

### THE TAWAS HERALD Five Cents Per Copy SEVENTY-THIRD YEAR TAWAS CITY, MICHIGAN, THURSDAY, SEPTEMBER 12, 1957

TAWAS CITY

Week-end guests of Mr. and Mrs. Otto Look were: Their daughter, Mrs. Arthur Zink; their grandson and his wife, Mr. and Mrs. Gary Zink; Carol Kaiser, and Don Jackson, all of Port Huron.

Mr. and Mrs. Harold G. Peterson left Monday for few days visit in Mancelona with her father and sister.

Mr. and Mrs. Charles Koepke and Mr. and Mrs. Walter Anschuetz vacationed in the Upper Peninsula the past week and spent two days at Iron River on business.

Neil and Larry Johnson of Clawson arrived Monday evening to spend the remainder of the week with their grandmother, Mrs. Ernest Ross.

The Tawas City firemen's ban-quet was held Tuesday evening at the Tawas City Legion Hall. The Legion Auxiliary served the banquet.

Donald Roach is spending a couple of weeks with his mother, Mrs. Elsie Roach, and other relatives. He will resume his studies at Michigan State University. He has been employed at St. Johns

Flat sour-doesn't sound like a very mouth-watering taste, does it? And it is not; it is the bitter, medical taste that you may find in your canned tomatoes if you have not processed them correct

Flat sour, is a type of spoilage which is quite common in homecanned tomatoes. It is caused by any one of several things: Letting the tomatoes stand too long before you can them, not heating them long enough, cooling the finished jars too slowly or using the open-kettle method without processing the filled jars in boil ing water.

Mr. and Mrs. Fred Berlin spent the week-end at Bay City. days with their grandmother, Mrs. Jennie Ferns. around the drain of your kitchen Callers at the George Smith sink, you have been cleaning it too well. In fact, you have done such a thorough job, you have re-moved some of the porcelain as well as all the grease and grime! Porcelain surfaces can wear away because of the scouring pow-

der used. Scouring powders are primarily abrasive, but many of them have an acid added to them to increase their efficiency. It is true that these combination abrasive-acid do a quick, easy job of scouring,

but they also wear away the por celain. You can make your own scouring powder and be sure that it does

not contain an acid by buying a can of whiting at your drugstore. Whiting is an abrasive of the finest kind which you can use as any other cleanser; just sprinkle it on, rub it with a damp cloth and

rinse. If you have a new sink, avoid

using an abrasive of any kind on it. Instead, mix up a combination of equal parts of water softener and syndet. This solution will cut the soap scum which is holding

the grease and grime, but will not scratch the surfaces on which it is used.

# HELPMATES ALONG HURON SHORE

Thunder Bay Mfg. Corp. of Alpena is in the process of expanding its facilities by adding to its foundry and machine shop. Pictured here is a 300 ton Thunder Bay Punch Press, one of the huge presses the company manufactures in sizes ranging from 175 to 600 tons. A major portion of their business is the manufacture of semi-steel castings, weighing from 1,000 to 50,000 lbs., for automobile concerns.

Pictured is the third pumping station of the Saginaw-Midland (Lake Huron) Water Supply System. Located on U.S.23, two miles south of Pinconning, this station increases the pumping capacity of the system from 42 to 52 million gallons per day, filling a vital need for the industries and people along this section of the Huron Shore.

Mackinac Truck Lines, Inc. of Tawas City, a subsidiary of the Detroit & Mackinac Railway Co., conducts highway trucking operations for the parent company. These modern trucks handle principally LCL freight between cities along the Huron Shore where such operations make it more feasible or economical.

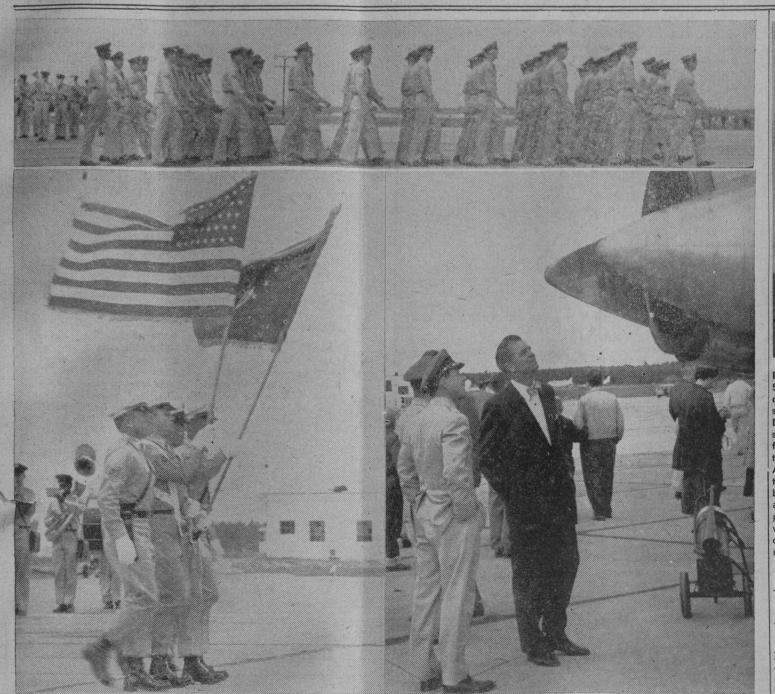

Dependable, economical transportation service is a . tradition with the Detroit and Mackinac Railway, whose trains and trucks connect progressive Northern Michigan with the markets of the nation and the world. The D&M represents the dominant factor responsible through the years for the industrial birth and progress of the Huron Shore. It stands prepared to meet the industrial and transportation challenges > of an even greater Northland.
