

## Would Up Iosco Equalized Valuation to \$33,180,874

### State Tax Commission Here Tuesday

#### Assessment Rolls of County Checked by State Field Men

Iosco county's equalized valuation may be set at \$33,180,874 when the State Tax Commission enters its order of determination, stated Louis M. Nims, chairman of the commission, at a meeting of the commission with the Board of Supervisors Tuesday at the Court house. The assessed valuation of the county is \$13,956,155.

The state tax commission came to Iosco county on an appeal by seven Iosco supervisors who were dissatisfied with the equalization of the county's tax units as set up by the committee on equalization of the Board of Supervisors last April. The supervisors filing the appeal with the State Tax Commission were: Victor J. Anderson of Alabaster, L. S. Little of Grant, Charles W. Monroe of AuSable, Glenn Long of Tawas, John B. King, Fred Brabant and C. S. Everett of Tawas City.

Chairman Nims stated that the entire county had been carefully checked by field men during the past summer at considerable cost and that the commission had reached the conclusion that Iosco County should be equalized at \$33,180,874. Since the present assessed valuation of the County is \$13,956,155, this means that the valuation of the county should be more than doubled, according to Nims.

Mr. Nims stated that he hesitated on immediately entering an order equalizing the County at \$33,180,874, because it would certainly cause undue hardship in many of the taxing units of the County because of the Special voted taxes that had been put into effect this year and unless mileage adjustments could be made through the co-operation of the County, Townships and Schools, Iosco County residents would be faced with the prospect of paying nearly double their anticipated tax bills.

After considerable discussion and questions by members of the Board the members of the State Tax Commission decided to hold the matter open for a few days to give the supervisors an opportunity to discuss the situation with their local units. The Commission also left one of their field men in the County to assist in any way they were able in working out a satisfactory solution. That an order from the State Tax Commission will presently be entered is a foregone conclusion and it now remains a problem to be worked out through the close co-operation of County, Township and School units.

A complete schedule of the entire workings of the Tax Commission in their recent survey is on file in the County Clerk's Office and is broken down by Townships. It is available to all interested parties for the asking. Each Supervisor has also been furnished with pertinent information.

### Two Promotions at National Plant

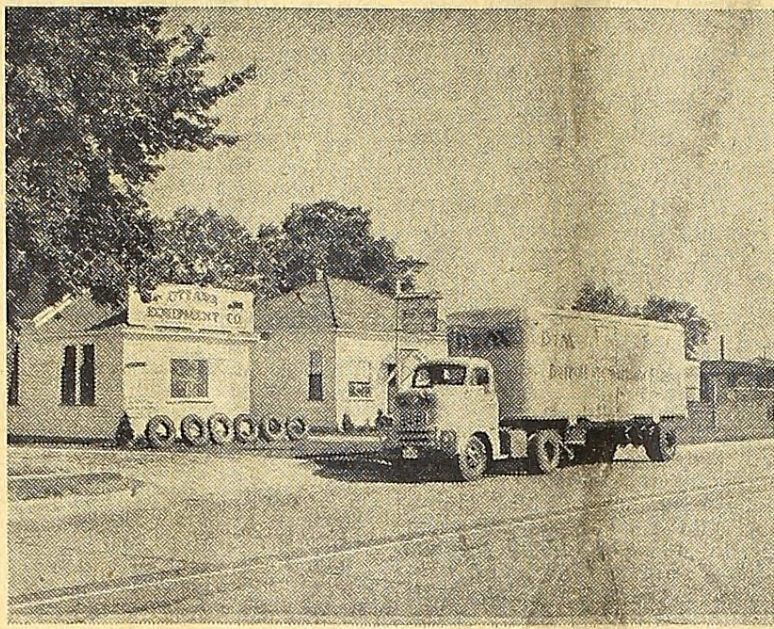

C. H. Hill, plant manager of the National Gypsum Company plant at National City, announced two promotions effective last week following the retirement of Elmer Durant, East Tawas, rolling stock mechanical foreman who has served with the company for 24 consecutive years. Durant is 67 years old.

Hill said Kenneth Clerk, Turner, who has been with the company a number of years, has been promoted to rolling stock mechanical foreman from his job as a mill foreman.

Albert Birkenbach, of East Tawas, has been promoted to plaster warehouse foreman. Formerly a mixer helper in the plaster warehouse this will be the first foreman job for Birkenbach.

Mr. Harvey Watson has been visiting with her daughter in Detroit the past week.

### Becomes Member of National Truck Leasing System Achievement Citation Given National Workers

With the recent acceptance of the Ottawa Equipment Company into membership in the National Truck Leasing System, truck rental service is offered to businesses and individuals in the Tawas area.

The Tawas City firm, which also sells International trucks and Kentucky trailers, is affiliated with a national system that has 26 major truck-leasing companies operating in 135 cities numbered among its members, reports Ottawa Manager Gordon Everett. According to him, leased trucks offer advantages to every type of business. Users of this service include laundries, dairies, bakeries, bottlers, florists, packing companies, retail stores, sand and gravel haulers and many others.

"There are four fundamental advantages to leasing trucks," Everett explained. "This program—

1. Saves time for the boss or owner by permitting him to concentrate on his basic business instead of having to think about license, maintenance and insurance for his truck fleet;
2. Costs are known in advance, this permits more efficient budgeting and gives relief from the flood of bills incidental to operating your own trucks;
3. Releases capital investment and makes money available for expansion, better inventories and other business purposes;
4. There are no maintenance worries—well maintained equipment carries the custom trademark of a firm or individual and are their trucks to all intents and purposes. Each truck is replaced by a new one at regular intervals.

### Robs Wabun; Arrested Within Few Hours

John G. Jackson of Oscoda was arrested Saturday evening charged with robbing the Wabun on US-23 near Oscoda early Saturday morning. He was arraigned before Justice H. E. Friedman.

Jackson admitted his guilt in the robbery when taken by law enforcement officers. He rifled the cash register, then removed a 500 pound safe from the building and hauled it to a place in the woods near Foote Site. Here he opened the safe and took what money he could find. An undetermined amount of money which Jackson overlooked still remained in the safe.

When arrested, \$765 of the money was found in Jackson's room. All the money taken by Jackson was recovered.

Jackson's arrest was made through the work of the Sheriff's Department, State Police and Detective Biggs of the Michigan State Police.

### Approve Plans For St. Joseph's New Church

#### New Structure at East Tawas Would Cost \$140,000

Plans have been submitted and approved for a new church for St. Joseph parish at East Tawas according to an announcement made this week. The estimated cost of the proposed structure is \$140,000. Paul A. Brysselbout of Bay City is the architect.

The new church will be constructed of cinder block with light colored brick veneer. It will replace the present St. Joseph church, a frame structure which was completed and dedicated in 1873. The present church has seating for only 280 worshippers. During most of the five masses each Sunday in the summer season, there have been as many persons forced to stand outside as could get inside.

The site of the new church is a part of the old Beal Nursery recently purchased from the United States Forest Service. It comprises about three acres. The building will face Wilkinson street.

"We plan to start construction this fall and have the building ready for occupancy by next summer, even though it will not be complete," the Rev. Fr. Robert F. Neuman, pastor of St. Joseph, declared.

### Mr. and Mrs. Oates Married 40 Years

Mr. and Mrs. Michael Oates of Alabaster were happily surprised Thursday night when all the members of their family walked in on them to help them remember they had been married forty years and were given an appropriate anniversary card with forty crisp one dollar bills to represent each year married. After a very enjoyable evening of visiting, fun and story telling coffee, ice cream and three beautiful cakes, decorated with "Happy 40th Birthday," was served. Attending were Mr. and Mrs. H. Oates, Herbert Oates, Mr. and Mrs. O'Brien, Mr. and Mrs. Wallace Jennings, Mr. and Mrs. Robert Oates, Mr. and Mrs. Clarence Oates and Fred Oates, Rev. W. A. Gregory, now of Augres Methodist Church was the pastor who married Effie Jacobs and Michael Oates forty years ago in East Tawas. Mrs. Wallace Jennings is a daughter of Mr. and Mrs. Michael Oates. All went home wishing them many more happy anniversaries.

J. J. Forbes, director of the Bureau of Mines, congratulated the men in a letter to the company president. He said, "The outstanding performance of operating the quarry a total of 55,302 man-hours without a lost-time injury marks it as a leader in accident prevention work in the mineral industries of the nation." The record stands at the top of all quarries in the United States.

Another letter congratulating the men came to Hill from L. R. Sanderson, president of the National Gypsum Company.

"I hope you will pass my personal congratulations on to your organization for this very wonderful accomplishment," wrote Sanderson. "It is very gratifying to know that our people are so thoroughly safety conscious that they can establish such a fine record."

"I am sure that this award will provide the stimulus for continued effort in this important phase of our operations."

### Fred Moore to Speak at Youth for Christ Meet

### Bronson Buys Texaco Service Business

#### Leases Service Station from Fletcher Oil Co.

Announcement was made Monday of an important business change in the city. Arnold Bronson of the Bronson Motor Sales has leased the Fletcher Service Station and purchased the business from William Horen. The station will continue to handle Texaco products and accessories, and a complete line of sporting goods, Mr. Bronson stated.

Mr. Horen has been operating the business since the property was acquired seven years ago by the Fletcher interests from Arthur Ziehl. Extensive improvements were made at the time to station and the facilities were greatly enlarged.

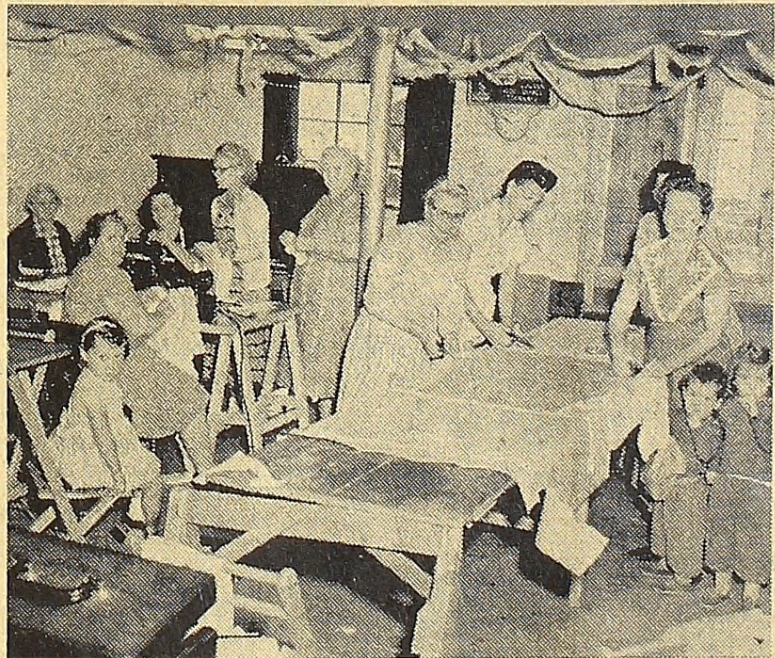

During the seven years that they have been here, Mr. and Mrs. Horen have acquired many friends who will be pleased to learn that they plan to remain in the city. "We like the Tawas and will continue to make our home here," Mr. Horen stated.

### M-65 Accident Fatal to Saginaw Man

#### Truck Rolls Over Near Curve and Is Demolished

Raymond J. Oates of Saginaw, operator of an ice cream truck for C. B. Burton & Sons, was instantly killed Wednesday when his truck rolled over near the junction of AuSable River Road and M-65. The truck was demolished.

Mr. Oates was alone in the truck and there were no eyewitnesses to the accident, but apparently the speed of the truck was too fast to make the curve in the road at that point. He was driving from Hale on M-65. The accident occurred at about 1:00 o'clock in the afternoon.

The remains were taken to the Moffatt Funeral Home and Thursday morning to the Diesler Funeral Home at Saginaw.

He is survived by his mother, Mrs. Maude Howard, and a half brother.

Coroner E. John Moffatt, the Iosco County Sheriff's Department, State Police and Prosecuting Attorney R. J. Barnett investigated the accident.

The Iosco County Road department removed the debris of the demolished truck and contents from the highway.

### Play-off Chances Snuffed Out

#### Series of Exhibition Games Planned

A three run spurge in the fourth inning, snuffed out Alabaster's chances in the N. E. M. League playoff, with Pinconning going on to win 3 to 0. The game, originally set for the Alabaster diamond, last Sunday, was re-scheduled for Pinconning when rain threatened postponement.

Pinconning did all their scoring in the fourth, when a pair of singles, one a bunt; a walk, two errors; a fly ball and a wild pitch accounted for three runs.

Potts started for Alabaster and hurled until the fourth. He was replaced with John Martin after one was out. Potts allowed three hits, walked two and struck out two. Martin gave up two hits the remainder of the game, and struck out five. Salois for Pinny allowed five hits, struck out five and didn't walk a man.

Alabaster plans to play a series of exhibition games before the season officially closes.

**A King Prays**

Lesson for September 21, 1952

**KING SOLOMON** is not best known for his prayers; yet they are among the most remarkable features of what we know of him. If we can know what a man prays for, we know the heart of the man.

Dr. Foreman

The higher a man's place in life, the more he stands in need of prayer, the prayers of others as well as his own. King Solomon's reputation for wisdom based on one rather fantastic court decision, or on the splendor of the Temple, which he did not design; still less on those legendary powers such as being able to converse with dragonflies and demons. He was never more wise than in his prayers.

**Dreams Give You Away**

**THEY SAY** that when one is learning a new language, one can be sure one is making progress when one starts dreaming in the new language. Dreams, psychologists believe, show us what our minds are like, beneath the smooth surface. We should not take all our dreams too seriously, because, after all, it is the conscious mind that is at the wheel during our waking lives. But still a dream may show the kinds of wishes and desires and fears which lie deeper than our usual consciousness.

Now when a man dreams about praying to God face to face, you may be sure he is really a God-fearing, praying man. So the young Solomon's dream of his interview with God is a good indication of the depths of his mind and intentions at that time.

It was not a silly dream; it was quite serious. We may well believe that the young king often thought about it afterwards, and that God actually took this way of speaking to Solomon.

**Ask for One Thing** IN THAT dream Solomon is invited to pray, and God guarantees to answer the prayer, whatever it is. It is remarkable what Solomon did not ask for.

Considering the fact that his father had been such a warrior, one might expect Solomon to ask for victory in war. But the young king, even in his dreams, did not picture himself as a conquering hero. Then again, he might have been expected to want to be rich. He came of a race that rated property very highly indeed. In the Hebrew language, the expression "a great man" often meant simply a very rich one. But it was not money that Solomon desired most of all. A third blessing too might have been in Solomon's mind; something that every man of his time looked on as a sure sign of the blessing of God: namely, long life. But this too was not what the young man most wished to have.

Instead, he prayed for wisdom. Knowledge is knowing; wisdom is knowing how to use what you know. And he wanted this wisdom, not in order to be rich, powerful or long-lived, but in order to become a good leader of his people.

One cannot help believing that Solomon already had in him the seed of wisdom, or he would not have offered that prayer. Only the wise know what a jewel wisdom is.

**Prayer of a Mature Mind**

**ANOTHER** prayer of this famous king is recorded at the dedication of the Temple. Solomon had grown older by that time, and we can see in this prayer that he had grown wiser as well. For good as his dream-prayer was, this later one was deeper, higher, wiser. By this time his idea of God is higher than it was. He is aware now that God does not live even in the most gorgeous of temples; his dwelling place is in heaven, and his care is not for the nation of Israel alone.

Then again, in the earlier prayer Solomon's horizon was bounded by the limits of his native land. His prayer was unselfish, indeed, but it took in the welfare of his own subjects—no others. Now at the Temple he prays for "the stranger... all the people of the earth."

Furthermore, if in his earlier prayer young Solomon was aware of his and his people's weakness and ignorance, now he feels something deeper, more serious: the burden of human sin. He prays for many blessings, but above all for this: forgiveness for every heart that turns to God. When we ourselves pray, are our prayers mature? How high is our thought of God? For how wide a circle of persons do we pray? And do we pray first, and most of all, for things, or for power, or to be in harmony with God?

**ORGANIZE HOLY NAME SOCIETY YMONDAY EVENING**

Following the regular Monday night devotions at the Immaculate Heart of Mary Church, a meeting was held for the purpose of organizing a Holy Name Society. Approximately fifty men from the parish assisted at the meeting and selected the following to be their officers for the current year:

President, Walter Schuhmacher. Vice President, Leo Hosbach. Secretary-Treasurer, J. E. Hosbach.

The newly elected officers relieved the temporary president, Dr. J. D. LeClair, Vice President, John Monarch and Secretary-Treasurer, E. D. Jacques, of the chairs and proceeded to establish an Ushers' Club for the Immaculate Heart of Mary Parish. E. D. Jacques was unanimously elected President and the following men volunteered for ushering duties:

8:00 Mass—Earl Crown (Captain), Fred Brabant, John Monarch, Sanford LeClair, George Baldwin, Joe Klish, William DeLosh, and Clem Stephan. 11:00 Mass—Clinton Jarvis (Captain), Al Jerome, George Hosbach, Dallas Kowalski, Dick Lansky, Leo Klish and Lawrence Ball.

Father Kirchman, addressed the group and stressed the importance of having active societies in his parish.

**MERRY NEIGHBORS HOLD REGULAR MONTHLY MEETING**

The Merry Neighbors held their meeting last week with Mrs. Edith Pierson. Mrs. LaVerne Koepke and son, Dale, were very enjoyable guests.

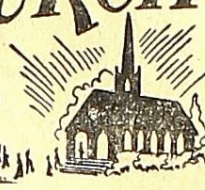

Mrs. Lloyd Newvine, Mrs. Silas Thornton, Mrs. Felix Johnson, Mrs. Ruth Blumquist and Mrs. Pierson were lucky winners playing games. Mrs. Orville Strauer took home the door prize which was a very pretty print table cloth.

Mrs. Harold Parent cut a beautiful birthday cake and received a gift from the club.

Plans were not completed for the next meeting.

If your nylon or orlon curtains are neatly folded when you wash them, you will have less trouble with wrinkles and probably less pressing to do. Wash by the usual method, swishing the folded curtains up and through the sudsy wash waters.

The "depot" for supplies is in the projection room at the Community Building.

The unit has bed pans, crutches, rubber ring, back rest, irrigation basin, disposal pads, draw sheets, also a wheel chair and bedside table upon request.

The supplies are donated by the public and are loaned or given to anyone to use for accidents or illness. You may receive a loan by contacting the members of the unit. They are President, Mrs. Hilda Parkinson, Grange, Secretary-Treasurer, Mrs. Dorothy Bernbach, Eastern Star; Mrs. Addie Scofield, W. S. C. S.; Mrs. Blanche Wagner, Dorcas; Mrs. Arlene Vinnedge, Lutheran Ladies Aid; Mrs. Elsie Hewitt, Assembly of God; Mrs. Rosa Hicks, Willing Workers, South Branch.

Many of the supplies are on loan at present, but we would like everyone to visit the unit and see how it can help you, and how you can help it.

# Our READERS Say

September 15, 1952

Editor  
The Tawas Herald  
Tawas City, Michigan  
Dear Sir:

Regarding our school vote that is coming up on the 30th, it appears to me that a number of people are hesitant to make up their minds, thinking that the question of location of the school is involved at this time.

Location is no part of the question and will not come up for some time, and when it does come up, the people of the consolidated district will have ample opportunity to join in the decision.

The joint school committee has completed their job of setting up the machinery whereby the voters of some 13 school districts will be given the opportunity to vote on the question of consolidating our school assets, and the only question is whether of not the 13 districts see fit to combine to the end that they will be represented as a unit, by a board elected by them.

If the vote should not carry at this time, I doubt if we will be given an opportunity of again voting on the question and the 13 will remain divided and each will continue to carry their school load, without the benefit of the group.

On the other hand, if the vote is successful and the districts involved see fit to pool their assets and cooperate as one unit, which has proven so advantageous in other localities, a board will then be elected and we could continue to operate as in the past, until such time as the board, under pressure of the voters in the consolidated district and the school needs, see fit to build a new school.

At such time it will be the responsibility of the board to determine the requirements of the district and set the machinery in motion to construct a building for the benefit of the district. At that time, and not now, will the board consider location, size, cost and methods of paying for the improvements. The voters will then be given the opportunity to approve or disapprove the plan presented by the board, either as to location, cost, bonding of any other of the policies incorporated in the plan presented at that time, which must also meet State requirements.

If the plan is not approved as such, it will be the responsibility of the board to reconsider the questions that were objected to and again present a new plan and continue to do so, until such time as they present a plan that would be acceptable to the voters of the consolidated districts.

Defeat of any plan projected by the board would not close the door to improvements and new schools. It would only require the board to work out a new plan which would be acceptable to the district as a whole.

As you can see, at the present time, it is only a question of whether or not we pool our assets, and nothing else. If it is defeated the door is closed forever.

Let us carry the vote and we can thereafter take the successive steps in the direction of a better school system.

## Blood Bank Program Very Successful

The Iosco County Community Blood Plasma Program (Blood Bank) held at the Community House, East Tawas, on September 9th, had about a capacity number of donors. The Michigan Health Department was unable to supply the planned six bed unit, due to demand for the unit, but the 4 bed unit handled the donors very nicely.

The community owes a debt of gratitude to the people who donated blood and to the volunteer workers who helped make it a success. Mrs. L. G. McKay and Mrs. John LeClair were co-chairman, assisted by Mrs. Joseph Homberg. The unit was staffed by Dr. Wiley and three specially trained nurses, all of Lansing. They were assisted by six volunteer local registered nurses and four nurses aides. Other volunteer workers included six registrars, two receptionists, 12 canteen workers and five publicity chairman.

Iosco County Red Cross Chairman, Mrs. Donald Gordon, wishes to extend the thanks and appreciation of the Red Cross to all the donors and all the volunteer workers.

The following is a list of people who were examined by Dr. Wiley. However, a few on the list did not meet the health requirements.

Oscoda donors: Mrs. Alice Mack, Fred Mack, Mrs. Maxine Bissonnette, Mrs. Raymond Mastack, Bruce Caldwell, Mrs. B. Gillis, Kenneth Brooks, Herman Hofacer, Mrs. Lillian LeCurenx, Mrs. Ann Sacks, Mrs. Maude Ott, Mrs. William Hernden, Mrs. Gordon Bindsey, Mrs. Lillian Terrain, Mrs. Florence Couture, Mrs. Rea Matthews, David Fellows, Jr., Mrs. Hazel Senter, Miss Marilyn Mills, Miss Iva McKinney, Allen Clark, Mrs. Betty Clark, Mrs. Helen Lynch, Mervia Dimmick.

Tawas City donors: Mrs. William Wescott, George Wescott, Leonard Hosbach, Cecil Cabbie, Rhoda Cabbie, Clarence Everett, Robert Roach, James Brown, Richard Clark, Miss Dorothy Mayes, Mrs. Hattie Rapp, Mrs. Buelah Putman, Mrs. Procnier, Don Meyers, Mrs. Alice Johnson, John Johnson, Route 2, Ira

Bessey, Route 2, Walter Niles, Route 2, Mrs. Sarah Lake, Route 1, Mrs. Helen Wenda, Route 1, Mrs. Celia McCardle, Route 1, John Arnett, Route 1.

## RURAL WOMEN'S STUDY CLUB

The September meeting of the Rural Women's Study Club was held at the Vine school in the club room on Wednesday. Mrs. Iva Earl presided and the members received their new year books.

A discussion was held on the voting privilege and everyone being registered and getting out to vote intelligently. Irene Lorenz discussed the three amendments to be voted on.

The October meeting has been postponed one week, and will be held October 14, due to the district meeting at Mt. Pleasant. A social hour followed the business meeting.

## FEDERAL OLD AGE BENEFITS CHANGED

Paul M. Ellifritz, manager of the Bay City office, stated again today that people 75 or over who are already receiving payments based on covered earnings beginning in 1937 may have their benefits figured under the new formula, based only on earnings after 1950, if they have had a year and a half of covered work after 1950. This will usually make higher payments possible, he added.

by KING PIN

Friday night ladies speciality shots were enjoyed by Joy Warner, 3-9-10, and Polly Rescoe, 5-6-10, nice going girls! Barkman Outfitters throttled Baldwin Gas and Oil for three games. Harris Barkman and Bill Gilfix raced for honors in the final game. Whittemore's ride to Tawas was a profitable venture downing Nelkie Dairy for three games and total points, 2921 to 2719. Ace Elliot of Featherlite was top man of the evening with 225. Nice going, Ace. Jean Fisher's Holland Hotel of the Ladies Majors is away and running with a 10-2 record. Audrey Staudacher's 203-551 is still tops followed by Delores Siehoff's 195 and Bea Durant's 203. Fritz Bublitz's Bay Hi-Speeders, lead by Reg Bublitz's 556 edged Ernie Landry's Pfeiffers, two games to one. Keiser Drugs drugged George Cornell's Inn Lookout, two games. Hatton is still blazing those 200's. Misko's Black Shirts from the Alibi Inn spiked Earl Davis's D. & M. for two games. Howard Dietzel's 248 is still tops in the singles department.

**OLD FARM BUILDINGS CAN BE REMODELED TO PROVIDE GOOD LIVESTOCK HOUSING**

Installation of a new foundation and floor can give a new lease on life to an old farm building now sagging or leaning into the wind.

Often the roof and upper portion of the side walls of these older structures are in good, serviceable condition after the rocks or posts used for the foundation have given away.

Some dairy barns are too narrow to house dairy cattle properly. Or perhaps the old general-purpose barn is not arranged for efficient livestock production. Rearrangement of the interior—or the addition of a new section to the barn with some structural improvements—will provide good livestock housing.

When the old sills, framing and siding are rotted away, a new footing and foundation and concrete masonry wall a few feet above grade or up to the plate line can be built. With the use of jacks and timbers, half of the building can be raised and a portion of the framing and siding removed. Then in case of wind storms the other half of the building will have some stability.

**Raise Building With Jacks**  
To raise the building, jacks should be placed along the outer edge of the wall and near interior posts. In some cases it will be necessary to raise or lower the ceiling height a few inches. If the framing is cut beneath the window sill all measurements are made the same distance beneath the plate line. When a new concrete masonry wall is built to the second floor all studs are cut off flush with the bottom of the second floor joist. The siding is cut 3 in. longer in order to lap over the sill on the masonry wall and extend an inch below the top of the wall.

After cutting off and removing rotted sills and siding, the first job is to excavate for the footings which are built below the frost line.

Footing and foundation are made with a mushy mix of concrete, neither soupy nor too stiff. Such a mix can usually be made in proportions of 5 1/2 gal. of water for each sack of cement when the sand contains an average amount of moisture. About 2 1/4 cu. ft. of sand and 4 cu. ft. of gravel are used with this mix.

If the mix is too stiff to place readily less sand and gravel are added. If it is soupy, more sand and gravel are added. Concrete

gains strength after setting and so it should be covered with sand or straw and kept wet for a few days to gain more strength.

The concrete masonry wall is laid from the foundation to the desired height. For two-story buildings the walls should be 12 in. thick and for single-story buildings, 8 in. The above-ground work for dairy farms and other animal shelters can be built with either lightweight or heavyweight concrete masonry. Insulating value of concrete masonry walls is affected by the type of aggregate used in manufacturing the block. The warmth of any masonry wall can be increased by filling the cores and painting the inside surface with two coats of aluminum paint and the outside with portland cement paint.

**Mixture For Concrete Floors**

When exterior walls are completed and the old structure lowered onto the wall, footings for interior post supports are built. After a concrete floor is constructed (5 gal. water with each sack cement and 1 1/4 : 3 mix), the barn will be in good, serviceable condition again.

There are many dairy barns that are too narrow to provide adequate stall length and width for cows. This can be corrected by use of a low-type manger and rebuilding the stall platforms and the gutter. As the size of the alley is reduced, it should be advisable to give consideration to the installation of a mechanical gutter cleaner either at time of remodeling or at some later date.

When barns are too narrow to make even these changes in the interior, some farmers have solved this problem by building a new one-story section 36 or 38 ft. wide—the recommended width—at right angles to the barn. This addition requires rearrangement of cow stalls and installation of doors in the old barn walls.

With this layout the old portion of the building usually provides enough bedding and hay storage, as well as pen space for young stock.

Many types of existing buildings may be remodeled into efficient hog houses, poultry houses or dairy barns. If the existing building is well located on the farmstead and the roof and framing are in good condition, it will pay the farmer to give serious consideration to remodeling.

**HOME EC NOTES**

by Dorothy Scott, Home Demonstration Agent

September 17-20—See home economics extension exhibits and demonstrations at the County Fair, Hale Community Building.

You will find ideas for making, remodeling or converting lamps to better givers of light, improving color in home decoration, and discovering what the new fabrics offer you in the way of finishes and labels that tell about them.

There will be demonstrations and plenty of chance for you to visit with the women at the booth. Learn more about repairing your electric light and appliance cords, and choosing plugs. Find out how you can go about getting your sewing machine in better order for the fall and winter sewing ahead. Enjoy a "snack" while you pick up a few tips about eating to keep young. And while you are about it, ask these women what they think of the program which they belong to that provides them opportunities to learn and do more things better—the home economics program. Find out how to become a member yourself. Let them know if you are interested in taking part yourself. You can request copies of literature you will see on display, too.

Tawas City Extension Group women were busy making themselves new polylux lampshades at their meeting last week when we dropped in. Some were small, some not so small and with several patterns to be cut at the same time, it was found that a sheet of material will average five shades. Not expensive, either, and adds new life and greatly increases the amount of light of the lamp.

At Reno, we are pleased to note that the extension group women are using the same plan as the Tawas City Group for electing 1953 officers, by a nominating committee. That plan saves considerable meeting time,

Development of new dyes which increase the water repellency of wool 60 times and cotton 12 times has been revealed by Dr. C. C. DeWitt, director of the Michigan State College Agricultural Experiment Station.

Dr. DeWitt revealed his new dye-making process before the annual meeting of the American Chemical Society in Atlantic City, N. J.

The M. S. C. scientist said the dyes—which contain some of the properties of mineral oil—have possible immediate application in the manufacture of such items as tents, awnings and umbrellas, although their use in clothing may take a little more time.

Dr. DeWitt said that the dyes can make cotton and wool clothes water repellent and more durable without any change in the texture or composition of the materials.

One of the greatest advantages of the new dyes is their permanency. Dr. DeWitt said that the water-repellent qualities will re-

main in the material as long as the dye. This is a definite improvement over most of the present waterproofing methods by which cleaning with any liquid removes the waterproofing and it must be replaced after each cleansing.

It may be necessary, Dr. DeWitt added, to change the composition of present dry cleaning liquids in order to clean fabrics colored by these dyes in a satisfactory manner.

End of the season canning brings forth enticing odors from the kitchen as Mom makes chili sauce and relishes. There is available to her a copy of a small pamphlet called, "Pickle and Relish Recipes", at the Federal Building.

Antibiotics in the feed as growth stimulants seem to be most effective on young calves up to 12 weeks of age.

Sheep which do not receive enough copper in their ration show a marked decrease in wool production.

**DHIA Averages 9,696 Pounds of Milk Per Cow in Annual Report**

The annual report of the Iosco Dairy Herd Improvement Association showed that the 14 herds had an average of 197 cows for the year. The association average was 9,696 pounds of milk and 351.7 pounds of butterfat per cow.

Clarence Carpenter, Supervisor, reported that two herds, averaged over 400 pounds of butterfat per cow and thirteen were over 300 pounds. Arthur Povish's herd of 17 registered Holsteins topped the association with an average of 12,332 pounds of milk and 441 pounds of butterfat. Waldo Curry's herd of 15 Holsteins was second with 11,960 pounds average per cow.

Helen No. 2, Holstein owned by Waldo Curry, topped the association by producing 17,450 pounds of milk which contained 620.0 pounds of butterfat. Margie Holstein owned by Arthur Povish, was second with 14,920 pounds of milk and 560 pounds of butterfat and Carrie, Holstein

owned by the County Farm, was third producing 15,410 pounds of milk and 533.7 pounds of fat. Judy, a registered Holstein owned by Arthur Povish, led the four year olds by producing 15,160 pounds of milk containing 522.0 pounds of butterfat. Peggy, Holstein owned by Waldo Curry, led the three year olds by producing 14,230 pounds of butterfat. The Iosco County Farm's Princess, Holstein, led the two year olds class by producing 11,770 pounds of milk and 407.0 pounds of fat.

Two cows, Clara and Margie, registered Holsteins owned by Arthur Povish, entered the 2,000 pounds butterfat lifetime class. Margie in 4 1/2 lactations has produced 69,540 pounds of milk and 2,488 pounds of butterfat. Her stablemate, Clara, in 4 1/2 lactations has produced 60,710 pounds of milk and 2,400 pounds of fat.

The total value of the products of these 197 cows was over \$80,000 netting over feed cost \$56,111.00. Most of the feed was produced on the farm. In all 14 herds, over 50% of the grass farm income is derived from the dairy enterprise and on a few the entire income comes from dairy products and surplus dairy cattle sales.

The average of these D. H. I. A. cows produce 75% more milk and butterfat than the average of all the cows in Iosco county. This is no mere coincidence. The members of this association know which cows are profitable and which are unprofitable and have a basis for culling and improving their herd averages. They know that a cow must have the milk producing inheritance to convert feed into profitable milk production so they recognize the importance of a sound breeding program. Every member is a member of the local artificial breeding association and four have a herd sire of outstanding milk producing inheritance. Through continued testing they learn other factors of milk production efficiency such as balanced rations, quality of feed, herd health, regularity and technique of milking. They have discovered that a cow not better than the average cow barely pays for her feed and overhead with nothing left for labor and once found are not tolerated for long.

**COUNTY AGENT NEWS**

HAROLD R. CLARK

When this column appears in this paper, the tenth annual Iosco County Fair will be underway at Hale. Our whole staff will be there with our usual educational exhibits. For the four day period our office will be moved to the basement of the community building. The 4-H and the women's extension groups will have very interesting exhibits. Other exhibits will include education, soil conservation, dairy, livestock and poultry, agricultural engineering and tourist and resort service. It will be an opportunity for people to look over the bulletins and discuss various farm and home problems with us. Someone will always be available from 10 o'clock in the morning until late at night. We hope to see you at the fair.

Abe Snyder, Osceola County Agricultural Agent invites us to the annual State Farm Management Tour which will be held in his county Tuesday, September 23. The tour will start at 10 A. M. at the Forest Randall and Son farm, three miles west of Reed City on U. S. 10. Three farms will be visited at which "Keys to Farm Profits" will be discussed by farm management specialists of Michigan State College. Dr. Clifford M. Hardin, director of the Agricultural Experiment Station at Michigan State College, will be the principal speaker. During the luncheon hour at the fairgrounds at Evert, he will outline "Changes Ahead in Farming". A visit at the Davey and McLacklin farm where an airplane seeding and dusting demonstration will be given, will conclude the all day event.

Preparations for a tiling demonstration which is scheduled for September 30 are about completed. It will be held on the Charles Timreck farm which is located on the Monument road. The tiling operation will be held on a field on the Anderson road. The demonstration is a cooperative event in which the Soil Conservation District, a tile manufacturing company, the Cooperative Extension Service and Charles Timreck are cooperating. The demonstration will begin at 1:30 P. M. October 1 will be an alternate date in case weather does not permit it to be held September 30.

One method of removing iron rust from white materials is to spread the stain over a pan of boiling water and then squeeze lemon juice on it. After a few minutes, rinse and repeat process. This method is slow—but safe, say Michigan State College economists.

# Needlecraft News

by Nancy Baxter

THE household items you crochet are a credit to you and to your budget. An accessory that you've made yourself gives a room an individualized look—a look which indicates that this is YOUR home. Consider the appearance of your bedroom or guest room, for instance. The focal point, the bed, when all dressed up with a handsome bedspread, enhances the entire room. And, a crocheted spread, made by you, will earn you the title of discriminating homemaker. One of its virtues is the look of refinement it gives to a room. Also, crocheted spreads retain a fresh appearance for a long, long time because they defy wrinkles. Washing them is simple, too.

### DECORATE YOUR ROOM WITH CROCHET

There are so many other pretty things you can also crochet for the bedroom without putting a strain on the budget. Colorful cotton throw rugs are favorites for the floors, because, they, too, are easily laundered. You can crochet dainty scarves for the dresser or chest of drawers, doilies for night tables and even curtains for the windows. Overnight guests will be pleasantly surprised when they see the crisp sheets and pillow

cases which you have trimmed with delicate crocheted edgings. You will certainly get a reputation for being the perfect hostess and woman of the house.

### FOUR LEAF CLOVER BEDSPREAD

Because the bedspread is the most important feature of the room, make it your first project for home re-styling. Pictured here is a lovely spread which you can crochet with joy and display with pride. It is prettiest in white or ecru, with a dark or bright color, for emphasis, for the picot ridge edging the clover petals. The clovers are made in solid crochet and are joined by an open mesh pattern. You can make a single spread of 70 x 105 inches or a double one of 90 x 105 inches.

### CROCHETING DIRECTIONS FOR YOU

Would you like the simple crocheting directions for this CLOVER LEAF BEDSPREAD? They are available to you, free of charge. Just send a stamped, self-addressed envelope to the Needlework Department of this paper and request Leaflet No. 6085. Happy crocheting!

prove a valuable asset to the "Ottawas 4-H Club". Included in their training sessions was work on "using land to the best advantage", managing the farm woodlot, propagating wildlife (fish and game) in their natural surroundings, and the safe use of firearms. Again, many thanks to the members of the Iosco Sportsmen's Club for making this trip possible. Marvin Davenport held up the tradition of "Lumberman's Monument" by winning the log sawing contest. A beautiful hand saw will be presented to me and one to my "co-sawer" Jack Ferver of Kalamazoo county by the Atlas Saw Co.

At our 4-H Club Council meeting last week, Mrs. Fred Pfahl presided with 22 leaders and jr. leaders present. The treasurer pointed out that \$70.00 was spent to send our overnight delegates to the State 4-H Club Show in East Lansing in August.

Mrs. Felix Johnson was chosen to represent the Iosco 4-H Club Leaders at the Standish District Council meeting.

The awards committee decided to meet again to select the county award medal winners.

There were no suggestions offered on getting the voters out for the coming elections.

The leaders present felt a real need for the Extension Agents to conduct schools for the leaders. The point was well taken. If leaders are to teach the members how to do their best, they must be able to recognize what the judge looks for in clothing, foods, canning, handicraft or electrical projects at the County Eliminations or County Fair. It shall be done.

A nominating committee was appointed to select a slate of 4-H Club officers for 1952-53. Mrs. Reuben Edie, Mrs. Joe Barnes, Norman Sibley and George Strauer were so appointed.

After our Iosco County Fair, two young ladies and two young men will be selected as our Prescott Award winners. They will receive an overnight all-expense trip to Michigan State College to tour the campus and college farms.

Those present included Mrs. Fred Pfahl, Ross Williams, Victor Johnson, Eilert Barnes, William Biggs, Mrs. Joe Barnes, Patricia Williams, Mrs. Harris, Mrs. Davenport, Judy Rapp, Mrs. Norman Chippis, Mrs. DeWayne Hall, Norman Sibley, Lucille Smith, Mrs. Reuben Edie, Aileen Ward, George Smith, Bill Charters, Doreen Strauer, George Strauer and Carol Strauer.

Calendar of coming events:

Oct. 1—Ram Truck at West Branch Stock Yards.

Oct. 6—Sherman Town Hall, slides on last summers tours.

Oct. 9—Hale Community Building, slides on tours and organization for next year.

"From soup to nuts" in conservation. That is what Charles Wilson, Pavo Bloomquist and Robert Douglass learned last week. The Iosco Sportsman's Club sponsored this week-long 4-H Club Leaders Training School trip. The Federal Cartwright Co. of Minnesota have offered this leadership training clinic for 18 years. As a result our 4-H Clubs in Iosco county have young men who have a real source of material for conservation clubs. **Mr. and Mrs. Elmer Britt Hosts to Farm Group**

The Sherman Farm Bureau Group met with Mr. and Mrs. Elmer Britt for their September meeting.

Mr. and Mrs. Lloyd Little of Grant were guests of the group. Mr. Little gave an interesting talk on Farm Bureau topics.

Election of officers was held. The following members were elected: Discussion Leader, Joseph White; Chairman, Howard Britt; Vice Chairman, Mrs. Carl Norris; Secretary, Mr. Claude Harder; Minute Man, Warren Britt; Women's Committee, Mrs. Lloyd Newwine; Director, Orville Strauer; Alternate Director, Claude Harder; Blue Cross Secretary, Mrs. Orville Strauer; Recreation Leader, Mrs. Kenneth Pringle; Publicity, Mrs. Howard Britt.

The group enjoyed a pot luck lunch served by the hostess, Mrs. Kenneth Pringle will be hostess at the October meeting.

**NEED GROUP LEADERS**

October will soon be here, and time for the 4-H Club members to enroll for their 1952-53 projects. The Ottawas Community 4-H Club of Tawas City is very much in need of more leaders, both men and women, for electrical, handicraft, sewing and knitting. Could you take a group and lead them in any of these projects for a few months? The boys especially went begging for someone to help them last season. If you will help, call 655W or 641 and the boys and girls will be ever grateful to you.

in 63-80% of cases in doctors' tests

• If you're miserable from the "hot flashes," and accompanying irritable, restless feelings of "change of life" — you may be suffering unnecessarily!

• For... in tests by doctors... Lydia Pinkham's Compound and Tablets brought relief from such functionally-caused suffering to the 63% and 80% (respectively) of the women tested! Complete or striking relief!

Yes! Research has proved these medicines thoroughly modern in action... has shown you where to look for relief from those distressing, nervous, "out of sorts" feelings of mid-life "change"!

So... get Lydia E. Pinkham's Vegetable Compound—or new, improved Tablets with added iron! (Wonderful, too, for the functional pains of menstrual periods.)

It acts through a woman's sympathetic nervous system to relieve distress of those awful "heat waves"!

A-3e Stanley Brown of Edwards Air Force Base, California is spending a 20-day leave with his parents, Mr. and Mrs. Allan Brown.

Daniel Migrants returned home last week from California with his army discharge. He enlisted over three years ago when 17 years old and served over a year in Korea. His brother, George, who enlisted at the same time, was sent to Germany and has re-enlisted. They are the sons of Mr. and Mrs. George Migrants, Sr.

Pvt. John A. Rescoe has completed basic combat training at the Signal Corps Replacement Training Center, a part of the Signal Corps Training Center, Camp Gordon, Georgia.

A native of Tawas City, Michigan, he is the son of Mr. and Mrs. H. Rescoe, Route 2, Tawas City, Michigan. In his basic training, Rescoe received instruction in infantry tactics and weapons, and other Army subjects designed to prepare the individual for his military duties. Signal Corp basic embodies all phases of training common to the Army program.

The Signal Corps Training Center is a key source of our Army's communications specialists. In three and one-half years, this center has mushroomed from a handful of buildings and founding cadre to the largest signal center in the United States Army.

Mrs. Matt Lappinen, formerly Louise Latham, and family have moved to Tawas City from Harbor Beach. Her children, Charlotte, George and Marcia Scovill and Alida Lappinen are enrolled in the Tawas City School. Mr. and Mrs. Hugh Newberry and Mr. and Mrs. Clarence Amy of Flint spent Sunday with their aunt, Mrs. Ida Ferguson, and helped her celebrate her birthday.

Melbourne Metcalf left Tuesday on a vacation trip, by way of the Straits, to Milwaukee, where he will visit former Army friends. He will also visit his sister in Battle Creek.

Mr. and Mrs. Worthy Sias of Detroit were week-end guests of Mr. and Mrs. Fred Boudler. They called on several other friends while here.

Mrs. Mathew Pfeiffer, Mrs. John Pavlock and aunt, Mrs. Ida Ferguson, attended the funeral services Wednesday afternoon for John Thomas of Flint

at Prescott. He died early Sunday morning after a short illness. He was the son of the late Mr. and Mrs. Charles Thomas, former residents on the Hemlock.

Thomas Metcalf left Wednesday to resume his studies at Peabody College at Nashville, Tennessee. Mrs. Fred Jennings and daughter, Miss Marion Jennings, of Royal Oak spent the week-end at their home here. They were accompanied by two neighbor children, John and Dennis DuBois.

Friends surprised Mr. and Mrs. Joseph Homberg Tuesday evening by gathering at their home in honor of the Homberg's 13th wedding anniversary. A splendid time was enjoyed.

Mrs. Otto Kobs, Sr., is spending two weeks in Detroit with Mr. and Mrs. Herman Scholtz and son.

Tawas City friends of Mrs. Ida Rahl of Turner were sorry to learn of her injuries suffered in an automobile head on collision Sunday evening. She suffered chest injuries, facial and scalp lacerations and is in Omer Hospital. Four other persons, soldiers from the Oscoda Air Force Base were injured. Both cars were demolished.

Ezra Brugger and daughter, Betty Ann of Clinton, were Tuesday and Wednesday guests of his brother, J. A. Brugger, and Mrs. Brugger.

Rev. Francis Murray returned to Saginaw on Wednesday after a short visit with his mother, Mrs. Robert Murry. Mrs. Murray accompanied him to Bay City for several days visit with her children.

ular, predetermined intervals. The leased truck or fleet of them is always up to date." Because truck-leasing companies depend for success on their ability to operate trucks efficiently and economically, it is pointed out, they supply equipment tailored to individual size and performance needs. The person renting a truck pays a flat rental rate plus a specified charge for each mile that the vehicle travels.

With over 60,000 trucks in operation, the truck-leasing idea is firmly established. Leasing began as a depression baby and grew up during World War II and is still expanding. One big reason for this expansion has been the saving in capital investment to companies," Everett stated.

Although the N. T. L. S. was not organized until 1945, there is nothing new about truck leasing. "It is tried and true," Everett reported, "and it follows the same idea that is standard to such large industries as railroads, oil companies, meat packers and fruit shippers, which extensively lease transportation equipment."

A NATION-WIDE SERVICE

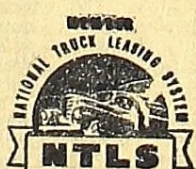

We are pleased to announce our membership in National Truck Leasing System—a nation-wide service formed to make available the many advantages of truck leasing on a national as well as sectional and local basis.

Functioning in 80 communities, with combined fleets of more than 4000 trucks, National Truck Leasing System provides complete national coverage. It offers the clearcut advantages of an all-over service, centralized administration, closely supervised control, and a uniform contract.

Other advantages: 1. Release of capital investment; 2. Saving of executive time; 3. Costs known in advance; 4. Elimination of maintenance worries; 5. Smart, well maintained equipment.

Investigate the benefits of leased trucks for postwar. Upon request we will survey your operation and make definite recommendations in proposal form, without obligation to you.

**Home Safer for Family**

More people are injured in the home than any other place. And more injuries to women seem to occur in the kitchen than any other room. **TAWAS CITY RECREATION**

Cuts are the most common injury and so, Miss Meyer suggests, take precautions by avoiding improper use and storage of and sharp-edged cans and metal parts on tools and equipment.

Never throw sharp knives in a drawer with other tools, she warns, and don't put them in a dishpan with other dishes. A knife rack should be within easy reach and so constructed that the hand does not come in contact with sharp points of edges. Burns are the second most common injuries. Usually they

result from carelessness and thoughtlessness. So, suggests Miss Meyer, turn on hot water faucets cautiously, turn pan handles away from the edge of the range so they can't be knocked or pulled off, and use pans that have flat bottoms with handles.

Falls rank high as cause of injuries and care should be taken to prevent them, she said. Keep floors and floor coverings in good repair and free from spilled foods.
