Two Dollars Per Year

NUMBER 5

## Briefs— NEWS of the WEEK

### TAWAS CITY

C. L. McLean was a business visitor in Detroit the first of the week for a couple of days.

John A. Monarch returned Wednesday from Detroit where he was a business visitor for a couple of days.

Several from here attended the Extension course for teachers held at Hale each Thursday. The subjects "Health" and "Social Science" are presented by Ronald Finch and Dr. Ryder from Central Michigan College of Education at Mount Pleasant. Forty teachers are enrolled with eleven from Tawas, Mr. and Mrs. Russell Rollin, Mrs. A. A. McGuire, Mrs. Waldo Leslie, Mrs. Mable Scarlett, Mrs. A. A. Bigelow, Mrs. Fred Kohn, Mrs. May McMurray, Mrs. Alton Long, Miss Viola Groff and Mrs. O. W. Rowley, taking the course.

Miss Esther Bean, formerly of Alabaster and Manuel Stinett, were married in Napoleon, Ohio on Tuesday. They will make their home in Detroit.

Burton Hall, meat cutter at the Slaven Grocery, is again at St. Mary's Hospital, Saginaw, following a relapse from an operation of three weeks ago.

Miss Wanda Fowler returned from Mercy Hospital in Bay City, Sunday. She has been seriously ill for the past month.

A 11 pound boy was born to Mr. and Mrs. Gerald Roekle at Saginaw General Hospital.

Mr. and Mrs. Berthold Cholger and family of Saginaw were week-end visitors of his parents, Mr. and Mrs. Carl Cholger.

Mr. and Mrs. Bernard Filipiak and son, Bernie, spent the week-end in Detroit visiting relatives.

Mr. and Mrs. Francis Young and two little daughters of Essexville visited her parents, Mr. and Mrs. C. E. Tanner, a few days this week.

Mrs. J. A. Brugger is a patient at Ford's Hospital in Detroit.

(Turn to No. 1, Back Page)

### EAST TAWAS

Mrs. Daniel Franks of Lansing arrived last week-end to spend a season with her daughter, Mrs. Fred Misener. They visited with relatives at Omer a few days.

Mr. and Mrs. Edward Walters of Dearborn were visitors of Mrs. Victoria Kull, who is a sister of Mr. Walters. They visited at the Ernest Mielock home where Mrs. Kull is residing.

Miss Beverly Bley entertained some friends at her home last Sunday afternoon, the occasion being her 11th birthday anniversary. The young people enjoyed games and a lunch with the customary birthday cake.

Regular meeting of the American Legion Auxiliary will be held next Monday, February 2nd at the Legion Hall.

East Tawas High School basketball teams lost two games to the Northeastern School of Commerce of Bay City last Friday evening.

Mr. and Mrs. William Small of Houghton and their sons, William of Sturgeon Bay, Wisconsin, and Norman of Milwaukee, Wisconsin, were in East Tawas the fore part of the week attending the funeral of Mrs. R. M. Small.

Mrs. Florence Mielock's room, the fourth and fifth grades, won a prize this week for having raised the largest amount of money in selling Christmas seals to fight tuberculosis. The prize was a beautifully illustrated encyclopedia.

(Turn to No. 2, Back Page)

### Alabaster Boy in Central College Play

Included in the cast in "Excursion" presented last week at the Warriner Hall Auditorium, Mt. Pleasant, was Stan Rescoe, of Alabaster. The three act comedy was given by the Department of Speech, Central Michigan College.

### \$16,477 in Sales Tax For Iosco Schools

Eugene B. Elliott, superintendent of public instruction, announced Wednesday the allocation of \$7,802,668 from the sales tax to the school districts of the state. Iosco county's portion will be \$16,477.00.

Nearby counties will participate as follows:

Alcona, \$7,387; Alpena, \$34,144; Arenac, \$14,775; Ogemaw, \$14,877; Bay, \$121,816.

### CARD OF THANKS

We wish to extend our sincere thanks to all those who came to our rescue Saturday night and helped save our car and garage when fire nearly destroyed our garage. Also the Fire Department for their quick response.

Mr. and Mrs. Roy Charters.

### CARD OF THANKS

We wish to thank Mr. and Mrs. Beaubien for their courtesy and splendid cooperation during the wedding dinner which they held at Lang's Dairy and Lunch Bar for their relatives and friends.

We both wish them much happiness and success.

Mr. and Mrs. Fred Lang.

### CARD OF THANKS

I wish to thank my friends for the flowers, cards and cheering words that I received while in the hospital.

Wanda Fowler.

FOR RENT—Small house, modern, bath, complete. Furnace. Available February 1. Phone 364. 4-1b

## Coronation Ceremonies Saturday Night, Feb. 7

### Betty Cooper 1948 Silver Valley Queen

### Mark Beltaire, Town Crier, to Crown Queen Betty

Miss Betty Cooper daughter of Mr. and Mrs. Lloyd Cooper of East Tawas, will reign over festivities at Silver Valley Winter Sports Carnival, February 6, 7 and 8. Miss Cooper was selected at the Queen's Ball held Saturday evening at the Community Building, East Tawas.

Coronation ceremonies will be held Saturday evening February 7, at the Community Building. Queen Betty's court will include: Miss Phyllis Jacinth of Oscoda, Miss Faye Webb of Hale, Miss Marilyn O'Farrell of Whittemore and Miss Marion Klingler of Tawas City. Miss Patricia Bolen of Alabaster, Silver Valley Queen 1947, will be in attendance to relinquish the crown to the new queen.

Mark Beltaire, Town Crier of the Detroit Free Press, will do the honors of crowning Queen Betty while Bob Hall, Detroit radio commentator, will act as master of ceremonies. Music for the Coronation Ball will be furnished by Norm Pochrandt's Band of Saginaw. Pochrandt was formerly with Charlie Spivak's Band.

**CORONATION PROGRAM**  
Saturday Evening, February 7  
Queen's Banquet at 7:00 Saturday evening at Barnes Hotel, Tawas City.

Coronation Ball Saturday evening at Community Building, East Tawas.

Coronation Ceremonies at 10:00 Saturday evening during coronation ball.

Full facilities of Silver Valley will be open to the public during the three day program.

Hundreds of winter sports fans have been pouring into Silver Valley every week end to enjoy the fine facilities for skiing, tobogganing and skating. Capacity crowds are anticipated this Saturday and Sunday, with the attendance record reaching the climax during Carnival Week-End, February 6, 7 and 8. In addition to guests from all over central and southern Michigan, three bus loads of young people from the Walther League at Saginaw and the Friend's Society of Bay City enjoyed the facilities of Silver Valley during the last week-end.

Among those who plan to attend the Carnival Week End activities are nine bus loads of young people from Detroit. These 300 or more young people are from the several Lutheran congregations in the Detroit area.

An added convenience for those who enjoy the activities at Silver Valley will be the bus service to the area each Saturday and Sunday established by the Tawas Transit Company. A bus to and from Silver Valley will be run every two hours during each Saturday and Sunday.

### Aid in 50 Counties

### Townships Give Road

The County Road Association of Michigan lists 50 Michigan counties that are now receiving financial aid from their townships to help carry Road Commissions over the present crisis. A total of \$613,350 has been contributed to Road Commissions by townships during the last six or seven months. Of this \$176,000 was contributed to general maintenance, \$109,884 for construction without matching, \$122,000 for construction with matching, and \$305,466 for snow removal.

The township aid varies considerably in these counties. For instance Alpena county received a total of \$25,180 from its townships for snow removal, Barry county received from its townships \$10,000 for construction and \$15,000 for snow removal. Cass county received \$28,500 for construction by matching and Emmet county \$15,000 for snow removal. The amount and phase of road work that the townships have given their aid to varies with the individual counties but a majority of the counties are now listed as having received assistance and quite a number of the remaining counties have indicated that they will help their road commissions. It is thought that all counties will find their townships offering what assistance they can give the road commissions when the latter are unable to operate alone.

### Queen Betty and Her Court

Misses Marion Klingler, Faye Webb, Betty Cooper, Phyllis Jacinth and Marilyn O'Farrell.

### D. & M. Changes Train Schedule

The Detroit and Mackinac Railway Company has announced this week a change in the passenger train schedule. The new schedule will go into effect Sunday, February 1.

The evening train will leave Tawas City at 7:15 arriving at Bay City at 9:15.

The morning train will leave Tawas City at 8:25, arriving at Alpena at 10:15.

In addition to Detroit connections the new schedule gives immediate connections for Lansing, Jackson and Chicago.

### Help the March of Dimes Campaign

With the closing of the campaign this week your committee urges that you send in your contributions if you have not already done so.

It will take your liberal giving to make this a success. To date the returns have been slower than in other years. We need your help now.

Iosco county school children are participating in the campaign, according to a report from County School Commissioner Russell Rollin. A small girl from Hale is being hospitalized for infantile paralysis and the cost of this case is being paid out of the "March of Dimes" fund. A considerable amount of money from Iosco county's polio fund was used for hospital care.

### CARD OF THANKS

We wish to thank the people who gave the shower at the Grant Hall, also the Red Cross.

Mr. and Mrs. Henry McCormick.

Mr. and Mrs. Melvin McCormick.

### Harbor Survey Ordered

### Eleven Projects Under Consideration

A comprehensive detailed survey has been ordered to determine the advisability of establishing harbors for small craft at eleven points on the south shore of Lake Huron, according to a communication from the Great Lakes Division of the Army Corps of Engineers. The announcement was made on Wednesday of this week.

Included in the eleven places specified are Tawas Bay and the AuSable river Harbor at Oscoda. The proposed survey will be made to determine the best plan of improvement, cost involved, local cooperation required and advisability of establishing harbor for small craft in the eleven localities.

A public hearing on the Tawas Bay area was held May 19, 1945, at Tawas City.

### Transit Company Bus To Serve Silver Valley

The Tawas Transit Company has established a Saturday and Sunday bus service to Silver Valley according to an announcement made this week.

The bus will leave for Silver Valley as follows:

Barnes Hotel, Tawas City—11:00 A. M., 1:00, 3:00 and 5:00 P. M.  
Hotel Holland, East Tawas—10:45 A. M., 12:45, 2:45 and 4:45 P. M.

### Schmidt-Beaubien

Miss Frances Schmidt and Vernon Beaubien both of this city, were united in marriage at 9 o'clock Saturday morning. The ceremony took place at St. Joseph's church with Rev. Robert Neumann officiating at high mass.

The bride wore the traditional white satin wedding gown with finger-tip veil. She carried a white bible topped with an orchid.

She was attended by her sister-in-law, Mrs. Peter Schmidt, who wore a similar designed dress in blue satin and carried a bouquet of carnations. Little Judy Schmidt acted as flower girl. Russell Jameson of Saginaw assisted the groom. The groom was in military service for 37 months.

Breakfast was served to 30 relatives and friends at Lang's Dairy Bar and a reception was held at the Wilber Town Hall in the evening.

The young couple will make their home on the Townline.

Relatives were present from Saginaw, West Branch and Flint.

### Mrs. Edward Alford

Alla May Alford who had been ill for several years, stricken with paralysis, passed away at her home in East Tawas last Sunday evening, January 25. Funeral services are to be held this week, Friday afternoon, at 2:00 o'clock from Christ Episcopal church with Rev. Charles E. Edinger of Ferndale, officiating. Interment will be in the Greenwood cemetery.

Alla May Brown was born in Kalamo, Michigan, August 17, 1869 and was 78 years old. She was married to Edward Alford in Kalamo on February 2, 1887. The family moved to East Tawas in 1901. They have been residents of East Tawas for 46 years. Edward Alford passed away in 1939.

Mrs. Alford was a member of Christ Episcopal Church, Eastern Star, Irene Rebekah Lodge and the American Legion Auxiliary.

Left to mourn her loss are two daughters and three sons, Mrs. Catherine McMullen of East Tawas; Mrs. Marian Webber of Howell, LeRoy of Buena Vista, Colorado, Leon of Detroit and Rev. John A. Alford of Bay City. She is also survived by one sister, Mrs. Leon Becker of Nashville, Michigan.

### Mrs. Robert M. Small

Mrs. Rebecca Small, died at her home in East Tawas, Saturday noon, after an illness of two years. The past several months she has been confined to her home. Mr. and Mrs. Carl Small and family resided with her during her illness.

Funeral services were held for Mrs. Small at the Moffatt Funeral Home Monday afternoon at 2:00 o'clock. Rev. Harry Sigler of Christ Church Episcopal, officiating.

Mrs. Small was a resident of Iosco county for 50 years. She was active in the church and community life of the city. She was a member of Christ Episcopal Church, Women's Guild, a charter member of the Ladies' Literary Club, a life member of Iosco Chapter, Order Eastern Star, and a member of the American Legion Auxiliary.

She was born April 23, 1866 in Greeno, Ontario. In 1885 she was married to Robert M. Small, former Captain in the Coast Guard, who preceded her in death in 1936.

She is survived by four sons, Frank of Rehoboth Beach, Delaware; David and Carl of East Tawas and William of Houghton, U. P., Michigan; 14 grandchildren, two great grandchildren.

Burial was made in Greenwood Cemetery.

### Monarchs Gain Another Victory

### Harrisville Here Saturday Night

The Tawas City Monarchs slipped through to another victory, Tuesday night, when they defeated Mikado at Mikado 43 to 34. The Monarchs took an early lead with a 27-0 count at the end of the first quarter and 33 to 12 at half time. In the second half the Mikado team crept within five points of Tawas City, but quick baskets by Roy Landon and Jim Dubovsky put Tawas way out in front with the final score 43 to 34.

Roy Landon, forward and Jim Dubovsky, center, kept on their high scoring pace, each netting 12 points, followed by W. Thornton, with eight points. Other team members were J. Rollin and H. Bust with four points; D. Landon, three, and N. Thornton, two, D. Bertsch and Paul Beyer.

This Saturday night, January 31, Tawas City will have Harrisville for opposition at the Tawas City High gymnasium. This is the second contest of the year with Harrisville, with Harrisville winning the first game by a wide margin at Harrisville, two weeks ago. The Monarchs will be out with a full crew to avenge that defeat, so lets be on hand fans for some fast and exciting basketball. The game with Sportsmen's Bar of Alpena, originally scheduled for Saturday night was canceled because of a misunderstanding.

### District Scout Training Program

### Six Scout Troops To Participate

A central district Boy Scout training program has been announced to start early in March according to Elmer Werth and Lionel Butler who attended the recent meeting of the Summer Trails Council held at Midland, Werth and Butler are members of the Tawas Boy Scout committee.

The district includes Tawas, Sterling, Standish, West Branch and Oscoda, and training program meetings will be held in each of these towns at which all troops of the district will attend.

A meeting of the Scout committee will be held next week Friday evening at the Holland Hotel.

Parents are urged to have their sons attend the Boy Scout meetings which are held each Saturday evening at the Eagles Hall.

### Iosco Delegates Attend 4-H Club Meet

Forty-three boys and girls from counties of northern Michigan were inspired by an extensive training course which was sponsored by the Sears Roebuck Company and conducted by the 4-H Club Department of Michigan State College. The three day meeting which was held at Higgins Lake in Roscommon County covered all phases of good leadership. The importance of recreation in meetings was especially stressed and many games, stunts, dances and songs were demonstrated. Of course, everyone enjoyed participating in the demonstrations.

Matters of membership and keeping interest in the clubs were discussed and many suggestions were offered. The importance of parliamentary procedure, keeping records and teaching subject matter was stressed.

Various 4-H club agents offered their suggestions in promoting 4-H work in the County. They impressed the young leaders with their serious obligation of developing high moral character of their members. K. G. Fosterling in his talk said "The teaching of skills and developing moral character was the responsibility of the teachers of biblical days. And so today the 4-H leaders not only teach skill in the various projects but by inspirational leadership teaches social responsibilities to the youth of their charge."

Ernest Nash and Ruth Webb were Iosco county delegates. These young leaders were chosen because of their excellent accomplishments in 4-H club work. County Agent, Harold R. Clark and District 4-H Club Agent Alfred Hakola accompanied the group from this district.

### Delinquent Tax Money Distributed

Delinquent tax collections for the quarter ending December 31, were distributed as follows:

Alabaster Township	\$41.15
AuSable Township	70.65
Baldwin Township	80.31
Burlingame Township	57.54
Grant Township	57.38
Oscoda Township	535.70
Plainfield Township	202.31
Reno Township	168.05
Sherman Township	88.94
Tawas Township	28.55
Wilber Township	40.14
East Tawas	97.21
Tawas City	900.35
Whittemore	3.82

### Elks Win From Harrisville in Tough Battle

### Play Arenac Eastern On Local Floor Tonight (Friday)

The Tawas City Elks stepped on the gas in their victory march Friday night as they mowed down Harrisville 43 to 33 in a "knock-em-down, drag-em-out" fracas on the hardwood at the local auditorium. The "Deifabaughmen" used a four man zone defense and Don Gingerich covered Dehnke, speedily forward from Harrisville, holding him down without a field goal and only two foul they used in the last game with Harrisville, a 36 to 35 thriller, in which Dehnke ran wild in the first half meshing 12 points, but in the second half the team changed their tactics and used a four man zone and Dehnke was held to one field goal. Don Westcott, top scorer of the team, came through with 22 points on seven field goals and he completed eight out of 11 shots from the free throw line. Westcott has amassed 108 points in the last nine games and in the last three games in which he played in the forward slot, has garnered 52 points. Don Gingerich was next in line in scoring against Harrisville with eight points, Steinhurst collected six and Bruce Myles and Look meshed four and three points respectively.

The Elks jumped to a 15 to 8 lead in the first quarter on four points by Bruce Myles and Westcott, three points by Look and two apiece by Steinhurst and Gingerich.

In the second quarter Westcott connected for six points and Gingerich made two tallies. Harrisville came through with 14 points. Score at half-time: Tawas City 23, Harrisville 22.

In the third quarter Steinhurst hit the hoop for four points while Gingerich made two and Westcott added a foul shot. Harrisville lost ground as they made six points.

In the final stanza Westcott made 11 points and Gingerich garnered two. Harrisville dropped out of the running then as they only made five points.

Harry Uhlman and R. Kigor were the officials, and they really had a job of it as they called 36 fouls, 21 on Tawas City and 15 on Harrisville.

The Reserves won from the Harrisville reserves 16 to 14 in a close, well matched game. McGuire, guard for the Tawas City team garnered seven points, while Wally Erickson hit the hoop for five points. Hill collected two points and Herriman and Grack each made a foul shot. Atchison led the Harrisville team with six points.

### Townships and Cities Receive Sales Tax

Sales Tax Diversion Money amounting to \$12,668.80 has been allocated to the townships and cities of the county, according to a report made by County Treasurer, Grace Miller. This money goes into the city and township funds.

The allocations are as follows:

Alabaster Township	\$478.04
AuSable Township	457.32
Baldwin Township	497.28
Burlingame Township	896.88
Grant Township	452.88
Oscoda Township	1081.88
Plainfield Township	1376.40
Reno Township	520.96
Sherman Township	704.48
Tawas Township	1129.24
Wilber Township	389.24
East Tawas	2471.60
Tawas City	1591.00
Whittemore	621.60

### Former Tawas Woman Honored at Hillman

Folks in Hillman will serve up a dinner, January 29 in honor of Mrs. Albert J. Schmal, who for 25 years has been chairman of the Montmorency County Red Cross. Mrs. Schmal is widely known for two activities—a grower of gladioli, and for having transcribed several books into Braille so that blind people can read them.

Mrs. Schmal was the former Edith Anschuetz of this community.

Mrs. J. W. Miller was called to Detroit by the illness of little Janice Bean, who was operated on for appendicitis Tuesday. She is getting along nicely.

### Weather Reports

# 'Year of Decision' Arrives for U.S.

## America Alone in Struggle To Save Western Ideologies

By BAUKHAGE

News Analyst and Commentator.

WASHINGTON.—Cartoonists and others have titled 1948 "the year of decision." It is a pretty good title. The only trouble is that America's most important decision has already been made, and nobody seems to realize it. We know that the British empire has broken up, but, aside from the fact that there is some grumbling about loaning money to the British, it doesn't seem to concern us very much.

In the current issue of the United Nations World magazine, the British historian and author, D. W. Brogan, has an article entitled "The British Shed No Tears for Their Lost Empire." In it, he says:

"... in the nineteenth century, the progress of English prosperity

was in close association with the spread of a general political and economic religion of all sensible men. The Bank of England, free trade, parliamentary government all increased their range of influence together. And the English looked on what was largely their work—and their profit—and found it good. They were satisfied with what they had accomplished. "It is natural enough, today, when this world situation has changed to take pretty calmly the decline in the favored historical position of England. If the spread of English ideas, practices and profits has ceased, why worry—unless you are English."

Baukhage

Unless you are English."

And yet the people who ought to be doing the worrying are the Americans.

We are taking over where Britain left off, and the job is a bigger one than England faced. But, the average person in this country will say in horror: "You talk like a Communist! America's whole tradition is non-intervention. Of course we had a wild period in South America, and in our salad days as a nation, we somehow acquired what we called Texas although the Mexicans, at the time, thought it was a part of Mexico, and then, there's Hawaii. But those days are over. See how promptly and politely we returned the Philippines to themselves, and took our marines out of the banana plantations where they didn't belong, and the other day even abandoned our bases in Panama. Don't tell me we're going to establish a second British empire!"

We aren't. The spirit of live and let live is just as strong as it ever was in this country. Unfortunately, however, what Brogan calls "the spread of a general political and economic religion of all sensible men" suddenly encountered a force that threatened to destroy it when the Germans marched into Poland and the Japs bombed Pearl Harbor.

It took all America could afford, and more than Britain could afford, to stop that force. And today, another and stronger force is gaining power, and there is nobody to stop it but the United States.

When a British official in London said "every means short of war" would be used "by the British and American governments to keep Greece within their own strategic and ideological orbit," it didn't make much of a ripple outside of Washington. But it was a statement of tremendous import, for it means that the Truman doctrine was not just a phrase, that its implementation is now certain. It means that the people responsible for the destiny of the United States know that the year of decision is here, the decision having been made not in Washington, but in the Kremlin, just as the decision to fight Japan was made, not in Washington, but in the office of one squat little man now awaiting a death sentence in Tokyo, one Hideki Tojo, former premier of Japan.

Partisans Succeeded In Soviet Sphere

Today it is fashionable to make funny cartoons about the "third party" announced in December by Henry Wallace. Yet that third party fits neatly into a plan to wreck our way of life, the plan, another part of which was the careful coaching by the Kremlin of the "partisan" fighters in World War II. The partisans were formed, first to help beat down one of the Soviet's enemies, but they also were groomed to destroy representative government in their respective countries.

The partisans were most successful in the countries nearest Russia, in territory where the Red army, in the guise of allies fighting a common enemy, gained a foothold which they kept when peace came, and which was used to put their trained stooges into power.

In Italy and France, they were unable to capture completely the partisan or resistance movements. But they did get a grip on both countries which neither France nor Italy dared throw off until the United States made a tacit condition of aid. The expulsion of the Communist parties from both governments,

Temporarily, at least that much of the carefully-planned Soviet program failed. But new steps are being planned. A part of the pattern of communication is Communist alliance with the left-wing non-Communists. The Reds cooperate with the non-Reds, help them bring about their objectives, then slowly dominate and absorb them. One method used by Reds to get rid of non-Communist left-wing resistance is to help a reactionary government into power. Such a reactionary government suppresses the non-Communist left-wingers, and pushes those surviving deeper into Communist toils.

That is where the Wallace third party fits into the Kremlin design. The Reds hope it will split and weaken the liberals in this country, increase the friction between them and the conservatives as much as possible, aid the conservatives to get into power. Then when the reaction sets in, the conservatives will be thrown out, and the well-organized Communists can take over easily.

Greece is a testing point in the Russian-American struggle. The only way in which the Communist internal aggression there could be checked was for Britain and the United States to step in and actually direct the Greek government. That was done. Much as any country dislikes having a stronger one run its affairs, the United States, as a choice of evils, is the less unwellcome to the Greeks, especially when we come bearing gifts without which the government knows it cannot resist the Communist organization.

When one talks with the "exiles," the refugees from the Red terror, one is appalled by their attitude. Recently I spoke at length with a former foreign minister of one of the countries now firmly in the jaws of the Soviets. He assured me that today, if there were a free election in his country, not 1 per cent of the people would vote to support a Red regime. He said these "satellites" are not satellites at all, they are as much a part of the Soviet Union as the Ukraine or Outer Mongolia. The secret police paralyzes all independent action.

There is a desperation about the attitude of these men who fought the losing battle against the Kremlin. They say there is absolutely no hope for Europe unless the Russians are driven back to their old borders, and the Balkan states, Poland and Finland are freed of Russian domination. They say there is only one thing that will have effect: A threat by the United States to use force.

When the quotation of the London official which I mentioned, stating that the United States and Britain were committed to "measures short of war" came over the wires, I was reminded of the conversation with the former foreign minister.

He had said to me: "If the United States threatens to use force now, the Russians will pull out of Eastern Europe. They cannot afford war now. They fear the United States. But in a few years, mere threats will not suffice. The Russians then will be ready to fight."

And this force moving against the "political and economic religion of all sensible men" is moving not only in Europe. All along Russia's periphery, the red tide is rising against its frontiers, in the Middle East, in India whose gates Russia has threatened for centuries, in China, Korea, in the islands adjacent to Japan.

### FROM SNAIL FEVER TO MALARIA

## Plan African 'Disease Safari'

Armed with microscopes instead of 16-inch guns, naval medical scientists are preparing for a new sort of African safari on which they will study some of the diseases native to the dark continent.

The navy medical group will accompany the African expedition being sponsored by University of California, hence will have the duty of providing medical service to the university paleontologists and anthropologists who will cover most of Africa this year seeking traces of primitive man and apes.

For their own purposes the navy doctors will study such native diseases as African sleeping sickness,

THEY WON'T LAND... In Philadelphia at a rally of the marine corps reserve, Gen. Clifton B. Cates (right), new commandant of the marine corps, took occasion to announce that no leathernecks are scheduled to land in Palestine. He also dismissed the sending of about 1,000 marines to the Mediterranean as "routine." With General Cates are Fleet Adm. William Halsey and James H. Duff, governor of Pennsylvania.

### NEWS REVIEW

## Slump Possible: Truman; Cite Air Power Need

In this season of presidential reports to the nation the alarm bells were jangling for everything from the state of the entire world to the frayed condition of John Doe's back pocket.

And through his "Semi-Annual Economic Report of the President," Mr. Truman sounded the gong ominously on a new note: The impending peril of economic disaster in the U. S.

The nation's economy, he said, is operating on borrowed time and inflation-ridden Americans are operating on borrowed money in a situation flirting with depression.

Millions of persons in the low-income groups, his report pointed out, now are keeping the inflation carousel whirling by liquidating their savings, reducing their current savings and by extensive use of consumer credit.

"Such use of savings for current living expenses is an ominous sign for the economy as a whole." Without stopping to consider any possible political aspects of the President's economic report, Americans could take it as a sober, realistic picture of what lies beneath the relative luxury in which many of them are existing now.

Exhaustive and complete, the economic survey presented figures notable in that they:

1. Showed for the first time that a "real purchasing power" of the American masses—basic factor supporting U. S. economy—has declined 8 per cent since the first quarter of 1946, and that
2. Millions of Americans are living on their savings accounts and borrowing money. Almost one-quarter of all families and more than one-half of families earning less than \$2,000 yearly "held no liquid assets in 1947."

Then Mr. Truman tied in these facts with his administration's proposed policy to beat the inflation rap. If inflation, he said, is "permitted to run its own course, it will break with destructive force."

And in order not to let it run its own course the President again urged adoption of his anti-inflation program—limited price and ration controls.

That way, he indicated, lies a new, greater economic era for the U. S. embodying maximum employment and solid and lasting prosperity.

### AIR STRENGTH: 'A-Day' 1953

How important is it that the U. S. have a potent, efficient air force? Virtually a matter of life or death, thinks the President's air policy commission which recently reported on the status of the nation's air strength.

Immediate and substantial enlargement of the air force for "survival in the air age" was urged by the commission; and January 1, 1953, was set as "A-day," or the ultimate date when the U. S. might consider itself relatively secure against atomic attack.

After "A-day," the commission intimated, it will be anybody's ball game as far as airborne atom bombs are concerned. "The air force is hopelessly wanting in respect of the future... when a

serious danger of atomic attack will exist."

On that premise the group recommended that the government start now to spend on the air force in 1948 1.3 billion dollars more than the 2.85 billion currently scheduled for this calendar year, and that in 1949 the total be raised still another 1.3 billion dollars.

For actual air strength the commission said that by 1942 the U. S. should command a total of 12,000 first-line planes, plus more than 8,000 held in reserve.

Although it was extremely unlikely that the air policy commission's recommendations would be adopted in toto by this or any other peacetime congress, the report put realistic emphasis where emphasis belonged. Everyone has been aware that air power is mandatory if the U. S. is to have any degree of national security in an era of feverish atomic-bomb production, and the commission has succeeded in putting that awareness on as factual a basis as is possible now.

### OPEN CITY: Jerusalem

Since apparently nothing can stop the quasi-civil war between Arabs and Jews in Palestine, that country's harassed government has done the next best thing and requested both factions to spare the holy places of Jerusalem from any depredations they might carry out.

The Palestine government asked the Christian, Moslem and Jewish religious communities to declare Jerusalem's ancient walled area an "open city."

That plea couldn't stop the bloodshed but it could preserve the religious relics sacred to all three of the world's main religions.

Meanwhile, transportation was being made available to evacuate any of the 1,500 Jews still living under Arab siege inside the walls. They are the remnants of 4,000 normal residents of the area.

### Which Way Judea?

Moshe Shertok, head of the Palestine Agency's political department, now in the role of liaison official to U. N., ponders one of the many enigmas partition of the Holy Land has thrust upon him. He said the Jewish agency soon would ask U. N. for an international police force, arms and funds to enforce the partition agreement.

## WITH THE COLUMNISTS

WALTER SHEAD

### Consumers Pay Lobby Bill

THE lobby racket in Washington is costing consumers of the nation anywhere up to 50 million dollars a year, according to conservative estimates.

Under the congressional reorganization act, lobbyists are required to register with congress. To date, 951 individual lobbyists representing 662 organizations have registered, according to a round-up by Congressional Quarterly, a reliable source of information.

These organizations are expending approximately five million dollars annually in salaries alone and, according to estimates, the cost of expenses, offices, clerical help, entertainment, food and liquor will amount to 10 times the salaries paid. There is no doubt but that this sum spent to influence legislation in congress is passed on to the voters.

Here is a box score with approximate salary expenditures: Twenty-six organizations like the U. S. chamber of commerce and National Association of Manufacturers, \$289,250 annually; 23 building products and real estate organizations, \$212,410; 22 financial organizations, \$237,600; 51 food and agricultural concerns, \$581,810; 35 oil, gas and mining organizations, \$236,990; 21 power and communications organizations, \$228,800; 79 transport associations, \$68,000; 5 highway associations, \$76,600; 57 railway organizations, \$259,306; 11 water or shipping concerns, \$108,000; 48 miscellaneous companies, \$163,033; 49 miscellaneous trade groups, \$244,100; 61 citizens' groups, \$218,886; 75 employees' groups, \$725,383; 28 farm groups, \$195,800; 9 foreign policy groups, \$233,704; 19 professional organizations, \$126,368; 26 reclamation groups, \$150,408; 23 tax groups, \$72,420; 21 veterans and military organizations, \$112,950, and 14 women's groups, \$39,731.

WALTER WINCHELL

### Doodling on the Typewriter

The feds are checking a big New York theater operator for alleged income tax evasion. Insiders hear it looks like a gaul term for sure. . . . Doris Duke told intimates she was forced to come here (from Paree) because her orchid farm "simply has to be put on a paying basis." Well, times is tough all over, milady.

We recently colym'd about a pretty Hungarian waitress (working in the U. S. senate snack bar) who thought she'd like being back in Vienna, "which is so much more gay!" . . . The item put her picture in the gazettes. . . . What followed apparently changed her mind. . . . An army lieutenant from New York flew to see her and spoke ardent words. . . . Another reader phoned her from Scranton, Pa. . . . She is now quite awed and bewildered by the way "things happen so quickly to a strain-cha in Amerriyuh!"

Biggest yock of the year. When a famed fellow's toupee slid off his dome (into his zoop) the other night in a Hollywood spot.

The Radiocasters: You can discover Inner Sanctum's spot on the dial where heebie meets jeebie. This show remains the topper among the spook spots.

DREW PEARSON

### Doctors to Study Atomic War

ARMY-NAVY strategists have estimated that the United States has until 1951 before Russia produces the atomic bomb in quantity, even though she probably has the secret now.

During these next three years, therefore, the government faces the grim task of quietly briefing its doctors for a possible atomic war. Proper medical know-how, it is estimated, will reduce fatalities by from 25 to 40 per cent—in case of an American Hiroshima.

- The special atomic medical course will cover the following high points:
1. Casualties from an atomic explosion caused by concussion, flying debris, or flash burns.
  2. Individuals within a mile of the bomb blast are exposed to a lethal dose of radioactivity. This is deadly. No matter how healthy they may appear, it is useless to treat them. Casualties one to three miles from the target center are in serious danger, but can be saved by prompt medical attention.
  3. Most dangerous are the deadly gamma rays. These attack the blood cells, causing severe internal hemorrhages. Only blood transfusions on a massive scale can save life.
  4. Alpha and beta particles are less dangerous, since they cannot pass through the skin. But they can enter the body through the nose, mouth or a wound.

H. I. PHILLIPS

### The Washington Porch Issue

That decision of Harry Truman to build a \$15,000 porch on the White House has put the Marshall plan, global relief, peace inflation and even wheat speculation in the background. It may cost him the election. Anti-porch parties are being set up all over America.

and tile floors) but it represents a step never before taken by an American President and thus becomes an event of national significance. If we encourage Harry in this, how far will he go? One porch may lead to another. He can develop a porch habit. And, unchecked, he may go on with plans to add a watch-tower or a cupola. If it is the Missouri note that he is after what is to stop him from sticking a silo just east of the building and tossing in a chicken house and milkshed?

The Republicans already have a 1948 slogan to capitalize this issue: "A porchless White House was good enough for Lincoln; it's good enough for Truman!" With a supplementary one, "Even Roosevelt left the White House exterior alone."

A porch may seem a little thing (even 40 foot by 10 with iron rails

IMPOSSIBLE TASKS: Interesting a man who has just shoveled his sidewalk in a talk on the beautiful crystal formations in every individual snowflake.

WESTBROOK PEGLER

### Art of Debate Declines

IT IS a fact, deplorable, I suppose, that the art of debate has declined not only in our national congress but also in other forums, to the extent that clamor and yammer now do the work of argument. The truth may be that the people always have been incapable of strong, discriminating judgment and have been governed by their emotions rather than their intelligence in reaching enormous decisions.

In the time of our great congressional orators our press was primitive and its circulation was so small that obviously it could reach only a relative few of the literate minority. Inasmuch as there was no radio, it would seem that the influence of the debaters in congress on the opinions of the people must have been theoretical.

The radio, by itself, seemed to promise mankind a perfect medium of debate. But, in the hands of people, it was exploited and perverted from its beginning and today, for all its marvelous technical improvement and its extravagance, radio is simply a means of enlarging the volume and range of incoherent, irrelevant and more and more theatrical outcries.

This is a Presidential year, a strange quadrennial moon which always sets us to bowling and twitching like arboreal Caribs making voodoo over chicken-neads and things unspeakable. At the two great conventions, the orations will be echoes of hundreds of past humiliations of the vaunted American intelligence, all absolutely artificial.

WRIGHT PATTERSON

### Wallace Draws All Radicals

IT IS a very long and arduous road between announcing a candidacy for the presidency on a new party ticket and having that party recognized in the various states and given a place on the ballot. Futile as his candidacy may be, Henry Wallace can do the people a real service. He can segregate the radical element, garnered from both major parties,

and put them in one pen. His group will include the avowed followers of the Moscow party line; the pinks and fellow travelers; those with socialistic inclinations; the theorists who believe in government planning, and that greater "something for nothing" class who expect the government to provide for their needs.

Storm Facts Set Right

Col. Jason Z. Penniman, a survivor of the famous eastern blizzard of '88, who has been too indignant over comparisons of recent snowstorms with it to speak calmly, has succeeded in regaining his composure sufficiently to get a few things off his chest. "Mere flurries or modern snowfalls!" declared the colonel. "Nothing beyond a thin covering of light flakes! Any survivor of the blizzard of '88 would have been glad to have brushed away the highest drifts on Manhattan Island with his hat."

"The blizzard of '88 was a blizzard. It had zero weather, terrific gales and more snow, no matter what our incompetent and uninformed weather bureau say. I don't care what the weather man says about more snow on the level in this peevee storm. None of it was on the level in '88, and four dozen stalwart men who went out to measure it were never heard of again. Their instruments were later found in a snowslide 75 miles north."

"In New York a bronze eagle, weighing 28 pounds, atop the Grand Union Hotel, was blown clear across Brooklyn and later found buried under six feet of snow on the roof of a bath house at Coney Island. A cigar store Indian near Niblo's Gardens got caught in an ice floe and was later found in the lobby of Barnum's Museum miles away. A marble statue of Daniel Webster that was away uptown for that era got turned completely around in a sudden gust and ice cracked the base."

"A farmer milking a cow in a shed on a farm where the Commodore Hotel now stands got brick ice cream. He started for his cottage 100 yards away but was buried in snow before he made it. The cow was in a perfect state of preservation that July, but it took time to get the ice off. Why I felt so cold for years after that blizzard that ten years later I went to the Klondike which seemed to me like a summer resort."

### Special Delivery Letters

Ex-King Michael of Romania, Dear Mike:

What a break you got in getting kicked out! Not to have to go on being a king anywhere on earth these days, especially in the Balkans, oh boy! I bet it was like getting a last minute pardon after what looked like a life stretch.

It seems only yesterday that your picture was a rotogravure special. You were just a scared looking kid who seemed always to be asking "Where's popper this time?" Most of the time you couldn't figure whether the old gent was a king or a traveling man and you must have had a tough time as a child understanding whether you were to succeed to a throne or a sleeping car. The old gent abdicated so often that the Romanian throne was the only one in the world that had to be fitted with metal slots with the words "Occupied" and "Unoccupied."

It looked for a while as if Moscow would be brutal enough to let you go on being king, but just when no escape seemed at hand you fell in love and went in for a capitalistic thing like engagement and marriage without the necessary Kremlin passports to a private life, and presto you were let out without even two weeks' notice and only small severance pay.

Congratulations, however, as it was a close call. Now you can love a fine young woman, marry her and sit around in a bathrobe, while the wife cooks some scrambled eggs, without bringing on international complications, threatening world peace providing Vishinsky nuts. What is more you can come home at night, kiss the wife and say "What's new, toots?" without being accused of warmongering.

You deserved it, Michael, my boy. Elmer.

SILVER LINING

On winter I am keeping score—The sky is dark At half-past four, But here's a thought To warm the heart—The season barely gets a start Before the days Start lengthening, And later sunsets Hint that spring, Though distant, Can't be far behind. 'Tis thus to gooseflesh I'm resigned.

Henry Wallace says he may wish to draw his candidacy at any time when he decides either major party takes a stand of which he can approve. This introduces for the first time in any ring a man's hat equipped with emergency exits and fire escapes.

CAN YOU REMEMBER—Back when all barfies were male?

Our idea of a fabulously rich man is a fellow who can hire a touring car in Miami for a whole weekend.

# Star Dust

STAGE-SCREEN-RADIO  
Released by WNU Features.

**By INEZ GERHARD**  
IN "A Foreign Affair" Marlene Dietrich's fans will see her as she looked in the days when she made her reputation, in a glamour role. She plays a night club entertainer, one-time friend of Nazi bigwigs, who falls in love with an American army captain of the occupation forces (John Lund). Later she becomes involved with a congresswoman (Jean Arthur) who is

MARLENE DIETRICH

investigating troop morale. With those stars, and that story, giving all three a chance to do the things they do best, fans should love it. The day Marlene reported for work she was swamped with flowers, including sixty-four gardenias.

The men came out ahead last year on ABC's "Break the Bank"; Quizmaster Bert Parks gave \$11,030 to 34 men who appeared on the show, but 31 women collected only \$3,320. The bank was broken 16 times, by 4 men and 12 couples, who averaged \$2,675.62. And the record for winning the most money is held by Mr. and Mrs. Albert Fowler, a 70-year-old couple from New Jersey.

There's a third bread-winner in the family of George Burns and Gracie Allen; 12-year-old Ronnie. Director William Perlberg saw the lad at his father's club, and put him into "An Apartment for Peggy," starring Jean Crain and Edmund Gwenn.

Robert Montgomery, permanent star of the new hour-long "Suspense" series on CBS, is maintaining his reputation of being a good trouper. While he is the star of the series, he has let it be understood that though a play may be good, if he does not feel that the lead is the right part for him, he will gladly take a supporting role and let someone else head the cast.

Rise Stevens, of the "Family Hour," was riding in a hansom with her 3½-year-old son Nicky when a fan called "Hello, Miss Stevens." Nicky, who'd never heard that name, indignantly shouted back, "No, no! That's my Mommy!"

Admirers of Henry Morgan were just about to start passing the hat to raise money to sponsor his return to the air when it was announced that he would be with us again on ABC Thursdays. He is more popular than his rating shows.

Professor Quiz's rating has gone up two points, and his contract has been renewed for another year, so that lady in the balcony will be bobbing up throughout 1948. Quiz now ranks with the air's leading quiz programs.

Actresses come and go, but Dame May Whitty is here forever, we hope. She made her first screen appearance in 1914 in "Enoch Arden"; she will have a leading role in "Julia Misbehaves," at Metro, starring Greer Garson and Walter Pidgeon.

Brian Aherne has been devoting his spare time to building a fence at his ranch near Indio, Calif. The gate is worth going miles to see; it is made from parts of the teak-wood deck rails of the Queen Elizabeth, on which so many G.I.s carved their initials when the ship was a transport. The rails were replaced when the Queen became an ocean liner again.

Mutual's "It's a Great Town," broadcast, will be scheduled as a regular weekly feature, designed to point up the varied interests and personalities of this country. A Mr. and Mrs. radio team will tour the United States, to provide the basic broadcast formula for these programs. It is considered a definitely new idea in radio.

**ODDS AND ENDS**—Seems a bit early for such announcements, but Pat O'Brien has already been signed as Jimmy Duran's summer replacement on the air. . . . Sportscaster Red Barber goes overseas soon to cover the winter Olympic games at St. Moritz. . . . Ralph Edwards' new contest, "The Walking Man," gives the lie to all the people who predicted that "Miss Husb" had sickened him of contests forever. . . . Gene Tierney and Rex Harrison will co-star in 20th Century-Fox's "Symphony Story." Scenes for "Street With No Name" were made at the P. B. I. offices in Washington; William Keigley directs.

**OUTSTANDING TEN . . .** Annual selection of the nation's 10 outstanding young men has been announced for 1947 by the United States junior chamber of commerce. They are (top row, left to right): Cord Meyer Jr., 27, president United World Federalists; Dr. Robert A. Hingson, 34, first to use hypospray in medical treatment; LaVon P. Peterson, 28, founder of world's only radio engineering school for the blind; deLesseps S. Morrison, 35, mayor of New Orleans, and Glenn T. Seaborg, nuclear chemist. Bottom row, left to right: Adrian S. Fisher, 33, atomic energy commission counselor; Richard M. Nixon, 34, congressman from California; James Q. Newton Jr., 35, mayor of Denver; Thomas H. Reid, 33, human relations expert, and Glenn R. Davis, 33, congressman from Wisconsin.

**SUPERSONIC SLED . . .** This is the rocket-propelled land vehicle which army air forces, in cooperation with Northrop Aircraft company, have developed to make outdoor "wind tunnel" tests at supersonic speeds. It slides along a 2,000-foot stretch of railroad track near Murco air base on the California desert. Propelled by five rockets, it has attained speeds of 1,019 miles an hour.

**CALLING ALL SOURDOUGHS . . .** In California the volatile inhabitants of the state were all excited about the celebration marking the centennial of James Marshall's discovery of a gold nugget in the tailrace of Sutter's sawmill near Coloma. Here, L. W. Loomis, in charge of mining exhibits at the Coloma centennial, pans gold near site of Sutter's mill. He is aided (like no prospector was aided in 1848) by Delmira Ferreira (left) and Jean Ovieta, centennial girl of El Dorado county.

**NOW WHERE DID YOU COME FROM? . . .** Steeped in perplexity, Patrolman Paul Nydes puzzles the problem of what to do with the horse which he found hitched to a "flats fixed, car wash" sign in downtown Pittsburgh. It later developed that the nag belonged to a junk man who had been hurt in a collision with a street car and taken to a hospital. A benevolent bystander had tied the horse to a pole to keep him out of harm's way.

**JUST A GAG . . .** Primo Carnera, former world's heavyweight champ, puts a little pressure on diminutive jockey Freddie Smith, maybe to get a tip on a winner. But Freddie escaped unharmed—to ride again.

**RED SAILS . . .** Dr. Syed S. Hasan, U. N. correspondent for the "People's Age," Communist newspaper of Bombay, India, was investigated by immigration authorities, then told to catch the next boat for Europe. He did.

## Clue in Polio Fight Seen in College Work

Doctor Reports Antivirus Drugs May Combat Disease.

NEW YORK. — Some new clues toward possible discovery of drugs to combat virus diseases were reported by Dr. Conrad A. Elvehjem of University of Wisconsin.

Viruses cause many different kinds of diseases, among them infantile paralysis and influenza in humans.

Dr. Elvehjem mentioned the possibility of antivirus drugs in describing recent progress in nutrition to the midyear meeting of the American Pharmaceutical Manufacturers' association.

A lack of vitamin B-1 (thiamine) makes mice almost completely resistant to paralysis from viruses closely related to the virus of infantile paralysis, he said. When the mice had adequate amounts of the B-1, almost 100 per cent of them got the paralysis.

Two other vitamins, riboflavin and pantothenic acid, gave similar but less striking results. Deficiencies of potassium and phosphorus in their diets also increased their resistance to the paralysis.

More resistance also was shown, he continued, when mice were fed diets deficient in tryptophane, which is one of the amino acids or building blocks out of which proteins are made. This may indicate that the virus has a preference or priority for certain amino acids, he said. This would not be surprising because the virus is composed largely of protein material.

A logical suggestion, Dr. Elvehjem said, is that certain chemicals similar to the tryptophane might be used to alter or modify the development of the virus.

"There are undoubtedly many difficulties and obstacles in a program of this kind, but even if practical applications do not come out of their work, much fundamental knowledge must accumulate," he said.

## Missing Bit of Radium Found in Small Clinker

LONDON. — One three-thousandth of an ounce of radium, lost from a London hospital, has been found in a small clinker at a huge refuse dump 40 miles away.

Fearing that radiations might endanger public health, hospital and civic officials called in physicists who, by means of a detector of radio-active substances and x-ray equipment, traced the radium to the tiny slug in a dump a quarter of a mile long, 20 feet wide and 12 feet deep.

The radium, last used in the hospital's operating theater, was swept away with dressings and eventually with furnace waste.

## Find Nazi Spies Sabotaged U. S. Plants Before the War

NUERNBERG, GERMANY.—The Germans carried out sabotage activities in the United States even before Pearl Harbor, Dr. R. W. Kempner of the war crimes prosecution staff said. Agents were instructed to damage harbors, pipelines and strategic factories and start forest fires, Kempner said.

The Nazi - directed sabotage, Kempner said, occurred in New York state, New Jersey, Pennsylvania and Texas, according to witnesses questioned for the coming trial of former German foreign office executives.

Kempner withheld the names of witnesses.

## Farmer Rigs Trap for Chicken Thieves—Kills 13 Chickens

MADISON, NEB. — A Madison farmer who suspected someone was stealing his chickens rigged up a homemade burglar alarm with washtubs and other noisemakers.

On a recent night something touched off the alarm. Clad only in underwear and shoes, the farmer grabbed his shotgun and ran for the chicken house. He didn't notice his dog followed him.

As the farmer reached the chicken house the dog pressed its cold nose against the farmer's bare skin. He let go with both barrels of the shotgun—and brought down 13 of his own hens.

## Microscopists Necessary To Operate Electronic Eye

CAMDEN, N. J.—Radio Corporation of America scientists have developed a new super-sensitive electron microscope that can see inside a chocolate bar, examine the myriad threads of rayon hose, or inspect the fibers of rubber tires.

The only hitch is the present scarcity of electron microscopists to put the "eye" to full use.

## Fiancee Gets In-law Lesson; Just Like Confidence Game

PITTSBURGH. — A smartly dressed woman entered the beauty shop where Mildred Wampler worked and identified herself as a sister of Miss Wampler's fiancee.

She said she needed \$20 and her brother had suggested borrowing it from Miss Wampler. A much wiser Miss Wampler discovered later that her fiancee has no sister.

#### ORDER OF PUBLICATION

At a session of said court held at the court house in the City of Tawas City in said county on the 7th day of January, A. D. 1948.

Present: Hon. Charles L. Brown, Circuit Judge.

On reading and filing the bill of complaint in said cause and the affidavit of H. Read Smith attached hereto, from which it satisfactorily appears to the court that the defen-

dants above named, or their unknown heirs, devisees, legatees and assigns, are proper and necessary parties defendant in the above entitled cause, and;

It further appearing that after diligent search and inquiry it can not be ascertained, and it is not known whether or not said defendants are living or dead; or where any of them may reside if living, and, if dead, whether they have personal representatives or heirs living or where they or some of them may reside and further that the names of the persons who are included therein without being named, but who are embraced therein under the title of unknown heirs, devisees, legatees, and assigns, can not be ascertained after diligent search and inquiry;

On motion of H. Read Smith, attorney for plaintiff, it is ordered that said defendants and their un-

known heirs, devisees, legatees and assigns, cause their appearance to be entered in this cause within three months from the date of this order, and in default thereof that said bill of complaint be taken as confessed by the said defendants, their unknown heirs, devisees, legatees and assigns.

It is further ordered that within twenty days plaintiff cause a copy of this order to be published in the Tawas Herald, a newspaper printed, published and circulated in said county such publication to be continued thereon once in each week for six weeks in succession.

Charles L. Brown, Circuit Judge.

Countersigned: Dorothy Buch, Deputy Clerk, Circuit Court.

Take notice, that this suit, in which the foregoing order was duly made, involves and is brought to quiet title to the fo-

lowing described piece or parcel of land situate and being in the County of Iosco, State of Michigan, described as follows, to wit:

(4) Township twenty-two (22) North, Range Seven (7) East. H. Read Smith, Attorney for Plaintiff. Business Address: Tawas City, Michigan.

### How long should shorts be?

Some like 'em long. Some like 'em short. So what do we do? We get together with Allen-A, offer you short shorts, long shorts. Medium-length shorts, too!

Long or short, they all bear the name of quality-famous Allen-A. Which means they're Knit-to-Fit of finest yarns and won't, can't bunch up or droop down on you.

Come in and choose yours today.

# Now on display THE 1948 CHEVROLET

Newer! Smarter! Finer!

Here's the one to see! Come in and see it! The new Chevrolet for 1948 brings you new smartness of design, new color harmonies, new interior luxury—an even greater measure of BIG-CAR QUALITY AT LOWEST COST. And with all its greater value, Chevrolet's the lowest-price line in its field . . . the only car in its price class combining such Big-Car features as Body by Fisher, Valve-in-Head Engine, Unitized Knee-Action Ride and Positive Action Hydraulic Brakes. No wonder more people drive Chevrolets—and more people want Chevrolets—than any other make, according to official nation-wide registrations and seven independent nation-wide surveys.

CHEVROLET and ONLY Chevrolet IS FIRST!

# Tawas City Adopts Zoning Ordinance

ORDINANCE NO. 122  
ZONING ORDINANCE for the  
CITY OF TAWAS CITY, MICHIGAN  
TITLE

An Ordinance providing for the establishment of districts within which the use of land and structures, the area, size and location of buildings may be regulated; and to establish regulations within these districts for the light and ventilation of such buildings; and to regulate the density of population within these districts; to provide for and establish set back lines; to provide a method of administration and to prescribe penalties and punishment for the violation of its provisions and to repeal all other ordinances or zoning plan now, Therefore

**PREAMBLE**  
In pursuance of authority conferred by Act 207, Public Acts of Michigan of 1921, and amendments by Acts 287, Public Acts of Michigan of 1941 and Act 306 of Public Acts of 1941 and Act 306 of Public Acts of Michigan of 1941, to promote the health, safety, morals and general welfare by preventing the overcrowding of land, avoiding undue congestion of population, securing safety from fire, providing adequate light and air and facilitating the adequate provisions of transportation, water, sewage schools, parks and other public requirements in accordance with a comprehensive zoning plan; now, Therefore

**THE CITY OF TAWAS CITY ORDAINS:**

## ARTICLE I—DISTRICTS:

Section 1.1. For the purpose of this ordinance, the city of Tawas City is divided into four districts, as follows:

- Residence "A" District.
- Residence "B" District.
- Commercial District.
- Industrial District.

Section 1.2. The boundaries of each district are indicated upon the zoning map which is hereto attached and made part of this ordinance, approved and attested by the City Council of the City of Tawas City, Michigan, and all notations, references and other information shown thereon shall be as much a part of this ordinance as if fully described therein.

## ARTICLE II—BOUNDARIES OF A DISTRICT:

Section 2.1. The district boundaries are as shown on the approved zoning map.

Section 2.2. Any question concerning the location of boundary lines of districts shall be determined by the Board of Appeals as hereinafter created.

## ARTICLE III—GENERAL PROVISIONS:

Section 3.1. Except as hereinafter provided, no building, structure, or land, or part thereof, shall be used, altered, constructed, or reconstructed except in conformity with the provisions of this ordinance which apply to the district in which it is located.

Section 3.2. The lawful use of premises existing at the time of the adoption of this ordinance may be continued, although such use does not conform with the provisions hereof, and such use may be extended throughout the building, provided no structural alterations or changes are made therein, except those required by law or ordinance or such as may be required for safety. If a non-conforming use is discontinued, any further use of the building or premises shall be in conformity with the provisions of this ordinance.

Section 3.3. If no structural alterations are made, a non conforming use of a building may be changed to a use of the same or higher classification according to the provisions of this ordinance. Whenever a non-conforming use of building has been changed to a higher classification or to a conforming use, such use shall not thereafter be changed to a use of a lower classification.

Section 3.4. Except as hereinafter provided, no building shall be erected or altered to exceed the height or other limitations herein established for the district in which such building is located. No building shall be erected, nor shall an existing building be altered, enlarged or rebuilt, nor shall any open spaces surrounding any building be encroached upon or reduced in any manner, except in conformity with the regulations hereby established for the district in which such building is located.

Section 3.5. No yard, court or other open space provided about any building for the purpose of complying with the provisions of these regulations shall again be used as a yard, court, or other open space for another building.

Section 3.6. Utility poles and accessories for electricity or telephone service shall be placed at the rear of the lots upon alleys, or in the absence of alleys, wherever easements may be obtained, as determined by the City Council.

## ARTICLE IV—RESIDENCE "A" DISTRICT REGULATIONS:

Section 4.1. Residence "A" District shall comprise those residential areas of the City of Tawas City as shown on the approved zoning map.

Section 4.2. Use Regulations. In a Residence "A" District no building, structure, or land shall be used and no building or structure shall be hereafter erected or altered, unless otherwise provided in this ordinance, except for one or more of the following uses:

- (1) One-family and two-family dwellings.
- (2) Churches and temples.
- (3) Public and parochial schools and colleges, institutions of an educational nature, parks and playgrounds.
- (4) Libraries, public parks and playgrounds.

- (5) Farming and truck gardening.
- (6) Hospitals and clinics.
- (7) Boarding and lodging houses.
- (8) Clubs, except those the chief activity of which is a service customarily carried on as a business for profit.

Accessory buildings or structures incidental to the above uses and located on the same lot and separate from the main structure may be permitted, including one private garage.

(9) Uses customarily incidental to any of the above uses when located on the same lot and not involving the conduct of a business as carried on in a commercial district. This shall be understood to permit the professional office or studio of a doctor, barber, beauty culturist, dentist, teacher, artist, architect, engineer, musician, lawyer, magistrate, masseur, or practitioner of a similar character, or room used for home occupations, including dressmaking, millinery or similar handicraft. Provided, Further, no goods are publicly displayed on the premises and no sign or advertisement is shown thereon other than a sign not to exceed three (3) square feet bearing the name and occupation of the practitioner.

Section 4.3. Area Regulations. In a Residence "A" District the minimum dimensions of yards, and courts, and the minimum lot area per family shall be as follows:

(1) Lot Area per Family. Every one or two-family dwelling hereafter erected or altered in the Residence "A" District shall provide a lot area for such dwelling of not less than seven thousand two hundred square feet and said lot shall have a front width of not less than sixty feet. This regulation shall not apply to lots already platted and recorded at the effective date of this ordinance.

(2) Location of Building. No part of any building shall be erected nearer than twenty feet from the front property line, six feet from the side property lines and twenty feet from the rear property line, measured from said property lines to any appurtenance to said building.

An accessory building including private garage may be constructed within three feet of the side lot line and three feet from the rear lot line, if said accessory building or private garage is constructed on the rear of the lot. If the garage is connected with the house, or other than at the rear of the lot a six-foot side yard shall be provided between the garage and the property line.

(3) Building Floor Area. Every dwelling unit in this district shall have a first floor area of not less than four hundred and eighty square feet.

## ARTICLE V—RESIDENCE "B" DISTRICT REGULATION:

Section 5.1. Residence "B" District shall comprise those residential areas of the City of Tawas City as shown on the approved zoning map.

Section 5.2. Use Regulations. In a Residence "B" District no building, structure, or land shall be used and no building or structure shall be hereafter erected or altered, unless otherwise provided in this ordinance, except for one or more of the following uses:

- (1) All uses permitted in Residence "A" District.
- (2) Apartment Houses.
- (3) Private club, lodge house.
- (4) Boarding and rooming house for aged persons.

## Section 5.3. Area Regulations.

(1) Every apartment hereafter erected or altered shall have a minimum lot area of seven thousand, two hundred (7,200) square feet with a front not less than sixty feet. This regulation shall not apply to lots of record prior to the adoption of this ordinance. The minimum lot area per family unit shall be two thousand and four hundred (2,400) square feet.

(2) Location of Buildings. No part of any building shall be erected nearer than twenty feet from the front property line, six feet from the side property lines and twenty feet from the rear property line, measured from said property lines to any appurtenance to said building.

An accessory building including private garage may be constructed within three feet of the side lot line and three feet from the rear lot line, if said accessory building or private garage is constructed on the rear of the lot. If the garage is connected with the house, or other than at the rear of the lot, a six-foot side yard shall be provided between the garage and the property line.

## ARTICLE VI—COMMERCIAL DISTRICT:

Section 6.1. Uses Permitted. No building structure or land shall be used, and no building or structure

shall be hereafter erected or altered for other than the following uses:

Section 6.2. Uses permitted in the Residence "A" and "B" Districts, provided that such uses or buildings shall conform to the requirements of the Residence "A" and "B" Districts.

Section 6.3. Any generally recognized retail business such as:

- Banks
- Professional Offices
- Dressmaking and millinery shops, general mercantile
- Grocery, meat and drug stores
- Messengers or telegraph service offices.
- Office and showroom of a tradesman
- Photo studios
- Department stores
- Public utility buildings
- Restaurants
- Sales or showrooms
- Stores and shops for conduct of retail business
- Studios
- Auto accessory shops, gas stations, garages
- Undertaking establishments
- Hotels
- Taverns and liquor establishments

Any use similar in character to one of the uses permitted in this section, but excepting businesses handling objectionable or dangerous material such as explosives, wastes and junk.

Section 6.4. Uses accessory to any of the above permitted uses.

Section 6.5. Front Property Line. All buildings in the Commercial District may be built to the front property lines.

Section 6.6. Side Yards. In business districts no side yard shall be required, except where a lot abuts upon the side of a lot zoned for a Residence "A" or "B" use there shall be a side yard of not less than five feet in width.

Section 6.7. Rear Yards. If there is an existing alley, the building may be constructed up to the alley line. If no alley exists in this district the building shall be set back from the rear lot line a sufficient distance to permit servicing and access to the building by a motor vehicle.

## ARTICLE VII: INDUSTRIAL DISTRICT:

Section 7.1. Uses Permitted. No building, structure or land shall be used and no building shall be hereafter erected or altered for other than the following uses:

- (1) Uses permitted in the Residence "A" and "B" and Commercial District.
- (2) Warehouse, storage, transfer and freight buildings, Railroad switch facilities and maintenance buildings. Wholesale distributing stations, milk condensery and processing plant, laundries, lumber and building materials and fuel storage.
- (3) Manufacturing of goods or merchandise, millwork, lumber planing mills, furniture manufacture, machine shops and craft or trade work shops. Bulk oil and fuel supply depots, provided they are established under approval of State Fire Marshal.
- (4) Any use similar in character to one of the uses permitted in this section, but excepting businesses handling objectionable or dangerous material such as explosives, wastes and junk.
- (5) Uses accessory to any of the above permitted uses.

Section 7.2. Area Regulations. In an industrial district, all buildings or parts of buildings to be used for dwelling purposes shall conform to the provisions of Residence "B" Area Regulations.

Section 7.3. Rear and Side Yards. In the Industrial District, neither rear yards nor side yards shall be required except where a lot abuts upon the side of a lot zoned for residence use, there shall be a side yard of not less than five feet in width. Every rear yard and every side yard where not required by these regulations shall be not less than five feet in width.

Section 7.4. Ample space shall be provided for loading and unloading material and servicing of building other than on the street or sidewalk.

## ARTICLE VIII—DEFINITIONS:

Accessory Use: Is a use subordinate to the main use on a lot and used for purposes customarily incidental to those of the main use.  
Alley: A public or private thoroughfare affording only a secondary means of access to abutting property.  
Alterations: (Any change, addition or modification in construction or change in classification of use in the districts. Any change in the structural members of a building, such as walls or partitions, columns, beams or girders.)  
Building Line: A line formed by the face of the building.  
Board and Renting of Rooms: Board and the renting of rooms shall in-

clude only such service to regular guests and shall not include the operating of what is normally termed a restaurant or similar use where meals are served to transient guests.

Two-family Dwelling: A building designed or occupied exclusively by two families living independently of each other.

Three-Family Dwelling: A building or portion thereof, used or designed as a residence for three families living independently of each other.

Family: A family is one or two persons or parents with their direct descendants, together with not more than five persons not so related, living together as a single housekeeping unit in one or more rooms.

Private Garage: A private garage is a space or accessory structure for the storage of not more than three motor vehicles having no public shop or service in connection therewith, for the use solely by the owner or occupant of the principal building on a lot, or by his family or domestic employees.

Public Garage: Any building or premises used for housing or care of more than three motor vehicles or where any such vehicles are equipped for operation, repaired or kept for remuneration, hire or sale.

Gasoline Filling Station: A gasoline filling station is a space, structure, or building or part of a building for the retail sale or supply of motor fuels, lubricants, air, water, and other customary facilities for the installation of such commodities in or on such motor vehicles, but not including special facilities for the painting repair or similar servicing thereof.

Rooming or Lodging House: A building other than a hotel where lodging for persons is provided for compensation.

Home Occupation: An occupation for gain or support conducted only by members of a family residing on the premises, provided that no special space is designed or arranged for such occupation, and provided that no article is sold or offered for sale except such as may be produced by members of the immediate family residing on the premises.

Height of Building: The vertical distance measured from the curb level to the highest point of the roof for flat roofs, to the deck line for mansard, roofs, and to the mean height level (between eaves and ridge) for gable hip and gambrel roofs.

Lot: A parcel is a piece or parcel of land occupied or to be occupied by one main building and its accessory buildings, or by any other activity permitted by this ordinance. A lot may or may not be a parcel of land platted or recorded.

Lot-Front, Rear and Depth of: The front of a lot is that boundary line that separates the lot from the street right of way line. In the case of a corner lot, the owner may select by statement on his plans to elect either street boundary as the front. The depth of a lot is the mean distance from the center of the front to the center of the rear boundary of an irregular four-sided plot.

Non-conforming Use: A building or land occupied by a use that does not conform with the use regulations of the district in which it is situated. Setbacks: The minimum horizontal distance between the front line of the building, excluding steps and unenclosed porches, and the street right of way line.

Sign Board: Any structure or part thereof on which is lettered, pictured or displayed matter, the chief purpose of which is for advertising or publicity.

Story: That portion of a building included between the surface of any floor and the surface of the floor next above it, or if there be no floor above, then the space between such floor and the ceiling next above it.  
Half-Story: That portion of a building between the eaves and ridge lines of a pitched roof.

Street: A public thoroughfare providing the principal means of access to abutting property.

Front Yard: A required open space between the street line and the nearest part of any building on the lot, but in determining the required measurements excluding cornices, eaves or gutters projecting no more than thirty inches, steps, chimneys, open balconies and terraces, one story open porches not projecting more than five feet and bay windows not extending through more than one story and not projecting more than five feet.

Rear Yard: A required open space, unoccupied except by an accessory building, as hereinafter permitted, extending across the full width of the lot between the rear line of the building or any projection thereof and the rear line of the lot, but in determining the required measure-

ments, excluding steps or unenclosed porches.

Depth of Rear Yard: The mean horizontal distance between the rear line of the building and the center line of the alley, where an alley exists, otherwise the rear lot line.

Side Yard: A required open space extending for the full length of the side of the building between the building and the side lot line, but in determining the required measurements excluding cornices, uncovered steps eaves, gutters and chimneys projecting not more than twelve inches.

## ARTICLE IX.

### OVER NIGHT CABINS, CABIN CAMPS OR MOTOR COURTS.

The location and construction of all overnight cabins shall be approved by the City Council. The owner or agent shall submit a plot plan, showing the location and arrangement of the buildings, together with any other drawings, as required by the Council, showing the construction of the building and utilities. Sanitary standards shall meet all requirements as required in bulletin entitled "Sanitation Standards for Cabin Camps," dated April 15, 1942. Published by the Michigan Department of Health.

## ARTICLE X—BOARD OF APPEAL

Section 10.1. In accordance with Act 306 of Public Acts of Michigan in 1941, the legislative body of Tawas City shall act as a Board of Appeals upon all questions arising under this Zoning Ordinance. The Legislative body shall fix rules and regulations to govern its procedure, setting as such a Board of Appeals.

Section 10.2. Meetings. Meetings of the Board shall be held in the City Hall at least once each month, if necessary, and at such other times as the Board may determine. Said meeting shall be open to the public. The Board shall adopt its own rules of procedure and shall keep a record of its proceedings showing the action of the Board. The concurring vote of two-thirds of the members of the Board shall be necessary to reverse any order requirement, decision or determination of any administrative official or to decide in favor of the applicant any matter upon which they are required to pass under this ordinance or to put into effect any variation of this ordinance.

Section 10.3. Appeal. Appeal from the ruling of the officials charged with the enforcement of this ordinance may be made to the Board of Appeals within such time as shall be prescribed by the Board by a general rule. Such appeal may be taken by any person aggrieved. The appellant shall file with the Board of Appeals or blanks to be furnished by the Clerk, a notice of appeal specifying the grounds thereof. The officer from whom the appeal is taken shall forthwith transmit to the Board all the papers constituting the record upon which the action appealed from was taken. The final decision on such appeal specifying the reasons therefor shall be in the form of an order either reversing, modifying, or affirming, wholly or partly, the decision or determination appealed from.

Section 10.4. Stay. An appeal stays all proceeding in furtherance of the action appealed from unless the officer from whom the appeal is taken certifies to the Board of Appeals after the notice of appeal shall have been filed with him, that by reason of facts stated in the certificate, a stay would in his opinion cause imminent peril to life or property, in which case proceedings shall not be stayed otherwise than by a restraining order which may be granted by the Board of Appeals or by the Circuit Court, on application, on notice to the officer from whom the appeal is taken, and on due cause shown.

Section 10.5. Hearings. The Board of Appeals shall fix a reasonable time for the hearing of the appeal and give due notice thereof to the parties including all owners of record of property within three hundred feet of the premises in question, such notice to be delivered personally or by mail addressed to the respective owners at the address given in the last assessment roll, and shall decide the same within a reasonable time. Upon the hearing, any party may appear in person or by agent or attorney.

Section 10.6. Jurisdiction. The Board of Appeals, may, in specific cases, after due notice and hearing and subject to appropriate conditions and safeguards, determine and vary the regulations herein established in harmony with their general purpose and intent, as follows:

- (1) Where a building located in a district restricted against its use has been damaged by fire, act of God or other calamity to the extent of not more than fifty per cent of its assessed value, a permit may be granted by the Board of Appeals for its reconstruction, within a period of not to exceed one year from the date of such fire or other calamity.
- (2) Grant a permit for the enlargement of existing building or buildings for use for a trade, business or industry located in a district restricted against such use, where such enlargement and extension of such use will not be detrimental to or tend to alter the character of the neighborhood.
- (3) Where a district boundary line divides a lot of record at the time of passage of this ordinance, permit the extension of a use permitted on the less restricted portion of such lot to the portion lying in the more restricted district.
- (4) Interpret the provisions of this ordinance in such a way as to carry out the intent and purpose of the plan, as shown upon the map fixing the several districts accompanying and made a part of this ordinance.
- (5) Where there are practical difficulties or unnecessary hardships in complying strictly with the provisions of this ordinance, the Board of Appeals, may in specific cases, adjust any such condition in harmony with the general purpose and intent of this ordinance, so that the public health, safety, and general welfare may be secured and substantial justice done.
- (6) The Board of Appeals shall have the power to permit the erection and use of a building, or an addition to an existing building, or of a public utility purposes, in any permitted district to a greater height or of a larger area than the district requirements herein established and permit the location in any use district of a public utility building, structure, or use, if the Board shall find such use, height, area, building or structure reasonably necessary for the public convenience and service, provided such building, structure, or use is designed, erected and landscaped to conform harmoniously with the general architecture and plan of such district.

reconstruction, within a period of not to exceed one year from the date of such fire or other calamity.

(2) Grant a permit for the enlargement of existing building or buildings for use for a trade, business or industry located in a district restricted against such use, where such enlargement and extension of such use will not be detrimental to or tend to alter the character of the neighborhood.

(3) Where a district boundary line divides a lot of record at the time of passage of this ordinance, permit the extension of a use permitted on the less restricted portion of such lot to the portion lying in the more restricted district.

(4) Interpret the provisions of this ordinance in such a way as to carry out the intent and purpose of the plan, as shown upon the map fixing the several districts accompanying and made a part of this ordinance.

(5) Where there are practical difficulties or unnecessary hardships in complying strictly with the provisions of this ordinance, the Board of Appeals, may in specific cases, adjust any such condition in harmony with the general purpose and intent of this ordinance, so that the public health, safety, and general welfare may be secured and substantial justice done.

(6) The Board of Appeals shall have the power to permit the erection and use of a building, or an addition to an existing building, or of a public utility purposes, in any permitted district to a greater height or of a larger area than the district requirements herein established and permit the location in any use district of a public utility building, structure, or use, if the Board shall find such use, height, area, building or structure reasonably necessary for the public convenience and service, provided such building, structure, or use is designed, erected and landscaped to conform harmoniously with the general architecture and plan of such district.

## ARTICLE XI—BUILDING PERMITS—PLOTS:

No building or structure within the limits of the City of Tawas City shall hereafter be erected, moved, repaired, altered or razed nor shall any work be started thereon until a building permit has been obtained by the owner of said building in accordance with the provisions of this ordinance and all other laws of the State of Michigan. Permits shall be valid for a period of not exceeding six months from the date of issuance, provided, it may be renewed for one additional period of six months.

## ARTICLE XII—CERTIFICATE OF OCCUPANCY AND COMPLIANCE

No building hereafter erected or altered shall be occupied, used or changed in use, in whole or in part, until a certificate of occupancy and compliance shall have been issued in accordance with the provisions of this ordinance and such certificate shall be issued only on the condition that such building or proposed use of a building, or premises, complies with these regulations and all other building and health laws and ordinances in effect at the time the permit therefor was issued.

## ARTICLE XIII—ISSUANCE OF BUILDING PERMIT AND CERTIFICATE OF OCCUPANCY AND COMPLIANCE:

The building permit and certificate of occupancy and compliance shall be issued by a municipal officer of said City of Tawas City as designated by the City Council of the said City of Tawas City.

## ARTICLE XIV—INTERPRETATION, PURPOSE AND CONFLICTING PROVISIONS:

In interpreting and applying the provisions of this ordinance, they shall be held to be the minimum requirements for the promotion of the public safety, health, convenience, comfort, prosperity and general welfare. Whenever the provisions of this ordinance impose requirements for lower heights of buildings, or a less percentage of lot that may be occupied, or require wider or larger courts or deeper yards than are imposed or required by existing provisions of law or ordinance, the provisions of this ordinance shall govern. Where, however, the provisions of the State Housing Code or other laws, ordinances or regulations of the State of Michigan impose requirements for lower heights of buildings of less percentage of lot that may be occupied, or require wider or larger courts or deeper yards than are required by this ordinance, the provisions of such other laws, ordinance or regulations shall govern.

Except as above provided, all ordinances or parts of ordinances conflicting with the provisions of this ordinance are hereby repealed.

RESIDENCE "A" DISTRICT  
RESIDENCE "B" DISTRICT  
COMMERCIAL DISTRICT  
INDUSTRIAL DISTRICT

OFFICIAL ZONING MAP  
TAWAS CITY, MICHIGAN

## ARTICLE XV—CHANGES AND AMENDMENTS:

Section 15.1. Changes and Amendments. The City Council may of its own motion or upon petition signed by the owners of a majority of the property according to frontage in any district, or portion thereof, prepare an ordinance amending, supplementing, or changing the district boundaries or changing the regulations herein established. Said City Council shall cause to be prepared a notice indicating the proposed change in the regulations or in the district boundary lines and describing the boundaries of the territory to be affected, which notice shall set a date for a public hearing for consideration of such proposed amendment, supplement or change. After due publication or posting and public hearing of such proposed amendment, supplement or change, as required by law, whenever a written protest against such proposed amendment, supplement or change be presented, duly signed by the owners of twenty per centum or more of the frontage to be altered or by the owners of twenty per centum or more of the frontage immediately in the rear thereof, or by the owners of twenty per centum of the frontage directly opposite the frontage directly proposed to be altered, such amendment shall not be passed except by the favorable vote of three-fourths of the members elected to said council.

## ARTICLE XVI VALIDITY:

Should any section, clause or provision of this ordinance be declared by the courts to be invalid, the same shall not affect the validity of the ordinance as a whole, or any part thereof, other than the part so declared invalid.

## ARTICLE XVII VIOLATION, PENALTY, ENFORCEMENT:

Any person, firm, or corporation who violates, disobeys, omits, neglects or refuses to comply with, or who resists enforcement of any of the provisions of this ordinance, or who swears falsely to any affidavit required herein, shall be fined not less than twenty five (\$25.00) dollars nor more than one hundred (\$100.00) dollars for each offense. Each day that a violation is permitted to exist shall constitute a separate offense.

It shall be the duty of all architects, contractors, sub contractors, builders and other persons having charge of the erecting, altering, changing or remodeling of the building or structure, before beginning or undertaking any such work, to see that a proper permit has been granted.

In case any building or structure has been or is being erected, constructed, or reconstructed, altered, repaired, converted, or maintained, or any building, structure or land used in violation of this ordinance or other regulation made under authority conferred thereby, the City or other interested parties in addition to other remedies, and in addition to the penalties herein provided, may institute any appropriate action or proceedings to prevent such unlawful erection, construction, reconstruction, alteration, repair, conversion, maintenance, or use, or to restrain, correct or abate such violation, or to prevent any illegal act, conduct, business or use in or about such premises.

## ARTICLE XVIII—EFFECTIVE DATE:

This ordinance shall take effect twenty days from and after the date of passage.  
Adopted and passed November 3, 1947.

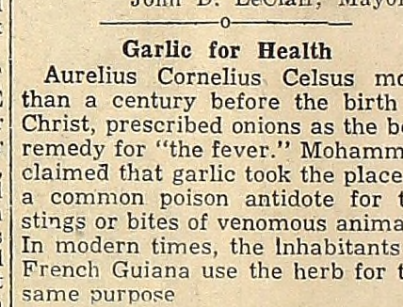

John D. LeClair, Mayor.

## Garlic for Health

Aurelius Cornelius Celsus more than a century before the birth of Christ, prescribed onions as the best remedy for "the fever." Mohammed claimed that garlic took the place of a common poison antidote for the stings or bites of venomous animals. In modern times, the inhabitants of French Guiana use the herb for the same purpose.

## Whittemore

The Burleigh P. T. A. held its January meeting last Tuesday evening with a very large crowd. Mrs. Elton Smith, president, presided over the business session.

The Burleigh Grange members presented a very good program with Mrs. Dornace Bellville Chairman of the program which consisted of a short play and readings of music. Lunch was served at the close of the meeting. The February meeting will be Founders Night and all past Presidents will be honored.

The Junior League entertained the Senior Club last Thursday night at the Masonic Hall. It being Bible Night. The history of all our churches were given and some very good singing by different groups. A delicious lunch was served to about 80 persons.

George Grabow was seriously hurt Saturday afternoon, while backing his truck with one foot on the running board and steering the truck at the same time. His foot slipped off the running board causing him to fall beneath the truck. His small son, Ronnie, who was riding with him stopped the truck when he saw his father fall. George suffered a broken hand and wrist, severe cuts on his head and face and both legs injured. He was taken to West Branch Hospital and later removed to his home.

The City Fire Department was called to the home of Mr. and Mrs. Roy Charters Saturday night, about eleven o'clock, when they discovered their garage to be on fire. They got their car out without any damage, but all the inside of the garage was burned, together with a large quantity of things stored there.

Mr. and Mrs. Don O'Farrel were in Bay City Monday.

Mr. and Mrs. Gene Bowland and

two children of Coleman spent the week-end at the Arden Charters home.

Mr. and Mrs. Fred Morin are driving a new Hudson car.

Mr. and Mrs. William Fuerst and two sons spent Sunday evening in Standish.

Mr. and Mrs. L. Lawe and Mrs. William Lawe spent Monday in Bay City.

### Whittemore School Notes

Baskets have been put up in the Hottis School and the boys and girls now have a place to practice out of the wind and weather for the games scheduled for February.

**Senior Pictures**  
Last week Thursday Mr. Moyer, the photographer from Traverse City, came to the school and took the senior pictures.

That event, and the arrival of their cards and the order for invitations recently sent out, makes the "great day" seem imminent.

**Party Postponed**  
The January Snow Ball, planned by the Freshmen was postponed because of the zero weather. Temperature and roads permitting, they expect to hold it the 30th.

**Mr. Roberts Ill**  
Chester Roberts was confined to his home by a severe cold for three days last week.

**7th and 8th Grades Have to Wait**  
The 8th graders had invited the 7th graders to Silver Valley last Saturday but due to the severity of the weather, it seemed advisable to postpone the trip until a later date.

**Seniors Sell Magazines**  
Friday afternoon a representative of the Curtis Publishing Company talked with the Senior Class and offered them a very attractive proposition for making money which they decided to accept.

They are putting on a two week intensive campaign selling magazines and renewing subscriptions. The money will be put into the class treasury to be used for their trip.

If you are in need of either a subscription or a renewal, a call to the school office will bring a senior who will be glad to take your order.

**Consolation Party**  
Glenda Johnson was hostess to the Freshman class Friday night when a group met at her home to enjoy games, dancing and refreshments.

**First Ground Axes**  
First axes to be ground and polished before sold were manufactured in 1826 in Collinsville, Conn., by David S. Collins with his brother and cousin. Before that time axes were made by blacksmiths and sold unground.

**Electric Feed Mill**  
A new farm feed mill that slices before grinding has been placed on the market. In addition to chopping hay, straw, fodder and silage, twin knives slice ear corn, sorgo and roughage, and prepare them for fine grinding.

### ORDINANCE NO. 120

An ordinance to amend Subsection (a) of Section 5, of ordinance No. 119, entitled Ordinance providing for Building, Plumbing and Electrical Construction and Fire Prevention in City of Tawas City, Michigan.

**Section 5.**  
(a) It shall not be lawful for any person, firm or corporation hereafter without permission of the City Council, and in conformity with the provisions of this ordinance, to erect or place any building or part of a building on all that property lying between Tawas Bay and the Tawas River and between the southeast side of the bridge where US-23 crosses the Tawas River, and the southwest side of Wheeler Street. Also all that land lying between the southwest side of Wheeler Street, if extended to Tawas Bay and the northeast City limits between US-23 and Tawas Bay. Also all lots as platted facing US-23 between Wheeler Street and the northeast City limits.

If the property is not platted, then the fire limits shall be within the above described limits for a minimum depth of 100 feet, along US-23.

**Section 6.3. STREET PATTERN.**  
The arrangement of streets in a subdivision shall provide for the continuation of existing streets in adjoining subdivisions, for their proper projections when the property is not subdivided.

**Section 6.4. PROVISIONS FOR PARKS PLAYGROUNDS, AND OTHER PUBLIC SITES.**  
The subdivider shall give due consideration to the dedication of reservation of open spaces which are suitable located and of reasonable size for parks and playgrounds.

**Section 6.5. PUBLIC UTILITY EASEMENTS.**  
If the most suitable and logical location for any utilities such as storm and sanitary sewers, trunk sewers, poles, wires conduits, gas mains, water mains and other utilities is other than in the bed of the streets, then certain public easements, insofar as reasonable, shall be required.

**Section 6.6. ALLEYS.**  
An alley at least twenty (20) feet in width shall be required in the rear of all business lots. If it is reasonable and desirable the city Council may require an alley of twenty (20) feet in the rear of all lots which face on a major street.

**Section 6.7. BLOCKS.**  
Subdivisions shall be planned in blocks best suited to the character of the topography and site, and in manner that will most efficiently and economically serve the purpose for which the land is to be used.

**Section 6.8. INDUSTRIAL BLOCKS.**  
The shape and size of these blocks may vary in order to accommodate the various types of industry and to allow for industrial expansion.

**Section 6.9. BUSINESS BLOCKS.**  
These blocks are usually comparatively small in size. Sufficient parking space shall be provided for all business property.

**Section 6.10. RESIDENTIAL BLOCKS.**  
The maximum length for residential blocks is 1320 feet. The width of blocks shall provide for two tiers of lots, unless in the opinion of the city

der the conditions and special circumstances as set forth in this ordinance.

**Section 6.2. ACCESS TO PROPERTY.**  
Each lot within a subdivision shall be provided with a satisfactory means of access and shall have a minimum of sixty (60) feet frontage on a public street. Building permits shall not be issued for the construction of buildings which do not have access on a public street. There shall be no reserve strips controlling access to streets, except where the control of such strips is definitely placed in the City of Tawas City.

**Section 6.1. DEFINITION.**  
SUBDIVISIONS: A subdivision, when used in this ordinance, is the division, within one calendar year, of an existing lot, tract or parcel of land, platted or unplatted, into three or more lots or other divisions of land for the purpose, whether immediate or future, of transfer of ownership, or building development, including all changes in streets or lot lines, provided, however, that divisions of existing land parcels, of record at the date of record of this plat are excluded.

**ARTICLE II. Submission of Preliminary Plats.**  
Section 2.1. Whenever any subdivision shall hereafter be laid out in the City of Tawas City, the subdivider or his agent shall first submit a tentative plat.

As much of the following information as practical for the proper presentation of the land to be subdivided shall be shown on the preliminary plans.

1. The title under which the proposed subdivision is to be recorded.

2. The name of the property owner and technical advisor, if any.

3. Scale, date and north point.

4. The location of the existing property lines, streets, buildings, sewer and water mains and other similar features on the land to be subdivided.

5. The location of adjoining streets, utilities, buildings and other physical features which relate to the development of the subdivision.

6. The location, name and width of proposed streets, alleys, basements, and public utilities.

7. Lot dimensions.

8. Proposed use of property.

9. Any engineering data deemed necessary relative to the topography, street cross-sections, sewer elevations, water elevations, etc.

**ARTICLE III. Action on Preliminary Plat and Preliminary Approval.**  
Section 3.1. The City Council in studying the preliminary plat will take into consideration the City's requirements and the most appropriate use of the land. Particular attention will be given to the standards of design, the justification for the development of public improvements, and the subdivisions conformity to the existing street plan. The width, location and arrangement of streets, the dimension of lots, the location of sewer and water mains and other similar features will be studied and checked.

Section 3.2. If the preliminary plans meet the approval of the City Council, then the subdivider may proceed to make an accurate survey of the property and prepare final plans.

Section 3.3. If the plat is not approved, a list of the changes necessary to render the plan acceptable will be made known to the subdivider.

Section 3.4. The approval of a preliminary plat does not constitute an acceptance of the subdivision. A preliminary plat is required so that if changes in the layout of the subdivision are necessary, they can be made without undue expense to the subdivider.

**ARTICLE IV. Final Plat.**  
Section 4.1. The final plat shall be prepared in accordance with the Plat Act 172, Public Acts of Michigan for 1929 as amended, and other applicable laws of the State of Michigan. The plat shall be submitted in quadruplicate within one year after the approval of the preliminary plat, otherwise the approval of the preliminary plat will become null and void unless an extension of time is applied for and approved.

Section 4.2. The final plat shall be prepared in accordance with the standards of design herein specified.

**ARTICLE V. Final Approval of Plat.**  
Section 5.1. The final plat shall be submitted to the City Council. The plat will be reviewed to see if the plans meet with the requirements set forth in this ordinance. If the plat meets with the requirements of this ordinance, it will then be approved by the majority vote of the Council.

**ARTICLE VI. General Requirements and Minimum Standards of Design.**  
Section 6.1. The following shall be considered as minimum requirements and standards of design for the subdivision of land. These requirements shall be varied only un-

der the conditions and special circumstances as set forth in this ordinance.

**Section 6.2. ACCESS TO PROPERTY.**  
Each lot within a subdivision shall be provided with a satisfactory means of access and shall have a minimum of sixty (60) feet frontage on a public street. Building permits shall not be issued for the construction of buildings which do not have access on a public street. There shall be no reserve strips controlling access to streets, except where the control of such strips is definitely placed in the City of Tawas City.

**Section 6.3. STREET PATTERN.**  
The arrangement of streets in a subdivision shall provide for the continuation of existing streets in adjoining subdivisions, for their proper projections when the property is not subdivided.

**Section 6.4. PROVISIONS FOR PARKS PLAYGROUNDS, AND OTHER PUBLIC SITES.**  
The subdivider shall give due consideration to the dedication of reservation of open spaces which are suitable located and of reasonable size for parks and playgrounds.

**Section 6.5. PUBLIC UTILITY EASEMENTS.**  
If the most suitable and logical location for any utilities such as storm and sanitary sewers, trunk sewers, poles, wires conduits, gas mains, water mains and other utilities is other than in the bed of the streets, then certain public easements, insofar as reasonable, shall be required.

**Section 6.6. ALLEYS.**  
An alley at least twenty (20) feet in width shall be required in the rear of all business lots. If it is reasonable and desirable the city Council may require an alley of twenty (20) feet in the rear of all lots which face on a major street.

**Section 6.7. BLOCKS.**  
Subdivisions shall be planned in blocks best suited to the character of the topography and site, and in manner that will most efficiently and economically serve the purpose for which the land is to be used.

**Section 6.8. INDUSTRIAL BLOCKS.**  
The shape and size of these blocks may vary in order to accommodate the various types of industry and to allow for industrial expansion.

**Section 6.9. BUSINESS BLOCKS.**  
These blocks are usually comparatively small in size. Sufficient parking space shall be provided for all business property.

**Section 6.10. RESIDENTIAL BLOCKS.**  
The maximum length for residential blocks is 1320 feet. The width of blocks shall provide for two tiers of lots, unless in the opinion of the city

der the conditions and special circumstances as set forth in this ordinance.

**Section 6.2. ACCESS TO PROPERTY.**  
Each lot within a subdivision shall be provided with a satisfactory means of access and shall have a minimum of sixty (60) feet frontage on a public street. Building permits shall not be issued for the construction of buildings which do not have access on a public street. There shall be no reserve strips controlling access to streets, except where the control of such strips is definitely placed in the City of Tawas City.

**Section 6.1. DEFINITION.**  
SUBDIVISIONS: A subdivision, when used in this ordinance, is the division, within one calendar year, of an existing lot, tract or parcel of land, platted or unplatted, into three or more lots or other divisions of land for the purpose, whether immediate or future, of transfer of ownership, or building development, including all changes in streets or lot lines, provided, however, that divisions of existing land parcels, of record at the date of record of this plat are excluded.

**ARTICLE II. Submission of Preliminary Plats.**  
Section 2.1. Whenever any subdivision shall hereafter be laid out in the City of Tawas City, the subdivider or his agent shall first submit a tentative plat.

As much of the following information as practical for the proper presentation of the land to be subdivided shall be shown on the preliminary plans.

1. The title under which the proposed subdivision is to be recorded.

2. The name of the property owner and technical advisor, if any.

3. Scale, date and north point.

4. The location of the existing property lines, streets, buildings, sewer and water mains and other similar features on the land to be subdivided.

5. The location of adjoining streets, utilities, buildings and other physical features which relate to the development of the subdivision.

6. The location, name and width of proposed streets, alleys, basements, and public utilities.

7. Lot dimensions.

8. Proposed use of property.

9. Any engineering data deemed necessary relative to the topography, street cross-sections, sewer elevations, water elevations, etc.

**ARTICLE III. Action on Preliminary Plat and Preliminary Approval.**  
Section 3.1. The City Council in studying the preliminary plat will take into consideration the City's requirements and the most appropriate use of the land. Particular attention will be given to the standards of design, the justification for the development of public improvements, and the subdivisions conformity to the existing street plan. The width, location and arrangement of streets, the dimension of lots, the location of sewer and water mains and other similar features will be studied and checked.

Section 3.2. If the preliminary plans meet the approval of the City Council, then the subdivider may proceed to make an accurate survey of the property and prepare final plans.

Section 3.3. If the plat is not approved, a list of the changes necessary to render the plan acceptable will be made known to the subdivider.

Section 3.4. The approval of a preliminary plat does not constitute an acceptance of the subdivision. A preliminary plat is required so that if changes in the layout of the subdivision are necessary, they can be made without undue expense to the subdivider.

**ARTICLE IV. Final Plat.**  
Section 4.1. The final plat shall be prepared in accordance with the Plat Act 172, Public Acts of Michigan for 1929 as amended, and other applicable laws of the State of Michigan. The plat shall be submitted in quadruplicate within one year after the approval of the preliminary plat, otherwise the approval of the preliminary plat will become null and void unless an extension of time is applied for and approved.

Section 4.2. The final plat shall be prepared in accordance with the standards of design herein specified.

**ARTICLE V. Final Approval of Plat.**  
Section 5.1. The final plat shall be submitted to the City Council. The plat will be reviewed to see if the plans meet with the requirements set forth in this ordinance. If the plat meets with the requirements of this ordinance, it will then be approved by the majority vote of the Council.

**ARTICLE VI. General Requirements and Minimum Standards of Design.**  
Section 6.1. The following shall be considered as minimum requirements and standards of design for the subdivision of land. These requirements shall be varied only un-

der the conditions and special circumstances as set forth in this ordinance.

**Section 6.2. ACCESS TO PROPERTY.**  
Each lot within a subdivision shall be provided with a satisfactory means of access and shall have a minimum of sixty (60) feet frontage on a public street. Building permits shall not be issued for the construction of buildings which do not have access on a public street. **Burleigh News**

A number from here took in the card party at Turner Thursday evening.

Mr. and Mrs. Charles Thornton of National City visited at the home of Mr. and Mrs. Victor St. James Sunday.

Fred Haselhuhn, Bob Ruckle and Gerald St. James were at West Branch one day last week.

The many friends of George Grabow of Whittemore were sorry to hear of the auto accident he had near Whittemore last Saturday. He is getting along as well as can be expected. We all wish him a speedy recovery.

Mr. and Mrs. Bill Bamberger of Sherman spent Sunday at the home of their parents, here.

Pat Corrigan was at West Branch for medical treatment Thursday.

Clifford St. James and children were at Tawas City Saturday, having some dental work done.

Victor St. James and George Grabow took a truck load of sheep to Standish for Theodore St. James last Friday.

Mr. and Mrs. William O'Farrell and family were at Silver Valley on Sunday.

A. B. Schneider, Orville Bellor and Virtor St. James were at Standish on business Wednesday.

STATE OF MICHIGAN

The Probate Court for the County of Isoco.

At a session of said Court, held at the Probate Office in the City of Tawas City, in said County, on the 14th day of January A. D. 1948.

Present, Honorable H. Read Smith, Judge of Probate.

In the Matter of the Estate of William Henderson, Deceased.

Carl B. Babcock having filed in said Court his petition praying that the administration of said estate be granted to Carl B. Babcock or to some other suitable person.

It is Ordered, That the 16th day of February A. D. 1948, at ten o'clock in the forenoon, at said Probate Office, he and is hereby appointed for hearing said petition.

It is Further Ordered, That notice thereof be given by publication of a copy hereof for three successive

weeks previous to said day of hearing, in the Tawas Herald, a newspaper printed and circulated in said County, and that the petitioner shall, at least ten (10) days prior to such hearing, cause a copy of this notice to be mailed to each party in interest in this estate at his last known address by registered mail, return receipt demanded.

H. Read Smith,  
Judge of Probate.  
Mabel Kobs,  
Register of Probate.

MORTGAGE SALE

DEFAULT having been made in the conditions of a certain mortgage made by Bert R. Richey and Teresa G. Richey, his wife, of East Tawas, Michigan, as mortgagors, to the Peoples State Bank of East Tawas, Michigan, as mortgagee, dated the 15th day of October A. D. 1946, and recorded in the office of the Reg-

ister of Deeds for the County of Isoco and State of Michigan, on the 16th day of October A. D. 1946, in Liber 29 of Mortgages, on page 264, on which mortgage there is claimed to be due at the date of this notice, the sum of \$5,714.83 principal and \$181.30 interest, and no suit proceedings at law having been instituted to recover the moneys secured by said mortgage or any part thereof, and the power of sale contained in said mortgage having become operative by reason of such default;

Notice is hereby that on Saturday, the 28th day of February, A. D. 1948 at 11 o'clock in the forenoon at the front door of the Court House in the City of Tawas City, Michigan (that being the place where the Circuit Court for said County of Isoco is held) there will be offered for sale and sold to the highest bidder at public auction or vendue, for the purpose of satisfying the amounts

due and unpaid on said mortgage, together with the legal costs and charges of sale including an attorney fee provided by law and in said mortgage, the lands and premises in said mortgage mentioned and described as follows, to wit;

The land and premises situated in the City of East Tawas, County of Isoco, State of Michigan, viz: Lot numbered Nine (9) of the Assessor's Plat of Forest Glen Beach subdivision, Isoco County, Michigan, as more fully described in deed recorded in Liber 70, page 570, together with all tenements, hereditaments and appurtenances thereto belonging.  
Dated: November 25, 1947.

Peoples State Bank,  
Mortgagee.  
Herbert Hertzler,  
Attorney for Mortgagee.  
Tawas City, Michigan.

JANUARY 29 to FEBRUARY 5

TAWAS CITY

PHONE 281-W

Presenting the new 1948  
**PONTIAC**  
A FINE CAR MADE EVEN FINER!

A Product of General Motors

**GM Hydra-Matic Drive optional\* on all models!**

Today, Pontiac announces a series of notable advancements in the car that has already won the wholehearted endorsement of more than a million owners and friends.

Foremost among these advancements is the great General Motors Hydra-Matic Drive—now offered as optional equipment on all Pontiac cars. Pontiac is the lowest-priced car in the world to provide this great mechanical

masterpiece—which shifts gears automatically, and completely eliminates the clutch pedal.

Coupled with this great engineering triumph is a striking improvement in beauty and luxury. New exterior smartness extends from the new radiator grille to the streamlined rear bumper.

Interiors, too, are remarkably improved. Upholsteries are more beautiful and are expertly blended to achieve new attractiveness and charm. Instrument panels are finished in a smart design adapted from quarter-sawn mahogany—and an adroit use of chrome moulding adds a deft touch of modernity.

Engine and chassis have been refined wherever possible—but they remain, basically, the same engineering masterpieces which have become

synonymous in the automotive industry with goodness and dependability.

There are many more things we could tell you about the new Pontiac, for there are countless improvements which add to its traditional quality and value. But we feel that, for those who know Pontiac, we need only say—

—here is, by far, the most beautiful Pontiac ever built

—here is the most luxurious Pontiac ever built

—here is the most dependable Pontiac ever built

—and it is now available with GM Hydra-Matic Drive—\*optional at additional cost.

We wish only to add that it is here—on display in our showroom—and that you are most cordially invited to see and inspect it.

## THE FICTION CORNER

### WILL OF THE WIND

By WILLIAM BRANDON

MRS. HACKETT found her in the bedroom crying. She stood in the doorway and said grimly: "I came in to borrow some sugar, Sylvia. The door was open so I just walked in. Now what on earth's wrong with you?"

Sylvia sat up and dried her eyes. Her starched gingham skirt was wrinkled and her black hair was tangled and disordered. A curling strand of it hung down beside her nose like an ink stain. A pin had come out of her imitation lace collar and it had fallen down to catch in the red buckle at her waist. She said shakily, "Hello, Mrs. Hackett. Nothing."

Mrs. Hackett drew down the corners of her mouth. "Nothing, my foot. It's because of Chip wanting to pull up stakes and go to Canton. Isn't it? Of course it is."

Sylvia slapped the lock of hair out of her eyes. "I won't be a boomer's wife!" she flared. "I won't!"

"Mm," Mrs. Hackett said sourly. "A boy's will is the wind's will. That's a poem. It's the truest thing in the world. Don't do no good to fight against it. Remember that and you'll have it easier."

"I won't be a boomer's—b-boomer's wife! I won't drag around to one mill after another all my life, and never have anything, no home, and no—no nothing! I won't!"

"Well, it's his job, if he wants to throw it away."

"It isn't! It's just as much mine as it is his! I don't believe in that old idea that a woman's just a— a slave, to follow a man around at whatever he happens to want to do!"

"Oh, you don't," Mrs. Hackett said. "And just what can you do about it?"

Sylvia bowed her head and scrubbed unhappily at her cheeks with her handkerchief. "I don't know," she sobbed.

"Of course you don't. You're nothing but a child," Mrs. Hackett sniffed. "You'd be twenty years finding out what to do and by that time it's too late to do any good. Unless there's somebody around to tell you to begin with. Somebody who knows."

Sylvia was not impressed. "What could you tell me, Mrs. Hackett? What could anyone do? I've argued with him until I'm almost crazy but he—he doesn't even listen any more. He's got his mind set on moving on, to something different that won't be any different at all, and then he'll want to go again, and—"

"A boy's will is the wind's will," said Mrs. Hackett. "That's what the poem says. It's just as true of a man or an old man, for that matter. The older they get the truer it gets, I reckon. Only they kind of give up trying to do anything about it after so long a time."

She pushed up her lower lip and looked down her nose at Sylvia. "Like Mr. Hackett."

Sylvia looked up, startled. "You mean Mr. Hackett used to—want to—"

"He was the hardest man to hold down in this town. He got tired of everything, that was his trouble. It's a sort of laziness, that's all it is. But he stuck here, all right."

"Why?" Sylvia wailed. "What did you do?"

"Well," Mrs. Hackett said, "you can take it for what it's worth, Sylvia. It worked with Mr. Hackett, I know that."

"But what was it?"

"Whenever he worked himself up to a pitch about cutting loose and chasing away some place after something he thought was better, I simply gave him his way."

Sylvia looked disappointed and puzzled. "Oh."

"But," Mrs. Hackett said profoundly, "he didn't know it. I took him on a trip. Just a week or so. And I kept him on the jump every minute of it. I always liked little trips around, anyway. Well, by the time that man would get home again he'd be so tired of jumping

around that he wouldn't have left for a pension. That," Mrs. Hackett said, "is something you find out about men, Sylvia. They like to start but they like getting back a whole lot more."

Sylvia said doubtfully, "It doesn't sound like Chip would—"

"Maybe he wouldn't. I'm the last person in the world to try to give folks advice, Sylvia. Nobody wants it and I guess everyone has to sew his own seam anyway. But Mr. Hackett says they're shutting down for a week for the millwright's gang, and if Chip was to spend that week in a car bouncing along from one place to another, without even a chance to catch his breath—"

Well, a boy's will is the wind's will, and the wind can change in a minute."

"But what if he wouldn't want to go?"

"Mm. You tell him you want a little vacation before you move to Canton. If he thinks you've given in about that he'll take you. You try it and see."

## HOUSEHOLD MEMOS... by Lynn Chambers

Give Meals Company Manners (See recipes below.)

### LYNN CHAMBERS' MENU

**Company for Dinner**  
 "I just don't feel like I can entertain now that food prices are so high," said a friend of mine to me recently. Actually you can do so, I explained to her, if you serve less expensive food but dress it up, company style.

There's pot roast, for instance, which, done to succulence and tenderness, and garnished with stuffed prunes or spiced crab apples, leaves nothing to be desired.

Or what about a meat loaf? Now there's a good old-fashioned meat dish that can be dressed up beautifully with a fluting of mashed potatoes and served with parsleyed carrots and glazed onions.

Short ribs of beef? Yes, indeed, there are few meat dishes that can come up to it in tastiness.

Desserts can be made that are very inexpensive, but, put in a mold, they have "company manners." Here are menus to fit the smallest of purses, but they all have style and class.

**Menu I.**  
 Yorkshire Steak  
 Seven-Minute Cabbage  
 Glazed Carrots  
 Tossed Salad  
 French Dressing  
 Cloverleaf Rolls  
 Cocoa Sponge

You'll enjoy this Yorkshire Steak as much as roast of ribs if you'll make it this way:  
 Yorkshire Steak (Serves 6)  
 1 1/2 pounds chuck steak, cut 1 inch thick  
 1 recipe Yorkshire Pudding  
 Season steak with salt and pepper; place in a greased baking dish or roasting pan in which meat fits the bottom. Brown in a hot oven for 5 minutes. Make recipe for the pudding; pour over the crowned steak. Reduce heat and bake until the meat is tender.

**Yorkshire Pudding.**  
 1 1/2 cups flour  
 2 teaspoons baking powder  
 1/2 teaspoon salt  
 2 eggs  
 1 cup milk  
 1/2 cup hot beef drippings  
 Sift together the dry ingredients. Add beaten egg yolks. Add milk and mix well. Fold in stiffly beaten egg whites. Pour into a shallow dish containing the beef drippings. Bake in a fairly hot oven for 30 minutes. Cut in squares and serve around the meat.

**Cocoa Sponge.** (Serves 4-6)  
 1 tablespoon unflavored gelatin  
 1/4 cup cold water  
 1/2 cup sugar  
 3 tablespoons cocoa  
 1/2 cup milk  
 1 teaspoon vanilla extract  
 3 egg whites  
 1/2 teaspoon salt  
 Salted almonds  
 Soften gelatin in cold water. Combine sugar and cocoa. Scald milk; gradually add to sugar mixture, mixing constantly. Add gelatin and stir until dissolved. Add vanilla ex-

**Menu II.**  
 Pork Roast with Spicy Sauce  
 Sweet Potatoes  
 Cinnamon Apples  
 Cabbage-Pineapple Slaw  
 Brussels Sprouts  
 Whole Wheat Biscuits  
 Frozen Orange Cream

**Pork Roast with Spicy Sauce.** (Serves 6)  
 Fresh picnic shoulder  
 Salt and pepper  
 2 small onions, minced  
 1 tablespoon Worcestershire sauce  
 1 tablespoon sugar  
 1 teaspoon paprika  
 1/2 cup vinegar  
 1/2 cup water  
 2 tablespoons catsup  
 Have picnic shoulder boned and rolled. Season with salt and pepper. Place fat side up on roaster pan, and bake in a moderate oven allowing 40 to 45 minutes to the pound for baking. Combine other ingredients and cook together for 5 minutes. Serve with roast.

**Menu III.**  
 Tomato Juice  
 Savory Meat Loaf  
 Green Peppers Stuffed with Corn  
 Browned Potatoes  
 Orange Rolls  
 Grapefruit Salad  
 Apple Betty with Hard Sauce  
 or  
 Chocolate Souffle

All the items in the above menu are extremely inexpensive, and even if you are busy they are easy to prepare.

**Savory Meat Loaf.** (Serves 8)  
 2 pounds ground beef  
 1 egg, slightly beaten  
 1/4 cup minced onion  
 1 1/2 teaspoons salt  
 1/4 teaspoon pepper  
 1 teaspoon poultry seasoning  
 1 1/2 cups condensed vegetable soup  
 2 cups bread crumbs  
 1/2 cup fat  
 Mix ingredients thoroughly in the order given, with the exception of the fat. Shape into loaf and place in a pan. Bake in a moderate oven (350 degrees) about 1 1/2 hours. Baste meat every 15 minutes with a mixture of the fat and 1 cup boiling water.

If mashed potato topping for meat loaf is desired, swirl on top of loaf when it has finished baking, then run under broiler flame to brown the potatoes.

Released by WNU Features.

**LYNN SAYING: Wise Planning Saves Work.**  
 Keep a list in an easily accessible place, preferably where you do your best thinking, such as over the sink while washing dishes, and write on it as things occur.

A wise homemaker is never without staples; she replenishes these periodically and never "runs out of things."

Plan your menus when you are hungry. This adds more zest to your meals.

Season to please your family. It is not economical to prepare foods which do not go over with the family.

When you have to make substitutions, choose foods that are the same kind such as cabbage or spinach in place of lettuce; another fruit for a fresh fruit.

Shop in person and early in the day for best quality. Learn to read labels so that you'll know what to expect, how many the product or container serves, and its cooking characteristics.

## Luncheon Cloth for Those Gala Affairs

FOR luncheon in a gala mood, use your new tablecloth all abloom with roses and forget-me-nots! Single, outline and lazy-daisy stitches.

Well-dressed tables are wearing their Pattern 7211 has transfer of 14 motifs 1 1/4 by 2 to 9 by 13 inches.

Our improved pattern—visual with easy-to-see charts and photos, and complete directions—makes needlework easy.

## LET'S TALK ABOUT YOU

Charles Booth

**WAS THIS THE MOST CHARMING WOMAN?**

You can pick up almost any woman's magazine and read an article about the most charming woman that ever lived. One writer will select a movie actress like Ingrid Bergman. Another writer will point to the fact that the Duchess of Windsor is the most charming, magnetic woman. Imaginative writers go all the way back to Cleopatra in making their nominations.

It seems to me, however, that everything considered, the most charming woman who ever lived was not a movie actress, an Egyptian queen, or the heroine of a popular novel. She was instead a mild, middle-aged woman who lived in Paris around the middle of the Nineteenth century.

Her name was Madame Recamier, and although she left behind nothing but an exquisite legend "as of a rose that had bloomed for a

**Germans Study American Books**

Science, Fiction, Humor Lure Readers to Libraries in United States Zone.

FRANKFURT, GERMANY.—The serious-faced man was bent over the reading room table, three books before him. One was a dictionary, the second a lined notebook in which he painstakingly wrote new words every few seconds, the third a mystery story, which with grim determination, he was trying to read.

At the next table sat a busily scribbling man wearing a pincenez. He was copying the symptoms of assorted animal diseases and their recommended treatment out of "The Home Veterinarian Handbook." Across the aisle sat a professor thoughtfully going through a stack of the latest American journals of psychology. A housewife next to a window was turning the pages of a picture book on wild animals, and a lad in knee pants leaned over the wall-cases containing the latest American fiction. People wandered in and out, pausing to return borrowed books or sign for new ones.

No Fee Necessary.  
 The place: The Amerikanische Bibliothek (American library) near the downtown heart of the United States occupation capital in Germany. The frequenters do not pay anything for what they get, and sometimes, as in all libraries, they steal what they should merely borrow. Some cynical Germans say it is just a propaganda stunt and some congressmen back home think it is a waste of money. But to the men responsible for the occupation, this information center and the 18 others in the United States zone like it are as essential to our postwar mission as the constabulary who streak through the country in jeeps and armored cars, or the military government officers who issue orders from ornate Rathaus offices.

Most of the books are written in English by American authors and most of the newspapers and magazines also come from the United States, a fact that naturally makes it a bit difficult to reach the broad mass of the German population. But the number of Germans who know English is large, and has grown steadily during the occupation. Among them may be found the writers, the teachers, the doctors, the political and professional leaders whom it is most important to reach, and a sizable proportion of the students.

Choose Wide Variety.  
 Recently German translations, mostly from Switzerland and Sweden, of a great variety of books have been brought in, and the highly respected Swiss newspapers are made available. (Because of the worthlessness of the present German currency, it is almost impossible for a German to purchase a foreign book or periodical.)  
 From the assorted fare here set before them, the Germans choose a rather curious mixture. Science, fiction and humor stand high on the popularity lists. The great current obsession with home repair and construction is reflected in the demand for books on architecture. Architects, construction men and just plain people come in every day to look at the architecture journals and see the new home-building books.  
 About three-fourths of the calls are for non-fiction, a fact which is understandable since the majority of the readers are professional people trying to catch up on what has been happening in the world in general, and their own world in particular.

**Mississippi River Boats Have New Look, Modern Equipment**

CHICAGO.—Mark Twain never would recognize the river boats that play the Mississippi these days. Slow, clumsy river boats have been replaced by twin and triple screw, diesel-powered tugboats which can come alongside a dock with the maneuverability of a jeep. The new diesels outnumber steam-powered boats four to one. Many are equipped with radar to guide them through fog, storm and smoke, and with ship-to-ship and ship-to-shore radio telephones.

Some of the new river boats even have a sort of "jet propulsion" in the form of a nozzle which feeds a constant flow of unbroken water to the propellers to increase the push-power per horsepower.

**Cholera Epidemic Spreads in Syria; Sore Arms Isolated**

DAMASCUS, SYRIA.—A cholera epidemic has broken out in Syria, and all infected areas were isolated. Hundreds of physicians and medical students have volunteered to give compulsory vaccinations. Public health authorities urged the people to be calm, advising them that carrying out medical precautions broadcast nationally was the best preventive. Beginning of the epidemic in the cold season occasioned surprise.

A group of medical experts, sent from Cairo at the request of Syrian Premier Jamil Mardam Bey, arrived by plane to assist in organizing the anti-cholera campaign. Egypt recently had a severe epidemic.

**New Method Simplifies Making Sink Enclosure**

ANYONE can now build this modern sink enclosure from easy to follow pattern offered below. User merely cuts each piece according to the pattern specifications, then assembles each piece exactly as the pattern and step-by-step instructions indicate.

Complete information for fitting enclosure to all size sinks is included. No special tools or skill required. All materials pattern specifies are readily obtainable at your local lumber yard.

Enclosure has two handy pull-out drawers at either side. One is used for storing cleaning supplies, the other for hanging towels. Send 50 cents for Sink Enclosure Pattern No. 41 to: East-Bild Pattern Co., Box 74, Pleasantville, N. Y.

**Crunchy Bran Muffins Rich with Raisins**

Tasty Kellogg's All-Bran and luscious raisins... there's a mouth-watering flavor combination!  
 2 tablespoons 1/2 cup milk  
 1/2 cup shortening 1 cup sifted flour  
 1/2 cup sugar 1/2 teaspoon salt  
 1 egg 2 1/2 teaspoons  
 1 cup Kellogg's All-Bran 1/2 cup raisins  
 Blend shortening and sugar thoroughly; add egg and beat well. Stir in Kellogg's All-Bran and milk. Let soak until most of moisture is taken up. Stir flour with salt and baking powder; stir in raisins. Add to first mixture and stir until flour disappears. Fill greased muffin pans two-thirds full. Bake in a moderately hot oven (400°) 23 to 30 minutes. Makes 9 marvelous muffins.

## No. 2 Continued from First Page.

Bob Small of Detroit and Owen Small of Ann Arbor were in East Tawas the fore part of the week to attend the funeral of their grandmother, Mrs. R. M. Small.  
Mr. and Mrs. Waldo Gordon and sons Keith and Roger were in Chase, Michigan this week.  
Mrs. Fred Misener and Mrs. Dan Frank have been in Detroit this week visiting with Mrs. Misener's sister and Mrs. Frank's daughter.  
Mrs. W. D. Nunn and Shirley were Bay City visitors last week-end.  
East Tawas High School basketball team was defeated by Au Gres High School Tuesday evening in a game played at Au Gres. The score was Au Gres 18, East Tawas 14.  
The Ladies Literary Club will meet at the club rooms next Wednesday evening, February 4th at 7:30 p. m. The program will be charge of Mrs. Ernest Mielock and will comprise a movie entitled "Our Empire." Howard Braden will have charge of the movie. Hostesses for the evening are Mrs. C. J. Creaser, Mrs. Glenn Hughes and Mrs. John Moffatt. The teachers of East Tawas will be guests of the evening.  
Children of the grades of East Tawas School enjoyed a matinee Wednesday afternoon at the Community House of the Senior play, "The Groom Says No."  
Regular meeting of Iosco Chapter Order Eastern Star will be held at the Odd Fellow Temple next Friday evening, February 6th at 8 o'clock.

## NOTICE

Due to a change in Railroad schedule the following changes in Mail time will be in effect Sunday, February 1, 1948.  
Outgoing mail must be in the Post office by 6:00 P. M. (5:30 P. M. in outside box) daily and Sundays.  
Incoming mail will arrive approximately 8:30 P. M. First class mail and parcel post will ordinarily be all worked by 10:30 A. M.  
Windows will remain open until 12:30 on Saturdays to provide better service due to this later schedule.  
Richard L. Price,  
Acting Postmaster,  
East Tawas, Michigan.

## Hale News

The P. T. A. held its meeting Monday night at the Community Building and the school gave a cantata under the guidance of Mrs. Smith, the music teacher. The singing was very good and the program gave evidence of the time and patience required of the music teacher and pupils too. Several of the boys displayed good singing ability and the band gave several numbers which were very good. Some of the ladies of the Dr. Kelker Bible class served light refreshments in the basement.

Roy Curtis, who had been ill at his home here, was taken to Flint by his brother, Howard. We understand that he is in a hospital there.

Word has been received of the recent death of Fred Kocher, of Toledo. Mr. Kocher was well known around Hale as he had made many business trips here.

Mrs. Priscilla Salisbury and Mrs. Lillie Humphrey have returned home from Samaritan Hospital, Bay City. Robert Beck has returned from the West Branch Hospital.

Little Linda Teall, who had an attack of pneumonia, is much improved.

The ladies of the Dr. Kelker bible class served a sausage and pancake supper at the Dorcas rooms Saturday night.

Dennis Chrivia brought his wife home from the West Branch hospital Tuesday. Mrs. Chrivia will be confined to her bed for a while yet but we wish her a quick return to health.

The Juniors served a waffle and sausage supper, Friday night at the Community building before the basketball game.

Next Thursday is Dorcas day and the ladies will serve dinner in their rooms. The ladies are hoping that it will be warmer weather by that time. The windows were so frosty at the last meeting that no one could see to tell that they were serving dinner.

Mr. and Mrs. Stanley Shellenbarger and little daughter have moved here from Pennsylvania. Stanley is the son of Mr. and Mrs. Irvin Shellenbarger. Welcome home Stan.

## No. 1 Continued from First Page.

Mr. Martin C. Musolf and son, William of Bay City spent a couple of days with her daughter, Mrs. Charles Kobs and family this week, returning home Tuesday.

Mrs. Melvin Black, Mr. and Mrs. Lloyd Baumgartner and Mr. and Mrs. William Baumgartner, all of Flint attended the marriage of Vernon Beaubien and Frances Schmidt on Saturday returning home on Sunday.

Mr. and Mrs. Albert Fahselt and family, Mr. and Mrs. Leo Vuillemot and family of Saginaw spent the week end with relatives. They enjoyed a family dinner on Sunday, celebrating the 86th birthday anniversary of their father, Oscar Fahselt, at his home.

## STATE OF MICHIGAN

In the Circuit Court for the County of Iosco

### IN CHANCERY

Order of Publication  
Glen H. Crone and V. Lurena Crone, Plaintiffs, vs. Hannah S. Bullis, James H. Watson, their unknown heirs, legatees, devisees and assigns, Defendants.

At a session of said court held at the court house in the City of Tawas City in said county on the 22nd day of January A. D. 1948.

Present: Honorable Herman Dehnke, Circuit Judge.

On reading and filing the Bill of Complaint in said cause and the affidavit of H. Read Smith attached thereto, from which it satisfactorily appears to the court that the defendants above named, or their unknown heirs, devisees, legatees and assigns, are proper and necessary parties defendant in the above entitled cause, and;

It further appearing that after diligent search and inquiry it can not be ascertained, and it is not known whether or not said defendants are living or dead or where any of them may reside if living, and, if dead, whether they have personal representatives or heirs living or where they or some of them may reside, and further that the present whereabouts of said defendants are unknown, and that the names of the persons who are included therein without being named, but who are embraced herein under the title of

unknown, heirs, devisees, legatees, and assigns, can not be ascertained after diligent search and inquiry.

On motion of H. Read Smith, attorney for plaintiffs, it is ordered that said defendants and their unknown heirs, devisees, legatees and assigns, cause their appearance to be entered in this cause within three months from the date of this order, and in default hereof that said Bill of Complaint be taken as confessed by the said defendants, their unknown heirs, devisees, legatees and assigns.

It is further ordered that within twenty days plaintiffs cause a copy of this order to be published in the Tawas Herald, a newspaper printed, published and circulated in said county, such publication to be continued once in each week for six

weeks in succession.  
Herman Dehnke,  
Circuit Judge.

Countersigned:  
Dorothy Buch,  
Deputy Clerk of Circuit Court.

Take notice, that this suit, in which the foregoing order was duly made involves and is brought to quiet title to the following described piece or parcel of land situate and in the county of Iosco, State of Michigan, described as follows, to wit:

"Lots numbered One (1) and Two (2) in Block Numbered Six (6) of Sand Lake Resort Subdivision, according to the recorded Plat thereof."

H. Read Smith,  
Attorney for Plaintiffs.  
Business Address:  
Tawas City, Michigan

It took just one week for  
**10 Million**  
excited Americans  
to say, "This time  
it's Hudson!"

SEE THIS AUTOMOTIVE TRIUMPH AT THE HUDSON DEALERS LISTED BELOW:

**K. W. BUBLITZ**  
TAWAS HI-SPEED  
TAWAS CITY

In one short week 10,000,000 people jammed showrooms to see the amazing, beautiful new Hudson—a new kind of motor car—only five feet from ground to top, but with more inside head room and roomier seats than in any other mass-produced car built today!

Hudson is the only American-built car you step down into when entering, not up on—yet it maintains road clearance.

Hudson's new, all steel Monobilt body-and-frame is the only motor-car construction that completely encircles you, even outside the rear wheels, with a rugged, box-steel foundation frame.

You ride within this frame—cradled between axles—not on top of the frame as in other cars. And as you ride, Hudson's combination of unique construction and comfort features gives you a sensation of snug safety and serene, smooth going unlike anything you've known before!

Meet the new Hudson—get all the facts about Hudson's all-new Super-Six engine, the power-packed Super-Eight engine, and Hudson's "Drive-Master" transmission that provides automatic gear shifting in forward speeds. Drop in at the nearest Hudson showroom. Find out why millions of Americans are exclaiming, "This time it's Hudson!"
