Remember Pearl Harbor

VOLUME LX

Two Dollars Per Year

TAWAS CITY, MICHIGAN, FRIDAY, SEPTEMBER 3, 1943

NUMBER 36

## TAWAS CITY

September 15 is the first mailing date to send Christmas packages overseas to service men. October 15 will be the final date.

Born to Mr. and Mrs. Orville Westcott, a son, weighing 10 3/4 pounds, last Saturday. He has been named Brian Harry.

Mrs. Annie Ulman returned Friday from several weeks visit in Flint with relatives.

Mrs. J. Atlee Mark and girls left Tuesday for their home in Saginaw, after spending several weeks at their home in the city. Atlee spent the week end here.

Mr. and Mrs. Jas. H. Nisbet left Monday to attend a family party at Midland with Rev. and Mrs. V. V. Nicholas, who are celebrating their golden wedding anniversary. The Nisbets were accompanied by Mrs. Agnes Kennedy, Mrs. Goldie Dawson, and also Mrs. Charles McLean of Maple Ridge. The ladies are sisters.

Miss Kathleen Davis of Detroit is visiting her parents, Mr. and Mrs. Eugene Bing this week.

Supt. and Mrs. W. A. Wilkinson and family have moved into the R. J. McMullen house.

Mrs. Ethel McDougald of Flint is the guest of her niece, Mrs. W. Leslie, this week.

Rev. and Mrs. Paul Dean are visiting in New York state for three weeks.

Miss Marguerite McLean leaves Saturday for Detroit, where she will begin her duties at the Hazel Park schools. She will teach in the English Department.

Mrs. Wm. Leslie spent Wednesday with friends in Reno and Whittemore.

N. R. Lincoln and daughter, Mrs. Ben Kirk of Traverse City and Lieut. Wm. Lincoln, stationed in Florida, visited Monday in the city with Tawas friends.

Allen Rouiller spent Monday with his mother, Mrs. Wm. Rouiller. He has received his discharge from the army.

Mrs. Mable McKinnon and grandson, Hector Pond of Black River spent the week end with her cousin, Mrs. Janet Bush. Mrs. Bush will return to Detroit on Saturday, after a three weeks vacation at her home.

Mrs. Frank Liken of Sebawaing came Thursday for a few days with her mother, Mrs. John Ristow and other relatives.

Mrs. Collie Johnson has returned from Detroit, here she attended the wedding of her granddaughter, Marilyn Smith and Pfc. John Field on August 26, and also visited other relatives. Mrs. Jos. Bureau accompanied her mother home, returning on Thursday.

Mrs. Jos. Stepanski visited in Saginaw on Friday and Saturday of last week.

Dr. and Mrs. J. J. Austin attended the funeral of Mrs. Austin's grandmother, Mrs. James Rabb of Belleville on Wednesday.

Robert Fraser returned Thursday to his home in Detroit, after several weeks visit with his grandparents, Mr. and Mrs. F. J. Bright.

The Methodist Women's Society will meet Thursday with Mrs. Ida Thomas of the Hemlock.

Mrs. Clarence Gates and children returned Sunday to Royal Oak, after a few days visit with her sister, Mrs. Fred Landon.

Mr. and Mrs. Arthur Nelson and children, Betty, Mary Ann and Arthur, returned Tuesday to Big Rapids after a few days visit with relatives.

Mr. and Mrs. Alex Goward of Yale spent the week end with Mrs. W. C. Davidson.

Mr. and Mrs. Elwood Daley and children of Plymouth visited at the W. C. Roach home a couple of days this week.

Mr. and Mrs. A. E. Yerden of Detroit are visiting for several days with Mr. and Mrs. Robert Mattison. (Turn to No. 1 Back Page)

## Federal Man to Explain Estimated Returns

Giles Kavanah, collector of Internal Revenue, announced today that a deputy collector would be stationed at the Federal Building at East Tawas on September 8 to advise taxpayers relative to the filing of estimated returns under the Current Payment Tax Act of 1943.

## Card of Thanks

I wish to thank my fellow workers at the National Gypsum company plant for the kindness extended to me in my illness.

John Allen, Whittemore.

## Card of Thanks

We wish to thank our neighbors and the Tawas City fire department for their assistance, when our home was destroyed by fire last Monday. Mr. and Mrs. Charles Rouiller.

## \$265,000 IS IOSCO QUOTA IN BOND DRIVE

### Campaign Details Nearly Complete for County

The Third War Loan drive will start next Thursday. H. E. Friedman, chairman of the Iosco County man, chairman of the Iosco County today that organization details were nearly completed for the drive in Iosco county. The nation will raise \$15,000,000,000 in the Third War Loan. Iosco quota is \$265,000. Of this amount, \$133,000 is of the "E" series or the type usually purchased by the ordinary citizen.

Friday morning's startling news that the "invasion of the Fortress of Europe is on" gives an added incentive to the purchasers of War Bonds. Fathers, mothers, wives, sons, brothers and sisters must not fail on the home front, when our armed forces are pushing forward, even at the cost of their lives, with one aim in view with no thought of failure—the breaking of the bands of steel which surround Germany and Japan and end the reign of terror instigated by the axis.

Iosco county's quota in April's Second War Loan Drive was \$240,000. Its citizens purchased over \$400,000 worth of War Bonds in the drive. Subscriptions to the "E" Series bonds amounted to about \$140,000, and the quota was \$100,000.

Assisting Chairman Friedman are the following local chairmen who have charge of the work in their communities in the county: L.H. Braddock, Tawas City; Victor Marzinski, East Tawas; Wayne Grimm, Whittemore; Glenn P. Sabin, Hale; Eddie Furtaw, Oscoda; John Cutting, AuSable and the supervisor of each township in the rural districts. They are: Claude Benson, Edward Burgess, Theodore Bellville, Harry VanPatten, H. F. Black, Frank Schneider, Wm. A. Schmalz, and Harry Cross.

"Back the Attack" with your dollars INVESTED in Series "E" Bonds in the Third War Loan Drive which begins on Thursday of next week in Iosco.

## Tawas Defeated Second Time This Season

Last Sunday, the Tawas City Independents were defeated the second time of the season. Camp Skeel furnished the opposition. They had 11 runs, 11 hits and three errors. Tawas had eight runs, eight hits and five errors.

Battery for Tawas: R. Bublitz, catcher; H. Bublitz, catcher. Battery for Camp Skeel: Moses and Andrews, pitchers; Williams, catcher.

Next Sunday Tawas will play Mikado. The game will start at 2:30. Monday (Labor Day) Tawas will play Camp Skeel in a double header. The first starts at 1:30. Both days, admission will be adults, 25c. All of the games will be played at the local athletic field.

## State Tax Land Sale At West Branch

One hundred and fourteen parcels of state owned Iosco county property will be offered for sale to the highest bidder at the Sale of State Land which will be held Wednesday, September 22, at West Branch. The properties offered included those applied for by former owners or recommended for sale by former owners or recommended for sale by local municipal officials or the Department of Conservation.

A list of the lands which will be offered for sale, and the minimum price, may be inspected at the office of County Treasurer Grace Miller, or The Tawas Herald office.

# Starts Thursday SEPTEMBER 9TH

## 3RD WAR LOAN DRIVE

IN the SERVICE

Ensign William R. Bay, Jr. of the son of Mr. and Mrs. William Bay of Detroit, and grandson of Mr. and Mrs. Martin Bay of Tawas City, recently received his commission in the Naval Air Corps at Pensacola, Florida. During his fifteen day leave Ensign Bay spent a few days in Tawas City visiting his grandparents. He is now stationed in New York.

Capt. James Dillon left Thursday afternoon for Brady, Texas, where he will resume his duties in the Army Air Forces, after visiting here with his mother, Mrs. John Dillon and other relatives. He piloted a plane here, and on his return he was joined at Selfridge Field by Martin Kasischke, who will return with him as far as Fort Worth, Tex. Martin had been here with his mother, Mrs. Emil Kasischke for several days on furlough.

Pfc. Lester Kendall, son of Mr. and Mrs. William Kendall of this place has completed training and graduated from the school of the Army Air Forces Technical Training Command at Chanute Field. He is now stationed at Fort Wayne.

Pvt Edward Ulman, son of Mr. and Mrs. Fred Ulman, has arrived safely in the North Atlantic according to word received this week.

A card from Pvt. Pete Friedrickson, U. S. M. C., states that he arrived safely at his destination in the South Pacific area. He trained at San Diego, California.

Pfc. Nelson Thornton, writing from somewhere in the Pacific area, says "Had a fine trip. Met Dick Shellenbarger of Hale on board and we had a long visit. Six of us played pedro all the way over, when I got back, Mr. Wilson won't be the petro shark of the old home town. When we crossed the Equator we were initiated into the "Shell Backs" and had some fun meeting King Neptune." His address is Pfc. Nelson E. Thornton, Co. I, 3rd Bn., 8th Marines, care of Fleet Postmaster, San Francisco, Calif.

Pvt. Wilford Hughes, son of Mr. and Mrs. C. Hughes of Alabaster, returned Monday to Camp Stewart, Georgia, after a 25 day furlough here.

Victor and John E. Johnson, sons of Mr. and Mrs. Victor Johnson of Tawas City, are both in the service. Their address are: Victor M. Johnson, seaman 1st class, 568-365, U. S. C. G., Coast Guard Station, Atlantic City, New Jersey. He is studying radio communication. Corp. John E. Johnson, U. S. Army, A. S. N. 36421411, D. Btry. 482, A. A. A. (AW) Bn., (SP) Camp Hulen, Texas, where he is training as gunner on tanks.

Major Edmund Connor of Camp Grant, Illinois, and Mrs. Connor of Milwaukee are spending a few days in the city with friends. (Turn to No. 2 Back Page)

## Feess-Benish

Miss Marion Feess, daughter of Mr. and Mrs. John A. Feess of Wamego, Kansas, and Rev. Frank Benish of East Tawas, son of Mrs. F. Benish of Detroit, spoke their marriage vows at a quiet ceremony performed Sunday afternoon at the First Methodist church of Wayne by Rev. R. Nieman.

The altar was banked with palms, white hydrangea and gladioli. The bride wore a suit dress of military blue crepe. Her corsage was white gardenias. Her only attendant, Miss Zell Feister of Ann Arbor, chose a corsage of salmon colored gladioli.

Horace Phillips of Wayne, a fraternity brother of Rev. Benish, was best man, and Jack Bailey seated the guests.

Mrs. Alan Head of Detroit played the wedding march and accompanied Dorothy Carpenter who sang D'Hardelot's "Because" before the service and Barnaby's "Oh Perfect Love" immediately after the double ring ceremony while the bride and knelt at the altar.

A reception held in the church parlor, was attended by 65 friends and relatives. Mrs. J. E. Adams presided at the bridal table and cut the beautiful tiered wedding cake and Mrs. K. C. Coville poured.

Rev. and Mrs. Benish went to Detroit where they attended a dinner and reception in their honor, after which they left for a ten day Eastern trip.

The bride, who is director of Religious Education of the Wayne Methodist church, is a graduate of Baker University and had her M. A. degree from the University of Kansas. She taught in the grades and high school in her home state for several years. She attended Yale University Divinity School in 1940-41 and came to Ann Arbor in the fall of 1941 as Girls' Work director. For the past year she has been with the Wayne church and was worker for the Michigan Child Guidance Institute on their Willow Run Study Project.

Rev. Benish, recently of Ann Arbor, is a graduate of Albion College where he was a member of Sigma Nu fraternity. He is also a graduate of the Boston University School of Theology. He has served several churches in the Michigan Methodist Conference, and is pastor of the Tawas City and East Tawas churches.

## Iosco County Defense Council Reorganized

At a meeting of the Iosco County Defense Council held Wednesday evening at the court house, E. A. Leaf of East Tawas was elected chairman, George Myles of Tawas City, vice chairman, and Herbert Hertzler of Tawas City, secretary. The election of officers and reorganization followed the appointment of a new council in July by Governor Harry F. Kelly. The council members are: E. A. Leaf of East Tawas; Porter Sabin, of Hale; Edward Burgess of Baldwin; George Myles of Tawas City; Horace Powell of Whittemore; Prosecuting Attorney Herbert Hertzler and Sheriff John Moran.

The appointment of new members to the council does not effect the local councils in the cities and townships.

FOR SALE—4 Durham calves, 9 months old 1/4 mile west of Sand Lake corner. Alton Durant.

## Schools . .

### Tawas City Public Schools

The Tawas City Public schools will open next Tuesday morning with W. A. Wilkinson, formerly of Cheboygan, as superintendent.

During the past few weeks the school plant has been placed in readiness for the new school year. The ward school has again been discontinued, and the pupils will be located in the main building. Arrangements for bus service for rural pupils and students has been completed.

Superintendent Wilkinson said a faculty meeting will be held Monday afternoon when the final plans for Tuesday morning's opening will be made.

The teaching staff consists of Otto Rahl, shop and coach; Miss Ruth Benedict, home economics; Miss Mabel Murphy, commercial; Miss Vera Senob, English; Mrs. Lottie Goldsmith, junior high; Miss Mabel Myles, 5th and 6th grades; Mrs. Margaret E. Worden, 3rd and 4th grades; Miss Patricia Braddock, 1st and 2nd grades; Mrs. Emma Sloan, kindergarten.

With the exceptions of Mr. Wilkinson and Mr. Rahl, all of the faculty are either teachers returning here again this year or former Tawas City public schools teachers.

The kindergarten, under Mrs. Sloan, will be in session mornings only.

### Burleigh Agricultural School

Superintendent Wayne E. Grimm has called a meeting of the faculty of the Burleigh Rural Agricultural School, Whittemore, for next Monday afternoon, to lay final plans for the opening of the school term on Tuesday, September 7.

All grade and high school students will report at the school Tuesday morning for enrollment. In the afternoon textbooks will be distributed.

With one exception, English and foreign language, the entire faculty is set for the year. Those returning are: Frank Madaski, vocational agriculture and science; F. B. Pedersen, industrial arts and mathematics; Miss Frances Houston, commerce; Miss Florence Latter, junior high school; Mrs. Leon King, fifth and sixth grades; Mrs. Duncan Valley, third and fourth grades. Those new to the faculty are: Miss Arzell Dodds, vocational home-making; Mrs. F. B. Pedersen, elementary grades and vocal music; Miss Shirley Waters, kindergarten and first grade.

A complete curriculum has been planned including general college preparatory, and vocational (commerce, industrial arts, vocational agricultural and homemaking) courses. Special emphasis will be placed on the arrangement of classes for boys who expect to enter the armed forces and need certain required subjects to meet Army and Navy training specifications.

Bus routes have been approved by the Office of Defense Transportation and will be operated approximately as they were last year. Some minor changes have been made, necessitated by new pupils entering school.

SPECIAL FOR SATURDAY — Broilers, average 2 1/2 pounds. Ferguson Market.

## U.S. GYPSUM CO. EMPLOYEE DIES IN ACCIDENT

### Funeral for Geo. W. Minard Will be Held Saturday

George W. Minard, United States Gypsum company employee at Alabaster, was killed almost instantly Wednesday forenoon when his body and arm was crushed while he was descending from the cab on the large dragline at the quarry. Mr. Minard was 41 years old, and is survived by his wife, two children and his parents. He had been employed by the gypsum company for the past two years.

The accident occurred at about ten o'clock in the morning. Mr. Minard, who was on a oiler on the big dragline, was assisting Peter Baker, foreman of maintenance, in moving large sheave. Needing a rope-fall in the work, Mr. Minard went up in a room in the cab where tools are kept after one. The dragline was in operation. On the way down from the first platform, it is thought he either fell, or that the rope-fall which he was carrying caught in the platform handrail, and the cab turning around in its operation, caught him while he was trying to disengage the tackle. No one saw the accident. Mr. Baker, who was working on the ground ten or twelve feet below the platform, was not aware that anything was wrong until he heard Mr. Minard's cry. He immediately signaled John Wellna, operator of the dragline, to stop the machine. Mr. Minard was found lying on the platform injured.

At the inquest called by Coroner E. D. Jacques Wednesday afternoon, Mr. Wellna said that he did not know anything about the accident until Mr. Baker signaled for him to stop. He said that the operator's compartment is separate from the main cab, and that he did not know that Mr. Minard had entered the tool room. The noise of the dragline (Turn to No. 3 Back Page)

## Mrs. T. F. Robinson

Mrs. Emma Robinson, wife of Thomas F. Robinson, well known former Alabaster township resident, and sister of the late Collie Johnson of this city, died August 4th at her home in Woodstock, Ontario. She had been ill for the past five months. The deceased was 72 years old and was born in Alabaster township. She is survived by the husband; two sons, Leo Robinson of Caledonia, and John Robinson of Toronto; two daughters, Louise and Hazel, at home; two sisters, Mrs. Hilda Benson of Alabaster and Mrs. Ellen Hogquist of East Tawas, and 20 grandchildren.

The funeral was held August 7 with Requiem High Mass at St. Mary's church, conducted by Rev. E. A. O'Donnell. Fr. Ryan of Caledonia was present in the sanctuary. There was a large attendance of friends and relatives. Many floral tributes and mass cards were received.

## Tawas City Boy Scouts

Tawas City Troop No. 73, Boy Scouts of America, will resume regular meetings next Thursday evening with a meeting of the members of the Troop in the Masonic Temple to begin their 1943 and 1944 fall and winter session. All members are requested to be there on time. The meetings are held from 7 to 9.

On request of the Scoutmaster, the City Library has stocked a number of Merit Badge pamphlets for use of members of the troop. Some of them are available to Second Class Scouts, but most of them are for the study of First Class Scout work only. We thank Miss Haas for getting them for our use. The subjects available are: Athletics, Botany, Camping, Carpentry, Chemistry, Civics, Conservation, First Aid, Handicraft, Hiking, Life Saving, Marksmanship, Radio, Rocks and Minerals, Swimming, Weather, Aeronautics and Insect Life. It is hoped that the members will take full advantage of the opportunities presented by the library to pass their tests in these subject. Counselors in each subject, under the scoutmaster, will examine eligible Scouts.

Scouts have definite important jobs in the Civilian Defense program and it will be necessary that we make a new alignment of the membership to take care of the duties assigned to the troop.

There is room for more members and a great need for more adult helpers.

## Train Service Labor Day

On Labor Day, Monday, Sept. 6, all D. & M. Ry. passenger trains will operate the same as on other week days. Detroit & Mackinac Railway Co.

## EAST TAWAS

Miss Mary Ellen Benish will return from Madison, Wisconsin on Saturday. She has been visiting her brother, Pfc. Allen Benish, who is in training there.

Mr. and Mrs. John Bowen and family of Wayne, Mr. and Mrs. Jos. Ashman and family of Detroit, spent the week end with Mrs. Alvin Stonehouse. The Ashman children remained for a longer visit.

The Mary Martha Class of the Methodist Sunday School and many of their friends met at the church on Tuesday. They spent the day sewing, and enjoyed a pot luck dinner at noon.

Mr. and Mrs. Elmer Durant and daughter, Faye, Mrs. Delois Durant and infant daughter, spent the week end at the home of Mr. and Mrs. Kirk White in Detroit. Delois Durant, hospital attendane, 1st class, at Great Lakes joined them.

Miss Rita Ballard returned home to her home at Long Lake Saturday, after spending the past 10 days with her grandparents, Mr. and Mrs. Jos. Mitchell.

Mr. and Mrs. Earl Chaffner and family of Fayette, Ohio, were guests of Mr. and Mrs. Ralph Wilson from Friday until Monday.

A group of our young people attended a Bible Camp at Brighton last week, returning on Saturday. Those attending included Leona Lofman, Wilma Wideman, Clare Nash, Dick Haglund, Waldo Gustafson, and Wm. Wickert. Rev. M. W. Gustafson accompanied them.

Mr. and Mrs. Jay Platte returned Tuesday from Detroit. Mr. Platte also visited his sisters in Sandusky for a couple of days.

Ed Sheldon of Detroit spent the week end with relatives.

Mrs. Earl Becker and Mrs. Clare Becker, who have been visiting at the Millenburg home for two weeks, returned Thursday to their home in Atlantic, Iowa.

Kermit Gurley has left for Laramie, Wyoming, where he expects to work as fireman for the Union Pacific railroad. Mrs. Gurley and son, will make their home with Mr. and Mrs. Wm. Gurley for the present.

East Tawas Girl Scouts closed their day camp activities with a pot luck dinner and court of award held on the beach near the Community House Thursday evening.

Miss Anna Marie Gustafson left Monday to visit friends in Chicago and Rock Island, Illinois. She will go from there to take up her duties for the year as head of the Music Department of Marion College, Marion, Va.

Mrs. Lucy Fernette left Sunday for Peoria, Ill. to visit relatives. She plans to be gone about a month.

Miss Florence Applin of Detroit spent the week end with her aunt, Miss Helen Applin. Her sister, June, who has visited here for several weeks, returned home with her.

Mrs. Jacob Weber and children, returned Saturday from Detroit, where they spent the past two weeks. Jack Weber, A. S., who was on furlough from Great Lakes at the same time, visited his family while they were in Detroit.

Mrs. Walter Lixey, who has been residing in Detroit, arrived Sunday to make her home with the Herman Bischoff for the duration. Walter entered the Navy on Saturday.

Mrs. Jacob Weber, Sr. of Grand Forks, North Dakota, is visiting Mrs. Jacob Weber, Jr. and children for a few days.

Mr. and Mrs. Ben Frost, Mr. and Mrs. James Kollath of Bay City were Sunday guests in the G. N. Shackuck home.

Mrs. Nina May and son, Donald, returned Monday from a visit in Grand Rapids with friends.

Mrs. Harold Haglund returned Monday to Detroit, after spending the week with her daughter, Barbara and her mother, Mrs. Harry Turner.

N. R. Lincoln and daughter, Mrs. Ben Kirk of Traverse City and Lieut. Wm. Lincoln of Jacksonville, Fla. were guests on Monday of Mrs. H. A. Lincoln and the Fred Adams.

Mrs. John Moffatt was a business visitor at Vestaburg and Sheridan on Saturday and Sunday. Her mother, Mrs. Francis Zuver accompanied her and will remain in Vestaburg for a few weeks.

Mr. and Mrs. Joseph E. Liddicoat have rented the Kermit Gurley home and moved in this week.

Lieut. Martin McCormick was accompanied to Alpena on Wednesday by his mother Mrs. Edw. Z. Meyers, also Mrs. Lydia Thompson, Mrs. Leona Davis, and Mrs. Herman Joppick. He took off by plane for Bryan Field, Texas to resume his duties as instructor.

Richard Benish, who has been visiting friends in Detroit for several days, returned home on Friday.

CASH for Mortgages and unpaid contracts. Low rate of interest. H. E. Friedman, Tawas City.

# CARIBBEAN CONSPIRACY

by BRENDA CONRAD

**THE STORY SO FAR:** Anne Heywood, beautiful daughter of a wealthy New York newspaper publisher, goes to Puerto Rico on an assignment for her father's paper. Also on the island are Pete Wilcox, a reporter on her father's paper, now a U. S. Army intelligence officer; Miguel Valera, a Puerto Rican educated in the United States whose orders to report to an army camp were abruptly cancelled; Richard Taussig, an engineer whose identity as a German agent is suspected but not yet proved; and Russell Porter, a young American engineer, and his wife, Sue. Aware that she must get the story she was sent for Anne follows Mr. Taussig to a secret rendezvous. Hiding in the shadows is Miguel Valera.

## CHAPTER XI

Anne bent her head down and drew farther back into the darkness. Miguel's hand pocketed hers, moved back to his hip creaked and rested there. Her heart beat faster. There must be four or five of them, she thought, trying to count the shuffling feet above her.

Anne closed her eyes and took a long breath. She felt Miguel's taut body relax . . . and then go rigid again so instantly that she opened her eyes in sudden fright. A fifth man had joined the group. It was Diego Gongaro.

Miguel's body was like a steel wire quivering under the impact of a sudden blow. His breath was coming so sharply that Anne thought the men outside must hear it. What had happened she didn't know. Then suddenly it came to her. He hadn't known his uncle was there. He hadn't even known he might be there.

"Let's get out of here, quick," Miguel said quietly.

They slipped through the tunnel and out into the street. He took her arm. As they started down the street, away from the direction she'd come in, Anne glanced back. There was no one in sight. They turned the corner.

She got into the car, tired, desperately tired, all of a sudden. "Miguel," she said.

"Wait a while, Anne."

She sank back against the seat. It was probably just hunger, she thought, but it was funny how this see-sawing of emotions took it out of you. She felt like an old sponge.

He maneuvered the car through the dark streets. They came out suddenly in front of the great Indian laurel tree in the Post Office Plaza. Anne sat up abruptly. She hadn't an idea how they'd got there so quickly.

"Where were we, Miguel?" she asked.

He looked at her sharply.

"If you don't know where you were it's better for you not to know," he said evenly, after a moment. "I wish you could forget the whole thing."

They were both silent for an instant. Then he said, "You've got to promise me very seriously you'll never say a word about it to anyone."

"What were you doing there? And in Mr. Taussig's room the other night?"

"Then you did know," Miguel said without turning his head. His eyes were fixed on the ocean in front of them. "I'm sorry. I hope I didn't hurt you . . . or frighten you too much. I think you'd better tell me all about it. I couldn't ask you before."

"It wasn't you that told Taussig I was there?" Miguel turned abruptly. "Does he know?"

"He knows about me," Anne said. "I don't know about you."

"Listen, Anne," he said earnestly. "You've got to tell me everything you know. It's more important than you think. Have you told Wilcox?"

Anne shook her head. "He thinks you're a spy, or something. I did too. But you're not, are you? I didn't want to believe it. Tell me you're not."

"I'll tell you something no one here knows," he said slowly. "I'm trusting you, Anne. In a way I have to—so you'll see you have to keep absolutely quiet . . . to everybody, Wilcox and everybody else."

"Does . . . your father know?" He shook his head.

"The Commanding General knows there's somebody here—he doesn't know it's me."

He looked around and lowered his voice so that she could hardly hear him.

"The War Department sent me down on a special mission. I can't tell you what it is, exactly. I wasn't sure—until tonight—that Taussig was mixed up in it. I don't know how much he is. And how far I succeed depends on no one knowing I'm doing it. You see that, don't you?"

"I thought we didn't use 'agents provocateurs' in democracies," Anne said.

"Right now we're using whatever we have to."

"Wouldn't it be better if G 2 knew about you, so they wouldn't follow you around?"

He shook his head. "It's better for them to. As long as certain people know G 2 is on my trail they won't be suspicious. And they'll know it sooner or later."

"But isn't it dangerous—working alone?"

"It's important," Miguel said.

"Now begin at the beginning."

Anne hesitated. "If a member of my family seems to be involved," he said quietly, "don't hide it. I wouldn't—"

"It's just your uncle," Anne said quickly, as if his uncle didn't matter. "You don't think your father . . ."

"His voice was a little unsteady. 'I hope not. My father means very much to me. Go on.'"

There were only a few cars in front of the Escambron when Miguel pulled in to the curb. As they got to the door a car coming along the road stopped so suddenly that it sounded as if the brakes had been torn from their linings with an anguished shriek.

"The way you people here punish cars," Anne said without turning.

Miguel looked back. The man at the wheel was not a Puerto Rican. He was Captain Peter Wilcox of the United States Army. He was sitting there staring at them. Miguel hesitated for an instant, turned and followed Anne inside. After all, it was a Saxon who said whatever it was about love and war. Furthermore he had the sharp impression that Captain Wilcox was drunk.

Mr. Richard Taussig had never taken the doctrine of the Master Race particularly seriously, nor did he regard himself, per se, as an example of it. He was a realist and a business man, and his business was Empire, or rather the undermining of existing empires leading to their

They slipped through the tunnel and out into the street.

destruction in the interests of what he referred to as World Order but thought of merely as New Empire for Old.

He had spent too many years in too many ends and corners and crossroads of the world to think that any one nation was in itself superior to all others and especially ordained by God for world domination. He was, however, aware that the desire for world domination, exclusively and without regard for existing concepts of law and ethics, and the acceptance of any and every means to attain it, were the most powerful weapons the human mind could forge. A realist by nature, he had become a cynic by necessity, and an eminently successful opportunist by scientific application of whatever means came to hand. He did not object to men or governments who respected the virtues of honesty, tolerance and sincerity. On the contrary, he preferred dealing with them, because they were always the slowest to recognize the Indian sign of the Double Cross, and by the time they did recognize it it was too late.

On the other hand, and Mr. Taussig was thinking of it as he crossed the Granada lobby toward the newsstand, they were unknown and frequently unpredictable aspects, impalpable, he called them, that had to be recognized and dealt with. Sometimes it took the form of the honesty and unselfishness of a particular individual. More often, in his experience, it was what he'd tried to warn Diego Gongaro about that morning. He had in fact wondered many times whether the emotional equation, coming in with its attendant jealousy, wasn't actually more trouble than it was help. Graciela's rage against the American girl had been a help, certainly, but Miguel Valera's apparent entanglement with her was anything but. Young Wilcox's too. Wilcox fortunately wasn't particularly important. If he had a roving commission and was in his own country, it would be a horse of another color. As it was, his hands were tied, first by Army regulations and second by his unfamiliarity with either the people or the terrain.

Miguel Valera was different. He was, as far as Mr. Taussig could see, potentially much more useful than his uncle, slightly tarred by his connection with the war in Spain,

Perhaps he should have taken a chance and let Gongaro bring him to their meeting that night. Gongaro was positive his nephew was in complete agreement with them. His devotion to his father would make him ready to put Don Alvaro's passive ideas into action if he could be shown the way.

But Mr. Taussig wasn't so sure. It was the emotional equation coming in again. He'd seen him with Anne Heywood on the ship and seen them together in San Juan. He'd seen the look in Miguel's face. He'd seen it in other men's faces and knew what it meant.

Mr. Taussig bought a newspaper and made his way across the lobby to the desk to get his key.

It was extraordinary, he was thinking, how Anne Heywood got in the way. Not only tangibly with Miguel and little Mrs. Porter, but intangibly too. The fact that she was at all serious about him was in effect a potential surveillance that he couldn't afford to risk.

He stopped in front of the counter.

The clerk put his hand up in the pigeon-hole numbered 110, and turned back. "No, she hasn't come in."

The girl standing there hesitated, apparently reluctant to go. Mr. Taussig glanced her over with an appraising eye, wondering what she was up to with Miss Heywood. She was Puerto Rican, dark and full-blown at that brief attractive stage before avoirdupois and middle age set in at thirty. She was expensively dressed, almost too much so, and obviously nervous and ill at ease. She was also obviously determined.

The clerk handed Mr. Taussig his key and two call slips, said "Good evening, sir," in English and turned back to the girl. His attitude was interesting, Mr. Taussig thought. It was as if he had to be polite to her but nevertheless wanted to get her out as quickly as possible.

"You can leave a message for her," he said. "She's usually very late."

The girl moved away without answering, wandered over to the arcade and sat down, looking around with a kind of moody defiance in her set face. She apparently had made up her mind to see the American girl and was not going to be stopped.

"Who is that young lady?" Mr. Taussig inquired, with a slight frown as if he knew her very well but couldn't quite place her at the moment.

The clerk looked at him politely but blankly. "I don't know her name," he said, with exactly the effect of saying "It's none of your business, sir."

Mr. Taussig looked at the slips in his hand. Mrs. Russell Porter had called him at six-thirty. Mrs. R. Porter had called at eight-thirty and left her telephone number.

There were two more slips for calls in his room that had been left earlier. It was working out very nicely, on the whole. Mr. Taussig glanced back at the girl by the door. She was sitting tight. He looked at his watch. It was not quite ten, and this might be interesting. The girl obviously had something on her mind she intended getting off before she went away. On the other hand, time seemed to be important. She kept looking nervously at the clock and comparing it with the gold watch pinned on her dress.

Then she got up abruptly and went to the writing desk. Mr. Taussig watched her chewing the end of the pen, writing, crumpling up what she wrote and stuffing the paper into her bag. Suddenly, in something like despair, she threw the pen down and hurried out without having written anything.

Mr. Taussig went slowly over to the arcade. She was going quickly down the drive. He saw, indistinctly because of his short-range vision, that a car stopped for her to get in and went off toward Santurce, not San Juan.

He went over to the elevator. There was something about the incident that disturbed him without his being able to say exactly what it was. It was another of the intangibles that seemed to make action imperative, before they became tangibles to disrupt his plans. He walked slowly down the hall to his room. A letter that he had been writing in his head from time to time since he talked to Gongaro in the morning was going through his mind again. It was very clear to him. Tomorrow night he would put it on paper for the morning Clipper. "My dear friend," the letter would say. "Thank you for the Guide Book to this beautiful and historic island. It has been interesting and invaluable."

"Have you heard of the tragic thing that happened here today? A beautiful American girl, Miss Anne Heywood, met her death by a frightful accident at the Central Valera. My efforts to save her very nearly resulted in the loss of my own life, which I should gladly have given to save hers."

"She and I were the guests of Senor Alvaro Valera on his sugar plantation outside of San Juan. Senor Valera was not with us, only the foreman of the mill and Senor Diego Gongaro. Senorita Gongaro was also along, but she did not go through the plant with us. Thank God she was spared that."

Stuffed Eggplant Will Keep Your Points Down! (See Recipes Below)

## Harvest Foods

Late summer is the truck gardener's paradise, and this summer we might well say the Victory gardener's paradise, for there are many gay and attractive foods ripening now which may make a truly appetizing appearance on your table. For example, the season's choicest tomatoes in their fullest, ripest red make merry at the table now.

There's also golden-eared, tender sweet corn, at its best when picked not more than half an hour before eating. And one of the most dramatic vegetables to do justice to fall dinners is the eggplant—smooth, deep purple and shiny in appearance.

Most of you are undoubtedly familiar with eggplant served sliced and fried—and there's no doubt it's good that way. But for a change, try it baked with a savory stuffing and make it a main dish feature of your dinner. The total cooking time for preparing it in this new way is only 35 minutes—10 minutes for boiling the eggplant in rapidly boiling water, and then 25 minutes baking in a moderate oven.

\*Stuffed Eggplant. (Serves 6 to 8)

1 eggplant  
1 cup bread croutons  
4 strips bacon, cut in squares  
1 tablespoon onion, minced  
1 teaspoon salt  
½ teaspoon pepper  
1 egg

Cook whole eggplant in boiling water for 10 minutes. Cut lengthwise slice from top of eggplant. Remove pulp with a spoon, leaving a substantial shell. Chop pulp. Add croutons. Fry bacon. Brown onion in bacon fat. Add to eggplant pulp. Add the egg and season with salt and pepper. Fill eggplant shell with the mixture and top with the following:

Corn Flake Crumb Topping.  
2 cups corn flakes  
1 egg yolk  
½ teaspoon dry mustard  
1 teaspoon lemon juice  
¼ teaspoon salt  
Paprika  
Butter

Roll corn flakes to fine crumbs, combine with egg yolk, mustard, lemon juice and salt. Cover stuffed eggplant with crumb mixture, dot with butter and sprinkle with paprika. Bake in a moderate oven (350 degrees) for 25 minutes. Serve on

Roll corn flakes to fine crumbs, combine with egg yolk, mustard, lemon juice and salt. Cover stuffed eggplant with crumb mixture, dot with butter and sprinkle with paprika. Bake in a moderate oven (350 degrees) for 25 minutes. Serve on

**This Week's Menu**  
\*Stuffed Eggplant  
Head Lettuce Salad with French Dressing  
\*Caramel Cinnamon Muffins  
Sugared Peaches Beverage  
\*Recipe Given

a platter with corn on the cob and fresh, sliced tomatoes.

English Baked Squash. (Serves 6)

1 quart peeled, thinly sliced Hubbard squash  
½ teaspoon salt  
4 tablespoons sugar  
½ cup rich cream  
1 teaspoon cinnamon

Place squash in well-greased baking dish. Sprinkle with salt and sugar. Add cream and sprinkle with cinnamon. Bake covered in a slow (325-degree) oven for about 50 minutes.

Another vegetable comes in for honors—and very different but delicious in this dish, too!

Sour Cream Cabbage. (Serves 5 to 6)

1 head of cabbage  
2 tablespoons butter  
1 clove garlic  
½ cup sour cream  
1 tablespoon vinegar  
1 tablespoon sugar  
1 teaspoon salt  
1 egg

Shred the head of cabbage medium fine. Heat the butter in skillet and cook in it slowly the clove of garlic, minced fine. Add cabbage and ¼ cup water. Cover tightly. Bring to a quick steam, reduce heat and cook for 10 more minutes. Just before removing from range, add sour cream sauce made by mixing together the sour cream, vinegar, sugar, salt and egg beaten light. Pour over cabbage and bring to a quick boil. Serve at once.

Here's a spaghetti dish that has a fall tang to it, and is excellent served with fried eggplant and apricot upside-down cake.

Sausages and Spaghetti. (Serves 6)

8 link sausages  
1 small onion, sliced  
1 green pepper, chopped  
1½ teaspoons salt  
¼ teaspoon pepper  
2 tablespoons flour  
2½ cups tomatoes  
1½ cups spaghetti, cooked

Cut sausages in inch lengths; fry until golden brown. Add onion and green pepper and brown lightly. Add seasonings and flour and blend. Add tomatoes and spaghetti. Bake in a greased baking dish in moderate (350-degree) oven 30 minutes.

\*Caramel Cinnamon Muffins. (Makes 1½ dozen 2-inch muffins)

2 cups sifted flour  
2 teaspoons baking powder  
1 teaspoon cinnamon  
1 teaspoon salt  
1 egg  
2 tablespoons light corn syrup or honey  
1 cup milk  
2 tablespoons melted shortening

Sift together flour, baking powder, cinnamon and salt. Beat egg, add syrup, milk and shortening. Blend thoroughly and add to flour mixture. Stir only until flour is moistened. Bake in a moderately hot oven (425 degrees) 20 minutes. Prepare muffin pans as follows for these muffins: Into each muffin cup, put ½ teaspoon butter or margarine and 1 teaspoon corn syrup. Fill with batter ¾ of an inch full.

### ISRAEL CALLED TO BE A HOLY PEOPLE

LESSION TEXT—Leviticus 19:1-4, 11-18, 32-34. GOLDEN TEXT—Be ye holy; for I am holy.—1 Peter 1:16.

Labor Day, 1943, with a war-torn world, finds us facing a social order deeply divided regarding the rights and wrongs of the relationship between man and man, especially capital and labor.

For these many years we have talked of a planned economy where kindness and justice shall control all dealings of man with his fellow man. But to accomplish such a result apart from the hand of God to guide and restrain, has proved to be impossible.

Selfishness and sin control too much of the thought and action of our world. We need to be reminded, as was Israel in our lesson, that God has called us to be a holy people. His holiness is not just something of which one sings in a hymn or talks in a sermon. It means among other things, real social justice.

God has always stood for social righteousness. The underlying moral law of the universe demands it, and the law of God as revealed to His people developed and implemented it for successful functioning, were we only wise enough to see and follow it.

It is time that all God's people emphasize God's moral principles in the life of society. Never forgetting that its first business is to preach the redeeming gospel of Christ, the church ought also to make its influence felt for social righteousness.

Our lesson speaks first of the foundational matter in all social justice, namely:

#### I. Holiness of Heart Before God (Lev. 19:1-4).

Because God is holy, His people were to be holy. It was not a matter of choice or impulse. They belonged to a holy God, they were to be a holy people.

There is an idea current in the church today which has served Satan well, namely, that holiness of life is something which is not required; that it is expected only of a few folk who are spiritually minded, and that the other professed followers of Christ may go on living a worldly, careless, powerless life. It is the devil's own lie. God expects every Christian to be holy.

Such rightness with God shows itself in our second point:

#### II. Holiness of Life Before Men (Lev. 19:11-18, 32-34).

How intensely practical and workable in daily experience were the laws here given to Israel. They are just as apropos to our present day.

1. Honesty (vv. 11-13). No stealing, no perjury, no lying, no oppression, no withholding of wages, none of these could be tolerated, for they dishonored God's name. Think what the elimination of dishonesty in dealing between men would accomplish. Most of our social problems would be solved overnight. Merchants would do well to read verses 35 and 36 in this connection.

2. Kindness (v. 14). The deaf cannot hear what we say about them, nor can the blind see what we do. But the eternal God hears and sees, and He expects us to be kind to them.

3. Fairness (vv. 15, 16). Some assume that a man must be right because he is rich. Others are equally sure that the poor are always worthy of special consideration.

Note the condemnation of the talebearer. Every gossip who reads these words knows that God condemns that evil practice. Nor does He countenance indifference to the welfare of others. Their blood cries out to Him for deliverance (v. 16).

4. Love (vv. 17, 18). "Love thy neighbor as thyself." That is the standard. How much have we done to meet it?

A rebuke may be necessary, but love will not permit grudges, or the seeking of vengeance, even when we have been wronged.

5. Respect (vv. 3, 32). God's Word always stresses the need of a right attitude toward parents. Children need to learn anew the lesson of verse 3.

Then there are the aged (v. 32). Old age pensions doubtless have their place in our complex social order, but perhaps they would not be needed if men and women honored the hoary head and the face of an old man.

A pension does not take the place of honor and love for the aged, even though it may pay the bills. God has high standards.

6. Consideration (vv. 33, 34). The man who knows God will not be party to taking advantage of a stranger. He remembers that he too has been a stranger. To meet with loving kindness and tender care when one is in a strange place should inspire one to go and do likewise.

# ASK ME ANOTHER?

A General Quiz

## The Questions

- The solid portion of the earth is known as what?
- How often does an earthquake occur somewhere in the world?
- What is the highest building in the world?
- What is measured by a hectare?
- The flute, oboe, bassoon and clarinet have what in common?
- What city is called the Monumental city?
- What are the costal bones in the body?
- In what sport is the term trudden used?
- Where was Adolf Hitler born?
- What is the name of a poor cobbler's son who became absolute ruler over more than 160,000,000 people?

## The Answers

- Lithosphere.
- An earthquake strong enough to be felt occurs somewhere in the world every 26 minutes.
- The Empire State building in New York city. It has 102 stories and measures 1,248 feet from its base to top of mooting mast.
- A land. A hectare is equal to 2,471 acres.
- They are all wood-wind instruments.
- Baltimore.
- The ribs.
- Swimming (a racing stroke).
- In Braunauon the Inn, Upper Austria, of Austrian parents.
- Joseph Stalin.

When you see news photos of soldiers "off duty" in camp or behind the battle-lines—notice how often you'll see them smoking a cigarette. There's a good reason for that. Army officials say that cigarettes are an appreciable factor in maintaining morale—and the soldiers themselves add that a carton of cigarettes from home is always welcome. What brand? Well, sales records in Post Exchanges and Canteens show that Camels are the favorite cigarette with men in all the services. Though there are Post Office restrictions on packages to overseas Army men, you can still send Camels to soldiers in the U. S., and to Sailors, Marines, and Coast Guardsmen wherever they are.—Adv.

# CLASSIFIED DEPARTMENT

## FEATHERS WANTED

Churchill Window  
The parish church at Cransley, Northamptonshire, England, has a stained-glass window containing a portrait of Winston Churchill, which is believed to be the only church window that shows a man smoking a cigar.

**TAME UNRULY HAIR**  
Give it that well groomed look. Add lustre. Keep your hair lying flat. Always use Moroline Hair Tonic. Large bottle 25c. Sold everywhere.

**Albatross' Take Off**  
Wing power alone will not allow the black-footed albatross of Pacific islands to take off from the water or ground. It has to have a run of 60 to 90 feet against the wind to rise.

To relieve distress of MONTHLY Female Weakness  
Lydia E. Pinkham's Vegetable Compound is made especially for women to help relieve periodic pain with its weak, tired, nervous, blue feelings—due to functional monthly disturbances. Taken regularly—Pinkham's Compound helps build up resistance against such symptoms. Here is a product that helps nature and that's the kind to buy! Famous for almost a century. Thousands upon thousands of women have reported benefits. Follow label directions. Worth trying!  
LYDIA E. PINKHAM'S VEGETABLE COMPOUND

WNU-O 35-43

# Kidneys Must Work Well

For You To Feel Well  
24 hours every day, 7 days every week, never stopping, the kidneys filter waste matter from the blood. If more people were aware of how the kidneys must constantly remove surplus fluid, excess acids and other waste matter that cannot stay in the blood without injury to health, there would be better understanding of why the whole system is upset when kidneys fail to function properly. Burning, scanty or too frequent urination sometimes warns that something is wrong. You may suffer nagging backache, headaches, dizziness, rheumatic pains, getting up at night, swelling. Why not try Doan's Pills? You will be using a medicine recommended the country over. Doan's stimulate the function of the kidneys and help them to flush out poisonous waste from the blood. They contain nothing harmful. Get Doan's today. Use with confidence. At all drug stores.

# DOAN'S PILLS

**Grain-Eating Insects Should Be Destroyed**

**Pests Spoil Millions Of Bushels Annually**

When every bushel of grain is urgently needed as a war material, it is more important than ever to see that as little as possible is eaten or spoiled by insects that infest granaries.

To assist farmers in combating these little saboteurs, the University of California has published a bulletin entitled "Insects Affecting Stored Food Products." This booklet describes many of the pests of the South and Southwest and gives the methods for their control.

Among the most common is the granary weevil. It is chestnut brown, about an eighth of an inch long, and hard shelled, with a long snout. The adult female bores into a grain with her beak and deposits an egg in it. She can lay about 200 eggs in this way. The young hatch in a week or two and eat out the inside of the grain enclosing them. Three or four weeks later they become adults, and in turn lay eggs, so under favorable conditions seven or eight generations are produced in a single year.

In the household the granary weevil may be controlled by locating and destroying the infested materials, and by protecting other food

products from it. In two or three months it should be eradicated. In storage and warehouse, fumigation, heat, or cold treatments are usually required.

**Grain Borer Nuisance.**

A serious nuisance in the South is the lesser grain borer. It is somewhat less than an eighth of an inch in length, and has a cylindrical, stubby body. The larvae hatch in a week or two from eggs attached loosely to the grains. Wooden structures that have contained infested grain should be fumigated or sprayed to kill the adults.

A somewhat larger beetle is the cadelle. It is often more than a quarter of an inch long, and black or dark brown. It attacks stored grain as well as cereal products and shelled nuts, and often damages wooden storage bins.

**Common Grain Eater.**

Another common grain eater is the confused flour beetle, a reddish brown insect, about an eighth of an inch long, with a hard, cylindrical body. It is found in large numbers all over the world. It prefers flour or other processed cereal, but will attack grain too. Eggs hatch in a week to ten days.

Other grain-destroying insects are: the flat grain beetle, reddish brown, and a sixteenth of an inch long; the broad-horned flour beetle, similar to the confused flour beetle, but slightly larger, the yellow meal worm and the dark meal worm, both dull black in the adult stage.

Heat is simple means of killing these pests. Flour heated to 130 degrees will be freed of it, yet the flour will be uninjured. Fumigation is most satisfactory in large establishments.

**Ring Worm on Calf**

To stop ring worm on a calf's neck, first remove the scales by the use of a stiff brush, soap and water, says J. A. Arey, at N. C. State college, and then paint the spot with tincture of iodine.

Ring worm is a parasitic disease and occurs on the calf's head, neck, shoulders and rump. The hair comes out and a gray scaly crust is formed over the bare surface. The stalls should be thoroughly cleaned and whitewashed.

**Lawyer Met His Match In Tinsmith, On and Off**

A lawyer, noted for his success in cross-examination, asked a witness how long he had worked at his business of tin-roofing. "I have worked at it off and on for some time." "How long off and on?" "Sixty-five years." "How old are you?" "Sixty-five." "Then you have been a tin-roofer from birth?" "No, sir; of course I haven't." "Then why do you say you have worked at your trade 65 years?" "Because you asked how long off and on I had worked at it. I have worked at the trade 65 years—20 years on and 45 off." Here there was a roar in the courtroom, but not at the expense of the witness, and the lawyer hurriedly finished his examination in great confusion.

**FRETFUL CHILDREN**

Many mothers rely on easy-to-take Mother Gray's Sweet Powders when a laxative is needed by the little ones. Equally effective for grownups—has 45 years of country-wide approval. Package of 16 easy-to-take powders, 35c. At all drug stores.

**Earth Slowing Up**  
The earth is gradually slowing in its rotation, with a consequent lengthening of our day amounting to about one-thousandth of a second per century.

# The Tawas Herald

Published every Friday and entered at the Tawas City Postoffice as second class matter

P. N. THORNTON, Publisher

## Hemlock

Mr. and Mrs. Will Brown of Tawas City spent Sunday afternoon with Mr. and Mrs. N. C. Miller. The many friends of Mr. Miller will be pleased to learn that he is gaining after his recent operation.

Mrs. Nona Giroux left last week for Georgia to spend some time with her son, Philip, who is in the army.

Mrs. Rose Watts and two grandchildren of Iawas City spent a few days with Robert and Philip Watts.

Mrs. Fred Pfahl left Thursday last for Flint to visit her sister, Mrs. John Van Wagner, who underwent an operation at Hurley Hospital.

Mrs. Walter Pringle of McIvor, sister, Mable Decker, of West Branch, Mr. and Mrs. Harry Van Patten, Mrs. Sandy Parker, Mr. and Mrs. Robert Cox, and Mrs. Charles Brown called on Mr. and Mrs. Jas. Chambers the past week.

Mr. and Mrs. C. E. Earl, Roy Sims, Mrs. Lucy Allen, Mr. and Mrs. Chas. Brown and Arthur Rogers attended Pomona Grange at Whittemore Friday night. Mr. and Mrs. C. E. Earl were elected delegates to the State Grange for Isoco Pomona Grange.

Jerry Herriman, who has spent the summer with Mr. and Mrs. Will Herriman, left last Friday for Detroit.

Wm. Rhodes called on Mr. and Mrs. L. D. Watts last Sunday.

Mrs. Etta Frockins of Flint spent the week end with her sister, Mrs. L. D. Watts, and husband.

Mr. and Mrs. Nelson Ulman and Mr. and Mrs. Russell Binder and sons called on Mr. and Mrs. N. C. Miller last Sunday.

We are sorry to hear that Robert Watts is ill.

Mr. and Mrs. Ralph Burt and daughter spent Sunday afternoon in Reno with her parents, Mr. and Mrs. Harold Black, Jackie, who has been spending the week with his grandparents, returned home with them.

Eugene Coats is home from the Navy on leave. He has been at sea.

## Sherman

A number from here attended the keno party at Omer Sunday afternoon.

Mr. and Mrs. Charles Thornton and daughter of Muskegon returned home Sunday after spending a week visiting relatives here.

We were sorry to hear that Roy Bowsby had his leg broken last week while at work for the Dow Chemical at Midland. He was taken to Mercy hospital at Bay City for treatment.

Mrs. Paul Harvey returned home from Detroit last Saturday. She expects to remain here for the winter.

Mr. and Mrs. Glenn Schneider of Tawas City were callers here Saturday.

Mrs. George Nickles of Pinconning visited relatives here for a week.

Ephraim Parent and L. W. Eckstein were at Bay City Monday on business. We understand Mr. Eckstein has sold his farm and personal property to a Bay City party.

Harold Parent has some carpenters and men at work remodeling his home and building a new porch.

Mrs. Silas Thornton and son, Jack, were at Tawas City on business on Tuesday.

Mrs. James Brigham of Bay City spent the week end with relatives.

Mr. and Mrs. Silas Thornton purchased the house owned by Consumers Power Co. at National City and had it moved to McIvor where they own 40 acres of land. They are having the house remodeled and expect to make it their home.

## Subways in 20 Cities

Subway or elevated railway systems are now found in 20 cities of the world. Cities having subways are Barcelona, Berlin, Boston, Buenos Aires, Glasgow, London, Madrid, Moscow, New York, Osaka, Paris, Philadelphia, Sydney and Tokyo. Subways are under construction in Chicago, Munich and Prague. Elevated railway systems are found in Chicago, Hamburg, Liverpool, New York and Philadelphia; mono-rail elevated, Elberfeld, Germany

## Pigeons Fly Cop

An Akron, Ohio, officer testified he knew his prisoner was drunk because his eyes were bloodshot, whereupon the prisoner calmly removed his glass eye and the judge said "case dismissed." The Messrs. Kurwoski and Stawdohr of Chicago, each claiming ownership of three pigeons, suggested that the judge release the birds which then would wing home to their rightful cotes. A window was opened, the doves flew forth—whither no man knoweth to this day.

## Navy Has Foot Trouble

Even the navy has its foot trouble. The United States Naval Reserve corps has decided that among the specialists eligible for appointment are chiropodists, or podiatrists. Action of the navy in appointing chiropodists follows the report of the Council of the American Medical Association that "chiropody is a department of the healing service and it has its basis in scientific and demonstrated knowledge and satisfies a gap that general medicine has failed to fill."

## Course in Dancing

The University of Toledo has added a course in ballroom dancing.

## LOWER HEMLOCK

Jimmie Chambers of Detroit spent the week end with his parents, Mr. and Mrs. Jas. Chambers.

Mr. and Mrs. Henry Fahsel called on Mr. and Mrs. Jas. Chambers one evening last week.

Andrew Klinger of Flint spent the week end with his wife and family.

Mrs. Frank Hiltz (Thelma Katterman) returned after spending a few days in Bay City. She was accompanied home by her sister, Mrs. Russel Long and two children.

Mrs. Carter and two grandchildren of Glenn visited at the W. E. Laidlaw home over the weekend.

Mrs. Mable Decker of West Branch visited at the McArdle home on Tuesday.

Mrs. Wilfred Youngs and children and Paul Anschuetz spent an evening the past week at the Otto Look home.

Mrs. Rose Watts attended the Baptist Association meeting at Mikado.

Mrs. Clyde Evril and daughter, Ann, visited Mrs. Arthur Wendt Thursday evening.

Mr. and Mrs. John McArdle spent the week end in Bay City with relatives.

Mrs. Carrie Radtke returned to her home in Saginaw after spending a few days with her mother, Mrs. Mary Katterman.

A birthday party and pot luck dinner was held at the Laidlawville school in honor of Helen Schmalz. She received a number of pretty and useful gifts. Everyone enjoyed a pleasant afternoon.

Mrs. August Lorenz and children are spending a week in Sebawaing with relatives.

Clarence Earl is spending two weeks in Detroit with relatives.

Friends are sorry to hear of Robert Watt's illness.

Miss Gertrude Pettijohn of Kalamazoo and Adrian spent a few days with her grandmother, Mrs. Mary Katterman.

Mr. and Mrs. Robert Cox are spending several days with Mr. and Mrs. James Chambers.

Mrs. Waldo Curry, Sr., spent Monday afternoon with her mother, Mrs. Anschuetz, at East Tawas.

Mr. and Mrs. Floyd Lossing and children of Bay City spent the week end at their home here. On Sunday Mrs. (Andrew Lossing, Gertrude and David spent the day with them and enjoyed a fish dinner.

Mr. and Mrs. Frank Schneider and Mrs. Sarah Van Sickle spent Sunday with Mr. and Mrs. Clarence Curry and family.

Mrs. Carrie Radtke and Miss Gertrude Pettijohn were callers at the Charles Katterman home on Tuesday.

## Urge to Kick Cop

The Very Rev. Edmund J. Reilly of a Brooklyn church found a note on the collection plate signed "Patrick Gunn," inviting the good man to step outside after mass for a fist fight. In Minneapolis a pretty woman walked up to a policeman and without ado kicked him smartly on the shin. He said "ouch," and she let him have another. Her explanation for such quaint conduct was simple. "All my life," she told the judge, "I've wanted to kick a cop."

## Fabric Gloves

Gloves made of fabric wash clean in a twinkling, provided that the washing is done as soon as they look wilted. Lukewarm soapsuds for the washing and clear, lukewarm water for the rinsing, are all that they need to look like new. Pat the moisture out with a towel to make them dry more quickly, then stretch the gloves lengthwise, and hang them over a towel bar in the bathroom or dry flat on a clean turkish towel.

## Caterpillars

Caterpillars have six legs. The conspicuous fleshy claspers which often are mistaken for its legs are not true legs but are called "prolegs."

## U. S. Weather Bureau

The United States weather bureau functions under the department of commerce.

## State of Michigan

The Probate Court for the county of Isoco.

At a session of said court, held at the Probate Office in the city of Tawas City in said county, on the 23rd day of August, 1943.

Present: Hon. H. Read Smith, Judge of Probate.

In the matter of the estate of Otto Handt, Deceased.

Russell H. McKenzie having filed in said Court his petition, praying for license to sell the interest of said estate in certain real estate therein described.

It is Ordered, That the 20th day of September, A. D. 1943, at ten o'clock in the forenoon, EWT, at said probate office, be and is hereby appointed for hearing said petition, and that all persons interested in said estate appear before said court, at said time and place, to show cause why a license to sell the interest of said estate in said real estate should not be granted.

It is Further Ordered, That public notice thereof be given by publication of a copy of this order, once in each week for three weeks consecutively, previous to said day of hearing in The Tawas Herald a newspaper printed and circulated in said county.

H. READ SMITH, Judge of Probate.

A true copy. Annette D. Svoke, Register of Probate.

## LOOKING BACKWARD

40 Years Ago—September 25, 1903.

The new dynamo for the East Tawas electric light plant is being installed by Electrician Frank Black.

A new brick parsonage is being erected by Emanuel Lutheran church.

Peter Hammon of Wilmington, Ohio, has purchased a farm in Sherman township.

Miss Eva Drake leaves today for Grand Marais, where she will resume her duties as teacher in the public schools in that place.

John Schuster of Xenia, Ohio, has purchased the Robinson farm in Baldwin township. This is one of the finest farms in Isoco county.

Q. C. Martin is planning to erect a store at Emery Junction.

A modern central heating plant is being constructed for the courthouse and jail. Antim Valin has the contract for constructing a brick boiler room and storage room for coal. The Saginaw Heating and Ventilating Co. will install the system with steam mains leading from the plant to the courthouse and jail building.

Ben Sawyer has put a new peanut roaster in his place of business.

The Cadillac of Detroit won the Detroit Free Press trophy at Tuesday's Tawas Bay yacht races. The Mistake of Alpena captured the D. & M. trophy. Among the entries were Sultana of St. Clair, Jennie and Aurora of Bay City, Myrta, Wave and Whitecap. Commodore Fletcher's steam yacht, Winijah was here.

James Snowdy, formerly of Whittemore, is now publisher of the Onaway Interlake and plans to establish a newspaper at Millersburg.

The American Baptist chapel will hold services tonight at the D. & M. depot siding.

Tawas City resident traveler writes that the sod house is very much in evidence in Nebraska. He says that they are comfortable, but lack many things deemed necessities.

25 Years Ago—September 30, 1918. Corp. Audie Johnson of East Tawas was killed in action in France, July 21. Previous to going to France last February he had served on the Mexican border.

Miss Amanda Hamilton and little niece, Winnie Babcock, of Detroit are visiting at East Tawas.

It is estimated that 200 Isoco county volunteer and drafted men are now in the armed forces.

Captain Mae Slosser of Lancaster, Pa., is visiting her parents at Hale.

With the day fixed in August for the fall of Paris—the Germans have been forced backward all along their lines. Fully 1,000,000 field gray men are fleeing eastward. Along the Vesle river German troops are holding precarious positions after their retreat from the Marne Valley.

Fred Roberts, junior officer on the U. S. S. Minnesota, is visiting his parents, Rev. and Mrs. Joshua Roberts.

Labor Day was celebrated at Tawas Beach under the auspices of the East Tawas Chamber of Commerce.

Otto Rahl of Hale has been secured as superintendent of the Whittemore schools.

Miss Florence Scarlett of Ypsilanti is visiting relatives on the Hemlock road.

Mr. and Mrs. Harold Black of Reno are visiting relatives in Tuscola county.

Pvt. Fred Pfahl of Camp Custer spent a few days at his home here on pass.

Men from 18 to 45, who have not previously registered, will register for military service September 12.

The Buleigh co-operative threshers have purchased a new engine.

## Vitamin C

Vitamin C prevents scurvy. Keep teeth, bones, blood vessels healthy, helps prevent anemia. Daily requirements: Oranges, lemons, grapefruit, or tomatoes in any form (juice, soup, raw, canned). Also in onions, berries and vegetables. Very unstable. Destroyed by overcooking and too much water. Use raw fruit and vegetables when possible; if cooked, serve juices. Potatoes baked in skins retain vitamin C.

## Auto in 1907 \$2,000

The motorist who is worrying about the rumors of advancing automobile prices should be glad this isn't 1907. Automobile prices today average about one-third what they were in 1907. In that year the average automobile cost \$2,131, with top, windshield and horn extra.

## Birds' Egg Shapes

Birds' eggs have not uniform shape. The various types are elliptical, elliptical-ovate, elongate-ovate, almost spherical, ovate and pyriform.

## State of Michigan

The Probate Court for the county of Isoco.

At a session of said Court, held at the Probate Office in the city of Tawas City, in said county on the 23rd day of August, A. D. 1943.

Present, Hon. H. Read Smith, Judge of Probate.

In the matter of the estate of Florence Fahash, Deceased.

Carl B. Babcock having filed said court his petition praying that the administration of said estate be granted to Carl B. Babcock or to some other suitable person.

It is ordered that the 20th day of Aug., A. D. 1943, at ten o'clock E. W. T. in the forenoon, at said probate office, be and is hereby appointed for hearing said petition.

It is Further Ordered, That notice thereof be given by publication of a copy of hereof for three successive weeks previous to said day of hearing, in The Tawas Herald, a newspaper printed and circulated in said county, and that the petitioner shall, at least ten (10) days prior to such hearing, cause a copy of this notice to be mailed to each party in interest in this estate at his last known address by registered mail, return receipt demanded.

H. READ SMITH, Judge of Probate.

Annette D. Svoke, Register of Probate.

A true copy.

## State of Michigan

The Probate Court for the county of Isoco.

At a session of said court, held at the Probate Office in the City of Tawas City in the said county, on the 16th day of August, 1943.

Present, Honorable H. Read Smith, Judge of Probate.

In the Matter of the Estate of Rose Stephens, Deceased.

It appearing to the court that the time for presentation of claims against said estate should be limited, and that a time and place be appointed to receive, examine and adjust all claims and demands against said deceased by and before said court;

It is Ordered, That creditors of said deceased are required to present their claims to said court at said Probate Office on or before the 25th day of October, 1943, E. W. T., at ten o'clock in the forenoon, said time and place being hereby appointed for the examination and adjustment of all claims and demands against said deceased.

It is further Ordered, That public notice thereof be given by publication of a copy of this order for three successive weeks previous to said day of hearing in The Tawas Herald, a newspaper printed and circulated in said county.

## State of Michigan

The Probate Court for the county of Isoco.

At a session of said court, held at the Probate Office in the city of Tawas City in said county on the 26th day of July, 1943.

Present, Hon. H. Read Smith, Judge of Probate.

In the matter of the estate of Albert Marks, deceased.

It appearing to the court that the time for presentation of claims against said estate should be limited, and that a time and place be appointed to receive, examine and adjust all claims and demands against said deceased by and before said court.

It is Ordered, That creditors of said deceased are required to present their claims to said court at said Probate Office on or before the 4th day of October 1943, at ten o'clock in the forenoon EWT, said time and place being hereby appointed for the examination and adjustment of all claims and demands against said deceased.

It is further ordered, That public notice thereof be given by publication of a copy of this order for three successive weeks previous to said day of hearing in the Tawas Herald, a newspaper printed and circulated in said county.

A true copy. H. READ SMITH, Judge of Probate.

Annette D. Svoke, Register of Probate.

## New Library Hours

The new library hours at the Tawas City Library are from 1:30 to 5:30 on Monday, Wednesday, Thursday and Saturday.

The Navy Club will begin next Monday in all of the county libraries and the boys and girls wanting to join, should apply for their badge ask the Librarian about the rules.

## Notice to Taxpayers

I will collect taxes at the city hall on Friday and Saturday afternoons from 1:00 to 4:30.

Margaret Lansky, City Treasurer.

## Subways in 20 Cities

Subway or elevated railway systems are now found in 20 cities of the world. Cities having subways are Barcelona, Berlin, Boston, Buenos Aires, Glasgow, London, Madrid, Moscow, New York, Osaka, Paris, Philadelphia, Sydney and Tokyo. Subways are under construction in Chicago, Munich and Prague. Elevated railway systems are found in Chicago, Hamburg, Liverpool, New York and Philadelphia; mono-rail elevated, Elberfeld, Germany

## Measuring Baking Powder

Baking powder should be measured exactly with the standard one level teaspoon. Too much baking powder makes for coarse, dry, crumbly texture and poor volume in the baked product.

## What You Buy With WAR BONDS

### Water Camel

Thirst is one enemy of armies and navies that may be frustrated by a generous supply of water. Typhus, another dreaded plague is another enemy that must be subdued in Africa, in the jungle islands of the Pacific.

So the "Lister Bag," more often called the "water camel," or just "camel," is used. The "Lister Bag" is a khaki colored canvas bag having a capacity of about 30 gallons. It will require many War Bonds to provide enough "camels" for our fighting forces at home and abroad. Yours too! "Back the attack with War Bonds." U. S. Treasury Department

### Towel Buying

The more loops per square inch of drying surface, the more absorbent the towel. For maximum absorbency the towel should be made of soft, evenly spun cotton with a minimum of twist in the yarn. White towels are more absorbent; pastels, next; deep tones, least.

### Mobile Post Office

Second experimental highway post office route has been placed in operation between Indianapolis and South Bend, Ind. The route is 151.8 miles, and a round trip will be made daily, except Sundays and holidays

### Opening New Pattern

When opening a new pattern, write the number of the pattern on each piece. No matter how scattered the pieces may get, you will know to which pattern they belong.

### Dragon Flag

The "Dragon Flag" of England was flown in the famous battles at Lewes in 1216, and at Crecy in 1346 and at Bosworth Field in 1485. After that its use was discontinued.

### Women's Labor Cheaper

In many parts of India women's labor is cheaper than animals.

Carried Own Spices Fashionable gentlemen of the Sev-enteenth century carried spices in their pockets, ever ready for use in flavoring food or drink.

Millions for Amusements Americans spend \$3,000,000 a day for amusements, according to the census and \$2,500,000 a day for hotel service.

Prohibition Agent America's first prohibition agent was an Indian. In 1662, Chief Oram was appointed prohibition agent by the Dutch governor of New Netherlands.

Polonium Polonium, worth 57,000 times as much as gold, is being used in the electrodes of a new spark plug.

### Collects 286 Rare Odors

Collecting rare odors is the hobby of Dr. Ralph Bienfang of the University of Oklahoma school of pharmacy. He has 286 of them from far corners of the earth, such as oil of rose from Baghdad; hyssop from central Asia and zdravetz from Bulgaria. Dr. Bienfang preserves the odor in oil and transfers it to a card. The card holds the odor for as long as two years and is filed in a card index.

### Vitamin C

Vitamin C prevents scurvy. Key teeth, bones, blood vessels healthy helps prevent anemia. Daily requirements: Oranges, lemons, grapefruit, or tomatoes in any form (juice, soup, raw, canned). Also in onions, berries and vegetables. Very unstable. Destroyed by overcooking and too much water. Use raw fruit and vegetables when possible; if cooked, serve juices. Potatoes baked in skins retain vitamin C.

### Stool Pigeons

Recently a crippled holdup man made a desperate attempt to escape from the custody of a deputy by felling him with a crutch outside of Tombs prison.

### State Land Sale

NOTICE IS HEREBY GIVEN, That pursuant to the provisions of Section 131 of Act 206, Public Acts of 1893, as amended, state lands in IOSCO COUNTY will be placed on the market by offering same for sale at public auction, Wednesday, September 22, 1943, at ten o'clock in the forenoon, Central War Time, in the county courthouse, West Branch, Michigan.

Pursuant to statutes, deeds conveying lands so offered will reserve the following to the State of Michigan: all rights to minerals, oil, gas, sand, gravel, marl, etc.; rights of ingress and egress over and across lands lying along any water course or stream; all rights to aboriginal antiquities, mounds, earthworks, etc. Pursuant to Section 6, Act 155, P. A. 1937, as amended, any person (former owner) who at the time of the tax sale had any interest in lands sold, shall have the right for a period of thirty days after the public auction to meet the highest bidder at the sale will receive a thirty-day purchase certificate. If the former owner does not redeem, deed will be issued to highest bidder at the expiration of thirty days or in the event the former owner does redeem, the high bidder will receive a refund of the purchase price. Former owners, under the provisions of this sale, do not acquire mineral rights.

Further particulars and list of property to be offered are available at the county treasurer's office at Tawas City, Michigan, Conservation District Headquarters, Mio, Michigan, or Lands Division, Department of Conservation, Lansing. Department of Conservation, P. J. Hoffmaster, Director.

### State Land Sale

NOTICE IS HEREBY GIVEN, That state lands described below, upon which application has been filed by the former owner, will be offered for sale at public auction as required by Section 6, Act 155, Public Acts of 1937, as amended, Wednesday, September 22, 1943, at one o'clock in the afternoon, Central War Time, in the county courthouse, West Branch, Michigan.

A part of S 1/2 SE 1/4, lying South of D & M RR right of way, beginning at the SE corner of Section 4, thence West 2067 feet, North 846.8 feet, thence North 78° East 2664 feet to East line of Section 4, thence South 1320 feet to beginning, containing 63.78 acres, Section 4, Town 21 North, Range 7 East.

Full particulars are available at the County Treasurer's office Tawas City, Michigan, Conservation Headquarters, Mio, Michigan, and Lands Division, Department of Conservation, Lansing. Department of Conservation, P. J. Hoffmaster, Director.

### State of Michigan

The Probate Court for the County of Iosco.

At a session of said Court, held at the Probate Office in the City of Tawas City in said County, on the 20th day of August, 1943.

Present: Hon. H. Read Smith, Judge of Probate.

In the matter of the estate of Elton Thompson, Deceased.

It appearing to the court that the time for presentation of the claims against said estate should be limited and that a time and place appointed to receive, examine and adjust all claims and demands against said deceased by and before said court;

It is Ordered, That all creditors of said deceased are required to present their claims to said court at said Probate Office on or before the 25th day of October, 1943, at ten o'clock the forenoon, EWT, said time and place being hereby appointed for the examination and adjustment of all claims and demands against said deceased.

It is Further Ordered, That Public notice thereof be given by publication of a copy of this order, once in each week for three weeks consecutively, previous to said day of hearing, in The Tawas Herald, a newspaper printed and circulated in said county.

### Dunking Old Idea

Dunking in your "bunchum" is a custom as ancient as Arabia. It was there where the world's first cup of coffee was made from some strange, bright red berries the Arabians called "bunn." The beverage became "bunchum" and was thick enough to scoop out of the bowl with bits of food. Result: Introduction of dunking to the world!

### Turnips Tell 'Turndown'

If a maiden wishes to tell a young man that his attentions are unwelcome to her in Westphalia, Germany, she sets a dish of turnips before him at the table.

### Animal Loss Out

The animal loss from forest fires has been cut in half in the past 10 years.

### Reconveyance Notice

To the Owner or Owners of Any and All Interests in or Liens Upon the Lands Herein Described: Take Notice: That sale has been lawfully made of the following described land for unpaid taxes thereon and that the undersigned has title thereto under tax deed or deeds issued therefor, and that you are entitled to a reconveyance thereof, at any time within six months, after return of service of this notice, upon payment to the undersigned or to the Register in Chancery of the county in which the lands lie of all sums paid upon such purchase, together with fifty per centum additional thereto, and the fees of the Sheriff for the service or cost of publication of this notice, which fee shall be the same as provided by law for service of subpoenas or for orders of publication or the cost of such service by registered mail, and the further sum of five dollars for each description, without other additional cost or charges; Provided, That with respect to purchasers at the tax sale held in the years 1938, 1939 and 1940 the sum stated in such notice as a condition of reconveyance shall only be all sums paid as a condition of the tax title purchase, together with ten per centum additional thereto. If payment is not made, the undersigned will institute proceedings for possession of the land.

Description of the Land: State of Michigan, County of Iosco, Lots One and Four, Block Seven, Iosco Heights, Plainfield Township, according to Plat thereof.

Amount paid: \$1.91, taxes for year 1938.

Jesse Shellenbarger,  
Assignee of Robert Curtis.

If payment is not made, the undersigned will institute proceedings for possession of the land.

Description of the Land: State of Michigan, County of Iosco, Lot Two, Oscoda Beach, Oscoda township, according to the plat thereof.

Amount of Taxes Paid: For years 1930 to 1935, \$3.16; 1936, 59c; 1937, \$1.53; 1938, \$1.85; 1939, \$2.25.

Charles S. Hennigar,  
By N. C. Hartingh, Attorney,  
Place of Business,  
Tawas City, Michigan.

To John J. Weltzer, last grantee in the regular chain of title of such lands, or any interest therein, as appearing by the records in the office of the Register of Deeds of said County, at the date of the delivery of this notice to the Sheriff for service.

After careful inquiry the Sheriff of Wayne county was unable to ascertain the whereabouts or postoffice address of John J. Weltzer.

### Abnormal Tire Wear

If tires show abnormal wear the trouble may be caused by underinflation or misaligned wheels, according to the California State Automobile association. Another cause of uneven tire wear is unbalanced wheels. At high speed a wheel only slightly out of balance develops a powerful centrifugal force. This force jerks the wheel up and down as it rotates. In addition to abnormal up and down motion there also may be side motion as the heavy spot moves fore and aft. Unbalanced wheels frequently cause shimmy, abnormal wear in steering mechanism, as well as cupped spots in the tire tread.

### Removing Glass Stopper

To remove a tight glass stopper, wrap around the neck of the bottle a cloth which has been wrung out of hot water; or soak it in vinegar for a while; work it gently and it will soon loosen.

### Shortage Stops Cars

Switzerland's shortage of automobile parts, caused by the war, has stopped the operation of many cars.

### Cat Doctor

A cat doctor does not cure sick felines. He is a tractor mechanic.

### Reno

The W. S. C. S. of the Whittemore Methodist church met at the home of Mrs. Fred Moore for an all day meeting with a pot luck dinner at noon. Twenty members were present. Mrs. Laurel Law was accepted as a new member. The next meeting will be held in two weeks with Rev. and Mrs. Hildebrand at the parsonage.

On August 25, a daughter was born to Pfc. and Mrs. Alfred Anderson at Mercy Hospital Bay City. The little miss weighed eight pounds and will answer to the name of Janice Alfreda. Pfc. Anderson is home on furlough from Camp Barkley, Texas, where he is in the Medical Corps.

Mr. and Mrs. Fred C. Moore spent last week end in Ovid and Flint.

Mrs. Hazel Wesenick took her granddaughter, Phyllis, to her home in Flint last week. Albert Wesenick, who has been a guest at his nephew's home for several weeks returned home with her.

Mrs. Thomas Frockins, formerly of this place, now of Flint, has been visiting at the Charles Thompson home.

Miss Shirley Waters has returned from a trip to Chicago.

Mr. and Mrs. James Jacobs and two sons spent Sunday at the Anderson-Roberts home to visit with her brother, Pfc. Alfred Anderson.

### Food Was Ready

So hurriedly did Admiral Byrd's 1929 expedition to Little America leave there that pans of food were left on the stove. When they returned in 1933, they lighted fires, warmed and ate the perfectly preserved contents of the pans.

### Tung Oil From China

U. S. imports of tung oil from China have been seriously curtailed by the war. The oil is used as a waterproofing and drying agent in paints and varnishes.

### First Census

The first serious attempt to estimate the population of the earth is believed to have been made by an Italian scientist in 1661.

### Sun Radiates Most Heat

The sun radiates more heat in one second than the earth receives in 60 years.

OIL LEASES WANTED In northeastern Michigan by one of Michigan's most active oil drilling companies, now participating in drilling operations on six wildcat oil wells.

Please give complete legal description of your farm acreage, section number, town and range information.

Send this advertisement together with your resident address to: We pay good lease rentals but are primarily interested in deep drilling operations for new crude oil production.

OIL DRILLING COMPANY  
Box 375, The Tawas Herald

Million Pounds of Milk  
An average of a million pounds of milk daily are handled by dairymen in the Cleveland area.

### Philately

Total philatelic value of all stamps in the possession of collectors and dealers in the United States alone is estimated at about \$225,000,000.

### Car Knocker

A car knocker does not criticize your automobile. He's a tank car repairman in the car building industry.

### Texas Roses

Texas cultivates 16,000 varieties of roses and harvests more than 20,000,000 rose bushes a year, more than half of the world's commercial supply.

### \$15,000,000 Too Much

A financial authority estimates that increased prices in the World War period cost the country \$15,000,000,000 more than it need have paid.

### Star's Crab

A starch crab, instead of being a food faddist, is in the confectionery business. A k&w mixer is in the same business.

"Sis asked me to tell you!"

"My kid sister's a long distance telephone operator. She says there are so many calls these days that lots of the lines are 'overloaded.'"

"At the base I just left down in the South Pacific, we knew about 'overloads.' We had a lot of doctors and nurses and beds, but sometimes after a big scrap, there'd be so many to take care of at one time that some of those boys would just have to wait their turn."

"Sis says the telephone's like that, too; that your long distance call today may delay another call that is even more urgent than your own."

Long distance lines to war-busy centers are particularly congested. Therefore, please . . .

1. Make only the most necessary calls to war-activity areas.
2. If the operator asks you to limit your call to 5 minutes, please co-operate . . . her request means others are waiting.

MICHIGAN BELL TELEPHONE COMPANY

# MY JIMMY NEEDS YOUR HELP!

Jimmy's over there now, fighting our enemies to keep the Stars and Stripes flying.

"Before he left, he told me they are going to need more equipment, more ammunition and more food for INVASION of enemy lands."

"The more bonds the folks at home buy—the more they'll be helping us fighters to win." That's what Jimmy said.

The 3rd War Loan of 15 billion dollars must produce the money to pay for these essentials to victory.

Buy at least one EXTRA \$100 Bond besides your

regular bond purchases—many will have to invest thousands!

Don't think that what you do isn't important. It will take all every individual in America can raise to put this 3rd War Loan over the top. So buy more bonds out of your pay—out of extra income—out of "rainy-day" funds!

The quicker you do that the more you'll help Jimmy and our other boys smash through to Victory.

What do you say? It's the safest, soundest investment you'll ever make!

Let's go!

## BACK THE ATTACK WITH WAR BONDS

This Advertisement Sponsored by  
**EUGENE BING**

**GOVERNMENT OPERATION THROUGH BUREAUS**  
THE AMERICAN CONSTITUTION provides that our laws shall be enacted by congress, enforced by the executive branch of the government and interpreted by the judiciary department. However, it does not entirely work that way today.

Some 10 years ago congress began passing along to the President its authority to make laws. He was given authority to issue executive orders covering many subjects, and these executive orders are as much a part of the law of the land as are the laws passed by congress.

During the past 10 years there have been 3,279 of these executive order laws promulgated by the President. During the session of the last congress, 1941-42, there were 850 laws enacted by congress, and in that same period, the President issued 667 executive order laws. Since the American declaration of war and up to the first of July of this year, congress passed 587 laws, and in that period the President issued 387 executive orders.

Between the legislative and executive branches of the federal government new laws are being produced so rapidly that even competent attorneys cannot keep up with the process.

The President was given authority to establish governmental bureaus and agencies which are accountable only to the President. Seventy-one such alphabetical agencies have been created by executive orders.

About the only two subjects on which congress has not passed its authority over to the President are those of taxes and appropriations. Congress can, and has in a few cases, called a halt on the bureaucratic agencies by withholding money to pay the costs of their operation. In some cases, the President found it possible to continue the bureaus of which congress disapproved by paying the bills from the war emergency fund which was provided for his use and for which he did not have to render an accounting. For this war emergency fund congress has provided \$631,000,000 since July, 1940. When another \$25,000,000 was asked for, it was granted just before the present recess, but in doing so, an unruly senate tacked onto it a provision that no one part of the amount could be used to pay the expense of operating any bureau for which congress had refused a direct appropriation. For the President it was take it with that provision, or not at all. Because of that action, some of the bureaucrats may be off the payroll.

**STANDARDS OF LIVING**  
WE LAMENT the condition of what we say is a submerged one-third of our American population. As compared with nine-tenths of the people of China and others of the Far Eastern nations, the submerged one-third of America are living in the lap of luxury. If the condition of our own submerged is to be improved it must be through greater production and better methods of distribution.

Our agricultural scientists and engineers have done, and are doing, their part. Through development of improved strains they have multiplied our acre production. By the application of machinery they have reduced the needed per acre man hours of labor. But the statesmen and economists have not solved the problem of distribution between nations. While the people of the Orient starve, we suffer from a crop surplus.

When the standard of living can be raised in China and the Chinese people have money or credit with which to buy the food and other things they need, our increased production will take care of our submerged one-third. Higher wage scales abroad mean more markets for American farms and more jobs for American workers.

**OUR FIRST ACT IN SICILY**, after getting a foothold on shore, was providing food for the starving people. That should weigh heavily in our favor and cause other people in Europe to hope to be captured. It was a case where the American farm was doing more for the Allied cause than the American munitions plant.

**TIME MAY**, and probably will change conditions, but for some years, following the firing of the last shot of the war, the United States, the British Empire and Russia must guide the policies of the world. It must be an armed and unified guidance if we are to escape more and greater wars.

**THOSE THIRTY SOULS** who saved for a rainy day and are dependent on returns from their savings, appreciate the advantages of a victory garden. It means they can continue to eat.

**SELFISHNESS ON THE PART** of the individual, the community, class, nation or race; the desire for an advantage over others, for more than a fair share, is the cause of more heartaches, more ills and difficulties than any other one thing. It usually boils down to the individual.

Washington, D. C.

**CHINESE BLACK MARKET**  
If you think the U. S. Black Market is profitable, take a look at operations in China. A fountain pen costs \$10,000 Chinese currency in Chungking. Even with the Chinese dollar worth only five cents this is \$500 in U. S. dollars and a lot of dough to pay for a fountain pen.

You can also understand why U. S. fliers load up with lipstick before going to China. A lipstick brings \$5,000 in Chinese dollars in Chungking. This is about \$250 in U. S. currency.

This is also why lend-lease has sent a certain amount of silk stockings, champagne, perfume and other luxuries to Chinese war lords. They are sent to counteract similar imports by the Japanese which have a very undermining influence on a war lord worried over maintenance of his love-nest.

**RUBBER DELUGE**  
Officials in the office of the rubber administrator are beginning to wonder what they can do with the hundreds of thousands of tons of synthetic rubber which will come from the new plants next year. It seems a little late, but they are now facing the elementary question of whether or not the tire companies can handle the vast quantities of synthetic rubber.

The greatest amount of rubber ever processed by the nation's rubber companies in one year was 540,000 tons. But next year we shall have nearly one million tons to deal with. Obviously, the present facilities will be inadequate.

But the problem is aggravated by the fact that tire manufacturing machinery has been knocked down and stored away so that rubber companies could convert to production for the war. Instead of tires, they have been making rubber boats, balloons, tank treads and life rafts.

Thus we have the problem of finding new plant space in which to bring that machinery back into production, and the further problem of creating entirely new productive facilities to take care of the increased quantities of rubber which will be available for manufacture.

**SOLOMONS ISLAND**  
Few maps of the world show the location of Solomons Island, Maryland, a pinprick in Chesapeake bay. Locally it is famous only for its fishing and the fact that the steamships Leviathan, Mount Vernon and Monticello were laid up there to rust in deference to private shipowners.

Since the war, however, Solomons Island has become an important naval installation, and the navy department recently arranged for the shipment of some airplanes to Solomons Island on an aircraft carrier built for the British in a West coast yard. While the carrier was going through the Panama canal locks, London radioed asking its whereabouts.

"We're on our way to Solomons Island," replied the carrier's commanding officer.

"Why are you going to Solomons Island and where is it?" London queried in amazement.

"Get in touch with the embassy in Washington," radioed back the ship's commanding officer.

After some anxious moments, London learned in code that the carrier's commanding officer had not mutinied, nor was he going to the Solomons Islands, but to the U. S. naval base at Solomons Island, Maryland.

**SMALL BUSINESS BLOW-UP**  
The government's program for the relief of small business is headed for trouble when congress reconvenes next month.

At secret sessions of the senate small business committee, headed by Senator James Murray of Montana, small business men complained about their inability to get government loans for war contracts and sub-contracts, while billions of dollars of government money is being shelled out to big corporations.

The senate committee heard complaints about the tight-fisted loan policies of the Smaller War Plants corporation.

Axis Prisoners Get Medical Care, Good Food

Axis prisoners captured in the North African and Sicilian victories will probably total approximately 340,000. Transporting these men to prison camps, feeding them, plus providing medical care for them, are major war problems. Left: Wounded Axis prisoners on stretchers cover a landing dock in North Africa. Brought from a field hospital by Red Cross ambulances, they await shipment to more permanent hospitals and prison camps. Top right: The dish for which their country is famous—spaghetti—entices these Italian prisoners. Bottom right: A wounded German soldier is given a blood transfusion by another German soldier.

Two Yanks Take 1,027; Flier Missing 72 Days

Engine trouble forced Staff Sgt. William I. Coffeen (left) of Chicago, a marine flier, to bail out over the Central Solomons islands. He lived on coconuts and whatever he could find in the jungle until he located friendly natives. A navy rescue plane picked him up 72 days later. He is pictured as he looked shortly after arriving at a naval base. Center: Lieut. Louis Testa, who with Capt. R. E. Gerard (right) conducted a two-man campaign that netted them three Sicilian islands and 1,027 Italian prisoners at a cost of only \$3—the rental price of the fishing boat on which they rode to the islands. They also took nine small tanks and ammunition.

Barging Toward Japanese Shipping

The eventual destination of this ammunition is the interior of Japanese ships where it will be thrown by Allied guns. This barge is loaded with projectiles of both armor piercing and bombardment variety. The cases hold ammunition for anti-aircraft guns. Steadily increasing Allied pressure is pushing the Japs back home.

Allies Shell Italy as Sicily Falls

Thirty-eight days after Allied forces swarmed over the southern coasts of Sicily the island fell to the invaders. Even as the last German troops fled before Allied might, shelling of Italy proper commenced. Possession of Sicily puts southeastern Europe under the thumb of Allied air power. Lieut. Gen. George S. Patton is shown conferring with Lieut. Col. Lyle W. Bernard as their troops neared Messina.

On Guard

At their rocky perch on the lonely coast of Newfoundland, two Canadian soldiers watch for signs of the enemy. This is one of Canada's advance posts in her war against the German submarine.

Freckly Closures

The 1943 freckle champions of New York, N. Y., are Marguerite Thompson, 11, and Edward Fitzgerald, 14, pictured in this freckly closures.

**Women's Corps in Peace Time**  
By Edith N. Rogers (Representative, Mass.)

(WNU Feature—Through special arrangement with Woman's Home Companion.)

When the war is over the armed services should continue to have women serving in their ranks. I was convinced that the army and navy would need women to replace men in certain duties after the last world war. But it was 25 years before I was able to get through congress a measure which created the Women's Army Auxiliary corps. Since then the navy, coast guard and marine corps have created units for women. I believe the whole country has approved.

Now is the time to make provision to keep women in these services on a permanent full-time basis. Immediately! Because war is like a flood or a hurricane. As soon as it is over people lose interest in preparing against a recurrence. Because in the inevitable cutting down of the armed services to peacetime size one of the first units to face the ax, if only because it is the newest, could be the women's corps. Because some, weary of the strain of war, will want the illusion that all can be as it was before the war began. They will try to force all women out of the factories, the professions, the armed services, try to relegate them back to housework. We must plan to fit a certain number of women into our postwar economic life.

The woman in uniform has served as well in this war and the services have had opportunity to learn how valuable she can be. Lieut. Gen. Brehon B. Somervell, anxious to determine what his officers thought of the work done by WACs, sent out inquiries to the men of his command. The replies were highly laudatory.

**Volunteers for Africa.**  
Certainly there can be no question of the women's spirit. Recently, for example, Director Oveta Culp Hobby went before two companies of WACs in Daytona, Fla. There was need of a contingent of WACs in North Africa. After pointing out the dangers of the journey and the perils of the war theater, Mrs. Hobby called for volunteers. She hoped to get enough to make a respectable showing. She got 300—every woman in the two companies. This display of spirit, I think, explains why officers of the regular services—who were skeptical about women in the ranks, are now enthusiastic. Will the armed forces need women after the war? Of course! The army and navy will need them as a nucleus for the force they will require if we again become involved in war. During the truce between the world wars I urged congress to appropriate money so the army could place educational orders with manufacturers. The purpose was to create in industry a skeleton force trained for war work. I think of the women's corps of the army and navy in the same way.

The English maintained a small force of women in their armed services during the years after the last war. When a large force was needed, they had the foundation upon which to build. In this country, it was a year before we could get the women's service into action. During that time thousands of soldiers were mobilized in noncombatant jobs which could have been handled as well by women. We cannot again afford such a loss of time.

The armed services have learned that there are many jobs which men are glad to get away from and which women perform with enthusiasm. For example, men don't like to be telephone operators. Women in uniform have gladly undertaken this job, and should continue in it as well as in similar jobs as interpreters, clerks and weather bureau workers.

In years to come there will be new emphasis on certain activities in the armed services which have only recently become important. We shall always want to have a regular airplane warning network as part of our defense system. This will require a trained personnel which should be under army supervision. There will be little point in training a large staff of able-bodied men for this kind of work. Let the women handle it.

**Nurses Set Precedent.**  
There is precedent. The army long ago established it by including women in permanent status by the creation of the nurse corps. Recently the army also made provision for women dietitians and physiotherapists.

It is impossible to estimate today how many women the services will need in peacetime. Certainly the army and navy should admit as many as they can use. It will not be hard to find them—women feel there can be no greater privilege than to serve under our flag.

ON THE HOME FRONT with RUTH WYETH SPEARS

THIS old fashioned saw tooth quilt pattern has been used for the border of many handsome quilts. It is so modern looking and so simple to piece that it should serve many decorative purposes. Here it trims kitchen curtains of

unbleached muslin. In addition to its old time use its angular note would make it effective as a border for luncheon cloths, aprons and various other purposes.

To make a pattern cut a square of cardboard, then cut diagonally; one half will make a triangle pattern. The size suggested in sketch may vary according to the purpose in mind. If a bright color is used for the plain triangles, a narrow border will make a good showing.

NOTE: Readers who plan to piece quilts and have not selected their pattern should send for the three patterns designed by Mrs. Spears which will be sent to you for 15 cents. Address:

MRS. RUTH WYETH SPEARS  
Bedford Hills, New York.

Early Coalman Couldn't Sell 'Dirty Black Rock'

In 1828, a few tons of coal were shipped into Cleveland to determine if this kind of fuel could be introduced here. An agent loaded on a wagon and drove up one street and down another almost pleading with the residents to buy at least a small basket full. But they weren't going to be fooled into buying this dirty black rock when they could get wood.

At nightfall the agent drove to a barroom and persuaded the proprietor to try some in the stove. This was the beginning of the coal business in Cleveland.

It's Aye, Aye, Sir

Girl telephone operators in several navy yards and naval stations on the eastern seaboard now say "Aye, Aye, Sir" instead of "Thank you" when servicing calls for both men and women.

**CHAFED SKIN.**  
Raw, smarting surface relieved amazingly by the soothing medication of **RESINOL**

Long Line of Convoys  
The sea lanes traveled regularly today by Allied convoys have a total length of 80,000 miles.

**SNAPPY FACTS ABOUT RUBBER**

Rubber shortage will cause motor trucks to be operated this year only 60 per cent of their 1941 mileage, according to OWI. Ton mileage haul in intercity service, however, was up 10 per cent early this year.

Rubber latex, a milk-like substance, contains from 30 to 40 per cent solids; cow's milk has only 12 per cent solids.

Add lettuce to the list of rubber producers! Tests of three varieties of lettuce by the University of California, it has been reported, showed high content of rubber latex.

# Town's Crop Campaign May Engulf U. S.

Called 'Greatest Community Project In History of U. S.'

A pace for agricultural America is being set by the 7,000 citizens of Fairmont, Minnesota. Since August 12th the business men, ministers, teachers, school children and even the aged of this community have joined in an all out effort to harvest Martin county's bumper corn crop. The war manpower commission is checking the results of this drive and its success may result in similar applications of the "Fairmont System" to small communities in every agricultural section of the nation.

The intense mobilization campaign of the Fairmont Victory Crop Drive committee, headed by Mayor E. B. Nelson, has left the town resplendent with posters and banners as though a Midwest Mardi Gras was being ballyhooed rather than several weeks of hard work. Not only are these neighbors harvesting the crop. They are also quick-freezing it in a local cannery where many employees of Fairmont stores and shops are working from 7 p. m. to 1 a. m. after finishing their regular day's activities.

Several hundred Mexicans, Jamaicans and other volunteers reached through state wide radio broadcasts are swelling the number of the neighborhood agricultural army. The mayor has made a personal appeal to all home owners to rent any available sleeping space. Transportation facilities from nearby towns have been a major difficulty but bus lines are weathering the sudden influx by rehabilitating vehicles that were formerly discarded.

**City's Facilities Taxed.**  
Bed clothes, pillow cases, and sheets for the latest group of Jamaicans were needed in a hurry, so the townswomen, Red Cross, Salvation Army, and church groups produced them overnight. Most local

The first registrant for the Fairmont Victory Crop Drive is Edward Wade, 42, a machinist in an ordnance plant. Wade works at the plant from 7 a. m. to 6 p. m. In addition he will work for the crop drive from 7 p. m. to 1 a. m. Sally Gilbert presents him with an arm band.

businesses including the telephone and light companies organized "Minute Men" squads which may be called at any night or day for emergency work in the fields or at the cannery plant. Even the schools are expected to open two weeks later this year so that both teachers and school children can remain at their posts.

**"Greatest Community Project."**  
The Fairmont Victory Crop Drive, according to George Selke, Minnesota State War Manpower director in Minneapolis, is probably the "greatest community project in the history of the United States."  
"If the Fairmont Drive is nearly as successful as we feel it will be," he said, "our plan is to suggest extension of this same pattern for victory to every small town in the country."  
"In our estimation, there has never been such whole-hearted, sincere and concerted effort on the part of an entire community to supply needed war materials—in this case, food."

Mayor E. B. Nelson, chairman of

## Workers Mobilize; School Opening May Be Delayed 2 Weeks

United States and for world civilization and democracy."

Mayor Nelson pointed out that, according to the Office of War Information, the armed forces and lend-lease will take at least 25 per cent of the entire nation's output of all foods this year.

**Needs of Army.**  
"It is estimated," said Nelson, "that on any given day in 1943, the army must have on hand 5,103,000-000 pounds of food. This creates a 90-day reserve stockpile for 4,500,000 men now in this country, and a 270-day reserve stockpile for an average 2,100,000 fighting men overseas. In order to maintain food stocks for normal civilian use in this country, it is our job to see that all the food is harvested, and then quick-frozen for consumption. Use of these foods on the home front releases immense freight space for war transportation, and makes available tons of steel and tin for canning of food for our men overseas."

"More than 7,000 people will be needed to assure the success of this National Blueprint for Victory," said Mayor Nelson. "When you realize that the entire population of this city is only 7,000, you have a rough idea of what the people have gone through to provide that help. But we've done it, and so can every other real American city!"

## "GAY GADGETS"

Associated Newspapers—WNU Features.

### TRIXIE TEEN SAYS—

#### 'Make Your Wishes Come True!'

It's all done with a Wishing Box, which, under its coating of red nail polish and noodle initials, is really an empty aspirin box. Slip a piece of yarn under the cover so you can pin it to your lapel. Inside the box put a slip of paper on which is written your dearest wish. Don't let ANYBODY read it until the wish comes true, and be sure to wear the box every day or you will break the spell. It works—just try it.

### JITTERBUG JOOLERY

Cereal, candy, hardware and puffs; Pipe cleaners, nail polish, wishbones and stuffs.  
**Who ever would guess that out of this Foolery Could come Tricks for Teens and Jitterbug Joolery.**

Every teen collects Jitterbug Joolery like Swiss cheese collects holes and fem movie fans collect pictures of George Montgomery and John Payne. Here are some new tricks for the Trinket Trust.  
**Orange Peel Pretties**—Cut orange peel into small triangles. Paint with nail polish. String into necklaces.

### Minor Visual Defects Can Cause Accidents And Work Slow-Down

An important cause of slow-downs in war production is uncorrected visual defects, according to M. J. Julian, president of the Better Vision institute. Eyes that do not see well and that tire easily, he says, slow down work, lead to mistakes and wasted materials, and frequently bring about accidents.

"Studies indicate that there are millions of men and women engaged in essential industries whose work is being slowed down because of failure to have their eyes tuned up to meet the visual requirements of their jobs," says Mr. Julian. "Many of these neglected shortcomings are slight. When vision is very bad workers are forced to resort to professional ophthalmic service. But when the errors of vision are slight the eyes by straining are able to clear up sight. Frequently a few hours of such visual straining makes a worker unduly fatigued. The fact that most accidents in industrial plants take place near the close of work may be ascribed in a large measure to visual fatigue."

"Spectacles that neutralize visual defects are really labor-saving devices for the eyes. They lift off a burden of unnatural effort and permit the eyes to put in a full day's work without tiring out themselves and the body of the worker."

**Mock Turtle**—Break a walnut in half and extract the nut meat. Place the half shell, flat side down, on a piece of felt. Cut around in the shape of the shell, leaving little protruding pieces to represent head, tail and four feet. Paste the felt and shell together and attach a pin. Some girls use whole cloves from the kitchen closet to represent head, tail and legs, instead of felt. They give forth a wonderful aromatic scent.

**Bottle Top Beauties**—Take about eight pop bottle tops; remove the little corks inside and then press corks and caps together again over a piece of ribbon that is long enough to tie around your neck. Tie a bow in front and let the bottle tops hang in front.

**Bunny Puff**—Instead of making a FUNNY face out of a powder puff with yarn pigtail, make a BUNNY face. You need four thin puffs. You sew two together to make the front and back of the face and you attach the other two at the top as ears, folded through the center. Buttons make the eyes and a few stitches with colored thread will grow the whiskers.

### LOCKED LIPS—SH-H!

Make yourself an anti-rumor gadget just to remind yourself not to tell tales that hurt your brothers or friends in the armed forces. Our favorite is a mouth made of red felt, slightly padded with cotton. Across the center sew four little white buttons. Attach a pin in back and wear your "Locked Lips" proudly on your lapel.  
Well, as one rock said to another rock: "Let's go around the corner and get a little Boulder."

### What to Do

By PHYLLIS BELMONT

In what way may I entertain without giving a dinner, or the usual bridge?

**Answer**—The dessert bridge appeals to many hostesses these days. Invite your guests to arrive right after dinner—and have your table all set for them. Any fancy dessert and coffee is all you serve accompanied by candy and salted nuts.

You may serve this type of food, buffet style, in your living room if you prefer—and you need not follow it with bridge as poker, gin rummy or roulette are all popular.

Ledger Syndicate.—WNU Features.

## Speaking of Sports

By Bob McShane

Released by Western Newspaper Union.

EVEN when Rip Sewell, Pirate hurler, charged into the early days of August with a record of 17 victories against only 3 defeats there was little chance for him to match the percentage records established by pitchers of happier years.

One of those records was established by Robert Moses Grove, probably the greatest left-hander of all time. Grove set a season record and a two-year record that other stars of the first magnitude never have been able to match.

Grove's top year was 1931 when he won 31 games and dropped only 4 for the Athletics. His percentage was .886. The year before he won 28 and lost 5. That's the record: in two successive seasons under Connie Mack, Grove won 59 games and dropped 8 for a two-year percentage of .867.

### The Beginning

The tall, lanky off-side pegger left his first professional pitch as a member of the Martinsburg team in the Blue Ridge league in 1920. He

ROBERT MOSES GROVE

was 25 years old when he reported to Mack's Athletics in 1925.

**Economical Mack**, who always preferred to develop his own players from sandlotters, paid the Baltimore Orioles \$105,000 for Lefty, but it proved a bargain. For after using Grove nine years—his best nine—Mack passed him on to Tom Yawkey's Red Sox with Max Bishop and George Walberg for two players and \$125,000.

Lefty was wilder than the South Pacific jungles when he first came up. But Mack knew the answer. Grove hurried too much. He pitched the ball back to the catcher as fast as he received it. Mack forced Grove to count 13 before each delivery, and in a year's time the bases on balls dropped and his strikeouts soared.

Grove led the American league in earned-run percentage nine years—1926, '29, '30, '31, '32, '35, '36, '38 and '39. He won 16 consecutive games in one season—from June 13 to August 19, 1931.

### Other Records

In 1912 Joe Wood, with the Red Sox, won 34 and lost 5 for a percentage of .872.

Walter Johnson's top year was 1913 when he won 36 and lost 7 for Washington. Percentage—.837.

In 1905 Christy Mathewson won 31 and lost 9 for the Giants. Grover Alexander won the same number and lost 10 for the Phillies in 1915.

In more recent years Vernon Gomez won 26 and lost 5 for the Yankees of 1934, a percentage of .839. Two years later Carl Hubbell won 26 and lost 6 for the Giants. Dizzy Dean won 30 for the Cardinals in 1934 while losing 7.

This is only a partial list, picked from the toptrotters.

In the past 40 years only two pitchers have won 40 or more games. They were Jack Chesbro who won 41 for the Yankees in 1904 and Ed Walsh who won 40 for the 1908 White Sox.

Grove started out as a fire ball hurler. He had terrific speed. It is doubtful if any other left-hander ever had as fast a ball as Grove's. Strictly a thrower, he poured it on for every pitch. No hurler could hope to maintain that pace forever and Grove one day found his speed waning.

No one knows what the future will bring—but the name of Bob Grove will be a permanent part of the records book.

### SPORTS SHORTS

President Ford Frick of the National league recently ordered all of the circuit's clubs to have all unusual plays and rulings explained over the public address system.

Georgia Tech and Tulane are expected to have the best football teams in the Southeastern conference this year.

Matt Mann Jr., 15-year-old son of the University of Michigan swimming coach, set a new junior national 800-meter free-style record of 11:17.5 recently.

## PATTERNS SEWING CIRCLE

**Smart Two-Piecer.**  
SKILLFULLY designed two-piece that can be worn to innumerable places for all its simplicity. Immensely flattering.  
Pattern No. 8483 is in sizes 12, 14, 16, 18, 20; 40 and 42. Size 14 takes, with short sleeves, 4 1/4 yards 36-inch material.

**Household Hints**  
Grape juice frosting is delicious and different. Put three tablespoons grape juice into a pint bowl, then stir in one to one and a half cups of confectioner's sugar till mixture is thick enough to spread on your cake.

**Ventilated containers** for bread and cake should be scalded, sunned and aired once a week during the summer months.

Water spots may often be removed by drying the spots, then rubbing them with a finger-nail or the edge of a coin; or by rubbing the spot with another section of the material and pressing the article under a damp cloth.

Light-weight food containers for refrigerators allow food to cool more quickly than do thick heavy containers.

War-time canning jar rings are made of unelastic reclaimed rubber. Stretch them as little as possible.

If your kitchen is small, instead of a table have a shelf that may be let down out of the way when not in use.

Hang blankets over a line with a half or a fourth on one side, and without clothespins. A blanket dries quicker if two lines—near together—share the weight. Squeeze water from the ends occasionally and shake the blanket to fluff the nap.

Water the compost pile occasionally to keep it in a moist condition. When the pile has cured for a sufficient length of time to decompose thoroughly, fork the pile through and through so as to have all the material well mixed.

**Midriff Frock.**  
HOW the junior crowd loves frocks with well-defined midriff section. This one is so colorful with dramatically placed contrasting details.  
Pattern No. 8465 is in sizes 9, 11, 13, 15, 17 and 19. Size 11 takes 3 1/4 yards 39-inch material. 9 yards broad or ric-rac.  
Due to an unusually large demand and current war conditions, slightly more time is required in filling orders for a few of the most popular pattern numbers. Send your order to:

### World's Largest Bearing Carries Million Pounds

The world's biggest bearing was designed to carry the enormous load of one million pounds, which is the estimated weight of the largest telescope ever designed, in Mount Palomar, Calif. It is in the shape of a gigantic horseshoe and weighs 158 tons. But it is a marvel of accurate engineering, for so perfectly has it been machined that it is within five thousandths of an inch of the actual specifications.

Some indication of its size may be obtained from the fact that it is no less than 43 feet across and 58 inches thick, and is just over eight times as large as the bearing which bears the mirror of the huge Mount Wilson instrument.

### YOU CAN'T BUY ASPIRIN

that can do more for you than St. Joseph Aspirin. Why pay more? World's largest seller at 10c. Demand St. Joseph Aspirin.

**Upside Down Launchings**  
Ships have been launched upside down, in sections and sideways.

# ADDS PROTEIN

to your daily diet!

SAVES TIME, WORK, FUEL, OTHER FOODS

The protein supplied (2.2 grams) by a normal serving of Kellogg's Corn Flakes and a normal amount of milk (4.0 grams protein) is a valuable contribution to daily requirements... helps make up for scarce protein foods and their vitamins.

THE "SELF-STARTER" Breakfast

Kellogg's Corn Flakes are restored to WHOLE GRAIN NUTRITIVE VALUES of Tiamin (Vitamin B1), Niacin and Iron.

## America In Action

### UNSUNG HEROES

Every day in this war of production and transportation some amazing achievement is made which escapes public attention. The exploits of the men who build ships, the men who load ships, and the men who sail ships, are generally lost in the vastness of our war. Only at rare intervals do stories of magnificent team work come out of the obscurity which hides them.

Just recently there passed by in the news the story of the SS Robert E. Peary. Few people were interested, apparently, in the fact that a group of stevedores loaded this ship with 10,500 tons of war supplies in the record breaking time of 34 hours and 50 minutes. From empty cargo

holds to deck piled high was a matter of only two days and one night. All this was achieved by team work. The record in itself is not significant but the spirit which prompted the men to make this record is.

Matching the stevedores blow with blow are the men who built the SS Anne Hutchinson. This Liberty ship took two torpedoes and didn't sink. Some of the power of these American workers who build our merchant fleet kept her afloat. The first torpedo broke the ship in two and ripped out the bottom. After a great struggle the after part sank, but the bulkhead held and the engine room and forward part of the ship remained afloat. The second torpedo struck in the starboard engine room in the way of the boiler. This explosion completely destroyed the starboard boiler and shifted the main engine from its foundation ten feet to port. Still she refused to yield. Keeping her buoyancy in the face of such odds, the stout vessel was towed into port, as fine a bit of gallantry as ever came out of an Oregon shipyard.

American workers are building five ships a day and American seamen are sailing them across the oceans almost as fast as they are built. In May of this year, 175 new ships, totaling 1,782,000 deadweight tons were launched. In Houston, Texas, a group of laborers not only built their ship in record time but they paid for it, too. These workers subscribed \$1,600,000 in war bonds so that their ship might be theirs in reality.

Other workers are giving up their comforts, security, and safe jobs ashore to go back to the sea. These nameless men who never count the cost have Carl Max Lindheimer as their symbol. Lindheimer, age 58, was released from his job as a senior electrical inspector in Washington, D. C., after the President signed HR-131 granting re-employment rights to all men who leave their shore positions to fight in the Merchant marine. For days Lindheimer haunted the offices of the Recruitment and Manning organization in Washington. He got his assignment the day he got his release. Lindheimer is now a chief mate on a new Liberty ship.

### Minute Make-Ups

By GABRIELLE

A bit of damp soap, rubbed on the hair, will give a sleek neckline. Those stray hairs will stay up! If your nose is large and broad, fluff the hair up and out at the center of the forehead. For the short, flat nose, blend a light shade of foundation cream right down the center of your nose. Do not use rouge close to a too-large nose. Rouge will only serve to highlight its size. If you have a tip-titled nose, don't change it—it's cute!

Ledger Syndicate.—WNU Features.

### Flameproofed Lumber Releases Steel for War

Although formulas for making wood fire-resistant have been known for 50 years, the flameproofing of wood only reached large-scale production in time to meet the critical needs of a nation at war and became an important factor in 1942 war construction.

Taking over jobs that were previously considered mostly in the structural steel field, timbers treated to resist fire moved into war

plants, important bridge jobs, and immense hangars. This helped to relieve the heavy demand on critical steel needed for tools of war.

During the past 10 years over 130 chemical formulas were studied for flameproofing qualities in the U. S. Forest Products laboratory and the National Bureau of Standards.

When flame touches treated timber, the chemicals cause an armor of an unusual, comparatively inert, charcoal to form, which protects the wood underneath against the flame.

## No. 1 Continued from First Page.

George Shotwell and son, Howard, who have spent the summer at River Rouge are spending the week end in the city. They plan on moving the first of the week to Detroit.

Miss Ruth Ulman returned Wednesday from New Boston, where she visited Mr. and Mrs. Leo Lange, for a couple of weeks.

Mrs. Felix Hartman and nephew, Junior Peck, of Detroit, are visiting a few days with her father, Edw. Peck of the Townline.

Mr. and Mrs. Norton Ulman and son of Dearborn visited over the week end with Mr. and Mrs. Fred Ulman and Mr. and Mrs. Frank Fisher. Mrs. Ulman remained for the week.

Mrs. Margery Brown has returned from New York, where she visited her husband, James Brown. Boatswain 2-c for a few days. He expects to be on shore duty for a couple of months.

Keith Baguley of Caro, spent Sunday with his grandmother, Mrs. R. M. Baguley.

Mrs. Hilda Ulman, Mrs. Oran Ulman and Ray Cooper visited in New Boston a few days this week.

Miss Fernie Mark returned Saturday to Detroit after visiting her mother, Mrs. J. A. Mark, Sr. for a couple of weeks.

Isadore Friedman and sons, Harold and Marshall of Detroit visited a couple of days in the city this week.

Mr. and Mrs. Gerald Stephan and family of Saginaw, spent the week end at the Jos. Stepanski home.

## No. 2 Continued from First Page.

Mrs. Francis Schriber has received word that her brother, Pvt. Robert Jeannot, formerly of Muskegon, was wounded in the Sicily campaign and is being returned to the states to recuperate.

Pvt. William McLean, stationed at Bend, Oregon, arrived Wednesday to visit his wife and make the acquaintance his newly arrived daughter. Mrs. McLean was former formerly Florence June McDonald.

Lieut. Martin McCormick enjoyed a visit with his mother, Mrs. Edw. Z. Meyers and other relatives here. He had been on a four day leave, piloting a plane up from Bryan Field, Texas, where is an instructor.

Sgt. Joseph Lixey of Camp Davis, North Carolina, arrived Saturday to spend a ten day furlough with his mother, Mrs. Cora Lixey, and other relatives.

Glenn Ross, seaman 1st class, left Wednesday to return to his base at Norfolk, Virginia, after visiting his mother, Mrs. Gertrude Ross, and other relatives since Friday.

Sheraton's Famous Tables  
The tables made by Sheraton during the Eighteenth century are noted for their fine lines and superlative decorations. All were made in mahogany and satinwood. The Pembroke, or hinged-flap table, the pouch table (sewing table) and the "cheveret" are all his designs.

## No. 3 Continued from First Page.

in operation prevented him from hearing Mr. Minard's cry.

Mr. Minard died within 30 minutes after the accident from internal injuries, and shortly before the arrival of Dr. O. W. Mitton who had been called to the scene of the tragedy.

George Waldo Minard was born October 12, 1902, in Whitney township. On August 11, 1929, he was married to Edna McGuire. In addition to the wife, two children, Charlotte and Edward, and his parents, Mr. and Mrs. Albert E. Minard of Whitney township, he is survived by three brothers, Henry Minard of Saginaw, Roland Minard of Detroit and Walter at home, and two sisters, Mrs. Irah McKay of Charlevoix and Mrs. Goldie Amoe of East Tawas.

Funeral services will be held at two o'clock Saturday afternoon from the Jacques Funeral, Tawas City. Elder Marshall McGuire will officiate. Burial will be in the Whitney township cemetery.
