Monarchy

"Who commands in your home?"

"We share the management. My wife bosses the servants. My children and I attend the goldfish."

## An Auto Relapse

"How's your wife getting along with her driving, Abe?"

"She took a turn for the worse last week, Moe."

## Fine Start

"Dearest, I am not worthy of you."

"That's what mother says, Jack dear. How lovely to see you two agreeing."

# The Tawas Herald

Established in 1884  
Published every Friday and entered  
at the Tawas City Postoffice as  
second class matter

P. N. THORNTON, Publisher

## SHERMAN

A number from here attended church at Whittemore Sunday.

M. Schneider and Stanley Mars of Saginaw visited the former's brother, Earl Schneider, over Sunday.

Mr. and Mrs. Al. Weinert of Flint spent the week end with friends here.

Chas. Thornton was a caller at Tawas City Monday.

Nick Klop of Saginaw is doing some carpenter work for Dewey Ross.

Silas Thornton had the misfortune to have his fingers cut while buzzing wood Monday.

Miss Arlene Brabant spent Saturday and Sunday with friends at Whittemore.

Glen Schneider of Roscommon visited relatives here Sunday.

Charles Corrigan and Miss Mary St. James of Whittemore spent Sunday evening with friends here.

Mr. and Mrs. Jas. Johnson are visiting at Jackson for a couple of weeks. Clyde Wood is taking care of their place of business while they are away.

Mrs. Jos. Schneider and Mrs. Silas Thornton were at Bay City last Wednesday.

Mr. and Mrs. Earl Schneider were at Whittemore on business Wednesday.

Philco, Zenith and Grunow radios. See our complete display. Barkmans. adv

The one-month old child of Mrs. Manuel Cox was killed in an automobile accident near Santiago last Wednesday evening. Her son, Elmer, who was driving the car, was backing the auto after having driven beyond a corner he intended to turn and unfortunately backed into a deep ditch. The child's head was crushed. The other occupants of the car were only slightly hurt. Funeral services were held Saturday afternoon and burial was made at Cedar Valley beside the father, Manuel Cox, who died only a short time ago. The sympathy of the community is extended to the bereaved mother and family.

**Meteors Give Off Sound Waves**  
Evidence that meteors give off an air wave which produces high-speed sound has been shown. Ordinary sound travels at a rate of 1,000 feet a second. The new sound travels at the speed of light or radio waves, 186,000 miles a second.

## Hemlock

We were very sorry to hear of the death of Allen Kennedy and extend our deepest sympathy to the parents, sisters and brothers. Those from here who attended the funeral from here were: Mrs. Martin Long, Glenn Long, Mr. and Mrs. Alton Long and Mrs. Louise McArdle. They were accompanied home by Mrs. D. Love for a visit.

Mrs. Lena Autterson of Whittemore is visiting at the Everett Latham home for a week.

Jesse Carpenter has been in Bay City as a juror in Federal court the past week.

Mr. and Mrs. Clarence Herriman and two children of Detroit spent the week end with his brothers and other relatives.

Mr. and Mrs. L. D. Watts and Arthur Cox were Sunday callers at the home of Mr. and Mrs. Thomas Frockins in Reno.

Mr. and Mrs. Sam Bradford spent Sunday afternoon with Mrs. Josiah Robinson in Reno.

Miss Janet McLean of Tawas City spent a few days last week with her aunt, Mrs. Victor Herriman.

Mr. and Mrs. Russell Binder entertained a few friends on Friday evening. Games were played and a very enjoyable evening was spent by all.

Mrs. Louis Binder has returned home from Tawas where she spent a month with her daughter, Mrs. Nelson Ulman who was very ill.

## State of Michigan

The Probate Court for the County of Iosco.

At a session of said Court, held at the Probate Office in the City of Tawas City, in said County, on the 30th day of October, A. D. 1935.

Present: Hon. David Davison, Judge of Probate.

In the matter of the estate of Henry Grabow, deceased.

Fred H. Grabow having filed in said court his petition praying that the administration of said estate be granted to Charles Grabow or to some other suitable person.

It is Ordered, That the 25th day of November, A. D. 1935, at ten o'clock in the forenoon, at said probate office, he and is hereby appointed for hearing said petition.

It is Further Ordered, That public notice thereof be given by publication of a copy of this order, once each week for three successive weeks previous to said day of hearing, in the Tawas Herald, a newspaper printed and circulated in said county.

DAVID DAVISON,  
Judge of Probate.

A true copy. 3-44

Our living room suite display is large and complete. Barkmans. adv

## School Notes

### High School

The Junior class is sponsoring a Halloween dancing party Friday evening at the city hall. The students from St. Joseph and East Tawas high schools and the last two years' alumni are invited.

Don't forget the bake sale to be sponsored by the Senior class. It is to be held at Brugger's grocery store starting at 2:00 next Saturday afternoon, November 2.

Report cards were given out on Wednesday.

The botany class made its annual pilgrimage Tuesday to the specimen of common barberry in the woods near the residence of Mr. Wegner. A comparison will be made with the Japanese variety of barberry which is growing in different sections of the city.

The American history class has completed its study of the Revolutionary War. Historians now generally realize that this conflict was brought on by a difference in the condition of England and America, rather than by an attempt of one nation to intentionally subjugate another.

### Fifth and Sixth Grades

Lloyd Hughes visited our room Friday afternoon.

The fifth grade hygiene class is working on a health play.

We are planning a Halloween party.

### Third and Fourth Grades

Matilda Scholtz won our arithmetic contest Friday morning.

Lou Libka won in our spelling contest Thursday afternoon.

We enjoyed the talk Miss Huhtala gave Monday about her trip to Norway and Sweden.

The third graders wrote some interesting stories for their language lesson Tuesday.

### Primary Room

Jean Smith entered the second grade Monday.

Those neither tardy nor absent during the month of October are: Ruth Hill, Jean Lansky, Peter Cunniff, Darwin Groff, Norma Jean Hill, Mary Ann Nelson, William Reinke, Neil Thornton, and Rhea Ulman.

On the honor roll for October are the following: Betty Lue Brown, Ruth Hill, Mary Louise Kaiser, Leslie Smith, Beverly Bigelow, Dorothy Hill, and Duane Leslie.

We have had no tardiness in our room so far this year.

### Fleas Carry Typhus Germs

Rat fleas are largely responsible for the spread of typhus fever in America. The fleas are not mere mechanical carriers, according to an authority, who states that the virus of the disease multiplies in the bodies of these insects.

Studio couches—Our display includes newest styles in fabric and construction. Barkmans. adv

### City Named for Vice President

The only Vice President of the United States to enjoy the distinction of having a large city named in his honor was George Mifflin Dallas, who was President Polk's running mate in 1844.

Later he was appointed by President Buchanan minister to England. He was the able son of an able father, Alexander James Dallas, secretary of the treasury under James Madison.—Cincinnati Enquirer.

Red Cross Has Busy Year; Statistics Impressive; Services Varied

Figures gathered at random from the year's report of the American Red Cross reveal the magnitude of the work being carried on by that organization.

Red Cross workers assisted 54,305 veterans; 587 Red Cross Public Health nurses paid 921,455 visits to 186,326 patients; 98,441 first aid certificates were issued while 46,693 persons were trained in life saving. Volunteer workers produced 3,102,843 surgical dressings, with 80,901 volunteers being on active duty throughout the year.

More than 187,000 certificates showing completion of first aid courses were issued last year by the Red Cross. This shows a gain of 56,000 certificates over the previous year. Approximately 64,200 boys in C.C.C. camps throughout the country passed first aid tests. Since the Red Cross first entered the field of first aid teaching, being one of the first organizations in the world to do so, almost one million persons have been trained in handling emergency treatment.

The annual report of the Red Cross further reveals that more than 327,000 copies of the Red Cross Aid Handbook have been sold at home and abroad.

The Red Cross has assisted 54,305 veterans in clearing their cases through the U. S. Veterans' Bureau this past year.

Last year 3,337,941 persons became members of the Red Cross. The annual roll call takes place each year between Armistice Day and Thanksgiving Day.

Junior Red Cross members increased by 402,000 enrollments during the year which has just passed. Junior members carried on an exchange of correspondence with junior members in 62 other countries having Red Cross Societies.

Mr. and Mrs. Charles Beardslee and Mr. and Mrs. Mark Beardslee visited Mr. and Mrs. Ed. Robinson Sunday.

Mr. and Mrs. Lester Robinson and family spent Sunday with Mr. and Mrs. James Charters and Mr. and Mrs. Thos. Mason.

### Switching On Current

It is more economical to switch off the electric lights even for a few minutes. For switch-controlled electrical machinery, such as motors, that consume a relatively large amount of current in attaining maximum speed and efficiency, it is probably cheaper to let them run for a short period when not needed, rather than switch them off and on.

### Women Attack Tigers

In the Khond country of India, women wood-cutters form the tiger's chief fodder. The wonderful pluck with which these women will attack a man-eater with nothing but a stick of wood while he is in the act of carrying off one of their number is said to be a thing to marvel at.

### Stew in Own Shade

There are few spots on earth where trees, and people and things like that have to stew in their own shade. But Tahiti is one of them when the noon hour rolls around. The sun is exactly at its zenith, and shadows fall so perpendicularly that the outline of each coconut palm is traced evenly around the base of its own trunk.—Detroit News

### Few Eskimo Dogs Here

Exceedingly few Eskimo dogs are found in our native communities, for there are so many other breeds that take more kindly to our climatic conditions and congested civilization that dog fanciers have been content to let this animal rule the north where only the hardest of canine breeds can thrive.

New numbers in dining room and bedroom suites on display now. Barkmans.

ORDER OF THE CONSERVATION COMMISSION — RACCOON IN THE LOWER PENINSULA.

The Director of Conservation, having made a thorough investigation relative to trapping of raccoon in the Lower Peninsula, recommends certain regulations.

THEREFORE, the Conservation Commission, by authority of Act 230, P. A. 1925, hereby orders that for a period of one year it shall be unlawful to trap raccoon in the lower peninsula, north of the north line of T 16 N, and west of Saginaw Bay excepting from November 15 to December 15, inclusive, and south of the north line of T 16 N, and east of Saginaw Bay excepting from December 1 to December 15, inclusive.

Signed, sealed and ordered published this 10th day of July, 1935.

P. J. HOFFMASTER,  
Director,  
Department of Conservation.

For Construction of Test Wells and Developed Well Tawas City, Michigan PWA Docket Michigan 8264

Sealed proposals for the construction of test wells and one final developed well at Tawas City, Michigan, will be received by Tawas City until 7:00 P. M., Eastern Standard Time, November 19, 1935.

Proposals shall be addressed to the City Clerk, Tawas City, Michigan, and endorsed "Proposal for Well Construction—Tawas City, Michigan."

Each proposal shall be accompanied by a certified check for Two Hundred (\$200.00) Dollars, drawn payable to Tawas City, Michigan, as security for acceptance of the contract and as explained in the instructions to bidders.

The contract will cover the drilling of one, and possibly three 4-inch test wells each approximately 125 feet deep and one 10-inch final developed well, the placing of casings and screen, collection of samples, development of the permanent well, and test pumping.

This is a non-federal PWA project to be financed by funds from a loan and grant to be obtained from the Federal Emergency Administration of Public Works and shall be subject to all PWA regulations and no contract will be awarded until all bids have been examined and passed upon by the State Director of the PWA all in accordance with such regulations and requirements.

The award of the contract shall be conditioned upon funds being made available for such construction and Tawas City shall have the right, should it be deemed necessary, to hold any or all bids for a period of 60 days from the date of the opening thereof prior to rejection or award.

Tawas City reserves the right to waive any informality in any bid, to reject any or all bids, or accept any bid which is considered most favorable to the City.

Attention is called to the fact that not less than the minimum wage rates approved by the State Director of PWA must be paid on this project.

Proposal forms, plans, specifications, and all necessary bidding regulations prepared in book form may be secured at the office of The Francis Engineering Company, 303-304 Eddy Building, Saginaw, Michigan, consulting engineers for the City, upon application accompanied by a postal money order for Six (\$6.00) Dollars made payable to The Francis Engineering Company, none of which will be returned.

## Hale News

Mr. and Mrs. F. E. Bernard and Mr. and Mrs. David Bernard left on Sunday for Wooster, Ohio, to attend the funeral of Mrs. F. E. Bernard's brother.

Mrs. Nellie Jennings is in Lansing this week attending the sessions of the State Sunday School Convention. Mr. and Mrs. John Brandal spent the week end visiting relatives in Detroit.

Mr. and Mrs. Joseph Peters spent Friday of last week in Flint.

Mr. and Mrs. Howard Atkinson moved into the White Star gas station here last week. Howard has been working for the firm for several years, living in Prescott. Friends are welcoming them back to the old home town.

Mr. and Mrs. J. H. Johnson, Mr. and Mrs. Deuell Pearsall, Mr. and Mrs. R. D. Brown, Mr. and Mrs. Elmer Streeter, and Mr. and Mrs. A. E. Johnson of Whittemore attended the banquet given by the Bay City Consistory last Thursday evening, Ladies' Night.

Mr. and Mrs. Frank Kelly are announcing their marriage of Tuesday, October 29. Mrs. Kelly was Miss Beulah Royce of Hale. Mr. and Mrs. Kelly will make their home in Long Lake.

Mr. and Mrs. Fritz Greve have moved from Alcona dam to the Elmer Graves house on main street. Mrs. Greve and the children will remain here for the winter while Fritz is employed in Detroit.

Mrs. James Wilson and little son Morris, visited Mr. and Mrs. James Monroe of Midland last week.

Lige Cross of Flint is visiting his son's family, Mr. and Mrs. Merle Cross, on the Carson Love farm this week.

Pat Murphy, who has been in charge of the White Star gas station here for the past five years, severed his connection with the White-Robinson Co. who own the station and moved last week to East Tawas. The best wishes of friends of Mr. and Mrs. Murphy go with them to their new business venture.

Mrs. Ross Bernard, who had been visiting a few days in Flint, returned Tuesday of last week accompanied by her daughter, Mrs. Walter McMullen and little son, who will visit for a week with her parents.

Mr. and Mrs. John Follette and little daughters of Detroit spent the week end with Hale relatives.

A large crowd attended the Halloween program and box social given by the P.-T. A. and held in the high school room on Tuesday evening. A stage canopy of black and yellow crepe paper sheltering black cats and witches on broomsticks made a fitting background for the Halloween program. The business session preceded the program. Mr. Smith of the Silver Creek C.C.C. camp presented a plan for a class in handicraft work in Hale. It was favorably received and a committee was appointed to arrange for building and material. After calling attention to the plans for a tennis court, the display of work done by the pupils of the Hale school, the change of meeting night of the P.-T. A. to the third Thursday of each month, and inviting all to attend the next meeting at the Kees school, the president turned the meeting over to the teachers to present the program. Auctioning the boxes followed and over \$15.00 was netted for the tennis project. All of the outlying schools were represented in the attendance and the evening was an enjoyable one.

**HALE BAPTIST CHURCH**

## TOWN LINE

Mrs. John Friedrichsen has returned home after spending two weeks in Flint and Detroit with relatives.

Mrs. Lanson Defore and children of Saginaw spent a couple of days last week with their father, Ephraim Webb.

Mr. and Mrs. Jos. Freil spent the week end at Whittemore.

Mr. and Mrs. Bernard Benson have returned to Flint, where Mr. Benson has employment.

Mr. and Mrs. Ervin Ulman spent Tuesday evening on the Townline.

Ervin Gauthier, Wm. Link and Floyd Ulman of Lewiston spent the week end here.

Mrs. Joseph Ulman, who has been very ill, was taken to Ann Arbor Wednesday morning.

Listen for the wedding bells.

### Blend Chimney Color

Frequently, a chimney seems to cut a house in parts. It is important, in painting a small dwelling in an attractive color scheme, to make the chimney an integral part of the picture. It may be painted with either stucco or concrete paint.

SUCH IS LIFE—To Keep Score

SOME INDIANS CANNIBALS

Proof that cannibalism was practiced among American Indians is claimed by Lloyd A. Wilford, anthropologist of the University of Minnesota.

DOCTORS KNOW

Mothers read this:

Why do people come home from a hospital with bowels working like a well-regulated watch?

The answer is simple, and it's the answer to all your bowel worries if you will only realize it: many doctors and hospitals use liquid laxatives.

If you knew what a doctor knows, you would use only the liquid form. A liquid can always be taken in gradually reduced doses.

Ask a doctor about this. Ask your druggist how very popular liquid laxatives have become. They give the right kind of help, and right amount of help.

Makes It Good

In a good neighborhood there are not so many noisy nuisances.

Find Out

From Your Doctor if the "Pain" Remedy You Take Is Safe.

Don't Entrust Your Own or Your Family's Well-Being to Unknown Preparations

BEFORE you take any preparation you don't know all about, for the relief of headaches; or the pains of rheumatism, neuritis or neuralgia, ask your doctor what he thinks about it—in comparison with Genuine Bayer Aspirin.

We say this because, before the discovery of Bayer Aspirin, most so-called "pain" remedies were advised against by physicians as being bad for the stomach; or, often, for the heart.

Countless thousands of people who have taken Bayer Aspirin year in and out without ill effect, have proved that the medical findings about its safety were correct.

Remember this: Genuine Bayer Aspirin is rated among the fastest methods yet discovered for the relief of headaches and all common pains...

You can get real Bayer Aspirin at any drug store—simply by never asking for it by the name "aspirin" alone, but always saying BAYER ASPIRIN when you buy.

Verifies Road Map of Roman Britain

Museum Employee Superimposes It on Modern One.

London.—The bright idea of an assistant in the cartographical department of the British museum is responsible for one of the most important discoveries in regard to the Roman occupation of Britain ever made.

Only about 200 miles of the roads built by the Romans have so far been uncovered. It is now possible to plot their entire system of several thousand miles. Moreover, it is revealed that many rural roads which were supposed to have been evolved from cattle paths have in reality a Roman foundation.

Verifies by Digging. The discovery was made in this way: A set of ordnance survey maps showing, among other things, all modern roads, streets, lanes and paths had been received at the cartographical department for filing.

Pentathlon Winner

Turning in a 3,084-point performance, Clyde Coffman of the Kansas A. C. won the national A. A. U. pentathlon title in Palmer stadium at Princeton university.

that had been laid bare, besides other identified Roman remains.

The clerk made a map of this on the same scale as the other and superimposed it. In many cases the Roman roads covered the modern for a certain distance but only where the latter were straight or crossed each other at right angles.

Then the young man went digging. Under the surface of a few modern roads he found the remains of the Roman; in digging in fields where a continuation of the Roman road was indicated, he found it.

Although his work is still incomplete he has announced his discovery, and permitted a "correspondent" of the Times of London to exploit it in that paper with a map showing his plotting covering the area along Ermine street north and south of Lincoln, in Lincolnshire, northeast of Derby.

This map reveals the two clues which he followed: first, that all the modern local roads for miles leave Ermine street at right angles to its course—an unusual thing in regard to the "rolling English road," which usually seeks a path of least resistance; second, that south of Lincoln the principal roads opposite Harms-ton, Coleby, Boothby, etc., leave Ermine street and run due east, and after a mile or so of straight running meet a partly uncovered Roman road running parallel to it.

For Definite Purpose. "Beyond all doubt these roads were laid out by one authority for some definite purpose. They differ in every way from our normal English roads, which go with certain flexuosities from one village to another. But here in Lincoln is a series of roads which run in a dead straight line and mostly from places of no importance to destinations of no evident usefulness.

No one doubts that Lincoln was a Roman city and a Roman gate remains to this day. But no one has yet suggested that all this strange chess-board area north and south of the city bears an imprint in roads and parish boundaries which can only be that of the colony of 1,800 years ago. Yet there would seem to be no other explanation."

AMAZE A MINUTE SCIENTIFACTS ~ BY ARNOLD

Illustrated section titled 'AMAZE A MINUTE SCIENTIFACTS' with various facts and drawings like 'SALMON SPEARING!', 'ARCTIC FLOWERS', and 'LAZY COWBIRD'.

THE DEFEAT OF FEAR

By LEONARD A. BARRETT

A little child was afraid of the dark. In order to dispel this fear the father took the child for a walk into the night made darker than usual by an approaching storm.

Walking hand in hand the father inquired, "Are you afraid now?" "No," replied the child, "I have hold of your hand." We are all children; grown up, perhaps, but still children.

We need to return to childhood for many of life's most valuable lessons. Why was the child no longer afraid of

Heads Legion Women

Mrs. Melville Muckleston of Chicago, who was elected president of the American Legion auxiliary at the conclusion of the seventeenth annual convention in St. Louis, Mo., of the American Legion.

the dark? Because he had hold of his father's hand? Yes—but something more—that contact gave him confidence. Confidence always conquers fear.

The cause of fear is lack of confidence which is due, in many cases, to ignorance. The savage fears the thunder because he does not understand. We tremble at life's uncertainties because we think we are not able to cope with them.

The men and women who dreamed dreams and had the confidence in themselves to make those dreams come true have been the real heroes of history. We are daily reading of the return of confidence throughout our entire country.

Modern Hallway A small modern hallway, displayed in a metropolitan shop, has walls coated a tomato red and a glistening black floor.

The Household

By Lydia Le Baron Walker

THE work of dusting when rooms are cleaned is greatly reduced by the labor-saving vacuum cleaner. There are attachments that are handy to use for this lighter work than cleaning floors and which are easy to manipulate.

crevices in frameworks of furniture, making it almost impossible to get out.

Where Dust Settles.

When dusting there are certain things which are often overlooked. For example, tops of doors, and door frames are favorite spots for dust to settle, and unless dusted frequently it is amazing how dirty they get.

Open book shelves collect dust, particularly along outer edges, those narrow margins of shelves in front of volumes. The books need dusting on top, and the shelves back of them. Books should be taken out at intervals, and entire shelves be dusted.

Bathroom Equipment.

Styles in bathroom equipment and furnishings are continually changing. Sometimes because inventive minds have developed new ideas, sometimes because new metals can be used appropriately, sometimes because the vogue of white or colors extends to bathrooms, and sometimes because conveniences are multiplied.

Sports Ensemble

This coat designed of bronze-green cashmere completes a sports ensemble when worn with a multicolored skirt of rozier wool and a soft woolly scarf knitted of the skirt yarn in light and dark red.

Brighter Rooms

If a room is not bright and sunny, you can improve it by painting the walls and woodwork a bright shade, advises Helen Koues, director of Good Housekeeping Studio.

For bedrooms the pink, peach, and apricot shades will help a dark room, and for the room that is already bright you can take advantage of some of the smart new deep tones—bottle greens, Georgian greens, powder blues, dark blues, and even deep rose tones.

Bedsteads Reclaimed

Now that painted furniture is so much in vogue, many an old-fashioned bed is brought out of the attic, given a coat of paint, and made once more a useful piece of furniture.

Wild Ducks Live on Commuters' Bounty

Scarcely a ferry boat arrives at or leaves Leschi landing, Seattle, that is not met by a flock of 17 mallard ducks, insistently quacking for food.

FOOTPRINTS OF DINOSAUR

Miners in a coal mine at Chandler, Colo., recently found the footprints of a giant dinosaur, which must have waded through the mud some 5,000 years ago, reports the Seattle Post Intelligencer.

EATS OATMEAL TO HELP KEEP FIT

It may be one of Nature's lowest cost foods, but lucky is the boy or girl who gets it for breakfast every morning.

Many are nervous, poor in appetite, system out of order, because their daily diets lack enough of the precious Vitamin B for keeping fit.

Few things keep them back like a lack of this protective food element. So give everyone Quaker Oats every morning. Because in addition to its generous supply of Vitamin B for keeping fit, it furnishes food-energy, muscle and body-building ingredients.

Start serving it tomorrow for a 2-weeks test. Quaker Oats has a wholesome, nut-like, luscious appeal to the appetite. Flavoury, surpassingly good. All grocers supply it.

Where poor condition is due to lack of Vitamin B

SYNOPSIS

As Alan Garth, prospector, is preparing to leave for his mining claim in the Far North, a plane lands at the airway emergency station. In it are Burton Ramill, millionaire mining magnate; his daughter, Lillith; and Vivian Huxby, pilot and mining engineer. Believing him to be only an ignorant prospector, the men offer to make an air trip to Garth's claim, although they refer to his samples of platinum-bearing ore as nearly "worthless." Lillith Ramill, product of the jazz age, plainly shows her contempt for Garth.

CHAPTER I—Continued

The girl stopped in the entrance to peer around the cubbyhole kitchen, her scarlet-smear lips curled with disgust. Though soap-clean, everything in the place looked crude. The air was choky from the smell of cheap bacon.

Huxby sprang up to place the chair at the near end of the table. He lifted the boiling teapot from the stove and started to fill a tin cup with the black brew.

"Pardon our not waiting, Lillith," he apologized. "I did not wish to waken you with the refueling. Planned to do it while you breakfasted."

"Quite thoughtful of you, darling. But you need not think I'll drink this lye or eat any of these beastly messes. Not for me. You can have your steerage garbage. I'll keep to cabin fare."

She faced about and went back through the passage. Huxby stood hesitating. Mr. Ramill motioned him to sit down.

"You stocked the cabin with enough wines and delicatessen to last several days. Finish your meal."

The mining engineer shot a glance at Garth. "I've had enough oats to founder a Scotch cow. May as well see to the refueling."

Tobin rose stiffly and followed Huxby into the storeroom. Mr. Ramill took a last sip of the boiled tea, favored Garth with a patronizing smile, and opened his gold-mounted cigar case to offer one of the choice Havanas.

Garth declined. "I never smoke. It deadens the nose."

"Deadens—what's that?"

"Though man has the sense of smell, compared with dogs he lacks the ability to scent. Yet even a trace of it may be of use in the bush."

The investor's portly body quivered to his chuckle. "I've heard of nosing out prospects! First time, though, it's been done to my knowledge."

He caught himself up. "At least, Mr. Huxby considers it possible your discovery may be worth an examination. That leaves only the question of terms, in case we find the mine promising enough for me to make an offer."

Garth spared an inquiring glance. The portly gentleman gave him a bland smile.

"I believe in encouraging prospectors. They find new districts. With that in view, I buy numbers of undeveloped prospects, taking the risk of heavy losses. Though I drop thousands on some mines, I have made a fortune from others. But the average prospector, like yourself, stakes his all. Ninety-nine times in a hundred, he is cleaned out by total failure. If your lode looks at all possible, I'll pay you up to a thousand dollars cash for it."

"I'm not selling," Garth said. "I like to play a game through to the end, win or lose."

The investor's eyes hardened. "What's your idea?"

"One year's lease, and sixty per cent of the gross returns to me."

Mr. Ramill blinked. "Sixty per cent of gross! You're crazy!"

"Like a fox. Same kind of nose." It was Garth's turn to smile. "Not so keen, though, for galena. Better for scenting out alloys of gold, iridium and platinum."

The last word knocked the benevolent encourager of prospectors speechless. Yet, after a moment of blank staring, he managed a half-pitying look.

"Daff!" he muttered. "That must be it. These prospectors, alone in the wilds for months at a time!" He raised his voice. "Too bad, young man. If you'd make it gold and silver, I might have been able to swallow the bait. But platinum! That's a bit too thick. Platinum is found in quantity only in Russia. Very little anywhere else. Only a minute quantity in North America."

He rose as if to go. Garth gave him a regretful look.

"Yes—too bad, sir. Now I'll have to go outside. I may even have to wait until the ice goes out next year before I can dupe a gull into taking that lease."

Mr. Ramill left the kitchen without seeming to heed this plaint. When Garth followed him into the storeroom, he was quieting some dispute between Huxby and Tobin. The visitors put on their headnets and walked down to the wharf.

Garth went into the bunkroom. Before long Tobin came to open the door a handbreadth. He chuckled.

"Uh—lad, you got your hook in their gills. Pilot's tinkering with the motor. Changed the oil, but no move to refuel. Ain't rushin' to flop off."

Garth kept on lathering his beard.

When he came out, his cartridge belt was buckled about his waist. It held his sheath-knife and belt-ax. In one hand he carried his rifle, in the other the rest of his small outfit, strapped on his pack board.

Down on the wharf Mr. Ramill puffed cigar smoke through his headnet while he watched Huxby's examination of the motor and propeller. Miss Ramill was not in sight.

"Right-o, Tobin," said Garth. "Shaming it is. When that bus came down, you never heard a sweeter motor—every cylinder hitting true. Wish I felt as sure of that southbound Belanca."

"Don't fash yourself, Mr. Garth. She'll make Fort Smith on schedule."

"Then here goes for my next play."

He went down the slope to lay his pack and rifle a little way out from the base of the wharf. After that he fetched his canoe from the bank. He swung it down into the shallow water within close reach of the pack.

Mr. Ramill came shoreward rather hurriedly for so dignified a gentleman. "One moment, Garth. I've consulted with my engineer partner. He still thinks it may be worth our while to investigate your prospect."

"What! In view of my terms?"

"They're outrageous! Still, it is just possible the—er—mine might jus-

He Lifted His Pack Up Again on the Wharf, and Swung the Canoe Over His Head.

tify them. The least we can do is to inspect the lode. I make no deal's sight unseen."

Garth spoke as if to himself: "An air ride, free, and only a few hours' delay. Time enough to make the trip out before the freeze-up."

He lifted his pack up again on the wharf, and swung the canoe over his head to take it back to its previous position, bottom up, on the bank. When he returned he carried his pack and rifle out to the airplane. From the cabin came the rhythmic dissonance of a jazz-dance tune. The plane evidently was equipped with a long-distance radio receiver.

Through the wire gauze of the big rear window he saw Miss Ramill reclining on the heaped pillows of an unmade berth. The shelf at her elbow held tinned and package foods and a wine bottle. Garth laid down his rifle and pack on the wharf near the door-steps.

Ashore, at the storeroom, he found Huxby trying to boss Tobin into helping tote the gasoline. Annoyed by the old man's refusal, and still more by the indignity of mechanic's labor, the pilot engineer took up a case of twin five-gallon gasoline tins in his arms and started cautiously down the slope to the wharf.

Had Garth taken the same load, either he or Huxby would have had to return for the other two cases. He roped three cases together and tipped the thirty-gallon load upon his back. As if the pack had been a feather-weight, he went down the stony slope with the smooth gliding step of a moccasin wearer.

Out at the end of the wharf, a deft stoop and twist lowered his heavy pack upon the planks without a jar. As he straightened up he saw Miss Ramill step down from the cabin. She had donned her leather pilot trousers and jacket but held the helmet in her hand.

Through the mesh of her headnet he saw that her eyes were lustrous from wine. They gazed out at him with a look of reluctant admiration. No man of her acquaintance had ever toted such a back-breaking pack, either lightly or at all. But her forced respect-gave place to a show of disdain when he ventured a friendly smile.

"How gallant!" she jeered. "He has sacrificed his whiskers. Can it be he hopes to enravish the fair sex?"

"Was that why I shaved?" Garth inquired. "Femline intuition is wonderful. I thought I did it to make dooping easier."

"Oh, you mean what they call fly dope. But I see none of the sticky or

smelly mess they tell about. Your face looks clean."

"Thanks for the compliment. But I'll soon have to take to the usual grease and spruce pitch. Just used the last of my frogite."

The girl flushed with resentment. "Frogite! Don't lie to me. I know how you westerners tell fantastic falsehoods to tenderfeet."

"You do? By the way, in the North we say chechahcos, not tenderfeet. As for the frogite, it's no fancy. Years ago, Seton remarked the fact that mosquitoes never sting frogs. I—er—I know a man who experimented and who finally obtained chemically the substance exuded by the skin of frogs. Too bad I've run out of the dope. There are plenty of pests where we are going. You'll have to keep behind your nets—or take to grease and pitch."

Before the girl could reply, Huxby called down for more gasoline. He had managed to get one tin of his case up to the cockpit and had emptied it into a wing tank.

Garth swung up to him with a whole case balanced on his shoulder. It was far easier than toting a deer over broken country. After hoisting aboard the other cases and Huxby's second tin, he ducked under the front strut of the wing. His rifle and pack lay where he had left them.

The radio had been tuned in on what probably was the Edmonton relay of the London metal market report. The announcer started to give the last quoted price on platinum: "Refined platinum, per troy ounce, twelve pounds, seven shillings and—"

A whine and shriek like static cut across the voice. The loud-speaker blared into jazz.

Splashes told that Huxby was tossing the empty cans and cases into the river, instead of down on the wharf. That small yet wanton waste proved that the mining engineer was a stranger in the North.

Garth stooped forward under the wing strut with his rifle. Miss Ramill stood with her very artificially waved semi-bobbed hair bared to the breeze. Upon taking off her mosquito net to put on the leather flying helmet, a swarm of insects had at once attacked her. She was trying to flirt them off in order to replace the protecting gauze. "D—n your North country!" she exploded.

"Wait till you reach one of our muskew swamps, Miss Ramill. You'll call this heaven. But why the flying suit? Going to pilot the bus?"

"Is that any of your business?"

"None whatever. Pardon my impertinent curiosity. Only, as there are not three seats in the cockpit, I was moved to wonder if you, instead of your fiancée, are to be my riding mate."

"Yours!"

"How else? Or does the gentleman imagine he can find my prospect without a guide?"

"Dad will make you give Vivian your route map. I'll not let you have my seat."

This time Garth did not smile. The girl was due for a lesson. "Suit yourself—and tell Huxby he can head for the North pole."

"Indeed!"

"Quite so. He and your father can go there, or to the other place—and you with them. You're not only a selfish snob. You're a brainless fool to fancy a southern pilot can back-trail a canoe-route through unmapped forest and muskew country."

The girl's blue eyes flared with outraged pride and vanity. Garth smiled. He had paid her back in full for her arrogance. It was worth waiting over until another season for his fortune, up in that hidden valley of the Rockies.

But before he could stoop under the strut to recover his pack from the cabin, the girl called out to him: "Wait. I did not understand. If it's really necessary for you to act as Vivian's guide—but you had no call to be so rude."

Though he turned back, it was with no intention of humbling himself. He was not duped by her seeming change to amiability. It had been too sudden for sincerity.

"A woman has no more right to be rude than has a man," he replied. "When I hear you apologize, I'll consider whether an apology is due from me."

The smile left her rouge-smear lips. He had never before seen so disagreeable a look on any woman's face. But before she could find words to vent her feelings, Huxby peered down over the side of the cockpit, flushed from exertion and annoyance.

"Don't be all day, Garth. Cast off the lines.—Sorry, Lillith, but I'm not to have your company."

"Don't worry, old dear," she said. "This woolly pest will soon be a thing of the past. Only a few hours of the affliction, and we'll be rid of him."

CHAPTER II

Treachery.

Garth followed Miss Ramill under the monoplane's wing. He did not offer to hand the girl up into the cabin or help skip the steps. Women's rights did not include courtesies in return for insults.

He cast off the tail mooring line and swung aboard, with the coiled rope and his rifle. As the plane drifted clear, the breeze swerved it head off from shore. Huxby paused a moment to jerk out a question: "Route?"

For answer, Garth pointed westerly. Huxby set the propeller whirling with the self-starter. With rapidly increasing headway, the plane skimmed out on the smooth river.

Rifle between knees, Garth settled down upon the cockpit seat at the pilot's elbow. Huxby was first to speak. When the plane soared above the west bank of the great river, he leaned close to shout a repetition of his question: "Route?"

Garth looked overside before pointing. The plane had climbed nearly a thousand feet.

Even to a man who had spent years in the North, this view of the sub-arctic landscape was a puzzling maze. On the ground, Garth would have had slight trouble retracing the course he had followed in and out of the wilderness. From the air, everything looked different. For all his flying experience, Garth could not, as he had expected, strike a bee-line. Though he knew the general direction of his find, he was unable to guide the plane as the crow flies.

At his sign to bank, Huxby frowned but brought the plane around in a wide curve. Very soon, upriver from the refueling station, Garth sighted the small swamp stream on which he had begun and ended his trip into the unknown. This was a familiar point of departure. From it he again directed the pilot to the westward.

Somewhat under an hour later, the swamps and low ridges ended at the upheave of an eastward thrust mountain range. A near view of the barren peaks caused Garth to twist the course about on a sharp angle to the southwest. Those mountains had not appeared any too familiar. The difficulty of finding landmarks recognizable from the air had not lessened. For days on his trip in and out, he had traveled through dense forests of spruce that shut off almost all wide views, even of the mountains.

The westward rise of the country had by now forced the plane up another thousand feet. Higher slopes ahead called for still more altitude. The jagged skyline reared a thousand feet or more higher than the plane. Huxby started to climb. Until within a mile of the savage cliffs he ignored Garth's advice to lessen the angle. Then, as the plane swept past an out-jutting peak on the right, Garth signed towards the gap between it and the main mass.

The highest point of the pass was more than half a thousand feet lower than the plane. Huxby pushed the stick forward and shot down for the gap on a long slant. The monoplane soon drove in between the towering precipices and steeply pitched side slopes of the immense cleft. A little more, and the cleft crooked to the north. The plane banked around the turn. Below the bend the cleft widened in the neve of a glacier. Farther down the expanse of snow-ice pinched into a narrow gulch. The gulch ran down into a deep mountain-rimmed valley. Down the rough bed tumbled a stream of milky glacier water.

Garth noted moving dots on the tundra and white specks up on the rocky slopes above them. But Huxby saw neither the caribou nor the mountain sheep. He had at once spotted the lake in the valley bottom. He angled on down as if to plunge into the silvery sparkling ripples of the lake. The monoplane swooped above the upper shore and drove on towards the foot of the lake at full speed. Garth pointed to the intake from the glacier stream, and signed for a descent.

(TO BE CONTINUED)

Snail, a Mollusk, Belongs to Land, Water Variety

A snail is a mollusk and properly belongs only to mollusks living on land or in fresh water, which, says a writer in the Montreal Herald, are classified as Pulmonates because they have lungs (Latin, pulmo) and breathe air instead of extracting oxygen from water by means of gills as do the sea-mollusks. These pulmonates are of three kinds: 1, those living on land; 2, those living in fresh water; 3, slugs. Both of the first two are protected by shells to which they are permanently attached, yet may extend the body to some distance outside of them. The third kind (slugs) have no visible shell, only a small plate beneath the skin, and are wholly terrestrial. All these are virtually alike in internal structure, subsist mainly on vegetable food, are of two sexes, and reproduce by means of eggs.

As a snail, carrying its shell upright on its back, crawls slowly along all we see of it is the squarish head at the forward end of a soft but muscular, tapering body called the "foot," the under surface of which is a tough, elastic sole by slight movement of which the animal hitches itself forward.

"Clermont," Fulton's Steamboat The steamboat built by Robert Fulton was called the "Clermont."

## Washington's Tower of Babel Located in Library of Congress

Washington's Tower of Babel is located in the basement of the Library of Congress. In the modern day it goes by the name of the Polyglot Division of the Government Printing Office.

Recently bound for distribution through the printing office, a technical pamphlet absolutely unique in printing annals, which will go to every city of any consequence in the civilized world, was turned out in this little-known branch. It is called the "Style Manual of Foreign Languages," and is for the universal use of printers and transliterators. It contains the alphabets, vowels and consonants, diphthongs, grammatical and etymological oddities, and rules for the division of words of more than fifty foreign languages and dialects.

Information for the compiling of this work came from authorities all over the world, from scholars, libraries and universities. Pundits from the Far East and the hinterlands of little-explored Asia contributed their part. Alphabets of Indian tribes, for example, never before printed anywhere, are here, and are the result of special researches in the files of the United States Bureau of Etymology carried on by some of this nation's ablest philologists.

The Polyglot Division, with its 29 highly specialized employees, and operating but ten linotype machines, runs off 2,250,000 library cards for the libraries of the world every month in the year. It turns out all the routine job printing work required by the Library of Congress and the Copyright Division—blanks, stationery, publishers' cards and bulletins.

Every linotyper and make-up man in the division has to have a working knowledge of the major portion of the 62 languages and dialects in which the library cards are printed.

Special Type Fonts Used. Every one of the variety of languages and dialects used in the printing of the cards has its special fonts of type for the linotype machines. There are few exceptions: Japanese and Chinese card entries, for example, are set in Latin characters. A complete set of type characters for either of these languages would occupy more space than is available for all the others put together.

Since no type for Hebrew, Greek, the five Slavic tongues, Anglo-Saxon, or Gaelic, has been supplied for the Polyglot Division, all cards with entries in these languages must be set laboriously by hand. The men who do this particular work are the real specialists of the genuinely exclusive printing shop.—Washington Star.

## "DUTCH BOY" STRING HOLDER

By GRANDMOTHER CLARK

If you take the little Dutch Boy into your kitchen we feel sure he will work well for you. You will like him. Size when made up about 8 by 12 inches.

This package No. A-12 contains the stamped material for the pants and suspenders to be cut out, also died-out head, body and shoes printed in colors on heavy board. Material with directions how to make up this holder will be mailed for 15 cents for one package or four packages for 50 cents.

Address Home Craft Co., Dept. A, Nineteenth and St. Louis Ave., St. Louis, Mo. Inclose stamped, addressed envelope for reply when writing for any information.

Our Conscience Conscience is not merely a quality that inspires regret; it is often a principle that removes the faintest desire to do wrong in the first place.

## AIR ICICLES

Ice is almost as dangerous to aircraft as fog. It has forced planes to fly into the ground, and has driven them so low that they have struck obstacles. Block ice, forming round wires and all edges designed to cut the wind, sometimes causes a fatal increase in weight and head resistance, as well as distorting the flying surfaces which supply "life" to the machine. The thickening of one bracing wire will decrease speed by 15 miles per hour.—Tit-Bits Magazine.

## Beware Coughs from common colds That Hang On

No matter how many medicines you have tried for your cough, chest cold or bronchial irritation, you can get relief now with Creomulsion. Serious trouble may be brewing and you cannot afford to take a chance with anything less than Creomulsion, which goes right to the seat of the trouble to aid nature to soothe and heal the inflamed membranes as the germ-laden phlegm is loosened and expelled.

Even if other remedies have failed, don't be discouraged, your druggist is authorized to guarantee Creomulsion and to refund your money if you are not satisfied with results from the very first bottle. Get Creomulsion right now. (Adv.)

Special Type Fonts Used. Every one of the variety of languages and dialects used in the printing of the cards has its special fonts of type for the linotype machines. There are few exceptions: Japanese and Chinese card entries, for example, are set in Latin characters. A complete set of type characters for either of these languages would occupy more space than is available for all the others put together.

Since no type for Hebrew, Greek, the five Slavic tongues, Anglo-Saxon, or Gaelic, has been supplied for the Polyglot Division, all cards with entries in these languages must be set laboriously by hand. The men who do this particular work are the real specialists of the genuinely exclusive printing shop.—Washington Star.

## Nature's Ice Box O. K.; Keeps Food 33 Years

Nature's Ice box has even the best of mechanical refrigerators skinned when it comes to food preservation. Keeping food in good condition for years is no trick at all for natural cold storage plants such as the Antarctic wastes. According to Dr. Dana Coman, physician and dietitian for the Lincoln Ellsworth-Sir Hubert Wilkins expedition, food left in a shack in the South Polar region 33 years ago was found to be still edible when discovered. The long-preserved food supplies were left by a Norwegian explorer, Otto Nordenskjold, in 1902.—Washington Post.

## Quick, Complete Pleasant ELIMINATION

Let's be frank. There's only one way for your body to rid itself of the waste matters that cause acidity, gas, headaches, bloated feelings and a dozen other discomforts—your intestines must function. To make them move quickly, pleasantly, completely, without griping. Thousands of physicians recommend Milnesia Wafers. (Dentists recommend Milnesia wafers as an efficient remedy for mouth acidity).

These mint flavored candy-like wafers are pure milk of magnesia. Each wafer is approximately equal to a full adult dose of liquid milk of magnesia. Chewed thoroughly in accordance with the directions on the bottle or tin, then swallowed, they correct acidity, bad breath, flatulence, at their source and at the same time enable quick, complete, pleasant elimination.

Milnesia Wafers come in bottles of 20 and 48 wafers, at 35c and 60c respectively, or in convenient tins containing 12 at 20c. Each wafer is approximately an adult dose of milk of magnesia. All good drug stores carry them. Start using these delicious, effective wafers today.

Professional samples sent free to registered physicians or dentists if request is made on professional letter head.

SELECT PRODUCTS, Incorporated 4402 23rd St., Long Island City, N. Y.

## MILNESIA WAFERS

The Original MILK OF MAGNESIA WAFERS

**"My baking gets more bouquets—and I save, too!"**

SAYS MRS. C. H. McINTOSH, 854 EASTWOOD AVENUE, CHICAGO, ILL.

**Lowest Prices Ever on Calumet Baking Powder!**

"It's certainly good news that Calumet is selling at new low prices," Mrs. McIntosh says. "I do a lot of baking, and when I can get a full pound can of reliable Calumet for only 25c, I'm pretty pleased with myself!"

Her son Jack settles down to some of Mother's famous coffee cake, and pays for it with a big smile.

AND LOOK AT THE NEW CAN! A simple twist... and the Easy-Opening Top lifts off. No delay, no spilling, no broken fingernails!

WHY IS CALUMET DIFFERENT from other baking powders? Why do you have to use only one level teaspoonful of Calumet to a cup of sifted flour in most recipes?

Because Calumet combines two distinct leavening actions. A quick action for the mixing bowl—set free by liquid. A slower action for the oven—set free by heat.

**New! Big 10¢ Can!...**

Calumet, the Double-Acting Baking Powder, is now selling at the lowest prices ever... The new-size can is yours for a dime! And the regular price of the Full-Pound Can is only 25c! A product of General Foods.

Mr. and Mrs. Walter Moeller, Chas. Moeller, Ernest Moeller, Jr., and Ed. Moeller were at Frankenmuth Sunday where they attended the baseball game between Billy Rogell's barnstormers and Frankenmuth.

Among the players from the World Champion Detroit club taking part in the game, besides Rogell, were Chief Hogsett, Vic Sorrell, Frank Reiber and Coach Del Baker.

Flax for Paint

Sixty-two million acres are required to produce the flax necessary for our annual consumption of linseed oil. This is equivalent to the area of the upper four New England states.

No. 2 Continued from the First Page

According to the specifications of the blue-prints, the harbor will take the form of two 600-foot jetties on the side of the stream, from a point at right angles to the old government lighthouse pier north and south end, running due east with piles driven two feet apart, center to center.

The rows of piling will be six feet apart, the intervening space to be filled with shale rock on a brush mat. Two 12x12' cribs will terminate the piers at the outer ends. The cribs will be set on bed rock at a depth of 12 feet, as sand is drawn from under them, then filled with hard-head stones from Lake Huron shallows. Ice-fending piling will surround the cribs on three sides, and craft fenders will protect ships from riding the low jetties when entering the harbor in high seas.

To prevent spreading the whole structure will be waled with 6"x8" and wider timbers fastened with inch iron bolts and every eighth bolt will extend from side to side, the ends reinforced with 4" cast iron washers. The piers will be cut down to a three-foot elevation above normal water level, so that the wood material may be constantly saturated with water to prevent early decay.

Endorsements from scores of pleasure yacht skippers, commercial fishermen, the Lake States Small Craft Harbor League, and the personal interest of Harry L. Hopkins, Federal Administrator, and Harry L. Pierson State Administrator, both of whom were familiar with the local set-up were factors in securing approval according to the local sponsors. The project names J. N. Sloan, Isoco County Road Commission, as local engineer and a federal engineer will be sent from Washington.

Probably the only one-person project in Michigan is located in this area. It provides a year's wages for a blind woman in Mt. Pleasant for proofreading Braille volumes prepared by volunteers for the use of the states' blind.

The largest road improvement program is in Alcona which has a federal allotment of \$68,456 for the purpose.

Probably the only one-person project in Michigan is located in this area. It provides a year's wages for a blind woman in Mt. Pleasant for proofreading Braille volumes prepared by volunteers for the use of the states' blind.

LOST—Short eared black and tan hound, named Jack, \$25.00 reward. No questions asked. Finder notify or deliver to Ed. L. Anderson, Tawas City, R. 3.

No. 4 Continued from the First Page

and mail routes in nearly every section of the county. The material will be furnished from the new limestone crushing plant at Whittemore.

Work will begin on this project within the next ten days, it is stated. A large number of trucks are required for the work and operators who plan to list their trucks for employment should have them registered and inspected at the WPA office at Tawas City at once.

Included in the list are two new district headquarters buildings for the Michigan State Police in Isabella and Isoco counties at a total federal cost of \$32,155.

Graying has an important project for installing water mains at a federal cost of \$11,417, a public improvement long deferred for lack of funds. Drain projects in Gladwin and Isoco counties call for \$10,200 and \$13,960, respectively, in federal funds. The town hall in Sage township, Gladwin county, is to be remodeled at a modest outlay of \$525.

Projects for much needed repairs to school buildings were approved for Mt. Pleasant, Mikado, and Rose. For the repair of county bridges \$21,943 was allotted, and projects for the improvement of farm-to-market roads will provide employment for several hundred men now on relief in Ogemaw, Midland, Clare and Alcona counties.

The largest road improvement program is in Alcona which has a federal allotment of \$68,456 for the purpose.

Probably the only one-person project in Michigan is located in this area. It provides a year's wages for a blind woman in Mt. Pleasant for proofreading Braille volumes prepared by volunteers for the use of the states' blind.

"Cradle of Liberty"

Faneuil hall, in Boston, is known as the "Cradle of Liberty," because it was a famous gathering place of Revolutionary patriots and many speeches of freedom were made there.—Pathfinder Magazine.

Russian Icon Most Active to 1917

Up to 1917, the world's most active icon was the holy picture of the Iberian Virgin in Moscow. From morning to midnight each day in a coach drawn by six horses and attended by priests, it made a round of visits to homes of the sick.

3-Way Weapon of 16th Century

Back in the sixteenth century in England a maker of hand weapons produced a combination weapon. It consists of a pistol, dagger and knuckleduster, or brass knuckles.

EAST TAWAS

The East Tawas school carnival held last Friday evening was a big success.

Mr. and Mrs. Louis DeFrain spent Thursday in Bay City.

Sherman Marr and friends of Detroit spent the week end in the city. Mr. Marr is a son-in-law of Mr. and Mrs. S. Siglin.

Mr. and Mrs. Chas. Parker of Flint spent a couple of days with Mrs. Sarah Searle.

Mr. and Mrs. Roy Applin and baby of Detroit spent the week end at Tawas and Sand Lake.

Wool rugs and felt base. We can take care of your requirements. Barkmans, adv

Stanley Daley of Detroit spent the week end in the city with his mother.

Emil Sauve of Alpena spent Thursday in the city with his mother, Mrs. L. Sauve.

Misses Winifred Burg and Winifred Herman left Saturday for Los Angeles, Calif., for a ten-day visit. While in California they will visit Mrs. A. Lincoln at Long Beach and Miss Regina Barkman, who is spending a few weeks with her aunt, Miss Belle Myers, in Los Angeles.

Mrs. G. Vaughn, Sr., left Saturday for a few days' visit in Saginaw with her sister, Mrs. Ella Cleaver.

Mr. and Mrs. George Siglin left Saturday for New Mexico, where Mr. Siglin will go for his health.

Mrs. S. Somers and children of Detroit spent the week end in the city with her father, John Owen, and at the home of Mr. and Mrs. Roy Hickey.

Mrs. S. Bridge and daughter of Detroit spent the week end with Mrs. Harriett Grant.

Charles Martin of Deckerville spent a few days at the home of Mr. and Mrs. Will Sedgeman.

Mr. and Mrs. Leo Kunze of Detroit spent the week end in the city.

Mr. and Mrs. Clarence McMullen spent the week in Saginaw, Detroit and Imlay City.

First Street Car Line

The world's first street railway line using horses for motive power, began operation on November 26, 1832, over a route extending from Prince street and the Bowery to Fourth avenue and Union place, now Fourteenth street, in New York. That line was destined to become the New York and Harlem railroad.

Printing of Textiles

Printing of textiles, which is just another form of dyeing, was practiced at very early times by the various East Indian nations, long before their migrations led to the settlement of Asia Minor and Europe.

New numbers in dining room and bedroom suites on display now. Barkmans, adv

interest and good will of the community. He explained that the success of the club was due to the fine teamwork displayed during the season.

Mrs. Nyda Campbell Leslie led the audience in singing of songs specially arranged for the occasion. Music and entertainment was furnished by C.C.C. boys from Camp Hale. This orchestra also furnished music for the dancing party in the Masonic temple annex following the banquet.

One thing marred the full enjoyment of the evening. That was the serious illness of Mervyn Lixey, star pitcher for the team. A letter of appreciation and wishes for speedy recovery was prepared and signed by all present. This, with a beautiful basket of flowers, a gift from Mr. and Mrs. James Leslie, was sent to Mervyn.

No Cows Brought by Pilgrims

No cows were brought by the Pilgrims to the United States in 1620. The first cows imported were in 1624, by Governor Winthrop, according to Albert S. Bolles in the Industrial History of the United States. These cows were raised primarily for hides, secondarily for meat, and only incidentally for milk.

Gibraltar the Key

Gibraltar, commonly called the key to the Mediterranean, is a British colony strongly fortified. It has a population of about 20,000 and depends for its prosperity on the trade provided by the local population and the services stationed there.

Silk Spinning by Hand

The silk spinning industry, which employs a third of Japan's textile workers is largely conducted on hand manufacturing lines.
