delega-

negative votes were **Haile Selassie** cast by Hungary, Austria and Albania, all under the thumb of Italy, and Ecuador. Ethiopia, Portugal and four other countries refrained from voting. Rather surprisingly Great Britain and France espoused the cause of Ethiopia, though it had been thought they considered the co-operation of Italy in the league of more importance than justice to the African realm. The heated debate was closed when Capt. Anthony Eden,

British foreign minister, said: 'Enough of this nonsense! There never has been any sufficient ground to unseat the Ethiopian delegation." The credentials committee in recommending the action taken said it applied to the present session only. Its report asserted that certain documents which had been received by the members alleged that Ethiopian governmental authority has been set up in sections of Ethiopia not occupied by the Italians.

Seating of the Ethiopians made it certain that no Italian delegation would attend this session, and it was believed by many that Mussolini might withdraw formally from the league. It was a victory not only for Ethiopia but also for the smaller European powers, which felt that league submission to Italy would be disastrous to their own

security. Sir Samuel Hoare, first lord of the British admiralty, added to Italian resentment against Great Britain by declaring in London that the British intended to maintain their supremacy in the Mediterranean and would modernize and consolidate their naval, military and air defenses between Gibraltar and the Suez canal "in the light of recent experience." Malta, he said, would remain the first and principal base of the British fleet in the Mediterranean and would be strengthened to meet conditions. Work on Cyprus as a military, naval and air base is being hurried to make that island a complement to Malta. Sir Samuel asserted that the development of Italian air power has not endangered the British position in the Mediterranean.

HREE members of the mariset him right time commission authorized in the closing days of the last congress were appointed by President Roosevelt. They are: Rear Admiral Henry A. Wiley, U.S.N. retired; Rear Admiral Harry G. Hamlet, coast guard; George Landick, Jr., chief of the planning section of the procurement division of the Treasury department. The commission will administer the ship subsidy measure act as a regulatory body in conduct of merchant marine affairs, and operate generally in the nature of the interstate commerce commission.

T OM K. SMITH of St. Louis, Mo., was elected president of the American Bankers association at the convention in San Francisco. Orval Adams of Salt Lake City was advanced to the first vice presidency, though it was said this was opposed by some because of his pronounced anti-New Deal convictions. The executive council will select the meeting place for the 1937 convention. Mexico City was the only one to make a bid for the choice.

Resolutions reported by the committee and adopted called on governmental divisions-national, state and local-to bring their expenditures more definitely under control and return to balanced budgets, and recommended that chartering of new banks be limited rigidly to the economic needs of the nation. ors of the Union army were able to

issues upon which the electorate will choose the next occupant of the White House. There has been a tremendous amount of hauling and filling, each side coming forth with trial balloons in an effort to find out what it is that will attract the most interest among the voters and to determine what particular matters afford the best vehicle on which they can ride into office.

From the beginning of this year, President Roosevelt has been trying to shape his issue on the basis of a single question-whether the American people in dollars and cents are better off then they were when he took office. I think admittedly that if Mr. Roosevelt could force that question into the center of the stage and make it the real issue, he would have very little campaigning to do. But the trouble is Mr. Roosevelt has been unable to accomplish his purpose and no little credit for his threat to force a joinder of issues on this point is due to the Republican leadership. The Republican managers simply will not be led into that trap. Thus, we must look elsewhere to see what the real issues are, or are likely to be, in this

campaign decision. It has nearly always been true that the issues prominent early in the campaign have proved not to

be the issues at all near the end of a political battle. This year promises to be no exception. Political leaders attempt to figure out the proposition upon which their opponents are most vulnerable and obviously this figuring takes place in advance. It has to happen that way in order that methods of attack can be arranged in advance.

The New Dealers thought they could smoke out the Republicans by shouting far and wide that the people as a whole are better off than they were when Mr. Roosevelt took office. But, again, it was a case where political strategy did not work. Even though many hundred thousands of people are better off, the fact remains that there are some twenty million persons receiving relief in one form or another and the further fact remains that there are somewhere between nine million and ten million workers without jobs. Consequently, Mr.

Roosevelt's question whether people were better off in dollars and cents did not quite click. In the meantime, the Republicans have found what they believe to be a very vulnerable spot in the New

General made some public threats that he would seek to indict those who were responsible for distribution of this information, claiming that a federal law had been violated. Being attorney general of the United States, any statement from him got wide distribution.

But the Republicans, recognizing the potentialities of this situation, issued a challenge to Mr. Cummings to proceed with his threat of indictments. Their publicity statement on the point was just as virulent as that of any red-blooded American boy who says to his playmate, "I dare you to!"

Well, the rejoinder of the Republicans rather put Mr. Cummings on the spot.

I presume probably the threat and the resulting challenge still would have amounted to nothing except that the method employed by the Republicans capitalized on that threat by accusing the attorney general of seeking to prevent free speech and to prohibit discussion of campaign issues. If there is one thing that the American people resent, it is any attempt by a governmental agency of whatever character it may be that seeks to stifle discussion. They look upon it as a sign of dictatorship. Somewhere in their veins still courses the virus that overthrew King George in the birth of this nation.

That is why the Cummings threat is so important.

President Roosevelt announced the other day that he is preparing to start reorgani-Too Many

zation of the fed-Agencies eral administrative agencies. He

said he had arrived at the conclusion that such a course was necessary because there has been overlapping in function and jurisdiction among the many agencies created by the New Deal. It is the second time that the President has proposed reorganization of the governmental units and his new announcement promises to attract as much attention as did his original announcement which was made when he was a candidate during the 1932 presidential campaign.

For a long time, it has been plainly evident to observers in Washington that New Deal agencies were literally falling over one another and that many of them were constantly in conflict with others because the laws or executive orders, chiefly the executive orders, by which these agencies were created, did not clarify their jurisdiction or their function.

A good deal of this trouble obviously had its origin in the haste that characterized the early efforts of the Roosevelt administration to establish machinery by which problems of the depression could be solved or alleviated. It always happens that when governmental agencies are created in such haste, ridiculous situations result. It was the case during the World war and it has been the case during the New Deal's efforts to solve depression problems under the emergency powers granted by congress. The truth seems to be that there is more overlapping, more conflict, now than there was during the World war.

V ETERANS of two great conflicts, the World war and the Civil war, held their annual conventions, the American Legion

-

Harry W.

Colmery

meeting in Cleveland and the Grand Army of the Republic in Washington. The legion elected Harry W. Colmery, a lawyer of Topeka, Kan., as its national commander and awarded next year's convention to New York city. Mayor La Guardia personally led the Gotham

delegation in the big parade. This delegation included an impressive display of police and fire department bands, motorcycle squads and mounted officers.

In its business sessions the legion adopted a resolution asking the United States government to withdraw its recognition of soviet Russia. Other resolutions approved called for a 90 per cent reduction in immigration quotas and deportation of all aliens who are anarchists, communists, or affiliated with the Third Internationale; the removal from public relief rolls of aliens who have not applied for citizenship; universal application of the fingerprinting system in this country, and an investigation of methods used in disseminating "subversive doctrines.

The legion band championship was won by the Musicians' post, No. 394, of St. Louis, Mo.; second place went to Franklin post band of direct crews of ex-convicts, pan-Columbus, O., and third to Musicians' post of Los Angeles. for performance. A ship entered by the Lawrence Institute of Technology, Detroit, took second place.

Roscommon-Northern Michigan porcupines are displaying strange appetites these days. At a deer hunters' camp in the Ogemaw state forest Thomas White, conservation own program and planning talks officer of Roscommon county, found a porcupine busily engaged in eating an aluminum tea kettle that had been left by the hunters when they broke camp last fall. In the Pigeon river state forest porcupines gnawed off the glass insulators of the firetower telephone line. Traces of salt on the objects gnawed are believed to attract the porcupines.

cording to an announcement by the state highway department. The highway department is acquiring a triangular piece of land surrounding the well. It has a frontage of 462 feet, the area of which will be improved for use by the public for rest and refreshments. Snover-For many years a spring

adjacent to the Snover Road and M-46 on the property of Edward Brandt, provided refreshment for tourists. Because of its popularity the State Highway Department decided this year to improve it. A concrete base was provided and parking space graveled for cars. When the improvements were all finished the spring balked and has since refused to flow.

Grand Ledge - Gov. Fitzgerald said he would recommend a \$250,-000 appropriation to finance state participation in the development of recreational and athletic centers. His views were outlined in a speech in which he dedicated a municipal recreational field named after him. The governor declared he would propose to the legislature that aid be extended to communities raising funds to meet part of the cost.

Olivet-The gloom bound to attend the thoughts of school after this village by the annual watermelon party in the back yard of the Dr. Phil H. Quick home. This year 100 youngsters partook and in spite of the drouth 80 melons were on hand. Dr. Quick raises his own melons on an extensive acreage. It never is molested for every Olivet youngster knows that eventually he will get his share.

Lansing - Business of farmers' dairy co-operatives in the state nearly doubled during the 1935-36 marketing season, compared with the previous year, according to figdivision of the farm credit administration. Sales value of dairy products marketed co-operatively by 66 reporting associations amounted life. to \$30,000,000 during the last marketing season. The increase was partly due to a higher price level for dairy products. About 55,000 farmers use the co-operative plan.

at it with machine-gun rapidity. This question, this spot, centers around taxation. The Republicans apparently thought at the start of the fight that Democratic waste of federal money and the vast debt that was piled up would force a revulsion of feeling against New Deal policies. So they started out on that campaign horse. But they found that the question of taxation over-shadowed the other, even though the taxation about which the Republicans are talking has been an offspring of the alleged waste of

the party in power. I doubt that the taxation issue

would have been as important as it is proving to be Err in had not the New

Dealers made a Strategy mistake in politi-

cal strategy. This mistake, it may be said in passing, illustrates how very minor things influence the ultimate result in politics to a greater extent perhaps than in any other activity of American national life. The mistake which I refer to was made by Attorney General Cummings.

The story of the circumstance chronologically is something like this: The Republicans from their headquarters in Chicago began calling attention to increased tax burdens in connection with their exvacation is always lifted a bit in posure of the increase of more than thirteen billion dollars in the country's debt. They pointed out how if the Roosevelt administration had

not wasted money, preparations would not have to be made for raising the taxes and how, if this waste had not occurred, tax increases which we already have had would not have taken place.

As a part of the demonstration of increased taxation the Republicans issued campaign literature itemizing the amount of taxes each and

every one of us pays on the common every-day necessities of life. They showed how each loaf of ures released by the co-operative bread, each pair of shoes, each pork-chop, among other things, bears so much tax which all of us pay in buying those necessities of

> Probably the distribution of this campaign literature by the Republicans would not have stirred up so much fuss in and of itself had it not been for the action of Attorney

I have known of numerous instances where one agency, under authority given it

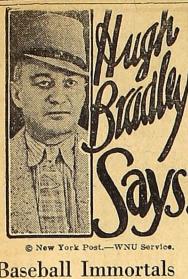

Much by the President, has promulgated Confusion rules and regula-

tions having the force of law that did not conform to rules and regulations dealing with the same matters but coming from another unit of government. In addition, I have seen different interpretations placed on the same statute or the same regulation by two different agencies. In consequence, the citizen whose business practices or personal affairs were touched by government edict found himself prohibited from doing a particular thing on the one hand_and ordered to do it on the other.

Thus, it would seem that it is high time for something to be done about re-organization. It would seem equally to be high time for elimination of some of the extra red tape of government which has been wound about the private lives of American citizens by the New Deal. Goodness knows, there was plenty of red tape before the New Deal ;it certainly is worse now than it was before.

The thing that seemed to interest most of the writing fraternity in Washington, however, was not so much the alleviation of the conditions which I have mentioned, but the political aspects of the presidential announcement that new reorganization plans were under consideration. Some of these writers who are critical of the New Deal went back to the 1932 campaign records and dragged out to public view Mr. Roosevelt's promises respecting governmental complexities.

FINNEY OF THE FORCE

Errand of Mercy

By REV. HAROLD L. LUNDQUIST. Dean of the Moody Bible Institute of Chicago. © Western Newspaper Union. Youth's Fling Lesson for October 4 THE MACEDONIAN CALL

LESSON TEXT — Acts 16:6-15; Romans 15:18-21. GOLDEN TEXT—Go ye therefore, and teach all nations.—Matthew 28:19. PRIMARY TOPIC — Paul's Wonderful

Dream. JUNIOR TOPIC-God's Call to a New

Continent, INTERMEDIATE AND SENIOR TOP-

IC-A Cry for Help. YOUNG PEOPLE AND ADULT TOPIC -The World's Need of Christ.

The roots of American life, cultural and religious, reach back into the European soil on which our forefathers dwelt. The lesson before us is therefore of peculiar in-terest, for it relates the first step in the carrying of the gospel into Europe, and ultimately to America.

Paul, the missionary with a pastor's heart, felt constrained to go and visit the centers where he had ministered on his first journey. As he proceeded he was providentially hindered and led by the Holy Spirit to Troas. Here his next "step" seemed for a time to be a "stop," but soon God in a vision called him into Macedonia-and the gospel had come to Europe.

It is of interest to note that Paul, as he thus began his second missionary journey, was

I. Obedient to the Spirit (Acts

He had certain plans in mind. He set out with a purpose, but he was willing to have his own itinerary changed as the Holy Spirit led. It is significant that the guidance was negative as well as positive. The stops as well as "the positive. The stops as well as "the steps of a good man are ordered by the Lord" (Ps. 37:23). Chris-tians will do well to remember that providential hindering circum-stances may be as much the lead-ing of God as the heavenly vision. We are to be obedient to any guid-ance the gives but we are not to ance He gives but we are not to be merely passive, but actively submissive to His will. Paul was about the Father's business, not

idly waiting for the speaking of a voice from heaven. It is to such a man or woman that the Macedonian call comes even in our day, only now it comes from China, India, South America, or Africa. II. Faithful in Testimony (vv. 13,

14). Paul, with his companion Silas, Timothy who had joined them at Lystra, and Luke (note that the "they" of v. 8 becomes "we" in v. 10) came to Philippi in Macedonia, but they found no Macedonian man waiting for them. Had they been mistaken in their vision and call?

True missionaries are not thus easily discouraged. They had come to be fishers of men. The fisher-man does not expect the fish to come to him. He goes after them. Paul soon discovered that there

16:6-12).

on top of the bag and we'd nearly always get the runner."

"Boys sure were tough," interrupts Stengel. "Remember, when you were a rookie and tried to get a turn at the plate, how those veterans really would pour it on you."

"Sure, sure," says Wagner, "And if you forced yourself in and got a turn up there, like as not they'd break up all your bats."

"Yeah," it is the Babe's turn. "When I joined the Red Sox I got

in at noon and pitched my first game at 3 o'clock. Won it, 2 to 1. Next day I was warming up and I let a ball through and it sort of nudged Smokey Joe Wood. Joe threw one back and if I hadn't ducked just in time it'd have brained me.

"So I challenged Babe Ruth him but somebody

stopped it then and after the game somebody stopped it again. So I told Bill Carrigan, who was manager, that I had something to say I wanted everybody to hear. So Bill says go ahead and I say I don't care much for anybody on the club and I'd be willing to take them on one at a time.

"Well, nobody come on and after that I never did have a bit of trouble on that team."

"Quite a man that Carrigan," says Stengel. "Remember the time I first came up to bat against you birds in the '16 series? Carrigan's catching back there.

"'You look like you might make a pretty fair hitter for a young fel-low,' he cons me. 'Stand up there nice and everything like that. Don't want to make any mistakes about you. Guess we'll sort of have to there pitching and he's thrown one right at my head.

But now more and more old timers have swarmed into the dugout. Burleigh Grimes, wearing a broadrimmed black hat as befits the manager of the Louisville Colonels; Charley Hargreaves, Al Mamaux, Frank DeHaney, Mickey Welch, Arlie Latham, Chick Frazier.

4.

Bradsbury Robinson made an 87yard pass in a St. Louis-Kansas game in 1906. In 1920 "Brick" Muller of Ohio State snapped the ball for a mere 70 yards.

Thad Brock of Davidson college's (N. C.) 1929 team made a run of 102 yards — yet failed to score against Duke. He had attempted to kick from eight yards behind his goal line, changed his mind, ran, and was downed on Duke's six-yard stripe.

Woodrow Wilson was the first Princeton football coach to defeat both Harvard and Yale; he originated the double pass and was responsible for the modern eligibility rules.

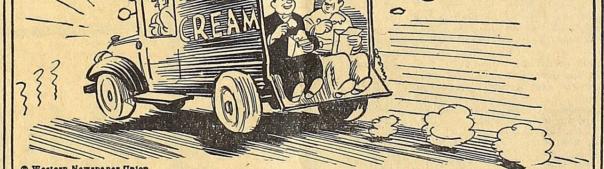

The outstanding David - Goliath football game is still Centre's conquest of Harvard in 1921. That was back when "Unk" Moran coached Centre. His last coaching assignment was at Catawba college, Salisbury, N. C., two years ago. Centre college was one of the first Southern teams to defeat a Northern team on Northern soil.

Earle Clark of the Colorado college team scored all the points for both sides in 1929, the score standing 3 to 2 at the finish for a Colorado

victory over Denver. A University of North Carolina player, Ike Norwood, in 1908 played in the first game he had ever seen and then played in every game during the season except one.

Balsa Lightest Wood

Balsa is the lightest known wood. It weighs only 7.3 pounds to the cubic foot. Cork is almost twice as heavy. Balsa wood is treated with paraffin and is used chiefly for constructing life rafts, making life preservers and for buoys and floating signal attachments. It grows in Central America and the West Indies, particularly Cuba and Porto Rico.

The greater part of China belongs to the temperate zone, only a small portion of the south lying within the tropics. It has what is called an excessive climate, and has a far greater range of temperature than is usual within the same parallels of latitude

CHAPTER X-Continued -11-

They both felt suddenly confused. He put down the pencil he had been playing with, and arose from the smooth-worn hickory chair. "It's a fine day," Reuben said. "Could

we walk, or sit somewhere a while?" "Let's do," she said.

They strolled across the yard to the path along Julia's garden fence. Julia was among her sweetpeas pulling off the faded blooms,

'You certainly have a fine garden, Mrs. Pattern," Reuben said.

"It's not quite so good this year," Julia replied.

The soft part of the afternoon lay quiet over the valley.

"We're going to sit a little while up there on the rock by the sycamore," Cynthia said,

"Well, don't go far," Julia said. following them with her eyes to the shaded spot by the creek in full view of the house and garden.

They felt strangely happy to be removed from all places where they had been in company with other people, and to be alone together in a new place whose only associations were those they were now making.

"We found some nice spots back in the woods," Reuben said. "I like the way the hollows fork off on each side of Wolfpen, like ribs on a wahoo leaf."

"Some parts of the place I have never been to," she said. "I like best the Pinnacle and Cranesnest and the hollows here by the house. I don't know whether they're best when the spicewood begins to bud and the white dogwood blooms, or in September when the wild touch-me-nots are waist high with yellow-and-red-spotted bags and two red ears on each one, and bumblebees crowding down into them and

shouldering the yellow dust." "That sounds the best," Reuben said. "It's right pretty when the creek

freezes over and the bushes are glazed with ice and the snow hangs on the pine trees. I guess it is always a good place to be." The white limbs of the sycamore tree

caught in the light of the sun, and the ground and the creek were in movement with shadow splotches. "You'll be getting the survey done

soon now, I guess?" "It won't be so very much longer

now before it is finished, I'm afraid." "Then what will you do?" "I'll see if it closes on the map, and

then I'll take it back home and my father will or maybe I will make the calculations and fix up the papers." "Does that take a long time?" "Not long like the field work."

"You don't have to come back any more after you've finished running it?' "That depends I might have to come back about the piece cut off for Shel-

lenberger." There was a long pause. Then he added, "When do you go to Pikeville?"

"In September. Jesse's going too, gone into the house, he said to Reuben,

ferent?" he asked. the chain and the staff. "No. Why him?" "I guess it's all finished." He smiled.

"Oh, I have seen him look at you and watched him when you are around. Do you . . . Are you old friends?" "He's a good boy and runs the place since his Daddy died. He's a . done.'

fall, spreading up the hollow. The heavily timbered spot where Bar ton had caught 'possums, which al ways lay so silent and black in the mornings under the Pinnacle, became a thick group of men in a settlement to themselves. And yet not to themselves, for these aliens seemed to press in upon Wolfpen itself and to swarm in a multitude beyond their appointed place even though they kept to their hollow, and the sound of their axes could not be heard over the back of the ridge between. Cynthia could see them sometimes pilfering about everywhere. and every rustle of the leaves in the trees by the house became a cry of panic spread through all the timber.

Then there was always Shellenberger bringing back the disturbance from Dry Creek, for he still ate at the house and slept between his two sheets and made no mention of the bly his first pleasure in the steam-mill, the survey of his lands and the new saw. He gave more time to the blacksmith shop, fashioning shoes for the

sharpening tools and welding chains, neglecting his medicines and his books. Cynthia missed his tall figure from the hollows speaking in low tones to his mule and greeting her when she came to the field with cold water from his filtered well,

Abral was now working for Shellenberger, Jasper was silent, Jesse was more than ever absorbed in his own plans, Julia was tired, Reuben was far off down the river in another world: it was no use making believe that the corn and sweet potatoes were the same as in other years, or that Julia's hollyhocks stood up in the same proud grandeur, or that the lumbering was isolated over the ridge. Dry Creek pressed ruthlessly in.

It grew more emphatic with the difficulties at the camp. They had come on gradually, intensifying a little from day to day before they came to a crisis. They were reflected in Sparrel's taciturnity and the troubled mood which followed him into the house for there had never before been any ill feeling between men on Gannon creek. The mountain men could not adapt themselves to the discipline of a supervised lumbering operation.

It was partly Shellenberger's air of letached authority which they found barely tolerable. Not that he kept his own counsel and ate only at Sparrel's. but that he went among them as though they were trees or mules, and

the hill out of the way. The boy was startled by the shouting of Mullens and the loud cracking of the giant bole breaking away from the stump and crashing through the smaller trees. In nervous confusion he sprang full into the path of the falling mass. It caught him squarely, knocking him down as though he were a reed, pinning him under the heavy trunk, and crushing in his lungs. Had he stayed where he was before Mullens shouted, he would have been safe. The moans had ceased by the time Sparrel got to him. It went quickly through Dry Creek that it was Mullens' fault, and if he had kept his mouth off of the boy it wouldn't have happened. And why, anyway, should they be down here in a lumber camp at the risk of their lives, working for a foreigner like Mullens when they might just as well be at home and their own bosses as they had always been?

They quit. They were quiet about it. Some of them told Mullens they allowed they'd better be getting back home now, what with the corn about ready to cut and things about the place to be attended to, and they'd just have their time. Mullens said he couldn't pay them until Shellenberger got the money. And they said that they reckoned if it wasn't handy they'd just wait around for it, and it better not be too long. So while they were burying Grover Sims on Big Brushy, Shellenberger took one of Sparrel's mules for two days and when he came back there was money to pay them. The work was at a standstill.

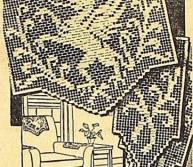

"So now what?" Shellenberger said to Mullens.

"Go down-river and get me some men who know how to be told what to do,' Mullens said.

The month of August was going by on the rumor of these troubles at the camp. In other Augusts, the thought of disputes among men never came into Wolfpen or disturbed the head of Cynthia. The talk had always been of the growth the lambs had made, of the rams and ewes to be sold or slaughtered, of the thickness of the clover in Stack Bottom, of whether the time for the making of sorghum would be earlier or later this year than the one before, of the late corn in Julia's patch, of the steers for the drovers, of the progress of the bees, of the size of the potatoes where Julia had graveled, of the absence of sickness and the probable price of 'seng. And the words were framed at leisure a few at a time from day to day as one member or another of the family observed the course of life about them. These things were not mentioned this year because of Shellenberger and Dry Creek.

Cynthia felt the alteration in herself and noted it in the others and thought on it as she tried to finish the cloth that had been already too long in the loom. "I never in my life got such a little bit at a time done on a piece. 'Pears like a body's day is so fied m acted so superior by virtue of his ownwith other folks' doing I can't get any work done and out of the way. Fart of it is the way nobody doesn't seem natural. but he hasn't told Daddy yet. He's to read law with Tandy Morgan." "I think that will be fine."

"Are you going to follow surveying?" "Yes. There's lots of work to do in this country. And the towns are growing, and the counties thinking about roads. I want to be the county surveyor some day."

"Oh, that would be a fine job for a man. As good as the law."

"I kind of hate to see a place like this go over to a man like Shellenberger to cut into. The Big Sandy slopes where the timber is cut off are awfullooking things."

"It's just the part down the creek and you won't see it from here. But sometimes at night I can hear the trees talking about what's about to happen to them and it goes from one to another all over the hills and dies away in a sigh on our creek. Still, I reckon people need timber."

"I reckon."

They sat in silence, listening to the life all about them.

"Isn't all this cooking and boarding so many too hard on just you and your mother?" It came so suddenly and without preparation that she was startled. She lifted her hand from the moss, and dropped it into her lap, clasping the

"Why, no, Reuben. A body just don't think much about it."

"Your mother looks a little worn out. Don't you think so?"

"I guess I just hadn't thought of it." "It's after washing and ironing, or something. I've noticed. And she likes to be out in her garden."

"She told Daddy she didn't need extra help.'

"Are Shellenberger and Mullens staying on here while they lumber?" "I don't know," Cynthia said, "I reckon so.'

He had surprised her again by this kind of observation which menfolk did not make. She turned and looked full at him.

"You're different, Reuben." He smiled at her, a singularly rare and engaging smile.

"Different how and from what?" "I don't know how to say it. But you

are." "Well, so then are you."

He felt the thrill of these advances which came unwilled into being, and then as curiously retreated.

"Oh, you've been surveying." Reuben smiled at Abral. He liked that way then. 'It may not be to surhis spirit and his energy. "Yes, Abral. There's a lot to be sur-

a trouble bound on his shoulders. He works down around the mill so much I don't know how he's ever going to get herbs for his medicine and the corn in and the hay made and the sorghum. Jasper works in the fields with a sorry look on his face, and I reckon he wants to marry. And Abral is so excited about everything I can hear him flopping in his bed at night and ramming his kneen with a bang into the wall. And there's Jesse working on through his big book and looking at his steer and I know he is right nervous about going off over to town with so much to do about the place before winter and all these strange men coming here from downriver, and the hard feelings about Grover Sims getting killed. And there's Cynthia. What about you? You think about him and his maps and papers he's working on, and about how you're to get over to the Institute for a winter and about silly things in the trees that you'd just better leave to old Mr. Stingy Shellenberger and his black man. But it's not nice to call even him bad names.'

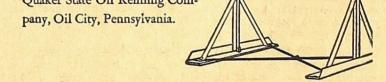

(TO BE CONTINUED)

Clipping of Whiskers

on Bust of Thackeray

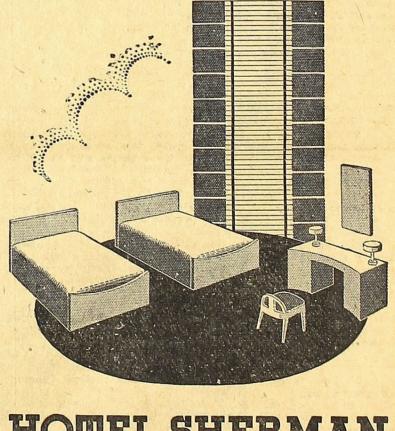

One of the most curious events that ever occurred in England's famous Westminster Abbey was the clipping of the whiskers on the bust of Thackeray, in the Poet's Corner. Thackeray's danghter, Lady Ritchie, had objected for years that the whiskers on each side of the face were too long, and at last asked the dean to let her have them shortened.

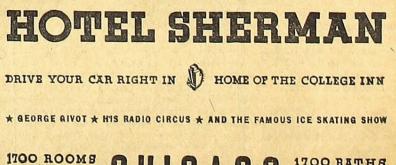

The Dean consented reluctantly, and accompanied by a sculptor, Lady Ritchie arrived one morning for the work. The bust was taken to the crypt, where the whiskers were chiseled to their proper length. Then the sculptor flicked off the statue with a cloth, just as a barber would have

THE TAWAS HERALD

"Hackman Turns Detective" By FLOYD GIBBONS.

THE other night, boys and girls, I got myself into a fine argument with a bird who said there wasn't any adventure any more. Or, to be more accurate about it, this fellow said there wasn't any more adventure in peace time.

He said that civilization had so caught up with the world that the modern exploring trip was nothing but a cut-and-dried business of hiring a bunch of natives to carry your baggage and then going for a walk in the woods.

He said that big game hunting had degenerated into a sort of game of hide-and-seek with a tame elephant on a practically fenced in reservation. He seemed to think I had a monopoly on all the adventures because I was a war correspondent and got around to the spots where fighting was going on.

Well, sir, I've been to a couple of wars where I didn't have anything more exciting happen to me than having a family of cooties move into the vacant flat on my top floor. And on the other hand, I had one of the toughest times in my life in peace-time taking a trip across the Sahara desert.

Taxi Driver's Life Is an Adventurous One.

That trip was just like the exploring jaunts that bird was talking about. A camel carried my baggage. A camel carried me toowhenever I wasn't too doggone weak from heat and thirst to stay on the doggone brute. I'd rather go through six wars than take that trip across the Sahara again.

But all that is beside the point. What I want to talk about is exploring, and big game hunting-and taxi driving. You know when that bird was through with his spiel I said to him: "Who cares about the explorers and the big game hunters? They're not such big potatoes in the adventuring business. Why a New York taxi driver runs into more adventure in the course of a year than an explorer does in ten."

And maybe it's co-incidence, and maybe it's fate. But two days later I reach into a pile of your letters on my desk and out comes this yarn from taxi driver Andy Muscarella, of Brooklyn, N. Y.

Suspicious Looking Fare Hires Andy for Jaunt.

Andy tells us about an adventure that happened to him at four o'clock in the morning on March 26, 1934. Andy had his cab parked in front of Madison Square Garden when a young fellow hailed him

"Come On," the Fellow Said, "Hand Over Your Dough."

and told him to drive him to an address in Thirtieth street between Ninth and Tenth avenues.

Andy had had a good day that day-one of the best in weeks. He had nineteen dollars and sixty-five cents on the clock and enough tips to make it all come to about twenty-two bucks. Having that much money in his pocket at four a. m. made him sort of careful. And besides, he didn't like the looks of this new job he was being handed.

In the first place, he didn't like the fellow's appearance, and in

WOOL-and-fur ensembles for brisk autumn days are the most talked of costumes among new arrivals for brisk autumn days. very fine sheer wools in stunning formal daytime modes, while popular sports furs such as kidskin and leopard are teamed with novelty wools in outfits that will add extra glamor to the football stadium and campus promenade this fall.

Fingertip and three-quarter length jackets and capes are favored in these costumes, as this type of styling plays up the smart contrast between gleaming fur and dull-surfaced wool used for the lining of the coat and for • e accompanying frock or suit.

Capes appear in both swagger and formal styling in any number of the most striking wool-and-fur ensembles. The new square-shouldered slim capes that are making their appearance in advance showings are creating no end of excitement for they are so startlingly different from anything in the way of a daytime wrap seen in recent years. For real swank and a dramatic sensation a likely formula calls for a squareshouldered cape of safari brown Alaska sealskin which, when it swings back, shows a lining of sheer rabbit wool in matching brown, and a fitted frock of the same sheer wool with touches of gold lame at the high collar and tailored cuffs-a true aristrocrat this in fashion's

Soft rabbit woolen in a muted green shade styles the nicely cut and detailed frock shown to the left. The identical rabbit woolen Precious furs are combined with also lines the gray moleskin swagger coat of this smart fall ensemble. Which reminds us that style experts are all agog in regard to gray this season, especially in respect to furs. Silver lame accents the buttoned narrow gilet and edges the pocket tips. As further attraction the gilet has a row of lame-covered tiny buttons. The diagonal seaming of the dress is noteworthy.

French women adore black and this season they are again expressing a preference for it by wearing costumes of stunning black broad-cloth with a touch of high color and

with lavish fur. In this category is the formal afternoon costume suit that boasts a fingertip box coat of black kidskin with standup collar and banding trim at cuffs and pockets of the same soft black broadcloth that is used for the jacket lining and a straight cut skirt. A cherry red blouse and a saucy fit-ted kidskin cap edged with flaring black net completes the ensemble. Then there is the costume that is very swagger indeed for sportswear and for informal daytime wear in town that features a three-quarter length flared coat of gray kidskin worked cleverly in swirling lines. The coat lining and a two-piece frock in waistcoat styling are made up in oxford rabbit wool with multicolored polka dots scattered gaily over the surface. An accompanying

the second place he knew that Thirtieth, between was no residential neighborhood. But a cab driver can't turn down everybody who looks suspicious. He could lose half his fares that way. So Andy took a chance.

Passenger Turns Out to Be a "Stick-up" Guy.

Sure enough, as the cab neared its destination, Andy felt a gun thrust against the back of his neck. A gruff voice ordered him to stop and get out of the cab. As Andy stepped to the sidewalk, the gun was thrust into his stomach. "Come on," the fellow said, "hand over your dough."

"Go ahead and take it," said Andy. He figured if the fellow went through his pockets he might leave an opening and give him a chance to swing a haymaker. But the fellow was too smart for that. "Do I look like a sap"? he said. "Hand it over!"

Reluctantly, Andy passed over the twenty-two dollars. The bandit shoved him into a hallway and ordered him not to come out for ten minutes. Through the crack-like opening out the door Andy saw him get in the cab and drive away. Then he came out, ran back to Eighth avenue and called the police.

Sleuthing Cabbie Gets His Man!

The bandit had made a clean getaway. The police didn't find him. Andy went back to the office and told nis story. The company didn't charge him for the lost money, but still he wasn't satisfied. That same night he told his wife he was going to get the bird who robbed him if it took him all the rest of his life.

The next day was a Monday. Andy was back at his stand with another cab, but he was paying less attention to hackdriving than he was to the faces of the people who passed by. All day Monday and all day Tuesday he watched without success. He did the same thing most of Wednesday night, with no luck either. But along about three in the morning he got a sort of feeling that he was going to see his man. Sure enoughwhile he was cruising on Eighth avenue near Fifty-first street, he spotted him crossing the street.

It was raining hard, but that didn't stop Andy. He cruised along after the man till he saw a policeman. Andy told his story to the cop, and the pair of them went after the bandit. They grabbed him at Forty-ninth street, took him to the station house, and after a ten minute grilling he admitted the hold-up.

He proved to be an ex-convict on six years probation," says Andy. "I felt pretty good about catching him. I guess it just goes to show that there isn't such a lot of difference between a detective and a hackman."

-WNU Service.

Toco Toucan

Of many varieties, some more brilliant in coloring, the Toco Toucan is thought to be the largest. Measuring from tip to stern about two feet, the schnozzle-like appendage takes up one-third of its length. Three inches in width at the base it seems in no way to discommode or over-balance the bird. Even in flight the head is thrown back. This is due to the lightness of this un-wieldly affair. The plumage is black with touches of white on throat, and rump; here and there a few feathers tinged with yellow and red show through. The feet are noticeable with their two toes in front and two behind.

Origin of Beer Making

The origin of beer making is lost in antiquity. Probably the ancient Egyptians were the first civilized people to engage in brewing, and a barley wine or beer is believed to have been known in that country as early as 3,000 B. C. Herodotus ascribes the invention to the goddess Isis. Ale or beer was never cloths, heavy nubby silks and wool-used to any extent in Greece or ens and above all new patterns in Italy, partly owing to the abundance lace, in such variety as has not of wine there, but Xenophon men- been seen before, even in these tions it as being used among the last few seasons when lace has been inhabitants of Armenia, and the Gauls were also acquainted with it dinner gown pictured combines the in early times. BRIGHT SASHES AND FLOWER CLUSTERS

To be inspired by the men's clothes of the Directoire period and at the same time achieve a most feminine looking collection is certainly no common feat. This was brilliantly demonstrated at the Bruyere fall showings where smart Parisiennes were given a glimpse of beautiful fashions - to - be for autumn and winter.

One of the most important items of this collection was the introduction of sashes, such as the elegant beaux of the Directoire used to parade in. They are black on black dresses, and have the ends embroidered in vivid colors. They look graceful and give a brilliant note to the dark day and evening gowns. Louise Boulanger places flower clusters on the sleeves this time in many of her dresses, encircling the arm.

Dignity Is Latest Note in Fashions for Campus Wear

Fall styles for the school and college miss are going sophisticate. It's no longer smart to cultivate a look of studied carelessness. Swagger "collegiate" clothes are giving way to dignity and formal tailoring. Sweaters are worn with pearls, and formal velveteens are breaking into the classroom. The college lass will be up on her curled pompadours and her smoky shades of polish for the nails. No more boyish bobs or back-to-nature fingertips.

Off-the-face bonnets ready for the big game are dressed up with tiny veils. Bonnet toques are smart in velvet with matching velvet bags. These contrast with the color of the suit: American beauty with slate blue, capucine or caramel with black or with brown, raisin with dark green.

Dressy, fur-trimmed suits are the leading theme for football weekends, with fur jacket costumes a
