Board of Education Answers Some School Site Questions

The following statement was prepared by the Tawas Area Board of Education and submitted for publication:

Numerous questions have been asked the Tawas Area Board of Education relative to its choice of the Neumann-Reinke site as the proposed site for the new school.

The board of education had asked the building and site committee to serve as a fact finding committee to find out about all sites. They felt that these facts would best show the site which would serve the entire Tawas Area School District. When all this information was presented, it was felt by the board, that these facts had picked the site. The board of education in its choice had the whole district in mind.

In order to further acquaint the people with these facts and help the people in understanding the situation the following facts are presented:

The Neumann-Reinke site is 608.9 at the highest point and 603.2 above sea level at the lowest point surveyed. The fairgrounds is 590.02 at the highest point and 587.8 at the lowest point where the building would be set. The highest point of the fairgrounds is 13 feet below the lowest point surveyed on the Neumann-Reinke site. There is no water on the Neumann-Reinke site where the building is to be built. There is no surface water at the site where the building is to be built. No fill will be required.

Water was found at 586.4 on the fairgrounds site. The architect stated that a fill of two feet for five acres would be necessary on the fairgrounds site for the building. This would take 16,000 yards, at an estimated cost of \$15,000 to haul fill dirt.

Water and sewer must be installed from the southwest corner of the Neumann-Reinke site. The distance to the proposed building is 1250 feet. Allowing \$5 per foot for sewer, 1.01 for four inch pipe and \$100 per foot for laying pipes, the cost will be \$8,782.50.

The cost for sewer on the fairgrounds site would be \$5 per foot for 450 feet or a total cost of \$2,250.

Information used to determine cost was secured from the East Tawas and the Tawas City Departments of Public Works.

Both cities have assured that a suitable supply of water will be available.

Fire Protection: If fire hydrants are placed on the Neumann-Reinke site, and at the site where the building is to be built, the same driving time at a comparable speed to the two sites were three minutes 20 seconds at the Neumann-Reinke site to the Tawas City Fire Station and one minute 20 seconds from the fairgrounds site to the East Tawas Fire Station.

Clearing and Leveling Site: An estimated cost for clearing and leveling the Neumann-Reinke site at \$150 per acre would amount to \$3,000. If the same cost was applied to the Allen property this would be an added \$9,000. The five acres of the Allen property which touches M-55 does not appear needed at this time and would not be developed right now. Only the part needed now would be developed and that would cut down the cost. Cost of preparing the Neumann-Reinke property would be much less as this land is level, so \$1,000.

ADULT EDUCATION CLASSES IN TAWAS AREA START MONDAY

The Tawas Area School system will begin the second year of an adult education program on Monday evening at 8 o'clock. Interested persons will meet in the study hall of the Tawas City School to organize classes.

This program proved very popular last year with classes being filled in typing, bookkeeping, art and shop. So far this year, requests have been received for classes in typing, shorthand, short story writing, child guidance and algebra. A class will be organized in these or any other subjects for which 12 members can be found and a teacher secured. A small fee is charged for each class. (The typing class paid \$3.00 for six weeks

course of two hours each week last year.)

Adult education in its first year was the project of the Twentieth Century Club of Tawas City. The club invited the Ladies Literary Club of East Tawas to co-sponsor the work this year. The main obligation of club members, inasmuch as this program is already functioning, is to build up interest in it in the area and give information when called on.

Persons wishing to know more about the adult classes are urged to come next Monday evening or call Mrs. A. P. Jerome of the Twentieth Century Club or Mrs. Herbert Hertzler of the Ladies Literary Club.

The evening's festivities included a coronation ceremony for Queen Marlene Sedgeman and her court. Charles Landon, captain of the football team, did the crowning honors.

The gymnasium was decorated in a football motif, with music by Dave Merkel and his orchestra.

The team, playing first year ball, won two games and lost two. Tawas won games from West Branch and Sterling; lost to Au Gres and Catholic Central of Alpena in a night game played there last Thursday.

In last week's game with the Catholic Central Reserves, Tawas was defeated, 19-14. Landon and Harmon sparked the yardage gains, which resulted in the scoring of a touchdown in the first quarter. Landon ran the extra point to give Tawas a 7-0 lead.

A 95-yard run following a pass interception by Pavelock in the second quarter and a successful attempt by Landon to run the extra point made the score, Tawas, 14, Central, 0.

Central turned on the steam in the third quarter. Using passes and sharp running plays they drove from their own 36 yard line to pay dirt in 11 plays. The

Bible Comment:

Psalmists Realized God's Providence Existed in Nature

ONE cannot read the story of Jesus in the Gospel without realizing how essentially the divine ministry was of earth, as well as of heaven.

It was not in classrooms, nor even in synagogues or temples, that the most distinctive teachings of Jesus were given. It was in the open, close to nature.

This was as it should have been in that time in the genial, outdoor atmosphere of that little land of Palestine.

It was typical of the religion in which Jesus had been brought up, and of the Scriptures that He knew so well. To the Hebrew writers the heavens declared the glory of God, and the firmament showed His handiwork.

Psalm 19 spoke of a language of nature, unspoken, without words, but that nevertheless was heard through all the earth, as day unto day uttered speech and night unto night showed knowledge.

Two things were very real to the Psalmists and Prophets. One was the law of God and His providence in nature, the universe a manifestation of law and order.

The other was the law of God in the heart, the assurance of right and wrong in life and conduct, and of man's highest attainment only when he lived in accordance with God's law of righteousness.

A superficial observer might say that ours is an age of the out-of-doors, full of travel, excursions, play, picnics and loafing. But how much of religion is there in it all?

It must be evident to any careful observer that the general public has strayed far from the essential Hebrew and Christian view of God and nature.

It is not the religion of the out-of-doors, but the irreligion of it, that mostly characterizes our modern way.

How much in this, as in other things, we need to learn from those who found a joy in God and a pleasure in His world, that few attain today!

Tawas Boy Tells of Need of Austrian Refugees From Behind the Iron Curtain

In a letter from Cpl. Walter DePotty stationed at Salsburg, Austria, to his sister, Mrs. Louis Frank of this city, he tells of the need for Christmas packages for the refugee children in Austria. These children will welcome anything as they and their parents left everything behind the "Iron Curtain" when they escaped. Discarded clothing or toys are accepted, but no money.

Last year the 63rd Signal Battalion sponsored eight institutions, providing each with a Santa Claus, a big turkey dinner with all the trimmings and a Christmas party with clothing and toys for all. This was possible through the cooperation of the folks at home.

Tawas river below the Mathew Street bridge was in the heart of Tawas City's activities in 1869. The log filled stream supplied the mills along its bank with timber. This picture was furnished by Herman Timreck to be copied and used in the Tawas City Centennial exhibit. Anyone who has a picture of this type is requested to call The Tawas Herald.

November Meeting of Dr. Kelker Bible Class Held

The November meeting of the Dr. Kelker Bible Class of the Hale Baptist Church was held in the Dorcas Rooms Monday evening of last week. Meetings of the class are suspended during the summer months, however, the class held a fellowship supper during the interim. At the October meeting the class members were guests of Mr. and Mrs. Watson at Camp Maqua. Election of officers was held at this meeting and a weiner and marshmallow roast followed the business session. The new president, Mrs. Durham, presided Monday evening after the business ses-

sion. Mr. and Mrs. Fox of East Tawas showed a series of pictures taken by them when they were stationed in the Hawaiian Islands. They also showed recent pictures taken in Korea by Mrs. Fox's brother that were very interesting. The class adopted as their project for this year, the purchase and installation of a new sink and cupboard units in the parsonage.

Lunch was served and a social hour enjoyed. The regular meetings of the class are held on the first Monday of each month.

Mrs. Robert Buck and Mr. and Mrs. Ralph Graves visited her husband Sunday at Ann Arbor

where he is undergoing medical treatment.

Robert would appreciate hearing from his friends as he is very homesick.

Mrs. J. H. Johnson and Mrs. E. Graves were Bay City and Saginaw visitors over the weekend.

A group of their young friends surprised Mr. and Mrs. Orville Armstead with a house warming party last Thursday evening. Games and lunch made up a pleasant evening. Mr. and Mrs. Armstead were presented with a gift.

Mr. and Mrs. Elwin Hobart of Bay City and Mr. and Mrs. William Mildebrandt of Birmingham spent the week-end at the Mildebrandt cottage and visited Hale relatives over the weekend.

Mr. and Mrs. Clyde Humphrey and Mrs. Dale Humphrey were Bay City visitors last week, Tuesday.

Mr. and Mrs. Joseph Sestak and baby of Saginaw were guests of Mrs. Sestak's parents, Mr. and Mrs. Howard Atkinson, during the past week.

Mr. and Mrs. Chester Bielby of Detroit spent the week-end at their home here.

Warren Dorcey was badly cut around the eyes Thursday night when he was struck with a basketball, breaking his glasses.

Mrs. Mable Greve is entertaining her friends at a Stanley party Wednesday evening.

Mrs. Meir has moved into the Bernadine Swanson home.

William Brandal, Alvin Dorcey and Berkeley Bernard were badly cut and bruised in an automobile accident Friday night.

Mrs. Elizabeth Taulker is suffering from a badly sprained shoulder.

Sunday was Rally Day at the Hale Baptist Church.

Mrs. June White of Turner and children spent Sunday with her sister, Mrs. Dale Johnson.

A girl's trio from the D. P. I. in Detroit will have charge of morning and evening services at the Hale Baptist Church Sunday, November 15.

Mrs. Kate Evans of East Tawas will show a film on Cancer at the Grange Hall Tuesday, November 17, at 8:30 p. m. These films are very interesting, and it is hoped that attendance will be good.

Building Pay

The Bureau of Labor Statistics reports that building trades workers were earning an average of \$2.71 an hour on October 1, which was 10 cents an hour above the level at the start of this year.

HDA NOTES

By DOROTHY SCOTT

Calendar: Officers Training School for home demonstration group officers will be Thursday, November 12, at 8:00 p. m. in the Federal Building, East Tawas.

One more sewing machine is back in circulation, doing a good job, thanks to Mrs. Charles Attwell. She tells us this one is a "Ruby" and that it was literally "frozen" when she started to work on it.

We are wondering if there may be women around the county who will be interested in further sewing machine care and adjustment workshops this winter. More will be planned if there are requests. Make them to me, and soon, as we need to know about workshop requests with time to plan for them.

Basket weaving proved popular, 17 women attended the training school. All of us say a special thank you to Mrs. Isabelle Earhart of Whittemore who assisted with the teaching. Three kinds of articles were made—a mat, a bun basket and a fireside basket.

Come January and more supplies of reed, group members will try their hand at weaving baskets, too. Instructors will include Mrs. O. J. Westcott, Mrs. Robert Botsford, Mrs. Donald MacDonald, Mrs. Donald Huey, Mrs. Roy Atkinson, Mrs. A. W. Miller, Mrs. Harold Black, Mrs. Cobb, Mrs. Neva Caton, Mrs. Orville Lyke, Mrs. Rodney Heilman, Mrs. Edward Robinson, Mrs. George Waters, Mrs. Raymond Matthews, Mrs. Russell Williams, Mrs. Emma Huff and Mrs. Earhart.

It was a completed new belt for Mrs. Harold Black at the Dress Finishes Training School. Everyone made a sample piece, but Mrs. Black had a dress for which she has planned to make an improved belt for some time, and it proved to be no sooner said than done after she had a piece of belt backing material to reinforce it. It will be washable, too, and that is essential since the material is nylon.

Mrs. Donald MacDonald is well along on a cotton blouse which is being made using the various construction methods being studied in this year's series of clothing lessons. The blouse has darts, a collar, set-in sleeves, buttonholes and a bound pocket.

In our bulletin board display is the first tailored (tucked) buttonhole made by Mrs. Fat Nardizzi, and a zipper placket done by Mrs. MacDonald. Stop by the office sometime and see these articles and other display items.

Roses are often treated badly by winter weather. Here are tips to prevent such injury or killing of hybrid tea varieties of roses.

More damaging to the rose bush than the cold winter temperatures is excessive drying out of the above-ground portion of the plant. This drying is caused by the same winds which cause your skin and lips to become dry and chapped in the winter.

Because the soil is too cold to prevent water absorption the rose plant cannot replace the moisture lost by wind drying.

Of course excessive low temperature can and does cause plant injury, especially in early winter.

To avoid these dangers, Harold Davidson of the Michigan State College horticulture department suggests mounding additional soil against the base of the plant. Be careful not to expose the root system as the soil from around the plant for mounding. Mulching with organic matter and wrapping the bush with tar paper is also beneficial.

"We Appreciate Trucks..."

Says Harvey Campbell,
Executive Vice President
Detroit Board of Commerce

"YOU'LL see a campaign some of these days," Mr. Campbell points out in THE DETROITER, "selling highway transport—trucks, that is—to women and children.

"Such tender folks should say a prayer of gratitude every time they see a truck. They should thank Providence whenever grace is said at table because without trucks we wouldn't eat—would have no clothing, shelter, comfort, fun—or newspapers.

"Small towns, deserted by railroads, have grown, prospered and made ours a pleasant and prosperous land—saved by motor trucks.

"Aircraft, steamship and railroad operators should help preserve and encourage highway transport planners and thank them for their existence, because without trucks nobody could load a boxcar, ship or plane.

"Get our point? We appreciate trucks—and truckers."

Why more than a million owners this year have chosen the "Worth More" **FORD!**

They have discovered first hand what the surveys show... Ford, with all its fine-car features, is worth more when you buy it, and worth more when you sell it!

OVER A MILLION OWNERS can't be wrong! Ford is the one fine car in the low-price field. It gives you the "GO," the style, the comfort, and "build" of cars that sell for far more. And, it's only natural that Ford keeps its value better, in resale, than any other car on the American Road. Check the features below for some of the "Worth More" reasons for the swing to Ford.

Lowest-priced V-8 in America! And the only V-8 in the low-price field. Ford's high-compression V-8 power plant delivers its "Go" on regular gas!
Most Modern Six of all is Ford's high-compression, low-friction Mileage Maker. With Overdrive, it was the winner in 1953 Mobilgas Economy Run.
Smoother Ride, with front-end road shock reduced up to 80%, is another Ford big-car feature... and you get it without gas-eating extra weight.
Fine-Car Build means using steel of the same quality and thickness as in costliest cars. Ford is the most completely insulated car in its field.
Fordomatic Drive is the only "automatic" in its field with the "Go" of an automatic intermediate gear plus the smoothness of a torque converter.
Finest Power Steering—that's Ford Master-Guide. Does up to 75% of the steering work yet retains normal steering "feel" on the straightaways.

MICHIGAN OUTDOORS

DEER KILL PROPHECY
The Michigan Conservation Department's latest predictions on total deer kill for 1953 tell us not to expect a harvest of more than 80,000 animals, including those killed during the one-day "any deer" season on December 1st. This is just about half the total taken last year.

There are many folks who live in the north central counties of our lower peninsula who don't believe that figure will top 50,000—and these same skeptics have told this writer that the buck kill won't be more than 30,000, which is quite a drop from the 100,000 estimated kill just a few years ago.

Follows Department's Formula
Far from dismayed at the current smaller size of our deer herd, game men feel that the population is now being fitted to the amount of available food in their range, and that the future health of our Michigan deer will be greatly improved. They look for more multiple births in coming years, plus a normal rate of growth which will produce bigger bucks. Winter starvation has stunted thousands of animals in the past.

Low Kill Expected In One-Day Season
Last year about 110,000 deer were killed in the 3-day any-deer season.

These "extra" days included a week-end bringing out a huge army of hunters. This year several factors will work against any such kill. First, of course, there won't be as many deer. Next there won't be less territory open for hunting (lower peninsula only, above M-55 as against area above M-20 last year). Finally, December 1st falls on a Tuesday when lots of would-be hunters are kept on the job. Still another factor is the weather. A storm can cut the hunting turn-out and give the animals more protection, too.

So that extra day of hunting "any deer" may not prove much one way or the other. In any event the Department is not laying itself open to the scathing criticism that befell it last year.

Warning to Optimists
Game men warn of more disappointed hunters but counter with the claim that our deer herd will be in better shape for the years to come. Meanwhile a lot of northern natives depending on a flow of cash from deer hunters from the south anxiously await the outcome of the contest. Tip to deer hunters from this writer: Get a copy of the kill report published by the Conservation Department covering 1952. Then plan your hunt where the kill was lightest!

With Iosco 4-H Clubs

More than 60,000 4-H Club boys and girls in Michigan will be honored for a notable year of accomplishment on November 14, National 4-H Club Achievement Day. This is the day when the entire nation says, "That's off for a time job," to more than two million boys and girls who are 4-H Club members in the United States, and to their leaders.

Do you have any idea how many 4-H Clubs there are in Michigan, or how many other girls and boys just like yourselves are 4-H Club members in Michigan?

Number of 4-H Clubs is 4,746. These 4-H Clubs are possible because of 9,000 adult leaders and more than 2,000 junior leaders who give of their time to assist Michigan young people participate in the largest, and we think the best, youth organization in the country.

Here in Iosco county we currently have seven Community 4-H Clubs under way for 1954, with two more in process of organization. It really looks as if we should go ahead into 1954 for the best year yet for a 4-H Club program in our county. Each and every boy, girl, parent and leader will help to make it so.

Carol Hula, reporting for the Hale Happy Hustlers knitting project, tells us there are eight girls in their project. Mary Jane Douglass is helping Mrs. Arion VanHouten teach the class. To quote Carol, "We have sent for our yarn. We hope to get started on our knitting as soon as we can. We have two girls doing the first project; five girls, the second project, and one girl, the third project. Our next meeting is Tuesday, December 1, and is to be held at the school house from 4 until 5 o'clock."

"Alabaster-Whitney Rowers 4-H Club members gathered at the East Tawas Roller Drome for a skating party on November 2. All 18 members were present, also their friends.

"The leaders, too, had fun roller skating. There was candy and gum and pop to drink and eat if you wanted to buy it. "We hope to have good turn outs for all our 4-H Club meetings," Andrea Lee Duquette, reporter.

Franklin Bischoff, Mrs. Emerson Frank, Mrs. Harold Goedecke, Mrs. Roy Atkinson, Mrs. William Proper and Mrs. Walter Laidlaw met with your home agent at Mrs. Atkinson's home last week. Together we discussed the various projects, bulletins, requirements, project meeting and reports for Laidlawville 4-H Club in 1954.

It isn't likely that all the questions were asked or anticipated, and we will be expecting to hear

more of them from these leaders as the months roll along.

Taft Junior Farmers young people are talking over their plans for project activities. As a matter of fact they have started some good planning, and in the next week or so will have talked it up, down and around to the point of agreement and understanding as to which projects each member will do. Each member will sign up for at least two projects, and there will be at least five members in any new project added to their program.

Wednesday, November 18, is the date when all will meet again to put the final arrangements on paper—namely membership blanks. This is the one most important 4-H Club meeting of the year for parents. It is when project selections are being made that mothers and fathers should be present to find out what choices are being made and what is necessary to carry them to completion.

We hope at least one parent from every family in the Taft Community will make special plans to be present at that November 18 meeting.

Railroadmen Speak at Kiwanis Luncheon

Advocating the adoption of a national policy with equal and fair treatment of all methods of transportation for the ultimate public good, Robb H. Allie, secretary and director of public relations of the Michigan Railroads Association, keynoted the messages of a trio of speakers representing the Michigan industrial group before the Kiwanis Club's weekly luncheon held Tuesday at the Holland Hotel. "If you're going to continue the present trend of giving subsidies to some transportation agencies, then dole to the railroads, too—just to be fair," quipped Allie as he brought chuckles from the group of 75 Kiwanians and their guests, including 20 Detroit and Mackinac employees.

Allie's short talk was preceded on the program by the brief remarks of George H. Wyatt, chairman and general counsel of the Michigan Railroads Association, and those of Pat Hackett of the New York Central legal department at Detroit. The three presented a similar program being the Alpena Rotary Club on Monday.

Speaking first, Wyatt reviewed the financial difficulties encountered by the railroad industry and its persistent failure to earn a fair rate of return on its investment. He briefly cited also how railroads have not been receiving a fair deal by governmental bodies. "On a certain street paralleling railway-owned and maintained right-of-way and tracks in Detroit," Wyatt remarked, "the city constructed an improved truck route and then assessed the railroads half the cost of the project."

"This is just like some governmental agency assessing Tawas businessmen for the purpose of erecting a building to house a competitive enterprise," Wyatt said. "And this same subsidized business, like truckers, would be permitted in effect to return most of its tax levy into improvements on the physical plant."

Hackett, a recent graduate of the University of Detroit, was the second speaker. He outlined the legislative program of the railroads. He emphasized the need for "partial de-regulation" of the great railroad industry and specifically explained the attempts to reduce time lags in obtaining Interstate Commerce Commission action on requests for rate changes.

"The railroads are not engaged in a feud with the trucking industry as many people have been led to believe," Allie pointed out. He cited the utilization of subsidiary trucking service by railroads. "In your own backyard," he said, "you have a modern, efficient example of a revitalized railroad, the Detroit and Mackinac operating the Mackinac Truck Lines." Reminding his audience that only the railroads and pipelines pay their own way completely and receive no subsidies, Allie reiterated that all the railroads want is public understanding and awareness that the country needs an equitable, uniform policy toward transportation agencies.

C. Dwight Wood served as toastmaster. Clyde J. Creaser, Kiwanis program chairman, handled all arrangements for the luncheon event. Twentieth Century Club The Twentieth Century Club will meet next Wednesday evening at the Legion Hall. "Women in Politics" is the subject for discussion. Ten minute talks will be given on prominent women of the present time.

(Continued from First Page) Tawas line blocked the try for extra point. Central started rolling again, and pushed for a touchdown from their 46. The extra point was good on a pass. Score: Tawas, 14; Central, 13. Central intercepted a Tawas pass on the Tawas 29 and drove to the 15, but fumbled. Tawas found the going rough. They passed again and Central intercepted on the Tawas 29. A completed 29-yard pass put the game on ice for Central. The extra point attempt failed. The final score was Tawas, 14; Central, 19.

The Allen site optioned for \$4,000. Total cost for 65 acres, \$16,500. Cost of the fairgrounds, according to the site committee, was set at \$13,000 for 32 acres. John Franson stated this amount was what we could expect to pay at this time. Cafeteria: There would be no material difference in the number of people served at either site. pletely self-supporting after initial capital outlay expenditures. There would be no appreciable difference in the two sites on this factor.

Parking Facilities: Parking facilities are very important when 1,000 cars are predicted for some future events at the school. Unlimited area is available on the Neumann-Reinke site. The fairgrounds site will hold 150 cars near the building. High valued residential property prevents any enlargement at this area.

Protection: The state laws provide protection from any persons who engage in an activity which will contribute to the delinquency of minors. We have the protection of the State Police and County Sheriff's Department in law enforcement at the Neumann-Reinke site. This along with the people now living in the immediate vicinity of the Neumann-Reinke site should afford adequate protection.

Size of Site: If site is crowded pupils have a tendency to trespass on private property. This has been the problem at all schools with crowded grounds. Large playgrounds are needed when 600 to 1,000 pupils all wish to use it at the same time. A few things not listed on the scale drawing, but which are needed are: a practice football field, a practice baseball field and additional area for softball fields would be a necessity to pupils in physical education.

We will not immediately need all the site under option, but it seems the part of prudence to get enough land to meet all eventualities before the land has buildings placed on it. And as stated previously, we needed a large parking area. Transportation: Plans have been drawn up where the transportation of students can be handled with one more bus at the Neumann-Reinke site. This bus would not be a necessity but would make a smoother running transportation system.

The fact that the state pays all transportation, including the cost of purchasing this bus, also comes into consideration. This will also improve service in rural areas, and all in the cities would have transportation from a point near their home. Mileage will balance off at the two sites so very little difference will be registered. Summary of Cost:

To the Honorable Board of Supervisors: In regard to the request of an appropriation from Iosco County, Agriculture Society.

We recommend that the \$500.00 note due the county on January 1 be cancelled.

Respectfully submitted, Edward Burgeson, Charles Monroe, W. J. Anderson, Elmer Werth.

Moved by Anderson supported by Werth that the report be accepted and adopted. Motion carried upon the following roll call.

Ayes: Anderson, Bellville, Black, Burgeson, Dickey, Everett, Jordan, King, Little, Long, Moehring, Monroe, Rodman, Stickney, Webb, Werth, Nays: None.

Mr. Monroe read the following report of the Road and Bridges Committee.

October 15, 1953. To the Honorable Board of Supervisors:

Your Road and Bridges Committee wished to report that on October 5 and 6 they met at the Iosco County Garage and left from there to inspect the various roads throughout the county.

The Tawas Point Road was found to be recently graded for about one-half mile. Plans for completion of this work pending on operation of County Rock Crushing Plant.

Visit to plant site was made, and mileage was checked from county line. It was found to be four and five-tenths miles. Road commission officials stated that Consumers Power would start construction of necessary power line at once.

Roads in Alabaster township were inspected and found to be in good condition. No new projects had been started this year.

Meadow Road was ditched one mile between Sections 25 and 26 in Grant township. McIvor Road was graded for a distance of five miles between Sand Lake corner and National City. The first coat of sealcoat has been applied to this road, and completion will be done during the coming year.

Inspection of a recently constructed grade in Section 18, Sherman township, was made and found to be two miles long. This is known as the Kitchen Road. The expense of this was born by the National Gypsum Company in exchange for the closing of a road between Sections 17 and 20, known as the Alabaster Road.

Burling township was next inspected between Sections 13 and 14, known as Bowsby Road. This was needed and found to be in excellent condition, one-half mile of new grade between Sections 32 and 33, known as Wilson Creek Road.

This grade was found to be in fair condition. One mile of new grade on north and south quarter line through Section 32 was inspected, and found in good condition. Reno township was inspected. Two new culverts were found to be installed and necessary ditches were made to take care of drainage around the Reno Baptist Church corner.

Three-quarters of a mile on the School Road between Sections 11 and 14 were inspected and found to be resurfaced with pit-run gravel, condition of road was found to be fairly good. The detour around the East Branch river bridge, Grant township, known as the Carpenter Road, was inspected and found to be graded and gravelled and in very good condition. Plainfield township roads on inspection were found to be in good condition. No new construction projects for Plainfield were noted. The Bissonette Road in Oscoda township was inspected and found to be in poor condition on the west end for approximately five miles. Stabilizing this area with clay and some mixture by grader would probably improve this condition.

Indian Settlement district was inspected, roads were found in favorable condition. It is recommended that grading of the Cook Dam Road be done. The County Line Road between Oscoda township and Alcona county was found to be in very good condition, new planking has been installed in the bridge. Work on this road is done on participating basis between the two county road commissions.

Harrisville Road, Oscoda township, was found to be in good condition. AuSable Road in AuSable township was found in need of improvement. Four miles of streets and roads throughout AuSable were resurfaced and adequate drainage provided for on a participating basis between road commissions and township. Inspection of Wilber and Baldwin townships was made. No new construction was noted, roads in general were found to be in good condition. Roads in Tawas township were inspected. No new construction has been accomplished. In general roads were found to be in good condition except that the Laidlaw hills were found to be in need of improvement.

All new construction and resurfacing has been done on a participating basis between the road commission and the various townships. Numerous old culverts were noted to be too narrow in design to conform with present road grades. We have been informed by the road commission that necessary reconstruction for improvement of this

condition is being made as financial status permits.

Respectfully submitted, Charles Monroe, Victor J. Anderson, Harold Black.

Moved by Monroe supported by Black that the report be accepted and adopted. Motion carried unanimously.

Motion was made by Burgeson supported by Rodman that the board recess until 9:30 a. m. October 16, 1953.

October 16, 1953. The board was called to order at 9:30 a. m. in continued October Session by the chairman, who ordered roll call. The following supervisors were present: Anderson, Bellville, Black, Burgeson, Dickey, Everett, Jordan, King, Little, Long, Moehring, Monroe, Rodman, Stickney, Webb, Werth, Nays: None.

The board was deeply shocked to learn of the death of Henry L. Klenow, a man held in the highest esteem by the entire membership. In respect to his memory the entire board stood for a moment in silent prayer.

Mr. Werth offered the following resolution.

RESOLUTION To the Family of Henry L. Klenow:

Whereas, the Board of Supervisors of the County of Iosco, State of Michigan, has received word of the sudden and untimely death of Henry L. Klenow;

And whereas, this Board of Supervisors has always held Henry Klenow in high esteem as a member of this board, who through the years has given of his talents in sincere and continuous service to the community and this county;

And whereas, this board receives the news of his death with deep regret and with a feeling and sense of great loss;

Now therefore, be it resolved, that this Honorable Board of Supervisors extend its deepest, regret sympathy to the family and friends of Henry L. Klenow with the thought that his passing is a great loss to this board as well as to his family, friends and the community at large.

Motion carried unanimously. The clerk addressed the board asking consideration of the purchase of a new mimeograph machine for use in all the county offices. Referred to the Purchasing Committee.

Mr. Black read the following report of the County Farm Committee.

October Session. To the Honorable Board of Supervisors:

After your County Farm Committee was informed of the resignation of the present employees of the County Farm and the difficulty of securing other help we visited the farm finding it well stocked with a fine herd of Holstein cattle which alone requires a great amount of manual labor which is not available at the present time at wages that would make the keeping of the entire herd profitable.

Now therefore, be it resolved, that the producing of milk by the governmental unit is not a necessity beyond the needs of the infirm and that authority be given the managing board of said farm to liquidate said assets that will be in their judgment for the best interest of the County of Iosco.

Respectfully submitted, County Farm Committee, George G. Webb, Harold Black, Glenn Long.

Motion by Black supported by Werth that the report be accepted and adopted. Motion carried upon the following roll call.

Ayes: Anderson, Bellville, Black, Burgeson, Dickey, Everett, Jordan, King, Little, Long, Moehring, Monroe, Rodman, Stickney, Webb, Werth, Nays: None.

Mr. Little read the following resolution.

RESOLUTION Whereas, M-55 between Tawas and the City of West Branch is blacktopped with the exception of a short stretch at the west end of Iosco county and the east end of Ogemaw county.

And whereas Highway 65 between Whittemore and Hale remains the commuting link on a long stretch of blacktop on this highway.

And whereas in view of the continued heavy traffic said M-55 and M-65 each should be an improved highway;

And whereas, the cost of maintaining the stretch remaining that has not been blacktopped is continually increasing to the point where expenditures for maintenance is continually rising to a considerable amount of money;

Now therefore, the Honorable Board of Supervisors of Iosco County, State of Michigan, hereby petition the Michigan State Highway Commission to request that immediate steps be taken to accomplish completion of the blacktopping of M-55 between Tawas and the City of West Branch and M-65 between Whittemore and Hale.

**EXTENSION SERVICE
FARM NOTES**

Five members of the Iosco County Agricultural Extension Council met to assist with planning for several meetings in the county during December and January. They are: Thomas Nelkie, president; Harold Hammond, secretary; Orville Strauer; Warren Britt, and Harold Black.

First of these meetings is to be on Bang's control. The date is December 2, and it would be a good suggestion that you circle that date on your calendar now. Bang's Disease is a topic of considerable concern in Iosco county, as well as in other counties. To control it means knowing as much as possible about it to begin with, and then practicing to the best of our ability what we know to do by way of control.

Watch for more information and details about this meeting on December 2.

Soon after the New Year will come the annual meeting on farm economics and farm income tax records and reporting. And, almost on the heels of that meeting will be the Little Farmers' Week series. This year's program offers a variety of timely and helpful information about many different farming operations.

Recently we had a summary of the feeder cattle sales held in October from Wilton L. Finlev, extension specialist in animal husbandry.

In it he indicates that this feeder calf program still provides a very good market for the lower quality forage crops and pastures of Northern Michigan. He comments that this is not a bad time at all to expand herd size or establish new herds where the program seems advisable. The purchasers like these Michigan calves or they would not have paid the \$20.57 average for all steer calves at Gaylord and \$22.65 for the steer calves at West Branch.

The Iosco-Tawas Artificial Breeders Association welcomes three new members in October, Max Voss of Whittemore; Joseph Reinke, Tawas City; James Quarters, Tawas City. Mr. Voss and Mr. Quarters have Holstein herds, and Mr. Reinke's is a herd of Angus.

Nine Bulls and 10 Heifers Born in DHIA Herds

It was almost even-up among the calves born in DHIA herds during October, nine bulls and 10 heifers.

The association milk production average was 750 pounds, butterfat was 26.6 pounds.

Traffic Toll 181 in September

There were 181 persons killed in traffic accidents in Michigan during September, or one more than in the same month last year. The average was six each day and the total for the month was 28 higher than the average for September during the seven-year period of 1946 to 1952.

The State Police monthly statistical report also shows 5,073 persons injured and a total of 14,844 accidents, as compared 4,257 injuries and 12,404 accidents in the same month a year ago. The increase in deaths was

one percent, injuries 18 percent and accidents 20 percent.

Particularly alarming was an increase of 45 percent in run-off-roadway accidents in rural areas resulting in a 115 percent increase in deaths and a 44 percent increase in injuries as compared with September last year.

The record for the first nine months of this year shows 1,355 persons killed, 41,879 injured and 131,627 accidents. This is an increase of nine percent in deaths over the first nine months of 1952, a 20 percent gain in injuries and a 14 percent increase in accidents.

Prosecutor Barnett addressed the board and explained the case of Stork vs. Iosco county. In this case a judgment was rendered against the county which meant the loss of a two year assessment on the Addy Drain located in Plainfield township. Mr. Barnett said that the decision was inevitable and that through no fault of the county or drain commissioner, the inaugural petitions which were filed in establishing the Addy Drain were found to be faulty and insufficient by the court. He stated that he was now studying all possible channels by which the county might be able to reassess the district.

Chairman Bellville announced that he would appoint Clarence Everett and Harold Black as members of the board to accompany himself to Lansing to attend the convention of the State Association of Supervisors, which will be held in Lansing January 26 to 29, 1954.
