

1957 Is Another Busy Year for the Iosco County Road Commission

COUNTY ROAD SUPT. John Henry, left, talks with commission employees, Harold Funk and Kenneth Blake, at the Lorenz Road project in Alabaster Township.—Tawas Herald Photos.

The year, 1957, will go down as another milestone for the Iosco County Road Commission. At present, some 19 1/4 miles of roads are under construction or will be constructed before the end of the year by county road crews and contractors.

During recent years, Iosco County has placed great emphasis on its road system with continued major reconstruction work each year, until today it has one of the finest road networks of any county its size in the state.

A \$22,022.15 black topping contract was awarded last Thursday to East Shore Asphalt and Paving Company, Alpena, for the complete seal-coating of 7.1 miles of roads in this county. Contracts already let this year amount to \$27,300.

Work on this project is expected to start immediately. According to a report made Monday by Rod Meade, county road engineer, the contract includes the following construction:

Crushed rock and seal-coat old US-23 in AuSable Township. The property owners in the township will participate in this construction.

Re-seal old US-23 from railroad tracks through the Village of AuSable; re-seal River Road from railroad tracks through Oscoda; prime and double-seal Lake to Lake Road and part of Cedar Lake Road to county line in Oscoda Township. Property owners will participate in the latter project.

The Harrisville Road, from M-

171 north to VanEtan Lake Road will receive a prime and double-seal; prime and double-seal on Hemlock Road, from Tawas River Trailer Park to East Tawas city limits; prime and double seal 1.1 miles on Sand Lake Road west and north around Sand Lake; prime and double seal Sand Lake Road between Alabaster and Turtle Roads.

Also included in the seal-coating project is one mile of old US-23 in Wilber Township. County road crews are now bringing the road to grade, constructing drains and structures. Total length of construction this year will be 1 1/2 miles.

This project is a continuation of black topping of old US-23 which has taken place during the past few years. John Henry, county road superintendent, said that when the project is completed to AuSable, expected in a year or so, it will prove to be an important link in the county road system. Today this road handles considerable traffic and with its continued improvement it will provide a means for relieving traffic congestion on "new" US-23.

Some 6.9 miles of plant mix black top roads are to be constructed in the county using federal aid funds. These include the Sand Lake Road, from M-55 to Sand Lake; Wilber Road, from M-55 to Monument Road; Prescott Road, from M-65 west to Mills Station Road.

Contract for the two miles of plant mix on Prescott Road is to

be let by the state highway department in Lansing on August 14. The remaining mile is to be let on August 15 at the county garage.

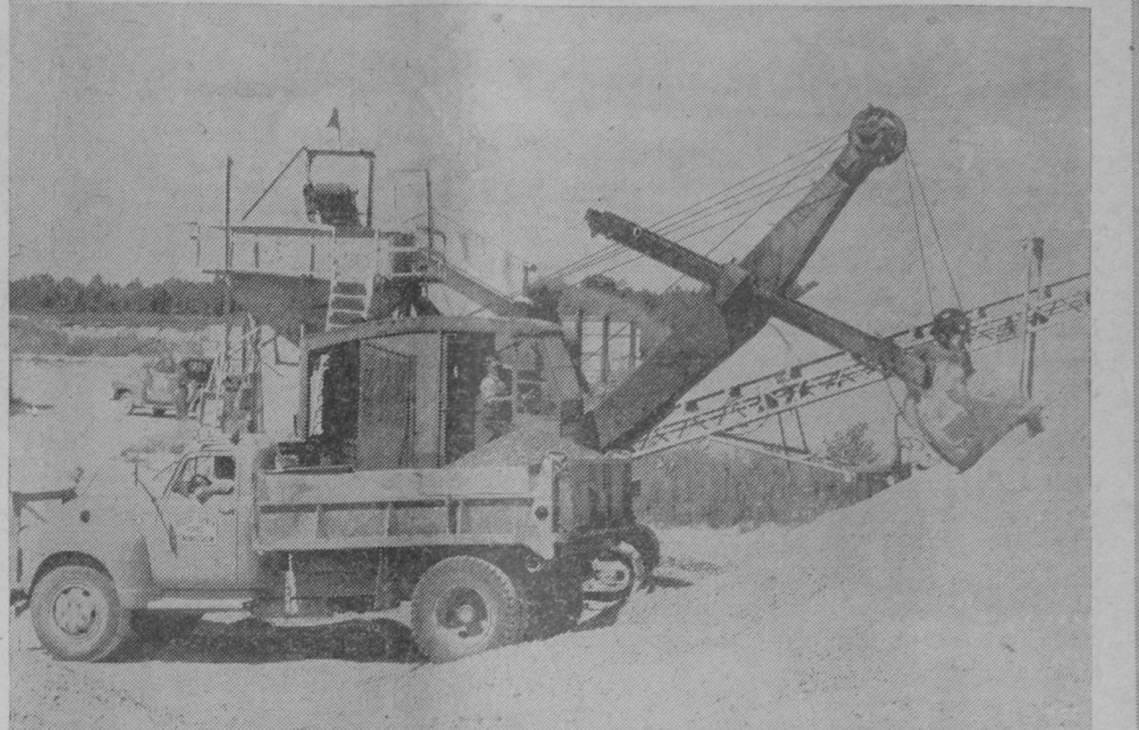

The improved Prescott Road will serve the proposed new Whittemore-Prescott Area High School which will soon be under construction of voters of that area.

Also under construction by the county road commission is the

Plank Road, from M-55 to the national forest. Some 3 1/2 miles in length, the road is being brought to grade and will receive a top of crushed rock. Contractor is Dan Thayer of Hale. This road will be black topped in the near future.

An important road now in process of planning is the stretch from Buck Horn corner to the Tawas City city limits.

The county's stone quarry, located just south of the county line and north of US-23 in Arenac County, has played an important role in road construction in the county. Constructed in the fall of 1954, some 124,896 yards of crushed rock have been produced since that time. Allen Brown, who has charge of the installation, said this week that the quarry produces from 450 to 500 yards of crushed rock a day.

National Gypsum Applies for Dock of New Design

National Gypsum Company announced Monday that it has made application to the United States Army Corps of Engineers for the approval of a newly designed dock to be installed at its shipping location south of Tawas City.

The new design, substantially higher in cost than the previously proposed peninsular-type dock, is the result of extensive engineering studies, made by the company following the governor's hearing in Lansing June 4.

At that time the company assured the governor and its opposition that extensive studies would be made to try and answer the objections raised by the neighboring property owners.

The new dock is a cellular type, located 400 feet offshore, with conveyor belt approaches over two 200-foot clear spans 14 feet above the water.

In announcing this new development, the company officials

stated that they believe this construction answers the objections raised by the neighboring lake shore property owners.

Company spokesmen reiterated the firm's policy saying that National Gypsum Company has always endeavored to be a good industrial neighbor to the communities where it operates and has taken these further steps in the revised design in support of this good neighbor policy.

Originally, the company made application with the United States Army Corps of Engineers for a 7,000-foot aerial tramway. The aerial tramway was abandoned due to engineering obstacles and the company asked permission to construct an 800-foot loading dock with turn-around basin close to shore.

Objections to the loading dock facilities were raised by property owners in the immediate area, who claimed the installation would

harm property value and would result in an inconvenience and nuisance.

Lake shore property owners formed an association and asked the Iosco County Circuit Court for an injunction to prohibit the conservation department from deeding submerged land to the company for the dock. The Michigan legislature had authorized the sale in June and the bill was signed by the governor.

Under the modified plan, the firm asks permission to:

Construct an enclosed overhead conveyor galley extending 400 feet lakeward from the shore to a proposed pier that would extend lakeward an additional 676 feet for a total of 1,051 feet.

The overhead conveyor galley would provide for a free vertical clearance of 14 feet above low water datum throughout its length, with the exception of a center support.

The pier will consist of some seven 50-foot square steel cells supporting a concrete dock at a height to provide a free vertical clearance of 10 feet above low water datum for each of its six 50-foot wide openings that will separate the pier-supporting cells.

Plans for the proposed dock are on file in the United States Army Corps of Engineers office in Detroit and at the office of the engineer in charge, Bay City Field Office, Corps of Engineers, coast guard depot, Bay City, where they may be inspected. (See dock sketch on page 5.)

Water Carnival to Wind-up Summer

Winding up the vacation season in the Tawas area this summer will be the first annual Tawas Water Carnival, to be held August 24-25.

Although a complete program is not available as yet, the event will be held on Tawas Bay between the Michigan Waterways Dock in East Tawas and the Tawas City Park dock.

The program will include a parade of boats sponsored by the Tawas Bay Yacht Club, in charge of George Baldwin, commodore.

Many other events are being planned, including water skiing exhibitions, speed boat races, skin diving exhibitions and so forth.

RETURNS FROM SCHOOL

Miss Nancy Sanders, daughter of Mr. and Mrs. Arthur Wugazer Jr., returned home August 3 from summer school at Concordia Teachers College, River Forest, Illinois. This September she will be teaching first and second grades of Trinity Lutheran School, Traverse City.

SEVEN NEW TEACHERS AT TAWAS AREA THIS YEAR

With Tawas Area Schools set to open its doors September 3 for the coming school year, Supt. Reynold Mick announced this week that five new high school faculty members signed contracts recently.

Phyllis Rhoads of Curran has been hired as the high school girls and grade health and physical education instructor. She is a 1957 graduate of Central Michigan College of Education.

Hired as the library and journalism instructor is Mrs. Ruth Hess, a graduate of Michigan State University. She replaces Mrs. Jerold McEwen, who will teach English at Saginaw.

Robert H. Crawford, a graduate of Western Michigan College, will teach 11th and 12th grade English and speech. He replaces Jerold McEwen, who has a guidance position at Saginaw. Mr. Crawford has had three years teaching experience and was a former superintendent at Pickford. He is married and has two children. He replaces Mr. Rogers.

Donald Wallace will teach junior high school studies. He is a native of Clare. He is married and has two children.

Hired as a history teacher and assistant football coach is William Tracy, a January 1957 graduate of (See TEACHERS, page 8.)

Work Starts Saturday on Athletic Field

Work will start at 8 o'clock Saturday morning on the new athletic field at the Tawas Area High School. It is expected that enough clay will be hauled in one day to construct a base for the field.

Some 10 or more donated trucks have been lined-up for the project by the Tawas Area Athletic Boosters Club. The field will require about 150 five-yard loads of clay.

A boosters club spokesman said Wednesday that anyone else wishing to volunteer a truck for Saturday's project is more than welcome.

Three bids on the lighting equipment have been received by the Tawas Area Board of Education. These will be presented at a meeting of the board next Tuesday night.

Much volunteer labor will be needed next week Saturday when work on sodding the field will be started. The board of education and athletic boosters club hope to have the field completed in time for the football season this fall.

Important Meetings for Electors---

Discuss Plans for New High School

Public meetings to discuss the status of a new high school building program for Whittemore-Prescott Area Schools will be held by the Citizens Building Committee on Wednesday, August 21, at Prescott and Thursday, August 22, in Whittemore.

The meetings will commence at 8:30 p. m. and will be held in the gymnasium at the Prescott school and the elementary building in Whittemore. Residents are invited to attend the meeting most convenient for them.

Whittemore-Prescott Area School will hold a special election August 27 to present a proposal for borrowing \$550,000 and to issue bonds for the purpose of erecting and furnishing a new high school building and acquiring a site.

Paul Hazelton, a registered architect from Traverse City, has been employed by the board of education to prepare preliminary sketches of the building. The (See MEETING, page 8.)

Driver Ticketed; In Accident Later

A driver who was ticketed for speeding near Bay City early Tuesday morning was seriously injured only 90 minutes later when his car crashed into a tree near East Tawas.

In serious condition is David Gilbert, 29, Port Huron, the driver. He was given emergency treatment at Tawas Hospital and then rushed to a Bay City hospital.

His brother, Shirley, a passenger in the car, suffered cuts and bruises but did not require hospitalization.

State police officers from Bay City ticketed Gilbert on a charge of traveling 85 miles an hour in a 50 MPH speed zone in Kawakawin Township. He was also ticketed for failure to have his driver's license in his possession.

Interior of the New Immaculate Heart of Mary Church in Tawas City

To Dedicate New Church

Dedication of the new Immaculate Heart of Mary Church will be held Sunday, August 18, beginning at 12 o'clock noon. A Solemn High Mass will be celebrated by the pastor, the Rev. Fr. Joseph A. Castanier, in the presence of the Most Rev. Stephen S. Woznicki, bishop of the diocese of Saginaw.

Officers for the Mass are as follows: Assistant priest, Rt. Rev. Msgr. John Catzke of St. Mary's Church, Alpena; assistant deacons, the Rev. Fr. Michael Maher, Whittemore, and the Rev. Fr. Henry

DuRussell, Oscoda; deacon, the Rev. Fr. Francis Murray, Marlette; subdeacon, the Rev. Fr. Edgerton, Saginaw, East Tawas.

Acolytes, the Rev. Fr. Aloysius O'Toole, West Branch; the Rev. Fr. Henry Eickholt, Omer; thurifer, the Rev. Fr. Ignatius O'Brien, Bay City; mitre-bearer, the Rev. Fr. Mason Vaughn, Onaway; preacher, the Rev. Fr. Bernard Kirchner, Pigeon.

The remaining officers of the Mass will be completed by altar boys of the parish.

The new edifice is located along US-23 in Tawas City and over-

looks the waters of Tawas Bay. The architect is Paul Brysselbout of Bay City. The church is designed in the solid Romanesque style which is characteristic of Northern Europe.

Constructed by Davison and Rose of Tawas City, the building seats 620 people. The tiling, carpeting and landscaping work was donated by the parishioners. The altars and the pulpit were designed by the Rev. Fr. John Zachary of Ottawa, Canada, who will explain the ceremonies of the dedication as it progresses. (See DEDICATE, page 8.)

Editorially Speaking

Again, We Say Iosco Needs Industry!

The latest news about the National Gypsum Company lake loading installation south of Tawas City is encouraging. The company has applied to the United States Army Corps of Engineers for the approval of a newly designed dock to be installed at its shipping location.

This newspaper is of the opinion that the change should meet the approval of the majority of those who objected to the pier which was proposed earlier. The new pier would take up much less "filled-in" space and, with its open type construction, it is conceivable that it would not alter the lake shore line, as adjacent property owners claimed the other installation would do, and would tend to eliminate other objections.

It is our opinion that in this dock question, which is so important to the industrial prosperity of Iosco County, there must be a decision of "give and take" on both sides of the issue. National Gypsum Company has certainly shown its cooperation with the newly designed pier, which company officials say will result in higher cost than the previously proposed peninsular-type dock.

We do not know what bearing the state's submerged lands act will have on this new installation. We do know that the National Gypsum Company is important to the year around resident, the working man and the businessman of Iosco.

On a number of occasions, including the recent governor's hearing at Lansing and in numerous newspaper articles, objectors to the earth-filled pier said they had not objected to the original tramway installation. This newly-designed dock would seem to leave the way open for a compromise.

We believe that the tourist business and industry can live side by side here, just as it does in Alpena County. All indications are that a majority of the people of Iosco County will continue to support National Gypsum Company's expansion here.

NO CHURCH SERVICES SUNDAY AT GLENNIE

There will be no church service this Sunday morning, August 11, at Our Savior Evangelical Lutheran Church, Glennie. Pastor Adalbert Schultz will attend sessions of the Evangelical Lutheran Joint Synod of Wisconsin and other states in convention August 7-13 at New Ulm, Minnesota.

NE Michigan and D and M

"Michigan is on the move, and the citizens of the northeast portion intend to keep up with the rest of the state."

That is the conclusion of Dr. Anne C. Garrison of Michigan State University, Dr. Garrison associate editor of Business Topics, a publication of the university's bureau of business research, makes this statement in the magazine's July issue.

In an article titled, "North-east Michigan and the Detroit and Mackinac Railway," Dr. Garrison sketches the parallel history of the area and the D and M, observing: "In dealing with Northeastern Michigan, the Detroit and Mackinac Railway, which serves the cities along the shore of Lake Huron, provides the unifying factor."

Dr. Garrison says three factors have contributed to the "unique advantage of a unique area." She lists them as:

1. An inexhaustible natural resource (limestone and gypsum), less subject to the ravages of man than were the riches of the lumber lands.
2. A permanent source of transportation by water.
3. A railroad alive to present and future opportunities for mutual benefit to itself and to the region.

Continuing in this vein, Dr. Garrison points out that the D and M is alive to the fact that its welfare is tied to that of the region. She points out that the railroad's industrial development service seeks out every possible method of helping the economy of Northern Michigan, and that the railroad specifically plans to work with the potato growers of Presque Isle County, small fruit growers and others to improve the agricultural output of the region. "The D and M maintains similar interest in the future of wood products, minerals and other industries native to the area," Dr. Garrison adds.

"With a view to the demands of an expanding economy," the business writer states, "the railroad maintains trackage and property for future development at many points, so that new industries can obtain its help in finding a home."

"It has been a long and fairly steady climb up from the depression of the post-lumbering age, and though prosperity is firmly established in northeast Michigan, the direction of the movement is still upward, with the seaway and the bridge promising greater mobility of goods and traffic to come," writes the business expert.

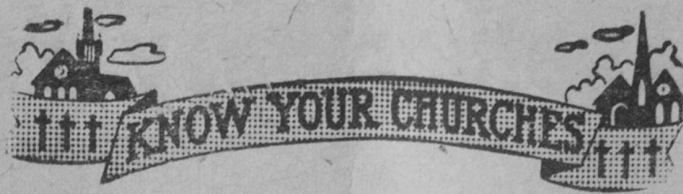

CHRISTIAN SCIENCE—

The practical power of goodness and spirituality will be set forth at Christian Science services Sunday.

Keynoting the lesson-sermon entitled "Spirit" is the Golden Text from I Corinthians (2:12): "Now we have received, not the spirit of the world, but the spirit which is of God."

From "Science and Health with Key to the Scriptures" by Mary Baker Eddy will be read the following (277:7-9): "As God Himself is good and is Spirit, goodness and spirituality must be immortal."

Scriptural selections will include the following from II Corinthians (3:4-5): "And such trust have we through Christ to Godward: Not that we are sufficient of ourselves to think any thing as of ourselves; but our sufficiency is of God."

TWO 20-YEAR EMPLOYEES of the National Gypsum Company honored recently. Matthew Haglund (left) and Arthur H. Hill, plant manager.—Tawas Herald Photo.

Matthew Haglund, 408 West Washington, East Tawas. Mr. Allen (center) is shown with H. Hill, plant manager.—Tawas Herald Photo.

The National City plant of National Gypsum Company announced today the presentation of awards to two of its 20-year-service employees. The presentations were made by C. H. Hill, plant manager of the local plant, to Arthur C. Allen, 429 German Street, Tawas City, and Matthew

Hill, on behalf of the management of the company, expressed sincere appreciation for the long and faithful service given by these men. Several such awards have been presented in past years to other 20-year employees. This is an annual activity each year as employees reach the 20-year milestone. In presenting these awards, Mr.

Richard Rose to Assist Iosco Soil Conservation District

Richard Rose was assigned to assist Iosco Soil Conservation District by the United States Soil Conservation Service. He has replaced Gordon Hatch, Edward Burgeson of Baldwin Township has been appointed to the board of directors for Iosco Soil Conservation District.

The cooperators of Iosco SCD planted over 100,000 trees this spring. The interest shown in tree planting has increased each year since the district was started.

Many of the cooperators are beginning to think about starting work on their sod waterways and open ditches. Soil and water conservation plans have been written with 14 cooperators so far this year. There have been 20 new cooperators signed up with the district so far this year. Iosco SCD directors are considering starting a nursery in Iosco County. This should help their tree planting program.

Director G. Bellen has been attending the meetings on the Au Gres watershed, which will include part of the land in Iosco Soil Conservation District. The group hopes to have quite a few entries in the photo contest this year. There are some good prizes to be awarded contest winners.

Iosco SCD had a display at the Iosco County Fair, which the directors felt would help to show their program in soil conservation in Iosco County.

The Iosco district has paid its 1957 dues in the Michigan Association of Soil Conservation Districts.

MONTANA PRISON RIOT—Montana State Prison inmates released their hostages and ended a 10-hour riot in Deer Lodge. The prisoners are still restless and unruly as talks took place with state officials on their grievances. Photo shows Harold Goff, a life sentence prisoner and a spokesman for the inmates, as he carries Wallace Bear Jr., a convict whose eye was injured by fire set by the rioters.

Homemakers Enjoy District Camp at Hardwood Lake

Fifty or 60 homemakers from seven counties are enjoying the third district Homemakers' Camp at Hardwood Lake this week. Included in the program will be a demonstration on the making of Christmas greens, copper craft, wood craft, games, recreation, swimming, information about the bookmobile library service, folk dancing, vespers and those who wish may learn how to barbecue chicken.

This overnight camping opportunity for women provides a short stay away from home and fun with friends and neighbors.

Those who have tried uncooked jams like them. They are not sterilized by cooking, so must be refrigerated or frozen if kept more than six weeks. Last week at the fair, I heard Mrs. John Webb sharing a recipe with Mrs. Adolph Siegrist and was reminded that column readers might like the directions, too.

This is the preparation method. Combine fruit and sugar. Let it stand about 20 minutes, stirring occasionally. Stir powdered pectin into water, bring to boiling and boil rapidly one minute, stirring constantly. Remove from the stove. Add fruit and stir about two minutes. Pour into glasses. Cover. Let stand at room temperature 24 to 48 hours or until jelled. Seal with paraffin and store in the refrigerator or freezer.

Proportions of ingredients are as follows:

Two cups mashed strawberries, four cups sugar, one package powdered pectin, one cup water.

Three cups mashed raspberries, six cups sugar, one package powdered pectin, one cup water.

Two cups pitted sour cherries, four cups sugar, one package powdered pectin, one cup water.

Three cups crushed peaches, five cups sugar, one package powdered pectin, one cup water.

To use liquid pectin, omit powdered pectin and water. Instead use one-half bottle (one-half cup) liquid pectin. No cooking necessary.

Recipes for frozen jams were developed at Purdue University. They retain the fresh fruit flavor, color and aroma, also make more jam because cooking reduces the volume of ingredients.

State Police Made 25,657 Arrests in June

State police made 25,627 arrests during June, a five percent increase over the same period in 1956. The figure includes 24,120 traffic arrests, but not the arrest of 915 juveniles of whom 557 were traffic offenders.

The department received 10,825 complaints. Officers made 33,177 property and 4,053 liquor inspections.

Total mileage of department vehicles was 1,796,500, of which 1,157,072 was on traffic patrol.

The identification bureau at East Lansing headquarters received 9,597 sets of fingerprints.

Of 794 applicants for concealed weapons permits, 90 were identified with criminal records through fingerprints. Twenty-one wanted persons also were identified through prints.

Traffic Accidents Down from 1956

Provisional figures compiled by the state police show a saving of 28 lives on the streets and highways of Michigan during July compared with the same month last year.

There were 122 persons killed in traffic accidents, but the death toll for July of 1956 was 150.

For the first seven months of the year, deaths totaled 817 compared with 972 in the same period of last year. The saving of 155 lives is within striking distance of the goal to reduce the death toll this year 10 percent, or 174 under the total of 1,747 killed in 1956.

There has been a reduction each month this year with the exception of June, when the toll stood at 115, exactly the same as in June last year.

State police warn, however, that the remaining months of the year, if they run true to past records, will have a higher percentage of the toll unless drivers and others continue their good work to save lives.

"The encouraging record this year reflects not only the increased safety efforts of the press, radio and television, safety organizations and traffic law enforcement, but also should be credited to more care exercised by drivers," said Commissioner Joseph A. Childs. "And knowing that good results can be achieved should be an even greater incentive to all to do even better. While we are all gratified at the saving in lives, the death toll is still too high and can be brought down further if we work hard enough together to do it."

TWO-WAY TRADE

Americans send to the 14 Latin American countries an estimated \$1,500,000,000 a year for green coffee beans, but these 14 Latin American countries buy an estimated \$3,000,000,000 worth of products from the United States. Biggest items were heavy machinery for a total of \$640,000,000, transportation equipment (motor vehicles, trains, ships, planes) for \$157,000,000 and farm products for \$400,000,000. These exports represent a manpower equivalent of 396,925 employees or farmers, and meant \$1,713,900,000 in wages and earnings.

Whittemore News

WHITTEMORE YOUTH PROGRAM IN FULL SWING

The Whittemore youth recreation program is now in its second month of daily morning playground games and afternoon swimming instructions at Sand Lake.

The recreation director, High School Coach Edward Dudo, has about 50 boys and girls, 10 years and older, signed up for the program. In the morning the fun consists of baseball, volleyball, badminton and other games at the school grounds; and each afternoon a bus, leased by the city, takes the group out to the lake for swimming instructions, where even the beginners have learned to float and are well on the way toward being capable swimmers.

The program, a project of the Whittemore Junior Women's Club, is being made possible by the City of Whittemore, which is paying the director's salary and meeting current expenses. The Junior Women's Club and other local civic organizations are planning to assist in the financial requirements. The Whittemore-Prescott Area School Board has been generous in donating the use of the community building for rainy-day sessions and supplying some of the sports equipment.

Whittemore residents are very proud of the new street signs marking every street. Waste paper and trash cans have been placed at convenient locations to help keep the city clean. This project was sponsored by the Women's Club which contacted the city council. Club members have done a fine job on the project.

John Bowen, who has been a patient in Au Gres hospital following a heart attack a week ago, states he is much better.

Postmaster and Mrs. John Dickey and two daughters and Mr. and Mrs. Edward Dudo are spending a week's vacation in the Upper Peninsula.

The combined club picnic consisting of the Whittemore Women's Club, the Rural Ladies Club and Junior Women's Club will be held at Aulerich's picnic grounds on Thursday, August 15. Members wishing a ride are requested to call Mrs. A. Miller, phone SKyline 6-2681, or Mrs. George Jackson, phone SKyline 6-2443.

BOND SALES DIP

In the first six months of 1957, the sale of "E" and "H" bonds totaled \$2,214,000,000, a drop from the same period of 1956. The biggest drop-off was in "H" bonds, 352 million dollars compared with 540 million dollars last year. The January-June redemptions totaled 2,781,000,000 dollars or 14 percent more than the 1956 redemptions. The cash value of bonds now held by more than 40,000,000 persons is \$41,498,000,000.

Why You Should Read The Herald

1. BECAUSE The Herald carries pictures and reports of what's going on in your community, county and other vital state and national news that affects the readers locally.
 2. BECAUSE it is a legal medium through which your city, township and county notices, regarding things which affect your pocketbook, are published.
 3. BECAUSE it keeps you posted on all official actions by your board of education, school administration; it reports plans of official bodies which have the authority to levy taxes against your home, business or industry.
 4. BECAUSE The Herald is your Shopping Guide, carrying the merchandising messages of bargains offered by your local stores, which saves you time and money by providing you an opportunity to prepare your shopping list in advance.
 5. BECAUSE it provides a common meeting place for every reader in your shopping area where community affairs can be discussed and ideas exchanged to benefit all.
 6. BECAUSE it sponsors, supports and boosts every worthwhile community project, including those of charitable nature giving to community leaders the aid and support which they must have in order to keep the community abreast of the times in carrying out the responsibilities of a collective or social nature.
- ANY MEMBER OF A COMMUNITY who does not read the local newspaper is sadly uninformed on: CHURCH AFFAIRS, SOCIAL EVENTS, SCHOOLS, TAXES, GOVERNMENT, POLITICS, and ALL Co-operative Community Projects.

Six New Teachers Hired for Coming Year by Hale Area

L. Dale Bush, superintendent of Hale Area Schools, announced this week that six new teachers have been hired for the coming school year. One opening in the high school staff remains to be filled and that is a teacher for girls physical education and social studies or English.

New teachers are: Byron Sumner, Muncie, Indiana, commercial; Mrs. Lois Wiedbrauk, Tawas City, home economics; Jerry Moore, Ypsilanti, music instructor; Donald Dowling, East Lansing, shop and mathematics; Lucian Hatfield, Whittemore, agriculture; Mrs. Barbara Black, Saginaw, social studies and driver education.

Mr. Bush said that the school library is now being remodeled to increase the storage capacity and to allow more study area. The changes being made will also make possible more supervision by the study hall teacher.

The elementary and other school rooms have been cleaned and painted in preparation for the opening of school on Tuesday, September 3.

Some of the staff members have or will be attending workshops to increase efficiency on their jobs, stated Mr. Bush. The superintendent will attend a two-week workshop at Michigan State University this month.

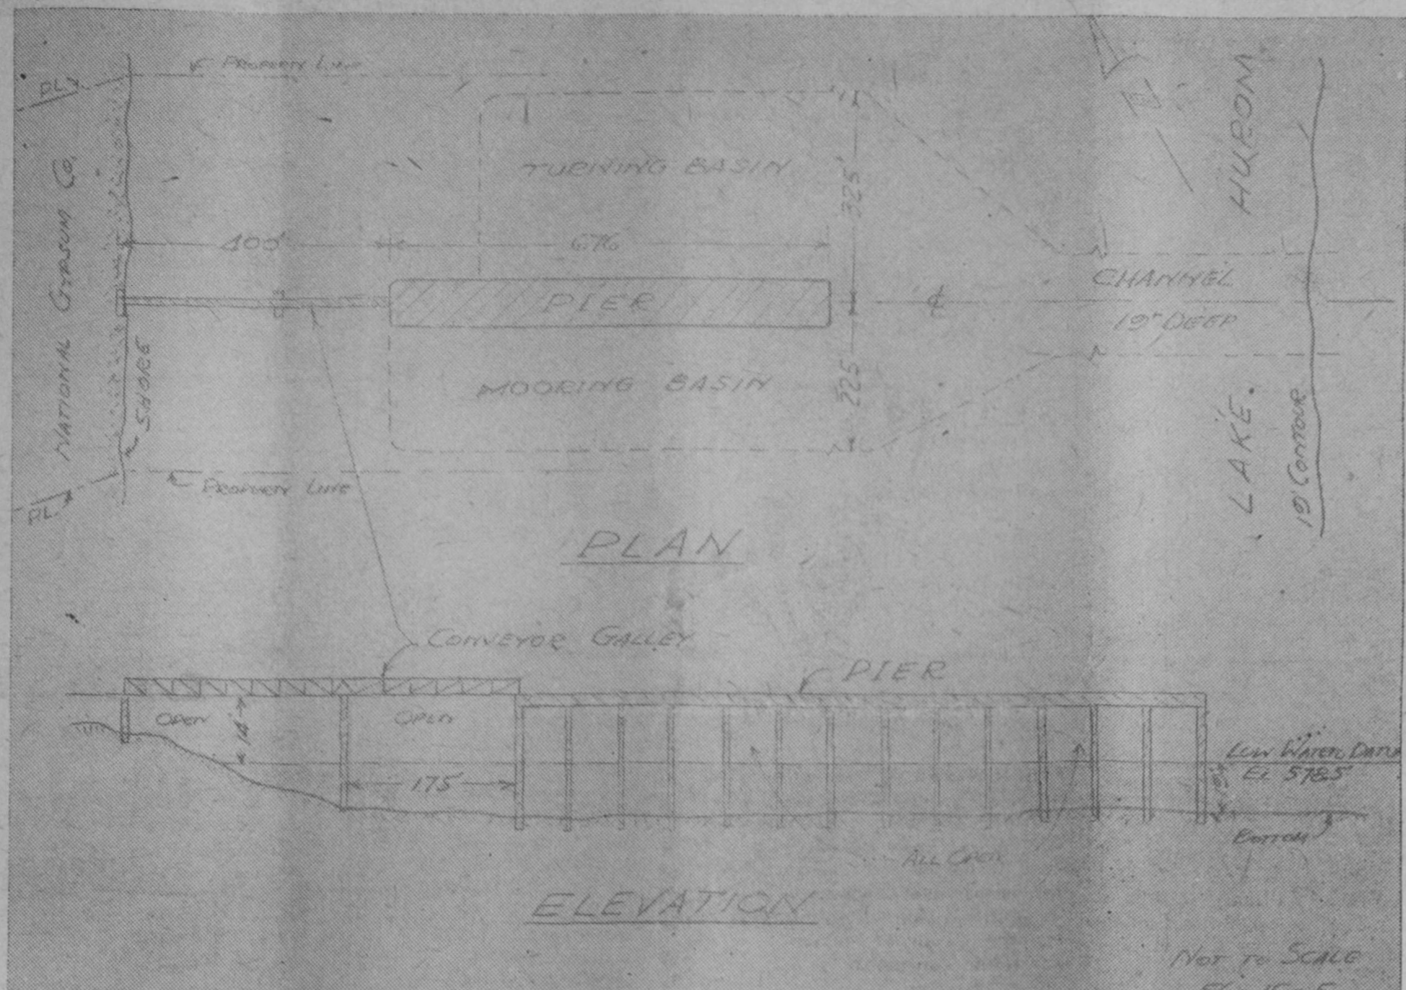

Arnold Loomis, principal, will attend the two-week workshop for principals at Michigan State University. Eldon Miller, bus driver, is to take a three-week workshop to qualify him to teach behind-the-wheel driver education. Mr. Hatfield is now attending a vocational agriculture instructor conference at Michigan State and Mrs. Dorothy Blood, office secretary, attended a three-day workshop at Ferris Institute for educational secretaries.

The man who attempts something unusual is generally laughed at if he fails and hailed as a great guy if he succeeds.

Don't bother too much about your boy or girl—just be sure their parents set them an example worth following.

SHOWN ABOVE IS a sketch of the newly designed lake-loading installation which was presented to the United States Army Corps of Engineers for Approval by the National Gypsum Company. The installation would be located south of Tawas City.

The top sketch shows the plan for the 676-foot long pier located 400 feet off shore. A mooring basin and turning basin is included in the project along with a 19-foot wide channel to deep water. The lower sketch shows the elevation of the installation.

ALBERT SPENCER HONORED ON 91st BIRTHDAY
About 70 relatives and friends gathered for a birthday party at the Dorcas Rooms at Hale Friday, August 2, to help Albert Spencer celebrate his 91st birthday.

A program followed the pot-luck supper. A special birthday greeting from Mamie Eisenhower was read by the Rev. Jack Richards.

Mr. Spencer was born in Memphis, Michigan, in 1866. As a young man, he moved to Alcona County where he spent many years lumbering and farming. In 1931 the Spencer family moved to Hale. He has 10 children.

Mr. Spencer is an active member of the Hale Baptist Church attending services twice on Sunday and mid-week prayer meetings.

In the last six years, Mr. Spencer has traveled extensively, going to Florida two winters and in the summer to Yellowstone National Park, Niagara Falls, Maine and Canada.

Mr. and Mrs. Spencer plan to celebrate their 50th wedding anniversary on September 14.

Mrs. Helen Garver is visiting her parents in Bath.

Mrs. Cora Johnson is visiting her daughter in Clarkston.

Mrs. Marge McCullin entertained with a brush party and breakfast on Tuesday.

Dean Dorsey of the United States Marine Corps arrived home from Japan where he had been stationed. He will now be stationed in the States.

Callers in the Ethel Xavier home at Long Lake Tuesday were Mr. and Mrs. Edward Walford, Mr. and Mrs. Glenwood Streeter and Mr. and Mrs. Emil Wagner.

Mr. and Mrs. Roy Redmond, Paul, Clifford and Laberge spent

the week-end at Mackinac Island.

Mr. and Mrs. Charles Uhl, Mr. and Mrs. Arthur Johnson, Mr. and Mrs. Glenwood Streeter and Mr. and Mrs. Emil Wagner surprised Mrs. Alma Durham on Sunday evening with a birthday cake and ice cream in observance of her birthday.

The fireman's picnic at the Rollaways Sunday was a big success. Mr. Johnson of Long Lake won the boat that was given away.

Auto and Motorcycle Races Feature Saturday Contests

A large crowd witnessed an exciting evening of racing at the Whittemore Speedway Saturday night. The program featured motorcycle runs and winners, Gorish and King, who paced their English-built bikes to the finish, were awarded outstanding trophies.

Excellent weather along with an exceedingly fast track made the racing complete. Winners of heat races were Frank Bolf, Flint; Walter St. Martin, Pinconning; "Porky" Burkholder, Whittemore; Red Edgett, Bay City. The feature race was won by Bolf.

Weather permitting, races will be held Saturday night, August 10. Time trials are held at 7:30 o'clock and racing starts at 8:30.

PROFITS

Government figures reveal that profits in 1957 are rising, indicating that this year will be the highest profits year in history. Figures supplied by President Eisenhower's council of economic advisors estimated corporation profits before taxes for the first quarter of 1957 at \$46,500,000,000 annual rate compared with \$43,700,000,000 for the same 1956 quarter.

You often see grown people act like children but it is rare to see a child act like an adult.

Wonder what has become of all the liquor drinkers who said before repeal, that they would never buy from a bootlegger.

A CARTON OF FRESH drinking water helps revive a dazed survivor of Hurricane Audrey at Cameron, Louisiana. Dairies would supply local residents with water in the same manner . . . should a disaster strike this section of Michigan.

With tornadoes becoming increasingly frequent in Michigan, Tawas City is assured of an emergency supply of pure water should it be necessary, civil defense authorities announced today.

Should the local water supply become suddenly polluted due to an atomic attack, tornado or, as in the case of Utica, industrial pollution, pure water will be rushed in immediately in paper cartons.

Under the "Cooperating Dairy for Civil Defense" plan, the nearest dairy whose own water supply is not affected by the disaster will fill paper cartons with pure water. These will then be trucked into the stricken zone and distributed by the Red Cross or civil defense representatives.

Among local dairies participating is Nelkie's Dairy.

Participating dairies can be identified by special "CD" decals on their route trucks.

The idea of using paper milk cartons for emergency water in a disaster relief program was first proposed by a Detroit industrialist, George D. Scott, vice president of the Pure-Pak Division of Ex-Cell-O Corporation. His division manufactures machines for packaging milk in cartons.

"Michigan is the first state in the nation to provide protection to every community against thirst, disease and other hardships stemming from a sudden contamination of the regular water supply."

Mrs. Lucinda Hylton

Mrs. Lucinda Hylton, resident of Port Huron for 26 years, expired last Wednesday at her home after a long illness. A former East Tawas resident, she was well known in the community.

Lucinda Nash was born March 6, 1882, at Port Austin. She attended school at Port Hope and Tawas City. She married Arthur Hylton in 1916. For a number of years previous to her marriage, she had been employed as compositor at The Tawas Herald shop. She operated a bake shop at Port Huron. Mr. Hylton preceded her in death in 1922.

She is survived by a daughter, Mrs. Roy Kemp of Orlando, Florida; two brothers, Charles Nash of Tawas City and Frank Nash of Ann Arbor; three grandchildren, and several nieces and nephews.

Funeral services were conducted Saturday at the Stewart S. Kipp Funeral Home, Port Huron. The Rev. Frank Oslin of the Griswold Street Baptist Church officiated. Interment was in the Green Ridge Cemetery, Bay City.

Mrs. Mary Florence Brandal

Funeral services were held Monday at the Hale Baptist Church for Mrs. Mary Florence Brandal who died Saturday at her home in Plainfield Township following a lingering illness.

Mrs. Brandal was born August 15, 1904, at Croton, Michigan. She is survived by her husband, James; three daughters; three sons; 12 grandchildren; seven sisters, and six brothers.

She was a member of Hale Chapter No. 482, Eastern Star.

Funeral services were conducted by the Rev. Jack Richards. Interment was in the Evergreen Cemetery at Hale.

according to R. D. Martin, the state's civil defense chief, and Leonard Francke, secretary of the Michigan Milk Dealers Association.

Adopted by the Federal Civil Defense Administration, the plan is being put into effect by dairies across the United States.

Recently a dairy at Lake Charles, Louisiana, provided more than 12,000 gallons of fresh drinking water in cartons to the survivors and rescue workers in Cameron, Louisiana, which had been devastated by Hurricane Audrey.

Mrs. Josephine Lilliquist

Miss Josephine Lilliquist died in Detroit on Monday morning, August 5, after a year's illness in the North annex Nursing Home, Detroit. The body was taken to the Moffatt Funeral Home in East Tawas where funeral services were held on Wednesday afternoon with the Rev. Robert Nelson of Grace Lutheran Church officiating. Burial was in the Wilber Cemetery.

Josephine Lilliquist was born in Finland August 28, 1881. She came to the United States when a young girl and has lived most of her life in New York and Detroit. The Lilliquist family formerly resided at Oscoda. She is the last of a family of 11 children.

Surviving are three nieces, Mrs. Ida Olson of East Tawas, Mrs. Hilda Sandahl of St. Petersburg, Florida, and Mrs. Ruth Fuhrman of Pontiac.

Mrs. Anna E. Cater

Mrs. Anna E. Cater, a life long resident of this vicinity, died at the Huron Rest Home on Sunday evening, July 28. The body was taken to the Moffatt Funeral Home where funeral services were held last Wednesday afternoon at 2 o'clock with the Rev. Robert Nelson of Grace Lutheran Church officiating. Burial was in the Greenwood Cemetery.

Mrs. Anna Cater was born in Wilber Township on November 8, 1882, and was 74 years old. She was married to Frank Cater on December 10, 1912, in East Tawas and had resided here since that time.

Survivors are one son, Claude Cater of East Tawas, and one grandson.

Hold Surprise Birthday Party for Worthy Matron

Last Thursday evening, August 1, the officers of Iosco Chapter, Order of Eastern Star, held a surprise birthday dinner for Worthy Matron Marie Hennigar.

A centerpiece of red and white blossoms, white candles and a birthday cake were among the table decorations. The officers, their husbands and children attended.

Mrs. Hennigar was honored with a tribute in song, several birthday cards and gifts. Mrs. Betty Smith presented her with a beautiful gift on behalf of the officers.

Auxiliary Makes Plans to Install Officers

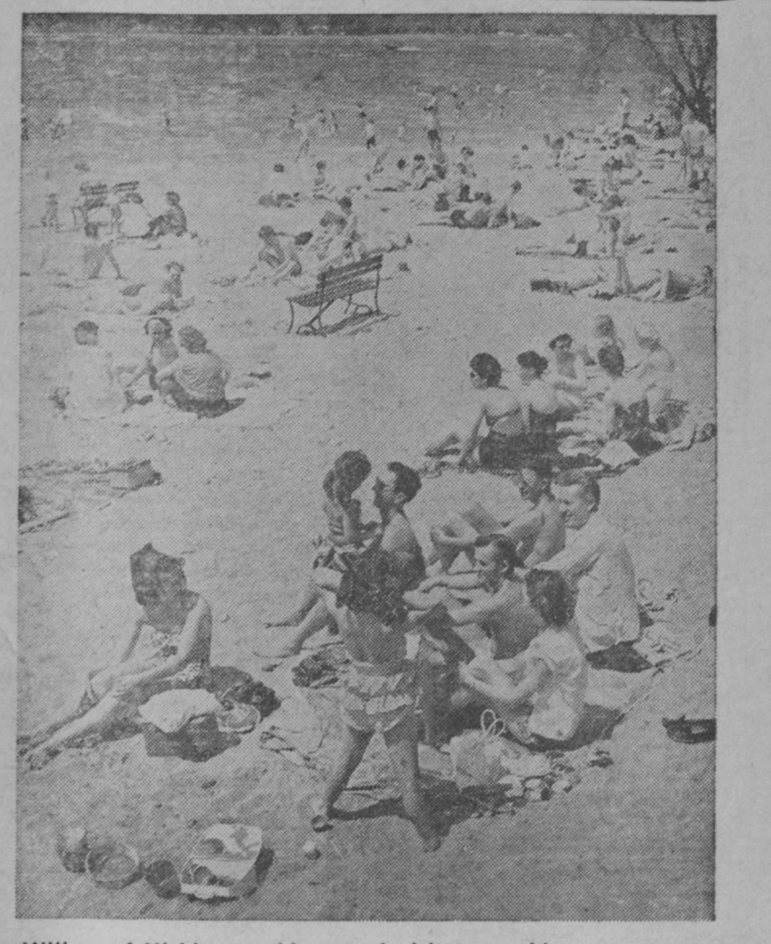

The American Legion Auxiliary, Jesse C. Hodder Post Unit 189, held its regular business meeting Monday, August 5. Ten members were present for the 6 o'clock pot-luck dinner.

Mrs. Opal Mallon, first vice president, presided over the meeting. Plans were made for the installation of the new officers in September.

TAXPAYERS

Taxpayer John Q. Public is getting better at filling out income tax forms, according to the Internal Revenue Service. The government saved \$3,536,000 this year as a result. In 1955, almost 15,000,000 citizens required help with their forms at a cost of almost \$7,000,000. Twelve thousand agents spent 360,000 man-hours giving assistance. Only 11,000,000 asked for help last year, thereby cutting costs of assistance to \$3,264,000.

Sometimes it is profitable to turn down a bargain.

Millions of Michigan residents and visitors—seeking sun, fun and relaxation—are setting new attendance records at Michigan's popular state parks and recreation areas this summer. At the present rate, attendance will exceed the all-time record of 18,000,000 persons who visited state parks in 1955.

LETTERS to the EDITOR

Dear Editor:

While vacationing at our cabin near Hale, our son and grandson, Billy, age three years, was lost for three hours.

We wish to express our deepest thanks and appreciation to the many people who aided in the search and especially to Harold McKenzie, a member of the Hale Fire Department, who found him.

Mr. and Mrs. Raymond Foss, Mr. and Mrs. William Mildebrandt

Our own idea is that the small town success would be a city success if he were in the city and that no city failure becomes a success by going to a smaller municipality.

Better Price Outlook For Iosco Livestock Producers

A brighter price outlook is developing for Iosco County livestock producers.

According to farm economists at Michigan State University, cold storage stock of all red meats is down sharply from a year ago. At the same time demand for red meat should be stronger this fall because people have more money to spend and there are more mouths to feed. Disposable personal income is up by five percent and population by three million from this period last year.

Many cattlemen in the plains states have been encouraged by improved pasture and are rebuilding their herds. This takes cattle away from the slaughter market and receipts of grass cattle will likely be lower than they were last year.

Marketings of all fed cattle this summer and early fall is expected to be larger than last year. However, Michigan State economists still expect a strong market, but they say the price advance will not be as sharp as last fall.

The number of spring pigs coming to market will be about the same as last year. Hog producers are expected to hold the line on

farrows; this fall so spring prices may still be profitable.

Now is the time for farmers to file for their gasoline refund. To receive a refund for the year ending June 30, 1957, claims must be filed on or before September 30. This reminder is offered by Everett M. Elwood, extension specialist in agricultural economics at Michigan State University.

Form 2240 must be used to apply for the refund. This form will be mailed to all farmers who filed for a gas tax refund in 1956. Those who have not filed a claim before can get Form 2240 from the Extension Service office in the Federal Building, East Tawas.

Farmers can make claims for a refund on all gasoline bought and used on the farm. This includes gasoline used by custom operators or neighbors who helped with the planting, cultivating or harvesting of any agricultural crop. No refund will be made for gasoline used off the farm; such as, transporting family or farm goods on the public highway. Any owner, tenant or operator of a farm can file for the refund.

The highway revenue act of 1956 raised the federal tax on gasoline from two to three cents per gallon. For this reason, claims for gasoline bought during the past fiscal year should be figured at the rate of three cents per gallon.

The completed Form 2240 should be sent to the District Director of Internal Revenue, Federal Building, Detroit 25, Michigan. Do not send invoices, bills or statements with the form, but keep them. Revenue agents may want to check records to make sure that the correct amount has been claimed.

Hale Guernsey Completes Production Record

A registered Guernsey cow, Plainfield D. Alice, owned by Graves and Luitje, Hale, has completed an official production record in the Herd Improvement Registry division of the American Guernsey Cattle Club, Peterborough, New Hampshire.

This record was for 10,976 pounds of milk and 550 pounds of fat. "Alice" was a junior three-year-old, and was milked two times daily for 305 days while on test.

Hardwood Lake 4-H Camp to Open Wednesday, Aug. 21

Plans are definitely underway for this year's district 4-H club camp to be held at Hardwood Lake Wednesday, Thursday and Friday, August 21-23. Invitations to attend are being mailed to all eligible 4-H club members. To be eligible a 4-H club member will have completed two projects and attended 4-H club meetings throughout the year.

We hope it will be possible for many Iosco County 4-H club members to attend camp where they will meet 4-H'ers from Alcona and Oscoda Counties. Only three counties are cooperating for camp this year. This should make it possible to have an even better camp experience than last year when the attendance was more than capacity—remember?

Get your camp application back to the Cooperative Extension Service office by August 12.

Eleven Iosco 4-H club members and leaders took part in the District Round-up in Gladwin on July 30.

Martha Smith and Mary Alice Waters will represent the district in the baking demonstration contest at State 4-H Club Show later this month. They are working hard on a good subject, homemade bread and rolls.

Richard Brown, Terry Hartley and Mitchell Ahearn made their debut as junior demonstrators with a gun safety project topic. With this experience they will be ready to offer top competition in demonstration contests another time.

David Sturtevant and Roger Mott were interested in dairy judging. Leaders attending were Mrs. George Waters, Mrs. Howard

SUMMER READERS WILL ENJOY NEW REGIONAL LIBRARY RELEASES

Summer readers will enjoy the variety and change of pace in the newest books recently released for circulation among the Iosco-Arenac Regional Library branches. James A. Michener, a superb reporter, gives his readers the story of the Hungarian revolution as he learned it through the refugees he helped to safety across "The Bridge at Andau." No riff-raff escaped, but those who were lovers of freedom and could no longer stomach what communism meant. This is an authentic account of the heroism of the freedom fighters of Hungary.

Readers will meet a strangely familiar Lincoln in Ruth Randall's new book, "The Courtship of Mr. Lincoln." More detailed than any previous account of this historic and stormy courtship, it presents Lincoln as an unskilled young suitor prone to jealousy and doubt. A warm, interesting story of a young couple who found a devotion that lasted for a lifetime.

Thurber fans will enjoy "The Wonderful O," James Thurber's new book about the island of

Oroo invaded by a man with a ship and a man with a map. The ship was the "Aeiou" which has every vowel but O. The owner hated O, and when the pirates were unable to find any jewels, they decided to get rid of all words with an O in them. But the islanders decided there were four words with an O that must not be lost. Three of them were "hope," "love" and "valor." The fourth and most important is the whole point of "The Wonderful O."

"Lonely Challenge" by Hermann Buhl is the author's own story of his adventures from the time when he was a weakling to the day when he overcame impossible obstacles to accomplish the most amazing mountaineering adventure ever undertaken by a single man, the solo ascent of Nanga Parbat. "The terror of the Himalayas."

"The Gilded Torch" by Iola Fuller, author of "Loon Feather," is the second of her wonderful historical novels. This one dealing with the early expeditions of La Salle in search of the Mississippi River. A better than average novel of a little explored period of North American history.

Most of the events are real, most of the characters are real in "Wolves Against the Moon" by Julia Cooley Atrocchi, and readers interested in Michigan history will find this narrative of history and romance hard to lay down. The story of Joseph Bailey, heir to great wealth, and his life from gilded young aristocrat to hard-headed fur trader.

Whodunit fans will find Ertle Stanley Gardner's new Perry Mason mystery, "The Case of the Screaming Woman," intriguing and other new titles to look for are "Substitute Doctor" by Elizabeth Seifert; "Mr. Audubon's Lucy," a novel about the wife of America's famous bird painter by Lucy Kennedy, and "Silver Spoon" by Edwin Gilbert.

Summer Reading Program Ends

Iosco Arenac Regional Library's summer reading program, "A Flight Through Storyland," has drawn to a close after two months of story hours at its seven branches and 16 bookmobile stops in Iosco and Arenac Counties. Children kept individual flight logs with each book read counted as a flight and marked on the log with a star sticker. By reading 11 books from an approved list, the children earned their wings and achievement certificate. Each child also received a treat from the librarian as a special surprise at the final meeting.

Miss Arlene Leslie, Tawas City Librarian, presented certificates to: Bonnie Libka, Carol Libka, Debra Mark, Martin Mueller, Ruthann Murphy, Sally Roach, Sandy Roach, Howard Rollin, Ruth Ann Rollin, Becky Ross, Terry Ross, Cheryl Ruppert, Jeri Lee Ruppert, Lorraine Spica, Beth Baldwin, Kathy Baldwin, Christine Buch, Thomas Coyle, Kenneth Davenport, Carol Hosbach, Janet Kasischke, Kay Kasischke, Barbara Kendall, Patricia Kendall, Gayle Killey, Gloria Killey and Linda Killey.

Thirty-seven children registered at East Tawas branch and David Anderson, Becky Jo Cox, John Ferguson, Nancy Lane, Joanne Moehring, John Moehring, Robert Spain, Tim Spain, Helen Ulman and Nan White received certificates.

LET US VACUUM CLEAN your HEATING SYSTEM

A CLEAN FURNACE Saves Fuel... Eliminates Dust in your Home... Preserves your Heating Equipment.

A dirty heating system deposits dust on the drapes and home furnishings which ruins them. Soot and ashes left in the casings and smoke pipe gathers moisture which rusts and destroys the heating system.

Home owners pay for having their heating systems cleaned, whether they have the work done or not. The loss in efficiency would pay for the cleaning in a short time.

Our modern, efficient cleaning equipment enables us to vacuum clean and service your heating system at an attractive low price.

Six Persons Injured in Three Auto Accidents in Iosco County Over Week-End

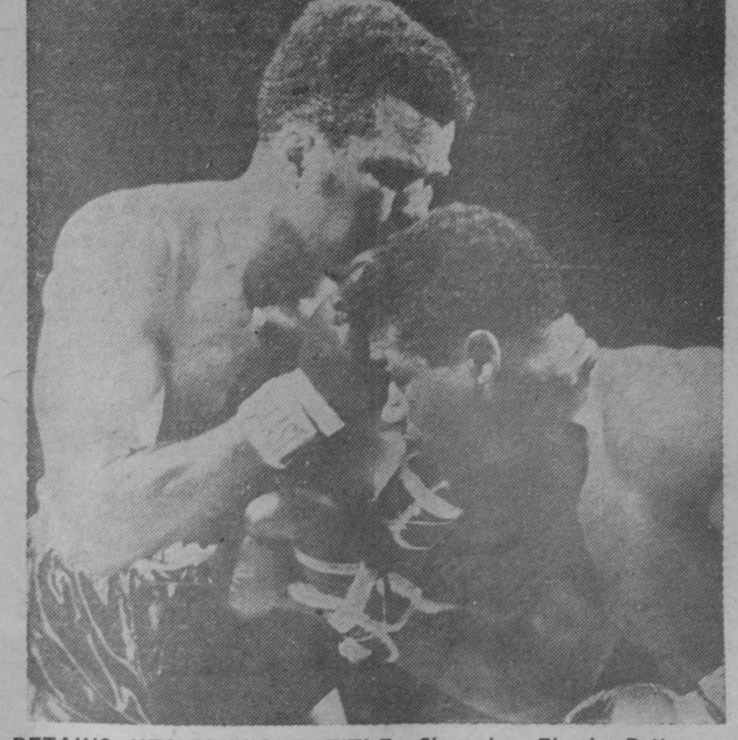

Michigan State Police report that six persons were injured in three automobile accidents last week. Although traffic was heavy on US-23 during the remainder of the week-end, no other personal injury accidents were reported. Four persons were injured in a two-car collision last Friday morning in Oscoda Township, one mile south of the county line on US-23. Injured were: J. B. Runsey, 25, Flushing, abrasion right leg; Theresa A. Barlow, Harrisville, 15, laceration of chin and left knee; Janet R. Barlow, 11, lacerated face, chin and knees; Herbert C. Barlow, seven, possible leg injuries. Howard G. Barlow, Harrisville, 51, was arrested for reckless driving as the result of the accident. Investigating police officers said that he had passed a truck in the

(Continued from page 1.) Miss Lillian Kumerfeldt of Detroit is spending a three-week vacation in East Tawas. She is a guest in the home of Mrs. J. A. Carlson. Mrs. Anna Snell of Detroit has been visiting with her daughter, Mrs. E. J. Hill, at Oak Glen Beach, and also with her great grandson, Edward Albert. Recent visitors at the home of Mrs. Alfred Swales were her daughter, Mrs. Jack Larschied, and her great granddaughter, Miss Jane Larschied, both of Detroit. Mr. Larschied came for them after their 10-day visit. Miss Joyce Russell, who was injured in Detroit by a car, has been spending a week with her parents, Mr. and Mrs. Robert Harmon. Mr. and Mrs. Charles Sedstrom of Detroit are visiting in Tawas for the week. Mr. and Mrs. Leland Parker of St. Clair Shores, former Tawas residents, visited here several days during the past week. Mr. Parker is a retired employee of Buick Motor Car Company. Mr. and Mrs. Thomas Sullivan, formerly of Tawas, now living at Grand Rapids, spent the past week here. Mr. and Mrs. Fred Tate of Flint spent some time in the Tawas area during the past week. Mrs. Elmer Freeland, Mrs. Guy Spencer, Mrs. William Parker, Mrs. Maybelle Gardner and Mrs. Frieda Mortenson left last Sunday on a vacation trip to the Straits and other northern points.

RETAINS HEAVYWEIGHT TITLE—Champion Floyd Patterson (right) lands a right to the midriff that causes challenger, Hurricane Jackson, to flinch in pain during their title bout in New York. This fight was one of the first championship matches since 1949 which was not under the auspices of the IBC and its president, James Norris. Jackson was later hospitalized for a kidney ailment.
