Toast of Tawas' is Again on Air

Last year's Tawas radio program, "The Toast of the Tawas," is back again—this year attired in a new format, design and concept, and aired over a different radio station.

This year's series, which began in June, runs for a full 12 weeks keeping the Tawas on air throughout all of the heavy tourist months of the summer. The program, broadcast Mondays through Fridays, feature a unique tie-in on a national-local level daily guest interviews, and the weekly car-stopping event which proved so popular last year.

This year's Tawas program is broadcast daily over station WTAC, ABC affiliate in Flint, the powerful station whose dial position is 600 kilocycles serves all of Northern Michigan from Detroit to Mackinaw. Ted Malone, nationally famous commentator of the American Broadcasting Company, opens each day's program from New York City and then switches to Jack Parker in the Tawas for a friendly and informal session of "Beach-Combing."

Guests interviews are handled by Howard Finger, Northern Michigan safety reporter, who also mans the Tawas Hospitality microphone for the car-stopping event each week.

First guests stopped on this year's program were Mr. and Mrs. Hartley J. Smith, Jr., 1342 West Eleventh Street, Lorain, Ohio. They were enroute to Port Huron, became lost, were stopped by Finger and Sergeant Dan Wurzburg of the Michigan State Police, and spent the last week-end at the Tawas.

Tawas School Council Gives Reasons for Voting 'Yes' on Proposed 5-Mill Tax Levy

As a preliminary step toward a building project for the new Tawas Area District, it has been proposed that a special 5-mill tax be levied for a building and site fund. The proposal will appear on the ballot at the annual election next Monday. The following is a message from the Tawas District Advisory Council:

"The electors of the Tawas Area Schools are now considering the second important step to be taken in connection with our new school program.

"To date we have agreed to unite our efforts and we have elected our school board, and in each of these two cases the action has been considered fully and the steps have been taken firmly.

"This has always been a characteristic of this locality; that is to say, we have always considered the question thoroughly and methodically, and thereupon taken action, with the result

that a heavy majority agreed either for or against the point in question.

"Our school board has suggested that it would be well to establish a fund at this time, and is giving us the opportunity to make a decision on the question by casting our vote July 13.

"Now it is not a question of whether or not we wish to finance our school program, as this was answered when we agreed to unite our efforts. The question is, shall we continue to pursue our program which we have started. We are satisfied that we all wish to do this, but it is most necessary that we express this desire.

"Each elector can do most for our schools by keeping himself well posted regarding the questions being considered, and making it a point to VOTE. While a simple majority will carry the question, it is most important that we have a good vote out and

Christian's Code

Lesson for July 12, 1953

THE Christian is not "under law," as Paul says, but "under grace." This does not mean that a Christian can live as he pleases, any old way good or bad. There is a code of behavior for Christians. Only the Christian's code is not like a city's laws or the rules of a game. The nearest thing we have to a code is certain great principles of behavior, the foundation lines for our house of life. One of the most familiar chapters of the whole Bible is Romans 12, where Paul sets down in pretty plain words what kind of behavior may be expected of a Christian. The passage is so familiar, in fact, that it can too easily be read with the eyes only and not with the mind. So this column will depart from its usual method, and simply present, for the most part, some of the important sentences or phrases from this classic chapter, first in the old King James translation and then in various other more recent ones in English. They will be numbered as follows:

- 1 King James translation (1611 A. D.)
- 2 Revised Standard Version (1946)
- 3 Moffatt's translation (1922)
- 4 American Translation (1923)
- 5 Weymouth's (1930)
- 6 Phillips's (1947) ("Letters to Young Churches")

(Where a number does not appear, it is because that version is not notably different from some of the others.) These translations will perhaps suggest to the thoughtful reader that there is more in Scripture than any one translation can fully bring out.

1 Present your bodies a living sacrifice—your reasonable service 2—your spiritual worship 4—your rational worship. 6—an act of intelligent worship. (verse 1)

1 Be not conformed to this world. 4 You must not adopt the customs of this world. 6 Don't let the world around you squeeze you into its own mould. (verse 2)

1 Let love be without dissimulation. 2 Let love be genuine. 3 Let your love be a real thing. 5 Let your love be sincere. 6 Let us have no imitation Christian love. (verse 9)

1 Abhor that which is evil; cleave to that which is good. 2 Hate what is evil; hold fast to what is good. 3—with a loathing for evil and a bent for what is good. 4 You must hate what is wrong, and hold to what is right. 5 Regard evil with horror; cling to the right. 6 Let us have a genuine break with evil and a real devotion to good. (verse 9)

1 Be kindly affectioned one to another with brotherly love; in honor preferring one another. 2 Love one another with brotherly affection; outdo one another in showing honor. 3 Put affection into your love for the brotherhood. . . . 5 Let your love of the brethren be true mutual affection. 6 Let us have real warm affection for one another as between brothers, and a willingness to let the other man have the credit. (verse 10)

1 Not slothful in business; fervent in spirit. 2 Never flag in zeal, be aglow with the Spirit. 3 Never let your zeal flag; maintain the spiritual glow. . . . 4 Not wanting in devotion, but on fire with the Spirit. 6 Let us not allow slackness to spoil our work and let us keep the fires of the spirit burning. (verse 11)

1 Rejoicing in hope; patient in tribulation; continuing instant in prayer. 2—be constant in prayer. 3 Let your hope be a joy to you; be steadfast in trouble, attend to prayer. 4 Be happy in your hope. 5—full of joyful hope, patient under affliction, persistent in prayer. 6 Base your happiness on your hope in Christ. When trials come endure them patiently; steadfastly maintain the habit of prayer. (verse 12)

1 Dearly beloved, avenge not yourselves, but rather give place unto wrath. 2 Beloved, never avenge yourselves, but leave it to the wrath of God. 4 Do not take your revenge, dear friends, but leave room for God's anger. 6 Never take vengeance into your own hands, my dear friends; stand back and let God punish if he will. (verse 19)

You can see that the "code of the Christian" simply is the way Jesus lived!

He's Driving His Cares Away!

There's a great industrialist in Detroit, and a well-known scientist in New York, and a famous statesman in Washington who will tell you that the best way to relax from the cares of the day is to get behind the wheel of a 1953 Cadillac.

And there are also thousands upon thousands of other Cadillac owners throughout America who will gladly add supporting testimony to these revealing statements.

For these motorists know, from their own personal experience, that there is no faster or surer way to relax and refresh than to take to the highway with a smooth, comfortable, quiet Cadillac car.

If makes a man feel good just to sit behind the wheel. As he glances about his Cadillac's gracious interior, he's reminded that he has made something out of his years—and that, in itself, gives a lift to his spirits.

And then, once he's out on the highway—well, in no time at all, he's as happy and contented and trouble-free as it's possible for a motorist to be.

He is surrounded with comfort—and his driving is so relaxing and effortless and enjoyable that his mind clears, as the miles go by—and his heart grows gay and his outlook bright and hopeful.

He has literally driven his cares away!

You really ought to try it sometime. Come to think of it, you ought to try it today . . . after your day's work is done.

The car is waiting—and so are we.

I've got your number. You like to entertain but want to enjoy yourself from the time you start making plans until the last guest has left. And you should. So dispense with the fuss and bother of an elaborate party spread and have fun. Buffet-type entertaining is the most pleasing to hostess and her guests. It gives the hostess more time for social chats, and gives the guests more freedom.

Put protective jackets on glasses full of ice-cold beverages. Numbered glass jackets will make it easier for you and your guests to identify their glasses after inadvertently wandering away from them.

CROCHETED GLASS JACKETS

Make a set of numbered glass jackets for your next social gathering, or as a gift for the hostess of a party that you will attend. You will see how useful they can be. Pure Oil Company Announces New Sensitized Gasolines

Modern motorists were assured of fuels powered to deliver all the performance built into their cars with the Pure Oil Company's announcement last week that selectively processed and blended "Sensitized" gasolines with all nine of the recognized requisites of superior gasolines are being sold by their dealers in every region of the nation served by the firm.

As established by leading automotive and petroleum engineers, these nine factors contained in Pure Oil's "Sensitized" gasolines are quick starting qualities, rapid warm-up, maximum power performance, efficient performance in terms of miles per gallon, fast acceleration, freedom from vapor locks, minimum crankcase dilution, absence of harmful gum and good anti-knock features.

Products of a continuing research and development program in anticipation of today's advanced automotive power plants, the molecular arrangements are such that the "Sensitized" gasoline meet every requirement, including those of "automatic" motoring, that can be placed on gasoline regardless of climate or topographic conditions.

In advertising the "Sensitized" gasolines in this newspaper, the Pure Oil Company stated that the fuel would be available in both premium and regular grades.

"Monthly Pains" stopped or amazingly relieved

In 3 out of 4 cases in doctors' tests!

• Chances are you're pulling up — unnecessarily — with the functionally caused pains, cramps and "no good" feelings of menstruation!
For, in actual tests by doctors, Lydia Pinkham's Compound brought complete or striking relief from such distress in 3 out of 4 of the cases!

Lydia Pinkham's is modern in its action!

So get Lydia E. Pinkham's Vegetable Compound—or new, Improved Tablets with added iron. See it—taken through the month—it doesn't give relief from those backaches, jitters—help you feel better before and during your period!

Or—if you suffer from functional "hot flashes" of "change of life," find out how wonderful Pinkham's is for that, too!

It has a quieting effect on uterine contractions that often cause "period" pain!

New High in Death Toll Recorded by State Police

A new high monthly traffic casualty toll was recorded in Michigan when 5,433 persons were killed and injured during May, according to the State Police monthly statistical report.

There were 129 persons killed and 5,304 injured in 16,092 accidents. The new toll smashed the previous high of 5,303 recorded in December last year when 171 were killed and 5,132 injured.

The State Police report pointed out that although May deaths were 15, or 10 percent, under the 144 for the same month in 1952, the injury total was up 1,193, or 29 percent, over 4,111. This likewise was a new high monthly injury record. The previous high was recorded last December.

Accidents in May exceeded all previous totals for that month, and increased 3,398, or 27 percent, over 12,044 a year ago. The previous high for May was 15,335 in 1951.

On a comparative basis, May is not generally regarded as one of the high accident months. June, July and August with heavy volumes of vacation traffic are usually worse. This causes traffic officials to fear a continued upward trend.

Estimated travel for the first four months of this year, the latest information available, totaled 7.8 billion miles, an increase of seven percent over 7.3 billion in the same period last year. The death rate per 100 million miles of travel was 6.6, an increase of 14 percent over 5.8 for the same period in 1952.

State Receives Mention for Law Enforcement

Michigan is one of four big states receiving honorable mention from the International Association of Chiefs of Police for outstanding traffic law enforcement in 1952.

First place winner in the big state group was California, with Ohio, Texas and Pennsylvania the other three receiving honorable mention.

Announcement of the award was received by State Police Commissioner Joseph A. Childs from Cyrille Lebranc of Gardner, Massachusetts, president of the IACP.

First place winners in four other divisions of the state groups were: Delaware and Rhode Island, eastern; Virginia, southern; Oklahoma, midwestern, and Washington, western.

Six Michigan cities received honorable mention in the city population groups, as follows: 50,000 to 100,000, Jackson, Kalamazoo and Lansing; 10,000 to 25,000, East Lansing, Grosse Pointe Woods and Birmingham.

STATE PARKS BUSY
Michigan's three score parks, under the able management of our Conservation Department, are playing host to an all-time record number of visitors this year from just about every state in the union! More than thirteen million people may emerge from summer vacations in 1953, all with a good word to say for these parks.

While this writer is not entirely in sympathy with the idea that State Parks should be a responsibility of the Conservation Department, let us hasten to add that the administration of these important points of welcome to Michigan Outdoors has been admirable and able in every respect. Under the fine hand of Arthur C. Elmer, chief of Parks and Recreation, the personnel in charge conduct themselves nobly—and the job of handling such vast numbers of people requires a noble touch!

Facilities Broadened
Naturally the most popular parks are those located on or near water, and during the hot months of July and August great throngs of visitors single them out for attention. Swimming facilities at these parks have been fully developed in most cases, and great care is taken to make the bathing beaches safe for the entire family.

Camp sites are fully provided with all essentials, too. Despite the heavy pressure in almost all parks one is impressed with the cleanliness of the property, reflecting not only the diligence of the management, but the cooperation of the public, too.

Many of the parks are equipped with diversified recreational materials such as tennis courts, baseball diamonds, and outdoor grills strategically spotted to take advantage of big shade trees wherever possible.

Free Admission
The facilities available in these State Parks are all free, save for a modest camping fee for overnighters—presenting the biggest bargain in outdoor fun and relaxation ever offered! Visitors sometimes wonder why the State does not help its stricken budget to some extent by charging admission, though it may be only a thin dime! Multiply ten cents by thirteen million and you'll see how the end of the fiscal year could show enough in the cash drawer to help bolster the Department's budget. It costs a lot of money to run the parks. One finds it hard to understand why they should not be at least partially self-supporting, especially when the cost could be almost painless to those who enjoy them most!

Mort Neff's "Michigan Outdoors" television show can be seen every Thursday over WWJ-TV, Channel 4, in a thrilling full half-hour show—10:00 till 10:30 p.m. DON'T MISS IT!

HDA NOTES

By DOROTHY SCOTT

Any Iosco county woman is eligible to attend the annual Homemakers' Conference at Michigan State College, July 21-24. This annual event is sponsored by the home demonstration staff of the Michigan Cooperative Extension Service.

This four day event includes a program of educational classes—classes in writing for fun and money, photography for beginners, how to shop wisely, ideas for landscape improvement, the Korean situation, getting the most out of your equipment and flower gardening. Others will cover meeting the problems of illness, putting your money to work, changes in Michigan communities, parent-child relationships, recreation, parliamentary procedure, effective speaking, reading for the family, the Bible and music. Michigan State College faculty members and other authorities will be conducting these classes.

Of course, no one person can attend all these classes. Each woman makes her own choices, taking subjects of most interest to her individually.

In addition to classes there will also be speakers on general programs who discuss subjects of timely interest. One of the highlight addresses will be "The Influence of Women in Government," by Marion Martin, commissioner of labor and industry for the State of Maine. Another will be an address by Mrs. Edith Sampson, Chicago attorney, on "The United Nations and You." Iris Davenport, woman's editor for the Southern Agriculturist; E. T. Barwick, Fern G. White and Dr. Elaine K. Weaper are other speakers.

If any of you are interested in more information about attending Homemakers' Conference, please get in touch with us at the Extension Service office. Do it soon.

Even before you may find EQ-53 on the market you know that it is the wonder liquid which you use in rinse water when washing your woollens. You know that it mothproofs your woollens until they are cleaned again.

You know the precautions, too! This insecticide contains 25 percent DDT. If the liquid gets on your skin it may cause irritation. The clothing specialists at Michigan State College suggest that you wear rubber gloves while handling garments in the rinse water to which you add EQ-53.

Another practical precaution is for the protection of your washing machine. After you have used EQ-53 in your washing machine drain out the wash water at once. The rubber agitators

On all these points of comparison...
Chevrolet's farther ahead than ever!

... IN NEW AND ADVANCED STYLING—The new long, low, sleek lines of the 1953 Chevrolet set new standards of beauty in the low-price field. Here you will see careful detailing and a richness of appointments always before found only in much costlier cars.

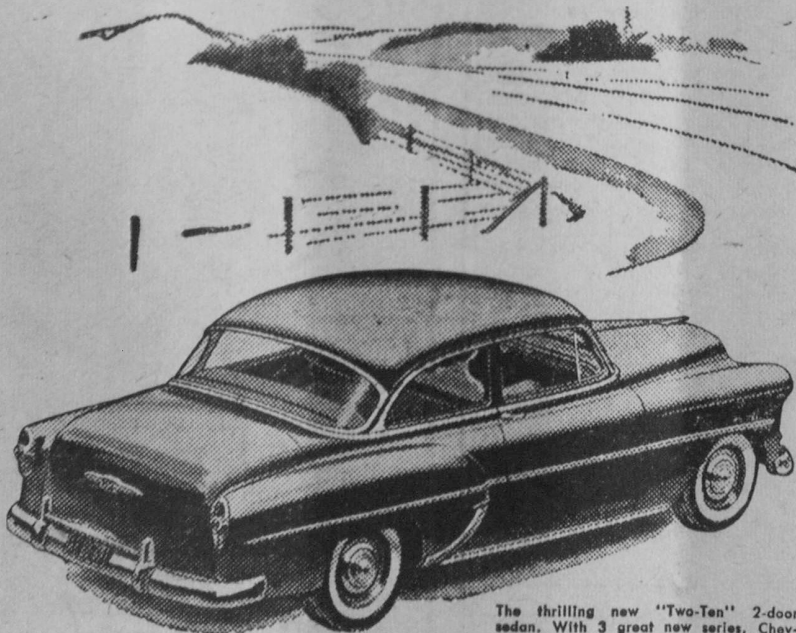

... IN HIGH-POWERED PERFORMANCE—The most powerful engine in the low-price field! The entirely new 115-h.p. "Blue-Flame" engine in combination with new Powerglide* brings you new high-compression power and a wonderful gain in economy, too. In gearshift models you will find the advanced high-compression 108-h.p. "Thrift-King" engine.

... IN SMOOTH, SIMPLE AUTOMATIC DRIVING—Expect faster getaway with Powerglide's new automatic starting and passing range... and new economy, too. Chevrolet's new Power Steering* takes over 80 per cent of the work of steering, makes parking unbelievably easy.

... IN ECONOMY AND VALUE—Now, you'll get many more miles out of every gallon of gasoline. You'll save on over-all operation and upkeep, too. Yet Chevrolet remains the lowest-priced line in the low-price field.

... IN AMERICA'S FAVOR—Again this year—as in every single postwar year—more people are buying Chevrolets than any other car. In fact, latest official registration figures show that Chevrolet is over 25% ahead of the second-place car. Nearly 2 million more people now drive Chevrolets than any other make.

*Optional at extra cost. Combination of Powerglide automatic transmission and 115-h.p. "Blue-Flame" engine available on "Two-Ten" and Bel Air models only. Power Steering available on all models.

The thrilling new "Two-Ten" 2-door sedan. With 3 great new series, Chevrolet offers the widest choice of models in its field.

of your machine may be injured by long contact with the solvent. If you have treated baby's woollens with this new insecticide, before you store them for the season, be sure to have them dry cleaned before the baby wears them next to his sensitive skin.

These precautions are simple and logical. You have no problem with odor as EQ-53 leaves no odor. Use of the newly discovered mothproofing liquid is creating much interest because it protects woollens from moth invasion, rather than waiting for the moths to come and be killed.

The dates for this year's National Farm Safety Week are July 19-25. That means in the home, too, and can be any home just as well as a farm home.

Harold Black and Mrs. Donald Grear were our leader delegates to 4-H Club Week. Our seven Iosco delegates, Harry Herriman, Dolores Runyan, Neva Daugherty, Jean Marie Schauf, Elbert Barnes, Ardith Bellon and Jack Fuerst, not only received some impressions from the other 1,300 delegates, but they also left some. The entire delegates took part in the 4-H Club Week activities. They say happiness is contagious. Our Ioscoans certainly spread the happiness. They also kept our leaders well entertained.

Charles Kobs is planning a trench silo. We have some excellent leaflets just recently received that can be a help to anyone interested in building a trench silo.

Iosco cattlemen, read this. An agricultural economist, Harold Riley of Michigan State College says we may likely be disappointed if we look for any substantial improvement in cattle prices in the next 2 or 3 years. He believes that beef supplies are going to continue larger, and that means no major increase in prices.

At present, the price outlook for lower grades of slaughter cattle doesn't look favorable for the seller. Continued price weakness is expected and marketings are likely to be unusually large this summer and early fall.

For stockers and feeders, the price weaknesses are due to: (1) the increased supplies, the seasonal movement of grass cattle

by McFeathers

and the movement of cattle from drought-stricken areas; (2) the weakened demand, the general fear of late summer and fall prices on grass cattle, restrictions on cattle loans, the losses by cattle feeders during the past several months.

The relatively unfavorable price spread between feeders and fat cattle, and the current pressure of field work probably is keeping farmers away from the market, too.

One encouraging thing now for the beef producer, however, is the decreased supply of pork.

After you've cleaned and sprayed your wheat bin, you can make doubly sure there will be no insects in our grain if you mix an insecticide protectant with it at harvest time.

That's a tip from Extension entomologist, Ray Janes, of Michigan State College. The insecticides is comparatively new and is a pyrethrum-piperonyl-butoxide combination. It protects wheat during storage. There is no danger that the material will poison the grain, if label instructions are followed carefully.

Various methods of applying the wheat protectant can be used. Get a detailed description of the methods from our office in East Tawas.

TAWAS AREA DISTRICT 5-MILL TAX QUESTIONS and ANSWERS

Q: What amount will be raised by this 5 mills?
A: The five mills levied on the \$7,500,000 will yield \$37,500.
Q: Is this an amount of millage equal to the amount levied in the cities prior to last year?
A: Both East Tawas and Tawas City have been levying 5 mill taxes for a Sinking Fund prior to last year. There will be no increase over what they paid in taxes.
Q: Why not bond the district

at this time rather than levying 5 mills for a Sinking Fund?
A: The architects cannot have preliminary plans completed to enable the electors to vote on the bonding issue before late October or November.
Q: Will creating a Sinking Fund and raising 5 mills save the area money?
A: It will save interest on the money which must be paid when bonds are issued. This should save about 39 percent in interest.
Q: Is it not true that raising money by bonds cause those who use a building to pay for it?
A: The question before this shows that they more than pay for it.

Q: Who may vote on these questions?
A: Any person who may vote in a general election may vote on raising the millage. On ballot No. 2 to create the Sinking Fund, his name must appear on the Tax Roll or be the husband or wife of such a person.
Q: Where may I cast my vote?
A: Polling places will be in operation at the Alabaster Township Hall; at Tawas City Hall, at ship Hall; at Tawas City Hall, at Tawas Township Hall. You may vote at any of these places.
Q: Must I register or be registered to vote?
A: Tawas Area School District is not a registration district. You do not have to register.
Q: For what purposes may these funds so raised be spent?
A: Only for the purposes for which they are voted. Those are to purchase a site and to erect and equip a building.
Q: How long will this tax be effective?
A: For one year only 1953. (Fiscal year 1953-54.)
