Service Manager at McKay's Attends School

Lee Wagner, service manager at McKay Sales Company, returned Monday from a week's course at General Motors Tech, Detroit. While there, two courses were conducted by the Cadillac Motor Car Company in electrical power units and engine tune-up.

This was the first time that Wagner had attended the school. He was greatly impressed with the course and instructors.

He plans to hold a shop meeting this week to inform other members of the local dealership of the new engineering advances which have taken place in the automotive field.

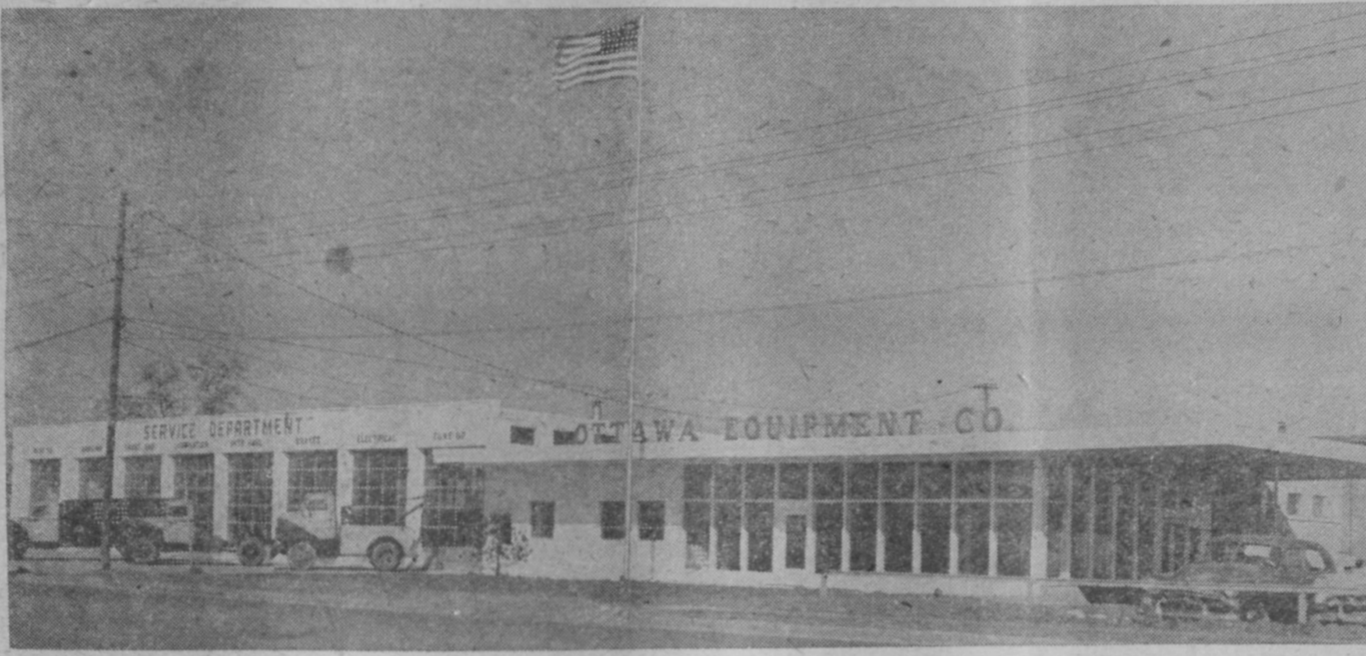

L. G. McKay Jr. said Tuesday that he is trying to work out a program for other members of the dealership to attend the school as openings become available.

Tawas City Elects Entire Republican Slate; No Upsets in County as Incumbents Return

Tuttle Defeats Watson by 2 to 1 Majority

Tawas City Republicans swept their entire slate of candidates into office over Democratic opponents in Monday's biennial spring election. Some 567 ballots were cast as interest in local contests piled up a heavier vote than was cast in last year's spring election.

Ottawa Equipment Now in New Home

OTTAWA EQUIPMENT COMPANY'S new building on US-23 in Tawas City is pictured above. The firm moved into its new quarters shortly after a fire last January destroyed the building which it had occupied. The modern building is a valuable addition to the general business district of the community. Construction was by Frosh Better Builders, West Branch and Tawas...Herald Photo.

Incumbent alderman, Earl Davis, won in the Second Ward over Joseph Nagy, 126 to 46, while Fred Braham, incumbent supervisor, defeated his opponent, Clarence Oates, 122 to 52.

The building has 15 electrically operated overhead doors and drive through type bays to enable the movement of any vehicle without disturbing the others. Each bay will handle three cars, two straight trucks, or one complete semi-trailer combination.

Ottawa was forced to move to the new building last January before it was entirely completed when a fire destroyed its old quarters. All new automotive equipment and tools were purchased following the fire, which also destroyed the Timco Manufacturing Company plant.

The new building makes an attractive addition to the business area of the Tawas. Ottawa hopes to increase the rental of vehicles and the automotive sales field, as well as, to offer better service for trucks and automotive equipment.

Two 'Sticker' Candidates Lose in County

Two slip candidates and a red-hot campaign for township supervisor featured Monday's biennial election in Isoco County. Voting was dominated by Republican candidates throughout the county, with the exception of Whittemore, where Democrats were unopposed.

City Seeks Lease for Lake Bottom

As a possible means of solving a two-year row over submerged land which adjoins the city park in Tawas City, the common council voted Monday night to take the necessary steps to obtain a lease for the property from the Michigan Conservation Department.

Grein, teacher and coach at Bay City Central High School, will be the director, and Burton Pettig, who will be graduating from George Williams College of Chicago, will be the water front director.

Boys Learn Handicraft... DAILY instruction in swimming is one of the most important features of the water front program. A beautiful sandy beach makes the whole experience a most enjoyable one.

Arenac Group Would Quit New District

A special meeting of three county boards of education, Isoco, Arenac and Ogemaw, will be held at the Isoco County Building tonight (Thursday) for a hearing on requests for transfer of property from the Whittemore-Pratt Area School District.

Two groups request transfer to Barry School District, Clayton No. 4, and a third to Arenac Eastern Agricultural School, Twining, all in Arenac County. Descriptions of the property involved are printed in a legal notice on page 10 of this newspaper.

A question has arisen of whether or not sections adjoining each other at the corner point should be deemed contiguous. The hearing will start at 8 o'clock in the county superintendent of school's office.

First Baseball Practice Set for This Sunday

Massed: "Now Let Every Tongue Adore Thee," J. S. Bach; "All Men Now Sing, Rejoice," J. S. Bach; "Let God Be Praised in Heaven Above," Melchior Wielpius.

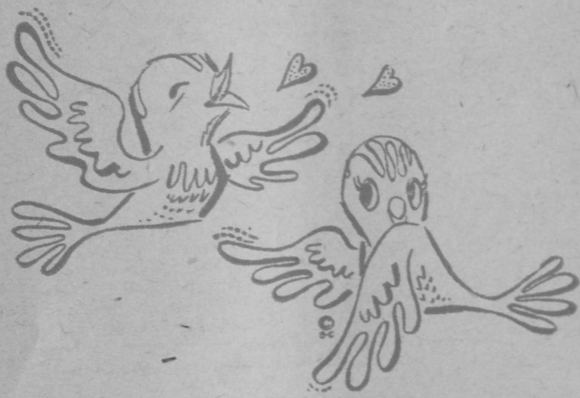

Progress Made on New Clute Addition

With favorable weather last week-end, work progressed well on the new addition to the Clute Sheet Metal building in Tawas City. Footings for the new 60 by 140 foot building were poured last fall. Block laying and masonry work started a week ago Saturday. Construction on the industrial-type building utilizes a new expansion joint pilaster using 12-inch cement blocks. The flexible joint is to prevent cracking of walls during expansion. The only other structure using this type of construction in Isoco County is the new fire hall in Osceola. When completed, it will have a clear span of 14-foot clearance.

BY DOROTHY SCOTT
Home Demonstration Agent

April 9, 16, 23—Heart of the Home classes at Hale Area School.
Thursday, April 11—Making curtains, home demonstration leaders meeting.

Home demonstration members are giving thought this month to their lesson, "The Art of Gracious Living." Here are tips on "the thing to do" with gloves.

Gloves are to wear, not carry. However, there are occasions when carrying them is necessary and here is how. Do it smartly—straighten the fingers out neatly and place the palms together. Hold them tightly between the thumb and forefinger so the cuff falls over the back of the hand and the fingers are almost hidden in your palm.

It is interesting to note that gloves were in use at least one thousand years before Christ—and were first worn by men.

Want to make your homemaking job easier? Consider two

question: Is the job necessary? How can I use my resources to make it easier? In this case the resources include the motions and body use that make up the job.

Mrs. Ruth Kettunen told her "Heart of the Home" class... "Our attention is so often called to the importance of mechanical gadgets and tools and equipment in making work easier that we sometimes overlook the fact that the homemaker may well regard herself as the most important piece of equipment. Thus the women learned about 'body mechanics.'"

Mrs. Kettunen says that all the home management department at Michigan State University whose special work is teaching homemakers how to do their work with as little strain as possible. This teaching is done in cooperation with the Michigan Heart Association and is directed especially to women who have to limit their activity.

Mrs. Kettunen says that all work requires some muscular activity and motion. The goal is to have all body segments in the right relation to the job to be done. This prevents unnecessary physical strain followed by fatigue. It is not so much what job you do, but how you go about doing it.

Good body mechanics result in the best alignment and balance of body parts with movement that is free, relaxed, well controlled. As body use improves, efficiency will increase, fatigue will be lessened.

Lesson topics for the class at Hale Area School from 10:00 to

12:00 a. m. April 9, 16 and 23 will be: Work simplification; work simplification applied to a specific job; work simplification in the laundry.

You are welcome to attend as many of these classes as possible. It is best, of course, to come for all of them, but if that is not possible, come when you can.

Do you intend to plant shrubs around your house this spring? Be sure to allow space for growing. Shrubs planted too close to buildings suffer from crowding and lack of water. A rule of thumb is to plant shrubs one and a half times as far away from the building as their mature diameter.

How big will the shrub get? A plant key prepared by Joseph Cox, Michigan State University landscape gardener will tell you. Ask us for one.

Also of much help to shrub enthusiasts would be the very new Michigan State publication titled, "Ornamental Shrubs for Michigan." It is yours for the asking.

There is a new word in the vocabulary of home owners. It is "blisteritis." You will find it breaking out on the exterior paint of houses this time of year. Let it be a warning to you if you are home shopping.

Paint blisters result when a "vapor barrier" was not built in the wall next to the interior finish. The barrier can be asphalt saturated building paper, metallic foil, or other recommended material. It prevents passage of moisture.

Blisters are caused by moisture gathering in the siding and sheathing during wet winter months. Warm days draw the water to the surface in the form of blisters.

Play safe when building a new house—install a vapor barrier. There is help for older houses. Use a vapor barrier paint applied inside the house along the outside walls. Start with two coats of paint this year, another next year, and a final one the third year—four coats of paint in all.

Curwood Memento Given to Owosso Club by Tawas Man

A rather unique feature of the 50th anniversary dinner of the Shiawassee Conservation Association was made possible by William Klinck of Tawas City, retired chief train dispatcher of the Ann Arbor Railroad and formerly of Owosso.

Klinck presented the club with a billiard cue at one time owned by the late James Oliver Curwood, famous author and leader in the fight for conservation of Michigan wild life.

A resident of Shiawassee County, Curwood has contributed much toward building the present beautiful clubhouse for the association.

In its news story of Klinck's gift to the club, the Owosso Argus-Press said, "Jim, as Curwood was known to his close friends, was also quite a pool and billiard player. He often spent hours at Gray's cigar store playing either game. Very frequently, however, he would stop playing, hang up his cue and walk out without saying a word to anyone.

In a few hours, he would be back and resume playing, without a word of explanation.

"For a long time, no one knew why he did this. But in later years he revealed it to them. While he was playing, he was also working out details of the plots of his stories. He wanted to get to his desk at his home and get them down on paper before they escaped him.

"On a visit to Owosso, Klinck dropped in at Gray's and talked with the late George Gray, the owner. The latter remarked that Curwood's cue was still in his possession, having been retired when the famous author died in 1927. Gray gave the cue to Klinck who has always treasured it."

Davenport Attends MSU Seminar

Marvin Davenport, county agricultural agent, has returned from a special seminar at Michigan State University's agricultural engineering department.

While at the seminar, Davenport received instructions in the construction techniques of building a pole barn.

During an evening practice session, he was one of a team of county agents actually constructing a pole barn.

During the two-day session he learned how clear-span buildings are made along with the important features of truss rafter construction, which makes clear-span floor plans possible—no obstructions over the entire floor plan.

At the event he received instructions in dairy layout, expansion and remodeling plans, and farm milk plants.

Special instruction was centered around other features generally needed in farm building programs.

These include: Selecting connectors, rafters, joists and beams; insulation and ventilation; poultry structures and equipment; bills of materials, and estimating building costs.

Regional Library Has 55 Viewmaster Reels

Because of the many requests from the schools of Isco and Arenac Counties for Viewmaster reels which are used by the elementary grades along with textbook lessons, Isco-Arenac Regional Library's audio-visual department announces the addition of 55 new reels to the Viewmaster collection.

Teachers are enthusiastic about these color film pictures that add so much to regular study and viewers for the reels are loaned to schools that do not have them.

Among the Viewmaster titles of the United States are: Washington, D. C.; Sun Valley, Idaho, in winter; Mount Vernon, Virginia; New York City; Zion National Park; Mackinac Island; New England States.

Titles of other countries are: Shakespeare's Stratford-on-Avon, England; Tel Aviv, Israel; Scenes of Jordan; Monaco; The Vatican State; Venice, Italy; Panama; Loch Lomond, Scotland; Switzerland, Egypt and Ireland.

SEEKS ALASKAN STATEHOOD
—E. L. Bartlett, delegate to the house of representatives from Alaska, has appeared before the senate territories subcommittee in Washington, D. C., as hearings began on Alaskan statehood. The state department urged congress to grant statehood to both Alaska and Hawaii as a boon to United States foreign policy.

Legislators who vote against principle to acquire votes are for sale if anybody happens to want to buy them.

A six-page report, the work of a student group on smoking and health, organized in June 1956 at the suggestion of the American Cancer Society, the American Heart Association and the Cancer and Heart Institution of the National Institute of Health, says that "the scientific evidence establishes beyond reasonable doubt that cigarette smoking is a causative factor in the rapidly increasing incidence of human epidermoid carcinoma of the lung." This is the most common form of lung cancer.

"NO HOME COMPLETE WITHOUT THE HERALD"

The Tawas Herald

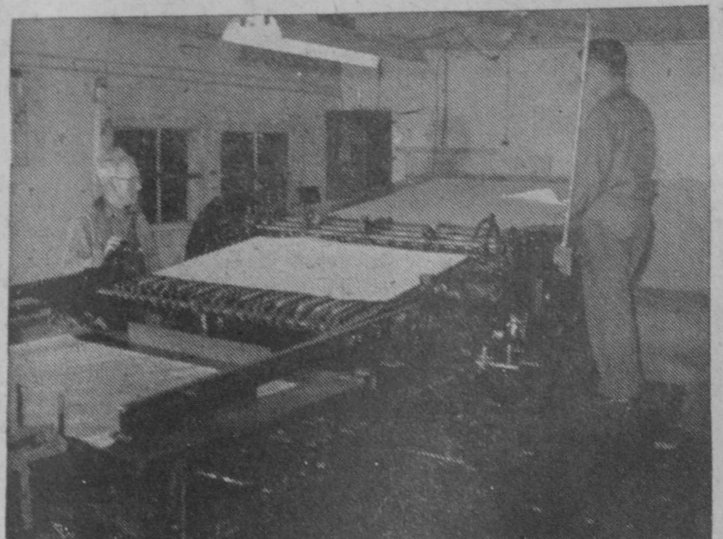

PHONE FO 2-3521
TAWAS CITY

NEW ENGRAVING EQUIPMENT was recently installed at the Herald for producing "half-tone" pictures on metal. The installation means more use of pictures with better reproduction. A front view of the copy camera is pictured here.

TWO LINOTYPES are used by the Herald to set type for the newspaper and job work. The machine in the foreground produces advertising display type while the one in the background sets body type. A full range of new matrixes has been installed.

INSTALLED LAST SUMMER at the Herald was this four-page Miehle press with attached folder. This type of equipment assures quality reproduction for weekly newspaper. Other equipment recently installed includes new metal trimmer saw, planer-router, full-page proof press and new type faces.

Mt. Morris Team Takes Top Honors in Bowling Tourney

Humphrey Construction Company, Mt. Morris, was top team winner in the annual bowling tournament which ended last week at Tawas City Recreation.

LONE FIRST PLACE winner from the Tawas area was Max Waterbury with 1900 pins in all events.—Herald Photo.

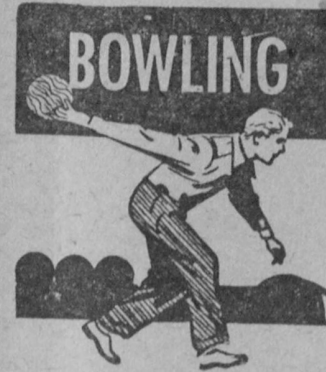

TOP TEAM WINNER in the Tawas City Annual Open Bowling Tournament was Humphrey Construction Company of Mt. Morris. Edward Sieloff, tournament manager, is shown presenting the trophy to the team at Tawas City Recreation. From left to right are: Leon Satkowiak, James Satkowiak, Calvin Humphrey, Sieloff, Gordon Gallagher and Buck Seymour.—Tawas Herald Photo.

\$3,000 made this year's tournament the richest in its history. There were 104 teams entered. Spilling 3057 pins, the top winners were 56 pins ahead of their closest competitors, Four Aces of Bay City. Other teams to share prize money in the event were as follows: Ottawa Equipment, Tawas City; Raymond's Department Store, Tawas City; Robinson Shell Service, Mt. Morris; St. James Electric, Tawas City; Rathbun's, Glennie; Lixey's Market, East Tawas; Neely's, Gladwin; Heck's Bar, Kinde.

were A. Wehner and H. Leaman, Harbor Beach, with 1256 pins. They were followed by G. Julian and D. Collier, Tawas; A. Kolberg and D. Overholt, Mt. Morris; L. Chaltrau and J. Phillips, Standish; S. Stasik and J. Herrick, Tawas; A. Charters and J. Jekel, Whittemore; F. Wright and V. Schrader, Uby; B. Lorenz and M. Curry, Tawas.

Chesney, Harbor Beach; W. Majeski, Bad Axe; G. Overholt, Mt. Morris, and J. Smith, Tawas. Max Waterbury of Tawas was the lone local bowler to take first place money. His 1900 pins in all events was high. He was followed by R. Mueller, Bay City; S. Stasik, East Tawas; J. Soltis, Mt. Morris; Standish; T. Pershon, Tawas; E. Majeski, Bad Axe; T. Pendred, Augres, and C. Brown, Tawas.

Hear Federation Report at Literary Club Meeting

The regular meeting of the East Tawas Ladies Literary Club was held Wednesday evening of this week at the club rooms with Mrs. C. S. Everett presiding.

The program consisted of a fine report of the Michigan State Federation of Women's Clubs held at Kellogg Center, East Lansing. The report was given by Mrs. T. M. O'Loughlin, first vice president of the club.

Final plans and ticket sales for the annual installation luncheon took place. The luncheon will be held at the Masonic Temple on April 24, sponsored by Iosco Chapter, Order of Eastern Star.

Hostesses were Mrs. Ernest Mielock, chairman; Mrs. Blanche Carlson, Mrs. Glenn Hughes, Dr. Zella Muilenburg and Miss Helen Applin. Mrs. Carlson presided at the serving table. The hostesses served assorted home made cookies, coffee and candies.

Table decorations were a spring centerpiece arrangement of flowers in light wood, colorful birds and green candles in wooden holders.

Five-Day Preaching Mission at Wurtsmith

The Rev. Warren J. Hartman, 34, of Dayton, Ohio, will conduct a five-day preaching mission for Protestants at the Wurtsmith Air Force Base chapel. The mission will begin Sunday, April 7, and conclude Thursday, April 11.

Dr. Hartman is the denominational director of young people's work in the Evangelical United Brethren Church.

In this capacity he has traveled widely and considerably throughout the North American continent during the past four years.

Prior to his present work he was pastor for seven years of churches in Meridian, Illinois, and St. Joseph, Missouri, in which capacities he experienced extraordinary success.

He is known interdenominationally throughout American Protestantism for his work as chairman of the youth work section in the division of Christian education in the National Council of Churches of Christ in America.

Gifts and Pledges Exceed Expectations

Tuesday evening the members of the Emanuel Lutheran School fund-raising committee met to compile the results of their recent fund-raising drive. The committee men reported that their collections of gifts and pledges exceeded their expectations.

The committee collected up to Tuesday evening \$11,956 in gifts and pledges up to Tuesday evening. Some families have not as yet been contacted and this amount should be greatly increased.

The base chaplain, Clinton R. Wendland, has invited the public to attend this special mission.

Mr. and Mrs. Keith Humbert and family of Flint spent the week-end at the home of Mrs. Humbert's parents, Mr. and Mrs. Andrew Anschutz. Dale Humbert, grandson of Mr. and Mrs. Anschutz, celebrated his 10th birthday anniversary Saturday with a party. Dale received many nice gifts.

Bright rainy days? Yes, there are such things. At least comparatively speaking, because some are much lighter than others and offer good picture-taking opportunities.

April Showers Can Bring New Picture-Taking Fun

Do you remember the old childhood rhyme, "Rain, rain, go away—Come around another day"? Well, a lot of folks we know still feel that way when a sudden shower dampens their plans for a picture-taking session. As soon as they see a few rainclouds gathering in the sky, away go their cameras and all thoughts of snapshotting.

Perch Fishing

Was Good Last Week-End

PERCH FISHING through the ice of Tawas Bay reached its peak last week-end with a number of fishermen reporting limit-catches. Fish ranging in size from 11 to 15 inches were caught by anglers who chanced the honeycombed ice. As is the case every spring, the fish move into the shallows of the bay as the ice breaks off. Pictured above are two Tawas fishermen who report-

ed unusually fine catches. At right who displays part of his catch las on a "Russian hook." At left with a 15-inch perch weighing 14 1/4 inches in length and weigh ounces.—Tawas Herald Photos.

Thursday, April 4—Hale Happy Hustlers open house, Hale Area School, 7:30 p. m.

Monday, April 8—4-H Club Leaders Council meeting.

Plans for a bake sale to be held on April 27 at Herriman's store were made at the Friendship Community 4-H Club meeting on March 20.

Reports of project work being done were given for the 10 members and one visitor present at the Floyd Harten home. An open house program will be occasion for the meeting at Allen Herriman's.

4-H gardeners are already planning "blueprints" for their gardens this summer. They have been thinking about such things as soil tests, fertilizers, variety choices and planting times.

Doubtless they have discovered there can be more than one planting time for certain vegetables. By planting more than once the garden-fresh vegetables can be served at mealtime for a longer summer period.

Radishes can be planted weekly three or four times in the spring and once or twice in the fall. Corn and beans may also be planted at least three times.

Cool-season crops such as lettuce, spinach and peas may be planted very early and again in late summer for a fall crop.

Two plantings of carrots, beets and cabbage is good planning. The first planting in spring is for summer use; the latter planting in June provides vegetables to be stored for fall and winter use.

Next week's tips for 4-H gardeners will tell how to get the most from a small garden space.

Month of April Has Many Dates of Historical Interest

The month of April has long been associated with the wars of the United States, but it also brings the anniversary of some other important events.

April is the anniversary month of the beginning and the end of the War Between the States, which began on April 12, 1861, in Charleston Harbor, and ended four years later, on April 9, at Appomattox, Virginia.

April also gives us, on the 6th, the anniversary of the declaration of war upon Germany in 1917, when the destiny of the United States carried its armed forces across the Atlantic.

In connection with other wars, it should not be overlooked that President McKinley, on April 11, 1898, called upon congress to intervene in Cuba and that war was inaugurated two weeks later by a formal declaration.

The War of the Revolution began at Lexington, Massachusetts, on April 19, 1775. Eight years later, cessation of hostilities was proclaimed to the American Army and the war came to an end.

The other anniversaries to which we refer include that of the first pony express, which moved out of the frontier settlement of St. Joseph, Missouri, on April 3, 1860. The first formally-organized government in the Northwest took place at Marietta, Ohio, on April 7, 1788, when 47 veterans of the Revolutionary War, under General Rufus Putnam, founded the city on the river bank.

Other events of considerable importance in the history of this nation occurred during April, in-

cluding the birth of Thomas Jefferson, on April 13, the death of Abraham Lincoln on the 15th, the landing of the first permanent English settlers at Jamestown, on April 26, 1607, and the inauguration of George Washington as the first president of the republic on April 30, 1789.

We Americans are entirely too careless and we pay for it with human lives.

How was your vegetable garden last year? Were you satisfied with it, or do you think it should have done better?

A sloping area or a southern exposure is best because you will be able to plant earlier.

Light soils, of course, may require more careful fertilization and watering than heavier soils.

To determine your lime and fertilizer needs, the best thing to do is make a soil test.

Stop in my office about accurate soil samples. Just a "chunk" of an frozen soil will not give you an accurate picture.

Now is the ideal time to start a control program for eliminating the European pine shoot moth in your trees.

The European pine shoot moth is a highly destructive insect that attacks pine trees.

Forest trees drink heavily of our water supplies, but still are a big factor in increasing our water reserves.

Dean Freeland of Michigan State University's forestry department. Freeland says that forests drink more water than would evaporate from bare ground.

Trees use up more of the water near the surface of the soil, but a forest allows more rainfall and melting snow to enter the soil.

Water supply is becoming a serious problem in Michigan. The population of the state is increasing, and the average amount of water used per person is increasing, too.

Our only sources of water are the rain and snow that fall from the sky. We still can not change this amount by any great degree.

Cavities in shade trees start from neglected wounds. Every broken limb and every wound that penetrates to the tree's inner bark is a potential cavity.

Broken limbs should be saved off flush or smooth with the trunk to prevent rot traveling down the stub and into the heartwood of the tree.

All wounds should be watched and repainted from time to time until they have healed over.

posed surface, prevent fungus, spores and insects from entering, and make the wound less noticeable to the eye.

Common white lead house paint of a dark color can be used. A better dressing would be an asphalt-base paint, or one of the commercially prepared tree wound paints.

All wounds should be watched and repainted from time to time until they have healed over.

IHM Altar Society
Met Last Week

The monthly meeting of the Altar Society of Immaculate Heart of Mary parish was held during the past week with Mary Bergeron presiding.

The committee for visiting the sick of the parish gave a report on their visits.

Work necessary for preparation of the school chapel into a parish hall was the topic reported on by Dorothy Crown. A group was selected to see about painting the hall; members of the committee are Mrs. Crown, Hazel Miller, Helen Schuhmacher and Mary Lazuervicz. The ladies tentatively plan card parties to finance the project.

Gladys Pavelock brought some attractive napkin samples and the altar society decided to order some of them to sell.

Following a short talk by the Rev. Fr. Joseph Castaner, Harold Pfeiffer showed his color slides which depict the building of the new Immaculate Heart of Mary Church. These informative slides also show all the special events connected with the new church.

Coffee and tea were served by Del Homberg, Clara Hoshbach and Dorothy Jacques.

LEGISLATIVE

News
Letter

From the Desk of
JAMES P. MIELOCK
State House of Representatives

From now until the end of this legislative session, we will work against deadlines as a series of automatic ones start into action with the adoption of the adjournment resolution. The house has already adopted the resolution and transmitted it to the senate where, under an agreement reached by leaders of both houses, it will be adopted Friday, April 5.

Our first deadline will be April 5—the shut off day for bills to be introduced.

We have been reminded that time is running out fast for us to get our bills in and to be certain

of having all bills prepared and ready prior to the deadline, our requests must be made to the bill drafting department of the legislative service bureau by Friday, March 29, otherwise we may run the danger of bill requests being caught in a log jam, with the possibility of not all requests being taken care of.

As a result of the warning, a deluge of bills were dropped into the legislative hopper these past few days, and no promise of any let up until the deadline.

Successful candidates for superintendent of public instruction and state highway commissioner will benefit by House Bill No. 64 and House Bill No. 65. Both bills were passed by the senate this week and returned to the house where the senate amendments were speedily, under a suspension of the rules, concurred in. This quick action was necessary if the bills were to be enrolled and gotten to the printers by Wednesday evening to insure our getting the enrolled copies to the governor's desk by Friday for his approval. It is understood he will sign the bills as soon as received on Friday so that the advance in salary will be law prior to the election on Monday. Due to a constitutional provision, it is necessary to pass the salary bills prior to the election on Monday if the successful candidates for these two posts are to receive the increased salary. Both jobs now pay \$12,500 a year. The new bills increase the salaries to \$17,500 annually.

Action has been postponed again on House Bill No. 286, a bill which would create a single executive agency to administer health affairs of the state that are now being undertaken by six separate agencies. The six agencies, which would have their functions and duties transferred and which would be abolished, are: 1. Department of Health; 2. Department of Mental Health; 3. State Tuberculosis Sanatorium Commission; 4. Office of Hospital Survey and Construction; 5. State Council of Health, and 6. The Michigan Advisory Hospital Council.

Existing statutes now administered by each of the six separate agencies would not be amended or altered by the bill; the purpose is to substitute one agency—the proposed Department of Health and Hospitals—as the executive agency to administer the provisions of existing state laws in health fields.

Make Plans for Michigan Week

"See Michigan First" and "Accent on Hospitality" will keynote the May 21 Hospitality Day program of Michigan Week, according to Frank Davis, chairman of the state tourist and resort committee of Michigan Week, and a full schedule of newspaper, television and radio material has been prepared in keeping with this theme.

Mr. Davis, who is secretary-manager of the East Michigan Tourist Association, has announced that in addition to special Michigan Week public service television film and radio scripts which will reach more than 100 television and radio stations in the state, the tourist council will gear its regular spring newspaper advertising program to tie in with the May 19-25 Michigan Week observance.

In addition, the tourist associations are purchasing 5,000 special label buttons bearing the legend, "Welcome to Michigan—May I Help You?" which have been designed to remind the state's resort operators—and Mr. and Mrs. Michigan as well—of their role as hosts to the vacationer in Michigan.

In addition to pictures and story material which have been prepared for newspapers, Michigan magazines and Sunday supplements, a series of Ripley-type "Meet Your Michigan" features will be mailed to all Michigan newspapers and 1,400 boost Michigan posters will be distributed for display by chambers of commerce, resorts and tourist groups all over the state.

The Past Noble Grands of Irene Rebekah Lodge will meet at the Odd Fellow Temple this week Thursday afternoon for a 1 o'clock pot-luck luncheon and business meeting.

Election of officers will take place at the meeting of the auxiliary of the Fraternal Order of Eagles Thursday evening. A lunch will be served after the meeting.

MEXICO CITY EXPLOSION—Rescue workers uncover the body of a person killed when a dynamite warehouse blew up in two shattering explosions in Mexico City spreading death and destruction for a quarter-mile. Several were killed and many injured in the dual explosion which left a block-buster size crater and leveled an entire city block.

Gold Star Mothers Honored Monday

A banquet was served Monday evening at Harbor Lights dining hall in honor of the Gold Star members of Audie Johnson Unit, American Legion Auxiliary. Mrs. Lois Kienholz, Gold Star chairman, was in charge of arrangements. Table decorations were a centerpiece, bouquets of white and gold flowers and yellow rose design nut cups topped with gold stars.

An appropriate invocation was given by Mrs. Evelyn Price. The welcome and introduction was made by President Mildred Gardner. Miss Helen Applin gave a tribute to mother love.

Gold Star members present were Mrs. Ada Freeland, Mrs. Marie Platte, Mrs. Anna Siglin, Mrs. Martha Kilger, Mrs. Decima Ulman and Mrs. Ruth Stump.

A meeting of the auxiliary followed at the Legion Hall.

During the business session Mrs. Phyllis Ballinger was elected second vice president of the auxiliary to fill a vacancy.

Admitted to membership were Mrs. Rosemary Look, Mrs. Vivian Nash and Mrs. Clarabelle Eckman. The unit now has 75 members which is eight over its quota.

Miss Applin gave a report of the 10th district meeting held at Mt. Pleasant.

Defense Secretary Charles E. Wilson recently directed that a 12 percent cut be made in personnel of the defense department and armed forces, to be put into effect over a year. He estimated the savings at \$30,000,000.

Mrs. Valley New Elementary Principal

Mrs. Jennie Valley, third grade teacher in the Whittemore Elementary School, was recently appointed principal of that branch of the Whittemore-Prescott Area Schools.

Mrs. Valley attended Prescott grade school, Standish High School and West Branch County Normal. She continued her education by traveling many miles and spending many of her Saturdays and summers throughout her teaching career at Ypsilanti Normal College and Central Michigan College at Mt. Pleasant, where she received her BS degree on June 1, 1942.

Her teaching career began in the Prescott school as first, second and third grade teacher, and she also taught at Palmer, Gravel Road and Nester schools in Ogemaw County. In 1925 she began teaching in Whittemore School and remained there seven years as first, second and third grade teacher. After leaving the profession for one year, she went to the National City school for three years, returning to Whittemore in 1936 as the teacher of the third and fourth grades.

About 10 years ago the increased student enrollment indicated a need for additional teachers. Mrs. Valley was assigned to the third grade and has remained in that position until the present time.

Safe-Teen Club Organized Here

A "Safe-Teen" drivers club was organized recently at Tawas Area Schools to influence and promote better driving among teen-agers and adults.

A committee of four students is working with Richard Stock, driver-training instructor, to enroll applicants as charter members.

Members of the committee are Ginger Price, Sharon Staebler, Tyler Braddock and James Curry.

Any safety minded individual of 16 years or over with an operators license in good standing, can become a Safe-Teen. Each member receives a bumper strip identification sign and a membership card. There are no dues or fees.

More than 80,000 members are enrolled nationally in the Safe-Teen team. Members will be active promoters of safe and sane driving as they can participate in "doing something" about the traffic accident rate.

Original steps to organize the local group were through the co-operation of the Iosco County Sheriff's Department and local auto insurance agencies.

Two Rogers City Men Injured in US-23 Crash
Two Rogers City men were critically injured early Tuesday morning on US-23 south of the railroad crossing near Alabaster, when the car in which they were riding went out of control, skidded about 300 feet and then rolled for 155 feet.

Injured were Louis F. Glentz, 25, driver of the car, who suffered a fractured leg, lacerations about the left eye, severe shock, head and possible internal injuries. A passenger, Leslie Bellmore, 28, received injuries to the right leg and left arm, body abrasions and possible internal injuries.

State police officers from East Tawas, who investigated the accident, said that Bellmore was sleeping in the rear seat at the time of the crash. Both men were thrown from the car as it skidded. Glentz and Bellmore were rushed to Tawas Hospital for treatment of injuries.
