CHRISTIAN SCIENCE

Man's God-given right to health and healing will be em-phasized at Christian Science services Sunday in the lesson-sermon on the subject of "Life." Christ Jesus' healing of the centurion's servant who "was sick, and ready to die" (Luke 7) will be among the accounts of the life-giving power of God to be read from the King James Version of the Bible.

Version of the Bible.

Correlative passages from "Science and Health with Key to the Scriptures" by Mary Baker Eddy will include the following (369:16): "Jesus never asked if the disease were acute or chronic, and he never recommended attention to laws of health never gave drugs never health, never gave drugs, never prayed to know if God were willing that a man should live. He understood man, whose Life is God, to be immortal, and knew that man has not two lives, one to be destroyed and the other to be made indestructible."

Ironing is one of those house-hold tasks we either like or dis-like and are definite about it. Whether or not you like to iron, there comes a time when you wish ironing was made easy to save time and energy. Mrs. Ruth Kettunen at Michigan State University has some suggestions for making ironing easy before you even start to actually iron.

The Grange ladies will meet at the hall on Wednesday, January 18, to make bed pads. Members are asked to bring out brucellosis, declares Marvin Davenport, Iosco County agricultural agent.

Big advantages of the milk ring test is that it can screen rapidly the herds that are to be tested for Bang's disease. The ring test spots the herds where the disease may be present. That saves time and expense in the singing of "Auld Lang Syne" But the test has limitations that makes it unsafe as a standard standard.

County Agent Breakfast for the mothers on

By Dorothy Scott

January 7, this plan is announced by food preparation project reporter, Roy Pagel, who goes on to explain that their project members will entertain the mothers at 2:30 p. m., with the Sturtevants as hosts. The menu will be applesause, muffins, omlet and coffee.

At the last project meeting Raymond and Roy Pagel demon-

strated muffin making. Roger Mott made cocoa while the other boys set the table properly. 4-H Club leaders will meet for the January meeting Monday, January 9. According to a contitution revision the next meeting will be in April because only four meetings are planned for 1956. Second Monday evenings

Brucellosis (Bang's disease) is osting the livestock farmers of Iosco County a lot of money. The disease takes a \$50,000,000 toll every year, nationally, points out Marvin Davenport, county agricultural agent.

The 222 dairy herds in Iosco County may lose as much as 22 percent of their milk production and up to a 40 percent cut in the

calf crop.

To the beef cattle farmer the loss is serious because he has to rely on the calf crop. The calf loss to the dairyman is also serious because on the average, he replaces his entire herd every four years. With such a heavy loss, he would be forced to buy

eplacements.
In addition to these drastic osses, brucellosis may caus ty in infected animals, notes George Parsons, Michigan State

University extension dairyman. The disease in a herd of livestock means a boost in veterinary bills. So it is becoming increasingly difficult for the wner of a brucellosis-infected nerd to compete successfully Harold Gould, secretary. Many operators of farms and ranches have a social security responsibility to meet for the first time this month, Paul M. first time this month, Paul M. Ellifritz, district manager of the Bay City social security office,

He was referring to employers f farm and ranch labor who eretofore have not been reaired to report wages paid to red help or remit social securtaxes on those wages because

Any farm operator who paid \$100 or more cash wages to an agricultural employee in 1955 is portant part of the regular army required to report all cash wages paid to that employee up to \$4,-200 in the year. At the same time he must send in the four percent social security taxes on those wages. The law provides for the employed them are of this for the employer's sharing of this tax with the employee. However, it is the employer's responsibilty o send the tax along with the report on wages to the district director of internal revenue. This must be done on or before Jan-uary 31, 1956.

For purposes of reporting wages and paying the social se-curity tax most farmers and anchers will use short form 943 If the employer does not have a copy of this form he can obtain
