

Remember Pearl Harbor

Two Dollars Per Year

TAWAS CITY, MICHIGAN, FRIDAY, NOVEMBER 17, 1944

TAWAS CITY

Funeral services for Mrs. Matt Jordan prominent Sherman township woman were held Friday morning from St. James Church, Whittemore. She died Monday at her home following several months of poor health.

ROAST BEEF SUPPER, bazaar and food sale at Masonic Temple, Saturday, November 18. Will start serving at 5:30 P.M. Prices .75 and 50. Methodist Ladies.

L.D.S. Ladies Aid will hold a bazaar and supper at the Masonic Temple on December 7th. Start serving at 5:00.

Howard Swartz and Willard Draper of Toledo, Ohio, are spending the week here in this vicinity and visiting the former's mother, Mrs. John Swartz and other relatives.

Mr. and Mrs. Ernest Schrieber of Detroit are here for the hunting season and a few days visit.

Wm. Groff and son, Billy of Berkeley and father, Wesley Groff are spending a few days here this week.

Mrs. Ernest Cecil of Bay City is visiting at the Ernest Moeller home.

Mr. and Mrs. John Heddon of Dowagiac are the guests of Mr. and Carl Babcock this week.

Harold Grise of Detroit is spending the week here, enjoying the hunting season. Mrs. Grise expects to accompany him back to Detroit.

Mr. and Mrs. Charles Strebe of Royal Oak were Tuesday guests of Mr. and Mrs. Fred Landon.

William Leslie and sons, Waldo of this city, Wallace of Capac and William, Jr. of Reed City are enjoying the hunting season at Luzerne.

Mr. and Mrs. Miles Main and Gerall Main of Detroit are spending several days here hunting.

Adelore and Will Dumont of Detroit called Tuesday on their sister, Mrs. Fred Landon and mother, Mrs. J. R. Dumont, before going to their hunting camp.

Pvt. and Mrs. Ford Turrell and little Mary Anne of Saginaw came Wednesday for a 10 day visit with the former's mother, Mrs. Mary Turrell. Pvt. Turrell has been stationed at Camp Hood, Texas.

Mrs. Fred Brabant returned Saturday from a six week visit in Buffalo, New York with relatives.

Mr. and Mrs. Leo Culham and the former's sister, Mrs. Rose Watts left Tuesday for a weeks visit with relatives in Gaylord.

John, Hugo and Harold Groff of Detroit are enjoying the hunting in this vicinity and visiting a few days.

Clifford Boomer of Midland called on Tawas friends on Wednesday, before returning home with his buck.

Mr. and Mrs. Thos. Neltke and daughters of Midland are visiting their parents, Mr. and Mrs. Frank Moore of this city and Mr. and Mrs. Frank Neltke of East Tawas.

Mr. and Mrs. Forrest Howell and Robert Bohem of Detroit are here for several days visit with relatives and several days at the hunting camp.

Mr. and Mrs. Roy DePotty of Detroit are here for a few days.

Elder M. A. Sommerfeld of this city was the guest speaker at the Home-Come in the L. D. S. church at Bay City. Last Sunday morning every seat was filled. Old school mates, old friends and Saints came to listen to the message delivered by Elder Sommerfeld who was ordained to the Melchizedek Priesthood in the L. D. S. church at Bay City 40 years ago this month.

Tawas City Chapter, O.E.S. will hold their regular meeting and installations of officers next Tuesday evening. Installing officer will be Mrs. Sarah Graves, and installing marshal, Mrs. Lois Fuerst, Past Grand Warden.

E. C. Carlson of Saginaw is enjoying a few days hunting with friends.

M. C. Musolf of Bay City is spending the week with H. J. Keiser at the latter's hunting camp.

Mr. and Mrs. Cecil Pursley and Mrs. Roy Stickle of Waterford, Ont. have been visiting at the A. G. Mallon home. Mrs. Pursley and Mrs. Mallon are cousins.

SCOUTS

The Lakeshore District, of the Summer Trails Council, Boy Scouts District Survey in each County of the District previous to the new year.

Information obtained from the promotion of Scouting in each Community office, during the year 1945.

The Survey will be conducted locally through the schools, and the cooperation of teachers and parents is requested in order that it may be completed at an early date.

WANTED TO BUY—Used Child's Automobile or mechanical toys. Phone 232.

FOR SALE—303 Savage with shells. William DeLosh, Tawas City.

FOR SALE—White iron bed, single mattress and springs. Call 205.

BARKMANS TO OPEN JEWELRY DEPARTMENT

Invite Public to Visit Store and Inspect New Line

The Barkman Outfitting Co. have added a jewelry department to their Tawas City Furniture store, and next Monday this department will be open for the convenience of their customers. The big sales floor of the store is being re-arranged and large up-to-date jewelry sales cases will be installed in the space which will be devoted to the new department.

Harris Barkman, manager of the Barkman Outfitting Co., extends an invitation to the many customers and friends of the firm to visit the store and inspect the new department where there will be a large stock of watches, diamonds, rings and up-to-the-minute jewelry. The firm's more than 60 years of giving value, dependability and service assures the people of this territory that the new department will meet their demands in every way of a modern jewelry store.

In reviewing the business activities of the Barkman family, we find that the late A. Barkman, founder of the firm, came to Tawas City in 1882 as a clerk for T. Simons, one of the pioneer merchants here. He later entered merchandise business for himself at East Tawas. The business grew and his interests expanded, and in 1910 a bank was added to his enterprises. In 1912 the Barkman Lumber Co. was organized. For many years this was one of Tawas City's principal industrial concerns, and the business continues as one of the large lumber sales organizations of northern Michigan. In 1926 the Barkman Outfitting Co. was organized and the large store at Tawas City constructed. Closely associated with Mr. Barkman in all of his business enterprises were his sons and successors who have continued the family's tradition of service and dependability.

The fact that the jewelry department has been incorporated with their regular merchandising business, Mr. Barkman states, will allow a low overhead and sales cost for the department, and this will enable them to pass on a considerable savings to the customers.

Austin McGuire, well known Tawas City jeweler, will have charge of the watch, jewelry and optical repair department, and the store's customers will be assured of receiving prompt service at all times.

Gifts For Sick and Wounded Veterans

Gifts and gift packages for our sick and wounded service men and women in Army Hospitals of the country will be collected in a campaign which starts next Monday and ends December 6, according to Judge H. Read Smith, chairman of the committee in charge. The campaign in Tawas City is under the auspices of Jesse C. Hodder Post, American Legion, and the American Legion Auxiliary.

Receipts for the gifts and gift packages will be placed in various stores in the city, and everyone who can is urged to take advantage of this opportunity to make a Merry Christmas for those "who gave," and a chance to give them gifts that will be appreciated.

Suggested gifts are: Toilet articles, stationery, homemade candy, cookies, playing cards and books.

The committee in charge: Judge H. Read Smith, Rev. Frank Benish and P. N. Thornton.

20th Century Club

"The Flag Means Universal Education" was the theme of the November 15 meeting of the Twentieth Century Club.

The roll call was answered by quotations from a President. "Study of the U. S. Flag" was presented by Mrs. J.F. Mark. Two souvenir flags were displayed, the tri-color of France and the swastika from Germany, which had been sent home from the European battle front by Cpl. Wm. Mallon.

The county Federation report on International Relations was given by Mrs. Campbell. Mrs. J. F. Mark also reported on Library work and Mrs. Ira Horton told what a splendid work the mobile unit accomplished.

Another new member Mrs. Wm. Dockter was added to the membership list.

The date of the next meeting will be changed to Wednesday evening, November 29th at the home of Mrs. G. A. Prescott, Sr.

6th War Loan Drive Starts Next Monday

Iosco county's quota in the 6th War Loan Drive, which begins next Monday and ends December 16, is \$111,000.00 in E Bonds, and \$72,000 in other types. H. E. Friedman, chairman of the Iosco County War Finance committee, states that Gallants and war loan committees are organized and ready for the task. In all War Loans Iosco county has gone over the top in a substantial manner through the co-operation of all of its citizens, and this is again needed. General Eisenhower is requesting all schools to participate in this drive to raise money to make possible the successful conclusion of the war. As a special inducement for their efforts, school boys and girls will receive special awards from General Eisenhower.

Well Known Iosco Residents Observe 50th Anniversary

Mr. and Mrs. Edward Graham of Whittemore celebrated their golden wedding anniversary, Sunday, November 5 with open house from five until eight o'clock in the evening. Many friends called on them and wished them many more years of happiness.

Mr. Graham was born in Iosco county, April 23, 1863, and has lived his entire life here. He was the first child born in Plainfield township. Mrs. Graham was born October 29, 1875, in Canada and came to Michigan with her parents when ten years old. She has also lived in Iosco county ever since.

For many years Mr. and Mrs. resided in Tawas township, and Mr. Graham was Iosco county's prominent farmer. In 1922 they went to Whittemore where he and his sons entered the automobile business.

Both Mr. and Mrs. Graham have been ardent workers in the church, and have taken an active part in the activities for the betterment of the community. They are both enjoying fairly good health despite the fact that Mr. Graham is still suffering from the effects of a broken hip received two years ago.

They have seven children, three daughters and four sons, all of whom with one exception, were present at the anniversary event. The exception was one son, Howard, who is with the armed forces overseas. His last letter stated he was back in Belgium after several weeks in front lines in Germany. He is with the First Army there.

(Turn to No. 1, Back Page)

Elliott's Observe 25th Wedding Anniversary

Mr. and Mrs. Robert W. Elliott observed their 25th wedding anniversary Saturday, November 11th by attending a high mass of Thanksgiving in St. Joseph's church celebrated by Father Robert F. Neuman. During the Mass, Miss Nadine Foley of Newberry and Siena Heights College, Adrian, sang "Ave Marie" and "Pani s Angelibus". After Mass breakfast was served to the immediate family at the Elliott home.

Mr. and Mrs. Elliott are the parents of three children, one of whom is in the armed forces, Ensign John C. Elliott, a daughter, Kharla-Rae, a junior student at Siena Heights College and Robert Jr. at home.

Grace

IN the SERVICE
A prisoner of war card from Lieut. Charles W. (Bud) Cecil to his family was received this week. He was well and wanted his family not to worry. He had received no mail since he left in January, 1944. His address is Vor-und Zuname; Lieut. Charles Wm. Cecil, Gesangennummer, Not Alotted, Lager—Bezeichnung; M. Stammlager, Luft 1, via M. Stammlager, Luft 3, Deutschland, Germany.

Pfc. Nelson E. Thornton, somewhere in the Pacific Area, writes: "Have good news for you, found out last night that I had made State-side list. Am leaving sometime today and will be in the States in a couple of months. Have my seabag all packed, and standing by for transportation. You probably can see I am a little excited by the way this letter is written. Hope to see you soon."

Pvt. Gilbert Moeller arrived Sunday night for a 30-day furlough with his parents, Mr. and Mrs. Edw. Moeller. He has been stationed in the Aleutian Islands for the past 25 months. He will report for duty at Kelly Field, Texas.

T-5 William Murray has left San Francisco for overseas duty, according to word received by his parents, Mr. and Mrs. Robert Murray.

Pfc. Albert L. Vane of Tawas City is a member of the 230th Quartermaster Collecting Company, of two companies which in 11 months have reclaimed and repaired \$27,000,000 worth of equipment to be put back in use by Lieutenant General Mark Clark's Fifth Army in Italy. Pfc. Vane's wife, the former Arlene Brown, lives with her father, G. W. Brown near Alabaster.

Ist Lieut. Wilbur C. Roach, Jr. is home on 30 day leave after spending more than a year in the Aleutian area. Lieut. Roach is member of the "I Bombed Japan Club."

M. Sgt. Walter Kasischek of Fort Sill, Oklahoma is home on furlough with his mother, Mrs. Emil Kasischek. Walt is getting a few days of deer hunting while here.

W. T. Immers, B. M. 2nd Class, spent the fore part of the hunting season here. He is stationed at Belle Isle and formerly at Tawas Point. Mrs. Immers accompanied him.

T. Sgt. Edward J. Doak has been transferred from Camp Bowie, Texas to Fort Velour, Virginia. He has been enrolled in 12 week engineering course.

Ensign and Mrs. E. E. (Gene) Lickfildt arrived Monday evening from Corpus Christi, Texas, for a visit with relatives. He has received his "wings."

Pfc. William Rollin of Rapids City, South Dakota, arrived Friday on a 10 day furlough with his parents, Mr. and Mrs. R. A. Rollin.

IOSCO WOMEN'S CLUBS MEET AT EAST TAWAS

Young Women's League Hostess to County Federation

The annual meeting of the County Federation of Women's Clubs was held Monday evening at a dinner at the East Tawas Methodist church, served by the W. S. C. S. of the church. The Young Women's League of East Tawas was hostess of the clubs, and arranged lovely table decorations of red and white tapers, pine boughs and Michigan holly.

Following the dinner, the meeting was called to order by the president of the County Federation, Mrs. H. R. Hess, of East Tawas, who extended a welcome to all members and visitors. Mrs. Hess then introduced the presidents of the various clubs attending, from Whittemore, Tawas, City and East Tawas, and Mrs. Arvid Carlson, secretary of the Northeastern Michigan District of Women's clubs.

Miss Amanda Hamilton, district chairman of International Relations, was introduced, and she outlined the purpose of the committee and availability of materials to individual clubs for study or personal reading.

The following officers were nominated and elected for the ensuing year:

President—Mrs. William Curtis of Whittemore.
1st Vice President—Mrs. Thomas Scarlett of the Meadow road.
2nd Vice President—Mrs. Robert Elliott of East Tawas.

Secretary-Treasurer—Mrs. May Campbell of Tawas City.

The Whittemore Junior Club extended an invitation to the County Federation to have the 1945 annual meeting at Whittemore. At the conclusion of the business meeting Mrs. Hess introduced the program chairman of the Young Women's League Miss Lenora Hass, who in turn presented Mrs. Elmer Kunze, chairman of the Iosco County Library Board. Mrs. Kunze gave an interesting resume of the beginning and development of the present county library unit, and the place it has assumed in the community life.

Miss Constance Bement, director of Extension, Michigan State Library, gave some of the prospective plans for the future of libraries under post-war plans. This will involve enlarging present library areas into regional districts in order to further the reaching of a larger group in each community. It will, also, enable more books per capita than can be managed at present. Libraries will have to meet the demands and expand, possibly investing in films, pamphlets, etc., as needs develop.

Miss Hass concluded the program by presenting everyone with a list of suggested reading material, according to age groups, that would make ideal Christmas gifts, and gave brief reviews of the most interesting books.

Burleigh School to Hold Annual Carnival

The annual School Carnival of the Burleigh High School at Whittemore will be on November 17 at 8 o'clock.

To begin with the evening the grades will furnish the entertainment. Come and have your past and future revealed by the Famous Madame Iosco. Try your luck at the Fishing pond. Take a romantic trip through the Chamber of Horrors. Here is your chance to be made beautiful. Visit the Beauty Parlor and let the experts do it.

Yes, we guarantee you a hilarious evening.

WITH the HUNTERS

Carl Rempert was the first hunter to drive into Tawas City with his venison Wednesday morning.

Paul Ross and James Lansky of the Tawas City High School each brought in a nice buck.

Roy Landon, age 18, got seven legal "bucks" this season. He shot a nice spikehorn, and being the first one in the camp to bring in venison, won a dollar from each member of the party.

Charles Hughes shot a buck shortly after eight o'clock on the farm of his brother, Beryl Hughes, just outside of the city limits.

Coach Chester Roberts of the Tawas City Public Schools is hunting with a rifle of early vintage. He saw his buck Wednesday, but in the confusion of stopping his "Budor," getting out and loading his gun, the deer took to safety.

Old timers like Frank Mueller have no difficulty in bring in the venison. As usual the first day he was out he got a Buck.

EAST TAWAS

Elmon F. Bills, well known farmer of Plainfield township, passed away Thursday night at the home of his daughter, Mrs. G. N. Shattuck of East Tawas. Funeral services at 2 o'clock Saturday afternoon at the Shattuck home.

Mr. and Mrs. Lewis VanWyck spent a couple of days in Bay City this week.

Mr. and Mrs. A. J. Berube left Tuesday for South Butler, N. Y. to attend the funeral of Mrs. Berube's mother, Mrs. Jeanette Cool.

Guests in the John Schriber home in Wilber for the hunting season include Mr. and Mrs. Ernest Schriber and Mr. and Mrs. Roy DePotty of Detroit.

Mr. and Mrs. 'Pat' (Germain) Hill of AuGres spent Wednesday in East Tawas.

Mr. and Mrs. Joseph Reinke, Jr. and son, Mrs. Basil Berry and baby of Detroit are visiting their parents, Mr. and Mrs. Joseph Reinke, Sr.

Edmund Gagner, Jr. and Dr. T. E. Jackson of Detroit are visiting Mr. and Mrs. Edmund Gagner, Sr. also doing some deer hunting.

Mr. and Mrs. Luther Lickfeldt and children are visiting their parents, Mr. and Mrs. C. E. Lickfeldt and Mrs. Rowena Jones.

Mr. and Mrs. Carl Misener and son, Tommy of Royal Oak are spending a few days with his parents, Mr. and Mrs. A. E. Misener.

Harry Pelton and son, Don, were among the lucky hunters. They both got their deer the second morning.

Mrs. Harriett Elliott and children of Bay City spent the week end at their home here.

Lewis DeFoe of Baraboo has been a guest of Mr. and Mrs. Edmund Gagner for the past several days.

David Biskner and Al Phillips of Pontiac are spending the hunting season at the Henry Biskner home.

Andrew St. Martin of Detroit is here to help care for his father, Simon St. Martin, who is quite ill at the home of Mrs. Percy Scitte.

Mrs. Lena Herstrom has returned from Bay City, where she spent several days in the Moulthrop home.

Mr. and Mrs. Peter Stasinos returned Thursday from Detroit, where they had attended the funeral of a friend.

N. J. Rybarck, fireman 2 C, is spending ten day leave here. He is stationed at Fort Pierce, Florida.

Mr. and Mrs. Jed Harrington have returned from a weeks visit in Detroit with relatives.

Mr. and Mrs. Walter Immers returned to their home in Mt. Clemens today (Friday) after enjoy the first of the hunting season near Tawas.

Mrs. Nick Enders, who was called here by the illness of her father, Jacob Mielock, has returned to her home in Gaylord.

Mrs. Lloyd Smith is in the Alpena General Hospital, having undergone an operation there last week.

Mrs. Paul Robert, Sr. is a patient at Orr's Hospital.

Orville Gottleber is up from Bay City to enjoy the hunting with his brother, Leonard, this week.

Mr. and Mrs. L. G. McKay are living in the George Sedgeman home since their home was damaged by fire.

Miss Beth Blake is spending the week in Jackson.

John North returned home Thursday following a weeks vacation with relatives in Detroit and Pt. Huron.

Week end guests in the R. W. Elliott home included Mr. and Mrs. Ross Brow and Mr. and Mrs. Edw. Mielock of Detroit, and the Misses Nadine Foley and Kharla-Rae Elliott of Adrian, Mr. and Mrs. Roy Elliott and children, Thomas and Carol Ann of Harrisville were Saturday callers.

Two from Iosco at Michigan State

Included in the enrollment of 3,794 students at Michigan State college this fall quarter are two students from Iosco county. They are: Marjorie Pedersen, Whittemore freshman and Neva Stevens, Osoda freshman.

HOUSE KEEPING Apartment, for Rent. Furnished. Phone 81. Tawas City.

CLASSIFIED DEPARTMENT

HELP WANTED
Persons now engaged in essential industry will not apply without statement of availability from their local United States Employment Service.

MEN WANTED
No skill required. \$40 to \$70 per week. Metal Process Corp., 12891 Mt. Elliott, Detroit, Mich. Holbrook bus passes door.

BIRDS
CANARIES, ASSORTED COLORS. Singers and female bird supplies. MRS. RUFFINS, 562 South Seventh, Ann Arbor.

NURSERY STOCK
Apple Trees. Best varieties bearing size 6 to 10 ft. \$2.00 each. Write for quantity price. Also smaller fruit trees all kinds. MILLERS NURSERY, Mt. Clemens, Mich. Rd 2, Box 146.

REMEDIES
Sore Throat—coughs—colds, for relief use modern proven scientific formula, Phenex Antiseptic; your local druggist, or PHENEX PRODUCTS, INC., Skokie, Ill.

TRAPPERS
TRAP FOX and COYOTE, on bare ground or deep snow. Learn modern tricks to outwit the sly furbearers. Free illustrated circular. Q. BUNCH, Welch, Minn. Box 65-0.

Barnacles on Ships
In war or peace, the tiny barnacles always are enemies to ships. Layers of them, weighing as much as 30 tons, may attach themselves to a 10,000-ton vessel and reduce its speed by 25 per cent. They also cause such vibration that certain instruments become useless. A new product keeps the antifouling paints loose from the body of ships so the animals cannot fasten themselves to the metal.

SNAPPY FACTS ABOUT RUBBER

Many rubber items in common use are shaped at the factories in giant extruding machines, which in general appearance and action are much like the ordinary kitchen meat grinder. Rubber, mixed with chemicals, is extruded in any shape desired—round, square, rectangular or tubular.

The critical operating temperature in a tire is about 240 degrees at its hottest point, and is reached quicker in a synthetic rubber tire than in one made of natural rubber. Speed, load and inflation are chief factors in developing tire heat, which accounts for tire users being cautioned about respecting them.

In war or peace B.F. Goodrich FIRST IN RUBBER

AT FIRST SIGN OF A COLD USE 666 Cold Preparations as directed

WOMEN IN YOUR 40's Do You Hate HOT FLASHES? If you suffer from hot flashes, feel weak, nervous, a bit blue at times all due to the functional "middle-age" period peculiar to women—try Lydia E. Pinkham's Vegetable Compound to relieve such symptoms.

Watch Your Kidneys! Help Them Cleanse the Blood of Harmful Body Waste Your kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act as Nature intended—fail to remove impurities that, if retained, may poison the system and upset the whole body machinery.

GOD IS MY CO-PILOT Col. Robert L. Scott WNU RELEASE

The story thus far: After many unsuccessful attempts, Scott finally makes West Point, and in the summer of 1932 after being graduated and commissioned as a second lieutenant of infantry goes to Europe, which he tours on a motorcycle. He is happy when he finally arrives at Randolph Field, Texas, and becomes an air cadet, for to fly has been his life's dream. He is graduated from Kelly field and has some wings pinned on his chest. He is now an army pilot. Then come orders to report in Hawaii, which leave Scott pretty blue, as he wanted to get married to a girl in Georgia, to whose home he had driven over \$4,000 miles while on week-end trips from Texas. He tells the General about his plight.

CHAPTER IV
It took them thirty minutes to find out that the mere fact that I was traveling in a car with a Western license plate didn't make me Pretty Boy Floyd, who they said was on the prowl in that area. I finally had to telephone the Commanding Officer of Mitchel Field, and as he didn't know me, all he could say was that an officer by the name of Lieutenant Scott was supposed to be on the way to Mitchel from Kelly. Anyway, I still don't think I looked—even then—like Pretty Boy Floyd.

My arrival at my new station was the start of a hectic time for the Air Corps. First I began to try to work in some flying time by volunteering for every flight I could get. I had an especially good break when I got on the Department of Commerce weather flights. I used to have to get up at two o'clock in the morning and take off—no matter what the weather was—at 2:45 a. m.

On one of these I found myself in quite a bit of trouble. As soon as I took off I went on to instrument flying and climbed up through the heavy clouds in the Curtiss Falcon—known then as an O-39. Out to the side, fastened to the "N" struts, I could dimly see the barometograph which was to record the changing weather as we climbed to as high as the ship would go. It was necessary to climb at a constant three hundred feet a minute, which in several thousand feet became fairly monotonous. I finally adjusted the stabilizer so that the ship would climb this altitude, and then all I had to do was to keep the wings straight and level with the turn and bank indicator and the course constant with the gyro.

But I had reckoned without real knowledge of flying. My first indication of trouble came at some seventy-five hundred feet, when I was surprised to see the reflection of the moon down directly beneath my ship. I then forgot all caution and tried to fly partly on instruments and partly by visual reference. This I learned pretty soon was about impossible, for I went into the nicest spin I have ever seen. Recovering about four thousand feet below, I tried it again but the same thing happened. I then realized that after I had set my stabilizer for the steady climb of three hundred feet per minute, as the fuel was used the nose went up, for the fuel was of course forward. This gradually precipitated a stall which turned into a spin as the big Conqueror twisted the fuselage from propeller torque. I had to resolve to do all my instrument flying by hand until the automatic pilots were perfected later.

That afternoon I looked at the graph paper of the barometer recording, and there were two little jagged lines, plainly showing where the ship had lost nearly four thousand feet in two spins. The weather flights got pretty monotonous, and I would take off from Mitchel and fly up over Boston, then let back down to my home base. Finally the meteorologist caught on and told me to please stay over the area, as he had other weather ships taking the same readings over Boston.

These flights taught me enough to save my life when the Army took over the airmail contracts a little later in the year. If you remember 1934—there was trouble between the Government and the air lines concerning airmail contracts. To me even this was a life-saver in securing flying time, for all of us had recently been ordered to fly no more than four hours a month. This was the bare minimum to receive flying pay, and, as it turned out for many, the best way to get killed in airplanes. It's still a game that takes constant practice.

The weather we flew in to carry the mail during the winter of 1934 was about the worst in history. I sometimes think the powers on high collaborated to give us a supreme test. There were fourteen pilots killed along that airmail run, and most of them were killed because we had no instruments for the ships, or at least not the proper type for flying blind. We flew pursuit ships, which carried fifty-five pounds of mail; we flew old B-6 bombers that would carry a ton of mail at a speed of eighty miles an hour, providing the wind in front of you wasn't too strong—sometimes they almost went backwards. We flew everything from a Curtiss Condor which Mrs. Roosevelt had been using, to the old tri-motored Fords. And we flew through the worst weather in the country.

The route that I flew from Chicago, to Cleveland, to Newark, was what was known to all airmail pilots as the "Hell Stretch"—and it was just that, as I found out pretty quickly.

Sometimes people on new jobs got mixed up and sent the Cleveland mail in the wrong direction from Chicago, towards Omaha, or sent the Chicago mail from Cleveland to New York, the reverse direction—just normal events amid the "growing pains" of an Army flying the mail.

Once the control officer finally got a man in the air after sweating the weather out to the West for days. I saw his ship take off and disappear in the snowstorm. Then I saw Sam Harris jump up, for the U. S. mail truck had just driven up. It was late, and in the excitement of getting the ship's clearance the eager pilot had forgotten to wait to have the mail loaded. The control officer had to call him back and start all over.

About that time, when men had begun to die on airmail, I wrote a letter to this girl, the same one I had been going to see by automobile from Texas. It was addressed to her in case the "old ship hit some-

Col. Robert L. Scott Jr., author of "God Is My Co-Pilot."

thing," and I carried it around in my pocket during all my trips of airmail—I nearly wore it out, just carrying it. But the ship didn't hit anything and she didn't see it. In it I must have just asked her to marry me—that's all I used to ask her anyway.

One night I took off from Chicago and came to Cleveland. They couldn't find the man who was supposed to take the mail on to Newark; I found out later that he was sick. So I talked them into letting me take the ship on East. I climbed in and headed out towards the bad weather. When I got to it, following the experience I had gained in the months before and the advice I had received from the airline pilots, I climbed instead of diving, to hunt for a way through. At 18,000 feet I came out and over the clouds. I was alone, for as far as you could see. There were stars and a moon, and down below were the swirling clouds over the Alleghenies, dropping their snow and ice. If I had turned back towards Cleveland, I would have had to let down in the dark and probably would have crashed. So I decided to head into the clear sky of the night, at 18,000 feet, and as the dawn came the next morning I started my let-down, for at least I would have light in which to make the landing.

My radio had not worked since I had got into the snow and ice; so I was flying merely by dead-reckoning. I let down somewhere over what I thought was northern Pennsylvania, but after buzzing the town and reading the name, found I was over Binghamton, New York. I flew on South, having remembered a field at Scranton, Pennsylvania, and there I landed.

The landing was quite an experience. As I dove over the field I saw workmen there, frantically waving their arms. They were repairing the field. But I was about out of gasoline, so I came in, motioning with my hand for them to get out of the way. The only damage was caused by my landing on one of the small red flags on a stick that one of the workmen had been waving—he had hurriedly stuck it in the ground when he saw me landing regardless, and I came down right on top of it; but the small tear was of no consequence. I repaired it, had coffee with the man in charge of the airfield, and went on toward Newark.

They had long ago given me up for lost, for in that same night two other army pilots had met their death over the Alleghenies. Once again I felt that something had told me to climb when I got to the bad weather, and if that same thing had told those men to climb they would have flown through instead of going down—they might have disregarded a warning. In a case like that we think it's luck, but maybe it's not. To me something had said, "Get altitude, don't roam around down here, get altitude and go on." And I think that after that things just took care of themselves. With airmail over, we went back

to our usual duties at Mitchel Field. Things sort of settled down, and I began to make more flights and more automobile trips towards Georgia.

Finally I talked the girl into it. We went on up to West Point and were married. Catharine really fits into this story because it was the trips over to Georgia to see her, from every place in the United States, that not only made me drive an automobile but taught me cross-country flying, since I had been flying in these later months from wherever I was—by way of Georgia.

From Mitchel Field I was sent to Panama. And then began my real pursuit training. In P-12's I roamed across the country of Panama up into Central America and down into South America. I was given a job constructing flying fields, which we figured would some day protect the Canal. These fields were put in for the purpose of installing radio stations and also air warning devices to tell us when enemy planes approached the Panama Canal. I was to go down on the order and contact the natives, some of whom were head-hunters, to work on these fields that we were building. We would have to get the grass cut off, and I would make motions with a machete—the long knife of the Darien Indians—and show them what we had to do to keep that field so that airplanes could land on it.

The natives didn't work very well with us at first. But we doctored a few of them for chiggers and for other infections under their fingernails which had become very inflamed, or we flew men in to hospitals who needed operations, and soon they began to appear more friendly. By the time we left there they were calling me "El Doctor."

When my training of other pilots began, I realized the terror I must have caused my own instructor. For in training I perceived my own faults better, learning even to anticipate the mistakes the student would make. And I learned much about the peculiarities of man, for on one occasion I had a student who attempted to kill me. I don't know why—he would have killed himself, too.

One day I was told to take out a cadet listed as an incorrigible and to try to find out what was wrong with him. I gave him forced landings and such, and when he tried to glide down and land on a highway, I would take the ship and caution him about gliding low towards trucks and automobiles. On one of these tries, as I gave him a forced landing—you do this merely by cutting the throttle to idling speed to see what the student will do—he rolled the ship on its back and pulled it down in a dive towards the ground. I waited as long as I could and then I took it away myself. I found that the man was glaring straight toward the trees we had almost hit. I landed the ship and asked him what was the matter. He appeared very sullen, and so I took him aloft again.

Once more I put the ship on its back and told him to bring it out. Immediately he pulled it toward the ground, and I knew it was intentional. With alarm I realized that with him almost frozen to the controls I would have extreme difficulty taking the ship from him by force. I hurriedly kicked the right rudder, which carried the half roll into a complete snap roll. Then I went through every acrobatic maneuver I knew until I made him sick; after that I flew him back to Randolph Field with my own heart beating a little wildly.

As I landed the ship two men stepped from behind a plane, asking to see the student. "You just wait a minute," I said. "After all, he's my student and I have some things to say to him." Then they pulled gold badges out of their pockets to show me they were F.B.I. men. They had been looking for this student for a long time. He had been a pilot before and had smuggled dope across the Mexican border, and I believe to this day that to evade the arrest that was waiting for him, he was trying to end it all. But the worry I had here was that in ending it for himself, he would have been ending it for me.

When I first came to Randolph we worked only half a day and had the rest of the day to play around at golf, to hunt, or do anything we wanted. But as the belief that war was coming got into a few American people, we started the limited Air Corps expansion program. We then began working all day, and I was moved up to a Flight Commander and taught instructors, for the Government was giving contracts to civilian corporations to train Army pilots. The Air Corps was rolling in to grow. As the years rolled into 1939, I was moved to California to become Assistant District Supervisor of the West Coast Training Center. This job was to check all flying cadets in the three schools at San Diego, Glendale, and Santa Maria. Later on I received my first command—that of the Air Corps Training Detachment called Cal-Aero Academy, at Ontario, California. I worked this up from forty-two cadets, until after one year we had nearly six hundred. (TO BE CONTINUED)

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL Lesson

By HAROLD L. LUNDQUIST, D. D. Of The Moody Bible Institute of Chicago. Released by Western Newspaper Union.

Lesson for November 19

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

CHRISTIANITY AND DEMOCRACY

LESSON TEXT—Mark 12:13-17; Romans 13:8-10; I Peter 2:13-17. GOLDEN TEXT—Bear ye one another's burdens, and so fulfill the law of Christ.—Galatians 6:2.

No form of government can claim divine authority, for God's Word does not prescribe any special form of government. But (and this is most important) the principles upon which government should be established are clearly given in God's Word, and the form of rule which best fits into the teaching of the Word necessarily calls for our interest and support.

We find in the Bible the declaration that men are equal in the sight of God, that government is to be a ministry for God (see last week's lesson), receiving its authority from Him and serving Him in exercising that power. Men are to be loyal to the government because they are loyal to God.

Our lesson carries forward the teaching of last Sunday. It tells us that:

The Christian Citizen Is—

I. Subject to Both God and Country (Mark 12:13-17).

His devotion to God and the things of God is to be expected of the Christian. We almost said that it is taken for granted, and sometimes that is so true there is no reality in his life. But surely if he is a follower of Christ he must be devoted to Him and to His cause.

But what about his country? That relation appears anew in the striking story of Christ and those who came to test Him, yes, to trap Him with a skillfully worded question.

The Pharisees, who hated Rome for its domination of Palestine, and the Herodians, who supported Rome in its control of the land, were enemies, but they joined forces to tempt Christ. They knew that if He said "Yes" to their question, the Jews would be angry, and if He said "No," He could be condemned as a traitor to Rome.

The trap was set, but it caught only the crafty hunters. Taking their own pocket money He declared that if they used Caesar's money they ought to pay taxes to Caesar. The coin stood for an orderly government, benefits of which they enjoyed and which they ought to support.

No real Christian will evade his duty to his country whether it be to pay taxes, to take part intelligently in its government, to defend it, to pray for it, or otherwise to show his love. One of the blots on the Christian church is the lack of civic righteousness on the part of many of its members.

II. Devoted to Both Brother and Neighbor (Rom. 13:8-10).

The Christian loves his brethren; indeed that love is one of the tests by which we may know that a man is truly born again (I John 3:14).

But that love reaches out beyond the circle of the brethren and touches every man who has need of it. The teachers of the Jewish law had sought to circumscribe that word "neighbor," but the Lord effectively dealt with that viewpoint in the story of the Good Samaritan (Luke 10).

All the commandments concerning the vital matter of personal relationship are summed up in the one admonition, "Love thy neighbor as thyself" (v. 9). When love controls, there will be no social dishonesty, strife or ill-will. There will be no violence to the person or property of another, for "love worketh no ill to his neighbor."

This is the real "good neighbor policy." Even between nations, we need more real love and less effort to impress one another by diplomacy and good will expeditions. Let there be less political manipulation and more loving, and we shall find our neighbor, both personal and national, responding in kind. Love draws out love from another.

III. Submissive to Both the Law of God and Man (I Pet. 2:13-17).

"Fear God" (v. 17); that is, be eager that there is no failure on your part to please Him by obeying His law. That we expect of the Christian. But we expect more; he is to be a law-abiding citizen, obeying the laws of his country "for the Lord's sake" (v. 13).

The believer may, by his godly faithfulness to his government, effectively witness against the ignorant criticism of foolish men who would have us think that being a Christian makes a man a weakling, or so other-worldly that he is useless in this world.

Our freedom in Christ is not an excuse for careless or wicked living. Not at all—just the opposite in fact. We "honor all men." How can that be done? Only by the grace of God; but by His blessing we can do it. That makes for the real appreciation of man, which is the very foundation of our democracy. If it means anything, it must have as its foundation principle the supreme value of human life and the dignity of the soul of man.

An Old Fashioned Salt Box and Pan Holder Rack for the Kitchen

By Ruth Wyeth Spears

step-by-step directions for making. A pattern and color guide with complete directions for the stencil design is also included. The pattern may be used over and over for decorating canisters, place mats and other attractive gifts. Ask for pattern 251 and enclose 15 cents which covers cost of mailing. Address:

MRS. RUTH WYETH SPEARS Bedford Hills New York Drawer 10 Enclose 15 cents for Pattern No. 251. Name..... Address.....

HERE is a pair of gifts that will bring joy to any homemaker. The salt box has the graceful proportions of those used in Colonial kitchens, and the rack with cup hooks screwed in place for hot pan holders is designed to harmonize with the box. Both box and rack are easy to cut out of plywood or scraps of thin lumber—either by hand with a coping saw or with a jig saw. The quaint stencil design may be applied right on the wood with wax crayon and then shellacked to fix the color.

NOTE—Mrs. Spears has prepared an actual-size pattern for all the pieces of this salt box and the kitchen rack with step-

Relief At Last For Your Cough

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

ASK ME ANOTHER?

A General Quiz

The Questions

1. How is the temperature of a centigrade thermometer reduced to Fahrenheit?
2. Who said: "Let us have faith that right makes might"?
3. What was Julius Caesar's first name?
4. What state has no divorce laws?
5. Who were Shem, Ham and Japheth?
6. Prior to our crossing, when was the last successful cross-Channel invasion made?

The Answers

1. Multiply by 9/5 and add 32.
2. Abraham Lincoln in an address at Coopers Union, New York, February 27, 1860.
3. Gaius.
4. South Carolina.
5. Sons of Noah.
6. Eight hundred seventy-eight years ago by William the Conqueror. He landed in England from Normandy.

A HARDY Cure is a SURE Cure... because

HARDY Meat-Curing Products are Made of No. 1 MICHIGAN Salt and Finest NATURAL Peppers & Spices! Here's the NEW perfected Hardy way to cure hams and bacon.

FIRST: Dissolve Hardy's "Tender-Cure" in boiled water; cool, then pump this "pickle" into meat as directed on label. This immediately starts cure INSIDE, along bone!

SECOND: Rub Hardy's Sugar-Curing Meat Salt on OUTSIDE. That's double Hardy protection against souring, spoiling, browning, staining, under-cured spots! Plus superb sweet smoke flavor.

FOR ADDED SMOKE Flavor, and for safe long keeping, brush on Hardy's liquid Condensed Smoke.

LIKE SAUSAGE? Hardy's Sausage Seasoning, ready to use, for full flavor!

WHY QUINTUPLETS use this great rub for **SORE THROAT COUGHS due to COLDS**

Wonderful for Grown-Ups, Too! Ever since they were tiny tots—when the Quintuplets catch cold—their chests, throats and backs are immediately rubbed with Musterole.

Musterole gives such blessed prompt relief because it's more than just an ordinary "salve." It's what so many Doctors and Nurses call a modern counter-irritant. It not only relieves coughs, sore throat, aching chest muscles due to colds, makes breathing easier—but it actually helps break up congestion in upper bronchial tract, nose and throat.

And Musterole is so much easier to apply than a mustard plaster. White, Stainless. Just rub it on! "No fuss. No mess with Musterole!"

IN 3 STRENGTHS: Children's Mild Musterole, Regular, and Extra Strong.

MUSTEROLE

LOOSE DENTAL PLATES RELINED & TIGHTENED AT HOME \$1.00
NEWLY IMPROVED DENDEX RELINER, a plastic, builds up (refers) loose upper and lower dentures. Really makes them fit as they should without using powder. Easily applied. No heating required. Brush it on and wear your plates while it sets. It adheres to the plates only and makes a comfortable, smooth and durable surface that can be washed and scrubbed. Each application lasts for months. Not a powder or wax. Contains no rubber or gum. Neutral pink color. Sold on **MONEY-BACK GUARANTEE**. Not sold in stores. Mail \$1 for general supply, brose, and directions and we pay postage. Charges extra on C.O.D. orders.
7th Year National Mail Order Sales

For Quick Cough Relief, Mix This Syrup, at Home

No Cooking. No Work. Real Saving.

Here's an old home mixture your mother probably used, but, for real results, it is still one of the most effective and dependable, for coughs due to colds. Once tried, you'll swear by it. It's no trouble at all. Make a syrup by stirring 2 cups of granulated sugar and one cup of water a few moments until dissolved. No cooking is needed. Or you can use corn syrup or liquid honey, instead of sugar syrup.

Now put 2 1/2 ounces of Pinex into a pint bottle, and add your syrup. This makes a full pint of truly splendid cough medicine, and gives you about four times as much for your money. It keeps perfectly and tastes fine.

And you'll say it's really amazing, for quick action. You can feel it take hold promptly. It loosens the phlegm, soothes the irritated membranes, and helps clear the air passages. Thus it eases breathing, and lets you sleep.

Pinex is a special compound of proven ingredients, in concentrated form, well-known for its prompt action on throat and bronchial membranes. Money refunded if not pleased in every way.

Mother says:
PAZO for Simple **PILES**
Relieves pain and soreness

There's good reason why PAZO ointment has been used by so many millions of sufferers from simple Piles. First, PAZO ointment soothes inflamed areas—relieves pain and itching. Second, PAZO ointment lubricates hardened, dried parts—helps prevent cracking and soreness. Third, PAZO ointment tends to reduce swelling and check bleeding. Fourth, it's easy to use. PAZO ointment's perforated Pile Pipe makes application simple, thorough. Your doctor can tell you about PAZO ointment.

Mr. and Mrs. John Higgins spent Monday in Bay City.

Mr. and Mrs. Charles St. Martin and family and Mrs. Wallace St. Martin of Pinconning spent a few days in town.

Mrs. Harrison Snyder, Mrs. Wm. Fuerst, Mrs. Elgin O'Farrel and Mrs. John O'Farrel spent Monday in Bay City.

Mrs. Snyder returned to her home in Flint Monday after spending the week end with Mr. and Mrs. Harrison Snyder.

Clarence Peck of Loud Dam was in town on Wednesday.

Miss Della Lehman is spending some time at the home of her parents Mr. and Mrs. Roland Lehman.

Kv. and Mrs. Bruce Brown of Prescott spent Thursday afternoon with Rev. Brooks.

Mrs. Barlow still continues in poor health.

Mrs. Broekenbrough, Mrs. Curtis, Mrs. Huff, Mrs. Dunham, and Mrs. Wery spent Thursday in Bay City.

The L. D. Saints ladies held a Chili supper at Rev. Summerfields home on Thursday evening a real nice crowd attended.

Mrs. Wm. Kelly spent a couple of days last week in Bay City.

Mr. and Mrs. Russell Williams returned Friday from a trip to Bay City and Detroit.

Angus Dunham took a truck load of cattle to Detroit Saturday.

Mr. and Mrs. Wm. Black and family came Tuesday to spend some time at the home of her parents and do some hunting.

Mrs. Hattie Wece is in very poor health at this writing.

Mr. and Mrs. Horace Dillon are entertaining his brother.

There have been quite a few car loads of hunters wending their ways North to the deer woods.

Mrs. Don O'Farrel of Bay City spent the week end with relatives here.

LOWER HEMLOCK

Mrs. W. Wegner, Vera Rapp and Betty McArdie spent Saturday in Saginaw.

Mrs. Charles Simons Jr. and son Paul of Detroit spent a few days with Mr. and Mrs. Charles Simons Sr. and family.

Mr. and Mrs. LaVerne McArdie and family spent Sunday afternoon with Mrs. Mable Decker of West Branch.

Mr. and Mrs. Robert Cox of Oxford, Michigan spent the weekend with Mr. and Mrs. C. E. Earl and other friends. They also attended the church services at the Hemlock church Sunday.

Wayne Biggs is unable to attend school due to illness.

Mrs. Louise McArdie left Monday evening for West Branch where she will spend several days with Mrs. Mable Decker, who is ill.

Mr. and Mrs. T. Winchell of the Town Line spent Sunday afternoon at the George Biggs home.

Mr. and Mrs. Walter Kelchner spent Sunday with Mr. and Mrs. Norton Dilsworth at their cottage at Sand Lake.

Mr. and Mrs. Henry Fashelt spent Saturday evening with Mr. and Mrs. A. Groff of Tawas City.

Mrs. S. Ginsburg is ill at this writing.

Mrs. John Seal spent Sunday afternoon with Mr. and Mrs. H. McCormic.

Mr. and Mrs. Ed. Moller spent Sunday afternoon with Mr. and Mrs. Woldo Curry and family.

Farming Country

Although the majority of Finland's more than 3 1/2 million people make their living normally by farming and dairying, the nation's cultivated areas amount to less than one-tenth of the land spread. Leading crops are typically northern—rye, barley, oats, wheat, potatoes, and hay. Pre-war Finland exported chiefly forest and dairy products; imported—in addition to machinery and industrial materials—meat, fruit, coffee, grains, tobacco and processed foods.

Supply Family

One hundred asparagus plants set 18 inches apart in rows 4 feet apart will amply supply the average family. The Washington varieties are preferable. The plants should be set as soon as the ground is fit to work. The roots should be spread out, crowns up, in furrows 6 inches deep, but should be covered with only about 2 inches of soil. As the plants grow the furrows may be filled in gradually until the ground is level again.

Soup Mixes

Soup mixes consisting of soya flour or grits, other legume powders, dry skim milk and seasonings may include up to 40 per cent soya, says the USDA bureau of human nutrition, and home economics. With cereals like corn meal, cracked wheat, oat meal, hominy grits, rolled oats or granular wheat cereal, 15 to 20 per cent of soya flour or flakes may be used with good results. In quick breads and yeast breads there may be from 15 to 20 per cent soya flour.

Eggs Make Sauce

Eggs help make a delicious cream sauce. First make a white sauce and then add a small amount of the sauce to a well-beaten egg. Stir the mixture into remaining white sauce. Serve on vegetables or in other creamed dishes.

LOOKING BACKWARD

40 Years Ago—November 19, 1904

Officers installed by the O.E.S. were: Elvira King, worthy matron; George Mount, worthy patron; Agnes Kelly, associate matron, I. E. Garber, secretary; Emily M. Preston, treasurer; Dora Mark, conductress.

Plans are being made to build a new cement block school house on the Hemlock road next summer.

George Totten of Bradford, Pa., is spending a few days in the city before going to Flint where he has a position.

Mr. and Mrs. E. A. Goodwin of Cadillac are visiting relatives and friends here.

George Moore and George Southerby of Hale were business visitors here Thursday.

A. B. Schneider and John Schneider of Sherman township recently returned from a trip to the Louisiana Purchase Exposition at St. Louis. They report a very interesting and enjoyable two weeks at this wonderful world's fair.

The Irish Pawn Brokers will play at the Opera House next Tuesday evening.

Miss Louisa Kohn of Bay City spent a few days at her home in Sherman township.

Lewis Roe has purchased the Lyman Alderton farm in Plainfield township near South Branch.

William Bell, cashier of the Rose City Bank transacted business at Hale this week.

A tower is being erected in Wilber township near the head of the hardwoods for the purpose of making a geographical survey of Lake Huron.

A new fad this year is picture postcards of public buildings, points of interest and local scenic views. It is a splendid way to advertise and could well be copied here.

25 Years Ago—November 21, 1919.

Work is progressing rapidly on the new Sawyer building on Lake street.

George Laidlaw and daughter, Nettie, are now residing in Detroit.

One of the most important farm sales of several years was just consummated when the Oscar Fahselt farm was purchased by George A. Jones of Ada, Minnesota.

Miss Blanche Richards has purchased the Tawas Bay Insurance Agency from the F. F. French estate.

Mrs. Minnie Carpenter has resigned as principal of the Tawas City Public Schools. She has been succeeded by Miss Hildergarde Dietz of Toledo.

C. H. W. Snyder has assumed charge of the Tawas City postoffice on account of the resignation of L. J. Patterson.

G. A. Prescott, Sr., returned yesterday from a business trip in Indiana.

At a meeting held Friday evening in the Tawas Herald office, Jesse C. Hodder Post, American Legion officers formally received the post's charter. Presentation was made by Col. August Gannser.

Mr. and Mrs. L. J. Patterson and where they will make their future home. Mr. Patterson is a former owner of the Tawas Herald.

Miss Mabel Bamberger of Bay City spent a few days with Hemlock road relatives.

Mrs. Charles Morgan of Hale is visiting for a few days at Rising Sun, Ohio.

Will Look of the Meadow road has gone to Flint where he has employment.

Charles Thompson of Bay City is visiting relatives in Reno, Nevada.

Misses Bernice and Isabel Cowie of Saginaw are visiting at their home in Hale.

Ernest Chase is moving to Saginaw where he has employment.

One-Celled Plants

The yeasts are predominantly one-celled plants which reproduce rapidly and in their growth form alcohol and carbon dioxide from the sugary materials on which they feed. The precise nature of the products depends on the kind of yeast and the nutrient used; originally the "wild" yeasts floating in the air did man's fermentations, but today carefully cultured strains are used, adapted to the particular application and protected from contamination. Traditionally the two great fields for yeast are the production of alcoholic products and the leavening of bread, where carbon dioxide bubbles from the yeast give a fluffy structure.

Must Last Lifetime

If your eyes tire easily, or become irritated, obtain competent professional ophthalmic advice without delay. You have two sets of teeth, and can get along even with artificial teeth, but your eyes must last a lifetime.

State of Michigan

In the Office of the Drain Commissioner of the County of Isosco.

In the Matter of the Parent Drain. Notice is Hereby Given, that on the 8th day of November, 1944 a petition was filed with the undersigned County Drain Commissioner for the County of Isosco praying for Locating, Establishing and Constructing of the Parent Drain.

That upon the 13th day of November, 1944, the undersigned filed with the Honorable H. Read Smith, Judge of Probate a petition asking for the appointment of a Board of Determination;

That said Judge of Probate having appointed Harry Van Patten, Edward Burgess and Harry Cross as such Board of Determination;

Now, therefore, said Board will meet at the NE. Corner of Sec. 22 Sherman Twp. on the 7th day of December, 1944, at 10 o'clock in the forenoon of said day to determine the Necessity of the Parent Drain.

Therefore, all persons, municipalities and highway officials interested in the proposed Drain are requested to be present if they so desire.

Dated at McIvor, Michigan this 13th day of November, 1944.

George W. Schroeder,
 County Drain Commissioner of the County of Isosco.

State of Michigan

The Probate Court for the County of Isosco.

At a session of said Court, held at the Probate Office in the City of Tawas City in said county on the 13th day of November 1944.

Present: Hon. H. Read Smith, Judge of Probate.

In the Matter of the Estate of Elizabeth H. Ferrister, deceased.

It appearing to the Court that the time for presentation of the claims against said estate should be limited and that a time and place be appointed to receive, examine and adjust all claims and demands against said deceased by and before said court;

It is Ordered, That all creditors of said deceased are required to present their claims to said Court at said Probate Office on or before the 12th day of February 1945, at 10:00 o'clock in the forenoon, said time and place being hereby appointed for the examination and adjustment of all claims and demands against said deceased.

It is Further Ordered, That public notice thereof be given by publication of a copy of this order, once in each week for three successive weeks consecutively, previous to said day of hearing, in The Tawas Herald, a newspaper printed and circulated in said County.

H. READ SMITH,
 Judge of Probate.

Indiana Counties

Five Indiana counties (those in which its five large cities, Indianapolis, Fort Wayne, Gary, South Bend and Evansville are located) contributed over 40 per cent of the property taxes levied in the state during the 10-year period, 1933-1942, according to a study made by the Taxpayers Research association of Fort Wayne, Indiana has 92 counties. The total property tax levied in the state for the 1933-1942 decade totalled nearly a billion dollars.

Poultry Ration

Experimental work has shown that poultry require somewhat less phosphorus and calcium in their feed when vitamin D is amply supplied than when minimum amounts feed by adding extra amounts of this are used. This means that vitamin D can, in part, compensate for a lowered phosphorus content in the vitamin. However, this does not imply that by adding plenty of vitamin D the phosphorus and calcium content of feeds can be disregarded.

Thomas Jefferson

Thomas Jefferson, whose 200th birthday anniversary was celebrated April 13, was the first man to put plow making on a scientific basis. Plows have been used by man for more than 3,000 years. The Greeks used the butt of a tree to which they added a metal point. The points for these primitive plows were made as late as 1923 in Connecticut for shipment to other agricultural areas.

Disastrous Fires

Forest and grass fires in the United States in the past five years have burned over an area as large as the entire New England states. The timber burned in one of these years would have built 20,000 Liberty ships.

Hatched Chicks

In 1934 some 76 per cent of the chickens grown in North Carolina were hatched under hens but last year the hens were credited with only 21 per cent of the hatched chicks, say BAE reports from Washington.

Pruning Knife

To prune shrubs and woody plants, use a sharp pruning knife and a short pair of pruning shears. Keep them sharp with a small oilstone. A general-purpose 16-inch pruning saw will handle the larger branches.

Fertilize Yearly
The asparagus bed should be fertilized every year the same as the rest of the garden. It should be harrowed every spring before growth starts and should be cultivated during the growing season to control weeds, including grass. For convenience in plowing the balance of the garden, it is best to have the asparagus at one side or in a separate garden.

Calf Vaccination
Calfhood vaccination is a method of combating Brucellosis by injecting calves with an attenuated (weakened) strain of Brucellosis germs which may create resistance in the animal at maturity.

Human Hair Elastic
Human hair not only is larger but is more elastic than that of animals.

State of Michigan
At a session of said Court, held at the Probate Office in the City of Tawas City, in said county, on the 9th day of November, A. D. 1944.
Present: Hon. H. Read Smith, Judge of Probate.
In the Matter of the Estate of Norman D. Murchison, Deceased.
Robert Elliott having filed his petition, praying that an instrument filed in said Court be admitted to Probate as the last will and testament of said deceased and that administration of said estate be granted to Robert Elliott or some other suitable person.
It is Ordered, That the 19th day of December, A. D. 1944, at ten o'clock A. M., at said Probate Office is hereby appointed for hearing said petition.
It is Further Ordered, That notice thereof be given by publication of a copy hereof for three successive weeks previous to said day of hearing in the Tawas Herald, a newspaper printed and circulated in said County, and that the petitioner shall at least ten (10) days prior to such hearing, cause a copy of this notice to be mailed to each party in interest in this estate at his last known address by registered mail, return receipt demanded.

FOR SALE—14-in. slab wood. We deliver or you can call for it. Huron Shores Rustic Furniture Co., Phone 673 W.
WANTED—Electrical work of all kinds. Lloyd Thompson, Phone 456 Tawas City.

Is Your Crankcase Full of MUD?
THIS is the crankcase pan from an automobile. Its owner stuck to peacetime rules and had his oil changed regularly every 1,000 miles. But look what happened! Black, mud-like sludge by the handful almost ruined his motor by clogging oil screens and oil lines, cutting off the oil flow.
Sludge forms fast these days because with lower wartime speeds and shorter trips motors don't heat up enough to drive off impurities. Fight wartime sludge and save your motor by following new wartime recommendations.
Have your Sinclair Dealer—
(1) Drain used oil at recommended intervals, while motor is hot.
(2) Flush parts clean with flushing oil.
(3) Refill with fresh, clean Sinclair motor oil.

6th War Loan Drive

But do we give them the greatest weapon of all?
IN providing our men with the wonder weapons of all time, is our job complete? Have we given them our best?
No! Not until every free dollar in America is invested in War Bonds have we provided our men with the greatest weapon of all. For it is support from the folks at home—support that lets the soldier know we're backing him to our limit—that gives him the greatest part of his fighting strength.
Curiously enough, the farms of America need those War Bonds as urgently as our boys need the weapons and the supplies those Bonds will provide. For as those Bonds mature, they will replace machinery and equipment and provide cash to maintain those farms as profitable business enterprises.
Have any of us yet really done our best?
Let's give those boys the greatest weapon of the war—all the War Bonds we can possibly buy!
5 REASONS FOR INCREASING YOUR WAR BOND PURCHASES
1. The tempo of this war is hitting its highest point. Government expenditures for war are at the peak. MORE MONEY IS NEEDED... NOW!
2. In proportion to WHO HAS THE MOST MONEY, individuals are not buying their share of War Bonds. America must correct this situation.
3. War Bonds provide the farmer and rancher with the financial reserve he must have to survive the ordinary ups and downs of farming as a business.
4. Money will be needed urgently at a future date to replace and repair farm equipment, machinery, and buildings. War Bonds will provide it.
5. War Bonds are the safest investment in the world, return a good rate of interest, are easy and convenient to buy... from bank, post office, rural mail carrier or Production Credit Association.
For America's Future, for your Future, for your children's Future
Keep Backing 'em Up—WITH WAR BONDS!

Luxury Blouses of Rich Fabric Are Exquisitely Embroidered

By CHERIE NICHOLAS

BECAUSE of the fine fabrics that make them, and the exquisite decor that is being lavished upon them, this season's blouses for dress-up and formal occasion spell nothing less than enchantment plus. For the most part they are fashioned of rich rayon weaves in a variety of dynamic colors, and are trimmed with sequin, jet, pearl, crystal and passementerie embroidery.

Subtle femininity and sleek lines distinguish the styling of these handsome formal blouses. Not only are they designed to achieve the new elegance so characteristic of current fashion, but they are also sculptured to candle-slim loveliness at the waist line to conform to the new fitted silhouette trend. Flippant peplums, the belted torso top, and the flattering tunic-type overblouse, all feature the slim theme with the accent on shapeliness.

Russian influence is seen in dashing tunic trimly belted and flaring over dark narrow skirts of rich rayon fabrics such as fine crepes, bengalines and failles. There are vivid toned crepe or brocade types with sleeves and shoulders embroidered in gold and jewels that would seem to have been inspired by the rajahs of India. Others with high neckbands are beaded in Chinese manner.

Embroidered epaulets and fringe on the shoulders of bright red spun rayon basket weave waistcoats have a definite military air. Flattering overblouses with a suavely fitted cutaway look are done in both semifitted and soft dressy lines in such luxurious rayon fabrics as jacquard satins, taffeta or faille with an overplaid of silver. Tuck-in blouses of soft rayon crepes and jerseys which drape well predominate in jewel-like colors, such as topaz, turquoise, persian green, fuchsia, purple and Renoir pink. These types are superbly simple in line, yet they add richness to fall ensembles.

Contrast Jacket

Black with a highly colorful contrast jacket is a leading fashion theme for this fall. In this Sophie original jacket ensemble, the black wool basic dress has black satin insertions at the neck which tie in a bow. Mimosa yellow wool makes the jacket that accents boxy lines with front panels of Persian lamb.

Especially glamorous for cocktail and evening wear are the gleaming white rayon crepes lavishly embroidered in silver, crystal and paillettes. See the lovely model to left below in the illustration. For evening formality this charming white rayon crepe torso top is lavishly embroidered in silver and sparkling crystal. Adroitly placed tucks accent the molded sheath look, and the standing collar is new and distinctive. This beautiful blouse is just one of those treasured possessions that solve the evening dress problem for all time so far as the coming winter social season is concerned.

For semi-dress occasions, basic black or deep-hue overblouses are shown with sheer pastel tops, sequins outlining the yoke as shown above to the right. Here sleek shinning black sequins in a leaf design border a flattering pastel yoke which tops a blouse of soft textured rayon crepe.

Black sequin embroidery in sun-ray effect animates the front of a vivid red blouse done in soft rayon crepe as pictured below to the right in the group. You can wear this blouse tucked in or worn as a molded overblouse, which makes it a particular favorite in that it gives an entirely different effect, which classes it among those double-duty fashions that multiply the efficiency of one's wardrobe. A beauty, too, is this blouse and you will be wanting to wear it with your new and handsome costume suit at day functions, and at night it's stunning worn with a slim floorlength black crepe or velvet skirt.

For the chic fitted jacket-type blouse of spun rayon basket weave in a luscious red, as shown above to the left, black passementerie and embroidery together with deep fringe emphasize the smart broad-shouldered, slender-waisted look which fashion decrees for fall and winter.

Released by Western Newspaper Union.

Designers' Emphasis On Side Drape Skirts

One season it's sleeves, another it's pockets, yokes, jackets or blouses which hold the center of the stage in the realm of costume design. At the present it's the skirt upon which designers are focusing their creative genius. It's fascinating to note what new and novel things are being done with skirts for fall and winter. Of course, we expect to see skirts that belong to this costume or that take on styling details that keynote the dress itself, but the newsy thing this year is that in the separate skirt section they are showing side-drape and side-wrap skirts. So if you would be up to the minute in chic, be sure to ask to see the new side-fastened wrapover skirts. The nice thing about them is that they are so slimming in effect and have that snappy up-to-the-minute style look that women so covet. Other success fashions in skirts include the tiered types, the skirt with a below-the-waist treatment of tiny ruffles done in a peplum way, and for evening the slit siren-slim floor-length sheath skirt is style-important.

Jungle Boots for Indoors

Popular with the college crowd are the new jungle boots that are worn with lounging pajamas and often with daytime slacks in dormitory environs. They are made of green or red washable teddybear cloth with a leopard patterned flannel lining, and can be worn high about the ankle or with cuff turned down to show the lining.

Returning Wounded Are Moved Quickly From Ship to Hospital

Quick, efficient handling of U. S. Army hospital ship debarkations in this country is speeding wounded soldiers, sailors and marines along the road to recovery and rehabilitation.

Charged with the operation of hospital ships and ports of embarkation and debarkation, the Transportation Corps has devised a plan whereby the combat sick and wounded are evacuated from vessels with top speed and with the greatest consideration for their comfort and safety. The soldier with the shrapnel wound, for example, need not worry that his arrival is unexpected or that he'll be inconvenienced by needless delay before he sets foot on home soil. He has "been expected" for quite some time, and welcoming officers know everything from his rank and serial number before his ship slips into port.

If he can walk, he can usually get down a single gangplank in six seconds. If he's a litter case or a major psychotic, it'll take about 30 seconds. On the whole, the last patient is off the ship and on his way

port for the reception and debarkation. Direct radio communication and wireless between the overseas ports and the ports of debarkation in this country supply all the necessary information—the expected time of arrival, the number of patients (averaging approximately 600 per ship), their medical classification, whether they are Army, Navy or Marines, officers or enlisted men and women.

For convenience, patients are placed in one of four categories: Neuropsychiatric patients, hospital litter cases, hospital ambulant cases (who require hospital attention, yet can move about on their own) and finally, the troop class, or patients who need very little hospital attention and can take care of themselves in an emergency.

A flexible evacuation plan allows for storms, mechanical failures and unforeseen difficulties which may delay the ship or for rare instances when a ship may arrive ahead of schedule. Upon arrival, the ship is met in the harbor by a boarding party consisting of the superintendent

Sailors who were hurt in the invasion of Normandy are shown leaving the hospital ship at Charleston, S. C. The "walking wounded" are boarding a Navy bus. Behind them litter bearers are going up the gangplank to bring out the men who are still bed-ridden.

to the hospital within three hours after the gangplank is down.

Twenty Hospital Ships

This is how Uncle Sam prepares to bring back his injured: Overseas base commanders issue a monthly report of the sick and wounded requiring evacuation. This report is sent to the port of embarkation handling that particular debarkation. U. S. Army hospital ships operated by the Transportation Corps are scheduled to reach those foreign ports where the patients are awaiting the voyage home. Two of the 20 hospital ships (most of which are converted passenger liners) are operated in the Pacific by the navy for the army.

Twenty-four hours after the ship has left its overseas port, preparations begin in the United States

ent of the water division, the port surgeon, the port evacuation officer, the general staff corps supply officer, the public relations officer, a United States Customs officer and hospital personnel who inspect the ship for the safest and quickest method of evacuation. Patients are given debarkation tags and wards are numbered in order of their evacuation.

Ships Emptied Quickly

Port personnel required to evacuate a hospital ship vary with the number of patients aboard. Each litter case requires four litter bearers. Psychotic cases require two escorts each, and some ambulant cases need soldiers to guide them down the gangplank and carry their personal baggage. Since the injured show great concern when they are separated from their baggage, the port is careful to make additional transportation allowance for the patients' personal luggage to travel with them.

To keep the traffic moving smoothly, military policemen are assigned to the port's dockside apron and along the route to the hospital. Litters, dressed and stored against the debarkation day, are brought to the ship and the litter patients placed on them in the ship's ward. The litters, transported to the hospital by ambulance, remain there until evacuation is completed and are not re-used for that day's operations—a time-saver to eliminate the necessity of waiting for additional personnel to redress them.

Maj.-Gen. Charles P. Gross, chief of transportation, and the commanding general of the port of debarkation are responsible for the sea evacuation of patients from the moment they leave the jurisdiction of their overseas commanders. On the Atlantic coast, the Charleston port of embarkation is the "port of call" for hospital ships and devised the evacuation plan now accepted as standard. On many occasions, the Charleston port evacuated 163 litter patients at a rate of 15 seconds each!

On the whole, the Transportation Corps is giving injured soldiers, sailors and marines a welcome they honestly appreciate. They like the music of the military band which is always on hand to greet the ship. And there is one brief delay which they thoroughly enjoy—the time out for crisp doughnuts, milk and ice cream served by Red Cross volunteers. Everywhere there is speed and efficiency, a helping hand, a waiting ambulance.

The sick and the wounded have come home.

What to Do

By PHYLLIS BELMONT

Question—I have some very beautiful and very old tumblers that I use with dinner service. A friend told me tumblers are incorrect and I should have stemware. Is she right?

Answer—Strictly speaking your friend is right. Stemware is preferred for dinner use, and tumblers for more informal occasions, such as breakfast and luncheon.

However, if your glassware is old and rare you should be happy to use it. People enjoy a hostess who will do the unusual and everyone likes beautiful things—so use your tumblers when you wish.

If you select stemware be careful to choose a pattern that will go with the rest of your table appointments. Certain types of glassware are suitable with certain types of china, silver and table coverings, so take all those things into consideration when selecting your new glassware.

Driver to Pay \$5,092, 100 Years Is Allowed

LONDON.—A truck driver involved in an automobile accident was ordered to pay \$5,092 damages—but he was given over 100 years to complete the payment at the rate of \$4 per month.

The decision against the driver, John E. Newell, followed evidence that he was a married man earning less than \$16 weekly.

PINS WITH A PLOT

Honestly, the things that clutter up a teen ager's sweater and jacket lapels would amaze you! Well, anyway, they would amuse you. We've rounded up three new pins-with-a-plot that are bound to start tall talk (not small talk) anywhere.

Drool Cup—If you've noticed little doll's tea cups hanging from the lapels of some of the wiser witches don't think they've gone into a premature second childhood. If you look closely, you'll see the telling words, "Drool Cup," written in red nail polish, and, if you've been keeping up with the march of time, you'll know that a drool cup is what every girl asks someone to pass when a smooth wolf walks by—or when Sinatra sings—or, in fact, when anything or anybody sends her.

Rare Relic—You know how precious bobby pins are these days, what with all the available metal needed for jeeps and tanks and other tokens for Tokyo. That's why lots of girls are proudly exhibiting their last remaining bobby pins on little squares of shellacked wood, with "good as gold" written in nail polish beneath them. Use liquid cement to keep the pin secured to the wood. If you cover the bobby pin with red polish your gadget will be more decorative.

Hobo Honey—It's the easiest thing in the world to make a hobo pin. Just stuff a pretty handkerchief with cotton. Tie it to a small stick like a hobo bag and attach a pin in back. Sharp stuff for sports clothes.

PARTY WIRES

Once you get a party started, it will take care of itself. Very few girl and boy parties are self starters, so, if you're the hostess, it's up to you to break the ice. When the gals are giggling in one corner and the boys are looking sheepish

in the other, you'll need these first aids for fun.

Black-Out Business—Dancing in the dark is a popular teen trick, as well as a popular song. For a black-out dance, turn out the lights and give the extra boy a flashlight. He prowls around until he finds his favorite Paper Doll and then he turns the flashlight on her. He gets the girl and her partner gets the flashlight. It goes on and on until somebody (usually the chaperone) turns on the lights!

Sinatrouts—Nothing brings down the house like a Sinatra contest. All the boys have to imitate the one and only Frankie and the best imitation gets a prize. It's a panic. Sinatra's getting worried, too—the competition's keen.

Target Practice—After the boys and girls have arrived, bring in a game of darts, with names of the girls written all over the target. The idea is for the boys to throw darts for partners. (Not "AT" partners, please!)

Loose Ends—One of the most novel ways of pairing the guests off is to put the boys and girls in separate rooms. Give each boy a long piece of string to hold and run the other ends of the strings into the room where the gals are waiting unexpectedly. Every girl picks a string and follows it into her partner's arms. (They start to dance, of course!)

TRIXIE TEEN SAYS—

Sure, you have a line. Everybody has. You need more than one line if you want to catch more than one fish—and who doesn't want to make a big haul? Boys have a way of talking things—and gals—over among themselves, just as you gals discuss them. One of them will repeat the pretty nothings you whispered into his ear during that dreamy blackout dance, and he won't like it one bit when his pals cry "ditto." Don't be a carbon copy conversationalist—you're bound to get monotonous.

The Rambling Rhymster

By LES PLETTNER

MOVIES

When week of work is o'er and done, There comes a time of rest. We're then in mood for little fun For change we have a zest. Some recreation we would seek . . . For that we know a place Where people tame and mild and meek

Their troubles may erase. It is a place where shadow folk Disport upon a screen, Make serious talk or funny joke, With straight or comic mien. It is a place where we embark Upon adventures strong To fight through storm and stress and dark

To right some grievous wrong. It is a place we smile and laugh At jesters droll and gay Who, with their banter and their chaff,

Restore things gone agley. It is the place we live again The romance of our youth, As though the years had never been, They drop away . . . forsooth. At shadow world we sit and gape, While from our own we flee. Thus for a moment we escape From harsh reality.

Airliner Will Cross Country in 8½ Hours

Air travelers will fly from coast to coast in 8½ hours, traveling at 300 miles per hour in comfort. Improved transport planes which will be available soon after the war ends can accommodate 52 passengers. Planes making the cross country

run, or the trip to Honolulu will be equipped with berths. Lounge rooms, a kitchen where hot food will be prepared, and more space for luggage are some of the other features. The United Airlines has ordered 50 of these new models.

Plane Rocket Problems Are Solved by Professor

LONDON.—Two of the major problems—ballistics and sighting—which threatened to delay installation of rockets in Allied fighter planes, were solved by Carl David Anderson, professor of physics at the California Institute of Technology, it has been disclosed. The Nobel prize winner was flown to the European theater when the difficulties developed, worked out the problems and has returned to the United States.

Washington, D. C.

WAR IN SOUTH AMERICA

Most Americans have been so engrossed in the World War that if you told them war was brewing right here in the Western Hemisphere, they never would believe it.

Yet buzzing backstage in the Washington diplomatic corps has been a growing, worrying reverberation over the ultimate danger of war between Argentina and Chile—not this year, perhaps not next year, but before very long.

Additional attention was focused on the unhappy situation with Argentina's bid for a conference of Pan-American foreign ministers—on an obvious move to put the U. S. A. on the spot and force recognition of the Fascist Farrell militarist government in Argentina.

The whole tangled diplomatic controversy between Argentina, the United States and other neighbors is so involved that it takes an expert to understand it. But out of the mess emerges these basic and alarming facts:

- 1 — Argentina is rushing armament. Hedy Lamarr's former husband, Fritz Mandel, the Austrian munitions king, about whom "Idiot's Delight" was written, is busy building airplanes for Argentina night and day.
- 2 — Argentina could bomb Santiago, capital of Chile, from Mendoza, just across the Andes, in 40 minutes. It would take five hours for Chile to bomb Buenos Aires, capital of Argentina.
- 3 — The people of Chile today are worried sick over Argentina. The Socialist, Communist and Conservative parties, usually vigorously divergent, are now united on this. They fear that the Argentine Fascists, looking for means of keeping themselves in power, as Hitler did with the German people, will make a Czechoslovakia out of Chile.

Brazilians Admire Argentina.

Other Latin Americans are divided. Paraguay, Bolivia, Peru sympathize with Argentina. Officially Brazil does not. But actually the Brazilian people, plus many of the Brazilian army, are rooting sympathetically for the one country south of the Rio Grande which has successfully thumbed its nose at the Colossus of the North and got away with it.

Nothing succeeds like success, especially in the Latin American mind. The state department adopted only halfway measures with Argentina; snubbed her diplomatically, but made her prosperous economically by continuing to buy meat. The Argentines didn't care much if they were snubbed as long as they were prosperous.

Result is that many "good neighbors," though not liking Argentine Fascism, enjoy seeing U. S. diplomacy come to grief.

NOTE — Meanwhile, the United States is less equipped to handle things in our own hemisphere than ever before in two decades. Secretary Hull is sick. His best Latin American experts were friends of Sumner Welles and were given the gate after Welles resigned.

CONCERNING THE WAR'S END

A lot of people have tried their hand at predicting the war's end, including this columnist. Some were high-up officials, some private prognosticators. Some were pretty good, some pretty bad.

Rep. Earl Wilson, Indiana Republican, in June, 1943, got an average compilation from 140 congressmen that the war would be over in October, 1944.

Adm. William F. Halsey, who predicted "complete, absolute defeat for the Axis in 1943," was asked again, on December 13, 1943, and "wasn't so sure when the war would be over."

Gen. "Hap" Arnold, chief of the air forces, on February 14, 1943, predicted "the German war will be over by February 14, 1944."

Jim Farley, on January 20, 1943, "The war will be over this year."

Gen. Levin Campbell, January 15, 1943—"The war will be over in about two years."

Herbert Hoover, November 6, 1943—"Certainly we are now in the last stages of the war."

Raymond Moley, November 8, 1943, predicted end of the war "earlier than envisioned by the administration."

Senator O'Mahoney, Wyoming Democrat, January 2, 1944: "The most conservative Swedish observers do not believe that Germany can endure beyond next June."

Sun Fo, president of the legislative Yuan of China, January 2, 1944: "Germany will be knocked out between the spring and summer of this year."

Henry Ford, March 20, 1944, predicted war would be over in two months.

Senator McKellar of Tennessee, July 21, 1944: "The Red army will be in Berlin in 60 days. The war will be over on all fronts in six months."

Congressman May, Democrat, Kentucky, July 28, 1944: "Germany will capitulate by December 1."

Guest of Air Force

Hot dogs and raisin pie were served to this French lad by members of the U. S. army Ninth air force service command unit in France. Mess call always finds a number of the French children lined up for chow with the GIs. Thousands of French children have to be fed.

Aviation Conference Underway

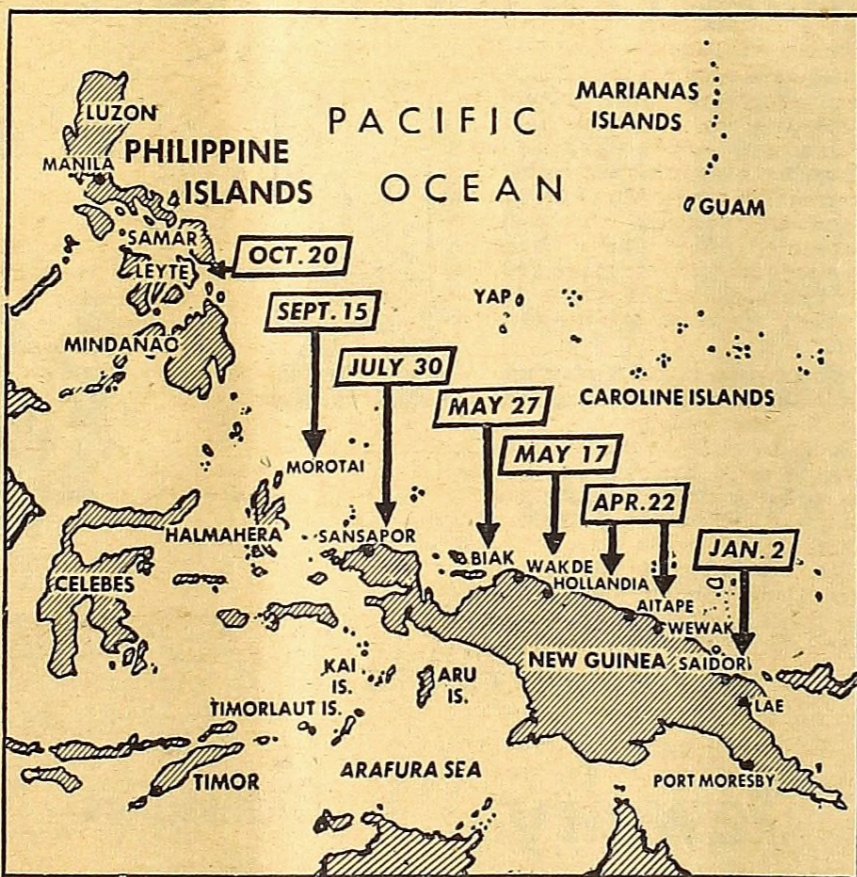

Adolph Berle, assistant secretary of state, and temporary chairman, is shown as he made the opening address of the International Civil Aviation conference held in Chicago. Delegates representing 50 countries met in first conference of its kind, hoping to work out a plan for world air transportation. The conference has dedicated itself to the world-wide peace-time aviation development.

GIs Build Bamboo Water Line

Bamboo water line is supported across a defile by trestle also made of bamboo. This improvised line, in Yunnan province of China, the end of the lines for American army supplies, released hundreds of Chinese coolies from carrying water in order that they could handle other essential war supplies for American and Chinese forces.

Gain by Gain Toward Victory

This map shows the steps taken by Gen. Douglas MacArthur as he kept his vow to return to the Philippines. On the second day of January, 1944, he made his first major leap-frog jump along the coast of New Guinea from Lae to Saidor. The map shows the succeeding operations, climaxing in the invasion of the Philippines.

Commands Invasion

Maj. Gen. James L. Bradley, commanding general of the 96th infantry division, leads his division in the invasion of Philippines. The troops received extensive training for the present campaign in the Hawaiian islands.

Crossing the Alps

Typical of the terrain over which our forces must battle in northern Italy is this jagged pass at Della Stelvio. These are the Austrian Alps on the Italian-German border. The man-angled white strip is the Burma pass-like road.

Waiting for Flush

Dog, Joe Contender, and his hunter, working like two halves of a well-oiled machine, stand by a covert. The dog is in a point and the hunter is ready for his shot.

Awarded Nobel Medicine Prizes

All 1944 Nobel prizes for medicine went to the United States, the Nobel committee has announced. Dr. Joseph Erlanger, St. Louis, Mo., (left); Dr. Edward A. Doisy, St. Louis, Mo., (center); and Dr. Herbert S. Gasser, of the Rockefeller Institute, New York city, were awarded the prizes for medical research work.

THAT THIRTEEN-CENT STAMP
Special delivery stamps jumped from a dime to thirteen cents November 1st. And you can't even get two for a quarter.

It is getting so that for what it costs to mail a letter a fellow can almost deliver it himself.

Why the increase in the price of special delivery stamps? Have they changed the size again? No. Are they turning it out in more colors or shapes? No. Do you get a chance on a turkey or something with it. Nope!

And why the thirteen cents? Why not fourteen? Or twelve? What is there about the economic situation that fixes the autumn rate for specials at exactly thirteen cents, no more, no less, retail and wholesale?

Elmer Twitchell has been making inquiries. He says he has been told that it is the art work on the stamp. It shows a nice brick building with a lady in a doorway taking a letter from a mailman. In the foreground stands his motorcycle. "The motorcycle has been standing there in that engraving so long it is all rusted up and they've got to get a new one," said Elmer. "And that takes time, influence and money. Also it's out of gas."

"The old gal getting the letter is dressed in the garments of the McKinley era," he continued. "When people pay ten cents for a postage stamp they want something classy. Well, Washington is going to put a glamour girl in the doorway, and glamour girls are up 80 per cent since the war."

"If you look at the old stamp closely you will notice that the guy with the letter is standing with one foot on the street and one foot on the doorstep. He's been standing that way for years, ever since away back before Coolidge. So what? So he's got a stiff leg and they've got to treat it, and all the doctors are in the war so they've got to treat it through politicians. You know what that costs."

"Then you'll observe that the lady in the doorway has the door almost wide open. And it's been that way for decades. With the fuel situation what it is, Secretary Ickes wouldn't stand for that. He ordered the door closed!"

"Did you ever try to close a door on a postage stamp? It's no cinch. It means a new house, a new doorway, a new door, a new woman, a new mailman and a new motorcycle."

"You can't change the house on account of priorities. A new door has to be processed. No new women are issued without fifty forms, questionnaires, applications, etc. A lot of mailmen were washed away in the last hurricane, and then there's loss by erosion. And they ration motorcycles."

"Thirteen cents for a new stamp! Why it's dirt cheap," concluded Elmer.

THAT EXTRA PAIR OF PANTS
WPB is reported about to modify the limitations on men's suits. Since Pearl Harbor the extra pair of pants, the trouser cuffs, patch pockets and belts have been against the rules.

Pants have gone to war, it has steadfastly held.

Only if you knew a bootlegger in the pants business could you get a spare pair.

When the original pair disintegrated or got caught on a nail you could bring it in and argue the tailor into cutting another set, if he had the material, a good kindly nature and no fear of internment, as a scuttler of the war effort.

Pants for victory! That was the slogan.

With such others as "Spare the trousers and help win the war!" "Your pants can ruin Hitler!" "Be a one-pair-of-pants man and preserve democracy!" and "Let your pants go all-out for civilization!"

Be that as it may some modification of WPB rules are ahead. It is reported unsold on the claim that a man is a more useful citizen with an extra pair of pants—that his morale is better—that a spare pair constitutes the Fifth Freedom.

Then there was the slogan against belt-in-the-back-of-the-coat. "One less belt in the back will give Hitler one more belt in the front."

We got a laugh out of the statement: "The clothing manufacturers are against a return to an extra pair of pants." Why wouldn't they be? They sell suits more often when the consumer has no "reserves."

Belts? Let 'em go! Cuffs? Away with them until the global triumph comes! Vests with double-breasted coats? Who cares in an all-out war!

SEWING CIRCLE PATTERNS

'Date' Dress Is Slim, Graceful

and winter in velvets, velveteens, taffetas or rayon crepe.

Pattern No. 8711 comes in sizes 12, 14, 16, 18 and 20. Size 14, short sleeves, requires 4 1/4 yards of 39-inch material; three-quarter sleeves, 4 3/4 yards.

Firestone

FACTORY-CONTROLLED RECAPPING
Grade A Quality Camelback Used

6 Reasons Why You Get a Better Job With Firestone Factory-Control Methods

- (1) THOROUGH INSPECTION**
Before any work is done, your tire is thoroughly inspected. Any weak spots or nail holes are marked for repair.
- (2) EXPERT REPAIRING**
When repairs are needed, a trained specialist using latest approved methods builds up weakened or broken areas.
- (3) CONTROLLED BUFFING**
The worn tread is precision-buffed for perfect balance. Only a minimum of rubber is removed to provide proper surface.
- (4) ACCURATE TREADING**
New tread rubber of highest quality is carefully applied to the buffed tread base. Care and precision insure a well balanced tire.
- (5) SCIENTIFIC CURING**
Careful scientific control of time and temperatures assures proper toughness and maximum wearing quality of the recap.
- (6) FINAL INSPECTION**
Complete final examination carefully inspects inside and outside of tire. Note sharp, clear tread, ready for thousands of additional miles.

**School
 NOTES . . .**

Armistice Day Program
 Armistice Day was celebrated by
 the students of Tawas City High
 School. The high school band under
 the direction of Mr. E. Potts, was the
 first to appear on the program. The
 band played the following numbers:
 Star Spangled Banner; Military Es-
 cort; and Dreadnaught.
 Mr. C. F. Hamilton, president of
 the Tawas City Chamber of Comm-
 erce and veteran of the last war, ad-
 dressed the students. In his address
 he pointed out the part that "We the
 Students of Today, will play as Fu-
 ture Citizens of Tomorrow." His
 speech was thoroughly enjoyed by all.

High School
 The twelfth grade American Gov-
 ernment class has completed two of
 the six tests published by the author
 of the textbook. The results obtained
 by the class are approximately the
 same as those obtained by the author
 by giving the tests to many high
 school students of similar prepa-
 ration.

The eleventh grade American His-
 tory class has spent the past week in
 a study of the making and adoption
 of the Constitution. There are some
 excellent books in the high school
 library covering this period. Among
 these, "The Journal of the Consti-
 tutional Convention," was written by
 James Madison, the last survivor of
 that great convention of 1787. Mad-
 ison took notes in the debates during
 the day, writing them out every eve-
 ning as a journal. After his death,
 his widow sold this journal to Con-
 gress for thirty thousand dollars.

At a recent meeting of the Board
 of Education it was decided to add
 Friday to the Thanksgiving vacation.
 As a result there will be no school on
 Thursday and Friday, November 23
 and 24, of next week.

Shop
 The old stair way to the shop has
 been converted by Don Coates and
 John Gracik of the second year shop
 boys into a storeroom for the athletic
 equipment. Our new suits are now
 provided with shelves and racks for
 their storage.

John Gracik and Don Gingerich
 are lowering the firepot into the base
 of the forge in the shop. It has been
 too high for proper coking of coal.
 Following a few days of "shingle
 making," the seventh grade shop
 boys are now producing squared
 boards for their bench hooks.

The shop was open Thursday
 night for the convenience of the
 townspeople. Mr. V. Bouchard and
 Mr. W. Finley were our first "mech-
 anics" to come in to do some repair
 work. The shop is to be open Tuesday
 evenings from 7:00 to 10:00 during
 this season. Mr. Roberts, the shop
 teacher, says that these are not
 classes, but rather opportunities for
 people to make use of their school.

7th and 8th Grades
 Opal Lince and Virginia Sims
 wrote A papers in an Eighth grade
 history test.

Vernadean Trask has been absent
 because of illness.
 Everyone enjoyed the program at
 the gym last Friday.

Several of our boys are going
 hunting Wednesday.
 Our room gathered thirty eight
 sacks of milkweed pods.

The Science Class made some very
 good drawings of Modern Home wa-
 ter systems and Community Water
 Supply. We think Richard Matchuret
 and Clifford Grove are real artists.

5th and 6th Grades
 The fifth grade language class
 made address books.
 Jerry Gracik received an A in a
 recent 6th grade history test on the
 Egyptians.

The fifth grade has begun the
 study of fractions.
 We are reading "Bambis Children"
 for opening exercises.

Clare Phillips, Janet Ogden, Jim
 Misner, Norman Wescott, Betty Los-
 sing, Rosland Gackstetter, Joan Mus-
 olf, Harry Morley, Shirley Allen,
 and Nancy Rollin had perfect scores
 in the Fridays spelling test.
 Norman Westcott and Shirley
 Allen wrote A papers on a recent
 5th grade arithmetic test.

3rd and 4th Grades
 We are glad to have Kay Brunning
 back in school again. She was absent
 for several days because of illness.
 Clarence Lossing is able to be with
 us again too, for which we are

very glad. He has been sick with
 throat trouble.
 Lois Ann Evans has returned to
 Detroit. We shall miss her very
 much.

Edward Hanna brought a splendid
 bird book of his own to school. We
 are enjoying it alot and finding out
 the names of many birds we didnt
 know.

Primary Room
 The following second graders had
 perfect spelling lessons all last week.
 Melvin Timrick, Patsy Ann Alda,
 Louis Potts, Virginia Haglund, and
 Kenneth Rollin.

Our Monitors this week are:
 Donald Russel, Sharon Boomer, Neil
 Abbot, Gary Chaney, Richard Ash-
 more, and Bobby Morley.

The War Stamp sales in our room
 amounted to \$9.75 last week.
 The first graders have received
 their number work books and enjoy
 working in them.

We are very sorry that David Fea-
 theringill had the misfortune to have
 his leg and collar bone broken last
 week when he was struck by a car
 on his way home from school. We
 hope that he has a rapid recovery.

Kindergarten
 The Kindergarten have finished
 the story of the "Elves and the Shoe-
 maker". We want to play this story
 for the first and second graders next
 week.

We have learned several new
 games and we play with the first
 and second graders in the gym. We
 can play "Pussy Cat" and now we
 are learning "The Pumpkin Ran
 Away."

G. Allen Prescott, Carl Babcock II,
 Juddy Austin, Patricia Ashmore,
 have bought Defense Stamps every
 week.

**No. 1 Continued from
 First Page.**

Mr. and Mrs. Graham received
 many lovely gifts and many beauti-
 ful flowers from their friends.

The children who were present
 were: Mr. and Mrs. Frank Dease
 and daughters, Dorothy and Mrs. M.
 Gould, Mr. and Mrs. Harry Graham
 of Bay City, Mrs. Dio Hunt, Alta and
 Dale Thompson and Mrs. Robert Hal-
 loway of Flint, Mr. and Mrs. Archie
 Graham, Mr. and Mrs. Edward Gra-
 ham, Jr., and two children, and Mr.
 and Mrs. Floyd Freel and two chil-
 dren of Whittemore.

Others from out of town who were
 present were: Mr. and Mrs. Leo Cul-
 ham of Cabri, Sask., a brother of
 Mrs. Graham, Mrs. Stella Campbell
 of Gaylord, Mr. and Mrs. H. McLean
 of Saginaw, Mrs. Lena Dardas of
 Bay City, Mrs. Rose Watts, Mr. and
 Mrs. Archie Coby, Mr. and Mrs. Wil-
 liam Leslie and daughter Arlene,
 Mr. and Mrs. James Leslie, Mrs. E.
 Laidlaw and Mrs. Rollie Gackstetter
 of Tawas City.

The many friends throughout the
 county wish this grand couple many
 more years of happiness and good
 health.
