

## Re-Submit School Building Program To Tawas Area Voters Monday

PROPOSED NEW TAWAS AREA JUNIOR AND SENIOR HIGH SCHOOL

### First Decision Confirmed After Survey

School District Divided Into Four Voting Precincts by Board

Next Monday electors of the Tawas Area School District will again vote on a bond issue, not to exceed \$775,000, to finance the construction of a new school building and purchase a site.

At a previous special election the proposal was defeated by a close vote of 1079 to 945 on the bonding proposal. The vote on raising the tax limitation was 1053 "yes" to 1144 "no."

During the interim between the first election and the one which will be held Monday the Tawas Area Board of Education has held hearings and made a re-survey of the building project, school program and school site, and the bonding proposal is being re-submitted for the voters' approval.

The proposed new Tawas Area High School is attractive and functionally modern, and of functional design. The plans were prepared by H. E. Beyster and Associates of Detroit, Michigan. (See **SCHOOL**, Back Page)

## Supervisors Vote to Submit New Jail Proposal to Electors

### Four Seek Full Term School Board Vacancies

June 12, the deadline for filing nomination petitions, revealed four seeking the two full term vacancies on the Tawas Area Board of Education. The election will be held July 12.

The candidates are Randall Fox, incumbent, of Tawas City; William R. Look, Alice R. Dimmick and Lutie O'Loughlin of East Tawas. Harold R. Gould, president of the board of education, whose term of office expires, had announced that he would not be a candidate for re-election.

For the one year term to fill vacancy, Stuart White is the unopposed candidate. White is now serving by appointment. He succeeded Earl M. Wight, who resigned.

### Povish and Warner Buy County Farm

Sold in Two Parcels Purchasers Pay \$26,500 for Big Farm

Sale of the county farm and the problems of building a new county jail were the two major pieces of business attacked by the Iosco County Board of Supervisors at the June meeting which ended Wednesday.

Offered for sale in April, the two high bidders were Arthur Povish and Mervin Warner, who bid on the farm as two separate parcels. Povish purchased the original county farm, which includes 120 acres of land with the infirmary and farm buildings. The price paid was \$22,500.00. The parcel known as the Cecil Cox farm was sold to Warner for \$4,000.00. The transaction was closed at Wednesday's session of the board.

Forced by the act of the State Board of Corrections to make a decision on the building of a county jail, the board of supervisors adopted a resolution to submit a \$125,000.00 bonding proposal to the electors at the August primary election. A one mill tax levy would be made to retire the bonds. The bonds would be used to finance construction of the proposed county jail.

Architects plans have been prepared which have been approved by the State Board of Corrections. After several years of criticism of the jail, the board of corrections in May 1953 condemned the building and gave the board of supervisors a limited time to take action in providing a satisfactory jail.

Supervisors Elmer Werth and Clarence Everet, who represented Iosco county at a meeting of the State Tax Commission, gave report of their mission. They stated that they had filed a formal protest against the equalization of Iosco county's assessed valuation made by the State Tax Commission's equalization figures for school tax purposes. Their action at the meeting was approved by the board.

The board authorized the Iosco County Road Commission to sell crushed rock to Iosco county and other governmental units for street and highway purposes, whenever such sale did not interfere with county road purposes.

Attorney Richard Newman informed the board that a suit had been started attacking the validity of the Towning Drain assessments by a group of dissatisfied taxpayers in the assessment district of that drain. Newman is attorney for the drain commissioner.

### Rosalie Lambert Chosen To Attend Girls' State

Rosalie Lambert has been chosen by Audie Johnson Unit, American Legion Auxiliary, for Girls' State to be held at Ann Arbor June 15 to 23. Rosalie is a graduate of the 1954 Class of Tawas Area High School. Government procedure will be studied at Girls' State.

## MAYOR'S PROCLAMATION

One hundred years ago this community was established when Gideon O. Whittemore and Company arrived at this point and erected a saw mill. This mill formed the nucleus of a small village known as Tawas City. The name of the village was obtained by dropping the first two letters of the word "Ottawas," the original name of the bay. The "City" half of the title of the village was derived from a great expectation and strong faith for the prosperity of its inhabitants.

It is fitting that the citizens of Tawas City should honor the memory of those early settlers and commemorate the first hundred years of thriving life in this community.

THEREFORE, I, George W. Myles, mayor of the City of Tawas City, Michigan, do hereby designate the week beginning June 20, 1954, as Tawas City Centennial Week, and do hereby call upon all citizens and friends to celebrate that week by proper memorial observances and other activities designed to commemorate the early settlers and the first one hundred years of life in Tawas City.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the City of Tawas City to be affixed. Dated at Tawas City, Michigan, this eighteenth day of June, 1954.

GEORGE W. MYLES,  
Mayor of the City of Tawas City

### Three Offices Contested in Primaries

Iosco Democrats File State of Candidates For County Offices

Three offices will be contested for nomination as candidates on the Republican ticket at the August primary election. The period for filing ended Tuesday afternoon.

Six candidates filed petitions for nomination as candidates on the Democratic ticket. This is the first time in many years that Iosco Democrats have placed a slate of candidates on the ballot for county office.

Republicans filing for nomination are:

Clerk—George A. Prescott.  
Treasurer—Grace L. Miller and Lyle Long.  
Sheriff—Ivan O'Farrell.  
Prosecuting Attorney—Reginald Barnett and William R. Barber.  
Register of Deeds—Albert Buch and Harold Black.  
Drain Commissioner—Richard Elliott.  
County Surveyor—Carl R. Small.  
Coroners—E. D. Jacques and E. John Moffatt.

Candidates who will appear on the Democratic ticket:

Clerk—Lionel Wessenick.  
Treasurer—William Sheffer.  
Sheriff—Robert Oates.  
Register of Deeds—Wilbur C. Roach.  
Drain Commissioner—Arthur Coash.  
Coroner—Alvin Forshae.

The ringing of church bells next Sunday morning will usher in Tawas City Centennial Week, June 20 through 27. During the week, Tawas City will celebrate the 100th anniversary of its founding by Gideon O. Whittemore in 1854.

The long-prepared-for celebration here will begin with Centennial church services in all of Tawas City's churches Sunday morning.

A group of people from Zilwaukee will be the guests of Tawas City on Sunday. That Saginaw county community celebrated its Centennial this week and the group will be dressed in costumes depicting fashions of long ago.

Last Saturday night several hundred local residents appeared on Lake Street wearing their Centennial costumes. Included in the group were be-whiskered gentlemen, resplendent in swallow-tail coats and derby; ladies in bonnets and long, flowing dresses, and the younger set dressed in costumes similar to their parents.

An impromptu square dance was held on the city hall apron Saturday evening. The dance attracted a large crowd of out-of-town visitors, who watched the old-timers strut their "doo-dos" and "al-le-man lefts." Centennial Week highlights (See **CENTENNIAL**, Back Page)

## Centennial Museum Has Interesting Period Exhibits

The Tawas City Museum, located in the Buch Market Building, is now open to the public. Many interesting articles of early Tawas City history are on display.

Included in the museum is a display of early telephones by the Michigan Bell Telephone Company and more than 100 old pictures collected by The Tawas Herald.

Other interesting items include a display of printing samples by the Iosco County Gazette of the early 1870's, old furniture and household items, the first ballot box used in Tawas City and lumbering day relics.

The museum will be open Saturday night and there is still time for anyone who wishes to display any items of historical interest to place them on exhibit.

## Mrs. Parker Morley Dies Sunday

Mrs. Parker Morley, well known resident of this city, died last Sunday evening. She had been ill for the past four weeks.

Funeral services were held Wednesday afternoon at Christ Episcopal Church, East Tawas. The Rev. Richard Jennings officiated. Interment was in the Tawas City Cemetery.

The former Sarah Marshall was born May 31, 1868, at Ripon, England. On December 25, 1894, she married Parker Morley. In 1903 the family came to the United States, settling at Alabaster. A year later, they came to Tawas City. Mr. Morley passed away May 12, 1950.

She was a member of Christ Episcopal Church and Irene Rebekah Lodge of which she was a Past Noble Grand. For many years she had been treasurer of the Royal Neighbors.

Surviving are a son, Harry Morley; a daughter, Mrs. Guy Lickfelt, and five grandchildren.

A replica of a covered wagon, similar to one of the wagons used by pioneers who first settled in Michigan, will be in the Tawas City Centennial parade on Saturday, June 26. The wagon is now on display in front of the Tawas City Hall and the be-whiskered driver in the photo is James Lansky.—Herald Photo

## Mortgage Burning Highlights Program

A "Mortgage Burning" ceremony will be part of the program at the Tawas Chamber of Commerce banquet and semi-annual meeting to be held Saturday evening at the Barnes Hotel in this city. Featured on the program will be Ken Lawrence and staff from Station WNEM-TV, Bay City.

Lawrence and his entire staff will be guests of the chamber of commerce Friday and Saturday. Those in the group who plan to attend are: Mr. and Mrs. Ken Lawrence, Mr. and Mrs. Dave Davis, Mr. and Mrs. Frank Benish, WNEM Sportscenter Virgil O'Dell and Mr. and Mrs. Charles Mendall.

A tour through the Huron National Forest, Silver Valley and Ausable River scenic area is planned for Saturday morning to entertain the group. In the afternoon there will be a fishing trip aboard Carl Babcock's Oka B II on Saginaw Bay. A visit will be made to the United States Gypsum plant at Alabaster where they will inspect the dock installation and aerial tramway and rock crushing plant. A special feature will be a tour through the quarry aboard a Diesel drawn rock train.

## State Police Investigate

State Police reported a fourth break-in Wednesday night, as they continued their investigations of breakings and enterings in Iosco and Arenac counties.

The latest break-in occurred Wednesday night at the Singing Bridge Grocery and some merchandise was missing.

Earlier in the week, break-ins occurred at the B. and H. Service, Orville Leslie and Sons Garage and McKay Sales Company in the Tawasess.

## Monday is School Election Day

On Monday, the qualified electors of the Tawas Rural Agricultural School District No. 1, Frl., will again go to the polls. In the propositions placed before them will be the decisions to increase the tax limitation and to bond the school district to provide funds for the building and furnishing of the proposed Tawas Area Junior and Senior High School.

A new school building was the ultimate aim of the people of the several school districts who voted on September 30, 1952, to reorganize to form one large school district, the Tawas Rural Agricultural School District No. 1, Frl. Since that time much effort and study has been placed on the needs of the school district. Capable men were elected to the board of education. Through the assistance and cooperation of Superintendent Reynold E. Mick, interested citizens of the community, qualified architects and engineers, the board has laid out the building program of the proposed Tawas Area Junior and Senior High School.

The anticipated high increase in enrollment within the next two years makes it evident that steps must be taken to provide adequate school facilities. Now is the time to set the wheels in motion. A structure to provide these facilities requires many months to construct and equip.

An important decision is before us—the fate of our children's best education. Are they not our most prized possession?

## "Is the Universe, Including Man, Evolved By Atomic Force," Sunday Service At Christian Science Church

"Is the Universe, Including Man, Evolved by Atomic Force?" will be the subject of the lesson-sermon to be read at Christian Science services Sunday.

Man's dominion over all materiality is stressed in the readings from the King James Version of the Bible as well as those from "Science and Health with Key to the Scriptures" by Mary Baker Eddy. The Scriptural selections include the account as given in Matthew (14:22-32) of how Christ Jesus and Peter walked on the sea.

Readings from Science and Health include the following: "In proportion as matter loses

to human sense all entity as man, in that proportion does man become its master. He enters into a diviner sense of the facts, and comprehends the theology of Jesus as demonstrated in healing the sick, raising the dead, and walking over the waves. All these deeds manifested Jesus' control over the belief that matter is substance that it can be the arbiter of life or the constructor of any form of existence." (369-5).

The Golden Text is from Psalms: "God hath spoken once; twice have I heard this; that power belongeth unto God" (62:11).

Mrs. Charles Nash and Mrs. Nunn were hostesses. The serving table was centered with an arrangement of spirea and green and white candles.

## Bible Comment:

### We Can Move Mountains In Jesus' Name

PERHAPS the most distinctive, and at the same time the most puzzling, thing that Jesus said about faith is in the words recorded in Matthew: "If ye have faith as a grain of mustard seed, ye shall say unto this mountain, remove hence to yonder place; and nothing shall be impossible unto you."

These words offer no puzzlement for us today, when we see such things actually being accomplished.

Hills that have stood for centuries are daily leveled by huge power equipment of puny man's devising.

This is an interpretation of the words of Jesus that we could easily make today of the greater works that were yet to be accomplished. Perhaps it is the interpretation that Jesus intended. What did the words mean to the disciples to whom they were spoken, and what did Jesus intend them to mean?

Jesus was about to give to these disciples a seemingly impossible task. He was sending them out to preach the Gospel to every creature, to make disciples of all nations.

What a vast, mountainous task that must have seemed to those few unknown men as they faced the immense Roman Empire, with its materialism, its power and its paganism.

Perhaps it was those very words of Jesus that they must have recalled as they faced that mountain-moving task.

And with what amazing results the power of faith was vindicated, both the Roman Empire and the whole world have known.

It is that sort of faith that we need today.

Mr. and Mrs. Hugh Slosser of Flint spent the week-end at Hale.

Harold Katterman and Raymond Simons of the Hemlock Road are employed at Adrian.

Mr. and Mrs. Charles Mark of Bay City are visiting in Sherman township.

## Hazel Park Lodge, F. & A.M. to be Guests of Baldwin Lodge This Saturday

### Mr. and Mrs. Harwood Celebrate Their Golden Wedding Sunday

Mr. and Mrs. C. C. Harwood are celebrating their golden wedding anniversary next Sunday, June 20, with open house for their friends from 2 to 5 o'clock in the afternoon.

A family dinner will be served for relatives at Grace Lutheran Church Saturday evening in celebration of the event. About 60 will attend.

Hazel Park Lodge, F. and A. M., officers and members will be guests of Baldwin Lodge, F. and A. M., No. 274, on Saturday, June 19, at the Masonic Temple. They will confer the master mason degrees beginning at 3 o'clock. A banquet will be served at 6:30 with the ladies as guests.

## The SNAPSHOT GUILD

Ordinary snapshot film in a box camera will give you a good picture in a situation like this. The bright sun, reflected from the water, is excellent lighting.

### Facts About Black and White Film

At this time of year, with outdoor picture taking in full swing, many people begin to wonder about the various types of film they see on the shelves when they stop to pick up a roll. A friend of ours complained the other day that he was always bewildered when the clerk asked him which kind of film he wanted. He said that he knew the size and that he wanted black and white. Beyond that, he didn't actually know what he wanted.

So, for the benefit of any of my readers who may be faced with the same problem, here are a few simple facts about film. Discussions of various types of film can easily become very technical, but we'll do this as simply as we can, and suggest that for further information you consult a reliable photo dealer.

The most widely used film is known as a chrome type. We won't attempt to go into a definition at this time—but will identify it as the type of film we mean when we refer to "ordinary snapshot film." It's ideally suited for the average amateur for use outdoors and with flash indoors.

The other two films most widely used are known as panchromatic films. Each has a special type use. One of them is excellent for use when you may wish to have really big enlargements made from your negatives. The other is what is called a fast panchromatic film, designed for use under difficult lighting conditions where fast shutter speed is necessary to stop fast action.

In other words, there are various types of film for taking pictures under varying conditions. Which is best for you to use depends entirely on what you want to do with it.

## "Bookworms" Hold Second Meeting

The Bookworm Reading Club held its second meeting at the library Saturday morning. Pioneer stories of 1854, and more bookworms were added to those already "crawling" on the wall. An added attraction at this meeting was the log cabin, well, furniture and fence brought by James and Jay Bronson. They assembled them on the reading table, and made plans for more additions to the display in the future.

There is still time to join the reading club, so plan to be at the library at 10 o'clock next Saturday morning.

## Dorcas Society Enjoy Chicken Dinner

The Dorcas Society of the Baptist Church met with Mrs. Orville Leslie at the Leslie Hunting Camp for a picnic dinner Tuesday evening, June 8. After consuming a delicious chicken dinner, the women held a business meeting which was conducted by the president, Mrs. William Fox. Annual reports were read by the secretary and treasurer, and a sum of money was voted to be sent to Miss Ruth Daniels, Baptist missionary in India, to be added to the bus fund.

This meeting was the last for the society for the summer, none will be held until September.

The end of life will find most of us with a lot of business that should have been attended to several years earlier.

# Pinkerton Advocates Five-Point Program to Promote Area's Industry and Tourist Business

A five-point program to help people connected with the Michigan tourist industry bring new industries into their communities is being advocated by Charles Pinkerton of East Tawas, president of the Detroit and Mackinac Railway Company and chairman of the Northern Lower Peninsula Advisory Board of the Michigan Economic Development Commission.

Mr. Pinkerton expressed the belief that many out-of-state people who will come to Michigan this year for hunting, fishing and vacationing represent corporations which are searching for new sites for expansion.

"The fact that people have chosen an area for vacationing indicated that they like that area," said Mr. Pinkerton. "It follows that many who like to visit Michigan would also like to work here."

He added that in many cases Michigan communities have managed to bring in new industries through the cooperation of those dealing directly with tourists.

Mr. Pinkerton asked citizens of each community—and especially those in regular contact with out-of-state visitors—to follow this five-point program, as set up by the Michigan Department of Economic Development:

1. Keep yourself and those who work for or with you on the alert for visitors who might have industrial interests. The latter might include owners of industries or influential executives. Resort, hotel and cottage owners, as well as receptionists at tourist information centers, should look for such visitors in particular.
2. Once located, the names of these visitors should be relayed immediately to the local chamber of commerce.
3. In particular, furnish the local chamber of commerce with the names of those guests with industrial interests who make repeated visits to your community. Obviously these guests are showing more than a passing interest in your community.
4. If you own tourist facilities or run places of business which cater to tourists—such as sport shops or gasoline stations—check with your chamber of commerce to see of special folders or placards have been printed about the industrial opportunities in your community. If such promotional material exists, cooperate with the chamber of commerce in seeing that the material is widely distributed. You may also obtain special literature about Michigan by writing to the Michigan Department of Economic Development.
5. Learn about your local industrial program and discuss it with guests expressing an interest in such matters. Find out the advantage of locating industries in your community, tell them to visit industrialists and invite them to study your community with an eye to its economic possibilities.

Mr. Pinkerton added that a special pamphlet telling ways to screen tourists for industrial prospects has been written by the Department of Economic Development and may be obtained free by writing to the department at the Stevens T. Mason Building, Lansing.

## Knot Hole League Starts June 29

Team competition in the Knot Hole League will begin on June 29 with the Tigers battling the Whiz Kids and the Braves tussling with the Panthers. The league is sponsored by the Audie Johnson Post, American Legion, East Tawas, and youngsters from both Tawas City and East Tawas will participate.

The Knot Holes will abide by Little League playing rules and all contests will be staged at the East Tawas athletic field.

There is still plenty of room for more youngsters to participate in the baseball league during the summer months, according to Dewey Durant of East Tawas. All of the teams will carry accident insurance to protect the youngsters in case of injury.

Managers and coaches of the team entered in the league include: Tigers, John Erickson and Mack DeLosh; Braves, James Sloan and Tom Tate; Panthers, Bob Elliott and Dewey Durant; Whiz Kids, Cliff Eppert and Gayle Wojahn. The league is still in need of umpires.

Here is the league schedule for the summer months:

Tuesday, July 6—Braves vs. Whiz Kids; Tigers vs. Panthers.

Tuesday, July 13—Tigers vs. Braves; Panthers vs. Whiz Kids.

Tuesday, July 20—Braves vs. Panthers; Tigers vs. Whiz Kids.

Tuesday, July 27—Whiz Kids vs. Panthers; Tigers vs. Braves.

Tuesday, August 3—Tigers vs. Panthers; Braves vs. Whiz Kids.

The first contest in each night will be played at diamond one. The second game scheduled will be at diamond two.

## SPRINKLING HOURS

Effective, as of now, sprinkling of lawns and or gardens in Tawas City is permissible one day a week during the hours of 8:00 p. m. to 9:00 p. m. This action by the Tawas City Water Board has been necessitated to conserve the city's water supply during the summer months.

Following are the zones and days for sprinkling in the city:

- Monday--Zone 1, north of First Street.
- Tuesday--Zone 2, north of Mathews and Fourth Streets.
- Thursday--Zone 3, south of Mathews Street.

Failure to comply with these established times will result in the water being turned off at the street. Violation and penalty must be paid before water will be turned on.

## Auto Collision Puts Four in Hospital

A near head-on collision last Saturday afternoon resulted in hospitalization of four people. The accident occurred near the Tawas river bridge and was the second auto collision in the last two weeks along that stretch of US-23.

A car driven by Harry Davis of Garden City collided head-on with a car driven by Earl Crown of Tawas City. Davis had his wife and daughter with him while Crown was driving alone.

Crown told Michigan State Police and Isoco County Sheriff's Department officers he was traveling west on US-23 at about 40 miles an hour when he saw the Davis vehicle pass a car and head at him in his lane. Crown turned to the right to avoid the collision and was hit on the left front fender.

Davis said that he put his foot on the brake to avoid the collision with the Crown vehicle, but his foot slipped off and hit the accelerator.

All four occupants of the involved cars were treated for cuts and bruises at the Tawas Hospital.

## Celebrate Golden Wedding

Mr. and Mrs. Fred Morin celebrated their golden wedding anniversary last Sunday, June 6. Sixty-five relatives sat down to a turkey dinner at prettily decorated tables on the lawn. It was a beautiful day and ideal weather for a lawn party. They held open house to all their friends from 2 until 5 o'clock with 132 friends and relatives registered. They were the recipients of many beautiful gifts.

Both Mr. and Mrs. Morin are in good health. Mrs. Morin is active in W. S. C. S. and the Whittemore Women's Club. Mr. Morin is an ardent fisherman and hunter. Each summer they spend two months on the AuSable river in their trailer where he spends much time fishing.

Out-of-town relatives and friends who attended their anniversary were: Mr. and Mrs. Jack Higgins of Islamorada, Key West Florida; Miss Betty Higgins, Mr. and Mrs. A. Tomac, Mr. and Mrs. Richard Ross and Mr. and Mrs. Otis Timmins, all of Detroit; Mr. and Mrs. Joseph Shubeck and family, Royal Oak; Mrs. Bennie Webb and family of Roseville; Mr. and Mrs. Clayton Turner and family, Mr. and Mrs. Bert Ross, all of Flint; Mr. and Mrs. Kyle Lomason, Crosswell; Mr. and Mrs. Ferry Lomason and Clarence J. Dedrick, all of Vassar; Mr. and Mrs. Clarence Peck, Muskegon; Mr. and Mrs. P. J. Aldrich, Perry; Mr. and Mrs. Gay Moore, Lapeer; Tim Dillon, Bay City; Mr. and Mrs. Jack Wieble, Standish.

Mr. and Mrs. Grover Lomason and family, Prescott; Mr. and Mrs. Fred Whitehouse and daughter, Turner; Mr. and Mrs. Charles Brown, Hale; Mr. and Mrs. George Blust and daughter, National City; Mr. and Mrs. Kyle Higgins and daughter of Tawas City, and Billie Jay Lomason of Maine, who is home on a furlough. A host of friends also called to wish them many more years of good health and happiness.

## Women's Club Holds Picnic

The Whittemore Women's Club held its annual club picnic Tuesday at the East Tawas park, with 18 members setting down to a delicious pot luck dinner. The new president, Mrs. Dahne, was in charge of the business meeting which followed. Many things were discussed for the coming year's programs. In reporting the last club meeting news, three members who had not missed a meeting the past year, Mrs. J. Latham, Mrs. George Freel and Mrs. A. Miller, were omitted. This was due to their names not being reported at the last meeting. They had this honor along with Mrs. J. O'Farrell.

Mrs. Harrison Snyder, Mrs. George Freel, Mrs. George Jackson and Mrs. Beulah White attended the Wolverine Association of the O. E. S. at West Branch Friday. Mrs. Stella Wallace, Mrs. Ethel Spafford, Mrs. Wilda Davis and Mrs. Hattie Nass of Sand Lake, all members of Whittemore Chapter, attended the association also.

Dale O'Farrell of Tawas, who has served three years in England and North Africa, is home on a furlough and was calling on relatives in town Sunday.

Mr. and Mrs. Earl Goupil and Mrs. Simon Goupil spent Sunday afternoon in town. Ronnie, the 15 year old son of Mr. and Mrs. George Grabow, had the misfortune to fall from his riding pony and fractured his ankle in three places.

Mr. and Mrs. George Jackson attended O. E. S. Chapter in Tawas City Thursday night.

Mrs. Duncan Valley and Mrs. Ethel Neidermeyer were callers in Prescott Thursday evening.

Mr. and Mrs. Arthur Latham are spending two weeks in Deckerville with Mrs. Latham's brother, George Morin.

Mrs. Robert Wrathall and two children and Mr. and Mrs. Sam Provoost spent Thursday in Saginaw.

Detective and Mrs. Oramal O'Farrell and son, Tim, of Detroit spent Sunday with his parents, Mr. and Mrs. John O'Farrell.

Mr. and Mrs. A. W. Miller and Dan and Mrs. Pete Stec and two children spent the week-end in Minden City visiting their daughter and family.

Friends are receiving cards from Ellen, May and Paul Miller and Joseph Drzewiecki, who are on a month's trip through the Western States to Washington and on to Vancouver, British Columbia. They say they are having a wonderful trip. They are returning by a northern route.

Mr. and Mrs. Stanley Partlo and family attended the Iris show in Mio Sunday.

Mr. and Mrs. William Weryley attended the graduation of their son-in-law, Howard Cole, at the Ann Arbor Stadium Saturday. There were over 3,500 graduates who received their diplomas. They were joined at Saginaw by their daughter and husband, Mr. and Mrs. Earl Sams, who also attended.

Mr. and Mrs. Laurel Lawe attended the Iris Show at Mio Sunday.

Mr. and Mrs. John Dyer of Bay City spent Monday in town. Henry Thompson is seriously ill.

## Pureoil Develops Two New Oils

Two new motor oils have been developed by The Pure Oil Company.

The new lubes were built in Pure Oil Company's research and development laboratories in Crystal Lake, Illinois, tested in a million road miles, and are especially designed for high horsepower passenger car engines.

The announcement was made today by L. W. Sweet, vice president for retail marketing, who said the new lubes will go on sale next Monday, June 21, throughout Pure Oil's 24-state marketing operations.

Packaged in newly designed containers, the new lubes are called High HP Purelubes and New Super Duty Purelube.

The new oils are outstanding in protecting and preserving the designed high power and performance over the life of an engine.

Mr. Sweet said in describing their features:

"Both oils solve camshaft wear problems which have been troublesome in new engines," he said. "They fight preignition, another frequent problem, and they help engine efficiency by keeping engines clean. They reduce engine drag and friction."

"Our High HP Purelube by test has substantially increased motor fuel economy and provides in a single grade oil the winter performance of a light oil and the summer performance of a heavy oil."

Laboratory, road, field and racing tests were made of the new oils, the executive said, "as the last phase of road testing the ordinary driving test with emphasis on stop-and-go traffic, included 114 automobiles both new and older models of from 110 to 235 horsepower for many weeks," he said. "These tests confirmed and proved many things including the saving quality of the new oil compared with high quality SAE 30 oils."

A big advertising campaign centered on newspapers is planned to introduce the new products.

--- AND A GOOD TIP FOR YOU

WHEN it comes to sales, every car maker aspires to be up at the top of his price class. Which is only natural. Popularity like that means success. We know, because for years Buick has held such an envied position—the unquestioned sales leader in its class. And with good reasons in styling, room, power, value. But today, folks like you have pushed Buick success even beyond such bounds. Today, the top sales standings of a full generation have been changed. Today, latest sales figures for the first four months of 1954 reveal this phenomenal fact: *In total national volume, regardless of price class, Buick is outselling all cars in America except two of the so-called "low-price three."* That's a tip too good to pass up. That's the tip-off that Buick must have the hottest styling of the times and the sweetest performance of More important, that's the tip-off that Buick prices are well within the reach of more and more people—and that such prices buy a lot more automobile per dollar. So why not look into the tomorrow-styled Buick that puts you so far ahead today? Come in, or phone us this week for a demonstration. Then you can judge for yourself that Buick really is the beautiful buy—by far.

# State Librarians Visit Iosco-Arenac Libraries

On Friday, June 11, Iosco-Arenac Regional Library staff members enjoyed the visitation of eight persons important in the state library field.

From the State Board for Libraries came Donald Kolstedt, chairman; Miss Ann Lindblom and Mrs. Verna Barkey.

From the State Library Staff came Mrs. Lolets Fyan, librarian; Miss Louise Reed, director of extension, and Miss Muriel Fuller, state library consultant.

From the University of Michigan, Adult Education Department, came Dr. Howard McCloskey and William Barth.

These visitors gathered at the Iosco County Library Headquarters in the county building at Tawas City and from that point made a tour of the Tawas City, East Tawas and Whittemore Branches and the McIvor Book-eteria.

Just in time and at 7 o'clock,

they arrived at the Standish Branch Library where Joseph Kolavris of the Standish Bakery had a delicious menu awaiting them.

Also gathering to enjoy dinner and to discuss library plans were Mrs. Gertrude Kunze, Mrs. Edward Pierson and Fred Brabant of the Iosco County Library Board. From the Arenac Citizens Committee, C. R. Brown, Mr. Leucke, Mrs. Norman McLean and Mrs. Orville McCormick were present. Julius Anderson and George Tullock were present from the Arenac County Board of Supervisors.

Following dinner, Donald Kolstedt spoke briefly and then turned the meeting over to Mrs. Gertrude Kunze, chairman of the Iosco County Library Board.

Mrs. Kunze requested a report on the history and progress of the Iosco-Arenac Regional Library project.

A description of events in Arenac county preceding their request for Regional Library facilities was given by C. R. Brown.

Miss Muriel Fuller presented a report of January-through-March activities prior to the Regional Library project which became a reality on April 1.

Miss Leonora Hass gave the story of preparing for the project entering the books, hiring the staff and also the budget and expenditure report.

She then called upon Mrs. Clara Stettner, bookmobile librarian, for a report on Bookmobile activities. Mrs. Sproutle reported on the Friends of the Library activities at AuGres. Miss Martha Maser presented the story of the AuGres Branch activities for the first six weeks of its existence, reporting a circulation of 506 books in the first four weeks.

Miss Muriel Fuller reported for the Friends of the Library group in Standish and Mrs. Mary Johnson reported on activities at the Standish branch. Eight hundred four books were circulated from this branch during the first four weeks.

Following these reports, a slide film history of the project was given. From these slides, individuals were able to view the work done in the State Library as well as the branches and Bookmobile in action. We Go

Mrs. Fyan presented the State Board's ideas on library demonstration projects and a resume of the laws of Michigan as they would affect such projects. This led into Mr. Brown's leading a discussion on "Where We Go From Here" in the Regional Library. In the discussion, Julius Anderson, George Tullock and Orville McCormick took active parts.

Saturday morning, June 12, the State Board of Libraries held its official June meeting at the headquarters office in Tawas City.

Following this meeting, and on the way home, the guests visited the AuGres Branch Library.

## HDA NOTES

By DOROTHY SCOTT

"Dessert Delish" is refrigerator cheese cake. Home Demonstration Council members said so following their meeting Monday, June 7, where they had a chance to give it the taste test. They asked that we include the recipe for it in our column this week. Here it is, and most appropriate, too, for June is dairy month.

2 envelopes unflavored gelatin.  
1 cup sugar, divided.  
1/4 teaspoon salt.  
2 eggs separated.  
1 cup milk.  
1 teaspoon lemon rind.  
3 cups creamed cheese, sieved (1 1/2 pound).  
1 teaspoon lemon juice.  
1 teaspoon vanilla.  
1 cup heavy cream, whipped.  
Combine gelatin, 1/4 cup of sugar and salt in top of double boiler. Beat egg yolks and milk together; add to gelatin mixture. Cook over boiling water, stirring constantly, until gelatin dissolves and mixture thickens, about 10 minutes. Remove from heat. Add lemon rind. Cool. Stir in sieved cottage cheese, lemon juice and vanilla. Chill, stirring occasionally, until mixture mounds slightly when dropped from a spoon. Beat egg whites until stiff, but not dry. Gradually add remaining 1/4 cup sugar and beat until very stiff. Fold into gelatin-cheese mixture with whipped cream. Turn into pan. Use an 8-inch spring form pan or an 8 or 9 inch square pan.  
For topping: Mix 1 teaspoon melted butter, 1 teaspoon sugar, 1/4 cup finely chopped nuts, 1/4 cup graham cracker crumbs, 1/4 teaspoon cinnamon and 1/4 teaspoon nutmeg. Press crumb mixture over top of the cheese cake. Chill until firm. Cut round mold in pie-shape pieces, or square mold in squares. Garnish with fresh strawberry, maraschino cherry or pineapple chunks. Makes 10 to 12 servings.

Present for the council meeting were Mesdames George Bissanette, Charles Atwell, Herman Drengberg, Harold Black, James Mielock, Donald MacDonald, Ben Gabler, Marvin Davenport, Reuben Edie, Lulu Dahne and Harold Hammond.

Plans for the fall and winter home demonstration program were summarized by the council, and business include delegates for Homemakers' Conference at Michigan State College in July, arranging for exhibits and demonstration at the county fair, also in July, and discussion about trying a local district women's camp later in the summer.

June is dairy month, do you know that—non-fat dry milk solids are the least expensive and most concentrated food source of protein, calcium and riboflavin?

"Please pass the butter," a familiar phrase around the family dining table. Butter is good to eat, and good for you—Provides Vitamin A (important for growth and vision and for helping to keep the skin in good condition).

Butter is good for a bread spread. For hot breads and cakes you might like to fix a butter mix. For honey butter, mix 1/2 and 1/2 cup of honey and whip until fluffy. Or, substitute maple syrup or peanut butter for the honey.

**Cadillac**

**He's Ten Years Younger Today!**

Here's a man who has just taken ten years off his age—insofar as his spirits and mental outlook are concerned.

He's going for his first ride in his first Cadillac—and he's a happy, happy man—with his hopes in the sky and his heart singing a song it hasn't recalled for a decade.

He's having an experience which we can't tell you about. You have to live it yourself—at the wheel of that first Cadillac—in order to evaluate it.

You know how it goes. You work and you worry and plan and hope. The years go by—and, bit by bit, you get things done. The insurance creeps up where you want it—the mortgage on the home goes into the fire—there's that nest-egg against the future and the college fund is in the bank.

And then, one day, you feel there's no further need for resisting—so you order the Cadillac—and wait for the happy news—"It's here!"

Your ride home will live in your memory forever. You've put the cap sheaf on your world of dreams.

Of course, this great sense of personal well-being is only the first thrill that comes with your Cadillac.

There's its magnificent performance—its marvelous balance and roadability—and its rare comfort and safety and handling ease. Every hour at the wheel is a privilege—and every journey is a wonderful memory.

Is the time about right for you to step up to a Cadillac?

If so—please come in and see us. The longer we're in business, the happier we are when we deliver a man his first Cadillac.

We'll be waiting to welcome you—anytime.

**Farmers May Apply for 1955 Acreage Allotment**  
Farmers on land on which no wheat was needed for grain for all of the years 1952, 1953 and 1954 may apply for a 1955 wheat acreage allotment, according to Dornace E. Bellville, chairman of the Iosco County Agricultural Stabilization and Conservation Committee. To be considered for

an allotment on a farm which had no wheat seeded for grain for any of those years, the farmer must apply in writing to his county ASC committee by June 30, 1954.

Blank application forms are available at the county ASC office for use in filing requests for allotments.

At a session of said Court, held at the Probate Office in the City of Tawas City in said County on the 27th day of May, 1954.

Present: Hon. H. Read Smith, Judge of Probate.

It appearing to the Court that the time for presentation of claims against said estate should be limited, and that a time and place be appointed to receive, examine and adjust all claims and demands against said deceased and before said Court, and that the legal heirs of said deceased entitled to inherit the estate of which said deceased died seized should be adjudicated and determined.

It is Ordered, That all of the creditors of said deceased are required to present their claims in writing and under oath to said Court at said Probate Office, and to serve a copy thereof either by registered mail or by personal service upon Marion Goedecke, fiduciary of said estate whose address is Tawas City, Michigan, on or before the 3rd day of August, 1954 at 10:00 o'clock in the forenoon, said time and place being hereby appointed for the examination and adjudication and determination of the heirs at law of said deceased at the time of his death entitled to inherit the estate of which the deceased died seized.

It is Further Ordered, That public notice thereof be given by publication of a copy of this order once each week for three successive weeks previous to said day of hearing in the Tawas Herald, a newspaper printed and circulated in said County.

H. Read Smith, Judge of Probate. 23-3b

### Plans for County X-ray Program Underway Tuesday

Plans to have the greatest number of persons x-rayed in this county got underway at a meeting held Tuesday evening, June 15, at the courthouse. Dr. C. H. Crandall, district

health officer, presided. Roy Manty of Michigan Public Health and Miss Elaine Abbott of the Michigan Tuberculosis Association reported in the success of other surveys in the early detecting of lung cancer, abnormal heart condition and tuberculosis.

The mobile chest x-ray unit will move into this area July 9 at Oscoda to cover Hale, Whittemore, National City, completing its tour in the Tawas on July 16. A complete schedule will be

published at a later date. Mrs. George Tuttle, district chairman, spoke to the ladies from the above mentioned areas, urging them to contact all known organizations and industries to cooperate to the fullest in this wonderful opportunity to keep close watch on ourselves and therefore have district two, comprised of four counties, Iosco, Oscoda, Alcona and Arenac, the healthiest in the state. This service is free to all persons over the age of 15 years.

### Wheat Marketing Cards will be Issued During Later Part of June, According to ASC

RECEIPT FOR 1954 WHEAT MARKETING CARD  
I have received the wheat marketing card identified above.

(Date)  
(Signature of buyer)

Iosco county wheat farmers will be issued wheat marketing cards during the latter part of June, according to Mary M. Byrd, office manager of Iosco ASC Committee.

The official wheat marketing card, MQ-76, pictured here, will be needed by every wheat farmer when marketing his 1954 crop. A marketing card will be issued to every wheat producer who shares in the wheat crop on any farm where the wheat acreage is not more than 15 acres and also to produce on farms where the wheat acreage is more than 15 acres and where the acreage allotment has not been exceeded.

Final measurement work on 1954 wheat acreages has now been completed and each wheat farmer who has exceeded his wheat allotment has been notified of the acreage that he would have to dispose of as green manure, cover crop, hay or pasture in order to avoid marketing quota penalties. Any wheat farmer who is not sure of where he stands as far as marketing quotas are concerned on his farm is advised to get in touch with the Iosco County ASC Office, located in the Federal Building at East Tawas.

Farmers who share in the wheat crop on any farm where the wheat acreage is more than 15 acres and is in excess of the farm allotment will not receive a marketing card until the penalty on the wheat produced on the excess acres has been satisfied. The penalty for excess wheat is \$1.12 per bushel and can be satisfied in one of the following three ways: (1) Payment of the penalty in cash at the ASC Office, (2) Storage of the excess wheat either in a warehouse or on the farm, (3) Delivery of the excess wheat to the secretary of agriculture through the local ASC Office.

Storage or delivery of excess wheat must be accomplished within 60 days after the harvest period ends, otherwise the penalty can be satisfied only through cash payment. Farmers who store excess wheat will be permitted to underplant their 1955 wheat allotment and will then be authorized to remove all or part of their 1954 excess wheat from storage and sell it on the open market.

All elevators, warehousemen, feed/dealers, milling companies and other wheat buyers are cooperating in the control of wheat marketing, beginning July 1. Commercial wheat buyers are required to maintain certain records and account for all wheat purchases during the marketing year July 1, 1954, through June 30, 1955. Instruction meetings for wheat buyers will be held to review the marketing quota regulations and the forms to be used.

Individual farmers who may buy wheat for feed or seed from other farmers are cautioned that the farmer who is selling the wheat must show a marketing card showing that the wheat is free of any penalty, otherwise the farmer who buys the wheat is subject to payment of the penalty.

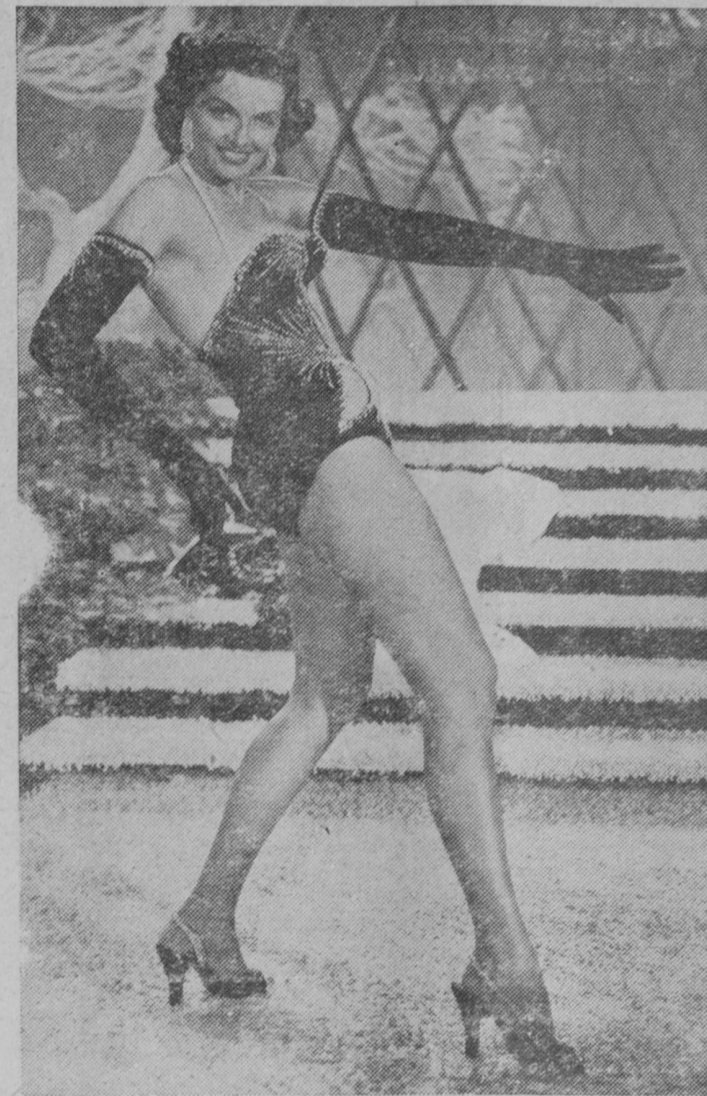

There is a general misunderstanding among the farmers regarding the feeding of wheat. Under marketing quota regulations the feeding of wheat is the same as selling it. This means that farmers who have excess wheat are still liable for the penalty even though the wheat is fed.

None of the wheat produced on a farm where the wheat allotment has been exceeded is eligible for government price support.

According to Mrs. Byrd, farmers of Burleigh, Reno and Plainfield townships may pick up their marketing card at the Reno Township Hall on June 30, 1954 between 9:00 a. m. and 4:00 p. m. All other farmers are to call at the county ASC office in East Tawas for their card on June 30 or after. No cards will be mailed to wheat farmers unless a written request for such card has been received.

**NO STAFF**  
The Commodity Credit Corporation, which operates a \$7,000,000,000 business, has no employees of its own. This government operation, set up to handle the farm price support program, is managed completely by employees of the Agriculture Department.

### Outbreak of Black Leg Reported in County Recently

By MARVIN DAVENPORT

An outbreak of black leg was recently reported in the county. Let's be sure we practice a vaccination program every year to help ward off that dreaded disease. One man had to destroy 13 head of cattle. Consider vaccination like your hospital insurance—hope you don't have to use it, but be glad you have it just in case.

### What's the best "all-purpose" spray mixture to use on just a few fruit trees in the backyard?

That's a question homemakers are asking us now. Horticulturist Arthur E. Mitchell has this advice for people who want to mix their own all-purpose spray: Use one and one-half level teaspoons of 74 to 76 percent ferbam, three teaspoons of 50 percent wettable methoxychlor and two table-spoons of 25 percent wettable malathion. Those amounts are mixed together per gallon of water. You can substitute three table-spoons of 50 percent wettable captan for the ferbam.

Many people may find it more convenient to buy a commercial "all-purpose" spray. It is available at most hardware stores and drug stores.

The spray—either commercial preparation or your own mixture—should be applied at intervals of a week or two weeks during the season. How often you should apply the spray depends on how favorable the weather is for disease and insect development. The spray can be applied up to two weeks before the harvest.

It's good for grapes and raspberry bushes as well as fruit trees. If you want further information on sprays and spray schedules—drop Marvin Davenport a postcard at East Tawas.

### 4-H Club Notes

By MARVIN DAVENPORT

Calendar:  
June 17 and 18—Demonstrations Training Schools for 4-H Club leaders.  
June 23-July 1—4-H Club Week, Michigan State College, East Lansing.

Forgetters were sure enough working overtime on June 7, the night when Busy Beavers 4-H Club members met at the Jacobs home. Anyway reporter Clifford Bielby found out who conducts the meeting when the president, the vice president and the secretary are absent—didn't you, Clifford?

### WORKING YOUTHS

The Bureau of Labor Statistics of the Department of Labor reports a decline in both the number of youngsters 14 to 17 years old who hold jobs and those who drop out of schools to go to work. The total of teenagers employed has dropped from 2,500,000 to 2,000,000 as of last October.

Let's all remember, the next meeting at the Orville Lyke home on July 9.

What should a 4-H Club officer do about plans for the meeting he cannot attend? We know of several times when 4-H Club meetings were pretty uninteresting, uninspiring events because one or more of the officers were not present, and more important, because they had failed to make the arrangements ahead of time for their part in the success of the meeting to be assumed by another.

Shall we learn to be more considerate of our fellow 4-H Club members? All it takes is a little planning ahead. Someone else could lead the songs, or plan some games, or conduct the 4-H Club ritual, or see that the program of demonstration, movies, and the like was prepared and presented for all of 4-H Club members who came expecting a good meeting—even if you could not be there.

And, to add to the problem, there was no singing and games to play because the song leader and recreational leader didn't arrive for the meeting. You do not go to very many meetings where nothing interesting happens until you begin to lose interest yourself, do you? As an officer, you will want to be sure no other 4-H Club member begins to lose interest in your 4-H Club because you have not done your job or arranged for another to do it in your absence.

Have you put off starting to work on a demonstration in one of your 4-H Club projects?

It is time your demonstration plans are under way. The county contests will be in mid-July, the district ones in early August.

Next week will be the time when 4-H Club leaders meet to learn more about 4-H Club demonstrations so they can better help you 4-H Club members with yours. There is to be a meeting on the west side of the county and another for those on the east side.

It might be a good idea if you would tell your project leader, tomorrow, that you want to give a demonstration this year and would like her (or him) to help you. Then the leader will be sure to come for the training school so you can have better help.

### DHIA Cows Average 933 Pounds of Milk in May Test

Clarence Carpenter, our D. H. I. A. tester completed testing 12 Iosco county dairy herds in May. There were 199 cows tested that averaged 933 pounds of milk, 32.3 pounds of butterfat with a butterfat test averaging 3.51 percent.

Clarence indicated in his report that it required 14,787 pounds of grain to produce 185,690 pounds of milk valued at \$7,335.20. It's interesting to note that 10 herds are using A. B. A. services for the inheritance that is tried and proven.

Here are the individual and herd records reported for May:

**Carswell-Strauer**

The Emanuel Lutheran Church was the scene of a very pretty candlelight wedding Saturday evening when Miss Dorben Strauer became the bride of Rassic Carswell. The bride is the daughter of Mr. and Mrs. Orville Strauer of McIvor and the groom is a technical sergeant at Wurtsmith Air Force Base at Oscoda. His home is in Morgantown, North Carolina. The Rev. Paul Heyn officiated at the double ring ceremony.

The bride, given in marriage by her father, wore the traditional white satin wedding gown with short train. Her veil was of illusion and she carried a bouquet of red and white roses with calla lilies.

She was attended by Elaine Strauer as maid of honor, who wore a pink nylon net, ankle length dress. Joycelyn Seymour, Sandra Lamy of Flint and Carol Strauer were bridesmaids and wore similar dresses of Nile green nylon net with stoles. They carried bouquets of white flowers.

The groom was assisted by George and Dale Strauer of McIvor and Darwin Dalaney from the Air Force Base.

A reception followed at 9:00 for over 450 relatives and friends at the Eagles Hall.

The young couple left on a wedding trip to Morgantown, North Carolina. The groom expects to enter Michigan State College in the fall.

**School**

(Continued from First Page) tionally known for their work in school architecture. It has been approved by the Michigan State Board of Education.

The building project will contain: ten class rooms; a lecture room; two science laboratories; business education, three rooms; home economics, suite of rooms;

arts, crafts, shop and agriculture, six rooms; study hall and library, three rooms; band and music, two rooms and a gymnasium-auditorium. The latter would provide for 2,000 spectators.

Additional facilities would include cafeteria, administrative offices, health clinic and teachers' rooms.

The estimated cost of the school building project is \$840,000. The present building fund of the district has approximately \$65,000. This money came through the present five-mill tax levy and \$28,000.00 turned over by the old East Tawas school district when the districts were consolidated. The balance of the project will be financed by the \$775,000.00 bond issue.

The tax levy authorized in the two proposals up for vote next Monday is \$77,000.00 per year. A raise in valuation of the district will not change the amount to be spread. If the levy is assessed against the State Tax Commission's high equalized valuation, the millage must be lowered to only produce the \$77,000.00 each year authorized by the electors.

Persons eligible to vote on the bond proposal must be properly registered electors who are taxpayers, or the husband or wife of a taxpayer. The taxpayer qualification is not required in the tax limitation proposal.

There are four voting places in the district, East Tawas City Hall, Tawas City Hall, Tawas Township Hall and Alabaster Township Hall.

The voting place in which the elector is eligible to vote is indicated in the election notice which appears on another page of this week's Tawas Herald.

**Lose Despite 14-Hit Tawas Slugging Spree**

Play at Pinconning Sunday; Old Timers Game Next Friday

Despite a 14-hit Tawas slugging spree, the Tawas City Independents lost to Wurtsmith Air Force Base Sunday, 8-6, to extend their losing streak in the Northeastern Michigan League to two games.

The Air Force team sewed up the game in the ninth inning when they scored two runs to break a 6-6 deadlock which had been posted in the seventh inning.

The locals missed a good scoring opportunity in their half of the ninth inning, but Long, the Air Force relief pitcher, turned in some fine clutch pitching to retire the side with two local runners left stranded on the bases.

Both teams boosted their batting averages, with the locals blasting out 14 hits, including two doubles. The Air Force team clouted 10 hits of the slants of two Tawas pitchers, including a triple and two doubles in the third inning which accounted for three runs.

Gordon Tate started on the mound for Tawas City and lasted until the eighth inning when he was replaced by Mern Warner. During the eight innings which Tate pitched he allowed nine hits. Warner took over the pitching in the final inning allowing but one hit. The Air Force team scored two runs after two men were out and a costly fielding error by Tawas City figured in the scoring.

Wurtsmith Air Force Base started with Reader on the mound. He lasted until the sixth inning, allowing 10 hits during that time. Long took over mound duties in the seventh inning and Tawas City collected four hits off his slants. A fast inning following but one hit. The Air Force wiped out a possible scoring threat by the locals.

Tawas City started the game off in the first inning by pushing across three runs. The locals clouted 10 hits with two fielding errors to score the runs. Tawas City scored its final three runs in the sixth inning on three hits and an error.

The Air Force team scored its initial run in the fourth inning on one hit, two stolen bases, an error and a sacrifice fly. A single run was posted in the fifth inning on two hits and a stolen base.

A three-run attack by Wurtsmith in the sixth inning came on one hit, two stolen bases, an error and the winning run in the game. In that inning the winners collected two doubles, a triple and a single to account for the runs. The winners scored one run in the seventh inning on two hits and the winning run in the ninth inning on only one hit.

The hits were evenly spread out in the Tawas batting lineup, with Anschutz collecting three, and Westcott, Humphrey, T. Tate and Gordon Tate each driving out two hits. Smith led Oscoda with three hits.

He then rocks forward slowly, keeping elbows straight until his arms are approximately vertical, exerting steady pressure on chest.

To start, the operator places hands on victim's back so thumbs touch and heels of hands are just below line running between armpits.

Continuing to rock he raises arms until resistance and tension is felt at victim's shoulders. Then he drops the arms and so completes full cycle. The cycles are repeated 12 times per minute, expansion and compression phases being of equal length.

THESE are correct positions for the back pressure-arm lift method of artificial respiration recently adopted by the American Red Cross. Victim is placed prone, elbows bent, one hand upon the other. Cheek is placed on hand, face turned slightly to one side. The operator kneels at the head of the victim during the resuscitation effort.
