Tawas City defeated Turner last Sunday and became the champions of the American division of the Northeastern Michigan League. The game was played at Prescott and 1200 rabid fans were held breathless during the 11 inning contest of thrills and action. The final score was 5 to 4.

This is the third time in the last six years that Tawas City has won a championship and "Hank" Neuman has piloted Tawas City to two of the pennants.

"Bill" Mallon, Tawas City's undefeated righthander, did the hurling for the locals, going the entire distance, while Dombrosky, also a righthander, was given the starting assignment for Turner. He worked the first seven innings when he was taken out for a pinch batter. "Lefty" Gardner finishing the game and also being charged with the defeat.

Tawas City played a "heads-up" game and took advantage of the Turner errors to gain the decision. The only extra base hits made were a pair of doubles by Whitehouse, Turner's first-baseman, and one by Roach, the champs center-fielder.

The game was a pitchers battle throughout, although both teams collected twelve hits off their opposing hurlers, they were at their best in the pinches each team leaving 12 men stranded on the bases. Mallon fanned eight men, while Dombrosky struck out eleven and Gardner four.

Tawas City got a man as far as third in the opening frame but failed to score. After, both, Smith and Roach fanned, Quick walked, stole second and went to third when Dixon's throw went into centerfield. W. Mallon also fanned to end the inning.

"Marv" Maion tallied the first run of the game in the second when Whitehouse dropped Webster's throw. W. Laidlaw pushed a bunt single into short right Mallon taking third, but Laidlaw was out trying to take second. Mallon scored on Moeller's long fly to center. Davis walked and G. Laidlaw was hit by a pitched ball and both men were left stranded as Smith fanned.

The champions added another run in the third aided by another costly error on the part of Turner's infield. Roach opened the frame by working Dombrosky for a free ticket to first, and was sacrificed to second by Quick. W. Mallon bounced a grounder towards first and Dombrosky elected to throw to third, but the throw was wild. Roach came all the way home and Bill stopped at second. Gingerich tossed out both, M. Mallon and W. Laidlaw to end the inning.

"Bill" had the Turner boys baffled with his fast curves during the first three frames, but three hits and an error produced three runs and Turner went into the lead in the fourth. Newton was safe when M. Mallon threw wide to first. Whitehouse sent him home with a long double to deep center. Rahl singled to center. Gingerich bunted to W. Mallon whose throw to third was wild, permitting Whitehouse to score the tying run. Dixon then singled to score Rahl and Gingerich was out trying to take third. Webster lined to Quick and (Turn to No. 2, back page)

Three Isco Men Take Canadian Fishing Trips

Three Isco County men are up in the Canadian wilderness out from Sault Ste. Marie, Ontario, this week on trout fishing trips.

Dr. John D. LeClair, of Tawas City, Dr. E. A. Hasty, of Whittemore, and Gene Bolen, of Gaylord, left Wednesday noon for the week's fishing trip in the Canadian wilds. These men planned to do their trout fishing on wilderness lakes and streams north of Thessalon, Ontario, which is some distance east of the Canadian Sault.

O. W. Rowley, of East Tawas, will return Saturday evening from a ten-day fishing trip north of the Canadian Sault. Mr. Rowley left for the north last week in company with Harry Pryale, of Pontiac, and three other Detroit and Pontiac men. The party motored to the Canadian Sault and then traveled by seaplane to a wilderness lake some distance north of Sault Ste. Marie.

Young Republicans Hold Final Rally at Reno

The Young Republicans of Isco County held their last political rally, before the Primary Election next Tuesday, at the Reno Town Hall Thursday evening.

Following a supper served by ladies of the Baptist Church, a program of speeches and entertainment was held. Various candidates for county offices addressed the meeting.

Tourists Flock Here Labor Day Week End

Labor Day week-end brought many former residents of the county back home to visit friends; crowds of tourists to the county's parks and camping grounds; trout fishermen were on the streams for their last chance at their favorite sport for this season; and owners of summer homes and cottages in the area came up to enjoy a week-end of recreation.

Good weather prevailed for the holiday seekers and their enjoyment was not marred by serious motor accidents in this immediate vicinity.

Tourists with trailers and tents enjoyed the recreational facilities afforded by the East Tawas State Park, the Tawas City Park, Oscoda Park, the Old Orchard camping grounds, the High Rollways and other points along the AuSable river. Resorts at Sand Lake, Long Lake and Londo Lake also drew their share of the week-end crowds.

Trout fishermen reported good catches from various streams in the county, winding up another season until next spring. While it was a little cool for swimming, many of the tourists braved the chilly waters of the Bay for a last dip of the summer season.

Changes Are Made in Staff At Huron Forest Offices

Several staff changes are taking place this month at the headquarters of the Huron National Forest in East Tawas.

Arthur E. Schneider, assistance supervisor of the Forest, will leave September 16 for Washington, D. C., to attend American University this year.

Donald Gray, station man in charge of fish and game activities in the forestry, will leave about the middle of this month for Florida where he will be connected with the U. S. Biological Survey.

Paul T. Kay was recently transferred here from Harrisburg, Illinois, to the Supervisor's office of the Huron National Forest to work in the lands acquisition department.

Two Men Injured in Crash In Tawas City Tuesday

Two cars, driven by John Searles, of Wilber, and Louis Frank, of Tawas City, crashed into each other near the Van Horn home at the corner of First street and Fifth avenue in Tawas City Tuesday afternoon.

Mr. Searles received severe chest bruises an dtwo badly cut fingers in the crash. Sheriff John Moran reported. Mr. Frank received a deep cut on his right arm.

After the crash, Mr. Searles' car went into the ditch and Frank's car struck a bridge abutment. Both cars were badly damaged.

Announcement To the voters of Isco County:

I earnestly solicit your vote for County Drain Commissioner on the Republican ticket at the Primary Election September 13.

Edward Doak

Funeral services for Edward Doak, who died Sunday at the home of his daughter in East Tawas, were held Wednesday at 2:30 p. m. at the Methodist Church with Rev. J. W. LeVan, of Standish, officiating. Burial was in the Greenwood cemetery.

Mr. Doak was 60 years old. He was born near Ovid, Michigan, on July 31, 1878. Following his graduation from Ferris Institute, Mr. Doak taught commercial work in various high schools and business colleges in the state.

In 1933, when J. K. Osgerby was superintendent of the East Tawas high school he engaged Mr. Doak to come to East Tawas and establish a commercial department in the school. Prior to that time, Mr. Doak had established his own business college at Escanaba in the Upper Peninsula. Mr. Doak organized the commercial department at the East Tawas high school and also taught manual training. Later, he left East Tawas to teach a year at the Bay City Junior College. Following this, he returned to take up his teaching duties again at East Tawas. He taught 10 years in all in the East Tawas high school. Mr. Osgerby related.

Mr. Doak's wife died six years ago. Seven children survive Mr. Doak. They are: Mrs. William Stonehouse, Mrs. Rna Fairfield, Miss Marjorie June Doak, and Edward Doak, all of East Tawas; Miss Lois Doak, of Davison; Gene Doak, of Lansing; and Cleo Doak, of New Orleans, Louisiana.

Two brothers and a sister also survive Mr. Doak. They are: Mrs. Sam Brodbeck, of Dewitt; Ray Doak, of Lansing; and Charles Doak, of Detroit.

Traffic on US23 was down to normal by 6 p. m. Labor Day as drivers headed for home early, the State Police reported. Last Labor Day, Police records show that traffic continued to be heavy up until 10:30 p. m.

CRASH KILLS MAN AND WIFE FROM ALPENA

Joseph Caverley was born in Canada November 13, 1858, and passed away at his farm home near Whittemore August 24 at the age of 79 years.

He was married to Annie Hurford of Ubyly, Michigan, on November 13, 1884 and, to this union, three sons were born, Allen, Fred, and Alex. Two sons preceded him in death several years ago.

Mr. and Mrs. Caverley celebrated their golden wedding anniversary on November 13, 1934. Mr. Caverley came to Whittemore a number of years ago and settled on the farm where he passed away. A good citizen, a kind and thoughtful father and neighbor, Mr. Caverley will be missed in his community.

Funeral services were held from the home with Rev. Chas. McKenzie officiating. Burial was beside his son Fred, in the Logan cemetery.

Surviving Mr. Caverley are: his wife; his son Allen of Saginaw; six grandchildren and one brother, Redford Caverley, of Kingston.

Greve Reunion

A reunion of the Greve family was held at Shady Shores Park on Labor Day.

A bountiful dinner was served at 1:00 p. m. and a program, followed by games, provided the entertainment.

Ninety members of the family attended the reunion, coming from Hale, South Branch, Flint, Bay City, Detroit, Coleman, St. Charles and Indiana.

The next reunion will be held with A. E. Greve, of Hale.

Troopers Get Marihuana In AuGres Township

A quantity of marihuana weed was found growing in AuGres township just over the county line this week by Troopers Conrad C. Konetschny and Howard Smith of the State Police.

The troopers pulled up all the marihuana plants that could be found in the area and brought in to destroy them. A Mexican laborer, working in the area, told the police that the quantity of the weed which they found would be worth about \$500 in illicit drug traffic.

No marihuana has been found in Isco County so far.

State Police said they believed that the weed had been planted in various sections of Arenac county.

FARM TOPICS

MILK IS FAVORED AS POULTRY FEED

Stimulates Birds' Appetites During Hot Weather.

By Dr. W. C. Thompson, Poultry Husbandman, Rutgers University, WNU Service.

Because hot weather tends to lower feed consumption of poultry flocks, resulting in lower egg production, anything which stimulates the appetites of birds is of value in summer. For this purpose there is probably nothing better than milk.

Milk can be fed in the liquid form as either buttermilk or skim milk for drinking purposes when available in sufficient amounts. One hundred birds will consume between 35 and 40 pounds of liquid milk daily if they do not have water available, and a large quantity is needed when milk is used in this form. Ordinarily, it is not feasible to give birds milk only and, when a limited supply is available, it can be given the birds for a portion of the day, with water provided after the milk has been consumed.

The semi-solid or paste form of milk is very satisfactory for summer feeding, as it is palatable and the birds will consume it in rather large quantities, even under adverse weather conditions. When first used, it should not be fed to the extent of more than about 2 pounds for each 100 birds daily, but this can be increased gradually until 4 or 5 pounds can be fed without any detrimental results.

Milk in paste form is probably one of the best summer feeds for poultry. It is even somewhat superior to dried milk, unless the latter is used in a moist mash. Increasing the dry milk content of a dry mash does not usually produce any beneficial effects, because the birds do not increase their dry mash consumption during the summer, with the result that the increased milk content is of very little benefit. As a matter of fact, dry mash consumption is noticeably decreased during spells of hot weather.

The use of an increased quantity of milk in the proper form should be continued until late September, or until such time as more satisfactory weather conditions prevail.

Flies Not All to Blame For Drop in Milk Flow

Don't blame the flies for the drop in summer milk production, says H. R. Searles, extension dairyman, University Farm, St. Paul. Your feeding practices may need overhauling.

Summer is the low-cost period for the dairyman, and if cows go down in production when pastures begin to get short, he is losing an opportunity for profit.

The ripe mature grasses have about the feeding value of wild hay, and the dairyman can supplement these through a variety of ways. Second crop hay can be pastured, with some care to prevent loss from bloat when pasturing legumes.

Then, points out Searles, there is always regular barn feeding, which is practiced by the good dairyman every summer. Alfalfa or clover hay, if available, is cheaper than grain. Searles explains that the best dairymen of the state feed hay right through the summer, even when grass is plentiful. Feed what the cows will eat twice a day, he says. For the fresh, high-producing cows, a few pounds of grain will be needed, however.

Where hay is not available, about a half winter ration of grain will give excellent results. If there is a fair supply of grass, the ration can be any one of the farm grains available—corn, oats or barley. But where there is very little grass, the ration should be supplemented with its regular high protein feed, such as linseed oil meal, corn gluten meal, soybean meal, or cotton seed meal, up to 10 or 20 per cent of the grain mixture.

WHAT to EAT and WHY

C. Houston Goudiss Enumerates the Nutritious Values of the BANANA

Explains How Our Most Satisfying Food Fruit Helps to Maintain Health at All Ages.

By C. HOUSTON GOUDISS
6 East 39th Street, New York City.

BEFORE the discovery of the vitamins and before we knew as much regarding the body's mineral requirements, interest in food was centered around proteins, carbohydrates and fats. Fruits which in general supply little protein and fat, and widely varying amounts of carbohydrates, received scant consideration as a source of essential nutrients.

But with our steadily increasing knowledge of vitamins and of the importance to the body of a long list of essential mineral elements, fruits have assumed a commanding place in nutrition. And those who follow the primary rule of a well balanced diet and serve fruit twice daily have been rewarded with increased health and vigor.

In addition to their minerals and vitamins, fruits are valued because of their bulk or cellulose which helps to insure regular health habits.

The Most Economical Fruit

Many homemakers consider that fruits as a class are among the more expensive items included in the food budget.

But that statement is far too general and indicates a lack of information concerning the comparative nutritive values of the different kinds of fruit. For example, it has been said of the delicious and economical banana, that it gives more nutritive as well as money value than almost any other food.

Fruits, in general, are frequently divided into two classes; they are known as flavor fruits when they contain 80 per cent or more of water and as food fruits when the water content is less than 80 per cent. Bananas are a food fruit of the first order!

Ripe bananas are rich in carbohydrates and furnish the body with splendid energy values, with a minimum tax on the digestive system.

Double Fuel Value

When fully ripened, this fruit provides quick energy because a certain amount of its sugars are almost immediately absorbed by the body. On the other hand, several hours must elapse before the remaining sugars are completely assimilated. Thus, eating bananas provides a continuous supply of energy for a considerable period. They not only help to promote rapid recovery from fatigue but also furnish a continuing supply of energy which keeps one from becoming hungry again too soon after a meal.

The edible portion of one average-sized banana weighs about 3½ ounces and provides 100 calories. It takes almost the same weight of white potato to yield the same number of calories.

Bananas a Protective Food

Bananas take an important position among the protective foods, because they are a good source of four vitamins, A, B, C and G, and contain a total of 11 minerals. They leave an alkaline-ash following digestion.

Fully ripened bananas are easily digested and are mildly laxative.

Valuable in Child's Diet

Bananas deserve a prominent place in the child's diet from infancy to maturity. Some baby specialists prescribe mashed and strained ripe bananas as one of

the first solid foods to be introduced in the infant's diet. The ripe banana is considered to be especially valuable at the time when sugar is withdrawn from the formula and the baby is given whole milk for the first time. The calories in the bananas take the place of the calories previously received from the sugar, and thus weight gains are steadily maintained.

Help Children Gain Weight

Because of their high caloric value, plus their content of minerals and vitamins, bananas may well be used regularly throughout childhood.

Bananas and milk make an excellent food combination because the milk supplements the fruit with protein, fat, minerals and vitamins. This combination is often used as a supplementary lunch for underweight children, and carefully conducted studies have indicated its usefulness in helping youngsters to gain weight.

Almost all children like the taste of bananas and they do not seem to tire of this bland and pleasing fruit. And though the banana is regarded as a solid food, it can, if desired, be mashed and whipped into liquid form and combined with milk to make a healthful and nourishing beverage.

Ideal for the Elderly

If elderly individuals are to maintain top health, fruits should be given a prominent place in their diet. But many fruits are avoided by individuals past middle age, either because their acid taste is displeasing or because they present difficulties in mastication. Ripe bananas, however, practically melt in the mouth. Being easily digested, they are a fortunate choice for elderly persons, providing necessary energy

Most Versatile Fruit

Bananas are always in season and are usually most inexpensive. It is desirable, of course, that only fully ripened bananas be eaten raw. That is because their constituents vary with the degree of ripeness.

Bananas are picked when they are green and hard, and the carbohydrate content is almost entirely starch. As they ripen, the starch is converted into easily digested sugars.

In fully ripened bananas—those in which brown flecks appear on the yellow skins—the starch has almost entirely disappeared and the flavor has been developed to its highest point. The all-yellow banana is also ripe enough for eating and it is likewise firm enough for cooking. Partially ripe bananas—those which are yellow with a green tip—may be cooked and served as a vegetable or as dessert.

Considering their availability, ease of digestion, high food value and economy, bananas deserve to be classed as one of the staple foods in every well planned dietary.

Questions Answered

Mrs. G. R. McK.—When peas and beans cause discomfort, owing to their tendency to form gas, they can frequently be eaten without distress in pureed form.

Miss M. L. A.—Both sweet and white potatoes contain vitamins A, B and C; but sweet potatoes are a much better source of vitamin A than white potatoes.

HOW to SEW

By RUTH WYETH SPEARS

A LETTER comes telling the story of mats a clever girl designed for her dressing table. The problem was to make them fit spaces of unusual size. Her room color scheme was blue and white and a design of white embroidered snow crystals on cool blue linen was what she wanted.

Here is the way she achieved a charming result.

The linen was cut the desired size and narrow hems creased with a warm iron. The hems were then backstitched in white from the right side with three strands of six-strand mercerized embroidery cotton. She wanted the arrangement of the snow crystals to be helter-skelter—just as they would fall; so she took a handful of coins and tossed them onto the linen. She drew around each coin where it fell.

Still using three strands of the white cotton she took four stitches across the marked circle and then brought the needle out in the center, as shown here in step 2, ready to take a tiny stitch to bind the

Re-elect John F. Moran Sheriff of Iosco County

As Sheriff, I receive a salary of \$1,800 a year. I do not receive any mileage for any work done inside the county. I receive 5c a mile for any work done outside the county.

As Sheriff, I am on duty seven days a week and 24 hours a day. In addition to that, members of my family aid with duties at the county jail when I am called away.

By cooperation with the state police the past six months, I am satisfied I have saved the county approximately \$800 in deputies' fees. For example when I have to take prisoners to Jackson or make a trip to

get prisoners, if the State Police were not on the job here in the county during my absence, it would be necessary to leave a deputy on the job, and his fees would average \$6 a day.

I have been criticized by some persons for working with the State Police. The Board of Supervisors some time ago passed a resolution advising me as Sheriff, to cooperate with the State Police to the fullest extent. Also, tax-payers of Iosco County are helping to pay the salaries of the State Police and are entitled to their services, especially when they can save the county some money.

Safe Hits, No Score

A baseball club can make six hits in a single inning without scoring a run. Here's how: The first batter up singles and is caught stretching it into a double. So does the second batter. The third, fourth and fifth batters each hit short singles, making five hits for the inning and filling the bases with two out. The next batsman hits one of the runners with a batted ball. He gets credit for a hit, but the runner is automatically retired. Thus you have six hits in one inning without a score.

Watch Your Kidneys!
Help Them Cleanse the Blood of Harmful Body Waste
Your kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act as Nature intended—fail to remove impurities that, if retained, may poison the system and upset the whole body machinery.
Symptoms may be nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—a feeling of nervous anxiety and loss of pep and strength. Other signs of kidney or bladder disorder may be burning, scanty or too frequent urination.
There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. Doan's have been winning new friends for more than forty years. They have a nationwide reputation. Are recommended by grateful people the country over. Ask your neighbor!

No Breath of Life
Twirp—Just think, fella, every time I breathe somebody dies!
Twill—Ya got something there, guy. Why doncha try cloves?

It was during the evening rush hour. The Coney Island train that pulled out of the Times Square station of the B. M. T. was so crowded there was hardly breathing space. Among the swaying standers was a woman well past middle age whose face held many fatigue lines. Most of the passengers didn't see her—they had become too thoroughly immersed in newspapers to take any notice. However, one man did see her. Sixty years old at least, about him were unmistakable evidences of hard labor, from calloused hands to plaster dust on his heavy shoes. On his lap was a battered tin lunch box. He was tired. That was apparent. But as soon as he noticed the older woman, he arose, raised his hat and offered her his seat. She didn't get it. Before she could sit down, a pert young girl, red fingernails, permanent, lips like a tomato and unchanging blush, slipped into it with a smirk of satisfaction. And so she sat, complacently polishing her nails, until almost the end of the line, while the man and woman clung to straps side by side.

The incident didn't cause any indignation. Even the woman cheated out of a seat and the man who had surrendered his apparently didn't resent the impertinence of the young miss. The reason was simple. The occurrence was entirely too common to attract any attention. The general attitude in New York's subways is, "I paid my nickel and I'm entitled to a seat if I can get it." It doesn't make any difference who stands. The only exception seems to be women carrying babies. Usually some one will give up a seat to a mother burdened with an infant. But observation has shown that most often the one who gets up is not a man but another woman. That also holds true in cases of women weakened by age or sudden illness. For some reason or other, New York men seem permanently attached to subway seats.

When I first came here from the Middle West, the sight of women standing while men sat comfortably got under my collar. So I was always bouncing up. Then I learned that such consideration was not always appreciated. In fact, often it was looked upon with suspicion. An attempt to flirt. So now I've adopted a rule. A young and pretty miss can stand. But if the stander is old, ill or extremely tired, then I stand. Sometimes I'm thanked. More often I'm not. But thanks or not, I don't have any arguments with myself.

Speaking of subway seats, there was that neat scheme worked out by husband and wife whereby they each sat. If a seat were available, he'd rush in ahead, push his wife out of the way and grab it. Generally some indignant male passenger would bounce up that the wife might sit down. The husband missed glares by burying his snoot in a newspaper. One day a big man, evidently from out of town, got up. But he didn't stop with giving the wife his seat. He yanked the husband up and, giving him the bum's rush, tossed him out onto the platform just as the car doors closed.

Despite the fact that I'm no lightweight and am fully crowd trained, there is one place I avoid during the rush hour whenever possible. That's the Times Square shuttle. Both at Grand Central and Times Square there are mob scenes that result in trampling, torn clothing, fist fights, and sometimes injuries. The trains are spaced just about a minute apart but apparently those 60 seconds mean more than mayhem, fights or sense of decency. That holds true to such an extent that, to me, a football scrimmage seems like child's play in comparison.

Town Boasts Politest Children; Here's Reason
MASHPEE, MASS.—Some of the politest children in the United States live in this town.
A bequest in the will of the late Samuel G. Davis may have something to do with it. The will stipulates that 25 Mashpee grammar school pupils every year receive \$10 and \$5 awards and gold medals in recognition of the most consistent showing of "kindness and good manners" during the school year.

Wary Gumshoe Foils 'Em With Safety Pin
PEORIA, ILL.—City Detective William Kull, an expert in spotting pickpockets, believes in taking no chances. He wears a big safety pin on his wallet pocket as a guard against raids of the "soft fingered gentry."
During recent years Kunst has acquired national and international attention as a detector of pickpockets.
Many city police forces have borrowed him on occasions of local expositions or celebrations to watch for pickpockets. He was once assigned to a Canadian city where an exposition was in progress.

a fast throw doubled Dixon off second to end the rally.

The champions took the lead again in the "lucky seventh" which produced a brace of runs. Turner contributed another costly error to aid in the scoring of this pair of runs. After Roach fled to deep left Quick beato to a bunt to third and stoie second. W. Mallon grounded to Gingerich, who bluffed Quick back to second, and then threw too late to get Bill at first. Quick started out for third as soon as Gingerich cut loose his throw and when Whitehouse's return throw across the diamond got through Webster, Quick scored and W. Mallon went to second. M. Mallon beat out a hit to deep short brother Bill going to third. Captain Laidlaw squeezed home his battery mate with a perfect bunt along the first base line.

Turner filled the bases in the eighth but only succeeded inscoring one run to tie the score. Newton fled to Moeller, Smith made a nice running catch of Whitehouse's foul fly. Then things began to happen. Rahl singled. Gingerich bounced a single off W. Mallon's glove and Dixon singled deep short to fill the bases. Webster then gave the Turner fans plenty to cheer about when he lined what looked like a sure hit along the left field foul line, but it was a foul ball. All three runners had crossed the plate and he was perched on third. But everything was in vain. After returning to the plate, he grounded to short M. Mallon fumbled the ball and Rahl crossed the plate with the tying run. "Lefty" Gardner batted in the place of Dombrosky and tapped back to the mound to end the inning and leave three of his mates stranded.

Both teams went down in order in the ninth. Turner threatened to end the game in their half of the tenth. Rahl singled after one was out, he was forced by Gingerich. Dixon got his third consecutive single. Gingerich stopped at second. Smith then robbed Webster of a hit by spearing his hard hit grounder back of third base and beating Gingerich to third base for the third out. It was a sensational play and kept Tawas in the game.

After that threat Roach lead off the eleventh frame for Tawas City and again hit to deep left. This time Newton couldn't quite make the catch and it fell for a double. Quick promptly sacrificed and W. Mallon then drove in what proved to be the winning run with a fly to deep right field.

However, the ball game wasn't over for Turner refused to accept defeat without a struggle. Things happened again after two were out. Gardner fanned, and M. Mallon tossed out Reid. Healy bounced an easy grounder to Smith who fielded the ball and made a perfect throw to first. Davis forgot to keep his foot on the bag. Healy stole second. Newton singled to short left and took second when Quick's throw to the plate held Healy on third. With the tying and winning runs in scoring position and Whitehouse, Turner's clean-up man coming up to the plate, things looked anything but rosy for a Tawas victory. But using the last ounce of energy he had left Bill fanned Whitehouse on four pitches to climax one of the most thrilling championship games played in the North-eastern Michigan league.

"Kenny" Smith, playing his first game at third base for Tawas City, and only a recent graduate of Tawas City High School where he was the regular catcher on the team, was a tower of strength on the left side of the infield for the champions. Geo. Laidlaw played his usual steady game at the keystone sack. "Merry" although he had a tough day in the field, was the leading slugger of the team with three singles. Davis played his usual good game at first, having ten putouts and getting two singles out of four trips to the plate. Captain Laidlaw again caught a splendid game and the outfield, composed of Quick, Roach and Moeller, performed creditably.

Next Sunday Tawas City meets West Branch there in the first of a three game series to decide the championship of the league. Let's have another strong rooting section representing the winners of the American division and take the winners of the National division into camp.

On Labor Day at the Tawasville diamond, a team made up of some regulars and second string players of Tawas City, played Tawasville and were defeated in a close game 5 to 4. Walt Laidlaw did the pitching for Tawas City with E. Libka catching. Freel and Roter pitched for Tawasville, eBnson catching. Some costly errors gave Tawasville four of their five runs, only six hits were made off the delivery of Laidlaw. Tawas City made nine hits but committed six errors. The game was featured with a home run by Gackstetter when neither Brugger nor G. Laidlaw could locate the ball among the weeds in left field. Roach, C. Libka and E. Zollweg each made two hits. The game was played in one hour and fifteen minutes.

 CANDIDATE FOR
 State Legislature

During the eight years that I was your Representative in the Legislature, I gave the best that was in me, night or day, I never hesitated to do those things which I thought would benefit my constituents. For what I accomplished during that time, I claim no special credit. I only did my duty as I saw it. Let me forget, however, I might mention the Township Road Bill which has saved the farmers and other tax payers of the State many millions of dollars. You have never paid any county or township road tax since this law took effect. I also might mention the ten year moratorium tax bill which permitted the payment of back taxes in ten annual payments, without fee or penalties. Securing the passage of this law caused me more than six months of the hardest work I ever did in my life, and it has saved the homes of thousands of our citizens.

Never in the history of this country have the farmers needed men of their own occupation in law making bodies as badly as they do now.

Why should we ever send anyone but a farmer to the legislature, from this district, when seventy-five per cent of the voters are farmers and their wives. A neighbor and fellow farmer, who knows and understands your problems, can best be trusted to stand by you and fight for your interests.

I like the work in Lansing and if my service there has been satisfactory to you in the past, I would greatly appreciate your vote next Tuesday.
