

Range Romance Lives Again in Musty Records

Romantic stories of the early days of Los Angeles county, when huge herds of cattle roamed the range, were recalled when County Supervisor Oscar Hauge uncovered hundreds of cattle brands dating back to 1833. The leather, upon which the brands were burned, was found in two old trunks, and was in first-class condition, despite the passing of more than a century. Most owners of the brands were old Spanish families.

England Tests Efficiency of War Time Firemen

Eight burning cottages attracted a large crowd of interested London spectators recently when fire-fighting units of the air raid protection organization demonstrated their efficiency. The A. R. P. is now seeking volunteers so that it can give similar realistic tests of its bomb proof shelters. England has taken great steps to safeguard its people in the event of air raids.

Japan Sends 'Friendship Flame' to U. S.

The "Flame of Friendship," presented to the New York World's fair as a symbol of the friendship between Japan and the United States, was lighted by Mayor Keikichi Tanomoti of Tokyo from burning fagots of eypress wood brought from the Izumo grand shrine, where, according to Shinto mythology, the flame has been burning for more than 1,500 years. The flame was carried to New York by Miss Akiko Tsukimoto.

Coeds Train for Hawaiian Crew Title

Annual territorial outrigger canoe races at Honolulu July Fourth stir this coed crew from the University of Hawaii into active training. Left to right are Nancy Hicks, Cornelia Hogg, Ruth Murphy, Jean Butchard, Adean Ross and Jean Cowan. The races are one of the year's outstanding sports events.

DIAMOND ARISTOCRAT

Charley (Red) Ruffing, star pitcher of the New York Yankees, is shown holding a trophy given him by his wife after recording his 200th big league victory recently. Only four other present day hurlers are in this select circle of 200 game winners.

TOURS UNITED STATES

General Evangeline Booth, head of the Salvation Army, at present touring the United States, will return to England in August for the meeting of the Salvation Army high council to select her successor.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL Lesson

By HAROLD L. LUNDQUIST, D. D.
Dean of The Moody Bible Institute of Chicago.
(Released by Western Newspaper Union.)

Lesson for June 11

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

PAUL SOLVES CHURCH PROBLEMS

LESSON TEXT—I Corinthians 1:1-3, 10, 11; 4:14-21; I Thessalonians 5:12-15.
GOLDEN TEXT—Only let your conversation be as it becometh the gospel of Christ.—Philippians 1:27.

Victory over the destructive powers of sickness is achieved by an orderly attack of the problem. The doctor first makes a study of the condition of his patient, observing not only the outward symptoms, but the general condition of the body. He proceeds to isolate and identify the evil forces which are causing the disease, and then he is ready to apply his curative remedies and procedures.

The Church is sick today even as it was in Paul's day. We are in need of the sound advice and the effective example of "Doctor Paul" and therefore do well to apply to ourselves and to our churches the lesson of today. As we do this honestly we may find in ourselves that which is making our own church weak and ineffective. Let us apply the cure even though the process of healing may be a painful one.

I. The Condition.

The excerpts from the letters of Paul which make up our lesson reveal three fundamental difficulties which exist in essentially the same form today.

1. False Teachers (Gal. 3). This passage is a part of our lesson although not included in the printed portion. It tells us of Paul's mastery dealing with false teachers. Erroneous teaching and the substitution of the philosophies of men for the Word of God are responsible for much of the trouble in the Church. It is decidedly not a matter of indifference what your pastor teaches, what your Sunday School lesson helps teach, and what your Sunday School teachers present to their classes.

2. Divisions (I Cor. 1:10). Sometimes these occur over doctrine, sometimes over church procedure, but all too often over the most insignificant things. Frequently they center around personal likes and dislikes. Cliques and little closed groups have no place in the Church. Man-worship in place of the worship of God will also wreck a church.

3. Contentions (I Cor. 1:11). For some unexplainable reason the people who love a fight seem to want to do their fighting in the Church.

II. The Cause.

The internal troubles of the Church cannot be blamed on its testimony or on its responsibility in the world, and certainly not on its Lord. The real cause of the Church's problems will be found in men and women who are not living as they should.

1. The Contentious (I Cor. 1:11). These are the fighters.
2. The Puffed Up (I Cor. 4:18). They have an exaggerated idea of their own importance.
3. The Disorderly (I Thess. 4:14). Unruly and erratic folk trouble the Church.
4. The Faint-Hearted (I Thess. 5: 14, R. V.). Timid and uncertain individuals limit and hinder God's work.
5. The Weak (I Thess. 5:14). They are feeble in spiritual insight and power.

III. The Cure.

Diagnosis and location of the cause of a disease is practically useless unless a course of treatment is carried out. Consider the steps in the treatment of the sickness of the Church and then apply the remedy.

1. Remember that it is a "church of God" (I Cor. 1:2).
2. Recall and follow the true teaching of God's Word (I Cor. 4: 17).
3. Receive grace and peace from the Father and the Son (I Cor. 1:3).
4. Recognize those appointed by the Lord to be over the church as leaders and teachers (I Thess. 5:12-16).
5. Be ashamed of ungodly misbehavior (I Cor. 4:14).
6. Deal plainly with sin and disorder (I Cor. 4:21). The knife of the surgeon may cause pain but it is often the way to healing.
7. Warn those who are unruly (I Thess. 5:14). The word of spiritual admonition is too often lacking in the church.
8. Comfort and encourage the fainthearted (I Thess. 5:14). Unregenerate man has no patience with such folk, but God does. A note of encouragement needs to be stressed in these trying days.
9. Be patient toward all men (I Thess. 5:15). If you feel that you must be impatient, be impatient with your own faults. Patience is a Christian virtue which has almost been lost in the dizzy, high-pressure age in which we live. Let us cultivate it both in the church and in the hearts of believers.

Great Fortune

To be reconciled unto God, to possess God's favor and friendship, to be at peace with God, is the greatest fortune, bliss and happiness a human being can find on earth.

HOW TO SEW

by Ruth Wyeth Spears

HOUSEHOLD QUESTIONS

Coffee Hint.—Should coffee not be freshly ground, place the required quantity in a pan and shake over a low heat for a moment before infusing. The flavor will equal that of newly bought coffee.

Use for Newspapers.—Put a thick layer of newspapers under your carpets. Moths will then give them a wide berth, and your carpets will have the tread of a soft pile. Moreover, the layer of paper will prevent dust working up from the floor into the floor covering.

Hair Hint.—Lemon juice added to the rinsing water will help to preserve the color of fair hair and also make it bright and glossy.

Mustard on Sandwiches.—When using mustard or any piquant sauce for sandwiches, mix it with the butter before spreading on the bread. This ensures even distribution.

Hot Weather Hint.—Take advantage of the cool night air to stay the heat the next day. Leave all windows open in your house at night except those closed for safety. Early in the morning close all doors and windows and keep this cool air in, and the hot air out.

About Cedar Chests.—Remember cedar chests will not kill moths or their eggs. But if the garment is put into the cedar chest free of eggs and larvae, it will never become damaged from moths.

Rug Colors
rose beige 1
green 2
rust 3
blue 4

BRIGHT ACCENT

Right Colors for Curtains and Slipcovers.

"DEAR MRS. SPEARS: I have your Book 1—SEWING for the Home Decorator, and the directions for slipcovers are so clear in the sketches that I have decided to cover my living room furniture which consists of a davenport, a club chair and a wing chair. I would like to have your suggestions for colors for these and for curtains."

With this letter there was a detailed description of the rug in the room. There have been a good many letters of this type lately, so I am showing you here how to analyze the colors in a figured rug and use them as a guide in planning a room.

It is not important that the rug color scheme be followed exactly, but do make a little chart of the rug colors as shown here at the left. If you do not wish to repeat the background color for your walls, use a pale tone of one of the other colors. A stronger tone of any color in the rug may become your accent color.

NOTICE: Book 1—SEWING for the Home Decorator, and No. 2, Gifts, Novelties and Embroideries, are now 15 cents each, or both books for 25 cents. Readers who have not secured their copies of these two books should send in their orders immediately, as no more copies will be available, when the present supply is exhausted. Your choice of the QUILT LEAFLET illustrating 36 authentic patchwork stitches; or the RAG RUG LEAFLET, will be

included with orders for both books for the present, but the offer may be withdrawn at any time. Leaflets are six cents each when ordered separately.

Everyone should have copies of these two books containing 96 How to Sew articles by Mrs. Spears, that have not appeared in the paper. Send your order at once to Mrs. Spears, 210 S. Desplaines St., Chicago, Ill.

ASK ME ANOTHER ?

A Quiz With Answers Offering Information on Various Subjects

The Questions

1. How many days in a fortnight?
2. Of what country are the following the emblem: the thistle, the shamrock, the maple leaf, the lily?
3. Which is heavier, a pint of cream or a pint of milk?
4. What is a counterpane?
5. Does an electric light bulb shine or glow?
6. Are a turtle and a tortoise the same?
7. What does the title "Mona Lisa" mean?
8. How many Shetland islands are there?
9. Are passports required when flying to foreign countries?

The Answers

1. Fourteen.
2. Scotland, Ireland, Canada, France.
3. A pint of milk. The cream floats to the top of the milk.
4. A coverlet for a bed.
5. Both. Glow means to shine with intense heat.
6. Strictly speaking, turtle means members of the order

which live in water, and tortoise, members which live on land.

7. Mona is an abbreviation for madonna (my lady). Lisa is a proper name.

8. There are more than a hundred, but only one-fourth of them are inhabited. All are very small.

9. Yes.

To Find Our Duty

This truth comes to us more and more the longer we live that on what field or in what uniform or with what arms we do our duty matters little, or even what our duty is, great or small, splendid or obscure. Only to find our duty certainly, and somewhere, somehow, to do it faithfully, makes us good, strong, happy and useful.

Uncle Phil Says:

And Criticism, Too

When you don't know much about music, let someone else start the applause.

Occasionally we meet a man who asks for only half a chance, but the majority prefer the chances whole.

Skepticism sometimes saves a man from being everybody's fool.

Play the Game
Don't ask, "Is life worth living?" You have been dealt the cards.

It takes a good deal of wit to perpetrate effective ridicule. A worm may turn, but a sheep never will.

Beyond Estimation
About the weakest of statistics are those that purport to state what crime costs the country per capita.

One born lazy is generally happily born without cupidity.

THE EQUIVALENT OF THIS MUCH EXTRA SMOKING PLEASURE IN EVERY PACK

If you want smoking pleasure at its best—and a sound buy, too—Camel's your smoke. There's more tobacco by weight in Camels, compared to the average of 15 other of the largest-selling brands tested. Besides, Camels burn slower than any other brand tested—25% slower than the average time of the others. Thus, Camels give you the equivalent of 5 EXTRA SMOKES PER PACK! Add the bonus of Camel's costlier tobaccos, and it's clear why Camels are America's favorite cigarette! Smoke Camels... for PLEASURE plus ECONOMY!

FARM TOPICS

SUGGESTS ELECTRIC FARM WATERWORKS

North Carolina System Costs About \$100.

By RUSSELL BROADDUS
A water system can be installed in the farm home for as little as \$100 with the advent of rural electrification throughout the United States.

New opportunities for installing labor and time-saving equipment are offered farm people at a price they can afford to pay, the North Carolina State college has found. The first essential in a water system is a good, clean, wholesome supply in a quantity sufficient for the farm and home needs. A well should be located at least 50 feet from any possible source of contamination.

To keep a water supply clean and free from harmful bacteria, the well should have rock masonry, brick or terra cotta walls from bottom to top. In many cases driven or bored wells with iron castings are quite satisfactory. All wells should have tight, properly-made concrete platforms to keep out surface water.

An electric water system will provide 1,000 gallons of water per hour for three cents when the electric rate is six cents a kilowatt hour. In many cases the small amount of electric current used to pump water will not increase the monthly bill above the minimum charge.

The college recommends that the farm family first install an outlet to the kitchen sink and another to the barn for watering live stock. He says this can be done for approximately \$100. The system can be enlarged as finances permit.

The average farm laborer earns from 20 to 30 cents an hour for his work. Why then should the farmer's family work carrying water at the rate of one-half cent per hour?

Opportunities Offered

In Homemade Equipment

Homemade equipment is only for persons who have ideas of their own. A farmer usually sees a neighbor's wagon, inspects it, and goes home to build one for himself, or lets his son do it.

Also, say engineers at the New York State College of Agriculture, rubber-tired tractors have convinced farmers of the practicability of rubber-mounted equipment.

In their opinion, a start toward bringing all the equipment up-to-date is the farm wagon which can be made easily and will cost about \$35, without box or rack. Auto running gear, preferably with 600-16 tires, lends itself to easy tire replacement when the wagon is heavily loaded.

The advantages of tires are lost, it is said, with more than 25 pounds pressure in them. Used tires are satisfactory if the wagon is used on the farm and not behind a truck or car on the highway. If used on the road as a trailer, New York state law requires that it be equipped with brakes, lights, and a license.

Ensilage carts that push easily over litter and other obstructions may be made at a cost of from \$20 to \$25 for material and labor, according to the engineers. A sturdy handy cart for carrying milk cans may be made from old auto wheels, he says.

Suggest Caustic Potash

To Remove Cow Horns

In the wild state, cows may have needed their horns for defense, but under modern conditions they are of no practical value except from the standpoint of beauty, say Washington State college dairymen, who recommend that horns be removed from calves at an early age.

Horns may be removed with caustic when the calf is about a week old. Caustic potash in sticks may be used for this purpose. Tie the animal securely then clip an area over and around the horn "button" about the size of a half dollar. Cover this area with vaseline to prevent the caustic from burning beyond the horn area.

Wrap one end of the caustic in paper to prevent burning the fingers of the operator. Place the stick of caustic over the center of the horn button and rub with a circular motion until the caustic has gone through the skin and into the center of the horn button. Some practice is necessary to achieve the best results.

Do not turn the calf out in the rain for a day or two and do not allow other calves to lick the treated horn buttons.

Turning Eggs

Some authorities assert that when eggs are hatched in an incubator they should be turned three or more times a day from the third to the eighteenth day. Be sure the hands are clean and free from oil or grease when the eggs are turned. If hatched under a hen, this handling is unnecessary as the hen will take care of the necessary moving. However, all hatching eggs should be candled on the seventh day and all infertile eggs removed.
