New Street Lights in City's Business District to be Installed this Spring

Consumers Power Finishes Engineer Work

Program Advocated by Tawas City Businessmen's Association

Tawas City's Lake Street will become one of the best lighted business streets in this section of Michigan when the new Consumers Power Company lighting program here is completed, states Gordon Huck, local company manager.

Engineering details, change of primary electrical circuits to take care of heavier load and other preliminary work is nearly finished, and orders for material have been placed, Huck said.

The improvements will consist of "white way" bracket lights on steel poles at side of street in the business section between Mathew and Lake Street, and in the business section at First Street. The lights will be increased from 6,000 to 10,000 lumens. From First Street east to the city limits, the center suspension lights will be replaced and increased to 6,000 lumens. A similar respacing of lights and increase in light intensity will be followed between Mathew Street and the south city limits.

The new lighting program was secured through the efforts of the Tawas City Businessmen's Association. Better lighting for the business district had long been needed. An association committee made a survey of the district and presented its report to the city council and the power company. With the council's approval, the company started preliminary preparations on the project last fall.

The street lights now in use replaced a boulevard lighting system between Mathew and First Street installed during administration of Edward Trudell in 1926. When the new US-23 pavement was laid on Lake Street, this street was widened and the boulevard lights were removed.

Gets Post With National Gypsum

National Gypsum Company has announced the appointment of Leroy E. Wagner to the position of sales order supervisor at the local plant.

Formerly assistant business manager of the New England Hospital, Mr. Wagner has also had extensive experience in the sales field. His experience includes eight years in the Sales Order Department of National Gypsum Company in Buffalo.

Commenting on the appointment, Charles H. Hill, manager of the National City plant, said, "Because of his extensive and varied experience, we have the highest confidence in Leroy Wagner. Under his supervision, the highly important responsibilities of his position are expected to be executed with unusual competence. We're glad to have him with us."

Active in Rotary, Mr. Wagner is also interested in sports and in the economics of business trends. He is considered an expert in the latter.

Mr. and Mrs. Wagner and his mother will reside in the Tawas area.

Gets Post With Saginaw Woman Guest Speaker

A splendid crowd of club members and guests greeted Mrs. J. F. Mark, Jr., of Saginaw, as guest speaker, at the Twentieth Century Club meeting on Wednesday evening. She spoke on "How to Live With Children." One thought she brought out that impressed everyone was that the child with a religious background, with a working together and playing together family had the least problems. Mrs. Mark is state chairman of Family Life, Congregational Church. She was presented with a gift from the club.

Hostesses were Mrs. Ira Horton, Mrs. Nelson Ulman, Mrs. Harry Goodale and Mrs. R. E. Mick. Tables were lovely with St. Patrick motif and a large bouquet of white chrysanthemums and shamrocks. Shamrock ice cream cake roll was served.

Grand Haven Would Double Size of Present School Site

"I am sure that if our community had to do the job over again, they would at least double the size of our present site if land were available," stated Grand Haven Public School Superintendent R. M. VanVolkinburg in a recent letter to Tawas Area School officials. This letter was read to Tawas Area School Board members during an official meeting on February 23.

The Tawas Area Board had requested Superintendent R. E. Mick to attempt to obtain information from the Grand Haven authorities. This action resulted from citizens' requests to the board for that body to clarify data published by the Citizens Committee for Better Schools prior to the February 8 bond election.

Sgt. MacDonald Gets Flint Post

CPL. JOSEPH CHAPUT

Sergeant James K. MacDonald, commanding officer of the East Tawas post of the Michigan State Police, has been transferred to command of the Flint post March 21.

He will be succeeded by Corporal Joseph P. Chaput of the second district safety and traffic bureau, Detroit, who is being promoted to sergeant.

MacDonald enlisted in the State Police in 1935. He first served at Mt. Pleasant and then at East Lansing and East Tawas. In 1942, he was assigned to the special investigation squad and in 1944 returned to the uniform division, being stationed at Cheboygan. He was promoted in 1948 and came back to East Tawas. In 1951, he was promoted to sergeant and placed in command of the South Haven post. The following year he returned to take command of the East Tawas post.

Corporal Chaput joined the department in 1937. He was first assigned to Flint and later served at Paw Paw and Ypsilanti. In 1946, he was transferred to the safety and traffic bureau in Detroit and in 1949 was promoted to corporal.

Emblems Will be Judged March 22

Judging of the Centennial Emblem entries will be held Monday, March 22, at a regular meeting of the Centennial Committee. Several good drawings have been submitted in the contest sponsored by the Future Homemakers Class of the Tawas Area High School. Entries close today in the contest. C. L. McLean, general chairman, requests that the various committee heads be present for this meeting along with representatives from church and club groups, or interested individuals.

"Centennial buttons and bumper signs are available at most business places in the city," said Hugo Keiser, secretary, at a meeting of the Centennial Committee held at the Tawas Chamber of Commerce Building Tuesday evening. Derby's can be obtained at McLean's Store or Monarch Men's Wear.

The museum project for the Centennial week is going along very well, and anyone having items to exhibit should contact the following American Legion Auxiliary members: Mrs. Stephen Ezo, Mrs. Earl Davis or Mrs. Walter Champion.

Information on floats to be entered in the parade may be secured by contacting James Dillon, parade chairman.

The committee also urges the ladies and gents to get their costumes ready for another bus tour to be held in the near future.

ABOUT FIVE YEARS FROM NOW—

Where Will We Educate Them - - -

The number of babies born in Michigan zoomed to a record high last year. According to provision figures released by the Michigan Department of Health, 181,518 babies were born in the state in 1953. The previous record was in 1952 when 177,835 babies were born to Michigan residents.

The provisional figure shows all the babies born in Michigan. This figure will change as reports are exchanged with other states: the number of babies born in Michigan to residents of other states will be taken out, and those born to Michigan residents outside of the state will be added. The adjusted total is expected to exceed the provisional total by about 1,000.

The birth rate—the number of babies born per 1,000 residents remained at the record high of 26.5 established in 1952. Before 1952, the highest rate recorded was in 1947 when 26.4 babies were born per 1,000 residents.

Since 1940, the number of births in Michigan has increased by 83 percent and the birth rate has climbed 40 percent.

Are We Off Again - -

Now that the school question is making headlines again, where will it lead this time?

Last week's Herald carried an article authorized by the Tawas Area School Board stating that a certain group is seeking to find a loop-hole in the formation of the Tawas Area District which could bring about legal action and destroy the present school district.

Remembering that all of us are supposedly interested in the welfare and education of our children and that for this reason several districts combined to form the Tawas Area meant of public opinion of two to three years ago.

Everyone is entitled to his opinion and there is reason behind the forming of that opinion. Before the school proposition is placed before the people to vote on again, let us all endeavor to get the facts on all phases of the question. Attend the meetings of the board of education, demand facts and the evidence supporting those facts.

Do not spread groundless rumors or be influenced by unsigned letters. The opinion of the author of an unsigned letter is valueless. Read carefully and be sure you understand the details of any petition or paper which is offered to you for your signature of approval.

Spring Smiles Goodbye to Winter

Schools Observe 'Bundle Week'

Tawas Area Schools will take part in the state-wide Save-the-Children "Bundle Week" drive to collect used clothing for needy children. The drive which is part of the Twelfth Annual Children's Clothing Crusade, will take place here on March 22 and will last for five days.

Three million pounds of wearable clothing have been set as the goal. Last year in the Eleventh National Children's Clothing Crusade, over four million pounds of clothing, approximately five million garments, were collected. "We cannot stress too much the desperate need for clothing that exists among children in this country and overseas," Student Council spokesmen said. "We are sure the citizens of Tawas Area will want to lend a helping hand. Bundle Week provides a practical and effective means of clothing collection, and at the same time, teaches youth in our schools to share what they have with those less fortunate. Participation in the National Children's Clothing Crusade will help foster a sense of brotherhood and lay a firm foundation for international good will."

Clothing collected by the Federation is used to aid needy children and families in Korea, in war-depleted countries of Europe and the Middle East, and in isolated rural areas of the United States.

More than nine million Korean men, women and children are homeless refugees in their own country. In response to their plight, the Save the Children Federation continues to send warm clothing and shoes to these victims of Communist aggression.

In many countries of Europe the scars of war have not yet healed. Save the Children Federation representatives in Europe report that clothing needs are particularly acute in many areas of Italy, and in Greece, where villagers who fled from Communist aggression have returned to their native homes only to find them in ruins.

In the United States clothing is distributed in low-income rural areas of eight southern and mid-western states and on the Navajo and Pango Indian Reservations. If it were not for the Bundle Week collections, thousands of these rural children would not be able to attend school because of a lack of adequate clothing.

Wearable clothing of all types, in babies' children's and adult sizes, blankets, sheets and other bedding; and low-heeled shoes are especially needed.

"It is our hope that everyone will help with these gifts, by cleaning and mending the garments so they will express our good wishes for the children who receive them," was stated.

A large number of shipping bags have been ordered from the Federation, and leaflets will be given to all children in the school system to take home during the week, stating the purpose of the drive and asking the cooperation of parents.

Bible Comment: The Old Testament Holds a Warning For the Apathetic

A STRONG impression one receives from the Old Testament is the intensity of the contrast between good and evil.

And a further impression is of the way these same contrasts between good and bad men, between evil and good in the life of the people, are found in every nation today.

It is this that makes the Old Testament so vital a document. There one sees the whole process of moral uplift and decay, of vision and call to high estate, with frustration, defeat, and ruin through disobedience to the high commands of righteousness and truth.

The deepest and most fundamental evil in relation to the highest character and ideals in those times was the sin of setting individual interest against the rights and welfare of all.

And today, there is not a single nation in which the forces of evil, through selfishness, crime and disregard of all moral standards, is not at work.

There are plenty of good people, thank God! But a tragic fact is the apathy of the good when action is needed to fight evil.

Nowhere is the history of a people in success and failure, defeat and revival, so clearly set down as in the Old Testament.

It is for this reason that it brings to modern peoples a warning, adapting a New Testament expression: "Wherefore let the nation that thinketh it standeth take heed lest it fall."

This warning is especially appropriate for those who refuse to recognize how great are the evils that threaten our democratic ideals.

Proposed That New Classes be Added at Tawas Area

Following a survey of the Tawas Area School District by the area agricultural committee, it was proposed to the board of education that agricultural and conservation classes be established in the school.

The proposal was made on the basis of information gathered by the committee in the survey. There are 19 boys, 16 to 26 years of age, on farms in the district now out of school. In the district there are 219 part time farmers, 144 full time farmers, two farm managers operating farms; 322 farm owners operating farms; 34 tenant farmers.

With this number of people in the district interested in farms and farm operation, agricultural and conservation classes in the Tawas Area School should be of practical value.

"STRANGE PIPES IN TOLEDO"
... Weird new towers and pipes decorate the skyline! At left, in this night scene at Pure Oil's Toledo Refinery, is a new Orthoflow Fluid Catalytic Cracker capable of producing 300,000 gallons a day of highest quality gasoline.

NEW CAPACITY FOR FINEST GASOLINE

Pure Oil completes new type "cat-cracker"...

First of its advanced type to go on stream anywhere in the world!

It takes the most highly skilled technicians and the most modern electronic instruments—to keep great refinery units like Pure Oil's new Orthoflow Fluid Catalytic Cracker at Toledo running at top efficiency 24 hours a day!

Great new capacity for the refining of the most powerful modern gasolines came as a real boon to motorists in this area when Pure Oil put its new Orthoflow Fluid Catalytic Cracking unit on stream at Toledo recently.

This unit is the first of its design to go on stream anywhere. It employs the "fluid catalytic cracking" process which gives higher quality gasoline than any earlier cracking process—and gets more of it out of every barrel of raw material.

First of Two Multimillion Dollar Plants
The christening of this great new

"cat-cracker" at Toledo will be followed shortly by the completion of a similar, but even larger, new Orthoflow Fluid Catalytic Cracking unit at Pure Oil's big refinery—near Beaumont, Texas.

The capacity and efficiency of these two great refinery units, plus the modern units at Pure's Heath refinery near Newark, Ohio, maintain Pure Oil in a strong position of leadership in the refining of power-packed fuels for today's more powerful cars.

They add fresh assurance to that famous phrase: **Be sure with Pure.**

Enough high octane in one day to drive your car around the world 180 times!

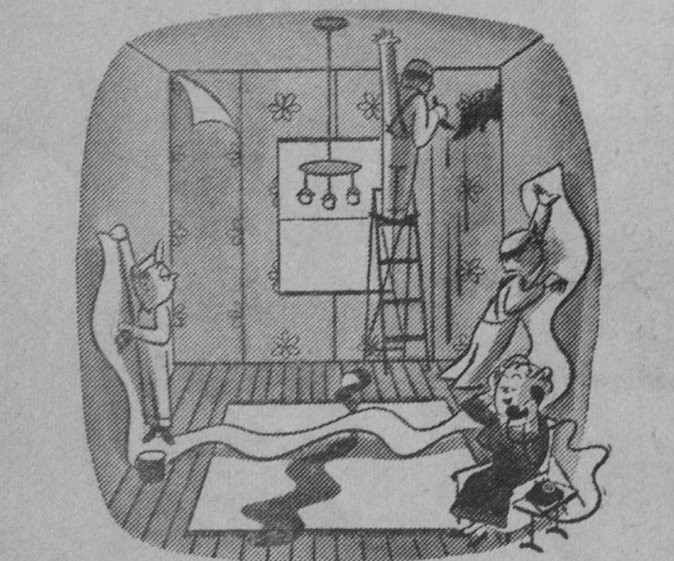

With ability to produce 300,000 gallons of high octane gasoline every 24 hours, this one great new unit can turn out enough gasoline to drive your car around the world 180 times! ... If you only drive your car about 10,000 miles a year, you could power your car for 450 years with one day's output of this amazing new Pure Oil plant!

Do You Remember This?

Above is one of Tawas City's leading hotels in the 1870's. Owned by Thomas Curry, it was destroyed by fire in 1873. Can anyone identify the site on which this three story building stood? This photograph was furnished for the Centennial Exhibit by Mr. and Mrs. Thomas Curry of Seattle, Washington. Mr. Curry is a son of Thomas Curry who owned the hotel and who was one of the city's early businessmen.

ABOUT TOWN

To Show Movie

The Men's Club of Christ
Episcopal Church is showing a
sound movie of the 1953 national
champion Detroit Lions
football team Monday evening,
March 22, at the Parish Hall.

The film highlights the De-
troit Lions during the past sea-
son and features most of the
Lions-Browns championship
game. The program starts at
8:00. Women are invited and re-
freshments will be served after
the movie.

90,000 Deer Killed

With four-fifths of the an-
swers back in the postcard poll,
the Department of Conservation
estimates that 90,000 deer were
killed during 1953 hunting sea-
son in the state. About 430,000
licenses were sold.

Deer Hit By Car

The Sheriff's Department
Tuesday turned over a 116
pound buck to Conservation Of-
ficer Arthur Light. It had been
hit south of Tawas City on US-
23 by an unidentified car.

Hopes To Attend Centennial

Mrs. Iva Chase of Owosso
writes that she hopes to get to
Tawas City for the Centennial
and especially to see certain
relatives with their beards. That
will be worth the trip she
thinks. In renewing her sub-
scription, she says her paper
makes the rounds of all the fam-
ily.

Sheriff's Department Busy

The Sheriff's Department re-
ports that during the past 15
days, 69 dogs have been picked
up and destroyed in Iosco coun-
ty. The department is checking
all dog owners to see that their
dogs are licensed.

Redecorates Store

The McLean Store is being re-
decorated on the inside this
week. A deep shade of rose was
used on the side walls with
white ceiling and woodwork.

Feature Story Tells About New Courthouse

A front page story in the
Michigan Courthouse Review
features Iosco county's new
courthouse. An account of the
dedication ceremony held Jan-
uary 20 is given. A description
of the new building is illustrated
with photographs of both old
and new courthouses.

That Pancake Supper

About 50 attended the pan-
cake supper at Silver Valley.
John Pinter was in charge of ar-
rangements. Carl Libka and
Jack Dodson of the Tawas City
American Legion volunteered to
help with the pancakes. Movies
of the carnival week-end were
shown.

Over the years dogs have re-
fused to talk, which indicates
a high degree of intelligence.

LAZY RANCH BOYS APPEAR HERE

Appearing in person, Tuesday night, March 23, at the Com-
munity Building, East Tawas, Casey Clark and his Lazy
Ranch Boys are regular features of Station WJR, Detroit.
Reading, left to right, are: Casey Clark, emcee and fiddler;
Herb Williams, singing guitarist; Barefoot Brownie Reynolds,
comedian and bass fiddler, and Chuck Carroll, steel guitarist.

The Look of Tomorrow
is in every '54 BUICK Today
With completely new "years-away" styling
—evocated by the dream-car design of the
panoramic sweep-back windshield.

Take it Easy
you don't have to prove a thing!

Let's be sensible about this subject of
horsepower.

An all-American tackle doesn't go around
tackling people in everyday life.

A world-record sprinter doesn't have to
demonstrate his prowess on city side-
walks.

The better you are, the less you have to
prove it.

And that's how it is with a Buick
CENTURY.

Of course it's a spectacular performer—
a car with instantly responsive action.

It has to be, for this one combines a

high-compression 200-horsepower V8
engine with a nimble weight of only 3866
pounds as it comes off the assembly line.

That's a power-to-weight ratio that chalks
up a new record—a ratio that no other
Buick has ever reached before.

It can spin your wheels on a dry pavement
if you give it the gun, but why waste
rubber?

If some show-off wants to get the jump on
you at a traffic light, why not let him have
fun? He isn't kidding anyone but himself,
when the name on your car is CENTURY.

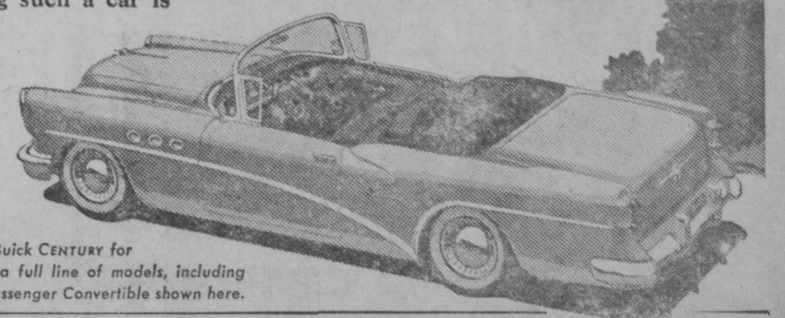

The real pride of owning such a car is

simply this: You know so well what it can
do that you never have to prove it.

That lets you enjoy the tireless ease of its
gain in ordinary driving, when only a
fraction of its eager power is working. It
gives you a quick reserve for breasting a
hill—and the happy knowledge that there's
still more to come in a sudden emergency.

Sure, this is more power than most people
really have to have. But you can hardly
call it extravagant, when you are buying
more horsepower per dollar in a CENTURY
than you get in any other car in America.

FARM NOTES

If you plant oats on land where corn was picked the previous year, you may get less oats than if you had harvested corn silage. MSC farm crops men suggest. Reason: corn stalks tie up nitrogen when they are plowed down.

The "Walker Quickie" method of organic matter buildup is being stressed again in Northern Michigan area. That is a report from Edward Longnecker, MSC soil scientist. This method will be used in the 1954 soil improvement program of the Agricultural Stabilization and Conservation Committees in several counties.

This system developed by Orville Walker, extension service agent in Kalkaska county, makes good use of rye and buckwheat as green manure. Conservation committees in several northern Michigan counties are recommending this plan this year for coarse sandy soils. Mr. Walker has two farms in Antrim county.

The essential features of the six-step program are these: Preparing seedbed and seeding 1 1/2 bushels of buckwheat per acre in the first week of June with 400 pounds of 10-10-10 fertilizer.

Discing down the buckwheat in full bloom, before seeding. Seeding two bushels of rye per acre between August 20 and September 1, with 400 pounds of 4-16-16 analysis.

Top dressing the rye with 60 pounds of actual nitrogen per acre as early as possible in the spring. Discing down the rye when it is knee-high, making sure it does not grow too tall in a fast-growing springtime.

Farmers have tried methoxychlor and lindane to control flies in dairy barns, and now have a promising new one to try out. It is Malathion, a phosphate type insecticide. The barn spray recipe calls for one pound of 25 percent wettable Malathion powder to three gallons of water. If the 50 percent emulsion form of Malathion is used, one-half pint will make three gallons of spray.

Users should read the container labels carefully. Malathion should not be used in the home or milkhouse, or be sprayed directly on the cattle.

Chloromycetin will cure sheep pinkeye quickly, usually with one application. This fact is the result of research by two Michigan State College veterinary scientists, Drs. W. F. Bailey and R. D. Barner.

Sheep usually get pinkeye before and during lambing, and sheepman first notice the affliction when the animals start groping their way to the feed pen.

Left untreated, ulcers form and the eyeball ruptures, causing blindness. Chloromycetin ointment comes in a tube, one tube being enough for about 20 sheep.

Dairymen worrying about the milk price drop may do well to take advantage of a good veal market and at the same time do something about the milk surplus.

Donald L. Stark of Michigan State College agricultural economics department, has pointed out that a choice prime veal 200 pound calf brings around \$60.

Figure your profit this way: Sixty dollars for a 200 pound veal calf minus the price of a day old calf (\$15) leaves \$45 for approximately 1,000 pounds of milk that is takes to put another 100 pounds on the 100 pound day old calf.

That is \$4.50 a hundredweight for your milk, much better than most dairymen can do with milk selling at 75 percent of parity.

Four fresh heifers were entered among the 13 herds tested in the DHA record period of February. The association averages for milk were 612 pounds; butterfat, 23.7 pounds, testing 3.57 percent.

High herd records are:

Attention, vegetable gardeners. Care in the selection of seeds for your vegetable garden will pay off in better yields, better looking vegetables and more satisfaction.

There will be money in your pocket if vegetable garden project members and leaders get together and "pool" seed orders. Ordering in bulk is less expensive than the small packet selections made from the seed rack in a store. Project leaders can help make further savings, too, by getting together and further "pooling" orders into larger bulk quantities. Extension agents will be glad to assist them in making arrangements for such an order.

And, while you are planning your garden seed orders, keep at hand the following information about vegetable varieties that have been tested and recommended by Michigan State College's horticulture department.

Snap beans (green), round podded—Top Crop or Rival; **oval podded—**Contender; **early flat podded—**Sweetheart; **Snap Beans (wax), round podded—**Puregold (mosaic resistant) or Round Pod Kidney Wax or Brittle Wax.

Early carrots—Nantes, Gold Spike.

Lettuce, crisphead—Great Lakes; **Cornell 456 (muck);** leaf lettuce—Salad Bowl.

Muskmelon—Honey Rock, Golden Delight, Delicious 51.

Early Peas—Little Marvel.

Pepper—Oakview Wonder, California Wonder, Yolo Wonder (mosaic resistant), Vineland (very early).

Early Radish—Cherry Belle, Spinach—America.

Tomato—Valent, Red Clud, Early Wonder; **For main crop tomatoes—**Longred.

At the 4-H Leaders' Council meeting on March 8, Pavo Bloomquist reported information he learned at the district 4-H Council meeting in Standish.

Attending were: Mrs. Blanche Douglass, Pavo Bloomquist, Mrs. Frank Abbinate, Mrs. Alton Durant, Mrs. Albert Duquette, Mrs. Frank Minard, Mrs. Charles Dillenbeck, Mrs. Albert Vane, Mrs. Melvin Brown, Harold Black, Alton Pagel, Mrs. Marvin Davenport.

Arrangements were made for a special meeting of leaders to discuss the 4-H Club Handbook being planned for Iosco county leaders. It will be held on April 12.

We observed National 4-H Club Week by attending three 4-H Club open house events.

Laidlawville 4-H Club's open house event was one of the most successful ones held so far this year. Mrs. Roy Atkinson, committee leader, told me that the program was completely arranged by the young people. It included a very impressive flag presentation ceremony, project demonstrations, music, singing, humor and recreation. Their 4-H Club member attendance of 20 was swelled to nearly 50 by the presence of parents, leaders and interested community families, many of them belong to the Farm Bureau group which is interested in this 4-H Club.

Exhibits of knitting, clothing and handicraft project activities indicate considerable accom-

plishment already this year, with more planned for the months ahead. Several exhibits were selected to be displayed at the P.T.A. meeting on Monday, 15.

West Hale Community 4-H Club is not large in numbers, but they make up for that in enthusiasm. Twenty-six young people, parents and leaders were about filled to capacity the living room at Mrs. Everett Douglass's home. The photography project leader, Earl Slosser, showed movies he had taken in the Yellowstone National Park, and Mary Jane Douglass had slides she had taken as part of her project work.

Knitting, food preparation, flower gardening, handicraft and canning exhibits show that these young people have been busy and have a good part of their project work nearly complete for this year.

At Burleigh Wizards 4-H Club the boys showed up the girls by having electrical and handicraft articles on display in greater number than did the girls with their projects. Paul Edie demonstrated replacing a plug on an electric cord.

HDA NOTES

Calendar:
March 19, Friday—District Adult Recreational School at Standish, 10:00 a.m.

Are thieves robbing you of light? Do you get your money's worth when you pay your light bill? Do you pay for light you do not have?

Dust is the thief that can rob you of the light for which you pay. Dust allowed to remain on light bulbs, you keep darkened or shades, shuts out considerable light. The answer lies in keeping your lamps, bulbs and fixtures clean—dust them, just as you do your furniture.

Sometimes dusting is not enough. If a gloss film collects on the light bulb that has attracted dust, wash it. Turn off the switch and remove the bulb from the fixture or the lamp. When bulbs are cool, wash them with a damp, soapy cloth and then wipe them dry. Never put the bulbs in water. Be sure your hands are dry when you replace the bulbs.

What about a bulb that looks dark even after thorough cleaning? Face the facts...it needs to be replaced! You are not saving money when you keep darkened bulbs in service because you pay for light that is not there.

Maybe you've heard of a 4-H Club member who is selling light bulbs to earn money for his club's treasury. Replace rotten bulbs.

Broken bulbs can spell danger to children, so dispose of them with care. There is chance of harm from materials used inside some fluorescent tubes, too.

Our families are growing. Census figures show that there is an increase in the number of second, third and fourth-born children since 1950.

At our recent Home Demonstration Council meeting one of the suggested topics for next year's program consideration has to do with providing special training for persons who have heart ailments.

The information that follows will completely explain what this special kind of training is:

Michigan is known favorably for its leadership in establishing classes to train heart patients in easier ways to carry on their duties as homemakers. Since the beginning of this project in 1951 a total of 1328 different women have attended classes in 24 Michigan counties, reports Mrs. Ruth Kettunen, in charge of the training.

This training is made possible by a cooperative arrangement between the home economics extension service of Michigan State College and the Michigan Heart Association. But local communities have a share in the plan, too. The Michigan Heart Association is supported by funds contributed to the United Health and Welfare Fund.

Preference is given women with heart disease, but—if there is room in the usual class of 25 to 30, other women with handicaps may attend. Women with arthritis, or those who have had tuberculosis, find the information helpful. In Northern Michigan many practical nurses in on the training when possible. County home demonstration agents work closely with local

Niles Bunting and Byron David of West Branch have bagged three wild cats in the district between Tawas Lake and the AuSable river during the past week. In their expedition, they were accompanied by Conservation Officer Arthur Lietz.

Bunting and David are experienced cat hunters and have a pair of dogs well trained for the purpose. The territory through which they ranged extended from the Kunze Club, Tawas Lake, and Old US-23 in Wilber township to the AuSable river. One cat taken weighed more than 30 pounds.

While with the hunting party, Conservation Officer Lietz made a survey of Isoco's deer herds. He said that the recent storm was the first difficult period the deer had met this winter, but conditions were improving with the rapidly disappearing snow.

Brownie Reynolds, featured comedian with Red Foley "Grand Ole Opry," WSM, Nashville, Tenn. will be here in person Tuesday night, March 23, at the Community Building, East Tawas. ad.

Officers Elected at P.T.A. Meeting

The Parent-Teacher Association of Tawas Area School met Monday evening at the Tawas City Auditorium, with a large crowd present. The program presented was "Youth Organizations and their Development in the Tawas Area."

The Cub Scouts led the P.T.A. in the pledge to the flag. Arthur Evans, Cub Scout leader, explained Cub Scout work and the four dens represented gave demonstration of Cub pledges.

The Future Homemakers of America, Mrs. Harold Clark, director, was presented its banner by Mrs. George Davidson, youth activities director of the V.F.W. Auxiliary. Mrs. Ted Kyser, Americanism director of the V.F.W. Auxiliary, presented the group with an American flag and also with a gavel donated by Mr. and Mrs. Kyser.

The Campfire Girls group and the Bluebirds, with their leaders demonstrated their activities and sang.

The Boy Scouts were introduced by their leader, Vane Patterson. A panel of scouts with Robert Jones, co-moderator, and Tyler Braddock, David Barkman, Ricky Morat and Darrel Lomas told of their trip to California last year.

4-H groups were introduced by Miss Dorothy Scott, home demonstration agent. Taking part were the Grant Group, Alabaster-Whitney Group and the Laidlawville Group.

The election of officers followed the splendid program with the following slate presented by the nominating committee: Mrs. Joseph Dimmick, president; Mrs. Darwin Minard, mother vice president; Earl M. Wright, father vice president; Ronald Eich, teacher vice president; Mrs. Alton Long, secretary; Mrs. Ronald Butterfield, treasurer; Miss Helen Applin, historian. Mrs. George Shawl was nominated for president from the floor, and Mrs. Milton Barkman was nominated as mother vice president from the floor. Mrs. Shawl received 45 votes, Mrs. Dimmick, 22 votes, for the presidency; Mrs. Minard, received 34 votes, and Mrs. Barkman, 31, for the vice presidency. The remaining officers were elected unanimously. These officers will be installed at the May meeting.

R. E. Mick, Tawas Area superintendent, explained the Conlin Proposal now being worked out in the legislature. Mrs. Ray Cross' room received the room award for February.

District M.E.A. Meets at Oscoda Wednesday

There will be a M. E. A. meeting of the AuSable District in Oscoda Auditorium next Wednesday, March 24, beginning at 2:30 p. m. Dinner will be served in the new elementary school at 6:00.

School Board

(Continued from front page.) have community tennis courts located at other school sites. You will note that the site plan calls for two parking lots which have proved to be most inadequate.

I am sure that if our community had to do the job over again they would at least double the size of our present site if land were available. Our present site will have to accommodate a senior high school enrollment of 900. You will note that the building contains a swimming pool and a double gymnasium.

I trust this information will be of some help to you, please feel free to call on me if we can be of further assistance. We would be happy to have you and members of your Board of Education visit our new school.

Wish best personal wishes, R. M. VanVolkinburg, Superintendent.

In a brochure accompanying VanVolkinburg's letter, total cost for the school with a capacity of 900 students was listed as \$2,343,117. Present high school enrollment there is 702.

The Tawas Area Board points out that a cost per student comparison between the \$840,000 proposed Tawas school plant designed to accommodate 650 students and Grand Haven's building gives Tawas the economy edge. Tawas cost of providing educational facilities for each student would be \$1,292 against the Grand Haven expense of \$2,603 per student.

Signed: Walter Niles, Secretary, Tawas Area Board of Education.

PERFORMANCE

Unmatched at the price!

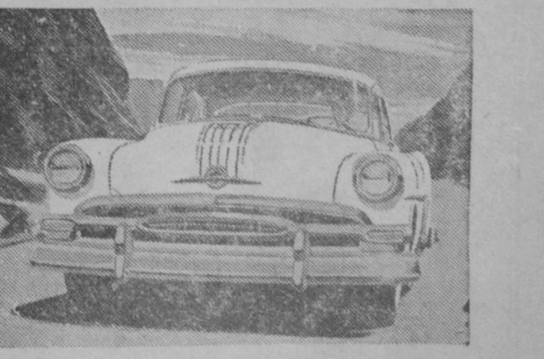

ALERT RESPONSE when you press the accelerator an instant answer when you turn the wheel, and quick action when you touch the brakes make Pontiac the perfect car for traffic and set a new high in handling ease. For extra-eager "go", Dual-Range Hydra-Matic, optional at low cost, provides a special Traffic Range... for extra economy a special Cruising Range.

Of all the fine things you get in the big, beautiful new Pontiac, none will please you more than its balanced all-around performance.

Pontiac's big, high-compression engine has all the power you'll ever need—for acceleration, for hills, for smooth, restful rolling along the open road. And once you drive the 1954 Pontiac, you'll realize that it gives a lot more than just outstanding performance!

It gives you the comfort of a long wheelbase and of big, self-cushioning springs plus wonderful economy of operation and upkeep and unsurpassed dependability. Combine all that and what you have is performance unmatched at the price! Come in for a demonstration.

PONTIAC'S MIGHTIEST ENGINE and generous new fine-car size provide highway performance unsurpassed for smoothness, quietness and a road-leveling ride. For added riding ease and traveling pleasure, Pontiac offers a Comfort-Control Seat, Electric Window Lifts and Air Conditioning... for easier parking, Power Brakes and Power Steering—optional at extra cost.
