Pie Plant Pete and Bashful Joe Here Tonight

Pie Plant Pete and Bashful Joe have been known to radio audiences in many sections of this country for the past 13 years.

Since both were out of the Army, they have been doing personal appearances all over the United States.

Joe is well-known for his imitations. One of his best tricks on the air is the perking of coffee and pouring it. This imitation sounds so real that when he sometimes remarks he has burned himself, listeners send him pot-holders and other safety devices for protection. Pete on the other hand likes to play pinocchio, gin rummy and write new songs.

There show this evening will be sponsored by the senior class of Tawas City High School. It will start at 8:00 p.m. Tickets are on sale and may be purchased from any senior or at the door. Admission prices are: 30c for children under 12, and 60c for adults.

In the Shadow
Lesson for March 22, 1953

SUPPOSE Jesus had died five
seconds after he was born?
What difference would it have
made to the Christian religion?
One of the most ancient Christian
creeds says that the Son of God
"was made man." Some theologians
have supposed that the Chris-
tian religion would be no different
if all we knew was that for one
single instant the Eternal became
man; that if Jesus had died five
seconds after he was born, he
would still have meant to us all
that he can ever mean.

This is surely a grotesque mis-
take. The New Testament declares
that the "word became flesh,"
that is, was made man; but that
is only the start of the story. The
four Gospels are there to tell us
that the Word became Jesus. It
makes all the difference in the
world what kind of man God-in-
the-flesh is.

Last Days of Hitler

Adolf Hitler was one of the false
leaders of men, as Jesus is the
true one. They had nothing in
common except that when each
passed into the shadow of death,
he knew it for what it was.

One of the most gruesome
books of non-fiction is "The Last
Days of Hitler,"

Dr. Foreman
by H. R. Trevor-Roper (Macmil-
lan 1947). The author, a British
Intelligence officer, was sent to
find out, from evidence fresh on
the spot, what actually happened
to Hitler in those last days in
Berlin. The story is a terrible one,
and the more so for being true.
In the days of his glory, Hitler
had seemed to millions of people
to be a great man. But when the
shadows fell, and his "thousand-
year empire" was being crushed
to powder by the armies of the
free, then in the darkness of his
underground bunker the real Hit-
ler came out—great only in mad-
ness and in evil.

Three monsters stalked his soul
in those dark hours. One was in-
difference to others, even cru-
elty; nothing disturbed him so much
as his own fate. Another was revenge;
foaming at the mouth, he ranted
about the terrible things he would
do to all who were against him.
Ugly mother of these other two
was Fear. He spoke of glory,
but his heart was not in it. His
words and acts were proud and
cruel, but his mind's eye must
have seen already the red flames
over his forsaken corpse.

How Was It With Jesus?

How different with Jesus! The
light that was in him shone more
than ever brightly when the shad-
ows came. Jesus, far from being
indifferent to others, was sympa-
thetically aware of them. He ap-
preciated, as others did not, the
devotion of the woman who broke
over him that flask of perfume.
When the disciples fell asleep
in Gethsemane, he was not harsh
with them, for he knew how weak
the flesh can be. Jesus was aware,
too, of his friends' weaknesses
and sins. He rebuked the quar-
relsome disciples at the supper
table. He foretold how they would
all forsake him and flee. He knew
how much fear there was beneath
Peter's brave bragging. Yet he
did not spend a single word con-
demning others, not even Judas.
The loving and the unloving, the
loyal and the unfaithful, they were
all on Jesus' heart in those dark
hours. He lived for others then,
no less than in earlier days.

Aware Of God

If ever a man had an excuse for
bitterness and revenge, it was
Jesus. But his lips and heart were
free of both. Fear did not despoil
him, because he kept on believ-
ing in the Father on high. The
shadow of death did not conceal
the face of God.

It would have been easier, you
might think, to believe in God's
coming Kingdom during the days
of success in Galilee than in the
Upper Room with death breathing
over his shoulder. But even there
he was as certain of God's King-
dom as if it had already come.
Prayer had surely not always been
the agony it was in Gethsemane;
but he keeps praying even there.
That God is and will be the final
Judge of all, is not easy to be-
lieve in a Pilate's courtroom; but
Jesus' faith never trembled. It is
this Jesus, the Jesus of the lighted
soul, whom Christians honor and
serve as Saviour and Lord.

SCIENCE AIDS FARM SEED PROCESSING

Batteries of gravity type cleaning machines, like those above, are helping to supply Midwestern farmers with better, cleaner field seeds than ever before. These machines are now supplemented by other important new equipment.

Ingenious modern processes, developed through research, are eliminating age-old weed problems. Here, seed is shown passing through velvet-covered rollers where rough and imperfect seeds and weed seeds stick to the cloth surface and are eliminated. Among the newest seed-cleaning equipment is the magnetic machine. The processor coats certain weed seeds with metallic filings which do not cling to good seed. The coated seeds are then removed magnetically, as demonstrated above by use of a binary magnet.

Deferred Registrant Must Expect To Serve Says General Hershey

Three to Leave for April Induction

Selective Service, Local Board No. 36, reports the following calls for Iosco county for the month of April:

3 for Induction, to leave here April 16.
18 for Preinduction Examinations, to leave here April 29.

Selective Service Director Hershey Gives Reasons

There are two questions Selective Service must always be prepared to answer. Why was Registrant A inducted? Why is Registrant B deferred? The answer to question number one is found initially in the necessities of our armed forces to insure survival. It is found in the need for men in the armed forces. The existence of the Universal Military Training and Service Act is evidence of a recognition by Congress that it was necessary to induct registrant A, in fact, well over a million Registrant A's. To many individual registrants the reason for the induction of many is evident, the reason for their individual induction is not. This leads to the answer to the second question, for it is the deferment of one registrant that creates questions in the minds of those who are inducted.

There are two fundamental reasons why registrants are deferred. First, because all who are liable cannot be inducted in the same month or the same year. Practically all of the registrants inducted during the past two and a half years have been liable during the entire period. We are steadily approaching the period when registrants will be reached for induction almost immediately after they become liable, at the age of 18 and a half years.

The second reason for deferment is the fact that the registrant is doing something in the national health, safety or interest which places his induction at a later date than the time he is normally due for entrance into the service. In this connection, two things must always be remembered. This is not an exemption but a deferment and, secondly, it is possible only because registrants are available who are liable to meet the present call of the armed forces.

The deferred registrant should have no misunderstanding of his status. He has not been relieved from his obligation to serve in the armed forces. There is no implication that what he is doing is in the nature of a substitution for service. He certainly must not take his deferment as an encouragement to make future plans which ignore the obligation for service. The registrant is again reminded of his unpaid obligation when he receives deferment.

There are many who are now asking, "Why is Registrant B deferred?" Among those who ask this question are the registrants who are not deferred, many of whom are now returning from the payment of their obligation of service. Also asking are the families and well wishers of the registrants called. Some of those now inducted were called earlier because others were deferred, some have voluntarily entered the services. These groups are entitled to understand that deferment means the deferred registrants will serve, and not that they will be exempt from service.

The most difficult fact to understand in the present deferment situation is time. The parents of the registrant who has been inducted or has enlisted, the citizen, conscious of fair and just treatment for all and the serviceman, himself, all of these find difficulty in understanding why registrants are deferred, while

other registrants are being inducted. It is many times forgotten that inductions did not begin in this present operation until September, 1950. Since that time the armed forces have been increased by about two and a half times. This fiscal year for the first time large numbers are completing their terms of service and must be replaced. This will be a continuous process each year so long as present world conditions continue.

The age at which registrants are being inducted started at 26, it is now 19. Some registrants have been deferred as inductions they have been deferred today, tomorrow they can expect to be inducted, for the title of the law is Universal Military Training and Service Act. The Congress has extended liability for those deferred for additional nine months in the nature of the obligation which the law reposes upon each of those liable for service.

Those who operate Selective Service and those who come within its field of operation must view the long perspective what it seeks to accomplish in carrying out the Congressional mandate of fairness and justice. Not every one who is liable has gone at his normal time of service. There were reasons for his deferment. Regulations which made it possible were issued in the national health, safety or interest. In this republic the citizen has a right to disagree with his government so long as he obeys its laws.

It is to be expected that those who earlier received the heavier duties of citizenship, incident to service in the armed forces, find it difficult in understanding why others are for the time being deferred from these responsibilities. It is to these citizens to whom we owe continuing explanation of the fact that the time of service of those deferred may be undetermined but the fact of their service is certain. When all of our citizens know that each of those upon whom Congress has placed liability will certainly serve, then concern about these now deferred will be immeasurably less.

All registrants in Iosco county who are now being deferred and are in 11A, 11C or 11IA classifications can expect to be called for Induction. All registrants who now have farm deferments will be called in to confer with the board as to when they can expect to start calling married men with children for induction in the near future.

Mr. and Mrs. Paul Kaven and Mrs. Ross entertained a group of friends from Twining, Prescott, Reno and Hale last Friday evening. Rev. Hill showed slides, pictures of the Holy Land he took last year. Refreshments climaxed a very pleasant evening.

(TO LATE FOR LAST WEEK) Mr. Gordon Helmbold was called away on Monday due to the death of his mother.

Mrs. Dale Humphrey (nee Margaret McClellan) is visiting her parents. Dale is stationed at Reno, Nevada.

Mr. and Mrs. Leon Buck and Susan of Grand Rapids visited at the Ralph Graves and Robert Buck homes from Thursday to Saturday.

David Reimer came home last week. He has been ill with jaundice, and in the hospital for several weeks.

When we heard the fire siren about 11:30 last Saturday evening and looked out to see the fire engine leading the parade of school busses and cars, we knew there could be but one reason for this celebration—our basketball team had won in the District Tournament at Au Gres. Though they lost by 12 points in the Regionals played Tuesday night at Mt. Pleasant, they played a fine game and we are proud of them.

Mr. and Mrs. Mike Kurchak and children of Pineconing visited the John Webb family Sunday.

Herman Huber and Ronnie Dane returned home from Philadelphia on Saturday. We are happy that Virginia Bielby is improving.

Mr. and Mrs. Glenwood Streeter spent Sunday evening with Elmer Streeter at Long Lake.

John Kerr and a friend from Mt. Pleasant spent the week-end with his parents here.

Mrs. Henry Attwell of Detroit is here keeping house for her father, Herman Huber, until Mrs. Huber returns.

To all Boat Liverymen of Iosco County including those renting boats to the public on Lake Huron, Tawas Bay, and inland lakes and rivers.

This law is known as the Public Act 257 of 1932 popularly known as the "Boat Liverymen Act."

This act states that all boat liverymen must register with the Sheriff in the County in which he operates.

The Iosco County Sheriff would like to have all liverymen contact this office as soon as you can by letter stating the number and location of boats.

The object of this act is from a safety standpoint, to eliminate unsafe boats and over loading.

KAI-SHEK'S INVASION
Both Generalissimo Chiang Kai-shek and his son have announced to the world, in recent speeches, that an end to the Communist enslavement in China was near at hand. "The moment of our counter attack is drawing nearer. Hundreds of millions of the oppressed are eagerly looking to us to deliver them."

East Tawas Legion Observes 35th Anniversary

The American Legion Post and Auxiliary celebrated the 35th anniversary since World War I with a turkey dinner at the Legion Hall last Sunday. Tables were beautifully decorated with floral centerpieces in red, white and blue, red candles and tiny American flags. There was also a large cake elaborately decorated with gold leaves and red, white and blue flowers. John Mielock was master of ceremonies.

The program consisted of an invocation by Mrs. Emma Sloan, a talk by Mr. Mielock, greetings by Mrs. Robert Harmon, auxiliary president, and Lloyd Bowman, post commander. Miss Helen Applin, charter member and organizer of the unit gave an early history of auxiliary activities. Roy J. McMurray of Saginaw, a charter member of Audie Johnson Post, was the main speaker and high-lighted post activities in early days. He closed with "in Flanders Field" and gave a tribute to those who made the supreme sacrifice. Audie Johnson, Carl Siglin, Francis Klinger and Stanley Daley. He then led a discussion of amusing incidents in the early history of the post. Those who responded were Joe Barkman, Jay Platte and John Mielock. Mr. Barkman, post adjutant since their organization, read names of charter members and told about their organization in 1919.

Post charter members present were: Roy McMurray, Joe Barkman.

Auxiliary charter members present were: Mrs. Emma Pinkerton, Mrs. Kathryn Moss, Miss Helen Applin.

MICHIGAN OUTDOORS

COMING: "THE PROMISED LAND"

Across the narrow Straits of Mackinac lies a land of glorious natural beauty, abounding in scenic grandeur, reaching into the north and west for three hundred miles in a long and lovely peninsula. While it is part and parcel of Michigan Outdoors, many a lower peninsula resident has never looked upon the "land of Hiawatha" largely because of a single factor of resistance: lack of highway connections.

The narrow waters of the Straits must now be traversed by ferry—and while the boat trip is attractive to the tourist, the unavoidable delay is often annoying and discouraging to travel.

Now, with the promise of a bridge as the connecting link, the economic history of the upper peninsula is surely facing an abrupt upward swing. Travel for pleasure and commerce will increase by leaps and bounds with the completion of the long bridge sometime in 1956.

"Gold Rush" On The Way
New money will pour across the Straits. New resort property will find ready customers. The rocks and rills of the Porcupine Mountains will thrill the eyes of countless new visitors. The majesty of Tahquamenon's falls will inspire thousands of amateur photographers, and the rugged, incomparable beauties of Lake Superior's shore will add to the most memorable of all vacations.

But there's more—much more to be gained by the advent of this iron link across the Straits. Industry will eye the advantages of producing in the Upper Peninsula... and there are many. Employment will mushroom, and with the increase in payrolls buying power will rise. Business can look for boom years ahead.

Closer Unity Established
Politically the coming bridge will forge a link long needed to bring the two peninsulas in closer relationship. In close geographical contact with Wisconsin on the west, there are many residents of the upper peninsula who find it hard to believe that their capital city is Lansing so many, many miles and a boat ride away! The bridge will work both ways, and residents of the Keweenaw copper country will drive southward to see how "the other half" lives. Chances are they'll get homesick, too, for the way of life above the Straits is wholesome, healthful and satisfying the whole year round—with a big back yard of top attractions in Michigan Outdoors!

Mort Neff's "Michigan Outdoors" television show can be seen every Thursday over WWJ-TV, Channel 4, in a thrilling half-hour show—7:00 p.m. till 7:30 p.m. DON'T MISS IT!

"Hot Flashes Stopped" or strikingly relieved

In 63-80%* of cases in doctors' tests... If you're miserable from the "hot flashes," and accompanying irritable, restless feelings of "change of life"—you may be suffering unnecessarily!

For... in tests by doctors... Lydia Pinkham's Compound and Tablets brought relief from such functionally-caused suffering to 63% and 80% (respectively) of the women tested! Complete or striking relief!

Yes! Research has proved these medicines thoroughly modern in action... has shown you where to look for relief from those distressing, nervous, "out of sorts" feelings of mid-life "change"!

So... get Lydia E. Pinkham's Vegetable Compound—or new, improved Tablets with added iron! (Wonderful, too, for the functional pains of menstrual periods.)

It acts through a woman's sympathetic nervous system to relieve distress of those awful "heat waves"!

HDA NOTES

By DOROTHY SCOTT

Are you planning spring remodeling or building a new home? Let us review some points that need consideration.

To begin with, there is the location of the house, and then do not overlook the customs and habits of your family.

A side driveway and an arrangement of walks, steps and plantings that will give a direct approach to the house entrances are important. The house itself should fit into its natural surroundings. Wings and extensions on a house may be useful for this as well as add needed space.

Will you need space for storing canned goods, home produced foods, household supplies? Will you need your own water and sewage disposal system? Shall you have a frozen food storage unit, other equipment?

If yours is a farm home, then there is need or some place besides the kitchen where workers can change outer clothing, keep work clothes, boots and shoes; and wash up. A rear hallway permits people to reach the kitchen, workroom, basement stairs and living room without interfering with the housework.

Every family who has a utility room, a place convenient for doing laundry, processing large amounts of food and doing other tasks, inconvenient to do in the kitchen.

These are a good many items to keep in mind when you plan to remodel or build. Actually there are many more, too. Have you been in your Extension Service office to see what there may be that can help you—bulletins on various subjects concerned with building problems, many of them illustrated, and an opportunity to talk with your home demonstration or county agent about your particular home? If you had not thought of doing that, why not do it now? If you cannot stop in yourself, write or call us on the telephone.

Buttonholes made with your buttonhole attachment giving trouble? Then try placing a single thickness of crinoline between the buttonhole attachment and the cloth. Because crinoline is a stiff, open fabric it gives sufficient body to the fabric for the attachment to make good buttonholes. After the buttonhole is made the crinoline may be pulled back and cut from around it. By cutting one side and the ends the crinoline may be pulled out.

Any crinoline bits not removed this way can be pulled out or washed out. The important thing is to keep the material smooth and the buttonhole on the straight of the material.

Women light up when complimented on their looks.
