## Large Crowds Visit Area Over Memorial Week-End

A tornado alert, issued last Saturday afternoon for Lower Michigan north to a line running across the state from Oscoda to Ludington, was called off the same evening with no twisters reported in the Iosco County area.

Heavy showers over the long holiday week-end drenched much of the Mid-West, but had no apparent effect on the annual migration of Memorial Day visitors to this northern region.

By Saturday night, steady flow of traffic followed US-23 north to vacation spots. "No Vacancy" signs were in evidence at cabin courts and motels from Tawas City to Oscoda for the first time since the traditional end of the vacation season, Labor Day, last fall.

Memorial Day programs honoring the nation's war dead were held at Tawas City, East Tawas, Whittemore, Hale and Oscoda.

## Woman Loses Watch; Police Find in Minutes

Police officers at East Tawas established a new record for finding "lost" articles at the state park this week.

A phone call from Norman Combs of Whittemore Lake on Tuesday stated that his wife had lost her wrist watch at the park on Monday. Troopers Max Waterbury and Thomas Hebert of the state police and George Duff of the East Tawas Police Department found the watch a few minutes later near a picnic table in the park.

## Dial Phones Go in Operation June 19

Work in all departments of the Michigan Bell Telephone Company this week came into closer focus toward bringing dial telephone service to East Tawas and Tawas City June 19.

Coordination of the work, and records between the plant, traffic and commercial departments of Michigan Bell moved rapidly toward the day when telephone subscribers here will be served by one of the most up-to-date communications systems in operation.

Michigan Bell installers have nearly completed the job of changing telephone instruments in readiness for dial service, while part of the central office switching equipment in the new system is already being subjected to trial tests. After complete wiring of the intricate switching apparatus, the entire system will undergo a thorough testing period before it is officially opened at 2:01 a. m., June 19.

Telephone users in the Tawas area will awaken Sunday morning to a new system whose numbers will be identified by the central office name, "P.Orest." Designed for fast, convenient local and long distance service, the system will operate on the five-number plan, tying it in with the nationwide metropolitan-type telephone network.

East Tawas and Tawas City customers will be able to dial each other directly as well as to all telephones in Oscoda, and customers in the latter exchange will dial directly to telephones in the Tawas communities.

T. C. Maher, area manager here for Michigan Bell, said a new directory reflecting the new numbers in the three communities is now being printed and will be distributed to all users just before the dial service is placed in operation. The new directory will also contain complete dialing instructions, which will augment the separate instructional pamphlet being left with customers as their instruments are modified in readiness for the conversion.

Maher said the cost of the new system is almost a half million dollars, including various facilities for improving long distance service. The cost of new central office building alone was more than \$35,000.

Besides providing the most modern local and long distance service, the new dial system will also bring improvement to rural subscribers. Maher pointed out that the number of customers on a rural line will be limited to eight.

## Services for Miss Hamilton Held Tuesday

Miss Amanda Jane Hamilton, retired school teacher and highly esteemed resident, died Saturday evening. Funeral services were held Tuesday afternoon at the East Tawas Methodist Church. She had been ill since January.

Previous to her retirement in 1937, Miss Hamilton had given distinguished service as a teacher in the Detroit Public Schools for 21 years. Born April 13, 1887, she came to East Tawas when nine years old. After graduating from the East Tawas Public Schools and the Iosco County Normal, she attended Albion College and the University of Michigan where she graduated with a Master's Degree. Entering the teaching profession, she taught in the schools of Michigan for 21 years before going to Detroit. Her first school to teach after graduating from the county normal was the Vine School on the Hemlock Road. Then followed several years of employment with C. R. Jackson on the Iosco County Gazette before going to Albion.

Keenly interested in the activities of the community, Miss Hamilton was a member of the East Tawas Methodist Church, life member of the Order of Eastern Star and past president of the Ladies Literary Club. For a number of years she had resided at the home of her niece, Mrs. Howard Hatton, in this city. Surviving are four nieces and three nephews, Mrs. Howard Hatton, Mrs. Lois Kobs, Mrs. Rozana Frank, Mrs. Mina Groesbeck, Carl Babcock, Harting Babcock and Leslie Fraser.

Funeral services were conducted by the Rev. W. A. Gregory of Tawas City. Interment was in the Greenwood Cemetery.

## IOSCO ESCAPES WITH NO SERIOUS TRAFFIC MISHAP

Traffic on US-23 resumed to normal Monday night after the long three-day Memorial week-end holiday.

The Michigan State Police Post at East Tawas reported that only eight minor property damage auto accidents were reported in this area during the four days. No injuries were involved.

The state police made a total of 81 arrests during the four days, Friday through Monday. Most of the arrests were for traffic violations.

Views of the old and new telephone buildings in East Tawas. The new building (bottom) was completed at a cost of \$35,000 and will house modern dial switching equipment worth more than a quarter million dollars. It will serve both Tawas communities with one of the most modern telephone systems in operation that will be cut into service at 2:01 a. m., June 19.

## Drive Starts to Finish Red Cross Campaign

Beginning June 1, the Iosco County Chapter of the American Red Cross is continuing its 1955 campaign for members and funds.

The chapter seeks to fill its quota of \$3,000. The fund is divided on the basis of 21 percent to the National American Red Cross and 79 percent remaining here for work in Iosco County.

The following is a list of Red Cross activities in Iosco County during 1954: Gray Ladies—Tawas Hospital.

Organized and trained by Mrs. Warner Forsyth and under the chairmanship of Mrs. C. S. Everett, volunteered and assisted a total of 1,853 hours in their valuable service to patients in the hospital.

Home Service Department—Mrs. L. G. McKay, chairman.

Gave financial assistance to 43 Iosco County families in the amount of \$2,496.95. Home service is called upon to verify military leaves involving emergency and illness cases. Two hundred fifty-four telephone and wire calls were made last year to carry out this work for the military, amounting to an expense to the chapter of \$207.29. The chapter has received letters of appreciation from the chaplain at Oscoda attesting to the valuable service the chapter has given.

First Aid Instruction—Willett Harrington, chairman.

Gave first aid instruction to 32 members of the sheriff's reserve, gave instruction to 10 in Hale, who received the certificates, instruction to 25 members of the ski patrol and Oscoda Fire Department.

Water Safety—Deloise Durant, chairman.

Ran swimming and water safety courses in East Tawas and Tawas City parks, many children.

## Tawas River Canoe Race Scheduled for June 19

Entry blanks and rules for the second annual Tawas River Canoe Race, scheduled to be held at 2:00 p. m. Sunday, June 19, are now available at the Tawas Chamber of Commerce office.

Starting at Cliff's Landing at Tawas Lake, the canoe race will end at the mouth of the Tawas River in Tawas City, a course of approximately six miles. Trophies and merchandise prizes will be awarded to the first three place winners.

The race last year, held during the Tawas City centennial celebration, was won by Steve Kolonich and Larry Kindell, a veteran canoe team from Tawas City.

## Three Youths Arrested for Possession of Vension

Three down-state youths were arrested at Hale Monday by Michigan State Police for illegal possession of vension. Arrested were James Hoehn, 19, Burt, Michigan; Earl Groulx, 18, and Jerry Groulx, 17, both of Montrose.

While two troopers from the East Tawas post were investigating a complaint at Hale they observed the three youths running their car through a stop street. After apprehending the youths they found a doe deer in the trunk of the car along with a trouble spot light and a .22 caliber rifle.

The youths readily admitted killing the deer and were turned over to Conservation Officer Arthur Leitz at Tawas.

## FOUR FLINT VISITORS RESCUED ON LAKE HURON

Quick thinking on the part of a vacationer at Greenbush and a Detroit motorist was credited with saving the lives of four Flint partygoers who were on an over-loaded boat on Lake Huron last Sunday morning.

Rescued from Lake Huron were: Joseph Grotte, 57; Margaret Grotte, 57; Walter Grotte, 28, and Sally Grotte, 21. The latter two were treated for shock at Tawas Hospital.

Traveling along US-23, 6 1/2 miles north of Oscoda, William Gustke of Detroit saw the boat overturn and the four occupants thrown into the water. He stopped at a cottage owned by Howard Long of Greenbush and reported the accident.

Jack Breen of Ferndale, who was staying at Long's cabin, took a boat out into the lake and rescued the four people. They had been in the water about one-half hour.

The victims told investigating police officers that a wave hit their 12-foot aluminum boat and it overturned about 200 yards off shore.

Mr. and Mrs. John Torck and niece, Barbara McDonald, of Detroit spent the week-end with Mr. and Mrs. O. E. McDonald.

## CORRECTION

The cancer drive collection at Hale as reported in the Herald should have been \$184.59 instead of \$134.59.

## Governor Williams Will Speak Here at State Park Dock Dedication Ceremony

Michigan's Governor G. Mennen Williams will be the principal speaker at dedication ceremonies for the new Waterways Commission dock at East Tawas Saturday, June 18.

Two days of activities are being planned by the Tawas Harbor Commission, aided by local committees. There will be entertainment preceding the dedication, followed by a banquet.

Boat races and other events are being planned for Sunday. Yachtsmen from the entire state are to be invited to take part in the boat races.

The commission has approved renting of at least 20 of the 32 boat wells at the dock to local boatmen on a seasonal basis. Present contemplated rate is \$2.00 per foot, measured by the overall length of the craft. Space will be reserved on a first-come basis.

Only requirement for leasing space is that the craft must have a 1955 inspection certificate from the coast guard and a 1955 Michigan boat license.

Applications for season boat well rental may be obtained from the dock attendants at any time. Both Joseph Fox, harbormaster, and Milton Averill, his assistant, are now on duty from 8 to 5 o'clock daily.

Water and lights at the dock have been turned on and a small truck has been ordered to carry supplies and fuel.

Dedication as a day-time weather station has been received and flags are presently being flown from the mast on the dock, which was erected several weeks ago in front of the harbor-master's quarters.

## Tri-County Nurse Group to Organize

Registered nurses from three Northeastern Michigan counties will meet Tuesday, June 7, at the Tawas Hospital to organize a district nurse's association. The meeting will start at 8:00 p. m.

The three counties which will be represented are Ogemaw, Oscoda and Iosco. The new association will meet once a month, alternating between the Tawas Hospital in Tawas City and Tolfree Memorial Hospital at West Branch.

A spokesman for the proposed organization said that there are more than 40 registered nurses in Iosco County who are eligible to join.

A preliminary organizational meeting was held a month ago at West Branch. Purpose of the group is to acquaint its members with new techniques in the nursing field and social activities. The association will be affiliated with national and international organizations. Guest speakers will be present at future meetings.

The group would like to have all registered nurses in the area attend the meeting or contact the Tawas Hospital.

Members of Iosco Chapter, Order of Eastern Star, attended Friends Night at Hale Chapter Wednesday evening. Guest officers were Mrs. Vergil Butler, associate matron, and Glenn Hughes, associate patron.

## TROUT PLANTED AT KIDS' FISHING PROJECT

Iosco Sportsmen's Club president, Dr. E. B. Cavell of Tawas City, right, looks on as Conservation Officer Arthur Leitz releases the first of 100 legal size trout in Cold Creek last Thursday at the Kids' Fishing Project, sponsored by the sportsmen's club. The project is open to all children 7 years of age and under. The fish were planted under the supervision of the conservation department's fish division, with hatcheries at Oscoda, Michigan. Others in the photo are James H. Leslie, Goyle Killey and a member of the conservation department.—Herald Photo.

## Make Preparations for Sale of Bonds

Superintendent of Schools Reynold Mick announced Wednesday that forms had arrived from the Michigan Municipal Finance Corporation for the \$775,000 bond issue for construction of the new Tawas Area Junior and Senior High School. The forms are now being processed through the school offices and the board of education.

The sale of the school bonds is the first step in preparing for the construction of the new school which voters approved at a special election two weeks ago. The last day for returning petitions for nominations of school officers in the annual school election is June 11 at 4:00 p. m., Mr. Mick reported. Petitions should be turned over to the secretary of the board of education, Walter Niles.

Two trustees will be elected from the district at large by ballot on Tuesday, July 12. Both Stuart White and Waldo Curry, incumbents, have completed their three-year terms of office and have re-qualified by petitions for re-election. The annual school meeting will be held the same evening.

## Baccalaureate Services at East Tawas Church Sunday

The Rev. Benjamin Whaley will give the baccalaureate sermon Sunday evening at the East Tawas Methodist Church for the Class of 1955, Tawas Area Schools.

The program will be as follows: Processional, "Pomp and Circumstance"; invocation, the Rev. Robert Nelson; song, "Holy, Holy, Holy," congregation; Scripture reading, the Rev. Charles E. Mercer; vocal solo, Joyce Moore; sermon, the Rev. Benjamin Whaley; song, "America the Beautiful," congregation; benediction, the Rev. Robert Nelson; recessional, "Pomp and Circumstance." The organists will be Bette Mercer and Peggy White.

Mr. and Mrs. Paul Klenow attended the graduation of their daughter, Ann, who received her degree at Aquinas College, Grand Rapids, last Sunday. The exercises were held at Eastern High School auditorium.

## RECORD TROUT TAGGED AT EAST BRANCH

Conservation Officer Arthur Leitz, left, and Edward Parker, right, are shown releasing a 32.3 inch male rainbow trout in the back waters of the More Trout, Incorporated, dam on the East Branch of the AuGres River last Friday. The big fish, which weighed 11 pounds, 14 ounces, was netted below the dam, tagged by Leitz and then released. Parker said that this was the largest male trout ever tagged by the Michigan Department of Conservation's fish department on the East Branch.—Herald Photo.

Celebrating its 20th year in business at East Tawas will be the Gould Drug Company on June 3 and 4. Pictured above are the employees of the store. ## Christian Science--

The way to healthier, happier living through spiritual understanding of God as the only real creative power will be brought out at Christian Science services this Sunday.

The lesson-sermon entitled "God the Only Cause and Creator" includes the account of Christ Jesus' healing of the centurion's servant who was "sick of the palsy, grievously tormented" (Matt. 8).

Among the correlative passages to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy is the following (231:30): "Man, governed by his Maker, having no other Mind, planted on the Evangelist's statement that 'all things were made by Him (the Word of God); and without Him was not anything made that was made; and without Him was sickness, and death.'"

The Golden Text is from Acts (4:24): "Lord, thou art God, which hast made heaven, and earth, and the sea, and all that in them is."

## New Regulations in ACP Program

Under the provisions of Section 311 (a) of the Agricultural Act of 1954, Public Law 690, 33rd Congress, approved August 28, 1954, any farmer who knowingly harvested either cotton, wheat, corn, tobacco, peanuts, or rice in excess of the 1955 acreage allotment for any of these commodities on any farm in which he had an interest as landlord, tenant, or sharecropper, would not be eligible for any federal cost-sharing under the 1955 Agricultural Conservation Program on that farm, or on any other farm in which he had an interest. This provision has become Section 348 of the Agricultural Adjustment Act of 1938, as amended.

Within the past week, the president has signed a bill passed by congress to repeal Section 348 of the Agricultural Adjustment Act of 1938, as amended. This means that compliance with acreage allotments is no longer a requirement for ACP cost-sharing under the 1955 ACP program.

Farmers may disregard their wheat acreage in connection with any ACP payment they may earn under the 1955 program. Allotments and acreages will be used only under the price support and wheat marketing quota programs.

There may be farmers who did not request cost-sharing payment due to the above provision, realizing they would not be eligible for payment. Every consideration will be given to those who still wish to file an application for cost-sharing under the ACP program, providing the practices for which they sign have not been started or already been carried out.

According to the national program, approval can only be granted for practices not yet started. Farmers wishing additional information should contact the ASC office in the Federal Building, East Tawas.

The vital and painstaking job of splicing hundreds of connections in the main cable from the new dial telephone office to serve Tawas City and East Tawas soon is being done by Michigan Bell Telephone Company Splicer Donald G. Fox of Bay City, Michigan. Bell cutover crews have been in the Tawas area for months preparing for the introduction of dial service here June 19.

## FARM EVENTS

By MARVIN DAVENPORT  
County Agricultural Agent

Thursday, June 2—Artificial Breeders Association Board of Directors, Federal Building, East Tawas, 8:00 p. m.

Tuesday, June 7—Agricultural Agency Council picnic at Corsair Park, 4:30 to 7:00 p. m., furnish your own door prize.

Friday, June 10—Antrim County, pasture and land judging, Vance farm.

Our annual visitors, the flies and mosquitoes, are with us again. I already have had requests for ways to control mosquitoes around buildings and our cattle are interested in controlling the pesky flies.

To control mosquitoes around the home use either a five percent DDT dust or a spray of this same insecticide to treat shrubbery. Get the 50 percent wettable DDT at the rate of 1 1/2 to four pounds in 100 gallons of water. (One gallon size operators use 1 1/2 to four tablespoons per gallon of water.)

Use the larger amounts when the lesser amounts fail to control mosquitoes satisfactorily. We feel the sprays are better than dusts.

Caution to flower growers—don't spray delphinium or bleeding heart.

For the control of flies on cattle there are several very effective insecticides. Methoxychlor I find has won favor with many of our cattlemen. Using it at the rate of eight pounds of the 50 percent wettable powder to 100 gallons of water is recommended. This must be applied every two or three weeks to be effective. In any case, be sure to read the label and follow the manufacturer's directions.

I've had some requests for sources of spray equipment. Some one to do custom spraying. A local dealer I contacted said he had units available at a nominal cost and if anyone wanted to rent a unit he had a power sprayer available. To do a good job on beef and dairy cattle requires a pressure sprayer.

Another new way of controlling flies around the buildings (particularly the dairy barn) has been through the use of

malathion. Sprinkle a dry ball containing malathion and sugar over the floors of the dairy barn or poultry house. I understand that such a daily treatment cuts your fly population 90 percent or more.

Our USDA has a crop reporting service, but it would be at a loss were it not for the local cooperation we have been getting. The crop reports are sent in each week to Lansing, but the information and answers to their questions comes from comments I receive from cooperators throughout the county. Dornace Bellville, Arnold Loomis, Chester Clark, Lu Hatfield, Henry Oates, Lloyd Little, Glenn Long, George Lake, Wendall Scofield, Thomas Nelkie and Howard Britt have been supplying the local information.

Don't watch those fence-rows and drainage ditches grow up all summer with scrubby trees and undesirable bushes.

You don't have to go out chopping every little while to keep trees and shrubs down. Chemical control of woody plants is the easiest method of keeping vegetation down.

There are several ways of killing undesirable trees and shrubs: Spraying the leaves, spraying chemicals on the base, and spraying stumps to prevent regrowth.

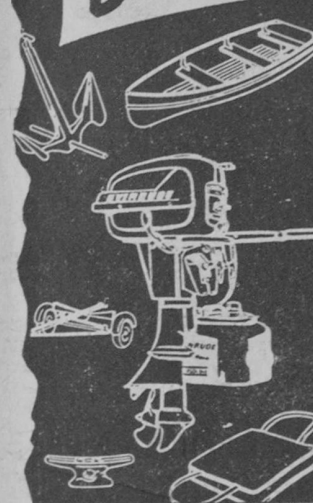

Now is the best time to use foliage sprays—especially on low brush and trees less than five feet tall. A combination containing both 2, 4-D and 2,4,5-T—sold by a number of chemical companies as "brushkiller"—is recommended. This product is used as a water spray for foliage. When basal sprays and stump treatments are to be applied, the brushkiller should be mixed in diesel oil or kerosene.

Foliage spraying can be done best between now and early August. But its most effective early in the season. Tests run by Maurice Day, forester at Michigan State College's Dummer experimental forest, showed that other methods of spraying can be done during any season.

You don't need a lot of equipment. For most farm spray operations, a knapsack sprayer is all that is necessary. On large jobs it will pay to invest in power equipment.

The current "uranium fever," which is prevalent in South Dakota, as more and more strikes are located in the Black Hills, is not new. Will G. Robinson, state historian, found a short item in a newspaper, dated July 5, 1884, which read: "What is believed to be uranium, a very rare and valuable mineral, has been discovered in the Black Hills."

# Cadillac

## Has Its Own Vocabulary!

Over the years there has come into being what amounts virtually to a special Cadillac vocabulary.

Certain words and phrases have so long and so often been used in association with Cadillac that they almost automatically call the car to mind.

When the talk is of motor cars, who can hear the word "prestige" without thinking of Cadillac?

It is likewise true of "distinction" . . . of "luxury" . . . of "pride of ownership" . . . of "satisfaction" . . . of "comfort" . . . of "long life and dependability" . . . of "beauty" . . . of "impressiveness" . . . of "value"—and of dozens of other words used to denote superiority.

In a sense, these are Cadillac words—and they actually sound strange when employed in any other connection. Even when used in the promotion of another automobile, they still suggest the "car of cars".

Naturally, words like these can become inseparable only from a product which deserves them. In the

case of Cadillac, it has taken half a century of the strictest adherence to the highest automotive standards to win this public approval.

Eternal vigilance is the price of this reputation.

Most people, of course, realize that these wonderful words apply to Cadillac. But too many have not yet personally found out why.

If you are among these—come in and see us today. We will give you the keys to a new 1955 Cadillac—and you'll know in a single hour why Cadillac has its own vocabulary.

You'll know, from personal experience, that when you speak of "prestige" and "distinction" and "luxury" and "pride of possession" and "value"—you are speaking of the Standard of the World.

We have the keys—and the car—and a real welcome waiting for you.

**New Signs to Show Health Dept. Approval**

Gold and green signs will tell tourists and vacation-bound Michigan residents which resorts and motels are "health department approved."

About 5,000 Michigan summer spots and roadside motels will be inspected by sanitarians in the next month or so, the Michigan Department of Health said today.

Dr. Albert E. Heustis, state health commissioner, said resort and motel operators work with the task force of local health department sanitarians, checking everything from room ventilation to bathing beaches.

The "HDA" signs, Dr. Heustis said, "mean that owners of the accommodations and your health department have joined to see that all possible steps are taken to safeguard health in your 'home away from home.'"

## Cecil Nelkie Elected Grand Knight, K. of C.

### St. Clair Firm Awarded Wurtsmith Contract

A contract totaling \$26,419 for new lighting facilities at the Wurtsmith Air Force Base has been awarded the Brand Electric Company of St. Clair, Michigan. The contract calls for the construction of a medium density runway lighting system and additions and modification of the taxiway lighting system at the base.

Announcement of the awarding of the contract was made by the

Office of the District Engineer, Corps of Engineers, United States Army, at the Detroit district office.

By DOROTHY SCOTT

Monday, June 6—Home Demonstration Council meets in the evening.

We venture a guess that homemakers are considering summer care of wool blankets on a day when the sunshine is warm and a gentle breeze blows.

Are you one who says, "I'm afraid to wash my good wool blankets because they may shrink." If you are, be sure to read this information carefully. Shrinkage of wool blankets from laundering in a washing machine is caused mostly by moving the fabric in the water, rather than by the water temperature.

The following method of soaking will save your blankets from shrinkage. Soak the blankets 15 to 20 minutes in warm water containing a synthetic detergent. This removes the soil, and no agitation in the washing is needed. After the soaking, spin the water off and then soak the blanket in two different rinses of clear water for five minutes. Then spin again to remove the water.

Wool blankets can be safely washed in an automatic washer if: The water does not agitate or tumble while filling with water, (or, if it does, the lid or door can be opened and the blanket added after the tub is filled); and if the washer control dial permits the cycle to be changed by hand operation at any point. But remember, not all automatic washers have these features, and so not all are suited for washing blankets.

Thinking about light conditioning your sink? Two 25 watt fluorescent tubes mounted on the ceiling above the sink will give all the light you need for preparing fruits or vegetables. Hide the lighting tubes behind a decorative eight-inch shielding board.

I just know you will like this way of poaching eggs that are oh, so tender. They are cooked using the "under the boiling point" principle. Bring salted water to the boiling point, turn off the burner and slip in the broken egg. Cover the pan and leave on the still warm burner. Allow the egg to set in the hot water until the white is coagulated and the yolk thickened, but not hard. This will take about three to five minutes, depending how cold the egg was when you slipped it into the water. No more watching to be sure and the water does not boil!

Believe it or not, 30 years ago a farm worker produced enough for himself and seven other people; now, according to United States Department of Agriculture reports, he produces enough for himself and 18 others.

Many women who are masters at mixing up cakes, muffins and biscuits in a jiffy have a success secret, they use a master mix.

A master mix is one that can be used for everything—waffles, gingerbread, coffee cake and many kinds of cookies, cakes, muffins and biscuits. Here is the recipe for this unique time-saver:

Nine cups sifted all purpose flour or 10 cups cake flour.  
One-third cup double acting baking powder.

One tablespoon salt.  
Two teaspoons cream of tartar.

One-fourth cup sugar.  
Two cups shortening.

Stir the baking powder, salt, cream of tartar and sugar into the flour and sift three times together. Cut in the fat until the mix is the consistency of cornmeal. Store the master mix in a covered container at room temperature.

In measuring master mix for use, pile it lightly into a measuring cup and level with a spatula. If you plan to use the mix for cake baking, it is best to use an emulsified fat and cake flour in the recipe.

## Iosco Invited to Area Progress Conference

Iosco County and nearby counties are being invited to send representatives to an Area Progress Conference at Cadillac, Friday, June 24. The area is the part of Michigan between the Straits of Mackinac and the Muskegon-Bay City line. The invitation is from the Northern Lower Peninsula Advisory Board of the state Economic Development Commission.

The meeting will be at the Cadillac Senior High School starting with luncheon and ending late in the afternoon. Reservations should be sent to the Cadillac Chamber of Commerce not later than June 22.

The sole purpose of the meeting is to have a thorough discussion by representatives from the entire area of recommendations the regional advisory board has just made on development problems and opportunities after nearly a year's study. Both the Straits Bridge and the St. Lawrence Seaway will figure importantly in the discussion.

Arrangements are in charge of the advisory board chairman, Charles Pinkerton, president of the Detroit and Mackinac Railway, Tawas City; the chairman of the board's special committee which directed the study, B. D. Hilly, division manager of Consumers Power Company, Traverse City; and the secretary of the Cadillac Chamber of Commerce, Fred Brooks.

A special committee of the Economic Development Commission working with its regional advisory board will take part in the meeting. The chairman is Wesley Parker, vice president of General Foods in charge of the Post plant at Battle Creek. The other members of the committee are Horace Brewer, industrial development director of Consumers Power Company, Jackson, and Paul Todd, president of Farmers Chemical Company, Kalamazoo.

Dan Gerber, president of Gerber's Baby Foods, Fremont, and chairman of the commission, will attend also.

Last July the commission asked the advisory board to study major problems and opportunities confronting the area and make recommendations for dealing with them. The commission engaged John Beukema, former Muskegon Chamber of Commerce secretary and now a member of the federal government's St. Lawrence Seaway Board, to act as consultant for the study.

In a joint meeting of the advisory board and the commission at Traverse City last week the board made the following recommendations:

1. Establish an area-wide organization to deal with common problems relating to development of the area.

2. Conduct a public relations program among the people of the area stressing the need for a balanced economy.

3. Work toward the reduction of shipping costs in the area through the removal of railroad zonal rate arbitrariness and conversion of main area highways to Class A to reduce transshipments and permit the hauling of heavier loads.

4. Provide additional sources of equity and loan capital for business ventures.

5. Assist area residents by expanding educational services, providing community colleges and making more adequate provisions for loans for home construction.

6. Make land use studies and recommendations for best use of land in the area for agricultural, recreational, commercial, residential and industrial purposes.

7. Promote the year-round attractions of the resort areas.

8. Diversify the economy through industrial development by making community surveys, setting aside industrial sites, organizing local industrial development funds, providing special assistance to local industry where needed, and soliciting new industries.

9. Conduct a promotional campaign to sell the area's advantages for resort development and industrial development.

10. Encourage extended exploration of the area's natural resources.

When Miss Dora H. Pitts, a retired Detroit school teacher died, at 83, she split her estate among her friends and four cats. She left \$100 each for her cats and the rest of her \$20,000 estate was divided among 83 friends. She had no close relatives.

## NOW! This Big Dodge V-8 priced below several small 6's!

New Dodge Coronet V-8 Club Sedan—biggest buy of '55.

This one's so hot you're going to have to see it yourself before you believe it.

It's a brand new model in the Dodge line: A big, roomy 6-passenger sedan with the dashing Lancer trim that's the high-style note for 1955! And its power plant is the Dodge aircraft-type V-8 that holds more records for performance, stamina and endurance than any standard production engine on the road.

But here's the news that will really make you sit up and take notice! This luxurious Dodge Coronet V-8 Club Sedan is priced within the range of the small car 6's. Yet it's up to 17 inches longer . . . with luxury, comfort and riding ease to match the costliest cars.

If you'd like to step up to the big-car class, yet keep costs down, come in and find out about this new Dodge Coronet V-8 Club Sedan.

Your Dodge dealer brings you the NATIONAL OPEN GOLF TOURNAMENT on television (NBC-TV) Saturday evening, June 18. Consult your newspaper for time.

## FIVE WARS SOO HAS WON

The Soo has won five wars, built cities and bridged rivers, populated highways with millions of cars, and is probably known to fewer people than is Mickey Mouse, Arthur W. Baum comments in the current (June 4) issue of The Saturday Evening Post.

This article, "World's Busiest Waterway," says the Soo, which is 100 years old this month, nevertheless has made possible our premier industrial position. It has furnished battle steel in all quarters of the globe and supplied generations of Italians with durum wheat for their macaroni. The stuff for England's bread has moved through here and the iron to build the ships that carry it.

The author finds the Soo an area of superlatives. From the world's largest fresh-water lake the vessels of the foremost inland fleet pass through the Soo as part of the greatest inland water system, he continues. Three out of four of these boats are carrying iron ore from the world's richest deposits in Minnesota. The aggregate traffic is unequaled anywhere.

Alongside the Soo, the Panama Canal is a secondary waterway, Baum states. "The great Suez itself is a lesser ditch, and a good year may see much traffic on the mighty little mile as on Panama Suez together."

An interesting sidelight is that the Soo sets its unmatched records in only eight months of each year.

Baum further observes that the Soo sustains a number of American cities which might be puny places without it. He says the group includes Chicago, Cleveland, Detroit and Pittsburgh, and many of their satellites and neighbors.

"If this is hard to believe," the author says, "look at the steel around you. Or note with what haste the Soo was wrapped in the tightest defenses of any American acreage when Japan occupied Kiska in the Aleutians, a bomber trip away."

In the last century, the Post article reports, the Soo has cleared more than 4,000,000,000 tons of cargo, one quarter of it having moved in the last 10 years.

## On Forest Fire Prevention and Conservation

The 250 Mackinac Macmen working on the D&M in Northeastern Michigan know Smokey Bear and what he stands for. They preach and practice fire prevention and conservation. They have good reasons for this...

Much of the D & M's revenue yet today comes from hauling forest products. Tourists and vacationers, who mean so much to the economic life of the region, are attracted by the appeal and recreation offered by the extensive forests.

America to support this worthy patriotic gesture by volunteering to clean all domestic American flags free from June 1 to 11 in preparation for Flag Day, June 14.

In Michigan, State Commander Kent T. Lundgren announced that appeals had gone to the state's 518 Legion posts to promote and publicize the program in their own communities.

Colorful window posters identifying dry cleaning stores as participating in the drive have been provided to all establishments by the Detrex Corporation of Detroit, a leading manufacturer of

dry cleaning equipment, which is national co-sponsor with the Legion of its "New Glory for Old Glory" flag cleaning drive.

Overwhelming response and favorable attention from the press and public during last year's project led national commander, Seaborn P. Collins, to renew and enlarge the program this year.

"We feel that the flag cleaning drive is especially timely," announced Lundgren, H. R. Nordgren, Detrex general sales manager, and L. G. Farrell, executive director of the Dry Cleaners' Institute.

## Clements-Werth

Grace Lutheran Church was the scene of a beautiful wedding last Saturday afternoon at 5 o'clock when Miss Donna Jean Werth, daughter of Mrs. Ervin Kuenzli of East Tawas, became the bride of Lawrence A. Clements, son of Mr. and Mrs. Lawrence Clements of Tawas City. The ceremony was performed by the Rev. Robert Nelson before 200 guests. Altar decorations were palms, white snapdragons and white tapers in candelabra. Vocal solos were given by Mrs. James Martin, Mrs. Charles Nash presided at the organ.

The bride, given in marriage by her step-father, Ervin Kuenzli, wore a floor length gown of white net over taffeta, nylon embroidered lace top and a fingertip illusion veil with embroidered Juliet cap secured with band of seed pearls. She carried a cascade bouquet of pink roses and lilies of the valley.

The matron of honor was Mrs. Gerald Potts of Pontiac, sister of the bride. Bridesmaids were Miss Patricia Clements, sister of the groom, and Miss Julie Werth, sister of the bride. They wore, respectively, gowns of net over taffeta with nylon embroidered lace top and a fingertip illusion veil with embroidered Juliet cap secured with band of seed pearls. The groom wore a tuxedo with a white shirt and a white bow tie.

The bride's mother wore a gown of pale blue lace over taffeta with white accessories and the mother of the groom chose black and white taffeta with white accessories. Both wore corsages of pink carnations.

Mrs. Edward Werth, grandmother of the bride, was attired in gray with corsage of white carnations. Mrs. Clements, the groom's grandmother, wore black and white with a white carnation corsage.

Out of town guests attending the wedding were from Detroit, Royal Oak, Alpena, Flint, Pontiac, Hazel Park and Farmington.

After the ceremony dinner was served at the Eagles Hall for 125 guests. A reception was held in the evening for friends and relatives.

The couple left on a trip through Eastern States. For her wedding trip the bride chose an oatmeal colored suit with navy accessories and corsage of pink roses.

They will make their home in Flint where the groom is employed by the A. C. Spark Plug Division, General Motors.

The bride's mother wore a gown of pale blue lace over taffeta with white accessories and the mother of the groom chose black and white taffeta with white accessories. Both wore corsages of pink carnations.

Mrs. Edward Werth, grandmother of the bride, was attired in gray with corsage of white carnations. Mrs. Clements, the groom's grandmother, wore black and white with a white carnation corsage.

Out of town guests attending the wedding were from Detroit, Royal Oak, Alpena, Flint, Pontiac, Hazel Park and Farmington.

After the ceremony dinner was served at the Eagles Hall for 125 guests. A reception was held in the evening for friends and relatives.

## Daniel Hayes

Funeral services were held Sunday afternoon at the Moffatt Funeral Home in East Tawas for Daniel Hayes of Tawas City, who died Thursday evening enroute to the Tawas Hospital in the car of Dr. V. W. Kershul of East Tawas. He had been stricken at his home. Dr. Kershul was called and was driving Hayes to the hospital at the time of his death.

The Rev. E. C. Castle of Bay City officiated at the services. Burial was in the Tawas City Cemetery.

Born in Port Huron June 27, 1889, Hayes had been a painter and carpenter in the Tawas area for the past 20 years. He was married to the former Dora Henninger October 21, 1913.

'Lost' Dog Stays Put Until Master Returns

After giving his dog up as being lost last week-end, Gary Hackett of the Townline Road was very surprised to find the little mongrel waiting for him at the Townline School Tuesday morning. The dog had been missing since Friday morning.

The only explanation for its disappearance was that the dog had followed Gary to school Friday morning and, according to the boy, "He didn't know his way home so he just waited for me to return to school." The dog had kept a three-day vigil on the school house lawn it was learned later.

Oasis Bar Burglarized

Burglars who broke into the Oasis Bar on M-65 in Oscoda Township early Saturday morning escaped with a varied assortment of liquors, trinkets and some small change which had been left in a cash register.

Jack Tyson, owner of the bar, told Chief Deputy Charles Kurtzrock of the Iosco Sheriff's Department and Trooper Nalbert Gerber of the Michigan State Police Post at East Tawas that he had closed the bar between 1:30 and 2 o'clock Saturday morning.

The building was entered by smashing out a window with a sledge hammer. The burglary was discovered when Tyson returned later that morning.

## Must Have Work Permits for Minors

Iosco County Superintendent of Schools Russell A. Rollin reminds all prospective employers of minors this week that they must first file an application for a work permit before a minor under 18 years of age may be employed.

"With the coming of school vacation shortly," said Mr. Rollin, "many businessmen and others will hire minors for work during the summer months." He warns that under Michigan Law, certain standards and conditions must be met before a minor may be legally employed.

"The Little Juvenile Employment Act, No. 157, Public Acts of 1947, provides that, 'No minor under 18 years of age shall be employed, permitted or suffered to work in, about, or in connection with any gainful occupation, not excepted by this act, unless and until the person employing the minor shall procure from the minor and keep on file a work permit for each minor so employed.'"

Official application forms for the approval of occupation of a minor can be obtained at Mr. Rollin's office.

The county superintendent stressed these four points for the information of the prospective employer of minors:

1. The employer is responsible for obtaining a work permit.

2. The child must appear and have in his possession an offer of employment slip.

3. The employer must have the authorization from the state labor commission to hire minors.

4. No work permit shall be issued to any minor under the age of 14 years.

The prohibited hours of employment for minors are from 3:00 p. m. to 7:00 a. m., 14 to 15 years of age; 10:00 p. m. to 6:00 a. m. for minors 16 to 17 years of age.

Employment of minors on other than the work set forth under the legal requirements could result in the revocation of permits, prosecution under the statute or double compensation in case of injury.

Additional information and the

necessary forms may be obtained from the county superintendent's office in the Iosco County Building.
