Baldwin Man Has Lived on Same Farm 61 Years

John Burgeson, well-known Baldwin Township farmer, celebrated his 96th birthday anniversary last Saturday. Joining him in the observance of the day were seven of his eight children. Only Mrs. Ida Peterson of Superior, Wisconsin, was unable to be present. She has been an invalid for about 15 years.

Mr. Burgeson was born in Sweden, December 13, 1862. He was 19 years of age when he came to America, locating in Pennsylvania, where he worked in the coal mines. In 1885 he came to Oscoda and found employment in the lumber mills. He met Miss Ida Alstrom in Oscoda and they were married there in 1889.

The family moved to Baldwin Township in 1897. Here, Mr. Burgeson, through dint of hard work and with the help of his growing family, built one of the finest farm homes in the township. He participated in civic affairs in the community, serving as justice of the peace for a number of terms. He has lived to see his son, Edward, become a long-time supervisor of the township and a prominent member of the board of supervisors of the county. He has lived continuously on the farm for 61 years. Mr. Burgeson and family have also been active in the affairs of Grace Lutheran Church in East Tawas.

Ten children were born to Mr. and Mrs. Burgeson. A son and a daughter, who grew to adulthood, passed away years ago and Mrs. Burgeson died in 1943.

The members of the immediate family who were present for the birthday party were Mr. and Mrs. Emil Bygden (Amelia) and Edward Burgeson, who live at the

old homestead; Mrs. Edith Pochert and daughter, Ellen, of Owosso; Mrs. Jennie Mackey of Owosso; Mr. and Mrs. Nelson Burgeson of Detroit; Mr. and Mrs. Joseph Felts (Alice) of Detroit; Mr. and Mrs. Otto Ernst (Louise) of Mt. Clemens; Mr. and Mrs. Carl Bygden and family of Tawas Township. A few neighbors were also present.

Continue Efforts to Get Tawas Back on Signs

In spite of the discouraging words from the state highway department, the East Tawas Council went on record Monday night protesting the removal of "Tawas" from highway marking signs at the Standish intersection.

A letter read at the meeting indicated that the highway department felt justified in removing Tawas from the sign and replacing it with Alpena.

Mayor Elmer Werth said that the community should continue its efforts to have the sign changed, one reason being the importance of the M-55 intersection here with US-23.

In other business, no objections were heard and the city council approved renewal of tavern licenses for the next year.

The council authorized Supt. Paul Ropert to purchase turkeys for city employees at Christmas.

A building application presented by Harold Woods for remodeling his home was approved by the council.

Same Old Story—

Valley Has No Snow

Start Fund Drive for Snow Machine

"We have the weather and the facilities, but no snow." This was the comment of Chairman John Pinter Monday night as he outlined plans for the forthcoming winter sports season at Silver Valley.

"This is the time that Silver Valley needs the push," he stated. "Competition in the winter sports business is greater than ever. Other areas have plenty of snow, but there is not a park in Michigan which has the natural beauty of Silver Valley. Our facilities compare favorably with other winter sports parks, but we have to do something about the lack of snow."

For this reason, the winter sports committee is to kick off a concentrated effort in its Silver Valley booster ticket campaign to help finance cost of a snow making machine.

It is the hope of the committee that enough booster tickets will be sold this year to finance the purchase of a snow machine for next season. Winner in the booster ticket contest is to receive a 1959 Chevrolet during the winter sports carnival in February.

It was explained at the meeting that weather conditions here were perfect for manufacturing snow. This area is out of Michigan's "snow belt" and, while the temperature remains cold all winter, the lack of natural snow has always been a problem at Silver Valley.

"We have come this far with construction of facilities at the winter sports park . . . let's not give up now," urged Pinter.

Besides kicking off a concentrated drive in its booster ticket sales, the Silver Valley committee is seeking new members who would lend assistance with the planning and carrying out of winter sports activities.

Osman Ostrander, co-chairman, said that there are many persons in this area who, at one time or another, were active on the committee. "If these people were invited, perhaps they would attend the meetings again," he said.

A special membership committee was appointed by Pinter to name additional members to the winter sports committee. Membership cards are to be issued to at least 50 members. In the past, no cards were issued. Those who wished to participate as a member merely attended the meetings regularly.

SANTA'S SCHEDULE

Fresh from his welcoming parade, Santa Claus will visit youngsters in the Tawas City business district Thursday and Friday of this week from 6:30 to 8:30 p. m.

"There should be no dues, no luncheons to attend in this organization . . . that type of thing is taken care of by area service organizations," was the comment of one member. "The only requirement for membership in the winter sports committee is that the member be active when called on for assistance."

A luncheon will be held Saturday noon at the Barnes Hotel for Silver Valley queen's candidates. John Elliott, ticket sales chairman, said Monday that industries and merchants are being asked to make contributions of merchandise gifts to be awarded in the queen's contest. It is hoped that the gifts may be displayed at Saturday's meeting. Anyone interested in participating is requested to contact the chamber office.

Elliott also stated that the contest committee was looking for one or more additional queen's contest candidates in the Tawas and Oscoda area. Girls interested may apply at the chamber office.

Kiwanis Goodfellows to Sell Papers Saturday

The fellow trying to sell you that special green newspaper Saturday has his heart set on bringing brightness into the lives of this community's needy children.

With a goal of \$1,200, some 43 Tawas Kiwanians, or the entire membership of the club, will sell copies of the 13th annual Goodfellow edition. The sale starts Saturday morning at 9 o'clock and will continue throughout the day.

Sales headquarters for the two communities will be at Dr. E. C. Silverthorn's office in Tawas City and J. Richard Newman's office in East Tawas.

Gordon Huck, Kiwanis Club president, expressed confidence that residents will support the drive as they have since the Goodfellows started in 1945.

The money will pay for clothing, food, toys and candy distributed this year to needy children.

Proceeds from the sale of this special newspaper will also be used to assist children in various ways throughout the year.

Members of the Goodfellow committee are: Dr. Silverthorn, chairman; Dr. L. A. LaPorte, E. D. Jacques, Ivan L. O'Farrell, Edward Nelkie and John Hoshbach.

Starting December 15, the program was activated in the Counties of Oscoda, Ogemaw, Iosco, Gladwin, Arenac, Bay, Saginaw, Genesee, Tuscola, Huron, Sanilac, Lapeer, Oakland, Shiawassee, Midland, Roscommon, Alcona, Calhoun, Jackson, Hillsdale, Lenawee, Monroe, Washtenaw, Eaton, Barry, Kalamazoo and Branch.

During the tenure of the study in each area, state police officers investigating accidents report on special forms the specific causes of each injury sustained. Photographic coverage illustrates car damage and pertinent accident details.

Fire Struck Early Wednesday—

Fletcher Building Destroyed

An early morning fire Wednesday leveled the building housing the McArdle Body Shop and Lakeside Motor Sales on US-23 in Tawas City. The building was owned by the Fletcher Oil Company.

Discovered about 5:12 o'clock by Harold "Hi" Pierce, an employee of Consumers Power Company, the concrete block and frame constructed building burned to the

ground in less than an hour. Pierce said that when he turned in the alarm, flames had broken through the roof on the south corner of the building and the blaze was out of control by that time.

Pierce was joined by Nelson Thornton shortly after the alarm was turned in and the two men succeeded in removing one of Lakeside Motor Sales automobiles which was endangered by the blaze. Efforts to move other cars from the used car lot had to be abandoned because of the intense heat.

The two men said that several muffled explosions were heard, presumed to be drums of paint

thinner in the auto body shop. The Tawas City Fire Department poured water on the burning building for nearly two hours.

Three cars in the auto body shop were destroyed, along with all equipment and tools. Melvin McArdle, owner, said his loss was partially covered by insurance.

Lakeside Motor Sales had two 1957 model autos damaged by the blaze along with a late model pickup truck. All were parked near the building. John Coyle, co-

owner of Lakeside with Charles Quarters, said that all titles to their used cars were lost in the blaze along with other papers and office equipment. Coyle estimated Lakeside's damage at between \$5,000 and \$6,000.

The building was originally constructed by the late Frank Dease in the 1920s. When US-23 was widened through the business district in 1939-40, the building was cut in half and a new front constructed.

City Gives Property for New Convalescent Home

A 200-foot-square parcel of city-owned land near the Tawas Hospital is to be turned over to Mrs. Jane Vedmore as the site for her convalescent home, as the result of council action at Monday night's regular meeting.

The property, fronting on German Street, is the former site of one of the city's water pumping stations. The pump house has been discontinued since Tawas City began purchasing its municipal water supply from East Tawas.

Mrs. Vedmore, who owns and operates the Huron Convalescent Home on M-55, told councilmen that she plans to start construction next spring.

According to the plan, Mrs. Vedmore will have a period of one year in which to construct the building before a free and clear title to the land is turned over to her. This method is in line with past policies established by the council for making city-owned property available for worthwhile projects.

Her plans call for construction of a 150 by 40 foot concrete block building costing approximately \$50,000. It would be built along the lines of a small hospital.

In other business, City Attorney Allan Miller told the council that a check had been received from the Bay City Scrap Company for use of the city park dock while scrapping operations of the SS Western States takes place. Also included in the cost was a sum owned by the Western States Hotel Corporation for use of the dock

and drive during its ownership. Miller stated that the Bay City Scrap Company had been named as party defendant, along with the Western States Hotel Corporation and City of Tawas City, in an old lawsuit in Ingham County Circuit Court. This suit was initiated several years ago by the Michigan Department of Conservation which charged that the boat was occupying state-owned submerged lands.

The city attorney has notified the state attorney general's office of the scrapping operations now underway.

Cecil Cabble is New Chamber President

Cecil Cabble, Tawas City hardware man, was named president of the Tawas Chamber of Commerce at an election of officers of the board of directors last Wednesday night.

Elected to serve with Cabble are: Walter Champion, vice president; Bruce Myles, secretary; and J. Berkeley Smith, treasurer.

The board of directors expressed its approval of the good job performed by A. Don Anderson, retiring president, during his year in office and noted the many accomplishments made during the year.

The well drillers convention date has been changed to June 9-11. John Pinter and Anthony DeFilippi were named as co-chairmen to work with the housing committee.

Troopers 'Wear' Cameras—

Iosco Included in Auto Injury Research

Participation by the Michigan State Police and the Michigan Department of Health in a special study of the specific causes of injury in automobile accidents entered its fourth phase on Monday.

The study is an integral part of an inter-state program known as the automobile crash injury re-

search project of Cornell University. The program involves the participation of police and medical groups of 16 other states.

The Michigan-Cornell study is also approved by the Michigan State Medical Society and the Michigan Hospital Association.

Cooperating locally is the Mich-

igan State Police Post at East Tawas. Sgt. Frank Roti, post commander, said Monday that three new roll film cameras had been issued to the post for use during this project, along with special accident forms.

Beginning in 1956, automotive manufacturers have used data pro-

duced through this program as a basis for planning design changes aimed specifically at providing protection for car occupants during accidents. As a result, investigations of accidents involving these newer models showed a 29 percent reduction in the risk of dangerous through fatal grade injury in the samples studied.

Seat belt effectiveness in preventing or reducing injury, long a subject of speculation, has been conclusively demonstrated. Findings show that the use of seat belts can reduce the risk of moderate through fatal grade injury by as much as 60 percent.

Data from the Michigan program is collected in sampling areas which are selected to represent state-wide geographic, traffic and accident situations. Individual areas are studied for periods of six months each. The study is confined to rural areas.

Starting December 15, the program was activated in the Counties of Oscoda, Ogemaw, Iosco, Gladwin, Arenac, Bay, Saginaw, Genesee, Tuscola, Huron, Sanilac, Lapeer, Oakland, Shiawassee, Midland, Roscommon, Alcona, Calhoun, Jackson, Hillsdale, Lenawee, Monroe, Washtenaw, Eaton, Barry, Kalamazoo and Branch.

During the tenure of the study in each area, state police officers investigating accidents report on special forms the specific causes of each injury sustained. Photographic coverage illustrates car damage and pertinent accident details.

THE WELL EQUIPPED TROOPER—Troopers Warner Palmer, left, and Cornelius Bykerk of the Michigan State Police Post at East Tawas demonstrate what the well equipped state troopers in this area are "wearing" these days. Bykerk focuses a camera on an imaginary automobile accident while Palmer, with clip board in hand, jots down data about the cars involved in the accident. The local post is cooperating in the automotive crash injury research project of Cornell University.

Winter Ends Ore Shipping by Water

Water shipments of gypsum ore from United States Gypsum Company's port facilities at Alabaster ceased for the winter months on December 5. Last ship to clear the lake bin was the 9,000-ton lake carrier, Harris N. Snyder, of the Boland and Cornelius Line.

Maynard VanOrnum, works manager at Alabaster for USG, said Tuesday of this week that the number of ships loaded at Alabaster during the 1958 season was the same as the previous year.

"Business at the company's East Chicago plant has been very good during the past year, although the Detroit market has been off considerably because of automobile strikes," said VanOrnum.

"We have ceased our marine operations for the winter, although we will continue to ship cement rock and white goods by rail," said the works manager.

Alabaster will now go into its winter maintenance program to prepare for the next shipping season. Stripping operations at the quarry will continue.

Sgt. Roti Gives Standards for Use of Christmas Trees

Sgt. Frank Roti, commander of the Michigan State Police Post at East Tawas, announced today that the following standards for the installation and use of Christmas trees in school buildings and in places of public assemblage, where applicable, should be followed to meet with the approval of the state fire marshal:

Christmas trees shall not be used or set up in school buildings earlier than 10 days prior to Christmas vacation.

The locations of Christmas trees shall be restricted to the following locations, and only one tree at any one location; in the auditorium, in the multi-purpose room, in the kindergarten room or in the gymnasium.

No Christmas tree shall exceed eight feet in height.

All Christmas trees must be dismantled within 24 hours after Christmas vacation starts and removed from the building.

Before Christmas trees are set up, the trunk of the tree must be freshly cut at least one inch above the original cut and placed in a

container of clear water at least 72 hours before setting up.

When Christmas trees are set up, the only tree holder that shall be approved will be the type equipped with container for water, and the container must be kept filled with water during the entire time the tree is inside of the building. The tree must be substantially supported so that it cannot be easily tipped or knocked over.

If electric lights are used on the Christmas tree, they shall be those bearing the label of the Underwriters' Laboratories seal of approval for such use. If and when electric lights are used, they shall be lighted only when under constant supervision of an authorized and responsible person. (Under no circumstance shall a student be classed as a responsible person.)

All trees shall be located in a remote area of the room or auditorium and kept away from all exits or aislesways.

Under no circumstance shall Christmas trees be placed or set up in any hallway or corridor of any school building.

The use of candles, paper or other flammable decorations, regardless of whether they are flame-proofed or not, are prohibited.

NOTE: Any tree showing signs of unusual dryness shall be dismantled and removed from the building immediately.

HEALTH COUNCIL MEETS WITH MRS. RUTH GUEST

The Hale Chapter of the Michigan Health Council met Tuesday, December 10, at the home of Mrs. Ruth Guest. A paper was read on the subject of the month, "Tuberculosis."

Although approximately every six minutes some person is told he has this dread disease, individuals are assured of much shorter time spent in hospitals and sanatoriums thanks to new medical discoveries and research.

It is very necessary that everyone continue buying and using TB Christmas seals, to help science stamp out this dread disease.

The local council is in the process of purchasing a building to house sick room equipment and wish to announce at this time that the new fracture wheel chair and fracture bed pan are now available for use in this community.

Work is also being done to make the blood donor list up to date. This needs the cooperation of all persons who are available as donors. Please contact Mrs. Ruth Guest.

The next meeting will be held January 13 at the home of Mrs. Guest. All organizations interested in health council activities are urged to send a representative to these meetings.

By DOROTHY SCOTT
County Extension Agent

Mrs. John Krueger entertained the newly organized Huron Shore Extension Club in her gaily decorated home on Douglas Drive for their Christmas meeting December 2.

Each of the 11 members present participated in the program, giving samples of Christmas foods and ideas for decorations for the home.

During the business meeting, an election of officers was held, at which time the following people were chosen: Chairman, Mrs. Walter Wiedbrauk; vice chairman, Mrs. H. J. Haley; secretary-treasurer, Mrs. Charles Gaffney; publicity, Mrs. Howard Staebler.

The January meeting will be held at the home of Mrs. Gaffney. Miss Dorothy Scott will give the lesson on "Laundry Cosmetics" there on January 6.

Leaders chosen to take the lesson on glass etching for the February meeting were Mrs. Krueger, Mrs. George Westcott and Mrs. Staebler.

Refreshments were served by the hostess from a table beautifully decorated in the spirit of Christmas. Marie Staebler, reporter.

Are you needing ideas to keep the children busy and happy during the Christmas rush? Some things can be done by children to adorn the tree you will soon be trimming. Let me suggest a few.

Older children can make gingerbread men as Christmas tree ornaments to be eaten. Use a package of mix and let the children shape the figures and do the decorating with silver beads or cinnamon drops.

Glitter-wax stars are pretty and easily made. Assemble several sheets of very thin white paper, scissors, a box of glitter or "snow" and a package of ornament clips.

Melt some paraffin in a shallow aluminum pie plate. Let each child cut his own small star shapes from white paper. Dip each star into the warm (not hot) wax. Coat at once with the "snow" and let it dry. Insert an ornament clip and it is ready for the tree.

Strings of popcorn, small popcorn balls or cranberry strings are attractive do-it-yourself ways to trim the tree.

Paper cut-outs from colored paper or aluminum foil can be simple or elaborate. Painted or foil covered walnuts can be hung as ornaments. The round circles cut from tin cans as opened can be shaped into very pretty silver and gold decorations, various sizes, too. Be careful no one gets cut, though.

Two embroidery hoops covered with ribbon or tinsel will make a kissing ring when placed at right angles to each other. Trim it with a ball ornament and a bow, perhaps even a sprig of mistletoe inside.

String doughnut-like candies on four-inch lengths of thin wire and fasten them in circles to hang on the tree. Make "cinnamon chains" by pressing cinnamon candies to the sticky side of long strips of cellophane tape, then string from branch to branch. "Candy sticks" are made by attaching one large

gumdrop to one end of a colored toothpick and a smaller gumdrop or jelly bean to the other end, wire and attach to the branches. Candy canes, large and small, may also be hung, pretty now and edible later.

"Christmas finger paint" is made with a wintergreen scent. Mix one-half cup Limit starch with one and one-third cups boiling water. Stir in one-half cup of soap flakes when still hot. Add one tablespoon of glycerine and a few drops of oil of wintergreen for the nice smell. Use powdered poster paint in hand salt shakers. Let each child shake on the color he prefers as he uses the finger paint.

No Community Can Live Alone And Like It

No community can live alone and like it.

Economically, socially and culturally, each community is tied closely with its neighbors. Its school athletic programs are dependent on friendly relationships with other towns.

This same area interest extends to economic development. Areas are in keen competition for business and industry. What helps one community is beneficial to all other towns and cities in the vicinity.

If one town is primarily a commercial center, it has a great interest in the surrounding area which may be principally agricultural. The local businessmen cannot prosper if the farmers are neglected. The farmers cannot obtain the merchandise they need if the business center is neglected. Each has an interest in the other.

If a nearby community has the opportunity of obtaining a new industry, it is to the benefit of your town to do what is possible to have the new manufacturing operation locate nearby. The benefits will spread beyond the community in which the industry locates. If your town does not offer what a particular industry needs, it will be your advantage to assist a nearby community, with different industrial advantages, in obtaining the industry.

Industrial development does not permit of isolationism. It has been illustrated many times that how well an area fares in obtaining new industry depends, to a large extent, on the cooperation given by the communities within the area. The prosperity of each community is tied closely with the general well-being of the area.

Figures just released by the Michigan Department of Health showed that health departments are following the progress of 26,371 persons with active or inactive TB. A year ago 23,963 cases were under health department supervision in Michigan.

Dr. Hasty attributed the growing case load primarily to improved methods of treatment. Progress in treatment has saved many lives. It has shortened the necessary hospitalization time. Today most TB patients complete their treatment at home following a period of hospitalization.

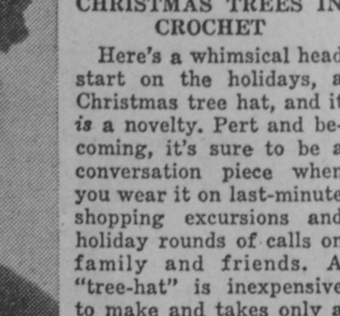

"Even with today's drug therapy, patients may suffer a relapse," Dr. Hasty explained. "For this reason the health department continues to follow a patient's progress for some time after he leaves the hospital."

In Iosco County 16 persons are under health department supervision, he reported. Two of these hospitalized and the remainder are at home.

Progress against TB has been aided immeasurably by the volunteer tuberculosis movement, he said. He praised the Michigan Tuberculosis Association programs in health education, case finding and research.

GEORGE CULHAM

Funeral services for George Culham, retired farmer of Cabri, Saskatchewan, and former resident of Iosco County, were held Thursday, November 18, at the Cabri United Church. Mr. Culham died the previous Saturday at the Swift Current Union Hospital.

Mr. Culham was born in 1881 at Galt, Ontario, and came to Tawas City with his parents in 1886. He married Miss Edna McLeod in 1904 and they went to Swift Current in 1906. In 1909 he took up a homestead in the Cabri district where he farmed until his retirement in 1952 and he and his wife established their residence at Swift Current. He was active in civic affairs and took a keen interest in the Cabri Boys Band, the Tuxis Boys and Trail Rangers. Mr. and Mrs. Culham observed their 50th wedding anniversary December 28, 1954.

Surviving are his widow; five sons, Lloyd and Russell of Regina, Glenn of Lloydminster, Donald of Ponoka and Bert of Cabri; 21 grandchildren; four sisters, Mrs. Anna Kirby of Decatur, Illinois, Mrs. May Laidlaw and Mrs. Rose Watts of Tawas City and Mrs. Ada Fahselt of Cabri; two brothers, Leo of Lethbridge and Allen of Batrurum.

Progress in TB Control Means Doubling Effort

Progress made in the effort to control tuberculosis is increasing the work of the health department and other agencies instead of decreasing it.

This paradoxical observation was made today by Dr. E. A. Hasty, Ogemaw County health director.

"Usually we think of progress as reducing needed manpower and cutting costs," he commented. "But progress against tuberculosis has meant a redoubling of effort to bring the public the full benefit of scientific advances."

He cited the increasing number of people under health department supervision for TB. These are people with active TB or people whose disease has become inactive but still need medical attention.

Figures just released by the Michigan Department of Health showed that health departments are following the progress of 26,371 persons with active or inactive TB. A year ago 23,963 cases were under health department supervision in Michigan.

Dr. Hasty attributed the growing case load primarily to improved methods of treatment. Progress in treatment has saved many lives. It has shortened the necessary hospitalization time. Today most TB patients complete their treatment at home following a period of hospitalization.

LETTERS to the EDITOR

Dear Editor:

Your excellent article, Public Service Advertisement Emphasized in "Selling Message," which appeared in the November 7 issue of The Tawas Herald has just come to my attention. It pointed out a most important aspect of industrial development for which you are to be commended.

May I take this opportunity to congratulate you on the article and to express my appreciation for your participation in the cooperative advertising program on industrial development which is sponsored by the Michigan Press Association and the Michigan Economic Development Department.

With best personal regards.

Sincerely,
W. M. Day
Chairman, Michigan Economic Development Commission

Dear Mr. Thornton,

I would like to express our appreciation for your help in making our Halloween UNICEF program a success. We have mailed a check to the United Nations Children's Fund in the amount of \$56.64.

Thank you again and to the many others who worked and contributed to UNICEF.

Very sincerely,
Mrs. L. C. Awalt

WITH THE IOSCO 4-H Clubs

By DOROTHY SCOTT
County Extension Agent

Did you find any 4-H Club news last week? It was there, but you really had to look for it, as readers of the home economics news column may have guessed.

It was a very cold night on November 29 when Peaceful Valley 4-H Club staged a square dance party, but people came, had fun and were not ready to go home when the time came. Profits to the club exceeded \$40.

Holiday projects and activities of Peaceful Valley 4-H Club are these: A \$5 donation to families of children whose fathers were lost in the Lake Michigan boat disaster; Christmas caroling on December 21; packing of boxes of goodies, fudge and cookies, for the "golden age" men and women in the Sand Lake area.

The December 2 meeting was held at Doak's hunting camp. Verna Kay Wehrman told fellow 4-H members about her junior leadership school experience.

NEWS ABOUT IOSCO SERVICEMEN

Specialist Fourth Class Warren Tanner of Fort Campbell, Kentucky, is spending a 17-day leave with his parents, Mr. and Mrs. Clark Tanner Jr. of Tawas City. Tanner, who has five months to go on his three-year enlistment, is a member of Headquarters Company, 327th Airborne Battle Group, 101st Airborne Division. He will return to Kentucky on December 28.

Needlecraft News by Nancy Baxter

One of a homemaker's most valuable possessions is something you seldom actually see or touch—not directly, anyway. It's the imagination that goes into every new recipe, every new decorating touch around the house. I'm sure we all welcome good ideas, any time. But right now we're fast nearing the season when a "new twist" is in greatest demand—something different to center this year's mantel or dining table, a fresh approach to gift wrapping. I know what a struggle this can be. Novel ideas are hard to come by and often add up to quite a bit of money, too.

CHRISTMAS TREES IN CROCHET Here's a whimsical head start on the holidays, a Christmas tree hat, and it is a novelty. Pert and becoming, it's sure to be a conversation piece when you wear it on last-minute shopping excursions and holiday rounds of calls on family and friends. A "tree-hat" is inexpensive to make and takes only a very few hours of TV time, while you're watching your favorite programs. Starting at the top, it's worked down in a spiral of basic stitches. The color is a rich, deep green. And bright little Christmas bubbles and bells top it off with the sights and sounds of holidays ahead.

A HOLIDAY CHEER-SPREADER Originality counts in other ways at Christmastime, too, especially when you're choosing gifts: the little, just-for-fun items for parties, children's stockings, or bazaars. I'd like to suggest today's pattern to fill this bill, as well as for holiday fun around your own home. I think you'll enjoy it. To receive the free instructions, just send a stamped, self-addressed envelope to the Needlework Department of this newspaper and request Leaflet No. PC-9683, CHRISTMAS TREE HAT.

Bishop Officiates—

150 Witness Ordination Ceremonies

Saturday, December 6, 150 persons witnessed the ordination of Russell H. McKenzie, to the Sacred Order of Deacons, by the Rt. Rev. Archie H. Crowley, suffragan bishop of the Episcopal Diocese of Michigan, in Christ Episcopal Church, East Tawas.

Participating members of the clergy included the Very Rev. Gilbert Runkle Jr. of Trinity Church, Alpena, who acted as master of ceremonies; the Rev. Canon Warner L. Forsyth of St. John's Church, AxSable, who preached the sermon; the Rev. Charles E. Edinger of St. James' Church, Cheboygan, who read the preface; the Rev. Paul E. Sutton of Christ Church, East Tawas, who presented Mr. McKenzie to the bishop; the Rev. Ernest St. Andrew of Calvary Church, Hillman, who read the Litany for Ordinations; the Rev. Colin Campbell of St. Andrew's Church, Gaylord, who acted as the bishop's server; Gerald R. McKenzie, son of the ordinand, who read the Epistle.

Visiting members of the clergy included the Rev. John Porter, chaplain to Episcopal students at Michigan State University, East Lansing; the Rev. Alfred Salsbury of St. Paul's Church, Gladwin; the Rev. Eric Kast of Grace Church, Standish.

In addition to the many guests from the Tawas and the immediate surrounding areas, Mr. and Mrs. Norman C. Schuster of Saginaw were in attendance. A reception in honor of the ordinand and Mrs. McKenzie was held in the parish hall following the ordination, sponsored by the members of the Woman's Auxiliary of Christ Church.

CHRISTIAN SCIENCE—

"Is the Universe, Including Man, Evolved by Atomic Force?" will be the subject of the lesson-lesson at Christian Science services Sunday.

Matthew's account of the coming of the Magi to Bethlehem at the time of the Nativity of Christ Jesus will be among the Bible Readings.

Selections from "Science and Health with Key to the Scriptures" by Mary Baker Eddy will include this: "The divine origin of Jesus gave him more than human power to expound the facts of creation, and demonstrate the one Mind which makes and governs man and the universe" (539:27-30). The Golden Text is from Psalms (86:9,10): "All nations whom thou hast made shall come and worship before thee, O Lord; and shall glorify thy name. For thou art great, and doest wondrous things; thou art God alone."

Kind words and sincere sympathy seldom take the place of bread to eat.

Christmas Costs Less at Armour Star TURKEYS

The Armour Star turkey is a sure exclusive to a big success this Christmas. Every bird is broad breasted with more white meat. Makes for easier carving, too, because most tendons are removed. And this bird is not just half cleaned but completely table dressed so it's ready for the oven. Looks like your best bet this Christmas is a turkey from Kroger named Armour Star.

LADIES LITERARY CLUB HOLDS CHRISTMAS TEA

The Ladies Literary Club held a Christmas tea at the club rooms last Sunday afternoon. The rooms were decorated with Christmas greens, red and white candles and Christmas scenes with figurines depicting the Christmas story. Tiny Christmas trees with lights were also used. Some of the room decorations were brought by Mrs. Ann Wagner.

The program chairman was Mrs. William MacFarlane. She gave introductory remarks on the observance of Christmas and stories of the writings of some of the famous Christmas carols including "Silent Night," "O Little Town of Bethlehem," "Joy To The World," "O Holy Night" and "Once in Royal David's City."

Miss Ruby Evans sang "There's a Song in the Air" and "Many Years Ago on Bethlehem Hill." Mrs. Rex Kochenderfer was pianist. Carols were sung by the group.

Hostesses who greeted guests and served refreshments were Mrs. L. G. McKay Sr., Mrs. Roy Griffin, Mrs. Harvey Watson, Mrs. T. S. Dimmick, Mrs. Ernest Mielock, Mrs. R. J. Cooke, Mrs. J. E. LaBerge and Mrs. Norman Merschel. Mrs. T. M. O'Loughlin presided at the serving table. Punch, Christmas cookies, fruit cake and assorted nuts were served.

The table was decorated with a Christmas cloth, candles and a beautiful centerpiece arrangement by Mrs. Dimmick.

The next club meeting will be held January 21 at 7:00 p. m. This meeting will be an anniversary pot-luck dinner and fun night. Mrs. Cecil Cabbie will be the program chairman.

VFW AUXILIARY HOLDS CHRISTMAS PARTY

The VFW Auxiliary meeting last Monday evening, December 15, was in the form of a Christmas party. A chicken dinner was served with 21 members present.

The past presidents of the auxiliary were honored; namely, Mrs. Naomi Bennett, Mrs. Ruth Gauthier, Mrs. Dorothy Thompson and Mrs. Muriel Davidson. Secret pals were revealed and gifts were exchanged. Money earned by the auxiliary for articles sold was donated to the American Cancer Society.

Following the meeting, a kitchen shower was held for Mrs. Donald Warner of Sand Lake, who recently lost her home by fire. The next meeting of the auxiliary will be on January 12.

IOSCO SCD NOMINATES DIRECTOR CANDIDATES

The December meeting of Iosco Soil Conservation District board of directors was held this week. Each director brought a member to serve on the nominating committee. This committee selected four candidates for the two directors offices to be filled at the annual meeting. The four men nominated were: Harry Krueger, Lyle Bielby, Howard Britt and James Sturtevant.

The district accomplishments for the past year were discussed and plans and goals were set up for 1959. The directors feel that this district should continue to put more conservation on the land in each year.

Basic soil and water conservation plans will continue to be a very important part of the district program for the coming year. This should be a goal for each co-operator of Iosco SCD to work toward completing his soil and water conservation plan.

Elmer Anschuetz will operate the district tree planters again next year. Anyone wanting trees planted should contact him. He will also have tree order blanks.

Tawas Area Edges Arenac Central

Pinconning to Meet Braves Here Friday

In its closest squeak thus far this season, the Tawas Area Braves edged Arenac Central, 53-48, Saturday night to run its win streak to three consecutive games.

In three years of conference play, this was the first time that Tawas has defeated Standish, now Arenac Central since reorganizing with Sterling, on the latter's home floor. The game was staged at Sterling.

In comparison with their other two games this season, the Braves were as cold as ice on their shooting percentage. A press defense used by Arenac Central threw a monkey wrench into the Braves usual fast-breaking offense.

On the other hand, Arenac Central was able to solve the riddle of the Tawas defense on occasional close-in shots. With a home court advantage, Arenac Central scored most of their field goals from far out.

Principal boon to the Braves defensive play was the rebounding of Center Bob Watts, who picked off 14 out of 22 from the backboards.

Both teams had three men who hit double figures in scoring, but the scoring edge for Tawas came with 13 points scored between the two other Braves regulars.

Bill Mick and Ray Moore topped the Tawas scoring attack with 15 points each, followed by Watts with 10.

Doug Dudley, Arenac Central guard, was high for both teams with his 17 points. He was followed by Bessinger with 14 points and Pestrue with 10.

Tawas Area took a 11-9 advantage in the first quarter and held a 25-23 lead at halftime, both teams having scored 14 points in the second quarter.

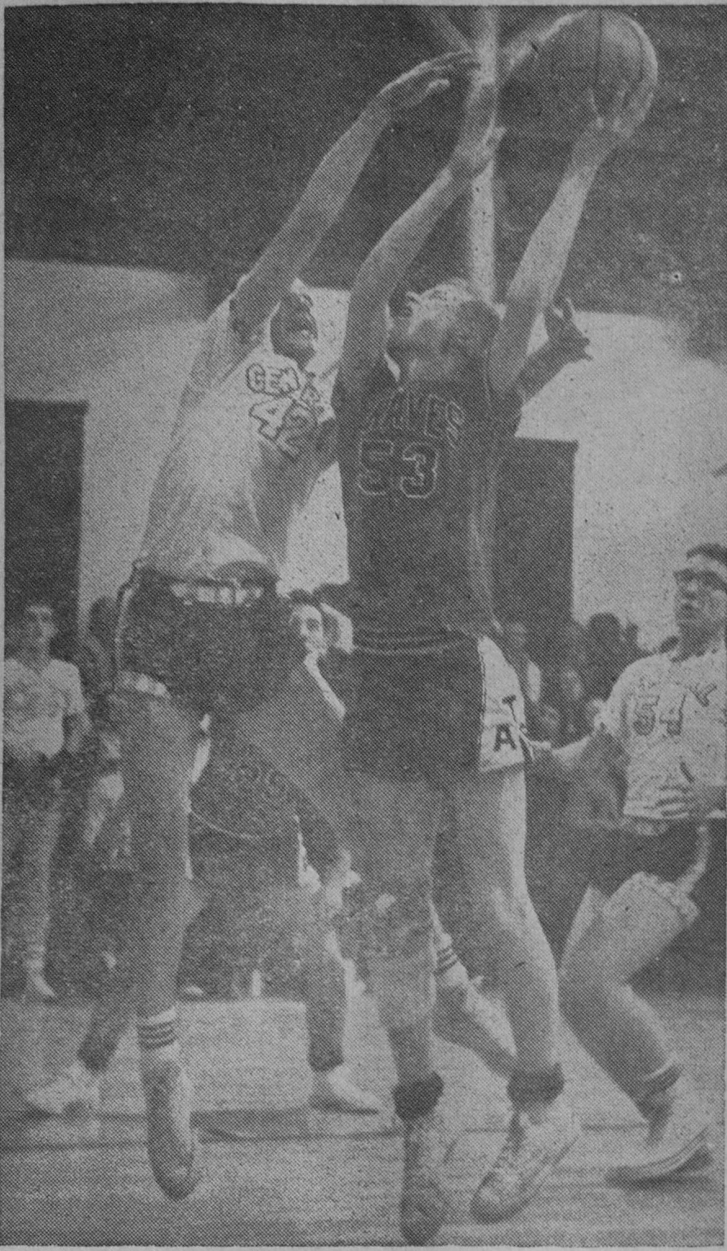

By virtue of a 17-13 scoring edge in the third quarter, Tawas was able to squeak by when Arenac Central outscored them in the final quarter, 12-11.

With only four minutes left in the game, Central came within two points of tying the score, but three points from the free throw line and a field goal gave Tawas the margin of victory.

This Friday night's action will find Tawas Area tangling with Pinconning at the Tawas Area Auditorium. Pinconning did not figure heavily in pre-season ratings among conference schools, but has proven to be a powerhouse with three consecutive wins. The Spartans knocked off favored Roscommon and Houghton Lake.

Hale Upset by Mio After Two Straight Wins

Hale lost its first game of the season last Tuesday, after posting two consecutive victories, to Mio, 41-35. It was a close game with Hale leading, 20-19, at the half. After the intermission Hale Area fell behind and never regained the lead.

Free throws were an important factor for Mio as it scored 17 while Hale scored but three. From the floor, Hale outscored its opponents, 16-12.

Hale's JV squad won its third game in a row by the score of 45-24. Fourteen players saw action with Gordon Thayer hooping the nets for 11 to lead the Hale scoring brigade. Wyckoff led Mio, also with 11.

Houghton Lake Stalled in Bid by Pinconning

Pinconning stalled Houghton Lake's bid for the lead in the Northeastern Michigan Conference last Friday night, turning back the Bobcats, 58-50. The win gave the Spartans the top rung in league standings and put big importance on their coming game with the Tawas Area Braves this Friday night as the Braves stand a game behind and are also undefeated. Arenac Central lost to the Braves on Saturday night at Sterling, in a close contest, 53-48. West Branch and Arenac Eastern posted initial wins on Friday night, the former dropping Beaverton, 39-30, while

the latter was defeating Gladwin, 56-45. Top scorer for the week was Center Tom Cluff of the league leading Pinconning quint, who had 11 field goals and three free throws for 25 points. Second man was Forward Dave Robinson of Arenac Central with 20 points on six and eight. Lee King, top scorer in the conference, had 10 to boost his season's total to 69.

Games on tap for this coming Friday night include Roscommon at Arenac Eastern, Arenac Central at West Branch, Gladwin at Houghton Lake and Pinconning at Tawas Area.

Pinconning grabbed a close, 12-10 first quarter lead but fell behind in the second period when the Lakers came out on top with a 15-10 count to hold a 25-22 intermission bulge. A quick flurry of buckets as the third stanza opened put the winners back in front where they remained to the final whistle. A 19-11 third quarter score followed by a 17-14 final period tally wrapped up the victory for the Spartans.

Cluff was high with his 25 points followed by the Laker's forward, Lyle Carrick, with 17 on seven and three. Dick Marter and Lee King, both forwards for the winners, came next with 13 and 10. In the preliminary contest, Houghton Lake swamped the Pinconning JV quint. West Branch turned back a taller Beaverton five to gain its

first win of the season in a low scoring match on the Beaver's court. The Orioles started with a 11-7 first period tally and left the floor at the intermission holding a 21-17 margin after a 10-10 second quarter. The winners added to the margin with a 11-6 third stanza count and knotted the last period at 7-7 to take their first victory.

Center Larry Brown of the losers was high for the game with 12 points on a four and four tally. Forward Gene Hutchins of the Orioles and Guard Pat Kalahar of the Braves tied for the runner-up spot with 10 each on identical scoring of four and two. Center Keith led the West Branch JV quint to a 41-24 win in the preliminary, despite a 13 point mark set by Forward Broka of the losers.

Big second and third quarters turned the tide in favor of Eastern in its game at Gladwin. The Flying Gs copped the first quarter at 16-14 but fell behind at halftime, 34-29, when the Eagles came up with a 20-13 second canto score. A 13-6 third period tally added to the winner's margin and the 10-9 count by Gladwin in the final quarter was not enough to overcome the lead with the losers going down to their third defeat.

Robinson was top man for both fives, turning in 20 points, with Guard Rod Kigar of Gladwin runner-up with 17 on six and five. Forward Dave Syminski and Guard

Bill Olar had 14 and 13 for the winners with Howard Smith, guard, getting 10 for the losers. Ron Pratt led the Gladwin JV five to a 34-32 win in the preliminary game by posting 15 points.

Hale Eagles Lost to AuGres Friday Night

In a loosely played ball game, Hale lost to AuGres, 59-29, last Friday. With fouls constantly stopping their efforts, Hale was never in the ball game. AuGres took advantage of the situation and lengthened the lead in each quarter. Hale's shooting average was only 10 out of 78 for 11 percent, while AuGres hit 17 out of 60 for 28 percent.

Hale's JV won its fourth game in a row with a 37-33 victory. Woolever led Hale with 10 points while McGough had 11 for AuGres.

Preliminary Tests Given Civil Air Patrol

Drills and a preliminary test were given to members of Civil Air Patrol at the December 10 meeting. The group also was shown a movie on the first chapter of "Air Force."

Civil Air Patrol meetings are held each Wednesday evening at Tawas Area High School.

Tawas Area JV Wins Over Central for Third in A Row

Hitting on 38 percent of its field goal attempts, the Tawas Junior Braves defeated Arenac Central Junior Varsity, 49-41, Saturday night.

The Junior Braves jumped off to a 12-7 first quarter lead and held the top scoring rung the rest of the way.

Long and Rollin led Tawas with 14 and 11 points, respectively. Hertzberg topped the Central scoring column with 10 points.

AuGres Defeats Cards

The Whittemore-Prescott Cards, fresh from a 43-25 victory over Arenac Central, went down to defeat last Tuesday at the hands of AuGres, 53-38.

The Cards stayed on an even keel with AuGres for the first two quarters, the halftime score reading 21-19 in AuGres' favor. A 32-point scoring barrage by AuGres in the second half put the game on ice.

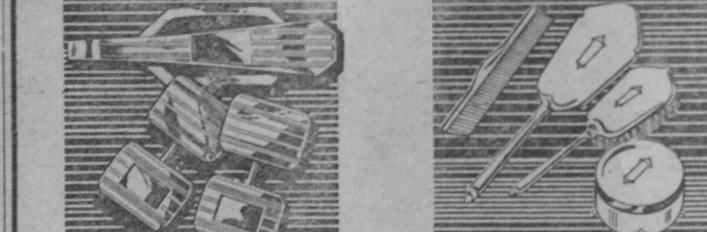

AuGres had two men who scored in double figures, Woods with 20 points and Manor with 17. St. John led the Cards with 16 points.

Whittemore-Prescott Reserves downed AuGres by a 39-29 score. Gibson was high for the winners with 17 points while Pawlacz topped AuGres with 11.

Farm Events

By MARVIN DAVENPORT
Iosco Agricultural Agent

Thursday, December 18—Farm Policy Workshop, Logan Township Hall, 10:00 a. m. until 3:00 p. m.
Monday, December 22—DHIA meeting at Robert Ruckle's home.

Now is a good time for farmers to have their cows pregnancy tested. It can help Iosco County farmers save some of those hay dollars.
Donald McWade, veterinary pathologist at Michigan State University, agrees that there are two good reasons for having the pregnancy examination done during the fall. First, by culling undesirable open cows now, you can avoid the cost of feeding an unproductive animal through the winter. Secondly, cows usually are in good condition at this time of year to bring a good price on the beef market.

A new dairy farm profession is needed in Michigan. It is that of a "cow sitter." Like parents who like to get away from the children occasionally, dairy farmers want to take a breather from that twice-a-day, everyday-in-the-year job of milking.

According to Donald L. Murray, extension dairy specialist at Michigan State University, most dairy farms in the state are now one-man operations plus some family assistance. This means that the farmer must be there for every milking. Many farmers have called this tied-down situation a real drudgery in dairy farming.
"For instance," says Murray, "one dairyman just pointed out to me that he had not missed a milking in 12 years and he would like to arrange for an occasional weekend off or a week's vacation once in awhile—a good thing for both he and his family."

The "cow sitter" profession could be a profitable occupation and a great need. Some farmers are talking of expanding to a two-man operation just so they can have a regular helper to allow for time off. This "sitter" arrangement could make possible more freedom and yet allow a one-man or family operation. Most dairy farms in the state will continue to be one-man or family-size herds of about 25 to 40 cows for many years in the future.

Again, like parents looking for a baby sitter, it is hard to get someone to do the job as well as the herd owner. But an experienced cow man could do a satisfactory job and could soon develop a sizeable clientele.

If farmers want to try out the "cow sitter" idea, you will need to organize the milking chore. Cows ought to be clearly identified with neck chain numbers or by some other satisfactory system so that the "sitter" can easily tell them apart. A current list of cows in milk along with weight records are other helpful arrangements that the farmers can make.

Some farmers may already be trying the "cow sitter" idea but more of it could be done in many areas of the state in answer to a great need.

A nationally prominent food expert once recommended a rhubarb juice chaser for each bottle of soda pop.

It is really not surprising that his suggestion never caught the public fancy. But the story behind it is a fascinating one! John Carew, extension horticulturist at Michigan State University, says many phosphate soft drinks are highly acid. Experiments with rats have shown these drinks to be harmful to teeth. Rhubarb juice will coat teeth with harmless acid that protects them from the action of many of these acids. So rhubarb is not only delicious dessert but a very healthful one.

Carew says most of us take rhubarb for granted. It is easy to grow in the home garden and is not a leading sales item on the produce counter. Nowadays we forget its past history as a medical plant and as an old-fashioned spring tonic. It would do us good to eat more.

The Michigan rhubarb season starts in January. Yes, . . . right in the middle of winter when locally grown fresh produce is most scarce. And it comes most from Macomb County, the center of the United States hothouse rhubarb industry. In Macomb County about 300 families produce five to six million pounds of bright red hothouse rhubarb each year for sale all over the East and Midwest.

To further the research on this important product, rhubarb producers held their first international meeting on December 11 in Cleveland, Ohio.

SHOPPING'S A HOBBY with some people. They like nothing better than a long store-by-store hunt for a bargain. For the rest of us shopping is one of those things that just has to be done. So we put it off until the last moment—especially at Christmas—then find ourselves rushed for time. The Yellow Pages directory can make your last-minute shopping much easier. It lists the names and phone numbers of local dealers. Do your searching in the Yellow Pages—and save yourself valuable time.

TALKING OF CHRISTMAS SHOPPING, why not give your family a gift that's useful year-round, smartly styled—comes in a choice of nine decorator colors? Sounds expensive but it isn't—costs only about a dollar a month after a small installation charge. It's an extension phone—the gift that speaks for itself. One in the bedroom, kitchen or laundry room will save time and steps year after year. And each time it does, your family will bless you for your thoughtfulness. Just pick up your phone and order a phone.

WHEN SPEAKING to each other, Long Distance operators usually use a code (it speeds your service). "D-A" means the party doesn't answer; "B-Y" means the number is busy and so on. An operator was stumped recently when another operator informed her that the number being called was "O-M-C." "What does that mean?" she asked, mystified. "Out milking cows," came the reply.

THIS LITTLE STORY has a point. The telephone system for all its size is actually a network of small local offices. Each is adapted to the needs of the neighborhood and run by the folks who live nearby. Despite automatic equipment of great complexity, it is still people who make telephone service good.

A VERY HAPPY CHRISTMAS to you. And may all your telephone calls in 1959 be happy ones.

NO TOWN IS AN ISLAND

No town lives alone. It lives with its neighbors and must work with its neighbors. Its people should take an interest in the things that are good for the area and should take part in programs for development of the area.

The competition among areas for business and industry is hot and growing hotter. How well an area fares in this competition usually depends upon how well the towns of the area work and live together.

It is almost always true that as the area goes, so goes the town.

Join hands with your local industrial development organization and the Michigan Economic Development Department to help your community prosper.

Proclamation

The Practical Nurse is ever seeking to serve the community and the state.

The Practical Nurse is one of a group whose purpose is to improve nursing services throughout Michigan. Practical Nurses are making valuable contributions to the health and well-being of Michigan citizens in every community of the state.

The profession of Practical Nursing has become an integral part in the team of those concerned with raising health standards in every Michigan community.

Therefore, I, G. Mennen Williams, governor of the State of Michigan, do hereby proclaim the week of December 15, 1958, through December 21, 1958, as Practical Nurse Week in Michigan, and urge that all the people of our state join in recognizing the valuable contributions of Practical Nurses in their communities.

Given under my hand and the Great Seal of the State of Michigan, this Fourth Day of December, in the year of Our Lord, One Thousand, Nine Hundred Fifty-Eight, and of the Commonwealth the One Hundred Twenty-Second.

CELEBRATES 50th YEAR OF METAL AUTOMOBILE PLATES

In 1909, Michigan celebrates its 50th year of metal automobile plates.

According to James M. Hare, secretary of state, the law requiring vehicle licenses was passed in 1904. During the first full year, 2,188 intrepid pioneers registered their gasoline buggies. This compares with almost three million passenger cars registered last year.

The first standard plates, which were black and white, were manufactured in Jackson Prison in 1910. These first plates were porcelain. Today, Michigan's license plates are still being manufactured by the Michigan State Industries Branch of the Corrections Department.

In 1905, before plates were issued the motorist received a metal disk which he affixed to the dashboard of his automobile.

However, motorists were urged to put bronze registration numbers on a leather strip and to hang it on the car axle.

In 1905, the total revenue for vehicle and chauffeur's licenses was less than \$7,000. Last year the total income from motor vehicles, operators and chauffeurs' licenses was more than \$70,000,000.

In 1905, the vehicle fee for autos was \$2 but a chauffeur's license selling for \$1 was also in a package deal at the same time.

A display of each metal plate used for the past 50 years as well as examples of the brass disk and the leather plates are on exhibit on the ground floor of the state capitol in Lansing. It is a favorite stop for the thousands of youngsters who visit the capitol on school trips each year.

Christmas Tree Festivity Center

Today the Christmas tree is the center of festivities. Topped with a star and glittering with lights and ornaments, it is part of the beauty and meaning of the Christmas season.

How did the Christmas tree come to play such an important part in the observance of Christmas?

Greens were brought into the home to provide a haven for friendly spirits, so that they might share in the feast of the winter solstice.

Even after the pagan significance was forgotten, this custom survived among a people who loved the color and fragrance of fresh greens.

Legend traces the first lighted tree to Martin Luther, who used lights and decorations to reproduce the beauty of evergreen as seen on a snowy Christmas night.

The custom was imported into this country, and the first record of the use of Christmas trees in America, was by Hessian soldiers, who came from Germany in 1776, during the American revolution.

In 1804, a Christmas tree was mentioned as part of the celebration at Fort Dearborn, where Chicago now stands.

Slowly, over objections, the custom was assimilated and became part of the American Christmas in the latter part of the nineteenth century.

Today, as jolly old St. Nick comes sliding down the chimney, he more than likely finds himself in a room with a gaily decorated Christmas tree as tall as the ceiling will allow.

BECOMES MEMBER OF NATIONAL HONOR SOCIETY

Tawas Area High School has been accepted into membership of the National Honor Society of Secondary Schools, it was announced Monday by Principal Ernest Jordan.

A chapter is being organized at Tawas Area School and will have a membership of some 34 students. Object of the organization is to create an enthusiasm for scholarship, to stimulate a desire to render service, to promote worthy leadership and to encourage the development of character in students.

Eight members of the faculty are now selecting the membership, which is limited to five percent of the sophomore class, 10 percent of the junior class and 15 percent of the senior class.

The National Honor Society, in its growth and influence in many thousands of schools since 1921, has established for these schools the following high professional aims and goals for secondary education:

1. An encouragement of a desire for students to render service to the school and community;
2. A plan for self-evaluation of the student of the potential elements of leadership qualities within him;
3. A stimulus to the student to observe and practice those acts of others that develop strength of character;
4. An encouragement to the students to continue his learning and education.

SHOWN RECEIVING a certificate of award is Mrs. Joseph Dimmick of East Tawas. John A. McNeil, field representative from state Selective Service headquarters, is at right.—Herald Photo.

Mrs. Dimmick Is Honored

Mrs. Alice R. Dimmick, East Tawas, clerk of Local Board No. 36, has been honored with a certificate of award issued by the National director of Selective Service, Gen. Lewis B. Hershey.

The award was made to Mrs. Dimmick in recognition of her interest in the work of Selective Service as evidenced by her contribution of a suggestion for improvement of Selective Service operations which has been adopted. Mrs. Dimmick's suggestion will result in the improved indexing of national headquarters directives.

The award was presented to Mrs. Dimmick in a ceremony last Thursday at the local board office.

Sets Off Alarm in Gas Station Burglary

A burglar was apparently frightened away when he set off an alarm system at the Harry Rollin service station in Tawas City last Friday night. When Rollin opened his station for business Saturday morning, he found that the front door had been kicked in. Investigating officers said that batteries which operated a burglar alarm were completely run down. No one heard the alarm device, other than the burglar.

Five Persons Sentenced by Judge Dehnke

Five persons were sentenced by Judge Herman Dehnke in Isosco County Circuit Court during the past week.

James G. Styes was sentenced to the Detroit House of Corrections for a period of eight months on conviction of entering a vacant dwelling house.

Levi Walker, who entered a plea of guilty to breaking and entering, was placed on probation for a period of two years and ordered to make restitution of \$27.65 before September 1, 1959.

Harold D. Tipkey, who pleaded guilty to breaking and entering, was placed on probation for two years and sentenced to serve 30 days in the county jail. He was ordered to pay costs of \$100, in two installments, and pay restitution of \$27.65.

Willard Kahgegab, who entered a plea of guilty to breaking and entering, was placed on probation for one year.

Ernest Wingrove was placed on probation for two years and ordered to pay costs of \$100 for an indecent liberties conviction.

Pleas of guilty were accepted from Thomas Zaharias, Ronald Colburn and Clare Birkenbach on charges of breaking and entering. Their cases were referred to the probation officer for pre-sentence reports.

THREE PERSONS INJURED IN 2-CAR COLLISION

Three persons were injured in a two-car collision on US-23 north of East Tawas last Thursday afternoon. The crash occurred in front of the Clark Farm Store in Baldwin Township.

Injured and treated at Tawas Hospital were: Isaac Sauve, 76, and his wife, Minnie, of Oscoda, and William McNally, 49, of Bridgeport. All were bruised but not seriously injured.

Investigating officers said that Sauve, headed north, made a left turn into Clark's driveway. He did not see McNally in his south-bound car and struck the Bridgeport man's car in the left side.

DONLEY ACCEPTED INTO NATIONAL SKI PATROL

Robert Donley Jr., 19, son of Mr. and Mrs. Robert Donley of Tawas City, was accepted into the National Ski Patrol as the result of a proficiency test which he passed December 19 at Boyne Mountain.

Donley, who attends Wayne University, is the first person from this area ever to pass the test. It included tests in first aid, skiing and rescue work.

Because of the important service performed by ski patrol members, most ski parks in the nation honor them by allowing them to ski at no cost on their slopes. Each member wears a distinctive rust-colored parka, indicating that he is qualified in first aid.
