Before recessing October's session until Friday of this week, the Iosco County Board of Supervisors last week adopted a resolution received from Baldwin Township which asked the supervisors help in obtaining federally owned land between the lighthouse and fog signal on Tawas Point and establishing that area as a public

Friday, Oct. 25

Finish Work

The board of supervisors will wind up its October session Friday with the final checking and approval of millage figures as prepared by its finance and apportionment committee.

In recommending the adoption of the resolution, the supervisors conservation committee stated that adoption of the resolution would not mean the expenditure of money. "It is necessary," it reported, "to obtain the support of the board of supervisors in order to contact proper authorities to obtain necessary information so that the committee can work further on the matter.

The committee stated that the area considered is used by a arge number of tourists and peoto take adverse action by closing 50th wedding anniversary on No- Masonic Lodges. Who takes over

If it's Father, we bet he leans heavily on the family's electric servants.

And why not? Electric servants draw mighty low wages. Lower, even, than they were 25 years ago. For instance, if yours is the typical American home, you're getting twice as much electricity for your dollar today as you did in 1932. It's true that your electric bill may be higher, but that's because electricity is doing so much

agree that electricity is the biggest bargain n your budget?

Fresh styling, more power, and many chassis improvements mark the 1958 Chevrolet truck line which goes on display at McKay Sales, Tawas City, on October 31. This low cab forward heavy-duty model has a new 348 cubic inch 230-horsepower engine designed for durability with sodium-cooled valves, heavy bearings and other heavy service features. Combustion chamber is wholly within the cylinder bore. All 1958 Chevrolet trucks have dual headlights and redesigned grille, hood and fenders.

400 W. STATE ST.

measuring only one and threequarters inches longer and less than three inches wider than the 283-cubic inch V8. It is actually one and one-third inches lower in

The high power output of the engine is derived from its unique design. The completely machined combustion chamber is located wholly within the cylinder bore. The top face of the block is machined at a 74 degree angle to the centerline of the bore instead of the conventional 90 degrees, inclining the head more toward the horizontal. The top of the cylinder thus is elliptical rather than round, making more space for larger valves, central location of the spark plug and staggered valve

Extra-strength "peaked roof" aluminum pistons are positioned with one dome surface parallel to the plane of the flat head and the other at 32 degrees to it. The result is a thin squish and quench area in one-half the cylinder and a wedge-shaped combustion chamber in the other. The arrangement induces extreme turbulence in the fuel-air mixture and together with the short flame travel from the centrally located sparkplug induces high efficiency of combus-

A TRACTOR-SEMI unit carrying 18 tons of potatoes to market flipped over on US-23 north of East Tawas late last Thursday afternoon when the drivers swerved his truck to avoid hitting a car which pulled out on the highway in his path. Driver Thomas Tadajewski of RFD No. 1, Posen, estimated the damage to the tractor and trailer rig at \$7,000. The car, driven by Esther E. Dresselhouse of Ottawas Beach, was not damaged. A second truck was dispatched from Rogers City in which to transfer the load from the overturned trailer. In the above photo, Trooper William Ferguson of the East Tawas post, Michigan State Police, watches workmen transfer the load of potatoes. The job was not completed until shortly before midnight, tying up traffic until the overturned unit could be moved from the north-bound lane .- Tawas Herald Photo.

Rev. Newman Gives Talk On Life of Martin Luther

Thirty-one members of Emanuel Lutheran Ladies Aid gathered at the last meeting Thursday, October 17. The Rev. Leonard Newman presented a talk on the life of Dr. Martin Luther.

The ladies decided to sponsor a 'gypsy basket" to raise money for mission work, and a donation was made to assist a mission congregation in Pomona, California, where the Rev. Paul Heyn, formerly of Tawas, is now pastor.

Plans were also discussed for the annual Christmas tea and
