

TAWAS CITY

The WSCS of the Tawas City Methodist church is holding a bake sale at Moeller's Grocery at 2:00 p. m. Saturday.

Bake Sale at Moeller's Store February 14, Saturday, 2:00 p. m. by the Methodist WSCS of Tawas City. Cakes, pies, cookies, rolls, baked beans and bread, etc. 7-1p

Mr. and Mrs. Andrew Anschutz and son, Allen, attended a birthday dinner Sunday at the Walter Anschutz home in Tawas City, honoring their father, Henry Anschutz, who was 85 years old.

Mr. and Mrs. James Giori, Jeanette and Dolores Konenske of Turner attended the show in East Tawas on Friday night.

Mr. and Mrs. Martin Gruerber of East Tawas were dinner guests of the Charles Moeller's on Sunday. Mr. Gruerber was in charge of one of the chartered Greyhound buses that visited Silver Valley Sunday.

Miss Mary Catherine Schuhmacher and room mate, Miss Carol Thackham returned to the University of Michigan Sunday after spending their mid-semester vacation with Mary's parents, Mr. and Mrs. Walter Schuhmacher.

A family gathering and dinner was held Sunday at the Walter Anschutz home honoring the 85th birthday anniversary of Henry Anschutz. Twenty relatives were present.

Mrs. Delbert Albertson, Mrs. Arthur Wendt and Kirk, Mrs. John Katterman and Mrs. Charles Curry called on Mrs. Waldo Curry at Mercy Hospital last Wednesday.

Mr. and Mrs. Edward Mielock and family of Detroit were called here for the funeral of Mrs. Jacob Mielock.

Mr. and Mrs. Ivan Erickson and two children of Bay City were Sunday guests of Mrs. Burley Wilson.

Mr. and Mrs. James Gardner of Detroit attended the funeral of her aunt, Mrs. A. E. Yerdien last week.

Miss Lila Galey and friend of Detroit spent Sunday with Mrs. May McMurray and sons.

Mr. and Mrs. Chester Bielby and Donna have returned from Coos Bay, Oregon, where they spent the past four months. They visited Mr. and Mrs. Will Brown a few days the past week.

Mr. and Mrs. Jack Crum are the parents of a 7½ pound son, born Thursday morning at the Abbott Nursing Home.

The Tawas City Methodist church presents a very attractive appearance, both inside and outside, is the opinion of everyone viewing the church. New carpeting was laid in the church this week completing the work of repairing and remodeling which has been underway for the past several months. The chancel has been completely rebuilt and the floor has been covered with red carpet while the rest of the church has been covered with deep rose carpeting. In the late fall an oil furnace was installed in the side room making more space available.

Elks Take 43-40 Game from East Tawas

Played Before a Gym Packed With Shouting Enthusiastic Fans

The Tawas City Elks measured the East Tawas Indians with a 43 to 40 verdict at the local auditorium Friday night before a jam packed crowd of shouting fans. The auditorium started filling up at six thirty Friday evening with rival fans from East Tawas and Tawas City. East Tawas had been leading the league all season, but this defeat dropped them to a tie with Tawas City. This was, no doubt, one of the roughest battles in this section in a long time as the two teams ended up with 42 fouls.

Getting away fast in the opening stanza, Coach DeFibaugh's Elks took an early 15 to 9 lead and then slapped eight more points on in the second canto to make it 24 to 18.

A boisterous third period by both teams evened things up and at one time the Indians tied the Elks, but at the end of the period it was Tawas City 34, East Tawas 30.

In the final stanza three players were chased out on personal fouls. Don Westcott and Bruce Myles of the Elks and Tate of East Tawas. Things looked very bad for the local team after their high scorer, Westcott and Bruce Myles, guard left the court, but some fine shooting by Steinhurst and Ginterich and the defensive work of Look and McDonald kept them in the game.

Westcott led the locals with 16 points, followed by Steinhurst with 14 and Ginterich 10. Gordon Tate sparked the East Tawas team with 9.

The Elks lost to AuGres Tuesday night at AuGres hme floor 27 to 26 for the second time this year. Fouls again played havoc with the Elks with Westcott sitting out part of the game while they weren't making many of their free throws.

Tawas City started things off in the first quarter leading 5 to 3 but in the second quarter AuGres tied it up and went one point ahead 16 to 14 at the half.

Both teams made identical scores of seven each in the third quarter and Tawas City fell short of tying the game when they made five points to AuGres four in the final canto.

Westcott led with 13 points while Steinhurst collected seven.

The Reserves won one game, and lost one during the week, when they lost to East Tawas by two points, 20 to 18 and won from AuGres 45 to 29. The Tawas City girls lost to the East Tawas girls.

Some Highway Questions Answered

At the Southern Road Commissioners at Grand Rapids recently, the following questions and answers on County Road Problems will be of interest to many. The answers to legal questions were given by John J. Jacoby, Attorney for the Wayne County Road Commission:

Question: How can a gravel road be maintained to keep it free from ruts to keep out the so called corduroy?

Answer: (by A. M. Williams, Engineer, Ionia County Road Commission) Gentlemen, that answer is easy. You can't. I want to add to that a little bit. I can remember back in the days when Frank Rogers was State Highway Commissioner, and at that time we had a 25-mile speed limit. The legislature raised that speed limit from 25 to 30 miles an hour. Mr. Rogers made the statement then that the legislature had raised the cost of maintenance of gravel roads 25 per cent. Later the legislature took the 35 mile limit off altogether, and we have no limit today. When they did that, gravel roads carrying over 100 vehicles a day became obsolete.

Question: Would like little discussion on Road Commissions doing work with county equipment on private roads and drives; and also can the Road Commission do work legally for incorporated cities?

Answer: (by John Jacoby) I think that is true. The answer is flatly, no. The Attorney General has ruled that there is no legal authority for Road Commissions to do any work of (Turn to No. 2, Back Page)

Aged East Tawas Woman Dies

Services for Mrs. Jacob Mielock Wednesday

Mrs. Angela Mielock, who had been a resident of East Tawas and vicinity for the past 60 years, passed away Sunday afternoon at the home of her daughter, Mrs. Angela Enders at Gaylord. She was stricken with paralysis and died two hours later. She had been residing with her daughter at Gaylord for the past three years.

The remains were taken to the home of her son, John Mielock, at East Tawas. Funeral services were held Wednesday morning from St. Joseph's Church. Rev. Robert Neumann officiated. Interment was in the Catholic cemetery at East Tawas.

Mrs. Mielock was born February 8, 1872, in Poland and came to this country when 14 years old. She was married to Jacob Mielock November 10, 1890. The family resided at Alabaster 45 years where Mr. Mielock became one of Isoco county's prominent farmers. Retiring about 15 years ago they came to East Tawas. Mr. Mielock preceded his wife in death two years ago at Gaylord.

Relatives left to mourn are: three daughters, Mrs. Stella Lubaway of Wyandotte, Mrs. A. W. Fitzgerald of Detroit and Mrs. Angela Enders of Gaylord; four sons, Ernest and John of East Tawas, James of Reno township and Edward of Detroit; a brother, John Dudgeziske of Duluth; a sister, Mrs. Nellie Gray of Iowa; 19 grandchildren and five great grandchildren.

Wozniak-Butler

Miss Leona Wozniak of 4440 Kensington Road, Detroit and H. N. Butler of East Tawas were united in marriage last Saturday. The ceremony took place at St. Joseph's Parish House, and a reception was held at the Dr. B. C. Wozniak home at Butler Heights.

The bride is a former teacher in the Detroit schools, and the groom is a prominent Isoco county businessman. The two left immediately for a sojourn in Florida.

Wallace-Smith

Miss Estelle Wallace of Detroit and James Smith, Jr., of Whittemore were married Friday at St. Paul's Memorial Church, Detroit in the presence of about 50 friends and relatives. Rev. James G. Widdfield, officiated.

The bride wore a white wool gaberdine dress, with corsage of white and red roses. The bridesmaid was Miss Mary Morton. Her dress was green with green sequins. Her corsage was of yellow carnations.

The groom was attended by Nick Johnson of McIvor.

Out of town guests were: Mr. and Mrs. James Smith, Sr., Mrs. H. Noss, Mrs. C. N. Wallace, Mr. and Mrs. C. W. Wallace, Helen Spafford, R. M. Johnson and Nick Johnson.

A reception was held at the Wallace home at Sand Lake. After a short wedding trip they will return to Mt. Pleasant College.

Free Press Town Crier Gives His Impressions of Winter Carnival

Mark Beltaire, Detroit Free Press columnist who crowned Queen Betty Cooper at the Silver Valley Winter Sports Carnival, gives his impressions of the Tawas and Silver Valley in his column, "The Town Crier." He writes as follows:

Tawas City and East Tawas, like neighboring towns everywhere, are rivals all year around on almost anything, but they really pitch in together to make the annual Silver Valley Winter Sports Carnival a tremendous success. Nature has given them a magnificent backdrop in the beautiful 25,000 acre sports area in the Huron National Forest and they make the most of it.

People came from all over the State for the shindig held last weekend. Pfeiffer's Bob Hall convulsed the diners at the Queen's Banquet held in Ken Barnes' Hotel in Tawas City. Afterwards I had the pleasure of crowning the lovely Betty Cooper and bidding farewell to Pat Bolen, last year's queen.

Chairman Harold Gould, who looks like Paul Kelly of the movies, had an active and efficient committee in Mike Nunn, Stan Humphrey, Nathan Barkman, who is on his honeymoon, John Mielock, Earl BeMent, Ted Jacques, Terrence, Bill O'Loughlin, Adrian Ayling, Vic Marzinski, Ed. Nelkie, Charles Nash and Carl Babcock.

Harry Aldrich, regional chief of the Michigan Conservation Department, and John Franson, the forest ranger and ex-hockey player, also had a hand in setting the scene for some 15,000 skiers, skaters and tobogganists. Leading the cheering section was Mayor John LeClair of Tawas City. If you took off his shirt, I'll bet you would find Silver Valley tattooed over his heart.

Dr. Francis Letchfield, of Pinconning, proved that his cutter and horse, Jim, were more efficient than the many horses under the hoods of cars skidding in the snow. The doctor, Mrs. Glenn MacDonald, wife of the editor of the Bay City Times, and I skimmed blithely along while the motorists looked at us enviously.

Also in the Bay City contingent were Hugh Geisel, Amby Maxwell and Les Millar. Frank Davis and Andy Munch represented the Eastern Michigan Tourist Association. Jack Parker of Saginaw's WSAM brought the carnival to national attention with a broadcast over NBC.

Fred Berger helped show me around the town where I met Shorty Ketcherside of the Holland Hotel, Father Neumann, Red Beaton of Standish, Ladd McKay, and Chief Blue Cloud who prayed for the plentiful snow. Goodyear's John Johnson and Lumberman Glenn Pembroke Thomas, an old Army buddy of H. C. L. Jackson's, gave your weary Town Crier a ride home, his lungs fuller of fresh air than at any other time in years.

2 Isoco War Dead Brought to States

Stanley Daley and Cpl. George Laidlaw

The funeral ship Cardinal O'Connell arrived Thursday at San Francisco with the bodies of 2,813 war dead who had given their lives in the Pacific area.

Among the 103 Michigan men are two from Isoco county. They are Cpl. Stanley Daley, son of the late Mr. and Mrs. James Daley, and Cpl. George E. Laidlaw, son of Mr. and Mrs. W. E. Laidlaw.

Military services for Stanley Daley will be given under the auspices of Isoco Post, Veterans of Foreign Wars. The final resting place of Corporal Laidlaw will be at Arlington Cemetery.

Young Women's League

The Young Women's League met at the East Tawas Men's Club rooms instead of holding their sleigh ride party because of the extreme cold weather. Final arrangements were completed for the Women's Winter show to be held March 31 and April 1st. Mrs. Marion Boneke is director and Madeline Koehenderfer, musical director for the show. The following committees were appointed: Script Committee, Marion Bontekoe, Sophia Barkman, Alice DeFibaugh, Luty O'Loughlin and Peggy Allen.

Publicity: Betty Misener, Jean Davis, Edna Nunn, Beth Parker.

Following the business meeting a buffet lunch was enjoyed with hostesses Nettie Hester, Marion Newcombe, Beth Blake, Emma Whipple and Jean Haremski.

Burleigh Woman Passes Away

Funeral of Mrs. Seafert Held Tuesday

Augusta (Wesnick) Seafert, of Whittemore, Burleigh Township, died February 8, at the home of her daughter, Mrs. Garfield Prevost in Burleigh township, after a long illness at 6:30 p. m.

Born March 20, 1868, in Germany, she came to the United States with her parents, William and Minnie Wesenick when six years of age.

November 6, 1887 she was united in marriage to Henry Seafert who preceded her in death September, 1944. They were married in St. Clair County, Michigan, and lived there until October 1900 when they moved to Whittemore, where she has lived until the time of her death.

Surviving are eleven children, eight daughters and three sons; Mrs. Frances Bemis of Morthose, Mrs. Hugh Anderson of Hale, Mrs. Charles Katterman of Tawas City, Mrs. Hamilton Hutchison, Mrs. Louis Harsch, Mrs. Garfield Prevost, all of Whittemore, Mrs. Alfred Morin of Pontiac, Mrs. Earl Mason of Twinning; Joseph Seafert of Sturgis, Albert and Henry Seafert of Bay City. Four brothers; Charles Wesenick of Wausau, Wis., August Wesenick of Sherman, Albert and Herman Wesenick of Whittemore; two sisters, Mrs. Helen Ruckle of Whittemore, Mrs. Minnie Fisher of Port Huron. Five children died; two daughters and three sons. Also surviving are thirty-two grandchildren, and sixteen great grandchildren.

Funeral services were held Tuesday afternoon from the St. Paul Lutheran church at Hale and burial in the family lot in the Reno cemetery. Rev. G. Schmelzer, officiating.

White-Sarki

At a beautiful candlelight church service Miss Dorothy A. White, daughter of Mr. and Mrs. Thomas F. White of East Tawas, became the bride of Leonard W. Sarki, of Pontiac, son of Mr. and Mrs. Charles Sarki of Tawas City.

The ceremony took place at the Methodist church Saturday evening at 8 o'clock with Rev. L. Wayne Smith officiating. About 200 guests were present. Out of town guests were from Lansing, Flint, Saginaw, Pontiac, Hale, Minden City, Mt. Pleasant, Oscoda, Prescott and Whittemore.

The church and altar were decorated with bouquets of white flowers. The bride's costume was of white slipper satin with a sweetheart neckline encrusted with tiny seed pearls and a long train fell from the waistline. The gown had leg-of-mutton sleeves with wrist points. She wore an attractive beaded tiara from which fell a finger tip veil and combination blusher edged with a dainty pattern of chantly lace. The bride's bouquet was of lily of the valley and gardenias.

The Matron of honor, Mrs. June Gurley Rapp was gowned in white moire taffeta with cap sleeves, full skirt and matching gauntlets. Her bouquet was rose carnations.

The bridesmaids were Miss Anna Lee Johnston, of Rosebush, Michigan, college roommate of the bride and Miss Norma Eno, of Lansing, cousin of the bride. Both bridesmaids wore gowns in rose taffeta moire, with cap sleeves, full skirt and matching gauntlets. Their flowers were white and blue carnations. Peggy Joy White acted as Junior bridesmaid, as younger sister of the bride. She wore white taffeta moire, styled as the bridesmaids. Her flowers were rose carnations.

The groom's attendant was Bob Johnson of Pontiac.

After the ceremony a reception was held in the church parlors for the guests. The table was laid with a lace cloth and centerpiece a large pink and white tiered wedding cake topped with bride and groom, silver trimmed white candles and rose buds.

The bride and groom left on a wedding trip through Michigan and Canada. They will make their home in Pontiac.

Irene Rebekahs Honor Mrs. Swales

Irene Rebekah Lodge honored Mrs. Alfred Swales Wednesday evening. The occasion was the golden wedding anniversary of Mr. and Mrs. Swales, who had been married 50 years on Tuesday, February 10th.

After the meeting refreshments were served from tables decorated with gold colored flowers and tapers and a wedding cake in gold and white. Mrs. Swales was presented with a brides' bouquet of yellow carnations tied with a gold ribbon. She was also presented with a gift from the lodge and other gifts and cards. Old-time songs were sung and enjoyed.

Mrs. Swales was formerly Carrie Gregg and was married to Alfred Swales at the Methodist parsonage in Tawas City on February 10, 1898 by Rev. Seafert.

Monarchs Lose to West Branch Producers

Alabaster Wins from West Branch Vets in Double Header Here

In the double-header last Sunday night with West Branch at the local gym, the local teams split with the West Branch squads. Alabaster won an easy 57 to 25 count from the West Branch Vets, while the Tawas City Monarchs dropped a close 47 to 42 decision to the West Branch Producers.

Alabaster had rather an easy time of it in the first game, winning 57 to 25, with all members of the team in the scoring column. Erickson and DeLosh led with 11 points each, and Brown of West Branch came through with 14 markers to lead his team.

With not more than six points separating the two teams throughout the contest, the Monarchs just about upset the fast stepping West Branch squad.

The final quarter saw the two teams break out in a rash of scoring, with Tawas City marking up 17 points and West Branch 14. Paced in the final stanza by Paul Beyer, and his three long shots, the Monarchs crept to within three points of the Branchers, but Garner and Smith with four points each pulled the Producers out of danger. Oliver was tops in the scoring with 18 points, while Dubovsky paced the Tawas team with 11 points.

Tonight (Friday) night February 13, another double header is scheduled for the Tawas City Auditorium. The Alabaster team will go against Harrisville and the Monarchs will pay Alpenga St. Bernard in a return game. Earlier in the season both Alabaster and the Monarchs were on the short end in close games with these two teams. First game will be at 7:30. Lets be on hand for these two games and support your local teams.

Third World War Brews

IT TAKES no expert to see that President Truman is weakly leading the United States into a fighting-war with Soviet Russia.

We turned the other cheek in the case of the Japanese attack on a little vessel of ours called the Panay; when Tito of Jugoslavia shot down one of our army transports which was unarmed and murdered five of our young men, we kept our indignation under control.

In the light of later information, it is not certain, as most of us believed at the time of the Panay attack, that we were entirely innocent there. We were pro-Chinese and we were not trying to avoid trouble.

If Mr. Truman continues to monkey around in Europe, we will be back in another world war, our third, simply for lack of the courage and integrity to be the American people in the American nation and to mind our own business.

WALTER SHEAD

War Still Boosts Budget

PRESIDENT TRUMAN has submitted his budget totalling 39.7 billion dollars, the largest peacetime budget in history. Had the President been playing politics, as charged, it would seem the simplest thing to do would have been to slash it to the bone.

Where to cut? Taber says the budget must be slashed by three billion dollars. Will it be off national defense, foreign aid, public debt reduction — or will it be at the expense of governmental services here at home?

The President painted a rosy picture of the state of the union: Corporate profits the highest in history; 58 million persons working, which is 10.5 per cent more than in 1940; production 7 per cent over 1946 and 76 per cent over the 1935-39 average; consumer income the greatest ever at \$1,264 per capita compared to \$1,074 in 1946; business investment in plant equipment and inventories more than 25 billion dollars, four billion over 1946.

The President says the figures are misleading — that prices are outstripping wages, high income families are losing purchasing power, savings accounts are shrinking, credit is expanding dangerously.

The President has set up a program to get the fly out of the ointment. No one else has. Yet nothing is done about it.

DPs Have Many Skills U.S. Needs

Useful Citizens Remain Idle In Displaced Person Camps

By BAUKHAGE News Analyst and Commentator.

WASHINGTON.—It's a strange thing about us Americans who grew up under a Declaration of Independence which states that we're all born free and equal, and a Constitution which is so scornful of blue blood that it specifically declares that "no title of nobility shall be granted by the United States; and no person holding any office of profit or trust under them shall, without the consent of congress, accept any present, emolument, office or title of any kind whatever from any king, prince or foreign state."

In other words, we're supposed to believe "a man's a man for a that."

Nevertheless, come election eve, somebody always gets very excited about the ancestors of any prospective candidate for the office of president (or the office of dogcatcher, for that matter).

So I wasn't surprised to see a dispatch come over the wires saying that somebody, who says his grandfather was the brother of the grandfather of General Eisenhower, is in a displaced persons' camp in Denmark.

Baukhage

A good American answer, I'd say. And it serves to bring up the question of displaced persons in Europe, a matter with which the congress of the United States is mildly concerned at present. Not as much concerned, however, as Rep. William G. Stratton (Rep., Ill.) would like, since he has introduced a bill "to authorize the United States . . . to take its fair share in the resettlement of displaced persons in Germany, Austria and Italy, including relatives of citizens or members of the armed forces, by permitting their admission to the United States in a number equivalent to a part of the total quota numbers unused during the war years."

There are some 11 million persons who were enslaved, captured in war or thrown into concentration camps by the Nazis, who have been sent home, and 850,000 others who, like the alleged relative of General Eisenhower and many who have escaped from under the iron curtain since the war, can never go home for fear of political persecution in Soviet-controlled countries where they would face slavery or death. Fifty per cent of these still in the camps are women and children. One-fifth are Jews.

Many DPs have skills and are only too anxious to use them. And there is room for

them — or somebody — to take the place of the manpower which has been drained from the farms in the Middle West into factories.

There are 95,000 DPs who are trained farm workers. Now, instead of producing food for others and easing the terrific strain on the American farms due to the shift in population, these DPs are eating at America's expense. I doubt if any American is hardhearted enough to say: "I am not my brother's keeper. Send 'em all back where they came from . . . to strengthen the sinews of the Communist dictatorship and live out their lives in slavery . . . if they are allowed to live at all."

Breaking down the DP census under the "agriculture" classification made by American officials, we have:

Farmers (all types)	77,720
Agronomists	5,440
Lumbermen	704
Hunters, fishermen	723
Millers	1,191
Other agric. workers	10,999

Many other skills are represented. Need any carpenters? More than 5,000 are in the camps; nearly 2,000 painters; altogether more than 21,000 trained in construction and maintenance. And so on.

No comment is necessary on the items: "Hospital attendants, 1,135; nurses, 4,057; physicians and surgeons, 1,763"; or, from the housewives' point of view . . . "Domestics, 22,066."

It isn't as if we had thousands of unemployed in this country, or that we weren't trying to increase production to feed and house our people.

It costs our army (that means you) \$400,000 per day to keep these people semi-prisoners, growing up to be useless citizens by denying them freedom and hope. What does it cost our consciences?

What is Communism, as exemplified by members of the Communist party in the United States? Some say it is a religion. Well, if the whirling dervishes are religious, so are the Communists. They are certainly as fanatically devoted to their creed. If the American people were a little more familiar with that creed, they would understand the Communists better, and it is to be remembered that that creed is more than an "I believe." It is a set of rules, and if you don't obey those rules, your life is in danger.

My attention has been directed recently to one paragraph in the Communist bible, a resolution passed and accepted and integrated into the internationale. It explains just what you can expect of Communists when they join a club, a union or any international body. Expect no more of them; no less. This is the paragraph:

"There can be no question of the utilization of bourgeois governmental institutions except for the purpose of their destruction."

Many explanations have been offered as to why a normal, natural-born American should embrace communism. The reasons range all the way up and down the scale, and include everything from a broken heart to some hidden neurosis that makes other people nag their husbands, maltreat their wives, drink, kick the dog or jump into the river. But whatever the urge is, it has some strange effects on the patient.

Take, for instance, that one-time firebrand member of the "Wobblies," Elizabeth Gurley Flynn. Many of you recall the picturesque IWWs, "International Workers of the World," who flourished in the early 1900s. Miss Flynn played a spectacular part in the famous Mesabi range strikes of 1919 — her father was a miner.

She helped organize the Communist party in America in 1920. Now she conducts a column "Life of the Party" in the party organ, the Daily Worker, published in New York, which follows the party line as a fox follows the aniseed bag or a rat follows the smell of cheese.

In a recent column, Miss Flynn described a luncheon in honor of the "First Daytime Women's School" of the Communist party's Kings Highway section. Says she (note how Marxism flavors even the simple arts of the housewife): "The luncheon which the women prepared themselves was so delicious it is evidence they are equally good Marxists and good cooks. How can I reduce under such temptation?"

Perhaps sensing that someone might reach for a grain or two of salt before perusing her observations further, she sounds a somewhat different note in another breath: "The Communist party of New York affords us not only this wonderful opportunity (attending a big meeting) to meet together to memorialize the noble life of Lenin, but give us inspiration to be guided by his teachings."

BUMPER BABY CROP

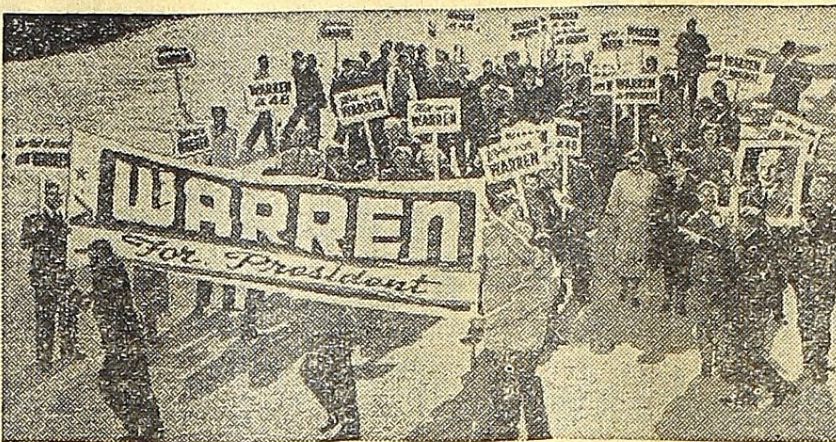

Boom in Births Means Changes

Biggest boom of all right now is that which is expanding the U. S. baby crop to historic proportions.

More than 26 million new babies have arrived on the scene in this nation since 1940, when the baby boom began. That is nearly 11 million more than had been expected on the basis of what has been considered the average yearly birth rate of the past, about two million.

And this bumper crop has increased the total national family to more than 144 million souls—considerably more than even any government bureau had counted on.

Last year more bundles from heaven arrived in the U. S. than ever before in its history, a whopping 3.7 million; and this year probably will measure up to approximately the same standard.

THEY'RE ROARIN' FOR WARREN . . . California's Republican assembly, meeting in Del Monte, heartily approved a resolution to "go out and sell Gov. Earl Warren as the best man for president of the United States." The campaign to get the GOP nomination for Warren has been gaining momentum.

NEWS REVIEW

House Debates Tax Bill; Gandhi Is Assassinated

All signs pointed to an income tax cut of one kind or another this year as the house of representatives clanged the bell for the opening round of crucial, election-year debate on that much-belabored issue.

Joseph Martin (Rep., Mass.), speaker of the house, started things off with the assertion that an income tax slash is in the bag. He conceded, however, that it might not run as high as the 6.5 billion dollars provided in the Knutson bill, now up for debate.

But in the end, he said, the Republican congress would override a presidential veto "of the tax bill we send to the White House."

In order to beat the veto that Mr. Truman might slap on the tax bill, however, the Republicans would have to line up a few Democrats to vote on their side to make the necessary two-thirds majority. And to bring enough Democrats around, it was thought, the senate Republicans would tone down the bill.

Rep. Robert Doughton (Dem., N. C.), ranking Democrat on the tax-fixing ways and means committee, pointed out the obvious fact that Republicans would have to trim the size of the cut to get anywhere. Otherwise, he said, congress will uphold the veto "and we will have no tax reduction at all."

As far as Knutson's 6.5-billion-dollar measure is concerned, GOP congressmen were touting it on the grounds that it would spur business, increase production and relieve the price-pressure on taxpayers in addition to leaving the government enough revenue for an 11-billion-dollar payment on the public debt in the next two years.

Democrats, of course, take the diametrically opposed view, holding that a tax slash that big would force the government to borrow money, threaten national security and hinder the European recovery plan upon which so much of the current phase of U. S. foreign policy is founded.

DEATH: Gandhi

Mokandas K. Gandhi, India's champion, peacemaker, patient saint, was dead at the age of 78—a victim of an assassin's bullets.

He died barely two weeks after Hindus, Sikhs and Moslems alike, overjoyed at the possibility of peace that Gandhi's latest fast had procured for their dominions, were shouting "Gandhiji ki jai" (long live Gandhi) in the streets of Delhi.

It was a violent ending for the mahatma who all his life had preached and practised a philosophy based on an abhorrence of violence. A Hindu from Poona approached him during a prayer meeting and fired three shots into his body from close range.

To India and to India's Hindus to whom Gandhi had devoted his life, his death was a bitter experience and a shock that left the already turbulent sub-continent in an even more complete state of turmoil.

After the partition of the country into the dominions of India and

Pakistan Gandhi had been the man of strong spirit to whom all three opposing factions, Hindus, Moslems and Sikhs, had looked for guidance.

And in his last fast, of five-day duration, he had given it to them. He had provided the three clashing religious groups with a foundation for peace. His action had tended to narrow the schism between Moslems and Hindus, had lessened the talk of war.

Whether his death would undo the good that the last days of his life had accomplished remained, for the time being, an open question.

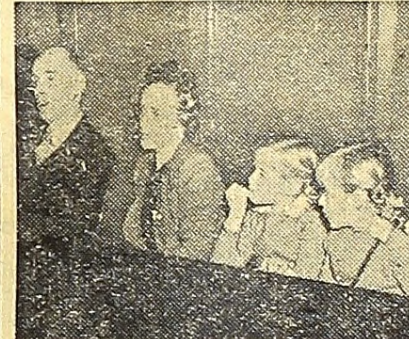

LITTLE MAN

And What Now?

To the senate banking and currency committee came a representative of America's beloved "little man" to talk of inflation and ask the question "What now?"

Economists may define an inflationary condition as an excess of demand over supply or a disproportionate amount of money and credit in relation to exchange, but to Cyrus J. Waud of Camden, N. J., inflation simply means that his \$50-a-week salary can't take care of his wife and six children.

Waud, a cannery worker, told a story familiar to millions of his co-

horts across the nation: The endless, insufferable rise in prices; the hand-to-mouth struggle to keep even with the implacable economic circumstances which gradually were beating him down.

With the dispassionate bitterness of a good U. S. citizen who knows that it is within his rights but not within his power to have economic freedom and comfort for his family and himself, Waud summed it all up in the 1948 "little man's" tragic cliché: "We're not living, we're only existing."

Germ 'Flypaper'

One of the latest developments in this century of scientific whing dings is a bacterial flypaper to keep rooms free of disease germs.

It is a chemical that can be put on floors, blankets or curtains to catch and hold tiny organisms, including those which cause colds, when they settle out of the air. Unlike flypaper, it doesn't kill, but it does keep germs from circulating around the room.

DISTURBANCE CLEARED UP
A skipper, completing a trip across the Atlantic the other day, reported 40-foot waves rising from a smooth sea, with no wind, storm or whitecaps. There were no understandable explanations. The ship was tossed all over the lot in a dead calm, something never before noticed in his 35 years at sea.

"I went to work on the mystery promptly," said Dr. Elmer Twitchell, the distinguished scientist, marine authority and gin rummy expert, "and considered the violent disturbance on a calm sea from all angles. A number of things could have caused it."

"I figured that possibly Harry Truman, General Graham and Ed Pauley had been out on the presidential yacht debating the broad subject of ethics, but there was nothing in that."

"There was the possibility that the disturbance could have been caused by somebody discovering eggs at 60 cents a dozen along the seaboard. Another fellow thought that 40-foot waves could be caused by a man ordering an auto and getting it immediately with no bonus."

"I considered the possibility that President Truman had allowed himself to be photographed in a grave moment without smiling. This led to a theory that this tremendous disturbance at sea could have been the result of Margaret Truman tackling an opera role too deep for her in the first place. That proved untrue."

"I considered the idea that Lujack had missed a forward pass, that a day had passed with no marital news among the Topping boys and that Henry Wallace had said 'I don't know' to some complicated international problem."

"Then it dawned on me. I put searchers to sea and they came in with the evidence in the form of a bottle tossed overboard. In it was the latest Pravda editorial. That did it."

Father and Son Dialogue
"Popper, is 39 billion dollars much?"
"It always has been, but I wouldn't want to be quoted on it today, son."
"Teacher says the President proposes to spend that much in one year and that it's a staggering sum."
"Your teacher staggers easily. But at that my opinion wouldn't be any good. I got all mixed up about the value of money back in Roosevelt's first term and have never been able to figure things out since."
"Can a country really spend that much money in one year, popper?"
"It ain't easy, my boy, but we can do it."

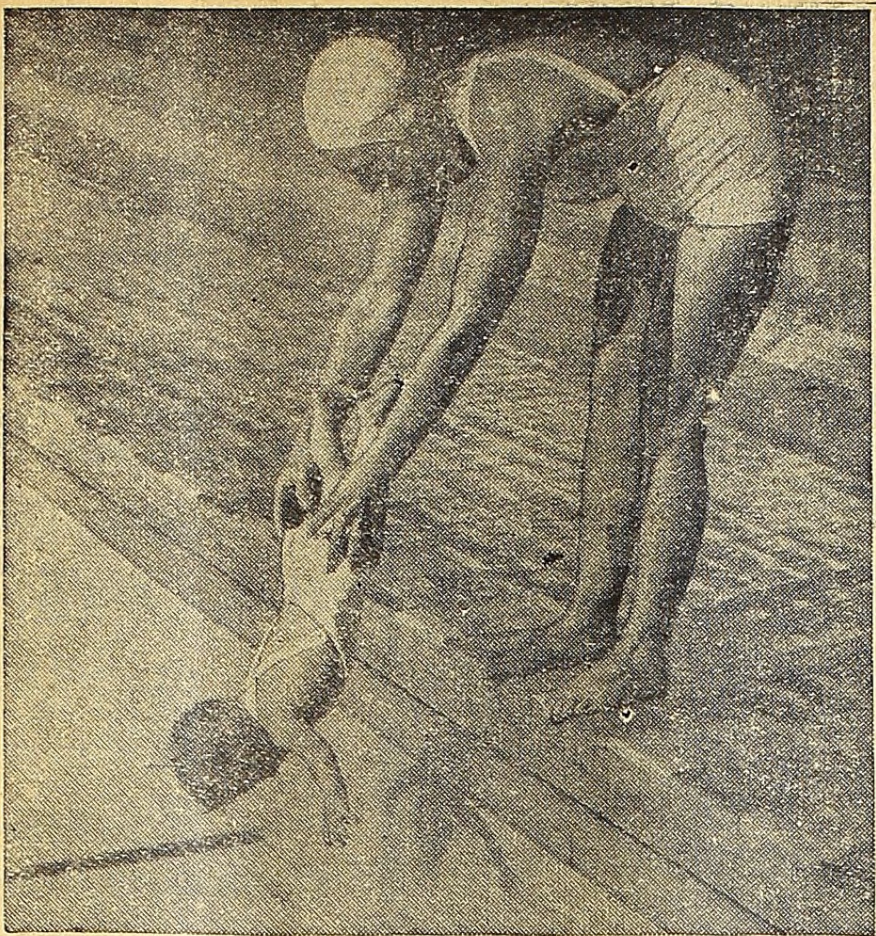

"Popper, why must we send so many billions to Europe?"
"We must help all countries to get out of a big hole."
"I thought we fought the war to get them out of a big hole."
"There is no telling about holes these days, son."
"Popper, our side won the war to save Europe, didn't it? Then what happened that we have got to rescue it all over again?"
"We forgot to save boxtops or sumpin'."
"When you win a war don't you come out ahead?"
"Who said so?"
"Napoleon."
"What did he know about war? He didn't even have lend-lease, Quebec conference or ERP."
"But he was an expert on war."
"Phooey. He didn't even know about interim aid, U. N. or what is called a deteriorating situation."

"Popper, when we won the war at Trenton from the British didn't that settle everything? Did we have to lend billions to the British and Hessians to make it good?"
"We have progressed, my son. Today we have got things to a point where nothing turns out according to the book. Civilization has reached a state where if we win a war we lose and if we lose we are almost as bad off."
"But, popper..."

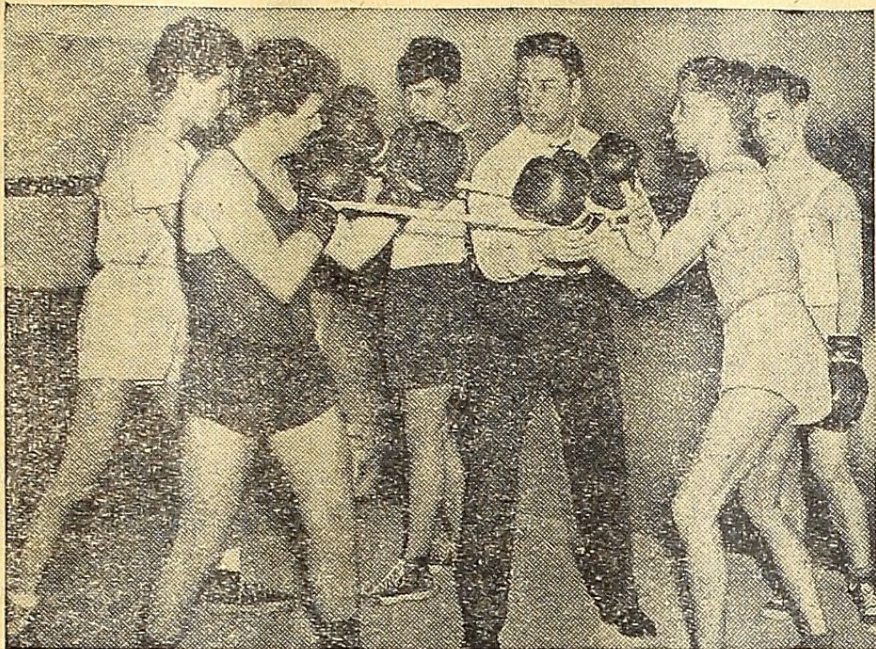

Howie Odell, Yale football coach, has gone from New Haven to Seattle. This is the longest run made in Yale football in years.

The twisted ankle rate is at an all time high due to the best ski conditions in years. It's amazing how many people rush to the ski-slides, take off in a carefree manner and exclaim, "Why wasn't I told?" when they find no net at the end.

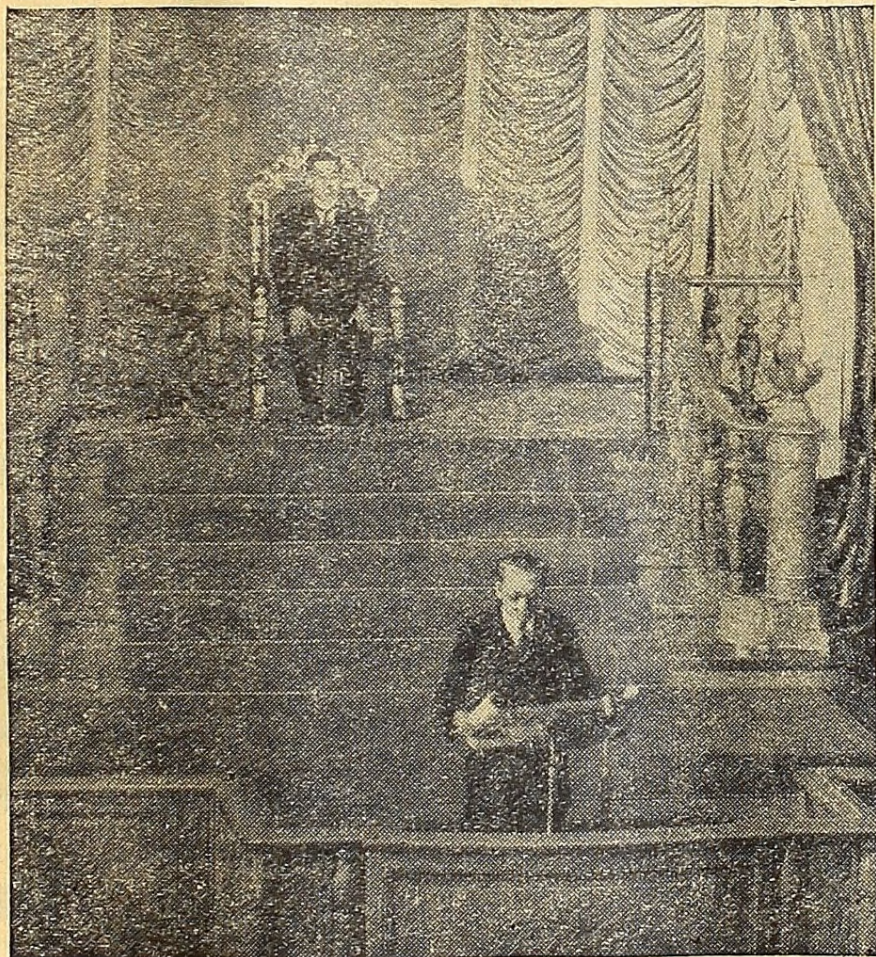

The whopping success of "A Streetcar Named Desire" has many a Broadway producer envious. We heard of one who pointed to another the other day and said scornfully, "And all his life he's been waiting for a trolley!"

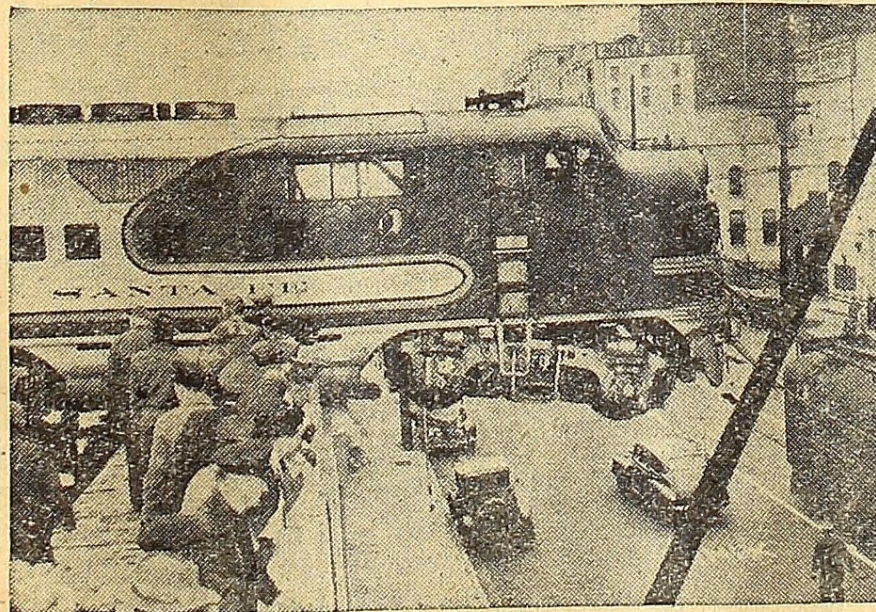

BEFORE SHE CAN WALK, HONEST . . . Ever hear anyone brag about how he learned to swim before he could walk? Take a look at a youngster who won't be kidding when she tells that story. Sherry Lynn Whitford of Los Angeles is only nine months old and already she's swimming the 20-foot dash. The tot swims three times daily and uses a combination of dog paddle and crawl to propel herself about the pool. She swims with her tiny head under water. Here, she is being dropped into the water by Crystal Scarborough.

PUNCHING IN THE DARK . . . Gus Lesnevich, outstanding lightweight boxer, is shown here as he instructs four students of the Institute for Education of the Blind in New York in the use of boxing gloves. The blind boys are guided by strips of elastic which connect the right and left fists of opponents and keep them within touch of each other.

EMPEROR HIROHITO PRESIDING . . . Emperor Hirohito of Japan, who was not always so democratic as he is now, looks lonely and deserted as he attends the opening session of the Japanese diet in Tokyo. This is said to be the first really democratic parliamentary body to function in the history of Japan.

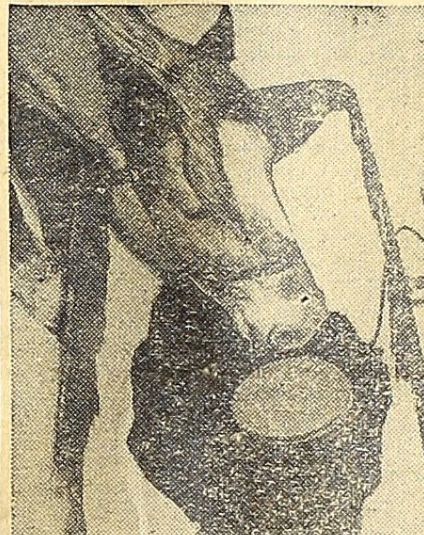

HOW NOT TO DO IT . . . The front of the four-unit diesel power plant of Santa Fe's El Capitan streamliner dangles over Aliso street at the south end of the Los Angeles union station. Train had arrived from Chicago, uncoupled its coaches and was en route to the roundhouse when an apparent brake failure caused the locomotive to trundle off the end of the tracks and crunch through a wall over the street.

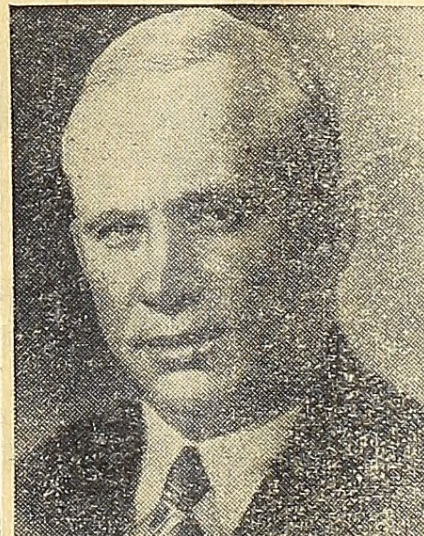

WOULD-BE SHERIFF . . . Mrs. Frances H. Dwire, former Cleveland policewoman and a grandmother, announced that she would seek Democratic nomination as sheriff of Lake county, Ohio. She will run on anti-gambling and reform platform.

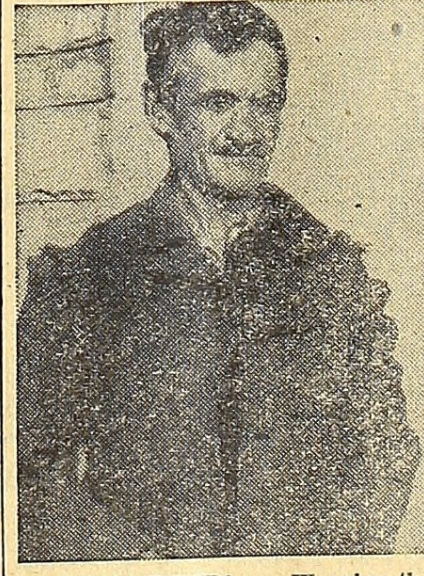

IT CAN HAPPEN . . . John Foster Dulles, GOP foreign affairs expert, told congress that Russia will "take over all of Europe" unless Marshall plan aid is given to the European democracies, immediately.

HOT WATER . . . Thanks to the round metal disk floating in the center of his water trough, this horse has the laugh on old man winter. It is a floating water heater, produced by Westinghouse to assure farm animals of a drink despite the cold.

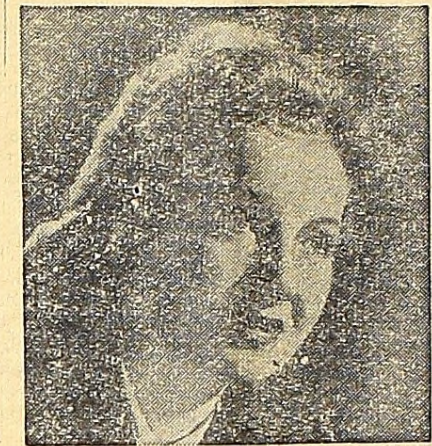

IS THAT SO? . . . Nikita S. Khrushchev, secretary of the Ukraine Communist party's central committee, was quoted by radio Moscow as virtually admitting that the Stalin regime is combating anti-Soviet uprisings in the intensely nationalistic Ukraine.

'CONSCRIPED' . . . Wearing the rags given him in exchange for his own good clothes, Nick Datsis, American barber from Worcester, Mass., managed to escape from Greek guerrillas who "drafted" him and made him their battalion barber.

By INEZ GERHARD
LIKE Myrna Loy, Merle Oberon and Gene Tierney, radio actress Alice Frost began her acting career with exotic oriental roles; like them, she is best known today as a typical American girl, the light-hearted, adventuresome "Pamela North" of the CBS "Mr. and Mrs. North." A heavy Oriental diet was too much for her, so she set about the serious business of learning to gather laughs. She was a stooge for such masters of the art as

ALICE FROST
Bob Hope, Fanny Brice, Walter O'Keefe and Col. Stoopnagle, working at it while other girls strove to become radio's equivalent of Bette Davis. Those years have paid off in her success as "Mrs. North."

February 13 is a big date for Dinah Shore. With Melissa Ann occupying the cradle made for her by her father, George Montgomery, Dinah returns to the air on her new program. "Call for Music," a variety show, brings us Dinah and Harry James and his orchestra, with "It Pays To Be Ignorant" giving up its Friday spot for the new show.

When J. Arthur Rank visited Hollywood, Michael Curtiz told him about a young actor, James Mitchell, whom he'd signed to a long-term contract. Mitchell, who resembles James Mason, has a leading role in Curtiz' "The 49ers"; Rank, who asked that Mitchell's test be sent to him in London, may borrow the young man if the Curtiz schedule permits.

Bravo to NBC President Niles Trammel, who started 1948 still hopeful and fighting for a self-imposed radio code of standards, a high level of program practices and content. For example, limited commercialism, clean copy, clean jokes. It was a good fight he put up at the Broadcasters' convention last fall, and apparently he intends to continue it.

Columbia Pictures will soon release a new musical, "Mary Lou," featuring Frankie Carle and his band. The song's publishers launched a drive to push it, and soon you will be hearing new recordings of "Mary Lou" played by nearly all the top bands. All that is, but Carle; Columbia Records wouldn't let him do it—Horace Heidt held prior rights.

Robert Kennedy, ex-Marine, was a truck driver when Director Richard Wallace and John Wayne heard him sound off after a minor traffic accident. He was so eloquent that they signed him for a role in RKO's "Tycoon."

When the popular "Ladies Be Seated" and "Hint Hunt" go traveling it is possible for worthy civic enterprises to benefit. Minimum admission fees are charged; for instance, in March "Hint Hunt" will appear for the Charleston, W. Va., Lions' club; the fifty cents fee for each person will go to a fund for hot lunches for under-privileged school children during the school year.

"Design for Death," RKO's documentary film, was made after some eight million feet of confiscated Japanese newsreels and feature dramas had been studied. It took Richard Fleischer more than three months to go over them.

On the Columbia "Lulu Belle" set, Glenda Farrell came up with a reminiscence that startled Dorothy Lamour and the others. In 1928 Glenda played a debutante in "Love, Honor and Obey" on Broadway. Clark Gable played her father!

STOP USING HARSH LAXATIVES
Try Lemon in Water—it's good for you

The juice of a lemon in a glass of water, when taken first thing on arising, is all that most people need to insure prompt, normal elimination. No more harsh laxatives that irritate the digestive tract and impair nutrition! Lemon in water is good for you! Generations of Americans have taken lemons for health—and generations of doctors have recommended them. They are rich in vitamin C, supply valuable amounts of B1 and P. They alkalinize; aid digestion. Not too sharp or sour, lemon in water has a refreshing tang—clears the mouth, wakes you up. It's not a purgative—simply helps your system regulate itself. Try it 10 days. USE CALIFORNIA SUNKIST LEMONS

Wheat Breeding Pays

Thirty years of wheat breeding by experiment stations of the hard red spring wheat area and the department of agriculture have resulted in developing a succession of improved varieties, each producing higher yields. In North Dakota, during the last five years, the increase through use of these varieties is estimated from experiment station yield studies at 192 million bushels worth \$20 million dollars, or 48 million dollars per year.

Glen H. Crone and V. Lurena Crone, Plaintiffs, vs. Hannah S. Bullis, James H. Watson, their unknown heirs, legatees, devisees and assigns, Defendants.

At a session of said court held at the court house in the City of Tawas City in said county on the 22nd day of January A. D. 1948.

Present: Honorable Herman Dehnke, Circuit Judge.

On reading and filing the Bill of Complaint in said cause and the affidavit of H. Read Smith attached thereto, from which it satisfactorily appears to the court that the defendants above named, or their unknown heirs, devisees, legatees and assigns, are proper and necessary parties defendant in the above entitled cause, and;

It further appearing that after diligent search and inquiry it can not be ascertained, and it is not known whether or not said defendants are living or dead or where any of them may reside if living, and, if dead, whether they have personal representatives or heirs living or where they or some of them may reside, and further that the present whereabouts of said defendants are unknown, and that the names of the persons who are included therein without being named, but who are embraced herein under the title of unknown, heirs, devisees, legatees, and assigns, can not be ascertained after diligent search and inquiry.

On motion of H. Read Smith, attorney for plaintiffs, it is ordered that said defendants and their unknown heirs, devisees, legatees and assigns, cause their appearance to be entered in this cause within three months from the date of this order, and in default hereof that said Bill of Complaint be taken as confessed by the said defendants, their unknown heirs, devisees, legatees and assigns.

It is further ordered that within twenty days plaintiffs cause a copy of this order to be published in the Tawas Herald, a newspaper printed, published and circulated in said county, such publication to be continued once in each week for six weeks in succession.

Herman Dehnke, Circuit Judge.

Countersigned: Dorothy Buch, Deputy Clerk of Circuit Court.

Take notice, that this suit, in which the foregoing order was duly made involves and is brought to quiet title to the following described piece or parcel of land situated and in the county of Iosco, State of Michigan, described as follows, to wit:

Lots numbered one (1) and two (2) in Block Numbered Six (6) of Sand Lake Resort Subdivision, according to the recorded Plat thereof.

Manufacturing Fir Plywood

Fir plywood is manufactured only from prime logs of giant, old growth, Douglas firs usually from three to eight feet in diameter. The cross-grain construction of plywood makes it splittproof so nails may be driven near the edge without danger of splitting. Called "not presses," giant machines set the waterproof glues of exterior plywood in about five minutes. The resultant bond is stronger than the wood itself.

Mud-Fly Fishing Rules

Mud-fly fishing is a new tactic recommended for use in dead water holes where trout simply refuse to rise to the angler's lures. Take a coachman fly and clip the wings. Then pack mud into a ball about it. Drop the mud-packed fly on the smooth water. As it settles to the bottom, with the water disintegrating the mud into little spiralling swirls, the trout should smash it for curiosity alone.

Whittemore School Notes

January Snow Ball Great Success

The freshmen of Whittemore High School sponsored the first January Snow Ball Friday evening. The class plans to make it an annual affair.

The decoration committee consisting of Reda Fortune, Glenda Johnson and Toni Perry had the study hall most attractively decorated with pictures of snowmen and snow balls while the blackboard was covered with a snow scene drawn by George Wendt. The words "March of Dimes" were placed on the back wall with circles of silver paper representing coins to carry out the purpose of the evening.

Mrs. Charles Bellville at the piano and Arlen Bell and John O'Farrell with drums, furnished the excellent music for the occasion.

At intervals during the evening, Mrs. Ida Dorsey and Mrs. Ruth Oates, class sponsor, led musical games, and several square dances were called by Miss Betty Warren.

A floor show was given at nine o'clock which was thoroughly enjoyed by the guests. The master of ceremonies, Arlen Bell, was introduced by Betty Belson.

Two very excellent dance numbers were given by Glenda Johnson, Dorothy Barrington, Reda Fortune and Jeanette Bellville, who were most attractively costumed in yellow and silver.

Ada Louise Perry's solo, "Serenade of the Bells," was well received and she sang "Ballerina" for an encore. Then Arlen Bell, representing his sponsor—Paos—the soap which prevents teacup hands, conducted a quiz program which kept the audience in gales of laughter. The contestants were Elmer Doodlebottom (Phil Mielock) and Mug Elbubb (Elsie Dorsey), "Pete" Oates and Mrs. Florence Perry.

The refreshment committee, Rose Marie Collins, Peggy Pipeash and Ann Lynch served delicious punch and wafers.

The March of Dimes netted over \$14.00 which has been sent to the committee in East Tawas. Elgin Provoast was chairman of the clean-up committee.

The party was chaperoned by Mrs. Oates and Mrs. Perry.

The Red Wings, the girl's athletic club, express their sincerest thanks to the Junior Women's Club which this week gave them the money they raised to make possible the purchase of basketball suits. The girls appreciate the interest of the club women as well as their gift.

The seniors received the proofs for their pictures last Wednesday and are giving much weighty consideration to the subject of which picture they shall have finished.

Basketball Practice

Basketball practice is being held at the Hottis school and both boys and girls' teams are working hard to get in condition to meet AuGres Friday night.

Magazine Project Succeeding

The magazine project undertaken by the seniors has proved most successful. They are representing the Curtis Publishing Company and are taking both new and renewal subscriptions to magazines.

If you are interested in subscriptions or wish to renew a magazine which expires within the next few months, the seniors would greatly appreciate your patronage and a phone call to the school office will bring a senior to your home.

Everyone knows where this one's going

White sidewall tires, as illustrated, available at extra cost.

Tune in HENRY J. TAYLOR, Mutual Network, Mondays and Fridays

No, it hasn't always been easy, here of late, to be absolutely sure just which way automobile design was heading.

So it's a refreshing thing, people tell us, to see one car that quite clearly knows where it's going — and shows it inside and out.

You can't mistake this poised

and ready fashion plate for anything but a Buick — you're sure from a glance that you'll find it steady as a battle cruiser and full of ginger as one of Grandma's cookies.

A broad bonnet promises plenty-power—and you get it with such velvety new smoothness that you need to check the battery-charge needle to make sure the engine's running.

You size it up as comfortable. The road's verdict is that it's the most tireless car on the market, what with four coil springs, pillowy low-pressure tires and a wholly new attack on car vibration keeping you

fresh through the longest day.

You find quiet here — quiet that encourages conversation — quiet from Sound-Sorber top lining that invites conversation in normal tones.

And if it's a Dynaflo Roadmaster you're handling, here you can sample driving ease that is near magic in its simplicity.

You set a lever, press the gas treadle — and simply steer. The power plant does all the rest — swoops you up from standstill to full pace, accelerates, climbs, slows to a stop, starts up again — all without any gearshifting, either manual or automatic!

So it's pretty plain where this one's heading — it's going even higher in the regard of the motor-ing public.

Why not see your Buick dealer now and get your order in?

Wide Variety of Bulletins Available

By Harold R. Clark, County Agent

An important service offered to all the people of Michigan by the Agricultural Extension Service, is the distribution of bulletins. These publications cover many subjects which are of interest to both farm and city folks. The housewife may be interested in receiving information on home planning, home furnishings, child care, preparing meals, preserving food, landscaping the home and planning the home vegetable garden. We have bulletins and folders to meet that need.

The Farm:
 The farmer wants the latest information in crops, soils, fertilizers, farm building, the raising and fattening of beef cattle, hogs and sheep, dairy and poultry production, fruit growing and diseases of livestock and plants. We have circulars, folders and both technical and special bulletins to cover all these subjects.

The Tourist:
 For the tourists then too, we have many publications that offer helpful suggestions for restaurant and cabin owners. Plans for motor courts and restaurants are available at our office. Good ideas are offered for menu's and serving technique.

4-H Clubs:
 And we have a long list of bulletins that are especially prepared for all phases of 4-H club work. These bulletins are the texts of various projects which the boys and girls carry on. The leaders will find bulletins which will prove helpful in their work.

Except for a few special bulletins, all publications are free and may be obtained by calling at our office in the Federal Building in East Tawas, or by writing to me at the same address.

An auxiliary source of radiation is provided to erase color changes from the screen.

They Still Grow Up
Almost 500 years before Columbus, Vikings were voyaging to America to harvest the forests, yet woodlands still cover more than 630 million acres. With the spread of modern forest management methods that increase regrowth, forests can continue to supply the country's needs forever. The American tree farm movement—the growing of trees as a farm crop—has been extended to nearly 14 million acres of privately owned woodlands. With improved forest management and adequate protection from fires, tree farming is expected to provide America with perpetual forests.

Get the Facts and You'll Get a 'Jeep'

The Universal "Jeep" does more jobs, at less cost per job, than any other farm vehicle. It is more versatile, more comfortable, safer and easier to operate. Let us prove that—in a demonstration on your farm, using your equipment.

WINTER DRIVING. The "Jeep" has traction for getting through deep drifts or sudden thaws... it gets around over soft, muddy ground... breaks a path for other vehicles. With snow plow attached, it quickly clears driveways or barnyards.

TO MARKET AND BACK. The "Jeep" works the year around as tow truck or pick-up—hauling livestock or produce to market and bringing supplies back to the farm. Snow-clogged, ice-glazed or muddy roads are no problem.

FARM CHORES. Grinding feed is just one of the many winter chores made easier with the Universal "Jeep". Its power-take-off operates all kinds of belt-driven farm equipment.

IT'S THE LAW
By CLARISSA LORENZ

MY HEAD was in the clouds that warm day in April driving up Broadway. The radio in my jalopy was tuned in on Tom O'Neill, my favorite voice of the year. I was listening to The Songs Hour when the sharp blast of a whistle brought me down to this, too solid earth. I'd driven straight through a red light.

As a big, burly traffic cop swaggered over to my battered coupe, my knees shook. I had a deep respect for law and order.

"What's the big idea, sister?" he bellowed.

"I'm sorry, officer, I said meekly. 'I was late for school.'"

"Better be late than sorry," he said in an altogether different voice as he caught O'Neill's lush rendition of "Irresistible You." He jerked his head and smiled at the radio. "You know, that guy's not bad."

"He's simply super," I gurgled. "He makes me all goose-pimply."

The blue eyes of the law flickered, then fell on the volume of Popular Melodies on the seat beside me. "Music! What do you do for a living?"

"Piano teacher," I replied, "at Miss Follens Day School." I gave him a wan smile.

He pushed back his cap and wiped the moist, blond ringlets plastered to his brow. "Ever do any radio work?"

That made me wince. "I just wish I had a dollar for every audition I've had."

"Pull over," he ordered.

I obeyed with alacrity. At the curb I became voluble. Anything to stave off a ticket. I told him that radio was a snare and delusion for any ambitious young girl. I'd got nowhere. "Sorry, we have our own staff accompanist. . . . Sorry, nothing right now, but I'll leave your name."

He grinned, and it was like a burst of sunshine. He leaned against my car, looking at me as if I were a crossword puzzle. "Say, how about dinner tonight?"

You could have knocked me over with a feather. "Why, I don't believe—" I began primly. "You see—" If he thought I was a girl who could be picked up, even by a policeman . . .

"Okay, sister," he grunted. "I get it." Then his voice became official again. "Well, I'll let you off this time."

"Thank you, officer," I said. "But don't let it happen again. Remember, I'm keeping my eye on you."

I looked at my watch: 8:45. I'd never make it by nine. Not when I had to pick up that daily cargo of seven squirming kids and convoy them to the red brick building that was my prison five days a week. I sighed. Art is long and life is short, and didn't I know it. I'd probably go on teaching sassy brats five-finger exercises until the grave yawned. Especially now that Charlie had gone international on me. Corporal Charles Brent, No. 1 heel! When I got his bombshell of a letter two months ago, telling me coolly he'd fallen for one of those Aussies, I kissed all hope goodbye of every marrying an artist. Charlie played the bassoon before the Army made him play the bazooka.

Until today I thought he'd broken my heart. But that night in bed, when I tried to picture him, all I could see was a pair of sky-blue eyes, strong white teeth, and moist, blond ringlets under a policeman's cap. I felt a twinge of remorse at having snubbed him. What if he was just a traffic cop? Maybe something could still be done about it.

"But don't let it happen again. Remember, I'm keeping my eye on you."

Next morning I wore my new Easter bonnet, a pink, flayaway confection. On my radio O'Neill was giving deliciously with "Time Waits for No One." My heart went boom as I approached the crossing on Broadway. There stood my nice giant in a shaft of sunlight. I drove straight through the red light. At the blast of that tin whistle I jammed on the brake. He sauntered over, twirling his shiny toy.

"Well, sister," he said sternly, "if you're gonna make it a habit, I have to take steps. Let's see your license."

I looked at him in sheer dismay. O'Neill went crooning on, but my traffic cop seemed deaf this morning. "Make it snappy." So I fumbled in my imitation alligator bag and fished out the license folder. "Beryl Thompson," he read, and took down the number, name and address. handed it to me. "Here you are."

"You conceited goon," I told myself hotly, watching his broad back. "Serves you right."

The low ceiling depression that hung over me all that day was lifted at 5:35 when I got back to my room and found a message to call Mr. Burnham at the radio station. I flew to the hall phone.

"Be at the studio tomorrow night at 6:30 sharp," he said over the phone. The next day I was on hand long before six. "It's a transcription program," Mr. Burnham explained. "Miss Miles, the studio accompanist, is out sick, and her substitute's having a baby."

"What's the program, Mr. Burnham?" "The Songs Hour. Studio B. Here's the music. You'll have plenty of time to run through it before O'Neill gets here." "O'Neill? But he broadcasts mornings, doesn't he?" "He records at 6 the night before."

AS THE green baize door of Studio B closed soundlessly behind me, I felt like turning cartwheels. A little before 6:30 a familiar voice broke up my practicing. "Hello, sister!"

I looked up, and my fingers began to prickle. There was my traffic cop, bareheaded and in shirtsleeves. "Pardon the attire," he said with mock politeness. "I'm not supposed to wear my coat off duty." "Are you Tom O'Neill?" "Professionally speaking, yes." He came over and began polishing with his hand the badge on his blue

shirt, which read, "The Singing Cop." "Nobody knows about it except the gang here. I told 'em it had to be that way, or else. If the boys down at the station knew I was a crooning canary, life wouldn't be worth livin'."

I sat still, looking slightly ga-ga. "Say," he said, his eyes twinkling, "that's a fine reception, considering that I finagled you a radio job."

"You did?" I gasped. "But Mr. Burnham said—"

He waved his big hand at me. "I know. When I heard about Miss Miles, I asked him to give you a try-out." He looked up at the clock. "Okay, beautiful. Let's try that old number, 'Why Don't You Fall in Love With Me?'"

I obeyed mechanically. As I said before, I have a deep respect for law and order.

WHEN YOU ADMIRE YOU ARE HAPPY.

A man who was my friend is gone. He was a man everyone loved. He could go into any company and inside of five minutes win every person in that company as his friend. His genius was the genius for expressing his warm and friendly personality.

Last night when I was thinking over our friendship for each other and trying to analyze to see if I could discover the true secret of his gift, I hit upon something that hadn't ever occurred to me before. His genius was the genius of knowing how to admire.

I've never known anyone who was so filled with admiration and enthusiasm for everything in the wide world as he was. About things that you and I take for granted, he went into raptures.

In the lowliest and meanest of lives he saw qualities to praise. Yes, I'm sure his genius was the genius for admiration and that that was what made him liked and popular and happy, for you know what I am telling you, that he was a happy man. How could he be otherwise when he found all the world and its contents infinitely beautiful and exciting?

As I was thinking about him last night I couldn't help comparing him—contrasting him rather—with another friend. In his friends this other friend of mine finds nothing to admire, absolutely nothing. He attacks everything: The institutions which men have founded are grounded or stupidity. The heads of our government are crooks. Is he happy? You know he is not.

I think it probably is easier to be like the second man I have told you about than the first, for it seems to be one of the traits of human nature to like to find fault rather than to find things that are good.

Yet I am convinced that anyone, with a little practice and attention to the job, can acquire part of the genius of the man I started telling you about in this little article—the man who had the genius for admiration.

Just as an experiment suppose for one day only you do not criticize anything or anybody. Look for something to admire and praise. If you look hard enough for something to praise, you can find it, but if you don't find it right off, don't say a word of criticism—just keep still if you can't praise.

It's amazing the effect this has on your life and on your outlook on the world.

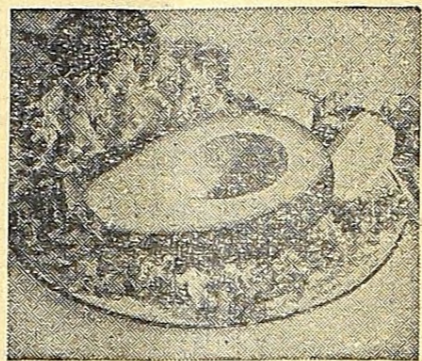

One man to whom I gave this advice a short time ago said it was like going out into the sunlight after leaving a darkened room when he began to see the world as an admirer rather than as a fault-finder.

Consider that an experiment of this kind will take just one day of your time and not cost one cent. Don't you think it's worthwhile?

These Budget-Wise Recipes Will Make Meat Go Farther

A calavo served half shell provides a quick and satisfying way of rounding out menus on meat-saving days. The calavo also may be filled with creamed vegetable or fish or a salad and served as the main dish for a meal.

Well, those food costs still are climbing, according to latest reports, and most homemakers are having to tackle the menu problem with undiminished vigor.

There's first aid for all of you in these recipes today, for they'll keep the budget trim as well as furnishing savory meals.

There's no limit to how you may extend meats—add a vegetable or two, fortify with rice, noodles or macaroni, or let the meat swim in cream sauce or delicious gravy. Any of these is guaranteed to add satisfied smiles to your diners.

Cabbage Roll-Ups. (Serves 6)

- 1 head of cabbage
- 1 pound ground lamb or beef
- 2 onions, chopped
- 1 cup uncooked rice
- Salt and pepper
- 2 cups canned tomatoes
- 1/2 cup water

Cook cabbage until tender; drain and then carefully separate leaves from the stem end. Combine meat, onions, rice, salt and pepper. On each cabbage leaf place several tablespoons of the mixture, then secure with toothpicks.

Place the roll-ups in a greased casserole and add the tomatoes which have been mixed with water. Cook in a moderate (350 degrees) oven for one hour or until rice is tender.

Add cream sauce and pimiento to leftover veal roast as demonstrated in the following recipe, and you will have an excellent meat dish:

Veal a la King. (Serves 8)

- 1/2 green pepper, shredded
- 1/4 pound mushrooms
- 3 tablespoons fat
- 6 tablespoons flour
- 4 cups milk
- Salt and pepper
- 3 cups diced cooked veal
- 1 pimiento, diced

Cook green pepper and mushrooms in fat for eight minutes. Remove from fat. Add flour to fat and blend. Add milk and seasonings and cook until thickened, stirring constantly. Add green pepper, mushrooms and remaining ingredients and heat. Serve on toast, in bread croutades or patty shells.

English Hot Pot. (Serves 4 to 6)

- 6 potatoes, pared and sliced
- 1 1/2 pounds lamb shoulder or breast
- 2 lamb kidneys
- 1 large onion, sliced
- Salt and pepper
- 1 cup water
- 2 tablespoons butter, melted

Place half of the potatoes in a greased casserole, then add meat which has been cut into cubes. Cover with sliced onion and season with salt and pepper. Add water. Place remaining potatoes on top, covering with meat completely. Brush with melted butter. Place in a moderate oven (350 degrees) and bake for two hours.

dish than a cranberry topped meat loaf!

Cranberry Meat Loaf. (Serves 12)

- 1/4 cup brown sugar
- 1/2 cup cranberry sauce
- 1 pound ground beef
- 1/2 pound smoked ham, ground
- 1/2 pound ground fresh pork
- 3/4 cup milk
- 3/4 cup cracker crumbs
- 2 eggs
- 1 1/2 teaspoons salt
- 1/4 teaspoon pepper
- 2 tablespoons diced onion
- 3 bay leaves

Spread sugar over the bottom of a greased loaf pan. Mash cranberry sauce and spread

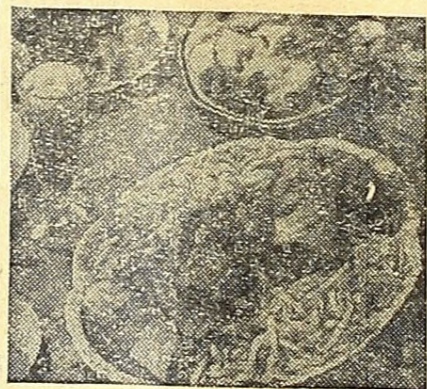

over sugar. Combine remaining ingredients except bay leaves. Shape into loaf and place in pan. Put bay leaves on top of loaf. Bake in a moderate oven (350 degrees) about one hour. Remove bay leaves before serving.

Pork, prepared Spanish style, is a favorite because of its savory seasonings as well as its color appeal. Vegetables go into the same dish with the meat.

*Spanish Pork. (Serves 6)

- 2 pounds pork shoulder, boned and diced
- Flour
- Lard
- 4 medium sized potatoes
- 1 teaspoon worcestershire sauce
- 2 cups tomatoes
- 2 cups canned peas
- 1 green pepper
- Salt and pepper

Have pork shoulder cut into 1-inch cubes. Dredge in flour and brown in hot lard. Place alternate layers of meat and vegetable in casserole dish. Pour tomatoes over all. Season and cook in a moderate oven (350 degrees) until meat and vegetables are tender, about 1 1/2 to 2 hours.

A little meat will go a long way if you serve attractive cabbage roll-ups in a bed of buttered noodles. Round out the meal with buttered green beans and pickled beets and serve a simple baked fruit for dessert.

You might try these two dishes with specialty meats if you want to serve nutrition-rich meals as well as appetizing ones:

Savory Liver. (Serves 6 to 8)

- 1 carrot, shredded
- 1 onion, minced
- 1 turnip, diced
- 1 bay leaf
- 2 tablespoons fat
- 1 tablespoon flour
- 2 1/2 pounds liver (1 piece)
- 2 cups water or stock
- Salt and pepper

Brown vegetables with bay leaf in fat. Add flour and blend, then add liver and water. Simmer for 1 1/2 to 2 hours.

Broiled Lamb Kidneys. (Serves 6)

- 6 lamb kidneys
- 1 1/2 cups french dressing
- 12 slices bacon

Clean kidneys and cut into halves. Marinate in french dressing for 12 hours. Drain kidneys and wrap in bacon. Place four inches below moderate heat and broil for 12 to 15 minutes, or until bacon is crisp and kidneys are tender. Serve on toast triangles.

Released by WNU Features.

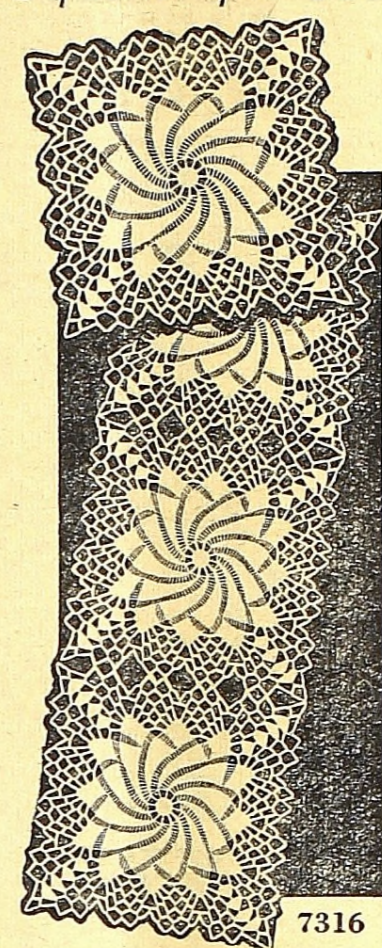

A nice filling for yeast dough is made of honey mixed with butter and flavored with 1/2 teaspoon of cinnamon or nutmeg.

If you like a meaty flavored biscuit for toppings, use 1/2 teaspoon curry powder or poultry seasoning mixed in with the dry ingredients.

Cheese biscuits are novel when you want to serve an interesting hot bread. Simply add 1/2 cup of grated American cheese to biscuit recipe or to ready-mix. Add this before mixing in the milk.

HOUSEHOLD HINTS

Keep the family sewing machine covered when it is not in use to protect it from dust.

Fold a dishcloth twice to form a square, then crochet a simple edge around it with bright thread. Presto!—a washable pot-holder or a cheery table mat.

When disconnecting electrical appliances from outlets, do not pull on the cord. Grasp the plug itself firmly and pull it free.

When planning to add a room to the house, don't change the location of the bathroom unless you want to get into the expense of moving extensive plumbing. Another thing to watch is the building line. It's so easy to encroach upon your neighbor's property if you are not careful.

All in the Figuring

Laboriously, the little train of the branch railway chugged along its curving route. The coaches were old-timers and sultrily hot, the seats straight-backed and hard.

One of the passengers, irritated by general discomfort and the frequent and extended stops, complained to the conductor.

"It seems to me," he concluded, "that for a train so sadly lacking in everything, your fare is outrageous."

"Yes, sir," the conductor replied sympathetically, "it's high if you figure it by the mile."

"But then," he continued with a smile akin to pride, "it's a powerful bargain if you figure it by the hour."

Try to Remember

Grace Noll Crowell

CONSIDER your heartache of the past, the pain You may have thought could never be relieved; Recall some ancient sorrow that had lain For long upon you—could you have believed You would forget it as you have? Ah, no, We are so blind along the road we go!

Our eyes are hidden and we cannot see This grief will fade, this hurt will be as naught; This sorrow pass away—the peace we sought Will rest upon us and we will be glad, Forgetting all the sorrow we have had.

Try to remember, Hearts, when grief is sore, That it will pass, as it has passed before.

Lo! The Shrinking Dollar

The government is directly responsible for a considerable portion of the high cost of living. Until government remedies some things that only government can remedy living costs will remain high regardless of what other efforts may be made to reduce them.

The decreasing value of the dollar is a decided factor in the cost of living. Dollar values are determined largely by the amount of currency in circulation. Today that amount is all of six times what it was in the flush days of the 1920s. The dollar was depreciated by one-third when we went off the gold standard. Today there is back of our currency only the government's promise to pay—in equally cheap, printing press, dollars. The greater portion of our ever increasing amount of currency is now bank notes, issued by the banks with intangible value government bonds as security. Bank vaults of the nation are loaded with government bonds which banks have been forced to buy.

When the bank needs money with which to meet demands of the nation's business, it can, and does, issue bank note currency, with the bonds it bought as security. Neither the currency nor the bonds has any tangible redeemable value. Such a process is increasing our circulating currency by hundreds of millions each month.

Taxes also represent a considerable part of our high living costs. The printing press dollar you spend at the food store does not buy \$1 worth of food. It buys less than 80 cents in food values. The other more than 20 cents pays a portion, at least, of the taxes of the producer of the food, of the processor, the wholesaler, the retailer and the transporter. One-fifth, 20 per cent, and more of your dollar was drained off by the tax collector, and that in addition to the taxes you pay direct. What is true of food is equally true of all other commodities and services you buy. The total of the taxes you pay, direct and indirect, represents more than one-third of each dollar passing through your hands.

A third reason for high living costs is the wild, reckless spending indulged in by the government. So long as that spending continues, high taxes will continue. Should the taxes stop and the spending continue, dollar value, backed only by the credit of the government, would drop to still lower buying levels.

When both the administrative and legislative branches of government stop the wild spending spree; when we get back to sane principles of government; when we drop the countless, unneeded bureaus with their army of bureaucrats, the dollar value will go up and the cost of living will come down. It is a condition that only government can remedy.

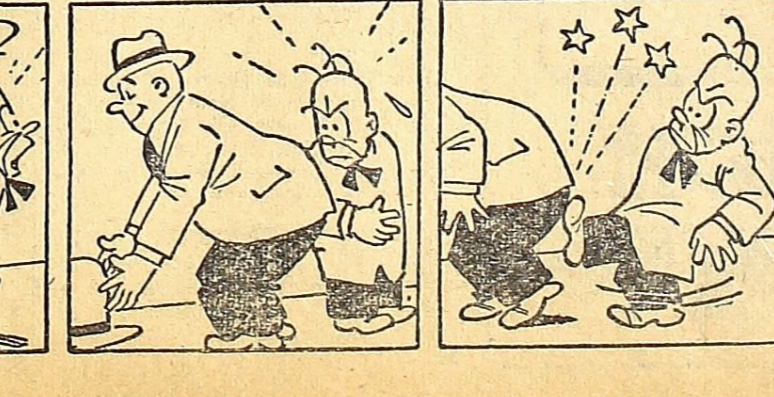

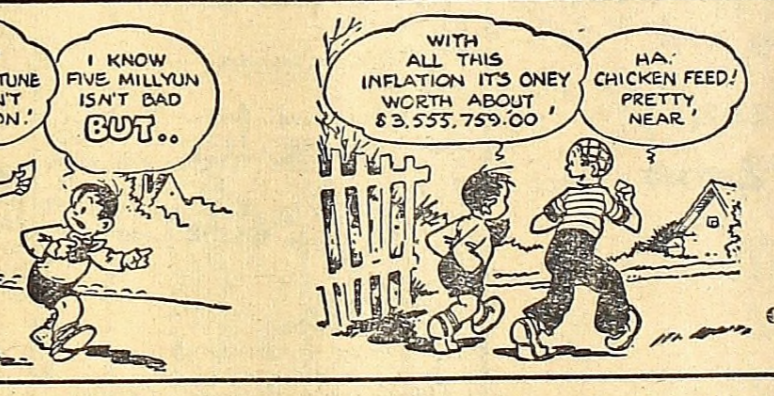

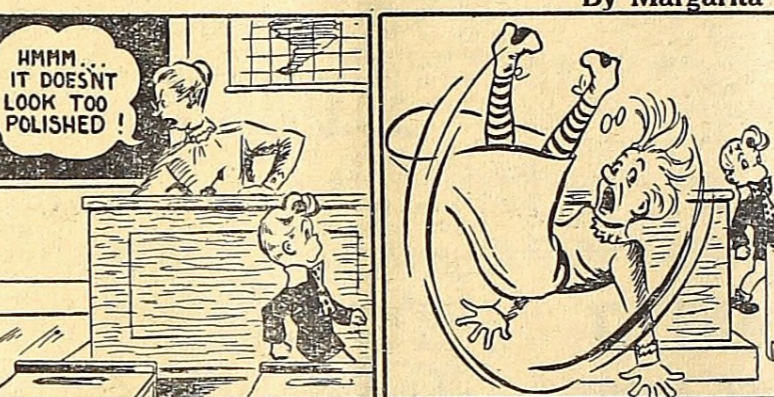

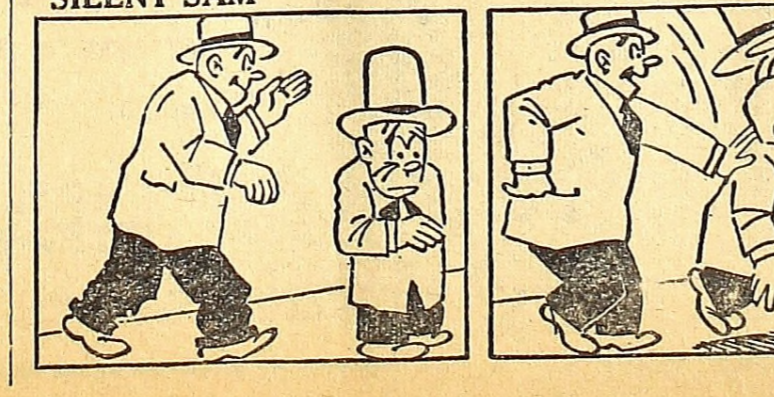

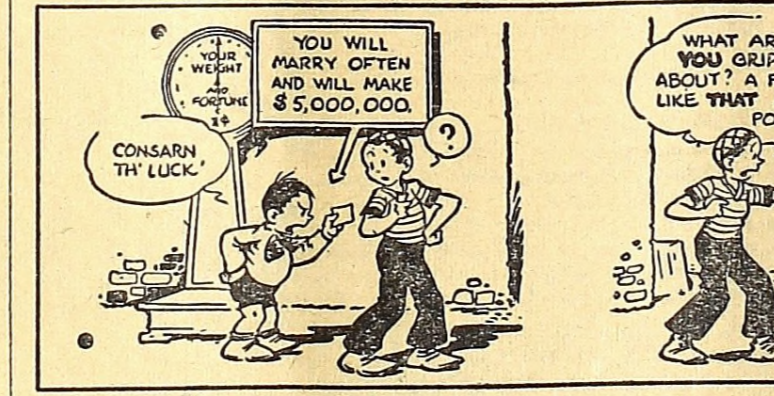

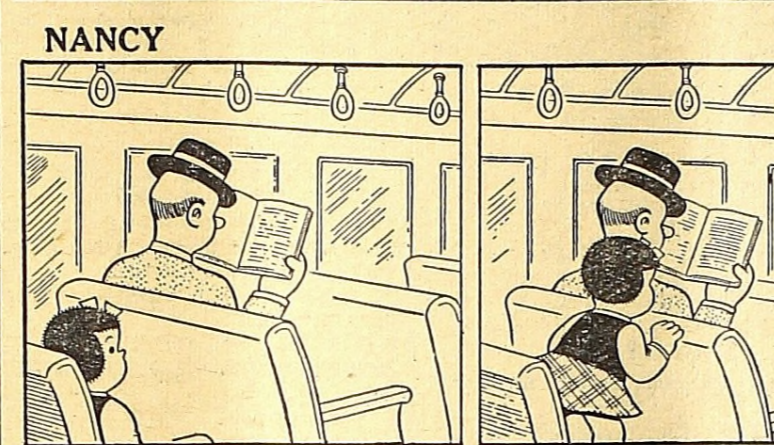

Threat to Small Investor
The plants and tools of American industry and transportation have been supplied by nearly 60 million stockholders. The money provided by those stockholders has created jobs for almost 60 million workers. It built and equipped our mills, factories, transportation systems, mines and utilities, and provides the working capital that makes our present tremendous production possible.

By far the larger portion of those 60 million stockholders are small investors who have saved frugally and invested as insurance for declining years. During 1947 the average return they received on each dollar invested was 2.7 cents, \$2.70 on each \$100.

President Truman has called upon industry for an expansion of production facilities to the extent of an additional investment of 50 billion dollars. When making that demand he also asked congress for tax legislation that would collect from whatever profits industry may be making \$3,200,000,000 additional revenue each year for the government.

Should congress comply with that request, it would mean that the 2.7 cents the stockholder received on each invested dollar, \$2.70 on each hundred, would be reduced by more than one half. To raise 50 billion dollars of new industrial capital would be quite a problem under such conditions.

As I travel across the continent I can see from the train window a beautiful yacht club house on the shore of Great Salt lake, a body of water that is 20 per cent salt, so heavy as to be practically un-navigable. On the lake there are not more than a dozen boats, most of them of the row boat variety, a few of them fitted with outrigger propellers. You and I and the other fellow paid for that club house, enjoyed by a dozen owners of row boats. It was a typical New Deal boon-doggling project.

Handy Bookshelf Easily Made in One Evening

EVEN though you've never tried your hand at woodworking you'll be agreeably surprised to see how easily you can make this hanging bookshelf from the full-size pattern.

Only ordinary hand tools — hammer, saw and plane—are needed. The pattern is first traced on the wood. The drawn outlines are then sawed and assembled exactly as and where the pattern indicates. You'll be able to make two at less than the cost of one ready-made. All materials can be purchased at your local lumber yard.

Send 15 cents, plus 2 cents postage, for Pattern No. 21 to Hatter Publishing Co., Box 215, Pleasantville, New York.

Watch Your Kidneys!

Help Them Cleanse the Blood of Harmful Body Waste

Your kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act as Nature intended—fail to remove impurities that, if retained, may poison the system and upset the whole body machinery.

Symptoms may be nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—a feeling of nervous anxiety and loss of pep and strength. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.

There should be no doubt that prompt treatment is wiser than neglect. Use **Doan's Pills**. Doan's have been winning new friends for more than forty years. They have a nation-wide reputation. Are recommended by grateful people the country over. Ask your neighbor!

Self-Winding Clock
First self-winding clock was invented by Benjamin Hanks about 1783. It had an ingenious attachment which operated by means of air.

Miss Dorothy Buch and Mrs. Dan F. Cater are enjoying a two weeks vacation in Florida and other points. The contact representative from the Veteran's Administration will be here next Tuesday from 11:00 to 1:30 in the office of County School Commissioner Russell A. Rollin.

Russell Rollin has returned from business meetings at Clare and Lansing. On Sunday and Monday he attended a school administrators and school officers conference at Clare and on Tuesday and Wednesday a Citizen's Conference on Rural Education under Dr. Elliott, Superintendent of Public Instruction at Lansing.

Several friends helped Mrs. W. D. Fitzhugh celebrate her birthday anniversary Wednesday afternoon. Philip Mark of Mount Pleasant and Miss Earlene Moyna of Elberta, were week-end guests at the James F. Mark home.

Ash Wednesday was observed at the Tawas City Methodist church Wednesday evening with a special song service by the quartette and sermon by Rev. L. Wayne Smith. Mrs. Fred Rempert, Fred, Jr. and Rhea spent the week-end in Detroit with relatives.

Bill and Bob Bowland and friends of Coleman were guests of their cousin, Don Westcott, over the week-end. Mr. and Mrs. J. A. Brugger left Thursday morning for several weeks visit in Tucson, Arizona, with their daughter, Mrs. Al Kling and family.

construction or maintenance except on county roads or other public improvements under the jurisdiction of the Road Commission. Question: On new construction, we are required by Law to replace all existing culverts without charge to the property owner. Suppose on maintenance a tube collapses with age, can we make the property owner pay for a new tube, or does the Road Commission have to replace it at its own expense?

Answer: (by John Jacoby) The matter of driveway culverts is, in my opinion, almost entirely a question of policy with the Road Commission. These are fundamentals. The abutting property owner merely has a legal right of access to the highway, but no right to fill or obstruct the necessary drainage ditch pertinent to the highway. So it is then up to him to get over the ditch. Therefore, in order to be able to cross the road ditch and gain access and exercise his right, the property owner must provide the necessary bridge or culvert at his own expense. He must provide it at his own expense, if that is the policy of the Road Commission.

Now, of course, if in any operation of construction or maintenance it is necessary to damage or destroy anything that a property owner has the right to have on the roadside, it is an obligation—that is the general principle law-of the Road Commission to replace it. When it wears out and he cannot get across, it is not the obligation of the Road Commission. I cannot find a law to that effect. There is no law that the Road Commission is obligated to furnish one, in the first or second place. If the bridge or culvert wears out and he obstructs the ditch, there is a penalty for that. If he wants to get across the ditch he will have to furnish a bridge or culvert.

Butter Eating Section
In normal times the annual butter consumption in Pacific coast cities averages 22 pounds per capita, but in the South it is only 8 pounds.

Just a Gob's Mess
The word mess comes from the Latin "missum," meaning sent or placed in position. Thus, the word came to mean a dish sent to the table, and eventually to describe the dining parties into which a ship's company or a regiment is divided.

STATE OF MICHIGAN
The Probate Court for the County of Iosco

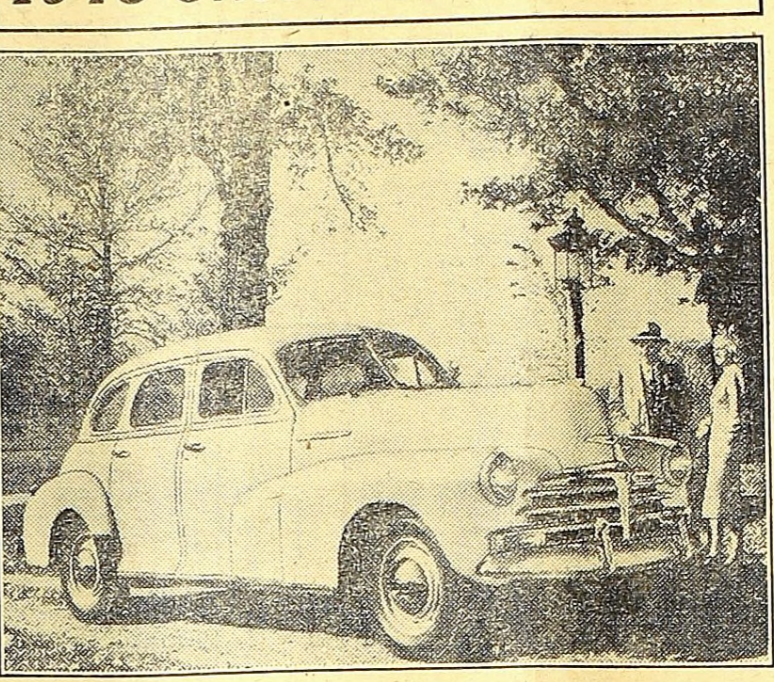

At a session of said Court, held at the Probate Office in the City of Tawas City, in said County, on the 6th day of February A. D. 1948. Present, Honorable H. Read Smith, Judge of Probate.

In the Matter of the Estate of William F. Reamer, Deceased.
Clara Reamer Siede, Executrix having filed in said Court her final administration account and her petition praying for the allowance thereof and for the assignment and distribution of the residue of said estate in accordance with the will of said deceased.

It is Ordered, That the 1st day of March, A. D. 1948, at ten o'clock in the forenoon, at said Probate Office, be and is hereby appointed for examining and allowing said account and hearing said petition;

It is Further Ordered, That notice thereof be given by publication of a copy hereof for three successive weeks previous to said day of hearing, in the Tawas Herald, a newspaper printed and circulated in said County.
H. Read Smith,
Judge of Probate.
A true copy,
Mabel Kobs,
Register of Probate.

1948 Chevrolet is Massive

The over-all simplicity and massiveness of the new, 1948 Chevrolet is well shown in this three-quarter view of the Fleetmaster Sport Sedan. Fenders, hood, body and door panels all blend; and the crease moulding, below the windows, is wider than that used in previous models. Note the new T-shaped chrome center bar on the radiator grille.

'Gingerbread' Outmoded
Wide cornice overhangs are out of date, and houses without them cost less. The same is true of most "gingerbread" which formerly was used as architectural decoration. Simple lines are best.

Salad Dressings
Salad dressing should be added to salads at the last minute before they are served. Most dressings have a tendency to cause fresh fruits and vegetables to lose crispness. It is smart to serve dressing at the table.

SOCIAL SECURITY MANAGER HERE NEXT WEDNESDAY

Paul M. Ellfritz, manager of the Bay City office of the Social Security Administration, will be at the Post office in East Tawas at 1:30 p. m. on Wednesday, February 18, 1948, to conduct any business connected with Federal old-age and survivors insurance program.

He urged all survivors of wage earners who were employed in commerce and industry and those living wage earners 65 or over to confer with him on the advisability of filing applications for benefits. Monthly benefits are payable retroactively for a maximum of only three months before the date of filing, so any long delay in making application will result in loss of benefits.

King's Touch to Cure
Certain forms of tuberculosis once were called the "king's evil," because it was believed that the king's touch could effect a cure.

Minerals of Pakistan
Although Pakistan has some oil and considerable coal, the major share by far of these industrial raw materials is found on the Hindu side of India. There are extensive supplies of coal, iron and manganese, essential to heavy industry, in the Jamshepur region, as well as scattered about in central and other areas of the far-flung Hindu territory. India's famous sheet mica, vital in radio and aircraft engines, comes largely from the Hindu sections of Bihar and Madras. During the war strategic minerals were discovered in the north-central states of the new Dominion of India.
