Iosco School Officers Meet Here Dec. 10

EDUCATIONAL PROBLEMS TO BE DISCUSSED

Men from Department of Public Instruction To be Here

A meeting of the school officers of Iosco county will be held Friday, December 10, according to an announcement made Thursday by County School Commissioner Russell A. Rollin. There will be morning and afternoon sessions at the Tawas City High School Auditorium. At noon a dinner will be served by the Home Ec class of the Tawas City schools.

The days program will include: A discussion by Howard Prine of the Department of Public Instruction on School Law, Finance, School-Board-Community-Teacher relations. Eldon Robbins from the Vocation Department will discuss Food Production and War Training.

Roy McMurray or A. F. Bates will talk on Health, Sanitation and Physical Education. The meeting is called under the authority of 361 to 369 of the General School Laws, said Mr. Rollin, and all school officers in the county are urged to be present. These meetings are held at two year intervals. The last two meetings were held at Hale and Oscoda.

It is tentatively planned that an administrative conference for Superintendents and principals be held Thursday evening, December 9, at the East Tawas High school, Mr. Rollin stated.

Goldie-Carey

A wedding of interest to many in this locality took place in Detroit Sunday, November 14, at the home of Mr. and Mrs. J. Roy Goldie of Rademacher avenue, when their only daughter, Lois Jane, was united in marriage to Petty Officer Keith Emrey Carey of Charlevoix. The ceremony was performed by the Rev. H. E. Ridley of Ascension Episcopal Church in the presence of the immediate families and a few close friends.

The bride was lovely in a suit of green wool gabardine, worn with an ivory satin blouse fashioned from her mother's wedding gown, and trimmed with the original lace and tiny covered buttons. Her flowers were green orchids.

Miss Jessie McLean of Dearborn was bridesmaid and wore a suit of cyclamen wool and shoulder corsage of rapture roses. Assisting Mr. Carey as best man, was Jack Goldie, Seaman 2nd Class, brother of the bride.

Immediately following the reception, Mr. and Mrs. Carey left to make their home in Kenosha, Wisconsin, not far from the Great Lakes Training Station, where Mr. Carey is stationed as physical instructor. Both are graduates from Alma College. Jack Goldie, also stationed at Great Lakes, accompanied them to Chicago.

Mr. and Mrs. Roy Bernard

Funeral services for Mr. and Mrs. Roy Bernard were held Thursday afternoon from the Hale Methodist church. Rev. Brooks officiated. Interment was in the Hale cemetery.

Mrs. Cora Bernard died Monday at her home at Hale where she had been a resident for the past 25 years. Mr. Bernard died Monday at Battle Creek at the home of his son, Eugene Bernard. Both bodies were taken to the Moffatt Funeral Home at East Tawas, the body of Mr. Bernard arriving Wednesday morning.

Sharon Louise McLean

Funeral services were held Monday from the Jacques Funeral Home for Sharon Louise, infant daughter of Pvt. and Mrs. Clarence McLean of this city. She passed away at Mercy Hospital after brief illness from pneumonia. She was born in August. She is survived by her parents, and Mr. and Mrs. Orville McDonald of this city. Services were conducted by Rev. M. A. Sommerfield and burial in the Tawas City cemetery.

FOR RENT—In Tawas City, modern house, 5 rooms and bath, full basement, steam heat. \$22.00 per month. Inquire Arthur Allen.

FOR SALE—Steel drain rack. Hiram's South of the Border.

East Tawas Boy Commended In Sicily-Italy Invasion Expedition

Friends of John A. Dillon, son of Mr. and Mrs. Arthur Dillon of East Tawas, with the Amphibious Force, United States Navy, are pleased to learn that he received two citations of commendation for performance of duty during the past few months.

The first was received August 5, for services in the original assault on Sicily in which he and his shipmates made possible the landing of our forces through enemy air attack and gunfire on the enemy beaches.

The second citation was received October 20. It was for services in the invasion of Italy, and reads as follows:

U. S. S. LST 346 AMPHIBIOUS FORCE NORTHWEST AFRICAN WATERS

October 20, 1943. From: The Commanding Officer. To: John Dillon, NOMM2C, 622 50 19, V6, USNR.

Subject: Commendation for Performance of Duty During Time of Invasion of Salerno, Italy, September 9, 1943.

1. You participated in the original assault on the Uncle Red Beach in the recent invasion of Italy.

2. Complying with order, you and your shipmates of the U. S. S. LST. 346, unflinchingly aided in the landing of our Arm-

ed Forces through heavy enemy shell fire.

3. It is much pleasure that I commend you for your fine performance of duty, which is in accord with the best traditions of the United States Naval Service.

A copy of this commendation has been entered in your service record.

JOSHUA Z. HOWELL, Lieutenant, USNR.

Would Form Men's Athletic Club

The second meeting of men interested in an athletic club for Tawas City was held Wednesday evening at the Tawas City Gymnasium. This is a worthwhile movement because much enjoyment and benefit can be derived from such an organization.

Volley ball, basketball, boxing and other athletic games are an anticipated part of the program and will be arranged for men of all ages. See Rollie Gackstetter or go over to the Gym next Wednesday night. Arrangements have been made to hold meetings every Wednesday evening.

Whittemore-Alabaster School Students Assist Iosco Farmers

More than 2,000 man-hours were spent in the fields of Burleigh, Reno and Sherman townships during the past harvest season by 118 boys and girls from the Burleigh Rural Agricultural school, according to Superintendent Wayne E. Grimm.

The youth were paid from 30 to 35 cents an hour, depending on the type of work they were doing, and earned between \$600 and \$700, in addition to playing an important part in saving considerable food which might otherwise have been wasted because of harvest labor.

One 30-acre field of string beans was harvested by the youths which, without their help, would not have been saved. Other tasks performed included cutting corn, digging potatoes, filling silos, pulling beans, and other tasks.

Boys and girls working under the program were not allowed to be absent from school any two successive days. Each farmer was asked to file a report of the work done by the students with Frank Madaski, agricultural teacher, who was in charge of the program.

At the Alabaster school 25 of the young people performed excellent duty in harvesting general farm and truck crops. Their efforts totaled about 100 days and were especially useful in the Deering Commercial truck gardens. They were under the leadership of Supt. John Young of the Alabaster Public Schools.

Mrs. R. E. Prescott, widow of R. E. Prescott publisher of the Alcona County Herald, announced this week that publication of the Alcona paper would be temporarily suspended. Inability to obtain help was given as the reason.

TWINING MAN FOUND SLAIN NEAR RIVER

Is Victim of Bullet from Unknown Hunters' Rifle

James Harrington of Twining was the second victim of hunters' bullets in Iosco county woods this season. His body was found late Tuesday afternoon about three mile north east of the Five Channels by a party of men cutting Christmas trees. Harrington was 72 years old.

Coroner John Moffatt and State Police were called to the scene and the body was brought to the Moffatt Funeral Home, where an autopsy by Dr. O. W. Mitton disclosed that a rifle bullet had gone through Harrington's right wrist and entered his body. The remains were taken to Burt, Michigan for burial.

While there has been no knowledge as yet of who fired the bullet, Sheriff John Moran and State Police are making a thorough investigation.

This year exceeds former years in deer hunting fatalities. The previous record was 14 deaths. A report from the Conservation Department states that 18 hunters were slain in the woods this season.

State conservation officers today attributed a record number of fatal accidents among deer hunters this year to "trigger happy" fellows more interested in getting a supply of venison than in the sport of hunting.

Duward Robson, assistant chief of the enforcement division, said he thought many hunters were so anxious to get extra meat they shot without taking proper precautions.

Saginaw Hunter Hit With Rifle Bullet

While hunting deer last Sunday morning, Ross Thrasher of Saginaw was hit by a rifle bullet. He was taken to St. Mary's Hospital, Saginaw, where reports Wednesday indicated that he was in good condition.

Thrasher, with two companions, Victor Marzinski and William F. Klenow of East Tawas, were hunting in Baldwin township, about six miles from that city. The bullet hit him in hip, shattering the bone, and was fired by Delamere Healy of Bay City. Healy and Mark Sedgeman of this place, were hunting, when they saw three deer, a buck and two does.

Healy fired at the buck and immediately heard the cry of the injured man. Investigating they found Thrasher. He was hurried to the office of Dr. H. R. Hess at East Tawas for first aid, and then taken to the Saginaw hospital.

Whittemore O. E. S. Installs New Officers

Whittemore Chapter held installation of officers Friday night in a very impressive ceremony. Mrs. Roy Charters was installing officer. She was assisted by Mrs. Horton of Clare who installed her daughter, Mrs. Wayne Grimm, as the new worthy matron. The other installing officers were Mrs. William Fuerst, Grand Warden of Grand Chapter, as marshal, Mrs. Ed. Graham as chaplain and Mrs. Earl Common of Howell as organist.

The following officers were installed: Worthy Matron—Mrs. Wayne Grimm. Worthy Patron—Elton Smith. Associate Patron—Mrs. Elton Smith. Associate Patron—John Harrington. Secretary Mrs. Chas. Fuerst. Treasurer—Mrs. William Austin. Conductress—Mrs. George Jackson. Associate Conductress—Mrs. Harrison Snyder. Chaplain Mrs. Abe Harrell. Marshal—Mrs. Horace Powell. Organist—Mrs. Harrison Snyder. Adah—Mrs. Harold Nixon. Ruth—Mrs. Stanley Partlo. Esther—Mrs. Earl Hasty. Martha—Mrs. John Harrington. Electa—Mrs. Arden Charters. Warden—Mrs. Richard Fuerst. Sentinel—Abe Harrell.

Mrs. Clara B. Gauthier

Mrs. Clara B. Gauthier of Ferndale died suddenly at the Highland Park General Hospital, November 26. She was the loving wife of Adolor J. Gauthier, dear mother of Barbara, daughter of Mrs. Frank Baker of Ferndale; sister of Henry Baker of River Rouge, Carl Baker of Detroit, Frank Baker of Dearborn, Mrs. William Elway of VanDyke.

Funeral services were held Monday afternoon from the Spaulding & Sons Funeral Home, Ferndale.

FOR SALE—Baby grand piano, 3-burner Perfection oil range, like new. Hiram's, South of the Border.

EAST TAWAS

Special—Noon Day Lunch, 35c. Tawas City Restaurant.

Coxswain and Mrs. W. T. Immers were Bay City visitors on Wednesday.

Mr. and Mrs. C. E. Lickfield spent the fore part of the week with their children in Port Huron. Mrs. Andrew Christeson entertained her bridge club Wednesday afternoon. Honors were won by Mrs. Louis DeFrain and Mrs. P. H. Mulholland.

Mr. and Mrs. J. E. Liddicoat and family spent the Thanksgiving vacation at Port Huron and Ferndale.

Mr. and Mrs. H. G. Bullock have gone to Bay City for residence.

Mr. and Mrs. Hugh Crawford of Bay City spent Sunday with the latter's parents, Mr. and Mrs. Wm. A. DeGrow.

Miss Anna June Gordon of Detroit, spent the last of the week with her parents, Mr. and Mrs. Waldo Gordon.

Mrs. Ed. Graham of Whittemore spent Tuesday with Mrs. Edgar Jones.

Mr. and Mrs. Ralph Wilson and daughter, Marian, visited the former's mother near Alpena, last Sunday.

Bay City relatives spending last Sunday at the Shattuck home included Mrs. Benjamin Frost and daughter, Harriet, Mr. and Mrs. Owen Hagen and daughter, Susan, and Mrs. Kenneth Frost and son, Jack.

Mrs. R. V. Boudler entertained the Mary Martha Class Friday evening. Final plans were made for their bazaar, which will be held December 3. Mrs. Luther Jones had charge of the decorations.

Miss Celestine Zimmeth left Monday for Detroit, where she is employed by the Bell Telephone Co. She was transferred from their Bay City office.

Mrs. W. E. Pietsch left Tuesday for her home in Waterloo, Iowa, after spending the past month at the home of Dr. Zella Mulenburgh.

Edwin Woods was a business visitor in Standish on Tuesday.

Mr. and Mrs. David McDougall have moved into the house owned by Wenzel Mochty, on the corner of Washington and Wadsworth streets.

Mrs. Ralph Harwood and son, Paul, arrived from Saginaw and are getting settled in their new home.

Mr. and Mrs. Wm. Leslie, Jr., and son of Evart, Mr. and Mrs. Paul Cotter and daughter of Mount Pleasant spent Thanksgiving with the C. C. Harwoods.

Dr. Zella Mulenburgh and Mrs. C. J. Creaser spent the week end in Detroit.

Jacob Weber, who has been working for several months in Detroit has returned to East Tawas. He is employed at Look's garage.

Bay City visitors on Tuesday included Mrs. Florence Merschel, Mrs. Ruth Wood and Miss Valerie Chestler.

Rev. Alfred Hamlin of Coldwater, former pastor of the Assembly of God church visited Wednesday in the Marocco home.

Wm. Blake, who has spent the past two weeks hunting near Glenview, returned home Saturday. Mrs. Blake accompanied him and is remaining for a longer visit with relatives.

Dr. and Mrs. Carlos Speck and two children spent Thanksgiving with Mrs. A. J. Merschel and daughter, Mrs. Ruth Wood.

Miss Maxine Mulholland of Flint visited her parents, Mr. and Mrs. P. H. Mulholland over the Thanksgiving vacation.

Mrs. Clara Barkman left Thursday for New York to spend the winter with her daughters, Misses Helena and Regina Barkman.

Roy Argyle of Mikado was a business visitor in the city on Monday and called on his sister, Mrs. Leonard Gottleber.

Air WAC Campaign Closes Here Dec. 7

The Air WAC Recruiting Campaign in this district closes on the 7th of December. After that date any applicant interested may make application to the WAC Recruiting Office, Box 235, Alpena Michigan.

In this campaign the quota has not been reached, and the women of America still have an obligation to fulfill.

Women, you are wanted—More than that, you are vitally needed.

In Memoriam

In memory of Harold Hicks who died 10 years ago, December 4, 1933. Deep in our hearts lies a picture Of a loved one laid to rest. In memory's frame we shall keep it Because he was one of the best.

Sadly missed by his Father, Mother, Sisters and Brother.

IN the SERVICE

Sgt. and Mrs. Luke McMurray of Camp Howze, Texas, are spending a short furlough with his mother, Mrs. May McMurray and Jim.

S. Sgt. Clayton Wood is reported landing safely recently in England. Mrs. Wood is the former Ruth Merschel of East Tawas.

Ensign Gordon Collins visited his wife and little son at the home of her parents, Mr. and Mrs. C. C. Yarwood over Thanksgiving. He left on Monday to enter Princeton University.

T. Sgt. Clarence Fowler, son of Mr. and Mrs. Clarence Fowler, now living in Bay City, and Miss Lorraine McCartney, daughter of Mr. and Mrs. Frank McCartney of East Tawas, were married Thanksgiving Day. The ceremony was performed at the home of Rev. F. A. Sievert, 236 N. Birney Street in Bay City. Sgt. Fowler returned Saturday to Bowman Field, Louisville, Kentucky.

Orlo John MacMurray, with the Aviation Engineers in India, has been promoted to sergeant. He is a son of Mrs. May McMurray of this city.

Pfc. Richard E. Trainor has completed his training at the Lincoln, Neb., T. T. S. and is now at Camp Bell, Niagara Falls, N. Y. Barracks 70, Class 14.

Pvt. Norman Merschel, stationed at Camp Ellis, Ill., arrived Saturday to spend a 15 day furlough at his home.

Machinst Mate, 2nd Class Edward (Bud) Haglund visited relatives and friends in the Tawas area a few days this week. Bud is recuperating from injuries received in action while he was serving off the coast of Italy. He left Friday for Detroit to visit his parents, Mr. and Mrs. Harry Truesdale.

Pvt. H. V. Patterson will leave Saturday to return to Camp Ellis, Ill. after spending a 15 day furlough with his wife and little son.

Twentieth Century Club

Health Day was observed by the Twentieth Century Club at their meeting Wednesday afternoon at the home of Mrs. A. A. Bigelow. A paper on home nursing and a film on paper on Home Nursing by Mrs. D. Ferguson and a film on Nutrition was presented by Miss Ruth Benedict, Tawas Home Ec teacher. The meeting closed with the singing of "America, The Beautiful."

The Christmas Party will be held Wednesday, December 15 at the home of Mrs. J. H. Leslie.

V-MAIL

THE HUNTING IS GREAT HERE. IT'S A POOR DAY WHEN WE DON'T GET A COUPLE ZEROS. THE WARDEN SAYS THERE IS NO LIMIT. WE HAD TURKEY AND ALL THE TRIMMINGS ON THANKSGIVING DAY

(WNU Service)

Little Girl's Set of Hood and Mittens

5638

Set of Hood and Mittens

CROCHET it of bright red wool for a little girl of two, four or six years—she'll look adorable in the hood and the little red mittens will keep her hands as warm as though she were carrying Mother's muff! A simple afghan-type stitch is used—double shells at edge of the bonnet make a pretty frame for a small face and a two-inch ruffle edged in scallops protects the back of the neck from cutting winds.

To obtain complete crocheting instructions for the Little Girl's Hood and Mittens (Pattern No. 5638) send 15 cents in coin, your name and address and the pattern number.

See Here, Private Hargrove! by Marion Hargrove

WIND SERVICE

THE STORY SO FAR: Private Marion Hargrove, former feature editor of a North Carolina newspaper, has been inducted into the army and has spent some time in training at Fort Bragg. In his story he has given prospective inductees considerable advice. Immediately before induction he advocates a period of "painting the town red." Once in, the new soldier should "keep an open mind" about what he learns because "the first three weeks are hardest." Private Hargrove has been missing the point of some of his essential training and as a result he has had considerable KP duty. Some of his friends have been advanced to Corporal and his Sergeant has asked why he was not promoted.

CHAPTER V

"Me?" The idea had never occurred to me. "I'm just not the executive type, I suppose. Back at the News, the boss told me that if I stayed there sixty years, I'd never get promoted. I'm just not the type that gets promoted."

"Let's look at the record," said the sergeant. He pulled his little black notebook from his pocket.

"On the drill field Saturday morning, you pulled forty-eight boners out of fifty marching commands. Everything you did was backwards."

"Friday morning you fell out for reveille without your leggings. Saturday you had your leggings but no field hat. Monday morning neither of your shoes was tied and none of

"A mess sergeant, according to military legend, is a cook whose brains have been baked out."

Your shirt buttons were buttoned. Tuesday morning it was without leggings again."

"I'm never really awake," I protested, "until ten o'clock."

"You ain't awake then," he scoffed. "Every Monday morning without fail I have to wake you up at least a dozen times. I have to look behind all the posts around here to see which one you're sleeping against. You snore and disturb your classes, too!"

He was exaggerating there, I told him, I don't snore. And I'm sleepy only on Monday morning. The rest of the time I'm alert and energetic.

"You're too energetic sometimes!" he roared. "Just this morning, when the lieutenant was coaching the platoon in rifle sighting and you were on fatigue duty as usual! That was a pretty one! You ran up and down the battery street twenty-two times in thirty minutes and you saluted the lieutenant every time you passed him! Do you think he ain't got a thing to do but return your salutes all morning?"

This was evidently a rhetorical question, so I didn't answer it.

"You don't salute an officer every time you see him when you're right there at his side practically all day. You salute him the first time you see him and the last time you're going to see him."

"And then when the lieutenant explains that to you," he sighed, "then what do you do! The next time you see him, you salute him again and then ask him was you supposed to salute him that time!"

He put his head in his hands and drummed sadly on the toe of his foot locker. He raised his head after a time and looked into the notebook again.

I knew what was coming next and I edged toward the door. "And then you low-rated the mess sergeant's recipe for creamed beef on toast and told him his chow was the worst in the Army. And you said you was going to start eating in the next battery. That hurt his feelings so bad that he burned the potatoes for the next three meals!"

I promised to apologize to the mess sergeant. The sergeant read out of his notebook for five or six minutes more, enumerating the things I had consistently done wrong.

"Now, do you know," he asked wearily, "why you don't get the red stripes when they give them out?"

"I suppose I'm just not the executive type," I told him.

A mess sergeant, according to military legend, is a cook whose brains have been baked out. This does not apply to the mess sergeant in our battery, whose feelings are easily hurt by cruel remarks and who weeps tears into the mashed potatoes when he's picked on. This is simply the old Army definition of a mess sergeant.

All of us rising student cooks are eligible to become mess sergeants. Staff Sergeant Adams told us in our first cooking class yesterday morning. Then we can sit out in

the cool dining rooms and yell back orders for the cooks to yell at the student cooks to yell at the kaypees.

This is not the beautiful goldbricking life that it seems, though. The mess sergeant has to make requisitions and keep records on all the rations, he has to make out the menus, see that the food is prepared properly and supervise the work of the cooks, the student cooks, and the kaypees. Besides this, he must listen to all the gripes about his food and to the threadbare jokes about cooks who get drunk from lemon and vanilla extract.

All this he must do, with his brains baked out.

The cook, lucky little rascal that he is, also leads an ideal life. He is allowed to believe that he knows more about cooking than the mess sergeant will ever know, although he is not supposed to tell the mess sergeant that he does. He works one day and sleeps the next two.

If the cook is not feeling cheerful, he can pick on at least one student cook and at least five kaypees. On the battlefield, he is in the safest position behind the lines, since the food is endowed with more sentimental value than the top sergeant. The jokes about Army cooks being shot at from both sides are not based upon fact.

However, friend cook has to greet the morn before the morn gets there. On the days when he works, he has to get up between 3:00 and 3:30 o'clock in order to prepare a substantial breakfast for about two hundred healthy, growing boys whose appetites are exceeded only by the size of their mouths and the power of their lungs.

Yesterday we started to school, with cookbooks and manuals and loose-leaf notebooks for our homework. The only way in which it differed from public schools was that the naughty boys didn't have to go and sit with the girls. Also, the dunce seat, instead of being in the corner of the classroom, was said to be behind a large sack of potatoes in the battery kitchen.

The only hope for an easy time in class was gone in this school. There's no percentage in bringing a shiny red apple to a teacher who has the key to at least one well-stocked pantry.

In the kitchen, they tell us, all the cleaning-up work is to be done by the kaypees, so that the cook may be doing more important things. This, unfortunately, doesn't apply to the daily task of cleaning the stoves thoroughly. The stoves, it says here in the books, are the cook's tools and he must do his own grinding.

It isn't worth the time to wait for the stoves to get comfortably cool before you begin the twilight beautification of these overgrown infernos. In order to avoid the rush at the theater, and to let the kaypees off early, start work now.

The stoves must be cleaned inside and out—thoroughly. First, shake down the fire. All the live coals must go into the ashpans under the grate. That much is simple. Then remove the ashpans, red coals and all. It must be dumped into the ash can out on the garbage rack. This entire procedure should be simple, too, it says here. All you have to do is catch the front handle with a heavy glove and catch the little hook in the rear with the far end of your cap lifter. Here we go!

Carry the ashpans well in front of you. Ain't it hot! When you get to the door, simply open it with the toe of your shoe. Like this. Like—Doesn't seem to work. Try again. Try pushing the right screen so that the left one will swing slightly toward you. Ready? Slightly push the right screen. Something seems to be wrong here.

During this time, you will become increasingly aware that the glove over the ashpans handle is becoming hotter and hotter. Just as you get your toe into the door, the heat penetrates the glove and you decide—very suddenly—that perhaps it's best to drop the whole matter. Drop it slowly, carefully, tenderly—if you can. Do not drop it upon the wooden floor. Look around, if you think you have time, and locate an overturned boiler on which to set it. Whew, that hand's hot! No boiler? Then drop it anyway!

You will find that dropping the ashpans, even though you did it gently, has released a small amount of floating ash, all of which will be absorbed into your mouth and nose. Patience, brother. See that the ashpans isn't lying where it will burn anything, such as a perfectly good wooden floor. Pour cold water on the glove, wait for the resulting steam to blow away, prop open the door as you should have done in the first place, and try, try again.

This time you will almost reach the garbage rack before the glove again gets hot. Slide, Kelly, slide! You won't get there without dropping the whole pan into the clean road, but at least you tried.

Beat the pan against the ash can several times for sound effect. Return to the kitchen, where the mess sergeant, who was watching you through the window all the time, will direct you to return and clean it up.

By the time you have finished and look about you, the kaypees have finished their work and are sitting around gaping at you as if you were a steam shovel. A very, very black steam shovel.

Isn't that a wonderful fuel? Private Sher and I were sitting out on the back steps to dodge the cleaning work going on inside when we saw the sergeant bearing down on us from the other end of the battery street.

"It's no use scooting inside, Hargrove," said Sher. "He's already seen us. Look tired, as if you'd already done your part of the work." Private Sher is the goldbricking champion of Battery A and always knows what to do in such an emergency.

We both draped expressions of fatigue over our faces and the sergeant skidded to a halt before us. He reached into his hip pocket for the little black book and aimed a finger at both of us.

"Bums!" he shouted. "Bums! I worked my fingers to the bone yesterday morning getting this platoon to pretty up the barracks for inspection. Comes inspection and two privates have dirty shoes lying sprawled all over the floor under their bunks! Private Hargrove and MISTER Private Sher! Report to Corporal Farmer in fatigue clothes."

We reported to Corporal Farmer, who looked at his list of jobs. "As much as you don't deserve it," he said, "you two goldbricks are in line for canteen police."

Mr. Private Sher and I walked up the battery street toward the canteen.

"Is this canteen police business good or bad?" I asked.

"Oh, so-so," he said. "You have to clean up the papers and cigarette butts around the post exchange first thing in the morning. Then you come around and check up three or four times during the day."

I stopped, aghast. "What do you do between times?"

"Just be inconspicuous," said Sher. "That's all there is to it. Please pick up that candy wrapper over there. My back aches."

We cleaned up the grounds around the post exchange and sat for a while in the shade, watching a battery going through calisthenics. With beautiful precision, the soldiers swung their rifles up, down, to the right, to the left. They went through the quarter, half, and full knee bends and the shoulder exercises and the rest of the routine. "Those boys seem to be improving, Mr. Sher," I said.

"Result of hard work," said Maury. "Personally, I get awfully tired watching this. We'll wear ourselves out. Let's go over to my kitchen and handshake for a bottle of milk."

"No," I protested. "We must go to my kitchen."

"To avoid a tiring argument," suggested Private Sher, "we will go to both our kitchens. We can't be thrown out of both of them."

After successful forays on both kitchens, Private Sher began to yawn with boredom. "My dear Har-

grove," he said, "we must stimulate our minds. Let us adjourn to my place for a game of checkers." Private Sher's "place" was only one flight of stairs removed from my squadroom, so we adjourned.

After two games of checkers, Private Sher waved his arms. "This is folderol," he said. "You are no checker player, Hargrove. You have no idea of tactics. Let us sit by the window and watch our comrades drill. There is something stirring in the sight of fine young men perfectly executing a marching order."

While we were sitting there being stirred, another corporal disturbed us. He wanted us to go with him to haul coal.

"Much as we would like to help you haul coal, my good man," said Maury, "we are now actively engaged in the work of policing up the post exchange. Feel free to call upon us at any other time."

The corporal placed his hands on his hips and stared at us. "You're being punished," he asked, "with canteen duty?"

"There's no need to be vulgar," said Sher. "If you will excuse us, it is time for us to go again to look for cigarette butts around the post exchange. Coming Mr. Hargrove?"

"Coming, Mr. Sher. And a good day to you, corporal!"

(TO BE CONTINUED)

PATTERNS SEWING CIRCLE

8505 10-20

Shaves Waist

THE skirt of this gay young frock is cut in a way which positively shaves the waist—to a mere nothing! To accent the slenderizing seams of the skirt, outline them with ric-rac or lace!

Pattern No. 8505 is in sizes 10, 12, 14, 16, 18, 20. Size 12, short sleeves, requires 3 3/4 yards 39-inch material, 3/8 yard for contrast collar and cuffs.

Juvenile Jumper

THINK of how darling your small daughter is going to look in this princess-cut jumper and jacket! Think how warmly she'll be dressed, too!

Barbara Bell Pattern No. 1873-B is designed for sizes 2, 3, 4, 5 and 6 years. Size 3 jumper requires 1 1/2 yards 35 or 36-inch material, long-sleeve jacket, 1 3/4 yards.

Due to an unusually large demand and current war conditions, slightly more time

Household Hints

To keep the oven, gas or electric, clean, wash it frequently with hot soda water—a tablespoon of soda to a quart of water. After using the oven, leave the door open until it has dried out. This helps avoid rust and stale odors. Always clean up foods that run over as quickly as possible.

A low, firm stool or a hassock placed near the washbowl, enables little children to reach the bowl to wash hands before meals and after toilet.

Change the flavor of gravy by adding a sprinkle of dried dill. Stir vigorously. Will give a tempting and unusual flavor.

When washing, if a handful of salt is added to the last rinse water, it keeps the clothes from freezing fast to the line.

TRY OVERNIGHT CARE FOR MISERABLE COLDS—

the way grandma did. She used mutton suet she medicated herself to relieve colds, coughing and muscle aches. Now mothers just rub on Penetro. Has bases containing old reliable mutton suet, with modern scientific medication added. 25c, double supply 35c. Get Penetro.

SNAPPY FACTS ABOUT RUBBER

Group riding is a rubber-saving procedure which is rapidly gaining acceptance. The average number of persons per car throughout the country prior to July 1, 1942, was 2. In six months it jumped to 2.44, and at the beginning of May it had increased to 2.66. The greatest gain has been in rural industrial areas, where the average is now 3.17 persons per car.

Bottled air may be a regular accessory in the postwar automobile, making the car owner independent of roadside stations where emergency fire inflation is necessary. The air bottles, now used by the Army, can be refilled at any air line.

A SERIES OF SPECIAL ARTICLES BY THE LEADING WAR CORRESPONDENTS

Holding the Line on Guadalcanal

By Kyle Crichton

(WNU Feature—Through special arrangement with Collier's Weekly.)

Not until the history of the war is written will it be known how close we came to getting driven out of Guadalcanal. The Japs could have done it by coming down in force, but even their minor efforts were tough enough, a hundred Zeros at a time being faced by far smaller groups of our planes.

"Our fliers from all branches—army, navy and marines—went up there and shot them down," says Vice Admiral McCain. "Those young pilots took a beating unequalled in the annals of war. Without relief, they fought day after day, night after night, for weeks."

The toughest job was getting in supplies, and there were dozens of instances of heroism in that work. In the early stages of the invasion, the planes at Henderson Field were running short of fuel, mainly due to losses of stored gasoline from enemy bombing. It was finished for the marines if the Japs got air control. "We held a conference with the commanding officers of the small seaplane tenders," says the admiral. "They were converted from old four-stack destroyers, leftovers from the First World war. We asked the skippers to estimate how many drums of gasoline each could carry. One by one they quoted their figures. Finally, Commander John Alderman spoke up and said: 'I'll take exactly twice that much.'"

Gasoline Gets Through

"We didn't ask how. We simply gave him the job. He really loaded that ship of his with gasoline. One small bomb from a Jap plane would set him off. He ran his ship through the Jap gantlet, in the dead of night, at full speed, and landed the gasoline at Lunga Point, near Henderson Field. We learned later that the planes on Guadalcanal would have been gone dry next morning if he hadn't got through. "On his way back from a second trip, in which he eluded an intercepting force, he was overtaken by Jap bombers. He shot down four of them, but one of the remaining five scored a hit on his stern that put the rudder out of commission. He managed to wobble the ship over to Tulagi, put into a cove, tied up to a cliff and concealed the ship with trailing tree branches and vines. While hidden there, he managed to improvise a makeshift rudder and finally got the ship back to a safe port where she has since been repaired and is again in service. That's the kind of boys we had out there."

On Guadalcanal, the marines were learning fast, too. "It was tough at first," says the admiral, "with the Japs setting off their silly fireworks and trying to fool the boys with cries of 'Hey, Joe,' but the marines soon caught on to that and proceeded to invent tricks the Japs would never in a thousand years have dreamed up. The outstanding fact of this war is the versatility, adaptability, courage and toughness of American boys. Presumably—before the war, that is—they were considered our softest generation. Rather, they go back to the pioneers."

It was shown clear at Guadalcanal that the PBVs were no match for the Zeros, and a point was reached when it was necessary to use a few bombers as reconnaissance planes in "hot" sectors. Even though the fighters were knocking the faster and more maneuverable Zeros out of the air at the rate of eight and nine to one, the loss of the one plane, multiplied over daily battles, soon became serious. A crisis was reached on Guadalcanal when they were finally down to five fighters and 15 bombers. It was then that a huge task force of the Japs was reported 300 miles off, with battleships, carriers, destroyers and cruisers.

"We had about 50 ships in the harbor at Espiritu Santo," says the admiral, "but we soon got them out of there and scattered over the sea, leaving only two that had a few anti-aircraft guns and might do us some good. We evacuated our huts and took to slit trenches and waited. Our bombers being used as scouting planes kept reporting the steady progress of the Jap fleet straight for us—and then, for no reason I was ever able to understand, they turned around and went back!"

Superb Training.

"The United States navy had the most superbly trained carrier groups that ever entered a war," he says flatly. "The next best were the Japanese. All the things we worked out in maneuvers before the war have been successfully used since."

"The captain of a battleship might stop any one type of attack, whether it is dive bombing, torpedo planes, skip bombing or high-level stuff, but when you combine them all, as our navy fliers do, there isn't a ship in the world with enough firepower to shoot them down.

Giant Airport

New York city's new Idlewild airport, now under construction on the shore of Jamaica bay in the borough of Queens, will be five times as large as the present municipal airfield. It will have an area of four square miles and contain 13 miles of runways, 5 miles of taxiways and 2 miles of seaplane landing space.

When the word went out that soldiers overseas wanted packages from home—the response was so overwhelming that Uncle Sam reluctantly had to call a halt. Today, due to shipping space, there are Post Office restrictions on packages to overseas Army men—but you can still send packages to soldiers in the U. S., and to Sailors, Marines, and Coast Guardsmen wherever they are. When you do, remember—one of their favorite gifts is cigarettes, and the favorite brand is Camel. Sales records in Post Exchanges and Canteens show that Camel is first choice with men in all the services. So send him that carton of Camels today.—Adv.

To relieve distress of MONTHLY Female Weakness

Lydia E. Pinkham's Vegetable Compound is made especially for women to help relieve periodic pain with its weak, tired, nervous, and feeble feelings—due to functional monthly disturbances. Taken regularly, Pinkham's Compound helps build up resistance against such symptoms. Here is a product that helps nature and that's the kind to buy! Famous for almost a century. Thousands upon thousands of women have reported benefits. Follow label directions. Write for Free Booklet.

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

Sub's Batteries The electric batteries of a submarine, which are used only for submerged propulsion, constitute about one-fifth of its weight, or surface displacement tonnage.

HOW QUINTUPLETS relieve coughing of CHEST COLDS

Whenever the Quintuplets catch cold—their chests, throats and backs are rubbed with Musterole. So Musterole must be just about the best cold-relief you can buy! Musterole helps break up local congestion in upper bronchial tract, makes breathing easier, promptly relieves coughing and tight, sore, aching chest muscles due to colds. In 3 Strengths: Children's Mild, Regular, and Extra Strong.

MUSTEROLE

WNU—O 48—43

Knowing the Ill The first step toward cure is to know what the disease is.—Latin Proverb.

Kidneys Must Work Well—

For You To Feel Well

24 hours every day, 7 days every week, never stopping, the kidneys filter waste matter from the blood. If more people were aware of how the kidneys must constantly remove surplus fluid, excess acids and other waste matter that cannot stay in the blood without injury to health, there would be better understanding of why the whole system is upset when kidneys fail to function properly. Burning, scanty or too frequent urination sometimes warns that something is wrong. You may suffer nagging backache, headaches, dizziness, rheumatic pains, getting up at night, swelling. Why not try Doan's Pills? You will be using a medicine recommended the country over. Doan's stimulates the function of the kidneys and help them to flush out poisonous waste from the blood. They contain nothing harmful. Get Doan's today. Use with confidence. At all drug stores.

DOAN'S PILLS

"We Are Buying War Bonds—Are You?"

Part of Sgt. Edward Straube's left foot was shot away at Ferryville, near Bizerte, North Africa. At Halloran General Hospital, Staten Island, N. Y., they are building up his foot again. Sgt. Straube, from Perth Amboy, N. J., buys War Bonds regularly.

Sgt. Bernard Rello, 22, of New York, was wounded by snipers during the Sicilian campaign. His grandparents live in Naples, and he has a brother in the Army. Both buy War Bonds regularly. Do you do as much?

Technician 5th Grade John A. Wisniewski, 25, of Doer, Mich., lost his right eye, three fingers and suffered chest wounds from shrapnel in the fight to capture Tunis. He is now recovering at Halloran and is a regular War Bond purchaser.

Pvt. Bernard Heidemann's left leg will be two inches shorter when he is discharged from Halloran. He was wounded by a German bullet during the operations in Sicily last August. His home is Chicago. He has been in traction since Sept. He's buying bonds.

The nickname of Pvt. Milton Lieberman, 27, of Brooklyn, is "Clark Gable." He was wounded in Sicily last August and has been at Halloran since October. Every payday \$12.50 is taken out for War Bonds Lieberman is buying. How many do you buy?

Keep Lemon Syrup
Lemon sugar syrup stored in the refrigerator helps you whisk up summer beverages in a jiffy. Make the syrup like this: Boil for five minutes two cups sugar and four cups water, add two cups lemon juice, cool and store in refrigerator. Dilute with iced water or fruit juices when thirst-quenchers are in demand.

Heavy Gold Chains
The famous heavy gold chains usually worn by courtiers in Fifteenth century England cost from \$3,000 to \$7,000.

War Affects Musicians
Violin and cello strings supplied to some of England's foremost musicians will in future be made from the gut of Scottish or Welsh sheep instead of coming from Italy.

WITH WAR BONDS

LOOKING BACKWARD

40 Years Ago—December 4, 1903.

Dennis O'Brien, fireman on a Lake Superior tug, is home for the winter.

In 1810 the valley of the Monongahela produced 53,908 tons of pig iron. Last year that section of the United States produced 17,821,307 tons of iron and steel, which included armor plate, gun steel, structural steel, tubes, rails, thin plate and wire.

The handsome new parsonage of Emanuel Lutheran church is complete, and is one of the finest residences in Tawas City.

James Hull and Ed Ely of Oscoda were business visitors in the city yesterday.

McCabe Tent, K. O. T. M., Whittemore, has elected the following officers: J. E. Belchamber, commander; Joseph Calvalry, lieutenant commander; Jesse Chase, sergeant; H. E. Van Nostran, M., at A.; Eli Barnum, R. K.; W. Curtis, F. K.; Dr. McColl, physician; George Jackson, chaplain; N. Moran, picket.

The Mansfield building at Hale is being arranged to accommodate the primary room of the public schools at that place. Seats are now being installed.

A giant light has been erected on Heligoland by the German government, the flash of which can be seen 40 miles at sea.

Andy Kelly has just finished plastering Jim Carroll's house in Baldwin township.

At Hale the Tawas Sugar Co. is digging its beets out of the snow.

Joseph Duby was a Bay City visitor last week.

George Cadorette was painfully injured Saturday at the sugar factory.

Robert Barron is spending a few days with friends in Sherman township.

W. J. Bayne has established a general store at South Branch.

Plenty of drifted snow in the county this week.

Malcolm McLeod of Laidlawville has purchased two head of purebred Shorthorn cattle at Saginaw this week.

25 Years Ago—December 6, 1918.

Rev. C. A. Ehrhardt is attending the Baptist convention at Owosso this week.

Pvt. Hosea Bigelow is home from the army on furlough.

Applications for automobile licenses may be secured at the Tawas Herald office.

Carl Haight arrived home from England Wednesday. After serving months at the front he was wounded and had been sent to a base hospital in England.

Chester Allen of Bay City spent a few days this week at the home of John Matheson in Laidlawville.

A. H. Crawford at Emery Junction will pay you 50c per dozen for eggs.

Thomas J. Mooney's death sentence has been commuted to life imprisonment. He had been condemned to be hanged December 13 for the death of 10 persons killed by a bomb explosion in July, 1916.

Mr. and Mrs. Ebrum Richardson of Samaria, Michigan, are visiting their sister, Mrs. Edgar Thornton at Hale.

Joseph Collins of Turner has purchased E. Louks hardware at Whittemore.

Benjamin McElroy, a survivor of "Sherman's famous march to the sea," died Wednesday at his home at Hale.

Mr. and Mrs. Sherman Johnson of Flint are visiting friends in Reno.

Joseph Sempliner is advertising a Great Victory Sale with prices reduced as much as 25 percent.

LOWER HEMLOCK

Major Charles V. Crane in France writes on November 11, Were I to live a thousand years I am sure that I should never again hear such glad news as I heard this morning. Last night, guns were roaring at each other in defiance and hate. Today the sun is shining, and it is so quiet. Unbelievable, but wonderful.

Many of our boys in military camps have been discharged during the past few days.

The war has been brought to an end in no small measure by starvation itself, and it cannot be our business to maintain starvation after peace.

Crown of Thorns

The crown of thorns, the wraith believed to be the one placed on the head of Jesus before his crucifixion, has been smooth since 1239, when the French king, Louis IX, brought it to Paris, cut off the thorns and distributed them to the churches throughout Europe.

Baked Beans for Emperors

Baked beans was served to Inca emperors on golden platters centuries before Columbus sailed the ocean blue. It was Peru that ultimately taught our American cooks the art of its preparation.

State of Michigan

The Probate Court for the County of Iosco.

At a session of said Court, held at the Probate Office in the City of Tawas City, in said County, on the 18th day of October, A. D. 1943.

Present: Hon. H. Read Smith, Judge of Probate.

In the Matter of the Estate of Charles W. L. Grosvent, Deceased.

John H. Dyer having filed in Court his final administration account, and his petition praying for the allowance thereof and for the assignment and distribution of the residue of said estate,

It is Ordered, That 22nd day of November, A. D. 1943, at ten o'clock in the forenoon, at said Probate Office, he and is hereby appointed for examining and allowing said account and hearing said petition.

It is Further Ordered, That public notice be given by publication of a copy hereof for three successive weeks previous to said day of hearing in the Tawas Herald, a newspaper printed and circulated in said County and that the petitioner shall, at least ten (10) days prior to such hearing, cause a copy of this notice to be mailed to each party in interest in this estate at his last known address by registered mail, return receipt demanded.

H. READ SMITH, Judge of Probate.

Tawas City Recreation

Mr. and Mrs. Otto Look, Mrs. Clyde Eovil and daughter, Ann, spent Thanksgiving with Mr. and Mrs. Arthur Zink at Port Huron. Mr. and Mrs. Herman Gaul of Tawas City took care of the Look chores during their absence.

The feather party held at the Anschuetz school was a big success. The proceeds amounted to \$48.00. A large crowd attended and everyone reported a fine time.

Miss Jennie Smith of Alabaster visited her sister, Mrs. Glen Long, and Betty Jean McArdle for a few days last week.

Andrew Lorenz of Detroit spent the week end at his home on the Hemlock.

Mr. and Mrs. John McArdle spent Thanksgiving with Mr. and Mrs. Archie Graham and Mr. and Mrs. Harry Graham at their hunting lodge at Curran.

Miss Dorothy Kelchner of Detroit spent the week end with her parents, Mr. and Mrs. Walter Kelchner.

Betty Jean McArdle spent Sunday with Mr. and Mrs. John Katterman and Mrs. Arthur Wendt.

Mr. and Mrs. Henry Fahselt entertained company from Detroit over the week end.

Miss Ruth Giddings and Paul Anschuetz spent Sunday at the Arnold Anschuetz home.

On Friday evening relatives and friends gathered at the Laidlawville school to help W. E. Laidlaw celebrate his 74th birthday. He received a number of nice gifts. Pot luck lunch was served. Everyone spent a pleasant evening departed at a late hour, wishing Mr. Laidlaw many more happy birthdays. Mr. and Mrs. Laidlaw leave soon for Saginaw to spend the winter.

Edgar Bradford of Birmingham was called here by the serious illness of his father, Sam Bradford.

Mr. and Mrs. Otto Kobs spent Thanksgiving with Mr. and Mrs. Victor Bouchard.

Mrs. Herrick and Paul Anschuetz were Thanksgiving guests of Mr. and Mrs. Leonard Bouchard.

Mr. and Mrs. Maurice Lornez and daughter spent Thanksgiving with Mr. and Mrs. Paul Bouchard.

Mr. and Mrs. Wilfred Young spent Saturday evening with Mr. and Mrs. Clarence Curry.

Mrs. Ida Thomas spent Thanksgiving with Mr. and Mrs. Will Thomas at Prescott.

Mr. and Mrs. Gerald Mallon and Mrs. Iva Mallon visited Mr. and Mrs. Waldo Curry and family Monday evening.

Mr. and Mrs. Hugh Newberry of Flint visited Mrs. Ida Thomas during the past week.

On Monday Mrs. Ida Thomas entertained Mrs. Rose Lorenz, Mrs. Walter Kelchner and grandson, Jimmie Curry, at a twelve o'clock dinner.

Strongest Odor
Musk, the world's strongest and most penetrating odor, is so powerful that when a man opens a musk-gland it frequently causes his nose to bleed.

What is a Mammal
One of the commonest popular errors of zoology is the notion that the whale is some sort of fish. It is not; it is a mammal which went to sea. The whale is warm-blooded, has a well-developed brain, and in all other respects shows a far higher organization than any of the fishes. Its young are born alive, and are suckled and cared for by the mother as with land mammals.

SPACIOUS CHAPEL AMBULANCE SERVICE

Help him get a line to home

ABOUT the only time he can get to the telephone is a few short hours in the evening. That's when thousands of other boys in the camps want to use long distance, too.

Any time you are not on the lines, there's a better chance for a soldier's call to get through.

So unless it's urgent, we hope you won't be using long distance from 7 to 10 o'clock at night. Save those hours for the service men.

Michigan Bell Telephone Company
★ Invest in Victory — with War Bonds ★

Illuminated Aisles

Going into the gloom of dark cinema houses, people are likely to stumble, bump into others. Ushers with flashlights are nuisances; small lamps placed near the aisle floors illuminate only small areas. American Cyanamid company announced what it considers a better idea: aisle rugs treated with fluorescent dyes, bathed by invisible ultraviolet radiation from small tubes. Such rugs glow softly all over, interfere with nothing on the screen.

New Antlers Quickly

An elk can grow new antlers in four months. About mid-March the old pair drops off and new buds appear.

Chocolate Bars

To satisfy the American people's craving for chocolate bars, 224,834,095 pounds of chocolate were converted into bars last year, census figures show.

First Auto Road-Race

The first automobile road-race, 74 miles from Paris to Rouen, was run in 1894, de Dion winning with an average speed of 12 miles per hour.

Weight of Garand Rifle

Before machining the metal for Garand rifle weighs 24 pounds, which is cut to 7 1/4 pounds.

State of Michigan

The Probate Court for the County of Iosco.

Present: Hon. H. Read Smith, Judge of Probate.

At a session of said Court, held at the Probate Office in the City of Tawas City in said County, on the 24th day of September, 1943.

In the Matter of the Estate of Anthony Lichota, deceased.

It appearing to the Court that the time for presentation of the claims against said estate should be limited and that a time and place be appointed to receive, examine and adjust all claims and demands against said deceased by and before said court.

It is Ordered, That all creditors of said deceased are required to present their claims to said Court at said on or before the 6th day of December, 1943, at ten o'clock in the forenoon EWT, said time and place being hereby appointed for the examination and adjustment of all claims and demands against said deceased.

It is Further Ordered, That public notice hereof be given by publication of a copy of this order, once in each week for three weeks consecutively, previous to said day of hearing, in The Tawas Herald a newspaper printed and circulated in said county.

State of Michigan

The Probate Court for the County of Iosco.

At a session of said Court, held at the Probate Office in the City of Tawas City, in said County, on the 16th day of November, A. D. 1943.

Present: Hon. H. Read Smith, Judge of Probate.

In the Matter of the estate of Edward Melvin, Deceased.

Russell H. McKenzie having filed in said Court his final administration account, and his petition praying for the allowance thereof and for the assignment and distribution of the residue of said estate,

It is Ordered, That the 20th day of December, A. D. 1943, at ten o'clock in the forenoon, at said Probate Office, be and is hereby appointed for examining and allowing said account and hearing said petition.

It is Further Ordered, That notice thereof be given by publication of a copy hereof for three successive weeks previous to said day of hearing, in The Tawas Herald, a newspaper printed and circulated in said county, and that the petitioner shall call at least ten (10) days prior to such hearing, cause a copy of this notice to be mailed to each party in interest in this estate at his last known address by registered mail, return receipt demanded.

H. READ SMITH,
Judge of Probate.

A true copy.
Annette D. Svoke,
Register of Probate.

Hemlock

Mr. and Mrs. W. E. Smith spent Thanksgiving with their son, Henry, and family at Mio.

Mrs. John Burt left last Thursday to visit in Flint.

Mr. and Mrs. Charles Brown had Thanksgiving dinner with Mrs. Ellen Perkins and son, Blair, in Reno.

Mr. and Mrs. W. E. Smith enjoyed an oyster supper with Mr. and Mrs. Harry Van Patten last Saturday.

Mr. and Mrs. Fred Pfahl were at Bay City shopping one day last week.

Mr. and Mrs. N. C. Miller were Thanksgiving guests of Mr. and Mrs. Lester Biggs.

Mr. and Mrs. W. E. Smith were at Standish on business Saturday.

Charles Brown has purchased a purebred Shorthorn Durham bull calf from E. C. Russell of Twining.

Mr. and Mrs. Ralph Burt and family were Sunday dinner guests of Mr. and Mrs. Fred Pfahl.

Two cars from here attended the Church of God services at East Tawas Sunday evening.

Hale

Mr. and Mrs. Clarence VanWormer have moved to the VanWormer farm one mile south of town, which they have purchased.

Robert Buck attended the funeral of his uncle, F. D. Ross, at Lansing on Wednesday. He also visited friends in Flint.

Rev. Switzer, the new pastor from York State, moved into the parsonage on Tuesday.

Mr. and Mrs. Leonard Sheldon and son, Pvt. Leland Sheldon, were visitors at the Frank Buck home on Thanksgiving.

Mr. and Mrs. Glenwood Streeter were Bay City business visitors on Tuesday.

Women's Labor Cheaper

In many parts of India women's labor is cheaper than animals.

What You Buy With
WAR BONDS

Gas masks which came into use in warfare for the first time when the Germans used poison and mustard gas in World War I, are much improved today over those used then. The Chemical Warfare Branch of the War Department issues these gas masks to every man in the service. We are taking no chances.

The type pictured here is the "can" and "elephant nose" mask and costs about \$9.25 each. The headgear is transparent, made of material resembling cellophane and does not cloud with the breath. You can buy two of these gas masks with the purchase of an \$18.75 War Bond. We need thousands of them. Don't fail to give at least ten percent of your income every pay day for War Bonds. Buy them at your bank or postoffice, regularly.

The Washington Merry-Go-Round

DREW PEARSON

Washington, D. C.

MARSHALL'S MEMORY

For a long time, Jim Farley and Mrs. Henry Wallace were supposed to have the best memories around Washington. But they have a real rival in the chief of staff, General Marshall.

Returning from a warfront town, Marshall held a press conference. Twenty-one newsmen were present. Marshall said he would answer one question from each newsmen.

He turned to the man nearest him on the right and said, "All right, what's yours?"

The question proved to be rather elaborate. "I will answer that in a minute," said Marshall. "But let's go ahead. What's yours?"

And before answering any questions, he went the rounds of 21 men and got their 21 questions. Then he proceeded to answer the questions one by one.

Not only did he remember the question which each of the twenty-one had asked, but he remembered who asked it. Pointing to each man, he said, "Now your question was—"

And then he named it and proceeded to answer it.

This was more than a feat of memory. It gave order and body to the answers, and eliminated the confusion of most press conferences.

Note: Other competitors for the "Memory Club" are Nat Howard of the Cleveland News, formerly U. S. press censor; and Erwin A. Holt of Burlington, N. C., who can tell you the day of the week you were born on if you give him the date.

CAPITAL CHAFF

John D. M. Hamilton is getting around \$25,000 a year and expenses from Joe Pew, in part for his work against Willkie. How things change! Four years ago Pew was the man who helped select Willkie.

Adm. Adolphus Andrews, recently retired from the Eastern Defense command, has been offered \$100,000 a year by an unnamed commercial outfit.

Ann Corio, the strip tease artist, was turned down by the Red Cross when she applied for overseas duty with the "distress corps" because she was not a college graduate.

The war department has sent instructions to all motorized units to get along with their present tires. Just one indication of how tight tires are going to be.

The Poles are burned up by what happened at Moscow.

CONGRESS DOWN ON DOCTORS

Despite the dangerous shortage of doctors and dentists, the house appropriations committee slashed a \$1,000,000 request by the U. S. Public Health service from the supplemental defense bill.

However, what most observers missed was the fact that this same committee less than six months ago disapproved a \$175,000 request for medical relief on the ground that the request should have been bigger!

The \$1,000,000 fund was to enable the relocation of 600 doctors and dentists in areas where they are desperately needed, and was vetoed despite warnings by War Manpower's Dr. Frank H. Lahey, the American Medical Association, the American Dental Association, and the war and navy departments that in some areas there was only one physician to every 3,000 civilians.

But the committee butchered the \$1,000,000 just the same.

In contrast, here is how the same committee ruled last May on a \$175,000 request for relocating 70 physicians:

"The committee is well aware that the shortage of physicians in many sections of the country is acute, but considers that any program which would provide for the services of only 70 physicians is so ineffective as to be unjustifiable."

"The committee is willing to give consideration to any type of program which the Public Health Service may suggest to meet the need in a more adequate manner."

UNCLE SHYLOCK?

Hottest question at the Atlantic City relief conference: Who pays the relief bill?

There is no dispute about the quality of mercy, but some think it blesses him that takes more than him that gives. In short, most of the foreign delegates are willing to pledge products of all kinds from their countries, for relief of the oppressed peoples of Europe, provided those products may be sold, not given away.

But the United States thinks there should be some bountiful giving, as a pump-priming operation to get the war-torn countries back into production.

MERRY-GO-ROUND

In 1935, before Mussolini invaded Ethiopia, he practically denuded Missouri, Arkansas, and Texas of mules. The Italian government bought about 300,000.

Inside reason for withdrawal of Dominican Ambassador J. M. Troncoso from Washington is that Dominican dictator Trujillo is displeased at not being invited to visit the White House. Most other Latin presidents have been invited, but FDR sticks to Sumner Welles' ban against Trujillo.

PEAKING OF SPORTS

By Bob McNamee

Released by Western Newspaper Union.

IN THE words of Silent Sam Breadon, big boss of the St. Louis Cardinals, "we don't know where we stand for 1944."

Sam was echoing the sentiments of officials of 15 other major league clubs, with particular reference to the draft situation and its effect on baseball.

As this is being written, a total of 33 players from the 16 National and American League clubs either have been inducted into the armed forces already, are awaiting induction, or have been reclassified into 1-A. And all this since the 1943 campaign wound up. Add to this total the 250 players, men like Bob Feller and Hank Greenberg, who previously had gone to war and you get an idea of baseball's predicament.

Breadon wasn't merely exercising his voice. The National League champions already have lost Pitcher Harry Brazle and Centerfielder Harry Walker from their World Series lineup. As the Cards' boss was at the height of his worrying, Walker Cooper was completing his physical examination and Mort Cooper was preparing to leave.

Indian Trouble

The Cleveland Indians also have their worries. Their outfield wasn't always a thing of beauty last season, but since the schedule ended two of their outfielders have heard from their ever-alert draft boards. And one of them is Oris Hockett, 30 years old and the father of three children, who has been placed in 1-A, a situation which is fraught with action. This will leave only two regular gardeners on the team.

The New York Yankees, world champions, expect to lose Spud Chandler, their ace right hander, in the next 60 days or so. The Detroit Tigers already have lost Dangerous Dick Wakefield and a couple of good pitchers. Tiger officials say they "haven't the vaguest notion of how many will be called by next spring."

A few of the clubs—the St. Louis Browns, Boston Red Sox and Braves—have sent out questionnaires to their players to get some sort of an idea of what may happen during the winter months.

Here is the draft situation (subject to immediate change) of a few players:

Brooklyn Dodgers—Pitcher Kirby Higbe, private at Fort Jackson, S. C. Chicago Cubs—Pitcher Hi Bithorn and Outfielder Whitey Platek, inducted into the navy.

Chicago White Sox—Pitcher Edgar Smith, a father, inducted into the army.

Cleveland Indians—Pitchers Chubby Dean and Pete Center, both inducted.

Cincinnati—Second Baseman Lonnie Frey, reclassified 1-A.

New York Giants—Fielder Sid Gordon, enlisted in coast guard; Second Baseman Mickey Witek, into coast guard; Shortstop Bill Jurgens, 1-A.

Philadelphia Phillies—Outfielder Ron Northey, summoned for physical.

Pittsburgh Pirates—Pitchers Hank Gornicki and Wally Hebert, reclassified 1-A.

Washington Senators—First Baseman Mickey Vernon, Infielder Bernard Robertson, inducted into navy.

The Future

Unquestionably the situation is baffling to baseball men. They don't know how many regulars will be back for the 1944 season, nor do they know positively that they will be able to field a full team. They do know, at least, that it won't be "business as usual."

No baseball fan in his right mind expects to see the same caliber of ball that he sees in peacetime. It just isn't in the cards. Too many topnotch players have gone to war—and more will go.

The past season is proof that baseball doesn't have to worry too much. People want to see ball games, even if they are not up to usual standards. They will continue to crowd the turnstiles just as long as players do their best.

Competition is what makes baseball interesting. You want your team to beat the Yanks, the Dodgers or the Cubs. Perfection in that competition is incidental. Important, but not essential.

SPORTS SHORTS

Bowling is becoming increasingly popular among WACs in army camps.

When Frankie Frisch played football at Fordham he made Walter Camp's second All-American team.

Ninety per cent of all athletic equipment now manufactured in this country goes to the armed forces.

Tris Speaker says that Walter Johnson, Joe Wood, Lefty Grove and Bob Feller were the best four pitchers he ever saw in the American league.

7 Reasons Why Our Bombers Return Home

Close-ups of four of the gun positions and seven of the thirteen machine guns that make the American Flying Fortress the most formidable airship in combat today. Nos. 5 and 6 are in the turret atop the fuselage. No. 7 is on top of the plane. Nos. 8 and 9 are in the ball turret midships on the underside. The gunner curls up and spins turret in direction of enemy planes. Nos. 12 and 13 are in the tail of the plane beneath the dorsal fin. Picture at bottom shows all 13 positions.

Badoglio Tells His Plans to U. S. Newsmen

Pietro Badoglio, Italian premier, is pictured with American reporters during a recent interview in which he revealed his plans for the immediate future of Italy. He said he would resign as head of the government as soon as Rome is set free. He also announced that he would appoint a temporary government of undersecretaries.

SPARS Celebrate First Anniversary

Members of the Women's Auxiliary Reserve in the Coast Guard learn to tie knots on a coast guard schooner in Boston harbor. They recently celebrated the first anniversary of their organization which is known as the "SPARS." This name is a condensation from the coast guard motto "Semper Paratus," meaning "Always Prepared."

Men Who Smashed Nazi Greenland Base

U. S. armed forces that penetrated Arctic wastes to discover and destroy a Nazi radio base on Greenland were sketched by Coast Guard Combat Artist Norman Thomas. In this picture two U. S. army scouts and a corporal of the Greenland army are shown as they prepared to go inland on a reconnaissance patrol.

Parascouters

Folding light motor scooters dropped with parachutes are a new addition to the equipment of paratroopers. They have a speed of about 45 miles an hour and can easily be lifted by one man. Top: Scooter ready for mounting. Bottom: Scooter being lifted from its container.

Swig of Salt Water

Sea-water is now drinkable with the aid of a small briquette resembling a candy bar which removes the injurious salts in 20 minutes. William Hall of the air transport command illustrates its use. One briquette provides a 14-day supply of drinkable water.

Sight Rights Sight

So keen is the eye of Robert Murray that he can detect a bend in a rifle amounting to only the 10,000th part of an inch. No machine has yet been developed to replace the human eye for this work. He is shown straightening barrels in a plant at Iliou, N. Y.

He's on Pitch

Godfrey Ludlow, a violinist by profession, utilizes his keen sense of pitch in an essential industry. In a New York plane factory he taps parts with a hammer and detects imperfections by sound.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL LESSON

By HAROLD L. LUNDQUIST, D. D. Of The Moody Bible Institute of Chicago. Released by Western Newspaper Union.

Lesson for December 5

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

THE SIN OF COVETOUSNESS

LESSON TEXT—Exodus 20:17; Luke 12:13-25.
GOLDEN TEXT—Thou shalt not covet anything that is thy neighbor's.—Exodus 20:17.

The Ten Commandments (the last one of which we study today) are characterized by their brevity, their comprehensive touch with all of life, and fidelity to the right. But they are also unique and different from all other laws in that they reach into the inner recesses of a man's heart, a realm where only God can judge and act.

This last commandment (against covetousness) emphasizes that point, for it does not expressly require or forbid any act, but deals with the motive of man's action. Man can judge another man's acts, but he cannot judge his motives, desires, or thoughts. God must do that.

But man can, by the grace of God, control his motives; and hence we have this commandment and its interpretation.

I. The Sin—Covetousness (Ex. 20:17).

It may be a surprise to many to learn that coveting—or desiring what belongs to another—is a sin. It has become one of the "respectable sins" accepted in the best circles and practiced by many church people.

As a matter of fact, this sin underlies all the other sins against which the commandments speak. He who has a love for money and an evil desire to have his neighbor's possessions will hate, lie, steal, cheat, kill, in fact, as Dr. Morgan says, "The whole realm of human interrelations is disorganized and broken up by the dishonoring of the tenth commandment."

If you have become a lover of money, or one who longs to have what your friends own, beware. You are in real danger.

II. The Result—A Ruined Life (Luke 12: 13-21).

To have such a spirit makes a man greedy (v. 13), callous and selfish (vv. 17-19), and foolish (v. 20), both regarding this life and that which is to come.

The yardstick of success in the world—for an individual, an organization, or a nation; yes, even for many a church—is the possession of wealth, or property, or other "things." Write it in large letters on the hearts and minds of our boys and girls, "A man's life consisteth not in the abundance of the things which he possesseth" (v. 15). The one who was known to his friends (and to himself) as "a rich man" (v. 16), but whom God knew as a "fool" (v. 20), had more than he could use for himself. He had to build new and bigger barns, and could not see the "barns" that were already prepared, for, as Ambrose says, "Thou hast barns—the bosoms of the needy, the houses of widows, the mouths of orphans and infants."

He was a fool who loved money for himself. One wonders what he had to say for himself when that very night he was called into the presence of God to give an account of his stewardship (v. 20). If you are similarly situated and have the same attitude, what will you say in that day?

An important point which we must note is that Jesus expressly repudiated the connecting of His name with the so-called "social gospel" in His reply (v. 14).

III. The Cure—Trust in God (Luke 12:22-25).

Because covetousness destroys the best in life, we ought to shun it like poison. The best antidote (or cure) if we have been poisoned by it is to go all-out in our trust and confidence in God.

We who are children of God are to take no anxious thought for the morrow. This does not forbid proper preparation and forethought, but it does rule out fretful anxiety. The reasons are very clear and cogent.

First of all, while food and clothing are important, they are not of first importance. The vital thing is that one have life. Otherwise things are useless (v. 23). We must keep our sense of proportion, of relative values.

Then too, God is the One who must care for every one of us. And He does care for us! Why not trust Him? He cares for all creation; can He not care for you? If then you trust the all-powerful One, what occasion is there for worry, or covetousness?

And finally comes the devastating argument. Worry never accomplished anything. Anxiety does not help anyone, anytime, anywhere. So why be anxious?

It is clear then that a desire for that which belongs to others is a sin which destroys man's happiness and usefulness. It is needless—as is all anxiety—because only God can provide, and He will provide if we trust Him.

Life becomes simple, pleasant, useful, confident, yes, really Christian, when we get our eyes off things and on the Lord.

Castor Beans Furnish Base for Insecticide

U. S. Can Grow Needed Poisons, Say Chemists

For a number of years the United States has been importing many millions of pounds of insecticides and the bases for insecticides from foreign sources, many of which are now cut off by the war, J. Edmund Good, vice president of a chemical company, told members of the Mid-American Chemurgic conference and the National Farm Chemurgic council at their joint convention in Cincinnati, recently.

Raw materials for the larger part of our food insecticide needs today can be grown right on the nation's farms, he continued. Probably 90 per cent of those importations upon which we formerly depended can be replaced with products from our own American farms. There is a direct connection between an adequate domestic supply of insecticides and our domestic crop of castor beans which was recently begun.

A newly developed insecticide, commercially called "Spray Kast," is derived from the castor bean

Farm Victory Gardens

plant, including the stems and leaves. Because of the many uses for castor oil in vital war products, there has not been sufficient quantities of castor plants available to manufacture any important quantity of the new spray, Mr. Good said. This situation may improve, he went on, if dehydrated castor bean leaves can be obtained. We know that we will have to have very large tonnage of materials to meet 1944's demands for the finished product.

For example, one of the large citrus growers in Florida had a crop this year that was much greater and of better quality than last year, and was still better than the previous year's crop. This is the first year that he used the new insecticide exclusively.

Somewhat similar results were obtained with potatoes in Maine. Two or three years ago when we began experimenting with the spraying of vegetables, we watched those experiments very closely. The results obtained in the years 1942 and 1943 satisfy us that the spray will adequately protect vegetables from the insects that infest them, and will produce a better quality of vegetables. And remember, Mr. Good emphasized, that no imported materials need be used if castor beans were grown in this country in quantity.

All the possibilities of the new insecticide have not been explored and experimental work is going on continually. For instance, it has been combined with sulphur or copper and used in commercial applications for control of red spider, purple mite, six-spotted mite, rust mite, melonworm and many soft-bodied worms that infest vegetables.

It is not claimed that this insecticide will kill all insects. In some cases it seems to act as a repellent; in other cases as a contact poison on sucking insects such as aphids, thrips, lice, mealy bugs, leafhoppers, and red bugs; and controls chewing insects such as beetles, leaf rollers and caterpillars. A few of the many crop insects that have been reported to us as being controlled are:

- Beans: Mexican bean beetles, aphids, leaf rollers.
- Beets: Flea beetles, worms.
- Cabbage: Imported cabbage worms, cabbage loopers.
- Cucumbers: Melon aphids, melon worms, beetles.
- Potatoes: Aphids, beetles, leaf hoppers, leaf rollers and flea beetles.
- Spinach: Flea beetles, aphids, cabbage loopers, worms.
- Tomatoes: Fruit worms, flea beetles.
- Lettuce: Worms.
- Peas: Aphids, weevils.

The purpose in mentioning these details and properties is not to emphasize one insecticide particularly, Mr. Good said in closing, but to point out that an efficient insecticide can be made from farm crops grown in the United States for the United States.

Farm Notes

Expenditure of a few cents for a vermifuge, such as phenothiazine, for goats, is considered a good investment by veterinarians.

More than a million pounds of beeswax a year is needed for use in war products, adhesives, waterproofing for shells, belts, machinery, and protective covering for fighting planes.

Designers Make Clever Use Of Tassels, Bows and Buttons

By CHERIE NICHOLAS

WATCH tassels! Tassels are the big news in the trimming realm. Any sort of a tassel, just so it's a tassel, say designers. The tassel or tassels that trim your hat, your belt, your handbag, your dress or your blouse may be short or long, tiny or immense. They may be of silken strands or cords, of dangling beads, of wool yarn or "what have you" that gives a tassel look.

The belt that is tassel-embellished is turning out to be one of the "hit" fashions of the season. Designers have now discovered that there's rhythm between the new pencil-slim silhouette (announced as "what's what" in smart "lines") and long graceful tassels used in a trimming way. The exquisitely ladylike patrician-styled dress, shown to the right in the illustration, makes a fringe-tasseled belt its piece de resistance. Note how beautifully this dress is tailored and stitched into lines of grace. The plain bodice and high neckline are a perfect background for jewels. The felt cartwheel hat is color matched to the duck green wool that fashions the dress.

The attractive tassel-trimmed dress to the left is done in a fine rayon weave in that very new smoke gray shade that's going over big this season for hats, coats, dresses and furs. The smartly tasseled belt is the only adornment. The hat is of velvet with butterfly feelers adding a pert note. The gold floral ornament is a floral of unusual beauty. Milliners are showing a definite liking for tassels. Long ones are apt to dangle from many a crown and when they do they fall to the shoulder most nonchalantly and with utmost flattery. Then there are the tiny little pillboxes and the berets that are curtained with tiny tassels, either silken or of jet all the way

round. This type of hat is really among the show pieces in millinery displays.

Tassels also dangle from frog fastenings, and as lapel ornaments in connection with applique braid novelties, and with jewelry pieces they are playing an attractive role. You'll see tassels adorning gloves and adding interest to handbags. Tassels are indeed having their big moment in connection with smart winter fashions.

If it isn't buttons then it's bows that add the touch that tells to current fashions. In the instance of the suit centered in the group, ultra chic is achieved via both button and bow strategy. Buttons will be buttons, but when they are large and important looking and when they are placed on the slant, as they are on the suit pictured, they give one a new outlook on smart fashion as they dramatize the side fastening of the skirt and the diagonal line of the jacket.

The bow treatment at the neck is as interesting as the buttons that fasten this stylish two-piece. The looped satin bows are arranged so as to give a broad-shouldered look that will accent the slim hips by way of contrast. It didn't seem possible that more bows would be seen this season than ever, but here they are, myriads of them, in the style picture. You'll see bows at beltless waistlines, bow-tie blouses, bows under the chin, some tailored, others fluttering like huge butterfly wings.

Particularly in evidence are immense bows of taffeta or wide black lace placed at the base of the lowest square necklines. It's a good plan to keep a stock of bows on hand. You will find several bows of wide black velvet ribbon a real asset when you want to put a finishing touch to a simple basic dress.

Released by Western Newspaper Union.

Skirt Interest

This is a season when keen interest centers around skirt design. The skirt pictured is so smartly fashioned it becomes the major style theme of the costume. Note how cleverly pockets are achieved in a sort of overskirt hip panel. The material for this skirt is black and white checked wool, worked out by contrasting bias with straight.

Mittens Assuming New Style Appeal

Besides being protective against winter chill, mittens are making a bid for high fashion honors. You can be very "choosy" about the mittens you wear, for they are shown in an endless variety of decorative effects. One reason is that so many are wearing smart knitted or crocheted hats and mittens to match in the new style edict. One of the cleverest types is the white yarn-knitted mitten that has a flag knitted into it. Girls who have the knack of adding clever little touches of their own are buying plain white knitted mittens, embroidering a tiny flag thereon. Another clever idea is to outline the initials U.S.A. across the glove in red, white and blue. The mitten knitted of string is a fashion theme of interest. It's a neat and utilitarian type, and very easy to launder. Then there is the mitten gaily embroidered in colorful florals. The new fluff-leece white mittens are the schoolgirl's delight.

Ostrich Feather Stoles

Duets of hat and long stole of cocoa colored ostrich feathers, the stole about 18 inches wide and 2½ yards long, are being shown. The rows of uncurled ostrich feathers are attached to a cocoa colored band of crepe. The tiny hat is composed entirely of the same colored ostrich feathers. Such a twosome is particularly ideal with dull black dresses or with a costume of burgundy red, navy blue, or deep brown.

BETTER DRESSMAKING

By Ruth Wyeth Spears

MANY women are learning to sew as a conservation measure. It is a way to make spare minutes count. They are finding incidentally that dressmaking is as much fun as any other craft. If one has, or can beg, borrow or buy, a sewing machine, all the other equipment is inexpensive and most of it has other uses as well.

One of the first things that the beginner learns is the importance of pressing. It begins as soon as the first seam is sewn. She may acquire pressing irons for special purposes later, but whatever type of iron serves for the family laundry also does very well for dressmaking. An open-end ironing board that will take the full length of a dress is essential but every

home-maker counts that a household must. Her seam pressing board and her pressing cushions are the darlings of her equipment. They also may serve her well on ironing day. It is smooth work with the iron when she tucks them under a shoulder or inside a sleeve.

The sleeve form cushion and the tailor's pressing form are easy to make. The latter is often called a ham cushion because that is the shape of it. The covering should be of heavy muslin or other firmly woven cotton goods. The cover for the sleeve form may be cut by a tight sleeve pattern with all extra fullness taken out. The cushion should be stuffed very tightly. A center core of flat layers of newspaper is sometimes used for the large cushion. Cotton or small bits of clean rags may be used for the rest of the stuffing.

NOTE—This drawing is from Mrs. Spears' latest book, **BETTER DRESSMAKING**. The beginner may learn to sew from the profusely illustrated book, and the experienced dressmaker will find it a useful reference book on modern sewing techniques. Readers wishing to see a copy of **BETTER DRESSMAKING** should send name and address for complete description and special offer. Address: Mrs. Spears, Drawer 10, Bedford Hills, N. Y.

Efficiency

"The secret of efficiency and success in our enterprises is to act at once upon our ideas while our fancy is still warm and in a glow."

'Do Your Best and End Will Take Care of Itself'

There's a bit of impressive sentiment in this homely thought of Abe Lincoln's:

"If I were to try to read, much less answer, all the attacks made on me, this shop might as well be closed for any other business. I do the very best I know how—the very best I can; and I mean to keep doing so until the end. If the end brings me out all right, what is said against me won't amount to anything. If the end brings me out wrong, 10 angels swearing I was right would make no difference."

Unique Family

A unique American family is that of the Irish Horse Traders whose 4,000 members, all related by blood or by marriage, spend most of their time traveling through the South in small groups trading horses and mules. Their one official address is an undertaking establishment in Atlanta to which they ship their dead and where they meet for a week every April to celebrate marriages and to hold their annual mass funeral.

Congo Eel Isn't

The Congo eel is not from the Congo and is not an eel but a salamander.

Smile Awhile

Why Not?
The state police were giving examinations for drivers' licenses. Upon returning from the driving test, a middle-aged Negro was questioned about different highway laws.

The questioner asked: "And what is the white line in the middle of the highway for?"
Sam replied promptly: "Fo' bi-cycles."

His Field

"And did you ever lose yourself in your work?"
"Yes."
"What is your work?"
"Exploring central Africa."

A fellow asked his boss for a raise. He told the boss that he must have one, as several other companies were after him. It wasn't until weeks later that the boss discovered that they were the gas company, the electric company, and a furnishing company

He Was!

Fortune Teller—This bump on your head shows you are very curious.

Client—That's right. I got that by putting my head in the shaft to see if the dumb waiter was coming up and it wasn't.

5 WARS

Smith Bros. has served the public since 1847. In that period America has fought five wars. Only during wartime has there ever been any shortage of Smith Bros. Cough Drops. Our production now is war-reduced but we're distributing it fairly to all. Still only 5¢. A nickel checks that tickle!

SMITH BROS. COUGH DROPS
BLACK OR MENTHOL—5¢

The Japs were wrong

Let's keep them wrong!

The Japs were wrong.

Cutting off our rubber supply in the Pacific didn't take us out of the war—or even slow us up.

For Government, the Rubber Director, the rubber industry, and the petroleum, chemical, and alcohol industries pooled their patents and ideas, worked together, and accomplished the seemingly impossible.

Today, there is no shadow of a doubt that our planes will continue to fly, our ships to sail, our tanks to roll.

For America now has nearly enough rubber to meet our essential needs!

But our tire worries are still here!

The American people saw the new synthetic rubber plants spring up like mushrooms. They heard of large-scale production of synthetic rubber. And they applauded. Unfortunately, they also jumped to the conclusion that they could stop worrying about tires!

It is true that the RUBBER supply crisis is past. But the long-expected TIRE shortage is with us!

"But," you may say, "how can this be when thousands of tons of Government synthetic rubber are being made... when such a tremendous tonnage of rubber products is being turned out, as well as more airplane and truck tires than ever before."

One reason is that—as the Baruch Committee foresaw—few tires could be manufactured until our synthetic rubber supply was well on the way. This resulted in millions of tires going out of use at a time when there were no replacements. Meanwhile, tires left in service have less mileage in them, and prewar inventories are gone.

Another reason is that our military needs are far greater than anyone anticipated.

Also, the rubber companies are using a lot of their machinery and manpower to turn out life rafts, bullet-sealing fuel tanks, and hundreds of other urgently-needed army and navy products, in addition to tires.

And you should know that half of today's requirements are for large-size, heavy-duty bus, truck, artillery, airplane, and combat tires, requiring much more labor and materials than peacetime products.

Finally, the tire industry, like every industry today, is feeling the manpower shortage, and there just aren't enough hands for the job.

Face up on the table!

These problems will be overcome when our enemies are overcome. Meanwhile, we want to put our cards face up on the table.

We've told you frankly why there is a serious tire shortage. Now we want you, and every other American who owns a set of tires, to know that this country's transportation system can still suffer a serious blow... unless

you make it your personal duty to take care of the tires you now own.

How to make tires last longer

Do no unnecessary driving.

Live up to the Government regulation—don't exceed 35 miles an hour.

Keep your tires inflated up to recommended pressure, and check them every week.

Avoid hitting holes in the road, or bruising your tires on curbs or stones. Don't start or stop suddenly. Slow down for sharp corners.

See that your wheels and axles are in line.

Switch your tires from wheel to wheel every five thousand miles, and have them inspected regularly for removal of foreign objects and repair of cuts.

And... most important of all... recap your tires as soon as they become smooth.

HOW GOOD ARE PASSENGER CAR TIRES OF SYNTHETIC RUBBER?

It may be a long time before all civilians can get synthetic rubber tires. Meanwhile, if you should be one of the few who do get them, you will want this information:

Synthetic rubber tires for passenger cars are good tires, and will give you satisfactory service if you take care of them.

You should not think of synthetic rubber tires as improved tires... but as emergency tires. And remember that they have not yet had time to prove what they can do.

It is beside the point to theorize on how they would react to the phenomenally high speeds of prewar days. Every patriotic American knows that tire treads... all tire treads... wear out faster at high speeds, and so drives at today's recommended speed of 35 miles an hour.

As time goes on, we will learn more about the effects of under-inflation of rough roads, and of other abuses. They damage all tires. Indications are that they do proportionately more harm to synthetic rubber tires.

Meanwhile, all tires are rationed to you in trust for the nation, and it is your duty to take every possible care of them, to avoid misuse and prevent abuse.

As experience teaches us more and more about synthetic rubber tires, we will pass the information along to you. Meantime, play safe. Be careful!

If you use synthetic rubber tubes, be sure they are properly installed. They should be put into the tire, then inflated, deflated, and inflated again. And they should never be mounted on rusty rims.

TRUCK AND BUS TIRES ARE A DIFFERENT STORY

Truck and bus tires, being larger and heavier, generate

more heat. They are given long, hard usage on all kinds of highways. They are all too frequently overloaded.

Frankly, today's synthetic rubber bus and truck tires will not stand the abuse that prewar tires would stand, especially overloading. Progress is being made daily—but overloading which would have damaged a prewar tire can ruin today's synthetic tire.

The Tire Industry is doing its utmost to solve the serious problem of providing the nation's trucks and buses with satisfactory tires in sufficient quantities.

But until this problem is solved, a dangerous threat exists to America's most vital transportation.

Therefore, while treads of present truck and bus tires are immensely important... *the carcasses of these tires have a value beyond all price to America, and to America's truck and bus operators!*

Unless tires now in use are made to last, these two essential services will almost certainly break down!

These tires... every one of them... must be recapped the instant the tread wears smooth... before any damage is done to the carcass.

They must be recapped not once, but again and again! High speeds must be done away with... especially on hot roads. Overloads must be avoided. Tires must be properly inflated at all times.

The responsibility to take care of these tires... to make them last as long as possible... is a vital necessity! It must be shouldered by all operators, by all drivers, by all garage men!

No American can fail to heed this warning! The situation is so serious that it is recognized in a new tire warranty. But the real job is to conserve all tires now in use!

A new warranty—

With conditions as they are, and synthetic rubber in its present stage of development, a new tire warranty has become necessary and has been adopted. It applies to all tires. Under its terms, injuries such as bruises, body breaks, cuts, snags, and heat failures as well as tread wear are not subject to adjustment consideration.

Nor are injuries or failures which result from improper tire care or misuse or abuse. This includes failure as a result of overload, excess speed, improper inflation, or other non-defective conditions. Or when tires are used on rims not conforming to Tire and Rim Association Standards.

Don't forget that everyone... the Tire Industry, the Rubber Director, and many others, are working together with all their energy, as they have worked from the beginning, to keep America rolling.

And remember that, while the Japs were wrong... you must help keep them wrong! Take care of the tires you now have!

SCHOOL NOTES

The Tawas City High School opened their basketball season Tuesday night. The Reserves defeated the East Tawas team 17 to 5. Olen Herriman lead with 8 points, Clare Herriman 2 points, Harold Bublitz 2 points, Neil Thornton 2 points, Dick Clark 2 points and Paul Ross added one foul shot. The Varsity team was defeated by the Army team. Score 50 to 18. Friday night, December 3, our teams will compete with Hale High School. Next Tuesday (Dec. 7) the first and second basketball teams will play Harrisville two teams. Game starts at 7:30 at the Tawas City Gym.

Freshmen Class News
We have just finished our second six weeks period. (All teachers know how hard we have been studying.) There were several perfect papers in Algebra. Norma Bouchard, Marion Krumm, Betty Brown, Jean Lansky and Janet Musolf were the lucky ones. Marion Krumm had the highest paper in English and Marion Krumm and Norma Bouchard had the highest papers in Biology. We wish more students would turn out for the Saturday night dances. A very good example has been set by Betty Brown and Clare Herriman. Why don't some of you follow it.

The ninth grade girls sponsored a movie on nutrition for the rest of the high school girls. Quite a few of the Freshman Class members are taking gym this year. A dance is being given by the Young Women's League for the students of Alabaster, East Tawas and Tawas City schools in the Tawas City Auditorium on December 10. The girls are asked to wear short dresses. (No sweaters and skirts.) There is a small admission fee of 15c. Refreshments will be served. We urge all students to come out. The ninth grade Home Ec girls are giving a movie for the Twentieth Century club Wednesday afternoon.

Invented Typewriter
C. L. Sholes, printer and editor, is credited with the invention of the typewriter.

Cacao Bean
The cacao bean, grown largely in South America, is the source of chocolate and cocoa.

Miss Evelyn Latham, who is teaching the intermediate grade at the Webster school near Pontiac, spent Thanksgiving vacation with her grandmother, Mrs. Elizabeth Ferrister and parents, Mr. and Mrs. Harry Latham. Mr. and Mrs. Ed. Hosbach and son, Robert of Northville visited at the Chris Hosbach home over the week end. S. Sgt. Leonard Hosbach accompanied them home enroute to Camp Leonard Woods, after several days furlough here with his parents and friends. Mrs. Ernest Moeller and Mrs. Frank Burch spent Thursday in Bay City. Mr. and Mrs. A. E. Giddings and daughter, Ruth of Unionville were Thanksgiving and week end guests of Mr. and Mrs. George Leslie. Miss Ruth Giddings was initiated into the Tawas City Chapter, Order of Eastern Star on Saturday evening with Mr. and Mrs. Giddings serving as Worthy Patron and Worthy Matron. The Women's Society of the Methodist church met with Mrs. Burley Wilson on Thursday evening. Harry Toms was at Flint on Wednesday of this week on business. Hugo Groff and son, Jim, returned Tuesday to Detroit after a most successful hunting trip. Hugo got a wolf, a coon and an 8 point deer, while his son, Jim, age 16, shot his first buck, a 12 point weighing nearly 200 pounds. Mrs. A. A. McGuire and Mrs. John Lansky spent Tuesday in Owosso. Week end guests at the Strauer home were Mr. and Mrs. Alger Lammy and son, Ronald and daughter, Sandra of Flint. Mr. and Mrs. Orville Strauer and children, Mr. and Mrs. Fred Kohn and Glennivere Dented of Melvor joined them for Sunday.

No. 2 Continued from First Page.

given fourth position by the judges. For several years now, alfalfa seed has really taken a "poll position" in the legume race here in Iosco county, but in the 1943 show our old reliable Red Clover came to the front. A sample shown by Robt. Watts & Son of Grant township was selected by judges for fourth position honors of the Red Clover Seed Show. In discussing legume seed production with County Agent W. L. Finley, he stated that these men are deserving of much credit for their fine showing and he further pointed out that seed production is probably our most desirable and most profitable cash crop here in Iosco county, yet many farms are producing none. Alfalfa seed production according to Finley has grown rather speculative. Considerable experimental work has been conducted in an attempt to determine why some fields produce large yields of seed while others literally fail, but to date no definite recommendations can be offered. We usually tell our farmers to save a field of first, cutting, said Finley, stay away from the field with the haying equipment and the Lord will do the rest. June and Alsike seed is produced more frequently, and it was Finley's opinion that farmers need but little help in deciding when they have a profitable seed crop to harvest. Vetch is always a good bet. It will grow and produce on either light or heavy land, and Finley said there is usually a big demand for the seed to be used as a pasture crop or as a green manure in both orchards and upon open fields. He said that every acre of fall sown grain in Iosco county should be accompanied by vetch. The presence of vetch would not hamper the small grain yield and would result in a cash crop of more financial value than the grain itself.

What You Buy With WAR BONDS

It's not a pleasant picture to contemplate, but War calls for "blood and sweat and tears." And the Army Medical Corps, with its efficient nurses and its volunteer Red Cross "Angels of Mercy," needs thousands of surgical beds for field and base hospitals on every front.

These beds cost approximately \$22 each. They are the latest thing in modern hospital beds, with elevating springs. In some instances surgical cots are used in temporary field hospitals and there is a folding bed which may be used in ambulances. Your purchase of War Bonds and Stamps can buy many of these beds for the Army. You'll sleep better if you know our boys have every hospital comfort. Buy War Bonds every pay day. Invest ten percent of your income. U. S. Treasury Department

LET'S KEEP UP THE GOOD WORK

THIS community has every right to be proud of the way it is meeting the appeal for more pulpwood. We are proving that we can get out the wood. Now let's keep it coming!

This war isn't won yet—not by a long shot. Our boys will be fighting for quite a while. They will be needing ammunition, food, medical supplies—and all these things that are shipped in paperboard containers are made from pulpwood.

Pulpwood is our wartime job. Pulpwood can still be a bottleneck, holding up America's war effort. Our responsibility is to see that it does not. No boy shall die because we have failed.

NEWSPAPER PULPWOOD COMMITTEE
