Christmas Seals, the Crippled Children drive, the March of Dimes, the Heart Fund, several other charity drives and now the annual Red Cross Drive! This series of calls upon the average citizen seems to get monotonous and we often hear complaints that one just cannot contribute to all these meritorious causes.

But when one considers our kind of government, and the fact that charity is the main financial support of humanitarian and medical efforts to eliminate these killers from the American scene, we realize it is both an honor and a privilege to work in a free country where we are merely asked to contribute to such praiseworthy causes, and not levied with an assessment by an all-powerful government.

In our free government we have the right to contribute to these charitable causes or not contribute. And every citizen should meet this responsibility and contribute to them whenever possible, appreciating the fact that this opportunity is one by which we can demonstrate both our good citizenship and the merits of our social system in the United States.

The Red Cross drive, now underway, deserves your support. Despite the fact that it is not a perfect organization, it stands for the right things in our society, kindness, emergency aid and even medical aid in epidemic or plague areas. The Red Cross is a world-wide symbol of the good neighbor spirit, which means aid for those who need it badly in times of emergency.

Citizens of this community are urged to support the Red Cross drive this year with contributions as liberal as they can afford.

Last week-end the mild weather seemed to indicate an early spring. The city public works de-partment aided the spring breakup on Dead Creek by breaking up the ice near the Elgin Hill resdence on Sixth Avenue. Within a few minutes after the crew completed its job, several large cakes of ice jammed at the Sixth Avenue Bridge. The city drag line, operated by Roland "Bud" Fahselt, then pulled a good sized tree, roots and all out of the creek. The tree had been washed lown with the rising waters.

Now is the time to observe the anniversary of the founding of the Girl Scouts and this is an rganization we can heartedly endorse. Here in Ta-was, Troop No. 1 celebrated the event with a birthday party last Wednesday at the

Legion Hall. Following are a few of the projects completed by the local troop this year: The troop made favors for hospital trays; sold Centennial buttons and turned profits of \$60 over to the Tawas City Park Fund; the girls have taken flowers to shutins; several members earned skating, swimming, life saving and tirst aid badges.

Each week there are 100 new TB cases reported in Michigan that is a recent statement from the Michigan Tuberculosis As-sociation, indicating that tuberulosis stubbornly resists control

TB can be prevented. Often, cases are found too late to prevent the infection of others. Xrays do help, take advantage of the opportunity to have one whenever you can. As the saying goes, "The life you save may be your own.'

To save steps in doing housework, group kitchen equipment and furniture according to the principle, "Things used together should be grouped together." For dishes this means keeping the dishpan, dish drainer, dish towel, dish cloth, soap and scouring powder near the place where you wash dishes.

Another suggestion for those "Quick Meals." Bake cakes in loaf pans instead of layers. This will require less time for leing and cleaning pans. You won't need to ice the cake if you sprinkle white or brown sugar chocolate, coconut, or nut meats on top before baking or when partially baked.

In the Matter of the Petition of Victor Targonski, Auditor General of the State of Michigan, for and in behalf of said State, for the sale of certain lands for taxes assessed thereon. To the Circuit Court for the County of Iosco,

There's even more to Chevrolet styling than meets the eye!

This is beauty with a bonus . . . for Chevrolet styling is designed to add safety and comfort while you drive, and to return greater value when you trade.

Truly modern lines are shaped by usefulness. You can see what we mean in the deep crystal curve of Chevrolet's Sweep-Sight windshield . . . a dramatic style note, certainly, but one that stems from the need for wider, safer vision. Or take high-set taillightsthey add to the impressive length of line . . . but

they are up where they can be seen for safety's sake. The smart louvers across the hood aren't just decoration . . . they mark the intake for the High-Level ventilation system for cleaner, fresher air. And the whole shape of the body-its lowness, the dipped belt line-is merely a reflection of a lowered center of gravity, the added stability.

This is truly functional styling that serves you better every mile, and preserves its value against the distant day when you trade. This is Body by Fisher -another Chevrolet exclusive in the low-price field. Come in and let us demonstrate that this new Chevrolet is just as exciting to drive as to look at!

April Draft Call Only 8,000

The draft call for April of 8,000 men is the lowest monthly quota announced by the defense department since selective service resumed in September 1950. The April call is 3,000 lower than the 11,000 quotas previously announced for February and March, and all of the April draftees will go into the army.
