TAWAS CITY, MICHIGAN, FRIDAY, SEPTEMBER 1, 1944

NUMBER 35

TAWAS CITY

SCHOOLS OF COUNTY TO OPEN NEXT WEEK

A. E. GIDDINGS HEADS TAWAS CITY SCHOOLS

Urges All Students to Return to School Work

The local school bell will ring again Tuesday morning. Custodian Anschuetz has been busy these several weeks in the building and so all is "spick and span" again. The bus will again pick up pupils at the American Legion billet and will pass out into the country to transfer the rural students. (The East Tawas and Tawas City Boards of Education have secured permission from the ODT to allow the two schools to arrange their routes on a combined basis, the same as was done last year. This will permit the rural students to be transported to the school of their choice.)

The local school officials desire to unite with the Michigan Superintendent of Public Instruction, Eugene B. Elliot, and Russel A. Rollin, Iosco County Commissioner of Schools, to urge all high school students to return to their respective schools. It is generally recognized by all government officials that high school students will be of the most help to the government by continuing their high school course.

The faculty consists of the following:

- A. E. Giddings, Superintendent.
 - Ernest Potts, Principal and Band.
 - Mrs. Louise Ruckle, Latin.
 - Miss. Dorothy Bonsecours, Home Economics.
 - Mrs. Helen Brunning, Commercial.
 - Otto Rahl, Shop.
 - Mrs. Lottie Goldsmith, Seventh-Eighth Grades.
 - Miss. Mable Myles, Fifth-Sixth Grades.
 - Miss Edna Worden, Third-Fourth Grades.
 - Mrs. Emma Sloan, First-Second Grades.
 - Mrs. Ernest Potts, Kindergarten.
- The faculty list was published in the Herald a few weeks ago, but there has been one resignation since. Miss. Ruth Benedict, who has been the home economics instructor the past three years, has accepted a position in the Lansing Schools. Miss Dorothy Bonsecours of Indian River, Michigan, has been secured to fill the vacancy. Miss Bonsecours holds the degree of Bachelor of Science from the Michigan State College, majoring in home economics and having a minor in physical science. She received her degree in 1941 and has taught since in Michigan schools. She holds a Smith Hughes certificate from the Michigan State College.

Allen-Sims

Mrs. Lucy Allen of the Hemlock Road and Roy Sims of Wilber were quietly married at one o'clock Monday at the home of the bride and her mother, Mrs. Jessie Currey. The ceremony was performed by Rev. Paul Dean with only the immediate family attending.

The bride wore a black and cream dress and her flowers were yellow roses. The attendants were Mr. and Mrs. Clarence Earl. Mrs. Earl was dressed in blue and she also had a corsage of yellow roses.

A wedding dinner following the ceremony was served to the guests. The couple left on a short trip to the western part of the state.

Rev. Dean Elected Moderator and Mrs. Wm. Leslie, clerk

Rev. Paul Dean of this city was elected moderator of the Alpena Association of Baptist Churches, and Mrs. William Leslie, clerk, at the 58th Annual Meeting held here Tuesday and Wednesday of this week.

About 200 delegates and visitors were in attendance at the various sessions of this very enjoyable and successful two-day meeting.

Card of Thanks

We wish to thank our neighbors and friends for the kindness extended us since my accident.
Mr. and Mrs. Lester Biggs.

FOR SALE—Dressed hens and broilers at my farm. Mrs. Sam Bradford, Hemlock road.

Iosco County School Superintendents

- Tawas City High School—A. E. Giddings.
- East Tawas High School—C. J. Creaser.
- Oscoda High School—G. A. Jaquays.
- Hale High School—Rex Milligan.
- Whittemore High School—F. B. Pederson.
- Alabaster High School—Miss Clara B. Bolen.

Rural Teachers

- Anschuetz School—Mrs. Hattie Evril, Tawas City.
- Vine School—Miss Frances Klish, Tawas City.
- Upper Townline School—Mrs. Mabel Bigelow, Tawas City.
- Watts School—Mrs. Nina May, East Tawas.
- Greenwood School—Mrs. Elsie Roeske, Tawas City.
- Taft School—Mrs. Vernetta Steadman, Whittemore.
- Cottage School—Mrs. Ella Popp, Whittemore.
- National City School—Mrs. Ida Dorsey, Whittemore.
- Jordan School—Mrs. Clara Chatel, East Tawas.
- Schneider School—Mrs. Helen C. Smith, Turner.
- Turtle School—Mrs. Muriel Horton, Tawas City.
- McIvor School—Mrs. Elaine Hellner, East Tawas.

Parochial Teachers

- Emanuel Lutheran School—Raymond Behmer.
- St. Joseph School—The Dominican Sisters.

Tawas City Methodist Church Redecorated

Walter Nelson, with a crew of men which includes William Hatton and Clarence Hines, have nearly completed painting the exterior of the Tawas City Methodist church. With the new roof, the building presents a very fine appearance.

Other improvements to the building include a new entrance and new cement and brick steps. This work is being done by Contractor Samuel Trask. The interior of the church will also be redecorated.

Part of the money used in making these improvements was raised by popular subscription from residents and former residents of this city. A considerable sum will be needed to complete the work. If you wish to aid in the project, send your donation to Judge H. Read Smith or Fred Marsh.

Bowlers Attention

A bowling meeting will be held Tuesday, September 5, at the Iosco Hotel, at 8:00 p. m. All team captains wishing to enter, please attend. E. MOELWER.

EAST TAWAS SCHOOLS OPEN WEDNESDAY

To Co-Operate with Tawas City in Bus Route

The East Tawas Public Schools open the school year of 1944-45 for the students next Wednesday. The day previous, Tuesday, will be used for an all day teachers' meeting.

The following staff of teachers has been contracted, and will have charge of the school program:

- C. J. Creaser, Superintendent.
 - Harry D. Emerich, Principal and Coach.
 - H. E. Jorgensen, Commercial.
 - Mrs. Mary E. Keith, English and History.
 - Hazen Coon, Spelling and Mathematics.
 - Howard Braden, Science.
 - Frank Humberger, Band.
 - Mrs. Lucy Sims, Junior High School.
 - Mrs. Frances Bigelow, 5th and 6th grades.
 - Mrs. Frances Mielock, 4th and 5th grades.
 - Miss Emma Whipple, 3rd and 4th grades.
 - Miss Helen Applin, 2nd and 3rd grades.
 - Mrs. Betty Cross, Kindergarten.
- Busses will operate through the rural area on practically the same plan as last year. At that time East Tawas and Tawas ran a cooperative bus route through Tawas and Grant townships. The Wilber Baldwin bus will continue.

East Tawas High School will have the privilege of extending its services this year to the (Alabaster) High School students. The strong staff that has been maintained there will permit the students to fit in well in their new school home. They will be brought to East Tawas in the Whitney school bus.

The word has gone out from the Government over the radio and in the newspapers that it appreciates the help that has been given by the young people in industry and business, but that in September the place for the young patriotic citizen is in the school.

Card of Thanks

Expressing our appreciation for the many kindnesses extended to us in the loss of our wife and mother. Also to Rev. Dean for his comforting words.

Nelson Miller.
Mr. and Mrs. Lester Biggs and family.

LOST—Gas can with 6 keys. Near Cholger's Gulf Oil Station. Finder please leave at Herald office.

IN the SERVICE

Singled out as the outstanding man in the deck division of his LSM (Landing Ship, Medium) crew James W. Brown was recently presented with a gift for personal use by Capt. Charles F. Macklin, Jr. U. S. Navy, Commanding officer of the Amphibious Training Base at Little Creek, Virginia.

James, whose mother, Mrs. Nellie Brown resides in Tawas City, has completed his training at Little Creek and will soon depart with his crew to take over a new LSM at one of the nation's busy shipyards. After a period of fitting out and a shakedown cruise, James and his mates will be ready to join a flotilla of the new amphibious craft.

The award which he received, a leather billfold, pair of polaroid sunglasses and a certificate of merit, was presented by Captain Macklin at a review of all the Little Creek personnel. The certificate cited the following qualities which the Tawas City blujacket has exhibited during his training period: Military bearing and neatness of person and uniform, industry, cooperation, loyalty, leadership, initiative and proficiency rating.

Pvt. Ferguson C. Polycut, former music teacher in Tawas City schools, was wounded in action on August 4 in France. August 6 he was evacuated to England to the hospital by airplane. He was injured in an anti-personnel mine in 5 different places, back, left thigh, under knee, right arm and right foot.

Sgt. Erwin G. Shover, wounded in the African campaign and in the invasion of France, is in Ward 24B, Chire General Hospital, Cleveland, where he is recovering from his wounds. He says he is having trouble getting used to lights at night.

Technical Sergeant Charles F. Sabin of Hale, an engineer-gunner on a Liberator bomber, has been awarded the First Oak Leaf Cluster to the Air Medal, it was announced by the 15th Army Air Force Headquarters.

In the words of the citation, he received the decoration "for meritorious achievement in aerial flight while participating in sustained operational activities against the enemy."

Sergeant Sabin enlisted in the Air Forces December 11, 1941. Since coming overseas he has flown on repeated assaults against strategic Nazi targets in southern Europe. The sergeant is a member of a group (Turn to No. 1, Back Page)

Emanuel Church Plans Peace Day Services

Tentative plans have been made by Emanuel Lutheran church for Peace Day Services. If peace is declared before 6:00 a. m., services will be held at 10:00 a. m. If after 6:00 a. m. and before 6:00 p. m., services will be conducted at 7:30 p. m.

MARSHALL MAN SENTENCED BY JUDGE DEHNKE

Dwight Taylor Placed on Four Years Probation Order

Dwight Taylor of Marshall was placed on four years probation yesterday (Thursday) by Judge Herman Dehnke. Taylor paid a \$1,600.00 cash allowance to the widow of Earl Keck, and was required to pay court costs amounting to \$400.00.

Taylor had received a verdict of guilty on a manslaughter charge at the June term of circuit court as a result of a hunting accident last November in which Earl Keck of Alabaster was killed.

Jack Frayer of Mikado was placed on to years probation as a result of drunken driving charge, second offense. Sixty days of the period is to be spent in the county jail. If he can secure employment, he is to be released during working hours. Twenty-five per cent of his pay or up to \$1.00 per day to be given to his mother, the remainder to be paid county as court costs.

Mrs. Nelson Miller

Mrs. Nelson C. Miller, well known Grant township pioneer, died Sunday morning at Samaritan Hospital, Bay City, where she had been taken four days previous. Mrs. Miller had been in ill health for the past year. All that loving hands and care could do was of no avail.

She was born in Alpena, June 15, 1874, and was married to Nelson C. Miller on December 25, 1895. She came to Iosco county when about seven years old with her parents, Mr. and Mrs. Herman Bown, and spent her entire life here.

Survivors are the husband, Nelson C. Miller, one daughter, Mrs. Lester Biggs, three granddaughters, Mrs. Wilma Freer of Jackson, Mrs. Ida May Peters of Saginaw, Alta at home and one grandson, S. Sgt. Lyle Biggs of Mississippi. She also leaves three brothers, Paul and Charles Brown of Grant township and William Brown of Tawas City, and a sister, Mrs. W. E. Smith of Grant township, besides many other relatives and a host of friends.

Funeral services were held from the Hemlock Road Baptist church, Tuesday afternoon. Rev. Paul Dean officiated. Interment was in the Tawas City cemetery.

Those from out of town here were: Mr. and Mrs. Ray Peters and Mrs. John Melheis of Saginaw, Mrs. Wilma Freer of Jackson, S. Sgt. Lyle Biggs of Mississippi, Alice and Grace Emburger, Mr. and Mrs. Harvey McIvor and son, Ronnie, of Detroit, Mrs. Raoul Hermann and two daughters of Pontiac, Mr. and Mrs. Henry Biggs and daughter of Saginaw, Mr. and Mrs. Howard Auterson of Rose City, Mr. and Mrs. Harry Flynn and Henry Durant of Flint.

The many friends and neighbors extend their deepest sympathy to the bereaved family.

Samuel H. Hutchinson

Samuel H. Hutchinson, pioneer Reno township farmer, passed away at his home after a long illness. Mr. Hutchinson was 84 years of age. Born at Shelbourne, Ontario, he came to Reno township 60 years ago a young man. He was man of sterling character, a good neighbor and a kind father.

In 1887 he was united in marriage to Elizabeth Charters of Reno township who died in 1897. Later he was married to Elizabeth Ferns. To the first marriage two children were born, Mrs. Elsie Clark of Marion, Ohio, and Alvah Hutchinson of Saginaw. These two children, with one son, Hamilton Hutchinson, of Reno township, survive him. He is also survived by his step-daughter, Mrs. Arthur Latzer, of Curtisville; eight grandchildren; a brother in Detroit; a sister in Canada, and a host of other relatives and friends.

Funeral services were held Tuesday afternoon from the Reno Baptist church. Rev. Mercer of Lyons and Rev. Switzer of Hale officiated. Interment was in the Reno cemetery.

FOR SALE—Four room modern house and garage. Two acres on U. S. 23 Highway just outside of Tawas City limits. Good spot for cabins. Price \$3,500.00. Hiram Pierce, Box 134, Tawas City.

FOR SALE—7-Room house and lot in National City. Good garden. Garage, small barn and chicken coop. Good well water in house, electric lights. Within one mile of trout stream. \$3,000.00, down payment \$1,500.00. Arthur F. Coxan, Broker, Phone 586 W, East Tawas.

RABBITS FOR SALE—Will sell from 1 to 100. Also sell the hutches. Julius Steinhurst, Tawas

EAST TAWAS

Mrs. Herbert Lovejoy and cousin, James Wanke of Saginaw spent Thursday with the formers parents, Mr. and Mrs. Edw. Seifert.

Miss Marion Clark has returned from Gladwin, where she recently visited her grandparents, Mr. and Mrs. C. M. Thornton.

Mr. and Mrs. Arthur Lickfeldt of River Rouge spent the past week at the State Park and also visited the latter's aunt, Mrs. Glenn Hughes.

About 30 attended the Mary Martha pot luck dinner at the Methodist Church Tuesday. The following officers will serve for the ensuing year—Mrs. Edys Jones, president; Mrs. G. N. Shattuck, vice president; Mrs. Nina May, secretary; Mrs. T. White, treasurer; Miss Ruby Evans, chairman of the Sick Committee. It is planned to have a pot luck dinner every two weeks, the next one being Sept. 13.

Mr. and Mrs. Robert Webb and daughter of River Rouge have been guests of Mrs. Glenn Hughes and family the latter part of the week.

F. L. C. and Mrs. Herbert Petersen of the Tawas U.S.C.G. are the parents of a son, born August 24th at the Nelem Maternity home. He has been named David Lee.

Ben McComb of Sheridan has been a guest of his aunt and uncle, Mr. and Mrs. E. John Moffatt and family during the past week.

Mrs. Fred Richards and daughter, Miss Grace left Thursday to return to Chicago, following a two weeks visit at their home here.

Mrs. Paul Cotter and children of Mt. Pleasant are visiting her parents, Mr. and Mrs. C. C. Harwood.

Mr. and Mrs. H. O. Hess of Elsta, Texas arrived Thursday to be guests in the home of their son, Dr. H. R. Hess and family until Labor Day. Other guests in the Hess home included Mr. and Mrs. Cornelius Schrens of Grand Rapids.

Mrs. Milton Barkman and family are spending the week in Detroit.

The opening meeting of the P.N.G. Club will be held Sept. 7 at the home of Mrs. Jos. Misener. Pot luck dinner will be served at 1 o'clock. It is hoped that all members will plan to attend this meeting.

Miss Donna Mae Pelton returned Wednesday from South Bend, Ind. where she had spent the past week with her sister, Mr. Leah Reaves.

Pfc. and Mrs. Arthur DeLage of Alabaster are the parents of 9 1/2 pound daughter born August 20th at the Nelem Maternity Home. She has been named Anna June.

Mr. and Mrs. Datus Moore and son of Detroit have spent the past week among East Tawas friends.

Jack Carlson has spent the past week at Lake Geneva, Wis., where he attended a Youths Fellowship Meeting.

Miss Regina Barkman is visiting in Detroit this week.

Mrs. Marjorie Rybarck has returned from Norfolk, Va., where she spent the past five weeks with her husband.

Mr. and Mrs. L. J. Petosky of Ortonville were Sunday guests in the Ralph Wilson home. Nathan Barkman spent several days in Bay City this week. (Turn to No. 2, Back Page)

Memorial Painting Dedicated Friday at East Tawas Church

A Memorial Painting was dedicated this evening (Friday) at the East Tawas Methodist church to the memory of the nine young people who lost their lives last summer in Tawas Bay while attending a youth fellowship conference in that city. The dedication was made at a meeting of the Saginaw District Youth Fellowship.

The dedication addresses were given by Miss Wilma Peterson and William Webb, former president and president elect of the Saginaw District, and Rev. William Lovejoy, district dean, of Standish. Miss Jane Coulter sang "There is a Green Hill over Ayr" accompanied by Mrs. Wilder of Saginaw. Prayer was offered by Dr. Frank M. Field, district superintendent, with Scripture reading by Jack Carlson, local N. Y. E. president.

The painting is a reproduction of the famous painting, "Christ Walking Upon the Water," the Scriptural reference which is found in Matt. 14:25-33. The artist who did the work is Mrs. Marve Eickney of Oscoda. (The picture will be the permanent possession of the East Tawas Methodist church and will hang over the altar.)

The names inscribed on the picture are: Harry Bastone, Wayne Cross, Shirley Dwyer, Ida Menthorn, Shirley Peterson, Nels Peterson, Jr., Robert Pounnett, Bertha L. Smith, Ruth L. Smith.

Schools Open

NOTICE
I will collect summer taxes, Friday and Saturday afternoons at my home.
Margaret Lansky,
City Treasurer.

HELP WANTED—Men and women Merschel Cleaners.

MR. WINKLE GOES TO WAR

By THEODORE PRATT

W. N. U. RELEASE

THE STORY THUS FAR: Forty-four-year-old Wilbert Winkle, who operates a general repair shop back of his home, is notified by his draft board that he is in I-A. He breaks the bad news to his domineering wife, Amy, and tramps off to work without kissing her goodbye. Neighbors call the next night after seeing his picture on the front page of the Evening Standard, and commiserate with him. The night before leaving, Mrs. Winkle tells Wilbert she is worried that he may take up with other women but he tells her she has nothing to worry about. Mr. Winkle takes the lead in the draft parade and on arriving in camp is given his "physical." He is ashamed of his skinny physique.

CHAPTER VI

At the desk of the Chief Medical Examiner, he was informed, casually, that he had been accepted for General Military Service.

It was a little difficult to realize it. He was dazed. He felt that his dyspepsia had been insulted. He still suffered from chronic indigestion no matter how lightly it was regarded.

All except three of the Springville contingent were accepted. Freddie and Jack were among the successful ones—or unsuccessful—whichever way you looked at it, a matter depending on how far your patriotism went.

After retrieving their clothes and tiding their nakedness, they were marched outside. Lined up in the open, they took the oath of enlist-

Mr. Winkle saw what his future bedroom was like.

ment. Mr. Winkle felt very solemn about swearing to bear true faith and allegiance to his country.

In the clothing depot they were turned over to a little Sergeant no larger than Mr. Winkle. He had a wizened face and a great many service stripes on his sleeve. In a dry good-humored voice he instructed them to change into something more appropriate to their surroundings and new standing.

Sergeant Czeideskrowski took them, with more new soldiers from other contingents, to a receiving barracks in the Reception Center. Here they would stay for several days, and here Mr. Winkle saw what his future bedroom was like.

He was appalled. Not that the quarters weren't good. Indeed, they were better than those any other Army in the world could boast.

Even in his somewhat depressed state Mr. Winkle ate more than he usually did at home, which he knew would not please Amy. He didn't mention anything about this when the Alphabet, in motherlike fashion, saw to it that they filled out post-cards to their families announcing the good news of their being in the Army.

Finally, for that day, came instruction in bed making. After an hour of experimenting, during which most of them believed he could make his bed perfectly in the dark, Sergeant Czeideskrowski observed that none of them would pass inspection, but their efforts would do for them to sleep that night.

Lying in the darkness, with some of the men talking back and forth in whispers, Mr. Winkle felt unnatural. He was no longer Wilbert Winkle, captain of his own soul or body. He belonged to an immense, fearsome, mysterious organization called the Army whose purpose was to fight other men to the death.

Mr. Winkle fell in line with the other men on the company street. It was barely light. It was cold. All about were the dim outlines of buildings. A vast rustle of men and their movements and voices spread in all directions, ghostly and weird.

Shivering, Mr. Winkle wondered if this could be only a bad dream. Surely he would soon awaken in his own warm bed with Amy beside him, telling him it was time to get up after a good night's rest instead of the fifteen minutes' nap he felt he had.

Instead, he heard Sergeant Czeideskrowski calling his name in the roll.

"H-here," Mr. Winkle quavered. "Tindall!"

"I guess I'm here," Freddie answered. "I'm not sure."

"Answer 'here' only," the Alphabet ordered. "We'll try again. Tindall!"

"Here," Freddie replied. In a low mutter he added, "What's left of me."

The Alphabet strode over to stand in front of Freddie. He took out a little black notebook from his pocket, wrote in it, and said:

"Private Tindall, because it's you, and you ain't had the Articles of War read to you yet, especially Article Sixty-five providing punishment for insubordination to a noncommissioned officer—which is me—we'll just set a record for the camp. You're getting K P duty on your second day. You will become famous for this."

Mr. Winkle was almost glad to see how wrong Freddie was in his attitude, and how painful this was going to make it for him. Then he felt guilty at having such an unworthy sentiment.

"Pettigrew!"

Teeth chattered. Between clicks, Jack called that he was present.

Mr. Winkle had a sense of floating through the rest of that day. He remained in a daze from the shock of entering the Army. He supposed it was the same with the other men, but he didn't notice them very much.

At the dispensary Mr. Winkle was inoculated for so many things that he couldn't keep track of them all. The faintness induced by being pricked on one arm was counteracted by being pricked on the other arm immediately afterward. He enjoyed only one of the examinations. That was the Mechanical Aptitude Test. He was happy to wade right through this, answering nearly every question with ease and certainty, while others scratched their heads.

In the afternoon, when they were given individual interviews, he hoped to learn what might be done with him. The interviewer drew him out about the work he had done in civil life. He showed a mild interest in Mr. Winkle's history as an accountant, but mostly he asked Mr. Winkle to talk about himself as a repairer of anything and the fact that he had his own shop.

"I think we'll have a place for you," he said, quite as if Mr. Winkle only now had been accepted for the position, and hired.

The late afternoon was given to them to do as they pleased—within the confines of their barracks. That is, all except Freddie. An emissary of Sergeant Czeideskrowski, in the form of a Corporal, arrived to instruct Freddie to get into his fatigues and follow him. "We're going bubble dancing," the Corporal said.

Freddie, snorting and grumbling, decided to agree.

Jack was with two of the younger men, boys like himself. Solemnly they thumbed through their copies of The Soldier's Handbook, reading the instructions about what was, for most of them of their age, their first job.

Mr. Winkle looked about for companionship of his own. A few men looked as if they might be old enough for him, but he couldn't be sure. One of them passed by his cot, and Mr. Winkle, catching his glance, and for lack of anything else to say on the spur of the moment observed: "Well, here we are."

"Hah?" the man asked, staring blankly.

Mr. Winkle didn't pursue it, and the man passed on.

He realized just what an outsider he was going to be. He wrote a letter to Amy. He informed her that his bag would arrive home by express collect; it contained his rubbers, which she had better give to the scrap rubber drive. He instructed her to tell the Pettigrews that Jack was getting along fine—right now he was having a roughhouse with another boy. He assured Amy that he was all right. He just felt a little funny in his new life.

Sitting there alone on his cot, Mr. Winkle reflected that he felt more than a little funny.

There was an additional thing connected with what was going on, which he couldn't exactly analyze or express. It was connected in some way with the broad, general structure of the state of human affairs. It went beyond the possibility that man was a warring animal in spite of all his civilized refinements. Neither was it to be found in the concurrent theory that at certain intervals man needed to make war in order to pull himself down to his natural level, which he had made the mistake of exceeding.

Perhaps, thought Mr. Winkle, what he felt was contained in the fact that man had a will to die as well as a will to live, and that the present war was merely a grand expression of this. The world was bent on a mass suicide-pact, whose impulses would be spent only when millions had done away with themselves by the oblique methods employed.

Yet not even in that did he discover an explanation of the thing he felt. It was to be found in something much more simple than any such objective ideas, which were perhaps a little crazy, anyway, or at least too dangerous to entertain.

But he was sure there was something to express the situation in which he found himself, and that he would ultimately run across it. He decided to be on the lookout for it.

Private Tindall came in shortly after five, looking hot and not cutting a very attractive figure in his soiled dungarees. His thin line of mustache did not seem to fit this garment at all. Several of the men wanted to know what he had had to do.

Freddie glared at them disgustedly. "I washed floors," he snarled, "Me!"

Jack led the laugh that followed.

Freddie strode over to him and without a word, drew back his fist and hit him.

Jack sat down on a cot, not hurt but angry.

Mr. Winkle had time to think that it was a good thing he had finished his letter mentioning Jack before the boy rose, again to battle Freddie.

From the doorway the voice of Alphabet was heard: "For fighting you'd be surprised what there is, Private Tindall. But this time we'll make it just the garbage detail for tomorrow."

After the Alphabet had written in his notebook and gone away, Freddie promised, "I'm going to kill him. From A to Z."

"If I don't get you first," Jack muttered.

"You," Freddie demanded, "and what other part of the Army? You and Pop, maybe?"

Mr. Winkle reflected that this was not the right outlook at all. It was hardly the true spirit of the reason they were here.

Mr. Winkle did not find a friend of his own age until he was shipped on a train to his Replacement Training Center. Camp Squibb was a thousand miles away from home. Mr. Winkle understood that this great distance was for the purpose of getting him away from family ties.

He was no happier at this than was Freddie Tindall when it was learned that Sergeant Czeideskrowski was to accompany and stay with them. It seemed that the Alphabet had been champing at the bit for having been put in what he referred to as the "desk job" of receiving draftees. He wanted active duty, and now he looked at it as a step toward this when he was assigned to new training troops.

Camp Squibb was a great deal like their first camp, except that it was much larger, stretching for miles across the flat bare land. It was the general belief that no one knew how large it was, nor where it began and ended. It had simply

"For fighting you'd be surprised what there is, Private Tindall . . ."

continued to be built until there were no boundaries at all. Men, it was said, had become lost in it and not yet found. Another rumor had it that in case of invasion the enemy was to be lured to Camp Squibb where, once caught in this trap, it would never find its way out.

On the first afternoon in their new barracks, Mr. Winkle discovered Mr. Tinker. He was among those making up the platoon quartered on the ground floor. Mr. Winkle eyed the thickest man with a scowl on his broad face sitting on the next cot, and saw that here was a man of his own age.

They eyed each other. Mr. Winkle smiled briefly, and was given a frown. That wasn't encouraging. Nevertheless, Mr. Winkle spoke, introducing himself. He gave his age, glanced around, and observed, "I guess we're sort of two of a kind here."

"Yeah," the other man said in a deep voice.

Mr. Winkle offered the information that he was a married man. His look inquired if the same situation held true with his acquaintance.

"Naw," the man said.

There the matter rested for a moment, until the man suddenly announced his own name, which was Tinker, and his age, forty-two. He said he was a plumber.

Mr. Winkle asked him how he felt about being in the Army.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL Lesson

By HAROLD L. LUNDQUIST, D. D. Of The Moody Bible Institute of Chicago. Released by Western Newspaper Union.

Lesson for September 3

SAUL REJECTED

LESSON TEXT—I Samuel 15:10-23. GOLDEN TEXT—"Because thou hast rejected the word of the Lord, he hath also rejected thee from being king.—I Samuel 15:23.

Moral failure is a direct result of disobedience to God's law. He established the moral order in the universe. His is the only right way, and the man who does not walk in God's way is wrong no matter how successful he may seem to be at the moment.

After a brief period of success, Saul sinned by intruding into the priests office at Gilgal (I Sam. 13:10-14). This was soon followed by his disobedience in the battle with Amalek (I Sam. 15:1-9). This brought final judgment from the Lord, and Saul stood revealed as

I. A Self-Willed Backslider (vv. 10, 11).

"Turned back from following" God means just one thing, that is, turned back to self-will. These two principles, which are mutually exclusive, rule all actions of man—it is either God's will, or self-will.

Saul, who had every opportunity to make good as Israel's first king, lost out completely, and so turned away from God that God had to turn away from him, which is the thought expressed by "repenteth" (v. 11).

II. A Lying Hypocrite (vv. 12, 13).

Knowing that he had done just the opposite, Saul puts on his best "Sunday-go-to-church" manner and professed to be very pious, and completely obedient (v. 13). One marvels at his temerity, but not so much so when one thinks of those in the church who put on the same kind of a "front" to cover a worldly, self-centered life.

Nothing hurts the cause of Christ more than the nervy hypocrites who deny by their lives before the community the thing for which the church stands. By the way, are you a hypocrite, you who read these lines? If so, flee to God in repentance. You are in bad company.

III. A Proved Deceiver (vv. 14, 15).

The difficulty with falsehood is that ultimately the truth comes to light. With Saul it came quickly, for the sheep which he said were dead were alive enough to beat at just the right time. The deceit of Saul thus was proved in the very instant of his false declaration of innocence.

"Be sure your sin will find you out" (Num. 32:23) is not just a religious truth, it is God's word. "He that covereth his sins shall not prosper; but whoso confesseth and forsaketh them shall have mercy" (Prov. 28:13).

IV. A Proud Disobeyer (vv. 16-19).

Now Saul had to stand before Samuel and hear the words of God's condemnation. He had to face his own life and see there the ground of the judgment of the Lord. He was reminded of the day of his humble dependence on the Lord, which had brought him exaltation to the highest place in Israel.

To be small in one's own eyes is to be great in the eyes of the Lord. He is looking for the acceptable sacrifice of a humble heart (Ps. 51:17; Isa. 57:15).

The tumult and the shouting dies; The captains and the kings depart; Still stands Thine ancient sacrifice, An humble and a contrite heart; Lord God of Hosts, be with us yet, Lest we forget, lest we forget! —KIPLING.

V. An Argumentative Evader (vv. 20, 21).

Once set in the way of disobedience, there seems to be no limit to the bold stubbornness of man. Instead of breaking down in contrition and confession, Saul tried to face the matter down by further argument and tricky evasion.

"I have obeyed," said he, "but the people." Who was king? Did the people obey Saul, or Saul the people? There is nothing honest about laying your sins over on another. How often people do it!

Notice also that Saul became very religious again. If anything had been done that seemed wrong, it was with a good purpose; they were going to "sacrifice to Jehovah."

"The sacrifices and ceremonies of religion are to aid and promote obedience, not to be a substitute. Disobedience can never be made a virtue, even though attended by a thousand sacrifices" (Stanley).

VI. A Rebellious Reject (vv. 22, 23).

"To obey is better than sacrifice." Oh, that we might learn well that lesson which God through Samuel tried to teach to Saul. We need to recognize that giving to the church, or working for the church, is not enough if there is not obedience to God; and with us that obedience must be the recognition of Christ as saviour and Lord.

Lip service, half obedience, a willingness to make sacrifices were not acceptable in the case of Saul. Be sure they are infinitely less acceptable to God in this day when we have His Son who wants to be our Saviour and to give us the enabling grace to obey His will.

Home Sewers Turning Attention To Smart Apparel for Autumn

By CHERIE NICHOLAS

TO BE able to sew and to design pretty clothes for yourself is a real asset in one's life. Enthusiasm for "making your own" is spreading among women everywhere these days.

It was fun and really a happy pastime to sew with dainty wash materials during midsummer. Even the amateur covered herself with glory in fashioning the easy-to-sew summery cottons and rayon weaves that seemed to be lovelier this year than ever before. Comes now, however, the time when homesewers are thinking in terms of good-looking apparel that will prove the perfect choice to bridge the gap between summer and fall and then to carry on through the late autumn days worn under a chic topcoat.

Today the first consideration in wardrobe planning from a practical point of view is how much is needed to look well dressed, and how about the "stretching" possibilities of one's wardrobe. It is the many-purpose wear of one's clothes that dominates in the general scheme of costume designs for the duration period. If you want to look fashion-right and yet keep within bounds of a strict wartime budget, you'll be wise in making a dual-personality bolero suit your immediate choice. For capricious summer-into-fall weather, a youthful, simple to make bolero-and-skirt costume is the ideal choice. With different blouses and interchangeable accessories it stands ready for any event, every day of the week.

It doesn't matter much whether you ever tackled a suit-making project before because you can get expert help in latest dressmaker tricks and sewing short-cuts at your local sewing center and many important stores throughout the country now conduct sewing classes in connection with their fabric department. Among other things you will be taught to make easy adjustments to your figure with the aid of a dress form of plastic materials molded individually to your own contours.

You'll get a lot of pleasurable wear out of a gay cardigan bolero version that contrasts skirt and jacket as shown to the right in the illustration. Fuchsia wool is used for this bolero, navy wool for the skirt.

Pink Chiffon Blouse

This stunning dinner blouse is of blush pink chiffon with black, green and rose colored paillettes worked in star motifs. Emphasis on the luxury blouse is noted throughout the fall showings. Either they are handsomely embroidered, glitter-glamoured or hand-painted, or they are made of handsome rich fabrics such as brocades, lame or satin-structured materials. Very smart are the new blouses of gleaming slipper satin.

Dickies and Vesteas Can Be Worn Formally

Halter dickies which can double for a bareback evening gown top are beautifully colorful, snapping up all the important dress and suit shades for fall. These are detailed with tiny pleatings, intricate embroidery and exquisite appliques and cutouts. Many quite formal pieces are shown in way of dickies, weskits and vesteas, such as the pink crepe halter with starfish embroidery of black sequins, or a high-necked pink metallic ribbon brocade gilet worked in narrow stripes. There are also lovely embroidered net peplum dickies shown. With a collection of these charming fantasies one can rejuvenate one's costumes on hand until they look right up to the moment in style distinction and loveliness.

Jodhpurs for Youngsters

Something new has been added to the little folks' clothes program in way of jodhpurs that are now being sold for kindergarten wear and as practical utility garments for toddlers. These diminutive jodhpurs are made with swaggar pockets and correctly pegged and taped silhouette. They are designed to replace overalls and leggings.

Gold-Color Fleece Coats

Style trends point to gold color for the popular fleece coats that are being shown for fall. Merchants regard it as the number one color and say a marked preference is being shown for this radiant autumn hue. Camel tan is still a favorite. Brown and green are the next in choice.

Scalloped Tops for Your Sash Curtains

HERE is a new idea for your kitchen curtains—or for sash curtains for any room. Crisp, sheer material such as lawn or organdie may be used and white or a plain light color will be most effective. The curtains are hung above eye level on a single rod fastened to the window sash. The four-inch-deep scalloped hem at the top shows through the sheer

material giving a very decorative effect and the rings sewn to the points of the scallops make it possible to slide the curtains back and forth on the rods.

The trick in making the scalloped hem is in being sure that the curved edges follow a sharp, clean-cut line. All the steps are shown here in the diagrams. Use a small saucer or a large cup for marking the scallops, and when you turn them right side out, pull the material out smoothly at the points with a pin.

NOTE—The graceful corner bracket that you see beside the window in the sketch, also the stenciled wooden cookie box on the counter are made with pattern No. 266. The shelf is fourteen inches wide and the box is about seven inches high. The pattern for the shelf and the quaint peasant figures and lettering on the box are actual size. All directions and color guide are included. Patterns are 15 cents each postpaid. Address:

Breathing at Seashore

Breathing is deeper and slower at the seashore than in the city because dust-free air permits relaxation of the respiratory mechanism that constantly filters and propels such particles back and out through the nose.

One study of city children showed that the average vital capacity of their lungs had increased from 82 to 113 cubic inches during a two months' vacation at the seaside.

HE HAS YOUR BATTERY

His message must get through! Lack of a "Walkie-Talkie" battery might mean death . . . not for one man but for thousands! The very dry cells that normally go into your batteries now supply the vital voltage for "Walkie-Talkies." That means limited supplies "over here," so use your available Burgess Batteries sparingly . . . handle them carefully as eggs. For Free Battery Hints—Write Dept. U-1, Burgess Battery Company, Freeport, Illinois.

JUST

Seized the Chance When the name of the plaintiff was called out in court, much to everyone's amazement, he stood up in the jury-box. "What are you doing there?" snapped the clerk. "I was called to serve on the jury," was the meek reply. "But you must have known you couldn't sit on a jury and try your own case?" "I suppose not," admitted the plaintiff ruefully. "I did think it was a bit of luck."

Said the Boss—She's a good secretary, alright, but she's clock-eyed.

Bit Exaggerated Customer—These sleeves are miles too long. Tailor—Well, how much shall I take off? Customer—Oh, I guess about a quarter of an inch.

We'll Bite, What? Jasper—I certainly like good food, and always look forward to the next meal. Joan—Why don't you think of higher things once in a while? Jasper—What's higher than food these days?

Kidneys Must Work Well

For You To Feel Well 24 hours every day, 7 days every week, never stopping, the kidneys filter waste matter from the blood. If more people were aware of how the kidneys must constantly remove surplus fluid, excess acids and other waste matter that cannot stay in the blood without injury to health, there would be better understanding of why the whole system is upset when kidneys fail to function properly. Burning, scanty or too frequent urination sometimes warns that something is wrong. You may suffer nagging backache, headaches, dizziness, rheumatic pains, getting up at night, swelling. Why not try Doan's Pills? You will be using a medicine recommended the country over. Doan's stimulates the function of the kidneys and help them to flush out poisonous waste from the blood. They contain nothing harmful. Get Doan's today. Use with confidence. At all drug stores.

DOAN'S PILLS

Baked Custard
Don't overlook the simple baked custard. It is one of the easiest of all desserts to make if you time baking carefully. Dress up a plain custard this way: When thoroughly cooled, sprinkle a generous one-half inch layer of soft brown sugar over the surface. Set under the broiler four or five inches from the flame long enough to melt the "points" of sugar. Remove from broiler. Cool, then chill. The brown sugar melts to a delightful sauce.

Jap Outcasts
When Shintoism rose in Japan its teachings prohibited the eating of the meat of animals. Groups that continued eating animal meat or handling animal hides were declared "unclean." Called Etori or butchers, the prejudice against them became widespread. Today, as always, the outcasts are permitted to do only the lowest type of work — chiefly the jobs of butchers and tanners.

The Tawas Herald
Published every Friday and entered at the Tawas City Postoffice as second class matter
P. N. THORNTON, Publisher
LOWER HEMLOCK

Dolores Snyder of Beaverton is spending two weeks with Betty Jean McArdle.
Mrs. Edith Curry, Mrs. Ronald Curry and children, Thorald and Marilyn of Savannah, Ga. spent Sunday afternoon at the Waldo Curry home.
Paul Anschuetz spent a week with his sister and family, Mr. and Mrs. Raymond Stine of Inlay City. They accompanied him home Saturday, returning to their home Sunday.
Mrs. John Rap and Stacy Simons left Monday for Detroit to meet Pvt. Gerald Rapp, who is coming home on furlough from San Diego, Calif.

Mrs. Lucy Allen and Roy Sims were united in marriage Monday afternoon at the Allen home, Rev. Paul Dean officiated at the ceremony.
Mr. and Mrs. Blythe Allen and daughter of Bay City spent a few days on the Hemlock and attended the Allen-Sims wedding.
Friends were very sorry to hear of the death of Mrs. N. Miller and sympathize with the family.
Mr. and Mrs. Harry Flynn of Flint and Henry Durant spent Monday evening at the John Katterman home.
Mrs. John Katterman spent Sunday with Mrs. Louise McArdle and Mrs. E. Ferrister at Tawas City.
Miss Evelyn Latham of Detroit spent the week end with relatives and friends.
Mrs. John McArdle invited several of her daughter, Betty and Dolores Snyder, Dolores' birthday being the 29th and Betty's the 30th of August. They received several pretty gifts and the young people spent a most enjoyable time.

Vegetables
The first harvest from good permanent gardens is usually rhubarb and asparagus, for these crops are ready to eat several weeks before any annual crops have grown enough to be ready to eat.

Mechanical Defects
Mechanical defects in some cases are the direct cause of accidents and a contributing factor in others. The safety section of the bureau of motor carriers, Interstate Commerce commission, found that 6.9 per cent of the accidents reported to it in 1942 were caused as "mechanical defects" accidents.

State of Michigan
The Probate Court for the County of Iosco.
At a session of said Court, held at the Probate Office in the City of Tawas City in said County, on the 4th day of August, 1944.
Present: Hon. H. Read Smith, Judge of Probate.
In the Matter of the Estate of Mary E. Hilderbrand, Deceased.
It appearing to the Court that the time for presentation of the claims against said estate should be limited and that a time and place be appointed to receive, examine and adjust all claims and demands against said deceased and before said court.
It is Ordered, That all creditors of said deceased are required to present their claims to said Court at said Probate Office on or before the 21st day of November, 1944 at 10:00 o'clock in the forenoon, said time and place being hereby appointed for the examination and adjustment of all claims and demands against said deceased.
It is Further Ordered, That public notice thereof be given by publication of a copy of this order, once in each week for three weeks consecutively, previous to said day of hearing in the Tawas Herald, a newspaper printed and circulated in county.
A true copy.

Mr. and Mrs. Robert Lynd of Guelph, Ontario, are visiting at the home of James Dillon.
Mr. and Mrs. James Shivas of Grand Rapids are spending a few days with relatives and friends here.
Alma Minne Krum of the Meadow road and Byron C. Phillips of Flint will be married Sunday afternoon at the Emanuel Lutheran church.
Miss Alice Gurley of East Tawas is visiting at Vassar.

Stuffed Potatoes
Another way to serve potatoes when butter is scarce is stuffed. Cut the baked potato in half the long way, carefully scoop out the inside so as not to break the shells, then mash and season the part scooped out with salt, pepper, hot milk and thin cream. Then stuff it back into the shells, brush the top with fat, and brown a few minutes in the oven. Chopped green tops of onions or chopped parsley sprinkled over the top adds a touch of spring.

Fertilize Yearly
The asparagus bed should be fertilized every year the same as the rest of the garden. It should be harrowed every spring before growth starts and should be cultivated during the growing season to control weeds, including grass. For convenience in plowing the balance of the garden, it is best to have the asparagus at one side or in a separate garden.

Widowed Women
There are twice as many widowed women as widowed men, since the death rate is higher for men, and widowed men tend to marry younger single women.

Finland Big
Contrary to popular belief, Finland is not small. In prewar Europe it was the seventh largest nation, extending some 700 miles from the Arctic ocean to the Baltic sea. It was nearly three times the size of England, and close to 30,000 square miles larger than Italy. Its population, however, was less than one-tenth that of either England or Italy.

ATHLETES FOOT GERM
How to Kill It
The germ imbeds deeply. Can't be killed unless reached. Many liniments and ointments do not penetrate sufficiently. Ask any druggist for Te-o solution. Made with 90 per cent alcohol, it PENETRATES. Reaches more germs. APPLY FULL STRENGTH for itchy, sweaty or smelly feet. Your 35c back tomorrow if not pleased. Locally at Keiser's Drug Store, Tawas City.

The Probate Court for the County of Iosco.

At a session of said Court, held at the Probate Office in the City of Tawas City in said county on the 21st day of August, 1944.

Present: Hon. H. Read Smith, Judge of Probate.

In the Matter of the Estate of Nathan Gotham, Deceased.

It appearing to the Court that the time for presentation of the claims against said estate should be limited and that a time and place be appointed to receive, examine and adjust all claims and demands against said deceased by and before said court;

It is Ordered, That all creditors of said deceased are required to present their claims to said Court at said Probate Office on or before the 6th day of November, 1944, at ten o'clock in the forenoon, said time and place being hereby appointed for the examination and adjustment of all claims and demands against said deceased.

It is Further Ordered, That public notice thereof be given by publication of a copy of this order, once in each week for three successive weeks consecutively, previous to said day of hearing, in The Tawas Herald, a newspaper printed and circulated in said County.

Bettors Paint Job

While modern enamels and paints have high hiding power, good undercoatings, especially in the case of enamels, will improve the job. Manufacturers of enamels usually also make undercoatings which are carried in stock by the dealers who sell the enamels.

Supply Family

One hundred asparagus plants set 18 inches apart in rows 4 feet apart will amply supply the average family. The Washington varieties are preferable. The plants should be set as soon as the ground is fit to work. The roots should be spread out, crowns up, in furrows 6 inches deep, but should be covered with only about 2 inches of soil. As the plants grow the furrows may be filled-in gradually until the ground is level again.

A special Council meeting is to be held on July 7th, 1944, 8:00 P. M.

Moved and supported that we adjourn. Carried.

Albert H. Buck, Clerk.

Yeast Fermentation

Other yeast fermentations, such as that of molasses to make industrial alcohol, yield by-product yeast, but the product is usually so contaminated that recovery is not worthwhile. However, some cattle feed consisting largely of corn protein with a little yeast is being recovered from the residue of corn fermented to alcohol as a wartime measure.

Rest Eyes

When engaged in close focusing, as in reading, rest the eyes occasionally by closing them, or by gazing into the distance.

Yeast Production

The 1944 production of nutritional yeast will be 11,500,000 pounds, a small item in the food supply but indicative of the new recognition of yeast's value as a supplier of protein food and of the vitamin B complex.

Food Value

Potatoes pack a lot of food value. If eaten daily they can provide as much as 25 per cent of the average person's vitamin C needs, as well as the B1 vitamin, iron and other minerals.

Rhubarb Roots

Rhubarb roots should be planted deep enough to cover the buds. The gardener can make a small harvest in the next spring after planting, and make regular cuttings for 8 to 10 weeks each spring thereafter.

Flush Season

In the flush season of production from February to June, the laying flocks of the nation actually produce about 1.4 eggs a day for every person. In the rest of the year they produce only 4 of an egg a day for each person.

WANT AD COLUMN

FOR SALE—7-Room house and lot in National City. Good garden. Garage, small barn and chicken coop. Good well water in house, electric lights. Within one mile of trout stream. \$3,000.00, down payment \$1,500.00. Arthur F. Cowan, Broker, Phone 586 W, East Tawas.

Fred C. Latter
WHITTEMORE

Washington, D. C.
JAPANESE BLOW-UP?

Don't be surprised if there is a blow-up brewing in Japan not unlike that which nearly bumped off Mr. Hitler recently. This columnist has reason to believe that things are seething inside Japan right now and that the die is cast against the Fascist military clique at the top.

It was groups of young Fascist officers who shot Tokyo's leading moderates back in the days when it was not yet definitely decided that Japan should conquer Asia. Now the moderates are able to say "I told you so," and are beginning to get the upper hand.

The Emperor probably will not be a victim of the revolutionary turmoil, for two reasons: (1) He is a moderate himself, never did go as far as the cut-throat young Fascists, was kept more or less a palace prisoner by them; (2) he is better guarded than any other man in the world. High walls, moats, trained, trusted bodyguards surround him. Not even his personal tailor is permitted to touch him.

Unrest inside Japan has not had time to be communicated to Jap troops at the front, nor is it likely to affect outside war areas much. The Jap soldier away from home can be counted on to fight to the very end, because he cannot come home unless he is victorious. The code of Bushido does not permit it.

The big thing to watch, when and if things inside Japan reach the boiling point, is the Jap fleet. Its officers will be faced with the alternative, under the code, of all committing suicide or sailing into the enemy, no matter what the odds against them, and fighting it out.

HOOVER'S CHILDREN

Bachelor J. Edgar Hoover, who has jailed more desperate criminals than any man in history, has a secret weakness which not many people know about. He likes children. On many an afternoon you will find a group of boys going through FBI headquarters, getting points on crime detection. If he is not too busy, Hoover himself will take time to say hello.

Hoover has spent much time studying children, feels that the healthy younger generation is the best insurance against crime, once even wrote a magazine article, "If I Had a Son."

Here is some of the advice he gave: "If I had a son, I'd probably be frightened. I've never feared criminals, but if I were a husband and father I might be afraid. So much would depend on me."

"If I had a son, I'd do one thing. I'd tell him the truth. I'd never let him catch me in a lie. And in return I'd insist that he tell the truth. . . . When children go astray it isn't the fault of the children but of their parents. . . . A spoiled boy grows into a spoiled man. . . . I'd try to be a pal to my boy. . . . I'd encourage him to join the Boy Scouts and boys' clubs, but before he joined I'd make it a point of getting acquainted with the leader of the troop. . . . I'd have my son go to church. What's more, I'd go with him. . . . But above everything else, I'd try to understand my son. For if I didn't I'd be a failure as a dad."

STALIN-CHURCHILL CORDIALITY

Those who have watched the diplomatic wheels go round from the close-up inside, report that Stalin and Churchill are now getting along famously.

This is important because it was not the case at Tehran, where Roosevelt and Stalin did the getting along and Churchill didn't. That was when the present Second Front in France was the topic of considerable argument and when Churchill, bidding farewell to Stalin, said: "Well, goodbye, Marshal. I'll see you in Berlin."

"Yes," replied Stalin; "I in a tank and you in a Pullman car."

Churchill's friends point out that at Tehran he was in the early stages of a very severe illness and definitely not himself.

Since then, Churchill seems to have got over any complexes regarding Stalin, and Stalin takes a like position toward Churchill. There has been complete teamwork between the two for some time.

Both British and American diplomats also pay tribute to the co-operation of the Russians in recent months on most subjects, even including Poland. The general view in diplomatic circles is that Stalin has been reasonable regarding Poland.

MERRY-GO-ROUND

While big Georgia textile operator Scott Russell advises Senator George's committee on reconversion, Eastman Kodak executive Marion B. Folsom advises Congressman Colmer's house committee on postwar planning.

Bargains to be picked up from surplus property disposer Will Clayton: \$5,000,000 of RFC-owned machine tools, to be sold at junk prices; 10,000 airplanes to be sold at not more than 65 cents on the dollar.

Milkweed Pickers Wanted: Silk Is Needed for War

This fall, school children can help directly in winning the war and saving lives by picking milkweed pods for the light buoyant floss that must go into the making of life jackets and aviators' suits.

Because the Japanese cut off the nation's kapok fiber supply from the Dutch East Indies, the armed services are asking for every pound of milkweed floss that can possibly be collected this coming September and October. By the first week of school, most teachers and pupils in the northeastern quarter of the United States will have instructions on picking, drying and shipping pods, and information on obtaining bags free of charge. The Boy Scouts, Girl Scouts, 4-H club leaders, county agricultural agents, war boards and local soil conservation service offices will also be furnished with full information. This section of the country is getting most of the attention for it is here that most milkweed grows. The heaviest known stands are found in the northwestern corner of Michigan's lower peninsula, around Petoskey. Every county, however, from Maine to Virginia and from Missouri to Minnesota, as well as many counties in other states, have some plants. It is

An air force man demonstrates the buoyancy of the "Mae West" life jacket, which is stuffed with fiber from milkweed pods. These life jackets are standard equipment in the navy and merchant marine. Fliers who range over the ocean, soldiers and marines engaged in amphibious warfare, and all other servicemen who face danger of death by drowning depend on these life jackets to keep them afloat until help comes.

up to the boys and girls of every community to harvest all milkweed pods in their neighborhood so that not a single life will be lost for lack of buoyant life jackets.

Buying of pods will be handled at Petoskey, Mich., by the Milkweed Floss division of War Hemp Industries, Inc., a private corporation. The Commodore Credit corporation of the U. S. department of agriculture assisted by the U. S. soil conservation service will direct the program. The Petoskey office will send trucks out to pick up bags of pods in other sections.

At least 800 pods must be collected to supply one pound of floss. Fifty-pound open mesh onion bags were supplied pickers during last year's harvest, each bag holding a bushel or from 600 to 800 pods and the open mesh permitting rapid drying. (The high moisture content of milkweed pods presents a serious hazard of heating and spoiling unless handled properly.)

Scout troops, schools, 4-H clubs or other organizations may be designated as the authorized buying agent and advanced money by War Hemp Industries, Inc., to pay for the pods as soon as picked and to handle them for ultimate collection by a representative of War Hemp Industries, Inc. The organization authorized would be allowed a small fee per bag for keeping the necessary records. For this drying service last year an additional 5 cents per bag was paid besides the 15 cents for picking. The same rates will probably prevail this fall.

After the pods are picked, they must be handled properly in order to make the highest quality of floss. It is very important that the bags be hung on a fence, clearing the ground by at least 12 inches, to get the full benefit of sun and wind, within 24 hours after picking. A ball-park, school or fairgrounds fence, or some other convenient and adequate location may be chosen. Someone must be on duty to check out empty bags and receive, pay for, and hang up full bags of pods every evening and Saturday during the collection season. Also, it is necessary to rehang any bags which fall

Dog Chases Street Car And Gets Round Trip

ST. PAUL, MINN.—When a small bulldog nearly ran himself bow-legged chasing a streetcar here, the motorman, Clarence W. Olson, Minneapolis, stopped the car and let the dog get aboard. Did it belong to anybody on the car, he inquired? It didn't. So the motorman let it stay on as a nonpaying passenger for the round trip and brought it back to St. Paul. There he let the dog off. All in a day's work.

With their bags full of milkweed pods, Belmont county, Ohio, children gather on the steps of their school after a day of picking. Many communities last year combined a picnic with the pod harvesting.

down, retie any that have been opened and, especially after wet weather, to shake each bag to fluff it up and help drying. Dew, rain or snow do not hurt the pods if the bags are hung up properly. After two to six weeks, the thoroughly dried bags are put indoors to await pickup.

The floss of the milkweed plant is a very elusive substance. As the plant approaches seasonal maturity the leaves drop, the stem gradually ceases to function and while the pods cling tenaciously to the stem, they lose moisture and shrivel until they split and release floss and seed.

All children are urged to watch for the purplish flowers and fat green pods of milkweed (Asclepias), making notes on locations where they are to be found and on the areas where they are most abundant. Then, in early Fall when the seed within the pods begin to turn brown, the picking can get under way immediately in those marked locations. Picking starts about the middle of September. Knowledge of the natural distribution of milkweed within the United States indicates that it is possible to obtain from one to two million pounds of floss annually.

"GAY GADGETS"

Associated Newspapers—WNU Features

By NANCY PEPPER

ARE YOU A PARTY GIRL? Well, if you're not, you'd like to be, so here are some suggestions for making your next rat-race so cataclysmic that all the other kids will start giving parties. As we've said before (monotonous morons, aren't we?), you have to give parties if you want to go to them.

Soda Fountain Fiesta—You know how much fun it is to sit around the soda fountain after school and pass the chatter around. This same informality will make your next party a headline hit if you make it a "Soda Fountain Fiesta." Send your invitations out, written on wooden ice-cream spoons—just for a atmosphere. Make a soda fountain out of your long dining room table or out of several book-cases placed end to end with the shelf side facing in. Cover with a white cloth. Have all the makings for sodas, sundaes and yes, even banana splits. Have prices pasted up on the wall behind the bar (if you have a mirror behind you, it's much more realistic). If you're patriotic you'll make everything cost a 10-cent war stamp. As hostess wear a white soda-jerk coat and take your guests' orders. They'll eat it up—and you can take that literally.

Make Like a Statue—Member that

game of "Statues" you played when you were younger? The person who was "it," turned his back and counted 10 and when he wheeled around quickly you had to freeze like a statue or you were "out." Try the same thing on the dance floor—only make it harder and more hilarious by announcing what the statues must represent, just before each unexpected music pause. For instance, announce, "Sinatra and a swooner" for one statue or "A lover's quarrel" for another. Couples freezing into the best statues get points and at the end of the Statue Dance the couple that has the most points gets the prize.

FOR FRIENDSHIP'S SAKE Everybody's wearing friendship rings. The main idea is to have each ring inscribed with the initials of the person who gave it to you. Here's how some of the gals (and boys) are wearing their rings these days.

String Them Along—Popular girls receive so many friendship rings that they haven't enough fingers to go 'round. So-o-o they string their rings on a chain or black velvet ribbon and wear them around their necks as a necklace.

Chain Gang—Boys wear their friendship rings on their watch chains.

Fair Exchange—Some boys buy two matching friendship rings—one to give to their favorite flutterbump, one to wear themselves.

Minute Make-Ups

By GABRIELLE

Your face gets into the Eternal Triangle, too! Have you a narrow forehead? A wide jaw and a narrow face? That's it! Combat it cleverly by brushing your hair up from the sides and expose the forehead. This gives length to the face. Soft hair-line over the ear, but smooth at the jawline. Little rouge but that little well blended. Accent on the mouth. Eyebrows groomed to their natural line.

The Rambling Rhymster

By LES PLETTNER

Yesterday

Although full many years have flown,
It seems like yesterday,
As retrospective glance is thrown,
On living sad and gay.
The days way back in district school,
The days upon the farm.
For moment now they memory rule,
In recollection warm.
The father—mother—and the home,
The old familiar place.
The evenings in the dusky gloam,
Time never can erase.
The days when preparations o'er,
You stepped into the world,
To face the battle's din and roar,
With banner bright unfurled.
The failures and the triumphs strong,
Which you met on the way.
The sadness and the joyous song—
It seems like yesterday.
The thought of romance fresh and sweet,
That came along your path—
Of her you were destined to meet,
No finer memory hath.
They all come crowding back again,
As old lights 'round them play—
So bright it seems that they have been
Brought out of yesterday.

Bats Employ 'Radar' To Dodge Obstacles When Flying in Dark

The flying bat at night employs "natural radar" to avoid colliding with trees and other obstacles. The little animal sends out cries, too shrill to be heard by the human ear, that help it to locate things in its path. Dr. Robert Galambos of the University of Rochester medical school recounted his experiments in a General Electric science forum address at Schenectady, New York.

"Bats move around almost exclusively in complete darkness"—in search of food—"except for moon and starlight," Dr. Galambos said. That means they would collide with trees, bushes and fenceposts, unless they had some way to tell where such obstacles are located.

Although bats have eyes, they prefer to live and feed in darkness. The method used by the flying bat depends on the production of sound and the analysis of echoes. As the bat flies through the air, it emits a constant stream of high-pitched cries, which permeate the space in front of the animal. If there are any obstacles out there, like tree branches or fenceposts, the sound is reflected or echoed back. The bat hears these echoes, changes its course, and flies into regions which are echo-free.

Physicists have invented electronic devices for detecting the supersonic sounds of bats, Dr. Galambos continued.

"When Dr. Donald Griffin and I were asking ourselves whether bats produced a supersonic cry, we took the problem to Prof. G. W. Pierce, the expert in supersonic sound at Harvard U., who very generously turned over to us whatever laboratory space and equipment we required."

"The instrument we needed most was a so-called sonic amplifier, a device which converts supersonic sounds into audible ones. With it we were able to show that so long as bats fly, they emit a constant stream of cries in which frequencies around 50,000 cycles were particularly strong," the doctor explained.

Humans cannot hear much above about 20,000 cycles. And as people grow older, the upper limit drops lower and lower, until at 60 or so, a person is deaf above about 6,000 cycles.

"The bat emits a steady 'tat-tat' of about 30 supersonic cries a second as it cruises about in the air," Dr. Galambos said. "But when an obstacle lies ahead, this rate just about doubles momentarily, then drops back to 30 again when the obstacle is passed."

Dr. Griffin and Dr. Galambos watched about a hundred bats and also experimented further to show the importance of the supersonic cry in another way. They tied the mouth of the animal closed and then let it fly away. Those gagged animals were helpless in the air. But as soon as they cut the strings, each bat avoided obstacles once again.

The physicists also found that plugged ears were as dangerous as gags for the bats, the latter bumping into obstacles again. Fundamentally the same vocal structure produces supersonic cries in bats as produces speech in man.

What to Do

By PHYLLIS BELMONT

Your unused porch can be transformed into an ideal place to spend most of your vacation. It takes little effort, and some ingenuity to fix up a porch, but it can be done and inexpensively too.

An open patio can be screened by running a porch shade out from the eaves, over the patio, to several poles on the opposite side of the patio.

An awning ceiling, and roller shade sides make a second living room for you. It will afford you privacy, and a cool spot to loff for hours.

Ledger Syndicate.—WNU Features.

Butterfat Can Be Increased by Water

Proper Methods Will Give Better Returns

Dairymen whose cows can have a drink of water whenever they want it—night or day—will get more milk and butterfat from the same amount of feed and care than the dairymen who water their cows only a couple of times a day. This has been proven by extensive tests conducted at Iowa state college.

The cows while being watered by means of water bowls drank approximately 18 per cent more milk and yielded 3.5 per cent more milk and 10.7 per cent more butterfat than while being watered twice a day at the outdoor tank.

Conclusions reached from the tests also showed that the temperature of the water was not nearly so important as the temperature of the air. In other words, if the cow had to stand outside in near zero weather, she was likely to drink

Ideal Dairy Layout

relatively less regardless of the temperature of the water. As might be expected, the cows drank more as the weather became warmer.

The experiments were made with water bowls, which are almost impossible to obtain during the war. However, many dairymen can include watering inside their barns where the cows would have access at regular intervals. If some method can be devised so that the cow will not have to sip her needed water out of an icy tank she will drink more water, produce more milk and of a higher butterfat content.

"The cow is getting silage or green feed with a lot of moisture in it, the cow will drink proportionately less than she will if she is fed entirely on dry feed. There is a tendency to balance up the total amount of water in the feed and that drunk. If the feed has more moisture in it, then the cow drinks that much less."

Agriculture In the News

Milkweed Floss

The milkweed has gone to war and no longer can be considered a farm pest.

The seeds of the milkweed furnishes an edible oil, chemically similar to soybean oil. From 100 pounds of the seed at least 20 pounds of oil may be extracted.

In Canada, the leaves have proven an excellent source of natural rubber.

Perhaps the greatest war use is the floss of milkweed as a substitute for kapok, from which life preservers and linings for aviators' flying suits may be made. Early September is the proper time to pick the pods, after the seeds have started to turn brown. Call has been sent out for farmers, Boy Scouts and war workers to gather the floss to fill urgent need of the navy and war departments.

A utility egg package, containing the dehydrated equivalent of two dozen eggs in half the space required for a dozen fresh ones, is an expected postwar application of a war-time development.

AGRICULTURAL FACTS

A soldier requires 40 times as much wool as a civilian and it takes 26 sheep to provide that wool for one year.

Fifteen ounces of snap beans, garden weight, are needed to make 19 ounces canned weight.

It takes a year's food from 155 acres to feed a bomber-building crew for the time it takes to build a single bomber.

I SAT at the recent East-West All-kid game with my friend Joe McCarthy, manager of the Yankees. Here we watched the picked teams from the East and West, representing 28 cities and states, at 17 years or younger. And it was here that I saw the soft spot of this sport.

Baseball is rated our national game. There are more kids who would rather play baseball than any other sport.

Baseball is our greatest game. Certainly for our kids. And yet baseball has drawn less support from all concerned than any other game.

The big leagues, both presidents and all owners, including my good friend Judge Landis, have almost completely ignored the young ball players from 13 to 17. The high schools and colleges have been even worse.

Our young football players have the best of coaching in high school. They move to the best coaching in college play. They are finished products when they reach the pros.

Our young golfers have the finest coaching and instruction that anyone could demand. All their faults are corrected on the way up.

The same is true of our basketball players and our track men. The same is true of our swimmers. They have the best of the coaching—and the best of breaks.

Why? They bring money into the box offices. Baseball doesn't.

Any sport that brings in money gets prompt attention. Those that don't are ignored.

Football gets first recognition, from high schools on up through college, on into pro ranks.

Why? Many college football teams play to financial clean-ups that run from \$500,000 to \$1,000,000.

Baseball can't even touch these figures. So why bother with baseball?

Back to the Kids' Game

Here is the pick of the country's kids playing baseball at the Polo Grounds. They were young, strong, fast and packed with spirit. But anyone could see the instruction they had missed, which young football players, young golfers, young tennis players or young basketball players would have received.

On more than one occasion Joe McCarthy, one of the smartest managers baseball has ever known, one of the game's closest students—would point out various faults.

It might be a catcher—it might be an infielder—it might be a hitter—"I'd like to have that kid around just a while," Joe would say. "I'd like to tell him just a few things before his fault becomes a habit."

Bobby Jones, Walter Hagen, Gene Sarazen, Francis Ouimet, Chick Evans, these and many others, were great golfers before they were 21. Golf gave them their chance.

Football has been piled up with stars who were 19 or 20.

Baseball has known only a few who were big leaguers at this age.

The answer is that only a few connected with baseball have made any effort to see that young ball players, from 14 to 16, ever get the right instruction.

Wish Egan of Detroit is one of the few who has done a fine job along these lines. Egan has developed more than a few young stars. George Weiss of the Yankees is another. There are just a few more.

But in the main baseball doesn't look after its own—and its own are the kids who should be the stars of the future, who never get the chance or who drift into other games.

Minor league managers tell me they get these kids, full of faults, and haven't the time to bother about it.

The "naturals" can take care of themselves. So they come from the minors to the majors and are either sent back or hang around for two or three years, to be taught all over.

If baseball drew the same type of instruction or coaching that football, basketball, golf and tennis get—from the best in the business—there would be a jump of at least 30 per cent in baseball efficiency between the ages of 19 and 21. But unfortunately in this country too often the dollar comes first.

The answer I get is this—"Let baseball start to pay its way and you'll see a big difference." It will get the same "overemphasis" from coaches and others that football does now.

Pitching Prodigy

One of the most outstanding possibilities at the Kids Game was Frank Azzarello of New Orleans. He is just 17—a great prospect—a left hander who fought 12 innings with \$15,000 Dick Callahan last spring and fanned 18 batters. Frank lost his game 1 to 0 in the 12th.

In addition to his brilliant pitching Azzarello is also a star outfielder with a Legion batting average of .431. Azzarello is just one of the great kids who played in this game. There were at least a dozen others.

Spending for War Is Slowing Down a Bit

WASHINGTON.—War spending slowed down a bit in the first half of July. The treasury's statement for July 15 reported war expenditures of \$3,338,272,293 compared with \$3,574,277,635 in the same period of June. In the first half of July, 1943, the expenditures totaled \$3,180,540,833.

While Walter Winchell Is Away, This Month, His Column Will Be Conducted by Guest Columnists.

Nightlife Murders Baseball Says Babe Ruth

By the Home-Run King Himself

Propped up on a cot in a hospital for several weeks recently, following an operation for the removal of a cartilage from my right knee, I spent a lot of time considering the future of baseball.

Let's start with that nocturnal nuisance, night baseball. It's murdering the sport with the help of the cradle-robbing magnates, who are killing the source and substance of the game by neglect of the kids, without whom it cannot exist.

Night baseball is strictly a business proposition—an offshoot of war conditions.

One or two games a week to give the defense workers a break is O.K. But now both major leagues are planning four and five a week. That will spell the end of the sport.

The magnates won't give up the regular week-end gravy of Saturday and Sunday daylight games. That will mean a layoff Monday and four night contests.

To the players, this will be a drastic and unhealthy way of life. Eye trouble will develop. Right now night games are compelling some players who never had to use glasses to wear 'em. Babe Dahlgren is an example.

Irregular meals and sleep is another disadvantage. An athlete can't get along without regular sleep and that will be impossible under a day and night schedule of games.

Danger of Catching Colds In Night Games

Imagine what will happen to the veterans, pitchers in particular. A pitcher perspires profusely during a game. In the daytime, usually with the sun shining, there is less danger of catching cold.

I know what I am talking about. I caught one of the worst colds of my career in a night game, merely acting as a coach when I was with Brooklyn. What it is doing to those two-inning pitchers can well be imagined.

As for the fans. It's a mistake to think the men of the family are going to attend four night games regularly each week. Mothers, wives and girl friends will soon stop that!

Much publicity already has been given to the fact that night baseball will take the game away from youngsters. Kids are the backbone of the game. Smart baseball officials have done everything possible in the past to promote the interest of these future audiences by admitting them free to week-day, daylight games.

Boys, as prospective big leaguers, are not getting a square shake from organized baseball. The major clubs show no interest in a boy until he's 16 and can get working papers. Then, if he's got the stuff, they send him out to a Class D league where they squeeze what they can out of him as a hired hand.

Softball and Baseball Just Don't Mix

There seems to be a growing apathy toward baseball. The village, town and former hot neighborhood teams and rivalries are fading. This cannot be attributed to the war, because the boys who made up those teams were usually under draft age.

I hate softball, though I approve any game that gets kids out in the sun, but softball has ruined many a potential big leaguer. You cannot play softball and excel at baseball.

Progress is also pushing baseball aside. Bit by bit, we see the growth of cities and towns wipe out sandlots and semi-pro ballparks. Even in small villages you will discover cornfields that once were baseball diamonds. No efforts are made to save the diamonds.

Where are the kids going to turn to for aid?

The kids themselves tossed the answer to me at one of my recent Saturday morning radio broadcasts on the A. G. Spalding program. Devise a plan whereby the big leagues would sponsor baseball schools throughout the country, using retired star players as instructors.

Boys start playing the game at eight years and, until they become 16, get little or bad schooling in the sport. So they acquire unbreakable habits in batting, throwing, sliding and fielding unless they are natural-born players like the Otts, Cobbs, Collins, Speakers, etc. With professional coaching, the kids would be fit for league play anytime they were needed.

I played during the last war and can vouch for the fact that few of the players who saw active service ever reached top form again. Some of the aces like Capt. Hank Greenberg and Bill Dickey, who are along in years, may never return to the game. Chaps like Joe DiMaggio, Bob Feller, Ted Williams and Terry Moore, depending on the type and length of their service, may take as long as three years or more to hit their former stride again, if they ever hit it again.

End of a Nazi Submarine

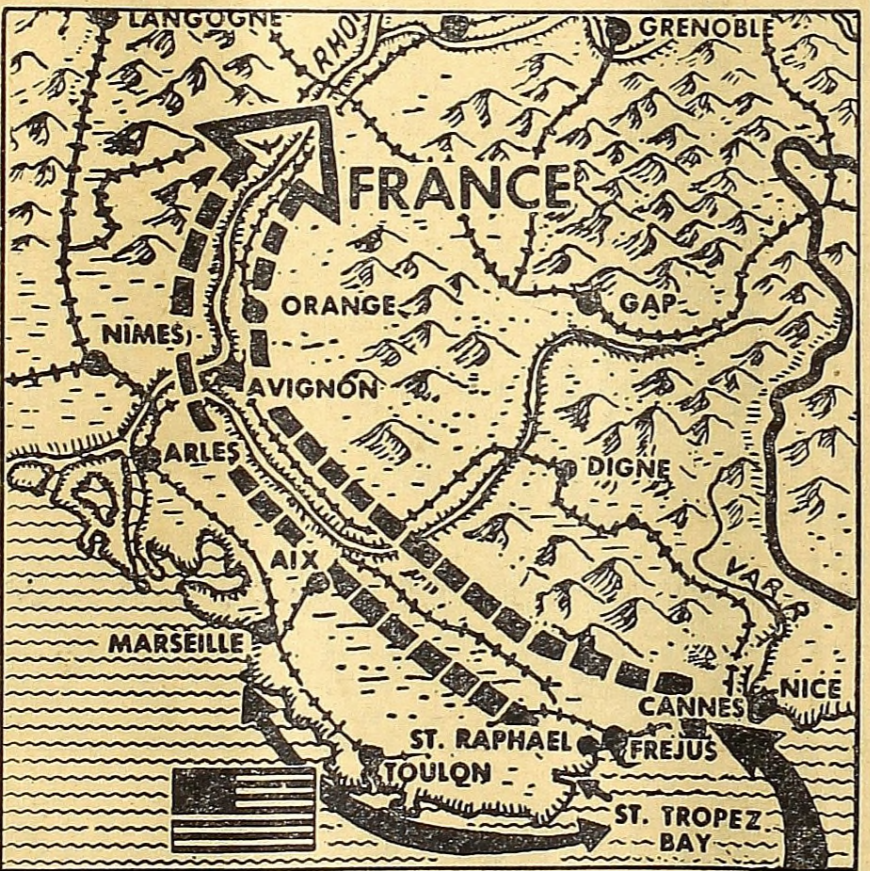

This official U. S. navy photo shows Nazi sailors cringing around the conning tower (arrow points to Germans) of a U-boat under attack by U. S. army and navy planes. A few minutes later this sub sank under the hail of bombs from army Mitchell B-25 and navy Liberators. Nazi submarines are becoming scarce articles these days.

Mourn at Camp of Annihilation

Photo shows a few of the thousands of Poles weeping for their loved ones at the edges of the huge burial pits at the ill-famed "Camp of Annihilation" in suburban Lublin, Poland. The Nazi burnt to ashes the bodies of thousands upon thousands of victims of their tortures and threw the remains into the pit. Special ovens were built for this purpose.

Latest Moves Against Nazi

Heaviest opposition of the southern France invasion was met between St. Raphael and Cannes and from there to Nice. Glider hordes were dropped all along the Riviera, and huge landings were made in St. Tropez bay zone. It was announced that bombers had destroyed every small rail bridge in Rhone valley, indicated by large arrow.

Clearing the Way for Yanks

The engineers do their part, and it is usually a dangerous and hard part. The men of this American engineer unit are shown combing the streets of Lessay, France, in the hunt for mines. Making the roads safe for the Allied advance in France is only one of the jobs of these engineers. Hundreds of bridges must be rebuilt for the advance.

Mascot of Seabees

Lewis J. (Jimmy) Carriek of Pittsburgh, Pa., is the mascot of all Uncle Sam's Seabees. He has been confined to a wheel-chair for five years with spinal meningitis. Naval surgeons are to operate and hope he will be able to play ball soon.

GI Has Pet Rabbit

Carrying a white rabbit, present of a Frenchman, grateful for liberation, an American doughboy marches through Torigny on the heels of the retreating Germans. Yanks have been presented with hundreds of different kinds of pets by the French.

French Commander

Gen. Jacques Le Clerc is in command of the French troops, who have gone into action against the Germans in France for the first time since the 1940 armistice. The troops, many veterans of North Africa, landed on the Normandy beaches.

Hero in Big Town

Visiting New York City, Pfc. Alton W. Knappenberger drops into a Broadway drug store to enjoy a super-duper ice cream soda. He won the title of "One-Man Army of Anzio."

When I was but a small boy, just arriving at the question age, home was a house near the railroad depot of a small town in southern Iowa. Each time I could escape the watchful eye of Mother and run away my destination was the depot. With the timidity of a child of that period I would get as near as possible to the table to which the telegraph instrument was fastened. I was curious to know what made it "click."

Before I had solved that mystery came the telephone, first shown at the Centennial exposition in 1876. It was hailed as a world marvel then while today it is a commonplace providing instant communication from house to house or from coast to coast. To me its operation is still a mystery.

It was well past the turn of the century, and I was well into the 30s, when another communication marvel appeared. It was a wireless telephone, the forerunner of radio. With a telephone instrument of that time, attached only to a wire hoop, I talked from within the walls of the Chicago Press Club building to people on board a ship ten miles out in Lake Michigan. That was only some 40 years ago and today radio is providing information, entertainment, instruction in some 90 per cent of the homes of the cities, towns and farms.

Now comes television. Soon it will be a commonplace to sit in our homes and see pictures of events as they happen. We will watch the gestures of a speaker as we listen to his address delivered many miles away.

Such are a few of the means of communication invented or developed by American genius. Their advantages are available to all, rich or poor, in city or on the farm, because of America's ability to produce and develop. An ability born of the American system of competitive free enterprise. The incentive to the producer is a profit.

Would government ownership and operation of our productive facilities, would the planned economy of state socialism, have done as much to make life easier or more enjoyable, or at an equally low cost? We know it could not have been done.

In the United States there are 130 million people. Of that number the census bureau tells us more than 88 million are qualified to vote. That 88 million are responsible for whatever government we may have. Of the 88 million 5 million are members of the CIO. Less than one-seventeenth of the voting population propose to direct the governmental policies of the nation. The strange part of it is that those responsible for partisan political action seem fearful of antagonizing that minority. That, it would seem, is what our government "of the people, for the people, by the people" has become.

RUSSIA'S PLACE IN FAMILY OF NATIONS

PRESIDENT ROOSEVELT'S expressed wish is that, with the coming of peace, Russia will again join the family of nations. He will realize that wish. Russia, thanks to Stalin's realism, will be the largest and the mightiest of the family of nations. It will have territory, people and natural resources that will make of it the big boy of the family. Under the guiding hand of Stalin the resources will be rapidly developed. For possibly a generation Russia will be busy at home. Stalin has no real understanding being prepared for his job of dictatorship. What will happen following his passing is a big, unanswerable question, but it is possible that Russia may be the Germany for the next generation to fight. She will be more powerful than Germany has been. England is fearful of such a Russia.

GREAT VALUE IN SMALL PACKAGES

IN NEWSPAPER back shop parlance the short, philosophical item of two to a dozen lines, is a "blurb." They are appreciated by the printer because of their convenience in filling the small spaces in a newspaper form. The printer's so-called "blurbs" have been more effective in molding world civilization than the long-winded presentations of great minds. Ten of what the printer would consider "blurbs" represent the basis of the laws of the civilized world and provide our conception of morals — the ten commandments. Great value can come in small packages.

THE TOWN BOYS, THOSE OF 13 to 16 years of age, too young for the armed services, can do their part in the war effort during this late summer and fall. Without food the soldiers and sailors cannot carry on. Without help the farmers cannot produce all the food that is needed for the armed services and the people at home in our own and the Allied countries. The boys can provide a portion of that needed food production help. It offers their opportunity to do their part. Everybody will welcome their help.

SEWING CIRCLE PATTERNS

House Frock With Smart Yoke Princess Dress—Collarless, Cool

NICEST air conditioned house and morning frock you've ever had! The smart yoke which is extended to form diminutive excusers-for-sleeves is awfully flattering. The loose dress is made fitting by means of the two half-belts at either side. Try it in pink seersucker. Use pink-pearl plastic buttons. Pretty?

It's Collarless

COLLARLESS and cooler is the keynote to this summer's play fashions! The handsome princess jumper illustrated has a most attractive collarless jacket which turns it into a smart business and street ensemble.

Pattern No. 8622 is in sizes 12, 14, 16, 18, 20, 40 and 42. Size 14, jumper, requires 2 1/2 yards of 39-inch fabric; jacket, 1 1/2 yards.

Due to an unusually large demand and current war conditions, slightly more time is required in filling orders for a few of the most popular pattern numbers

SEWING CIRCLE PATTERN DEPT.

Enclose 25 cents in coins for each pattern desired.
Pattern No. Size

AROUND THE HOUSE

If it is necessary to carry a number of small drills in your pocket, an old spectacle case comes in handy in which to carry them.

Fill coffee pot half full of cold water, add 1 teaspoon of soda and bring to a boil for a few minutes. Then the pot should be washed in clean water.

When making fudge to send the soldier boys, pour it directly into the box in which it is to be mailed. Line the box first with waxed paper, and beat the fudge until it begins to "set." This method is better for two reasons: the box will contain more candy and it will stay fresh longer than if it is cut in pieces in the usual way.

To clean rust from any kind of farm implements, dissolve one can of lye in five gallons of water and apply with an old broom or brush. Scrub well. The rust will come off quickly.

Garden tools free from rust are easier to work with and, if a small can of tractor oil and an old shaving brush are kept handy, it takes little time to clean and oil the tools after using.

Knitted woollens and wool dresses and skirts washed by hand are less likely to shrink or become matted than if cleaned in a washing machine.

If ice cubes are held under warm water for a few seconds, they will have no sharp edges to jab or cut the precious rubber icebag.

When the metal tip comes off a shoe lace, it is not necessary to discard the lace. A satisfactory tip can be put on quickly and easily by dipping the end of the lace in melted paraffin or beeswax and shaved to a point before the wax hardens.

SNAPPY FACTS ABOUT RUBBER

Before the end of the year, the U. S. should be producing enough man-made rubber to fill all military and essential civilian needs, in the opinion of John L. Collyer, president of B. F. Goodrich, who foresees the output of 800,000 tons of synthetic rubber in 1944.

Neglect of the rubber plantations now under Japanese control may be a benefit in disguise, according to authorities, since postponing the tapping of rubber trees tends to improve their subsequent yields.

Normally only one per cent of the rubber consumed in the U. S. went into the manufacture of medical, surgical, dental and drug sundries, while more than 72 per cent was used by the tire industry.

Timber Workers Are Urgently Needed

"Timber workers are urgently needed to produce the raw materials of war," stated Mr. J. Herbert Stone of Milwaukee, Wisconsin, regional director of the Timber Production War Project recently. "The shortage of labor in the woods is still the greatest problem the lumbering industry has to face in the demands for timber products of all kinds."

One prime source of labor is the farmer who will soon have his crops laid up for the year. Some of them have woodlots and can work in them. Others can help produce these critical materials by helping their neighbors or going to work in sawmills or in the woods for larger timber operators.

Everything going to the battle fronts of the world uses wood in some form. Even all metal equipment uses wood for crating or shipping purposes. Ships, tanks, hospitals, bridges, food, clothing, ammunition, guns—all require wood and paper. Over half the paper and lumber that will be produced in 1944 will be used to package and ship supplies to the armed forces of the world.

Mr. Stone emphasized that every day that a farmer can spend producing raw wood materials will help tremendously. Even a few hours a week will do much to cut down on the existing shortage of sawlogs, pulpwood, and the numerous other types of wood crops. Every one of the thousands of farmers in each state can do his bit on the lumbering front.

Opportunities to produce sawlogs, pulpwood, and allied timber products exist everywhere in the woodland and forest areas. County Agents and the U. S. Employment Service can furnish information or arrange to place interested farmers.

commanded by Colonel Thomas W. Steed of Etowah, Tenn.

Frederick Luedtke, Coast Guard, was the first service man to cast his vote in Tawas City for the November election. He was home on leave from service in the Sicilian and Italian campaigns.

T-Sgt. Leonard Hoshbach says that one in the service certainly appreciates news from home. "How's the weather up in good old Michigan? It was quite warm here during the summer months, but the past couple of weeks have been pleasantly cool and the nights cold on some occasions. Of course that suits me all right for I am accustomed to cool weather in the north and it can stay this way as far as I am concerned." His address is T-Sgt. Leonard C. Hoshbach, Hq. Co., U. S. F. T. C., Ft. Leonard Wood, Missouri.

Sgt. Floyd E. Dunnill, son of Mr. and Mrs. Bert Dunnill of Whittemore, is stationed at a strategic air depot bomber repair base in England where he reclaims and salvages parts from damaged heavy bombers of the Eighth Air Force. He has been stationed in the European theatre of operations for 14 months.

He has two brothers in the armed forces, Sgt. John Dunnill at Camp Davis, California, and Pvt. Ernest Dunnill of Camp Hood, Texas.

Corp. John D. Smith, son of Mr. and Mrs. George Smith of Tawas City writes his parents that he was safe in France.

Microscopic Germ

Brucellosis is an infectious disease caused by a small microscopic germ which usually locates in the reproductive organs of cattle (uterus and udder of the cow and testicles of the bull).

Eggs Make Sauce

Eggs help make a delicious cream sauce. First make a white sauce and then add a small amount of the sauce to a well-beaten egg. Stir the mixture into remaining white sauce. Serve on vegetables or in other creamed dishes.

BE SAFE... BE SURE... WITH WAR BONDS!

NO turn in the weather can wash out your investment in War Bonds. No cut-worm or borer or other insect pest can get to them. No market fluctuation can alter their value from day to day. They're one "crop" that never fails!

We Americans pride ourselves not only on knowing how to make a penny now and then, but also on how to keep one. So we get double pleasure out of our War Bond purchases. First, we're backing our men in uniform who are fighting all over the world to keep America safe and free. Second, we are building a financial reserve to meet the inevitable emergencies of such a business as farming. And third, when those Bonds mature, we will have the cash for new equipment and machinery and buildings to help maintain the efficiency and earning power of our farms.

Yes, if you're looking for a "crop" that never fails, you'll put in an order today for more War Bonds... even if you have to go without something else to pay for them!

5 REASONS FOR INCREASING YOUR WAR BOND PURCHASES

1. The tempo of this war is hitting its highest point. Government expenditures for war are at the peak. MORE MONEY IS NEEDED... NOW!
2. In proportion to who HAS THE MOST MONEY, individuals are not buying their share of War Bonds. America must correct this situation.
3. War Bonds provide the farmer and rancher with the financial reserve he must have to survive the ordinary ups and downs of farming as a business.
4. Money will be needed urgently at a future date to replace and repair farm equipment, machinery, and buildings. War Bonds will provide it.
5. War Bonds are the safest investment in the world, return a good rate of interest, are easy and convenient to buy... from bank, post office, rural mail carrier or Production Credit Association.

For America's Future, for your Future, for your children's Future
Keep Backing 'em Up—WITH WAR BONDS!
