TAWAS CITY

Chamber of Commerce Boosts Tawas River Improvement Project

BANQUET AT BARNES HOTEL TUESDAY NIGHT

Frank Davis of Bay City Will Be Principal Speaker

The Tawas River Improvement project will be one of the principal subjects discussed at the Chamber of Commerce banquet which will be held next Tuesday evening at the Barnes Hotel. Improving the river as a protected harbor for small craft has been recognized by small boat owners on the Great Lakes for many years as one of the needs for Saginaw bay. Charles F. Hamilton, president of the Chamber of Commerce recently appointed a committee to take the matter up with Congressman Roy O. Woodruff and other members of congress, and the committee will report its progress at this meeting.

Other important projects to be discussed at the meeting will be the proposed Boy Scout camp at the "Glen" and the Tawas City Park. The membership committee will also report its progress at this meeting.

Frank Davis, secretary and manager of the East Michigan Tourist Association, will be the principal speaker at the banquet. His subject will be pertinent to the interests of this section of Michigan. Mr. Davis is well known here, and is a very interesting speaker.

President Hamilton, urges every citizen to attend this banquet and meeting. He emphasized that a special invitation is extended to the ladies. He also said that the membership campaign for the Chamber of Commerce was progressing in a very satisfactory manner and that about 50 people had signed up. "Don't wait for someone to call on you," he said. "Apply to George Myles at the city hall, or you can find me at the mill."

Tickets for the banquet are on sale Keisers Drug Store, Tawas City Restaurant, C. L. McLean & Co. Ferguson Market, Brugger's Market, George Myles Insurance Agency, Carl Babcock and Bronson Garage.

Isoco Circuit Court Convenes Tuesday

The following cases are on the calendar for the December term of circuit court commencing next Tuesday:

Criminal Cases
People of the State vs. LeRoy Salisbury. Entering without breaking.

Civil Cases
Cye W. Conley vs. Orville Leslie and Dora Leslie, husband and wife. Assumpsit.

Wallace Minthorn, administrator of the estate of Ida Mary Minthorn, deceased, vs. Gordon W. MacAndrews, Hamell Fisheries, Trespass on the case.

Clarence Konders vs. Theodore St. James. Appeal from justice court.

Chancery Cases
Kenneth Gordon vs. Leola Gordon. Divorce.

Ellen A. Christner vs. Charles R. Christner. Divorce.

Ruby H. Vaughan vs. Kenneth B. Vaughan. Annulment.

Marjorie M. Lickfeldt vs. Howard W. Bowman and Frances Bowman, his wife, and others. Interpleader.

Petitions for Naturalization
William Roy Wickert.
Louis Kun.
John DiMuro.
Constantinos Koukourlis.
John Joseph Murphy.
Orwell Ball.

Will Advise on Farm Income Tax Reports

In order to assist individuals who prepare income tax returns for farmers, and individual farmers who prepare their own returns, a meeting will be held at the Grant township hall, Tuesday afternoon, December 5, beginning at 2:00 o'clock fast time. Byron Brookhout of the Farm Management Department, Michigan State College, will be present to answer questions on the subject and will offer suggestions on the preparation of a farmer's income tax return. Anyone interested in the subject is welcome to attend.

WANTED—Men to work in interesting phase of the oil industry. Call 62 W. Tawas City.

Mr. and Mrs. Oren Misener Observe Golden Wedding

Mr. and Mrs. Oren Misener celebrated their Golden Wedding anniversary on November 26th at their home with 39 guests present. Lunch was served buffet style and the beautiful three tiered cake was made by Mrs. Roger Misener.

The Miseners have lived in East Tawas for the past ten years, where Mr. Misener was employed by the Detroit and Mackinac Railway Company and was retired six years ago. They also have lived at Sturgeon Point, Bay City and Alpena.

Out of town guests included three of their four children, Walter and Roger of Flint and Mrs. Willard Smith (Joy) of Alpena. Everett was unable to be present.

Guests from Alpena included Mrs. Percy Hagen, Mrs. Martha Bonker, Mrs. Carrie Wilkerling, Mrs. Ralph Bailey and sons, Mrs. Jennie Wilkins, Mr. and Mrs. Willard Smith, Gene and Ardath Smith; Flint guests were Mr. and Mrs. Walter Misener, Mr. and Mrs. Roger Misener, Mr. and Mrs. Roy Misener, Mrs. Lou Owens, Mrs. Thos. Waldron; and Mrs. Dorothy Misener Youngs of Detroit.

Former Tawas Resident Dies at Detroit

J. Roy Goldie, 1021 Rademacher St., Detroit, former resident of this city, died suddenly at his home Saturday, November 25.

He was the son of Rev. and Mrs. P. C. Goldie. His father was at one time pastor of the Presbyterian church here.

He is survived by the wife, Hazel; his daughter, Mrs. Lois Carey of Kenosha, Wisconsin, and son, Jack Goldie, U. S. N.R., also brother, Rowland Goldie of Detroit, and sister, Laura Pendergast of San Diego, California.

Have you dropped your Christmas Gift for disabled servicemen and women in the box at your merchant's? The gifts will be sent to nearby hospitals caring for our sick and wounded by the American Legion and Auxiliary Auxiliary who are sponsoring the campaign ending December 6.

About the only thing I care to remember over here are the Alp Mountains. They are truthfully beautiful. You can look down at them and see tiny dots representing houses. Coming from the chimneys are wisps of black smoke. (These are about the only signs of life about them. As I fly over them on the way to our target, I look down at the smoke drifting upward, and I say to myself "Would I like to be down there in front of a roaring fire without a care in the world.")

Albert L. Bleu of Pontiac, formerly of Alabaster, received word recently that his daughter, Alberta L. Bleu, of the Army Nurse Corps, has been promoted from second to first lieutenant. Lieutenant Bleu has been in the service since October 1942, and has been overseas since December 1942. She has served in Africa, Sicily, France, Belgium and is now in Germany. She is in a surgical unit and is with the First Army.

Mrs. Marjorie Baclawski, former (Turn to No. 1, Back Page)

TAWAS CITY ELKS LOSE TO STERLING

Second Team Wins 21-17; Girls Team Loses 13-6

Last Tuesday evening the Tawas City Elks lost their first game of the year to Sterling 34 to 25. The game was a see-saw battle between the two teams, with a very narrow margin between both teams. Both team showed excellent ball handling and passing and made very good foul shots.

Sterling took the lead in the first quarter, by making 11 points when Bartlett and Shepard each made three points and Bell made five points. In the first for Tawas, Landon made three points, O. Herriman made four, and C. Herriman and Ogden each sunk a foul shot.

In the second quarter Tawas made eight points for a slim margin of a point, over Sterling. C. Herriman made two points, Landon made one point, Ogden made three points, and Thornton made two points.

In the second quarter for Sterling, Cousins made one point, Bell and Buggvalh made two points. Score at the half, Tawas 17 and Sterling 16. Sterling came back in the lead in the third quarter by making 14 points. Bartlett made six points, Shepard Dunn, Bell and Buggvalh each made two points.

In the third quarter for Tawas, C. Herriman made two points, Landon made one point, O. Herriman and Thornton each made two points.

In the last quarter the Tawas boys were unable to catch up to Sterling. High point man of the game was Bartlett of Sterling with 11 points. While Olen Herriman and Clare Herriman each made six points.

| Tawas City | FG | FT | TP |
|----------------|----|----|----|
| C. Herriman, f | 2 | 2 | 6 |
| Landon, f | 1 | 3 | 5 |
| Ogden, c | 1 | 2 | 4 |
| O. Herriman, g | 2 | 2 | 6 |
| Bubltitz, g | 0 | 0 | 0 |
| Thornton, g | 0 | 4 | 4 |
| Ross, c | 0 | 0 | 0 |

| Sterling | FG | FT | TP |
|-------------|----|----|----|
| Bartlett, f | 5 | 1 | 11 |
| Cousins, f | 0 | 1 | 1 |

| Fillipin, g | 1 | 0 | 2 |
| Osteoski, g | 0 | 1 | 1 |
| Goodee | 1 | 0 | 2 |

The girl's team lost to the Hawks 3 to 10. The Sterling team completely overpowered them all through the game.

Tonight the team goes to Rose City where they will play their first league game of the 1944-45 season.

Young Women's League

A program, centered around Central and South American countries was presented to the Young Women's League Monday evening. A series of films were shown depicting life in several of the Mexican communities, one of Brazil and another of Uruguay. The culture and resources of these countries were vividly shown.

"The Editor and Public Opinion" was presented by Miss Edna Otis. A clear picture of the position of an editor was given and his roll in crystallizing the opinion of the general public.

Mrs. Hilton Hess and Mrs. F. B. Lomas served as hostesses for the evening.

Notice to Taxpayers

Will be at my home to collect taxes Wednesday of each week, from 9:00 a. m. to 9:00 p. m.

Mrs. Eleanor Durant, Grant Township Treasurer.

Grant of Thanks

We wish to express our thanks for the kindness extended to us during Mrs. Vallier's illness.

Mr. and Mrs. Peter Vallier.

ANNOUNCEMENT
Beautiful sheer hosiery, lovely lingerie, Men's sport shirts, ties and socks. Phone 52 M. Mrs. Walt Sabin, Real Silk Representative, Tawas City.

EAST TAWAS

Don't forget to drop your gift for disabled soldiers in the large box at Goulds or Dimmicks—sponsored by Legion and Auxiliary of East Tawas. These gifts will be sent to the disabled soldiers in nearby hospitals about December 10.

Bob Dixon of Detroit visited at the Ory Applin home over the week end.

Mrs. A. B. Christenson entertained a number of guests at dinner Thursday evening in celebration of the Thanksgiving season.

Mr. and Mrs. Vern Houghtaling and son of Reese spent Thanksgiving with Mr. and Mrs. John Collier.

Mrs. Luther Jones, Mrs. Nina May and Mrs. Edgar Jones were Bay City callers on Saturday.

Mr. and Mrs. Charles Fairfield and son of Garden City spent Thanksgiving and the week end with Mr. and Mrs. Edw. Cowan.

Mr. and Mrs. Stuart Hecox (Nina Haglund) of Dearborn are the parents of a daughter born November 22. She has been named Victoria Jayne.

Installation of officers for the W.S.C.S. will be held Tuesday afternoon at 2 o'clock at the home of Mrs. Luther Jones.

Herman Deshaw is numbered among the younger hunters to get his deer. He shot a 4 point buck early in the season while hunting from the Rowley camp.

Little Margo White celebrated her 3rd birthday on Tuesday with a party at the home of her grandparents, Mr. and Mrs. Elmer Durant. Present for an enjoyable afternoon were Ronnie and Terry Johnson, Barbara Durant, Denny Durant and Julie Ann Gungrich. Ice cream and cake were served. Margo received many lovely gifts.

Mrs. Peggy Scott spent Thanksgiving with her daughter, Mrs. Pete Stanley, Jr. at Augres.

Mrs. W. A. Evans and daughter, Miss Ruby, have returned from Bay City, where they had spent several days.

Mr. and Mrs. Elmer Durant and granddaughter, Margo White spent Thanksgiving with Mr. and Mrs. G. A. Pollard at Ossineke.

Mrs. Agnes Ledlie of Durant spent several days last week at the home of Mr. and Mrs. Frank Bean.

Sgt. and Mrs. Kenneth Gungrich are visiting his parents in Los Angeles, Calif.

Julie Bean of Royal Oak spent the Thanksgiving week end at the home of his brother, Frank Bean, and did some deer hunting. He took back a 6 point buck.

Mr. and Mrs. J. H. Wideman and daughter, Jackie, left Tuesday for Sebawaing, where the former will trap.

Mrs. E. H. Tomes, Dr. William Foster and Mrs. Leonard Ingalls son, Bud, spent the Thanksgiving holiday with Mr. and Mrs. Albert S. Martin.

Eugene Provost suffered a stroke last Friday evening and is only slightly improved.

A member of the Methodist young people attended a You is Fellowship Recreational meeting at Hale last Friday.

Mr. and Mrs. Donald Harwood and son, Ronnie, of Corunna spent the week end with the formers parents, Mr. and Mrs. C. C. Harwood.

Thanksgiving guests in the C. E. Lickfeldt home included Mr. and Mrs. Thurman Anderson and son, Mr. and Mrs. Robert Lickfeldt and Mr. and Mrs. Harry Morley and family of Tawas City.

Mr. and Mrs. D. M. Small and family visited relatives in Crosswell the latter part of the week.

Mrs. Ralph Harwood and son, Paul, spent Friday and Saturday at the C. C. Harwood home.

Elmer Sheldon returned from the hospital at Ann Arbor. He is improved.

Mrs. Rose Martin has spent the week with her daughter in Detroit.

The Senior Grace Luther League will meet for the annual Christmas party and election of officers at the home of Mrs. Nunn next Thursday evening, December 7th.

The American Legion Auxiliary will hold its annual Christmas party at the home of Mrs. Lois Keipholz next Monday evening at 8 o'clock.

FOR SALE—Two all around work Horses, 8 years, Black Gelding, weight 1600, 5 year old Bay gelding, weight 1300. Priced to sell. G. E. Olson, Old US 23, Wilber.

WANTED—One inch lumber, any width or length. Also nonlar, basswood or hemlock logs. Call or write Michigan Engineering & Manufacturing Co., Rose City, Mich.

The following will report for production examination December 5 and leave from the Isoco County Selective Service Office at 3:50 p. m. for Detroit:

Guy Shellenbarger, Oscoda.
Albert Kinney, Whittemore.
Dewayne Hall, Whittemore.
Nile Miller, Whittemore.
Lloyd Polley, Turner.
Russell Anschuetz, Tawas City.
John Ristow, Tawas City.
Olen Herriman, Tawas City.
Reynold Kendall, Melvor.
Bertram Harris, East Tawas.
George Smith, Jr., Tawas City.
Roy Landon, Tawas City.
Wm. Wereley, Jr., Whittemore.

T-Sgt. Leonard Hosbach of Fort Leonard Wood, Missouri, and fiancée Miss Irene Berkobean, of Saginaw returned last Saturday after a 12 day visit with Mr. and Mrs. Chris Hosbach.

Capt. M. P. Glavish of Robins Field, Georgia, spent a few days with his wife and daughter at the Henry Bronson home in Whittemore.

Pfc. Doris Brugger of Romulus Air Field spent Thursday and Friday of last week with her parents, Mr. and Mrs. J. A. Brugger.

Sgt. Hugh Prescott, with the 741st Bomber Squadron in Italy, is a letter received yesterday morning.

Hello Friends:
At this moment I am just a little bit uncomfortable. Finished a real Thanksgiving dinner not more than an hour ago, and I am still feeling the effects of it. We had turkey, stuffing, mashed potatoes, peas, gravy, celery, bread and butter, jelly, coffee, apples, cookies, mince and pineapple pie and nuts. It was wonderful. Too good to eat out of a mess kit. I sure hope that all the boys had the same kind of a meal.

I have seen Italy from one end to the other, but I can't tell you much about it. You see I have seen it from four to six miles above. I can say about the same of Germany. The only difference is when we fly over Germany we hope to see nothing but clouds. I claim the best way to study geography is from the geography book.

I know now how a duck feels the first morning of hunting season at Tawas lake.

This winter flying is very cold. With the temp. always close to a 40 degrees below, and many days it has reached 50 below.

Rationing At Home

FOR SALE—Several head of spring calves. Carl Krumm, R. D. 2.

GOD IS MY CO-PILOT

Col. Robert L. Scott

W.N.U. RELEASE

The story thus far: Robert Scott, a self-made West Point graduate, wins his wings at Kelly field, Texas, and marries a girl from Georgia. From Mitchell Field, N. Y., he is sent to Panama where his real pursuit training is begun in a P-125. He is given a job constructing flying fields which would some day protect the Canal. He begins to train other pilots. The war is getting closer and he is unhappy because he realizes he is getting farther and farther from actual combat duty. As director of training in a twin-engine school in California he writes to General after General asking for a chance to fight. When that chance comes he realizes that his wife and child meant America for him.

CHAPTER VI

Doug was an ideal flying officer, and it was to him that I first turned for advice on how I should make myself acquainted with this big airplane. Doug had learned to fly at the period when I had been instructing. I had taught his class to fly; now the tables were turned and he would have to be the instructor for a while. Don't forget that as yet I hadn't flown a B-17E.

Introducing myself to my co-pilot, I said, "How about showing me how to fly this ship—I want to see how to work these turbos and such." He merely grinned at me in disbelief. "Aw, Colonel," he said, "you can fly the thing—why, you taught me to fly." I finally got him to give me some cockpit instruction by explaining that though I had many thousand hours in PT's, BT's, and other trainers, and knew lots about single-seaters and fast twin-engine medium bombers, I knew nothing about such planes as this big devil.

He showed me the approved method of starting the four engines, when to use the booster switches, how to set the turbos, how to lock the tail wheel—and generally how to pick up that fifty-seven thousand pounds of flying dynamite and take it around the field. I flew it for two landings that afternoon, and that night I climbed all over the Fortress, read the entire maintenance manual, and learned from scratch what made the big ship go. Next day I soloed it for over four hours, and after the twentieth landing I felt as if I was ready to start for war.

Then we tested everything—fired all guns at targets in the everglades, and the cordite from all those roaring fifty calibres gave even the swampy "glades" a sweet aroma. My gunners were eager to be on the way, and I soon found that they knew exactly what they were doing. Private Motley was my tail gunner. During the entire trip I think he stayed in the tail ninety per cent of the time, just to get used to the way to handle the tail turret. I used to say of Motley that he just didn't care where he was going—he wanted to see where he had been.

Sergeant Aaltonen, the engineer, was charged with keeping the engines functioning properly, and in general the entire enlisted personnel was under him. He was a diligent Finn and one of the bravest men I have ever seen. I can see Aaltonen now, standing there behind my seat and the co-pilot's seat, unperturbed in the roughest of storms, from the violent currents of the equatorial front of the Hamadans to the Shimals of Africa and Arabia. Eternally watching the many instruments, waiting to correct the slightest trouble even before it happened. When we were lost over trackless seas he was never ruffled, but ready at all times with information as to fuel consumption and the best RPM's for cruising. Once when he was told that we would probably have to land in the Atlantic there was no change in the expression on his face; he simply began to move the provisions to a point where they could be quickly placed in the rubber boats. His job in case of attack was to man the top turret with its twin Fifties.

Sergeant Baldridge was the head radioman. His secondary duty was to handle one of the waist guns back aft of midships. Corporal Cobb was second radioman; he would leave that to enter the lower turret. The other waist gun on this flight was to be handled by a radio officer, Lieutenant Hershney.

The navigator was a Lieutenant whom I'll call Jack. He was a nervy kid who liked his job. I know that after our mission he made many raids as navigator to bomb the Japs in Rangoon.

We tested the bombardier and the bombsight, too, before we started the flight. Lean, lanky, six-foot-three Bombardier George—I never did see how he managed to wiggle into the nose of the Fortress. I can see him there now, tense over his sight, waiting for the bombs to go—ever with the cross-hairs on the target. George had a couple of fifty calibre guns up there in the nose with him, too. He was just the opposite of the tail gunner—he never did know where he had been but always got there first.

And so the eight of them made up my crew—eight good soldiers who had volunteered and who wanted to hurt the enemy. None of them worried about whether or not he'd get home—for he knew of bigger things that had to be done.

We had to test everything, for it was over sixteen thousand miles to Japan the way we were having to go; there couldn't be a slip-up on this mission, and so we didn't take a chance. When finally all was set

I was about nervous enough to bite my nails off, for my ship was to be lost to leave the States. I had worried every minute of the time we had been waiting for fear that some brass hat would get my orders changed before I could get on my way. The other twelve ships had gone, with Colonel Haynes leading in his B-24. They all made their way to the East separately, with instructions to meet in Karachi, India, for final orders. And Karachi was 12,000 miles away.

As soon as we could leave the West coast of Florida, we loaded up and crossed the State. Going on East over West Palm Beach, I rang the alarm bell, putting all men on the alert, and we dropped down, with the crew firing at the whitecaps out over the Gulf Stream. The guns were working fine but we couldn't take a chance. I had to learn right now whether the crew could work as a team, for once we started it would be too late.

As we came back towards the last field we were to land on in the U. S. A., something strange met my sight, something that made the blood pound a little harder in my temples. There, along the entire beach of Florida, was a jagged black line—the clean sand of Florida's beaches had been made black and terrible-looking by the oil from many tankers sunk by the Axis submarine war. It gave me a queer feeling, for along the beaches there

Col. Scott's superior officers, Gen. Joseph Stilwell, left, and Gen. Claire Chennault.

was also the beached wreckage of several ships. This war was meaning more and more to us as we prepared to shove off for the first stop out of America.

Now we were poised for our flight to Puerto Rico. In our two-day wait for technical changes on the engines I worried more than ever, for the other twelve ships were gone and I was getting frantic lest something might change the orders. Finally, after having to wait during days of perfect weather, we took off in heavy rain for Borinquen Field, P. R.

The take-off and first two hours of the flight were "instrument," as we were flying through a moderate tropical front. We finally broke into clearing weather over Long Island Key, British West Indies. This was on March 31, 1942.

Just after noon we sighted Hispaniola at the point of Cape Frances Viejo. Sergeant Aaltonen passed out some hot coffee from the thermos jugs. Our spirits were high, for now that we had passed the bad weather this was like a picnic. The big ship was handling like a single-seater. We turned from the dark, mysterious Hispaniola, crossed Mona Passage, and landed at Borinquen Field at 15:07, just three minutes off our E.T.A. (Estimated Time of Arrival).

Two of our flight's Fortresses were waiting in Puerto Rico for minor repairs, so we felt a little less lonesome. Just in case the authorities in Washington decided to stop the last ship or the last two ships in our mission, I got my crew up long before daylight next morning, and we soon were heading South for Trinidad, ahead of the other two.

A real night take-off from Trinidad—we were airborne in the darkness at 5:20 a. m. As the wheels left the ground I realized very quickly how great a load we were lifting. This was the first time we had taken off with full load of fuel, and it seemed to me that I almost had to break my arms to keep the tail from going all the way back to the jungle—for all practical purposes the Fortress tried a loop. (It must have been that case of Scotch, added suddenly to the other sixty thousand pounds.) Finally we got the ship rigged properly and climbed on top of the clouds at eight thousand feet. Later we had to go higher to keep from going through the heavy tropical thunderheads; with our overload, neither Doug nor I wanted to risk the turbulence that we knew was there.

As the sun came up we could look down through holes at intervals and see the dark Atlantic near the Guianas.

Over Devil's Island at 9:20, I saw by our chart that we were only five degrees North of the equator. Coming down lower to look at the French penal colony, we found that although

the temperature was comfortable on top of the haze at six thousand feet, down in the soup near the water we had difficulty breathing. Passing on over another river identified as the Rio Oyapok, we went out over the Guianas into Brazil at 9:55 a. m. Cruising low at eight hundred feet, we got some unforgettable views of the steaming Brazilian jungle.

Looking out to sea, we noticed that the blue color already was changing to the murkiness of the Amazon, though we were about a hundred miles from its mouth. Flying low, I noted that the hump of Brazil near the coast was flat and green and hot as hell—temperature ninety-six and humidity about ninety-nine per cent at 10:55 a. m. We reached the mouth of the greatest river in the world at 11:35 E.W.T. Here the width of the Amazon is about one hundred and fifty miles.

Boys will have their fun too, no matter if you are flying low over the greatest of rivers. As we crossed the equator—old Zero Degrees Lat. at 11:56 a. m., at West Longitude 49 degrees 32 minutes—I saw those of my crew who had been in the South latitudes before take paper cups of water and drop them on the heads of those who were uninitiated, thus making them subjects of the sacred realm of Jupiter Rex as identified from the realm of Neptune Rex on the sea. We crossed the Amazon, from just West of Point Grossa over Bahia Santa Rosa to Mixiana Island, thence to Isla da Marajo. This last island in the mouth of the river is one hundred miles wide and reputedly has more cattle on the single ranch than any other ranch in the world. Soon we came to Rio Para, crossed it in a thunderstorm, and were over Belem, where we landed in the blackness of a tropical rain at 12:40 E.W.T.

On April 4, we left Belem for Natal at 6:55 a. m., and climbed to ten thousand feet in order to top as much of the cumulus as possible. We had to skirt one great anvil-head reaching up the sub-stratosphere near Bahia San Luiz. This storm covered about fifty miles, but we got around it without going into its turbulence. As we went on South of the equator the haze diminished gradually and the country became dry, making us think we were over western Texas. We landed at Natal, our jump-off point for the South Atlantic crossing, at 12:25 E.W.T.

This was to be a real day's flight. For we were not to be able to spend the night at Natal. Our run from Belem to Natal of nine hundred miles, then the crossing of nineteen hundred miles to Liberia, plus the run down the hump of Africa to a Pan-American base on the Gold Coast—this last almost nine hundred miles—had to be made without stops, except short ones for fuel. For all practical purposes, then, we had thirty-seven hundred miles to make in one day.

We got the big ship serviced and ready for the trip, then went to the Ferry Command Hotel. There we found two more crews of our thirteen heavy bombers. One group of these had turned back the night before with one engine out. The other, piloted by Col. Gerry Mason, had nearly come to grief on the way in from Belem. The rubber life-rafts in the Forts are carried in two compartments where the wing of the B-17 joins the big fuselage. This is to facilitate their automatic release upon contact with the water should the ship have to land at sea. They are of course tied to the airplane with strong manila rope, and it is on this hemp that the present tale hangs. In the flight down the coast some malfunction had caused one of these compartments to spring open—and out came the heavy, five-man boat. At the speed of two hundred miles an hour with which it struck the tail section as it went back on its rope in the slipstream of two engines, it nearly took the entire horizontal stabilizer off. Only by very skillful piloting had Gerry Mason managed to get the Fort and his crew of ten to Natal.

Just the same, in my attempted nap that afternoon, I grinned at the thought that we in old "Hades Ab Altar" were passing ahead of two more ships of the flight. Boy, I dreamed, they'll have a hell of a job getting me back there into the training center now! It's four thousand miles back to Florida and in the morning I'll be across the Atlantic.

We climbed out of the Fortress and stepped upon Africa at 11:05 G.M.T. Our crossing from Natal had been made in thirteen hours. Leaving the natives at work under Royal Air Force bosses, we hurried on to Operations, where we arranged for clearance down the coast. Then we were led into a thatched-roof dining hall for good hot food. If I hadn't been so hungry and tired from the extra tension I had been subjected to, I think I'd have "gawked" at those wild-looking tribesmen who were serving us. In one night we'd left the hotels of South America, and here we were, having our plates brought by jet-black bush Negroes with rings in their ears and noses, jabbering away in a West Coast dialect. To them we were "Bwana," the food was "chop," and dessert was "sweet."

(TO BE CONTINUED)

Handsome Jewelry Ensembles Are of Victorian Inspiration

By CHERIE NICHOLAS

IN KEEPING with the new trend to elegance that is so obvious throughout the new fashions, evening costumes take on ultra formality because of the very unusual and lovely jewelry worn with them. Nothing in the way of accessories could be more eye-appealing than the exquisite jewelry ensembles created by designers who have recaptured the artistry and finesse of the beautiful jewels worn in the sumptuous Victorian period.

According to the new showings, the trend this year is to ensemble jewels in groups of matching necklace, bracelet, earrings and various other intriguing items such as the new and elegant chokers and chate-laines, the breath-taking loveliness of which baffles description.

It would be difficult to find among the new collections a more beautiful ensemble than the matching necklace, bracelet and earrings wrought of seed pearls in the exquisite Victorian manner, as shown to the left in the illustration. The fringed ends of the pearl strands are tipped with pastel colored stones which match the clasps. The passion for pearls is more so than ever this season and it adds fervor to the enthusiasm of fashion-wise women that they are available in such fascinating new effects as here shown.

Evenings become more formal with orchids and beautiful jewels worn as accessories to one's costume as milady to the right in the picture wears them. Here gold snakechain makes a gracefully draped necklace with clusters of pink tourmalines accented with diamonds.

The revival of chokers and dog collars this season is the big sensation that is causing no-end excitement among fashion followers at present. These jeweled bands about the throat favor pearls. It is ever so smart to wear a pearl choker about the round neckline of a modish black dress. The type seen most is the several-strand pearl choker

Short Dinner Frock

Featured at a recent fashion show held at the Waldorf-Astoria, this voguish frock reaffirmed the importance of black with glitter as well as continued interest in the short-length dinner gown. The all-over sequin embroidery is done in the scroll pattern in a most designful way. Black accessories add to the high-style mood of the costume.

of Victorian inspiration. It's nice to know that most of the now-so-fashionable chokers or dog collars have bracelets and earrings to match.

The choker shown in the inset is formed of gold chains. Earrings of antique gold worn with it give the elegant look that best-dressed women covet. Choice gold jewelry has a very high fashion rating this year, many pieces being replicas of heirloom designs.

Another thrill in the jewelry realm is the return of the coiffure comb. Today combs are considered jewelry, many being studded with colorful stones crowned or mounted with pearls. The pearls which give distinction to the hairdo shown in the inset are formed of gold bands on which are mounted rows of delicate fleur de lis.

For a smart fashion gesture you must wear style-right jewelry with your sports clothes. The short necklace and matching earrings worn with the tailleur shown centered at the top are of two-tone gold plate flexible links worked like a coat of mail. Perfect to wear with your tweeds!

There's important news in the new and exceedingly chic chate-laines that look so modern and elegant worn across the front of a suit-jacket or arranged about its pocket. There's big news too, in the manish fobs which are excitingly novel in the feminine picture. You wear them anywhere they will show off best, suspended over the top of your jacket pocket, dangling from your belt or arranged like a corsage brooch on your bodice or blouse.

Released by Western Newspaper Union.

Latest Accessories

Are Sequin-Spangled

The sequin vogue goes on and on. The nice thing about sequin-spangled accessories is that it doesn't matter whether they be neckwear, dummies, berets, ascot scarfs, gloves, belts or bags or what have you, if you want to give a dress-up accent to your costume you can do it in a jiffy. The idea of wearing a bright sequined print ascot with the tailored suit is making widespread appeal. These glittering ascots are really charming. Another item that gives uplift to the simple suit is the dickey that is either solidly sequined or done in multi-colored florals. The all-black dickey is of definite style importance. It is stunning with the all-black suit which holds such high fashion rank at present. These sequined dummies are sold in the neckwear department, as are also sparkling jabots. Milliners are showing clever beret and evening bag sets, solidly worked with sequins. Other choice sequined items include gloves and belts, the latter worked with multi-color florals in girle effect at the front.

High, Close-Fitting Neck

Is Feature of New Blouses

There is such a vast showing of beautiful costume jewelry this season, that it may account for the tremendous success of the blouse with the jewel neckline. You can wear the new choker so becomingly with these high close-fitting necks, likewise your one, two or three-strand pearls. You can arrange a flock of the new scatter pins very becomingly in connection with the new jewel neckline. Many smart frocks, especially the basic blacks, have this new neckline also.

Team of Nature

One of the most unusual of trees is the barrasanta or "ant tree" grown in sparsely populated eastern Colombia (South America). A small slender tree with red flower, the barrasanta has a hollow trunk which houses a swarm of vicious, biting ants.

A perfect team of nature—tree protects the ants against the elements, the ants protect the tree against animals and man.

Toy Chest That Has Folding Table Top

STENCILING the scalloped borders, bright stars and topsyturvy letters on this gay toy chest is sure to put you in the Christmas spirit. The chest itself is easy to make from scraps of plywood and it has a number of special features

that will please Mother as well as the youngsters.

The rope handles and wooden wheels make it possible to move a complete assortment of toys to any convenient spot. Then off comes the lid; folding legs are opened up; and Little Miss Muffit has a table just the right height.

NOTE: Pattern is available to readers showing how to make this chest and folding table top. Also illustrated directions for decoration with stencils which require no special skill for perfect results. Color guide is included. Ask for Pattern 252 and enclose 15 cents with name and address.

SNAPPY FACTS ABOUT RUBBER

Add ordinary cow's milk to the possible sources for rubber. Chemists, it recently was announced, have developed a product from milk which has the characteristics of natural rubber.

When the rubber tapper goes into the South American forests to work, he requires about 100 items of equipment and some 40 different items of food. And they say life in the rubber jungle is simple!

Test fleets of motor vehicles are driven 150,000 vehicle miles a day to develop "bugs" in synthetic tire construction. That mileage is about six times around the earth.

Kidneys Must Work Well—

For You To Feel Well 24 hours every day, 7 days every week, never stopping, the kidneys filter waste matter from the blood. If more people were aware of how the kidneys must constantly remove surplus fluid, excess acids and other waste matter that cannot stay in the blood without injury to health, there would be better understanding of why the whole system is upset when kidneys fail to function properly. Burning, scanty or too frequent urination sometimes warns that something is wrong. You may suffer nagging backache, headaches, dizziness, rheumatic pains, getting up at night, swelling. Why not try Doan's Pills? You will be using a medicine recommended the country over. Doan's stimulate the function of the kidneys and help them to flush out poisonous waste from the blood. They contain nothing harmful. Get Doan's today. Use with confidence. At all drug stores.

DOAN'S PILLS

Chimney Repair
Ask yourself these questions when you're examining heating equipment: Have chimneys been cleaned within a year? Are they in good repair? Are smokepipes too close to burnable material, causing charred spots from radiated heat? Are smokepipes rusted or broken, with holes that sparks can pass through? Are walls, ceilings and partitions protected from overheating of stoves and furnaces? And are stoves and furnaces in good repair?

Whittemore
Trooper and Mrs. Oramel O'Farrell left for home Sunday after spending the week with his family. William Furst and Ardene Charters spent Thanksgiving with Dr. Hasty at the hunting lodge near Oscoda.
Miss Irene Austin spent from Wednesday until Sunday with her mother, and grandmother.
Mr. and Mrs. Clinton Wice and son and Mrs. Hattie Wice spent Thanksgiving with Mr. and Mrs. Turner at Akron. Mrs. Wice remained to spend some time with her daughter.
Richard Furst spent the week end with Dr. Hasty at the camp.
A number of ladies spent Saturday evening with Mr. and Mrs. Clinton Wice.
Rev. and Mrs. Brooks, Mrs. Charles Furst, Mrs. Ardith Blust and Mrs. Wereley spent Friday in Bay City.
Mrs. Mildred Hasty and Mr. Dahne spent one day last week in Bay City.
Ervin Kuhle returned to Detroit after spending some time at his farm on a hunting trip.
William Austin returned home Sunday from the hunting cam where he was cooking.
Miss Helen Papp returned to Chicago on Saturday evening. She was here taking care of her mother, Mrs. James Ori.
Capt. and Mrs. Robert Curtis of Detroit spent the holidays with her mother, Mrs. Rose Louks.
Prayer meeting was held last week at the home of Mrs. Alice Barlow with a good attendance. The next meeting will be at the Charles Schuster home.
Charles Dorey returned home with his deer on Friday.
Wayne Grimm returned to Royal Oak Sunday evening with a fine deer.
Mrs. Peck, who has been visiting her son, Clarence and family at Loud Dam, is at present spending a few days with Mr. and Mrs. Mahlon Earhart.
Miss Marjorie Pederson is spending her vacation with her parents.
Rev. and Mrs. Don Morris and sons of St. Clair Shores were week end visitors with Rev. and Mrs. Brooks.
Mr. and Mrs. Angus Dunham were at Tawas on Monday.

Birdsfoot Trefoil
Birdsfoot trefoil is primarily a forage crop for land that is not to be plowed often. It does best on good soil, but will grow and persist on rather wet situations and on shallow, drouthy soils.
Egg Glaze
Another way to work in an extra egg is to put an egg glaze on coffee cake with sliced fruit on top. Beat a whole egg with a fork until slightly foamy. Add three tablespoons sugar. Spread evenly over fruit before baking. The glaze keeps the fruit plump and moist and holds it in place.

To the People of this Community
"Sad little personal belongings are strewn all over these bitter sands." Thus wrote Ernie Pyle from a beachhead in Normandy.
More than 2,000 bundles of these belongings, carefully collected and packed by the armed forces, are sent monthly from a Kansas City depot to homes throughout America. That's the current price of victory over enemies who forced this war upon you. These "souvenirs" are enveloped with heartaches and drenched with tears.
How long this tragic depot stays in business is up to you. Every second prolongs the slaughter. Every extra \$100 War Bond in the Sixth War Loan helps to shorten the fighting. Can you do less than to lend your money for speedy victory?
THE EDITOR.

State of Michigan
In the Office of the Drain Commissioner of the County of Iosco.
Notice is Hereby Given, that on the 8th, day of November, 1944 a petition was filed with the undersigned County Drain Commissioner for the County of Iosco praying for Locating, Establishing and Constructing of the Parent Drain.
That upon the 13th day of November, 1944, the undersigned filed with the Honorable H. Read Smith, Judge of Probate a petition asking for the appointment of a Board of Determination;
That said Judge of Probate having appointed Harry Van Patten, Edward Burgeson and Harry Cross as such Board of Determination;
Now, therefore, said Board will meet at the NE. Corner of Sec. 22 Sherman Twp. on the 7th, day of December, 1944, at 10 o'clock in the forenoon of said day to determine the Necessity of the Parent Drain.
Therefore, all persons, municipalities and highway officials interested in the proposed Drain are requested to be present if they so desire.
Dated at Melvor, Michigan this 8th day of November, 1944.
George W. Schroeder,
County Drain Commissioner of the County of Iosco.

LOWER HEMLOCK
Mrs. C. E. Earl is visiting relatives and friends in Flint.
Mr. and Mrs. Waldo Curry Jr. and sons and Mrs. Ida Thomas spent (Thanksgiving with Mr. and Mrs. Walter Kelcher.
Mr. and Mrs. Waldo Curry Sr. spent Thanksgiving in East Tawas with relatives.
Word has been received by Mr. and Mrs. Waldo Curry of the birth of a six pound baby daughter to Mr. and Mrs. Eugene Smith of Dallas Texas. She has been named Claire Eugenia.
Mrs. Henry Schatz got her buck after an exciting time in the woods. First she shot him in the leg and had to follow him through the brush, finally getting another shot, hitting him in the eye. Mrs. Schatz had only two cartridges with her, so she is pretty happy over her buck.
Miss Dorothy Kelchner of Detroit spent the week end with her parents Mr. and Mrs. Walter Kelchner.
Mr. and Mrs. Peter Kelchner of Pontiac called at the Kelchner home.
Mrs. Bert McGregor spent Sunday at the Waldo Curry home.
Mrs. Otto Look, Esther Look, Mrs. Clyde Evril and Ann spent Friday in Bay City.
Mr. and Mrs. Victor Bouchard and family spent Sunday evening at the Otto Kobs home.
Mr. and Mrs. Wilferd Young and family spent Thursday evening at the Otto Look home.
Mrs. Arnold Anshuetz, Mrs. Wm. Olsen, Mrs. Wilferd Young and Betty Young spent Wednesday in Bay City.
Mr. and Mrs. John Katterman Mrs. Arther Wendt and son spent Sunday afternoon with Mr. and Mrs. Edd. Youngs.
Mrs. Waldo Curry Jr. spent Friday in May City.
Mr. and Mrs. Dale Pond and daughter, Patsy, of Owosso spent four days hunting with Mr. and Mrs. Walter Miller, and returned home with their buck.
Mrs. Clarence Earl has gone to Detroit for a weeks visit.
Miss Lucille Kobs of Detroit is home for a week.

Thomas Jefferson
Thomas Jefferson, whose 200th birthday anniversary was celebrated April 13, was the first man to put plow making on a scientific basis. Plows have been used by man for more than 3,000 years. The Greeks used the butt of a tree to which they added a metal point. The points for these primitive plows were made as late as 1823 in Connecticut for shipment to other agricultural areas.
Must Last Lifetime
If your eyes tire easily, or become irritated, obtain competent professional ophthalmic advice without delay. You have two sets of teeth, and can get along even with artificial teeth, but your eyes must last a lifetime.

State of Michigan
The Probate Court for the county of Iosco.
At a session of said Court, held at the Probate Office in the City of Tawas City, in said county on the 30th day of October.
Present: Hon. H. Read Smith Judge of Probate.
In the Matter of the Estate of Albert A. Marks, Deceased.
William J. Trommer having filed his final administration account, and his petition praying for the allowance thereof and for the assignment and distribution of the residue of said estate.
It is Ordered, That the 6th day of December A. D. 1944, at ten o'clock in the forenoon, at said Probate Office, be and is hereby appointed for examining and allowing said account and hearing said petition.
It is Further Ordered, That notice thereof be given by publication of a copy hereof for three successive weeks previous to said day of hearing, in The Tawas Herald, a newspaper printed and circulated in said county, and that the petitioner shall at least ten (10) days prior to such hearing, cause a copy of this notice to be mailed to each party in interest in this estate at his last known address by registered mail, return receipt demanded.
H. READ SMITH,
Judge of Probate.

Hemlock
Pomona Grange met with Greenwood Grange Friday evening and installed officers. Thirty-five were present. Mr. and Mrs. Paul Siegrist of Whittemore gave a report from the State Grange.
Miss Ruth Herriman and girl friend of Bay City spent the week end with Mr. and Mrs. Will Herriman.
John Burt and son, Ralph, were at Turner Saturday evening. Mrs. J. Burt spent the evening with Mr. and Mrs. Frank Schneider and Mrs. Sara Van Sickle at National City. We are sorry to hear that Mrs. Van Sickle is ill, but hope for a speedy recovery.
A large crowd attended the chicken supper at the church Tuesday night.

KEISER'S Drug Store, Tawas City.

Hand Duster
A good hand duster or sprayer will give effective control of insects and plant diseases. Only in large gardens is power equipment economical, whether for cultivation, spraying, or dusting. The duster or sprayer should be equipped with an extension and an angle nozzle or blower, to make it easy to hit the underside of the leaves, where many insects do most of their feeding.

Widowed Women
There are twice as many widowed women as widowed men, since the death rate is higher for men, and widowed men tend to marry younger single women.
Fewer Workers
March 1 the farms of the nation had 8,562,000 workers, the lowest number on record for that date, and 4 per cent less than in March, 1940.

AUCTION SALE
I will sell at Public Auction at the premises Two and one-half Miles South of Melvor, or Eight Miles Northeast of Turner, on
Saturday, December 2
Commencing at 1:00 O'Clock P. M. Sharp (Fast Time) the following described property:
Cattle TB and Bangs Tested
1 Red Cow, due January 1
1 Holstein Co, pasture bred
2 Holstein Cows, due in February
1 Black Cow, due in February
1 Holstein Heifer Calf, 12 months old
1 Good Work Mare, 10 yrs. old
1 Sulky Plow
1 John Deere Mowing Machine, good shape
2 Dump Rakes
1 Two-Horse Cultivator
2 Walking Cultivators
1 Quack Grass Drag
1 Spine-rod Drag
1 Hand Corn Planter
2 Sugar Beet Ferks
1 New Grapple Hay Fork
1 Harpoon Hay Fork
140 Feet One-Inch Rope, like new
1 Electric Cream Separator, like new with strainer and milk pails
2 Sets Whiffle Trees and Single Trees
1 Double Set Work Harness and Single Harness
1 Running Cutter, with box
1 Slush Scraper
1 Rubber Tired Wagon and Rack
1 High Wheel Wagon and gravel box
1 Rubber Tired Wagon and Rack
5 Chains and Hooks
1 Set Sleighs with Bunks
1 Set Platform Scales
1 Scythe and Snath
Quantity of Bolts
1 Five-Gallon Cream Can
2 10-Gallon Cream Cans
2 Neck Yokes
20 Red's New Hgr Wire
1 80-Rod Roll Heavy Barbed Wire, new
Quantity of Grain Sacks
1 Woven Wire Fence Stretcher
1 Barbed Wire Fence Stretcher
1 Mud Boat
1 Pitcher Pump and some point pipe
1 Sickle Grinder
1 Electric Fencer, nearly new
1 Home Made Hand Sleigh
1 Souerkraut Cutter
1/2 Gallon Separator Oil
1/2 Gallon Cow Spray with Sprayer
Some 2x6's
1 Oil Heater, six room size, like new
3 Horse Collars
Other Articles too Numerous to Mention
TERMS OF SALE—On sums under \$10.00, Cash; over that amount 12 months time will be given on good approved bankable notes bearing seven per cent interest. No goods to be removed until settled for with clerk of sale.

7 ROUND TRIPS
to TOKIO!
Every day in the U. S. transport planes fly 80,000 miles, using Sinclair Pennsylvania Motor Oil. That's a distance equal to about 7 round trips from this country to Tokio.
And these Sinclair-lubricated planes carry almost a third of all the passengers flown by commercial airlines in this country.
Use aviation-tested Sinclair Pennsylvania Motor Oil to save wear on the motor of your car — help make it last longer. See your Sinclair Dealer.
SINCLAIR PENNSYLVANIA MOTOR OIL

**To the People
of this Community**

Five billion dollars of the 14 billion dollars our country needs to press the war against our enemies must come from individual investors. That sounds like a lot of money. Actually success or failure of the Sixth War Loan is up to each individual American.
Every war loan has been oversubscribed because Americans by the millions have shared its responsibility. Americans such as you have recognized the need of extra War Bond purchases over and above their normal payroll savings.
There is no such thing as a little fellow in a War Bond drive. Your War Bond purchases, multiplied by the War Bond purchases of your friends and neighbors, become fighting power which saves lives of Americans on the battlefronts and brings us nearer our common objective.

Bruceosis Infections
The most common method of spread of Bruceosis is through the mouth and the digestive system. Cattle usually get the disease by licking an aborting cow or diseased afterbirth; also by eating infected feed, grazing on infected pastures and drinking infected water (streams and permanent troughs).

Clothes Moths
If the house becomes badly infested with clothes moths, to a point where overstuffed furniture and rugs are damaged, it will be best to have a commercial exterminator called in. Fumigation of the entire house with cyanide gas is a sure and effective way of eliminating clothes moths but it must be done by an experienced person, since the gas is dangerous.

COUNCIL PROCEEDINGS

Regular meeting of the Common Council held on October 2, 1944.
Present: Mayor LeClair, Aldermen Frank, Jacques, Landon, Mueller, Murray and Rollin.
The minutes of the last two council meetings were approved as read.
The Committee on Claims and Accounts presented the following:
Charles Harris, labor \$40.20
Earl Brown, labor 24.00
Donald Pfeiffer, labor 28.20
Earl Brown, labor 33.60
Charles Harris, labor 39.60
Donald Pfeiffer, labor 35.00
Bronson & Goupil, repairs truck, Street 13.63
W. F. Cholger, supplies truck, Street 2.90
Sinclair Refining Co., gasoline, Street 72.50
J. Barkman Lumber Co., tile, etc., Street 222.66
W. A. Evans Furniture Co., brushes, Contingent 9.30
Martins Flag Dept., flags, etc., Contingent 8.64
Fred Musolf, Firemen's Pay Roll, Contingent 59.00
Tawas High Speed Co., supplies, Street 4.30
Moved by Land on and supported by Murray that the bill be allowed and orders drawn for same.
Roll Call: Yeas—Frank, Landon, Jacques, Mueller, Murray and Rollin. Nays—None. Carried.

The request of Ernest Moeller and Louise Moeller in regard to vacating Wheeler street from First Avenue to Tawas river was presented. It was moved by Jacques and supported by Rollin that this request be referred to the Street Committee for further study. Motion carried.
The application of Floyd West to move a building on the streets of Tawas City to a location on his property was presented. Moved by Jacques and supported by Mueller that we approve the application of Floyd West. Motion carried.
The following permit application was presented by Harry Goldsmith. Residence 20x30, concrete, wood siding, comp. roof. Moved by Murray and supported by Frank that the above application be approved, subject to War Production Board Limitations Order No. L 41. Motion carried.

Moved by Mueller and supported by Frank that we accept the two One Hundred Dollar E Gov't Bonds from Rebecca Baguley for the care and maintenance of Cemetery Lots, subject to the Rules and Regulations of the city and Cemetery Board. The City of Tawas City reserves the right to maintain said lots in such manner as it may deem proper and may remove any shrubs, fences or other obstructions necessary for the proper maintenance of said lots. Motion carried.
The report of the Water and Sewer Department was made. Disbursements: Sewer Dept. \$276.05, Water Dept. \$121.35. Moved by Murray and supported by Jacques that the report be accepted as read. Motion carried.
The following applications were presented for a license:
Tawas Sandwich Shoppe, restaurant; Tawas City Restaurant, restaurant; Shay's Bar, tavern.
Moved by Mueller and supported by Rollin that the above applications be approved and the clerk be authorized to issue a license. Motion carried.

Moved by Mueller and supported by Rollin that we authorize the abstract of a parcel of land known as the Market Place. Motion carried.
Moved and supported that we adjourn. Carried.

Albert H. Buch,
City Clerk.

Supply Family

One hundred asparagus plants set 18 inches apart in rows 4 feet apart will amply supply the average family. The Washington varieties are preferable. The plants should be set as soon as the ground is fit to work. The roots should be spread out, crowns up, in furrows 6 inches deep, but should be covered with only about 2 inches of soil. As the plants grow the furrows may be filled in gradually until the ground is level again.

Mechanical Defects

Mechanical defects in some cases are the direct cause of accidents and a contributing factor in others. The safety section of the bureau of motor carriers, Interstate Commerce commission, found that 6.9 per cent of the accidents reported to it in 1942 were classed as "mechanical defect" accidents.

State of Michigan

The Probate Court for the County of Iosco.
At a session of said Court, held at the Probate Office in the City of Tawas City in said County, on the 8th day of November, A. D. 1944.
Present: Hon. H. Read Smith, Judge of Probate.
In the Matter of the Estate of Natham Gotham.
The administrator of said estate having filed in said court his final account as administrator of said estate, and his petition praying for the allowance thereof, and his petition praying for the determination of the heirs at law of said deceased.
It is Ordered, That the 4th day of December, A. D. 1944, at ten o'clock in the forenoon, at said Probate Office, be and is hereby appointed for examining and allowing said account and for determination of the heirs at law of said deceased.
It is Further Ordered, That Public notice thereof be given by publication of a copy of this order for three successive weeks previous to said day of hearing, in the Tawas Herald, a newspaper printed and circulated in said county.
H. READ SMITH,
Judge of Probate.
A true copy,

NATIONAL CITY

Miss Kathryn Dedrick of Bay City spent the week end with her parents Mr. and Mrs. Elmer Dedrick.
Mr. Richard Lauckener and Dorothy Clayton of Dearborn spent the week end with Mrs. Jay Preist and son Lee.
Mr. Felix Stepanski and Mrs. Hazel Hoagabaum of Tawas City spent Friday evening with Mr. and Mr. Calvin Billings.
Mr. and Mrs. George McCarney of Davidson spent the week end with Mr. and Mrs. Ross Butler.
Clarence Dedrick spent the week end with his family here.
Mrs. Bert Westcott of East Tawas called on Mrs. Jay Priest Saturday evening.
Miss Marvin Shuster of Saginaw spent the week end with her parents Mr. and Mrs. Simon Shuster.
Miss Betty Everitt of Bay City spent a couple of days with Miss Betty Manning.
Mrs. Laura Patten of Alpena is spending a few days with her sister Mrs. Imer Dedrick.
Mr. Eugene Cooper of Flint spent the week end with Mr. and Mrs. Lawrence Jordan.
Miss Betty Manning spent the week end in Bay City with friends.
Mr. and Mrs. John Dryer returned to their home in Fraiser after spending two weeks at their cabin.
Mr. R. Wood and Joe Cole returned to their home in Detroit after spending a few days deer hunting here.
Mr. and Mrs. Earl Jordan and family of Detroit spent the week end at their home here.

Yeast Fermentation

Other yeast fermentations, such as that of molasses to make industrial alcohol, yield by-product yeast, but the product is usually so contaminated that recovery is not worthwhile. However, some cattle feed consisting largely of corn protein with a little yeast is being recovered from the residue of corn fermented to alcohol as a wartime measure.

Microscopic Germ

Bruceosis is an infectious disease caused by a small microscopic germ which usually locates in the reproductive organs of cattle (uterus and udder of the cow and testicles of the bull).

FOR SALE—Kindling Wood, White pine and Norway pine stump fence at \$2.50 per rod. Frank Fisher, 5 mi. west of Tawas City on Meadow Road.

WANTED—Electrical work of all kinds. Lloyd Thompson, Phone 456 Tawas City.

One-Celled Plants

The yeasts are predominantly one-celled plants which reproduce rapidly and in their growth form alcohol and carbon dioxide from the sugary materials on which they feed. The precise nature of the products depends on the kind of yeast and the nutrient used; originally the "wild" yeasts floating in the air did man's fermentations, but today carefully cultured strains are used, adapted to the particular application and protected from contamination. Traditionally the two great fields for yeast are the production of alcoholic products and the leavening of bread, where carbon dioxide bubbles from the yeast give a fluffy structure.

Civilian Goods

The output of civilian goods in 1943 amounted to only 34.1 per cent of the total volume of goods manufactured. Nevertheless the output of civilian goods in 1943 was 54.4 per cent larger than at the low for the depression in 1932 when the index was 57.

Cooling Cooker

Prevent sudden cooling of an aluminum pressure cooker, as this may cause it to warp and crack.

Washington, D. C. CABINET CLEAN-OUT?

WASHINGTON.—Those around the White House say that this time the President really means business when it comes to cleaning out his Cabinet. Of course, this word has been passed out so often that some intimates are keeping their fingers crossed.

However, it is a fact that Roosevelt is now faced with some situations he cannot escape, other situations which have made him sore. In the former category is Cordell Hull's health. In the latter category is Jesse Jones. As a result, various names have been put in the White House Cabinet hopper and are being examined carefully.

Here are some of the names which may feature in the new cabinet.

Secretary of Commerce—Marriner Eccles, now chairman of the Federal Reserve Board; or Leon Henderson; or Chester Bowles, now OPA administrator; or Beardsley Ruml, author of the Ruml tax plan and considered a liberal big-business man.

Secretary of Labor—Dan Tobin, head of the teamsters' union; or John Winant, now Ambassador to London and former head of the International Labor Office. Winant, however, would prefer to be Secretary of State. Tobin, if appointed, is about the only AFL leader who would be acceptable to the CIO.

Postmaster General—Robert Hannegan. Frank Walker, now Postmaster General, believes that the Democratic national chairman should also be Postmaster and, being a retiring person anyway, Walker is ready to step out.

Secretary of Agriculture—Roosevelt is hoping to persuade Henry Wallace to take this job again. If not, Wallace will be offered the ambassadorship to Moscow, considered vitally important, or chairmanship of the international food organization. Roosevelt feels that it would be difficult politically to make Wallace Secretary of State because of opposition from Hull and Senate reactionaries.

Secretary of State—Ex-Justice Jimmy Byrnes or Ambassador Winant. Appointment of Byrnes would smooth things down for Hull, who isn't anxious to resign even though in the hospital. Hull would kick like a mule if Sumner Welles or Wallace were to succeed him. Byrnes also gets along well with Senate Foreign Relations chairman Tom Connally and other reactionaries.

Secretary of the Interior—Harold Ickes.

Attorney General—Francis Biddle. Roosevelt will not accept either Biddle's or Ickes' resignation. They were his top campaign speakers.

NOTE—After FDR defeated Willie in 1940, Miss Perkins submitted her resignation. Her letter has been in the White House files since January 15, 1941. The President never acted on it.

KAISER'S MERCHANT FLEET

Demon ship-builder Henry Kaiser thinks he has found an answer to the burning question of how he can use some of the great fleet of merchant ships he has built, and still keep on building more after the war.

Kaiser plans to enter competition with the West Coast shipping lines, set up his own shipping business, try to emphasize smart salesmanship, cheap freight rates, mass orders. He says his only hope is a free and open market in the Orient, thinks he can do a more efficient job of shipping both to and from the Far East than a lot of old-line companies.

NAVY DEPT. RESHUFFLE

Secretary of the Navy Forrestal finally has devised a plan to elevate his old Wall Street friend, Struve Hensel, to the job of Assistant Secretary of the Navy. He has been wanting to do it for a long time, but there were too many Wall Streeters running the Navy to add any more.

Here is the new solution. You can write it down as definite that able John Sullivan, now Assistant Secretary of the Treasury, will become Undersecretary of the Navy around January 1. A New Hampshire Democrat and no banker, Sullivan will replace Republican banker Ralph Bard, who came out publicly for Dewey. With banker Bard out of the picture as Undersecretary of the Navy, Forrestal figures he can then bring in banker Hensel as Assistant Secretary. Hensel already is chief of the Navy procurement legal division but wants a handle to his name.

DIPLomatic CHAFF

They have worn no uniform since Benjamin Franklin appeared as Ambassador to France in ordinary clothes, refused to don court dress and was the sensation of the French court. Franklin argued that he represented a nation of rebellious farmers, merchants and frontiersmen who believed more in democracy than in kingly folderol.

Since then U. S. ambassadors have stuck to plain evening clothes, with gray-striped pants and cutaway in the afternoon.

The Lapierras Raise 12,000 Gobblers a Year on Canada's Largest Turkey Ranch

Owner of the largest turkey farm in Canada is Tommy Lapierre, who with the aid of two sons and two daughters, raises 12,000 gobblers a year. His farm is located in British Columbia, on the international boundary line between the province and the state of Washington.

The moderate and equable climate of this region permits the birds to live out of doors all year around.

The Lapierre turkeys are of the giant breed, weighting from 25 to 30 pounds when ready for market. The huge flock eats about 28 tons of feed a week during the fattening period. During the rest of the season, the big, active birds can pick a large part of their food on the grassy range.

More than half of Lapierre's roasters are being shipped overseas to Canadian troops for Christmas dinners. The others are marketed in Canada.

Tommy Lapierre is shown holding a White Holland, one of his prize toms.

Future of Agriculture And Industry Is Keyed To Our Water Resources

Postwar America's water supply is due to have a profound influence on everything from jobs for returned servicemen to the nation's future economic life, according to a report submitted to the secretary of the interior by the Geological survey.

"In the postwar years information on a national scale concerning the water supply will be a controlling factor in deciding where to locate new factories or relocate old ones," according to the report. "That is true not only with respect to where abundant water may be found but more particularly, in many instances, as regards what kind of water is available. Scarcely any manufacturing enterprise today can succeed with just any kind of water.

"Boilers, steam pipes and all kinds of plumbing fixtures will clog up rapidly and cause disastrous damage to expensive machinery unless the right kind of water is used, or unless it is properly treated.

"The importance of having water of the right quality cannot be over-

Minute Make-Ups

By GABRIELLE

Put your accent of drama on your very best features! If you have a nice mouth, call attention to it by using the newest, richest lipstick shades. If your eyes are especially attractive, go in for eye-shadow, exquisitely groomed eyebrows. If your ears are lovely, wear brilliant earrings and "up" your hair. Oh yes, accent does the trick!

Ledger Syndicate.—WNU Features.

Great Britain Approves

Of Travel to France

LONDON.—British businessmen are at liberty to travel to Paris and other parts of liberated France if they can find accommodations.

The home office announced that most of France had been relinquished from military control and turned over to French authorities thus necessitating only a British exit permit and a French visa to make a trip.

"GAY GADGETS"

Associated Newspapers—WNU Features.

By NANCY PEPPER

NATURAL NECKLACE

Loose Leaves — We don't mean notebooks, we mean colorful autumn leaves that are blowing your way these days. Dip them in wax and string when cool and hard—wonderful necklace for sweaters. (While we're talking about autumn leaves, lots of girls are giving weenie roasts right now. They invite their guests to come in overalls and with rakes. Instead of dancing, everybody rakes the leaves and then weenies are roasted over the burning leaf fires. Some guests also bring their own weenies—a good point saving idea for the hostess.)

Rings on Your Fingers—Match up your pearl necklace with a pearl ring. Easy to make if you string some pearls on a broken necklace on a small piece of thin wire. Just twist around your finger and—didn't we tell you—you have a pearl ring.

Hat Pins Into Heart Pins — Take any short hat pin (you know, a straight pin with a little knob on the top). Cover the knob with a large heart cut out of two pieces of felt and sewn together. Decorate the heart in beads or sequins. Stick into your lapel like a man's stick pin.

ON SCHEDULE

Your life is so crowded these days that you're apt to forget important things like the next Bob Hope radio

areas. In Houston, Texas, for example, the survey found that the chemical content of five different wells in close proximity to each other varied as much as from 4 to 182 parts per million of soluble minerals.

The stream-gauging program must be greatly enlarged before adequate information about the nation's water resources can be furnished, the report states. Every river has its own story to tell, but constant attention is required to follow its history. A considerable variety of scientific instruments, in the hands of experts who know their business, are used to record the volume, velocity and other pertinent facts.

Irrigation Projects.

Studies of the behavior of streams over long periods are necessary to provide reliable information for the guidance of planners for such projects as hydro-electric plants, irrigation, flood control, bridges, reservoirs, and the like. The extremes of behavior of a river can be known only by keeping constant records over long periods. Knowledge of such extremes pays dividends in the end. Many times in the past, bridges have cost more than necessary to withstand floods that never came, or a large but inadequate investment has been swept away because of unanticipated floods. What a river is likely to do in the future can be judged only by knowing what it has done in the remote past.

The value of such information, gathered over a long period of years, has been abundantly demonstrated during the past decade. Every major power and irrigation project—including TVA, Boulder, Grand Coulee and the rest—has depended entirely upon basic information that has been built up by the Geological survey over the last half century. None of them could have been successfully executed without such information.

Above is Florence Lapierre with a 30-pound Mammoth Bronze specimen that seems to be worried about the future.

estimated. Our records show, for instance, that two bakeries used exactly the same ingredients in making bread—right down to the last pinch of soda. One made excellent bread and the other went broke. The difference was in the kinds of water used.

"If water of the proper purity is not used it is impossible to make good beer. Canneries dare not use certain kinds of water, or the peas will be hard and unmarketable. Water of unusual purity is required for the manufacture of carbonated beverages, otherwise discoloring sediment develops. If confectioners do not use water with the right kinds of chemical content the candy will get sticky or the pure white fondant soon looks rusty. The processing of wool requires water according to definite chemical specifications for washing; otherwise dyes will not penetrate the fabric uniformly, or fast colors cannot be obtained. Even laundries must have the right kind of water to do a good job on papa's shirts."

Huge Demand for Data.

To meet the need for information the water analysis program will have to be enormously increased, the survey believes. Conclusive information on the chemical content of surface water at a given spot, for instance, requires daily analyses over a period of at least a year. It is not enough to examine ground water at one place and assume that it will be the same in surrounding

This is part of the stream-gauging apparatus used by the Geological survey. The torpedo-shaped sinker, weighing 100 pounds, is lowered into a river by means of a crane and reel. The speed of the spinning cups is transmitted electrically to an operator in the boat above. From this information the swiftness of the stream, the depth and the volume of water can be calculated.

TELEFACT

program or what sweater you wore yesterday. Put yourself on schedules like these:

Are you Listenin' — Doesn't it make you simmer to hear the kids at school talking about a radio program that you forgot to listen to the night before? It won't happen again if you keep a small calendar right on your radio table with a day-by-day listing of all the programs you want to listen to. Make up your schedule every week from the radio listing in the Sunday newspapers.

Combination Chronology—You can make a limited wardrobe of "separates" seem like a big one if you vary the combinations every day, according to schedule. Get all your sweaters, jackets and skirts together now. List all the combinations you can make with them; then list a different combination for each day in the week on a special fashion calendar. Be sure you follow it every morning.

TRIXIE TEEN SAYS—'Tenshoo! How many of you are in good standing? Or do you droop around with slouched shoulders, sticking out where you should stick in and vice versa? Take a look around you at the WAVES, the WACs, and all the other gals in uniform. Don't they look slick and smart? It's not just the uniform—it's the way they wear it. In one word, chum, it's posture. So, square your shoulders, keep your chin up and your tummy in. After all, you wear a uniform, too—even though it's only a sweater and skirt.

The Rambling Rhymster

By LES PLETTNER

CARPETS

He said, "Of carpets have I heard, Throughout my lifetime's length. I've heard much and read fulsome word,

About their looks and strength.

There was the magic carpet Which performed in days of yore, And those who had the luck To hitch a hike on it would soar. I've heard of carpets Arabic, And Persian too, Egad . . . With colors glowing . . . glossy . . . slick . . .

Imported from Bagdad. There carpets a in my abode, On which I softly tread. They are the latest style and mode . . . Of silken wool and thread. But of all carpets that I've seen . . . Of one I stand in awe . . . The one on which the boss calls me 'n' . . . Then lays down the law!"

What to Do

By PHYLLIS BELMONT

Question—How is a funeral conducted from the house? Answer—A house funeral should be very simple, and by its simplicity it is dignified.

The undertaker provides chairs for the friends and relatives who attend, and each person to arrive is met at the door by some representative of the family, and shown to a seat.

A row of chairs should be reserved near the casket for members of the family.

The casket is usually placed on a draped stand at one end of the living room. The space behind and on the sides of the casket is usually banked with flowers. The room may be darkened if desired.

The women of the family enter the room after the clergyman has arrived. They wear hats and veils if they intend to go to the cemetery.

Upon their return from the cemetery the family should find all signs of the funeral removed, shades raised and furniture replaced.

'Black Widow' Called Mighty Night Fighter

LOS ANGELES. — Northrop Aircraft corporation disclosed that its P-61 Black Widow night fighter carries four .50-caliber machine guns in a revolving turret besides 20-mm. cannon. This gives it greater fire power than any other fighter in the world. Not one has been shot down in combat.

Winter Is the Time to Take Farm Inventory

Repairs, Ordering of Supplies Are Winter Jobs

Farmers may not be certain, yet, as to how much of one or another of their crops they will plant. They may still be calculating the probable effect of a drop in the numbers of their cattle or hogs or chickens. They know what they will be doing on those long winter days and nights before the ground can be prepared for seeding.

Winter on a farm is the time for making repairs—loose boards in the farm floor, that ladder rung that's always uncertain, extra handrails where needed, fence jobs, chicken houses, pig pens, smoke house, milking equipment, and the many little things that always need to be done in the home.

Machinery needs attention, too, while it rests before the big spring push. Oiling, painting, replacement of worn-out parts, and a general going over to be sure everything is ready mean more to the farmer's ultimate production job than he may realize, WFA points out. Doing this work in the slack season makes breakdowns far less likely at a time when they would seriously hinder

Winter is the time to paint and fix up old buildings.

the business of getting land plowed and crops planted.

By getting these things done when he has the time along with many others that are a necessary part of keeping a farm in good working order, the farmer will find his production job running more smoothly and steadily throughout the year, even with another labor shortage promised for next year.

Agriculture In the News

By W. J. DRYDEN

Drying Mushrooms

Dried mushrooms offer a chance for the farm child or farm wife to supplement the "egg money." Types of mushrooms cultivated in the United States have not proven satisfactory for dehydration, and for this reason dried mushrooms sold in the United States have been imported.

The wild varieties have proven satisfactory for drying. They can be successfully dried by being placed on wire trays, one layer deep, and having a rapid current of warm dry air passed over them. The same equipment used for other dehydration will prove satisfactory.

Many, who live near wild mushroom patches, might be able to gather far more than needed for immediate consumption. When thoroughly dried they will keep in good condition for several years. They can be sold dry to stores or restaurants or kept for winter home use.

Tuberculosis Culls

Many older hens are carriers of tuberculosis, and if they are housed in winter with the pullets they can spread the disease to the younger stock, Dr. P. C. Neuzil of the American Veterinary Medical association points out in recommending that old hens be culled out of the flock.

In some areas 50 per cent of the poultry flocks are affected by this disease and tests show that older birds are the principal carriers.

Pig Weaning Rules

Pigs should be weaned at about eight weeks of age to allow for re-breeding of sow. The sow's feed should be reduced a few days before weaning time to prevent udder trouble. As the milk flow will continue, the practice of weaning a few pigs at a time is not advisable as the udders not used will become caked and hard. When the udder becomes hard and caked, the pigs may be returned for a few minutes each day until the trouble is corrected.

What was the best ball game

ever pitched, when you consider the combined quality of pitching on both sides? This query came up recently when we were wishing good luck to such war-zone travelers as Carl Hubbell, Mel Ott, Ducky Medwick, Dixie Walker, Paul Warner and Paul Derringer. None of them went back far enough to offer any complete check on the intricate situation. The only candidate for the honor present was Carl Hubbell, one of the great pitchers of all time who innocently became involved in the argument.

As I figure it, there were three such games that belong in one compact and select group. The first took place in 1908 when Addie Joss of Cleveland beat Ed Walsh of the Chicago White Sox 1 to 0. In that game lean and lanky Joss, a great pitcher badly overlooked, pitched one of the few perfect games in baseball. Not a White Sox reached first base.

Against this flawless exhibition Ed Walsh struck out 15 Cleveland hitters and allowed only two hits. And in those now forgotten days Cleveland had a mighty slugging team headed by Nap Lajoie.

No-Hit Game

This was a pitching thriller that none who saw it will ever forget. I was talking about this game recently with Charley Hughes of the Detroit Athletic club who also covered the big-arm contest.

"That game is my pick," Charley said. "Except for one wild throw, neither team would have scored against Joss and Walsh before nightfall. There is no greater thrill than to see a perfect game pitched—no one to reach first—especially when the other pitcher is allowing only two hits and fanning 15 men."

The next all-star double pitching entry we recall was the meeting between Fred Toney of Cincinnati and big Vaughn of the Cubs on May 2, 1917. In that game these two pitchers turned in a double exhibition that has never been equaled. At the end of nine innings neither had allowed a hit.

A double no-hit game in one afternoon was something for the record. No-hit nine inning games are rare enough and when you get two pitchers offering the same fare on a single occasion, you get close to the limit.

"What about the game," Mel asked, "that Carl Hubbell pitched against the hard-hitting Cardinals July 2, 1933?"

Hurling 18 Innings

Hubbell promptly blushed. "I'll tell you about it," Ott said. "Carl beat the Cardinals one to nothing after 18 innings. Tex Carleton worked the first 15 innings for the Cardinals and Jess Haines the last 3. They also pitched great ball. You have to, allowing only one run in 18 innings.

"But that isn't all of it. If you pitched perfect ball through 18 innings, only 54 men would come to bat. Well, as I recall it, only 57 men came to bat against Carl that day. Maybe only 56. Now it's great to pitch 9 fine innings. But think what it means to pitch 18 great innings."

"How about it, Carl?" I asked. Carl changed the subject slightly. "The best game I ever pitched was against the Dodgers," he said. "That was Memorial day, 1940. They got one hit, but that day I had most of my stuff working."

"Better than your 18 inning game and your no-hitter?" I asked. "I think so," he said. "But that 18 inning thing was a long afternoon."

"Here's a funny angle," Mel Ott said again. "Later on we beat Dizzy Dean and the Cardinals one to nothing in the second game that same day—27 runless innings for the Cardinals."

Anyway, we have offered you three of the greatest pitching contests of all time, slipping on back a mere matter of 36 years. There they stand on their own records—

The Joss-Walsh gem of 1908. The Toney-Vaughn jewel of 1917. The Hubbell-Carleton-Haines masterpiece of 1933, 18 innings

It would be interesting to get a vote from those who follow baseball as to which was the top masterpiece of the three.

All Around Fighters

How many know that in addition to football ability this navy team has set a new record in the way of fighting or boxing talent?

Here they are—Capt. Ben Chase, guard, was the regimental heavyweight champion in 1943 and the runner-up in 1944. Leo Bramlett, crack end, is heavyweight champion of the academy.

Clyde Scott, from Arkansas, won the middleweight championship of the Plebe summer tournament.

THE MODERN CATTLE RUSTLER

(Western cattlemen say that rustlers now work by automobiles. —News item.)

I'm losing lots of cattle
To cattle thieves quite new;
I hear their motors running
And see the car trails, too;
I'm having heaps of trouble
With rustlers low and mean
Who need no horse or saddle
But come by gasoline!

My herds are growing thinner
Because of thieves who ain't
The kind you find in novels
Or those the artists paint;
I hear no sounds of hoofbeats
No sheriff gives me hints;
I only know they've been there
When I find tire prints.

I hear of no cow-pony
Who bears a stranger near,
But just the same my cattle
Quite often disappear;
There is no crooked branding
No dust clouds from afar;
This rustler is a fellow
Who comes by motor car.

He is a sneaky hombre
He carries no lasso;
A road map in his pocket
And gas enough will do;
He takes his chosen cattle
And chucks 'em in his truck;
His getaway is easy—
If he has any luck.

The automobile rustler—
A sorry type is he;
He smells too gasoline
To have appeal for me;
He's just a no-good driver—
A dirty, low-down cuss
Who has no cowboy graces—
And only rides by bus.

Oh, shades of Owen Wister
And shades of old Bret Harte!
What has the Old West come to?
Must all its forms depart?
When this cow thief is captured
Is hanging pretty fleet?
Or should he get a ticket
For speeding with fresh meat?

It is predicted that after the war
the walkie-talkie phone will be used
in civilian life, making it possible
for people in areas too isolated for
telephone lines to talk merely by
using a receiver attached to their
belts. The possibility of getting
away from it all becomes more and
more remote.

High Brow
When ladies raise eyebrows at
actions of mine
My attitude's always, "Who
cares?"
I can't be impressed by this "so
perfect" sign
When noting said eyebrows ain't
theirs.

er on the beam.

Chinese Work as For Workers

Chinese pull a stone roller over new strip being built for the Air Transport command of the U. S. army air forces at Hsintsin, China, to provide additional bases for attacks against the Japs. Insert shows Gen. Tomoyuki Yamashita, conqueror of Malaya, and leader of Jap march at Bataan and Corregidor, who defends Leyte.

Picketing B-29 Engine Plant

Led by bearers of the American flag, a long picket line moved outside of the buildings of the plant at Paterson, N. J., where Cyclone engines used in the B-29 Superfortresses are made. Soon after this photo was taken the strike was called off, the men returned to work to furnish the air forces with the urgently needed engines.

Business as Usual at Leyte

Brig. Gen. William C. Chase (upper left) stands in front of Wainwright hall or Leyte island, named in honor of the defender of Corregidor. Upper right: General view of the surgery room of evacuation hospital on Leyte island. Lower: The Corner Drug Store, a Red Cross station, set up in Tacloba, capital of Leyte, in the Philippines.

Carries Own Machine Gun Rest

The new 30-caliber machine gun, used at Bougainville, is strapped on the back of a GI. All that is necessary to put it into action is for the soldier to fall to the ground, hold still, and take the vibrations as this rapid firing machine gun is busy mowing down the Axis forces. This method aids rapid maneuvers.

Army Leads Scorers

Glenn W. Davis, Army backfield star, shown ripping off a 30-yard gain against Notre Dame. He registered two others in game to become the nation's top scorer to date and to rate among best players of the season.

Dan'l-Davey-Kit

These three naval officers bear the names of famous fighters of bygone days: L. to R., Lieut. Daniel Boone Jr., Lieut. David Crockett and Ensign James D. ("Kit") Carson.

Flying Ghost Bomb

The artist shows the relative altitude of the new Nazidom mach-vaulted V-2 long-range rocket being used against Britain. The missiles fly through the stratosphere, going up into it at least 60 miles. They have been described as flying telephone poles. Reports from Europe report that a fleet of submarines and ships are being assembled for V-2 attacks on the United States.

Baby Goes Hunting

While parents work in defense plants, "Butch" rides the back of his granddad, during hunting season. The hunter has a passion for anonymity of self and papoose.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL Lesson

By HAROLD L. LUNDQUIST, D. D., Of The Moody Bible Institute of Chicago. Released by Western Newspaper Union.

Lesson for December 3

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

WORLD-WIDE CHRISTIAN FELLOWSHIP

LESSON TEXT—John 17:18-23; I Corinthians 1:1-3; 12:4-7, 12, 13.
GOLDEN TEXT—Neither pray I for these alone, but for them also which shall believe on me through my word; that they all may be one.—John 17:20, 21.

Unity among the believers in Christ is much talked about and desired by many in the church. They seek a single Christian communion in the world, or at least a gathering of all Protestant churches in one body. Such outward unity may be impossible to attain, and in fact might be quite undesirable if it did not express a unity of spirit and of true faith.

That fact, however, should not hinder us from seeking a world-wide fellowship of all believers of every race and creed in the unity of the Holy Spirit. The true church, the invisible body of Christ, is not divided, even though its members are scattered in many denominations.

We are reminded in our lesson that whatever else may be true about us, we (that is, all believers) are united in Christ. We are:

I. In the World—but in Christ (John 17:18-23).

Even as Christ was sent of the Father into the world to be the Light of the World, so we are here in the darkness of sin and sorrow to shine as lights for Him (Matt. 5:14-16). He did not pray that His disciples (and that includes us, v. 20) should be taken out of the world (v. 15) but that they should be kept from sin in the world.

So we are in the world. But let us never for a moment forget that though we are in the world we are also in Christ. He will give us—in fact He has given us—grace and glory so that we may represent Him in the world.

There is to be a oneness about believers (v. 21), not alone because of their good (blessed as that may be!), but in order that the world may know and believe in Christ (vv. 21, 23). The obvious corollary to that truth is that every evidence of division and friction between God's children is an opportunity and an excuse for the world to deny the truth of the gospel.

"Behold how these Christians love one another" was the baffled testimony of the pagan world in the early days of the Christian church. They could argue with their philosophy, and question their theology, but they had to admit that something had happened to these people which made them really love one another.

II. In the Church—but in Christ (I Cor. 1:1-3).

The church, even in its outward form of local assemblies and denominations, has a place of great importance in the world. One could certainly not find a more wonderful body of people nor more satisfying opportunity for service than that afforded by the church.

The ones to whom Paul addressed this letter were members of "the church of God which is at Corinth," but they were what is of infinitely greater importance, "saints"—those who had been sanctified, or set apart from this wicked world, in Christ Jesus.

This glorious distinction was not theirs alone, but belonged to "all that call upon the name of the Lord Jesus in every place" (v. 2). Here again we have that fellowship and unity in the love of Christ which transcends all other relationships and which ignores the boundaries of race, color, social position—yes, even of church membership.

No matter who or where another believer may be, Jesus Christ is "their Lord and ours" (v. 2). One could shout, "Hallelujah—Praise the Lord!" for such a delightful communion of all those who love Him.

III. In Service—but in Christ (I Cor. 12:4-7, 12, 13).

God has work to be done in the world. To accomplish that work, He gives diverse gifts to men. How wonderfully He endows and calls men and blesses them in His service! We can think of nothing more satisfying than to serve Him.

But even here we must keep in mind that the important thing is that we are not individual stars to shine in our solitary glory. No indeed, we are only a part of a great plan and purpose being carved out by "the same Lord" (v. 5). We are called, commissioned and sent by the one Holy Spirit (v. 7). We are "one body" (v. 12), baptized by the Holy Spirit into that blessed relationship, and it is that body of Christ which is at work in the world to do His will.

Nor does that in any way minimize the glory or the value of what we are called to do. On the contrary, it enhances our calling and encourages us to greater endeavor. We are not alone. We are in the Lord's service, yes; but first of all we are in Christ, and that means that we move forward with a great world-wide fellowship of those who have like precious faith.

SEWING CIRCLE NEEDLEWORK

Lovable Sleepy Time Gift Doll

For complete cutting, pattern, sewing and finishing instructions for the Crib Doll (Pattern No. 5643) send 16 cents in coins, your name, address and the pattern number.

Due to an unusually large demand and current war conditions, slightly more time is required in filling orders for a few of the most popular pattern numbers.

School NOTES...

High School
 By an arrangement with the Michigan Tuberculosis Association, the students of the public schools have the sale of the Christmas seals of the above organization this year. This sale will begin in Tawas City the last of this week and continue approximately ten days. President Roosevelt has asked the nation to join in the fight on tuberculosis. The President says that this country "cannot afford to permit the strength of its people to be sapped by this insidious disease." Let us buy the seals of the pulis at in the fight.
 Report cards were given out Wednesday of this week in all departments of the school. If a card does not reach parent soon, inquiry should be made.
 The sale of Defense Stamps has now been conducted in the school this year for five weeks. The total amount of the sales in all of the grades of the school each week is as follows: October 18, \$36.15; October 25, \$34.45; November 1, \$29.35; November 8, \$37.90; November 15, \$38.70; November 22, \$29.85; November 29, \$37.15.
 The Seniors have started work on their class play, "Grandad Steps Out," by Felicia Metcalfe. Mr. Potts has agreed to direct it. The first practice was held Tuesday evening. The Seniors feel quite certain that this three act comedy will prove to be a huge success. The date as to when the performance will be given will be set when it is seen how the play is progressing.

7th and 8th Grades
 The following have been neither absent nor tardy so far this year: Shirley Boomer, Stanley Brown, Geraldine McArdle, Bruce Myles, Herbert Look and Joyce Montgomery.
 Florence Bradford of Bay City has entered the Seventh Grade.
 The Eighth Grade is working problems in lumbering.
 Russell Banks has left our school. Everyone enjoyed his Thanksgiving vacation.
 Mrs. Goldsmith is reading "Huckleberry Finn" to us.
 Delores Engle, Leslie Smith and Donald Westcott has been absent because of illness.

5th and 6th Grades
 Nancy Rollin, Betty Lossing, Shirley Allen, Janet Ogden and Carolyn Gallicker received perfect scores in a fifty word spelling test.
 Our room is planning to sell Christmas seals this year.
3rd and 4th Grades
 Christine Bradford has entered the Fourth Grade. She comes from the Lincoln School at Bay City.
 The Third Graders are keeping a weather report for part of their work in geography.
 The Fourth Graders have learned to name and locate the continents. They can tell them by their shape.
 Mr. Giddings brought us a Christmas Seal poster. He told us we could begin selling seals Friday afternoon.

Kindergarten
 With only Beverly Cadorette not back from our vacation, we are working on our Christmas things. We have a great deal to do so our room looks like a tiny work shop.
 We have Christmas tree trimmings to make. We want to make a Santa, and some stockings full of toys.
 We are learning our Christmas songs. The two this week are, "Away in a Manger" and Jingle Bells."
 Yes, we are busy and happy now that Christmas is coming.

Artificial Eyes
 Germany, through her "Reichsverband," controlled the export of artificial eyes and the glass for making them. Her monopoly was comparable to that of the Venetians who kept their glass-making artisans virtually imprisoned on the island of Murano in the 16th and 17th centuries. Until the war, practically all artificial eyes were blown from a special glass with a velvety texture that could be made only in one place in the world — the little town of Lauscha in Thuringen, Germany.

State of Michigan
 At a session of said Court, held at the Probate Office in the City of Tawas City, in said county, on the 9th day of November, A. D. 1944.
 Present: Hon. H. Read Smith, Judge of Probate.
 In the Matter of the Estate of Norman D. Murchison, Deceased.
 Robert Elliott having filed his petition, praying that an instrument filed in said Court be admitted to Probate as the last will and testament of said deceased and that administration of said estate be granted to Robert Elliott or some other suitable person.
 It is Ordered, That the 19th day of December, A. D. 1944, at ten o'clock A. M., at said Probate Office is hereby appointed for hearing said petition.
 It is Further Ordered, That notice thereof be given by publication of a copy hereof for three successive weeks previous to said day of hearing in the Tawas Herald, a newspaper printed and circulated in said County, and that the petitioner shall at least ten (10) days prior to such hearing, cause a copy of this notice to be mailed to each party in interest in this estate at his last known address by registered mail, return receipt demanded.

H. READ SMITH,
 Judge of Probate.
 A true copy.
 Dorothy Buch,
 Register of Probate.

No. 1 Continued from First Page.

ly Marjorie Musolf, leaves Detroit next Wednesday, December 6th with a unit of the Women's Army Corps in which she recently enlisted. She will train at Fort DeMoines, Iowa. Her husband is in France.

Fred P. Langschwager, Jr., of R. D. 2, Tawas City, has been commissioned a second lieutenant in the Ordnance Department. He is a graduate of Saginaw high school, and the University of Michigan.

Word has been received of the recent promotion of Elmer D. (Dewey) Durant to pharmacist mate 2nd class. He is in the Pacific area.

Frederick Luedtke, Jr., electrician mate 1st class, leaves Friday for Alameda, California, after a ten day visit with his wife, and his parents, Mr. and Mrs. Fred T. Luedtke.

Corp. Clyde Ewrl has been transferred from Camp Leonard Wood, Missouri to Camp Shelby, Miss.

Ensign and Mrs. Eugene E. Lickfeldt left Friday for Lansing, leaving from there for Banana River, Florida, where Gene will continue training.

Maj. Arland E. Bigelow recently returned from foreign duty is now attending an "Advance Officer's Course in the Antiaircraft Artillery School, Fort Bliss, Texas.

Have you dropped your Christmas Gift for disabled servicemen and women in the box at your merchant's? The gifts will be sent to nearby hospitals caring for our sick and wounded by the American Legion and Auxiliary Auxiliary who are sponsoring the campaign ending December 6.

Timely Watering
 Losses of young plants can be avoided by timely watering and by shading them for a few days after they are transplanted. The gardener who wants to make permanent shading frames instead of using newspaper or other makeshift can stretch burlap, cheesecloth or other fabric over laths or other light lumber. Legs 12 to 18 inches long make the shades easy to handle.

Poultry Ration
 Experimental work has shown that poultry require somewhat less phosphorus and calcium in their feed when vitamin D is amply supplied than when minimum amounts feed by adding extra amounts of this are used. This means that vitamin D can, in part, compensate for a lowered phosphorus content in the vitamin. However, this does not imply that by adding plenty of vitamin D the phosphorus and calcium content of feeds can be disregarded.

Helium Plentiful
 Because the bureau of mines is producing more than enough helium to meet all of the wartime requirements of the navy, the army and the weather bureau, considerable quantities of this lightweight, noninflammable gas now are available immediately for medical, scientific and commercial use.

To the People of this Community

The best way to observe the defeat of Hitler is to buy an extra War Bond. In thousands upon thousands of American homes today there is pride and sadness. From these homes have come fighting men who died to bring us this far on the road to decisive victory over all our enemies. It will take more sweat, more tears, more toil, more and greater individual War Bond buying before we see Japan in the ruins these barbarians of the Pacific planned for us. How much more blood and tears depends on every individual American war worker and Bond buyer.
 The Sixth War Loan symbol—a bomb hurling down on the Rising Sun—can only come to reality with your individual help. Buy at least an extra \$100 War Bond above your normal payroll savings. That's the least you can do to back up your fighting men.
 THE EDITOR.
