## NO WINNING SIDE---

Contrary to the beliefs of some individuals, there has been no winning side—only a losing side—in this long, embittered attempt to build a junior and senior high school in the Tawas Area School District. The losing side, the position in which we have placed our children, has a three-time record. Is it not time for a change?

Throughout this struggle, the Herald has opened its columns generously to individuals who cared to express an opinion, for the publication of school board releases and for the reporting of general news items. The large number of calls, notes and oral expressions of approval of the stand of the Herald last week in reporting the news, as news should be reported, and the editorial on the school situation is proof of this fact.

Let's see to it that the children of the area get the education they deserve. It costs less in the long run. Our children, our greatest asset, belong on a winning side.

## WELCOME---

The announcement of the completion of arrangements for the establishment of the Tawas City Park dock as the home of the SS Overniter, Michigan's first flotel, is reason for local optimism for high sales in 1955 to correspond with a recent survey of a New York newspaper. This survey showed the nation's leading retailers were almost unanimous in expecting higher sales this year than in 1954.

The decision of SS Overniter, Incorporated, to locate here was fostered through the resourcefulness of William Borosch, a local broker, and the cooperation of the city council, city officials and the park board. The three-decked ship which will cater to conventions is expected to be in operation before May.

Residents of the area, who are anxiously awaiting her arrival, join us in extending a welcome to the owners of this unique enterprise. May she rest on a tide of prosperity.

Mrs. MacTavish

gets her dream house

At last she has the home of her dreams! A modern house—with a yard for the children and space for flowers. Most important to Mrs. MacTavish, though, are all those wonderful electric appliances she's always longed for! With them, she'll have the time and energy to do all the things she's always wanted to do.

It seems like luxury at first. But soon she'll think of all her electric servants as necessities. As time goes on, she'll add even more.

Stop and think, for a minute, how many electric servants you've added in the last ten years. Appliances which have made your life easier and more enjoyable. So, even though the price of electricity has gone down in that time, your electric bill may be higher. But when you think of the many things electricity does for you, twenty-four hours a day, don't you agree that it is still the biggest bargain in your family budget?

tremendous burden to the district taxpayers, merely to satisfy their own selfish aims. I cannot in any way feel this group is concerned with the school children of the area. They have defeated three bond issues placed before the voters through a campaign of misinformation and untruths confusing the true issues at hand, and ignoring the welfare of our school children to attain their own ends.

I believe the voters of the area are entitled to know how MUCH MORE will be asked to pay for a school on the fairgrounds site when the costs of buying exchange lands, needed surrounding properties, higher cost of construction, etc. are determined through qualified personnel, and not the guessimates put forth by the sidewalk engineers. Unless this is done and we taxpayers wake up, our educational program will continue to suffer.

James H. Leslie  
Tawas Township.

Editor of The Tawas Herald,

In regard to your editorial in your issue of January 29 entitled "School Problems Same as in October 1953," with your caption I can agree. However, I do not agree with your so-called facts, figures or reasoning as to why this condition still prevails.

In the first place I think it is time that you bring your facts and figures up to date. By that I mean with those put forth by the representative of the architects firm, the Superintendent, and the representative of the United States Forest Service at the special information meeting of the school board the night of January 18.

Mr. Rowson, as a representative of the architects retained by the board, made the statement that \$30,000.00 would cover the following: Any additional cost for foundations due to footings at the Nursery, fill, and a sewer lift station should be necessary. Your figures for these same items totaled \$54,250.00. By the way, I have been told authoritatively today that the City of East Tawas would build the Lift Station, should it be found necessary, free of charge.

As to the size of the Nursery site, Mr. Rowson produced a map of the nursery, and on it he projected, by means of cut-outs drawn to scale, the building, girls play field, baseball field, track and football field. When he got through he stated he considered that there was still plenty of space left for future expansion, practice fields and parking. With both these statements as to the size and costs, Superintendent R. E. Mick concurred.

It also should be noted that the board has two alternatives in the use of the Nursery. One is to use the property on both sides of Bridge Street as it is. The other is to dispose of that on the East of Bridge Street, and round out the other piece by acquiring property to the west. That east of Bridge Street is much more valuable than that west, so there is no reason why that could not be accomplished.

Another little thing is that you still quote the Neumann-Reinke site as 65 acres. Long since they have dropped the 25 acres, and all that is under option at present is 40 acres.

As to your "if" No. 1, it is well known, even to the school site committee, that the United States Forest Service has held and reserved the Nursery site for school purposes since at least 1950. The idea that it cannot be had or that it would even be difficult to obtain is ridiculous when we have statement after statement from the Forest Service that not only is it reserved, but they will cooperate in every way they can.

I think from what I have stated above that anyone with an open mind who attended the last meeting of the board and heard the discussion will agree that there is no serious objection of any kind to the Nursery site that was not 100 percent debunked.

We have contended from the start that location and transportation of the students in the Tawas was a major point in locating the school on the Nursery site. Of late we have been informed by reliable sources that the state is about to take a step that will prove we are 100 percent right here. Now they are seriously considering cutting out all payments for transportation of students who reside within a 1 1/2 mile radius of the school.

You say that the Nursery site is located in an industrial area. True it is industrial on one side, however on all others it is residential and so zoned. Compare this with the Neumann-Reinke that has no zoning protection whatsoever, nor is there any provision to provide such protection.

Another joke is the statement that the use of the Nursery for school might hinder industrial expansion. Take a look at the map. How can a mere 30 acres do this when there are thousands of acres lying north and south of the Tawas along the railroads and the highway that are available?

Bringing up this old petition which the board accepted and acted upon in good faith is ridiculous. In the first place it is a well-known fact that there were at least 300 non-registered names appearing on this list. Others are known to have signed because of misrepresentation for the purpose of the petition. The results of the election proved that this petition was reckless to say the least.

Right here I would like to state I think it would be well for the board, if the group that presented this petition should ever again present a petition or make protestation in some other form, to regard them as unreliable because of their record in this matter.

I agree with you that valuable time has been lost, that we will not be able to double the millage just because we have lost a year, and failed to have any on the

## Our READERS Say

Dear Editor,

I have a file of unpublished letters that were written by me concerning the school, at least I thought they concerned the school when I wrote them in the heat of having just read other publications.

However, upon checking through them today, I am unable to see how the publication of even one of them would have furthered our school program. They would have relieved me of pressure; they would have put me on a side, in a controversy; they would have encouraged answers and further expression of personal feelings but they would not build a school.

I realize that newspapers, to have the characteristics of such, should have an editorial space. However, it would appear to me that many words have been wasted in print and I don't know, but that if more people would file their copy prior to publication, whether it be personal opinions, editorials, legal opinions or what not, we might be further along the road toward a better school for our children. At any rate, we couldn't be further back down the road and prove a school of this is, NO SCHOOL.

As you know, there were a number of issues which have defeated the school bond each time; however, it is possible that, if all those who "would vote yes, regardless of where they put the school, even out in the Bay," together with those who "would vote yes if it were going on the Fairgrounds," would join with those who would vote their convictions, we might have a proposition which would carry.

If a proper and fair evaluation of the fairground site can be given, all the facts fairly presented and published and the tax-payers vote favorably, we can yet have a school.

But in order to do this, we must set our sights on A SCHOOL, not on who's front yard or back yard it must be in, or who's side I am on or you are on.

It is possible that the proposition as presented by the board originally would be best for us, however, we do not always take the others' words for what is best. If so, we would all drive one kind of car, wear one brand of clothes and eat one brand of food.

We should discourage memories of December 31, 1954, and prior to that time and start with January 1, 1955, as a new beginning date for our school program.

Many people feel that the proposition would carry if the Fairgrounds were involved. These people may be right. Let it be tried.

In the meantime, keep in mind that file for unpublished items. I have no doubt but that such a file can sometimes be more important than the printed matter.

Sincerely,  
Carl Babcock

The Tawas Herald  
Tawas City, Michigan

Dear Editor,  
The letter from Attorney A. J. Kinane, who represents a group of people who insist the fairgrounds property is the only school site they will support, throws a new light on the site controversy. Who does he represent? Is his client or group of there could be no objection to identifying himself or themselves. How many of these individuals who are insisting the school be built on the fairgrounds would be "No" voters to reject the last would have supplied sewer facilities to some of its most valuable property?

If the school board did secure this property, is there any guarantee that the issue would be approved? Why does this group of feel that the taxpayers of the area would be willing to pay a \$300,000.00 "Bonus" to construct school facilities on the fairground site. This proposed program offers nothing more than an educational standpoint than the previous bond issues on the Tawas City site offered except a

Divine Love's inexhaustible supply of good for man will be brought out in the lesson-sermon entitled "Love" at Christian Science services Sunday.

Selections to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy will include the following (494:10):

"Divine Love always has met and always will meet every human need. It is not well to imagine that Jesus demonstrated the divine power or for a limited period of time, since to all mankind and in every hour, divine Love supplies all good."

# Whittemore C of C Ladies Night Popular

The Whittemore Chamber of Commerce "Ladies Night" proved very popular to members and their wives. Almost perfect attendance was recorded at the January meeting held at the parish house last Thursday.

As the ladies arrived with their husbands, they were greeted by Mrs. Osinski and Mrs. Dafeo, wives of the president and secretary, who pinned a corsage on each guest. The Rev. Fr. Michael Maher gave the invocation. The roast pork dinner was served by the ladies of the Methodist Adult Fellowship.

President Stanley Osinski conducted the short business session which revealed a very successful Christmas season. The chamber of commerce has received many letters of commendation for its leadership in out-door Christmas decorations and activities. Mayor Williams gave a report of the county road work program and the Rev. Wesley Dafeo led the group in community singing and read a special tribute to the ladies.

The color film, "Outstate Michigan" furnished by the East Michigan Tourist Association was very well received. Produced by Consumers Power Company the picture takes you visiting the great rural and industrial grouping centers. You need not be a Granger to enter. For in actual tests by doctors, Lydia Pinkham's Compound brought complete relief from such distress in 3 out of 4 of the cases.

Lydia Pinkham's is modern in its action!

So get Lydia E. Pinkham's Vegetable Compound or new, improved Tablets with added iron. See if—taken through the month—it doesn't give relief from those backaches, headaches—help you feel better before and during your period!

Or—if you suffer from functional "hot flashes" or "change of life," find out how wonderful Pinkham's is for that, too!

It has a quieting effect on uterine contractions that often cause "period" pain!

soon—must reach Michigan State College by April 1.

Are any of you planning to visit the Michigan State College campus along with your husband during Farmers' Week, Monday through Friday, February 7 to 11? On Tuesday, Wednesday and Thursday there are special programs planned for the interests of women. We can tell you what is on each day in case you can go only one day and are not sure which you want it to be.

Washability is the big talking point for dacron and orlon suits and coats. If you have such a garment, are you wondering just how far to go on that "washability" feature?

To be washable a suit must have every fiber or fabric used in its physical make up as washable as the dacron and orlon suiting material. Every part must be washable so it won't shrink or stretch and won't change color. That means the pocket material, interlining, coat lining, stiffening in lapels and shoulder pad filler.

If you are sewing on these man-made fabrics, remember that pressing as you do the construction processes is always important to a professional looking garment. Orlon and dyneen require very little heat. It is best to set the indicator even lower than "saxon" or "synthetic." Construction presses are needed even though the garment itself will require little or no pressing again.

Do not press seams flat unless you are sure there will be no future changes needed, because sharp creases are hard to press out, may not press out.

When you have extra egg yolks, use them in making baked custard. Two egg yolks have the same thickening power as one whole egg. Other ways to use egg yolks are in cakes, cornstarch puddings, pie fillings, salad dressings and scrambled eggs.

The photographer had just taken a picture of an old gentleman on the latter's 98th birthday. He "thanked the oldest, saying, "I hope to be around to take your picture when you're 100."

"Why not?" the old man replied. "You look pretty healthy."

# Thieves Steal Accessories While Owners at Meeting

The spare tire, car jack and minor accessories were stolen from a car owned by Mr. and Mrs. Octave St. James while attending a meeting of the Whittemore Chamber of Commerce last week. The theft was not discovered until the next morning.

Officers from the Iosco County Sheriff's Department are investigating the theft.

The Methodist Church in the United States is building more than two churches a day on an average, in an effort to catch up on a 20 year lag occasioned by depression and war.

# FARM EVENTS

By MARVIN DAVENPORT  
County Agricultural Agent

**Calendar—**  
Wednesday, February 2—Reno Township Hall, 2:00 to 4:00 p. m.—Michigan Livestock Exchange Regional meeting, one mile north of junction M-55-85 on 65.  
Thursday, February 3—A.B.A. Board of Directors, Federal Building, East Tawas, 8:00 p. m.—Monday through Friday, February 7-11—Farmers' Week at Michigan State College.  
Tuesday, February 15—Clare Gunn, Michigan State College in Iosco County for visit with re-storators.  
Tuesday, February 22—Dr. Buford Grigsby, in Iosco County to tell about weed and brush control.

It was sheep round-up day at Hale last week. The near 100 sheep raisers present watched Seldon Harvey of the Michigan Wool Cooperative explain the various grades of fleeces he had on display. He further answered questions from the audience on the new wool support prices. Graydon Blank, sheep specialist from Michigan State College, gave a very interesting talk on "More Lambs and Wool in 1955". John Harrington of the Michigan Livestock Exchange explained the lamb marketing operation and the final report on the seven counties participating. Iosco County led the group with 533 head having been consigned in five lamb pools.

Eighty-one farm folks were the dinner guests of Armour Packing Company of Chicago and the Hale Grange. Without doubt the choice lamb contributed by Armour and Company prepared under Mrs. Mary McCellan's supervision and served by the Hale Grange was the most talked about meal I have ever attended. Can you remember any occasion where a survey was conducted on how good the meal was? This one had such a survey!

The question asked "Have you ever eaten lamb before?" received 17 "no" answers and 64 "yes." "Did you like it?" Of the 81 present who ate at the noon meal, 80 said "yes" and 1 said "no." That's striking a very high percentage.

Armour's demonstration of the various carcass grades was a top feature of the day's program. Norbert Seeley and Richard Levis, Armour Packing Company sheep buyers, explained the grades of prime, choice, good utility and cull carcasses. They pointed out the grades demanded by certain trades. In addition they explained how their company obtained lambs for the market. Mr. Levis pointed out why Armour and Company was interested in purchasing lambs from marketing pools such as ours. When they order prime or choice or good grades of live lambs they expect to receive lambs of those given grades with their respective final dressing percentages. They commended John Harrington of Michigan Livestock Exchange for his excellent job.

A one-lamb producer also came in for considerable recognition. Armour Packing Company and John Harrington pointed out the very fine job of lamb production Edward Robinson did in 1954. Robinson hit the top prime and choice grades more consistently than any other sheep raiser who sold lambs through the pool.

Lowell Schaeffer, vice president of the Northeastern Michigan Sheep Improvement and Marketing Program, acted as master of ceremonies.

With the start of the new year, it's a good time to make a profitable resolution for your dairy herd. All you have to do is weigh the milk once a month from each cow. Then by next New Year's you will know which cows made your last year happy. DHIA records show that cows producing less than 250 pounds of butterfat seldom return a profit above the cost of feed. On a milk basis you would need 7,000 pounds from Holsteins, 6,000 pounds from Brown Swiss or Ayrshires and 5,000 pounds for Jerseys and Guernseys.

Many farmers pick one or two days a month to weigh milk. If you are already following that practice, there's plenty of chance to get started. Why not pick February 15 and weigh the middle of each month after that?

D. A. Johnson, extension dairyman at Michigan State College, says that production records give a much better basis for careful feeding of concentrates.

With lower milk prices it is much more important to have some way of knowing the amount of grain to feed. There is always a tendency to over-feed the low producing animals and underfeed the high producers.

Feeding about one pound of grain for each four pounds of milk produced per day for Holsteins. Slightly larger amounts are needed for the higher testing breeds.

If you live by high principles, you won't have to tell many people.

Upon motion by Everett supported by Williams the report was accepted and adopted by the following roll call: Ayes: Oates, Bellville, White, Brabant, Burgess, Williams, Everett, Jordan, Stephan, Little, Cater, Long, Kochenderfer, Monroe, Rodman, Stickey, Webb, Werth. Nays: None.

Upon motion supported and prevailing the board recessed until 9:30 a. m. Wednesday morning.

The Board of Supervisors of the County of Iosco was called to order in continued January session at 9:30 a. m. by the chairman, who ordered roll call. The following supervisors were present: Oates, Bellville, White, Brabant, Burgess, Williams, Everett, Jordan, Stephan, Little, Cater, Long, Kochenderfer, Monroe, Rodman, Stickey, Webb, Werth. Absent: Seifert.

There were no communications. Mr. Jordan addressed the board stating that he had talked with Mr. Davenport and that Mrs. Hebert, the administrative assistant in the Extension Office, should have been raised to a salary of \$170 per month by previous directive from this board, and becoming effective on October 15, 1954. Inasmuch as Mrs. Hebert had only drawn at the rate of \$160 per month, from that time, Mr. Jordan moved that she be allowed to draw retroactive pay in the amount of \$25 covering the period October 15, 1954 through December 31, 1954. The motion was supported by Monroe, and carried upon the following roll call: Ayes: Oates, Bellville, White, Brabant, Burgess, Williams, Everett, Jordan, Stephan, Little, Cater, Long, Kochenderfer, Monroe, Rodman, Stickey, Webb, Werth. Nays: None. Absent: Seifert.

Mr. Werth addressed the board stating that Mr. Elliott, the drain commissioner, had been asked if it were possible to purchase the filing cabinet, stool, and drawing board in the drain commissioner's office. After some discussion, it was moved by Burgess, supported by Jordan, that the matter be referred to the Building Grounds and Purchasing committee. Motion carried unanimously.

Upon motion supported and prevailing, the board recessed until 9:30 p. m.

AFTERNOON SESSION Upon call to order at 1:30 p. m., Chairman Bellville ordered roll call. The same supervisors were present as at the morning session.

The clerk reported that he had called the state tax commission and found that the percentages requested were available and

would be forwarded in the near future either by mail or in person by a member of the state tax commission.

After considerable discussion on the equalization problem, it was moved by Stickey, supported by Monroe, that the clerk be instructed to call a special session of this board upon receipt of the requested percentage figures from the tax commission members. The motion carried upon the following roll call: Ayes: Oates, Burgess, Williams, Everett, Jordan, Stephan, Little, Cater, Long, Kochenderfer, Monroe, Rodman, Stickey, Webb, Werth, Nays: Bellville, White, Brabant, Absent: Seifert. Motion carried.

## Cards Win Eighth Straight Ball Game

The Whittemore Cardinals split two games with West Branch St. Joseph on the West Branch floor on Tuesday night. The Cardinal varsity won its eighth straight game with a lopsided 86-42 victory over the St. Joseph team.

Coach Dudo's Red Birds built up an early lead and the smaller St. Joseph boys were never able to match the speed and height of the visitors.

Hall chalked up a neat 36 points on 15 and 6 for the winners. Demay, with 13 points, was high for the losers.

Gilder of St. Joseph led the reserves to victory with 17 points. Worden was high for the losers with 12.
