

BOMBS BURST ONCE

By GRANVILLE CHURCH

THE STORY SO FAR: Jeff Curtis and his wife, Lee, are already on their way to Tierra Libre when he receives a note from Zora Mitchell warning them not to come. When they arrive in Tierra Libre they find both Zora and her husband dead. It is Mitchell's job as chief engineer for a fruit company that Jeff has been called to fill. Later Jeff's friend Bill Henderson is killed, and Jeff suspects his employer, Senor Montaya, of murdering him and the Mitchells because they had found a clue to the strange things going on at the plantation. Other sinister figures are the company chemist, Dr. Tonjes, and the flyers, Ryden and Lannestock. A man named Collins arrives from the Canal Zone to see Mitchell. A talk with Jerry McNinn has revealed that Montaya is part German and is dealing with the Nazis. Jeff has gone to find Collins.

in running without lights at high speed over an uneven roadbed, even a snake uncoiled on the track might derail them.

Under way, Collins turned to Curt in the seat beside him. "I've followed blind so far. Where are we headed?"

Curt chuckled mirthlessly. "The one spot you want above all to visit." After a moment, "We better have it out, Collins. Suppose we begin with you. How did you get in on this? I reckon I know, but I'd rather you told me."

"I had a note from Bill Henderson. He enclosed a letter from Mr. Mitchell—"

"One thing. Did you know of Mitchell's murder before you left the Zone?"

"Yes. That's the reason I was sent. Mitchell hinted in his letter at a Nazi movement here which would endanger the Canal, and he wanted someone sent to confirm some serious discoveries he'd made and take action.

"But the letter was so involved and guarded and vague that we thought it crank stuff. We get more of that than you'd suppose. Nevertheless, we put out some feelers. No matter how wild the yarn that comes in, we can't ditch it in the waste basket."

"Naturally we have some pretty good sources of information here and

CHAPTER XVI

For several minutes neither man moved. Gradually Curt edged himself into deeper blackness, got closer, put the figure between himself and light, the light from the Comandancia not far distant. The outline looked like Collins.

He called the name softly. No answer. He tried again.

"Yes," came the low acknowledgment.

Curt approached. "Looking around, huh?"

No answer.

"Find anything?"

Silence. Then, "No."

"Well, my friend, it's time for you and me to have a talk. First, your credentials. Let's see them."

No move from the other at first, then an amiable "Sure," and Collins reached into a pocket.

"That's better. Lieutenant, Naval Intelligence, eh? Glad to have you. Shake."

It was the handclasp that turned the trick. Collins unbent. "I need a friend here," he confessed.

"You armed?"

"Yes. Had my service pistol cached."

"Good. It's nearly eleven. The village will be asleep by midnight, I expect. Go back to your room. Unhook your rear window screen to be sure you make no noise later."

"I did. Got out that way."

Curt grunted. "Well, go back to bed for a while. You've likely sized up the place and know who's here?"

"Sure."

"Then when they're all abed and have had time to get to sleep, wake up Monahan. He's in the last room."

"I know."

"Bring him out along the main track to the motorcar shed, middle—"

the mess-hall. Some groups were breaking up for the night, judging from the sounds. "—middle of the yards. Got that? Enough for now. Get back to your room, I'll see you later."

Curt returned to his bungalow, Collins disappeared into the night. Outside the mess-hall Emilio was having a few last words with his erstwhile partners before heading for the engineering bungalow. Curt had barely time to climb in, hook his window screen behind him, hang his clothes over a chair as they had been earlier, and stretch out under the mosquito bar. He'd have to leave the magazine against the door and hope that Emilio would give it no thought, or at worst suppose a freak burst of wind had knocked it to the floor.

He heard Emilio fumble at the lock, the slight scrape of the magazine as the door pushed it back over the floor. A shadow blocked out the light at his bedroom door. He simulated deep breathing and closed his lids until he could see only through his lashes.

Emilio looked and listened, then withdrew. Presently the porch light snapped off, the front door clicked shut, and Curt heard the man's steps headed for the bachelor quarters. They sounded sharp on the asphalt walk.

The luminous dial of his watch told Curt it was 11:30. Later than he'd thought. He lay relaxed for a few minutes, but dared not close his eyes, afraid he would fall asleep after his full day.

Soon he got up, dressed again, this time taking his hat, and let himself out the front way. He reconnoitered carefully.

Avoiding the street lamps, Curt made his way to the rendezvous and waited impatiently until at last two figures, little darker than the background itself, came toward him. He recognized Monahan's stride.

"Good man, Slats," he said when they were close enough. "This will do you out of your sleep, but it can't be helped. Get yourself a cudgel and keep alert. Collins and I will be gone three or four hours. We mustn't be longer, for the place'll be stirring to life soon after that. Hang out at my bungalow, Slats. Anyone starts snooping around, conk him. Tie him up, only don't let anyone find out I'm missing, and don't be recognized yourself. Got me?"

"Got yuh."

The motorcar shed was an open front building with three short tracks. His own car was headed out, fortunately the first car on its track. Curt remembered the speedometer and disconnected it. There must be no mileage record of this trip.

Curt didn't open the car wide. The engine was smooth enough, but iron wheels on iron rails in this still night air rang alarmingly loud to men who needed silence. Further,

This lower gate was locked.

there throughout these countries. First thing was to check up on Mitchell—the type of man, how responsible he was, and so on. Well, while we were doing that we got word of his murder. So that seemed to indicate a pretty thorough investigation was needed. I drew the detail.

"While over in Soledad getting the lay of the land, I heard of the other two deaths. That clinched it. The next step was to get in here on the ground, ferret out what was going on."

"Is that what you were doing, snooping around the docks at Tempujo tonight?" Curt chuckled. "What did you think you could learn there?"

"Listen, man," retorted Collins in a huff, "I couldn't just walk in here, look around, and ask questions. I had to get established first, so as to be accepted. You've planted me up river where there's obviously nothing to see. I've had one definite objective since our plane faked trouble the other day, but it's at San Alejo. Meanwhile, until I can get to it, there's no harm looking around where I can."

"Okay, okay," Curt apologized. "No offense. We'll give you a crack at that objective right now. Mitchell wasn't hitting the pipe. I've been smelling trouble myself for the two weeks I've been here, but only tonight did I click on it."

He told Collins the story Montaya had given him about the hangars first built, later abandoned to storage purposes because the flyers pointed out the bad location.

He told of the boxed airplane wings he'd seen the day of his arrival.

"I know," put in Collins enigmatically. "I had a talk with the men of that plane when they put down at Puerto Soledad."

Curt grunted and went on. He told of Mitchell's rising suspicions over a shipment from Japan—or through Japan, he added—of eight long, square-end boxes. Heavy boxes, like overstuffed coffins, Monahan had told him.

He told of having seen only yesterday another pair of big, heavy square boxes marked generators, from Germany via Vladivostok. So far as he knew, and he was pretty familiar with the project by now, they had no use for generators of that size, nor were any on order that he knew of, and he'd had access—presumably—to all engineering equipment orders then placed. They reached the airfield spur,

Here a wide stand of manzanitas made a black blob on the landscape. They dared not continue use of the motor, for sound rises and San Alejo was not more than a kilometer ahead and above them.

Pushing the car up the branch line, and backing out by the third leg of the "Y" onto the main line again, they had the car headed for Tempujo once more. They left it in the blackness of the low trees.

Curt fumbled in the tool box, stuck a chisel into a hip pocket, and the two men struck off down the airfield branch. Stars there were ample, and they gave some light, but there was no moon and the going was rough.

They followed the tracks to the spur that led to the bodega at the lower end of the field, then up this spur to the fence. This lower gate was locked, but Curt expected that. He led the way along the fence until they'd turned the corner at the end of the field, then on to the copse of trees that sheltered the big buildings. The blackness here was so thick it felt solid as they pushed into it.

"I doubt if we need to worry about a guard inside," Curt muttered. "The fence is ordinary protection and they couldn't keep a watchman at this end of the field without his showing a light at times. Lights down here would cause speculation if seen from San Alejo."

He seized hold of the fence and pulled and pushed experimentally.

"I don't know," he confessed, "but I suspect it's strung along the top for alarm. In any case, it'd be darn near impossible for us to get over that barbed stuff in the dark. We'll burrow under."

They used the flashlight, playing it close to the ground. Putting the chisel to work to loosen the earth, Curt scraped away with his hands until they had a hole through which they could crawl. He had a sudden thought.

"Hey, take off your clothes! I've got fresh ones at Tempujo for myself, but if I give you any others it might be noticed."

"Right."

Collins stripped to his shorts for the forage, and, minus a gun belt, had to carry his automatic in his hand. They circled the three buildings cautiously, the two hangars, the adjoining shed-roof between, duplicate of the hangars at the other end of the field.

"Haven't yet cut the grass here," commented Curt. "Huh. Probably don't intend to—it's a better indication that the buildings aren't in active use."

High in the walls was a continuous horizontal strip of windowing in ground glass. Not the faintest glimmer of light showed anywhere.

"Absolutely perfect camouflage from above," growled Curt. "Look how they built the center portion around trees. The trunks go up through the roof. I'll bet not a square foot of these buildings can be seen from the air. Only the tracks leading in here would tell anything, and they can't be avoided. But even the tracks, with the weeds not kept down, probably look like a cart path."

They were now in front. Down at the other end of the field only a few night lights showed.

"This loading platform along the front," went on Curt. "It's anchored only lightly to the buildings and the ground. My guess is it could be picked up by a couple of dozen men and swung out of the way in a few minutes. Pretty darn clever."

True, this loading platform, the height of a flat car, was not solid. It jiggled to a healthy push.

"Well, we can't force the doors, obviously."

"Can we dig under as we did with the fence, or do you suppose there's a floor?"

Curt pondered. "Bound to be a cement floor," he decided. "Anyway, we couldn't tamp down earth inside when we left. No, the wall is only corrugated sheet iron. Let's find a section to pry loose."

They searched along the back of the buildings, coming finally to a spot where Curt could use his chisel again with least likelihood of its being discovered. It took some minutes before they had one sheet of the sheathing sufficiently sprung to give them entrance. There was noise to this job, try as they would to muffle it, but they seemed to have the field to themselves. They crawled through the opening.

Only Curt had a flashlight. He played it about experimentally, then more boldly, taking care that neither the beam nor a reflection from it should hit the strip of windowing.

Then it fell on something and stopped dead! Directly above them spread wings of death.

"By God, Collins! What'd I tell you!"

His words sounded hollow, and echoes slapped back at them from the walls. The finger of light picked out the fuselage of a huge plane that towered above the two men, played along it back and forth. A long, slender, cigar-shaped body, its nose of glass, two-motored, its wings appearing stubby from this angle.

"A Heinkel!" exclaimed Collins, and again echoes reverberated.

A Heinkel it was. But on the under side of its wings and on the side of the fuselage was lettering and the circle-within-a-star-within-a-circle emblem to identify it as an American plane!

JESUS THE BREAD OF LIFE

LESSON TEXT—John 6:8-14, 30-35.
GOLDEN TEXT—Jesus said unto them, I am the bread of life.—John 6:35.

Spiritual truth becomes understandable to us as it is put in the language of our daily life. Jesus was the Master Teacher of all times, and made use of graphic figures to present the message of salvation.

He spoke of the wind, of water, and in this lesson of bread. Even a child knows about such things and understands the good news. Bread is still the staff of life. It speaks of life and health, of satisfaction and strength.

Beginning with the five small barley cakes (and two fishes) which a provident little boy had taken with him into the wilderness, Jesus preaches by miracle and by precept of eternal things. One is glad that a bright lad was more thoughtful than all the adults that day, for he provided the occasion for the miracle and the message.

I. Daily Bread (vv. 8-13).
The great multitude had followed Jesus to the other side of Galilee where He had gone to rest. They sought Him out and He had compassion on them—these sheep without a shepherd (Matt. 9:36). That interest was first spiritual, for "he began to teach them many things," but it was also practical in the realm of daily life, for He saw that they were physically hungry.

His appeal to Philip revealed the lack of faith which at times afflicted the disciples. They knew they had the Son of God in their midst, and yet they were bound by the matter of dollars and cents, of portions and —well, they just wished Jesus would send these people away. That would solve the problem. Oh, yes, "there is a lad here," but what he has amounts to nothing.

All this was perfectly natural. They talked just like most of us do when we are up against a similar problem. But the point is that they (and we too!) ought to realize that "little is much when God is in it." If we let Christ have all that we have and are, it will be adequate for every need.

Are you worrying about your lack of money; your inability to do things for Him? Are you limiting God when He would like to take what you have and multiply it by His blessing?

Notice that though there was plenty, there was none to waste. What was over was gathered up. God never encourages waste. Perhaps we in America may learn that lesson the hard way in these days—but having learned it let us not forget it.

II. Heavenly Bread (vv. 14, 30, 31).
The people (probably incited by the religious leaders) after their first surprise at the miracle, sought Him out in the temple and demanded a greater miracle. Jesus never put much dependence on those whose faith rested on miracles, and we do well to be careful of those who must have something spectacular going on all the time if they are to be interested.

They contrasted His miracle of one meal with the repeated miracle of the daily manna—the bread from heaven—under Moses. Jesus makes it clear that He is not in competition with Moses, for the manna came not from Moses but from God. Those who seek signs and wonders had better get their eyes off such things and get them on God who is the Giver of every good and perfect gift.

Their plea for heavenly bread gave Jesus the opportunity to tell them about the true bread from heaven.

III. The Bread of Life (vv. 32-35).
Feeding the body is important, but the real need of men is for spiritual food. Daily bread is a food that perisheth (see v. 27), but the "meat that endureth unto eternal life" is received by faith in Christ (v. 29).

Instead of a sign, or the passing blessing of daily sustenance, Jesus presents Himself as the bread of life which will eternally satisfy the deepest hunger and thirst of the human soul.

Those who teach that Christ is but our example, giving Himself as the spiritual bread to those who by development of character are seeking to be like Him, should read verses 47 to 51 of this same chapter. Here He makes clear that by the giving of His flesh in the death of the cross everlasting life comes to the believer.

It is only the man who eats of this bread, who by faith makes himself partaker of the death of our Lord, that can have eternal life.

This must be done in the right way—the way of faith. The people said, "Lord, evermore give us this bread" (v. 34). One wonders whether some of them did not say it scoffingly, and others perhaps still with the thought of daily bread for their bodies. Among them, however, were surely some earnest souls who that day saw the light of eternity through His wonderful words about the bread of life.

ON THE HOME FRONT

with RUTH WYETH SPEARS

IN THE good old days when dress-makers were paid according to the number of spools of thread they used, the empty spools were saved until enough had been accumulated to make a corner what-not or hanging shelves. Now, with machines whirring for defense sewing, it is again easy to save enough spools for one of these quaint sets of shelves.

You will need 60 spools; 12½ feet of wire just stiff enough to bend easily; and three boards of the size desired for the shelves. Either a stain or a paint finish may be used.

NOTE: These spool shelves are from Book 3 of the series of eight booklets which Mrs. Spears has prepared for our readers. There are directions for an end table of spools in Book 5 and a corner what-not in Book 7. Each of these booklets contains more than 30 other fascinating things to make for the home. Copies are 10 cents each postpaid, and should be ordered direct from

ASK ME ANOTHER?

A General Quiz
The Questions

1. Who are the hoi polloi?
2. What kind of an animal is a loggerhead?
3. What city in the United States uses the same name twice?
4. What is the total continental area of the United States?
5. When intact how tall was the Great Pyramid of Gizeh?
6. How great is air pressure at sea level?
7. What is the difference between a fog and a cloud?
8. Who was the first admiral of the United States navy?
9. What would you fill a barrel with in order to make it lighter?
10. What is the first name of the prince of Wales?

The Answers

1. The masses; the populace.
2. A large turtle found in the Atlantic ocean.
3. Walla Walla, Wash.
4. The area is 3,026,799 square miles, 52,630 of which are water surface.
5. The pyramid was 481 feet tall.
6. More than a ton to the square foot.
7. It is a difference of height from the earth. Fog is a cloud on earth. A cloud is a fog in the sky.
8. David Farragut.
9. Holes.
10. There is no prince of Wales. Only the oldest son of the reigning king has that title and he loses that title when he becomes king.

'Genuine Fake'

For a decade after 1920, Alceo Dossena, an Italian sculptor, so cleverly imitated the works of old masters that, unknown to him, unscrupulous dealers sold many of them as genuine, says Collier's. After the expose, Dossena became famous and his imitations were eagerly sought.

At an auction of his work in New York in 1933, every purchaser requested and received a certificate from the Italian government guaranteeing each piece to be a "genuine fake."

NERVOUS? No Pep or Vitality? INDIGESTION? Feel All In? Rundown?

All this—and even serious illness—may be due to B Complex Vitamin deficiency. Play safe! Take GROVE'S B Complex Vitamins and get all the medically recognized B Complex Vitamins. Quality—potency absolutely guaranteed! Unit for unit, you can't get finer quality at any price. Yet GROVE'S B Complex Vitamins are only 29 cents for regular size...only a dollar for the large size—over a month's supply. Get GROVE'S B Complex Vitamins today!

Often the fear of one evil leads us into a worse.—Boileau.

MUSCULAR RHEUMATIC PAIN

Soreness and Stiffness
You need to rub on a powerfully soothing "COUNTER-IRRITANT" like MUSTEROLE to quickly relieve neuritis, rheumatic aches and pains. Better than an old-fashioned mustard plaster to help break up painful local congestion!

—Buy War Savings Bonds—

SNAPPY FACTS ABOUT RUBBER

The first known rubber hose was manufactured in England in 1827.

Collapsible rubber boots equipped with paddles, bullet-hole plugs, sea-anchor, water, etc., are being produced for fighting U. S. airmen. Inflation in 10 seconds, this boot forms part of the pilot's seat and stays with him when he hits the water.

An Omaha, Neb., tire salesman hurried out court before rationing for parking his car near a byrdent first talked himself out of the \$2 fine, then sold two new tires to the judge, two to the cop who arrested him and two to the court attendant.

Production of War tires is definitely tied to the production of reclaimed rubber. It is estimated that the country has retaining capacity to process 360,000 tons of reclaimed a year.

Rubber authorities estimate that 200 million tires have been scrapped since World War I.

Farm Topics

Production Now Is Farmers' Weapon

Survey Shows Good Crop Lands Limited

Generals know that this war can't be won just by relying on luck. Victory will be achieved by careful strategy and relentless action.

Neither can farmers win their share of the war on a gamble. Production is their weapon. Production must be planned for victory. Farm strategy is based on balancing output so as to turn out the right things at the right time through efficient use of American farm resources.

Many believe America has plenty of good farm land. But surveys show that good crop lands are sharply limited. Of the present area of 530 million acres available for crops, only 340 million acres can be classed as really good land. The rest is too steep, too rough, too shallow or too infertile for profitable cultivation.

Labor, machinery and materials are short now, too. These conditions make it imperative for wartime agriculture to adjust itself to producing needed crops with maximum efficiency.

U. S. farmers can't afford to grow large quantities of crops not vitally needed. With present acreage and the large carry-over in storage, there is an abundance of wheat, for instance. Boosting the wheat output now would not be a contribution to the nation's war effort. Consequently production goals for wheat called for a 12 per cent decrease in acreage. Land thus released from wheat

Dairy products, especially milk being hydrated for shipment all over the world, is figuratively "pouring" from millions of U. S. farms.

can be used for food and fiber more urgently needed.

More milk products, eggs, and meats are vitally necessary for war needs now. The goal for milk is an 8 per cent increase.

Reports from farmers indicate they will probably meet the production goals based on anticipated needs of the United States and the United Nations. Some plantings may fall below goal levels, as in the case of peanuts and flaxseed for oils. But this is partially offset by soybean plantings in excess of goals.

This adjustment to wartime needs is being accomplished through acreage allotments, marketing quotas, farm program payments, commodity loans, and farm price supports provided by the department of agriculture.

After the war, the farm program machinery must be geared to the post-war problems of agriculture to protect farmers from the gigantic surpluses, depressed prices, and wholesale bankruptcies which followed the First World War.

Through adjustment, farmers will marshal their forces for abundance in peace as they are doing now for victory.

Treatment for Grubs

Cattle infested with grubs (sometimes called "warbles" or "wolves") should be treated in the following way: Mix a powder containing one part of 5 per cent rotenone content derris or cube powder and two parts of wettable sulphur. The powder should be applied to the back of the infested animal with a shaker and rubbed in lightly with the hand. Other methods of control are a derris or cube wash, or the use of a power sprayer in distributing a rotenone-sulphur mixture over the backs of the animals.

Keep Brood Sows Gaining

Brood sows should be kept gaining at the rate of about one pound per day up to farrowing time. Difficulty in farrowing, pig eating, and poor milk flow are often traceable to inadequate rations. A good ration includes a pound of oats per sow daily, a small amount of protein supplement such as tankage or soybean meal, free access to legume hay and enough corn to put on the desired gain.

Kill for Immortality

The belief that a person must die a violent death to obtain a future life still prevails among several tribes, notably the Batta of Sumatra and the Chukchi of Siberia, says Collier's. Thus, as an act of filial piety, a son kills his father and mother, when they become feeble and are ready to die, so they will achieve immortality.

Reno

Nate Angerson spent last week
end in Pontiac and Bay City on bus-
iness.
Mrs. A. Nina Moore spent the
week-end at home. The Turner school
was closed all week excepting Mon-
day on account of blocked roads.
The snow plow was a welcome
sight, Saturday evening as the side
roads had been closed to traffic since
Monday.
Mr. Will Waters, daughter, Shir-
ley, and Miss Florence Latter spent
Saturday in Bay City.
Will Watts, H. Hutchison and Will
White attended a A. A. A. meeting
at Tawas City Tuesday.
Shirley Waters spent the week-end
at her home here.
Mr. and Mrs. Basil Vance of Flint
spent last week-end at the home of
the former's parents, Mr. and Mrs.
Ernest Vance.
Mr. and Mrs. Fred C. Moore made

a business trip to Prescott Sunday.
Mr. and Mrs. Earl Daugherty and
daughter of Flint spent Sunday at
their home here.
Mr. and Mrs. Seth Thompson and
family of Prescott spent Sunday as
the guests of Mr. and Mrs. Charles
Thompson.
Mr. and Mrs. Laurel Lawe visited
Mrs. Lawe's sister and family in
Prescott Sunday.
Vernon and Lloyd Anderson were
home on a five day furlough from
Manistee where they are in the
United States forces.
Richard Peters has enlisted in the
U. S. Navy and expects to leave soon
for a Naval Training Station.

This Is a 'Corker'

Here's a story that may well be
termed a "corker" Recently Rob-
ert E. Adams of Shreveport, La.,
mourned the disappearance of \$40—
his whole week's pay. He consid-
ered himself a "hard-luck guy." A
happy ending came later, however
when he found the money—in his
cork leg. Adams said he apparent-
ly had put the money in his
trousers pocket in which there was
a hole, and the money fell through
into the artificial limb.

LOOKING BACKWARD

40 Years Ago—January 30, 1903
The big new Hecla Cement Com-
pany plant at Bay City turned out
its first cement last Saturday.

Guy Davis of Ypsilanti is spend-
ing a few days looking after the
interests of the Davis Kishler &
Co. store at East Tawas.

Last Friday evening members of
the O. E. S. enjoyed sleigh ride
party to the home of Mr. and Mrs.
William Mason in Tawas township.

Roy Wood and Sam Whiteside re-
turned to their home in Laidlaw-
ville after spending some time at
Onaway.

Steve Hawey of Hale lost two
fingers Tuesday while working in
the mill.

Charles Hawks has resigned as
highway commissioner in Burleigh
township.

A. G. Emery has sold his driving
horse to Joseph Ruel.

Seventy-five friends and neighbors
gathered Monday evening at the
home of T. G. McCausland and gave
him a surprise. A most enjoyable
time was spent.

For Sale—The Maxwell near Max-
well station.

There were 109 deeds and 35 mort-
gages and discharges recorded dur-
ing December at the Register of
Deeds office.

A January thaw has been hold-
ing forth this week, with a thunder show-
er Wednesday night.

One days business at the telephone
exchange Friday included 1234 local
and 26 long distance calls.

L. B. Smith was a business visitor
at Whittemore this week.

Miss Laura Thomas has been
spending a few weeks with her father
and brothers at Louisville, Ky.

Wilfred Grise has just installed a
new Champion blower in his black-
smith shop.

25 Years Ago—February 1, 1918
J. Murray Wade is at Batrum,
Sask.

J. Atlee Mark is with Battery E,
19th Field Artillery, Camp Stanley,
Texas.

R. B. Sroggins plans to move his
family to Breckenridge in the near
future.

Whittemore defeated the Tawas
City basketball team last Friday eve-
ning. The players were: Whittemore
—McCrum, Graham, Nisbet, Curtis;
Kiley, Tawas City—M. Mark, Had-
win, Woizeschke, Sawyer, B. Mark.

The new officers of the Christian
Endeavor are: A. A. Bigelow, presi-
dent; Mrs. Frank Dease, and Miss
Florence Smith, vice presidents;
Miss Luella Patterson, secretary;
Elizabeth Anderson, treasurer.

Word has been received that Percy
Thornton of Battery A, 56th C. A. C.,
arrived December 20 at Brest France.
Pvt. Thornton is now at Clermont
Ferrand.

Alex Freel of Gaylord is visiting
relatives on the Townline.

Mrs. William Hatton and Mrs.
Miles Main are spending a few days
at Montrose.

Lieut. Audie Johnson, who had
been stationed at Waco, Texas, is
now on the way to France.

The American people are learning
in these unsettled times, as never
before, to distinguish between the es-
sential and non essential, between the
necessary and superficial.

Fred Latter of Reno gave interest-
ing talk Monday evening at the
Tawas Grange installation.

Although America's allotment is
70 per cent of normal the prices is
about 9 cents per pound to the con-
sumer.

Miss Ruby Laidlaw has been ap-
pointed superintendent of the con-
tagious disease hospital at Jackson.

Thieves broke into the Corrigan
saloon last Monday night and three
cases of beer and six quarts of whis-
key were stolen.

Anthologies
Sometimes poets and their pub-
lishers make considerably less mon-
ey from the sale of a book of poems
than they do from the fees charged
for the inclusion of one or several of
the poems in anthologies.

The Probate Court for the County
of Iosco.
At a session of said Court, held at
the Probate Office in the City of Ta-
was City in said County, on the 13th
day of January A. D. 1943.
Present Honorable H-Read Smith,
Judge of Probate.
In the Matter of the Estate of Sar-
ah J. Gardner, deceased
Carl B. Babcock having filed in
said Court his petition, praying for
license to sell the interest of said es-
tate in certain real estate therein de-
scribed.
It is Ordered, That the 8th day
of February A. D. 1943, at ten o'-
clock in the forenoon, at said pro-
bate office, be and is hereby appointed
for hearing said petition, and that
all persons interested in said estate
appear before said Court, at said
time and place, to show cause why
a license to sell the interest of said
estate in said real estate should not
be granted.
It is Further Ordered, That public
notice thereof be given by publication
of a copy of this order, for three suc-
cessive weeks previous to said day
of hearing, in the Tawas Herald a
newspaper printed and circulated in
said County.

Council Proceedings

Regular meeting of the Common
Council January 4, 1943. Present
Mayor Babcock, Aldermen Eovil,
Frank, Landon, LeClair, Murray and
Rollin. Minutes of the last regular
meeting were read and approved.
The committee on claims and ac-
counts presented the following:
Abram Frank, Firemen's pay roll
2 practice fire drills \$16.00
Hotel Iosco, phone alarm 1 yr. 13.25
Tuttle Electric Shop, sup. 7.63
J. Barkman Lumber Co. sup. 6.32
H. M. Rollin, sup. Gen. st. 8.70
J. A. Lansky, supplies 1.10
Orville Leslie, supplies 26.00
Moved by Rollin and seconded by
Murray that bills be allowed as read
and orders drawn for same. Roll call,
Yeas—Eovil, Frank, Landon, LeClair,
Murray, Rollin; Nays—None. Car-
ried.
The secretary of the Waterworks
and Sewer board report dispersing
Waterworks 91.62, Sewer \$34.11.
Moved by LeClair and seconded by
Murray that the report be approved.
Roll Call, Yeas—Eovil, Frank, Lan-
don, LeClair, Murray, Rollin. Nays—
None. Carried.
Moved and seconded that meeting
adjourn. Carried.
WILL C. DAVIDSON,
Clerk.

Forms of Genista

The different forms of genista
have the common name of broom.
They are spoken of as the brooms
in Europe, while in America we
hardly hear the name. They enjoy
a sandy loam, but in every case the
drainage must be good.

"IT'S AN AMERICAN WORD" * Cartoon by Dr. Seuss

and meeting its quota is an American habit!

To help win this War, to help provide the
fighting equipment and the fighting men
America needs, every American has a
job to do.
That job includes saving at least 10% of
his income in War Bonds. Your quota,
too, is 10%—10¢ out of every dollar you make,

10¢ out of every dollar's worth of produce you
grow and sell.
Start saving in War Bonds today. Get them regular-
ly, not the least you can but the most you can,
remembering that they're the finest, safest invest-
ment in the world, guaranteed both as to principal
and interest by the United States Government.

NOTE—Now You Can Buy War Bonds Through Your Rural Postman!

Buy War Savings Bonds

"It Takes Both"

It takes both... two fingers to give the Victory sign. It takes both War Bonds and Taxes to make that Victory come true. Continue your purchase of War Bonds, at least ten percent of your income. Pay your Victory Tax and your income tax cheerfully and gladly. Both are in lieu of an Occupation Tax to Hitler.

Flag Terms

The length of a flag from the staff is termed the "fly" and the width along the staff is termed the "hoist."

Silver Valley Open on Limited Basis

E.M.T.A. PHOTO

Two skiers, Gayle Adams (left) and her sister, Jean, watch other skiers come down the steep ski runs at Silver Valley before starting their climb up from the valley floor.

Providing facilities for healthful outdoor recreation—essential in relieving wartime tension—a limited program of Winter Sports is underway at Silver Valley Winter Sports area in the Huron National Forest at East Tawas.

Winter fans, who already have actively participated in skiing, coasting, snow-shoeing, "tin-pan" sliding and other snow sports in the national forest winter playground this season, say that a day of zestful winter sports is "tops" as a morale booster.

And—take their word for it—after spending a week-end or day off in healthful outdoor activity, they go back to their jobs refreshed and ready to resume the steady grind of war production.

Roads leading into Silver Valley are being kept open by snow plows of the Iosco County Road Commission, Fred J. Adams, general chairman of the winter sports committee, said.

Silver Valley ski slopes are available for use at any time, and many skiers are discovering the beauties of a cross-country ski trip through the snow-covered pines by following well-marked forest ski trails.

As a morale booster that sends one's spirits climbing several points, the famous "tin-pan" slide at Silver Valley is furnishing its share of hilarious fun. Tin-pan sliders use anything from a snow shovel to a piece of plywood to coast down the steep, snow-covered slope. Many finish their thrilling ride by tumbling head-over-heels into snow drifts at the base of the slope.

But, the main point is that the serious business of war fades into the background temporarily as they recreate themselves in the scenic winter playground.

Snow-shoeing, coasting, and saddle skiing also come in for their share of attention at Silver Valley. The log warming shelter will be open week-ends, Paul Newcomb, forest supervisor, announced. But, due to a labor shortage the toboggan slides and ski tow are not available for use this season. No ice skating is available this winter at the winter sports area, but municipal ice rinks in both Tawas City and East Tawas afford excellent facilities for that sport. Ice skating along Tawas Bay may also be enjoyed, as well as ice fishing on both the bay and Tawas Lake.

Ice boating on Tawas Bay also attracts many devotees of this winter activity.

ASSIST THE WAR EFFORT

TO WIN THE WAR OUR BOYS NEED EQUIPMENT

Large Army and Navy contractor in Southern Michigan needs all kinds of skilled tool room help including Tool Makers; Tool Inspectors; Grinders (tool, gauge and cutter); Boring machine Hands; Tool Mill and Tool Lathe Operators; Hydraulic Machine Repairmen and A-1 Machine Repairmen. Several Machine Supervision jobs. Also need Aircraft Riveters; and Aircraft Supervisors, experience on wing construction.

Wages in all classifications are at the highest level—Detroit scale. Plenty of overtime. Time and a half over 40 hours, double time 7th day's work.

TRAINEES WANTED PAID WHILE LEARNING

Previous experience not necessary. We will train you to become aircraft riveters, tool machine operators, including production lathe, mill, grinders, screw machines, etc. Must be draft exempt.

To assist the war program we are not hiring any men who are working 100 per cent of their time at their maximum skill on vital war work.

We can only hire men who can show documentary evidence of either their birth certificate or citizenship papers.

Company representatives will interview skilled help and trainees Tuesday, February 9, at the

UNITED STATES EMPLOYMENT SERVICE.
Houghton and Third Streets, WEST BRANCH, MICH.

Planes Exported
Since the outbreak of the war nearly 3,500 American-built military planes ordered from the United States by the British have been exported.

Largest Philippine Island
Luzon, with an area of 40,814 square miles, and Mindanao, which is 36,906 square miles in area, are the largest of the Philippine islands.

the home of Miss Leta Clement, Friday evening.

Mrs. Ruth Brumfield and children of Detroit visited her parents, Mr. and Mrs. T. G. Scofield the past week.

Due to the heavy snow which blocked the roads, Charles Bannister and Kenneth Mowbray did not leave with the group of draftees who went to Fort Custer last Thursday. They will go later.

Mr. and Mrs. Clyde Montgomery and Charles Harris of Tawas City attended the funeral of Mrs. Mike Daley last Saturday.

The Bridge Club met at the home of Mrs. Herbert Townsend Thursday afternoon.

Guests included; Miss Eunice Salisbury, Miss Eloise Chrvia, Miss Shirley Streeter, Miss Helen Reimer, Charles Bannister and Junior Brinkman.

Miss Degretta Spencer has accepted a position as English teacher in the school at Marion, Michigan. Degretta graduated from Mount Pleasant last week.

Misses Louise and Joy Bills of Detroit spent the week end with their parents, Mr. and Mrs. Charles Bills.

Mr. and Mrs. Clarence Norris, Miss Hope Scofield and fiancée of Detroit visited their parents, Mr. and Mrs. T. G. Scofield, and brother, Wendell Scofield, who is home on furlough.

Mrs. Marcella Dorsey returned home from Detroit Tuesday. Mrs. Dennis Chrvia and son returned with her for a short visit.

Rev. Mercer, Robert Buck, Mrs. A. C. Greve and Mrs. Fred Humphrey attended meeting of the leaders in the churches of the Alpena Association held Monday at Lincoln.

Mr. and Mrs. W. E. Glendon received word of the birth of a son, Paul Eugene, to Mr. and Mrs. Eugene Glendon of Bad Axe.

Betty Harsch of Reno visited Margaret Johnson part of last week.

Born to Mr. and Mrs. Richard Greve at West Branch hospital, January 27, a son, Dirk Eldridge.

Mrs. Emil Wenger entertained the 500 Club on Wednesday.

Auto in 1907 \$2,000
The motorist who is worrying about the rumors of advancing automobile prices should be glad this isn't 1907. Automobile prices today average about one-third what they were in 1907. In that year the average automobile cost \$2,131, with top, windshield and horn extra

Nominated to High Posts by President Roosevelt

Shown above are three men whose nominations to high posts were made by President Roosevelt. Shown at left is Wiley Rutledge, of the District of Columbia court of appeals, named to be an associate justice of the United States Supreme court, to fill vacancy caused by appointment of James F. Byrnes to the office of Economic Stabilization Director. This is the eighth appointment to the tribunal made by President Roosevelt. Center: Edward J. Flynn, retiring chairman of the Democratic committee, named for office of minister to Australia, to succeed Nelson Johnson, who is retiring from the diplomatic service. Right: Prentiss M. Brown, former Michigan senator, nominated to the office of Price Administrator to fill post made vacant by resignation of Leon Henderson. All three nominations were sent to the senate for confirmation.

U. S. Soldiers, Helpers, Train for Arctic Fighting

Sub-zero weather in the white-clad mountains of Wonalancet, N. H., provides all the rigors that would be encountered on the frozen plains of Russia for men and dogs being trained by the U. S. army. Here you see (left) the army's sled dogs, trained by Milton Seesley, pulling a machine gun and its operator. In the picture at upper right the driver flourishes the whip as the dogs pull over a difficult terrain. Lower right: Under cover of a smoke screen, gas masked army gunners push their machine gun sled units forward in feigned attack.

'Good' Japs in New Guinea

The remains of some "good" Japs—dead ones—are shown lying about as an Australian burial party digs graves soon after driving the Japs out of the eastern part of Gona, in New Guinea. "Just don't let anyone tell you that the Japs aren't anything but tough," said one marine correspondent. "They are very tricky fighters."

Nazi Panzer Brass Hat in Tebourba

This photo, received in New York by way of neutral Portugal, shows an unnamed German panzer general and his staff swaggering through the streets of Tebourba, Tunisia. This is the town that was captured from the Allied forces by the Nazis in December.

Leads Russians

One of the youngest generals in the history of the Russian Red army, Lieut. Gen. Konstantin Rokossovsky (above) is making a bid for fame by his handling of the great Don offensive against the Nazis. General Rokossovsky is in charge of the drive southwest of Tsimlyansk, with the Caucasus key city of Rostov as the ultimate goal.

Churchill Double

Because of his resemblance to Winston Churchill, Dudley Field Malone, noted lawyer, will enact role of the British leader in a new Hollywood film production. With Malone (right) is Manart Kippen, who will play Josef Stalin.

WALTER WINCHELL is on a tour of duty outside Continental U. S. During his absence, contributors will substitute.

Some Items Which WE SHOULD KNOW ABOUT THE JAPS

By James R. Young
Who Was 13 Years in Tokyo for INS.

MAYLING SOONG FOUNDATION, honoring the First Lady of China, established by her many friends in this country, has been given further impetus by Wellesley College alumnae on her arrival here 25 years after her graduation.

TWO JAPS, former students in the United States, are reported handling the 12,000 man Jap invasion army units in Northern Japan. These men would specialize in a follow up, after combat troops, in commandeering radio stations, telephone switchboards, gasoline stations, highways, railways, bus lines and power houses. One is Lieut. Henry Shimamouchi, a former San Francisco resident, and as of Dec. 7, 1941, in charge of Japan's so-called cultural society in Rockefeller Center. The other, Capt. Frank Matsumoto, was athletic director of Waseda University in Tokyo who entertained visiting American college and professional athletic teams.

A BICYCLE, the chief means of transportation in Shanghai, now costs \$10,000 in Chinese currency. The Japs, pre-Pearl Harbor, were the world's largest bike manufacturers, making them from processed American scrap at \$3 apiece and selling them on a one year installment plan to the natives of Indo-China, Siam and Malaya. In the drive on Singapore, Bangkok and Rangoon, the Japs seized the bicycles and literally peddled their way through the peninsula. Tokyo has an estimated 2,200,000 bicycles. Few have coaster brakes, which are the costliest part. The ingenious Jap manufacturers decided to leave off the expensive part—if you want to stop, fall off.

THIS WINTER Shanghai will witness hundreds of deaths from freezing and insufficient food. The European refugee colony, numbering several thousands, will suffer, too. The Japs, last winter, seized all wheat and rice, and sealed Red Cross supplies—not one ounce or a single bottle of medicine was permitted in use. The Japs prefer to have thousands die in Shanghai's below zero weather than survive and require to be fed.

CHILEANS are being told by the Jap ambassador down there that if their country breaks with the Axis, Japan will bomb the long shore line. Japan for years was one of Chile's great nitrate buyers. In return the Chileans obtained Jap cotton piece goods, pottery, rayon, uniforms and military equipment. Boatloads of Chilean nitrate, sold by a British controlled company, went to Japan in return for munitions and agriculture. Now we must use nitrate on the Japs in the Pacific. Just as our oil and gasoline have taken the Japs to the Solomons and the Aleutians. Or, as Dr. Lin Yutang explains the paradox, we sold the Japs the Ninth Avenue Elevated so they could make bullets. Now we have torn down the Second Avenue Elevated to make bullets to fire back at the Ninth Avenue train.

HOUSE FOREIGN AFFAIRS committee should include besides Clare Boothe Luce, a famous medical missionary from China, Dr. Walter H. Judd, elected from Minneapolis. He was one of many warning us years ahead of Japan's method of attacks. Possibly the Luce-Judd combination might shake down some of the mentally stagnated members of the State Department. And here's a tip: These Chinese are indignant that we have not cleaned house in the Far Eastern division of Mr. Hull's department, a year after war started. We'd better clean those career barnacles from the ship of state, if we expect future cooperation from the Chinese.

RAY KINNEY, the coast to coast Hawaiian bandman who recently played to a \$22,000 house in Chicago, knows Hawaiian legislative work. He worked as a page boy in the Territorial halls. His brother is an outstanding authority on Japs in Hawaii and published a book 20 years ago which was suppressed because it revealed Jap plots and intrigue in illegal immigration work.

SIR GEORGE SANSON, one of the few British officials really familiar with Japan, has been appointed economic expert on Far Eastern affairs to the British Embassy in Washington. His counterpart in the American Embassy in Tokyo was Frank Starr Williams. Both Sir George and Frank Williams were outstanding authorities on Japan's plans for war—but few wanted to listen to them, especially the cotton people who were selling the Japs on credit and wanted Williams to help collect their bills!

Crocheted Accessories Are Smart, Inexpensive to Make

By CHERIE NICHOLAS

"BECAUSE of the gas-rationed motorless days and nights ahead, we as a nation are having to cultivate a stay-at-home program and like it." Good news, this, for crochet enthusiasts! 'Tis opportunity knocking at your door.

It adds very much to the zest of things that crochet is being so importantly featured in the fashion realm nowadays. Everything that can be crocheted in the way of sweaters, hats, bags, gloves, belts and endless other accessory items is being crocheted with a high-style gesture that brings a new style trend into current costume design.

Gleaned from the wealth of ideas that crochet experts are pouring forth these days are the items portrayed in the accompanying illustration. Here's a new idea—see it pictured above to the right in this group—a handsome envelope bag with its own matching collar necklace. These smart fashion accessories are quickly and inexpensively made.

Speaking of the crochet necklace just mentioned, the idea of crochet jewelry is developing into a really important vogue. Simplest thing imaginable to crochet flowerlets and buds and leaves in realistic colors. Let them be "pick-up" work, and when you have accumulated a collection string them on or sew them to a crochet cord or to a festoon of crochet cords if you want a bib or yoke effect in front. It's easy to add a bracelet done in the same manner.

Easy to make and easy to wear is the stocking cap shown below to the left. You'll need just two skeins of knitting worsted, a dark color for the hat itself and a lighter color for pompons.

A crochet belt as illustrated will do wonders in the way of style distinction for any dress with which you care to wear it. This most at-

tractive belt fills the bill on both counts when it comes to serviceable wearability as well as carrying the message of swank to the 'nth degree. It is backed with velveteen, revels in high color and has a convenient zipper pocket—what more could a fashion-conscious college girl or gay little 'teen-ager want!

St. Valentine's day will soon be here, and wouldn't a set of rosy red little dangling hearts be cunning to send to some one you wish to remember with a gift you make! They are charming to wear on the lapel of your coat or to adorn a simple blouse. Then, too, the latest is to use them for gay and amusing package decorations. Instead of tying with ribbons, crochet a long cord in simple chain stitch, finishing off with a cluster of the dangling hearts.

A cute little trick to pin on your lapel is the intriguing little panda which you can make from leftover lengths of yarn. See these clever little trifles shown below in the picture. Also note the pretty and dainty boudoir scarfs centered below in the group. You crochet these in three shades of pearl cotton. A picot edge outlines the perky tongue, which is set off with a cluster of velvet ribbon loops.

Now that knitting needles are clicking so busily wherever one looks, wouldn't a handsome knitting and utility bag like that shown above to the left in the group make a gracious gift from one needlewoman to another. Or keep it for your own personal use, and you will see coveted glances directed toward it. With all its handsome looks it really costs very little either for material or in time and effort. If you want to add an extra touch of distinction, embroider initials or a showy monogram in bright colored yarn.

Released by Western Newspaper Union.

Chooses Plaid

Little girls love pretty bright plaids. The new plaids coming in for spring are wonderfully attractive and, being in smart cotton, they launder beautifully. Now is the time of year when fancy turns to thoughts of home-sewing to be done. When it comes to sewing plans "children first" seems to have become a tradition, and this season makes no exception. Again it is cottons that play the leading fabric role. The handsome plaid selected by mother for little daughter's dress as pictured is a perfect choice. In making up this smart new windowpane plaid a very effective use of plaid "on the bias" is employed.

Navy and Brown Vie For Color Honors

There is a contest on between navy and the new browns. The best-liked navy is the bright tone that is so flattering. White and pastel accents abound on the new navy fashions. Very important in dress worsteds is a stunning coral red. Twills and serges for smart frocks are available in this lovely new red. Prints in green and white are being featured.

Rose pink for dressy hats is sponsored by all the best milliners. There is also a decided move to launch lovely fresh-looking lilac tones as the favorite color for hats and pretty accessory novelties. It has also become quite the vogue to wear white hats, gloves and boutonnières with midseason suits and coats.

Lacy Head Scarf Among Favorites for Evening

The shawl and head scarf vogue for evening has taken the world of fashion by storm. The favorite head covering is the shawl-like scarf in black net or chenille crochet done in lacy open stitch. They carry a distinctive air all their own that in no way reminds one of the peasant head square worn casually during the day. The filmy black coverings with their glitter of jet or sequins are worn with all the artistry of a Spanish senorita.

Granny Nighties

Ask for the new "granny" nighties and then prepare to see what you will see. You will be shown the most amazing night shirts fussed up too prettily for words with pockets and laces and wee ribbons. They are most amusing, and eye-appealing as well.

Party Crasher

By K. O. KAHILLE
Associated Newspapers.
WNU Service.

WALT knew he'd entered the wrong driveway the moment he swung in between the two huge stone pillars. But there wasn't any place to turn around, so he kept on going. Abruptly he rounded a clump of shrubbery and burst on to a crowd of people scattered over a velvet green lawn. There were gay umbrellas around and metal tables and chairs painted a bright orange. Somewhere an orchestra was playing and there was much laughter and shrill voices.

Walt had to drag his tires in the gravel to avoid running down a girl who burst away from a group of people and came flying toward him. "You're Bill Thayer, the boy Ed Carter said was coming down from Santa Barbara! Oh, I'm so happy to see you!"

Walt swallowed and started to say he had never heard of Bill Thayer, but the girl, a rather dumb-looking creature, rattled on without giving him a chance.

"Just leave your car here. Poole will take it to the garage and Roberts will show you to your room. Then you must hurry down and join us all."

A liveried driver, obviously Poole, suddenly materialized beside the roadster, saying quietly: "Beg pardon, sir."

Walt hesitated. This was Hollywood, he reminded himself. People did crazy things, like crashing parties where they weren't even known, and having a swell time. He'd often wondered what a party like that was like. Here, he decided suddenly, was a chance to find out.

"O. K., Poole. And while you're at it, once over lightly. I picked up a spot of dust coming down." He slid out from behind the wheel. Poole slid in. The girl had vanished. A stiff looking individual came from the house and removed his bags from the rumble seat. "This way, sir."

Fifteen minutes later, Walt, garbed now in flannels and sport jacket, emerged again on to the lawn. No one paid him much attention. For an instant he had a moment of panic. Suppose they found out he was an imposter? Then the girl whom he'd almost run down, fluttered up. "Hello! Aren't you Tom Potter? But, no. Tom's a blond. Oh, well, I'll stop guessing. You tell me. I'll introduce you."

She didn't, however, get a chance. A young man with an old face came up and said something about the punch bowl being empty and she rushed off. Walt wandered around. People were everywhere. One or two spoke to him and suddenly out of the sea of faces he saw one that gripped his heart.

It was as if he had seen the face before, though he knew he hadn't. It was as if he had been looking for such a face all his life. It didn't seem queer that she was staring at him. It didn't seem strange that he should go directly up to her and say, with no restraint or hesitation: "I'm sorry. I don't believe we've met. I'm Walt Whiting."

She smiled. "I'm Nancy Lovell." "I like that name. Shall we dance?"

They moved toward the tiled flooring that was used for dancing. When he took her into his arms it was as though all his life he had waited for this moment. Neither of them spoke. A contentment dwelt in their hearts, a curious sense of oblivion and peace as if strife and struggle and pretense had ceased to be and each had reached a goal which they had been seeking for untold ages.

After the dance they walked away from the others. They found a brook and followed it, sat beneath a pepper tree and Walt at last looked up into her face.

"You won't think me crazy, I—it seems as though this is what I've always wanted. You, I mean."

"I understand," she said. "I know. I feel it too." She laid her hand on his and the blood pounded warm in his veins—

It wasn't until he awoke the next morning in the blue and white room that had been assigned to him that Walt realized with a shock the mistake he had made, the futility of continuing this game of pretense. The lovely, serene face of Nancy Lovell rose in his mind, and a pang stabbed at his heart.

Yet he could not resist the temptation to see her once more, to talk to her, to selfish though it seemed—watch the changing lights of her eyes when he confessed his deceit. Fate mocked him again when he found her beneath the selfsame pepper tree. She looked up at him and smiled, wistfully, he thought. He hesitated, deliberating; knowing it would be folly to torture himself longer.

"I don't belong here," he said. "They think I'm Bill Thayer. I'm not. I drove in here by mistake—" Her eyes grew wide. A gasp escaped her lips, followed by tumbling laughter.

"Oh, how wonderful! I was so afraid. You see, I don't belong here either. There are so few of us that do. Fifteen of us heard about this party and we decided to try crashing it just for fun—the way you read about. It worked. Then I met you and—and that spoiled it. We—fifteen of us girls—are eastern school teachers on vacation!"

BOY SCOUTS MEAN BUSINESS

Scouting's Job
in '43
**TOUGHEN UP
BUCKLE DOWN**
Carry on to Victory

BOY SCOUT WEEK

February 6-12

"Toughen up, Buckle down, and Carry on to Victory", is the Boy Scout major task this year. Their 1,570,000 members are in the conflict to the hilt on the home front, doing everything boys of Scout age can do, to help win the war speedily and a just peace permanently.

Michigan State Would Train Farm Youth

A pilot training program has been undertaken to enroll approximately 100 farm youths in a six weeks training course at the Michigan State College. No opportunity is being overlooked by the U. S. Department of Agriculture to get all available help possible for farmers.

A survey recently made by County U. S. D. A. War Boards showed that there are many youth, around 16 or 17 years of age, now engaged in agriculture pursuits but on units that have surplus manpower. While these boys were born or reared on farms they are not familiar with some of the more modern methods of agriculture as practiced by the better and larger farmers in Michigan.

"Farmers realize," said R. G. Carr, State Director for Farm Security Administration, "that because of the shortage of farm labor they will have to use the help that is available, for in most instances experienced farm help cannot be found."

A program has been worked out between the Michigan State College, the United States Employment Service, and the Farm Security Administration whereby eligible boys and young men can take a training course at East Lansing. "Those recruited on this initial pilot program will be chosen on the basis of their desire to make a definite contribution to the war effort," said Carr. "They will be expected to remain in Agricultural pursuits for the duration. The experience gained in this approach toward providing some additional farm labor will be the basis for other training courses."

The recruitment is to start at once, on a state wide basis, and it is hoped that the first contingent of about 50 boys ran start their training course about the first of February. The college will furnish housing and board in the dormitories. There will be instructions, demonstrations, and classes from 8:00 A. M. until 5:30 P. M. Physical examinations and clinical facilities will also be furnished by the college.

The United States Employment Service will be responsible for the recruitment and placement of this labor with Farm Security Administration cooperating.

"An effort will be made to choose youngsters that have not had an opportunity to attend high school or take Agricultural Courses," continued Carr. "Boys now in high school will not be contacted while the initial program is getting under way."

Laborers between the ages of 18 and 38 will also be accepted if they can meet the eligibility requirements. No recruiting will be done in the cities at the beginning—can't make a good farm hand out of an inexperienced boy with a few weeks training.

For the boy who has some agricultural background, this training period even though short, should prove to be very beneficial. It will also make him more valuable to the farmer that needs his services so badly.

"A full time counsellor," said Carr, "furnished by the Farm Security Administration will be with the boys during the entire training period. Everything possible will be done to make their stay pleasant, as well as educational."

All possible sources of labor will have to be mobilized if food production is increased or even maintained. With that thought in mind a State Youth Farm Labor Committee was recently organized in Michigan. They will work through the schools feeling that through organization, education, and planning, youth can make a greater contribution to our food production than has been true the past year. They will endeavor to place and give some training to the boys for seasonal or work during vacation. They will, however, assist in this pilot training program in any way possible.

This program will be followed with interest—it has a lot of possibilities. It is expected that 3 or 4 boys from Iosco county will be in the first contingent to start taking the six weeks course at Michigan State College. Any boy is interested in taking this course should contact F. O. Potter, County FSA Supervisor in Harrisville, Michigan; or, Wilton L. Finley, County Agriculture Agent, East Tawas for details.

WAR RATION SCHEDULE

War Ration Stamp, No. 11, good for three pounds of sugar, from February 1 to March 15.

War Ration Stamp, No. 28, good for one pound of coffee from January 4 until February 7.

The first check on automobile tires must be made prior to March 31. Tire check every six months.

Automobile gasoline Ration coupon, No. 4, "A" card expires March 21.

Fuel Oil Coupon No. 4 good from February 2 until April 17. Good for 11 gallons of fuel oil.

Tire Ration Panel meets at 10:00 a. m. until 12:00 noon, Mondays and Thursdays

Gasoline regulations, restrict dealers from gas to persons not displaying their highest sticker corresponding with their book.

Those holding B and C Cards must have cars inspected before February 28.

Gasoline and Fuel Oil Panel meets 9:30 a. m. until 12:00 noon Saturdays.

General office hours, 8:00 a. m. until 12:00 and 1:00 until 5:00. Office closed Wednesday and Saturday afternoons. Telephone 652.

Whittemore

Mr. and Mrs. Norman Schuster and daughter, Sharon, and Theda Charters of Saginaw spent the week end here. Sharon visited with her grandparents.

Miss Ruth Fuerst returned to Flint Sunday after a ten day stay here at her home due to a fall, and has had her leg in a cast. She expects to have the cast removed this week.

The quarantine has been lifted from the Henry Bronson home and their daughter has recovered from diphtheria and returned to her home in Turner.

Mr. and Mrs. Richard Fuerst and Mr. and Mrs. Frank Madaski spent Sunday in Flint.

Don O'Farrell of Detroit spent Sunday here with his parents.

Mrs. Roy Charters was pleasantly surprised last Saturday evening when thirty neighbors and friends walked in on her and reminded her of her birthday anniversary. Progressive Pedro was played, with Mrs. Shannon and George Jackson receiving high prize and John Higgins, low. Mrs. Charters was presented with a sewing cabinet from the group.

Alma Washburn, who has been seriously ill at the home of Mr. and Mrs. Harrison Snyder, was taken to Hurley hospital, Flint, Tuesday.

All mail service was tied up here part of last week due to blocked roads from the storm. School was closed nearly all week as the buses could not get through.

Mrs. Mary Wilson returned to her home here Saturday from a weeks visit at her former home in Washington, Michigan, and attended O. E. S. Chapter there, of which chapter she has been worthy matron this year.

Several from here attended the wedding dance at Vi's Tavern at National City Saturday evening given in honor of Mr. and Mrs. Lawrence Fortune, newlyweds.

Seventeen members and officers of the O. E. S. here attended the joint school of instruction at Hale last Friday night. They reported a very instructive meeting given by Grand Conductress Mrs. Knight of the Grand Chapter.

Mr. and Mrs. Harrison Snyder were at East Tawas Saturday forenoon.

Chuck Bailey arrived here Tuesday from Alaska and is visiting at the Charles Schuster home and his parents in Flint. Chuck has been in Alaska for over a year where they are building a road through. He says that the weather is mild here when compared to what they have there. He says to give him good old Michigan.

Mrs. Jack Miller and children of Monroe are spending several weeks here with her parents, Mr. and Mrs. Roy Leslie.

Do You Know?

by Dorothy Scott

"That meat makes the meal," is a thing of the past in many places these days, but we can have the flavor of meat in more of our meals by mixing it with mild flavored fillings, foods—such as cereals, bread, vegetables and sauces. Here's how it can be done.

Loaves and patties. Mix well seasoned raw meat with boiled rice, bread crumbs, white sauce, mashed potatoes, cooked cornmeal, or cracked and whole wheat.

Pot roasts. Stretch the meat by adding whole or halved vegetables during the last hour of cooking.

Stew. With small pieces of meat when almost tender, add sliced or diced vegetables. For more flavor, top with dumplings. Hearty too.

Meat Pie. Stew plus a topping of pastry, biscuits, mashed potatoes, or corn meal mush.

Broiled meat on toast. The bread is toasted on one side, then spread the untoasted side with fat, sprinkle with salt and pepper, cover with ground raw beef or lamb, and broil by direct heat.

Meat trimmings and bones are fine flavor for soup and chowder. Add pearl barley, macaroni, cracked or whole grain wheat spaghetti, or noodles to these. Vegetables may also be added.

Stuffings, well seasoned are grand flavor-of-meat extenders with boned roasts, spareribs, or braised "birds." Beans, simmered to nearly tender, then combined with ground meat which is well seasoned and cooked until thickened is nourishing and filling. Addition of "hot" seasoning makes chili con carne.

Meat in sauce. Brown ground raw meat, season with onions, peppers, tomatoes. Serve over cooked macaroni, spaghetti, noodles, rice or potatoes.

Barbecue sauce. Simmer soup bones, tomatoes, and seasoning both hot and spicy (garlic, green peppers, bay leaf) in water to cover. Cook several hours. Let stand overnight, skin off fat, strain. Serve hot.
