IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL Lesson

By HAROLD L. LUNDQUIST, D. D. Of The Moody Bible Institute of Chicago. Released by Western Newspaper Union.

Lesson for October 28

TEMPERANCE BEGINS AT HOME

LESSON TEXT—II Timothy 1:1-6; 3:14-15; Titus 2:1-4, 11, 12. GOLDEN TEXT—As for me and my house, we will serve the Lord.—Joshua 24: 15.

The influence of the home on the character of a child is the strongest factor in the development of high and holy standards in the life of the man and woman.

Emphasis is placed on temperance in our lesson, and it is clear that in the home real temperance principles may be built into the thinking of boys and girls.

I. Our Family Is God's Gift (II Tim. 1:1-5). Paul, the apostle of Christ, addressed his son in the faith, Timothy, with affection and appreciation.

He knew that as the background of that faith, there was a godly line of ancestors, those with an "unfeigned faith."

Let those who are young recognize parents and grandparents who admonish and instruct them as God's gift. Let them not regard them as those who would restrict or restrain them unduly.

II. Our Faith in God's Guidance (II Tim. 1:6; 3:14, 15).

The gift of God for preaching which Timothy had was recognized by the church, and he was sent forth to proclaim the gospel.

God gave it to its fullest possible extent. He wants us, too, to stir it up.—this blessed, divine gift and calling.

The admonition (v. 14) is to "continue" in that which was learned, to remain true to the Word of God.

What we have learned as children we should hold fast in spite of all the devices of Satan and every weakness of the flesh.

III. Our Fellowship in God's Gospel (Titus 2:1-4).

Old and young are to be united in a great communion of believers proclaiming the gospel of God's grace by a living testimony, by a life devoted to the things of God.

Sound doctrine is the only source of sound living. To be "sound" means to be healthy, vigorous, free from defects, suited to a purpose.

Men and women are to be "temperate," not given to excess, and particularly in mind here is the use of intoxicants.

There is a positive side to the admonition, for soundness of life and faith shows itself in holy living, love, patience, the teaching of God's Word, and in fine fellowship among the people of God.

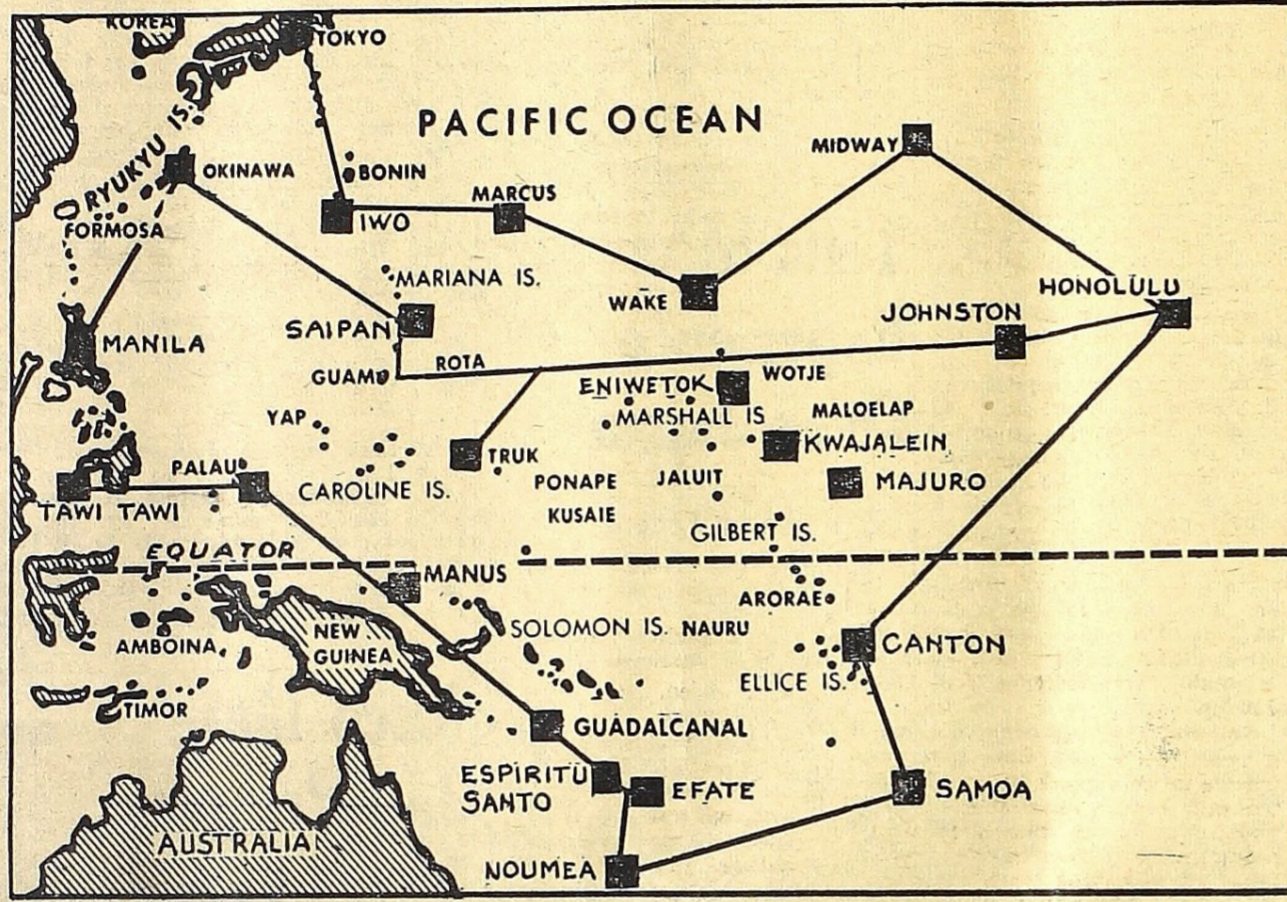

IV. Our Faithfulness by God's Grace (vv. 11, 12).

God's grace has brought salvation to man through Jesus Christ and His atoning death on the cross.

That brings about right relationships to self, to others, and to God. The Christian is sober and self-controlled as to anything which could "intoxicate" him.

Faithfulness to our Lord will count more than our words in the great battle against intemperance.

Recruiting Head

To Brig. Gen. Harold N. Gilbert, USA, has been entrusted the direction of the greatest recruiting campaign in the history of the army.

There has been some talk here, but no alarm, about the 14 days' grace General MacArthur granted. The word was passed around through Washington, that he thought they probably needed that much time to adjust their people from the war propaganda line which had concealed from them even the news of the atomic bomb.

The hiatus nevertheless gave the Jap officials time to whip up more than a cup of tea in their own interests. They could destroy every record in the nation of interest to foreigners.

Emperor Hirohito this was their primary objective, but I do believe it. My defense is that my fault, and the fault of this nation up to now, has been that we did not suspect the Japs enough.

As far as I can learn she has no uranium and no atomic bomb formula. If she developed these things she could cause trouble and no doubt she will cause as much trouble as her limited perimeter permits.

JAPAN OUR RESPONSIBILITY Now Japan has become our responsibility. China and Russia have settled their Asiatic mainland differences, at least to the extent of a presently peaceable working agreement.

We have nothing on the Asiatic continent, but have taken the islands of the Pacific and the Japanese homeland, presumably intending to withdraw eventually when peace is restored, but keeping island bases we consider essential to our military safety (either under the trusteeship system through the United Nations, or by actual direct control as recently recommended by a house committee).

On the mainland are only Russia and China, as major influences there on the ground. Through Singapore, India and Indo China, the British and French are present to an extent. China can piece her broken country together and become a strong nation. Unfortunately she has not only been overridden by seven years of war, but is in the depths of tremendous inflation and politically faces harassment from the Communists, above or below board, no matter what peace is made.

**Chimney Repair**  
Ask yourself these questions when you're examining heating equipment: Have chimneys been cleaned within a year? Are they in good repair? Are smokepipes too close to burnable material, causing charred spots from radiated heat? Are smokepipes rusted or broken, with holes that sparks can pass through? Are walls, ceilings and partitions protected from overheating of stoves and furnaces? Are stoves and furnaces in good repair?

**Postwar Agriculture Demands THE RIGHT TRACTOR FOR THE PARTICULAR JOB**

THE proverbial Jack-of-all-trades was master of none. The modern world of science and technology passed him by. The same principle applies to farm tractors. The tractor that does a wide variety of jobs unsatisfactorily can't possibly produce the greatest results at the least cost in any job. But that's what the farmer—particularly the small operator—has got to do to meet postwar competition: he's got to produce the most food possible with the least effort and, consequently, at the lowest cost. The farmer with 10 acres in truck crops needs one kind of tractor. The farmer with 100 acres in wheat alone needs another kind—or, as is usually the case, two or more different tractors. The tractor which does a good job on the Great Plains may be useless in the rice territory. And so it goes. Conditions of climate, the lay of the land, and the character of soils in the different parts of this vast country, together with wide variations in the nature of crops and the size of operations, combine to produce wide differences in the requirements for tractors. Harvester's policy is to meet all these requirements. That is why Harvester's postwar line includes a great variety of Farmalls and other specialized tractors and attachments rather than a single tractor with a single system of tools. Every tractor in the line was developed after scientific research and testing under actual operating conditions showed the specifications needed for efficiency and economy. Every Harvester-built tractor is the right machine for its particular job.

### IN CHANCERY

O. James Crews and Florence B. Crews, Plaintiffs, vs.

David Soloman and his unknown heirs, legatees, devisees and assigns, Defendants.

(At a session of said court held at the court house in the city of Tawas City in said county on the 11th day of October, A. D. 1945.

Present: Hon. Herman Dehnke, Circuit Judge.

On reading and filing the bill of complaint in said cause and the affidavit of H. Read Smith attached thereto, from which it satisfactorily appears to the court that the defendants above named, or their unknown heirs, devisees, legatees and assigns, are proper and necessary parties defendant in the above entitled cause; and,

It further appearing that after diligent search and inquiry it can not be ascertained, and it is not known whether or not said defendants are living or dead, or where any of them may reside if living and, if dead, whether they have personal representatives or heir living, or where they or some of them may reside, and further that the present whereabouts of said defendants are unknown, and that the names of the persons who are included therein without being named, but who are embraced therein under the title of unknown heirs, devisees, legatees and assigns, can not be ascertained after diligent search and inquiry.

On motion of H. Read Smith, attorney for plaintiff, it is ordered that said defendants and their unknown heirs, devisees, legatees and assigns, cause their appearance to be entered in this cause within three months from the date of this order, and in default thereof that said bill of complaint be taken as confessed by the said defendants, their unknown heirs, devisees, legatees and assigns.

It is further ordered that within twenty days plaintiff cause a copy of this order to be published in The Tawas Herald, newspaper printed, published and circulated in said county, such publication to be continued once in each week for six weeks in succession.

HERMAN DEHNKE,  
Circuit Judge

Countersigned:  
Effie Mallon,

### School Notes

**High School**  
The edition of the school's new paper, "The Elk's Tale," appeared Tuesday of last week in the form of an eleven page edition. We hope to publish once every two weeks, but it probably will always contain 11 pages.  
The Twelfth Grade Economics Class has been spending a few days of study concerning corporations and concerning certain factors which accompany corporations. Class members have brought samples of the different kinds of stocks and bonds, and the first hand study causes considerable interest.  
The Eleventh Grade American History Class has begun the study of the American Revolution. We are fortunate to have in the library three or four references (written by the best authorities concerning this period of our national history; that is Dr. C. H. Van Dyne, one time head of the American History Department of the University of Michigan. The laboratory books for the Chemistry people have at last arrived and so work will begin next week in the laboratory. The class consists of 34 members and so each table will surely be well supplied with students.

**7th and 8th Grades**  
We had a new teacher a portion of this week due to the illness of Mrs. Goldsmith. Mrs. Potts supplied. We received our report cards Wednesday of last week.  
Clifford Erickson and James Reed are getting news for the paper this week. Do you believe that we have done a good job?  
Billy Dockett and James Reed are members of the band this year.  
Edward Wells is Seventh Grade reporter for the school paper, "The Elk's Tale."

**5th and 6th Grades**  
Marquette Arnold has entered the fifth grade.  
We are planning a Hallowe'en party. Elaine Latham, Lillian Pfeiffer and Kathleen Frank have charge of the refreshments and Joan Musolf, Shirley Allen and Joyce Reed compose the game committee.

**3rd and 4th Grades**  
We have made pumpkin faces, witches and black cats for our room. Hallowe'en will soon be here.  
Our boys and girls are doing better in spelling. More perfect lessons are reported.  
The fourth grade are working on simple multiplication. They are finding it more fun than they believed it could be.

**Primary Room**  
The first graders are making color charts and are learning the color names.  
We learned the poem, "Have the Leaves Came Down" for language.  
The second graders are learning to write their addresses.

**Kindergarten**  
We are learning a verse called "Helpfulness"  
Our new song with the Primary Room this week is the "Huntsmen."  
We are going to sing the song "Jack-O-Lantern" for the Primary Room Friday morning.  
The boys and girls are all talking about dressing up for Hallowe'en.
