National Officials Inspect Port Gypsum's Progress

Construction work on the approach to National Gypsum Company's lake shore loading installation, Port Gypsum, south of Tawas City proceeded this week according to plans.

Progress on the lake shore facilities, as well as work on opening the new quarry, was inspected Monday by a group of company officials from the Buffalo, New York, office.

A company spokesman stated Monday that work had been started on steel trestle work approaches for the overhead enclosed conveyor system.

Last week The Bay City Times reported that work had been halted on the project at the request of the Michigan Conservation Department. This report was apparently unfounded.

NATIONAL GYPSUM FILES ANSWER IN CIRCUIT COURT

Attorneys John R. Watkins and H. Read Smith, acting in behalf of National Gypsum Company, filed an answer in Isoco County Circuit Court December 2 to a bill of complaint brought against Gerald Eddy, director of the Michigan Department of Conservation, by Dr. Malvern F. Obrecht and the Rev. Fr. Robert Neuman.

National Gypsum Company was granted leave to intervene as defendant in the cause on July 18. A temporary order was issued later by the court restraining the conservation department from executing or delivering any deed of conveyance or transference of title to lake bottom land south of Tawas City to National Gypsum.

Since that time, however, the company has changed its plans for this project from an earth filled dock to an overhead conveyor system extending to a cellular-type pier 375 feet from shore.

The suit was to have been heard in the December term of Isoco County Circuit Court.

For the past two months National Gypsum Company has been working on its \$6,000,000 expansion program in Isoco County. It has started work on opening its new quarry, constructed railroad tracks from the quarry to the main line of the Detroit and Mackinac Railway. Work is underway at the site of the stock pile area where a conveyor belt to the off shore pier is to be constructed.

Work on the tunnel under US-23, which will carry the conveyor belt leading to the dock installation, is nearly completed.

Industrial Development Program Given Boost

Industrial development efforts in Northeastern Michigan were given a boost this week when civic leaders gathered to discuss their programs at the East Tawas industrial development workshop.

"There is greater than ever interest in industrial development in that area of Michigan," Lee M. Uhl, chief of the area development and industry service division of Michigan Economic Development Department, said on his return to Lansing. "Communities in that section are interested in attracting new industry and aiding present industry with a view toward possible expansion."

The workshop was sponsored by the Michigan Economic Development Department, Northern Michigan Development Council and Tawas Chamber of Commerce.

Spirit of cooperation, which continued through the workshop, was sounded by the welcome given by Mayor Elmer Werth of East Tawas and George Myles, who substituted for Mayor George Tuttle of Tawas City, who was un-

Shop Building at W-P School Gutted by Fire Wednesday

An early Wednesday morning fire gutted a concrete block building used for shop classes at Whittemore-Prescott School in Whittemore. Supt. John Halbert said that the 40 by 60 building, located at the rear of the main building, was valued at approximately \$21,000.

The blaze was discovered by an unidentified Whittemore volunteer fireman about 7 o'clock while on his way to work. Superintendent Halbert, who was called immediately, said that flames had broken through the roof by the time he got there.

Volunteer fire departments from Prescott, Hale and Twining assisted the Whittemore fire department in bringing the fire under control. The interior of the building was still smoldering at 10:45 o'clock. There were no injuries.

The classroom area of the building was not touched by flames although smoke caused some damage. Some of the equipment in the shop is still salvageable.

All classes at the Whittemore-Prescott School were canceled Wednesday because of the fire. Classes will resume Thursday.

The fire apparently started near the heating unit and quickly spread to other portions of the building.

The Michigan State Police-sponsored school was attended by some 20 law enforcement officers of Isoco and Alcona County, including sheriffs and deputy sheriffs of the two counties and police chiefs of East Tawas, Tawas City and Oscoda Township.

Included in the class discussions were the auto theft problem, FBI jurisdiction, modes of operation of auto thieves, how to spot a stolen car, processing stolen cars, how the National Automobile Theft Bureau can help.

Motion pictures on examination of stolen cars and the salvage racket were shown.

A special school on car theft was conducted Monday at the Michigan State Police Post, East Tawas, by Special Agent George L. Blue of the Federal Bureau of Investigation and John L. Burke, special agent of the National Auto Theft Bureau.

Detroit 'Too Large' for Attorney Jack

An article about Attorney John R. Watkins of East Tawas, entitled "Big City Lawyer Finds the Country Busy, Beautiful," appeared in the magazine section of last Sunday's Detroit Free Press.

Written by Ken McCormick, Free Press staffer, the article related how Watkins gave up a lucrative law business six years ago in Detroit to hang up his shingle in this community.

In the 1920s Watkins, as United States district attorney at Detroit, fought big-time prohibition gangsters. He served as district attorney under Presidents Coolidge and Hoover. He also was Detroit corporation counsel under the late Mayor James E. Couzens.

"He was known as an earthy man with many friends in his many years as a big-town barrister

with plush offices in a downtown building," related the article.

"I guess I just got sick of bucking city life," says Watkins. "In part, the article stated: 'Watkins has taken to small-community life like a duck takes to the lapping water in front of his home. He has found time to head the polo fund, the Kiwanis Club, dabble in politics and read the things he has wanted to get at for years.'

"Watkins hasn't wanted for law business since he moved here. In fact, he says, he's too busy. He has retainers from the Alpena Paper Company, the Alpena Power Company, a ship-building concern and others.

"When winter's snow gets too deep, Watkins and his wife, Louise, take off for the southland for a month or so. They return when the leaves are budding."

Mrs. Ruth Klish, mother of Mr. Smith, has been taking care of the children since September.

'State's Tourist Ad Budget Too Low'

'Popgun' Is Not Enough Says EMTA

East Michigan Tourist Association reports this week that the state legislature may again use a "pea shooter instead of a potent weapon to attract tourists." The organization is alarmed over the fact that the Michigan tourist appropriation was reduced last year and prospects do not look good this year.

The organization cites the fact that a proposed budget of \$624,000 for attracting more tourists into Michigan during the oncoming year has been slashed to \$493,000.

EMTA emphasizes that the tourist business, second largest industry in the state, annually brings in an estimated \$600,000,000 worth of business. The state government receives nearly \$37,000,000 in the form of direct taxes and licenses from the tourist trade.

"And yet, many of the members of the legislature are unwilling to admit or recognize the fact that the state derives a considerable amount of tax revenue from tourists," states EMTA. "As a result Michigan's tourist promotion budget has been reduced by \$131,000 this year."

"In our opinion, this recommendation is inadequate. Unless we are on our toes the legislature might cut it even further," states EMTA.

There are now nine state governments which appropriate more to promoting and advertising their states' tourist business than Michigan. Yet Michigan still ranks fourth in the nation in numbers of tourists entertained.

"According to reports received, this year's tourist business ran about the same as the year before, but that is not progress because if we are not moving forward in this business, we are moving backwards. Actually last year's business was not much good. It could get worse in the future without adequate promotional effort," states EMTA.

"We realize the state faces the need for economy and there is little likelihood of new taxes being imposed. However, at the same time it should be recognized this tourist trade brings in additional money to the state treasury as well as strengthening the economic condition of the state itself, which, frankly, has not been too good the last year or two. We suggest that there is such a thing as false economy," states EMTA.

Tourists spend \$168,000,000 per year on food alone and the Michigan farmer shares in this item. Retail stores get \$120,000,000; gas and oil, \$114,000,000; lodging, \$132,000,000; entertainment and recreation, \$48,000,000; tires, parts, car repairs, etc., \$18,000,000. This is big business and rates a good deal more constructive attention from the legislature than it is apparently getting.

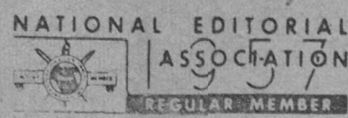

East Michigan Tourist Association suggests that if the people of Michigan agree with this line of reasoning, they should contact their state representatives, state senators and the governor, through letters, telegrams, resolutions or personal visits to see that a decent appropriation is recommended and made in keeping with the magnitude and importance of this business.

BASKETBALL got into full swing last week in Tawas when the Braves played their first home game at the school auditorium. The picture shows the jump at the start of the game.

The Case of the Shrinking Image

If the picture of your GIANT-SIZE TV SET often appears only this big... if the hero's horse sometimes looks like a Shetland pony... if the star fullback reaches your screen no larger than a quarterback... then you may be a victim of inadequate wiring.

Overloaded electric circuits—too weak to cope with today's stepped-up power needs—will keep all of your appliances from operating properly. And, according to a recent article in LOOK MAGAZINE, four out of five American homes are inadequately wired.

To make sure you're getting the most out of your appliances, have an expert inspect your power system. If you'd like a free copy of the Look article, which contains a check list of ten faulty-wiring symptoms, just write to us or call in person.

'Yes, Virginia, There is a Santa Claus'

The answer of Charles A. Dana, famous New York editor, to a little girl's question years ago as to whether there was a Santa Claus has become a classic, reprinted in many newspapers each year since. Editor Dana wrote:

"Virginia, your little friends are wrong. They have been affected by the skepticism of a skeptical age. They do not believe except what they see. They think that nothing can be which is not comprehensible to their little minds. All minds, Virginia, whether they be men's or children's are little. In this great universe of ours man is a mere insect, an ant, in his intellect, as compared with the boundless world about him, as measured by the intelligence capable of grasping the whole truth and knowledge.

"Yes, Virginia, there is a Santa Claus. He exists as certainly as love and generosity and devotion exist, and you know that they abound and give to your life its highest beauty and joy. Alas! how dreary would be the world if there were no Santa Claus. It would be as dreary as if there were no Virginias. There would be no childlike faith then, no poetry, no romance to make tolerable this existence. We should have no enjoyment except in sense and sight. The eternal light with which childhood fills the world would be extinguished. Not believe in Santa Claus? You might as well not believe in fairies! You might get you papa to hire men to watch all the chimneys on Christmas Eve to catch Santa Claus, but that is no sign that there is no Santa Claus. The most real things in the world are those that neither children nor men can see. Did you ever see fairies dancing on the lawn? Of course not, but that's no proof that they are not there. Nobody can conceive or imagine all the wonders there are unseen and unseeable in the world.

"You may tear apart the baby's rattle and see what makes the noise inside, but there is a veil covering the unseen world which not the strongest man, nor even the united strength of all the strongest men that ever lived, could tear apart. Only faith, fancy, poetry, love, romance, can push aside that curtain and view and picture the supernatural beauty and glory beyond. Is it all real? Ah, Virginia, in all this world there is nothing else real and abiding. No Santa Claus? Thank God! he lives and he lives forever. A thousand years from now, Virginia, nay, ten times ten thousand years from now, he will continue to make glad the heart of childhood."

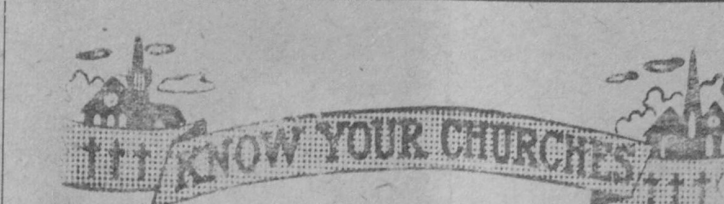

God's healing and saving power will be emphasized at Christian Science services Sunday.

Keynoting the lesson-sermon entitled "God the Preserver of Man" is the Golden Text from Deuteronomy (33:27): "The eternal God is thy refuge, and underneath are the everlasting arms."

A number of experiences of the Apostle Paul are related in the Bible selections to be read which include Paul's healing (Acts 14) of the "man of Lystra, impotent in his feet, being a cripple from his mother's womb, who never had walked."

Selections from "Science and Health with Key to the Scriptures" by Mary Baker Eddy will include the following (343:25): "Anciently those apostles who were Jesus' students, as well as Paul who was not one of his students, healed the sick and reformed the sinner by their religion. Hence the mistake which allows words, rather than works, to follow such examples!"

'Return to Jerusalem' to be shown at Alabaster Community Church. The fourth film in a series on the life of Paul, entitled "Return to Jerusalem," will be shown at the Alabaster Community Church Saturday, December 14, at 8:00 p. m. The public is invited to attend.

DONALD LEDSWORTH of Tawas City, a student at Northern Michigan College at Marquette, bagged this 10-point buck during Thanksgiving vacation, not in the Upper Peninsula "deer territory," but right here in Isosco County where hunting has been described as "poor" for the past few years. Visiting his parents, Mr. and Mrs. Ray Ledsworth, Donald shot the buck near Silver Valley on the last day of the regular season. The buck, first that he had ever shot, dressed out at about 175 pounds.—Tawas Herald Photo.

Final plans were made for the football benefit card party which will be held in the Whittemore Elementary School on Saturday evening, December 14, at 8:00 p. m. This party is sponsored by the Whittemore Grange and the proceeds will go toward purchasing football uniforms for the boys on the Whittemore-Prescott football squad.

A humorous poem entitled "This Ole Barn" was read by Dornace Bellville. The poem portrays what is happening to a good many farms today as a result of the agricultural situation.

Brian Bellville showed colored slides and told about his recent trip to Chicago as a guest of the Kraft Foods Company. Brian received this trip as a part of his award for completing four years as a Kraft junior dairyman.

Delicious elk was a part of the pot-luck supper served at the close of the meeting. Mr. and Mrs. Arthur Aulerich provided this tasty treat.

The annual Grange Christmas party will be held Monday evening, December 16, with an exchange of 50-cent gifts.

There are a number of ways to make money quickly; unfortunately, most of them are not honorable.

MARVIN DAVENPORT SAYS— Must Modernize to Meet Greater Competition

With the doubling of motel and resort facilities in the last 10 years, operators of older establishments may face the difficult choice of either going out of business or making major changes in their facilities.

Some buildings can be rearranged or rebuilt so that they can serve modern needs adequately.

Others, however, will cost more to remodel than they are worth.

Recently, several motel operators in the state have sold their older cabins and started an entirely new motel from the ground up, according to Clare A. Gunn, tourist and resort extension specialist at Michigan State University.

Gunn recommends that operators follow four important steps before spending money on remodeling.

Study present vacation and travel trends. Changes in income brackets, car ownership, road construction, length of work week, desire to travel and population growth are important.

Select the trade to which you wish to cater. Will it be salesmen, family tourists, fishermen, honeymooners or other? What seasonal changes in trade are taking place?

Determine your complete remodeling plans. Review the entire establishment including all buildings, drives, walks, docks, signs and landscaping. Do not consider just one building alone. List all the things needed to bring the entire establishment to present standards considering both appearance as well as functional use.

Determine priorities. Probably you can do just so much each year. Decide whether the rooms, signs or other parts of the establishment should be remodeled first.

Only by upgrading older facilities and offering superior service can the established operator compete with new business.

Five Michigan State University experts will testify before a congressional committee on agricultural policy here December 16-19.

They are Dale Hathaway, Glenn Johnson, James Bonnen, Vernon Sorenson and Lawrence Witt of Michigan State University agricultural economics department.

According to Senator John Sparkman (Democrat from Alabama), the hearings will explore causes of the farm problem and means of dealing with problems of commercial agriculture.

"The subcommittee is directing its efforts toward better understanding of the farm problem and its relationship to the economic growth and stability of the nation rather than toward specific legislative proposals," Senator Sparkman said.

New dairy feeds with special ingredients have been appearing on the market in Michigan. They are advertised to make your cows give more milk or add more years to their lives. But, Don Hillman, extension dairyman at Michigan State University, says that a little evaluation of these feeds can save you money.

Before you buy any expensive new feeds, remember that a cow's own rumen is a highly efficient vitamin and protein manufacturer. All needed vitamins are provided by normal feeding. A cow does not need any fancy protein.

Argumentative souls, short of facts, are very argumentative.

"ALMOST, BUT NOT ENOUGH" is our verdict on how close competitive cars have come to matching the Swept-Wing 58. Take style. Other new cars are "almost" as low in inches, but still seem high and boxy in looks. Some of them are "almost" going to fins, but not enough to really make a difference. Then take performance. None of the other 1958 cars have anything to match the sway-free, dip-free, vibration-free ride of Torsion-Aire. (It's standard equipment.) Most of them still don't even have push-button driving! So after you've seen the "almost" cars, come in and drive a Swept-Wing 58. You'll see why we say: They're catching on, but they can't catch up.

Bay City Man Wins in Buck Derby

Elmer Lauria of Bay City won first prize for the heaviest buck entered in the recently completed buck derby sponsored by the Whittemore Chamber of Commerce. The buck which he shot weighed 168 pounds.

At a drawing of registration cards, Ernest Erwin of Saginaw took first prize, Douglas N. Markellie of Bay City, Albert Branzel of Royal Oak and A. F. Belson of Whittemore took second, third and fourth prizes, respectively.

Donald O'Farrell of Whittemore was the first hunter to report his success and to register his buck the opening day. This was the second year in a row which he won this honor. This year, O'Farrell reported at 8 o'clock the first morning, about 15 minutes earlier than he reported in 1956.

Wiley-Blake Wedding

MR. AND MRS. HAROLD WILEY

At a beautiful candlelight ceremony at the East Tawas Methodist Church last Saturday evening, Miss Mary Elizabeth Blake became the bride of Harold Wiley of Marlette, son of Mr. and Mrs. Eli Wiley of Marlette. The bride is the daughter of the late William and Pearl Blake.

The 7 o'clock ceremony was performed by the Rev. Ralph Edwards before 200 guests. The altar was banked with white chrysanthemums and pews were decorated with white satin bows and white lighted tapers.

Richard Ferguson sang "Bless This House" and "I Love Thee" by Grieg and during the ceremony the prayer song, "O Father, Son and Holy Ghost," by Kittel, accompanied by Mrs. Faye Mooney, organist.

The bride, given in marriage by her brother, Kenneth Blake of East Tawas, was gowned in white Chantilly lace over satin in waltz length with three-quarter length sleeves. The gown was a princess style featuring a full skirt. A string of pearls complemented her gown. Her silk illusion veil was fingertip length and secured with a pearl beaded cap. She carried a cascade bouquet of white orchids and chrysanthemums.

Miss Marie Nash of East Tawas, maid of honor, wore a coral chiffon and satin waltz length gown fashioned with tucked bodice, full skirt and satin cummerbund. Her headpiece was of coral satin and she carried a cascade bouquet of talisman roses.

The best man was Russell Wiley of Marlette, brother of the bridegroom, and ushers were Frederick Tyson of Detroit and Norman Wiley of Marlette, another brother of the bridegroom.

Following the ceremony, a reception for 160 guests was held in the church parlors. Table decorations were white candles, flowers and an all white tiered wedding cake. Presiding at the serving table were Mrs. C. J. Creaser of

Belding and Mrs. Mathew Kienholz of East Tawas.

The bridegroom's mother wore a navy blue gown with matching accessories and her corsage was of yellow roses. Mrs. Kenneth Blake was attired in a rose pink jersey silk gown with black accessories and her corsage was fashioned of white and yellow roses.

After a short wedding trip to southern states, the couple will reside in East Tawas. The bride is employed at the Peoples State Bank in East Tawas and the bridegroom is in construction work in this vicinity.

Discuss Group Plans for Camp Fire Girls

The Camp Fire Girls Association met at the home of Mrs. E. R. Cecil on Tuesday evening, December 3.

Camp Fire guardians and sponsors met with Mrs. Cecil to discuss plans for their groups. Mrs. Ralph Edwards reported that the fifth grade Camp Fire Girls in her group had a cookie sale with the proceeds being sent to the Ruth Alden Dress Drive at Detroit. Mrs. Ted Kyser's junior high Camp Fire Girls are planning a candy sale to earn their national registration fees.

The first Camp Fire ceremonial of this year is planned for Monday, December 30, at the high school cafeteria. Camp Fire Girls who have earned honors in any of the seven crafts will receive them that night. The head is the symbol of achievement. Each bead has an individual meaning and a color symbolic of the craft.

Also at this ceremonial the VFW Auxiliary will present to the group leaders sets of small flags. For each Blue Bird group there will be an American flag and a Blue Bird pennant. Each Camp Fire group will receive an American flag and a Camp Fire flag. All parents and friends of the girls are especially invited and the general public is welcome.

Blue Bird leaders and sponsors met together to discuss plans for their groups of girls. During December most of the groups are working on Christmas gifts. Among the completed projects shown were sunburst slat hot pads and painted vases made by the third and fourth grade groups. Mrs. Clifford Bennington explained that in carrying out the painting project, the girls learned how to use and clean their brushes, how to paint without getting any on themselves or their neighbors, and to share the available materials.

Suggested projects included decorated pine cones, paper and bead Christmas ornaments, table favors, etc. Mrs. Bennington talked on the responsibility of individual group sponsors and the help they can give to the leaders of the groups of girls.

Delicious refreshments of punch and finger sandwiches were served by Mrs. Cecil and Mrs. Cox. Future meetings of the Camp Fire Girls Association will be on the third Tuesday of the month, with the next one on January 21.

Farm Bureau Women Hold Christmas Party

The Farm Bureau Women's Committee held its Christmas party in Grant Township Hall Thursday, December 5. The group, led by Mrs. Clarence Lang, had the greatest amount of members present for which Mrs. Lang received a prize.

Mrs. Neil Ranger won door prize. Christmas gifts were exchanged and games were played. The next meeting will be held Thursday, January 2. Notification of the meeting place will be given later.

By EARL HAIGHT, Conference Secretary
Three teams continued to pace the Northeastern Michigan bas-

ketball race after the second week of play. Houghton Lake dropped West Branch from the top with a thrilling 64-62 overtime victory. Roscommon handed Sterling a 58-34 loss, and Tawas Area had little trouble disposing of Gladwin, 72-34. In the remaining two games, Standish and Pinconning moved into the win column, the former taking Beaverton, 41-37, and the latter winning from Eastern in a free scoring contest, 74-50.

Six players topped the 20 mark in scoring for the night's work. Heading the list was Guard Dave Lee of Houghton Lake who tosted in nine from the field and hit on 11 of 12 chances from the free throw line to chalk up 29 points. Lee's total gave him the league leadership in scoring with 48 points in two games. Tied for second place in last Friday's play were two forwards, Kent Guske of Pinconning and Ray Guyette of Tawas Area, each getting 25 points. The former tallied his on 10 and five while the latter picked up 11 and three. The other performers getting in the charmed circle were Guard Elmer Hollenbeck of Eastern and Center Joe Reiger of West Branch with 22 and Dennis O'Keefe of Standish with 21.

Games on tap for this Friday night include Tawas Area at Sterling, Arenac Eastern at Gladwin, Houghton Lake at Pinconning, Standish at West Branch and Beaverton at Roscommon.

Houghton Lake and West Branch raced down to the wire on the Bobcats' floor with the home team surviving the overtime period to emerge the winner. The Lakers grabbed a 15-13 first quarter lead and held a 31-28 intermission margin. The Orioles came back after the rest period to take a 14-15 third quarter bulge and a third quarter nod of 49-46. The winners copped the final period with a 14-11 score which sent the game into the overtime stanza. West Branch tasted first blood in the overtime but the Bobcats countered with a basket by Terry Wareham to knot the count at 62-62. The winning margin came when Dave Lee dropped two free throws with time running out.

Lee and Reiger led their respective squads in scoring with Wareham contributing 14 and Pat Marts, guard, 10, for the winners. Bob Huey, loser's forward, had a six and three count for 15 in a losing cause. The Lakers also took the reserve contest with a big first and third quarters, 48-31, as Lyle Carrick had 17 for the winners.

Roscommon had big scoring margins in the first two quarters and played an even second half to take its second league win. A 14-8 first period count plus a big 21-3 second stanza bulge gave the Bucks a 35-11 half time lead. Scoring slowed in the third quarter with the winners on top 8-6, but

TAWAS AREA CHEERLEADERS "whoop it up" as the final buzzer sounds last Friday night with the Braves winning their first home game of the season.—Tawas Herald Photo.

the losers took the final period's scoring, 17-15.

Jim Papenfus, Roscommon forward, led both squads with 17 on eight and one. Guard Jerry Rulce of the winners and Leon DeLong of the losers were next in line for their respective outfits with 12. The Bucks also won the JV contest, 63-19, as Forward Jack McNeil led the home forces with 23 points.

Standish handed Beaverton its first defeat of the young season by coming on with a rush in the last quarter to emerge the winner. The Beavers grabbed a four point lead in the first period by counting 16-12, and increased that spread with an 11-9 second stanza tally. Standish narrowed the margin in the third quarter by taking the scoring in that period, 10-8, and took the game away from Beaverton in the last quarter by holding the Beavers to two points while scoring 11 themselves.

O'Keefe had five field goals and 11 charity tosses for his 21 point total which was tops for both clubs. Pat Kalahar, guard, and Marlin Spencer, forward, were high men for the losers. The former had seven and one for 15 while the latter had four and two for 10. Beaverton gained a split for the evening by winning the JV contest, 33-25, with Jim Greenacre, forward for the winners, high with 12.

Pinconning had the honor of scoring the high score of the night's play, both for total and one quarter's work. A 17-3 first quarter count, coupled with a 19-12 second period score gave the winners a big 36-20 half time bulge. Defense went by the boards in the third stanza as Pinconning chalked up a 27-12 score to hold a 63-32 margin at the start of the final eight minutes. The Eagles came back to take the final period, 18-11, but could not cut up enough of the edge to win.

The trouble with many individuals is that they worry too much about the sins of the other fellow.

Tawas Area Drubs Gladwin 72 to 34

Tawas Area stayed among the front runners in the Northeastern Michigan Conference last Friday night by dropping Gladwin, 72-34. This was the Braves second win in succession, having won over Pinconning in the opener 41-20.

Tawas Area put together four quarters of even scoring to notch its second league victory. Identical counts of 18-7 in the first and second period put the contest beyond the reach of Gladwin as the Braves held a 36-14 intermission edge.

The Braves added to their bulge in the third quarter with a 20-9 count and were going away, 16-11, at the final buzzer.

The Braves attempted 72 shots at the basket and completed 29 for a 40 percent average from the floor. Added to this was a 96 percent average on the foul line with 14 out of 21 attempts successful.

Tawas had control of both offensive and defensive backboards and this is where the ball game was won. As an example, Tawas shot 72 times and Gladwin 35. Tawas took 17 offensive rebounds and 23 defensive for a total of 40. Gladwin picked off seven of offensive rebounds and 12 defensive for a total of 19.

The game was a tremendous team effort on the part of the Braves and exemplified what teamwork can do. After the game, Coach William McIntosh stated: "I could not single out any particular players as playing an outstanding game, because each of them did it well."

Ray Guyette with 25 points sparked the winners with Center Ken Blultz runner-up to his teammate with 14 points on seven from the field. High man for the Flying G's was Wayne Moon with a three and five count for 11 points.

Tawas scored a double win for the night, taking the reserve contest, 41-25. Guard Pete Bolen and Forward Tom LeClair had 13 and 12 points, respectively, for the winners.

W-P Cardinals Lose to AuGres in Season Opener

Whittemore-Prescott Cardinals and AuGres Wolverines split two games at AuGres Friday night with the latter winning the varsity contest, 39-33, and the Cards, the reserve game, 26-25.

The varsity contest was a see-saw battle for the first three quarters, with the lead changing hands often. AuGres built up a five-point lead late in the third quarter and, although losing two of its tallest players via the personal foul route, in the last quarter, the Cards were unable to make a field goal in the last eight minutes.

The Cards missed 18 of 37 chances at the free throw line to lose any chance to catch the Wolverines. AuGres players are good ball handlers as well showing well defensively, holding the Cards to only seven field goals.

Jack Graham topped the scoring with 12 points for the Cards. Woods dropped in 11 for the winners.

The reserve contest was another close affair with the Cards leading most of the way and AuGres never more than a basket or two behind. Wahr led the scoring with 12 points for AuGres. Soper led the Cards with eight points.

The Cards play Oscoda at Prescott Friday night, December 13, at 7 o'clock.

The band and glee club performed at the meeting.

Most Countries Mark Christmas With Gaiety

The real and beautiful meaning and spirit of Christmas is the only aspect of the gift-giving holiday that is shared by all the civilized nations of the world.

Greetings, the spiritual bestower of gifts, dates of celebration, traditions and superstitions are unique in each land or region. December 25 is, however, generally the red letter day.

"The melting pot of the world" applies to the American Christmas celebration as well as to its people. Here, as in no other land, more of these ideas and ways-of-doing are intermingled, though our Christmas most closely resembles that of the English.

But, America, too, has one really unique "tradition"—Santa Claus! The jolly fellow Americans see around at Christmas is not the same gift-giver in other countries. He is, however, a composite of many of those "Santas" across the seas.

Bayberry candles are an original of the American settlers—and the Poinsettia plant is a native of tropical America.

In Norway, "Julenissen," a gay elf, arrives on Christmas Eve as shouts of "Gledelig Yul" ring out.

"St. Nicholas" dressed in black robes rides over the house tops on a white steed on December 5. He visits the children of Austria, Belgium, Holland, Luxembourg and Greece.

"Joyeux Noel" is the happy French greeting and "Pere Noel" is the bearer of gifts.

Italian children are visited by "La Befana," a good fairy on January 5, the Eve of Epiphany. "Buone Feste Natalize" is their greeting.

"Feliz Navidad" is the phrase of the day, January 5, in Spain. There the Three Wise Men fill the children's shoes with gifts.

"Lan Khoony Khoong," meaning "Nice Old Father," fills oddly-shaped stockings made by Chinese children.

The Christ Child Himself, traveling on foot, visits the children

FARM ECONOMICS

Farm products prices rose eight-tenths of one percent to 242 percent of the 1910-14 base in the month ended November 15, but the average of prices paid by farmers jumped to a record high of 298 percent of the 1910-14 period—two points higher than the previous record of 296 in mid-October.

The world would be a better place and more would be accomplished if we stopped talking about other people.

TRAFFIC DEATHS

Officials of the National Safety Council have estimated that the 1957 death toll may be 1,000 less than last year's total of 38,600 if present figures continue. During the first 10 months of this year, about 31,350 persons died on the nation's highways—about 300 less than during the same period of 1956.

FIREPLACE CENTER OF CHRISTMAS ENTERTAINMENT

Since the fireplace, where there is one, is so often the center of Christmas entertaining, you will want the decorations there to be especially lovely.

The mood of your decorations will, naturally, depend on the traditions of your family's Christmas.

Some people, although "strictly modern" about every thing else, enjoy a very traditional Christmas.

This, which is the feeling of many, is not really the problem it might seem.

The key to decorating a modern fireplace in a traditional way is to keep arrangements simple.

In addition, such "traditionals" as stars and angels may be created in soft and yet unusual colors. Pale pink, yellow and orange are striking.

Some of the most successful Christmas decorations combine the traditional with the unusual and new, too.

Telephone Lines of the Tawas

IT IS OFTEN SAID that the best gifts you can give are those you'd like to receive yourself. Wouldn't you like to receive, as a Christmas present, a bedroom or kitchen phone, or a phone for the den or workshop? Then wouldn't they make great gifts for Mother, Dad or the teenagers in your family?

Extension telephones (in any of nine decorator colors) cost only about \$1 a month after a one-time installation charge. So order your gift telephones now. It's easy: just call our Business Office.

CHRISTMAS IS GETTING

closer and closer and you probably have a hundred and one things to do—presents to buy, holiday parties to plan, and lots of errands to run. Just the spot for your telephone to come to the rescue. You can shop around by phone and find out if certain items are still available and what they cost. And for planning holiday get-togethers, there's no faster, easier way than doing it by phone. Holidays and every day, there's just no end to your telephone's usefulness.

NEWLY-DESIGNED equipment is being used to bring telephone service more quickly to fast-growing sections of town. Called Cable Concentrator, it lets as few as 16 pairs of telephone cable wires do the work of 58. In a new and heavily built-up area, where the Cable Concentrator is most useful, it means more phones can be installed without waiting for additional lines to be built. And it means more people there can have single or two-party lines. The development of these concentrators is one more milestone in Michigan Bell's continuing program to bring you more and better phone service.

By DOROTHY SCOTT Home Demonstration Agent The hustle and bustle of the holiday season is again in the air. No doubt you are choosing, buying or making gifts, planning decorations for your home and possibly getting ready to entertain the family for Christmas dinner.

May I remind you about the helpful bulletin called "Christmas Decorations for Fun and Profit." In it are a variety of ideas for attractive decorations, most of them featuring evergreen. A copy is yours for the asking. Styrofoam for decorations is increasingly popular and we have obtained some in sheets for those who want to try their hand at it.

If you want a sheet, stop in or call and ask about it. We have mimeographed patterns for most of the items in our Christmas lessons for the past two or three years. There could be something you will especially like. You are welcome to examine them to see. Quite possibly we have a recipe for the holiday food you want. Two recipes of interest are for the cereal-nut snack (good for between-meals) and the white fruit cake recipe made from mix requiring no baking of the fruit.

Use your sewing machine and make simple, inexpensive gifts to please children for Christmas. Little girls like to dress and undress their dolls, so make a new dress or bonnet for a favorite doll. Choose simple patterns and dresses that are easy to put on and take off. It is a good idea to use a washable material so she can launder the clothes. Some of the crease resistant cottons are ideal for crisp, fresh looking doll clothes.

Things for baby dolls are easier to make. Sheets, gay quilts, blankets or pillow cases for the doll bed or buggy. For the doll make a sleeping bag, nightgown or bib. Little boys and girls both like stuffed toys made of bright, washable materials. Toys stuffed with shredded foam rubber are lightweight, soft and washable. Make an apron for the little girl who likes to help in the kitchen. She will feel grown up if you make one to match for her mother. You can make mitten pot holders to go with the aprons, too.

For the young carpenter, make an apron with pockets for his tools. In one of the big pockets you can put a new tool for his workshop. Choose a firm, durable material for the carpenter's apron. How should you store fruit? There are many good methods. You can wrap them in moisture-proof cellophane, sealing them air

GIFTS FOR CHRISTMAS

Something for the children's stocking is popcorn or cereal figures. Follow your recipe for popcorn balls or cereal balls but tint the syrup with red or green food coloring. Press the mixture into greased molds, cookie cutters or shape by hand (greased hands.) Try a wreath shape made from a ring mold, a star made in a star-shaped cookie cutter or a Christmas tree made by hand into the form of a cone. You can set the tree on three cherries or a large gum drop for a base and decorate the tree with small gumdrops. To do this, first heat a pan until a drop of water sizzles. Then hold the base of the gumdrop to the pan for a few seconds to melt the bottom of it. Then stick onto the popcorn tree. The children will love a cereal or popcorn snowman, too. Make a popcorn or cereal ball. Make a marshmallow head with two dots of chocolate for eyes, a cinnamon candy for a nose and a strip of red candied cherry for a mouth. Use a whole cherry on top for a hat. Fasten the head and hat with a toothpick, stuck into the ball and extending far enough to go all the way through the marshmallow head and keep the cherry hat on.
