

TAWAS CITY

Rev. and Mrs. M. A. Sommerfield were the guests of their daughter, Mrs. H. W. Robinson at Bay City, last week, and also called to see Mrs. A. M. Sommerfield, who is seriously ill in a Bay City hospital.

Wm. Klink of Owosso was in the city on Wednesday making arrangements for the erection of a home on the Huron shore.

Mrs. M. C. Musolf was called to Hastings last week by the serious illness of her mother, Mrs. Wm. Hinman. Mrs. Hinman's condition is much improved. M. C. Musolf and children spent Saturday and Sunday in Hastings. Mrs. Musolf accompanied them home.

Prof. Paul Samson and Mrs. Samson of Ypsilanti called on relatives in the city on Wednesday enroute north for their spring vacation.

Supt. A. E. Giddings made a business trip to Central Lake on Wednesday.

Miss Effie Prescott, who attends Cleary College at Ypsilanti is home for the spring vacation.

Mr. and Mrs. Alfred Boomer have returned from a month's vacation at Tampa, Florida.

Miss Margaret Davis of Detroit is spending the week end at the home of Mr. and Mrs. G. A. Prescott.

Michael Sommerfield, Jr. arrived Wednesday from St. Anne, Bellevue, Quebec for a week's visit with his parents, Mr. and Mrs. M. A. Sommerfield.

A. B. Schneider of Sherman was a visitor in the city Friday.

Mr. and Mrs. Russell Middleton of Glennie are visiting at the home of Mr. and Mrs. Fred Marsh.

Mrs. Ray Smith of Flint spent the week end with her son, Jack, and other relatives.

Mr. and Mrs. John R. Forsten were week end visitors in Flint and Owosso.

Mr. and Mrs. Hugo Groff and Jimmie of Detroit spent the week end at their summer home in the city.

Mr. and Mrs. John B. King and daughter, Miss Jessie were Bay City visitors last Thursday.

Mr. and Mrs. Carl Schaaf of Marine City and Miss Jean Robinson of Ypsilanti are visiting at the Ira Horton home for a couple of weeks.

Mrs. H. J. Keiser, Miss Janet Keiser and Mrs. John Dillon returned Friday from a six weeks' vacation in Florida.

Mr. and Mrs. Chas. Beardslee returned Friday from a six weeks' vacation in Florida and left Saturday for a few days visit in Eldorado, Ontario.

Hugo Keiser, student at Ypsilanti, is spending the spring vacation at his home in the city.

Miss Margaret Stepanski of Detroit spent the week end with her parents, Mr. and Mrs. Jos. Stepanski.

Mrs. Stanley Humphrey, Mrs. Fred Luedtke, Mrs. Frank Berth, Mrs. Earl Goupil of Tawas City and Mrs. Thomas White spent Wednesday in Bay City.

Mrs. Alex McCormick of Saginaw is spending the week end in the city at her home. She has rented her house and will return to Saginaw where she has employment.

Herbert Cox, youngest son of Mr. and Mrs. Cecil Cox, suffered a painful injury last Friday evening when he fell while delivering milk. His right wrist was cut by the broken milk bottle, severing a tendon. He was taken immediately to the office of Dr. Austin, where the tendon was fastened together and 14 stitches taken. Herbert is a Junior in Tawas City high school and his many friends wish him a speedy recovery.

Mr. and Mrs. Jas. H. Leslie, son, Dwayne, Mr. and Mrs. Frank Moore and daughter, Donna returned Tuesday night from their vacation trip to California.

Eddie Parker, of Guiley Creek, Isosco County's well known trout fisherman, will be heard on the WJR radio program Saturday night, April 2, at 10:45 P. M.

Thomas Garber of Bay City attended the Father and Son banquet at the Masonic Hall on Tuesday.

Albert Syze of Flint called on Tawas friends on Thursday while in the city.

Mrs. J. Fraleigh of Saginaw and Mrs. Charles McNeil of Bay City called on Mr. and Mrs. W. C. Davidson on Thursday.

Bert Hall of Lansing called on Tawas friends on Thursday.

JOHN SIBLEY CONFESSES TO ATTACK

Reno Teacher Beaten Until Unconscious; Left on Roadside

John Sibley, 24 years old, of Reno township confessed yesterday afternoon at Lansing to an attempt to assault Miss Martha Becker of Tawas City, a teacher at the Taft schools. Sibley had been taken Thursday to Lansing under suspicion. Although he had previously denied his guilt he made a full confession when confronted with a report from the laboratory which indicated that lint taken from his finger nails was from the victim's dress.

The attack occurred at about five o'clock Tuesday evening while Miss Becker was on her way from the school house to her boarding place, the Karl Bueschen home. Her assailant was masked and clad only in underclothing. He crawled out from a roadside culvert and seized her. The young woman fought to free herself and in the struggle she was knocked unconscious. Recovering consciousness the young woman made her way toward the Wolf farmhouse, which is nearby.

Sibley, who had been in an adjoining field during the day, was questioned as to whether he had witnessed the attack. He denied any knowledge of it to Sheriff John Moran and Troopers Merwyn Mitchell and Lorenz Ahlrdin and joined in the search for the assailant. Circumstances, however, pointed suspicion toward him and he was taken to Lansing for a polygraph test. He was brought back to Tawas City this afternoon. Sibley is unmarried.

District Health Notes

Quality of milk is a factor directly affecting the health of a community. Good milk must have a pure, smooth flavor. It must contain 13 per cent solid matter. The purchasing public frequently overlooks the fine flavor and stresses cream line and coloring. Flavor of milk is a good indication of its production. A smooth suave taste indicates clear methods of production, rapid cooling and aeration.

If you purchase your milk from a licensed dairy, you will receive the benefits of a clean milk, properly produced and marketed which contains far more than a dime's worth of food.

"Behind the Shadows" will be shown at the theatres in Tawas City and East Tawas during the week of April 3 under the auspices of the Child Health Council of Isosco County. This is an educational film donated by the Michigan Tuberculosis Association designed to familiarize the public with the symptoms and preventive measures of tuberculosis.

Since the death rate from tuberculosis still averages 3 to 5 persons a year from our population of approximately 7800 the Child Health Council felt it necessary to bring the facts of the disease before the public in this manner. An educational film entitled "Contacts" will also be shown in the schools of the County next week.

Miss Evelyn Brown, a student at the University of Michigan, and a graduate nurse will spend six weeks in Isosco County to study rural nursing under the supervision of Miss Bernice Klumb, Childrens Fund nurse.

On April 25 and 26 Dr. Thompson will divide her time between Hale, Whittemore, Tawas City, East Tawas and Alabaster to give Shick tests to all children under ten years of age whose parents wish this test. The Shick test is given to children after they have been immunized for diphtheria, to determine whether or not they are actually immune from the disease. If children are found who react positively to the test they will be given another dose of toxoid at the clinic.

Smelt Are Running

The Smelt are running in Tawas River! Hundreds of fishermen have made fine catches during the past few nights. If you would enjoy a mess of these fine little fish get your net and come to Tawas river. The run will be at its height during the next few nights.

Masons Sponsor Fine Father-Son Banquet

More than 100 fathers and sons gathered Tuesday evening to enjoy a banquet at the Masonic Temple.

It was served under the auspices of Tawas City Masons aided by the Eastern Star. After partaking of the fine food the speakers were introduced by Toastmaster, Arthur Nelson with appropriate remarks.

James Mark, the first speaker, told the boys of the things the fathers hoped for in their sons. He was followed by Kenneth Smith, who spoke from a boys viewpoint in a creditable manner. Rev. S. A. Carey gave a fine talk to both, boys and fathers, on the value of understanding each others problems.

The meeting was closed with an exhibition of moving pictures of wild life in our forests, given by Donald Gray of the U. S. Forestry Service.

AuGres Post Office Is First In U. S. Bond Sales

From a recent report sent out by the Post Office Department, Washington, D. C., on the sale of U. S. Treasury bonds through Post Offices for the year beginning September 1, 1936 and ending August 31, 1937, we find that the Tawas City bond sales for that period amounted to \$12,668.75. Among third class Post Offices the ranking per capita was sixty-fifth.

The East Tawas bond sales for the year amounted to \$10,931.25 among the second class Post Offices and ranking per capita sale was sixty-one.

The AuGres Post Office, which is in the fourth class Post Offices, ranked first in the United States in the sale of U. S. Treasury bonds with sales totaling \$20,981.25.

The sale of Savings Bonds for the Calendar year 1937 was 34.2% greater than for 1936, and the year 1936 exceeded the ten months' sale of these bonds in 1935 by 82%. The total maturity value of United States savings bonds sold through the close of business March 7, 1938 amounted to \$1,584,462,875.

The majority of the registered owners are small investors who are buying the bonds out of income. Purchases by individuals represent approximately 85% of the amount of bonds sold.

Announcement

That on and after Saturday, April 2, Rambling Bill Hurley, the famous dance caller formerly of WJR, will feature modern and old-time dancing in Community Building at East Tawas during the summer months. This is considered an asset to the city of East Tawas due to the interest shown by our young generation, where they can spend an evening of clean entertainment and enjoyment.

For Sale—House and lot fronting Tawas Bay. Known as "Clark McCormick Place." Corner of Beach and Lakeshore Drive. For particulars see, L. H. Braddock.

CAPT. BURROWS DIES FRIDAY EVENING

Aged Man was Retired U. S. Lighthouse Keeper Here

Captain Herbert N. Burrows, age 84 years, passed away at his home in East Tawas at nine o'clock Friday evening, March 18, after a three months' illness.

Captain Burrows, retired from the United States Government Lighthouse Service, was for over 13 years, keeper of the Tawas Point light. He was prominent in Masonic circles, and was well known in the community.

Herbert Newton Burrows was born in Buffalo, New York, November 13, 1853. In 1882 he was married to Jennie Swackhammer at Port Austin and to this union four children were born, three of whom preceded him in death. In 1910 Captain Burrows was transferred to Tawas Point where he served as lighthouse keeper until his retirement in 1923, after which he made his home in East Tawas. He is survived by his widow, Mrs. H. N. Burrows of East Tawas; a brother, Andrew of Port Austin; one son, Palmer N. Burrows, of East Tawas; four grandchildren, and a number of friends.

Funeral services were held at the home Monday afternoon, March 28. Rev. Herbert Wilson of Christ Episcopal church, East Tawas, officiating. Interment was made in the East Tawas cemetery, the burial service being conducted by the Masons.

Out of town relatives and friends who were present were Andrew Burrows of Port Austin; Mrs. William McNeil and Mrs. Thomas McAllister of Port Austin, sisters of Mrs. Burrows; a nephew, William Hays and his son and daughter, William Hays and Mrs. Gilbert M. Schorn all of Alpena; a nephew and niece, Mr. and Mrs. Harold Bellows and Mr. and Mrs. Roscoe McNeil, of Bay City; Mr. and Mrs. William Youngs of Bay City; and a nephew, Mel Swackhammer of Detroit.

CIRCUIT COURT IN SESSION THIS WEEK

60 Attend Mother and Daughter Banquet

The L. L. C. held their Mother and Daughter banquet at the M. E. Church parlors Wednesday evening. About 60 were in attendance. The President, Mrs. Hemell, gave the welcome to the mothers and daughters.

The following program was given: Piano solo—Miss Roberta Schreck Vocal duet—Misses Sylvia Wagerly and Edith Reinke

A talk to daughters—Mrs. Carey. Respond to mothers—Shirley Anschutz

Vocal solo—Miss Patricia Braddock Poems—Misses Jean Adams and Josephine Carey

Mrs. E. Kunze gave an interesting talk on books for the Library, and asked all who have books to please send them to the Club or to the public library, as they are needed for the children

Farm Youth Meet Is Well Attended

The all day meeting at the Reno township hall for the 4H club and F. F. A. members and adults, on the care of sheep and shearing was well attended last Thursday.

E. S. Bartlett, of the Chicago Flexible Shaft company, was in charge of the shearing work. Mr. Bartlett, who has been in Australia and Africa, has real knowledge of the handling of wool and all those taking part or hearing him were greatly benefited. In the shearing contest held in the afternoon Howard Bischoff of Tawas City won first place with Kenneth Alstrom, also of Tawas, as alternate. They will represent Isosco county in the state contest at the State Fair next fall.

D. H. La Voi, State Sheep Extension Specialist, talked on the care of sheep, the danger of parasites, clipping, drenching of sheep also the Wolverine lamb field.

Stanley Powell, Field Representative of the Michigan Cooperative Wool Market Association, gave an interesting talk on the care of wool. A large crowd was present and report a most interesting day.

Wilber School Will Hold Annual Reunion

May 13th will be the 60th anniversary of the opening of the school in this district, and a committee of six of the former pupils are working out plans for a reunion. CCC CAMPS TO OBSERVE 5TH ANNIVERSARY

Camp Silver Creek Invites Citizens to Celebrate With Them

Throughout the length and breadth of these United States, come next week end, thousands upon thousands of folks will begin to trek to Civilian Conservation Corps Camps to see, on the fifth anniversary of the corps, just what the boys have been doing and what camp life is all about.

From Washington where high officials of state will gather at a birthday party, to California and from the Great Lakes to the Gulf, the event will be celebrated in some fifteen hundred camps.

Company 665 at Camp Silver Creek, is planning to observe the occasion along with the many other companies scattered over the length and breadth of the nation. Under the leadership of Lieutenant Donald E. Yanka, Company Commander, and E. R. Cook, Camp Superintendent, plans are under way which will make the event one to be long remembered in this section of the state. A cordial invitation is extended by both of these gentlemen, as well as by every member of the company, to the citizens of this and neighboring communities to visit the camp and enjoy the day as their guests.

Saturday, April 9, has been designated as the big day and a program of events appropriate to the occasion is rapidly taking shape. From noon until a late hour in the evening the camp will be open for inspection to all who find it possible to attend. Guides well versed in the various activities and facilities of the camp will be available to show visitors around the camp and to explain the work projects being carried on as well as the recreational and educational facilities and activities.

While complete plans are not as yet available, visitors can rest assured that there will not be a dull moment during the entire afternoon and evening. A gala dance, to which everyone is invited, is being planned as the climax to a day of festivity and fun and it is expected that the facilities of the camp will be taxed to their utmost to accommodate the many friends of the corps who will be present. The complete program will be ready for publication within a few days and will be published in next week's issue of this paper. It is hoped by every member of the camp that everyone who can possible arrange to do so will be present.

Young Women's League

The East Tawas Young Women's League is beginning plans for one of the most important events of the spring, that is the Apple Blossom Swing, to be presented at the Community Building on April 20. The orchestra, one of the best in this part of the country, will be Doc Logan and his Band whose specialty is the comedian, Sunny Joe Sermon. He and his trumpet provide many a laugh. The feature of the evening will be dancing by the O'Laughlin sisters of Bay City including a demonstration of The Big Apple.

Shirley Temple Stars At Family Theatre

The Suzy-Q originated in Harlem. The Big Apple comes down South.

And Picken Berries comes from Stage 6 on the huge 20th Century-Fox lot in Hollywood.

Newest of the "down to the pavement" swing-time peckin' dances. Pickin' Berries was the child of that stern parent, Necessity, and was brought into being when Director Allan Dwan decided he wanted to put scene between Shirley Temple and Bill Robinson for "Rebecca of Sunnybrook Farm," Shirley's newest film.

On the spur of the moment, Bill pranced out the dance, which is timed to and incorporates the motions of picking strawberries. In 15 minutes he taught the dance to Shirley to the music of "An Old Straw Hat," written by Mark Gordon and Harry Revel for the picture.

Dance experts consider Pickin' Berries the most "danceable" step since the Big Apple, predict a widespread popularity for it on release of "Rebecca of Sunnybrook Farm."

Randolph Scott heads the featured cast of "Rebecca of Sunnybrook Farm," currently at the Family Theatre, East Tawas, April 2, 4, 5 which includes Jack Haley, Gloria Stuart, Phyllis Brooks, Helen Westley, Slim Summerville, Bill Robinson, The Raymond Scott Quintet, Alan Dinehart and J. Edward Bromberg.

L. D. S. Church

Elder M. A. Sommerfield,
Sunday—10:00 A. M. Unified services
First period, Holy Communion
10:45 A. M. Second period, church school and classes
7:45 P. M. Song service
8:00 P. M. Preaching by the pastor
Subject: Wounded in the house of his Friends.

MORGAN OUSTED BY F. D. R.

TVA Scandal Handed Over to Congress . . . Britain Will Fight for Her Allies, Says Chamberlain

Here in confidential conversation are Senator Sherman Minton of Indiana (left), chairman of the senate committee investigating lobbying, and Senator Lewis B. Schwellenbach of Washington. The committee's inquiry at present is directed particularly to a campaign against the government reorganization bill and its activities aroused Publisher Frank Gannett to demand its abolition.

Edward W. Pickard SUMMARIZES THE WORLD'S WEEK

Morgan "Removed"
PRESIDENT ROOSEVELT "removed" Dr. Arthur E. Morgan as member and chairman of the Tennessee Valley authority, reported this action to congress in a special message, and left Washington for a visit to Warm Springs, Ga. Thus the entire TVA row was thrown into the lap of congress, and senators and representatives continued to scrap over whether an investigation of the huge project should be made by a senatorial committee or by a joint committee of both houses.

Mr. Roosevelt ousted Morgan after receiving from Acting Attorney General Jackson an opinion that he possessed the required authority. This is questioned by Senator Borah and other authorities, and it is presumed the matter will be taken up to the Supreme court. Morgan, who was in Chicago, consulted legal friends but would not announce his plans. Senator Bridges and some others hotly denounced the President's action as dictatorial and unjustified. The President told congress he had named Harcourt Morgan to succeed A. E. Morgan as chairman of TVA, but he did not appoint his successor as a member of the board.

Reasons for the removal of Morgan as given by the President were that he had made grave and libelous charges against his colleagues and refused to substantiate them at the White House hearings, and that he had obstructed the work of the authority.

Efforts of administration leaders in congress were exerted to see that no avowed enemies of TVA should be named on the investigating committee, Majority Leader Barkley declaring this a prime consideration. He favored inquiry by a joint committee of five members from each house. Senator Norris wanted it done only by senators, and Mr. Borah thought that would be satisfactory.

House Shows Its Temper
EVIDENTLY the house of representatives doesn't want any more TVA projects started while the affairs of the authority are in such a muddle. By a vote of 186 to 157 it refused to concur with the senate in appropriating funds to start construction of the \$112,000,000 dam at Gilbertsville, Ky. In opposition were 111 Democrats and 75 Republicans. The vote sent the matter back to conference.

Months ago the house appropriations committee rejected the proposition to appropriate \$2,613,000 to begin the Gilbertsville dam, and the house left the item out of the bill. The senate was induced by Norris and others to put it back, but still the house refused.

Profits Tax Out
PAT HARRISON meant what he said about altering the revenue bill that was passed by the house. His senate finance committee is making the changes. By a vote of 17 to 4 it eliminated from the measure the undistributed profits tax principle, substituting therefor a flat corporation income tax of 18 per cent.

To Save CCC Camps
REPRESENTATIVE WOODRUM of Virginia, a member of the appropriations committee, told the house congress soon will be called on to provide a huge sum for continuation of the work relief program, and that, in anticipation of this, his committee has taken steps to keep open 300 Civilian Conservation corps camps scheduled for closing in July as an economy measure. "I have discussed this matter with the President," said Woodrum. "I learned that there is impounded in the Treasury the sum of \$28,000,000 which congress appropriated for the CCC for the current year program and which will not be used. An appropriation of 50 millions will enable the corps to carry on its present program through the next fiscal year."

Roosevelt Warns South
ON HIS way to Warm Springs President Roosevelt paused in Gainesville, Ga., long enough to deliver sharp criticism of those southerners who are keeping the wage-hours legislation deadlocked in the house of representatives and who have opposed other of his New Deal measures. He asserted that southern workers are underpaid and under-employed and warned that unless this condition is changed the South cannot and will not succeed in establishing successful new industries.

He attacked "selfishness on the part of a few" for holding back "national progress and prosperity," and added: "This nation will never permanently get on the road to recovery if we leave the methods and the processes of recovery to those who owned the government of the United States from 1921 to 1933."

He referred sarcastically to those who insist on a balanced budget, but offer no suggestions on how this can be achieved without putting "dollars ahead of human lives."

Wheat Crop Estimate
PREDICTION by the bureau of agricultural economics of the Department of Agriculture is that this year's wheat crop will be 830,000,000 bushels, or 160,000,000 bushels in excess of the 1932-36 average. The survey estimates that the wheat carry-over in 1939 will be around 300,000,000 bushels.

The record wheat crop is based on the following factors: If farmers seed the acreage indicated in the prospective-planting report, and if average yields are obtained, this year's spring wheat crop, including durum, will total about 200,000,000 bushels. This, together with the winter crop of about 630,000,000 bushels, indicates a prospective output of 830,000,000 bushels.

Mexican Oil Seizures
PRESIDENT CARDENAS of Mexico announced the expropriation of oil properties belonging to American and British companies and valued at some \$400,000,000. Wells, refineries and tankers were seized and workers took control of all company offices in the republic. The American and British employees and their families fled. For the present the oil industry in Mexico was paralyzed.

Cardenas made a public promise that the government would pay indemnity for the seized oil properties. Vicente Herrera was appointed general manager of the new national petroleum council.

Tetlow Heads Coal Board
PERCY TETLOW, a lieutenant of John L. Lewis, has been elected chairman of the national bituminous coal commission to succeed C. F. Hosford, resigned. This apparently puts the C. I. O. chieftain in full control of the commission, in which his influence has been predominant.

Tetlow began his career as a coal miner in Ohio and was an official of the United Mine Workers when appointed to the board.

Victory for Poland
ONE immediate threat of European war seemed to be dissolved when Lithuania yielded to the demands of Poland for resumption of normal diplomatic and trade relations and virtually gave up its claim to Vilna, former capital of the country, which the Poles seized 18 years ago. General Smigly-Rydz, chief of the Polish army and "strong man" of Poland, had mobilized his troops on the Lithuanian border, and Polish warships were cruising off Memel. So there was nothing for the Lithians to do except give in. Polish troops that had been concentrated in Vilna paraded in celebration of the bloodless victory, but in Warsaw the celebration was distorted into a "pogrom" in which riotous throngs attacked all the Jews they could find, killing several and wounding scores. Hundreds of Jewish-owned shops were smashed before the police could restore order.

"The Door of Death"
 By FLOYD GIBBONS
 Famous Headline Hunter

HELLO EVERYBODY:
 Well, boys and girls, this is the pay-off. A bird who had an adventure—in church. I've always known that Old Lady Adventure was no respecter of persons. Now it seems that she doesn't respect the cloth either.

Henry B. Willson of New York city is the lad who found adventure down at the end of the old sawdust trail. "As a boy," Henry says, "I had more than my share of particular escapes, but one in particular has left such a scar on my memory as time will never efface. Anything even today, that represents confinement—anything from a small room to a tight collar—throws me into a panic."

Well, there's a curious reaction. The minute I started reading Hank Willson's letter—the minute I hit that opening paragraph of his, I wanted to know what sort of a scare it was that would make a man go nuts over a tight collar. And I guess you boys and girls will want to know, too. So here's the story.

Hank Used Kerosene to Start the Fire.
 Hank was raised—as they say down South—in a little village in Georgia that went by the name of Cedartown. And like most kids did in small towns in those days, he worked around at various odd jobs to earn his spending money. Hank's dad was the pastor of a church in town, and one winter Hank had the job of taking care of the church furnace.

Now there are probably a million ways of starting a fire, but Hank's plan was to throw a bunch of paper in the furnace, chuck a lot of wood in on top of that, and then saturate the whole business with kerosene. It's a darned good way to get a blaze going quickly, but some horrible things have happened to people who used kerosene too freely in places where it was never meant to be used.

In fact, a very horrible thing DID happen—to Hank. Hank built fires in the old church perhaps two dozen times—always

The Fire Blazed Up on the Instant.

in that one particular way of his. And then he built one that brought Old Lady Adventure down on him like a ton of bricks. Early one Sunday morning, Hank got up, put on an old sweater, and started out to do his job. He tossed in an armful of crumpled newspapers, and followed that with a couple armfuls of wood. He poured the kerosene on, giving the furnace an exceptionally liberal dose. Then, with a box of matches in one hand, he stuck his head and shoulders in through the furnace door to arrange the wood so that it would be sure to take fire quickly.

Caught in a Blazing Trap.
 So far, everything was all right. But it was the matches that did the damage. You know, when you've got a box of matches in your hand, it's the most natural thing in the world to light one. You do it automatically—absent-mindedly.

Well—Hank doesn't know what got into him, or where his wits were at the moment, but before he knew what he was doing, he had lit a match and—WITH HIS HEAD AND SHOULDERS STILL STICKING HALFWAY THROUGH THE FURNACE DOOR—applied that match to the kerosene-soaked wood and paper. The fire blazed up in an instant. Hank's first reaction was to jerk his head and shoulders back out of the furnace door. He tried to do just that—but it didn't work. His sweater had caught on the catch of the furnace door, and though he fought like mad to draw back out of the way of the spreading flames, he couldn't work himself free.

Hank screamed. But his screams were so muffled by the furnace that no one in the street heard him. Meanwhile the fire was getting hotter—and closer. Hank's face was beginning to cook. His sweater caught fire and broke into a blaze. Death was leering at him through the flames that licked and lapped at his body.

"It was the most horrible fate I could imagine," Hank says.

Fox Terrier Gave the Alarm.
 About that time, though, Hank became conscious that there was some sort of commotion going on behind him. A little fox terrier had come wandering in through the open cellar door, and the dog seemed to know that something was wrong. He started to yelp and whine, and run back and forth between the furnace and the cellar door.

Early on a Sunday morning, when no one was about, that yelping little dog might easily have gone unnoticed. But fate had decreed otherwise, it seems, and down the street came an old negro. The old fellow was curious to see what strange happenings would make a dog act so at a time when most dogs are asleep, and he stuck his head in the cellar door.

That old fellow got the shock of his life. For what he saw was a furnace burning merrily, and a half portion of an eight-year-old boy sticking out of the door. He grabbed Hank by the legs, yanked him out, and slapped out the fire that was consuming his sweater.

Hank's hair was all burned off, and his face and hands were in a well-cooked condition. Two minutes more, and it wouldn't have been any use bothering with him.

That's why he doesn't like confinement. Even a tight collar reminds him of that furnace door.

Speed of Birds
 The Baltimore oriole makes 26 miles an hour, as does the black duck. The sharp-tailed grouse makes 33 and the robin 36 miles an hour. Pigeon fanciers will be interested to know that an authority puts the speed of the homing pigeon at 45 miles, but the starling makes 51. The eagle flies a mile a minute and so does the mallard and the Canada goose. The pheasant is in the same class, but the canvasback, that prime prize of sportsmen, must be taken at 72 miles on the wing.

Early Prize Fighting Rules
 Under the London ring rules a round in prize fighting ended when a man was knocked, fell or was thrown to the ground. Some rounds lasted many minutes, others only a second or two.

Tropacocaine, a Drug
 Tropacocaine is a drug having the general anesthetic and mydriatic qualities of cocaine. It is an alkaloid and is extracted from a small-leaved variety of coca growing in Java.

Washington Digest
 National Topics Interpreted
 by William Bruckart
 National Press Building
 Washington, D. C.

Washington.—It is often the trick of political spokesmen to let their real feelings become known by a statement that makes no definite reference to the broader policies in which they are interested. Such a statement was that made lately by Sen. Pat Harrison, Mississippi Democrat, with reference to what the senate will do on the pending tax bill. At least, nearly all of the observers here who know the lovable Pat Harrison were quite convinced that, when he said the senate would grant business relief from unfair taxes, he actually was proclaiming congressional independence of President Roosevelt.

This question of taxation is one with which the New Dealers are gravely concerned; they are just as much concerned as is business and the country as a whole. But they are concerned for a different reason. Sane minds throughout the country long ago began to beg congress and the administration to make changes in the tax laws to permit business to go forward with employment and production. New Dealers attacked anyone who said that as an "economic royalist" or "tory" or some other one of the various things that the New Dealers profess to hate. After so long a time, however, the New Dealers conceded some changes were necessary—and then began the greatest face-saving maneuvers yet to be tried by the wishful thinkers.

When word went to the house ways and means committee that it could make modifications in the two pet New Deal tax laws, the ageing Chairman Doughton, of that committee, followed instructions. Of course, there were seventeen Democrats and seven Republicans on the committee and that enabled the New Deal to carry out its plans for "modification" of tax laws—and to face faces. Regular Democrats and Republicans in the committee membership still were in the minority in the house of representatives, and the New Dealers had their way. The tax bill debate in the house nevertheless told of more slaps at the administration that lay ahead.

At this point in the developments, Senator Harrison enters upon the stage. He is chairman of the senate committee on finance. His statement, therefore, that the 1938 tax bill is going to give some basis upon which business can break even, at least, can be taken as indicative of the final form of that law when it emerges from congress. The house, under the lash of White House lobbyists, managed to hold part of the ways and means committee draft in its original shape while losing other parts of it. Thus, when the senate has acted and the bill is sent to conference committees for adjustment of the differences, it is rather plain to see how Democrats and Republicans are certain to override New Deal face-saving.

I have written much in these columns about present tax policies heretofore. There is little need to repeat the facts which continue to be important factors in the development of the Roosevelt depression. The assinine tax on undistributed earnings, fathered by the radical Prof. Herman Oliphant of the Treasury staff, has not allowed any corporation to build up a reserve. It took all of the earnings of last year, a period in which some corporations did make money in a limited way. Now that the depression is on us again, corporations obviously are scared stiff. Wage cuts are cropping up here, there and everywhere, and every time there is a wage cut the nation's buying power is reduced to that extent. But what is an employer going to do? Go broke, in order to keep his payrolls up? That is hardly human, it seems to me, since everyone desires to protect whatever funds he may have, be it a dollar or a million.

So, when Senator Harrison spoke out boldly that something was going to be done to eliminate some of the obstacles which wishful thinking New Dealers have built up in their experimentation, it means, I believe, that Senator Harrison proposes to do just that.

The politics of the situation is another matter. That phase is equally important and significant. Senator Harrison would not have spoken out a few years ago, or even a year ago, as he has done lately. The house a year ago would never have rejected what has been called the "third basket" of taxation. (The so-called third basket was a new type of tax that would have made the rates sky-high on corporations held by only a few stockholders, family-owned corporations like thousands of small companies usually are.) No, the house would not have killed that a year ago, but it did this year. And, when Senator Harrison dared to say congress will do this and so, Senator Harrison was simply voicing a fact. He was saying, in effect, "Whether you like it or not, Mr. President, we will write the tax law in the interest of the country as we see it."

Harrison Speaks Out
 In the course of the tax bill debate in the house, there was a curious disclosure, a rather biting piece of debate. Representative Treadway, who would be chairman of the ways and means committee if Republicans were in the majority instead of being only a handful, told the house that the father of the surplus earnings tax had never come before the committee since the time he laid out the silly scheme which led to its enactment. Professor Oliphant has been so silent about his sponsorship of the plan that it has become almost thunderous. And Mr. Treadway thought it was unusual that a parent should shrink from acknowledgment of parenthood. He obtained no answer or explanation. The surplus earnings tax, in a modified form, was still in the bill as reported to the house, however, and there was sufficient New Deal strength in the house to hold it there. It will be different in the senate, and the speech by Senator Harrison simply is an announcement in advance.

It has been interesting to me to review these facts because I am inclining to the opinion that the situation in congress is more or less a reflection of the opinion in the entire country. The November elections lie ahead. Mail from home is pouring in, and the character of that mail is always closely studied by the politician seeking re-election. That is to say, the average house member or senator is keeping very close tab on what the feeling is back home. They were not put to that necessity during the first four years of Mr. Roosevelt's administration. All that was needed was for a member to say that the President wants this or that, and vote that way.

So clearly has all of this been made apparent that few who so desire are afraid any longer to assert themselves—to say what they think even if that is in administration opposition. It is a healthy sign. It means that congress, while going along with Mr. Roosevelt many times, will put more and more checks on his proposals that have had their birth in the little red house of Georgetown's section of Washington, where all of the New Dealers congregate. It means further—in the opinion of some of the real Democrats—that the New Deal has played out. They are, therefore, getting back into their harness as Democratic leaders. And, in this light, there has been another development that should not be overlooked. I refer to the collapse of Robert H. Jackson's candidacy for governor of New York. When Mr. Jackson, who lately was made solicitor general of the United States, was "going to town" as the expression is, left wing press agents had him all but elected in New York. A big banquet was tendered him in New York city. Mr. Roosevelt was quite instrumental in that banquet plan. He lent aid in stirring up attendance. It was notable, however, that the banquet created no excitement. That is, there was no excitement of importance, and just there the candidacy began to sag.

I do not know what the real reason was for Mr. Jackson's subsequent statement that he would not seek the New York governorship. It is just possible, however, that the absence of Postmaster General Farley from the banquet sponsorship had something to do with the flop—for flop the dinner and candidacy surely did. Now, everyone around Washington knows that Mr. Roosevelt no longer takes the postmaster general into the executive confidence, even though Mr. Farley is chairman of the Democratic national committee. Indeed, it was printed in several widely read columns that Mr. Roosevelt actually distrusted Mr. Farley. I would not be able to report on that detail, but I can not overlook the fact that left wingers, especially the long-haired group, have been sniping at Mr. Farley for months. It is just possible, then, that they have persuaded Mr. Roosevelt to the point of conviction. He has listened to that group a very great deal and they may have made him feel that Mr. Farley is undermining the President.

In any event, one may follow the tax pronouncement by Senator Harrison right on through the significant silence of Mr. Farley. One may find how Mr. Farley has had numerous and sundry conferences, or chance meetings, with a good many powerful old-line Democrats. But to examine the thing from a congressional angle again, I am pleased by the defection, the establishment of the line of demarcation between Democrats and New Dealers. Not that I care who runs the government, or is charged with responsibility. My interest lies deeper. I know from having watched the wheels go round that too great a majority of one party in congress produces bad laws. It can not be avoided.

Speaking of Sports

Same Old Four Will Fight for National Flag

By GEORGE A. BARCLAY

WHEN the front runners of the spring baseball season have petered out and the morning glory rookies who looked like the reincarnation of Ty Cobb have folded, the National league pennant race will settle down to a dog fight among the same contenders who battled it out in 1937.

Four teams—the New York Giants, Chicago Cubs, St. Louis Cardinals and the Pittsburgh Pirates—again will hold the balance of power in the senior circuit. How they will rank in the final standings is anybody's guess, but all four will hold berths in the first division, leaving the Boston Bees, Brooklyn Dodgers, Cincinnati Reds and the Phillies to scramble for positions in the second division.

The race will probably be close, as usual, but not in the sense that powerhouse ball clubs will be involved. The standard of play should be about the same as last year, and that wasn't anything to brag about considering what happened to the National league team in the All-Star game and later to the pennant-winning Giants in the world series when they met the Yankees.

No Rookie Wonders

Reports from the training camps and the spring exhibition games indicate that there will not be any radical change in the personnel of any of the four leaders. Here and there a newcomer may break into the regular lineup, but the freshmen probably won't be sensational or numerous.

The champion Giants will be shy of strength in the infield, with first base still a problem, with the aging Mel Ott on third and Whitehead away from his post at second because of illness in the opening weeks. Still, Bill Terry won a pennant last year with a makeshift inner defense.

Remembering the Cubs' dismal flops in August of 1936 and 1937, it

Charlie Grimm

is difficult to muster enthusiasm about them as a pennant winner. Yet they cannot be dismissed. Undoubtedly Charlie Grimm has the best-balanced team in the league. It is still a young team, comparatively speaking.

The Cub outfield was the vulnerable spot last year, but it looks as if this might now be solved with Joe Marty doing a smart job in center and Carl Reynolds standing ready to help Demaree and Galan. Spring reports indicate an improved pitching staff. The presence of Tony Lazzeri should help.

Diz Is Question

The league's big question mark is the St. Louis Cardinals and the biggest question mark on the team itself is Dizzy Dean. If Dizzy makes a comeback and his brother Paul is able to pitch at all, Frankie Frisch's Gas House Gang who are tough enough to win some games on sheer nerve may wind up on top. Dizzy was a chastened athlete in the early stages this year and his effort to make people forget his 1937 flop may result in some gilt-edge pitching.

The Pirates will be shy of grade A pitching, but they should have a powerful attack once more. The Waner brothers aren't getting any younger, but they're still effective.

There isn't much future ahead this year for the Bees, the Reds, the Dodgers and the Phillies. Bill McKechnie, one of the most resourceful managers in baseball, may get results at Cincinnati, but it would be too much to expect him to work any wonders in a single year.

Casey Stengel has inherited a scrappy team in the Boston Bees, but there isn't much punch there. The Dodgers may have helped themselves in getting Dolph Camilli at first and with Larry McPhail in the saddle as general manager there may be further efforts at improvement. The case of the Phillies looks rather hopeless. There are a number of weak spots and not nearly enough strong men to fill them.

Baer in Comeback

The Baer brothers—Max and Buddy—are tough fellows to figure. A while back everybody agreed that Max was through as a heavyweight and the rising Buddy was the hope of the Baer clan. Now the reverse is true. Max is headed straight for another chance at the heavyweight title with fair prospects of success and Buddy is headed straight for the discard.

Buddy was an 8 to 5 favorite to beat Gunnar Barland in New York recently. Dopesters said he would win handily. Instead he took a terrific beating and quit. Max was on

Max Baer

the short end of 7 to 5 odds against Tommy Farr. Everybody expected him to take a licking. Instead he pounded out a decisive victory.

Max has been called "the man who could fight but wouldn't." He apparently wanted to fight the night he met Farr. It was his battle all the way. He slammed Farr to the canvas three times in fifteen rounds. Joe Louis and Jim Braddock weren't able to put Tommy down once.

Winning back the prestige he lost when he was so ingloriously beaten by Joe Louis two years ago, Baer showed he could take it as well as dish it out. Farr hit Baer aplenty. Max's left eye was completely closed before the fight ended. But his immunity to punishment bears out Joe Louis' contention that he hit Baer harder than he had ever hit any other man and still couldn't knock him out. You will recall that Max took the route of a technical knockout that time.

So Max is now on the way back. He did more than pull himself level with Schmeling in the heavyweight runner-up class in taking the decision over Farr.

Double Play Expert

Baseball men say that Joe Tinker, immortal shortstop of Frank Chance's old Cubs, and the man who started the "Tinker-to-Evers-to-Chance" brand of double plays may be back in the game again this year either as a manager or coach.

A little over a year ago Joe Tinker was near death of Bright's disease down in Florida. Physicians had just about given him up, when some baseball pals came to the rescue. Joe Stripp, now of the Brooklyn Dodgers, was one of them. He told Tinker he had a job for him as an instructor in his baseball school when he recovered. That was the best medicine Joe had had. He got well and less than two months after his life was despaired of, he was actually teaching youngsters in Stripp's school last year.

Later that year he managed the Orlando Gulls of the Florida State league and when the financial support of the club gave out, he traveled to Chicago for a reunion of old-time Cub stars.

Here and There

Arnold Statz, known as "Jigger" who was once a member of the Cubs outfield, claims to have the longest record of continuous service as a player in organized baseball. He has been at it 23 years. He started in 1915 and is still going strong as center fielder of the Los Angeles club in the Pacific Coast

Red Corriden

Burleigh Grimes

league. Incidentally, Statz is one of the best golfers in baseball. . . . Manager Burleigh Grimes of the Brooklyn Dodgers won 270 games in his active pitching career, being exceeded in victories only by Cy Young, Walter Johnson, Christy Mathewson and Eddie Plank. . . . Johnny Corriden, oldest son of Red Corriden, Cubs coach, is a freshman at Indiana university and hopes next year to earn a varsity track letter.

MURDERED: A PARAMECIUM

Science Perfects 'Death Ray' in Battle on Civilization's Greatest Enemy, the One-Celled Micro-Organism

By JOSEPH W. LaBINE

In the madcap 1920's a sober young laboratory engineer for the Detroit Edison company was married. Dr. Robert F. James was his name, a World war veteran with an M. D. degree from the University of Michigan.

Doctor and Mrs. James moved into an apartment equipped with an obsolete electric refrigerator which emitted a musty odor. They didn't like it, so they did something about it.

That musty odor is indirectly responsible for one of the greatest steps in sanitation progress the world has ever taken. It brought about perfection of a new and economical ultraviolet ray lamp that kills germs instantaneously but doesn't bother humans. Its inventors were Doctor James and another famous scientist, Dr. Harvey C. Rentschler. The device, called "sterilamp," has just been announced.

The new lamp has already shown its value in trial installations. At Duke hospital in Durham, N. C., it was placed over the operating table, immediately bringing about a reduction in post-operation infections. Meat dealers have installed it in their refrigerators with a resultant decrease in spoilage. Bakers find it delays formation of mold on their products, and restaurants use it to sterilize their glasses. These are only a few of its applications.

The Fight for Sanitation.

Sterilization by ultraviolet radiation is a far cry from the battle against micro-organisms waged by

Inventors of the amazing Rentschler-James process: Right: Dr. Robert F. James, whose ice box had a musty odor, and (below) Dr. Harvey C. Rentschler, internationally known ray authority.

How ultraviolet radiation purifies the air in an operating room, eliminating danger of infection from bacteria in the atmosphere. Note the "sterilamp" in the ceiling, the long tube-like lights.

Pasteur and Lister, yet it is merely another chapter in the history of sanitation.

For centuries man believed that all diseases could be "ascribed to demons" and millions forfeited their lives to ignorance before Van Leeuwenhoek discovered the tiny organisms responsible for plagues. Pasteur and Lister helped establish the importance of heat in killing bacteria.

But even heat has its limitations. It cannot be used to preserve perishables like food and meat; furthermore extreme heat destroys glasses and dishes. And, most important, it is limited to small areas and small surfaces.

Sunlight has a sterilizing action but its power is comparatively feeble. While it has long been known that sunlight carries some ultraviolet radiation that kills bacteria, it remained for Drs. James and Rentschler to isolate that small portion of the ultraviolet spectrum which is really effective. To use the entire spectrum would be like "killing rabbits with an elephant gun," in Dr. Rentschler's own words. So he set about inventing a meter to measure accurately the amount of invisible radiation of any selected wave-length being emitted by his experimental lamps.

Trial and Error.

But let's get back to Detroit and Dr. James' musty refrigerator. Equipped with a knowledge of ultraviolet rays, the scientist did perfect a lamp which he placed inside the refrigerator, resulting in sterilization by radiation. The musty smell soon vanished.

He knew the lamp would kill bacteria but he had no way of knowing how much radiation should be generated for any given sterilization job. Too much might be dangerous. It was while coping with this problem that he met Dr. Rentschler, who developed the meter.

Working at Bloomfield, N. J., the two men spent five years in experimentation. With their meter they tested, tediously and painstakingly, the effect of various ultraviolet wave-bands upon bacteria and other micro-organisms. Finally they found the right band, a tiny segment of the spectrum which has been mysteriously designated as the "2537 Angstrom unit band." Then came months of experimentation

cent of the bacteria in far corners of the room also died.

Helps the Butcher.

Meat dealers have found the lamp invaluable. Forced to carry from 500 to 1,500 pounds of meat in his refrigerator at all times, the butcher has in the past suffered great losses from spoilage caused by mold and slime, the result of combined high refrigeration temperature and high humidity. Low refrigeration temperatures have been similarly unfavorable because too much moisture is evaporated. But with the new lamp—which gives little heat—refrigerators need only be kept sufficiently cool to prevent flabbiness. Bacteria and mold are killed immediately.

Fresher bread and cake is guaranteed by bakeries where "sterilamp" has been tested. Two large firms used the lamp to retard mold growth on fruit cakes. Before installation, spoilage of the cakes amounted to about 15 per cent, a figure which dropped to 1 or 2 per cent after the lamps were adopted!

Although physical limitations have prohibited attempts at sterilization in connection with farm products, progress can be made in this field.

What of the Future?

Today the lamps are being used regularly by a number of farms, not only in connection with milking, but in hen houses, brooder houses and hog pens. One of the nation's largest poultry farms has adopted the process to combat infection.

Far-sighted scientists have predicted a day when the new lamp may free us from the worry of bacterial infection. Obviously the next application of this process will be to the atmosphere itself, a field in which experimentation is already being made.

The vast variety of fields in which the lamp eventually may be applied appears to be virtually limitless. Today one of the best known cosmetics manufacturers in the country is regularly using the Rentschler-James process to irradiate toothpaste and cleansing creams.

Science, whose Twentieth century gifts to civilization are already legion, has hurdled another barrier in its drive to make the world a safe, happy and healthy place to live!

© Western Newspaper Union.

Drinking glasses, exposed to the "sterilamp" for just a few seconds, emerge completely sterilized and thus check the spread of communicable disease.

Very Smart New Fashions

A HOUSE dress with long slender lines, a dress and apron for little girls, and a popular bolero frock for slim young figures! You will certainly want one of these, and more likely will want all three. With each pattern, you receive a complete and detailed sew chart specially planned to help beginners, so that the making will be easy, and save you money besides.

Popular Bolero Frock.

Make it up of silk crepe or a pretty print, and see how expensive, how flattering, it looks! The short bolero and wide shoulders make the slim lines of the frock even more graceful. Notice how cleverly the dress is shirred into the front panel at the waistline. This is one of the prettiest afternoon dresses you could choose for this spring.

Dress and Apron for Tots.

Your little girl will be so proud of having this heart-shaped apron to put on over her best dress when she plays house! And the puffed, square-necked dress is adorable. You can make the two of them in no time. For the dress, choose dimity or organdy for dress-up; gingham or percale for every day. Dimity or lawn for the apron.

House Dress for Large Figures.

This is such a becoming, comfortable, good-looking dress to work in, round the house. The lines are so straight and unhampered, and pleats in the short sleeves give plenty of room for stretching and reaching. It takes inches off the figure, too. Make it up in seersucker, gingham, linen or percale printed in small designs.

The Patterns.

1478 is designed for sizes 14, 16, 18, 20, 44, 46, 48, 50 and 52. Size 16 requires 6 1/2 yards of 39-inch material.

1468 is designed for sizes 2, 4, 6, 8 years. Size 4 requires 1 1/2 yards of 35-inch material for the dress, with 6 yards of narrow ribbon to trim and 1 yard wider ribbon for the belt. Size 4 requires 3/4 yard of 35-inch material for the apron, and 2 1/2 yards of ruffling.

1476 is designed for sizes 36, 38, 40, 42, 44, 46, 48, 50 and 52. Size 38 requires 5 yards of 35-inch material without nap.

Spring-Summer Pattern Book.

Send 15 cents for the Barbara Bell Spring and Summer Pattern Book which is now ready. It con-

tains 109 attractive, practical and becoming designs. The Barbara Bell patterns are well planned, accurately cut and easy to follow. Each pattern includes a sew-chart which enables even a beginner to cut and make her own clothes.

Send your order to The Sewing Circle Pattern Dept., Room 1020, 211 W. Wacker Dr., Chicago, Ill. Price of patterns, 15 cents (in coins) each.

TIPS to Gardeners

Young Garden Care

THE value of a garden plant, vegetable or flower, depends greatly upon the start it gets; so give the seedlings ample care.

Begin cultivation as soon as rows are visible, if the soil is not wet. Work close to the small plants, cultivating shallower as they grow to avoid injury to root growth.

Cultivate at least once a week. Watering should not be necessary the first week or ten days after seeds have sprouted. Later, young plants may be watered one of two ways: Mark a shallow trench about four inches from the row and run it full of water. Or, using a fine spray, apply water from directly above plants. Watering is most effective when it closely follows cultivation.

Small plants should be thinned, as directed on packets, to allow proper development. Certain vegetables may be used as thinned. For instance, onions thinned may be used as green onions, and lettuce may be picked for immediate use, leaving smaller leaves to develop.

Don't Neglect Your Child's Cold

Don't let chest colds or croupy coughs go untreated. Rub Children's Musterole on child's throat and chest at once. This milder form of regular Musterole penetrates, warms, and stimulates local circulation. Floods the bronchial tubes with its soothing, relieving vapors. Musterole brings relief naturally because it's a "counter-irritant"—NOT just a salve. Recommended by many doctors and nurses. Three strengths: Regular, Children's (mild), and Extra Strong.

Untrusting

He that will believe only what he can fully comprehend, must have a very long head or a very short creed.—Colton.

Uncle Phil Says:

That's Conservatism

Age cannot always make you wise, but it can make you cautious.

Treat women like women, not pals. They like it better and it is more gentlemanly.

If every event is a sequence, there can be no such thing as an accident.

Inventors Deserve Credit

Civilization advances as if on stepping stones, stepping from one inventive brain to another.

It is a happy land where the people can find something to celebrate every few weeks.

In the old days whole families traveled together in a covered wagon; and did not make such a to-do about it as those who now go in trailers.

The Slaughter Goes On

Always the same ends are accomplished though by different methods. Indians and wild animals killed the pioneers. Now 40,000 a year perish by automobiles.

If you talked to your enemy instead of about him, you might grow to tolerate him—even see his good points.

THE CHEERFUL CHERUB

I've convictions that life is all joy No trouble that comes ever shakes them For it isn't the troubles that count— It's the way, I suppose, that one takes them.

The Tawas Herald

P. N. THORNTON, Publisher
Published every Friday and entered at the Tawas City Postoffice as second class matter

WILBER

Mr. and Mrs. Geo. Davidson and family and Miss Mildred Thompson and Jean Christian spent Saturday in Bay City.

Mr. and Mrs. Johnson of Saginaw were week end visitors at the A. Christian home.

Mrs. Jas. Styles spent Sunday with her mother, Mrs. Theo. Lange at Laidlawville.

Clarence Lange of Detroit was a visitor at the James Styles home one day last week.

Mrs. Vera Alda returned home Sunday after visiting relatives in Missouri, Ohio and Detroit. She was accompanied by her parents, Mr. and Mrs. R. Corlette.

The Young Peoples' Class of the M. E. church met last Friday evening at the church.

Miss Peggy Ruggles spent the week end in East Tawas with Mr. and Mrs. A. Schrieber.

Mrs. A. Schrieber of East Tawas spent the Thursday at the home of her father, Wenzel Mochty.

The 4-H Sewing and Handicraft Clubs spent Thursday at the Community Building at East Tawas displaying their year's work. Teachers Miss Elsie Mueller and Lucy Allen are proud of the work that has been done in the clubs. A lot of enthusiasm was shown in their work and every thing was well completed.

Alabaster

Miss Verna Schindler of Saginaw visited here on Sunday.

Mr. and Mrs. Glen Long visited at her home here Sunday.

Mrs. Vaino Gustofson and Miss Eleanor Traynor visited Mrs. Roy Wright of Tawas City on Wednesday.

Mrs. Arthur and Miss Eleanor Traynor spent Friday in Standish.

Mrs. Ira Bessy spent Thursday with Mrs. Arthur McCormick.

Theory of Evolution
According to the evolutionary theory, the divergence between man and his nearest living relative, the gorilla, must have occurred not less than a million years ago.

MEADOW ROAD

The Whitney family of Bay City are moving to their farm one mile north of the Meadow Road. Mr. Whitney resided in Grant township several years ago, and their old friends are glad to have them return.

Mrs. Bell, Mrs. Elmer and Chas. Deming were Tawas visitors on Tuesday.

Blair Wagner was the guest of his brother, Harold this week.

Paul Brown spent Sunday afternoon with Chas. Bamburger.

Mrs. Thos. Scarlett and Miss Lola called on Mrs. Biggs Wednesday afternoon.

Leon Biggs and sons, Glen and George were business callers at Tawas Monday.

Allen Herriman and family of Flint are visiting here.

Orville Youngs has returned from Flint, where he has been employed.

Miss Opal Sloan and Levi Ulman spent Tuesday evening at the Robert Watts home.

Kenneth Herriman spent Thursday in Flint.

Mr. and Mrs. Lonsberry and Cecil Watts were Sunday guests at the Robert Watts home.

Mr. and Mrs. Harold Wagner visited at the home of John Seal.

LOWER HEMLOCK

Mrs. Arthur Zink and son, Gary, of Durant, spent a week at the home of Mr. and Mrs. Otto Look. They returned to Durant Saturday.

Mrs. Carl Cholger underwent an operation in Saturday. She is getting along as well as can be expected. Her many friends wish her a speedy recovery.

Mr. and Mrs. Arthur Anschutz and Mr. and Mrs. Wilfred Youngs, and Paul Anschutz spent Sunday with Mr. and Mrs. Theo. Anschutz.

Mrs. John Katterman, Sr. is quite ill at this writing.

Mr. and Mrs. Lawrence Klass of Bay City and Bernhard Blust of East Tawas were Sunday visitors at the home of Mr. and Mrs. Edw. Nelkie.

The following were Sunday guests of Mr. and Mrs. John McArdle: Mr. and Mrs. "Al" Hull and family of Flint, Mr. and Mrs. Earl Schneider of Whittemore, Mr. and Mrs. Frank Schmieder of National City, Mr. and Mrs. Clarence Curry and family, Mr. and Mrs. John Katterman and daughters, Evelyn and Ruth, and Arthur Wendt of Tawas City. The occasion was the birthdays of Mrs. Frank Schmieder and John McArdle.

Hemlock

The Greenwood Grange fun night was held at the home of Mr. and Mrs. Robert Watts on Wednesday evening with 7 o'clock supper and lots of maple syrup served by the hostess. The evening was spent in playing games. A good time was reported. The next fun night will be held at the home of Mr. and Mrs. James Chambers.

Ladies' Aid was held with Mrs. Harry Van Patten on Thursday. A good crowd and lovely lunch was served. It was decided to hold Aid each Thursday all day with Mrs. Fred Pfahl to quilt. Pot luck lunch will be served at noon.

Harry Scarlett returned to work in Detroit on Monday after a month's visit here.

Mrs. Ed Youngs was at Flint on Friday.

Mr. and Mrs. Orville Youngs have moved here from Flint.

A large number from here attended the dance at Whittemore on Saturday night.

Mr. and Mrs. Roul Herman of Oceda spent the week end with her parents, Mr. and Mrs. Chas. Brown, William White, Ambrose Berry and Mr. and Mrs. Roul Herman and daughter were Sunday dinner guests of Mr. and Mrs. Russell Binder.

Mrs. Mose Sommerville of Tawas visited with Mr. and Mrs. Otto Sommerville one day last week.

Mrs. Chas. Brown and Mr. and Mrs. Roul Herman and daughter, Joan were callers in Reno on Friday.

Mr. and Mrs. Russell Binder and sons, Charles and Robert, were Sunday supper guests of Mr. and Mrs. Nelson Ulman at Tawas City.

We are glad to hear that our sick folks are able to be out again.

Martin Fahsel is tearing down his house. He plans on building a new house.

McIvor

Mr. and Mrs. Wm. Herman and daughter, Evelyn, of Lima, Ohio spent several days of last week with their parents, Mr. and Mrs. Emil Herman.

Mr. and Mrs. Fred Strube of Lansing and Mrs. Mildred McClure and children of Holt spent the week end with Mr. and Mrs. W. H. Pringle.

Henry Luce of Tawas City is helping Fred Kohn on the farm.

Mrs. Chelsea McIvor and son left Tuesday for Ann Arbor where her son will enter the hospital there.

Mr. and Mrs. Herbert Schroeder and son of Pontiac spent a few days of last week at the home of Mrs. Wm. Schroeder.

Mr. and Mrs. Orville Strauer attended the dance at the Roll Inn at Whittemore on Saturday night.

Mr. and Mrs. Walter Anschutz and sons, and Mr. and Mrs. Austin Allen and son were Saturday visitors at Bay City.

Mr. and Mrs. John Goldsmith called on Mr. and Mrs. Fred Kohn on Saturday.

Mrs. H. Arn and son Robert, spent the week end with Mrs. Curtis Perry and son.

A number of friends of Mr. and Mrs. Walter Anschutz gathered at their home on Friday evening for a sociable evening playing cards. A delicious lunch was served.

George Frederick Handel
George Frederick Handel was born in Halle, Saxony, February 23, 1685. Paid first visit to London 1710, returned two years later and remained in England for the rest of his life. In 1714 the elector of Hanover (Handel's old patron) became King George I of England. He gave Handel a pension of 200 pounds a year, and Handel became a naturalized Englishman. Until his death, on April 14, 1759, he dominated English music. He invented the oratorio and wrote many oratorios, of which "Messiah" is the best known. He is buried in the Poets' Corner of Westminster abbey. His statue there represents Handel with the score of "Messiah" open before him at the page of the Aria, "I know that my Redeemer liveth."

Says Loafer Knows How to Act
Jud Tunkins says a successful loafer is one who knows when to act busy whether he is doing anything or not.

Notice

Notice is hereby given that the annual meeting of the stockholders of the Detroit and Mackinac Railway Company for the election of directors and for the transaction of such other business as may lawfully come before the meeting will be held at the office of the company, in the City of Alpena, Michigan, on Tuesday, the 26th day of April, 1938, at 12 o'clock noon.

JAMES McNEIL,
Secretary.

LAND EXCHANGE NOTICE
Notice is hereby given that the State of Michigan, through the Department of Conservation at Lansing, Michigan, has applied for an exchange of lands under the Act of March 3, 1925 (43 Stat. 1215). The applicant offers to the United States certain lands located in Mackinac County lying within National Forest boundaries; and in exchange desires to obtain title to the following described lands located in Isoco County, and lying within the boundaries of certain State Forests, totaling 39.67 acres:

T 24 N, R 8 E, Sec 4, NE NE;
The purpose of this notice is to allow all persons claiming said lands or having bona fide objections to such application an opportunity to file their protests with this office on or before the date of the last publication thereof.

First Publication, April 1, 1938
Last Publication, April 22, 1938

Regional Forester

Army Day In the Air

America observes Army day April 6 as Uncle Sam turns attention to his air corps, an important arm of defense. At March Field, Calif., aerial bombs are loaded with sand and water preparatory to defense maneuvers. The bottles contain smoke chemicals that leave a trail and enable the pilot to check his aim.

A mechanic adjusts 100-pound bombs beneath an army plane before takeoff for practice at Muroc Dry Lake.

While one branch of the army develops the offensive side of aerial warfare, another places emphasis on defensive tactics to combat enemy planes. At Fort Monroe, Va., this 1938-model soldier works on an anti-aircraft director.

Hot Cross Buns Are Legendary

Whence came the hot cross bun Americans eat annually on Good Friday?

Several legends surround this institution, most of them apparently founded on the following explanation:

The early Greeks offered to Apollo, Diana and other gods, at the spring festival, corresponding to Easter in the Christian church, cakes or "buns," round with small horns. The round feature represented the moon, on which was placed four quarters, representing the stages of the moon.

The Christian church later adopted the custom, making buns of the same dough kneaded for the host, or bread or wafer used in the sacrament of holy communion.

Charleston Claims Many "Firsts"

Charleston was settled in 1670. Fort Johnson and Fort Moultrie, near Charleston, played decisive parts in the American Revolution. Fort Sumter, in Charleston harbor, drew the first shot of the Civil war. Charleston claims more "firsts" than any city in the country, among them the first fireproof building in America, the first museum, first prescription drugstore, first regular steam railroad, first fire insurance company, first apartment house and first legitimate theater. The Charleston Chamber of Commerce, organized in 1773, was the first city chamber of commerce.

John Alden Accompanied Pilgrims

John Alden, hero of Longfellow's "Courtship of Miles Standish," accompanied the Pilgrims from Southampton as a cooper. He was the youngest of the Pilgrims, and afterwards became a magistrate of the colony, a position he held for more than fifty years.

Volume of Breathing

The volume of a normal breath, according to physiologists, is 30 cubic inches—the amount taken by a normal and average man taking 12 breaths per minute.

ORDINANCE NUMBER 99

An ordinance providing for a rental of the use of the Sanitary Sewer System, for the method of collecting the same, and providing for a deficiency appropriation from the Contingent Fund. And also establishing a Special Fund.

The City of Tawas City ordains:

SECTION I
It is hereby determined to be necessary and equitable that the users of the Sanitary Sewer System be required to pay for the operation and maintenance of the same; and that a rental charge be fixed for the use of the same, and said funds so raised to be placed in a fund to be designated for that purpose.

SECTION II
The Common Council shall cause to be fixed each year, at the first meeting of the new Common Council, a schedule of rentals to be charged the users of the same, which said rental shall be collected by the Superintendent of Public Works, in a manner to be designated by the Common Council.

SECTION III
The Common Council shall fix a schedule of rentals, so as to provide an equitable distribution of the costs of operation and maintenance costs among the various types of users; and it is further provided that the Common Council may provide discounts for the prompt payment of the rentals, and to further provide that in case said rentals are not paid by any user of said system, the same shall become a lien upon the property so serviced and may be collected as taxes.

SECTION IV
In addition to said rentals, the Common Council shall appropriate from the Contingent Fund a sum of money not less than the sum of two hundred and fifty (\$250.00) dollars, to be placed in the fund hereby created and to be designated as Sanitary Sewer and Maintenance Fund, which appropriation shall be considered as part of the revenues of said System in fixing the amount necessary to be collected from rentals.

Moved by Coyle, and seconded by Leslie that Ordinance No. 99 be read and passed to its second reading.

Moved by Rouiller, and seconded by Davison that Ordinance No. 99 be read and passed to its third reading—Roll Call, Yeas—Babcock, Burtzloff, Coyle, Davison, Leslie, and Rouiller. Nays—None. Carried.

Ordinance No. 99 read and passed to its third reading.

Moved and seconded that meeting adjourn. Carried.

WILL C. DAVIDSON,
Clerk

A Lonely Island

The lonely island of Roan is one and a half miles off the coast of Scotland. It is four miles in circumference and is surrounded by steep cliffs. The only landing place is a small rough beach between the cliffs. It is impossible to land horses there and the island has no church, no postoffice, no cemetery. The soil has to be tilled with a spade and crops must be reaped with a scythe.

Heavy Water Is Stimulant

Tests on animals show that when heavy water is administered it produces an effect similar to that of adrenalin, a hormone, which throws the body into its greatest state of activity.

Ancient Chess Stars

Gracchino Greco of Italy was ranked as the greatest chess player in the Seventeenth century and Francois Andre Danican Philidor, a Frenchman, was the champion of the Eighteenth century.

Mortgage Sale

Default having been made in the conditions of a certain mortgage made by Frank E. Bernard and Amy Bernard, his wife, to Nora Jackson, dated the 6th day of October, 1932, and recorded in the Office of the Register of Deeds for the County of Isoco, and State of Michigan, on the 17th day of October, 1932, in Liber 16 of Mortgages on page 378, on which mortgage there is claimed to be due at the date of this Notice, for principal and interest, the sum of Nineteen Hundred Forty-two and 03/100 (\$1942.03) Dollars and the attorney fee as provided for in said mortgage, and no suit or proceedings at law having been instituted to recover the moneys secured by said mortgage or any part thereof;

Notice is hereby given, that by virtue of the power of sale contained in said mortgage, and the statute in such case made and provided, on Monday, the 9th day of May, A. D. 1938, at ten o'clock in the forenoon, the Undersigned will, at the front door of the Court House, in the city of Tawas City, Isoco County, Michigan, that being the place where the Circuit

Court for the County of Isoco is held, sell at public auction to the highest bidder for cash, the premises described in said mortgage, or so much thereof as may be necessary to pay the amount so as aforesaid due on said mortgage, with seven per cent interest and all legal costs, together with said attorney fee, to-wit:

The Southeast Quarter (SE 1/4) of Section Thirty-four (34), Township Twenty-three (23) North, Range Five (5) East, in the Township of Plainfield, County of Isoco, and State of Michigan, containing one hundred sixty (160) acres, more or less, according to the Government survey thereof.

Dated February 4, 1938.

Nora Jackson,
Mortgagee
R. J. Crandell,
Attorney for
Mortgagee.

MANY New and Improved FEATURES

ON THE NEW

WORLD'S STANDARD DeLaval SEPARATORS

THESE new De Laval Separators are the crowning achievement in the 60 years of De Laval's leadership. They have many new, important features and improvements, which we are certain will be of interest to every cream producer. They will separate more milk in less time; produce more cream of better quality; run easier; are easier to operate, clean and wash; and will last longer than any separators ever made. They are the most beautiful of all cream separators, and really must be seen in order to be appreciated.

This new De Laval is now on display at our place of business, and we shall be pleased to have you examine it.

The little woman has thrown away everything you want and kept what you don't want. Imagine finding your favorite pipe in the waste basket!

All settled down for the evening with a magazine—on the floor. During spring housecleaning you're lucky to get in the house at all.

Next morning you discover with a shriek that the junkman has appropriated the trousers for your new suit. That's life—and spring housecleaning!

**Palm Sunday Is
'Courting' Day
In South Italy**

Palm Sunday, important in Christian observance of the Lenten season, is the day to court your sweetheart in Spezzano Albanese, Calabria. In this section of southern Italy bashful swains act much like they do on St. Valentine's day in this country.

Unattached young men and eligible bachelors are given the unusual opportunity of serenading their sweethearts in broad daylight, the custom being about 600 years old. Attired in finery, the youths assemble at the main piazza, carrying—instead of palms—bouquets of laurel blossoms.

They move in a procession, making the rounds of some 30 balconies, all of which are strewn with carnations and in which are girls garbed in picturesque pleated skirts and ruffled blouses. The young men sing their serenades and if their attentions are welcome they receive carnations.

Whittemore

Our city and community was grieved and shocked Sunday when word came that Rev. David Shugg had passed away Saturday evening in Ford's Hospital, Detroit, after a week's illness. Rev. Shugg was pastor of our M. E. church for five years and never in the history of our church was a minister and his wife loved in a community as was Rev. Shugg and his wife, and in every church he has served he left the same loving friends behind. People were present at his funeral from all parts of the state even the upper peninsula, which expressed the high esteem he was held. He leaves besides his widow, his aged mother and a sister in England, two sisters and a brother in California. A cousin of the deceased was present from Toronto, Ontario, who played the funeral march. Funeral services were held from the Inlay city church, Tuesday, at one o'clock and the remains taken to West Chicago for burial. Those from here who attended the funeral at Inlay City were Mrs. Roy Leslie and daughter, Geraldine, Mrs. Joseph Danin, Miss Ruth Schuster, Mrs. Roy Charters, Mrs. John O'Farrell, Mrs. Henry Jajique, Mr. and Mrs. Burnitt Smith and Rev. J. C. Pengally.

Ben Lail of Big Rapids spent the week end here with his parents.

Thomas Thompson of Mt. Pleasant spent the week end with his parents.

Mr. and Mrs. Norman Ruckle of Sault St. Marie were in town Friday night enroute to Detroit to spend the week end with his sister and husband of Canada, who met them in Detroit, and spent the week end together.

Mr. and Mrs. Harrison Snyder of Flint spent the week end with her parents.

Mr. and Mrs. Roy Leslie attended the funeral of Mrs. Goodrich in Flint over the week end.

Miss Frances Danin spent the week end in Detroit.

Whittemore sees the light of a new day in sight for the social activities of that community with the announcement that the PWA has announced, through Louis Nims, that a \$10,000 grant has been awarded the city toward the construction of a new community hall, the city to provide \$8,000 towards the sum for a total of \$18,000. The \$8,000 will have to be provided through a long time bond issue by the city. The council is completing plans now whereby an election will be held to let the people of the community express its desire in favor of the proposition. The date of the election will be announced when all details are complete.

Arden Charters and Leila Jackson spent Sunday afternoon in Saginaw. Norman Ruckle of Prescott attended the funeral of H. E. Van Ostrom here Thursday.

Miss Edis Ruckle was taken to Ann Arbor Tuesday for medical examination. Her many friends hope that she may be home again soon with her health restored.

Mrs. Fred Mills returned to East Tawas Sunday after a two weeks' visit here.

Mrs. Roy Leslie and Mrs. Chas. Fuerst entertained the Past Noble Grands meeting Tuesday evening. Fourteen members were present. The evening was spent in playing games, and a delicious lunch was served.

The Misses Nancy Berdan, Leila Jackson, Marion Jacques and Lois Charters entertained at the Jacques cottage Tuesday evening honoring Edward Graham. The evening was spent in cards and keno, and a delicious lunch was served. Edward received many useful gifts for his new cottage which he purchased at Sand Lake. Out of town guests were Mr. and Mrs. Harry Graham and Frank Dease of Bay City.

About 50 attended the Iosco County Young Men's Democratic banquet here Thursday evening.

Mr. and Mrs. Wm. Leslie and Russell McKenzie of Tawas attended the funeral of H. E. Van Ostrom here Thursday.

Great Dane at Birth

The extreme variety in sizes of dogs is illustrated in the fact that a Great Dane, at birth, weighs more than an adult Chihuahua.

ELECTION NOTICE

Annual Spring Election

Notice is hereby given, that the annual spring election will be held in every voting precinct in the city of Tawas City, State of Michigan on Monday, April 14th, 1938.

At the place in each of the several wards or precincts of said city as indicated below, viz:

Three Wards—All in City Hall
For the purpose of voting for the election of the following officers, viz: City Officers: Mayor, Clerk, Treasurer, One Alderman from each Ward, One Supervisor from each Ward, Justice of the Peace.

The Polls of said election will be open at 7 o'clock a. m. and will remain open until 6 o'clock p. m. of said day of election.

Dated, February 10, 1938.
William C. Davidson,
City Clerk

STATE OF MICHIGAN

The Probate Court for the County of Iosco.

In the Matter of the Estate of Violet McPhail, deceased.

Notice is hereby given that four months from the 17th day of March A. D. 1938, have been allowed for creditors to present their claims against said deceased to said court for examination and adjustment, and that all creditors of said deceased are required to present their claims to said court, at the probate office, in the city of Tawas City in said county, on or before the 16th day of July A. D. 1938, and that said claims will be heard by said court on Tuesday the 19th day of July A. D. 1938, at ten o'clock in the forenoon.

Dated March 17 A. D. 1938.
DAVID DAVISON,
Judge of Probate

Reno News

Mr. and Mrs. McComisky of Flint spent Wednesday night and Thursday with relatives here and near Hale.

J. P. Harsch of Whittemore called on Mr. and Mrs. Frockins Saturday.

Mr. and Mrs. Roul Herman and daughter, Joan and Mrs. Chas. Brown called on relatives here Friday afternoon.

Mr. and Mrs. Russell Binder and sons spent Saturday evening with relatives.

The Grange held their meeting at the township hall Wednesday evening, March 23. Twenty-two regular and seven newly initiated members answered to roll call by telling of an embarrassing moment in their life.

Mrs. May Westerwelt has returned home after spending the winter with relatives. She was accompanied by her sisters, Mrs. Duncan Boomer and Mrs. Oren Misner.

Darrow Wagner of Bay City was called home because of his father's poor health.

Mr. and Mrs. Floyd Sherman and daughter, Jean, and Mr. and Mrs. LaMont Sherman spent last Wednesday at their parental home.

Mr. and Mrs. Willard Williams and children spent Sunday at her parental home, Mr. and Mrs. F. Teal, near Hale. Mrs. Teal is seriously ill.

Mrs. Edward Robinson spent Friday at Bay City.

Mr. and Mrs. Chas. Beardslee, who have just returned from Florida, were Friday visitors at the Ed. Robinson home.

Mr. and Mrs. James Stutervant and Mrs. George Waters were at Bay City Saturday.

Mr. and Mrs. L. B. Perkins and son, Blair spent Monday evening with Mr. and Mrs. Harry Latter.

Mrs. Herman Weisenick gave a birthday dinner Monday evening in honor of their son, Loren. The immediate family and Mr. and Mrs. Earl Daugherty were present.

Mr. and Mrs. Loren Wesinek have been visiting at his parents home the past week.

Mrs. Oren Sherman, Mrs. Lester Robinson and Mrs. Ambros Berry spent last Thursday at the Tawas.

Mr. and Mrs. Fred Wolf and daughter, Margaret, were Sunday afternoon visitors with Mr. and Mrs. Frockins.

Walks on Sea Bottom

Those who have made their livelihood by snaring the octopus in the blue Mediterranean say that it walks on its eight arms on the bottom of the sea, looking for shell fish and other crustaceous forms of marine life. It usually is found in water that is comparatively shallow. When relaxed, its arms float, looking not unlike waving branches of some form of marine vegetation. There are 140 varieties found well into the temperate zone. Along the Atlantic coast of America they are found as far north as Cape Cod.

Many Books on Napoleon

Napoleon Bonaparte has been the subject of more books—over 70,000—than any other popular character or topic in the world.

Old Custom
Some sweethearts in Rio de Janeiro follow the old custom that the man in the case must not enter his sweetheart's house until they are engaged. Up to that happy time they must conduct their courtship at a suitable distance from each other, usually talking over the garden hedge, he three feet from it on one side, she three feet away on the other.

Statue for Columbus
Christopher Columbus, who discovered the Haitian-Dominican island in 1492, is commemorated by a statue in Santo Domingo city. Directly east of Cuba, the island is called officially Hispanola after the discoverer's original title, La Espanola.

Many Names for Travelers
Travelers have more names than kings. Travelers are tourists, voyagers, wanderers, excursionists, pilgrims, globe-trotters, gypsies, rovers, explorers, adventurers, seafarers, wayfarers, passengers, not to mention tramps, vagabonds, hoboes and straphangers.

By CHRISTINE WHITING PARMENTER

COPYRIGHT BY CHRISTINE WHITING PARMENTER - WNU SERVICE

CHAPTER I

They sat facing each other, separated by thirty-seven years, two utterly different temperaments, and six feet of priceless wine-colored Bokhara that covered the old davenport. James Lambert, who found it difficult to relax when he intended to be unrelenting, sat stiffly, arms folded, at his end of the six feet. Leonora at hers was curled up in the manner of a little girl, her head with its aureole of pale gold hair resting upon a velvet cushion—one small, silver-clad foot dangling against the gorgeous color of the old Bokhara like some barbaric jewel from the Orient.

Though a log blazed cheerily on the hearth, the atmosphere of the room was tense with disapproval—James Lambert's disapproval. Said Leonora, resuming a discussion which dinner had interrupted:

"But that's no reason, Dad. No reason at all."

"No reason!" James paused, presumably to clear his throat but in reality to curb his temper. Past experience had taught him that it was futile to rage at this bewildering foster-daughter. She merely laughed at you. He wondered, the old woman aching for a moment, if the Italian baritone who had lured his wife away from him, possessed that quality. The girl's mother had been quick to anger; but Leonora simply wouldn't get mad no matter what the provocation. She laughed, and that made a man feel foolish—disarmed his dignity; and dignity, James sometimes thought with bitterness, was all he had, unless one counted a fat bank balance. His sense of humor that Nora loved, but which too often raised its head in disconcerting moments, he refused to consider an asset. But dignity was something one shouldn't trifle with, so he endeavored to be reasonable.

"Unless a house is founded upon a rock, my child, it will not survive."

"Nor will one that isn't founded upon love," retorted Leonora. "You can't beat that, Dad."

"In my case," he replied coldly, "love did not prove a firm foundation." And added, not wishing to pursue the subject of his own marital catastrophe: "Be sensible, Nora. That boy will never in the world provide for you." He threw an appraising glance at the silver slippers. "Just face the facts honestly, my dear. He is twenty-seven. By his own unabashed confession he dropped college after a few months merely because it bored him; and what has he accomplished since then, in the years that should have given him a start in life? Nothing. Absolutely nothing. Can you deny it?"

A maddening smile curved Leonora's adorable mouth.

"That depends on what you consider a start in life, Dad. He's got some perfectly corking memories." "Memories!" James was obliged to clear his throat again; then said with sarcasm: "You'll find, I fear, that even the most delightful memories won't pay the butcher."

"And a thousand dollars," added the girl naively. "It's in the Farmers and Mechanics Bank downtown."

The sense of humor popped up and grinned at James. His mouth relaxed a little even as he contended: "Is it indeed? An appropriate place for the savings of a—a vagabond?" This brought a laugh from Leonora, a delightful laugh which brightened the whole room.

"Sometimes, Dad," she told him, "you are simply priceless. It's an enigma how so bright a man as you can be so dense. But the truth is, Don earned some of that thousand on a ranch in California. That's farming for you. And down at Santa Fe he worked three months at a garage, driving tourists. If anything's mechanical that ought to be; but you've no idea the amount of history he picked up along the way. And in South Africa—"

James Lambert's hand went up in the forbidding gesture popular with traffic officers.

"Don't go all over South Africa again, I beg of you. All this remarkable young man did there was to get into a diamond rush that netted him nothing. That is," he glanced at her sternly, "nothing but memories. Now look here, Nora. It's no use quibbling. You're blinded just at present by all the fellow's exploits; but you're young and impressionable. You can forget him. I'll send you abroad again if that will help. I'll even go with you myself, though I loathe travel. Ned tells me—"

"I see," interrupted Nora, as one enlightened. "So Ned has been poisoning your mind? I might have known."

She spoke evenly, coldly, yet hot color dyed her face and something told her foster-father that she was nearer anger than he had ever seen her. But he was angry himself as he retorted in a voice like ice: "Is it anything deplorable for a man to

be interested in the welfare of his own sister?"

"I'm only his half-sister," the girl corrected, "and there are times enough when he wishes I wasn't. Oh, I know what a good egg Ned is—in his own way; but he hasn't a spark of imagination. He never sees the other fellow's side. He's content to eat breakfast at precisely the same time each morning, and to know where he'll be every hour of the twenty-four. He's perfectly satisfied with Corinne and her beautifully kept house which changes with every changing style so you can't find your way around if you happen not to go there for a month. Corinne never does anything that isn't 'done,' you know; but she makes him comfortable, and that's all Ned asks of life—comfort, plus an increasing bank balance. He's a superb example of the successful, white-collared American business man, like—"

Nora paused, suddenly inarticulate; and James finished her sentence with a question: "Like his father?"

"You're not his father," began the girl, then stopped, fearing to hurt him. "I—I mean—"

"I've been Ned's father longer than I've been yours, Nora," he reminded her with unaccustomed gentleness. "The boy was less than two years old when I married his mother; and he's been compensating, as far as such a thing is possible, for all the trouble that came later."

"Meaning—me?"

"She shouldn't have said just that, of course; but her lip trembled a little, and James forgave her. He responded instantly: "Don't be a goose, dear! I've never regarded you as a trouble—not for a minute. A problem, perhaps, because I don't always understand you, and you often rub me the wrong way. But I want you to be happy, Nora, and safe; and I can't see safety for a woman, or happiness either, unless there's a certain stability in the man she chooses. Don Mason hasn't got that stability; and I doubt if it's possible for him to acquire it now. I don't call him a ne'er-do-well, though—"

James stopped. The curtains at the door had parted, and a maid announced: "Mr. Mason is in the reception room, Miss Nora."

"Ask him to step in here, please," replied the girl. Then to her father: "Perhaps you'd better tell Don how you feel. Ned and Corinne made their attitude quite plain last evening at the Country Club. It hurt me frightfully. That's why I blew

up just now. If I felt that Ned really cared about me it would be different; but he's never cared, not like a real brother—not as you care, Dad. Sometimes I feel—Oh, hello, Don! Come in. Dad wants to see you."

The young man paused on the threshold. He did not speak, yet one knew instinctively that he was asking: "Is this a declaration of war, or a friendly counsel?" It was, perhaps, only a few seconds that he waited in the illuminating silence, but, facing him, James Lambert was conscious of a pang of envy. Here was Youth! Youth at its best and brightest. What arguments could a man of sixty use, he asked himself, to counteract the sense of high adventure which this boy brought with him into the quiet room.

Years afterward James was to recall every detail of that scene: how as Don stood there his hair seemed to be blown back from his forehead by a mountain breeze—how tanned his neck had looked above the collar—how broad his shoulders—how strong his hands. And how, as the girl came forward, his eyes which had been shrewd and questioning, changed, softened, lighted as if by magic.

"You wish to see me, sir?"

James thought: "I wish I may never see your handsome face again," but he gripped the outstretched hand in not unfriendly fashion as he replied with crisp finality: "Only to say that I'm taking Nora abroad for the next year."

For one startled moment Don's eyes met Leonora's—held them. What he read there James never knew. He said, a smile curving his engaging mouth: "Our tastes are similar! I meant to do that very thing myself."

"Indeed?" There was a world of sarcasm in the lifted eyebrows. "On a thousand dollars?"

Don said, quite seriously: "It shouldn't take a thousand, Mr. Lambert. I've been from Persia to—"

"See here," James broke in with impatience, "it doesn't in the least matter where you've been. I've no doubt you traveled steamer—roughed it—even mixed with the darkies as a deck passenger. May I ask if you ever traveled with a woman?"

"Oh, Dad!" warned Nora; but the young man silenced her with a laugh.

"Sit tight, my dear. Your father's not insulting me. He's merely point-

ing out the fact that a feminine companion complicates things on a journey. He's right, of course; but as it happens, Mr. Lambert, I did travel for ten days with a girl I picked up outside of Shanghai. We—"

He paused because James Lambert had made a strange sound in his throat. Nora recognized it as the forerunner of a storm—a sort of distant thunder. If possible that storm must be averted, and she said hurriedly: "Don didn't mean, Dad—"

"And do you mean," blazed her father, thoroughly roused, "that you'll consider marrying a fellow who admits traveling with strange women—'picking them up' here, there, God knows where? Do you understand, child?"

To his amazement a short laugh came from Don.

"Calm down, everybody," he pleaded. "Calm down. The lady in the case was above reproach. This adventure of mine which sounds so wicked to you, Mr. Lambert, occurred during a Chinese rebellion. The girl got separated from her family and I took her under my brotherly wing, as it were, until we found them. Would you have had me leave a fellow countrywoman to the tender mercies of the bandits who had wrecked our train?"

Nora laughed; while her father experienced the unpleasant sensation of appearing foolish. This made him angrier still, and he exploded: "Why didn't you say so in the first place?"

"I'm under the impression," replied the young man suavely, "that you didn't give me time. What I started to tell you, Mr. Lambert, is that we got on famously despite unnatural conditions and innumerable hardships. She was a sport, that girl. I've often wondered why I didn't fall for her—that is, I wondered till I met Nora."

James, still slightly ruffled, snorted like an angry horse.

"Very pretty. Very pretty indeed; but you must consider the fact that my—Nora has been accustomed to every luxury. Hardship is something she doesn't dimly glimpse. You're twenty-seven, and according to Nora you've accumulated only a thousand dollars. If she's mistaken, I apologize. If she's right, what, may I ask, have you to offer her compared to what dozens of the men she knows could offer?"

So it was war! The young man comprehended.

Migratory Birds Change Their Habits When They Take Up Quarters in South

Change of habitat frequently brings changes in the actions and food habits of migratory birds. Some that we consider desirable and entertaining summer residents are looked upon as obnoxious when they reach their southern range. They may be weed seed and insect destroyers while they remain with us, thereby establishing their economic importance to agriculture in the North, but when they reach the South they become crop destroyers.

This is apparently what happens with the colorful red-winged blackbird of our marshes and swales, writes Albert Stoll, Jr., in the Detroit News. While it may eat some grain in farmers' fields during the spring and summer, by far its greatest diet consist of insects and weed seeds found near its marsh home. This is the principal reason federal officials placed the blackbird on the list of protected birds by a special order.

However, when this species migrates to the South, and takes up its winter residence in Louisiana and Texas, it becomes a different bird in food habits. It has proved so injurious to rice fields that the gov-

ernment, after exhaustive investigation, has found it necessary to allow rice growers to kill the birds by the thousands. In the South they display nomadic habits. They make daily trips to the rice fields, feeding on the shocked grain in flocks of many thousands and return to their marsh homes to roost at night.

Here is one illustration of the destructiveness of the red-wing in the South. One rice farmer with 230 acres of stacked sheaves used 4,500 shot gun shells costing \$135, in keeping the birds out of his fields. This expense, with labor involved in patrolling, was necessary to protect a crop of 2,600 sacks of rice. Judging by experience this farmer estimated that his crop would not have exceeded 1,000 sacks if the birds had not been controlled and driven from the fields. He estimated his total expense at \$250 for control work, but was able to save rice worth more than \$7,800.

Similar experiences are recorded among other rice growers and they were able to convince the government that control measures were necessary if they were to remain in business.

'Safe upon the solid rock the ugly houses stand;
Come and see my shining palace built upon the sand!'

The "shining palace" was a sanctuary for Nora and Don Mason . . . a refuge for two veteran globe trotters . . . a place to hang their hats when new sights and sounds became tiresome. It was to this "shining palace" that Nora invited James Lambert, the strong-willed stepfather who loved her but vowed never to forgive her elopement with the globe-trotting Don Mason.

James Lambert did not come . . . not until Nora's valiant spirit had almost been broken in the face of terrible adversity. But his belated coming brought forgiveness and new courage to a despairing couple. "Shining Palace" by Christine Whiting Parmenter is a sincere story that abounds with adventure and romance . . . a serial you'll remember for years to come!

SHINING PALACE—Follow it serially in this paper

WHAT TO EAT and WHY

C. Houston Goudiss

Describes the Precious MINERAL SALTS

That You Must Have in Order to Build Strong Bones, Sound Teeth, Healthy Nerves, Rich Red Blood

By C. HOUSTON GOUDISS

6 East 39th Street, New York.

THE human body is often compared to a machine, but it is far more wonderful, far more complex, than the most intricate machine ever designed to run without stopping, day in and day out, for upwards of 70 years, is also a fully equipped chemical laboratory. For if a chemist should grind a man to bits and analyze the pieces, he would find at least 18 chemical elements, and possibly traces of several others.

In addition to oxygen, carbon, hydrogen and nitrogen, the body contains a wide variety of mineral materials, which are necessary to its proper functioning—and even to life itself. The list includes calcium, phosphorus, potassium, sulphur, sodium, chlorine, magnesium, iron, manganese, iodine and copper.

Minerals Necessary to Life

It is vitally important that the home-maker understand the function of these various salts and where they can be found. For if certain minerals are lacking in the body, the heart will stop beating. Without others, the bones cannot form properly. Still others are responsible for the rich red blood that makes the difference between a healthy person and a sickly one. Laboratory experiments have proved that if you leave out the smallest trace of the mineral known as manganese, you destroy the love of a mother for her child. And nutritionists—but unfortunately not mothers—are well aware that less than a thousandth of an ounce of iodine makes all the difference between a normal man and an imbecile.

Calcium—Captain of Minerals

Calcium deserves its ranking position as the captain of the minerals, because it builds the bones, or body framework. And the bony skeleton is to the human being what steel is to a building. Calcium is also the chief constituent of the teeth and upon healthy teeth rests the health of the digestive system and, in turn, the entire body. For food that is improperly masticated is imperfectly digested and fails to nourish properly.

About 99 per cent of the calcium in the body is found in the teeth and bones. If the body does not receive an adequate supply of this mineral in pre-natal life and during the growing years, the bones will be porous, distorted and easily broken, and the teeth will develop cavities and eventually may fall out.

In addition to being the principal material for making and maintaining the bones and teeth, calcium increases the strength and pulsations of the heart and helps the blood coagulate in case of injury, thus keeping you and your loved ones from bleeding to death. That is why an extra supply of calcium is fed to patients just before an operation.

Calcium Builds Will Power

There is a close relationship between calcium and sound, healthy nerves. And this precious substance likewise helps us to concentrate mentally—it strengthens our will power—and assists us in acquiring that "do or die" attitude toward life, which is essential in an age when we must all struggle or go under.

Yet despite its importance, it is estimated by that outstanding authority, Henry C. Sherman, Professor of Nutrition at Teachers College, Columbia University, that one-half of the American people—even those with plenty of money—are literally starving for calcium, because they do not know the food sources of this vitally important mineral.

Where to Obtain Calcium

The foremost sources of calcium are milk and cheese, which is milk in concentrated form. It is chiefly to provide adequate calcium that homemakers must follow the rule of a quart of milk daily for every child, and a pint for each adult.

Vegetables, such as spinach, lettuce, celery, asparagus, string beans, cabbage, carrots and cauliflower are also a good supplementary source of calcium. And some fruits, such as oranges, figs, strawberries and bananas likewise supply significant amounts.

Indispensable Phosphorus

Like calcium, phosphorus is required by the body in relatively large amounts, and like calcium, it is especially important in the diet of children, because it is de-

posited in the bones, along with calcium, as calcium phosphate.

Phosphorus is indispensable for all the active tissues in the body and plays an important part in regulating the neutrality of the blood. It can be obtained from whole grain cereals, eggs, dried beans, cheese, lean meats, and root and leafy vegetables.

★ ★ ★

Iron—King Pin of Them All

But measured in terms of food essentials, iron is king pin of them all. It is the supreme element in nutrition because it is necessary for the formation of the hemoglobin or red pigment in the blood. And it is the hemoglobin which carries purifying oxygen to every cell in the body. Recently, it has been discovered that copper is required for the proper utilization of iron.

"Red blooded" is a term understood by everyone to denote health and strength, and it is iron that makes us red blooded. When your children grow pale and listless, lose their pep and lack appetite, it is likely that they are starving for iron. If you become short of breath and "pant" when going up hill, or upstairs, even though there is nothing wrong with your heart or lungs, the chances are that there is insufficient red pigment in the blood—not enough to take up an adequate supply of oxygen and carry it to the millions of cells throughout the body.

There is no excuse for cheating yourself or your children of a full measure of iron, for this mineral can easily be obtained from liver, egg yolk, whole grain cereals, molasses, dried fruits, dried peas and beans, nuts, lean meats and green vegetables.

★ ★ ★

Iodine—Molder of Men

Almost everyone has heard that iodine is the mineral which helps to prevent that disfiguring enlargement of the neck, known as simple goiter. But few people realize that it is the principal constituent of thyroxin, secretion of the thyroid gland, and that the thyroid functions normally only when sufficient iodine is available.

A wide variety of physiological disorders have been laid to iodine hunger. Obesity is frequently the result of thyroid disturbance. Specialists contend that stubborn skin diseases are associated with disorders of this gland. Many people are accused of laziness who are really suffering from thyroid deficiency. And competent authorities claim that the thyroid likewise influences mental make-up and emotional tendencies.

Iodine is found chiefly in sea-food and in fruits and vegetables grown near the sea. In inland regions, where soil and water are poor in iodine, health authorities frequently add it to the drinking water. And the use of iodized salt is also recommended. By these simple measures, thousands of growing children can be saved from the disastrous results of iodine deficiency.

In general, it can be said that if the minerals calcium, phosphorus, iron and iodine are supplied in adequate amounts, the other minerals will be automatically furnished.

But every homemaker should make

AROUND THE HOUSE

Tasty Baked Potatoes.—After baked potatoes are "done," gently crush the potato open and then return it to the oven to dry out for a few minutes.

Add Acid to Milk.—To help prevent curdling when acid and milk are combined, add the acid to the milk rather than the milk to the acid.

Fresh Orange Juice.—It is best to squeeze the orange juice just before breakfast rather than the night before so that the air won't have a chance to attack the vitamin in the juice and also change the flavor.

An Invaluable Aid To the Housewife

IN THIS issue you will find the fourth of the series of articles written by C. Houston Goudiss, famous food expert whose books, radio talks and lectures have made him known all over the country. In this article Mr. Goudiss discusses the vitally important subject, "Mineral Salts." He shows the necessity of these materials in the diet, and their relation to the building of a strong heart, healthy nerves, rich red blood, strong bones and sound teeth. He also gives the food sources of these salts. Read each one of these articles as they appear weekly in this newspaper. They will prove invaluable to the housewife in assisting her to keep the entire family mentally and physically fit.

It is her solemn responsibility to provide these four in abundance. For only in that way can you insure optimal growth in children, develop vigorous health in adults, and maintain the highest possible tone of every organ in the body. © WNU—C. Houston Goudiss—1938.

A Splendid "Service" for Floors

Floors receive rougher treatment than any other part of the home—and it is floors that show up to poorest advantage when neglected—best advantage, when properly cared for! Up to now, attractive floors have required some little time and attention, but this is no longer necessary. For into the field of domestic preparations has come "self-polishing wax"—liquid-smooth, simple to apply, lovely to see. This remarkable preparation goes on easily, quickly, and dries in 20 minutes! Its results are 4-fold: The floors are protected—they are preserved—they stay freshly-clean longer—and they are beautified! A quality self-polishing wax protects and preserves, by forming a film over the surface—hard enough to withstand friction and grinding wear—and-tear. It induces floors to stay clean longer, because dirt and grease cannot become imbedded in the wood. It beautifies, because it is shimmering, transparent, and brings out the natural beauty of the wood. And what more could the home-maker ask for? There are, however, various qualities of self-polishing wax available. Only the best should be used, for both the appearance and condition of the floors. But the finest self-polishing wax is a joy to use—its lasting results a joy to see!

FLOORS POLISH THEMSELVES

...with O-Cedar Self-Polishing Wax. No rubbing—simply spread it on and let it dry—then watch your floors sparkle! Non-slippery, long-wearing—eliminates scrubbing—dusting alone keeps floors clean. Full qt., only 85¢.

Worthy of Respect
Bow to him who bows not to the flatterer.—Lavater.

BE SURE OF YOUR SEEDS

YOUR seeds need not be one of the uncertainties of gardening, thanks to the work of the unique Ferry-Morse Seed-Breeding Institute. Here's how the Institute's seed experts produce dependable, prize-winning Ferry's Seeds:

First—seed stocks are perfected by generations of breeding and selecting to develop desired characteristics and to eliminate weaknesses.

Second—every year, before Ferry's Seeds are packeted, 50,000 tests for germination are made—and samples are tested for trueness to type.

Choose vegetable and flower seeds you can be sure of—from the Ferry's Seeds display in your favorite store. These seeds have been selected as suitable to your locality. 5¢ a packet and up. Ferry-Morse Seed Co., Detroit, San Francisco.

GET RID OF BIG UGLY PORES

PLENTY OF DATES NOW...DENTON'S FACIAL MAGNESIA MADE HER SKIN FRESH, YOUNG, BEAUTIFUL

Romance hasn't a chance when big ugly pores spoil skin-texture. Men love the soft smoothness of a fresh young complexion. Denton's Facial Magnesia does miracles for unsightly skin. Ugly pores disappear, skin becomes firm and smooth.

Watch your complexion take on new beauty. Even the first few treatments with Denton's Facial Magnesia make a remarkable difference. With the Denton Magic Mirror you can actually see the texture of your skin become smoother day by day. Imperfections are washed clean. Wrinkles gradually disappear. Before you know it Denton's has brought you entirely new skin loveliness.

EXTRAORDINARY OFFER

Saves You Money
You can try Denton's Facial Magnesia on the most liberal offer we have ever made—good for a few weeks only. We will send you a full 12 oz. bottle (retail price \$1) plus a regular sized box of famous Milsesia Waters (known throughout the country as the original Milk of Magnesia tablets), plus the Denton Magic Mirror (shows you what your skin specialist sees) . . . all for only \$1! Don't miss out on this remarkable offer. Write today.

WHO'S NEWS THIS WEEK

By LEMUEL F. PARTON

NEW YORK.—Among his companions in barnstorming, Glenn L. Martin was known as "The Dude," although his carefully tailored flying suits were always black, including their elaborate braid trimmings.

A few months ago, he said his Glenn L. Martin company, of Baltimore, making planes, had a backlog of \$15,500,000.

He told the house naval affairs committee there should be a 100 per cent increase in air armaments, that foreign nations are spending ten times as much as the United States. He would build a 250,000-pound bomber, carrying 30 men and a 4,000-pound bomb load 11,000 miles.

In 1912, this writer saw him put an inflated inner tube around his neck, strap a compass on his leg and take off to sea, at Avalon bay, Los Angeles, in a flying laundry wagon on which he had rigged a single wooden pontoon. He was bound for Catalina island, 20 miles away. It looked like suicide.

He not only made it, but picked up again at Catalina and finished the round trip, blanking Bleriot, whose flight over the British channel was a one-way excursion. He had made the plane in an abandoned church.

The flight got him world attention. Then he staged a plane coyote hunt, dropped a ball into a catcher's mitt and a bouquet into the arms of a beauty contest queen.

This air extravaganza did not last long. In 1913, he built and sold two model TT war planes to the army, and has been building fighting craft ever since, with the exception of trans-Pacific Clippers.

He grew up in Mackburg, Iowa, built a pusher plane in his backyard and flew it in 1908. He is fifty-two.

WILLIAM JENNINGS BRYAN, in his seersucker suit and his ruffled hat, frequently looked as if he had been sleeping under a bridge, especially in the midst of a hard campaign.

Bryan, Jr., Fastidious About Dress
His son, William Jennings Bryan, Jr., is fussy about his dress, severely and fastidiously groomed, with a jaunty little moustache and a nice collection of malacca sticks, sports clothes, and varied haberdashery.

He is in the news now as he becomes collector of customs at the port of Los Angeles, his first recognition by the California Democracy, in whose vineyard he has labored for years.

When his father laid down his staff and scrip at Dayton, Tenn., he picked from the legacy only two things—free silver and anti-evolution. He is quite unmoved by oratory, speaking with calm, legalistic precision, with no gift for the resounding or oracular.

He has made spirited forays against this or that, notably Upton Sinclair's "Epic" heresy of 1934, but with no such impassioned fervor as that which inspired his father. But, when occasion offers, he puts in a word for silver, or against evolution.

After the Dayton trial and his father's death, he made a knightly vow that his lance always should be leveled against this ignoble theory of man's origin. But nobody seems to be bringing that up now. The argument is shifting to where man is going.

He attended the University of Nebraska three years, studied law at Georgetown university, went to Arizona on account of his wife's health, and practiced law, first in Arizona and then in Los Angeles. He is fifty years old.

© Consolidated News Features. WNU Service.

Origin of Word Assassin
The word assassin originated in Persia in the Eleventh century. It derives from hashish, the intoxicating Indian drug which at that time was used by notorious murderers under one Hasan-i-Sabbah to work themselves into the high state of ruthlessness required for their crimes. As a tactic in attacking vested authority assassination is as old as man. It is notably the most ubiquitous and immediate of dangers to autocratic government, as has been proved by the violent deaths of a high percentage of dictators from Julius Caesar to those of modern times.

News as to Easter Fashion Trends

By CHERIE NICHOLAS

WHEN you start out in quest of chic clothes for spring-summer, be prepared to experience not less than a thrill a minute, for the whole set-up of fashion claims an entirely new order of things.

Pleats and pleats and more pleats, boleros played up in every mood, colors that are excitingly new, prints that are refreshingly "different," costume suits and coats and dresses of wools that revive enchanting pastels, stripes everywhere you turn in the mode, flowery beribboned Watteau hats that bring the daintily feminine into the picture, Gibson girl blouses with wrist-deep full sleeves, Gibson girl sailors with colorful veils that are brought up under the chin to tie at the back in a fluttery butterfly bow and here we will have to stop to take breath before we go on with the story of Easter fashion trends that spring a delightful surprise every step of the way.

Perhaps the most significant news is that of striking color innovations not the least of which is the revival of pastel shades such as flourished in the romantic past. And if you are asking us to mention a pastel that fashion particularly highspots at the dawn of this new season we would unhesitatingly answer "pink."

The emphasis is especially on pink for accessories. However, it is not only that pastels are acclaimed for costume accents, for you will be making a perfect start in the right direction if you buy for your fashion-first a three-piece costume suit tailored of a lovely pastel woolen in a fine herringbone pattern such as fashions the stunning model to the left in the picture. It will be style-correct in either a grayish blue or a dusty pink, or you may choose one of the new vogueish cereal shades or a golden-beige which is creating such a furor in the realm of fashion this spring.

You can do wonders with a three-piece of this type in the way of costume changes. In fact the major

part of the spring wardrobe is provided with a skirt-jacket-topcoat threesome as its basic theme. To be high style the three-quarter topcoat must have "boxy" lines as this model shows. If you are keen about navy for your Easter costume let us "whisper aloud" to you that navy is a big favorite and with pink accessories it is a fashion highlight. A handsome wool tailleur such as pictured calls for a collection of blouses and when you are blouse shopping keep in mind that the newest blouse on the scene is the blouse that really blouses, call it Gibson girl or gypsy peasant blouse as you will.

Boleros have become an overwhelming passion with designers. Buy them separate or choose a bolero suit complete. We selected for illustration (centered in group) a conservative refined type made of a fine black sheer. No doubt you noted at once its exquisitely neat and trim appearance. The secret thereof is that it is modeled over a clever new braform with dainty under-arm shields attached that give perfect protection at the same time that it molds the figure into modish contour. With a collection of blouses this costume may be transformed at a moment's notice to meet any occasion.

As to the separate blouse, buy or make as many as you will and even at that you will not have too many to satisfy fashion's demand.

As to pleats and prints, they have formed a partnership that is proving by far one of the most far-reaching fashion trends of the season. And to prove how dramatically and beautifully silk prints and pleats perform together we are picturing in the foreground a most winsome daytime dress of silk Paisley print. All-around knife pleating is released from the hips, making a slenderizing pleating skirt. A horizontal drawing shirring across the bust matches the shirring on the sleeves. A blue suede off-the-face hat completes as fetching an Easter costume as fancy can picture.

LANDSCAPE PRINT
By CHERIE NICHOLAS

There's the breath of spring in this refined and lovely dress fashioned of an exquisite landscape silk print in lovely pale tones. Charming under the mid-season coat of cloth or light fur. The bonnet was inspired by the duchess of Windsor. The handsome bracelet is gold set with carnelian.

NEW USES OF PRINT IN SPRING STYLES

By CHERIE NICHOLAS

Designers are having a lot of fun with prints this season, in that they are using them in a trimming way rather than for the entire costume, or at least in combination with other plain fabrics.

It is very good style to have a dark dress tied about the waist with a gypsy sash of the print; the coat or jacket having a lining of the same print.

Little ruches of bright silk outline skirt hemlines as well as the edges of the bolero jacket. Spaghetti trims are also made of colorful silk print.

Cutout florals are applied in fascinating ways not only on day dresses but especially on sheer diaphanous evening materials. The idea offers vast possibilities and certain designers are turning out veritable works of art. They scatter petals and single flowers and cluster with the same artistry a painter creates a picture.

New Hairdress for 'Teen
Age Sure to Be Popular

Long bob-curl at the ends, tied at each side of the center part with ribbons, describes the new hairdress that Deanna Durbin, the youthful screen star, adopts and it is so very attractive prospects are it will develop into a widespread vogue with the younger set.

Gay Spring Gloves
History has repeated itself in the glove theme for spring, for the highly decorated glove of the Renaissance period is seen in the new gloves.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL Lesson

By REV. HAROLD L. LUNDQUIST, Dean of the Moody Bible Institute of Chicago.

Lesson for April 3

SERVING OTHER RACES

LESSON TEXT—Mark 7:24-37. GOLDEN TEXT—God is no respecter of persons. Acts 10:34. PRIMARY TOPIC—The Lord of All. JUNIOR TOPIC—The Lord of All. INTERMEDIATE AND SENIOR TOPIC—Showing Good Will to Other Races. YOUNG PEOPLE AND ADULT TOPIC—Practicing Christian Brotherhood Toward All Races.

"God is no respecter of persons" (Acts 10:34). He who by reason of His infinite knowledge might well draw lines of distinction between them is loving and gracious toward all, not willing that any should perish, extending His mercy to men of all conditions and all races. But men, whose knowledge is so limited that they cannot even rightly judge the thoughts of their own hearts, are quick to discriminate against their fellow man because he is of a different race, color, or social position.

A leader in the Southern Baptist church recently pointed out that the number of heathen in the world has increased about two and a half times as rapidly as the number of Christians, which means that at the rate of progress of missions during the last generation the world has become more heathen at the rate of six million a year, and now we are retarding the process still further. Because of financial depression we are recalling missionaries. When the world is ablaze with sin and God-denying political theories we withhold the gospel it needs. It has well been said that such strategy is like closing the hospital because an epidemic is in progress.

Jesus had gone into Syrophenicia and the region of Decapolis (look them up on the map) to rest. But the need of the Gentile people (to whom He was not at that time called to minister) impelled Him to help them also. Note how they were stimulated to believe, how their faith was tried, but triumphant.

I. Faith Encouraged.

The Greek woman and the man of Decapolis were led to believe in Christ in two different ways.

1. By hearing about Jesus. The woman "heard of him" (v. 25). Paul says, "Faith cometh by hearing, and hearing by the word of God" (Rom. 10:17). Are we diligent in season and out of season, telling the story of Jesus and His love? If so, men and women of our acquaintance will hear of Him and be ready to call on Him in the day of their trouble.

2. By a personal meeting with Jesus. The man was deaf; he could not hear about Jesus, but he could see Him. To him the Lord came in person, and by the sign language, related in verse 33, He stirred his heart to believe.

II. Faith Tested.

1. By obstacles. The woman met what seemed to be a sharp rebuke (v. 27), although it was no doubt most tempered by the tender voice of Jesus, and by the fact that He did not use the word "dogs" as the Jews did in speaking of the Gentiles. He spoke kindly, and He talked of the "little dogs" which were the pets of the household. But her faith was greatly tried, just as ours often is, not that it should fail, but that its strength might be demonstrated.

2. By natural handicaps. Jesus put no impediment in the way of the man, for he was already hindered by nature. How often do we not feel that in our very personalities and bodies are those things which hinder our full apprehension of the grace of God. Shall we then give up in discouragement? No. The man believed right through the barrier of unhearing ears and a speechless tongue. We can do likewise by the grace of God.

III. Faith Rewarded.

1. By deliverance from the devil. The woman's daughter was set free because of her faith. Men and women around us need to be delivered from the devil. Perhaps you who read these lines are in need of such deliverance. "Believe on the Lord Jesus Christ, and thou shalt be saved, and thy house" (Acts 16:31).

2. By deliverance from personal limitations. The man's "ears were opened . . . and he spake plain" (v. 35). What is the unfortunate trait of personality, the handicap of body or mind that holds you back from accepting Christ as Saviour, or, having done so, from the full and free development of your spiritual life? Faith in Christ cuts right through the hindering inability. He said to Paul, "My grace is sufficient for thee: for my strength is made perfect in weakness."

Temper

We are told, "Let not the sun go down on your wrath," but I would add, never act or write till it has done so. This rule has saved me from many an act of folly. It is wonderful what a different view we take of the same event four-and-twenty hours after it has happened.

Forgive Your Enemies
And be ye kind one to another, tender-hearted, forgiving one another, even as God for Christ's sake hath forgiven you.—Ephesians 4:32.

HOW TO SEW

by Ruth Wyeth Spears

THIS pink and white chintz apron with pink gingham frills should inspire anyone to make long strides towards the kitchen. It is easy to cut. The material required is 1 1/2 yards of 36-inch-wide chintz or cotton print and one yard of plain material.

For the skirt of the apron, cut a piece of paper or cloth 27 inches wide and 23 inches deep. Fold this lengthwise through the center, as at A, then measure down from the top of the fold and in from the corners the distances indicated in the diagram and mark the dots. Using the dots as a guide, mark the outline of the apron skirt as you see it in the diagram. The dimensions for shaping the bib are given in the diagram at B. The pocket is a 5-inch square with lower corners rounded as shown here at C. The

Strange Facts

Curtain of Fire Stops Radio

A CURTAIN of fire is one of nature's great electrical mysteries. In northern latitudes at certain times beams and flashes of dazzling brilliance play across the sky. Sometimes it is like giant searchlights from beyond the rim of the world. The discharge of light is 50 to 100 miles above the earth. With it comes a noise, a low crackling sound like the rustle of silk, believed to be made by the aurora borealis.

On January 25, 1938, the people of London came running from their houses believing that the whole city was afire. All over Europe fire engines rushed to put out non-existent fires. Even Windsor castle was thought to be burning to the ground as the fire department raced to the scene. On that night from 6:30 to 8:30 p. m. the most brilliant display of aurora borealis in 50 years was seen over a wide area of northern Europe, extending even to Italy and Portugal. Between New York and Europe short-wave radio went dead.

The cause of nature's most beautiful, mysterious and at times most terrifying phenomenon is unknown. Scientists believe the rays are due to discharges of electricity in the upper atmosphere, and are in some unknown way related to sun spots. Sun spots are dark spots on the face of the sun, seen only through a telescope. They look like cavities and from the rim of these cavities rise whirling flames. Some scientists believe the sun spots are giant fiery whirlpools that move across the face of the sun. They seem to cause magnetic storms which in turn disrupt radio communication and also, some scientists believe, affect the weather on the earth.

© Britannica Junior.

apron ties are cut 6 inches wide and 36 inches long. The strip for the belt should be cut 2 1/2 inches wide and a facing strip the same width should be cut for it. The shoulder straps are cut 4 inches wide and then centered lengthwise through the center.

The strips of the plain material for the ruffles are cut 6 inches wide. The ruffle material before it is gathered should be 2 1/2 times the length of the space it is to fill after gathering. Use the machine hemmer foot shown here at the lower left for hemming the ruffles and the machine ruffler for gathering them.

NOTE: Mrs. Spears' latest book—Gifts and Embroidery number—is now ready. Ninety embroidery stitches are illustrated; also table settings; crochet; embroidery designing; fabric repairing; novelty gifts and dress accessories. Forty-eight pages of step-by-step directions. Available to readers who will send name and address and enclose 25 cents (coin preferred). Just address Mrs. Spears, 210 So. Desplains St., Chicago.

MEN LOVE GIRLS WITH PEP

If you are peppy and full of fun, men will invite you to dances and parties. BUT, if you are cross, lifeless and tired, men won't be interested. Men don't like "quiet" girls.

Issued First Timetables
In 1839 in England, George Bradshaw, an engraver and printer, published the country's first timetables, in the face of much opposition from the indignant railroad companies. Informing the public when trains were supposed to arrive and depart, says Collier's Weekly, they feared, would "make punctuality a sort of obligation."

Water Buffalo Dangerous
People who visit Bali are invariably warned not to approach water buffalo regardless of the circumstances. These animals are domesticated, and are so docile when among natives that even the smallest child may ride them to water or lead them around by the nose. But there is something about an American or European (the natives say it is his odor) that is extremely irritating to the buffalo, and he will frequently charge a white stranger on sight. As the buffalo is physically capable of destroying a tiger, a human has little chance with it when aroused.

Cause of Face on Moon
To the unaided eye dark areas appear on the surface of the moon which suggest various shapes to the fancy. This is due to the fact that the moon's surface consists of so-called mountains and craters, as well as plains. When the mountains of the moon are illuminated by a strong cross-light, as along the terminator at sunrise and sunset, they are thrown into sharp relief, and are clearly visible.

Toothsome Education . . .
A Child Health Day Feature On How New York Schools Are Teaching Dental Hygiene

This unenthusiastic young lady typifies thousands of New York school children who visit Guggenheim dental clinic regularly for lessons in oral hygiene and practical instructions in correct care of the teeth. Objecting at first, they soon find careful attention to the teeth obviates painful dental sessions in the future.

Each youngster's toothbrush is kept in a sterilized rack container at Guggenheim clinic, to be used regularly for "drill" purposes. These students are going through their "daily dental dozen" with vim and vigor.

Off stride, they're being shown the correct brushing movement under supervision of a graduate dentist and nurse. Rubber aprons protect clothing.

Open wide! Youngsters with teeth in bad need of cleaning first undergo a thorough dental scouring, then move to the brushing room where they are taught to keep them spotless.

On the first visit to the clinic, the child's teeth receive a thorough examination. Cavities are filled and, as a last resort, bad teeth extracted. The little patient may decide whether the anesthetic be local or general. This child is taking gas.

School Notes
Athletic Association
The T. C. H. S. Athletic Association is sponsoring a benefit show at the Rivola Theatre, Wednesday and Thursday, April 6 and 7. The title of the picture is "Live, Love, and Learn," with Robert Montgomery and Rosalind Russell in starring roles, supported by an excellent cast of Robert Benchley, Helen Vinson, Mickey Rooney, Monty Woolley and others. When buying a ticket for this show you are not only helping the High School but you are treating yourself to an opportunity to see a real clever picture. Regular admission prices.
The boys have started to practice baseball but as yet no formal practice has been called.
Music
The music department is planning a concert to be given the latter part of April. Numbers by the Girl's Glee Club, Trio Orchestra and Band, will be presented, as well as solos and ensembles by various members of these organizations. Proceeds will go toward paying for several new band uniforms which are being purchased.
The band is rehearsing diligently, in preparation for a full spring program. The first of these events is the concert in April. They are practicing marching whenever the weather permits, in readiness for the Perch Festival activities in May. They are also taking part in the third annual Michigan Band Association, to be held at Oscoda in Saturday, May 21. This organization is rapidly increasing in numbers, with eight bands participating this year, as compared with four, last year.
High School
On Friday, April 8, the Sub-district Forensic Contest will be held at Harrisville. Representatives from the schools of Alpena, East Tawas, Harrisville, Lincoln, Oscoda, and Tawas City will compete for the honor of representing this sub-district in the final contest which will be held early in May. Tawas City will enter three contestants: Dorothy Blust, declaimer; Norma Musolf, orator; and Lucille DePotty, extempore speaker.
By a vote taken in European History Class, it was decided to have a student act as leader for the discussion of each day's assignment. A much improved interest in class work has resulted. Discussions are both enlightening and stimulating. Such a procedure gives our young citizens training in leadership, arouses their interest in current problems and correlates them with events of the past, and gives them experience in evaluating the facts and stories they read about. We are proud of our history class.
The high school bookkeepers are still working for Mr. R. W. Collins, their imaginary employer. They are most instructive and enjoyable. Work on the April transactions show a decided improvement over those of the previous month. Clarence Fow and La Verne Koepke have completed the work on their books. Frieda Witzke and Kathleen Davis have the most accurate and neat sets.
Wednesday we were invited upstairs to see a safety film and also one about the effects of alcohol. It certainly would be nice if we had a sound machine that belonged to the school to show educational pictures.
By this time many of you will have been contacted to buy tickets for the benefit show on April 6 and 7, our share to go to the Athletic Association. We are planning to have a baseball team ourselves this spring and so we are trying our best at ticket selling.
George Westcott has been out of school for three weeks. During the

winter he fell off his bicycle and injured a nerve in his right leg. This nerve runs through his stomach and heart. During the last three weeks he has had at least one heart attack each day and one day he had thirteen. We are all wishing you a speedy recovery George.
In our room we have only two on the honor roll for the past month, both in the seventh grade. Everyone in the eighth grade earned As in spelling except two. Out of thirteen in the eighth and sixteen in the seventh, seven in the eighth and twelve in the seventh were neither absent nor tardy during the past month.

Third and Fourth Grades
Dwayne Leslie has returned to school after a three weeks' visit in California.
The fourth grade pupils are making booklets about the United States for geography.

Dwayne Leslie won the spell down Wednesday afternoon.
A number of the third and fourth graders attended the play, "Glow Lights of San Ray," at East Tawas last Thursday afternoon.
