Help Beautify Our City Park

Materials have arrived and work has been started on the dock at the Tawas City Park. This is the first step toward the improvement and beautification of the park and will provide a source of income to continue the program.

Several weeks ago members of the Tawas City Businessmen's Association decided to promote the dock project. They are attempting to raise \$3,000 from their association and civic-minded residents of the community.

The dock project is only the beginning of the program which will give the city an attractive beach, playground, picnic area and sanitation facilities.

As you all know, 1954 is Tawas City Centennial Year, and June 20-27 has been designated for its observance. All proceeds from this celebration will also go into the City Park Fund.

The park, which is located on US-23 across from the new Isoco County Building, has been neglected for many years. The completion of this park program will add greatly to the appearance of the city as well as provide much needed recreational facilities. Since its beauty will be shared by all of us, let's all share in its creation. Send your contribution to E. D. Jacques, Park Fund Treasurer, Tawas City, Businessmen's Association, Tawas City, Michigan.

I wish to contribute the sum of \$.....
to be used toward improvements in the Tawas City Park.

Removing "Crazy" Drivers

A novel solution to the problem caused by chronic "screwball" motorists is being tried in Chicago. A psychiatric laboratory is being set up to examine "crazy" drivers.

The idea is to find out whether the mental condition of such drivers is normal. Chief Justice Edward S. Scheffler, of the Chicago Municipal Court, said recently psychiatrists could diagnose the mental condition of drivers by a laboratory examination with a high degree of accuracy.

When a chronic case, or "screwball" driver is found to be mentally unbalanced, his driving privileges will be suspended. The suspended motorist's psychiatrist will then take over and seek to cure the condition.

Dorcas Society Entertained

Tuesday Evening

The Dorcas Society of the Baptist Church was entertained by Mrs. Don Anderson at her home in East Tawas on Tuesday evening, May 11.

The business meeting was conducted by the president, Mrs. William Fox. This was the annual meeting and the following officers were elected: President, Mrs. William Fox; vice president, Mrs. Douglas Ferguson; secretary, Mrs. Joseph Palumbo; treasurer, Mrs. Walter Wiedbrauk.

The 23rd Psalm was the subject of the devotional service led by Mrs. Frank Metcalf. She read an Indian version of the Psalm and then repeated it in sign language.

Hostesses for the evening were Mrs. Orville Leslie and Mrs. Leonard Trinklein.

New W.S.C.S. Officers

Installed Last Sunday

The newly elected officers of the Women's Society of Christian Service were installed at the regular Sunday morning church service at the Tawas City Methodist Church last Sunday by the Rev. Benjamin Whaley. The officers installed were Mrs. Charles VanHorn, president; Mrs. Ray Naslund, vice president; Mrs. George Liske, recording secretary; Mrs. W. C. Roach, treasurer; Mrs. J. F. Mark, spiritual life; Mrs. A. G. Mallon, secretary of promotion; Mrs. Paul Koepke, missionary education; Mrs. Harry Cross, Christian social relations and local church activities; Mrs. Bruce Dundas, student work; Mrs. C. L. McLean, literature and publication; Mrs. Fred Marsh, secretary of supplies.

Pretty girls are not more deserving necessarily; they just seem so on the spur of the moment.

4-H Club Sunday Will be Observed At R.L.D.S. Church

The 4-H Club Sunday in church will be observed at the R.L.D.S. Church at the 11 o'clock service. Rural Life Sunday, the fifth after Easter, which has its roots in the Rogation Days, is a day set apart for emphasizing the meaning of Christianity for rural life, for the innovation of God's blessing upon the seed, the fruits of the soil and the cultivators of the earth; for the consideration of justice for agriculture and the spiritual values of rural life. It was first observed in 1929 at the suggestion of the International Association of Agricultural Missions and according to plans adopted by the Home Missions Council of the Churches of Christ in America and many religious bodies. Extension service, through 4-H Clubs, have observed Rural Life Sunday for the past 12 years.

Bible Comment:

Godliness Must Be a Way of Daily Life

WHEN we speak of a man as being "a godly man," what do we mean? We are sure that he is essentially a reverent man, with a true sense of holiness.

He is probably a good churchman, who manifests good moral living.

But is that all there is to godliness? We know from very high authority that it is not.

We have the story of the rich young man, who came to Jesus, asking how he might inherit eternal life. He was probably correct in his way of life as even most men of conventional goodness.

Yet he lacked the one most essential thing.

"Where your treasure is," said Jesus, "there will your heart be also."

The young man's supreme attachment was to his great possessions, which in his ultimate decision he chose rather than companionship with Jesus, and the possibility of becoming the twelfth Apostle, when Judas Iscariot failed.

But godliness consists in what comes after acceptance of God as the treasure of the heart.

When one reads with insight the account of the early Christian church, in the New Testament, and especially in the Epistles, an apparent and surprising discovery is that so many accepted God and the Christian way, without any clear comprehension of all that it meant.

For those of that early Christian time, and for loveless, professing Christians of today, the beloved Apostle leaves no doubt about godliness in daily life.

His plain, strong words are:

"If a man love not his brother whom he hath seen, how can he love God whom he has not seen? If a man say, 'I love God,' and hateth his brother, he is a liar; for he that loveth not his brother whom he hath seen, how can he love God whom he has not seen?"

W.S.C.S. of Tawas Hold Mother-Daughter Banquet

The annual mother-daughter banquet of the East Tawas Methodist W.S.C.S. was held at the church last Friday evening. The tables were attractive with Centennial centerpieces and yellow candles. Tiny Centennial flags topped each nut cup.

Mrs. Charles VanHorn, president of the society, introduced Mrs. A. E. Giddings as toastmistress, who welcomed the guests. Mrs. Albert Conklin gave the tribute to the daughters and her daughter, Patricia, gave the tribute to the mothers.

Mrs. Ira Horton led in group singing and also sang a duet with Mrs. J. F. Mark. Mrs. Frank Walker was pianist.

The speaker of the evening, Miss Ernestine Cozadd of East Tawas, compared mother's love to God's love. The benediction was given by Mrs. Benjamin Whaley.

The oldest mother, Mrs. Stephen Ferguson; the youngest mother, Mrs. Gerald Rapp, and the youngest daughter, Joy Phillips, were all presented bouquets of flowers.

The committee that served the dinner was Mrs. George Liske, Mrs. Orville Cray, Mrs. Harry Cross and Mrs. Harvey Abbott. The decorating committee was Mrs. Donald Seymour, Mrs. Mark Sedgeman and Mrs. Chester Moore.

CAMP FIRE GIRLS

ENTERTAIN MOTHERS

Mrs. Ted Kyser's group of Campfire Girls entertained their mothers and sponsors at a dinner at the Home at the Arts Room at the high school Monday evening. The program consisted of an Arthur Godfrey Amateur Hour. The ladies enjoyed games with prizes.

Plans for summer camp were discussed by the mothers and sponsors. A dainty lunch was served by the girls.

The annual mother-daughter banquet of the East Tawas Methodist W.S.C.S. was held at the church parlors last Wednesday evening, May 12. Table decorations were pink and blue candles and lace baskets of spring flowers. Favors were tiny lace baskets holding corsages of spring flowers. More than 100 attended.

Miss Ruby Evans was toastmistress. Mrs. G. A. Pollard gave the invocation; Ruby Evans, president of the society, the welcome address; a tribute to the daughters, Mrs. Ralph Burt, and a tribute to mothers, Miss Vida Burt.

Musical selections were given as follows:

Vocal Duet—Karen Fernette and Peggy White.
Accordion Solo—Marlene Sedgeman.
Piano Solo—Peggy White.
Clarinet Trio—Carolyn Evans, Marilyn Pierce, Joellen Fernette.

The speaker of the evening was Mrs. J. O. L. Spracklin of Harrisville. Mrs. Spracklin talked on "Mothers of Great Men of the Bible Times and Mothers of Famous Women and Great Men of Later Times." She stressed the great influence of Christian mothers.

The benediction was given by Mrs. Benjamin Whaley. Mrs. Alvin Stonehouse, the oldest mother present, and Mrs. Polly Stevenson, the youngest mother, were presented with floral tributes.

Lower Height Noted in New Car Trends

A definite downward trend in the height of American automobiles is revealed in a survey of 1954 models.

That lower silhouettes are becoming increasingly popular with the motoring public is evident in the fact that seven of the most popular makes have dropped the overall heights of their hardtop models from 1.4 to 2.3 inches for a year ago.

The low, sleek styling in automobile designing was introduced by Studebaker in its coupe and hardtop series in 1953 when most American automobiles were still "up in the air."

Studebaker and its internationally famous designer, Raymond Loewy, took their cue from the growing popularity of the European sports cars and developed a car only 56.31 inches in overall height. What they had in mind was to introduce a popular-priced American sports car, but public acceptance has made it the typical family automobile as well.

Studebaker achieved the new low look in American automobiles without any sacrifice in head room or riding comfort. As a matter of fact the contour of the car actually provides more trim room for headgear, whether it be a man's hat or one of the wide creations worn by women.

Other manufacturers followed Studebaker just as they did once before when after the second World War the popular independent led the industry in introducing the first completely re-designed and re-styled new car.

The trend to the lower silhouette began with the 1947 Studebaker models, introduced in the summer of 1946 when other companies resumed post-war production with their 1942 designs. The Studebaker cars of that year attracted national applause with their average overall height of 61 inches as compared to an average height of all others of 67 inches. Since then every new car has been coming down in overall height.

This year seven of the 10 best known makes re-designed their hardtop models with lower silhouettes. Roof lines in these seven were lowered as much as 2.3 inches from 1953, while the average drop in height for all seven was 1.24 inches.

However, Studebaker hardtop and coupe models are still in the lead with their overall height of only 56.31 inches. "Dream cars" compare favorably with the low Studebaker silhouette, but it is only Studebaker that has the "car of tomorrow" rolling off assembly lines today.

Taxes are high but we sometimes forget we're lucky to have the money to pay them!

SONIC-BARRIER BAN

As the result of complaints from citizens, the Air Force has put into effect a new policy "outlawing" the sonic blasts in populated areas. Pilots who plan to exceed the speed of sound—about 700 miles an hour at high altitudes—must do so hereafter in localities where the sharp explosive reports that result will not annoy or frighten anyone, or break any windows.

First President

When Tawas City was chartered as a village James Hamilton was elected its first president. A prominent resident of the city for many years, Mr. Hamilton was a pioneer merchant here. His wholesale and retail grocery was located at the corner of Mathew Street and Fourth Avenue facing the Tawas river bridge. The vacant site is now owned by the Detroit and Mackinac Railway Company. The portrait was furnished by Mrs. Herman Roiter.

CONSTRUCTION

Construction in the United States continued its record pace in April and brought the first four months of 1954 to more than \$10,000,000,000 as against \$9,933,000,000 for the corresponding 1953 period. The increase reflects the usual spring expansion in private residential construction plus a more than seasonal spurt in highway building. Total private expenditures increased by seven percent over March to \$1,900,000,000 in April.

INDUSTRIAL PAYROLL

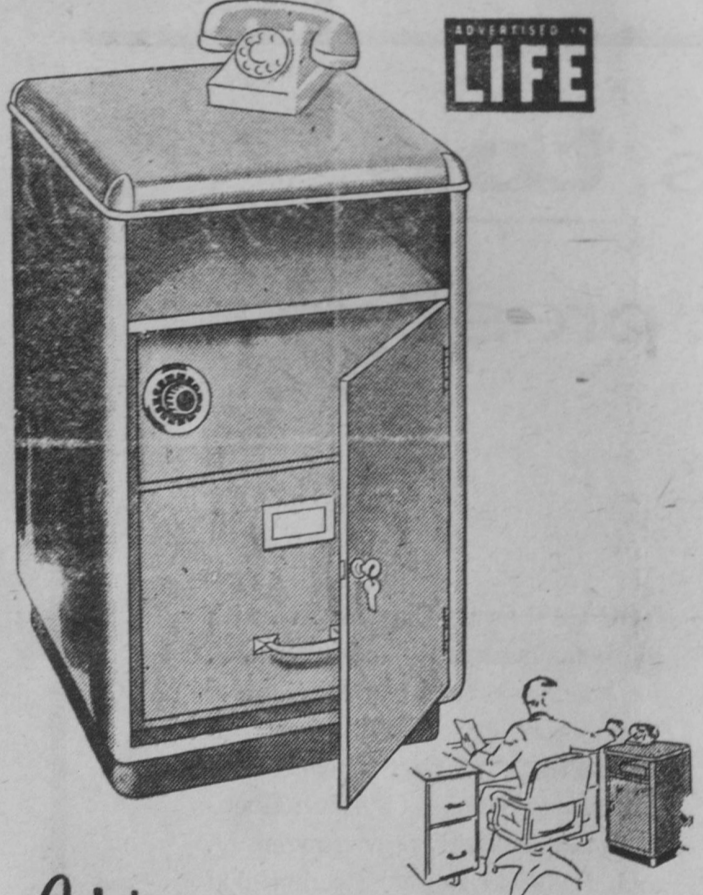

Private industry wages and salaries at seasonable adjusted annual rate of \$193,000,000,000 in March, were \$1,000,000,000 below the February rate, as a result of continued employment declines in non-agricultural establishments.

Mr. and Mrs. Ross Shellenbarger were in Ann Arbor Tuesday on business.
Mr. and Mrs. Clyde Humphrey drove to Detroit Tuesday morning to meet their son, Dale, who arrived at the air port at 8:00 a. m. from Korea. Welcome home, Dale.
It's good to see Walter Burt home from service. He has received his discharge and will be helping his father on the farm.
Mr. and Mrs. Ellis Lavrick were dinner guests in the Rev. Jack Richards' home Sunday.
Don't forget daily vacation Bible School will start at the Hale Baptist Church on June 14. Plan now to attend.

BUYER'S FEARS
The main trouble with the nation's economy is thought to be a lack of business and consumer confidence in the immediate future, according to government economic experts. A Labor-Commerce Department survey on April employment showed that major trouble spots in the economy are the factories, the mines and the transportation field.

Mrs. Joseph Dimmick Again Gives Her Opinion on School

Editor of The Tawas Herald:

Having been present at the school board meeting on May 4, when Mr. Mills Wilbur from the Department of Public Instruction made his recommendation in regard to the school site, I would like to make a few comments based on my notes of that meeting. As a matter of fact I took down most of his remarks verbatim in shorthand.

In the first place, Mr. Wilbur stated that his personal observations of the sites could not include any personal opinion of the soil conditions, drainage conditions, or levels, or any other matter requiring technical knowledge. "The only way I can look at any site is mainly from the educational standpoint," he said, and "I can't look at it from the standpoint of community feelings, although I know that they exist."

A summary of the factors presented by him is as follows:

Type of School—It would be the same on either site.

Size of Areas, Either Area—Nursery-Fairgrounds or Neumann-Reinke would be adequate. He said, "You have plenty of land available. We consider 10 acres, plus one acre for each 100 pupils. For 1,000 pupils, 19

or 20 acres." In other words, the Nursery-Fairgrounds, as is without acquiring any other property, is adequate for 2,200 students. When you consider this is over four times our present junior and senior high school enrollment, this should settle the matter and for all the adequacy of the nursery site for size.

Center of Population—No difference to speak of.

Concentration of Population—The Nursery-Fairgrounds is much closer.

Community Use—The advantage here also goes to the Nursery-Fairgrounds because it is closer to the concentration of population of the two cities. Mr. Wilbur stated, "For a school building to be used only six or seven hours a day is too expensive a luxury, but it should be used in the evening by adult groups as well as the boys and girls."

Community facilities, library, etc.—The Nursery-Fairgrounds is closer.

Public Services, Water, sewer—The Nursery-Fairgrounds is much closer with corresponding savings.

Cost of Site—He considers this a minor matter, compared to full cost of the project, and that there would be slight difference. This is open to discussion as yet.

Soil Conditions—According to the engineers and architect, the Neumann-Reinke site is better. He took their word for it. This also is open to discussion.

Availability—He thinks the Neumann-Reinke site is more immediately available. How-

Red Cross Suggests Precautions for Memorial Holidays

ever, as President Gould brought out later, we do not know definitely that the Nursery would not also be available at one.

Roads—Either site is easily accessible.

Student Mileage—The advantage goes to the Nursery-Fairgrounds because of 10 student miles less.

Safety—He put the advantage here with the Neumann-Reinke site since there is no safety hazard (although many think of the road M-55 as a great hazard). The hazards of the bulk oil storage tanks and the power station are not considered great. The greatest hazard at the Nursery-Fairgrounds is considered by Mr. Wilbur to be the noise hazard from the railroad. However, any of us who are familiar with local conditions will agree that if Mr. Wilbur had investigated further in this matter of noise, he would have found more.

From this it appears that, although he weighed the various factors to suit himself, all but one of the factors upon which he, himself, was capable of forming an opinion, were in favor of the Nursery-Fairgrounds site. He could not say anything about the soil conditions, and he certainly could not say definitely as to the availability of the Nursery-Fairgrounds site. Therefore, it seems that he based his opinion, in the final analysis, on the opinion of the engineer and architect. In other words, he added little or nothing.

The big question which no one has yet answered satisfactorily is whether the Neumann-Reinke site can be adequately, and economically drained.

Alice R. Dimmick (Mrs. Joseph Dimmick)

Tawas Hospital Patient Praises Staff and Hospital

March 16, 1954
To The Editor of The Tawas Herald:

I've been a patient for two weeks in your hospital, and believe me, I hate to leave. This might sound silly, but it is the truth. I don't know whether the people of this locality know it or not but you folks have the nicest and best staff in the world as far as I'm concerned. Your entire crew from bottom to top is perfect.

I'll never forget this hospital and all its kindness that has been shown me for the past two weeks. And the Grey Ladies, I just love them all.

If you can find a little space in your paper to print this, be sure to thank everyone connected with your hospital for their kindness and smiles that have meant so much to me for the past two weeks.

tanks, will float even when filled with water; so will a boat with the proper size outboard motor.

If you do get into trouble—keep calm, don't struggle. Keep your hands under water, kick your feet and head for shore.

Get out of the water and rest as soon as you feel at all tired. Take your sun gradually, a few minutes the first day, then gradually increase exposure.

Of course, you should learn to swim if you are going to play around the water. You can't find a better sport to save your life. Ask your local Red Cross chapter how you can enroll for free courses in swimming, lifesaving, boating, canoeing or sailing.

The life you save may be your own.

If you can't laugh at yourself, learn to occupy your time with a good hobby.

Cancer Society Elects Officers

A business meeting of the Iosco County Unit of the American Cancer Society was held at the home of Mrs. W. A. Evans in East Tawas May 13.

A good report from all volunteer workers was made, and most of the contributions are in. A final report of the financial committee will be made in the near future by the County Campaign Manager Nathan Barkman.

It was voted to pay for magazines on cancer to be placed in the Tawas Hospital for the doctors' use.

The cancer bed is fully equipped for use and there will be free service transportation to and from any clinic for cancer patients.

Officers elected for the year are as follows:

Medical Chairman—Dr. L. A. Lambert.

Assistant—Dr. Lawrence LaPorte.

Secretary—Treasurer—Mrs. May Barkman.

Educational—Mrs. W. A. Evans.

Volunteers Activity—Mrs. Herbert Hertzler.

Smoking Survey—Mrs. Harvey Watson.

Publicity—Mrs. Clarence Lindow.

County Campaign Manager—Nathan Barkman.

County Committee—Mrs. Emil Wagner, chairman for Hale; Mrs. Florence Curtis, chairman for Whittemore; Mrs. Harvey Watson, chairman for East Tawas; Mrs. Fern Rolls, chairman for Tawas City; Mrs. Ethel Newberry, Wilber, Mrs. Robert E. Erikson, Oscoda; Mrs. Chauncey Tate, Alabaster.

Mrs. Evans discussed the state meeting to be held in October at Lansing and urged as many as possible to attend.

FARM PRICE SUPPORT PROGRAMS

The Agricultural Department has reported that it had \$6,229,489,000 tied up in farm price support programs, as of March 31. This was a drop of \$33,000,000 from the end of February.

The March decline is said to have been due chiefly to improved cotton prices that caused farmers to repay government cotton loans.

WITH THE— IOSCO 4-H CLUBS By DOROTHY SCOTT

Peas were up in the garden of one North Hale Busy Beavers 4-H Club member on April 30. That was a little hard for other members to believe when their garden spots were still too wet to plow, or had just been planted.

These gardeners are looking ahead. Their orders for potted tomato plants, early cabbage and pepper plants have already been placed with Mr. Davenport.

In their project meeting the young folk talked with their leader, Mrs. James Jacobs about differences in varieties of peas and the right time to pick tomatoes for canning. The meeting was at the home of the leader, explained Reporter David Jacobs.

Several of our 4-H Clubs chose to sell electric light bulbs as a way to earn some money for their club treasury. Harold Hammond, Consumers Power farm service advisor, tells us that the total sales of bulbs amounted to \$144.72, and earned the clubs a profit of \$37.09.

If clubs wish to again use this money earning activity next year, it can be arranged for them to do so.

A special program treat was presented at the May 10 meeting of North Hale Busy Beavers 4-H Club. Girls in the knitting project arranged to give a play called, "The Queen and the Jam-Jam."

Darlene Danz was queen, Lorene Bielby the gardener, Valentina Abbinate was "Jam-

Jam" and Karen Helmbold, the narrator.

David Jacobs explained what the vegetable gardeners are doing these busy spring days. Following the meeting there were games and refreshments served by the Danz family, hosts for the evening. Reporter is Clifford Bielby.

Every year some early bird gets the worm by planting an early garden while some other early bird gets his cut down by a late spring frost.

Right now we are getting into the time of frost free dates in our area of Michigan. Whether statistics tell us that most of Iosco county is safe after May 21 to 31. The northwest corner of the Hale area better watch out until after June 1 to 10, though.

Garden crops are divided into five groups. Group one may be planted three to four weeks before the last killing frost—peas, radishes, lettuce, onions, spinach, cabbage, broccoli and kohlrabi.

Group two can be planted weeks before frost-free dates—carrots, beets, early cauliflower, parsnips, salsify and swiss chard.

Group three is planted in the first week after the last average frost—sweet corn, snap beans, second plantings of radishes, lettuce, carrots and spinach.

Group four will be planted two weeks after frost-free dates—cucumbers, melons, squash, late celery, second plantings of sweet corn and snap beans. Tomatoes, egg plant and peppers can be set out.

Group five will be planted two weeks after frost-free dates—cucumbers, melons, squash, late celery, second plantings of sweet corn and snap beans. Tomatoes, egg plant and peppers can be set out.

Group five will be the repeat plantings for late gardens. The last two weeks in June is the right time for planting this group.

D.H.I.A. Makes Test Report on Iosco Herds for April

**Agricultural News—
Charles and Ray Kobs are
"Mr. Soil Conservationists
Of Iosco County"**

By DOROTHY SCOTT

I hear Charles and Ray Kobs are "The Mr. Soil Conservationists of Iosco county." At the meeting of the Board of Directors of the Soil Conservation District, Charles and Ray were named to compete in the Good-year Conservation contest. If they win out in the state, a trip to Arizona, all expenses paid, will be forth coming. Congratulations to Charles and Ray.

Dr. Buford Grigsby, pathologist from Michigan State College gave the Grant Township Board members a method demonstration on how to control weeds in lawns and weeds and brush on roadsides. With Lloyd Little, township supervisor and Lawrence Balk, Grant township farmer assisting, the demonstration was conducted. Doctor Grigsby sprayed a portion of Clarence Herriman's lawn with Amine 2-4-D mixed with water. Note the results of this control comes weed time this year.

For controlling brush Doctor Grigsby used 2-4-5-T with water and sprayed a portion of Binder Road south of M-55. Both kerosene and water were used as carriers in his demonstration. Doctor Grigsby said kerosene should be used in the fall spray application when brush is dormant.

To control wild carrot in alfalfa these were Grigsby's recommendations:

Take both the first and second cutting of alfalfa.

Spray with 2-4-D in the fall to control carrot.

With new plantings of alfalfa he recommended that:

We wait until fall frost and then spray with 2-4-D to kill the carrot.

We expect a 5-10 percent kill of the new seeding.

He also warned that it would be wise to spray the fence rows to further prevent re-seeding.

Neighbors to cooperate in a spraying program will make it 100 percent more effective.

George Herman of East Tawas drove out to the Grant Township Hall to find out how to control ants and spiders. He found information available at the office and received the proper fill-diet for the insect pests.

We want to thank Alfred Guano and Thaut and Heinrich of AuGres for their arranging for the tractor and sprayer. It really did the job.

We were very glad to have Walter Rakestraw of Turner; Harold Hammond, Consumers Power Company farm advisor; Lyle Long, William Herriman; William Waters; Fred Litter; and Roy Coates present to see the demonstration.

The time to support your church is now; not when you have made your pile, which time may or may not arrive.

Our D.H.I.A. tester, Clarence Carpenter, sent his monthly report on Iosco county herds. Here are the results for April.

High cows regardless of age, butterfat basis:

Owner	Breed	Nane	Lbs. Milk	Pct. Fat	Lbs. Fat
Arthur Povish	H	Pride	2510	3.4	85.3
Britt Farm	H	Bess	2400	3.3	79.2

W. Curry	H	Bess	2180	2.6	56.7
Britt Farm	H	Salo	1890	3.0	54.8

Two high herds, each group, butterfat basis:

Owner	No. Cows	Breed	Avg. Lbs. Milk	Avg. Lbs. Fat
Small Herd, 5-10 Cows	9	H	982	38.1
Medium Herd, 11-20 Cows	15	H	1010	37.1
Large Herd, Over 20 Cows	25	H	1256	42.3

These dairymen know which cows are keeping the farmer and which the farmer is keeping. If you are interested in knowing which are the "star boarders" in your dairy herd, why not get in our D. H. I. A. program

HDA NOTES

By DOROTHY SCOTT

Oh yes, it is time for the food preservation season to start. There are mushrooms, fish, parsnips and rhubarb at this time of year.

Just the other day Mrs. Harold Goedecke asked if we would supply directions for canning mushrooms. We can, and briefly they are these: Clean, wash (cut large ones), and precook three minutes. Mushrooms are packed loosely in clean jars, and liquid added to within 1/2 inch of the jar edge. Salt as for vegetables. Adjust covers according to manufacturer's directions and process in the pressure cooker at 10 pounds pressure, pints 25 minutes and quarts 35 minutes.

More detailed directions are available for the asking. Also we

MARY WORTH'S FAMILY

KERRY DRAKE

have directions for two methods of preparing mushrooms to freeze.

Is it a wedding gift you are looking for? If you are looking among items of plated or sterling silver and stainless steel you may come upon a newer flatware with an attractive golden color. It is called Dirllyte (deer-lite).

Dirllyte is an alloy of 13 metals. It is solid so the gold color will never wear through. Two graceful and functional patterns are available, fitting in with traditional or modern furnishings. You can buy it by the place setting or piece. It costs no more than silverplate, lasts indefinitely. A special polish is available for the extra care it requires.

A special meter study being run in this area of the state indicates that the cost of operating a TV set six or seven hours daily will be about 2-3 cents a day.

Replacing a floor covering throughout the downstairs area of an average sized home is quite a problem. There is the matter of cost and installation of finding suitable pattern and colors, and in the case of the William Williams family, there is the added problem of caring for it easily. Mrs. Williams asked for information to help her choose a floor covering. After this problem is met, there will be another in redecorating the walls and ceilings, again keeping uppermost in mind the selection of an easy to keep clean surface.

The display on "Color in the Home" to be seen at the Johnson Appliance Shop window in Hale during National Home Demonstration Week was arranged by Mrs. William Wereley, a member of the Hale Home Demonstration Group.

Sometime ago we mentioned that information is available here in the Extension Service Office on certain buymanship. Mrs. L. G. McKay has inquired about the term "chromspun" found in a certain advertisement. Do not be misled into believing this is another of the family of synthetic fibers like nylon, orlon, etc. "Chromspun" is the term applied to a dye process for acetates that penetrates every yarn completely. The color never changes. Do you have a question about buying curtains? Why not share it?

Are you going to shampoo your rug or carpet this spring? Need a shampoo recipe? Ask us about one.

The Reno Home Demonstration Group held its regular monthly meeting at the Reno Township Hall on Wednesday,

Polled Hereford Show at Saginaw This Saturday

The fifth annual Michigan Polled Hereford Show and Sale will be held at the Saginaw County Fairgrounds Saturday May 22. There are 26 bulls and 24 females representing the top bloodlines, to be shown starting at 10:00 a. m. The judge will be Gerald Brian, Kent county agent. All animals will be sold in the afternoon, the sale to begin at 1:00 p. m. The auctioneer will be Allen Haskin, Lake Oquoss, and the sale will be clerked by Wilton L. Finley, Michigan State College.

Special representatives include: Glenn Kreuscher, American Polled Hereford Association; Forrest Fenn, American Hereford Journal; Dwight Ballinger, Polled Hereford World Magazine; Wilton L. Finley, Michigan State College, and Harry Moxley, also from Michigan State College.

The Polled Hereford cattle are arousing much interest among cattle breeders in the state as well as throughout the nation. A Polled Bull, ALF Battle Mixer 30th recently sold for \$50,000, by John M. Lewis and Sons, Lewes, Delaware. He was shipped to his new home by air freight in a TWA Skyfreighter on April 7.

The Michigan Polled Sale attracts buyers from all the neighboring states as well as Canada. This year's sale cattle are expected to be of even better quality than the representations of the previous years. All animals will be TB and Bangs tested and all will be double Registered Polled Herefords.

Lunch will be served by the Saginaw County 4-H Club in the club building on the fairgrounds.

Chalk Up Sixth Win of Season

The Tawas Area Braves chalk up their sixth win of the season last Friday by taking a 9-5 decision over Hale. The Braves' season record now stands at six wins and one loss. The Braves jumped out in front of Hale in the first inning with a four-run spurge and were never headed during the remainder of the game. Four hits and a walk accounted for the runs. Two runs were added to the scoreboard in the second inning by the Braves and three in the fourth inning. Hale scored one run in the second inning on a double and a single. Two hits, two fielding errors and a walk accounted for Hale's four-run last ditch stand in the fifth inning. Orville Revord went the distance allowing four hits. He fanned 19 Hale batters. The Braves collected nine hits off the slants of Shellenbarger for Hale, including three hits in three times at bat by Art Anschutz. Anschutz now leads the team in batting with a lusty .575 percentage point average. Charles Landon and Claude DeLosh both raised their batting averages with two hits apiece. This Friday afternoon, the Braves are scheduled to play at Oscoda.

Miss Mark Honored With Farewell Dinner

The board of education and teachers of Hazel Park High School gave a dinner party and farewell reception honoring Miss Fern Mark at Dearborn Inn, Dearborn, last Wednesday evening. The entire board of education and teaching staff were in attendance, as well as the brothers and sisters of Miss Mark, who were guests of the board. Miss Mark has been secretary to the Hazel Park Board of Education for over 30 years and will retire June 30 to make her home in Tawas City in the old Mark home between the bay and Tawas river. The board of education represented by its president, George McCordell, a former resident of this community and the teachers, represented by Arthur Osborne, presented the guest of honor with gifts from their respective groups. Mr. and Mrs. James F. Mark of this city were guests.

32 New Members Added in Chamber of Commerce Drive

During the regular meeting of the Tawas Chamber of Commerce last Thursday night, the membership committee reported that 32 new members have joined the chamber, bringing the total membership to 132 in the organization. In other matters discussed, Ken Lorenz of WJEM-TV in Bay City will be invited to attend a proposed spring meeting of the chamber. If possible, the ceremony of burning the building mortgage will take place at this meeting. A report was given on a recent trip made in the Miss East Tawas to Port Austin. The group was met by a reception committee in Port Austin and escorted through businesses, industrial and resort areas. During the meeting the project of having ferry service between the two towns was discussed. A. Don Anderson, president of the chamber, said he would work on the plans from this side.

Will Purchase New Flags for Streets

At the weekly meeting of the Tawas City Businessmen's Association Thursday, the members agreed to purchase American flags and staffs for the decoration of Lake Street during holidays and on other special occasions. Reginald Bublitz, superintendent of public works, will contact each businessman in Tawas City and will take orders for flags from those businesses which presently do not own a flag. Following the first placement of the flags along the street by the businessmen, the city will be responsible for picking up the flags and placing them out during future holidays. In other matters taken up during the meeting, Jack Davis of Bay City will meet with the Centennial Committee Friday night to discuss decorations for the Centennial Celebration.

Five Isoco Fires Caused By Carelessness

Fire, the deadly enemy of Michigan's forests, struck again in Isoco county over the weekend. Only by prompt action from fire-fighting crews in this area kept the fires from destroying many acres of the Huron National Forest. A total of 20 acres of forest land were burned over, the result of five fires in Isoco county and one in Alcona county. All of the blazes were attributed to carelessness in the use of campfires by fishermen and campers. The United States Forest Service reported this week that the woods fire hazard in this area is great and warns everyone to be especially careful in the use of campfires.

CARDBOARD VS. H-BOMB—So light that four persons can handle it, this experimental cardboard air-raid shelter is set in place on the campus at Ann Arbor by students of the University of Michigan. The collapsible, domed shelter could be mass-produced. Designer Richard Fuller believes it could better withstand H-bomb shock waves than could conventional shelters.

MICHIGAN OUTDOORS
WITH MORT NEFF

THAT "ROAMIN'" HOLIDAY!
Now is the time when most Michiganders are looking forward to that long-awaited two weeks' vacation. Some are making plans to return to the same old spot that's welcomed them year after year. Others are the roaming type, eager to see new and different places and faces this summer. This appeal is directed to the latter classification!

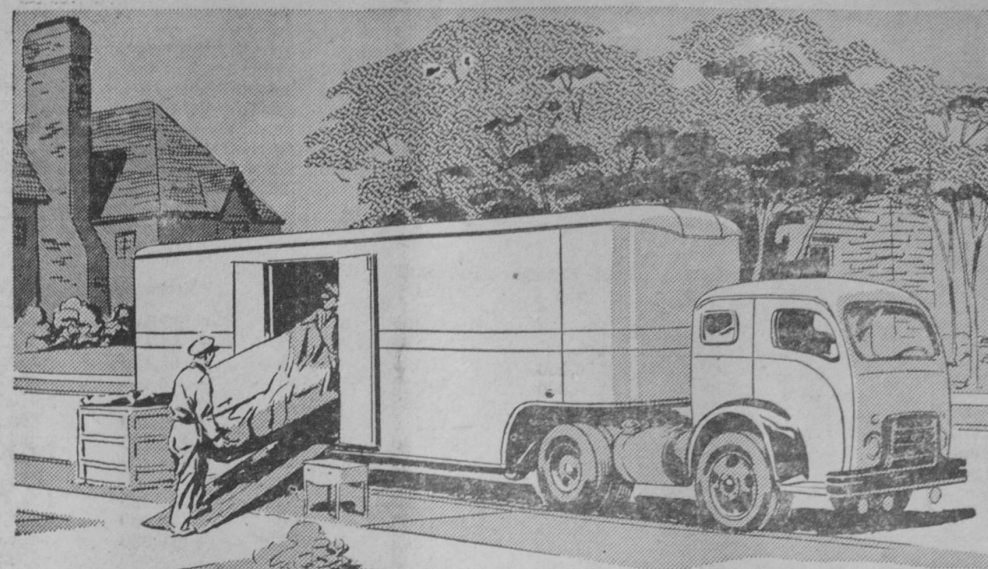

Michigan's Lure
Literally thousands of historic, geographic and resort attractions await you right here in Michigan—and all of them have been skillfully presented in print for your consideration in one of the four booklets prepared by regional associations of the Michigan Tourist Council. Merely decide which part of the State you'd like to see this summer—the Eastern section of the lower peninsula, the western half, the southeastern part encompassing the vast industrial sections, or the gorgeous scenic attractions of the upper peninsula. Then write for the book describing that particular part of Michigan. Here are the addresses: East Michigan Tourist Association, Bay City; West Michigan Tourist and Resort Association, Grand Rapids; Southeastern Michigan Tourist Association, National Bank Bldg., Detroit; Upper Peninsula Development Bureau, Marquette.

All "Water Wonderland"
If your choice is the Eastern half of the state you'll be in line to see the well developed resort attractions along lovely Lake Huron. If fishing is your hobby you may learn to find the big bass along the huge reed islands of Saginaw Bay near Sebawaing, or find fun in luring fat and very tasty perch from the waters of Tawas Bay. Pike and small mouth bass are waiting in a dozen big inland lakes near Alpena and Hillman. The western half is a mecca for those who love white sand beaches and huge dunes reaching down to the surf of Lake Michigan. The beauty of the Traverse Bay area must be seen to be appreciated, and no tour is complete without a trip thru the Leelanau peninsula. The busiest waterway in the world—the Detroit River is a prime attraction in the southeast, combining the lure of water with the spectacle of giant industry in motion. Tours thru the great automobile plants are available, and never to be forgotten Southeastern Michigan's St. Clair Metropolitan Beach is the largest man-made fresh water beach in the world! And needless to say the natural beauty of the upper peninsula tops the whole state, literally and figuratively! Finally, don't forget to take along a camera when you vacation in your own Michigan Outdoors!

MOVING IN THE MODERN MANNER

Today, thanks to trucks and truck-trailers, moving is no longer the tedious, time-consuming task it used to be.

Now, a sleek, spacious furniture van draws up to your door, a carefully-trained crew takes over, and in a matter of a few hours your furnishings are safely and scientifically loaded and on their way to their new home, be it 'cross town or 'cross country.

Moving in the modern manner means moving by motor transport—a direct, door-to-door service that eliminates extra handling and most crating, and which gets your valuable things to their destination swiftly and unharmed.

It's one more way in which trucks and truck-trailers serve the people—one more way motor transport benefits you!

What's a HILL to POWER like this?

You've climbed hills before, we know. You've come to many a long rise in the road ahead and tramped down on the gas pedal to make the grade.

But did you ever head a ROADMASTER up a hill—a 1954 ROADMASTER?

You seem to sail when you touch off the great V8 power that gives life to this finest of Buicks.

You move ahead and up that long steep

pull in a silken, smooth sweep of almost effortless ease—and the thrill your spirits get from such magnificent ability is a precious thing.

And you realize, of course, that a wealth of advanced high-compression V8 power—(the highest horsepower in all Buick history, in fact)—is the heart of this stirring performance.

But you also realize soon enough that your tremendous satisfaction at the wheel of a ROADMASTER comes from more than great power alone.

It comes from the instant response and absolute smoothness of Twin-Turbine Dynaflow.

It comes from the velvety luxury of your all-coil-spring ride. It comes from the

superb ease of Safety Power Steering. It comes from the comforting feel of ample roadweight—brought to feather-light handling precision by a new geometry in front-end engineering.

And very definitely, it comes from the eye-catching beauty in which you travel—the look-of-tomorrow styling that graces ROADMASTER today—and with the spectacular new panoramic windshield that is fast becoming the mark of true automobile modernity.

We'll be delighted to seat you at the wheel of a new ROADMASTER—so that you can drive it, try it, feel it.

It costs you nothing to do so—and it can open your eyes to the finest buy in fine cars today. Drop in, or call us this week.
