© WHITE by W. L. White W.N.U. FEATURES

THE STORY THUS FAR: Lieut. Col. Frank Kurtz, pilot of the Flying Fortress known as "The Swallow," which escaped from Clark Field, tells of that fatal day when the Japs struck in the Philippines. Old 99, another Fortress, is struck down before it can get off the ground. The field is littered with the skeletons of U. S. planes. Buzz Wagner, air ace, is chased by Japs in his P-40. He meets Lieut. Russ Church and together they bomb a Jap field. Church fails to return. Other pilots are given their targets, including Colin Kelly. Kelly's plane settles for a Jap battleship, but the plane is ablaze. Eight bale out. Kelly bales out but is so close to the ground he never had a chance.

CHAPTER V

"Of course when I heard all this I also heard about the whopping big target he'd hit and sunk. But I didn't think much of this at the time, and I don't think Colin did either.

"If I know the boy, and I think I do, after he saw his oxygen system was on fire, and had given orders for the other guys to jump, and was sitting there hanging back on his stick and fighting his rudder in order to give them a chance to do it, he wasn't thinking about how many gross tons that Japanese ship displaced, but about his parents and Marian and little Corkie. And later when he was trying to crawl out of the upper escape hatch before his clothes caught on fire, it was the same, and still later, when he cleared the hatch but saw the ground coming up at him, too close and too fast for his chute ever to have a chance to crack open, I don't think he was worrying about how big his posthumous medal was going to be, but only worrying about Marian and Corkie.

"A little later in the afternoon one of our fighters came in and began to circle the field, fluttering like a wounded bird. I could see it was something serious—guessed even then an aileron might be shot away, so I gave him the green light to come in and land. He began to make passes at the field, cutting his throttle to pick out the strip of straight sand through the bomb craters, marked by a maze of red flags we'd put up. But each time he'd throttle back his left wing would drop and he'd have to gun her again, making a slow climbing circle up off the field.

"It began to get me. 'Come on, son, come on, put it down, before we get into trouble.' On the last trial he gunned it, came around, and then tried to pull up straight, but too late. Teetering down the field, he caught one wing on one of our slightly damaged Fortresses, tearing it off, and then himself cartwheeled off into the trees—killing a sergeant who had been working on a plane back there. The pilot wasn't hurt much himself, but one more of our precious few P-40's was gone.

"But, following orders, I was still giving the Fortresses the red light to stay in the air, and I began to worry about this. Maybe orders had been issued to bring them in, but someone had failed to notify me. Some of them would circle for a while, and then would head on back for Del Monte, more than six hundred miles away, while they still had enough gas to get there.

"Finally old Jim Connally said the hell with it, and came on in without my giving him any light at all. He needed more gas to get back to Mindanao and couldn't perch up there all day, and a little after this the Colonel said I could give the others the green light to come in and gas up, although any hour, any minute, we were expecting the Japs back. He wanted to save those remaining Forts at any cost.

"We got out of bed just as dawn was breaking and, folding our sheets inside our brown blankets so no white would show, stuffed them under the khaki coats—we didn't want anything that would indicate on a Jap recon picture that we were now sleeping in that field. The Japs were reconnoitering the hell out of the place with high-altitude cameras, two or three times daily.

"I spent the next day in the tower and it was much like the first, except it was plainer and plainer that we would have to abandon Clark.

"So the next morning the evacuation began. They gave me one of the planes they had patched up, and Al Mueller and I made two trips back and forth to Del Monte loaded down with members of the ground crews who were to service our planes at Del Monte.

"I'll never forget my last trip out. It was at night of course—it wasn't safe to leave a plane on the ground by day at Clark any more. We were taking off at three in the morning in order to be through the danger zone by dawn, and I'd had almost no sleep at all. But while they were warming the motors they came running to me with the news that there was a pretty bad leak in my fuel line. So what in hell to do? I could wait while they ripped a fuel line from one of the semiwrecked Forts standing around on the field, and installed it in mine. But by then it would be well after dawn, and if we encountered Jap fighters, there I'd be, with sergeants stuffed into every corner of the plane, so that we wouldn't have room to swivel a machine gun in our own defense.

"Or we could tape up our leaky line, get the hell out of there in

the darkness, and pray the leak didn't get worse or a hot exhaust stack didn't set it off in mid-air. We chanced it, and made it all right, but it turned out to be my last trip, because the next day the Japs came back and put out of commission what was left of Clark Field.

"I got the story from Eddie Oliver, who had been my navigator on Old 99—he and I were the only survivors of the entire crew—when he got down to Del Monte a few days later.

"The Japs, having reconnoitered Clark Field thoroughly, came over all ready for business. Some guy had carelessly left a pillow exposed in the cornfield, so they knew we'd been sleeping there. They blew hell out of it with their high-altitude stuff, and didn't touch the regular flying field, which they'd put out in the first day's raid. Then their fighters came over and with incendiaries set fire to the nipa shacks which had been our quarters. In them was everything I owned, including the watches, diaries, and wallets which had belonged to the crew of Old 99.

"It was now hopeless to operate from Clark, everyone saw. Anyway, the Japs had landed light tanks on the coast at Apari, so five hundred rifles were issued to what ground personnel we had left there and they went off with infantry units to chase them out if they could. The poor devils ended up on Bataan. Each time we moved, we had to leave some of the ground crews behind.

"So here we were now at Del Monte, about fifteen Fortresses in all, but patched up and in such bad

He wasn't thinking about how many gross tons that Jap ship displaced.

repair we were lucky if we could get half a dozen off the ground at any one time.

"But otherwise it was a lovely setup. A pretty turf field right up against the big pineapple cannery—the executives had used it for their little private planes before the war. A country club these executives had built, a swimming pool, turf tennis courts—even a few white women, which set all the boys staring—but not an anti-aircraft gun or a fighter plane to protect us for hundreds of miles around.

"Pretty soon we improvised our own ack-ack. A couple of ships cracked up, and we jerked their .50-caliber guns out of them and installed them in sandbags; this would be of some help against low-altitude strafing if the Japs were accommodating enough to come in low.

"And one of the first things that happened was that we lost our squadron commander, Major Gibbs. He had taken off under cover of darkness on a secret mission—and did not come back. We never knew what happened. Weeks later the native constabulary of Negros Island was to bring in the cushion of his plane—it had cracked up against a mountain in the dark."

"But, sweetheart," said Margo, "you're forgetting your first cable."

"No, I'm not," said Frank. "I got it off as soon as I could."

"All it said," Margo explained, "was: 'Beloved Doing all right under circumstances Wire Eddy's brother, Frank.'"

"Of course I sent the wire, but I couldn't understand at all. Eddie, of course, was Frank's navigator on Old 99. But what about the other boys? Why hadn't Frank told me to wire their families of all the sergeants. It wasn't like Frank to forget.

"Anyway, all cables are unsatisfactory. This one was dated at Manila on the seventeenth, so of course Frank had been alive then. But I hadn't got it until the nineteenth. Anything could have happened in those two days, and for the first time in my life I was powerless to help him. I'd been furiously writing letters—still addressing them to Clark Field. Each was a problem,

because I wanted each to fill a need. I couldn't tell him I was worried, because that would be letting him down. He would think I didn't have complete confidence in him. I would start to write the little news about family affairs, and it seemed so trite—because maybe he'd be reading it in a foxhole, not having eaten for a week. Maybe he'd be wounded. And maybe each one would be the last letter he would get—for a long while the only thing he'd hear from me.

"Then I had to do something about myself—I could see that. Sitting in my room thinking, I would go to pieces. And I wanted to get started doing something useful before Christmas. Back in October Frank promised me he'd call on Christmas Day, and now I realized I'd been building on hearing his voice then more than I knew. I also realized that maybe he wouldn't be able to. If that call didn't come through, it would be hard for me to take.

"My little brother (he's a fighter pilot now) was getting married out on the Coast during the holidays. They were asking me to go out. But suppose Frank did call me Christmas, and missed me? I decided to wait in Omaha for that call.

"But just waiting would drive anyone crazy. I wanted to help—to get close to the Air Corps. So I went down to Colonel Houghland's office—he was air officer of our 7th Corps area in Omaha—and put it up to him.

"He didn't laugh because I wanted to work without pay—he couldn't have been nicer. He showed me huge piles of applications for aviation-cadet assignments in the Air Corps that were coming in. I could help, he explained, by classifying and filing these, getting them in their proper groups, help speed up the stream of reinforcements which the boys out East would need so badly—we didn't dream how badly."

"We needed everything," said Frank. "Ground crews, pilots, copilots. And to make it worse, our own group commander, Colonel Eubank, had been hurt and was in a Manila hospital.

"We were getting more and more uneasy. Here we were, comfortable on this beautiful field. It was as peaceful as Clark Field had been before December eighth. We'd fled from Clark down here to Mindanao, and even as we were arriving the Japs were putting troops ashore at the southern tip of this same island, where thirty thousand Japanese "farmers" had taken over the city of Davao on the first day.

"But here at Del Monte we saw people who didn't seem to know a war was on. The only military around was some kind of a transportation outfit. The first day we were there I got hold of a couple of privates and gave them orders to dim out the headlights of every car—no matter whose—that approached the field. But the transportation officer decided he'd stop all that. It seemed the boys, carrying out my orders, had even stopped a staff car, and the transportation officer explained that they needed more light.

"Well, our planes were on that field, and I knew the Japs were headed down the coast and would be here soon enough anyway, and I didn't want to attract them any sooner than necessary.

"But before they did come, the old 19th Bombardment Group—or what was left of it—got in some mighty hard licks at them. For instance, there was the Le Gaspi Bay mission. Our Intelligence reported a big concentration of Jap ships moving south toward us down the coast of Luzon. Of course that meant the handwriting on the wall for us, particularly if one was a carrier with Zeros which would presently be in range of us and could strafe us on the ground—remember we hadn't a single American fighter within five hundred miles.

"Sure enough, Intelligence presently reported that they thought one of this concentration was a carrier, and now they were just off Le Gaspi. It was up to us to take off and do what we could. We'd been working like hell to get the planes in shape, and finally had six which we thought could complete the mission and get home. But remember Old 99 was back on Clark, and I was a planeless pilot. So it ought to be Harry's story—he was navigator on Jack Adams' plane."

"Well," said Harry Schriever, the navigator, "it was like this. The six of us were to start at ten o'clock, and Jim Connally rolled out first, and got a flat tire right on the runway—throwing one wing into the ground and crumpling it. That left five, and it wasn't so good, because there is safety in numbers in Fortresses—the more of them that go over a target together, the more fire power you can bring to bear against the Zeros, and the more Forts will get back home.

"But anyway we started. The pilots were Shorty Wheelless, Pease, Lee Coats, Vandevanter, and of course Jack Adams—I was his navigator. "We are flying in formation to our agreed rendezvous, in case we got lost in heavy weather—a point thirty-five miles due west of our target—and we are due to be there in two hours and fifteen minutes after our start.

(TO BE CONTINUED)

Print Frocks Bring a Message Of Bows, Ruffles and Slim Lines

By CHERIE NICHOLAS

PRINTS are certainly a delight to the eye this spring. Not only because of their striking new color schemes and their unique and artful patternings do they soar to a new high in fabric interest but the fact that designers are doing such remarkable and out-of-the-ordinary things with prints adds infinitely to their charm.

Especially pretty are the lovely rayon prints that brighten the current fashion scene. Amusing novelty prints share honors with colorful and refreshing varieties of the ever-beloved florals in both daytime frocks and modish short length dinner gowns. Novelty prints draw their inspiration from many sources. Buddha figures, cameo medallions, Mardi Gras carnival symbols and Chinese characters are, among the new ideas in this spring's prints. Outstanding also is a patterning that prints actual, readable bars of music on a white crepe background. Just as unique is the flower-seed packet print which pictures the flower-labeled envelopes in a modernistic design on the fabric ground.

Analyzing the latest styling technique used in making up the new prints, it is apparent that the silhouette is being slenderly molded this year, stressing nicely fitted waists, brief sleeves for frocks with bracelet-length or wrist-length, painstakingly fitted sleeves for jackets. Skirts are slim, even though subtly draped either at front or to one side. Thus simple uncluttered lines achieve flattery without the use of unnecessary yardage.

Especially to be admired is the cunning displayed by designers in achieving clever trimming effects with the use of self-fabric. Such, for example as the myriads of bows that add interest alike to tailored or dressy frocks. These adorning bows are apt to occur most anywhere on the dress at necklines, sleeves, shoulders, hiplines and also in connection with side-drape fastenings. Little bows are prettily disposed from neckline to hemline down the front opening of the now-popular coat dress. Another evidence of the wide use of self fabric

Miser-Pouch Pocket

This blouse takes on a most original new detail, namely a miser-pouch pocket that buttons over the belt as shown. This striking dinner gown has a black crepe sheath skirt topped by an aqua print blouse completed with a cleverly designed pocket outlined in jet. Jet sequins outline the print bodice. The miser-pouch makes a welcome receptacle in which to tuck one's handkerchiefs and vanity out of sight.

Hat, Bag Ensemble Of Rick-Rack Braid

Most intriguing uses are being made of rick-rack braid. In one of the smart shops a set that captivated the fancy of everyone who saw it consisted of hat and bag made entirely of rick-rack. Carried out in bright colors or in pure white these rick-rack accessories are to be coveted.

To make it, get a simple pattern of bag and hat and baste the rick-rack on it into shape, then whip firmly together. Cunning is a Dutch bonnet, its face-framing flange made of the rick-rack. A simple drawing bag is the easiest type to attempt. It adds more flip to sew flaring cuffs of the rick-rack on your "shorty" gloves.

Dickey, Jabot Set Makes Many-Purpose Ensemble

One dickey plus a set of button-on jabots and other pretty lingerie novelties is the many-purpose ensemble which you can buy at accessory booths such as leading stores have installed for the convenience of women who seek the latest in pretty gadgets and furbelows. This new foundational dickey is a simple roll-collar type with bosom tucks done in a washable rayon sheer. With it comes a set of jabots, one made of lace, another of eyelet embroidery, another of simulated tatting. You can get a set of lace butterflies to clip on lieu of buttons.

To obtain cutting pattern, applique patterns, amounts of all materials specified, finishing directions for the Bird in a Cherry Tree Quilt (Pattern No. 5283) send 16 cents in coin, your name, address and the pattern number.

Due to an unusually large demand and current war conditions, slightly more time is required in filling orders for a few of the most popular pattern numbers. Send your order to:

That Old Iron Bed Can Be Modernized

THE hack saw will prove to be a handy tool in the modernizing of an old iron bed. With the aid of such a saw the cage-like bars at the foot may be cut off close to the cross bar at the top of the legs.

The head may also be lowered and knobs and projections also may be cut off.

When the bed has been cut down the head may be padded with cotton basted to muslin or with an old quilt. A slip cover may then be made to match the bedspread.

NOTE—This illustration is from BOOK 3 which also contains many other clearly illustrated ways to give your house a fresh start this Spring by using things you already have combined with ingenuity and a few inexpensive new materials. To get a copy of BOOK 3 send 15 cents direct to:

Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back. CREOMULSION for Coughs, Chest Colds, Bronchitis

SNAPPY FACTS ABOUT RUBBER

In 1912 tropical Americas produced their greatest output of rubber—62,000 tons. It is expected that we will import 41,000 tons from these countries in 1943, an important supplement to our synthetic supplies.

Some experts estimate that there are around 300 million Hevea (rubber) trees in Latin America. Most of them are in jungles, difficult to get at.

"Alcohol and driving don't mix" may still be a worthy admonition, but nevertheless, millions of gallons of alcohol are needed as a raw material to make synthetic rubber for the production of tires now so essential to driving.

In war or peace B.F. Goodrich FIRST IN RUBBER

Hemlock

The many friends of Samuel Bradford were grieved to hear of his death, and deeply sympathize with the family.

Mr. and Mrs. Ralph Van Patten of Clare spent Saturday night and Sunday here.

Mr. and Mrs. Frank Long and Mr. and Mrs. Russell Binder were Sunday dinner guests of Mr. and Mrs. Louis Binder.

Mr. and Mrs. Victor Herriman and Mrs. Charles Brown attended the funeral of Ira Horton at Tawas City on Tuesday. Mrs. Horton's many friends here deeply sympathize with her in her bereavement.

Mr. and Mrs. Harvey McIvor and son, who returned from a six months trip to Oregon, spent some time here.

Ladies Aid met with Mrs. John Burt on Thursday last with a large attendance.

Barbara Burt has the measles.

Sherman

Dr. Hasty of Whittemore was in town on professional business Monday.

Mr. and Mrs. Floyd Schneider of Flint visited relatives here Sunday evening.

Matt Jordan and Ross Butler were at Tawas City on business Monday.

William Nickles is trucking and loading a couple of car loads of pulp wood at National City this week.

A. B. Schneider returned home from Florida where he spent the past couple of months.

We are informed that the National Gypsum Co. is getting ready to hire women labor at the plant here. That ought to be good work for women—one thing, they wouldn't need any face powder while at work.

Dewey Ross, accompanied by Orville Beller of Whittemore, were at Flint on business last week.

We are sorry to hear of Mrs. Ross Butler being taken to the hospital at West Branch. We wish her a speedy recovery.

Miss Evelyn Smith is home from West Branch for a couple of weeks.

LOOKING BACKWARD

40 Years Ago—March 18, 1904.

James Meilstrip of West Bay City was in the city on business a couple of days this week.

Romeo Harris of Bay City spent a few days here with relatives.

Mike Murphy is installing a fine new bar and fixtures in his saloon.

Mr. and Mrs. A. H. Wiltzie of Whittemore are spending a few days at Alma.

C. D. Geer, M. D., funeral director, Hale.

G. P. Felcher of Whittemore is having his flouring mill remodeled.

Mr. and Mrs. John Feidler and family visited Sunday in Bay City.

Michigan now produces about 125,000 cords of hemlock bark each year.

James Shivas, John Huff and Tom Dean left Monday for Rose City.

M. J. Beardslee has been appointed bookkeeper at the Brooklyn Navy Yard.

Miss Grace McKeen of Hale is spending a few days at Rose City.

The D. & M. railroad ordered two new locomotives and 17 new passenger coaches for delivery next fall. Next year the road will be extended to Mackinaw City.

Miss Minnie Domer of Detroit is visiting relatives here.

Miss Annabel McLean of Santiago is visiting at the H. B. McLean home at Hale.

Herbert Downer returned Monday from a visit at his home at North Branch.

F. J. Fuller, the Hale Lake barber, has accepted the agency for a large merchant tailoring establishment.

Taylor & Black, attorneys, Hoven-den Bldg., East Tawas.

25 Years Ago—March 21, 1919

Fred Murphy and son of Flint are visiting relatives here.

Henry Valjean of Toledo is visiting friends at Hale.

Fred Force has purchased the A. C. Brown Building at East Tawas. He expects to install bowling alleys billiard tables.

Wesley Searle of Flint is spending a few days at his home in Wilber township.

Carl E. Schmidt of Oscoda and O. G. Prettyman of Tawas City are sponsoring a tri-county poultry club for boys and girls.

A large number attended the father and son banquet Friday evening at Whittemore.

Pope Benedict feels that the only way to avoid anarchy in Europe is a speedy peace settlement—a peace, he says, which will not humiliate the German people.

Dr. and Mrs. H. W. Case are visiting in Detroit.

H. C. Bristol of East Tawas died early Thursday morning.

A little girl in Washington Parish, Louisiana, took more food on her plate than she could eat. Valiantly she strove for a "clean plate," but in the end failed. That night when making her evening prayer, she said, "Oh Lord, please don't let Mr. Hoover hear of this."

Joseph Pearlman of Hale is visiting in Bay City and Cleveland.

Fred Kocher of Toledo has purchased the Edwin Ferrister farm at Hale.

Mr. and Mrs. James Robinson of Onaway are moving to Elkhart, Indiana, where Jim will have charge of a large stock farm.

On next Thursday will occur the largest farm auction ever held in the county, that of W. W. Britt & Sons in Burleigh township.

Vine Grange has endorsed the League of Nations.

We are glad to see the beautiful sunshine and the many spring birds.

State of Michigan

The Probate Court for the County of Iosco.

At a session of said Court, held at the Probate Office in the City of Tawas City in said County, on the 5th day of January, 1944.

Present: Hon. H. Read Smith, Judge of Probate.

In the matter of the estate of Amy L. Bernard, Deceased.

It appearing to the court that the time for presentation of the claims against said estate should be limited and that a time and place be appointed to receive, examine and adjust all claims and demands against said deceased by and before said court:

It is Ordered, That all creditors of said deceased are required to present their claims to said court at said Probate Office on or before the 13th day of March, 1944, at ten o'clock in the forenoon, CWT, said time and place being hereby appointed for the examination and adjustment of all claims and demands against said deceased.

It is Further Ordered, That Public notice thereof be given by publication of a copy of this order, once in each week for three weeks consecutively, previous to said day of hearing, in The Tawas Herald, a newspaper printed and circulated in said county.

H. READ SMITH,
Judge of Probate.

NOTICE OF FORFEITURE OF LAND CONTRACT

To Ray Lewitzkie:
You are hereby notified that a certain land contract bearing date the 23rd day of December, 1935, by and between Ignatz Lewitzkie and Amelia Lewitzkie which was assigned on November 19, 1940, to Henry Lewitzkie and Glenna Lewitzkie by deed recorded in Liber 81, Page 228, Iosco County records, of the first part, and Ray Lewitzkie of the second part is in default by reason of the nonpayment of the installments of principal, interest and taxes due thereunder, and are further notified that the said Henry Lewitzkie and Glenna Lewitzkie elect to disclose and do hereby declare said land contract forfeited, and you are hereby further notified that any right to possession of said premises, in said land contract mentioned is hereby cancelled and declared null and void.

Said premises are described in said land contract as follows, viz:

The NW 1/4 of the SE 1/2 of Section eleven (11) Town 22, North of Range seven (7) East, Township of Baldwin, Iosco County, Michigan.

Importance of Steel

Steel's effect upon life today is so important that we could give up most other metals—including gold—with less disturbance to civilization. Today's steels are the strongest, toughest, hardest, yet most ductile, elastic and obedient of all metals used by mankind.

War Affects Musicians
Violin and cello strings supplied to some of England's foremost musicians will in future be made from the gut of Scottish or Welsh sheep instead of coming from Italy.

Red Cross Field Men Tackle Yanks' Problems Overseas

One of the very important functions of the American Red Cross is the direct communication it affords between the fighting man and his people back home. Here Red Cross Field Director John L. Barnes (left), of White Plains, N. Y., gives a message to Sgt. William J. McDonald, Jr., of Mamaroneck, N. Y. Picture was made in Sicily outside a straw Italian hut with the rear headquarters of the 1st Division near Mt. Etna.

On Masera Island, up in the Persian Gulf, where there is not a single tree standing and the wind blows across the island ceaselessly, Red Cross field men brought fishing tackle, hooks and writing paper to service men. Most welcome gift from the Red Cross was clippers for hair cutting—the boys had been without a barber for months.

In Persia, a Red Cross Field Director was able to locate a soldier's mother whom he hadn't seen for 25 years.

In Africa, Red Cross field men flew in Army planes, hitch-hiked in supply trucks, bumped in jeeps over bombed convoy routes, through blinding sand storms and glaring sun to help men with personal problems and emergency communications, and to deliver magazines and books, cigarettes and chocolate to isolated posts and bases.

In Italy, Red Cross field men accompanied the troops in on the invasion barges.

In India, a sergeant was sentenced to the guard house for disorderly conduct. His officer couldn't understand the boy's behavior. He was a nice kid—he'd never gone to pieces before.

The officer asked the Red Cross Field Director to see him. The Red Cross man discovered a very worried boy. His wife had not been receiving his allotments, she wasn't well and needed an operation. She thought the soldier must have cancelled his allotments and a misunderstanding had arisen between them so that she was no longer writing him.

The field man got in touch with the Red Cross chapter in the boy's home town immediately. It took care of her,

financed her operation and saw that she had adequate funds to provide for herself until the allotment again came through.

When the Red Cross man explained what had happened to the soldier's Commanding Officer, the latter promptly released the boy from the guard house. From then on the boy was all right. His worries were over, and the Army had gained a good fighting man.

All over the world, in every theatre of war and active battle front go the American Red Cross field men—helping soldiers with major and minor personal problems, bringing them recreational items such as magazines, books, comfort articles, athletic equipment, and re-establishing their contact with home. These men share the conditions and hazards under which the soldiers fight. They also share their lives. They are on call day and night whenever they are needed.

G.I.'s overseas have many problems. Often home seems very, very far away. With the Red Cross there at hand wherever he may be, the soldier knows he can always get in touch with home—that he need never feel alone with problems he doesn't know how to solve himself. More than 3,000,000 service men passed through Red Cross field men's offices last year.

On the mud clogged roads of Italy, through the far jungles of New Guinea, on lonely desert posts, Red Cross field men take your place beside your boy. In order to continue this service, the Red Cross urgently needs contributions from the American people to its \$200,000,000 War Fund drive this month.

State of Michigan

In the Probate Court for the County of Iosco.

At a session of said Court, held at the Probate office, in the City of Tawas City, in said county, on the 9th day of March, A. D. 1944.

Present: Hon. H. Read Smith, Judge of Probate.

In the matter of the estate of James Kenney, deceased.

Carl B. Babcock, administrator of said estate, having filed in said Court his petition, praying for license to sell the interest of said estate in certain real estate therein described.

It is Ordered, That the 3rd day of April, A. D. 1944, at ten o'clock in the forenoon, at said probate office, be and is hereby appointed for hearing said petition, and that all persons interested in said estate appear before said Court, at said time and place, to show cause why a license to sell the interest of said estate in said real estate should not be granted.

It is Further Ordered, That public notice thereof be given by publication of a copy of this order, for three successive weeks previous to said day of hearing, in The Tawas Herald, a newspaper printed and circulated in said county.

H. READ SMITH,
Judge of Probate.

County Convention

To the Republican Voters of Iosco County:

By direction of the Republican State Central Committee it is hereby directed by the Iosco County Republican Committee that a County Convention of the delegates elected at the 1942 fall primary election be held at the Iosco County Courthouse in Tawas City, Michigan, on Monday, March 20, 1944, at ten o'clock A. M. Central War Time, in conformity to Act No. 98 P. A. 1943, for the purpose of electing three delegates to the Republican State Convention to be held in the city of Detroit, Michigan, on April 20, 1944, at eleven o'clock A. M. Eastern War Time.

Such matters of business as may properly come before such county convention will be taken up along with the election of delegates.

Dated at Tawas City, Michigan, March 8, 1944.

R. H. McKenzie, Secretary.
C. A. Pinkerton, Chairman.

Pigeons Fly Coop

An Akron, Ohio, officer testified as knew his prisoner was drunk because "his eyes were bloodshot whereupon the prisoner calmly removed his glass eye and the judge said "case dismissed." The Messrs Kurwoski and Stawdour of Chicago, each claiming ownership of three pigeons, suggested that the judge release the birds which then would fly home to their rightful cotes. A window was opened, the doves flew forth—whither no man knoweth to this day.

Keeping Dust From Scattering

To keep dust from scattering when dusting radiators, lay a slightly dampened cloth on top of the radiator and paper beneath. Then take a long handled brush and dust with a vengeance. The cloth and paper collect the dust.

LOUIS PHELAN, Clerk

★

LONG DISTANCE

NIGHT RATES

NOW BEGIN AT 6 P. M.

★

Effective March 1, night long distance telephone rates were set ahead one hour and now are in effect at 6:00 o'clock in the evening. They continue until 4:30 o'clock in the morning.

That arrangement was reached through mutual agreements by the Telephone Company with the Michigan Public Service Commission and the Federal Communications Commission.

The added hour for night rates gives men and women in the armed services a longer low-rate period in which to call home.

MICHIGAN BELL TELEPHONE COMPANY

Washington, D. C.

LATEST ON CIVILIAN GOODS

The Truman committee is about to issue a report which will be good news to manufacturers, to say nothing of the housewife who has been scrimping along with a worn-out refrigerator, no washing machine and an electric iron that blows out fuses.

The Truman committee will recommend that the War Production board go much further than the army has been willing in restoring production of civilian goods. The committee will not urge anything near unlimited production, but it will point out the following important facts:

(1) War contracts are being cancelled at an increasing rate. The war department cancelled 10 1/2 billions in contracts as of January 31, while the navy cancelled 2 1/2 billions up to February 5. This means more factories and more men available for civilian production.

(2) Tremendous stockpiles of steel and other materials have been accumulated—far more than can be used for the war. Already aluminum plants with a capacity of a half-billion pounds a year have been closed because the supply of aluminum is so great.

(3) The military was slow in curtailing civilian production. Now it is slow in letting the country get back to civilian production.

Therefore, the Truman committee recommends that while we cannot "soon resume full-scale civilian production, we can produce limited quantities of a few scarce additional items classified as essential."

SOME REVEALING FIGURES

The impending Truman committee report will reveal that 100 big corporations hold 70 per cent of all the war orders; furthermore, these 100 first companies of the nation had only 30 per cent of the country's business before the war—and the Roosevelt administration was supposed to help the little fellow!

Norman Littell, hard-hitting assistant attorney general, will get a boost from the Truman committee for hurrying up government payments to the farmers and others whose land was seized by the army and navy. The committee will recommend that all government purchase of land be handled by Littell.

American labor doesn't look so bad when contrasted with British labor. The Truman committee will find, despite the national service act, long operating in England, there were 1,638 English strikes involving a manpower loss of 1,676,000 man-days. Taking into account the larger population of this country, U. S. strikes were only .025 per cent worse than England—even without a national service act.

President Roosevelt didn't know it, but the Truman committee had prepared some devastating evidence supporting him on one of the most controversial phases of the tax bill—renegotiations of war contracts to recapture excess war profits.

Nevertheless, all the members of the committee except Mead of New York, Kilgore of West Virginia and Wallgren of Washington voted to over-ride his tax bill veto.

LOUIS BROMFIELD, THE PROPHET

Secretary of Agriculture Claude Wickard is chucking over a letter he has received from the Reader's Digest, signed by William Hard Jr., associate editor. It is the last, pathetic note of a correspondence begun last summer when the Digest published the Louis Bromfield article, "We Aren't Going to Have Enough to Eat."

At the time, Wickard wrote to the Digest, refuting Novelist Bromfield, offering to write an article to tell the other side of the story and saying we would have plenty to eat. But the Digest declined to hear the other side.

They confided privately to Bromfield that they were embarrassed by reactions to his story, but publicly they stood on his gloomy forecast. He had said: "I would rather not think about next February. By then, most of our people will be living on a diet well below the nutrition level."

February has now come and gone. People are eating well despite Bromfield. American farmers have written the refutation. Actually, we have a greater accumulation of stored foodstuffs than at any time in history.

Wickard couldn't resist the temptation to rib the Digest, and recently sent to Editor DeWitt Wallace a few figures about the overflowing granary. In reply, he received merely a short note from William Hard Jr., saying, "Mr. Wallace is home, fighting off a cold."

MERRY-GO-ROUND

Each day, White House reporters are given a list of the President's appointments, beginning usually at 10 a. m., with cabinet officers, military and naval advisers, diplomats, congressmen or other callers. Recently, reporters were startled to note on the calling list: "2:30 p. m.—Mrs. Roosevelt."

Reports from Bolivia indicate that the new government, which the state department refuses to recognize, is becoming more and more entrenched.

Keep Buildings Tight, WFA Urges Farmers

Grain Spoils, Stock Sicken in Leaky Barn

Farmers have done a better job of maintaining farm machinery than farm buildings. In fact, in only four years since 1921 have investments in farm buildings equalled depreciation. Eventually, farmers find that buildings are essential tools—just as essential as thrashers, reapers or plows. But too often, farmers realize this only after a building has developed the "shakes," or after a weather-beaten roof allows moisture to get through it where it can attack the building and the cattle, hogs, feed or machines stored there.

Of what use is it to raise an extra hundred bushels of grain, the War Food administration points out, if that grain is to be lost in a granary with a leaking roof? Of what use is

it to expand poultry flocks if as much as 30 per cent may be lost because of uninsulated, damp structures? Why attempt to raise more livestock unless steps are first taken to save the 30 to 40 per cent which never reach maturity because of poor or inadequate shelter?

Like home owners, farmers are apt to forget that roofs can never "relax" in the battle with wind, rain, ice and snow. While some roofing materials cannot be obtained, non-critical, fire-resistant asphalt roofing, which is easy to apply, is available.

Many New Uses Found For Chicken Feathers

The government is taking all elder duck down and geese feathers, leaving chicken and turkey feathers for civilian use.

About 80 per cent of feathers for pillows, quilts and cushions came from Europe and China in peacetime—forcing manufacturers during the war to improve domestic supply sources, which now also must be tapped for increased war needs.

Public prejudice against chicken feathers for pillows and cushion stuffing has waned somewhat because of improved methods of preparing them, manufacturers said, adding that now they are more sanitary, while a curling process has made them softer.

More than 100,000,000 pounds of feathers now are produced annually from American poultry flocks, compared with only about 20,000,000 pounds before the war. About 97 per cent of the total is made up of chicken feathers.

Even in surgery, feathers have taken on a new value. Chemists have developed a method for dissolving them and producing a protein plastic. Threads of this plastic can be used as sutures for sewing wounds because they are strong and are absorbed by the body.

Trade sources say that down makes ideal sleeping bags for soldiers and for fliers' jackets. Kapok, formerly used extensively in America as pillow-stuffing, now is unobtainable from the Dutch East Indies and available supplies on hand are used by the government.

Poultry flock owners get about five cents a pound for chicken and turkey feathers and approximately \$1 a pound for down from waterfowl.

Don't Use Too Much Seed

In buying seed, it is wise to plan the amount needed for the space to be planted. A half-ounce of carrot seed, for example, might all be put into a single 100-foot row. The half-ounce of seed would contain about 12,000 seeds, and if 90 per cent of them were to grow, according to the germination test, that would mean nearly 11,000 plants in the row, or about 100 to 110 little carrot plants to each foot of row. Actually 25 seeds to the foot is about right.

Overseas Men Support U. S. Bond Drive

Proof that U. S. servicemen in the forward areas are also taking a financial interest in the war is shown here. T-4 Robert Ross of Hammond, Ind. (right), buys a bond from Pfc. Julian Will of Pawnee, Okla. War bond officer Lieutenant Harnes of New York (second from left) supervises, and Sgt. Harry Eller of Knoxville, Tenn., awaits his turn to make a purchase.

Outstanding Miler Relaxes at Studies

Gil Dodds, Boston divinity student and one of the nation's greatest mile runners, relaxes with a Bible after his spectacular run at Madison Square Garden. Dodds was clocked in 4:08.3 for the mile at the National A.A.U. championships. In addition to his autograph, Gil usually gives a Bible quotation about the race of life.

Army Nurses Make the Best of It

Although constantly under threat of German bombing or shelling, these U. S. nurses (left) on beachhead below Rome refuse to let it get them down. At right, two U. S. army nurses make the best of it. They are using a borrowed motorcycle to take an airing near the field hospital near Nettuno. Being under fire has failed to dampen their spirits.

War Comes to Eniwetok Aborigines

A grateful mother and father carry two nude children into a coast-guard-manned landing boat which, only moments before, had landed assault forces on Eniwetok atoll in the Marshall Islands. The frightened natives were carried away to safety from the ravaging battle which preceded fall of the atoll to hard-hitting American forces.

Faces Treason Trial

Hans Max Haupt, whose son was executed on a treason conviction in Washington more than a year ago, was ordered to stand trial on a 29-count indictment charging treason, in Chicago's federal court. Haupt (right) has been in the county jail for 18 months.

Speaks for Finns

Finance Minister Vaino A. Tanner of Finland, who was quoted by the official Finnish radio as stating that Finland "is disposed to withdraw from her war with Russia if she obtains acceptable conditions."

MacArthurs Shop

Young Arthur MacArthur, son of Gen. Douglas MacArthur, accompanies his mother on a shopping tour in Australia. The bashful lad, who has just celebrated his sixth birthday, holds tightly to Mrs. MacArthur's hand.

Home From China

"China needs entertainment more than any other place in the war zone," said Joe E. Brown on arrival here from his third trip overseas. Shown with him is his granddaughter, Cynthia.

Released by Western Newspaper Union.

The interest shown by the armed services in almost every branch of sport is good evidence that Sgt. Joe Louis' exhibition tour to theaters of operation will prove to be one of the most popular shows yet staged by the army's special services division.

Sergeant Louis, king of the heavyweights, boxed before at least 1,000,000 soldiers during his recent five-month, 20,000-mile tour of more than 100 army posts. He was accompanied by his uniformed coterie of five boxers and a trainer.

In addition to Joe, the group included Corp. Walker Smith, better known as "Sugar" Ray Robinson, welterweight, to boxing fans; Private George ("Jackie") Wilson,

SERGEANT LOUIS

First Sgt. George Nicholson, Corp. Robert Smith, Sgt. James Edgar and Corp. Robert J. Payne, trainer.

It wasn't an easy tour for the boys. They started in August at Fort Meade, Md., on a series of one and two night stands. They swung through New England, reversed their trail, zig-zagged across the northern half of the country, moved down through California and returned eastward.

Grueling Grind

During the trip they played to thousands of soldiers daily in every army service command, visiting wounded in hospitals, special training units and soldier prisoners in stockades. They staged impromptu boxing shows and made as many as six personal appearances in one day.

There was the usual amount of griping concerning the Louis expedition within this country. But it wasn't serious. The routine was for Joe to box two or three rounds with Sergeant Nicholson, who happened to be Joe's favorite sparring partner in prewar days, or with Corporal Smith, the other heavyweight. Smith and Sergeant Edgar boxed for three rounds and Private Wilson usually sparred with a soldier volunteer.

At least one factor kept the tour from becoming the usual two-day vaudeville act. Joe often was challenged by an ambitious soldier stationed at some particular camp. The Brown Bomber was always agreeable. He took on the hopefuls and never tried to make a match appear on-sided. He never carried his opponent, although naturally enough he held back on the lethal wallops which brought him a world title.

More About Rule Changes

Lou Boudreau, major league baseball's youngest manager, has placed himself in the ranks of those experts who believe a few rule changes would prove a boon to basketball.

Although baseball has brought him his greatest fame, the Cleveland pilot speaks with authority concerning the court game. If your memory isn't too feeble, you'll hark back to the time when Lou, now an assistant coach at Illinois, scored 157 points for Illinois in the 1936-'37 season and helped pace the team to a Big Ten championship.

Lou added his bit to the increasing criticism of basketball rules by advocating the return of the center jump. He told the Chicago Basketball Writers' association that basketball rulemakers should "make the rules coincide with the increasing speed of the game."

"When I was playing basketball, if a team took between 40 and 50 shots a game, it was considered good," said Boudreau. "Now teams take between 70 and 80 shots. The game is so fast that it makes it tough on players, coaches and officials alike. They don't have time to gather their wits and collect themselves as they did in the days when the ball was being brought to the center for a jump."

Boudreau knows both sides. An assistant coach at present, he played basketball under the old rules, particularly in high school when he led Thornton, Ill., to a state title in 1933 and finished second the next two years.

Like quite a few other coaches—and medical experts—he is interested in seeing high school basketball slowed down for the sake of the youngsters who must burn themselves out trying to maintain the rapid pace. Many authorities feel that today's game is too fast for growing youngsters.

Jitters in Japan

By Joseph Newman

(WNU Feature—Through special arrangement with The American Magazine.)

Japan is getting the jitters. We have it on no less an authority than Emperor Hirohito and his No. 1 war lord, General Hideki Tojo. Hirohito has told his pugnacious people that the outlook for Japan is now "truly grave," and Tojo underscored the divine insight of the god-emperor by adding that the war situation is "very complicated."

This, in the customary Japanese manner of speaking by indirection, is another way of saying: "The Yanks are coming."

And the Japanese man in the street, whether he shuffles along in his wooden clogs and traditional kimono or wears the pinching leather shoes and tight-fitting sack coats copied from his occidental enemies, knows what that means. It means that the despised Yankees are on their way to the heart of the Japanese Empire—and that they're coming with skyfuls of bombs for the industrial nerve center from which stems the terror and destruction spread by the Japanese throughout Asia and the Pacific.

The Japanese, far better than their enemies, know just how vulnerable they are. They know that once their outer rim of defense is cracked, the heart of the empire will be exposed to a deathblow. That's why the Japanese, in their opening stroke of war, pushed as hard and as fast as they could go to the north, south, east, and west, so as to shove the Americans from all bombing bases within reach of the main home islands.

And that's why, now that the outer rim is crumbling, Hirohito, Tojo, and the shuffling Japanese man in the street are very unhappy. They have heard what round-the-clock bombing has done to Berlin, Hamburg, Essen, Frankfurt, and other industrial centers of their retreating German partner. They know, as do Americans who have lived in Japan for any length of time, that the six key industrial cities of Japan will burn as fast as—if not faster and more furiously than—their Nazi equivalents in Germany.

Most Vulnerable Country.

The six key centers are Tokyo, Osaka, Nagoya, Kyoto, Yokohama, and Kobe. I have had a good look at all of them—the industrial Ruhr of Japan—and I was often impressed by the thought of how quickly Japan could be snuffed out as a world power by igniting the huge, sprawling fire-traps from the air. A good, stiff wind, which invariably blew over these coastal centers from the sea, strengthened this thought and suggested how nature, combined with feverish, careless construction of these cities served to make Japan the most vulnerable country in the world.

The construction was careless because the Japanese had neither the time nor the money nor the desire to change the basic layout of their cities from a feudal to a modern one.

Thus there was a mushroom growth of sprawling factories among the flimsy, wooden, boxlike houses packed tightly together in areas through which there are often only dirt alleys or footpaths instead of paved streets. After the devastating earthquake and fire of 1923 some streets were enlarged and some modern innovations were introduced. But this was limited to the business sections of Tokyo and Yokohama.

The layout and structure of the greater part of the Japanese capital and the key eastern port of the country are about as primitive as they were 2,603 years ago.

In Nagoya, Kyoto, Kobe and Osaka conditions are similar to those of Tokyo and Yokohama. The downtown business areas are full of concrete and steel, but the larger sections of the cities, where most of the homes and many of the factories are located, are covered with a forest of wooden boxes, which millions call home. So that even the fire-proof structures are trapped in the forests of wood and paper houses which, when touched off by American bombs, will turn into infernos.

The heavy concentration of industry and other military objectives in the six leading cities provides something of a bomber's dream.

Plenty of Targets.

If he comes in from the east and flies westward over the main island of Honshu toward China, as the Doolittle raiders did, the first target he will find in his bombsights will be Yokohama. Here the principal targets are the harbor, one of the two largest in the country, shipbuilding yards, warehouses, metal, machine-tool, and chemical plants, textile and rubber mills, and an automobile factory. The 18-mile strip between Yokohama and Tokyo is packed solid with industries turning out machines and machine tools.

P. E. P. Required for Coeds

P. E. P. is becoming a "must" in American schools. In order to cut down the number of unhealthy U. S. citizens, students are urged to enroll in physical educational programs. Coeds of the University of New Hampshire are shown at physical fitness classes.

In top picture the girls are shown trotting through the New Hampshire woods during an early morning exercise. Most P. E. P. classes are held outside.

Top: Stunt and tumbling students give their version of the flying angel which is said to be good for developing balance. Bottom: In this exercise the body is swung from the waist from one foot to the other as the hands grasp each ankle in turn.

Archery is included in the P. E. P. program. In top inset belles and their bows are shown lined up on the field. One of the best limbering-up exercises makes use of the grandstand. Instead of just sitting, these coeds run all over it.

These are freshmen lined up for stretching exercises.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL Lesson

By HAROLD L. LUNDQUIST, D. D.
Of The Moody Bible Institute of Chicago.
Released by Western Newspaper Union.

Lesson for March 19

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

JESUS CRUCIFIED

LESSON TEXT: Mark 15:22-27, 29-39.
GOLDEN TEXT: He was wounded for our transgressions; he was bruised for our iniquities; the chastisement of our peace was upon him; and with his stripes we are healed.—Isaiah 53:5.

The crucifixion of Christ brings us to that darkest of all days in the history of the world, when wicked men with cruel hearts and hands crucified the loving Son of God. But, thanks be to God, it was also the day when bright hope shone forth for sinful humanity, for in His death Christ bore our sins upon the tree, the veil was rent, the old sacrifices were set aside, and the "new and living way" was opened into the "holiest by the blood of Jesus" (Heb. 10:20).

The cross is not just an ornament to decorate the steeple of a church, or to adorn man. It speaks of the black horror of the cry, "My God, my God, why hast thou forsaken me?" But it also tells of our God, who "so loved the world that he gave his only begotten Son" as its Redeemer.

What does Calvary mean to us? It means that—

I. The Saviour Died So We Could Live (vv. 22-27).

The details of and circumstances surrounding the crucifixion are of deep interest to every Christian. We stand with Luther and weep as we see Christ's unspeakable agony, not only of body but of spirit, and we cry, "For me, for me!" How can any believer contemplate the cross and withhold self, substance, or service from Christ?

There would be less careless, selfish living if we would go often to the story of the death of Christ and recognize the loving, sacrificial devotion of Christ.

Equally heart-searching is the message of the cross to the unbeliever. He knows he is a sinner (Rom. 3:23); he knows that "the wages of sin is death" (Rom. 6:23), and he knows that "neither is there salvation in any other, for there is none other name under heaven given among men whereby we must be saved" (Acts 4:12). Here at the cross he meets that one "who his own self bare our sins in his own body on the tree, that we, being dead to sins, should live unto righteousness: by whose stripes ye were healed" (1 Pet. 2:24).

Note the difference between the two thieves who were hanged with Jesus, for it is the difference between those who face Christ in our day. One railed on Him (Luke 23:39), while the other, repentant, had a faith that looked all the way into Paradise (Luke 23:43).

II. The Son Was Forsaken So We Could Be Accepted (vv. 29-36).

Awful was the railing and mocking which our Lord endured on the cross. It must have made His devoted, loving heart well-nigh break as He saw the scorn of the very ones He died to save.

Yet it was as nothing compared to that moment when He who knew no sin "was made sin for us" (II Cor. 5:21). Bearing the awful load of the sin of the world He knew the bitter agony of being forsaken by the Father. He turned His head away and we hear that saddest of all cries, "My God, my God, why hast thou forsaken me?"

We cannot fathom the full meaning of that hour, we dare not attempt to explain it, we can only accept it and thank God that because He did become sin for us we may be "made the righteousness of God in him" (II Cor. 5:21). He died that we might live. He was forsaken that we might be "accepted in Him" "the beloved" (Eph. 1:6).

After the darkness, however, comes the light. He died not as a martyr, a vanquished gladiator defeated in battle; no, there was victory.

III. The Veil Was Rent So We Could Enter (vv. 37-39).

The death of Jesus was not the pitiful weakening of a human martyr. Here was the Son of God, crying with a loud voice (v. 37), giving up His spirit to the Father (Luke 27:46), declaring that the work of redemption was "finished."

As a visible indication of that fact, and as a declaration that the old dispensation of law had given place to the new dispensation of grace, God tore the temple veil in twain. Only He could have done it.

No man could have torn this sixty-foot long, twenty-foot wide, and inch-thick curtain, and note that it was torn from top to bottom. This was the act of God. This veil had hung in the temple to keep all but the high priest out of the Holy of Holies, and he entered with fear and trembling but once a year as the representative of the people.

Now all this is changed. We have now, "brethren, boldness to enter into the holiest by the blood of Jesus, by a new and living way, which he hath consecrated for us, through the veil."

Therefore, "let us draw near with a true heart and full assurance of faith" (Heb. 10:19-22).

PATTERNS SEWING CIRCLE

1947
11-19

A BIG pink appliqued flower on a dark blue cross-bar cotton frock trimmed with contrasting ric-rac sounds pretty, doesn't it? It is—and can be made in so many lovely color combinations!

Barbara Bell Pattern No. 1947 is in sizes 11, 13, 15, 17 and 19. Size 13, short sleeves, requires 3 1/2 yards of 39-inch material; 8 yards ric-rac trim.

1943
3-8 yrs.

Bolero Charm

PRETTY as a picture, this little-girl jumper and bolero set is copied from grown-up's wear! Comfortable and dressy in a nice fabric, it's an all-spring and summer choice for a small girl!

Barbara Bell Pattern No. 1943 is in sizes 3, 4, 5, 6, 7 and 8 years. Size 4 requires 2 1/2 yards of 35 or 39-inch material.

Due to an unusually large demand and current war conditions, slightly more time is required in filling orders for a few of the most popular pattern numbers.

ASK ME ANOTHER? A General Quiz

- How far is the Panama canal from the equator?
- By what name is Vissaroonovich Dzugashvili now known?
- In the First World War it was "zero hour." What is it now called?
- A standard 24-foot parachute has an area of how many square yards?
- The power of a number is what?
- Where was the first real bicycle made?
- When the pilot of a torpedo plane speaks of "feathers," to what does he refer?
- Peter II, young king of Yugoslavia, is the son of former Princess Mary of what country?

The Answers

- It is 600 miles.
- Stalin.
- "H" hour.
- Seventy.
- The product that results from multiplying a number by itself.
- Scotland.
- To the wakes made by submarine periscopes.
- Rumania.

Youthful Preacher Soon Had Them All at Sea!

Asked to address a mission to seamen, a young preacher thought to add point to his remarks by drawing illustrations from the sea.

He spoke of the captain at wits' end navigating his ship through a twisting channel abounding in swift currents and rocks.

Ultimately, to the captain's despair, his ship was driven on a bank, and the preacher, now thoroughly worked up, exclaimed dramatically: "What shall we do now?"

"Goodness knows," said an old sailor who had been listening open-mouthed. "For the last 15 minutes you've been drivin' stern foremost!"

TRY THEM TODAY!

*** Spiced or nut muffins!**

Kellogg's ALL-BRAN Muffins

2 tablespoons shortening	1/2 cup milk
3/4 cup sugar	1 cup sifted flour
1 egg	1/2 teaspoon salt
1 cup Kellogg's All-Bran	2 1/2 teaspoons baking powder

Blend shortening and sugar thoroughly. Add eggs and milk. Let soak in All-Bran and milk. Let soak until most of moisture is taken up. Sift flour with salt and baking powder; add to first mixture. Stir only until flour disappears. Fill greased muffin pans 2/3 full. Bake in hot oven (400° F.) about 30 minutes. Yield: 8 large muffins.

* For spiced muffins, add 1 tablespoon molasses to creamed mixture, 1/2 teaspoon ginger or 1 teaspoon cinnamon to dry ingredients.
* For nut muffins, add 1/2 cup chopped nut meats to dry ingredients.

And remember, too, KELLOGG'S ALL-BRAN by itself is a rich, natural source of the whole grain "protective" food elements — protein, the B vitamins, phosphorus, calcium and iron!

Kellogg's ALL-BRAN

Meal of Popcorn

Popcorn often formed an entire meal at luncheons of colonial ladies.

You breathe freer almost instantly as just 2 drops Fenetro Nose Drops open your cold-clogged nose to give your head cold air. Caution: Use only as directed, 25c, 2 1/2 times as much for 50c. Get Fenetro Nose Drops

MOTHER GRAY'S SWEET POWDERS

Thousands of parents have found Mother Gray's Sweet Powders a pleasing laxative for children. And equally good for themselves—to relieve the distress of occasional constipation. Keep on hand for times of need. Package of 16 easy-to-take powders, 35c. Sold by all druggists.

Today as Always...

MORE FARM TRACTORS ARE EQUIPPED with Firestone GROUND GRIP TIRES THAN WITH ANY OTHER MAKE

WHEN a product wins and holds customer-preference year in and year out you know its leadership is established on merit. On every score, by every yardstick of value, it has met and passed the test of critical public appraisal.

Since Firestone developed the first practical pneumatic tractor tire 12 years ago and put the farm on rubber, farmers have shown an ever-increasing preference for Firestone Ground Grip Tires. Their point-for-point superiority is known wherever farm tractors roll. **That's why farmers, today as always, use more Firestone Ground Grip Tractor Tires than any other make.**

GREATER TRACTION

BETTER CLEANING

LONGER WEAR

BEST IN RUBBER

Mr. and Mrs. John Bryning and Mr. and Mrs. Harold Parent and son, David, attended the show in East Tawas.
Mrs. Joseph Ulman of the Townline visited her daughter, Mrs. John Jordan, and family Friday afternoon.
Mrs. Austin Allen was a caller in Tawas Saturday.
Mr. and Mrs. John McKnight of Bay City spent the past week with their daughter and son-in-law, Mr. and Mrs. John Bryning.
Mrs. Clyde Wood and sons, Dale and Roger, were callers in Whittemore Saturday.
Mrs. Merlin Jordan and children, Alfred and Bonnie, and Mrs. Harold Parent and daughter, Nettie Jean, were callers in East Tawas.
Mr. and Mrs. Howard Kohn visited his parents, Mr. and Mrs. George Kohn, Friday evening while home on furlough.

Thomas Norris returned to Ann Arbor Monday evening for medical treatment.

Mr. and Mrs. William Schroeder visited their daughter, Mrs. Delbert Scharder, at AuGres Tuesday afternoon.

Miss Geraldine Peirson has returned home after visiting her sister, Mrs. Ed Klinert, at Flint for two weeks.

In honor of their son being home on leave from the Navy, Mr. and Mrs. Geo. Kohn had his wife of Tawas and sister, Mrs. Martin Eckstein and two daughters of Bay City, for Sunday dinner.

Mr. and Mrs. Orville Strauer visited Mr. and Mrs. John Jordan Sunday evening.

James Jordan of Bay City spent the week end here with his parents, Mr. and Mrs. Matt Jordan.

Mr. and Mrs. William Schroeder entertained Mr. and Mrs. Herbert Schroeder and Mr. and Mrs. Clyde Wood and sons Sunday with a six o'clock supper in honor of Roger Wood's seventh birthday.

Mr. and Mrs. John Jordan were callers in Tawas Monday evening.

Mrs. Thomas Norris and Mrs. Orville Strauer were callers in Tawas Saturday.

Mrs. Austin Allen visited with Mrs. George Bessie Sunday.

Mr. and Mrs. A. Cataline and daughter of Saginaw visited her parents, Mr. and Mrs. Matt Jordan over the week end.

LOWEK HEMLOCK

Wm. Baker, who is stationed at Topeka, Kansas, spent a 15 day furlough with his wife and other relatives and friends.

Mr. and Mrs. Martin Long have returned to their home on the Hemlock after spending the winter at their cottage on the plains.

Charles Baker, who is in Service, spent several days with his parents, Mr. and Mrs. George Baker.

Mrs. Rose Watts is visiting her daughters in Gaylord.

Otto Berg, who is stationed in California is spending a 15 day furlough with friends on the Meadow Road.

Mrs. Walter Fisher and baby has returned home from Detroit.

Mrs. Louise McArdle spent Sunday with Mr. and Mrs. John Kattierman and Mrs. Arthur Wendt.

Mr. and Mrs. Arthur Leitz and children and Mr. and Mrs. Bert MacGregor called at the Waldo Curry home Sunday afternoon.

Sam Bradford passed away early Tuesday morning after a lingering illness.

Rationing News

Sugar Stamp No. 30 will be good indefinitely. The Iosco County War Price and Rationing Board announced that the No. 30 stamp would expire March 31. The OPA also announces that the next Sugar Stamp No. 31 will become valid for five pounds on April 1.

As of today, householders of this area should not have burned more than 73 per cent of their total yearly oil ration.
It is not necessary to re-endorse your gasoline coupons with your new car license number. Just add the new license plate number on the ration book cover. Of course when a new ration book is issued for a car already bearing 1944 plates, the 1944 number and state of issue will be used in the endorsement of all coupons. Properly indorsed gasoline coupons help to prevent black marketing.

Shoe Stamp No. 18 in War Ration Book No. 1 expires on April 30. At that time War Ration Book No. 1 will go out of circulation.

A new stamp for shoes will be good on May 1. The stamp number will be announced later.

This is a fact—eight per cent of the food served in restaurants is wasted.

Van Ettan Lake Lodge Hotel to be Razed

Van Ettan Lake lodge, extensively advertised for years as "Northern Michigan's finest resort hotel," has been sold to John Gilardino of Detroit. The long-time landmark will be razed.

The hotel, built approximately 30 years ago by the late Frank G. Cowley, has been unoccupied for the past several years.

It was sold by J. J. Colbath, with the intermediary assistance of Fred Brown, of Van Ettan Lake, to Gilardino who is an employe of the Westinghouse plant in Detroit, and who owns and operates a hotel at Dearborn.

Gilardino said he did not plan to restore the lodge but would raze the hotel structure. He plans to utilize the site and the lumber from the building for the erection of a group of modern cabins.

County Convention

To the Republican Voters of Iosco County:

By direction of the Republican State Central Committee it is hereby directed by the Iosco County Republican Committee that a County Convention of the delegates elected at the 1944 fall primary election be held at the Iosco County Courthouse in Tawas City, Michigan, on Monday, March 20, 1944, at ten o'clock A. M. Central War Time, in conformity to Act No. 98 P. A. 1943, for the purpose of electing three delegates to the Republican State Convention to be held in the city of Detroit, Michigan, on April 20, 1944, at eleven o'clock A. M. Eastern War Time.

Such matters of business as may properly come before such county convention will be taken up along with the election of delegates.

Dated at Tawas City, Michigan, March 8, 1944.
R. H. McKenzie, Secretary.
C. A. Pinkerton, Chairman.

Importance of Steel
Steel's effect upon life today is so important that we could give up most other metals—including gold—with less disturbance to civilization. Today's steels are the strongest, toughest, hardest, yet most ductile, elastic and obedient of all metals used by mankind.
