Marshall Man Given Manslaughter Verdict

TAYLOR TRIAL HELD HERE THIS WEEK

Case Result of November Deer Hunting Accident

A verdict of "Guilty as Charged" was brought in by the jury at about nine o'clock yesterday evening (Thursday) in the case against Dwight Taylor of Marshall, Michigan. Taylor had been charged with involuntary manslaughter last November following a hunting accident in which Earl Keck of Alabaster was killed. The jury studied the evidence for about nine hours before reaching a verdict. Starting Tuesday, the trial lasted three days, and the case went to the jury at noon (Thursday).

The prosecution was handled by prosecuting attorney Herbert Hertzler, and defendant's attorney was Attorney Stewart White of Niles. Scheduled on the calendar for the March term of court, the case had been postponed until the June term. Last night Taylor was continued under bond to await Judge Herman Dehnke's sentence.

Hunting alone during the morning of November 20, last, along the north side of the AuSable river near Five Channels, Taylor saw a deer pass through an opening in the trees and undergrowth near him. Quickly stepping a few feet to get another glimpse of the deer, he thought he saw it, and fired hitting Keck. At the inquest which followed, the coroner's jury, in their findings, said that Keck's death came through the negligent use of firearms on the part of Taylor.

Taylor, who operates a farm near Marshall, has a wife and one child. Keck was survived by a wife and one son.

Promotion Exercises At East Tawas Church

Promotion exercises are to be held at the East Tawas Methodist Sunday School at ten o'clock, Sunday, July 2.

The following children are to be advanced from Nursery to Beginners Department: Peggy Jo White, Karen Westrich, Sally Ostrander, Jackie Wideman, Marlene Sedgeman, Jean Charters, Karen Fernetto and Keith Gordon.

Those to be promoted from Intermediate to Senior Department, include: Osman Ostrander, Jr., Barbara Keinholtz, Kenneth Miller, Dora Jean Moffatt, Donald Grossmeyer, Fatsy Meesser and Merle Grossmeyer.

Hale

One of the worst storms this town has ever known struck here last Friday. Many fruit trees were ruined and large trees uprooted by the wind, accompanied by a cloud burst that left whole fields covered with water and planted fields ruined. Did you see that "smile that won't come off" that Albert Gardner is wearing these days, it's a boy that arrived Wednesday, June 21st that caused it.

Mrs. Melvin Dorsey and daughter are visiting relatives in Detroit.

Mrs. Harold Dorsey has gone to San Francisco to visit her husband.

Rev. Switzer, Leon Buck, Maryetta Bills and Virginia Webb returned Monday from Lake Louise camp for young people.

Mr. and Mrs. Emil Geising and family of Grayling spent Sunday at the J. H. Johnson home. Alice Johnson returned home with them after spending a week with her cousins.

Mrs. Lucy Brown and the Girl Scouts are camping at Loon Lake this week.

Mrs. Claude Salisbury is able to sit up for a short while each day, after her long illness.

The J. O. Johnsons have remodeled the porch and painted their house, and the Arnold Bronsons have a new screened porch.

Harvey Shellenbarger of Detroit visited his wife and parents over the week end.

One of the Gideon's society, Mr. Kent of Saginaw spoke at the Baptist church Sunday morning. Miss Florence Latter of Reno substituted for the pastor in the evening. Miss Latter told of her work with the Mexican beet workers in the Thumb district.

Mr. Lynn of Birmingham arrived this week to take care of the boys camp at Loon Lake.

MONUMENTS and Markers—Good reliable firm. All styles and prices. Will Brown, Phone 463, Tawas City, home.

MANY INSPECT ARMY "DUCKS" WEDNESDAY

\$15,000 In War Bonds Sold At Tawas City Park During Exhibit

People from all sections of the county and passing tourists, as well as residents of Tawas City and East Tawas, took advantage of the opportunity Wednesday afternoon of riding in the Army Invasion Ducks which were on exhibit here at the Tawas City Park. All afternoon the soldiers operating the ducks were busy making trips out into the bay and a large number of our people became familiar with one of our new invasion arms. Seven of the amphibious trucks were used.

H. E. Friedman, chairman of the Isosco County War Finance Committee, stated yesterday that more than 850 men, women, boys and girls were given a ride. He said that \$15,593.00 worth of War Bonds were sold at the band stand in the park where the demonstration was given during the afternoon and sales got far ahead of the clerks making out the necessary forms.

In a check up this week, it was found that while the sale of bonds to corporations had gone over the top, individual or "E" Bond sales had reached the half-way mark. The sale of War Bonds to corporations in the county was as follows:

United Gypsum Co.	\$50,000
U. S. Gypsum Co.	20,000
Consumers Power Co.	10,000
Michigan Bell	4,000
A. & P.	3,000
Standard Oil	3,000

Isosco county "gallants" participating in the War Bond campaign are working hard to reach the \$133,000 quota for "E" bonds. With the half-way mark reached a special effort on the part of the citizens of the county in purchasing bonds during the next few days. Mr. Friedman said "With invasion on in three fields of action—France, Italy and the Pacific Area—our nation now needs our help if it ever did in its history."

Ulman-Sabin

Miss Hazel Ulman, daughter of Mr. and Mrs. John Ulman of the Townline and Lloyd Sabin, son of Mr. and Mrs. James Sabin of Hale were married Saturday, June 24, in Detroit. They were attended by Miss Helen Krumm and Marvin Ulman.

A reception was held following the wedding at the home of the bride's brother, Carl Ulman with the families attending. The young couple are spending the week with their parents.

A miscellaneous shower is being held in their honor on Saturday by Mrs. Orval Proper and Mrs. Oran Ulman at the latter's home.

PERMANENT WAVE. 59¢! Do your own Permanent Wave with Charm-Kurl Kit. Complete equipment including 40 curlers and shampoo. Easy to do, absolutely harmless. Praised by thousands including June Lang, glamorous movie star. Money refunded if not satisfied. Keiser's

IN the SERVICE

Leaving July 12 for military service are:

Lawrence L. Daley, East Tawas. Robert G. Murray, Tawas City. Wallace L. St. Martin, Whittemore. George E. Kindell, Tawas City. Ralph D. Hill, Tawas City. Charles R. Isola, East Tawas.

After reporting to the Local Selective Service office, the group will leave for Detroit on the regular bus at 3:45, E.W.T.

Beginning July 1, the branch of service will not be designated at time of preinduction physical examination, either to the registrant or the local board. Assignment to the different branches of the service will be made at time of induction.

Lt. Evelyn A. Smith, daughter of Mr. and Mrs. Frank Smith, who live at Turner's, is an army officer nurse now stationed at Finney General Hospital at Thomasville, Georgia. She is one of the enthusiastic backers of the Army Nurse Corps recruiting campaign conducted by local Red Cross units.

Lt. Smith, a graduate of Whittemore High school and of nursing training at Mercy Hospital in Bay City declared that the sight of soldiers receiving treatment as battle casualties in the hospital has made her proud to be of service as a nurse. "The men do not complain," she pointed out, "but from the look of them you feel proud to be a part of their world. They make us feel that we are truly sharing their service and sacrifice."

Lieut. Eunice Beardslee of Whittemore was one of the three staff members of the First American Field Hospital to reach France and to be permanently stationed there to help care for our wounded soldiers. Lieut. Beardslee is a graduate of Tawas City High School, and made her home with her aunt and uncle, Mr. and Mrs. C. L. Beardslee, while here. She was a graduate of Saginaw General Hospital.

Cpl. Carl Libka, who is home on furlough from Italy, says that Tawas Bay is more beautiful than the famed Bay of Naples. Cpl. Libka has seen action in Africa, Sicily and Italy with the artillery. His outfit handled the well known 155's.

"I am all right. Do not worry," writes Pvt. William Brown to his parents, Mr. and Mrs. Will Brown, of this city. Pvt. Brown is in France and his letter was written June 12.

Edward Wellna, 18, son of Mr. Mrs. John Wellna, of this place is receiving his initial training at the U. S. Naval Center, Great Lakes.

Cpl. Addison Featheringill of Camp Butner, Colorado, is visiting parents and other relatives in this city for a few days. He has been transferred to Augusta, Georgia.

Kenneth Staudacher and Don Pringle left Monday for New York where they will return to their duties in the Merchant Marine. (Turn to No. 2, Back Page)

MIKADO WINS FROM TAWAS CITY SUNDAY

Locals Overpowered by Northern Team in 17-7 Game

Last Sunday the Tawas City Independents journeyed to Mikado where they were overpowered by the score of 17 to 7.

The Mikado squad had fourteen hits, while the locals had seven. Errors on the part of Tawas brought about their defeat, six unearned runs was the result of ten errors, kicking the ball, throwing it over each other's heads, or misjudging fly balls.

Leading sluggers for Tawas were Fagenson, with a double and single, Blublitz with two singles. Battery for Tawas, Peterson pitcher, Bultz catcher. For Mikado, Gordon, pitcher, McDonald, catcher; Collens, Winning pitcher, Gorden; losing pitcher, Peterson.

Wayne Woman Drowned Tuesday at Alcona Dam

The body of Mrs. Irene Herman 30, of Wayne who drowned Tuesday night in the AuSable river, was found Wednesday by a searching party seven miles downstream from the place where she went down.

Mrs. Herman lost her life when she and her 10-year-old daughter, Nancy, were caught in the swift current of the river, two miles below the Alcona dam while swimming. She was camping with her daughter at Tanner Banks in Alcona county.

Nancy was rescued by George Young of Detroit who heard their cries for help.

Coroner Durant Smith of Lincoln declared that the death was accidental and that no inquest would be held.

Mrs. Herman's body was found by Trooper Frank Roti of the West Branch State Police Post, who with a crew of coast guardsmen from Tawas Point Station, was searching the river.

Strawberries

Mrs. Gertrude Winkel, Home Agent Does your victory garden boast a strawberry patch? Strawberries contain more vitamin C than any other Michigan grown dessert fruit. Strawberry shortcake made with enriched flour and loaded with strawberries is really quite a vitamin cocktail.

Strawberries do not make such a perfect canned product as some other berries but they taste unusually good in the middle of February just the same. Strawberries keep their shape and hold their juices better if they are washed before they are hulled. They are plumper and have a better color, if the berries are brought to the boiling point with the sugar the night before canning and then let stand in the kettle in a cool place until morning. The next day bring them to the boiling point, pack hot and process them in the boiling water bath for five minutes. The processing in the water bath makes certain that there will be no mold growth on the surface.

Sugar does not help preserve canned fruit—it's heat that makes fruit keep. So don't blame sugar rationing for spoilage. If a half a cup or less of sugar to the finished quart is being used, berries may be heated with the sugar to draw out some juice boiled gently for three or four minutes, packed hot and processed for five minutes in the boiling water bath. The last step is important since much fruit was lost year that had been canned by the open kettle method.

COTTAGE WANTED—On Lake Huron near Tawas for last two weeks in July, with electric range and refrigerator. Alfred Patterson, 13986 Forer, Detroit.

EAST TAWAS

Irene Rebekah Lodge will close their meeting for the summer next Wednesday evening with a six o'clock pot luck supper. Meetings will be resumed in September.

Mr. and Mrs. Earl Lonsbury spent several days in Detroit last week, where the former spent some time in the Henry Ford Hospital and Clinic.

Three of the Lloyd Cooper children, Betty, Phyllis and Larry, had their tonsils removed at the Omer Hospital the last of the week.

Several from East Tawas attended a shower and pot luck dinner Wednesday evening honoring Mrs. Robert Erickson (Beverly Freeland) at the home of her parents at National City.

Mrs. Jennie Wilkins spent the first of the week with her mother, Mrs. Carrie Brown.

Mr. and Mrs. Elmon Bills spent Sunday with friends in Hale. Ensign and Mrs. Ronald Butterfield and son Billie visited friends and relatives here a couple of days this week. Ensign Butterfield was enroute from Shaunee, Oklahoma to N. A. S. Banana River, Florida. Mrs. Harry Truesdell of Detroit accompanied them on their visit to East Tawas.

Miss June Gurley of Alpena is spending the summer at the home of her aunt, Mrs. Harry Hagstrom, and working at Dimmicks Store.

Mrs. Harry Turner and daughter, Mrs. Harold Haglund and Barbara are here to spend the summer at their cottage.

Mr. and Mrs. Bert Stoll have moved into the Larry Leslie home, recently purchased from Mrs. Beatrice Killian.

Mr. and Mrs. Ed Cowan of Owosso are spending 10 days at their cottage on Sand Lake. A son was born June 19 to Mr. and Mrs. Paul Cotter (Violet Harwood) of Mt. Pleasant. He has been named David Timothy.

Guests in the Edw. Siefert home over the past week-end included S Sgt. and Mrs. Henry Rosenthal, Alfred Sundstrom and Mrs. Lillian Posten, all of Chicago and Mrs. Herbert Lovejoy of Saginaw. Mrs. Glenn Spears and daughter Judy of Petoskey were here for the week.

Mr. and Mrs. Elmer Durant and Mrs. Delois Durant and daughter spent Sunday in West Branch with the former's sister, who is ill.

Mr. and Mrs. Jennings Johnson and son, Tommy of Ferrisville will be holiday guests of Mr. and Mrs. Harry Haun.

Richard Harwood left Tuesday to enroll at the U. of M. for a pre-medical course.

Mrs. Jake Messer and Mrs. Kenneth Grikke were called to Bay City this week by the serious illness of their mother, Mrs. Bert Moore.

Mrs. Pauline Burke, Mrs. May McMurray of Tawas City and Mrs. Charles McKenzie of Whittemore have returned home after spending a week at the Library Work Shop at Higgins Lake.

Mr. and Mrs. Richard Kurtz (Mary Ellen Watson) of Grosse Pointe, Mr. and Mrs. George Coates and son of Saginaw arrived Thursday to be guests of Mr. and Mrs. Harvey Watson over the holidays. The party will be entertained at the Watson cottage on North Lake near Glennie.

Mrs. Arthur Staudacher and son, Kenneth returned from Detroit last week end, where they had spent several days.

Mrs. Cora Russell of Port Huron arrived Thursday to visit her daughter, Mrs. Leslie Fraser and family.

O. W. Rowley was a business visitor in Pontiac on Thursday.

Mrs. Henry Klenow entertained members of her sewing club at a pot luck supper Wednesday evening at the Klenow cottage on Lake Huron.

The Altar Society of St. Josephs Church held their final meeting for the season at the K. of C. hall Thursday evening. Light refreshments were served at the close of the meeting.

Mrs. Howard McDonald (Rose Nelem) and two daughters of Cincinnati, Ohio, arrived Saturday to visit the former's parents, Mr. and Mrs. Charles Nelem for a few weeks.

Mr. and Mrs. Gerald Murphy of Detroit were up last week end.

C. H. Forsburg of Detroit has spent the past week at the A. F. Cowan home.

FOR SALE—1937 Ford Tudor Sedan. Very good condition. W. A. DeGrow, East Tawas.

FOR SALE—Hay fork, track, car rope, blocks. Ralph Sherman, Wilber township.

WANTED—Position as housekeeper. Mrs. L. P. Sheaffer, Box 444, Tawas City.

WANTED—Row Boat, 12 or 13 foot. Good condition. Price must be reasonable. Fred Humphrey, Hale.

QUEENS DIE PROUDLY

©.WHITE by W.L. White W.N.U. FEATURES

THE STORY THUS FAR: Lieut. Col. Frank Kurtz, pilot of a Flying Fortress, tells of that fatal day when the Japs struck in the Philippines. Eight of his men were killed while fleeing for shelter, and Old 99, with many other Forts, was demolished on the ground. After escaping to Australia, what is left of their squadron flies to Java, where they go on many missions over the Philippines and the Java sea. Java is invaded and becomes untenable. The Dutch general grants permission for U. S. fliers to evacuate to Australia. It is the first strafe Jap landing bases, which is done. They leave for Australia in an over-crowded Fortress, reach Broome airfield, circle, and come in.

CHAPTER XX

"Presently the old sheep-rancher who took care of this shack and also ran the general store strolled over, and we began to talk.

"Had any trouble around here?" I asked him.

"No," he said. "Jap planes come over once in a while. Over here, sometimes over Wyndham and Port Hedland too, they say."

"What do you mean, once in a while?"

"The last one was just last night, since you mention it," he said. "Came over very high, early in the morning."

"So at breakfast I mentioned it to the officer in charge of the field (a new man, just out from the States). 'Did you know, sir, the Japs had a recco plane over last night?' And went on to say that we had quite a bit of stuff here, and while of course the crews were terribly tired, maybe it should be moved out.

"He listened, and because I was on edge, his hesitation somehow annoyed me. But he finally said maybe I had a point there. And thinking about it, he finished his breakfast. I was glad when we got out of there after breakfast for Melbourne."

"We worked most of the night on the brakes, and then went to sleep in that hangar shack. I slept fitfully—woke at five, to get an early start. It didn't seem healthy to me or to any of the rest of us. After a makeshift mess—hot beans and coffee plus field rations—we went out to the ship at six and stood by."

"Skiles had asked the officer in charge when he could take off. But he gave Skiles to understand we were evacuees just like the others. When we were given our passenger list, we could go.

"So we stood around the plane from six o'clock until 9:10, waiting for that list and those orders. At this minute Sergeant Britt happened to look up and hollered: 'Make a run for it, fellows—here come some Zeros!' Five of us who were standing back of the plane dropped into a hole about fifty feet away.

"One Zero peeled off and strafed the Fortress with incendiaries. It caught fire immediately, then the Zero went on down and strafed a B-24, setting it afire. Then it turned around, coming in directly over our hole from the rear, strafed them again. It repeated this six times, also firing a 20-millimeter cannon at us, which we lived in our hole and covered us with dirt.

"When Sergeant Britt first hollered out, a big B-24 loaded with twenty-six people had just cleared the runway. When the Zeros hit, it was out over the ocean headed for Perth. It had hardly had time to pull its wheels up—and there was no room in their own defense—when a Zero caught up with it and dropped it in the sea.

"Two sergeants managed to get out. They swam for thirty-two hours, one of them giving up in sight of shore. The other told us what it had been like inside there when those bullets came smashing through that packed crowd, and a few seconds later when those dying and wounded were all struggling not to drown as the water came in.

"That day the Japs got another B-24 on the ground (it had been the one General Brett himself used), three Forts, a DC-2 and a DC-3, a Lockheed—but the worst were the nine Dutch flying boats they caught out in the harbor. About forty or fifty people were killed on them, mostly women and children.

"I saw one Dutchman swim ashore dragging his wife by the hair. The whole lower half of her face had been blown away and she was dead. I saw another woman standing on the wing of one of the planes which was burning. She had a child in her arms, and was ready to jump and swim ashore, when a cannon shot hit her in the back and broke her into halves. They both fell forward into the water, but the arms on the top half which held the child never let go of it.

"The men who were left were almost crazy with rage. One Zero was shot down by a Dutchman who stood in front of the hangar holding a .30-caliber machine gun across his arm. The gun got so hot it scorched right into his flesh, but he never noticed it. It turned out that Broome's anti-aircraft defense consisted of just this one .30-caliber gun. The Japs did the whole job in thirty minutes—didn't leave a thing.

"Finally the officer in charge told us: 'We expect planes in between now and midnight, but we don't know how many. We're compiling a

priority list, but if your name isn't called by two o'clock, I advise you to get out of here quick, and the best way you can, even if you have to walk—and it's a long walk.' "He turned out to be right. I fooled around until 2:30 and then, when my name hadn't been called, nine of us decided we'd string along with a civilian contractor who'd offered us a lift. He had thirty men and five Ford trucks, and said he was headed south down the coast for the nearest town, called Port Hedland, two hundred miles away. The Army had some emergency rations hidden in the woods, so we helped ourselves to enough of those to keep us on the trip.

"Then I began to find out about Australia. Those guys are like our Westerners—pioneer types, except bigger. When we got twenty miles out of Broome the road ended entirely. After that—nothing at all. We had to push those trucks through sand, and make long detours around salt-water marshes. Even our drinking water had to be carried in the trucks. They talked about passing three ranches. We did, and I discovered they were the only three houses between Broome and Port Hedland. A million acres is nothing to an Australian. The country looks like West Texas, and is covered thinly with what they call gum trees. They're like eucalyptus in the States. The only sign of life was kangaroos—we'd see half a dozen a day. The little ones are called wal-

The only sign of life was kangaroos. We'd see half a dozen a day.

labies and the others are big blues. They hunch low and run through the scrubby gum trees. I got tired living out of cans, so I borrowed a gun and shot a big blue, and the Aussies showed me how to eat it. You throw away all but the tail, which you make soup of, and it tastes like thick chicken broth.

"Finally I got to Melbourne, where the Air Force was gathering again—and found they had me down as a deserter, but it wasn't any trouble getting that explained."

"I got out of Java by boat," said the Gunner. "They loaded us on a train at Jockstrap and took us to some town whose name I never did learn, where a Dutch freighter was waiting to take out fifteen hundred of us. They told us we were bound for Perth, a town in Southwest Australia—about the same location and size as San Diego in the States. Alongside us at the dock was a troopship of Aussies from Singapore. Before that they'd been in Egypt—hadn't been home for years. Their boat was bound for Adelaide, way round on the other side of Australia—same location as Miami. But lots of them lived in Perth. When they heard we were going there, they all skipped ship to come aboard with us. We divided our food and lent them our mess kits. They'd lost everything at Singapore. They probably caught hell for it, but they didn't give a damn.

"The first day out we sighted a Jap plane, but it stayed up for a while, watching us. We had stuck machine guns in the belaying-pin holes, and kept the soldiers hidden below decks so they wouldn't know we were carrying troops. Our gunners were hidden, too. But when this Jap started down to strafe, one of our gunners gave the show away by opening fire too soon—otherwise we would have got him.

"We zigzagged for five days, and then at Perth were loaded into a troop train for Melbourne. I was in the coach next the engine, and the Australians couldn't do too much for us. The engineer drew a can of hot water from his boiler and made us some tea out of his strictly rationed supply, apologizing because it wasn't stronger.

"I guess I was about the last one of us to arrive."

"Not by a couple of weeks you weren't," said Harry Schriber, the navigator, indignantly. "Because what about me?"

"We weren't worried about you, Harry," said Frank with a grin. "We thought you were dead. Way back in the Philippines, when Jack Adams' plane didn't come back to Del Monte Field from that mission. We had given you up months ago. What had you been doing, anyway?"

"Trying to get out of the damned Philippines," said Harry. "And I didn't manage it until the day before General MacArthur did—the sixteenth of March I think it was."

"Harry was the last man to come," said Frank, "and now that the gang was together we could start doing business. You see Lieutenant General Brett, who had been commanding the United Nations Air Force under British General Wavell, who was supreme commander, needed a plane to take him around the war zone. His B-24 had been lost at Broome, remember. Colonel Eubank recommended me to General Brett as his personal pilot and senior air aide, and I selected the crew. Of course when it came to picking the plane itself, the General ordered a D, because all the E's with tail guns were needed for combat and he wanted those planes saved for the boys who would be going out on missions.

"But when it came to which D we would pick, it had to be the Swoose, because there was no other left. Every plane, even of the same model, handles a little differently. I'd flown our D's out from the States, through the Philippines and Java, and I've always felt the old Swoose was just a few miles faster and answered the controls a little more smoothly than the others.

"So now, as pilot and crew of the commanding Air Force General's plane, we in the Swoose were making weekly trips into the war zone from Headquarters far down in Melbourne, up to Darwin and Port Moresby, which were then fat-fung outposts on the battle line. The General would average sixty hours a month in the air—thirty of them at least in this combat zone. To get him in and out of it, the Swoose often hit 150 air hours per month.

"At Moresby it was never safe to leave the Swoose on the ground by day. We'd sneak in at night, leave the General, and be off back to Townsville by dawn, coming in to pick him up again the next night. Sometimes the General would just have time to scramble aboard while we cleared the field as the alarm sounded. He was bound he wouldn't lose the Swoose.

"We now began to get a peek out over the top at the broad picture of this Far Eastern war. There were differences over strategy, but it was never Australians versus Americans. The cleavage was ground-minded versus air-minded thinking. The Australian air generals saw eye to eye with our American air leaders. Likewise the infantry generals of both armies thought alike.

"And there was much to the infantry side of the argument. After Java fell, Australian civilians were panicky. Thousands of Australian boys had gone out to die in Africa and Singapore. Now the danger had suddenly rolled down on the Home-lands.

"Not in New Guinea, or Tulagi, or Guadalcanal, or even in Darwin, which, although on their own continent, is to the average Australian as remote as the Aleutians seem to New Yorkers. They think of Darwin as a tiny outpost separated from them by thousands of miles of impassable desert. They wanted the soldiers near the great cities of Sydney and Melbourne, where they could hear the marching and the military bands.

"This was also sound infantry strategy. The only populous parts of Australia are down in this southeast corner. We didn't yet have many battalions, supply problems were enormous, so our infantry generals agreed with theirs and with their civil leaders. They wanted to keep the army near valuable objectives, not scatter it out across seas and jungle islands, where supply problems would become formidable.

"But we of the Air Forces (both Australian and American) felt that to defend this continent we must build our fighter fields not in Australia itself, but on the outlying islands. Having these, with a few ground troops to hold our airdromes against Jap landing parties, no fleet would dare venture through our air screen to threaten the continent itself.

"We'd defended Java by pounding the Japs from Borneo. The Japs had not dared send their transports and landing barges through until they'd taken our advance bases and held air control over the Java Sea.

"The Australian Air Force was as anxious to move into this outlying island chain as we were. Early in April they'd wanted to seize Lae on New Guinea, before the Japs had had time to dig in on its north coast. At that time the Japs had only about four hundred men in the area, and it would have been easy.

"But we lacked the men and the ships—the Japs pressed on and presently took Tulagi in the Solomons, threatening our supply lines home, (TO BE CONTINUED)

Sheer White With Exotic Print Makes Romantic Dance Frocks

By CHERIE NICHOLAS

MEN in uniform, brilliant lights, starlit summer evenings—it's no wonder that wives, sweethearts and sisters are going all out for dancing frocks as lovely and sentimental as designers can create them!

Yes indeed, men in service coming and going at their country's call should have this tribute of happy evenings paid them when romance and loveliness hold sway.

A checkup of what's hot in dance frock trends reveals a decided preference for the longer gown to wear upon gala occasions. The picture as youthful romanticists vision it is that of the portrait gown that tops a skirt of picturesque bouffancy with a slender-fitted bodice that is quaintly beautiful. The materials for these beguiling gowns are dream stuffs of exquisite sheerness such as diaphanous nets and filmy marquisettes that float like vapory clouds about the girl who trips the light fantastic to rhythmic tune.

White is first choice for most dance frocks, but the newest gesture is to introduce a splurge of exotic flowers into the picture just as you see in the charming gowns shown here. One of the latest fancies is the gown that has a billowy skirt of sheerest white marquisette with a slender bodice top made of handsome rayon jersey patterned in vividly colorful exotic florals, as pictured to the left. Coutures of the print flowers are applied to the skirt with eye-crashing effect.

A gown attracting considerable attention in a collection of beauteous evening clothes repeats the idea of cutout florals on sheer background, only in this instance the filmy-as-a-cobweb net is black and the flower theme is big and beautiful poppies ranged around the voluminous skirt in an artful diagonal swirl. The simple bodice is of shell pink lace to

which above-the-elbow black lace mitts give a striking contrast.

So far we have been speaking in terms of diaphanous sheers for the portrait dance gown, but now for some thrilling news that centers about most eye-appealing border-print waffle pique. Just out is this stunning new flower-bordered pique, such as styles the beautiful gown to the right. Here is a dancing dress that will look as fresh at the summer's close as it does at its initial appearance, because the huge full blown red roses emblazoned on the skirt are sun and suds proofed with a new processing, as are all border prints that come with an ever-fast guarantee.

This flair for gorgeous flowers on white backgrounds presents an invitation to girls who can paint even a little, to work out their own flower designs. Perhaps you have a blouse of last year's vintage, perfectly good but calling for a touch that modernizes it. If it is a snowy rayon sheer it will take on a new look with a gay floral handpainted like a corsage near the left shoulder.

You can also "doll up" your sheer white party frock with cutouts from everfast prints, applique them here and there with studied grace. Here's another clever trick, that has to do with the new fad for long graceful scarfs thrown about the shoulders of décolleté and sleeveless evening gowns. Assuming that your scarf is of white or a pastel sheer you could adorn it with hand-painted single-flower motifs or with clusters of flowers. Wear this scarf over a white gown and the effect will be charming.

Released by Western Newspaper Union.

Striped Jersey

Here's a new "find" in the way of striped rayon jersey, and, by the way, the new checked jerseys are just as modish as can be. Women who buy for service and comfort as well as "looks" are all enthusiastic over the smart new jersey stripes and checks. They like them because they are about the coolest fabric one can find anywhere, and they give superb wear, thus proving ideal for summer. These jersey stripes make up into perfect gowns for chic town wear as the picture readily reveals.

Separate Jackets Are Popular This Year

Not one but several little separate jackets should be included in every well-organized wardrobe. The jacket types include everything from the popular pert little boleros and youthful boxy effects to handsome sweaters, both sleeveless and sleeved. You'll find an extra jacket now and then will prove a source of joy and comfort. Then too, they make a limited wardrobe go a long way, for you can change the entire character of a costume via different jackets. It's new to wear a pastel linen bolero with your simple slim one-piece black crepe frock. It's style correct too, to assemble a costume with one color for the skirt, another for the blouse and still another for the chic bolero accompaniment. You can now buy separate boleros in varied fabrics, also jackets made of linen, pique, eyelet embroidery, taffeta, cotton tweed, black faille or satin.

New Ideas for Knitters

The dress you knit this year will have so many new ideas involved you'll be delighted in the smart fashion look it will take on. One attractive model, simple to knit, has a low V-neckline and brief sleeves, for brevity is the word when it comes to sleeves this summer. Also a 1944 look is given to the dress you will knit this year in that it will be slim of silhouette and will button at one side along the underarm seam.

Parasol and Glove Sets

Parasols are "in" again. They are made of gay print and this year something has been added in way of gloves made of the same print.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL Lesson

By HAROLD L. LUNDQUIST, D. D. Of The Moody Bible Institute of Chicago. Released by Western Newspaper Union.

Lesson for July 2

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

ENTERING THE PROMISED LAND

LESSON TEXT—Joshua 1:1-9; 23:1-5. GOLDEN TEXT—Be strong and of a good courage; be not afraid, neither be thou dismayed: for the Lord thy God is with thee whithersoever thou goest.—Joshua 1:9.

The forward look is typical of God's people. They are always to go on. They are to be like Israel, to whom came the word, "Moses is dead," but "now therefore arise and go"—under a new leader.

Our lessons for this quarter center around the experiences of Israel from Joshua to David, a period rich in historical data, much of it with most helpful spiritual application. It affords a real opportunity for effective teaching.

Moses was now dead, but that only brought forth

I. God's Provision of a New Leader (1:1, 2).

God buries His workmen at the end of their day of labor, but God's work goes on. The people had become attached to Moses and had learned to trust his leadership (even though they often murmured). With his death we might have assumed that there would be a letdown, but that was not in God's plan.

The Lord works through men. He gives them abilities and uses them for His glory—often in a way which astonishes them and others. But let them not become proud, for God has someone to take their place when they are gone. They are not indispensable.

Sometimes people talk as though all the great leaders of the church had died, or were dying. Yet God has some obedient men who are ready to step into the gap.

Joshua was ready, when God was ready, and he stepped into leadership.

II. God's Promise of Victory (1:3-5).

The promise given to Moses was still good. God's promises are always good. They are the only really stable thing in a trembling universe. The question is, Are we ready to accept Him at His word?

If our love were but more simple, We should take Him at His word; And our lives would be all sunshine In the sweetness of our Lord. —Faber.

They were to step out by faith. The land was promised to them only as the sole of their foot should tread upon it. Israel never took out the full promise of verse 4. They lacked faith. Do we?

God honors those who believe Him and who move forward by faith—to plant the foot of spiritual conquest in new territory. Some are doing it now. Are we?

The enemies of God's people were many and mighty, but they were not able to stand in the way of God's people when they were moving forward for Him. Here again, Israel failed. They did not drive them out, because they did not take God at His word. The application of that truth to us is obvious.

III. God's Plea for Obedience and Courage (1:6-9).

"Be strong and of good courage."

There is a side to the believer's character which calls for submission, for turning everything over to God, for being sweet and spiritual. All that is good and very desirable, but it can never be substituted for that other side which shows virile courage and fearless abandon to the cause of our God.

Joshua was made to realize—as we must too—that serving God (and especially in a place of leadership) calls for a measure of high courage unsurpassed in any other pursuit of man. It takes all there is of a man to be a real follower of Christ—be sure of that!

This courage, however, is not to be confused with a foolhardy bravery which is reckless and unintelligent. No indeed, for it is based on the observance of God's law (v. 7).

Note (v. 8) the importance of meditating upon God's Word. This (which is really a lost art in our day) means so absorbing the principles of the Word that our very lives are conditioned by them, and we are made ready to meet every problem in the light of its teaching.

IV. God's Purpose for the Future (23:1-5).

Passing all the great and stirring experiences of Joshua, we have now a glimpse of his closing days. He was counseling the people regarding the future.

It is the mark of a great man that he looks beyond the end of his own short existence and plans for the future. Many there are who are not concerned about what happens once they are gone. They have no vision, no concern about the continuity of life, in fact they come and go almost like the beasts of the field.

What about the future? Joshua reminded them that every blessing they had received, every victory they had won, everything had come from the hand of God. There and there alone was their hope for the future. And it was enough!

ON THE HOME FRONT

HERE is a bulletin board and blackboard that is easy to make and is so decorative that you will enjoy having it in the kitchen, the upstairs or the downstairs hall; the rumpus room; the children's room or that private

corner called one's own. Teen age girls and boys also love having a bulletin board in their rooms.

Dad will find a thousand uses for one of these gayly decorated boards in his study, or den, or over his workbench in the basement. Mom will find one handy in the sewing room where she can pin up fashion ideas and pattern instruction sheets for reference.

NOTE—Mrs. Spears has prepared an actual-size pattern and complete directions for making the combination bulletin board and blackboard. Stencil designs and color guide for decorations at top and on the handy trough at bottom are included. Pattern No. 267 will be mailed for 15 cents. Address:

TO THE VOTERS
IOSCO COUNTY

In asking your support for the office of State Representative for the counties of Alpena, Alcona and Iosco, I am mindful of the duties this office imposes and, having a firm conviction in the wisdom you will exercise in selecting a man for this important office, I am presenting myself for your consideration. Should I be favored with so distinguished an honor I pledge you a faithful, honest and businesslike administration of your affairs entrusted to me. I shall be pleased to receive your helpfulness and vote at the primaries, July 11, 1944.

Sincerely,
EDWIN E. BENNETT,
Harrisville, Michigan.

The Tawas Herald

Published every Friday and entered
at the Tawas City Postoffice as
second class matter

P. N. THORNTON, Publisher

LOWER HEMLOCK

Lewis Ploof of Essexville is spending several days at the August Lorenz home.

Dorothy Kelchner returned to Detroit on Monday, after spending a week with her parents, Mr. and Mrs. Walter Kelchner.

Mrs. Walter Miller was taken to Omer Hospital where she underwent an operation for appendicitis Monday morning.

Mr. and Mrs. Alton Long and family visited their parents, Mr. and Mrs. Martin Long during the past week.

On Thursday evening friends and relatives met at the McArdle home and helped Mrs. John McArdle, Jr. celebrate her birthday anniversary. Cards were played and potluck lunch served. Mrs. McArdle received several pretty gifts.

Mr. and Mrs. Clarence Curry and family spent Sunday with Mr. and Mrs. F. Schneider at National City. Delores and Shirley Snyder of Beaverton came Saturday to spend a week with Betty Jean McArdle at McArdle's cottage at Sand Lake. Vera Rapp, Mrs. McArdle and Johnnie Gale McArdle are with them.

Mr. and Mrs. John Katterman were pleasantly surprised on Sunday evening when Mrs. Louise McArdle, Mr. and Mrs. John McArdle, Mrs. Arthur Wendt, Mr. and Mrs. Waldo Curry, Sr. and Mr. and Mrs. Waldo Curry, Jr. talked in to help them celebrate their 30th wedding anniversary. The evening was spent visiting and playing cards. Lunch was served. Mr. and Mrs. Katterman received several lovely gifts.

Miss Shirle Hoffman who spent several weeks at the Ginsberg home returned to her home in Cleveland, Ohio, to attend the wedding of her cousin.

Mr. and Mrs. Fred Musolf and family of Tawas City, Mr. and Mrs. A. Goff of Sand Lake were Sunday guests of Mr. and Mrs. Henry Fahselt.

Mr. and Mrs. Roy McMullen of Alpena visited Mr. and Mrs. S. Ginsberg Sunday afternoon.

Origin of 'Vaudeville'

The word "vaudeville" is derived from the gay French songs called "Voix-de-Ville"—voices of the city—which originated in Normandy, in the valley of the Vire (Vaux de Vire).

Drain 19 States

The Mississippi river and its tributaries drain 19 states, or about two-fifths the area of the United States.

ATHLETES FOOT GERM

How to Kill It

The germ imbeds deeply. Can't be killed unless reached. Many liniments and ointments do not penetrate sufficiently. Ask any druggist for 'Te-o' solution. Made with 90 per cent alcohol, it PENETRATES. Reaches more germs. APPLY FULL STRENGTH for itchy, sweaty or smelly feet. Your 35c back tomorrow if not pleased. Locally at Keiser's Drug Store, Tawas City.

State of Michigan

The Probate Court for the County of Iosco.

At a session of said Court, held at the Probate Office in the City of Tawas City in said County, on the 19th day of June, A. D. 1944.

Present, Hon. Herman Dehnke, Acting Judge of Probate.

In the Matter of the Estate of David E. Jackson, Deceased.
Hazel F. Bragg having filed her petition praying that an instrument duly admitted to Probate in the State of Ohio, be admitted to probate and recorded in Michigan and that administration of said estate be granted to Carl B. Babcock or some other suitable person. And having filed all exemplified copies required by statute.

It is Ordered, That the 18th day of July, A. D. 1944, at ten A. M., at said probate office is hereby appointed for hearing said petition.

It is Further Ordered, That public notice herof be given by publication of a copy hereof for three successive weeks previous to said hearing in the Tawas Herald a newspaper printed and circulated in said county.

HERMAN DEHNKE,
Acting Judge of Probate.
A true Copy.
Dorothy Buch,
Register of Probate.

ORDINANCE

An ordinance to regulate and control food handling establishments within the City of Tawas City, to provide for the sanitary maintenance of food handling establishments and for the inspection of said establishments, and to provide penalty for violation thereof.

The City of Tawas City Ordains:
Section 1. No person, firm or corporation shall engage in the business of food handling hereinafter defined within the City of Tawas City without a license therefor as hereinafter provided. This ordinance shall be construed as applying severally to the different classes of persons licensed hereunder.

Section 2. Any person, firm or corporation desiring to engage in food handling as hereinafter defined within the City of Tawas City, shall make application in writing for permission to do so to the City Clerk of the City of Tawas City upon blanks to be provided by said City of Tawas City. Said City Clerk shall require every such applicant to state in writing upon said blanks:

First: The applicant's full name, residence and post office address, and whether such applicant is an individual, firm or corporation and engaged in business as such.

Second: The location of applicant's place or places of business, together with the place or places where food handling is conducted, as herein-after described.

Third: The average number of persons employed in connection with said business during the year prior thereto.

Fourth: The names and addresses of the owners of the premises used by said applicant in connection with said business, and if under lease, the term of said lease.

Fifth: An agreement that said applicant notify the City Clerk of the City of Tawas City of any intended change of location as required in subdivision Second of this Section before making such change.

Sixth: An agreement that the applicant will allow the said City Clerk of the City of Tawas City or Health Officer of the City of Tawas City or of the Michigan Department of Health, or any designated representative thereof, to enter upon said premises at a reasonable time for the purposes of making inspection of said place of business relative to compliance with the terms and conditions of the ordinances of the City of Tawas City.

Seventh: Such other information as the Council of the City of Tawas City may require from time to time.

Section 3. Upon the signing of such application by the applicant, or some person duly authorized by him in writing, said City Clerk shall notify the Board of Health of the City of Tawas City or representative of the Michigan Department of Health assigned to the City of Tawas City, State of Michigan, who shall make or cause to be made an investigation to ascertain whether such applicant and the place of business, in which said applicant proposes to carry on said business is properly equipped in the manner required by ordinance, and whether said applicant is in a position to observe, and conditions of the ordinances of the City of Tawas City, and said applicant shall agree to permit such Health Officer, representative of the Michigan Department of Health of the State of Michigan, or any member or representative of the Michigan Department of Health of the State of Michigan, or any member or representative thereof to go upon the premises and to make the sanitary inspection to determine whether said place of business meets the requirements of this ordinance and if it shall appear to said officer after such investigation that said place of business meets the requirements of this ordinance, and that the applicant is in position to comply with the terms of this ordinance, he is licensed to do so by said City of Tawas City, then said officer shall endorse upon such application a favorable report and transmit the application to the Clerk of the City of Tawas City, who shall issue a license to any person complying with the provisions of this ordinance, in such form as shall be authorized by the common council. Each license issued shall be for a period not exceeding one year, and shall expire on July 1st of the year following date of issuance. Each applicant shall pay an annual license fee of \$1.00 prior to the delivery of the license to such applicant.

That if said officer shall make and file an unfavorable report, then and in such case said City Clerk shall refuse to issue license to said applicant and thereupon it shall be unlawful for said applicant to engage in any business in violation of the terms of this ordinance.

Section 4. The City Clerk shall number each license consecutively in the order of their issuance and the licensee shall at all times have said license displayed in a conspicuous place in said food handling establishment. Licenses shall not be transferable. No license shall be issued until the application therefor has been approved by said Board of Health. Any license issued may be revoked by action of the Common Council of the City of Tawas City when it is found after a report from the Board of Health that the licensee has failed to observe and conform to the terms and conditions of such license and notice of such revocation in the form prescribed by the Common Council, it shall be unlawful for such individual, firm or corporation to carry on or engage in such business without license.

Section 5. Definitions.

(a) Food handling herein designated shall mean restaurant, coffee shop, cafeteria, short order, cafe, luncheonette, hotel kitchen and dining room, tavern, sandwich shop,

soda fountain, camp kitchen and dining room, and all other public places where food and drink is prepared and served to the public.

(b) The term "employee" shall mean any person who handles food or drink during preparation or serving, or who comes in contact with any eating or drinking utensils, or who is employed at any time in a room in which food is prepared or served.

Section 6. Any person, firm or corporation violating any of the provisions of this ordinance shall on conviction thereof be liable on each and every offense to a fine of not more than \$100.00 or confinement in a county jail for a period of not more than ninety days, or both such fine and imprisonment at the discretion of the court.

Section 7. Should any section, paragraph, sentence, clause or phrase of this ordinance be declared unconstitutional or invalid for any reason, the remainder of said ordinance shall not be affected thereby.

Section 8. The Health Officer of the City of Tawas City is hereby empowered to enforce the provisions of this act and to prescribe and enforce such rules and regulations necessary to carry out the intent of this ordinance, as adopted.

Section 9. The Council deems it necessary for public health and safety that this ordinance be given effect beginning July 1, 1944.

Passed and approved this 5th day of June, 1944.

We do hereby certify that the within and foregoing ordinance No. 113 was adopted and passed by a majority vote of all the aldermen elect of the City of Tawas City, at a regular meeting of the Common Council of the City of Tawas City, County of Iosco, State of Michigan, convened and held at the City Hall in the said city on the 5th day of June, 1944.

John D. LeClair, Mayor.
Albert H. Buch, City Clerk.

ELECTION NOTICE

To the Qualified Electors of the City of Tawas City, County of Iosco, Michigan:

Notice is hereby given, that a General Primary Election will be held on

TUESDAY, JULY 11, 1944

at the Tawas City Hall, for the purpose of placing in Nomination by all Political Parties participating therein, Candidates for the following offices, viz:

Governor, Lieutenant Governor, Representative in Congress, State Senator, Representative in the State Legislature, Probate Judge, Prosecuting Attorney, Sheriff, County Clerk, County Treasurer, Register of Deeds, Circuit Court Commissioner, Drain Commissioner, Coroner, Surveyor, Road Commissioner.

Delegates to County Conventions

There shall be elected as many delegates to the County Convention of the several political parties as said ward, precinct or district is entitled to under the call of the county committees of said political parties, which number will be indicated by the number of blank lines printed on the official primary ballots used at said election, under the heading "Delegates to County Conventions." The Board of Primary Election Inspectors shall certify to the County Clerk the names of the electors so elected as delegates, naming the political party upon whose ballots such electors were elected. The County Clerk shall notify by mail each person elected as such delegate.

The name of the candidate for delegate to the county convention shall not be printed upon the official primary election ballot, but one or more such names may be placed on such ballot by printed or written slips pasted thereon by the voter, or the names may be written in by the voter.

Section 1. On the day of any election the polls shall be opened at 7 o'clock in the forenoon and shall be continued open until 8 o'clock in the

afternoon and no longer. Each qualified elector present and in line at the polls at the hour prescribed for the closing thereof shall be allowed to vote.

Albert H. Buch, City Clerk.

YOUR INVASION!

FROM General Bradley, leading the Invasion ground forces, right through every rank, American men now face a brutal, desperate, able enemy. For this invasion has only begun—before our fighters lies a hard and bloody task, one that demands all *their* courage, backed by *all your faith* in their ultimate victory.

That faith will be tested many times in this invasion—in grim struggles, set-backs, possibly even temporary defeats. It will be up to you to remember that early victories

usually only mean more savage opposition from a foe made more bitter, more ruthless as the shadow of his doom grows larger—up to you to keep that faith in days and nights of gloom as well as in hours of triumph.

There is little that you can do to show that you realize what *they* must face, perhaps for many months. But one thing you *can* do—back the attack with every dollar you can spare! Let the Bonds you buy in this greatest of Drives be the measure of your belief in their ultimate victory!

BUY YOUR INVASION BONDS TODAY!

Washington, D. C.

CREDIT WHERE DUE

Across the Potomac, in the sprawling Pentagon building, Gen. George C. Marshall, U. S. chief of staff, gives all credit for U. S. invasion success to the boys over there, their officers and to General Eisenhower. However, those who have watched lean, graying General Marshall close-up during the tense months of the war, know how he too has worked, planned, dreamed almost every detail of the invasion.

Three years ago, before we entered the war but when everyone knew it was a certainty that we would, this columnist asked General Marshall what chance there was of a British cross-channel invasion.

"Do you realize what it takes to land an army in France?" he replied. "It takes not merely ships and men—and naval vessels to protect those ships. It also means docks, warehouses, railroad terminals, and freight cars by the thousand. But especially it means docks—some place to land. In the last war, we didn't have to worry about any of these things. The French supplied them. But in this war"—he shook his head ruefully—"it is different."

As he talked, Marshall thought back to 1917-18, when he was only 26 and a captain. At that time, he performed a modern miracle of maneuvering—second only to that of the present second front. He worked out for Pershing the plan whereby one million men were transferred from the St. Mihiel to the Meuse-Argonne front.

Nineteen railroads, 34 hospitals, 40,000 tons of ammunition, 93,000 horses, 164 miles of railway, 87 supply depots and 4,000 cannon all were moved up just beyond the German lines—and the enemy didn't even know it.

COOPERATION WITH EISENHOWER

A general in modern warfare does not ride into battle waving a sword. He sits behind a desk. And this time General Marshall, instead of being close to the battle-front, has done his planning from behind.

And unlike the situation in the last war, Marshall and his European commander cooperate beautifully. They are close friends. In the last war, General Pershing was in bitter conflict with Gen. Tasker Bliss, the U. S. chief of staff; later with Gen. Peyton March, who succeeded Bliss.

Today, Marshall and Eisenhower are considered Pershing's boys. He is strong for both of them. And every Sunday before the war got too tense, General Marshall went out to Walter Reed hospital to chat with his former chief. Pershing still believes he can win wars, and gives Marshall his opinion on various strategic problems. After each interview, Marshall rises and salutes.

"Thank you, General," he says.

"Thank you, General," is the reply.

NOTE—General Marshall is one of the few chiefs of staff we have had who did not go to West Point. Due to the fact that his father was about the only Democrat in Uniontown, Pa., during the McKinley administration, he could get no West Point appointment, went to Virginia Military institute instead.

THEY DIDN'T KNOW EITHER

War department officials are laughing behind their hands at the fact that military intelligence, supposed to know all about everything going on behind enemies' lines and inside our own lines, chose D-day to move their offices. In the Pentagon building, where military intelligence, or G-2, is housed, moving day was called "G-2's D-day." They "invaded" their new offices.

But never could they have chosen a worse day to move than the Allied D-day. Other war department officers kept calling up G-2, asking for information.

"Sorry," said the operator, "but the telephones are all torn out. G-2 is moving."

Furniture was being moved down corridors, files of secret information were being shunted from one place to another. Everything was confusion on the one day which meant most to the war.

Apparently, military intelligence, supposed to know everything, didn't know when the big day was to cross the English channel was scheduled.

REASON FOR CRACKDOWN

Now it can be revealed why President Roosevelt was so tough in his crackdown on the Irish regarding the removal of Axis diplomats.

It long had been planned, though a strict secret, to land on the Cherbourg peninsula. To reach it, many U. S. troops had to steam through the Irish sea.

Naturally, the President wanted no scrap of information regarding the early passage of landing barges through the Irish sea to leak out in any manner, shape or form.

This was because the bulk of 11 c

Speaking Sports

By Bob McShane

Released by Western Newspaper Union.

RED Rolfe, former Yankee third baseman and now coach at Yale, has done a bit of postwar planning which should appeal to every person interested in baseball. Rolfe suggests that colleges start planning for a national baseball championship after the war—a collegiate "World Series." He admits there is nothing new in the idea, but at least it comes at an opportune time. Most college leaders—both academic and athletic—are envisioning enlarged athletic programs following the war. And baseball is the most natural game of all to a majority of the nation's youngsters.

It is natural that high schools should take a keen interest in the sport. Schools in the smaller towns

ROBERT "RED" ROLFE

usually have a good supply of talent for this type of competition. The cost is not prohibitive, and the support given many small town high school teams verges on the phenomenal.

Legion Program

The American Legion, despite wartime restrictions and difficulties, is continuing its junior baseball program—one of the finest sports undertakings in history. Most state high school championships are being held as usual.

There is one obvious reason why little attention is paid to college baseball in most instances. The reason is financial. Seldom can it support itself, much less show a profit. The Big Ten has kept the game fairly healthy, but has done little to make it a real drawing card.

Baseball is looked upon as a minor sport in the college world. But it isn't natural that so popular a game should be so neglected. With so many people interested in the game, why relegate it to the same position occupied by swimming, fencing, etc. Not that there is anything the matter with those sports, but they never have captured the public imagination. Baseball has.

Rolfe suggests a sectional elimination series with the Pacific coast champions playing the Big Six or Missouri valley winners; the Southwest against the Southeast and the Midwest against the East.

"The play-offs and championship series could be completed within ten days after the college terms end in June," Rolfe says. That would necessitate some schools keeping their players on deck for a week or two, but precedent wouldn't be broken. The N. C. A. A. track and field championships do the same thing.

Possible Aid

It is also Rolfe's suggestion that the major leagues would help conduct the tournament. It is only natural they would have an interest in the meet, since they are always interested in looking over the good college players. However, it is unlikely that the schools concerned would accept any outside help.

But it is more than possible to secure an agreement under which the major leagues—or the minors—would not deal with a student until his class has graduated. For more than 20 years the National Football league has done this. Every once in a while a slight irritation is caused when a player quits school to join the ranks, but those instances are few enough so that they shouldn't be allowed to throttle any workable plan.

Most baseball coaches affiliated with colleges will approve of Rolfe's plan. At least it is something concrete. It could bring college baseball back to its former glory.

SPORTS SHORTS

☐ The St. Louis Browns of the old Union association, opened the 1884 season with 20 straight wins.

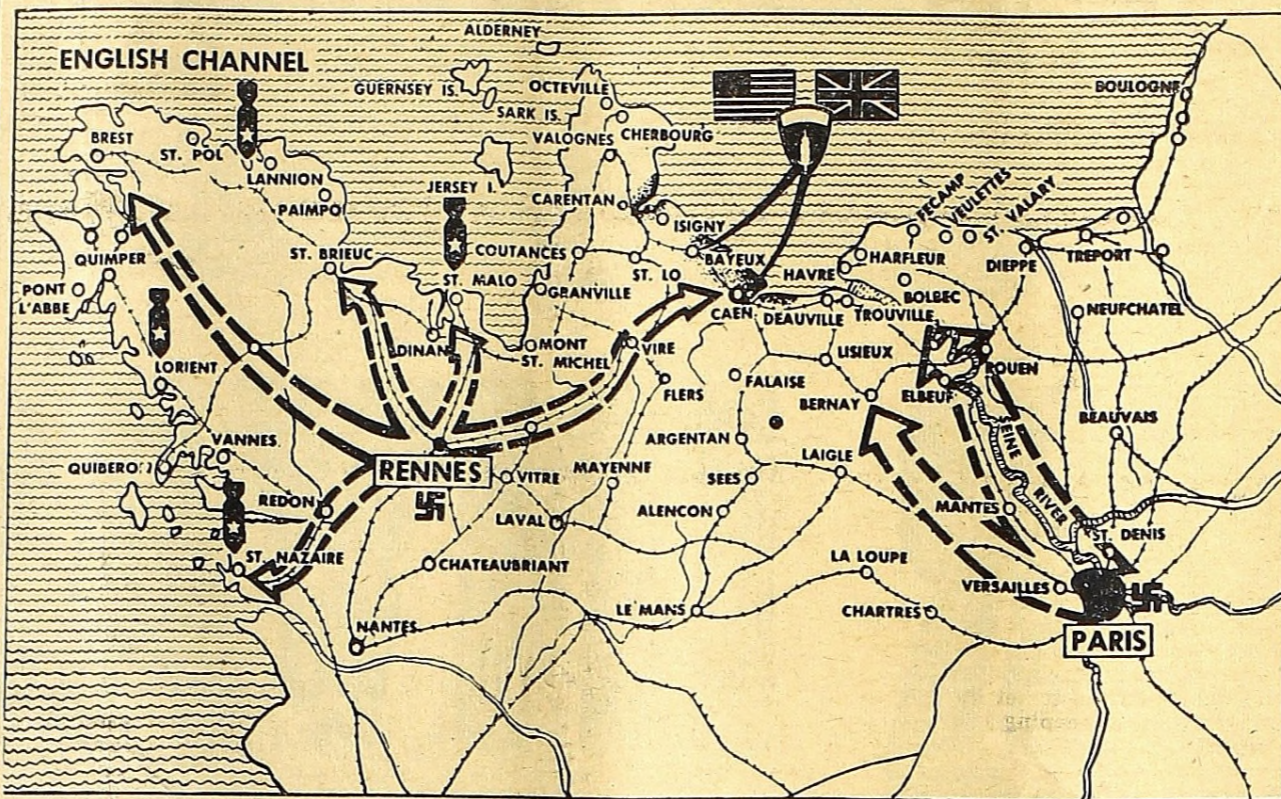

☐ United States ski troops use plywood skis.

☐ Lou Gehrig never received more than one-half as much as Babe Ruth's salary of \$80,000.

☐ Nylon fishing lines are part of the emergency fishing kits used by the United States armed forces.

☐ Waite Hoyt, former Yank pitcher, again is doing radio broadcasts in Cincinnati.

Where Counter-Attacks Spawn as Allies Advance

As the Allied invasion moves inland to become the battle of Normandy the beachheads grow in depth as new thousands are landed on well-cleaned coast. Constant threat of violent counterattack by the enemy becomes closer and louder. Shown here are two counterattack hubs of the Nazis. In the west the Allied thrust from landing zones has resulted in the capture of Bayeux and a drive to the south toward Caen.

Allied Army and Navy Chiefs Confer in France

American army and navy chiefs pay their first visit to France since the invasion. L. to R.: Gen. Henry H. Arnold, Admiral Ernest J. King, Gen. D. D. Eisenhower and Gen. George C. Marshall. Left, insert: Gen. Eisenhower, supreme Allied commander (left) and Gen. Sir Bernard L. Montgomery, commander of Allied forces, enroute to the beachhead area in France where all armed leaders surveyed the campaign.

Allied Wounded Return

Wounded in the invasion of France, British soldiers are shown lined up, tier on tier along the walls of an LST hospital ship. These were among the first wounded to be returned following the initial landings on the coast of France. Censor has blacked out faces.

Jap Prisoners Taken

When U. S. forces landed at Humboldt bay during the Hollandia, Dutch New Guinea, operations these eight Japanese were captured. The second and third men from the left are officers and both have tried to hide their faces from the photographer. The group is being taken by truck to a plane.

De Gaulle in France

Gen. Charles de Gaulle is shown as he landed in France on a Normandy beachhead before he proceeded inland on tour of inspection of allied occupied territory. It was nearly four years since he last set foot on French soil.

Nazis Leave Markers

The Germans retreated so fast in many sections of France that not only did they leave a vast store of equipment, but the markers showing mines were left intact. The Allied troops found some of them dud.

Farm Topics

Illinois Man Speeds Up His Haymaking

Tractor-Drawn 'Sled' Used to Pick Up Bales

A clever method of saving labor in haying has been worked out by I. E. Houser Jr., near Farmer City in DeWitt county, Ill. On his 560-acre farm Mr. Houser has a herd of 60 Hereford cows and he has fed out as many as 175 feeder cattle and 1,000 western lambs in one year. To provide enough hay for this livestock, he fills two barns, each holding about 80 tons in bales.

Mr. Houser hires a pickup baler. The bales are dropped in the field as they come from the baler. To pick up the bales and haul them to the barn Mr. Houser built a sled which is pulled by a tractor. The sled is 20 feet long and 4 feet wide, and made from two logs and old lumber; it carries 33 bales, when loaded three bales high.

In picking up bales two men work on the sled with hooks; the tractor does not stop but moves continuously at about 2½ miles per hour. When they come alongside a bale one of the men on the sled hooks it and pulls one end onto the sled. The forward motion pushes the bale onto the sled, where both men pile it in position. The Houser's find it much easier to load this way than if the sled is stopped. They wait until the baler has made two rounds and pull the sled between two rows of bales, driving back and forth to load from either side. With the method used the three regular men on the farm can put up the hay as fast as it is baled and Mr. Houser feels that the additional charge made if a loading device were pulled directly behind the baler would not be justified.

At the center of one barn there is an elevator running up over the roof like an outside corn elevator. It consists of a wooden chute a little wider than a bale and a single chain, from a corn elevator, with four steel cleats. Power for running this continuous chain is provided by an electric motor. The end of the elevator is close to the ground so that when the bales are pulled up to it on the sled they can be tipped onto the chain without lifting. Instead of the chain Mr. Houser originally used an old threshing belt with wooden cleats.

Make those mower repairs now, before haying starts.

Larger Hybrid Acreage To Swell Corn Output

Increased plantings to hybrid varieties accounted for a large percentage of the 2,721,000-acre rise in the farm area devoted to corn in 10 Midwestern states this spring, according to a statement made public by the Middle West Soil Improvement committee, based on an analysis of U. S. department of agriculture figures.

"This increasing trend to hybrids will swell the Corn Belt's 1944 output," the statement points out. "While hybrids outyield open-pollinated varieties by 20 to 25 bushels per acre, they likewise make a bigger draft on the soil's plant food resources. Thus they create the need for better crop management methods, including the use of fertilizers not only to help produce bigger yields, but to replace to some extent at least, the soil wealth removed by the crop."

More Citrus Fruit

Total citrus fruit production for 1943-44 is expected to be about 6 per cent above 1942-43 and about 52 per cent above the average annual production in 1935-39, the U. S. department of agriculture reports. The larger orange crop is credited with the expected increase.

Walter Winchell

Behind-the-Scenes Staff: Newspapermen's shop-talk includes the alleged reasons for the unpopularity of De Gaulle in certain high political places. One statesman said: "He is arrogant, hard to get along with, stuffy." . . . Another revealed that De Gaulle "likes to make an entrance" (especially in swanky hotel dining rooms; when a trumpeter too-tootles his approach with some ta-da, dee-da, dah, dee, da, dahing). This got on the nerves of Allied bigshots. It is said Mr. Willkie will certify to the last item. . . . De Gaulle is called "the bride" when Roosevelt discusses him with Churchill via trans-Atlantic phone. . . . Once FDR asked the Prime Minister: "How's the bride?" . . . "All right," Mr. C. is said to have answered, "but I am having trouble with the groom!" . . . Meaning Giraud. . . . Americans and others should not forget De Gaulle was the first to yell: "We Will Fight!"

The Squelch Proper: Radie Harris relays the one about the feud between Jane Cowl and Philip Merivale when they appeared in "The Road to Rome" hit. Their quarrel finally aroused director Lester Lonergan, who succinctly said: "I just want to remind you, Miss Cowl, that the billing on this play is Jane Cowl and Philip Merivale, not Jane Cowl vs. Philip Merivale."

Oop: Recently a Nazi prisoner of war escaped from the stockade at Camp Crowder. He learned the location of the camp's supply warehouse and got there without being detected. He broke in, shed his PW uniform, put on an American uniform that draped him perfectly. But then he made the boner resulting in his capture.

Hunting through a stack of hats he put one on that fit him. Then he stepped out across the camp grounds and was seized almost at once.

He had on the hat of a WAC.

Ouch: It happened before Supreme Court Justice Aaron J. Levy. The man before him said: "I would like to change my name. It's been a source of great embarrassment to me."

"What is your name?" asked Hizzoner.

"Levy," said the fellow.

"Rarely in the life of any jurist," was the caustic retort, "comes there a motion which he can grant with such pleasure."

Shawt-shawt: Returned bomber pilots have a favorite story not new to some of us on the papers. It deals with the U. S. bomber crew flying over Switzerland, which was hailed via radio by the ground crew of a Swiss anti-aircraft battery. "This is neutral territory. Get away or we'll open fire."

"Yes, we know," replied the Yanks, to which the guns ack-acked.

"Hey," radioed the Americans, "your shells are exploding 1,000 yards below us."

"Yes," was the reply, "we know."

Newspaperman Stuff: Editor and Publisher reports that Lowell Mellett (who recently quit his post as ass't to the President to do a syndicated column) has just been granted a \$5 raise by the St. Louis Post-Dispatch—a raise he requested 40 years ago.

At that time, Mellett asked his managing editor for the pay-hike and when turned down he quit. The P-D was among the first to buy his column. It pays him the wage he got when a reporter.

As a matter of principle, Mellett asked the present editor to pay \$5 extra. He got this reply: "Okay. Sorry you had to wait so long for it."

Merciless Truth: John Erskine recalls a college dean who used to say you couldn't teach a man mathematics if there was a girl in the room, or if you could, he wouldn't be worth teaching.

Heheh: The editor of This Week conversed the column with the one about the sentry who heard a noise and called out: "Who goes there?" A voice from the darkness answered: "Lieut. Jones. Let me through."

"I can't let you proceed, sir, without the password," said the sentry.

"Oh, for goodness sakes," said the officer, "you know me well enough. Let me through."

"No can do," was the retort, "gotta have the password, sir."

Just then a bored-with-it-all soldier in the nearby guardhouse yelled: "Oh, don't stand there arguing all night—shoot him."

Quotation Marksmanship: Ted Robinson: A pessimist feels bad when he feels good for fear he'll feel worse when he feels better. . . . Dorothy F. Grant: How many times are we guilty of Hatriotism? . . . Mary Innis: The frozen milk bottles wore crooked white top-hats. . . . M. Cousins: The lonely night sounds of the prairie clawed at the windows. . . . Irving Hoffman: "Gentleman": What women call any man they don't know well. . . . J. Drinkwater: Poets make everlasting monuments of moments.

GRASSROOTS

WRIGHT A. PATTERSON

Released by Western Newspaper Union.

REORGANIZING AMERICA FOR 'FREE ENTERPRISE'
THE VAST MAJORITY of the American people wish to continue to operate under the system of free enterprise. Those who would change to some form of state socialism, with regimentation and regulation of the peoples' activities to continue after the end of the war, represent but a small minority.

For America to achieve a maximum result from free enterprise there is need for a remodeling of our hodge-podge of regulatory laws. We need a practical system of taxation; a practical and workable relationship between labor, capital and management, and a workable system of distribution for use at home and to cover our place in the world of trade.

Basic, simple, primary laws built upon the Constitution as a foundation are possible for all of these requirements. Providing such a structure is not a job for partisans, for theorists, for hobby riders or for those seeking a selfish advantage for any minority group. The construction of all such basic laws should be considered as one job because of the inter-relationship each one would bear to each other.

To provide for such needed fundamentals is a job for congress. By joint resolution there should be appointed a chairman of a board. That chairman should be empowered to name such associates, within a reasonable number, as he may deem qualified, subject to the approval of either the senate or of both houses. Such a procedure would take the preparation out of the realm of partisanship.

The men capable of doing such a job are not numerous. They must have a background of achievement; have something more practical than theories. They should, and would, undertake such a job with no thought of advantage to any one group or class, but of a fair and just result for all, for labor, capital, management, agriculture, merchant and consumer.

A chairman for such a board might be selected from such men as Bernard Baruch, Herbert Hoover, Eric Johnson and others of their type. Men who have demonstrated their ability by achievement. Men whose minds are broad enough to encompass practical needs and maximum results for the American people.

With the Constitution as a foundation we must build a new, more equitable, structure of basic law if we are to secure maximum benefits from the operation of our free enterprise system. The patchwork under which we have operated is outmoded. There is nothing basic about it. Any attempts to patch it up with more amendments will only cause additional confusion to throw the gears of our production and distribution machinery entirely out of mesh. Partisan politics, or bureaucratic theories, can have no place in the doing of such a job as is needed.

AIRCRAFT DEMAND AFTER THE WAR

THE WAR has undoubtedly increased the air-mindedness of the American people to an extent that will mean increased air transportation facilities when the war is over. That increase, should it double, treble or quadruple the demand for commercial planes, cannot possibly be great enough to provide continued operation of all, or even any major portion, of our airplane plants. When we entered the war all the aviation lines in the nation were flying less than 400 planes. To meet the war demand our airplane plants have turned out over 9,000 planes in one month. That would be enough to provide any possibly anticipated commercial demand for a year after the war.

GOP FARM PLANK BEFORE THE REPUBLICANS

BEFORE THE REPUBLICANS complete their platform it is to be hoped they will consult Wheeler McMillen on the agricultural plank. He can give them a practical program for the encouragement of production that will assist materially in making us independent of other sections of the world for many things we now import. It will give the farmers increased income and cost the government but a fraction of the price paid for AAA and soil conservation. It is a program of production instead of scarcity. The farmer would prefer to earn his money rather than have it given to him.

HISTORY will not speak kindly of those public characters who put personal or party success ahead of national good.

CAN WE SO SYNCHRONIZE the battle of bullets and the battle of ballots as not to impede the war effort or delay the defeat of Hitler?

COMPLACENCY. THE acceptance of things as they are, with no thought or desire for improvement, is a disease for which there is no remedy.

Let's Face Facts

Intelligent Defense
Required to Maintain
Parity Price Standard
By **BARROW LYONS**
WNU Staff Correspondent

WASHINGTON, D. C.—

Anyone who thinks that we can have perpetual prosperity without cooperative planning for it, more than we have in the past, is dreaming. I come back to the proposal I made last week: we must adopt a concept of parity income, which includes all segments of our economic life, and find a way to balance the distribution of national income so that all can prosper, if we wish to prosper ourselves. This is not the Golden Rule, but a hard-headed, practical concept of our modern economy.

Let us test this against the concept of parity prices which has become a symbol of justice to the farmer. Parity prices are attained when a given amount of farm produce—say a bushel of corn—will bring to the farmer enough money to buy the same things that a bushel of corn would enable him to buy in the five-year period 1909-1914. Parity price does not guarantee a good crop or a good demand for the crop. It merely guarantees the purchasing power of the farmer's dollar.

When the war ends and millions of war workers lose their jobs making planes, tanks, guns and ships—and millions of servicemen begin to seek new jobs—mass purchasing power will depend upon how much employment there is. In all probability not only will industrial workers have less to spend when war savings are exhausted, but many who live in small towns and suburbs will begin to raise chickens, fruit and vegetables for themselves.

At the very best, it will be difficult to maintain as large a market for agricultural products as we now have, unless important new uses for them are developed, and world trade is expanded greatly. It will also be difficult to maintain parity prices, for there are no commodities so sensitive to a declining purchasing power.

Even in the immediate future, it looks as though farming would be somewhat less profitable, for prices of nearly everything the farmer buys are rising. And if price controls are weakened, most of the things the farmer buys will cost a lot more.

There is a feeling abroad that with permanent prosperity just around the corner, all production quotas on farm products should be left off after the war—man's nature to produce should not be inhibited by artificial restraints. But if all quotas were abolished and the government were to make commodity loans to protect parity prices on everything the farmer wished to raise, he would very quickly raise a good deal more than he could sell in this country.

Two-Price System?

The farm organizations say a two-price system will solve that problem. Keep prices at home up to parity, find new uses for farm products, and sell what is left abroad at whatever we can get for it. But here the doctors differ. Some would have the government take the loss, when produce is exported at a loss. The Grange suggests that the farmer take the loss on products sold abroad at less than cost. That would be the check against raising too much. Such a scheme might be worth trying in one or two exportable commodities.

However, even this device might not bring about sufficient control of production to maintain parity, for many farmers have a tendency to plant more acres to increase income, as soon as price declines—and thereby cut their own throats by creating an unmarketable surplus. The many small and poorly financed farmers, who are hard to control, also create a market problem for the better financed farmers as soon as prices begin to drop.

In relation to commodities like wheat, which in the 1930s developed unmanageable world surpluses, international production control may be necessary, although extremely difficult to bring about.

Of course, the best way to preserve a profitable market for farm products is to preserve the purchasing power of the great masses of people who are not farmers. Farmers should never forget that they are a declining proportion of the population. Only 30 years ago farmers constituted more than one-third of the population. Today they are scarcely more than one-fifth.

As efficiency of agriculture increases, the proportion of farmers to the total population will continue to decline. Elimination of several million sub-marginal farms may accelerate this.

When we can agree upon a fair distribution of national income, and set up economic controls that will bring about an approximately just distribution, then for the first time we shall begin fully to enjoy the advantages which modern science and engineering make possible for all people. Until then we shall have wars and political upheavals.

Star Dust

STAGE-SCREEN-RADIO
By **VIRGINIA VALE**
Released by Western Newspaper Union.

THE glamorous ladies of Hollywood, perhaps learning from the example of old-time stars like Corinne Griffith and Ruth Roland, look upon real estate as a sound investment. Paulette Goddard revealed on the set of "I Love a Soldier" that she owns four houses, which she rents—she bought them for her mother to rent and manage. Lovely Georgia Carrol, between singing with Kay Kyser's band and appearing with it in such films as Columbia's "Battleship Blues," has refinanced and sold ten houses during the past year. But before she married Kyser she lived in a rented apartment with Marguerite Chapman—she preferred to let the landlord worry about keeping her home in order!

Gracie Fields, who's been part of Hollywood for several years, is still puzzled by the Hollywoodites. The way they hire other people to do for them things that are fun to do yourself, like driving your own car, or arranging parties. "It's a place where girls like meself from the

GRACIE FIELDS

workin' classes get into the movies and suddenly decide they came over in the Mayflower," says she. The famous English comedienne, now replacing Edgar Bergen and Charlie McCarthy on the air, firmly established herself in movies in "Holy Matrimony."

Remember the famous sleeping bag which Gary Cooper and Ingrid Bergman shared in "For Whom the Bell Tolls"? Well, Fred MacMurray tucks himself into it for several scenes in Paramount's "Practically Yours"—with a small Cairn terrier named Piggy.

Apparently success in radio means more than success on the Broadway stage, at least to Kenny Baker. He gave up his leading role in a smash hit, "One Touch of Venus," to take over the Groucho Marx program on CBS for the summer, and after the summer series is over Baker plans to remain with the show, both as a singer and as co-comedian with Marx.

Georgia Burke was all set to leave the cast of "When a Girl Marries" and go to Hollywood for the filming of the stage production, "Decision," in which she also appears. Preparations were made to write her out of the radio script, bid her farewell and speed her on her way—when it was announced that the play would be filmed in New York, after all. It's for United Artists release.

Pity poor Ann Thomas, who plays "Casey" in NBC's "Abie's Irish Rose." She's cutting her sixth wisdom tooth. "Most other people settle for four," she complains, "But I always have to be different." With all her stage and radio engagements, maybe she needs two extra ones!

Replicas of "Duffy's Tavern" are popping up all over the various fighting fronts. The first was a palm-tatched hut on a South Seas island. Now they're everywhere, and Ed "Archie" Gardner is sending autographed pictures to adorn their walls.

Remember when Ralph Edwards asked a "Truth or Consequences" audience to send pennies to Mrs. Dennis Mullane, and she was practically snuffed under by 300,000 of them? Recently Edwards received a letter and a snapshot from the Mullane sons, Dennis Jr. and Joseph, both marines, who were reunited on a small island in the South Pacific. They said they were "famous" even there because of those pennies.

ODDS AND ENDS—"Double or Nothing" gets a stream-lined format, with everything new but the quizmaster, John Reed King. . . . The "Supertan" cast's favorite pre-broadcast game is making a lot of words out of one—they got 32 out of "eupysichic" recently. . . . "Fibber McGee and Molly," originally scheduled to take a vacation after the June 20th broadcast, postponed it; their replacement is "Theater of War." . . . And Sinatra returns August 16th. . . . Get your wind shield sticker saying "No Black Market Gas for Me" by writing to Michael West, of the CBS "Bright Horizons." . . . C. Aubrey Smith was knighted recently.

PATTERNS SEWING CIRCLE

Barbara Bell Pattern No. 1979 is designed for sizes 12, 14, 16, 18, 20; 40 and 42. Size 14 requires 4 1/4 yards of 39-inch material.

Due to an unusually large demand and current war conditions, slightly more time is required in filling orders for a few of the most popular pattern numbers.

Household Hints

It pays to buy two pairs of stockings of the same color at the same time. Be sure to ask for your proper length, depending upon the length of your leg and your girdle.

When you want to remove food particles from sifters, graters, and so on without damage to metal, use a wood skewer.

Try cutting down and making smaller the embroidered end of a worn-out pillow case to fit baby's carriage or crib pillow. This saves a lot of needlework and fabric besides.

Sprinkle graham cracker, vanilla wafer, or ginger snap crumbs on top of puddings before cooling to prevent a tough skin from forming.

MAGICIANS—Perform breakfast magic with cereal combination—Post's Raisin Bran. Golden wheat and bran flakes plus seedless raisins. It's new!—Adv.

Man's Disease

One of the few disease germs that have never been found growing outside of the human body is the bacterium of leprosy, and all attempts to develop it in a wide variety of animals have failed to give conclusive results.

Get TRIIPLE BRACED TRACTION BARS AT No Extra Cost

and YOU WILL GET EXTRA TRACTION, BETTER CLEANING and LONGER LIFE, TOO!

EVERY FARMER KNOWS an unbraced corner fence post leans with the pull of the wire, weakening the entire fence.

Unbraced tread bars on tractor tires, likewise bend and weaken under heavy loads. They slip, lose traction, lose time and wear rapidly.

Traction bars on Firestone Ground Grip tires are triple-braced and have up to 215 inches of extra bar length per tractor. That gives them extra strength, extra pulling power and extra long life. And triple-braced traction bars clean better, too.

If you want tires that pull better longer buy Ground Grips—the tires made by Firestone, the pioneer and pacemaker in the farm tire field.

Listen to the Voice of Firestone with Richard Crooks and the Firestone Symphony Orchestra, under the direction of Howard Barlow, Monday evenings, over N. B. C.

Copyright, 1944, The Firestone Tire & Rubber Co.

Firestone GROUND GRIP TIRES

Mr. Extra Traction represents the Extra Bar Length that gives Superior Pulling Power to Firestone GROUND GRIP TRACTOR TIRES

FIRESTONE PUT THE FARM ON RUBBER

Movie Trick

In the film, "The Pride of the Yankees," right-handed Gary Cooper, who played the part of left-handed Lou Gehrig, was made to appear a southpaw in close-ups by reversing the initials of his club on his uniform, photographing him at third base instead of at first, and then reversing the negatives.

Wray Cox, photo mate 1st class,
 arrived Saturday morning for a
 months visit with his father, Cecil
 Cox. Wray has been stationed in the
 Aleutian Islands for the past 19
 months.

Warren Wickert was in Detroit the
 first of the week where he enlisted
 in the army. He will leave August 7
 for service.

Word has been received by the
 parents of Pfc. Stanley Shellenbar-
 ger that he has been in the hospital
 for a month with malaria fever. This
 is his fifth attack. He is stationed
 somewhere in Italy.

T-5 Percy B. Ellsworth, who has
 been in the army for 21 months, just
 arrived from Texas to spend a ten
 day furlough with his parents, Mr.
 and Mrs. Leslie Ellsworth at Hale.
 He was accompanied by his wife
 (Marion Miller) and baby son, Percy
 David, who have been with him most
 of the time. He will return alone.
 Before entering the service, he made
 his home in the Tawas. His ad-
 dress is 13th A. D., APO 263, Ser-
 vice Co., 45th Tank Bn., Camp Bowie,
 Brownwood, Texas.

Neith Pollard of Ann Arbor re-
 cently spent several days with East
 Tawas friends and relatives.

Pfc. Kenneth E. Rapp, son of Mrs.
 Hattie G. Rapp of Tawas City, was
 graduated this week from AAF
 Training Command Aerial Gunnery
 School at Harlingen Army Air Field,
 Texas. He received a pair of gunner's
 wings, as well as a promotion in
 grade.

State of Michigan
 The Probate Court for the County
 of Iosco.
 At a session of said Court, held in
 the Probate Office in the City of
 Tawas City, in said County, on the
 19th day of May, 1944.

Present: Hon. H. Read Smith,
 Judge of Probate.
 In the matter of the Estate of
 Paul E. Koepke, Sr., deceased.
 It appearing to the Court that the
 time for presentation of the claims
 against said estate should be limited
 and that a time and place be ap-
 pointed to receive, examine and ad-
 just all claims and demands against
 said deceased by and before said
 court.

It is Ordered, That all creditors
 of said deceased are required to pre-
 sent their claims to said Court at
 said Probate Office on or before the
 7th day of August, 1944, at ten
 o'clock in the forenoon, said
 time and place being hereby appoint-
 ed for the examination and adjust-
 ment of all claims and demands
 against said deceased.

It is Further Ordered, That public
 notice thereof be given by publica-
 tion of a copy of this order, once in
 each week for three weeks consecu-
 tively, previous to said day of hear-
 ing, in the Tawas Herald, a news-
 paper printed and circulated in said
 county.

H. READ SMITH,
 Judge of Probate.

State of Michigan
 The Probate Court for the County
 of Iosco.
 At a session of said Court, held at
 the Probate Office in the City of
 Tawas City in said County, on the
 9th day of May, A. D. 1944.
 Present: Hon. H. Read Smith,
 Judge of Probate.

In the Matter of the Estate of
 Charles William Binigar, Deceased.
 It appearing to the Court that the
 time for presentation of the claims
 against said estate should be limited
 and that a time and place be appoint-
 ed to receive, examine and adjust
 all claims and demands against said
 deceased by and before said Court.

It is Ordered, That creditors of
 said deceased are required to pre-
 sent their claims to said Court at
 said Probate Office on or before the
 17th day of July, 1944, at 10:00
 o'clock in the forenoon, said time
 and place being hereby appointed
 for the examination and adjustment
 of all claims against said deceased.

It is Further Ordered, That public
 notice thereof be given by publica-
 tion of a copy of this order, once in
 each week for three successive weeks,
 consecutively, previous to said day
 of hearing, in The Tawas Herald, a
 newspaper printed and circulated in
 said county.
