

TAWAS CITY

Mr. and Mrs. William Irish and daughter, Karen, of Flint spent the week-end with relatives.

Mr. and Mrs. Walter Koepke of Bay City visited over the week-end at the home of Mr. and Mrs. Paul Koepke.

Mr. and Mrs. Norman McLean of Maple Ridge attended the Libka-Alda wedding on Saturday.

Mrs. Clarence Stark and daughter of Mount Clemens were week-end guests of Mr. and Mrs. Warner Pearson.

Mrs. John T. Monarch visited relatives and friends in Detroit several days this week.

Mrs. John Bunting and daughter, Barbara of Alpena visited at the Summerfield home on Monday.

Mrs. Lydia Bing, Tawas City postmaster, attended the funeral of Edwin E. Thompson, Oscoda postmaster, last Thursday. Hale, Whittemore and East Tawas postmasters also attended the services.

Mrs. H. V. Rogers visited Mr. and Mrs. Charles Harsch of Whittemore over the week-end.

The Dorcas Society will meet next Tuesday evening with Mrs. Orville Leslie, Sr. as hostess.

Mr. and Mrs. Julius Musolf, Jr., of Bay City, spent the week-end at the McLean home.

Miss Lila Gale of Detroit spent the week-end at the home of Mrs. May McMurray.

Mrs. Sarah Chippis, Mr. and Mrs. Frank Black of Maple Ridge were week-end guests of Mr. and Mrs. Charles L. McLean and attended the Libka-Alda wedding on Saturday evening.

A. A. Bigelow is visiting his daughters, Miss Beverly Bigelow and Mrs. Edward Lott at Rockville, Indiana, this week.

Mr. and Mrs. Howard Braden spent Saturday in Midland on business.

Mrs. John Swartz of Bay City, Mr. and Mrs. Howard Swartz and son, Wayne, of Toledo, spent Saturday in Tawas City with Fred Swartz and mother.

Martin Musolf of Bay City spent a couple of days here last week fishing.

Mrs. William Dockter and Mrs. A. A. Bigelow were Bay City visitors Saturday.

The Tawas City Auxiliary of the American Legion will meet next Monday evening for their regular meeting at the Legion Hall.

Mr. and Mrs. William Horen visited relatives in Detroit on Wednesday.

Mr. and Mrs. Ford Turner and children of Saginaw were week-end visitors of their mother, Mrs. Mary Turrell.

(Continued No. 1, Back Page)

EAST TAWAS

Mrs. C. J. Creaser entertained the Garden Club at her home on Monday afternoon. After the meeting refreshments were served. Assisting hostesses were Mrs. George Sedgeman, Mrs. Erma Hurley. The women teachers on the school faculty were guests of Mrs. Creaser and the Club.

Misses Helen and Mary Hale of Detroit were weekend guests of their aunt, Mrs. Jed Harrington. They were accompanied by their aunt, Grace Hale, also of Detroit.

Leo Steinhurst of Detroit visited with his brother, Ernest Steinhurst and family a few days recently.

At the regular meeting of the American Legion Auxiliary Monday evening, plans were made for the Poppy Sale, also to honor Charter members at the June meeting. Visitors who gave talks were Mrs. Marie Raymond, 10th District President and Mrs. Rhea Donohue of Bay City. A lunch was served after the meeting with Miss Rosemary Bean and her committee. Table decorations and lunch was carried out in color scheme of yellow and green. The centerpiece was yellow snap dragons surrounded by green tapers.

Little Barbara Hester entertained some little friends at her home Thursday afternoon. The occasion was her sixth birthday anniversary.

Mr. and Mrs. Walter Sevener and little daughter of Bay City have been visiting with Mr. and Mrs. Russell Anderson, parents of Mrs. Sevener.

Raymond Guyette, son of Mr. and Mrs. G. Guyette was at Omer Hospital last week-end for a slight operation.

Michael Wilson, son of Mr. and Mrs. Benjamin Wilson entertained some friends at his home Friday evening at a birthday lunch and theatre party in celebration of his eighth birthday.

East Tawas High School defeated Oscoda High in a baseball game last Friday, 11 to 4.

Mr. and Mrs. Earl Hester and family and Mr. and Mrs. Lionel Butler and family will spend the week-end with relatives at Lake Penton.

Ginger Price, daughter of Mr. and Mrs. Richard Price celebrated her eighth birthday anniversary with a party for her friends at her home last Saturday afternoon.

Born to Mr. and Mrs. Howard Dunn of East Tawas a eight pound girl on Wednesday, May 5.

Mr. and Mrs. Floyd Haremski are rejoicing over the arrival of a little daughter, born in Saginaw last Monday.

Mr. and Mrs. Phil Gentile were guests of Mrs. Kate Evans and family for a few days. Mr. Gentile is Vice President of Adrian College.

Full Time Police Officer Hired by City

Richard Hazzard Gets Post, Retired Detroit Policeman

At the meeting of the Common Council of Tawas City held Monday evening it was voted to hire a full time police officer, and the position was awarded to Richard Hazzard of East Tawas. Mr. Hazzard has had a long experience in law enforcement, and recently retired from the Detroit Police force.

Monday evening Mayor John Le Clair made the following appointments and they were approved by the council:

Committees—

Ways, Means and Finance—Fox, Humphrey.

Street and Lighting—Humphrey, Blublitz.

Park—Humphrey, Fox, Blublitz.

Purchasing—Jacques, Fox, Humphrey.

Fire Department—Blublitz, Jacques and Rodgers.

Nuisance—Rodgers, Jacques.

Water Board—Fox, Burtzloff, and Jacques.

Cemetery Board—J. A. Brugger Albert Mallon.

Appointive Offices—

City Police—R. E. Hazzard.

City Attorney—H. Read Smith.

City Engineer—Clifford Spicer.

Supt. of Public Works—W. A. Mallon.

Fire Chief—Fred Musolf.

Health Officer—Dr. J. J. Austin.

Mrs. John Wehr

Mrs. John Wehr, aged Tawas City resident passed away Monday in Alpena at the home of her niece, Mrs. Howard Flynn, after three weeks illness. She was taken to Alpena about ten days ago.

Ottillie Groff was born in Germany June 23, 1867 and came to Tawas City in 1883. She was married to John Wehr in 1886, who died in 1933. She was a life long member of the Lutheran Church. Her nearest relatives are nephews and nieces.

Burial was from the Emanuel Lutheran church on Thursday with Rev. J. J. Roeske officiating. Interment in Emanuel Cemetery.

Distinguished Tenor To Sing at East Tawas

Ernest Johnson, distinguished Negro tenor of Adrian College, will appear Friday evening, May 14 at the East Tawas Methodist Church. The program will begin at 8:00 o'clock.

Mr. Johnson is a former pupil of Roland Hayes and has become one of the outstanding interpreters of Negro spirituals and is competent in all forms of vocal music. He will give a full length concert. Mr. Johnson has been universally enthusiastically received. A free will offering will be taken. The East Tawas Methodist Church invites everyone to come and enjoy this fine program.

Isoco County Fair Officers Elected

Department Heads Named at Meeting

At the Isoco County Fair Board Meeting, held April 29th the following business was conducted.

Harold Clark was named President and Glenwood Streeter was named Vice President. Ralph R. Bohl was named Secretary and Business Manager. Harold Black, Treasurer.

Dept. 1—Horses and Cattle. Superintendent, Waldo Curry.

Dept. 2—Sheep and Swine. Supt., G. A. Prescott, III.

Dept. 3—Poultry. Supt., Glenwood Streeter.

Dept. 4—Farm Produce and Flowers. Supt., Harold Black.

Dept. 5—Baking and Canning. Supt., Mrs. Schatz.

Dept. 6—Needle Work. Supt. Mrs. John McArdle.

Dept. 7—Health and Handicraft. Supt., John O. Johnson.

Dept. 8—Art and Antiques. Supt., Harry Van Patten.

Dept. 9—Games and Contests. Supt. Nelson Ostrander.

CARD OF THANKS

We wish to extend our heartfelt thanks and gratitude to our friends and those who assisted in the rites of our son and brother, also the V. F. W., Rev. Kavanaugh and for the beautiful flowers.

The Norman Brown Family.

Johnny Martin Hurls Shut-out for Clarksdale

Johnny Martin, the 25 year old left hander from Alabaster whom the Saginaw Bears optioned to Clarksdale, Miss., of the Cotton States League, has become that club's leading hurler.

Martin tossed a three-hit, 3-0 win over Greenville, Miss., which is leading the league. It was Clarksdale's first win after five straight losses.

Bear officials learn from Chet Morgan, Clarksdale manager, that Martin and the three other Bear pitchers on option look like the best on his staff and will take over the starting jobs. The others are Charles Meyer, 20, of Harbor Beach, Bob Curriston, 19, from Twining and Bob Upton, 20 of East Lynn, Mass.—Saginaw News.

Whittemore Man Buys Registered Holsteins

Two registered Holstein-Friesian dairy animals were recently purchased by Nelson Ostrander, Whittemore, from Robert Osier, Sr. of Standish.

Change of ownership for these animals has been officially recorded by the Holstein-Friesian Association of American, Brattleboro, Vt.

The Association issued 18,555 registry and transfer certificates in 1947 to breeders in the state of Michigan.

Gets Chairmanship of Conservation Committee

Senator Charles T. Prescott has been named chairman of the conservation committee of the state senate. This appointment is important to this section of Michigan.

Farmer Killed By Overturning Tractor

Harold J. Holvey of Saginaw Employed on Burleigh Farm

Harold J. Holvey of Saginaw was accidentally killed late Friday afternoon, April 30, while plowing on the farm of Henry Ecker in Burleigh township.

Holvey was plowing with a Model A Farmall tractor in the field west of the house. When it was time for supper Mrs. Henry Ecker failed to hear the tractor running so went to find what was the trouble. She could not see the tractor anywhere in the field so walked back to the north east corner of the field where Holvey was to be plowing and found that the tractor had backed over the bank where there was a thirty foot drop. The tractor was bottom side up with Holvey lying on his face and the left rear wheel over the middle of his back. Mrs. Ecker was unable to remove the tractor so went to get help. Claude Hinkley and Raphael M. Ecker went to assist her but found that Holvey was dead.

Sheriff John Moran and Coroner Edward D. Jacques were called to the accident. Upon investigation Coroner Jacques pronounced death due to a broken back.

The body was removed to the Jacques Funeral Home in Tawas City and later removed to the W. L. Case & Co. Funeral Home in Saginaw where funeral services were held.

Holvey had been working for Henry Ecker only four days.

NOTICE OF SPECIAL MEETING

ELECTORS OF TAWAS CITY and FRACTIONAL NO. 7 of TAWAS TOWNSHIP SCHOOL DISTRICT

Notice is hereby given that there will be a special meeting held of the qualified electors of the School District comprising the City of Tawas City and Fractional 7 of Tawas Township, Isoco County, Michigan, at the City Hall in Tawas City, Michigan, on Wednesday, the 19th day of May, 1948 between the hours of 2:00 o'clock in the afternoon and 8:00 o'clock in the evening, Eastern Standard Time.

The following proposal will be submitted to the said electors, by ballot, as follows:

Shall the School District of Tawas City and Fractional No. 7 of Tawas Township be annexed to and become a part of the School District of East Tawas No. 1 Fractional, Isoco County, Michigan, for the purpose of making both districts a single school district of the third class.

YES

NO

George W. Myles, Secretary.

Mr. and Mrs. Fred Hansen and daughters, Lola and Avis of Gaylord, were week-end guests of Mrs. Hansen's mother, Mrs. Rose Watts.

Exercises Held For 8th Grade Graduates

Russell H. McKenzie Gives Graduation Address

The annual Eighth Grade Graduation Exercises of Isoco County schools was held Wednesday evening at the Sherman township hall.

A very pleasing program, enjoyed by all present, was given. It was as follows:

Processional—Mrs. O. W. Rowley. Graduation Address—Russell H. McKenzie.

Music Program—Group from Hale, and included brass ensemble, duet and quartet. Mrs. Irah Smith, music director, was accompanist.

County School Commissioner Russell Rollin acted as chairman.

The following is a list of graduates:

Lower Townline School—William Schmidt, Jack Alverson, Peggy Rescoe, John Rescoe, Melvin Krumm.

Sherman Township Unit School—Lois Harder, Floyd Smith, William Allen, Leighton Kohn, Patricia Ann Norris, Ronald Norris, Roland O. Mans, Wilma Pierson, Lyle Jordan, Delia Jordan, Dale Blust, Arlene Rakestraw, Rosetta Vargo, Betty Balanger, Daisy Giori.

The teachers were: Mrs. Lola Lammy, Mrs. Eva Vance, Mrs. Mae McMurray, Mrs. O. W. Rowley and Mrs. Helen Smith, Sherman schools; Mrs. Hildur Rollin, Lower Townline school.

All teachers and participants were presented with corsages and boutonnieres.

Whittemore Honor Students Announced

Superintendent VanPetten of Burleigh Township Schools, is proud to announce the two honor students of the senior class of 1948.

Marian Provost, daughter of Mr. and Mrs. Garfield Provost is valedictorian with a scholarship average of 3.57 through her four years of High School, and Charlotte Lehman, with 3.51, is the salutatorian. Charlotte's parents are Mr. and Mrs. Roland Lehman.

Marian has attended Whittemore High School during her entire school career, while Charlotte had two years of high school in Twining.

Next in average was Lois Derr, daughter of Mrs. John Derr, of Turne, whose average was very close to Charlotte's.

Tawas City School to Have Carnival

Next Friday evening, May 14, a carnival will be held at the Tawas City High School. Profits from the Carnival will be placed in a fund for the purpose of buying uniforms for the local school band.

The midway will be set up in the gymnasium. Short skirts are to be put on during the evening. Bingo played. Fortune teller, Bazaar, etc. Food will be served continuously. A small admission will be charged and a door prize will be given.

Fire Destroys Home of Reta Rish

Last Sunday morning at 2:30 the home of Reta Rish on Main Street was destroyed by fire. The Jay Platte family next door first noticed the blaze in the back part of the house and turned in the alarm. Reta Rish and her mother, Mrs. Jane Rish awakened before the alarm was sounded. The origin of the fire is unknown, but it started in the roof. The upstairs and back part of the house was completely destroyed. The porch and two front rooms were intact but badly damaged by smoke and water.

The home had recently been remodeled and additions built. Only a few pieces of furniture were saved from the front rooms.

Board of Review

A meeting of the Board of Review for the city of Tawas City will be held at the city hall Monday, Tuesday, Wednesday, and Thursday, May 17, 18, 19 and 20 for the purpose of reviewing the several assessment rolls of the city and such other business as may lawfully come before it.

Albert Buch, City Clerk.

CARD OF THANKS

We wish to express our appreciation to all those who assisted us during our bereavement.

Mr. and Mrs. Fred Ulman.

Mr. and Mrs. Alvin Kindell.

Mr. and Mrs. Lester Kindell.

Mr. and Mrs. Edward Ulman.

Mr. and Mrs. Norton Ulman.

Hilda Ulman and daughter.

Mr. and Mrs. Rus. McCarnack and daughter, Nancy, of Flint, were week-end guests of Mr. and Mrs. George Neumann. Nancy spent the week-end with Darlene St. James.

Libka-Alda

At a beautiful candlelight church service Miss Linda Lou Libka, daughter of Louis A. Libka of Los Angeles, California, became the bride of Robert E. Alda, son of Mr. and Mrs. Russell Alda of Wilber. The ceremony took place at the Zion Lutheran church on Saturday, May 1 at seven o'clock with Rev. Elmer Bickle officiating.

The altar and church were decorated with white and yellow flowers. Yellow daffodils with white bows marked the center aisle.

The bride was given in marriage by her only brother, Neil Libka of Mount Pleasant, wore a white brocade satin floor length gown with sheer net yoke and short puffed sleeves and long lace gloves. Her fingertip veil was fashioned with a cornet of roses and lilies of the valley. She carried a bridal bouquet of gardenias and lilies of the valley, interspersed with dainty blue flowers. Accenting the neckline of her dress the bride wore pearls, which had been her mother's.

Miss Elsa Green of East Tawas, cousin of the bride, was maid of honor and wore an orchid gown and gloves fashioned identical to the bride's and carried a bouquet of tea roses, and wore matching flowers in her hair.

Clifford Simmons, cousin of the groom was best man and Carl Libka of Tawas City and Edward Libka of Charlevoix, uncles of the bride, seated the 225 guests.

The groom's mother chose a black crepe dress with white accessories complemented with a corsage of pink and white carnations for her son's wedding.

Following the rites a reception for 300 guests was held at the Wilber Township hall, which was decorated in green and white. The buffet luncheon was served from a table centered with a four tiered wedding cake, topped with a miniature bride and groom. The couple received many lovely gifts. They will make their home in Wilber with the groom's parents.

Out of town guests were present from Detroit, Dearborn, Flint, Lansing, Bay City, Alpena, Sterling, Maple Ridge, Whittemore and Charlevoix.

Anna Ulman

Anna Ulman, aged 88, passed away at the home of her son, Fredrick on the Townline in Tawas Township on Monday, April 26.

Anna Pedrick was born on May 9, 1859, at Burford, Canada, and was united in marriage to Nelson Ulman of Niagara Falls, Canada, on March 16, 1881, who preceded his wife in death in 1926.

Mrs. Ulman had been a resident of the Townline for 61 years and the mother of three children, Ada, who died in 1910, Elgin, who died in 1934, and Fredrick with whom she made her home. Survivors also includes five grandchildren, nine great grandchildren, also nieces and nephews.

Funeral services in charge of the Moffatt Funeral Home, were conducted at 1:00 p. m. from the home, and 2:00 p. m. at Tawas City Methodist Church of which she was a life long member, with Rev. L. Wayne Smith officiating. Burial was made in the Tawas City cemetery.

Names of these animals are as follows: Pauline Abberkerk Segis, and Colantha Abberkerk Korndyke.

Tawas City Plays At Twining Sunday

First Game Here Sunday, May 16

Tawas City will open their North-eastern Michigan League season, this Sunday, when they lift the lid at Twining. The team looks very good in practice and Manager Gackstetter has been putting them through strenuous work-outs the past two weeks. The umpire staff, with Walter Lasky and George Wood as arbitrators, have been working out with the team, and have umpired in practice for the team.

The Tawas City baseball team will open at the Tawas City Athletic Field a week from Sunday, May 16, when they will be opposed by Omer. Have you your season ticket? The duets are on sale by members of the ball team. The price is \$3.00, for admission to the nine league games. Opening day ceremonies are planned with the first pitch thrown out by the Mayor and one-time Tawas City ballplayer, Dr. J. D. LeClair.

This Sunday, why not drive over and see your team in its opener at the Twining Ball Park.

A scorecard is being prepared and will be given out at each home game. It will include, besides the card, player lists of teams in the Northern Division, a picture of the Tawas City team and home game dates for the Tawas City ball club. Advertising will be sold on the card, and funds from this will go toward insuring the players on the team. The insurance policy is an accident policy and will insure each player for doctor and hospital bills and time from work.

Ernest Wendt of Saginaw was a week-end guest of the St. James.

Prescott Reappointed To State Fair Post

G. A. Prescott, Jr., has been reappointed to the Board of Managers of Michigan State Fairs by Governor Sigler. Prescott has served Michigan on the state fair board nearly continuously since receiving his first appointment in 1923 by Governor Groesbeck. Later appointments to this post were received from Governor Green, Brucker, Fitzgerald, and Kelly.

The Prescott family have always taken great interest in the Michigan State Fair and for many years were among the outstanding exhibitors in the livestock department.

92 Descriptions Sold at Isoco Tax Sale

Ninetytwo descriptions were sold Tuesday at the Isoco county sale of delinquent tax lands, according to County Treasurer Grace Miller. The amount collected was approximately \$500.00.

The list, which was published during February and March, contained 398 descriptions. A large portion of these delinquent taxes were paid before the sale, and nearly all of the descriptions offered for sale were sold Tuesday.

Seventy-one descriptions were sold during last year's sale. From that sale \$458.00 was realized.

A large portion of the description which remained unsold after the sale this year are located in the Horace Stockman Addition at AuSable.

Monarchs Take Major League Title

In the roll-off in the Tawas City Major League, Monarch Men's Wear, second half winners, defeated Tom's Hi-Speed, first half winners, 26-3 to 25-8. High Single game was a 9-30 count, rolled by Monarchs in their first game, with Moeller and Bloesing topping the 200 mark with 211 and 200, actual, respectively. Robert hit 563 actual and A. Bloesing rolled 560 for high series count on the Monarch team, while F. Paschen rolled 595 and H. Moeller, 583 for high counts for Tom's HIS peed.

Tawas City Splits in Two Games

Chet Smyczynski Leads Team Hitting With .500 Average

Tawas City High School split in their last two games played, winning from Whittemore, Friday, 16 to 5 and dropping a game to Harrisville Tuesday, 5 to 3.

In the Whittemore game a heavy barrage of Tawas City hits chilled Whittemore, 16 to 5. Myles and Westcott led their team in hitting with three hits each, followed by Youngs and Smyczynski with two hits apiece. Kief of Whittemore batted out two hits.

A wave of errors in the first two innings by Tawas City High gave Harrisville a 5 to 3 win over the Tawas City team. Look, speedy fireballer, held Harrisville to five hits, while the Tawas City lads got to Yuill for seven hits, but errors by the Tawas City infield iced up the game for Harrisville.

Chet Smyczynski continued to lead the Tawas City High School team in hitting, with a rousing .500 average, nine hits in 18 trips to the plate. Other top hitters are Look, with 350; Youngs, 340 and Myles, 333.

C. of C. to Sponsor Softball League

The Tawas Chamber of Commerce will sponsor a soft ball league for the coming season.

A meeting will be held Tuesday evening, May 11, at the Tawas City Gymnasium to arrange for teams. Everyone interested is invited to attend. It is hoped to have three or four games scheduled each week on the diamonds at Tawas City and East Tawas.

Stove Explosion Fatal to Long Lake Man

William B. Howell Dies at West Branch Hospital

William B. Howell, 83 of Long Lake died at the Tolfree Memorial Hospital in West Branch on Tuesday, of burns incurred when a gasoline stove he was lighting Monday evening exploded and spattered him with the flaming liquid.

Taken to the hospital at West Branch from his residence at Long Lake, Isoco County, he died during the night. Plans for funeral services prior to burial at the Clio Cemetery have not been completed.

Mr. Howell was born in Grand Blanc Township on April 2nd, 1865, and died on May 4, 1948, at the age of 83. A retired carpenter, he had lived at Long Lake for the past 18 years having moved there from Clio, Michigan.

Surviving are two nephews, George Howell, of Flint, and Edgar P. Lent, of South Euclid, Ohio; and four nieces, Mrs. Judson Morey, of Davison, Mrs. Harry Shales, of Long Lake, Mrs. Clara Hunt, of Chicago, Illinois, and Mrs. Matee Walters, of Cleveland, Ohio.

Good Interest Shown In Landscape Course

Sixteen landscape enthusiasts were present at the second meeting of the landscape course which was held at the Extension conference room, Friday. Clyde Soper, local landscape architect, discussed the use of trees and shrubs and described a wide variety that would be adaptable in Isoco County. At the first meeting, Mr. Soper explained the principles of landscaping. The third meeting of the landscape class will start at 6:30 p. m. with a field trip at the George Sedgeman home on Bay Street, west of the State Park, East Tawas. Here the class will study varieties and effects of plants.

At 7:30 they will meet in the extension conference room and will make preliminary drawings of their landscape areas. All members bring a rough sketch of their area giving dimensions of buildings and distances between locations of buildings, trees, sidewalks, etc. They are asked to bring pencil, ruler and triangle. A French curve would prove helpful. Drawing paper will be available at cost.

Any one unable to attend the field trip can meet with the group at the Extension Conference room at 7:30 p. m.

Other meetings to follow will cover lawns and flowers, supplemented with field trips. At the last meeting, June 4th, all members of the class will have completed a landscape drawing of their home grounds.

Alabaster Opens Season Sunday

Whittemore Opposition for 47 Champs

Alabaster, the defending N. E. M. League Champions, will open their season Sunday, May 9th, with Whittemore coming to Alabaster. The game starts at 2:30 p. m., and as there are no other games in the Tawas area, a large crowd is expected.

In practice game last Sunday with Pine River, last year's second place team in the Southern Division, Alabaster, came out on the short end of an 8 to 1 score. The lone Alabaster tally came about an over-the-fence home run by rookie Pat Erickson, who batting for his first time in independent baseball, put one over the right field fence, a feat that no one was able to accomplish all of last year. A few wild pitches and several errors gave the boys from Pine River the jump, and they made the most of them by piling up eight runs.

It was a shaky pre-season performance, and the many Alabaster fans as well as the team hope that they have worked the rough spots out of their system. Lets have a large crowd out next Sunday to view the season's opener.

Garden Club Notes

The Tawas City Garden Club will have their annual meeting 2:00 o'clock, Tuesday, May 11 at the city hall. All members are urged to be present.

Eagle Party

Wives and sisters of Tawas Bay Eagles members are invited to attend a party given in their honor, Friday, May 7, at 8:30 p. m. as a means of forming a Women's Auxiliary.

WEEKLY NEWS ANALYSIS

Anti-Communist Coalition Crushes Red Opponents in Italian Election; Lewis, Miners Fined for Contempt

By Bill Schoentgen, WNU Staff Writer

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)

EAST, WEST:

In Italy

By the time officials finished counting the first vote returns from Italy's national election there was no longer any element of surprise in the fact that the anti-Communist coalition parties were winning two-to-one.

Unusual thing was that the anti-Red Christian Democrats, Republicans and Social Unity party had scored such a top-heavy victory. They led everywhere, even in the so-called "Red North" where Communists had amassed considerable strength in the industrial cities. It appeared that the anti-Communists had secured absolute majority in both the Italian senate and chamber of deputies.

Communist front spokesmen conceded that the election results "must be considered a victory" for Premier Alcide De Gasperi's coalition.

This Italian election had been the plum for which both the U. S. and Soviet Russia had been competing frantically for six months. It was a real contest. Each nation had sent myriads of entries: "I think Italy should be anti-Communist (or Communist)" Each entry was accompanied, not by boxtops, but by boxcars of food and machinery as well as other blandishments.

Victory of the anti-Communists in the election was, in a manner of speaking, a clear-cut victory of benevolent capitalism over militant communism. As such it could exert tremendous influence on the course of European history.

Probably the principal factors deciding the outcome of the election were passage of the European recovery program and the U. S. proposal to return Trieste to Italy.

Further, the election appeared to make an important point concerning the workings of Communist aggression: Ability of the Communists to take over a country is greatly reduced in cases where the Red army cannot be brought into position to exert pressure on the intended victim.

The Red army was not a factor in the Italian elections. It was a factor, either through its immediate presence or its threatening proximity, in the coups of Czechoslovakia, Poland, Rumania, Bulgaria and eastern Germany.

If that reasoning is sound, a disturbing conclusion is evident: Should Russia realize that Soviet domination of Europe cannot be accomplished without use of military force, the next step might be to bring the Red army into action.

LEWIS:

Lost and Fined

All things considered, John L. Lewis came away from his brush with the government in fairly good shape—suffering only relatively minor abrasions of the pocketbook.

For ignoring a federal order to end the soft coal strike that began March 15 over a pension dispute, Lewis was convicted by Federal Judge T. Alan Goldsborough of criminal contempt of court. As punishment Judge Goldsborough imposed a \$20,000 fine on Lewis personally and fined his United Mine Workers union a total of 1.4 million dollars.

It was almost a verbatim re-enactment of the Lewis-Goldsborough drama of 1946 when the judge fined Lewis \$10,000 and the union 3.5 million dollars for contempt.

This time, however, Judge Goldsborough wanted to be tough. He wanted to give Lewis a jail term but refrained from doing so upon advice from the government, chief prosecutor in the case.

Nevertheless, he deplored the government's policy of "expediency" which dictated that the mine chief's punishment should be limited to a fine and that he should not be given a jail sentence because that would make a martyr of him in the eyes of the miners.

It was a bad spot for Lewis—perhaps the worst of his career. Not only had he failed to beat the Taft-Hartley act and been forced to accept terms far short of his original demands in settlement of the pension dispute, but he also had put his UMW treasury 1.4 million dollars in the hole.

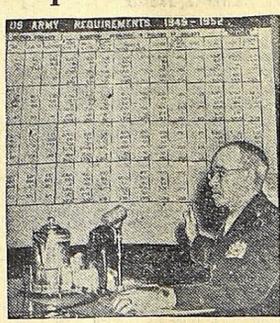

And now, if the miners continued to stay away from work in protest against the punishment, the government retained a powerful weapon it could wield. The Taft-Hartley injunction against them still was pending.

Ancient Africans

A heavy flint cleaver, reduced to chalk-like consistency after having lain in the earth for millenniums, is part of the evidence a Harvard anthropologist brought back from Northwest Africa to support his claim that man existed in that section of the world 150,000 years ago.

Dr. Hugh Hencken, director of the American School of Prehistoric Research, returned from the expedition with two tons of fossils.

Requirements

Gen. Omar Bradley, army chief of staff, told the house armed services committee that in the event of another war the U. S. must occupy Greenland, Iceland, Spitzbergen and the Azores or expose its industrial and population centers to air attacks. In a bid for congressional support of the draft and UMT, General Bradley warned that the army today would be in no position to take such positive action should the need arise.

HOLY LAND:

What Now?

In its first positive action since the U. S. backed away from its stand favoring partition, the United Nations security council issued a call to both Jews and Arabs to stop fighting in Palestine.

It probably was a gesture of impotence rendered even more impotent by the fact that the security council, although it laid down specific truce directives to both factions, decided against sending a U.N. commission to the scene of trouble to check on compliance.

Russia, continuing to favor the partition plan, refused to support the truce proposal but at the same time Andrei Gromyko, Soviet delegate, refrained from applying Russia's big-power veto and thus permitted the agreement to be concluded.

There was no assurance that either Jewish or Arab forces would agree to a United Nations truce and lay down their arms.

Well aware that the truce proposal had little or no significance in the pattern of the Holy Land tragedy, U. N. delegates shook their heads gloomily and wondered if the United Nations, not yet three years old, might not be a blue baby.

It was clear that the U. N.'s lack of "elan vital" in the Palestine problem stemmed directly from the decline of American prestige and leadership in the world organization.

After having pushed the partition plan through the U. N. by the sheer weight of its apparent conviction, the U. S. suddenly abandoned its support of partition in order to dabble in power politics with Middle East oil as the stakes. Instead of partition U. S. leaders advocated a temporary United Nations trusteeship. But they failed to indicate what kind of trusteeship or exactly how they thought it should be enforced.

While the American U. N. delegation was playing hard-to-get, other delegates were asking "What are we here for?"

Unofficial explanation was that the U. S. was trying, through Secretary of State George Marshall in Bogota, Colombia, to get some South American nations to offer to supply the troops that will be needed to enforce a trusteeship.

A-WEAPON:

Bingo!

Another batch of atoms has been exploded on the sea-girt wastes of Eniwetok atoll in the far western Pacific.

In the words of the U. S. atomic energy commission, the event marked the successful completion of an "atomic weapon." There was no further description of the sixth known atomic explosion in world history; but, as always in the case of applied nuclear physics, the element of mystery involved was at least as awesome as specific knowledge of the instrument might be.

At this stage, the situation between U. S. and Russia was not unlike a popular American game of chance. Democracy had just completed a row of numbers on its card; and in the U. S. announcement of a new atomic weapon kibitzers around the world could hear a loud cry of "Bingo!"

HYBRID CORN:

North Central

Twelve North Central states are well in advance of the South in the percentage of corn acreage planted with high-yield hybrid seed, according to a report by the department of agriculture.

The North Central group has increased its use of hybrid seed from zero in 1933 to 92.5 per cent of all its acreage planted last year, while the South has only 27.2 per cent planted to hybrid seed.

NEBRASKA:

Stassen Again

Harold E. Stassen had husked his political corn well in Nebraska.

Voters in the state's preferential primary—typed this year as a "popularity poll"—showed their favors on the wayfaring campaigner from Minnesota in a field of seven Republican presidential aspirants.

Results of the Nebraska balloting gave Stassen 15 national convention delegates for at least the first ballot. Legally, Nebraska's delegates go to the national convention unpledged. By custom, however, the outcome of the preferential primary is binding on the delegates for the first ballot. Stassen now estimated that he would command at least 300 delegates on the first ballot in Philadelphia this June.

As far as Thomas E. Dewey was concerned, the Nebraska primary added not a cubit to his political stature. He ran an indifferent second to Stassen; and there were many who predicted that this defeat, closely following the complete rout of Dewey forces in Wisconsin, virtually eliminated the New York governor from the GOP presidential campaign arena.

Ohio's Sen. Robert Taft, who had the support of Sen. Hugh Butler's state political organization, took third place, although he had been expected to show considerable strength in Nebraska. It was a critical blow to his political stock.

Far down the list and completely out of the money were the other four contenders: Sen. Arthur Vandenberg, Gen. Douglas MacArthur, Gov. Earl Warren of California and Speaker of the House Joseph Martin.

As always after a pivotal political event such as the Nebraska primary, innumerable experts were scurrying through their mental gymnasiums to find significances. This was the consensus:

Stassen had generated a lot of horsepower because of his Wisconsin and Nebraska victories. Conceivably, he could sweep the GOP convention, although that contingency was by no means certain yet.

Taft and Dewey were in shoal water and heading for the rocks unless some outside force gave their candidacies a boost. The question no longer was whether Taft or Dewey would get the nomination but whether they could resolve their differences long enough to get together to stop Stassen.

General MacArthur, it appeared, would not get a chance to accept the nomination.

Successor

Epidio Quirino, vice-president of the Republic of the Philippines, succeeded to the presidency upon the death of President Manuel Roxas. Roxas died in a Clark field hospital, only a short time after uttering a pledge of "indestructible faith" between the American and Philippine peoples.

UPSWING:

Inflation

Latest of President Truman's recurring announcements that the nation's economy is being endangered by high prices was backed up this time by department of commerce economists.

They found that business activity had been growing stronger in recent weeks and concluded that this increasing strength must be interpreted in the light of the economic impact of lowered taxes, the foreign aid program and stepped-up military spending.

IN SCRANTON . . . Mrs. Mamie Francone pointed out that drinking is bad for the liver, dancing is hard on the heart, singing weakens the lungs, cited her abstinence from all three activities as the reason she has lived to be 100.

IN PHILADELPHIA . . . Raymond Palmer heaved a box through a jewelry store window, was led away to jail muttering, "I did it. I did it. It's something I wanted to do all my life. It's this very window I wanted to break."

IN TOKYO . . . Japanese whalers convened in a Buddhist temple, prayed for the souls of the 1,321 whales they caught last winter.

IN FORT WORTH . . . Thieves leaving a lumberyard in the middle of the night with a truckload of loot got stuck in soft ground, called a garage, had a tow truck pull them out, paid the garage man, drove away with their stolen lumber.

IN NEW YORK . . . American Bible society announced that it had distributed 9,310,439 copies of the Bible in 147 languages during 1947.

Television Chiefs Forecast Billion Dollar Boom Year

HOLLYWOOD, CALIF.—With the public patiently waiting on the sidelines, television's first billion dollar year is coming into focus according to the word of bigwigs in the industry.

For broadcasters, says Jennings Pierce of the National Broadcasting company in confirmation of this, it is a year of decision as to whether to go all out for television or not. Pierce is NBC manager of station relations here.

Reviewing the prospects carefully, Pierce leaves small reason to doubt that the big broadcasters, and many not so big, will see the lights all green.

In fact, they are green enough now, he indicates, that the television industry already is counting on spending 10 million dollars for expansion of facilities and programs in 1948. As for financial returns, stations affiliated with NBC report that their television projects virtually would be in the black right now if it were not for their plowing of profits back into development.

The television boom is brightening every entertainment front in Hollywood. Movie agents think about television every time they book their clients. Photographers are assessing the new techniques the medium requires. Organized labor is watching carefully all possible chances to enlarge union jurisdictions.

Evidence that something like a television gold rush can be looked for before long was furnished by a recent series of three forum sessions held by the Hollywood Advertising club. Every meeting was a sellout. Advertising people, motion picture people, manufacturers, and many others seemed thoroughly agreed that the American public is ready for "sight with sound."

200,000 New Sets
Last year put nearly 200,000 new television sets on the market, according to J. R. Poppole, vice-president of Bamberger Broadcasting service, whom Pierce quotes. It's Poppole who says that "1948 will see television move out of the one million dollar class into the one billion dollar class." Pierce cites an estimate that 750,000 sets will be turned out this year.

To show how the whole thing is growing, it also can be said that there were 16 television stations operating in the United States in 1947 as against only 8 or 9 in 1946. This year, Pierce says there are 20. Some 60 more are presently authorized and about 80 applications are pending.

In Los Angeles and Hollywood, two television stations are broadcasting now. There will be at least three more. NBC hopes to be on the air in San Francisco before the year ends.

Arrow Poison Proves Helpful

Aid in Chest Operations
SAN FRANCISCO.—Curare, the deadly arrow poison of South American Indians, has proved very valuable in chest operations, three researchers asserted.

This exotic poison showed its worth in 462 operations at the University of California hospital.

The results were reported by Dr. H. Brodie Stephens, Dr. P. Harroun and Dr. F. E. Beckert.

It is doubly valuable, they said, because it permits the surgeon to use the "hot knife" on the lungs, and because it can safely slow down or even stop the patient's breathing. The hot knife is the electric cauterizing needle. It shoots out a hot spark which cuts the flesh rapidly. At the same time the spark sears the cut and prevents bleeding.

Curare temporarily paralyzes the nerves controlling the lung muscles. It kills by causing its victims to suffocate.

Blind Miner Unhurt In Shaft

After Escape From Snowslide
SALT LAKE CITY.—Roy Newman, a blind miner, was found unhurt in a mine shaft in a mountain canyon where a snowslide blocked a highway. Rescuers looked for him in shafts after finding his cabin in the slide area intact. He was reported to have heard the roar of snow and rocks and stayed in the shaft.

Three skiers in a car with California license plates left a lodge at Brighton 30 minutes before the slide occurred in Big Cottonwood canyon in the Wasatch mountains. There was no indication they got caught in the slide, but officials said they were trying to learn their whereabouts.

Stranded in the lodge area were 100 winter sports enthusiasts, among them 45 Stanford University students from California on vacation.

Dealer Rewards Finder of

Wallet With a New Car
DARLINGTON, S. C.—Marco Wingate has a new automobile and it didn't cost him a penny.

A dealer made Marco the present. The Darlington resident returned a wallet with \$35,000 the dealer lost at a car auction here. The car was the reward.

Washington Digest

Is This Where We Came In? War Department Thinks Not

By BAUKHAGE
News Analyst and Commentator

"Just now Washington isn't as warlike as it sounds. The emphasis is on defense, not offense. However, there are conflicting views on what we ought to do . . ."

That sentence just about reflects sentiment here as I write these lines—a sentiment that has changed rapidly in the last few weeks, days, hours, and may change still more before these lines are printed.

That sentence also reflected the sentiment in Washington eight years ago. (I found it among my clippings of the column which appeared early in October of 1940.) I had just come back from the war department which then was located on Constitution avenue. There wasn't any Pentagon building then. I had been interviewing an officer on the subject of "our new citizen army."

"According to many letters I get" (I wrote) "what a lot of people want to know is why we need a citizen army in peacetime?"

A lot of people are asking that question again today. The answer which I reported to you in this column eight years ago was this:

"Speed is what counts in an army today. We aren't calling out these boys to fight anybody. We are calling them out to train them so they'll be ready if we ever need them. The United States can always raise a big army if war is declared. But neither we nor any other country can raise a trained army overnight. And a lot can happen in the night these days. What we want to do is to train these men for a reserve . . ."

It was a year and three months after I wrote those words that something did happen, not in the night, but in the early morning, over Pearl Harbor. We didn't start it. The Japs did the deciding. They decided that we had to go to war.

The Lesson's Over, No Time for Recess

Today we have more to say. We have learned a great deal since December 7, 1941. We have learned how to fight a global war and win it. The question is will we do the things which will prevent a global war?

That will be something if we do. Meanwhile the wheel seems to have made the circle and some of the boys who were learning squads right in 1940 are wondering if this is where they came in. I had a chance to think about that on another trip back from the war department recently, or I should say the department of national defense. It's a longer journey now than it was to the old "temporary" World War I building on Constitution avenue. The Pentagon sprawls geometrically over 310 acres across the Potomac in Virginia. The message I brought back was very much like the one I reported eight years ago.

It was a reassurance that the request for three billion more dollars for national defense is what the military men say is the minimum peacetime expenditure to prevent war. In other words, defense, not offense. It was pointed out that if it were necessary now to prepare for actual conflict, the cost would run closer to 50 billions than three.

I was most heartily assured that the United States did not want war, that no encouragement whatever was being given those few persons who urged "preventive" action. With less certainty, but advanced as an honest opinion, was the statement that Russia did not want war, either.

"There is no reason, as far as we know now," one official told me, "why war cannot be avoided, provided a reasonable balance is established between the military forces of the two countries. Now we are in imbalance."

It was noted that Russia and her satellites now have under arms nearly twice the number which this country and the anti-Communist countries of western Europe could put in the field.

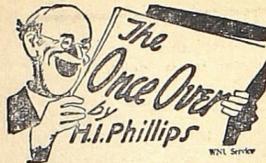

It is well to remember too that the Russian Red army is mobilized; it is largely concentrated in eastern Europe whereas American troops are thinly scattered over the whole earth. Russia has never really demobilized, she has more combat planes and men to man them; she has a greater land force; a numerically-superior artillery.

We are strong in bombing planes, but she has a stronger defense in fighter and interceptor planes. She is believed to be producing from 75,000 to 100,000 planes a year. We produced 1,700 military planes of all types last year.

But "our biggest shortage is in equipment," said a veteran officer. One might go on at great length. I won't. I have rehearsed the sad story of "redeployment" ever since I first heard it from a general's secretary who, like most of the rest of us, thought it was "reemployment."

Even clergymen are able to think fast in a crisis, even though those who are prone to sleep through interminable sermons may be inclined to doubt the assertion. But up in Cambridge, Mass., a policeman was induced to tear up a speeding ticket when a clergyman he had stopped explained, "You have to be fast these days if you want to save souls."

June is the "dew month" in Japan. In this country, we insist, every month is "due month."

NEW CAMPAIGN TECHNIQUES

It seems to this department that the candidates for the presidency of the United States are overlooking a great asset for commanding public support. We refer to the contest mania or something-for-nothing epidemic. It is hard to interest anybody in anything today unless it has a give-away angle. And yet not a candidate for the votes of the American people has come out with a prize contest of any kind!

The party chairmen are asleep, too. Not one of them has leaped to the mike and announced to the voters that by giving a reason in 25 words why they are for so-and-so for president they can win an airplane, a couple of sedans, a completely furnished house and a trip to Sun Valley.

Here is Harry Truman, hard-pressed to sell himself for renomination and it doesn't occur to him to get the jump on all the others by a double-or-nothing routine. And he needs only a good radio master of ceremonies, a nationwide hookup and a few mink coats, grand pianos, television sets and electric ice boxes. It's a natural. "Simply complete the sentence 'I like Harry S. Truman because . . .'" in 25 words or less . . . All answers, heaven knows why, become the property of Harry S. Truman."

We don't know how the Democrats are fixed financially, but they probably could toss in a couple of hundred thousand dollars for awards of \$10,000 each, together with a round-the-world cruise, a yacht and two watches for every American's wrist. It might be a good idea to pick the old jingle idea for a contest. Complete the following limerick:

There was a young man from Missouri
Who said "It is up to the jury
To say if they wish me
To stay in or dish me,

Nothing can make the public forget things such as inflation, global war threats, the high cost of living, and labor troubles, like a limerick.

Governor Dewey's advisers are reported urging him to run on a give away program patterned something on Queen for a Day, where every contestant just states what she wants most in life and is given it fast. This would tie up the female vote, which is most important.

Taft is reported hard to interest in a contest. He's old-fashioned enough to think the people are fed up with the idea of getting things free, and is said to feel that millions would vote for Hank Wallace rather than get sucked into another contest to have the house painted inside and out, win a fishing schooner and be given a broom ride up and down the rainbow.

Judging from the newspaper and newsreel photos of private planes tangled up with the roofings, tree tops and telegraph poles, plenty of planes now are being flown by drivers whose applications to drive autos and motorcycles were rejected for unfitness.

TELEVISION REACTION

Some airwave folks are not for me,
I am inclined to flee 'em;
But this I know through video—
I'd rather hear than see 'em!

Paul Hoffman, head of Studebaker, has been named head man in the direction of ERP. As any Studebaker fan can testify, this assures the European relief a new front. And it notifies Europe that the doctor will not come by horse and buggy.

"NEW YORK STARTS WAR ON EIGHT MILLION RATS."

This headline may have accounted for the extreme nervousness noticed in racketeering circles.

Eastern railroads are asking another fare increase. They have heard a rumor that the public has a dime left.

The U. S. Golfers association barred Babe Didrikson from the National Open on the ground that, like the Elks smoker, it is for men only. It is our notion that Babe would have made quite a few of the contestants face the question, "What makes you think you are men?"

Can You Remember—

Away back when the Democrats had things their own way?

"The big one broke my tackle."
—President Truman at Key West. You just don't seem able to hold the line, Harry.

Gov. Jim Folsom of Alabama, sued in a parentage action, says "it is all politics." This is the first time we ever hear of a stork throwing a hat into a ring.

GRASSROOTS

by WRIGHT A. PATTERSON

A CURE FOR INFLATION

MOST of the difficulties that produce industrial strife are caused by a disagreement over distribution of the sales dollar. Labor—the 60 million workers of the United States—wants a larger share than the approximately 50 cents they are receiving. Capital—the close to 60 million stock and bondholders who provide the tools with which labor works—insists that labor's share is out of proportion to the one cent of that sales dollar that comes to the provider of tools. Management—which provides the ability and know-how to make the labor and capital combination work—says if it gives up all of its small "take"—less than one cent out of each dollar—it would not help much.

All three of these essential elements of industry look askance at the tax fingers that reach in and without so much as a "by your leave" or a "thank you" drag out some 30 cents of each sales dollar to be divided among local, state and federal tax-eating gourmands.

There is a fourth element involved in the dispute. That is John Q. Public, the consumer. He provides the sales dollars which cause the row, and wants to be called upon for a less number of such dollars. Whether John Q. Public is a worker or an investor, and there are many of him in both classifications, he wants to pay less for what industry produces.

Labor looks at the 18 cents of each sales dollar for which the above distribution does not account. Labor calls that 18 cents profit but it is not. A portion of it goes to keep the tools in working condition or to replace them when they are outmoded. Another portion goes into a reserve fund with which to provide for labor, capital and management during "rainy day" periods. The profit is the one cent of each sales dollar that goes to capital.

There are at least two ways by which the demands of all four contestants for a larger share of that sales dollar might be satisfied.

One is to rap the knuckles of those tax fingers so as to cause that greedy gourmand to take less. That would leave more for labor, capital and management, or it could reduce the price of commodities and services, so that all, including John Q. Public, would get a larger share of that sales dollar.

A second method is greater production of commodities on the part of labor and management. There will be more things for the sales dollar to buy, produced by the same labor and management and with the same tools. Under such conditions, with more sales dollars to divide, capital, labor and management could, and probably would, be fair enough to pass on to John Q. Public some part of that division in the form of a reduced price for commodities. Capital, labor and management, being partners of John Q. Public, would garner their share of that lower price advantage.

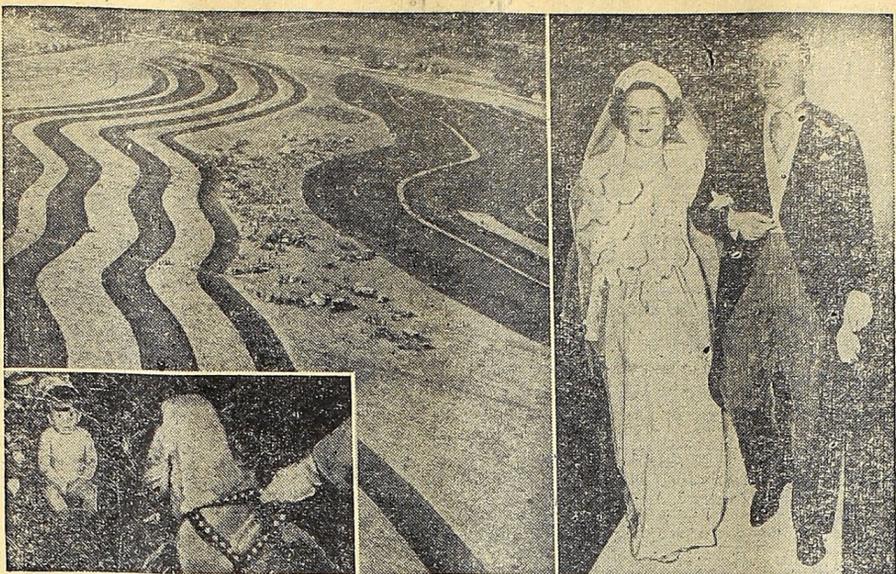

In fact a combination of these two methods: Less money to the greedy tax collector and greater production would put us all back on easy street, with nothing to fear from inflation. That combination could be entirely practical if everybody involved would but work at the job of accomplishing the desired end.

GREAT BRITAIN'S SUNSET

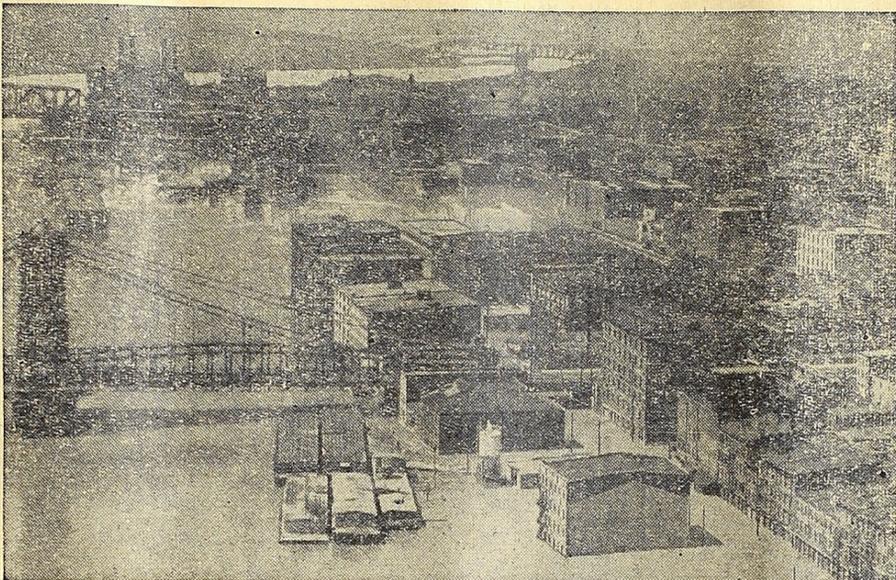

"The sun never sets on the British empire," was the proud boast of the Anglo-Saxon. Predominantly of English ancestry, we Americans participated in that boast. We were proud of old England, and her accomplishments. We recognized the part she played in the advance of world civilization; her ability to rule, despite her failure in our case when a German king sat on an English throne. During the last century and a half she has turned the light into many a dark corner of the world. We applauded Winston Churchill's statement that it was not his purpose to liquidate His British Majesty's empire.

What Churchill refused to consider in wartime Prime Minister Atlee has accomplished in peacetime. To promote his own and his followers' socialistic theories he has sacrificed the world's greatest civilization. If he is allowed to continue on the road he is traveling it soon will be the lament of the Anglo-Saxon people that the sun barely rises on the British empire.

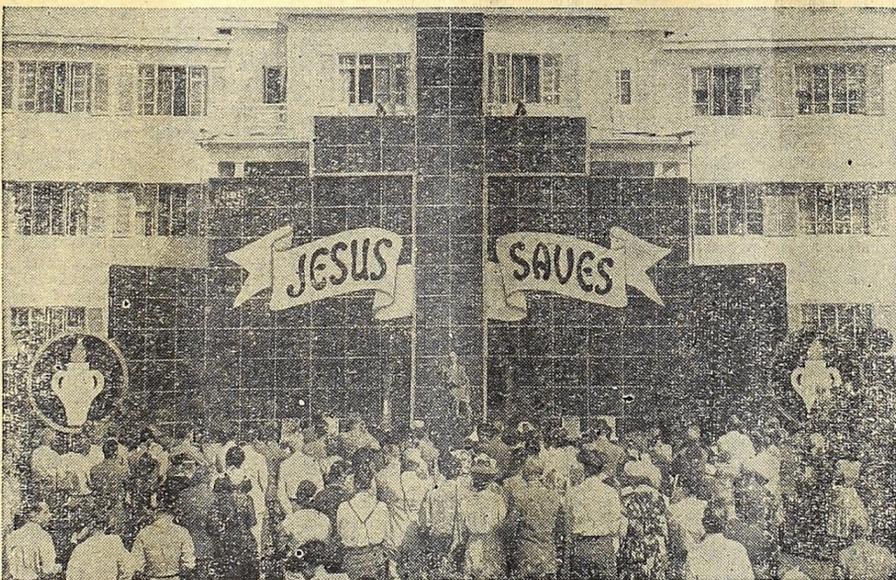

The influential Farm Journal proposes that its millions of farmer readers tell their representatives at Washington—senators and congressmen—that what the farmers want in the way of legislation is to be left free to make their own decisions as to operation of their farms. That is good advice. The farmer wants no more regimentation; no more directions as to what he shall or shall not raise. He feels better able to plan for himself than an army of Washington bureaucrats.

PHOTOGRAPHY AT ITS BEST... These three photographs were among the 100 best pictures entered in the fifth annual News Pictures of the Year competition sponsored jointly by Encyclopaedia Britannica Book of the Year and the University of Missouri school of journalism. 'Lost and Found' (bottom left) by Jack Teshan of the Keene, N.H., Sentinel was awarded third prize in the news pictures category of the contest. Wallace Kamann of the Minneapolis Star tied for third place in the feature category with this aerial photograph, 'Contour Ploving.' 'The Bride Wore a Wink' (right) by Ed Wagner of the Chicago Herald-American is a one-in-a-million shot that turned out to be a delicious human satire.

LOCKING DOWN ON WATER-LOGGED CINCINNATI... Just about every spring the Ohio river achieves a height of watery exuberance and is no longer satisfied merely to keep rolling along. So it rises and floods. This year the metropolis of Cincinnati took much of the brunt of the swollen river. This aerial view of the Cincinnati waterfront shows the extent to which the low-lying sections were inundated. At the time the photo was made the city was awaiting the crest of the flood, estimated at 65 feet. Across the river in Kentucky 1,000 soldiers and an army of volunteers were frantically throwing up a sand-bag flood wall to curb the rising waters.

TWENTY-THREE TONS OF BIBLES FOR DISTRIBUTION... How does the Gideon International association manage to get Bibles in all the hotel rooms of the nation? It's a big job, and one that sometimes gives rise to spectacular scenes such as this which was arranged in Miami Beach. A gigantic cross composed of hundreds of Bibles was erected in front of the North Shore hotel in Miami Beach where the Gideon International association held its annual convention this spring. Total weight of the great stack of Bibles was 23 tons. The volumes were distributed in hotel rooms throughout Miami and Miami Beach.

FULL DRESS RECEPTION COMMITTEE... In just about every city whenever a visiting dignitary comes to town, the mayor and his distinguished civic cohorts feel it necessary to bedeck themselves in full dress and silk toppers to meet their guest. This quaint custom, generally involving many hot collars and perspiring foreheads, becomes much simpler in the Antarctic where there are only penguins to do the receiving. Like this committee of well-dressed penguins which rushed out to greet a U.S. navy Sikorsky helicopter, part of Task Force 39, when it landed somewhere in the Antarctic.

Doctor Dyes Self Blue in Experiment

PHILADELPHIA. — Experiments in which a doctor risked his life as a volunteer guinea pig disclosed that chemical dyes may prove a "most powerful weapon" in warfare against cancer, the University of Pennsylvania disclosed.

The doctor asked that his name not be used. He volunteered after a dye—similar to that used on Easter eggs and catalogued in the color index as Nile blue sulfate—proved toxic in experiments on animals, the university reported.

It was the synthesized dye-stuff known as Nile blue 2-B which the anonymous hero swallowed to test its poisonous effects on humans. There were no ill effects. But the doctor turned a handsome shade of blue.

The newly established cancer commission of the university reported "experiments on animals demonstrated that certain malignant growths not only are retarded by selected dyestuffs, but some of these substances actually caused a marked shrinkage of the malignant tissues."

"Knowing that cancer cells break off and wander into other tissues," the commission reported, "Dr. Margaret Reed Lewis found it important to find a colored substance selective for cancer tissue so that its course could be traced through the body."

Use of Nile blue sulfate demonstrated tumors stained with the dye "grew more slowly than uncolored tumors and that treated animals lived longer than untreated animals."

But the dye was toxic. It was then the synthesized material was made and the human guinea pig volunteered for experiments.

Ex-King Gets Driver's License For "Michael"

WASHINGTON. — Ex-King Michael of Romania applied for a Washington, D. C., drivers license.

He was asked to sign his full name.

He signed "Michael." The police officer patiently asked him to fill in his middle and last names.

"I do not have any other names," the former king explained.

He paid his \$3 fee and received a license made out simply to "Michael."

Oil Companies Build Plants To Make Gasoline From Gas

WASHINGTON. — Some automobiles may be running on natural gas a year hence.

Two oil companies are building plants to make synthetic gasoline from natural gas and hope to begin production in a year. They say their product will be as good as any motor fuel and perhaps cost two cents less a gallon.

The Standard Oil Company of Indiana is building the synthetic plant in the Hugoton gas field in Kansas. The Carthage-Hydrocol, Incorporated, is building the other at Brownsville, Tex.

Their combined production is expected to be about 12,000 barrels a day. That is little more than a drop in the bucket compared with gasoline consumption of several million barrels daily.

Some government officials say it is still an open question whether the infant industry "catches on" enough to supplement greatly the tight supply of regular gasoline.

They pointed out that the price of petroleum is now high while that of natural gas is not. If petroleum costs drop or natural gas prices rise, they say, the gas-to-gasoline process may not be profitable.

"Gag" Hats Made In Hardware Store Thrill Women Shoppers

SAN MATEO, CALIF. — Women don't know a joke when they see one. Especially not when the joke is a hat.

That's what hardware store manager Al Colby says.

For 35 years Colby stared in pop-eyed amazement at the concoctions worn by his women customers. Finally, he could stand it no longer.

So Colby, whose only contact with millinery shops had been to pay the cashier as Mrs. C. sailed out the door with a new lid, sat down and whipped up 18 "guaranteed original" models.

He made 'em entirely out of stuff in his hardware store.

"Into his 'labor of laughs' went pieces of stove pipe, door handles, toilet brushes, mops, plastic bowls, flower pots, sponges, bread roll baskets, colored coasters, measuring spoons and beaters, clothes pin bags, muffin baskets, aluminum jello molds, dish rags, sink stoppers, copper scouring pads and assorted nuts, bolts and screws.

Then he put them in a window display in his store and settled back to watch the women laugh.

What happened? Women flocked from miles around to "oh" and "ah" and exclaimed "isn't that just too, too."

CLEVER PRINCESS STYLE DRESS DAINY SUMMER OUTFIT FOR TOTS

1760 12-20

Princess Style

Want something easy to sew with pleasing results? Then pattern 1760 is for you! This clever princess style molds your figure beautifully, has nipped in waistline and flattering keyhole neckline. You can turn it out in no time.

Pattern No. 1760 comes in sizes 12, 14, 16, 18 and 20. Size 14, 3 1/2 yards of 39-inch.

1675 1-6 yrs.

Summer Outfit

An adorable, cool looking summer outfit for your tiny tot. The dainty dress has wing sleeves and lace or ruffling in scallops to trim the skirt. Slip and panties can be worn with all her dress-up frocks.

Pattern No. 1675 is for sizes 1, 2, 3, 4, 5 and 6 years. Size 2, dress, 1 1/2 yards of 35 or 39-inch; slip, 1 1/2 yards; pantie, 1/2 yard.

The Spring and Summer FASHION offers a wealth of sewing information for home dressmakers. Special features, fashion tips, free pattern printed inside the book. 25 cents

SEWING CIRCLE PATTERN DEPT.
530 South Wells St. Chicago 7, Ill.

Mr. and Mrs. George Hart of Flint visited at the Harry Hart home last Monday.

Mrs. Joyce Yale and children, Mrs. Bernice Mertz and children, Mrs. Irene Bower and Mr. and Mrs. Roy Gardner and baby all of Port Huron Mr. and Mrs. Roy Gardner and baby all of Port Huron visited at the home of their parents, Mr. and Mrs. Fred Pringle.

Several from here attended the Memorial services for Albert Dorsey which were held in Whittemore Sunday.

Laura and Leland Picket spent the week-end in Whittemore at the home of their sister.

Evelyn Smith accompanied by Mr. and Mrs. Frank Tetu of West Branch spent Monday evening at her home here.

Mrs. Joseph Schneider and grandson spent Saturday in Tawas doing some perch fishing.

The National City Road is again open to traffic after being closed the past seven months due to the National Gypsum Co. building a tunnel under the road to their new quarry.

Walt Smith and girl friend took Benton Norton to Clare Sunday evening where he is employed.

Mrs. Florence Zajac and daughter of Turner spent Sunday at the Floyd Kauffman home.

Mrs. Harry Hart and Mrs. Ivan Pelton spent Sunday in Oscoda visiting at the Russell Pelton home.

Mr. and Mrs. Lawrence Jordan were in Bay City Sunday on official business.

Earl Jordan and son Melvin of Detroit were in town Saturday and Sunday.

Mrs. Frank Smith and daughter, Evelyn were business callers in Tawas Saturday.

Eighth grade graduation exercises for the Sherman and Lower Townline Schools were held at the Sherman Town Hall Wednesday evening. Twenty-two pupils graduated. The address was given by Russell McKenzie and music furnished by the Hale Band. The hall was packed to capacity.

ANNUAL REPORT

Iosco County Road Commission

East Tawas, Michigan

April 1, 1948

To the Honorable Board of Supervisors, Iosco County, Michigan. Gentlemen:

Complying with the statute relating thereto, we are herewith submitting to the Board of Supervisors and the people of Iosco County our Forty-eighth Annual Report showing monies received and disbursed together with a statement showing county road maintenance and improvement.

Board of County Road Commissioners of the County of Iosco, Michigan.

By: Elmer Britt, Chairman
Glenn P. Sabin, Member
Clarence Curry, Member

FOREWORD

The calendar year of 1947, which this report covers, has been one of hectic financial difficulties. January 1st, 1947, found us in very bad shape financially. To make matters worse, January, February and March brought plenty of snow and corresponding large expenditures for snow removal. By June we were in such a condition that it was necessary to lay-off about half of our employees and even then we anticipated being far in the red by January 1st, 1948. However, by the splendid cooperation and financial help from the Board of Supervisors and the townships, augmented by an unexpected increase in the weight tax returns, plus \$2300 State snow removal money and by greatly curtailing our activities, we were able to enter the year of 1948 on the black side of the ledger.

We wish to thank the various township supervisors and officers for the wonderful cooperation on snow removal. While only a very small part of this comes under the 1947 report; it is this cooperation and kindness of mother nature in giving us very little snow to plow during the past winter that leaves us today financially far ahead of our position a year ago. Although our financial position is much better than it was in April 1947, we still can by no means begin to properly maintain our roads and make the improvements and replacements that are very urgent without additional funds from some source.

The Michigan Highway Study, was initiated about a year ago re-

cently completed and presented to Governor Sigler and the Legislature, shows that Iosco County needs \$3,280,000 to bring her rural roads and bridges up to that was established as a tolerable standard. In addition to this sum, our regular maintenance money that we have been getting is not enough to do the maintenance job.

The only new equipment purchased in 1947 were two snow plows for the power graders. However, over \$24,000 in notes due in 1947 were paid on equipment purchased in 1946. Approximately \$25,000 is yet to be paid on this equipment in 1948.

This year the McVior bridge is under contract as a post war project and will be built this summer. The Federal Government pays half the cost of this structure. We have three other post war projects that should be built during the next four years, provided the Legislature provides sufficient money to enable us to put up our half of the cost.

Until we know what help the Legislature is going to give us, our plans for 1948 can be no more than a very limited maintenance.

Iosco County Road Commissioner's Report of Receipts and Disbursements for the Year Ending December 31, 1947.

Townline

George Sherman visited William Sherman and Grant Bessey over the week-end.

Mr. and Mrs. Bessey visited Mr. and Mrs. Grant Bessey, Saturday.

A wedding shower was held at Mrs. William Sherman's for Lois Ulman. A grand time was had and Lois received many lovely gifts.

Jake Gauthier is driving a new Chevrolet.

Mr. and Mrs. Melvin Ulman and Mrs. Mae Muir spent a few days with Mr. and Mrs. Joe Ulman.

Mr. and Mrs. Arthur Marrell called on Mr. and Mrs. Eugene Bessey, Thursday evening.

Marvin Ulman of Detroit spent the weekend with his parents, Mr. and Mrs. John Ulman.

Mrs. Leslie is closing a very successful term of school with a picnic on Friday.

Burleigh News

A number from here attended the funeral services of Albert Dorsey at Whittemore Sunday.

Mr. and Mrs. Ira Harwood and children of Flint spent the weekend at the home of Mr. and Mrs. Orville Beller.

Mr. and Mrs. Roy Bowlsby of Standish visited relatives here Thursday.

Martin Haala entertained company from Ohio over the week-end.

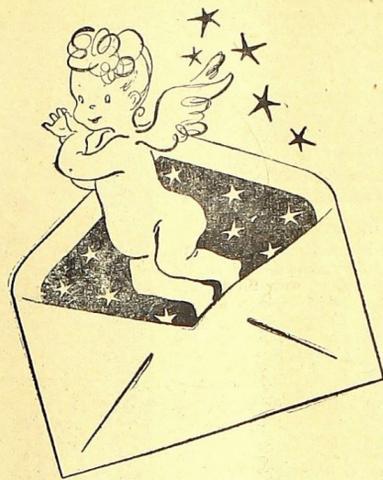

Mr. and Mrs. Victor St. James and daughters visited with relatives at Maple Ridge Sunday afternoon.

The dance at the Town hall was well attended and all report having had a good time.

Mr. and Mrs. William O'Farrell were at West Branch Saturday.

Orville Beller and A. B. Schneider were at Traverse City Wednesday.

WHITTEMORE SCHOOL NOTES

"He Couldn't Marry Five," Successfully Produced

The uproarious comedy, "He Couldn't Marry Five," presented at the Twining Community Hall Friday, April 23 by the Whittemore Seniors was an outstanding success. They played to a most enthusiastic and appreciative audience which completely filled the auditorium.

On a well-arranged stage, depicting the living room of an average American family, the predicament of the five sisters of varying talents all in love with their one young house guest was realistically portrayed and the family squabbles were at times alarmingly realistic.

The five daughters were equally well and naturally played by Viola

Ferris, who was April, with dramatic aspirations; Lois Depr, as May, whose ambition was to dance her way across America; Dorothy Wice as June, whose life was wrapped up in her art; Leona, who was trying with outstanding success to be a cow-girl; and Elsie Dorcey, the sister, who eventually won the prize, was Tar's, the nurse.

Jack Stoner played the role of Donald Regan, who set all hearts a-flutter most convincingly, as did Ronald Blust as Ralph Barton, the father of the girls who was worrying about losing his position.

Ada Perry handled the part of Connie Barton, the mother who tried to solve all problems by means of astrology, most capably and furnished many laughs with her absent-minded remarks.

Aunt Etta, who had been jilted in her youth and wanted to save her nieces the heartaches she had suffered, was well done by Virginia Dodder, and the part of the wise and gently Grandmother Barton, who brought them all to their senses was excellently done by Marian Provoast.

The production was directed by Mrs. Florence Perry.

Between acts, several novelty numbers were introduced. Carol and Maurice Belleville, in Spanish costume, tap danced. They were accompanied by their moterher, Mrs. Charles H. Belleville, and Norma Groulx very capably presented a series of acrobatic feats which were greatly enjoyed by the audience.

Idea and John Bentley, with Bob Belson as accompanist, sang two lovely duets.

After the play, dancing was enjoyed until 11:30, with Mrs. Charles Belleville playing.

The baccalaureate sermon May 16 preached at the Whittemore Methodist Church Sunday evening, May 16, by the Reverend Roland Brooks.

Whittemore Plays Ball

Friday afternoon, a baseball game was played with Tawas City, who won with a score of 16-5. Whittemore pitchers were Stoner, Keil and Kevord. Allan Kohn was umpire.

Home Economics Luncheon

The girls in advanced Home Economics gave a luncheon in their room Friday to complete their unit of work. A delicious meal, which was planned, prepared and served by the girls was enjoyed. The table was decorated with spring flowers.

The girls and their teachers will attend Home Economics Day at Michigan State College Thursday, going with the group from Hale in a painted Township bus.

Freshmen Hold Open House

The Freshmen Class held open house Friday night and a pleasant evening of dancing and games was enjoyed by the guests.

At the conclusion of the evening, a collection was taken for the Cancer Drive and turned over to Mrs. Arden Charters who is chairman in Whittemore.

Delicious punch and cookies were served. Mrs. Ruth Oates is sponsor of the class.

8th Graders Go On Hayride

With Mr. Robarts on his tractor in the lead, the eighth graders and their guests and sponsor, Mr. Cole, enjoyed a hayride Friday night. Before returning they had a weiner roast and report a delightful time with only a few minor accidents—no casualties to mar the festivities. (See Jim Perry's black eye and Shirley Ranger's bruised head for further details.)

Senior News

The caps and gowns have arrived but will not be given out until after the Senior trip.

The invitations for commencement are here.

The seniors and their sponsor, Mrs. Florence E. Perry expect to leave Wednesday, May 5 for a four day trip to Chicago, where they will go by Greyhound bus. Reservations have been made at the Atlantic Hotel and trips through the city by bus, to the museum, China town and other points of interest will be taken. Tickets have been procured for the "Welcome Traveler" broadcast. They will return Saturday evening.

STATE OF MICHIGAN

In the Circuit Court for the county of Iosco

IN CHANCERY

Melbourne Metcalf and Annie Metcalf, Plaintiffs, vs. James O. Whittemore & Melissa S. Whittemore, his wife, Charles H. Whittemore and Abby W. Whittemore, his wife, George B. Mathews & Louisa M. Mathews, his wife, Fannie H. Drake, John B. Norton, Lizzie Miner, Joseph W. Miner, Elizabeth Miner and their unknown heirs, devisees, legatees, successors and assigns, defendants.

ORDER OF PUBLICATION

At a session of said court held at the court house in the City of Tawas City in said county on the 23rd day of March, 1948.

Present: HON. Herman Dehnke, Circuit Judge.

On reading and filing the bill of complaint in said cause and the affidavit of William R. Barber attached thereto, from which it satisfactorily appears to the court that the defendants above named, or their unknown heirs, devisees, legatees, successors, and assigns are proper and necessary parties defendant in the above entitled cause, and

It further appearing that after diligent search and inquiry it cannot be ascertained, and it is not known whether or not said defendants are living or dead, or where any of them may reside if living, and, if dead, whether they have personal representatives or heirs living or where they or some of them may reside, and further that the present whereabouts of said defendants are unknown, and that the names of the persons who are included therein without being named, but who are embraced therein under the title of unknown heirs, devisees, legatees, successors and assigns, cannot be ascertained after diligent search and inquiry,

On motion of William R. Barber, attorney for plaintiffs, it is ordered that said defendants and their unknown heirs, devisees, legatees, successors and assigns, cause their appearance to be entered in this cause within three months from the date of this order, and in default thereof that said bill of complaint be taken as confessed by the said defendants, their unknown heirs, devisees, legatees, successors and assigns.

It is further ordered that within forty days plaintiffs cause a copy of this order to be published in the Tawas Herald a newspaper printed, published and circulated in this county, such publication to be con-

tinued therein once in each week for six weeks in succession.

Herman Dehnke, Circuit Judge.

R. H. McKenzie, Clerk of Circuit Court.

Take notice, that this suit, in which the foregoing order was duly made, involves and is brought to quiet title to the following described piece or parcel of land situate and being in the County of Iosco, State of Michigan, described as follows: The west one-half of lot 2 of block no. 22 of the original plat of Tawas City, Michigan in Tawas City, Iosco County, Michigan.

William R. Barber, Attorney for Plaintiffs.

Business Address: Tawas City, Michigan.

Ripe Corn Best for Silage

For silage, plant a variety of corn, that will yield a good quantity of fairly mature grain as well as a good yield of stalks. There is a "milk kick" in the grain.

Feeding trials at Michigan State College have shown that the amount of corn grain in corn silage plays a very important role in the milk that a cow will produce from the silage. When silage made from stalks with the ears removed before ensiling was fed to dairy cows, replacing hay of equal total digestible nutrients, no increase in milk occurred. Such silage was only equal pound for pound of dry matter to the hay which was fair quality clover. When the ears were ensiled with the stalks and this silage replaced hay in the dairy ration there was substantial increase in milk production.

The corn grain in the silo does not lose its feeding value during the ensiling process except for surface spoilage and the small amount of leaching which takes place in all ensiled materials.

Corn silage made from corn that will yield 50-60 bushels of grain per acre will contain one pound of (dry basis) corn grain in every five to six pounds of corn silage. The silo should be considered as a storage place for corn grain as well as for roughage.

RAILROAD STRIKE

LEADERS OF 3 RAILROAD UNIONS

Look who gets squeezed!

Union leaders representing less than one-tenth of railroad employees reject recommendations of President's Emergency board—refuse to negotiate except on their own terms—threaten to paralyze nation by strike!

THE LEADERS of three railroad unions, representing less than one-tenth of all railroad employees, have called a railroad strike that would paralyze the nation.

These leaders refuse to accept a 15½ cents an hour wage increase retroactive to November 1, 1947. This increase was recommended by an impartial Emergency Board appointed by President Truman.

This increase of 15½ cents already has been accepted by the 19 other railroad unions. But the Brotherhood of Locomotive Engineers, the Brotherhood of Locomotive Firemen and Enginemen, and the Switchmen's Union of North America won't accept what more than 90% of all railroad employees have accepted. They have called a strike to get more!

Unions refuse rules discussion

Certain rules changes demanded by these union leaders—which would increase wages still further—were recommended by the Board. But the union leaders want more—they demand that the railroads put into effect ALL the changes they asked for, including those the Board felt should be denied.

On top of this, they insist that certain rules changes proposed by the railroads be withdrawn—in spite of the fact that the Board recommended them! These union leaders have refused to negotiate except upon these arbitrary terms.

Greater wage increase not justified

Engineers and firemen are among the highest paid of all employees in America, as figures in the box show. This strike threat doesn't justify giving a greater increase than other railroad workers received.

Emergency Boards are a means provided by the Railway Labor Act in the public interest to avoid strikes. The President's Board,

after hearing evidence for 33 days, made recommendations based on all the facts in the case. The railroads have accepted these recommendations.

Who's to blame?

Although they deplored so large an extra cost burden, the railroads accepted the report of the Board because they felt it was in the public interest to uphold the spirit and intent of the Railway Labor Act.

In contrast, this small group of railroad union leaders are attempting to flout the intent and spirit of the Railway Labor Act, and dictate their own terms.

They have dictated a paralyzing railroad strike.

You will be the victim!

How long will the American public stand for the undemocratic, arbitrary, and abusive use of the right to strike and the disregard of the obligation to provide transportation? How long can the American people permit a few dictatorial union leaders to defy the processes provided for peaceful settlement of disputes?

Force seldom produces settlements that are either fair or lasting. Moreover, a point is often reached when personal interests must be held subordinate to the greater public welfare. That is why the railroads have accepted the Emergency Board recommendations. That is also why the leaders of these three unions should reconsider their decision to call a paralyzing strike.

Lower Hemlock

Mrs. Johanna McLeod closed her term of school in the Anschutz district Friday with a picnic at the school grounds.

Mr. and Mrs. Arnold Pomerantz and sons moved from their farm

home in Laidlawville to their lot by the Anschutz mill. They are living in a trailer house. The family who brought their farm have taken possession.

Mr. and Mrs. Andrew Anschutz entertained her brother and family from Detroit the past week-end.

Mr. and Mrs. Harold Friebe of

Bay City spent the week-end at their cottage on the Hemlock.

Mr. and Mrs. John McArdle spent Sunday evening in Tawas City with Mr. and Mrs. Delbert Albertson.

Mr. and Mrs. Henry Fahselt were Sunday dinner guests at the Fred Musolf home in Tawas City.

Mrs. Walter Wegner, who has been quite ill the past week is much improved and able to be out again.

Mr. and Mrs. Paul Rempert and Clifford Anschutz of Saginaw

were week-end visitors of Mr. and Mrs. Arnold Anschutz. Paul Anschutz and Mrs. Wilfred Youngs spent Sunday with them.

Mr. and Mrs. Henry McCormick spent Sunday with Mr. and Mrs. Jack Seals.

Mrs. Waldo Curry, Sr. spent Saturday evening with her mother, Mrs. J. Anschutz in East Tawas.

Mr. and Mrs. Waldo Curry, Sr. were Sunday evening visitors at the Arthur Lietz home.

STATE OF MICHIGAN
In the Circuit Court for the County of Iosco.

IN CHANCERY
Harry Rollin, Plaintiff, vs. The Re-che-gah Club, Robert W. Crawford, The Alp Corporation and the unknown heirs, devisees, legatees and assigns, Defendants.

ORDER OF PUBLICATION
At a session of said court held at the court house in the city of Tawas City in said county on the 23rd day of March A. D. 1948.

Present: HON. Herman Dehnke, Circuit Judge.

On reading and filing the Bill of Complaint in said cause and the affidavit of H. Read Smith, attached thereto, from which it satisfactorily appears to the court that the defendants above named, or their unknown heirs, devisees, legatees and assigns, are proper and necessary parties defendant in the above entitled cause and.

It further appearing that after diligent search and inquiry it can

not be ascertained, and it is not known whether or not said defendants are living or dead; or where any of them may reside if living, and, if dead, whether they have personal representatives or heirs or where they or some of them may reside, and further that the present whereabouts of said defendants are unknown, and that the names of the persons who are included therein without being named, but who are embraced therein under the title of unknown heirs, devisees, legatees and assigns, can not be ascertained after diligent search and inquiry;

On motion of H. Read Smith, attorney for plaintiff, it is ordered that said defendants and their unknown heirs, devisees, legatees and assigns, cause their appearance to be entered in this cause within three months from the date of this order, and in default thereof that said Bill of Complaint be taken as confessed by the said defendants, their unknown heirs, devisees, legatees and assigns.

It is further ordered that within twenty days plaintiff cause a copy of this order to be published in the Tawas Herald, a newspaper printed and published and circulated in said county, such publication to be continued therein once in each week for six weeks in succession.

Herman Dehnke, Circuit Judge.

Laidlawville News

The Laidlawville Extension Club was held at the home of Mrs. D. M. Donald on the Plank road April 23. The lesson out line was "Attracting homes inside and out," which was very interesting. A pot luck lunch was served by the fifteen ladies present. The next meeting will be held at the home of the Chairman, Mrs. Walter Anschutz on May 18.

MANAGEMENT IN THE MAKING

There's only one way to the top in the telephone company. That's through experience. And experience, in the telephone business, means learning to give subscribers constantly improving service.

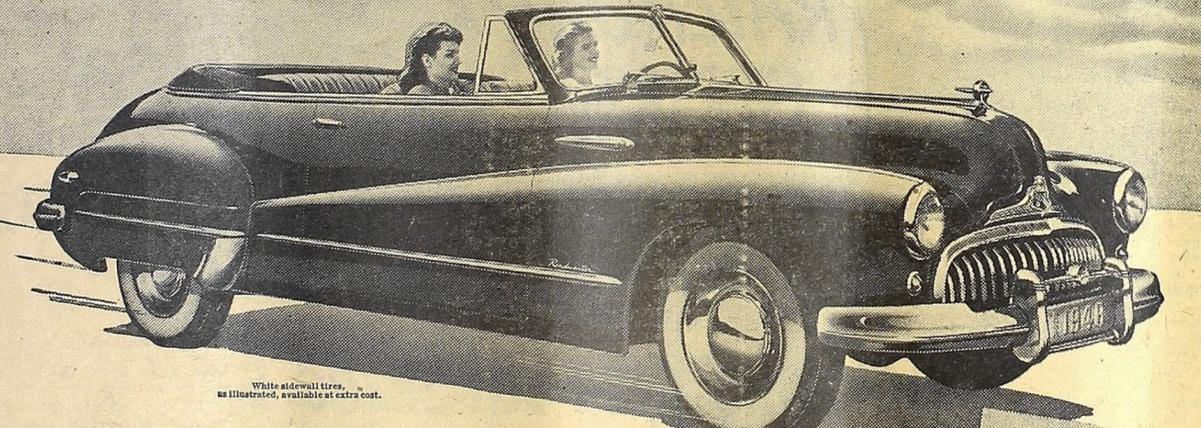

"Up from the ranks" are familiar words around Michigan Bell. Telephone employees know that promotions are made from within the business, that the management and the employees of the company are the same people at different stages of their telephone careers. When opportunities for advancement arise, employees who have shown the necessary ability and qualities of leadership are the ones selected.

This kind of opportunity means much to you. For the skill and experience of telephone people, working together as a team, are major factors in providing good service at low cost.

MICHIGAN BELL TELEPHONE COMPANY

Looked at and looked up to

White sidewall tires, as illustrated, available at extra cost.

This is the one, of course, that you spot at a glance.

This is the one that sends a string of facts racing through your mind — if you know automobiles — the instant you see the name ROADMASTER spelled out on its fender.

Up to one hundred and fifty Fireball horsepower. Eighteen feet big — and spring-coil lively.

Gorgeously finished. Coil-spring cradled on all four wheels. Shod with oversize tires that take extra low pressures for added comfort.

Convenient too — with push-button controls not only for the top, but for door windows and the front-seat adjustment as well.

This, too, is the only passenger car in this country where the power plant does what gears used to do.

Here's the one place you'll find Dynaflo Drive,* in which liquid replaces not only the clutch and manually operated low, second and high, but mechanical gear-changers as well.

In short — here's liquid ease and smoothness in delightful new degree, through a sort of "magic muscle" that lets you forget about gear-changing practically entirely.

No wonder, then, this car is looked up to.

Looked up to for impressive appearance — looked up to for superlative ability.

Looked up to for what's newest in engineering advances.

If your standards call for a real performer — and for quality a cut above the ordinarily good — specify ROADMASTER when you see your dealer (with or without a car to trade) about getting an order in.

BUICK alone has all these features

Woman's World

Charming Toddler's Clothing Can Be Made From Cast-Offs

By Ertta Haley

"DO you really think that adult's clothing can be made over into really wearable things for youngsters? There's something so pathetic about seeing a little girl in something that so obviously was her mother's," said a woman to me one day.

Of course, there are makeovers and makeovers. If a woman simply cuts down her dress for daughter or Dad's trousers for son and leaves grown-up lines and features in them, she has not done the kind of remodeling job that I talk about.

Now the process of ripping a garment apart, adding new material that properly contrasts with the remnant you have, and using a pattern typically a child's fashion, may seem like a lot of work, but truly, that is the only way clothing can be made. You can't re-use heavy padding or the same necklines for children's clothes. You're lost before you start.

However, if you have usable material and are willing to treat it to a pattern, styled for the youngster, and sew on it as though you bought fresh yard goods, then saving and satisfaction are yours.

This is not like altering a few things in a dress for you; it actually is sewing a new garment.

It seems wrong to many women simply to let outmoded garments lie in a trunk or closet; how much more satisfaction to clear out remnants and sew something both attractive and fitting.

How To Use Hand-Me-Downs
Do you want to make some dresses for a little girl? Check the following sources for material in your own home: Old, outmoded or torn dresses with some salvageable material; men's shirts with some back or front and sleeves in good condition; cotton bags that can be dyed; table or bed linen.

Now select a proper pattern and see if the material available will be enough for the pattern. If not, decide how you can use a suitable contrasting material.

If you have print, select one of the colors and see if you can obtain a solid color in that to use for the yolk and sleeves of the dress. Or if you have a solid, select a print that goes well with it.

Should you a little material be lacking, see if that yardage can be made up with eyelet, or organdie from perhaps something you already have at home.

Little girl's dresses usually require less than two yards of material, easily obtained from the salvageable material from the above sources.

Dad's blue chambray or print shirts make attractive pinafores, especially when trimmed with lace, eyelet or organdie. Or use them for a jumper, and make a blouse out of an old sheet or pillow case.

Use These Sources For Boy's Clothing
Many women say that it's not as much fun sewing for little boys as for little girls, but have you seen how mannish clothing for the latter can be made? It's fun to make, too, but you'll have to try for tailored effects.

If you have old corduroy drapes or bathrobe around, see what you can salvage for overalls and a short loose jacket. Use real man-type tailoring for the garments, and you'll be surprised at the happy results.

Those short overalls for the beach can be made from plain shirts like solid blue or gray; they even can be made from some of your old checked house dresses as they require only about a yard and a quarter to one half of material.

Don't trim them except with a contrasting colored binding tape or

Knit Sharkskin

Fabric news is being made right now with this trikot knit sharkskin molded into a soft, feminine classic type dress. This new fabric made of Avisco rayon yarns combines the appearance of crisp sharkskin with the draping qualities of rayon jersey. It will not stretch lengthwise or crosswise. Notice how well the contrasting waistline inserts are handled.

brick brace and keep them excessively simple.

Denim usually gets pretty hard wear if Dad or older brother has used it, so if you're making overalls or pants from that material it's a good idea to buy it new.

You can, however, use old white shirts or sheets or pillow cases for making shirts. Use a pattern and don't attempt to cut down to size using the old shirt.

Woolens can be used for making pants provided you refreshen the material, clean and rip it open, then recut, using a pattern suitable to the child.

Clothes for Toddlers Should Be Sturdy
Although you may sew a very fine seam by hand, it's a good idea to plan to use a sewing machine when you make things for youngsters. Their clothing takes hard wear and tear as well as frequent laundering, and machine stitching is the only means by which the clothing can be made to stand up.

When making boys' clothing, use flat fell seams as this will enable you to give it a more tailored look. It's a good idea to stitch pockets twice on clothes that will receive the really hard wear and laundering, such as denim overalls.

Decorative patches are used for overalls on both boys' and girls' clothing, particularly at the knees. Select something really decorative such as a bunny, dog or kitten face and you'll find the knees will not wear out so quickly.

Don't make clothing too large because children's growing discourages you. They won't be comfortable. You can, however, make big hems on girls' dresses and let out cuffs for the pants and overalls.

The older the child and the more strenuous his activity, the sturdier the fabric selected for him or her should be. If you have a boy who engages in sports or plays out of doors a great deal, choose the most durable of materials for his clothing.

Be Smart!

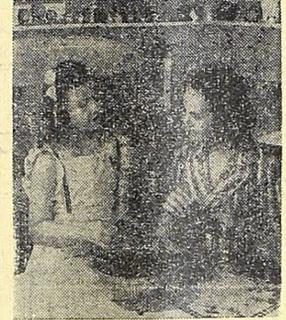

A veritable dream fabric is batiste, so wonderfully sheer and almost silklike in its softness, in pastel pink or blue and white, mostly white. No wonder then that in a season when it is one of the hit fabrics, it's being used for some of the most exquisite nighties and matching negligees.

Canning Rules Insist On Perfect Ripeness, Freshness of Produce

There never was a canning rule better devised than the one about putting up your fruit and vegetables at their peak of freshness and while they are perfectly ripened. If you have your own garden of strawberries, peas and asparagus, you can check them every day and decide when perfection has been reached.

Then whisk the produce into your kitchen where jars and canning equipment wait in readiness. Following directions, you may be certain you have caught the produce at its best, thus assuring perfect eating enjoyment later.

The early canning we want to get out of way includes strawberries, rhubarb, peas and asparagus, particularly. It may seem early, but right now is the time when these delicacies are coming to their best form.

Berries used for jams and jellies should be fresh and ripe. Wash in plenty of water just before using. It's best to wash and then pick off the hulls.

Use only young tender, freshly gathered peas. Shell, wash and sort according to size. Pre-cook three to seven minutes, depending on the age and size of the peas. Pack loosely to within one inch of top into clean jars. Fill to within 1/2 inch of top with water in which vegetable was pre-cooked or boiling water. Put on cap, screwing the band tight. Process 40 minutes at 10 pounds in pressure cooker.

Peas
Remove scales from stalk. Wash thoroughly to remove all soil. Cut in jar lengths. Tie in bundles, place tips up in boiling water to cover lower tough portions. Cover vessel tightly. Pre-cook three minutes. Drain, pack into clean pint jars, tips up. Add 1/2 teaspoon salt to each jar if desired, fill jar to within 1/2 inch of top with water in which vegetable was pre-cooked or boiling water. Put on cap, screwing the band tight. Process 40 minutes at 10 pounds in pressure cooker.

Berries used for jams and jellies should be fresh and ripe. Wash in plenty of water just before using. It's best to wash and then pick off the hulls.

*Strawberry Jam (Makes about 5 six-ounce glasses)
2 1/8 cups prepared fruit
3 1/2 cups sugar
1/4 cup bottled fruit pectin

To prepare the fruit. Crush thoroughly about one quart full ripe strawberries. Measure 2 1/8 cups into a large saucepan.

To make the jam. Add sugar to fruit in saucepan and mix well. Place over high heat, bring to a full rolling boil, and boil hard one minute, stirring constantly.

Remove from heat and stir in bottled fruit pectin. (Scrape all bottled fruit pectin from measuring cup.) Then stir and skim by turns for three minutes to cool slightly, to prevent floating fruit. Pour quickly into glasses. Paraffin at once.

Strawberry Rhubarb Jam (Makes 8 glasses)
1 cup prepared strawberries
1 1/2 cups prepared rhubarb
2 1/2 cups extra sweet corn syrup
1 cup sugar

Wash, stem and crush strawberries. Wash and slice rhubarb, add corn syrup and sugar. Boil until thickened or jam is 220 degrees. Skim and cool five minutes to prevent fruit from floating. Pour into clean hot jelly glasses. Cover with melted paraffin.

Raspberry Jelly (5 or 6 glasses)
2 cups raspberry juice
2 cups extra-sweet corn syrup
1 1/2 cups sugar
1/2 cup liquid pectin
1 tablespoon lemon juice

To prepare juice: Sort and wash slightly underripe raspberries, drain. Crush berries. Simmer 10 minutes. Strain through jelly rag. Measure juice and mix with corn syrup, sugar and liquid pectin. Boil until jelly stage is reached (221 degrees) or mixture threads from a spoon. Add lemon juice. Remove from heat. Skim. Pour into clean hot jelly glasses. Cover with melted paraffin.

Strawberry Sunshine Preserves
2 quarts strawberries
3 cups sugar

Wash and hull berries. Leave whole. Add sugar and stir just enough to mix. Heat in a flat pan over a low burner. Stir occasionally to prevent sticking. When the boiling point has been reached remove from heat and pour into flat pans. Cover with panes of window glass and let stand in the sunshine about two days, or until the syrup is thick. Seal in clean jars.

LYNN SAYS:
Flavor's the Thing When You Cook
Want sausage patties to taste better than ever? Roll them in egg and cornflakes before you fry them.

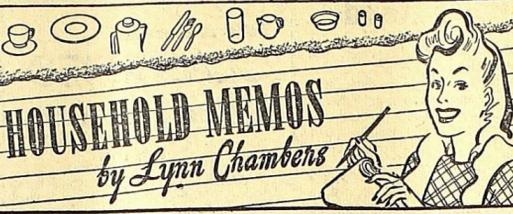

Pork chops take on the new look when you bake them in a mixture of four cups of cranberry sauce, one cup honey and one-half teaspoon of cloves.

Ground almonds go well in creamed chicken soup. Make it thick, smooth and creamy.

Before you fold your omelet, spread it with a mixture of creamed crabmeat. Serve with tomato soup or a fruit cup to make an easy meal.

Mix tuna and crabmeat, then mix with celery, green pepper and hard-cooked eggs. Add cream sauce and bake in ramekins. This is an easy-to-fix meal on a busy day.

Using up hard-cooked eggs? Chop and mix with crumbled bacon, moisten with mayonnaise and season with Worcestershire sauce. A go-to-snack or salted rye bread.

HOUSEHOLD MEMOS by Lynn Chambers

LYNN CHAMBERS' MENU

- Broiled Trout
- Buttered New Potatoes
- Fresh Peas
- Tossed Salad
- Hot Biscuits
- Beverage
- *Strawberry Jam
- *Pineapple Sundae
- *Recipe Given

- Tutti Frutti Jam
- 4 cups strawberries or raspberries
- 2 cups gooseberries
- 2 cups currants
- 2 cups diced rhubarb or pitted cherries
- Sugar (3/4 as much as fruit pulp)

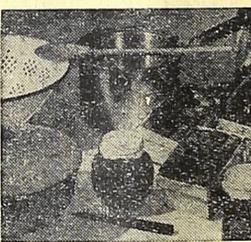

Mash fruits and heat gently until juicy and well mixed. Measure and add three-fourths as much sugar as fruit. Cook rapidly and stir the mixture until thickened, about 20 minutes. Pour into clean, hot jars and seal.

Remove scales from stalk. Wash thoroughly to remove all soil. Cut in jar lengths. Tie in bundles, place tips up in boiling water to cover lower tough portions. Cover vessel tightly. Pre-cook three minutes. Drain, pack into clean pint jars, tips up. Add 1/2 teaspoon salt to each jar if desired, fill jar to within 1/2 inch of top with water in which vegetable was pre-cooked or boiling water. Put on cap, screwing the band tight. Process 40 minutes at 10 pounds in pressure cooker.

Use only young tender, freshly gathered peas. Shell, wash and sort according to size. Pre-cook three to seven minutes, depending on the age and size of the peas. Pack loosely to within one inch of top into clean jars. Fill to within 1/2 inch of top with water in which vegetable was pre-cooked or boiling water. Put on cap, screwing the band tight. Process 60 minutes at 10 pounds in pressure cooker.

If you want to put up strawberries and rhubarb, the methods are really very simple. I am giving two that will work well, one for strawberries that will not float, and an easy oven baked rhubarb that needs to be processed for only five minutes in the water bath.

Wash and cut rhubarb into one-inch lengths without removing the skin. Place in a baking dish and add one cup sugar to each quart of rhubarb. Cover dish and bake until

Perfect jellies and jams are possible when you use the carefully tested recipes in this column.

rhubarb is tender. Place rhubarb and syrup which has formed, into clean jars to within 1/2 inch of the top. Put on cap and adjust according to manufacturers' instructions. Process in water bath five minutes.

- Strawberries (Will Not Float)
- 1 cup sugar
- 2 pounds strawberries
- 1/2 cup strawberry juice

Boil together the sugar and strawberry juice. This juice may be obtained by crushing and heating some of the culls or overripe berries. Cool and add the whole berries, then boil for three minutes. Cover the vessel, then set aside for four hours or overnight. Pack into clean jars to within one-half inch of the top. Adjust cap. Process in water bath for 15 minutes.

A refreshing fruit drink always is welcome as the warm days of spring and summer approach. Try the following for the evening's refreshments: For four glasses, combine two cups orange juice, one-half cup lemon or lime juice, one-half cup diced or shredded fresh pineapple. Chill thoroughly. Pour into glasses with chilled ice or ice cubes, fill with gingerale.

Released by WNU Features
Before you fold your omelet, spread it with a mixture of creamed crabmeat. Serve with tomato soup or a fruit cup to make an easy meal.

FIRST AID to the AILING HOUSE by Roger C. Whitman

QUESTION: We are using quite a bit of plywood in our home, and want to keep it natural—also all the woodwork. What is the best to use on it to keep it a light color? Also, what can I use to fill the nail-holes so they won't show.

ANSWER: All plywood, except fir plywood, can be given a thin coat of white shellac thinned half-and-half with denatured alcohol. Then two thin, even coats of paste wax are applied and, when each coat is dry, it should be well rubbed. Another method is to finish with a penetrating wax or two coats of top-quality, quick drying varnish. If fir plywood is used, it should be given a prime coat of a special kind of preparation which "flattens" the grain of this particular kind of wood for a smooth finish. After the prime coat is dry, the wood can be finished with wax, varnish, shellac, paint or enamel. Nail holes can be filled with wood putty colored with an oil stain to match the wood.

QUESTION: I have bought an old house that has wooden gutters with metal linings. The linings have rusted through from lack of paint. Could I paint over the metal with some of the new-type waterproof paint?

ANSWER: If the metal has rusted through, I believe it would serve no purpose to retain it. If you can remove it without too much trouble, you could paint the wood gutters on the inside with liquid asphalt paint, and the outside with a good house paint. If there are spaces at the joints, cover them with roofing cement and roofing felt, then paint over the felt with asphalt paint.

FATHER, IF YOU READ THIS

come back to us. Mom's not cross at you any more. She said, "I never would have picked that quarrel with Dad if I hadn't felt so miserable." Seems she'd been bothered with constipation caused by lack of bulk in the diet. Well, since Grandma tipped her off to KELLOGG'S ALL-BRAN, Mom has joined the "regulars"—and what a difference in her! She polishes off a bowlful of ALL-BRAN every a.m., drinks a lot of water. She's taken to baking swell muffins, too, from the recipe on the ALL-BRAN box. So come on back. You'll find home was never like this—before ALL-BRAN. JACK.

NEWS that makes folks sleep all night!

Thousands now sleep undisturbed because of the news that their being awakened night after night might be from bladder irritation, not the kidneys. Let's hope so! That's a condition Foley Pills usually allay within 24 hours. Since bladder irritation is so prevalent and Foley Pills so potent, Foley Pills must benefit you within 24 hours or DOUBLE YOUR MONEY BACK. Make 24-hour test. Get Foley Pills from drug-gist. Full satisfaction or DOUBLE YOUR MONEY BACK.

STRIKES ME them cook books that give recipes for pies and cakes should have a whole chapter on shortnin'. They ought to tell folks how important it is to use a shortnin' that tastes good by itself—like Nu-Maid Table-Grade Margarine.

*\$5 will be paid upon publication to the first contributor of each accepted saying or idea for "Grandma Speakin'" Address Nu-Maid Margarine, Cincinnati 2, Ohio.

Why?
WHY TAKE HARSH LAXATIVES?
Try Healthful Lemon in Water!

The juice of a lemon in a glass of water, when taken first thing on arising, is all that most people need to insure prompt, normal elimination. No more harsh laxatives that irritate the digestive tract and impair nutrition! Lemon in water is good for you! Generations of Americans have taken lemons for health—and generations of doctors have recommended them. They are rich in vitamin C, supply valuable amounts of B1 and P, they alkalize, aid digestion.

Not too sharp or sour, lemon in water has a refreshing tang—clears the mouth, wakes you up. It's not a purgative—simply helps your system regulate itself. Try it 10 days.

USE CALIFORNIA SUNKIST LEMONS

SPRAY WITH Black Leaf 40
—Double-duty Insecticide: Kills by contact, kills by fumes. Destroys plant lice but spares beneficial insects. Treat on original factory-stated containers to insure full strength.

Relieves Distress of MONTHLY FEMALE WEAKNESS
Also Helps Build Up Red Blood!
Do female functional periodic disturbances make you suffer pain, feel so nervous, irritable—at such times? Then try Lydia E. Pinkham's TABLETS to relieve such symptoms. Pinkham's Tablets are also very effective to help build up red blood in simple anemia.

Watch Your Kidneys!
Help Them Cleanse the Blood of Harmful Body Waste
Your kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act as Nature intended—fail to remove impurities that, if retained, may poison the system and upset the whole body machinery.
Symptoms may be nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—a feeling of nervous anxiety and loss of pep and strength. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.
There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. Doan's have been winning new friends for more than forty years. They have a nation-wide reputation. Are recommended by grateful people the country over. Ask your neighbor!

STAGE SCREEN RADIO
By INEZ GERHARD

EVA GABOR is beautiful, charming, wealthy—and works as hard as any ambitious extra girl, maybe even harder. More than anything else, she wants to be a good actress. Typed at first as a Hungarian countess in pictures, because she was Hungarian and just learning English, she plays a countess again in "Abigail, Dear Heart" at Paramount, although she speaks perfect English now. She has been studying drama and dancing and working in little theaters. "I've taken every part I was offered," she says. Vacating in New York, she saw plays, read plays for directors, concentrated on the goal she is sure to attain—being a really good actress.

When Humphrey Bogart was training with paratroopers in the Colorado desert for "Sahara" he encountered John Derek. Now Derek, with no previous film experience, is to be

HUMPHREY BOGART

seen in Columbia's "Knock on Any Door," in an important role as a sullen young killer. Bogart has the star role of the lawyer who defends him.

The "Theatre Guild on the Air" has not attained its reputation as one of our very best radio shows by accident. Homer Fickett, director, rehearses the cast of each broadcast as carefully as if for a Broadway production. In fact, it's said to be the most rehearsed program on the air. Top stars of stage and screen, carefully selected plays and able direction make the broadcasts outstanding. And it adds no little to even the best actors' prestige to appear on the show.

With Arizona, New Mexico and Nevada contemplating or implementing laws which would tax movie locations, Gene Autry has purchased a California ghost town which will be used for his Columbia productions and leased to other companies.

Eleanor Parker's "motherhood gift" from her husband was a pair of jeweled clips combining diamonds, emeralds and rubies; each clip is in the form of a turtle dove, commemorating her latest screen drama, "The Voice of the Turtle."

Gene Kelly will do two of his song and dance numbers from "Pal Joey," the stage musical that made him famous, in "Words and Music," picture based on the lives of Richard Rodgers and Lorenz Hart, who wrote "Pal Joey."

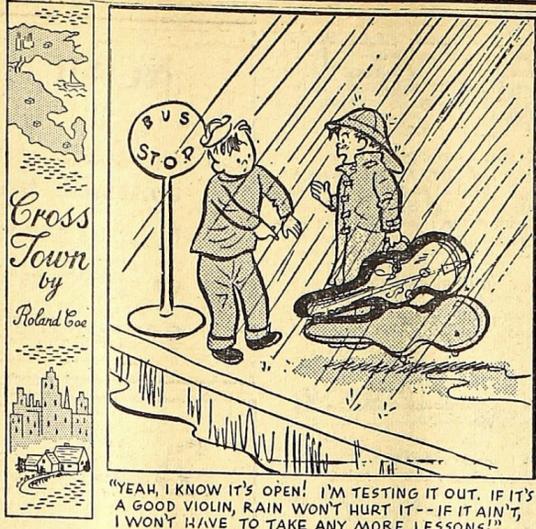

A special network is being established in Philadelphia by Mutual for its coverage of the Republican and Democratic conventions in June and July. Forty-five commentators and newscasters will broadcast from convention hall during these weeks, and the entire city will be linked to Mutual's special master control unit for complete coverage.

In his first screen role, Larry Parks got second billing to a camel. It was in a Biblical short. "I didn't mind getting only \$3 a day," said he, between scenes for "The Gallant Blade," "until I found the camel got \$50."

Odds and Ends . . . Willard Waterhan of "The Guiding Light" achieved a golfer's dream by making a hole in one—now wonders what is left for him to conquer . . . Sydney Greenstreet says actors are more temperamental and more inclined to scene stealing than actresses; he should know, as he has been an actor for nearly 50 years . . . As a teen-ager, Una Merkel took elocution lessons in Cincinnati from a teacher named Pasha Reaum—better known today as the mother of Tyrone Power . . . Johnny Mercer of the CBS Dinah Shore-Harry James show has written hundreds of lyrics and songs, but can't read a note of music.

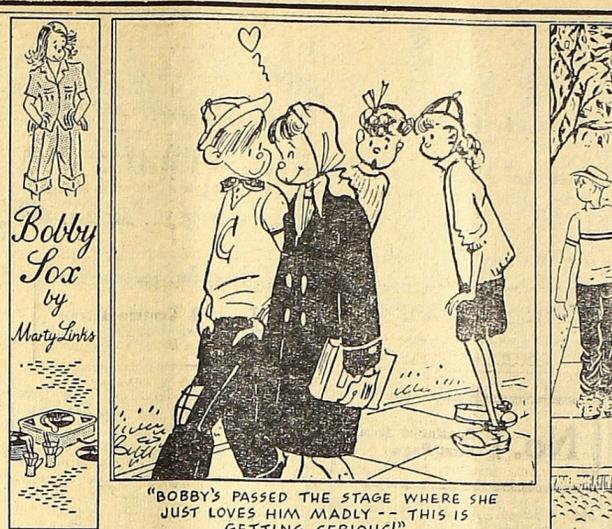

One moment we hear that nobody wants to see war pictures any more, the next moment a new one is announced. Warner Bros., who made "Dawn Patrol," air combat film of World War I, will produce "Fighter Squadron," World War II equivalent.

The gorgeous diamond brooch Dorothy Lamour wears in "Lulu Belle" once belonged to the fabulous "Diamond Jim" Brady. It now is owned by Johnny Elwood.

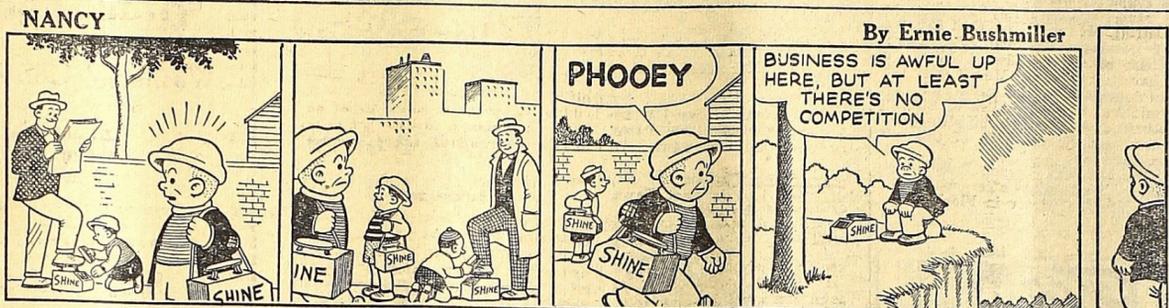

Cross Town by Roland Cox

"YEAH, I KNOW IT'S OPEN! I'M TESTING IT OUT. IF IT'S A GOOD VIOLIN, RAIN WON'T HURT IT--IF IT AIN'T, I WON'T HAVE TO TAKE ANY MORE LESSONS!"

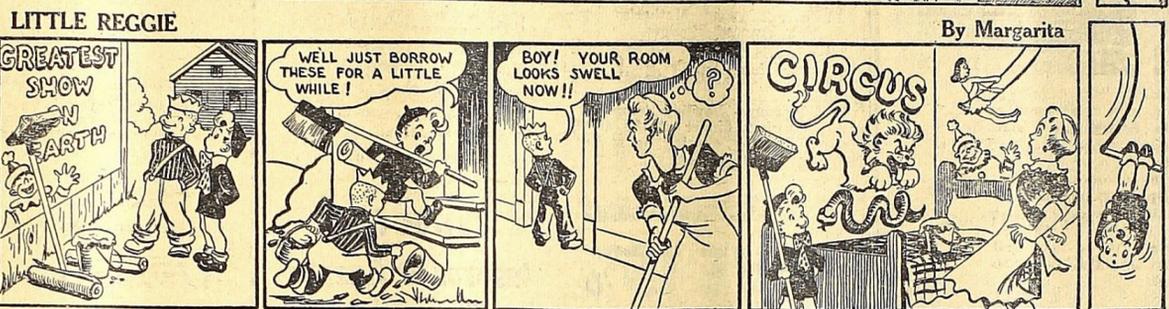

Bobby Sox by Marty Link

Camelback Mountain
Camelback mountain, located a few miles northeast of Phoenix, Ariz., takes its name from the fact that it closely resembles a giant camel lying prone on the desert. The Indians also have a legend about it. Once, shortly before the Civil War, the government imported a band of camels from the Middle East for travel across the forbidding southwestern desert. The camels became scattered and wandered aimlessly over the desert. One of the last survivors defied the gods of thunder and lightning and, according to Indian legend, was turned to stone.

Tree Planters' State
Nebraska was named the "Tree Planters' state" by act of legislature in 1895 because Arbor Day was originated there by J. Sterling Morton and because forestry was emphasized by its pioneers and their successors, according to Encyclopaedia Britannica. The name "Nebraska" itself, suggested by Fremont in 1843, was derived from the Ojibwa Indian name for the Platte river—"Nebrath-ka," meaning "Shallow Water."

Railway Telegraph
Class I railroads of the United States use 1,346,000 miles of telephone and telegraph wires in their operation, sufficient to reach 54 times around the globe at the equator.

Just an Old Wind-Bag
If you think you're using modern slang when you call someone an old "wind-bag," you're wrong. Aolus was the father of the winds in Greek mythology. World Book encyclopedia says he kept the wind in bags and loosed them according to his whims. Sometimes he released gentle winds to help sailors on their way. Sometimes he let out fierce ones to create great storms. The term "wind-bag" came from this ancient legend.

First Balloon Passengers
First passengers ever to ride in a balloon were a duck, a rooster and a sheep. They were placed in the basket under a paper-lined cloth bag filled with hot air and sent aloft by the Mongolier brothers in France in 1783, according to World Book encyclopedia. The flight lasted eight minutes and the animals landed safely.

Mile of Tubing
One of the larger electrical manufacturing plants has a furnace that turns out 800 miles of glass tubing a month, enough for one million fluorescent lamps.

Work With Cows
In Russia a cow requires 460 hours care a year. In the United States, the farmer puts in only 140 hours of care and gets twice as much milk per cow.

MONARCH MEN'S WEAR

Tawas City Next to Bowling Alley

The leaders of the Home Economics groups will meet with Miss Rann in the Extension Conference Room, East Tawas, May 11, from 10:00 a. m. to 3:30 p. m. according to the announcement by Harold R. Clark, County Agricultural Agent.

A large part of any women's enjoyment of clothing comes from knowing that she is wearing something which is up to date in fashion. The ability to remodel a garment means economy as well as variety and improved appearance.

The lesson given at the leader's meeting will be in the form of a clinic in which fashion trends and ways and means of re-styling garments brought in by the members will be discussed.
