\$120,000.00 Fire Destroys Barnes Hotel at Tawas City Early Last Friday Morning

Owner Plans to Rebuild Immediately

Fire, which raged for more than four hours early Friday morning, destroyed the Barnes Hotel in Tawas City, one of Northeastern Michigan's oldest and best known hostilities. Cause of the fire is unknown.

Requiring the combined efforts of three fire-fighting departments to battle the blaze, more than 162,500 gallons of water from the main pump in Tawas City's municipal water system were played on the burning building before it was finally brought under control.

Total damage from the fire amounted to approximately \$120,000, it was reported Wednesday morning by Anthony DeFilippi, owner of the hotel. The building was a total loss.

Mr. DeFilippi plans to construct a new hotel on the site now occupied by the burned-out building. He said that work on tearing down the structure is expected to start this week. "As yet, no contracts have been let out for the construction of the new hotel," the hotel owner said. Present plans call for the new building to be built to the edge of the sidewalk.

Believed to have started sometime after the hotel's bar closed at 2:30 a. m., the fire was first discovered by Mr. and Mrs. Dale Kenney of Royal Oak, newlyweds, who were staying at the hotel.

After calling in the alarm to the Tawas City Fire Department, the Kenneys alerted the other guests in the hotel who fled from the smoking building in their night clothing. Several of the guests made their escape from the hotel's second story by means of fire department ladders.

At first it was feared that one of the guests had not made his escape from the burning building and officers from the Michigan State Police, along with other hotel guests who had made their escape, searched several of the rooms in the upper half of the building.

When the Tawas City Fire Department arrived on the scene the east side of the building was burning and dense smoke filled the fire building, hampering its efforts. A hurry-up call brought the East Tawas department and a short time later the Oscoda Township department arrived and greatly assisted in bringing the fire under control.

The blasts of fire sirens in both of the Tawas streets on several hundred spectators to watch the firemen's efforts to bring the blaze under control. By 8:00 a. m. only the four walls of the ill-fated building were left standing.

It was thought at one time that flames might spread to adjoining frame buildings, but the cement block walls of the front portion of the building and the asbestos shingles covering the back part confined the flames within the four walls.

At one time more than nine water lines were used on the fire. Water was pumped by fire trucks directly from the municipal water system, using high pressure pumps of the Tawas Township, Oscoda Township and East Tawas fire trucks. An additional supply of water was utilized by using a portable water system to pump water from Tawas Bay by the Oscoda Township Fire Department.

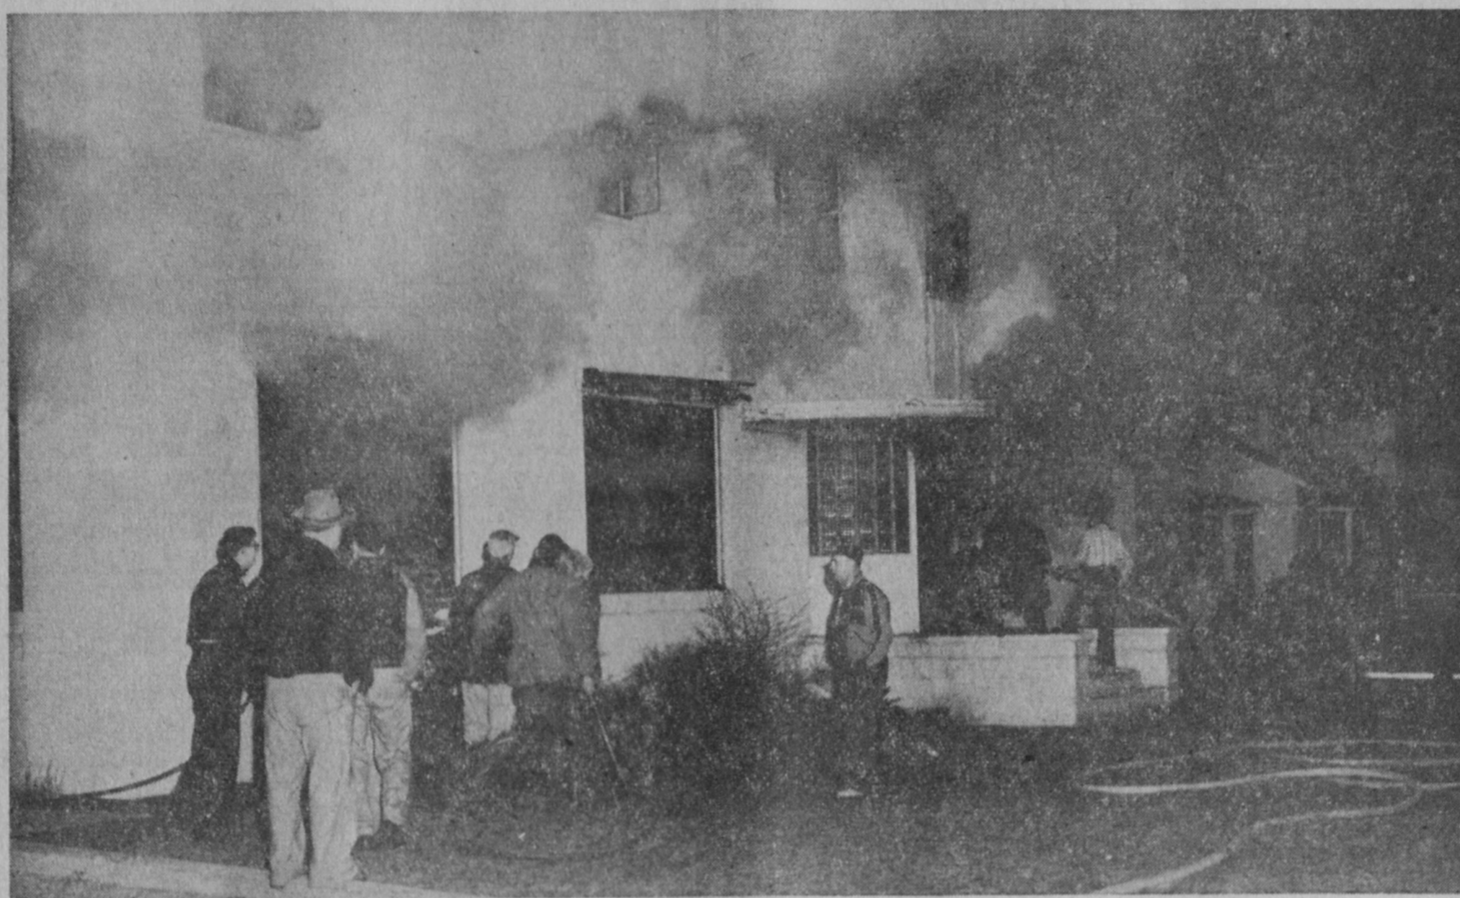

Fire Chief Fred Musolf of Tawas City commanded the fire fighters, assisted by Howard Hofacer, Oscoda fire chief, and Edward Lixey, East Tawas fire chief.

By 7 o'clock the fire had gained great headway and caused the roof of the cement block section of the structure to collapse. One fireman, Arthur (See Hotel Fire, Back Page)

Represents CMC at California College Meeting

Miss Marlo Davison of Midland has been selected to represent Central Michigan College at the National Pi Kappa Delta Convention at Redlands University, Redlands, California, April 4-8. Pi Kappa Delta is a national honorary speech fraternity, and Marlo will represent the college in Intercollegiate Discussion and Debate as well as in the assembly. Her colleague is Miss Laura Pizzala of Manistique, and the men's team will include William French of Ionia and C. Pombier of Jackson.

Marlo, who is the daughter of Mr. and Mrs. W. Albert Davison of Midland, former residents of this city, is sophomore at Central Michigan College.

Smoke billows from the Barnes Hotel early last Friday morning as a four-hour fire resulted in the total destruction of the building. More than 162,500 gallons of water were poured on the blaze by three fire departments.—Tawas Herald Photo.

Work Begun on Concession Store in City Park

Construction on the Tawas Boat Company's new bait and hamburger drive-in located in the Tawas City Park started this week. The company is owned by William Borosch and Gordon Clute of this city.

The new 30 by 16 foot cement block building is expected to be completed on May 1. Construction is by George Green and Andrew Anschuetz.

Property for the concession in the city park was leased to the company by the city council and park board for a 10-year period.

The new building will also serve as a ticket office for the new 42-foot long steel cruiser, "Miss Tawas City," now being constructed by the boat company at Clute's Sheet Metal Plant in this city. The new fishing cruiser is expected to be completed by May 1 and will operate from the park dock.

Retires After 44 Years With D. & M.

Long-time railroad employee, Albert Mallon, left, is congratulated by Charles Pinkerton, railroad president.—Herald Photo.

After more than 44 years of service as a boilermaker and later a welder with the Detroit and Mackinac Railway Company, Albert G. Mallon of Tawas City retired from active railroading on March 31.

The veteran railroader was presented with a certificate of service and his service button from C. A. Pinkerton, president of the railroad company, last Friday evening.

The occasion was a dinner held in his honor at the Eagle's Hall and served by the members of the Eagles and its auxiliary. An electric drill was presented to Mr. Mallon by his D. and M. co-workers. The presentation was made by Mr. Pinkerton.

Starting his railroad career when he was 21 years of age, Mr. Mallon first went to work in the Tawas shops where he learned the boilermaker's trade. He served in that capacity until 1922 when he became an electric welder.

During his many years of service, one event stands out in his memory. One day several years ago Mr. Mallon was called to Omer to perform some hurry-up repairs on a steam locomotive which was blocking traffic. It seems that a bursted flue was causing all the trouble and the only way to perform the necessary repairs was to crawl into

Mclvor Postoffice to be Discontinued April 15

According to a recent communication from the United States Post Office Department, the post office at Mclvor will be discontinued effective April 15.

According to Postmaster Lloyd J. "Bud" Newvine, his office received word of the discontinuation on March 28. He said that this was the first word that he had received on such a move.

Newvine contacted Congressman Elford A. Cederberg, last week, who said that the move was due to the government economy cut.

According to Newvine, boxholders at the Mclvor office will pick up mail at National City.

The postoffice at Mclvor was named in honor of James Mclvor, pioneer resident of that section of the county. The postoffice was operated by George A. Pringle and son, Walter H. Pringle, for approximately 50 years. Newvine purchased the store operated by Walter Pringle several years ago and was appointed postmaster.

The Mclvor postoffice has operated a rural delivery route for many years. George W. Kohn carried the mail from August 1, 1925, until 1935. The route was then handled by Frank Schneider until 1939 when Kohn again took over the carrier duties and is still on the job.

Newvine said last week that at present plans for the future were incomplete.

City Council Approves Two Building Permits Monday

The Tawas City Council approved two building permits at its regular meeting, Monday night. The council also passed a resolution which is the property to the Tawas Plating Company for construction of a new plant, in line with the city's program to induce small industries to locate in the area.

Building permits approved included an application by the Job D. LeClair for construction of a 20 by 26 foot building of steel construction on Lot 1, Block 11, Wheeler's Second Addition, at the end of Pine Street. The building will be used for curb service of ice cream and lunches.

The council approved a building permit by Paul P. Chevris of Tawas Plating Company for a 60 by 45 foot cement block building. At the same time the council passed a resolution deeding a parcel of land 112 by 150 feet in the city-owned sewer disposal plant property for the new plant. This action was a continuation of the city's program to encourage small factories to locate and create employment in this city.

The council authorized the payment of \$123.41 to Douglas Ferguson for digging a ditch on German Street, one block east of M-55.

The payment of \$18 for each member of the election board was authorized by the council.

The State of Michigan was the first to introduce roadside picnic tables to America. More than 3,000 charmingly rustic and restful roadside picnic grounds have been established in Michigan by the state highway department.

Stickers Effective for Candidates in Monday's Election

With a recount looming in several state elective positions, Michigan voters are trying to figure out today who won and lost in last Monday's spring election.

The lowly sticker came into its own in last Monday's election, in Iosco County. Sticker candidates in Oscoda, AuSable and Baldwin Townships overwhelmed primary and caucus nominated candidates and a slip candidate for clerk in Grant Township tied her opponent, Walter E. H. Stickers, former Oscoda Township supervisor, succumbed to the onslaught of stickers, and Charles Monroe was re-elected supervisor of AuSable Township by way of stickers. Other sticker candidates were successful in Oscoda, AuSable and Baldwin Townships.

In Tawas City, Whittemore and Plainfield Townships where there were opposition tickets on the ballots, Republicans dominated except in the strongly Democratic city of Whittemore. Throughout the county more than 3,200 voters participated in the election.

Two tickets on the ballot drew nearly 500 Tawas City voters to the polls at Monday's election. This was an unprecedented number for a spring election here.

Mayor George W. Myles (R) was elected by a vote of 336, his opponent, Clarence King (D) receiving 153 votes. Albert Buch, clerk; John Hosbach, treasurer, and Frank Walker, justice of the peace, were without opposition.

Clement Stephan (R) received 92 votes for First Ward supervisor and Walter Schumacher 82. For First Ward alderman, Roy Wright (R) received 88 votes and Charles Rouiller (D), 84.

In Second Ward, Fred Brabant was elected by a vote of 127 to 117. Harlan Thompson and Earl Davis (R) defeated Walter Wegner (D) by a vote of 124 to 22.

Supervisor Clarence Everett (R) received 111 votes in the Third Ward and Clarence Schumacher (D) 58. In the race for Third Ward alderman, Walter Keiser Jr. (R) received 114 votes and James Brown (D) 57.

There was the usual close vote between Republicans and Democrats in the city election at Whittemore. Russell Williams Jr. (D) defeated Walter Hickey (R) by a vote of 97 to 89. Henry Hasty for clerk and Edward Graham Jr. for assessor were without opposition. J. C. Munroe (D) received 101 votes for treasurer and Ruth Bailey (R) 86. Octave St. James (D) defeated Richard Small (R) by a vote of 37 to 28 for First Ward alderman. In the Second Ward Charles Bailey received 69 votes and Roy Leslie (R) 51 votes for alderman.

In Plainfield Township, Supervisor George Webb was elected without opposition and had been endorsed at both, Republican and Democratic caucuses. The vote for other Plainfield officers was as follows: For clerk, Gilbert Follett (R) 183, Delbert Hewitt (D) 141; treasurer, Forrest Street (D) 210, Charles Attwell Jr. (R) 126; trustees, George Lake (R) 196, Enos LaBerge (D) 120; Herman Drenberg (R) 177, Elwood McIlmurray (D) 142; highway commissioner, Dale Bradley (R) 141, Walter Belcher (D) 123; justice of the peace, Charles Thomson (R) 160, Joseph Banister (D) 162, Andrew Matthews (D) 173, Ray Parkinson (D) 145; board of review, Thurman Scofield (R) 177, Kenneth Salisbury (D) 145.

Both of Plainfield Township's special proposals won in the election. The vote was as follows: Proposal to appropriate \$1,000 per year for establishing township library, yes 182, no 130. Proposal to sell parcel of land, yes 21, no 84. (See Elections, Back Page)

Letter to a Boy Driver

This is an open letter to a boy, about 18, who forced me off the road while curving in sharply and passing me on a hill yesterday.

Dear Son: You may think you are a good driver, and perhaps you are. But I'd like you to keep in mind that most of your "skillful" driving is due to motorists.

Anybody can whip along the road as fast and as carelessly as you were going. There's no trick to that—the new cars are loaded with power and pick-up—to much so, I'm afraid.

Just remember it was my alertness that prevented an accident on the hill, not yours. And the driver who was approaching us also had to brake suddenly and swerve in order to save your life and his.

It is not your courage or dexterity that kept you alive as long as this, but the prudence and politeness of other motorists.

I wish it were possible to point out to you that your kind of driving is nothing but bad manners—it is not heroic, or adventurous or manly.

Suppose you ran down a crowded street, pushing people out of your way, knocking packages out of ladies' hands and kicking children into the gutter. What would be so heroic or manly about that?

Nothing, of course. Then why do you suppose that having 2,000 pounds of steel under you makes it any better? There's nothing to be proud of in driving fast—any goof can do that.

Suppose you beat me at the getaway, or up the hill? What does that prove? Nothing, except that the car you bought is faster. You didn't make it; it's a commercial product. Anybody can buy one like it—and anybody can drive with a maniacal disregard for safety.

So don't take pride in your deadly accomplishments. A real man is considerate and polite—and takes chances only when it counts, when his honor and conscience call out for it. On the highway, most of all, it's easy to tell the men from the boys—for the men have to save the boys from the consequences of their foolish and needless bravado.

(This letter was written by Sidney J. Harris as his syndicated column in the Detroit Free Press, and is reprinted here by permission. The Michigan Builder, Michigan District of Kiwanis International magazine.)

A New School--How Far in the Future

April's mild temperatures have produced much activity in the building construction field. Throughout the entire area new buildings, remodeling and repairing of older ones are contributing greatly to the development of the community. After looking around, the non-existence of a sign marked "New Tawas Area Junior and Senior High School—To be completed September 1956" is a shattering blow to the hopes of many residents of the Tawas Area School District.

Each passing day, week or month puts the fulfilling of these hopes farther into the future. Why the delay? There seems to be complete agreement that the need is present. To date, however, three bonding elections to finance construction of the school have been defeated.

Three sites for the construction of the school have taken up many months of valuable time with the residents of the district still facing the problem of authorizing the funds for the school building program. As you know, legally the decision on the location of the school rests with your board of education. It is a big responsibility and for that reason, the board made its original decision, the selection of the Neumann-Reinke site in Tawas Township, only after careful study supported by the opinions of qualified architects and engineers.

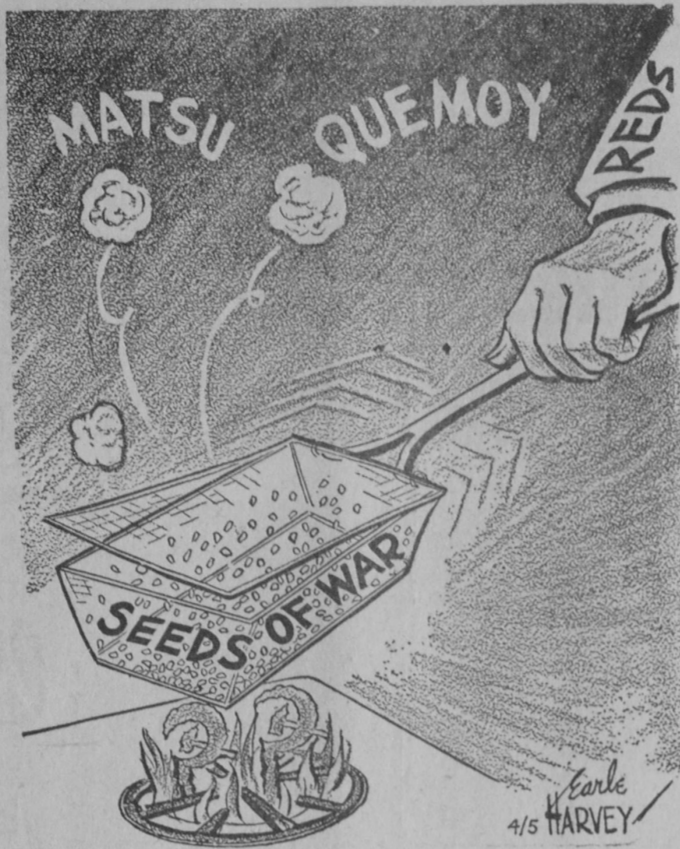

This decision in October 1953 brought opposition from a group of fairgrounds supporters. Promises of securing the federally-owned fairgrounds site which is still is not available to the district as a school site and the agitation of its supporters have hampered the efforts of all interested school building boosters. It has been clearly pointed out on many occasions and by qualified men that the site is inferior, and for that reason construction costs would be greater. In other words, the fairgrounds site would give you less school for your tax dollar than the original \$775,000 proposal for construction on the Neumann-Reinke site. This proposal has twice been defeated.

A third site, the property now owned by the school district in Tawas City and adjoining land which will be given free of charge to the school district for school construction purposes offering a \$200,000 decrease in the amount of the bond to finance a school, was also defeated. The \$200,000 reduction in the bond was possible by using the gymnasium and other facilities already on the premises. Here again, the proposal was downed by the use of misinformation, question of the district's legal formation and the threat of East Tawas to withdraw from the district.

At the present time, the fairgrounds supporters are circulating petitions to attempt to force the board of education to place the fairgrounds site before the electors of the district. Using the high rate of taxation to finance the building program in their election gibber, these same individuals are now going to try to sell you, the electors of the district, on a \$775,000 "less school for your money," adjoining an industrial area bonding election.

Wise buyers detect flaws in merchandise, no matter how gay the decorations. Would a bright coat of sentiment swerve your sound judgement in buying your child's school building program?

Something Popping?

Christian Science Services God's healing and redemptive power will be emphasized in the lesson-sermon entitled "Are Sin, Disease, and Death Real?" at Christian Science services this Sunday.

Scriptural selections will include the following from Psalms (103:2-4): "Bless the Lord, O my soul, and forget not all his benefits: Who forgiveth all thine iniquities: who healeth all thy diseases: Who redeemeth thy life from destruction; who crowneth thee with loving kindness and tender mercies."

The present availability of God's goodness and power will be brought out in readings from "Science and Health with Key to the Scriptures" by Mary Baker Eddy, including the following (472:24-30): "All reality is in God and His creation, harmonious and eternal. That which He creates is good, and He makes all that is made. Therefore the only reality of sin, sickness, or death is the awful fact that unrealities seem real to human, erring belief, until God strips off their disguise. They are not true, because they are not of God."

'55 EMTA Guidebook Ready for Distribution

The East Michigan Tourist Association announced today that its new and improved "playtime" guide book is now off the press and being distributed. This 128-page brochure is primarily distributed to prospective tourists who write in as a result of EMTA and Michigan Tourist Council advertising.

This year an additional color was added to the body of the book and all of the publicity photographs are new. The cover features a family beach scene in full color, process printed. The body contains a feature section with articles and photographs on winter sports, hunting, fishing, state parks, archery, golf courses, transportation and other information pertinent to the tourists. As usual there will be writeups devoted to each county in EMTA's area and a directory of resort accommodations giving the practical information required by tourists.

The association expects to distribute 60,000 copies of the guide book this year, an increase of 20 percent.

About Town

COMING EVENTS—
Easter Monday card party sponsored by the Tawas Hospital Auxiliary at St. Joseph Social Center. Begins at 1:00 p. m.

Friday morning the Herald office thought it was on the receiving end of an April fool's joke when a telephone caller stated that a certain organization wanted mention in the coming events column announcing a banquet at the Barnes Hotel next week. The caller thought we were playing an April fool's joke on her when we said the Barnes Hotel burned that morning. In fact she hung up saying that she would go downtown and see for herself before believing anything like that.

A special note of thanks is expressed by the Tawas City Fire Department to members of the East Tawas and Oscoda Township fire departments for assistance at the Barnes Hotel fire. Also to those who furnished hot coffee for the members at the city hall after the blaze was brought under control.

And speaking of fire departments, many commendable words were spoken about the well-trained and equipped Oscoda Fire Department. Most people take the fire departments of all of Isosco County communities for granted, that is until they are called out to fight a blaze. It might be a good time for everyone to take stock of the additional equipment needed by departments. The volunteer firemen are performing a worthwhile civic duty, at all hours of the day and night and at nominal pay.

While raking leaves in his yard Tuesday night, Frank Bertsch heard something hit his car. To his surprise he found a .38 caliber slug on the ground and a dent in the right rear fender. Police Chief George W. Ruth, who investigated the incident, said that the slug was spent by the time it struck the car. Bertsch said that he did not hear any shots fired.

Stanley Burmeister, veterans counselor, will be in the County School Superintendent's office on April 15 from 1 to 4 o'clock.

Michigan's 2,242 mile shoreline is the longest of any state. It equals the length of the Atlantic Coast from Maine to Florida.

BESSER MALE CHORUS HERE APRIL 21

The popular Besser Male Chorus will appear here again Thursday, April 21, at the Tawas City Auditorium under the auspices of the two Chapters of the Order of Eastern Star. New features have been added to the concert which have received favorable comment in recent appearances of the chorus. Tickets will go on sale this week-end.

Easter Parade Highlights OES Meeting Friday Night

At the regular meeting of Isosco Chapter, Order of Eastern Star, last Friday evening the worthy matron, Emma McCall, was presented with the traveling Osceola Fire Department. Most of the members of the Association, Mrs. Bonnie Potter of Harrisville, Mrs. Maxine George, worthy matron of Lake Huron Chapter, Harrisville, was also a guest. Visitors were present from Flint, Jackson, Tawas City and Oscoda.

An Easter parade was held after the meeting by members with homemade Easter bonnets. Mrs. Helen Hertzler at the piano played "The Easter Parade." Winners of prizes were Mrs. LeAnn Carlson for the most original and Mrs. Dorothy Harmon for the funniest bonnet. Judges were Mrs. Catherine Parker and Mrs. Ada Freeland.

Refreshments were served by the following hostesses: Mrs. Grace Miller, Mrs. Nettie Hester, Mrs. Gladys Lundy, Miss Ruby Evans and Mrs. Marion Bigelow. The serving table was decorated with Easter baskets of candy eggs.

hickory AND horsehide
by DIZZY TROUT

Although the Tigers' record in spring training games has been nothing sensational, I think fans will be pleased with this year's team.

Bucky Harris has done a lot of experimenting with the line-up in practice contests, trying to learn all about his material, but now that we have come to the regular season and the chips are down, our best players will be on the field every day.

The Tigers are essentially a young team and an exceptionally fast one. We may be a little short on power, perhaps, but I believe this will be overcome by tremendous speed on the base paths and considerable defensive ability.

You won't find a faster, better-throwing outfield in either major league. Not many balls will drop for cheap hits on Al Kaline, Bill Tuttle and the rookie, Jay Porter, nor will many base runners take liberties with them.

Better Hitting
Porter, who can really blast a ball, has added power to our team, and Al Kaline's much-improved slugging provides that much more to our potential.

Of course, we know what dependable Ray Boone can do, and with the addition of first baseman Ferris Fain the Tigers are blessed with

another consistent hitter. Finally, with our pitching apparently improved over last season, I feel that Detroit will be fighting it out with Chicago and maybe Boston for third place. I think the Tigers should beat Boston for at least fourth, for we're a sounder team than the Red Sox.

Naturally, I look for the Indians and the Yankees again to fight it out for the pennant. I pick the Indians to repeat because they look even stronger than last year. For one thing, their pitching is more stable.

Tougher Competition
The Yankees should chase them all the way to the wire, but I doubt it both teams once more will go over the 100-victory mark. Boston isn't likely again to drop 20 out of 22 games to the Indians, and Baltimore and Kansas City are not going to be such push-overs.

Incidentally, I look for Kansas City to be an improved ball club. Their move from Philadelphia should help them. Baltimore, too, seems a little stronger, but it appears that the Orioles and the Athletics still will be fighting to keep out of the cellar.

As for Washington, I expect the Nats to be giving someone a tough time for fifth place in the Hickory and Horsehide League.

LEGISLATIVE NEWS LETTER

Submitted by James P. Mielock
House of Representatives
Lansing, Michigan

Early in March, the house adopted a senate approved resolution (SCR No. 4) providing for the continuation of a legislative committee to make a state-wide comprehensive engineering and fiscal study and survey of highway needs and deficiencies of the state, to prepare a plan for providing adequate highway road and street facilities to serve the requirements of the people of the state, and to prepare a codification of the highway laws of Michigan. The resolution authorized the eight-member legislative committee to appoint a citizens' advisory panel, consisting of the state highway commissioner and 12 additional members to be appointed from the membership of the Good Roads Federation, representing highway users, farmers, road builders, highway administrators, manufacturers and material and equipment suppliers, and from among the membership of the Highway Users' Conference of Michigan and other organizations and citizens interested in highway improvement, with the limitation that not more than two members of such advisory panel could represent the same group. This week the speaker announced the committee's completion of the study started last year, reappointed the same committee from the house.

Everyone interested in good roads will be glad to know that this week a preliminary report was received from the committee created last year, stating the study was coming along on schedule and a complete report with all data would be available in September. It is believed that the final and complete report may bring with it some rather surprising facts, not only in respect to highway needs and deficiencies, but the fair and equitable apportionment of tax levies for that purpose.

It is very interesting to note that last year the State of Michigan registered nearly 2 1/2 million passenger cars and nearly 300,000 commercial vehicles besides other vehicles such as trailers, motorcycles and farm vehicles, and the total revenues were over \$2 1/2 million dollars, all of which becomes a part of the highway fund.

H. B. 65, the road construction program bill, about which much has been said recently in the press, was sent to a conference committee, today, when the speaker appointed the house conferees. The committee will attempt to compromise the differences existing between the two houses. Its ultimate fate is hard to predict at this time.

H. B. 222, to allow cities to provide in their charters that costs of installing boulevard lighting systems may be assessed without petition by property owners involved, ran into stormy weather both on G. O. and again on third reading, but was finally passed by a vote of 66 to 23.

Another measure which set off a long debate was H. B. 107, authorizing the sale of the Cadillac Square Building in Detroit, which has been made a special order on general orders for today. You may recall that in an earlier newsletter, I reported this bill would earmark the money from the sale of the building, for the purpose of constructing a justice building to house the supreme court, attorney general's offices and law library in the state building development area just west of the capitol, as well as build a governor's residence. A hot argument took place on earmarking the money, and after debate, that entire section was deleted. Proponents successfully defeated attempts to re-commit the bill, and a motion was made and carried to place it on the table.

H. B. 239, removing the requirement that applicants for Ypsilanti Normal College sign declaration of intention to teach in Michigan schools, was finally passed by a vote of 97 to 0.

Two additional members will be added to the membership of the board of control for vocational education if the senate approves H. B. 128, which the house passed and transmitted to the senate. The two extra added members would represent employer and employee interests.

The ceiling of \$2,400 a year for law clerks employed by the justices of the supreme court is removed in H. B. 170 approved by the house, thus paving the way for higher salaries for these clerks. The bill restricts the employment of a clerk to a two-year period of time, and requires that said clerks shall be graduates from a law school approved and accredited by the council of legal education of the American Bar Association.

Another controversial bill approved by the house was H. B. 185, which provided that minors under 17, charged with driving violations, could be handled in criminal courts rather than probate court. The bill allows the probate judge to waive jurisdiction to a criminal court when he felt it desirable.

H. B. 262, permitting the use in foods and beverages of non-caloric sweeteners (sodium cyclhexanesulfamate or calcium cyclhexanesulfamate or combination thereof) for diabetics, survived efforts to send the bill back to the committee, and was advanced to its final passage for tomorrow.

Dismayed when fifth grader Harold Stover showed up at school in almost freezing weather without a coat, his teacher questioned him. He told her he didn't need a coat because he was wearing nine shirts. He was, too.

Michigan was the first state to build concrete roads.

Burleigh Notes

(Too late for last week.)

A-3c Gene Bellor of Langley Air Force Base, Virginia, spent the latter part of the week with his parents, Mr. and Mrs. Orville Bellor. He has just returned from a month's stay in California. S-Sgt. William Lomason of Limestone Air Force Base, Maine, who is visiting in Flint, Donald (Ducker) Lynch of Bay City and John Bellor of Flint accompanied Gene home Thursday night.

Raymond Simons and Kenneth Biver of Saginaw called on

Estimated mileage traveled in January, the latest figure available, was 2.1 billion, a new high for that month and an increase of seven percent over January of 1954. The death rate of 6.7 per 100 million miles of travel, however, remained unchanged.

There were French explorers and fur traders in Michigan 14 years after the pilgrims landed at Plymouth Rock in 1620.

VITAL STATISTICS—The United States Public Health Service reports that the year 1954 saw the lowest death rate and the largest number of births in the nation's history. Births passed the 4,000,000 mark for the first time, with a 25.2 per 1,000 persons birth rate and infant death at an all-time low of 28.6 per 1,000 live births. The death rate from all causes in 1954 hit a record low at 9.2 per 1,000 population.

Mrs. Ulman Host to Saint's Church Circles
The Naomi and Ruth Circles of the Latter Day Saint Women's Department met at the church last Thursday evening for a joint meeting. Mrs. Irwin Ulman had charge of the devotions and program. She presented a talent show highlighted by music and singing, led by Mrs. Barbara Farrand and the younger group.

The next meeting will be held April 7 at 7:30 p. m. at the home of Mrs. Irwin Ulman.

Big news about Buick's 4-Door Riviera

THIS brand-new kind of automobile — the sensation of all the Auto Shows this year — is now rolling off the Buick assembly lines in volume numbers. That's the first news.

And the second is just as wonderful — this dramatic new model is very definitely everything that eager buyers hoped it would be.

For the 4-Door Riviera is the first "hardtop" ever available with separate doors for rear seat passengers — plus rear-compartment room big as a Buick-size family sedan.

It comes breezing in with all the low-lined sweep and wide open visibility of Buick's original 2-Door Riviera — and with luxurious new spaciousness in its sizeable and full-length 4-door body.

With windows down, no posts appear for the rear doors, and you get a completely unobstructed view at both sides.

You find rear doors are hinged at their front edges to swing wide and free, and assure easy entrance and exit.

And you'll find legroom, headroom and hiproom extra-generous both front and rear — with interiors tailored in fabrics and patterns specially reserved for the 4-Door Riviera.

Best of all, this new Buick beauty comes off the line in both the low-price SPECIAL Series and the high-powered CRANTURY Series.

So you can pick your 4-Door Riviera with the potent performance of a 188-hp or 236-hp Buick V8 engine — the swift get-away and gas saving of Variable Pitch Dynaflo* — the velvet stride of the Million Dollar Ride — the long list of Buick bonus features at no extra cost — and all at "great buy" prices that have helped move Buick into America's "Big Three" of best sellers.

But — better come see us about the 4-Door Riviera now.

With all-out production — and a prompt order — this newest excitement in cars will be yours that much sooner.

*Dynaflo Drive is standard on Roadmaster, optional at extra cost on other Series.

FARM EVENTS

By MARVIN DAVENPORT
County Agricultural Agent

Monday, April 11—Sheep Management farm visit with Graydon Blank, animal husbandry specialist from Michigan State College, 9:30 a. m., Henry Fahselt's farm, five miles west of the Tawas on M-55. Afternoon tour will start at 1:00 p. m. on Lester Robinson's farm, one mile north and one-half mile west of junction M-55-65. Other stops included.

Wednesday, April 13—Farm visits with Donald Murray, dairy extension specialist, to select bred heifers for August Dairy Cooperative sale at West Branch.

Thursday, April 14—Cooperative Extension Service Committee, plans for 1955 Spray Demonstrations.

Friday, April 15—Annual meeting of the Dairy Sales Cooperative at West Branch, 2:00 p. m.

Monday, April 18—Farm and Home Development Program, barn remodeling tour with Burt Cargill, agricultural engineer from Michigan State College. All day program.

Tuesday, April 19—Burleigh Farm Bureau Group, discussion on Isoco County Extension Service Program.

Wednesday, April 20—Reno No. 1 Farm Bureau Group, discussion on Isoco County Extension Service Program, 8:00 p. m.

Friday, April 22—4-H Club fun night at Plainfield Township Hall, 8:00 p. m.

Monday will be an all day "farm stop" tour with Graydon Blank, sheep specialist, and myself. We plan starting at Henry Fahselt's, who recently bought 25 bred ewes. Managing

the ewes at lambing time and parasite control will be discussed with Mr. Fahselt and other sheep raisers present. A letter listing all farm stops is in the hands of sheep raisers on our mailing list.

The afternoon tour will start at Lester Robinson's and includes John Cobb, G. L. Clary and Arthur Aulerich.

The tour will also offer a chance to answer questions on sheep management and how our lamb pools will be scheduled and operated.

Farm visits this last week with William White, Lyle Robinson, Lester Robinson and Henry Fahselt were chances to talk about the tour. The tour has been planned around these discussions and letters received from the sheep raisers.

Some of the farmers are getting ready for lambing. Those young lambs can get infested with parasites from the full grown sheep in the flock. Here is the way to avoid worming troubles.

Treat your ewes for worms about two weeks before the flock is turned out to pasture, providing the flock has finished lambing. Otherwise wait until the lambing season is over before treating.

It takes about 14 days to break the life cycle of the stomach worm. Do not allow ewes near the ground intended for summer pasture before these 14 days are up. Otherwise the old trouble will crop up again as the new pasture is infested with dropped eggs.

Don't neglect the phenothiazine and salt mixture. It is the basis of an effective parasite control program. This mixture is made from one pound of phenothiazine to 12 or 14 pounds of trace mineralized salt.

The mixture should be placed in boxes which protect it from the weather.

Watch lambs closely and give individual treatment for worms if indication of worms appear.

Lack of thrift and scouring are trouble signs.

Don't give up if you have been unsuccessful in getting legume stands. Drilling the legume seed in early April rather than broadcasting in March should improve your legume stands about 30 percent. The greatest improvement in stands will be on the more drouthy, less fertile soils.

A well established wheat crop gives the seeding considerable competition. Broadcasting legume seed on top of the ground is usually successful with red clover, but the seed often germinates, dries out and dies. The result—a poor seeding, especially if it is alfalfa.

Drilling the seed is much more satisfactory since the seeds fall in the disk furrow made by the drill. Drilling in early April has been especially helpful in getting good stands of alfalfa often killed by frosts when seeded in March.

So why not drill the legume seeding and apply the nitrogen to the wheat at the same time? Nitrogen doesn't help the legume but it does increase wheat yields.

Seeding nitrogen in this way permits the fertilizer to fall between the disks and the legume seeds to fall in the drill disk furrow. The separation of the seed from the band of nitrogen prevents any damage to the seed from the nitrogen.

The best to drill in April as soon as the ground is thawed and firm.

How now brown cow? Makes no difference the color as long as she produces the milk.

Clarence Carpenter, DHIA supervisor, gives us a run down on the herds and individual producers as follows:

Card of Thanks

CARD OF THANKS
We wish to take this opportunity to thank the Tawas Chamber of Commerce, the Rev. Benjamin Whitney, also all of our kind friends for the lovely cards and notes of well wishes and congratulations we received on our Golden Wedding Anniversary. It was wonderful to be remembered by so many. And we want to say "thanks again." We did so enjoy having our family down here with us and shall never forget the grand celebration we had at the Pelican Restaurant on Clearwater Beach, the wonderful gifts we received. Ask Del and Helen how they enjoyed our Florida sunshine. It won't be too long until we will be back at Jerry's Fishing-Resort when we will be glad to have you all call on us.

Clyde E. and Bertha Collier.

CARD OF THANKS
Our heartfelt thanks to all who extended comforting sympathy and help in our recent sorrow. For the beautiful service, floral offerings and other kindnesses. We are deeply grateful.

Mrs. Marie Bellon, and family. 14-1p

CARD OF THANKS
I wish to thank all of my neighbors and friends for the flowers and cards sent during my recent stay in the hospital. Also to the Rev. E. E. Bickel for his visit.

Mrs. Fred Publitz 14-1b

STATE OF MICHIGAN ORDER FOR APPEARANCE AND PUBLICATION

In the Twenty-Third Judicial Circuit, in Chancery.
Suit pending in the Circuit Court for the County of Iosco in Chancery at Tawas City, Michigan, on the 22nd day of March, A. D., 1955.

Arthur C. Allen and Charlotte B. Allen, his wife, plaintiffs, vs. Joshua S. Sadler, William Allen, George Allen and Earl Allen, and their unknown heirs, devisees, legatees, successors and assigns, defendants.
In this cause it appearing that after diligent search and inquiry to learn the place of residence of the said defendants their residence cannot be ascertained and it is not known whether said defendants or either of them are living or dead or where they are or either of them reside if living; that it cannot be ascertained where their last known place of residence was except it be Tawas City, Michigan; that process for their appearance has been duly issued and that the same could not be served by reason of their absence from the State of Michigan, therefore on motion of Wm. R. Barber, attorney for plaintiffs;

It is ordered that the said defendants enter their appearance in said cause on or before three (3) months from the date of this order and that within forty (40) days from the date hereof the plaintiffs cause this order to be published in the Tawas Herald, a newspaper published and circulated within said County, said publication to be continued once in each week for six (6) weeks in succession.

A Subscription to The Tawas Herald Does Not Cost . . . IT PAYS! HERE'S WHY!

1. BECAUSE it is prepared to report and photograph news of your community as it happens.
2. BECAUSE it is a legal medium through which your city, township and county notices, regarding things which affect your pocket-book, are published.
3. Because it keeps you posted on all official actions by your board of education, school administration; it reports plans of official bodies which have the authority to levy taxes against your home, business or industry.
4. BECAUSE The Herald is your Shopping Guide, carrying the merchandising messages of bargains offered by your local stores, which saves you time and money by providing you an opportunity to prepare your shopping list in advance.
5. Because it provides a common meeting place for every reader in your shopping area where community affairs can be discussed and ideas exchanged to benefit all.
6. BECAUSE it sponsors, supports and boosts every worthwhile community project, including those of charitable nature, giving to community leaders the aid and support which they must have in order to keep the community abreast of the times in carrying out the responsibilities of a collective or social nature.

Monday, April 11—Love District Home Demonstration Group.
Tuesday, April 12—Laidlawville Home Demonstration Group.
Tuesday, April 12—Tawas City Home Demonstration Group.
Wednesday, April 13—Reno Home Demonstration Group.
April 28, May 5, 12, 19—Cardiac Homemakers' Class.

"Living with Teen-Agers" was the subject for a meeting at Grant Township Hall on Wednesday afternoon when Mrs. Leannah K. Backus, family life specialist from Michigan State College, met with us.

Groups of young people, through questionnaires, have said that they would like to be able to talk things over with their parents, that they would like their advice especially in important matters. This does not mean constant direction and probing into details which are usually of no great importance except to the young person himself. Young people also say that they would like from their parents more trust, more interest and more respect for their own ideas.

Mrs. Backus recommends several books and pamphlets that can be helpful to families with teen-age children. If you would like to have this list, write or phone the Extension Service office, 641, and it will be sent to you.

Surely hope you read the explanatory article about the cardiac classes in last week's paper. How many persons have you already mentioned them to? With 3,299 women over age 21 in Iosco County, a goal of 35 persons for these classes should not be difficult, if you help spread the word about them around.

The title of the classes may be a little misleading because it sometimes happens that we have to "learn to take it easy" for reasons other than a heart ailment. Any homemaker who has been given a take it easy assign-

ment can profit from the instruction given about easier and quicker ways to accomplish her homemaking activities—food preparation and clean up, house-keeping, laundry and at the same time protect herself.

Preference will be given to persons enrolling who need the instruction now, but there will be room for some who want to come just because of interest in the subject.

Right now the important thing to do is enroll. That can be done either by letter or telephone (641). Just say that you wish to come for the classes and whether it is because of need to learn ways to take it easy or interest in the subject.

Do it today, before you forget. Tell your neighbors and friends so they may do it, too.

Have you become aware of the radio and television programs being conducted by extension service's new consumer information home economists?

For us in this area these stations are perhaps most available. Radio—WFDF and WTAC in Flint, also Saginaw and Bay City stations. Some have "spot" announcements, some daily, and others weekly programs. Bay City television station has a program every other Monday and each third Friday. Nancy Garber in Saginaw and Marian Kotke in Flint are the two home economists working on information to help consumers.

Do you know that the United States population increases by 7,000 persons every day? That is more than one-half the population of all Iosco County.

Turkey is in good supply for that special Easter dinner. The eight to 14 pound size will be most abundant and turkey is the best poultry buy just right now. Pork is still leader among best meat buys.

It is as far from Ironwood to Detroit as it is from Detroit to New York City. With Detroit as a center a radius that includes Ironwood, also includes Ottawa, Ontario, parts of Iowa, and Knoxville, Tennessee.

With the Iosco 4-H Clubs

By DOROTHY SCOTT

Calendar—
Thursday, April 7—4-H Club openhouse, Hale Happy Husters.
Monday, April 11—4-H Club Council.

Posture practice was a feature of the sixth 4-H Club Girl project meeting held at Mrs. Carl Schaa's on March 23. Barbara Schaa gave a demonstration on trying shoes for fit. Judy Ulman, project reporter, further explains that it is planned to have the remaining meetings at the Schaa home.

Plans are being made by a committee for this year's county dress revue event to be in June so that a delegate may be chosen to represent the county in the club week dress revue the last week of the month.

Girls in 4-H Club clothing projects are reminded that they will want to have their project finished by early June. Some new ideas will be tried for practicing the presentation of the dress revue and for judging. Knitting project members will also be invited to show their knitted articles.

Here are a few tips for clothing and knitting project members to help them prepare for the dress revue.

If you have an apron, skirt, blouse, or sweater to style, be thinking about the other garments you will choose to wear with it—those which show. They should help to make your 4-H Club garment more attractive on you by being right in color, texture and pattern.

Be sure your garments are clean and well ironed or pressed or blocked.

Check up on your "personal grooming." Clean, neatly styled hair, a clear complexion, shined shoes, and the like are important to your appearance.

Which you should choose with the type garment you will be wearing—hose or bobby socks? And what style shoe.

Do you stand tall, straight, relaxed? Why not take a little time at your next project meeting to discuss these questions and practice good posture as well as walking?

Hale Health Council Holds Special Meeting

The Hale Health Council held a special meeting April 1 to discuss plans for the open meeting to be held April 15, 8:00 p. m., at the Hale high school. Mrs. Mortenson will be asked to be master of ceremonies. Guest speaker will be the Rev. Atherton of Mt. Morris, who helped organize the Fairview Clinic, also Mr. Shantz and Mr. Eddy of Fairview. Mrs. Mortenson is to obtain a film on the organization of the Kalkaska Health Center. Several other guests will also participate.

The discussion will be whether or not "Hale wants and needs a clinic and a doctor to assist in caring for community needs."

For months the health council has been gathering information from Leana Hier, Fairview, Mio and Corunna, where clinics have been built by communities who realized its needs, and in so doing organized a board of trustees. Eventually, by effort and hard work, these communities have building worth far more than their actual cost in dollars as so much of the labor was donated. Members of the council have visited these clinics to see what they are doing. If the people are of the opinion a clinic is needed, a board of trustees will be appointed.

This meeting is a clearing house for ideas, opinions and all questions and residents of the community are invited to attend.

Electricity Can't Think But You Can!

By L. C. Meyer
Electric System Specialist
Accident Prevention Department
Employers Mutual of Wausau

A rattle snake warns his intended victim by a loud rattling of his tail coils. Unfortunately, power lines can't voice their peril. But those slender wires that blend so well into the background hold a death warrant for farm drivers who don't know, or don't watch the danger signs.

What are the signs? And what are the hazards? First of all, most overhead lines are built so that they will clear the average load. Telephone and power companies, however, cannot be expected to provide clearance for the remarkably high loads that are sometimes moved down our rural roads.

A driver whose load just touches the wire is right in the middle of a ton of dynamite! He may not know it, but his entire load and the truck itself are charged with high voltage electricity, which can't go anywhere because the rubber tires are good insulators. The minute he opens the door and steps out, however, and any part of him still has contact with the truck, the voltage is grounded—through his body. He's learned his lesson, but too late.

A second hazard involves a rider on top of a high load. The breeze feels good and the ride is exciting and chances are he isn't watching, nor even aware that his life is in danger. If he's lucky enough to escape being killed as the wire jerks him off the load, you may be sure that he'll have plenty of time to think about what he "should have done" during his long recovery.

Or consider a sagging wire. Many different things can cause an energized wire to sag dangerously low. Perhaps a pole has broken or leaned over. Perhaps the wire has broken in some distance away, causing unusual slack. Perhaps a tree limb has fallen and pulled the wires down dangerously low. Such incidents not only create the hazard of physical obstruction, but a deadly electrical hazard as well, when the low-hanging wires remain energized.

What must be done after the sagging wire is spotted? The first move, of course, must be to report it immediately to the proper authorities. Keep away from it yourself and if you must leave, place someone on guard to warn others. Some people have the dangerous idea that if they touch only one wire at a time they'll be safe. This isn't true, especially of high voltage wires.

A high load must be moved, get an accurate measurement of the height and then check your plans with the local electric system and telephone company.

New Selective Service Movie to be Released

Michigan State Headquarters of the Selective Service System at Lansing has announced the release of the new 16mm black and white selective service sound motion picture entitled "Time To Go." The film is designed primarily for the information of high school age youth who are approaching the age of liability for military service and know little or nothing about selective service or what the law requires of them. It is suitable, however, for showing to all groups who desire information on the organization and operation of the Selective Service System.

The movie has an introduction by the director of selective service, Major General Lewis B. Hershey, in which he explains the national security requirements for a peace-time draft and that the purpose of the film is to acquaint the public with our present system of selection, how it operates and the various provisions of law and their effect upon the prospective registrant. It is designed to fill a long-felt need for a means of orienting youth who are approaching the age of military liability on their duties, obligations and rights under the Selective Service Act.

A Michigan premier showing of the film has been scheduled to be held in Lansing at the Eastern High School auditorium at 10:15 a. m., Thursday, April 14. Representatives of the State Department of Public Instruction, the Michigan Secondary School Association, school and college officials and student counselors as well as high school students will attend this initial showing.

After the premiere showing, the film will be available for loan to schools and other organizations upon request. Tawas Area High School has already made application for use of this film, and any other organizations desiring it should contact the local Selective Service Office, which in Iosco County is located in Room 226, Federal Building, East Tawas. This office is open afternoons only, Monday through Friday of each week. Definite dates for showing are desired when request is made.

By agreement with the Department of the Army the selective service film, "Time To Go," has been made available for inclusion in the army's weekly television show, "The Big Picture."

Above all, make certain that no one rides on top of the load.

Whether you're a truck driver, a motorist, a Sunday stroller—low-hanging power lines offer a potential danger. Electricity can't think, but you can!

the Snapshot Guild

The traditional Easter gifts make excellent centers of attention for children's pictures.

Easter Sunday is a Day for Family Pictures

Ever the herald of Spring and the season of hope—Easter to most of us means a wonderful day when the whole family can get together in a round of happy activities. And if you feel as we do, that also means a fine time for you to have your camera ready to snap pictures that will help you relive those pleasant hours long after they are over.

Besides the Easter Parade of the family in their new Spring suits and bonnets, there is a whole parade of other picture-taking possibilities among the day's events—all of which deserve their place in any family album. First, when the youngsters wake up (it'll probably be the crack of dawn!), there's their excitement over the Easter baskets that the beautiful Bunny has left for them. Then, it's still the children's shining hour when they have their Easter-egg hunt on the lawn or in the living room—with the breathless winner getting his well-earned special prize. All these should provide natural poses and expressions without any effort on your part. No need to say "See the birdie—or the bunny" on this day! Your wide-eyed smile

will be star-performers practically any moment that you choose to snap them.

Going to church, greeting minister and friends after the service, strolling along in the colorful Easter Parade—these are more pictures for you to capture. Here Mother or Dad should step out of the role of family photographer and ask a friend or neighbor to pinch-hit, so that all the members of the family can take their rightful places in front of the camera.

After a morning full of activities, appetites are sure to be keen. But, hold everything—if you can't—until you get a picture of the family around the dinner table. All eyes are bound to be on Mother's special Easter centerpiece—whether it's her arrangement of spring flowers or a coconut-frosted cake baked in the shape of the Pascal lamb. An afternoon of visitors or visiting—and then it will be time for the very youngest members to be bundled off to bed. Don't miss taking a final picture—Little Mary or Billy clutching a large plush bunny and deep in happy dreams of a wonderful Easter.

MUST HAVE BURNING PERMIT

Do you plan on burning that open field or brush in your woodlot? Before you do you must have a burning permit, which is required by law.

The law requires a permit to burn when the ground is not covered with snow, to start or to have an open fire, except for domestic purposes, or to protect persons or property in case of fire without written permission, under Act 143, Public Acts of 1923.

Fire permits may be obtained from the Michigan Department of Conservation, United States Forest Rangers or from fire chiefs and marshals in cities and towns.

These officers are: Bert MacGregor, fire officer, telephone No. 3, East Tawas; the Hale fire tower, N. O. Sibley, and the Seven Mile Hill; F. F. Mack, telephone SE 9-734 and residence telephone SE 9-3486; State fire towers, key men, Maurice Bellville, Whittemore; Ernest Herzog, Hale; Howard Hofacer, Oscoda; Conservation Officer A. G. Leitz, East Tawas, and Jack LaFare, Oscoda.

Permits may be obtained from United States Forest Ranger C. W. Carlson and Assistant Ranger Harold Peterson of East Tawas, and the United States Forest Service fire towers.

In Tawas City, burning permits may be obtained from Fred Musolf, city fire chief.

To Aid Sending Boy to United Nations Audie Johnson Unit, American Legion Auxiliary, met Monday evening at the legion hall with a fine attendance.

During the business meeting the sum of \$50 was voted to help send a boy and girl to United Nations at New York. Plans were made to send a girl to Girls State. A report of the 10th District meeting was given by Dorothy Harmon. Plans were also made to honor Gold Star mothers at a dinner at the May meeting.

After the meeting the following members were honored as having April birthdays and were presented with gifts: Evelyn Price, Madeline Durant, Anna Siglin, Ada Freeland, Gold Star Mothers, Anna Siglin, and Ada Freeland, were presented with extra gifts by Gold Star chairman, Nettie Hester.

Refreshments were served by Nettie Hester, Marie Nash, Stella Koopke and Marie Anderson. The centerpiece was a woodland scene of rabbits and colored Easter eggs. Easter suggestions were carried out in the salad and cakes served.

Farewell gifts were presented to Mrs. Beatrice Cornett and Mrs. Mary Anschuetz.

Ten Reasons You Should Help Fight Cancer 1. American Cancer Society statistics show that more than 600 Americans die of cancer each day.

2. Cancer as a killer has risen from eighth place in 1900 to second place today.

3. An American dies of cancer every two minutes. Reduce this toll by joining the American Cancer Society Crusade to control cancer.

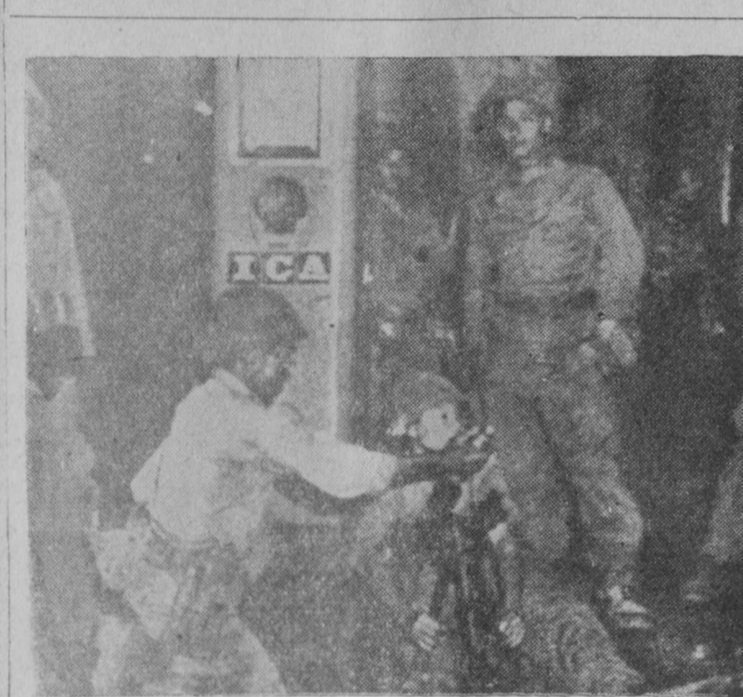

4. In the United States today cancer kills more children between the ages of three and 15 than any other disease, the American Cancer Society reports.

5. According to American Society statistics 24,000,000 Americans now living will die of cancer if present rate continues.

6. Knowledge can keep a cancer strike from becoming a cancer kill. The American Cancer Society urges everyone to join the Cancer Crusade and have a physical check-up in Cancer Control month.

Hotel Fire

(Continued from first page.) Ziehl of Tawas City, escaped with minor injuries when a burning board struck him in the head. Later, other firemen escaped injuries when an overhanging eave dropped from the two story building.

Early morning traffic of heavy trucks along US-23 was limited to one lane. Law enforcement officers from the Michigan State Police Department restored the flow of traffic before 8 o'clock.

Water was pumped on the blaze until 12:00 noon Friday. A standby crew was kept at the scene throughout the day by the Tawas City department to extinguish small blazes.

The hotel building was originally constructed before the turn of the century and was known as the Conover House. It was used as an office and residence later by Dr. H. W. Case.

Later known as the Lakeside Tavern, the hotel was owned by Merton H. Barnes, now residing in California. It was operated by Mr. and Mrs. Barnes for several years.

Owner and operator of the Barnes Cafe at Clare, Kenneth Barnes purchased the hotel early in 1941 and on May 2 of that year it was formally opened as the Barnes Hotel. During his 13 years of ownership the hotel has been remodeled and enlarged several times.

Mr. and Mrs. Anthony DeFilippi purchased the hotel and took over operation on May 1 of last year. Last fall the DeFilippi's built a new bar addition on the east side of the building and remodeled the dining room.

During the history of the Barnes Hotel, the ill-fated building has been struck by fire on several occasions, requiring major remodeling.
