Judge to Decide in March—

Port Gypsum Trial Concluded

Trial of the Port Gypsum case in Isosco County Circuit Court was concluded after three days of testimony last Thursday. Judge Herman Dehnke adjourned court until later in March at which time he will hand down his decision.

National Gypsum Company is presently constructing a conveyor belt tramway from its lake shore loading site south of Tawas City to a point off-shore where lake carrier vessels are to be loaded with raw gypsum rock. This rock is to be obtained from its new quarry.

The plaintiffs, Dr. Malvern Obrecht, Arthur Johnson, the Rev. Fr. Robert Neuman and directors of the Lake Huron Shore Property Owners Protective Association, are attempting to secure from this court an injunction to prevent its construction on the grounds that it will constitute a nuisance per se, as well as lowering property values.

The Michigan Conservation Department is also entered in the case as an intervenor. It bases its objection on the grounds that the company does not have the right to construct its installation on or over the lakebed, without receiving permission from the state.

On the last score, counsel for National Gypsum Company maintains that the company does not need the permission of the state to wharf to navigable waters because of the common law of upland owners and, if it does, the state legislature has provided a special bill directing the conservation department to turn over title of the submerged lands to the company.

Before adjourning Thursday

afternoon, Judge Dehnke instructed counsel to prepare briefs on the case and to have them in his hands by March 10. He cited several questions in his mind regarding the case which he asked counsel to consider in their briefs and he made a few general statements about the case.

"This conflict must be resolved," he stated, "by either granting an injunction, either for the purpose of protecting the state's interest or authority, and/or to protect the private owners from what they consider a nuisance. Or, we must find some less drastic solution which will reasonably protect the rights of all."

"I am concerned with the importance of this case and some of the problems it presents," said Judge Dehnke. "What makes this case an especially difficult one is that it presents a clash or conflict of substantial and important rights."

"We have to consider first, the obligation of the state, the use of Great Lakes waters for fishing, fowling, recreation and other valuable features for use of the general public."

"I recognize the importance of those rights and the duty of the state to protect its trust obligation," he stated. "And the attorney general is in a position where he is chiefly responsible to see that this is done. I am in no sense finding fault with the attorney general or his representative here on that score. I recognize that is the only thing he can logically do is to take the most extreme position on what he thinks can most plausibly and reasonably be defended and supported."

"Secondly, we are dealing with the rights of property owners—private individuals, in the area they might be affected and the right to be protected against damage or harm, either as to the usability, comfort or value of their property in which they have invested their funds, or on which they rely for their livelihood, or to figure on a place to live all or part of the year."

"And thirdly, we have to deal with the right of the defendant

Iosco Red Cross Campaign Moved Underway Monday

The American Red Cross annual fund drive in Isosco County got underway Monday at a meeting of the usual loyal workers held in the home of Mrs. L. G. McKay Sr. The fund raising campaign starts March 1 under the direction of Mrs. Charles Hill of East Tawas.

A discussion was had about Civil Defense and the part of the American Red Cross will have in this most important and serious problem in this area. Isosco County is now considered a critical area and without question more funds will be required for both defense and Civil Defense, in addition to the continued needs of the home service department for servicemen.

Please give generously when the volunteer worker calls. It becomes more difficult each year to cover the county and maintain Isosco County funds, so if anyone is going to be away, he is requested to send his contribution to the chairman responsible for his district.

A more comprehensive list of workers will appear later. Listed below are some of the chairmen for the various districts.

Tawas City—First Ward, Mrs. Gordon Brigham; Second Ward, Mrs. Arthur Wendt; Third Ward, Mrs. Gordon Penman and Mrs. Percy Thornton. Tawas City business district will be handled by E. D. "Ted" Jacques.

East Tawas—First Ward, Mrs. Blanche Carlson; Second Ward, Mrs. Fred Teeple; Third Ward, Mrs. J. E. LaFerge; East Tawas business section, Robert Elliott Jr.

Area Boy Scouts under the leadership of Scoutmaster Carl Eckman will distribute Red Cross posters to the various places of business.

Water Board OKs Elms Ave. Sewer Mains

At Monday night's regular meeting, the Tawas City Water Department authorized purchase of sewer pipes for extending sewer mains on Elms Avenue in Crocker Subdivision.

Some 1,100 feet of sewer mains are to be constructed as soon as weather permits. It is to be built on a property owner-city participation basis. Cost to the property owner will be \$165 per connection.

This particular area will get water main extensions later in the year, under the water revenue bond issue which was passed by the council recently. These bonds will also finance construction of water mains to hook up with East Tawas mains, when Tawas City will purchase water from that city's new water filtration plant.

Almsy, a native of Youngstown, Ohio, has spent 15 years in Alaska. He was in the United States to purchase two airplane engines and to promote his outfitting and guides business.

About 40 persons attended a color slide program given by Almsy at Hasty's home in West Branch Tuesday night. Attending from Tawas were Gould, Neil Luedtke, Bert Stoll and Harry Krueger.

The first place winner in sports was entitled "I've Got It!" showing Ray Guyette of the Tawas Area Braves taking a rebound off the backboard in the Tawas-West Branch basketball game.

WEATHER TOO WARM, TOBOGGAN SLIDES CLOSE

Because of warming weather conditions, toboggan slides at the Silver Valley winter sports area in Huron National Forest were closed for the season Sunday was the last day of operation for these facilities.

Should the area receive more snow, the ski area will remain open.

Despite thawing weather conditions, a fair crowd was on hand for winter sports activities at the park last Saturday and Sunday. By late Sunday afternoon, however, skiing was not up to par.

MEMBERS OF THE newly-formed Whitemore-Prescott Area School District administrative council are pictured above. The new council discusses school problems and recommends policies.

W-P Makes Administrative Changes

Consolidation of the new Whitemore-Prescott Area School District, effective in March last year, caused some vital changes in the organization of a larger administrative unit.

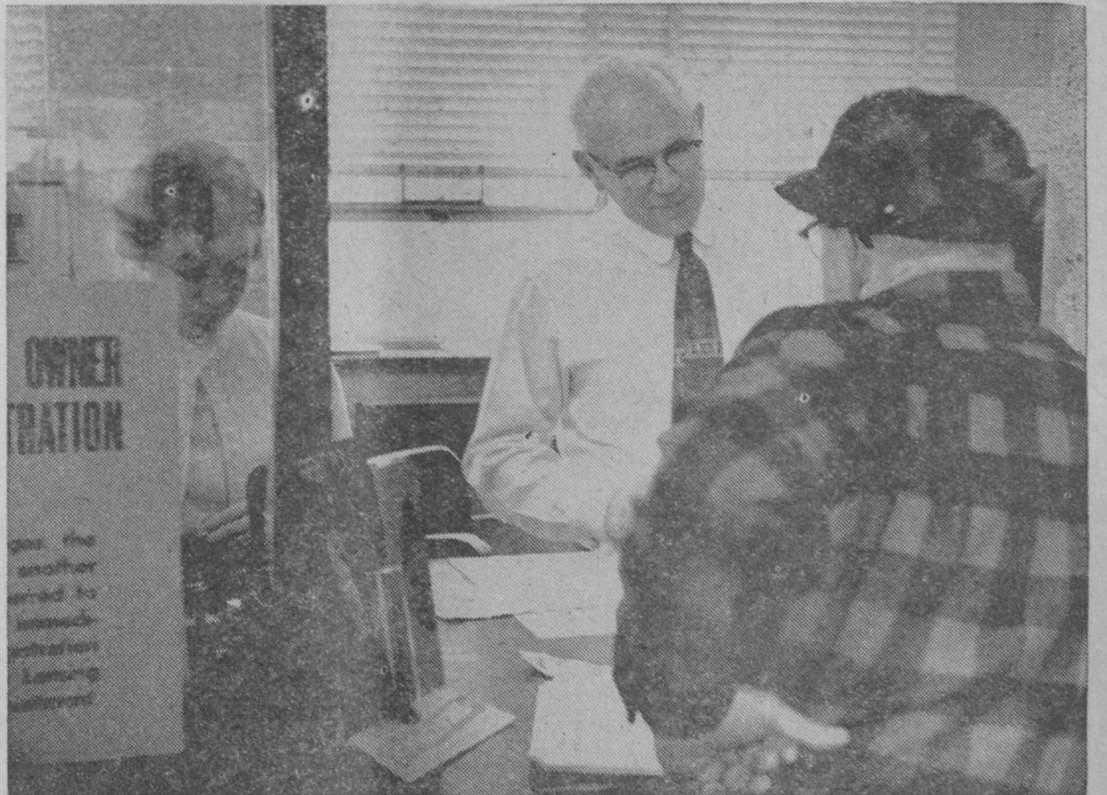

With three elementary schools and one high school in operation, it was necessary that the work in all high schools be correlated to promote a high degree of efficiency. For this reason the administrative council was formed.

This council included all the building principals, the school secretary and the superintendent.

Members of the council are, left to right, John Halbert, superintendent; Irene Dickey, secretary; William Donnelly, principal-Prescott elementary; Jennie Valley, principal-Whitemore elementary; Bernard Fegan, principal-Sherman elementary; Aaron Manwaring, principal-Whitemore-Prescott High School.

The administrative council meets once a month to discuss the school program and recommend such policies and procedures for the school district as are within its jurisdiction.

Currently, the council is undertaking an elementary textbook study to decide, with the help of the teachers in each grade, how to unify the elementary program in the district.

WINDOWS AT THE COUNTY CLERK'S office are busy places this week. On Monday alone, Michigan auto and truck license plate sales amounted to more than \$10,000. Grand Rush On to Purchase Auto Plates Before Deadline

Monday of this week was one of the busiest days on record for selling license plates at the secretary of state's branch office in the county building. County Clerk George Prescott, branch manager, said that Michigan auto and truck license plate sales amounted to more than \$10,000 Monday.

Prescott's office was in readiness for the possibility of a late rush by auto and truck owners for 1958 plates. It came Monday and continued Tuesday and Wednesday.

One part-time clerk was hired and work in the office was geared for a grand rush.

"It took us three hours to balance our books Monday night after the windows were closed," stated Mr. Prescott. "Reason for this is the new law allows the holder of this special plate to use his truck to drive to work or haul for hire. This was not legal with the regular farm plates."

An additional supply of these new commercial plates is expected to arrive shortly, if not by Wednesday of this week.

Auto and truck owners have until midnight Friday to install plates on vehicles. After that time, motorists are liable to prosecution for driving on a highway without a new set of plates.

March 1, 1918—James Hamilton, merchant in this city since 1859, has disposed of his business to Ernest Moeller Jr. and will retire. Lumbering was in full swing in this section of the country when Hamilton began operations here and the bulk of the business was supplying lumber camps. Heavy buyers, the retail business at that time would compare favorably with a large wholesale business. Cadillac

The Decision That Needs No Explanation!

There are relatively few personal decisions a man can make that command the unanimous approval of his friends and acquaintances. And among these is his choice of a Cadillac car. For the things that inspire a man to Cadillac are simply too numerous to be overlooked. Considered from a standpoint of its beauty—or its Fleetwood luxury—or its performance—or its craftsmanship—or its soundness of investment—Cadillac occupies a position entirely its own. At the heart of this great goodness is, of course, Cadillac's experience in the creation of quality cars.

For more than half a century, Cadillac's sole concern in the manufacture of its products has been to make them as fine as automotive science would permit. It is out of this unique constancy of purpose that has come Cadillac's international recognition as the Standard of the World. We invite you to see, both in the showroom and on the highway, how brilliantly this latest Cadillac exemplifies all of these great traditions. Whether you might choose the Sixty-Two Coupe or the Eldorado Brougham—you will find your decision beyond the realm of argument.

Makes Study of Income Problems of Elderly People

Employment and income problems are especially acute for elderly residents of small communities, a University of Michigan expert on aging believes.

Wilma T. Donahue, director of the U-M Division of Gerontology, says: "A larger proportion of people living in rural areas and small communities requires old age assistance than is true in cities. This probably reflects lower lifetime earnings and savings, together with the lack of retirement and pension plans covering farm and small town residents."

"So far as employment is concerned, census data show only about one out of every four men living in small communities is employed. This compares with about one in two men living on farms or in cities."

"Those seeking employment are also somewhat more frequent in the small community than either farm or city."

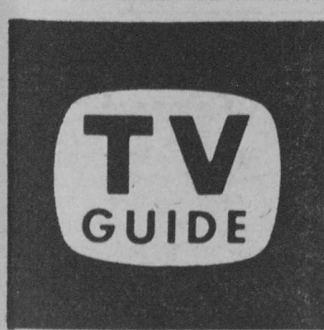

"This suggests that men desiring to work or to continue working at an older age may find it difficult to do so in small communities."

Older persons, she states, often comprise a larger part of the population in small communities and rural areas than do elderly residents of cities. For those who are well integrated in the activities of their town, she adds, small communities offer many advantages over the hustle and bustle of city life for older persons.

But she suggests there are several ways in which their lives may be enriched. One of these is that communities or rural organizations may establish special committees on aging. Among the functions which they could perform are: Establishing a visiting program for older residents who live alone or have their home in an isolated area, developing a food service to insure that elderly residents receive at least one hot meal a day; providing a daily telephone service to talk with those over 65 who live alone, making sure they are in good health and spirits, and helping integrate older people in community life through joint enterprises, such as relief sewing.

Polish talks proceeding

Both sides have agreed not to talk publicly during the negotiations. Nevertheless it is understood the prospects for an agreement in the near future are favorable.

Northeastern Conference Final Games Friday Night

Taste Sweet Revenge in Friday Night's Win Over Standish

Tasting sweet revenge for a defeat earlier in the season, the Tawas Area Braves soundly trounced the Standish Golden Arrows, 64-36, Friday night on the winner's home floor.

This win put the Braves one game closer to a possible co-championship with Roscommon for top NEM Conference honors. Both teams will wind up the regular season Friday night, the Braves meeting Arenac Eastern on the Eagles' home court and the Bucks taking on Houghton Lake.

Last week, the Braves dominated the entire game against Standish, jumping off to a 17-7 lead in the first quarter and holding a 31-11 lead at the half.

The Arrows closed the gap slightly in the third quarter by nudging Tawas, 11-9, but in the fourth quarter Coach Bill McIntosh sent in his entire second string and outscored the Arrows, 24-14.

O'Keefe, high scoring forward of the Arrows, was blanked in this game by Guard Bill Mick of the Braves. Tawas, playing a four-man zone, had Mick playing a man-to-man defense against the Arrows' forward. O'Keefe was held scoreless by this move.

The Braves had three men who hit double figures in the scoring column. Guyette being the top scorer with 18. Lanski and Moore followed with 16 and 11 points, respectively.

Pestruie led his Standish mates

with 12 points.

Percentage-wise, Tawas Area made good on 42 percent of its shots from the floor and 66 percent from the free throw line.

Roscommon and Tawas Area maintained their top positions in the Northeastern Michigan Conference basketball race last Friday night, each scoring convincing wins: The former at Twining over Arenac Eastern, 64-39; the latter at home, over Standish, 64-36. Houghton Lake kept its grip on third place by trouncing Beaverton, 62-37, while West Branch was defeating Sterling, 63-30, and Pinconning was taking an overtime victory from Gladwin, 51-48.

In final games this Friday night, Tawas must be assured of at least a tie for the top spot as it plays undermanned Eastern, while Roscommon will be fighting it out with Houghton Lake. In other games, West Branch is at Beaverton, Pinconning at Sterling and Standish at Gladwin; the final games of the 1957-58 season.

While O'Keefe, Standish guard, was standing still at 277 points for the season, Houghton Lake's Dave Lee was tossing in 23 points on 11 and one to not only take high scoring honors for the night, but also cement his top scoring position for conference play. In the second spot was Center Jim Papefus of Roscommon with 20 on nine field goals and two free throws, while Eastern's forward, Dave Robinson, had the third spot with nine and one for 19.

Roscommon moved to a 19-4 first quarter lead and held a 33-14 half-time bulge. With reserves playing in the third period, Eastern battled to a 15-15 tie for that quarter's scoring. The Bucks moved away in the final stanza with a 16-10 tally to keep them in a tie for the top place with Tawas Area.

Both teams had but one man in the double figures with Papefus high for both teams with his 20 points and Robinson close behind with 19. The Bucks also won the preliminary contest 46-34, as Myer had 12 for the winners and Olar, 14, for the losers.

Houghton Lake and Beaverton battled to a close 10-10 first quarter tally but the Lakers exploded in the second period with 20 points to the losers nine which gave them a 30-19 half-time bulge. The winners continued their mastery in the third period with an 18-11 count and followed that up with a 14-7 last stanza score to hold up their spot in league standings.

Following behind Lee's 23 points was Guard Pat Kalahar of Beaverton with 16 on six and four while Center Keith Howe of the Bobcats had two and eight for 12. The Lakers' JV five kept their unblemished record with a resounding 60-17 win as Kemp had 15 for the Lakers and Wilson followed close behind with 14, also for the Lakers.

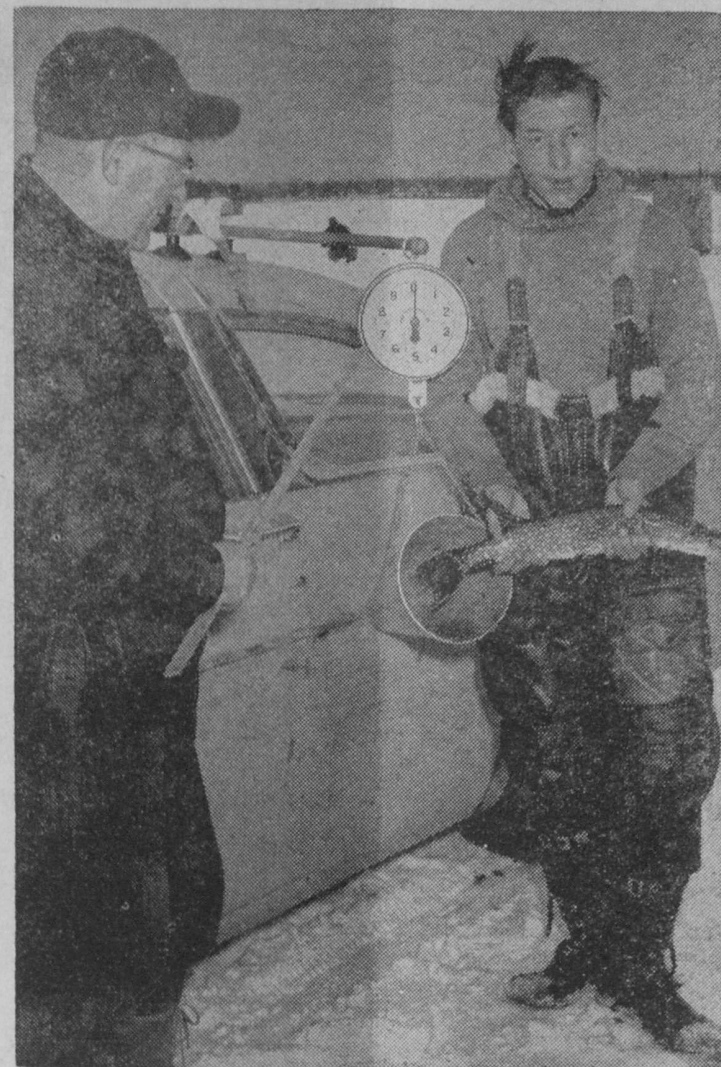

West Branch made sure of its game with Sterling in the first period with a 20-1 tally and assumed a 38-11 intermission margin following a 18-10 second quarter count. The Branchers also took the third quarter at 14-10 with the Hawks coming out against the Oriole reserves in the final stanza, 19-11.

John Walsh, winner's guard, tossed in seven from the field for 14 points to lead the scoring parade while Guard Nelson Gelinis, also of the Orioles, had five and one for 11, good for second place. Top man for Sterling was Guard Steve Schaeffer with seven. West Branch took the reserve game with Sterling in the first for the winners with 15 and Yenior big man for the losers with 13.

Gladwin took the first quarter's scoring with a 10-8 count and held a slim one point margin at half-time, 26-25. The Flying G's moved into control in the third stanza with a 12-8 nod but the Spartans came back with a 13-8 last period score to knot the ball game. In the overtime period, Gladwin notched two points while Pinconning chalked up five, the big clincher a basket by Bob Drouin with 20 seconds left in the contest.

Gladwin had the top scorers in Forward Wayne Moon and Guard Ken Heath. The former dropped six and five for 17 while the latter had the same tally on eight and one. Guard Kent Gusk of the losers had 13 on six and one while Center Lee King and Guard Bob Drouin had 10 each. Pinconning also took the preliminary contest, 46-43.

Indies Lose to Bay City Euclid Drive-In

The Tawas Indies lost to Euclid Drive-In of Bay City last Saturday night, 81-77, at the Tawas City gymnasium. Tawas had three men who reached double figures, but the Bay City quint countered with five players in double figure scoring.

Leading both teams was Bill McIntosh with 23 points on 10 field goals and three foul shots. Leslie led Bay City with 18 points. Tawas took a 20-14 first quarter lead but fell behind when Bay City meshed 21 points in the second and Tawas had but eight. HERMAN DEHNKE, Circuit Judge.

Counsellors, George A. Prescott Clerk.

STATE OF MICHIGAN

IN THE CIRCUIT COURT FOR THE COUNTY OF ISOSCO. IN CHANCERY.

In the Matter of the Petition of Frank S. Szymanski, Auditor General of the State of Michigan, for the sale of certain lands for taxes assessed thereon.

To the Circuit Court for the County of Isosco, in Chancery.

Frank S. Szymanski, Auditor General of the State of Michigan, respectfully shows unto the Court:

1. That he is the Auditor General of the State of Michigan, and in the exercise of his official duty, by virtue of and pursuant to the provisions of Act No. 206 of the Public Acts of 1933, as amended, and Act No. 128 of the Public Acts of 1934, as amended.

2. That Schedule A annexed hereto is the tax record required by the act first above mentioned and contains the description of all lands in the aforesaid county upon which taxes, which were assessed for the years mentioned therein, have remained unpaid for more than one year after they were returned as delinquent, the description of all lands in said county heretofore sold in the name of the State and upon which taxes which were assessed subsequent to the date of the act first above mentioned and which have remained unpaid for more than one year after they were returned as delinquent, and the description of all lands in said county which are delinquent for any installment of taxes under the provisions of the act last above mentioned.

3. That extended separately in said schedule against each description of said lands therein contained are (a) the total amount of delinquent taxes upon said lands, (b) the amount of taxes, interest and charges which are due on said lands at the time of the sale of said lands, and (c) the amount of taxes, interest and charges which are due on said lands at the time of the sale of said lands, and (d) \$1.50 for expenses, all in accordance with the provisions of the act first above mentioned.

4. That all of the aforesaid taxes, interest and charges are valid, delinquent and unpaid, and have remained delinquent and unpaid sufficient time to authorize and require, as provided by the foregoing acts, the sale of the aforesaid parcels of land against which taxes, interest and charges are due, and in said schedule at the next annual tax sale for the non-payment thereof, and that the said taxes, interest, collection fees and expenses so extended in said schedule against each parcel of land therein described constitute a valid lien upon each of the said several parcels of land described in said schedule and against such interest therein in favor of the people of the State of Michigan, the payment of which this court may enforce as a pre-ferred or first claim upon such lands by the sale thereof.

Wherefore your petitioner prays: a. That within the time provided by law this court may determine and decree that the aforesaid taxes, interest, collection fee and charges are valid and constitute a valid lien upon each of the said several parcels of land described in said schedule as therein extended; b. That within the time provided by law this court make a final decree in favor of the State of Michigan against each parcel of said lands for the payment of the several amounts of taxes, interest, collection fee and expenses, as computed and extended in said schedule against the several parcels of land therein contained; c. That said decree provide that in default of the payment so ordered of the said several sums computed and extended against said lands in said schedule, the said several parcels of land or such interest therein as may be necessary to satisfy the amount decreed against the same, shall severally be sold as the law provides; d. That your petitioner may have such other and further relief in the premises as to this court may seem just and equitable.

And your petitioner will ever pray, etc.

May Still Apply for Red Pine Seedlings Until March 15

Iosco SCD received a notice from the Michigan Department of Conservation stating the supply of white spruce seedlings for spring planting is exhausted. The department still has red pine and jack pine seedlings. All orders should be sent in before March 15 to insure spring delivery. Anyone interested in having the district tree planter for planting pine seedlings this spring should contact Elmer Anschuetz.

Dale Rosenquist, SCS, has been working on follow-up of the past couple of months. This is very helpful in the program because in this way it is possible to keep informed on the needs of all cooperators.

Emerson Frank of Tawas Township, Earl Daugharty of Reno Township, Earl Hewitt of Burleigh Township, G. Everett of Alabaster Township and Glenn Nunn of Plainfield Township have completed basic soil and water conservation plans for their land.

With spring just around the corner, now is the time to make final plans for soil and water conservation practices that will be applied during 1958. By making plans now, cooperators will be sure to get the practices completed this year.

Leaving everything to somebody else is a good way to let somebody else run everything.

GOING DOWN UNDER THE ICE for an unusual picture angle at Perchville is Tom Abercrombie of National Geographic Magazine. Last week, while Abercrombie was here to cover activities at the ice fishing village on Tawas Bay, he donned skin diving equipment, several pounds of type metal for weights and squeezed through a hole in the ice. While underwater, he shot the underside of a fish shanty for a "fish eye view."—Detroit Free Press Photo by Bert Stoll.

Ski Patrol Praised by Alpena Church Group

A letter of thanks to the Silver Valley Ski Patrol was received this week by the winter sports committee. The letter from Miss Marilyn J. Berg, supervisor of the St. Paul Junior and Senior League, stated:

"In behalf of the youth groups of St. Paul Lutheran Church, Alpena, which used your facilities at the Silver Valley ski area Sunday, February 16, I wish to thank the ski patrol which helped in every way to take care of one of the boys in our group who fell and broke his leg while skiing.

"It was a great relief to know that there is some provision there at the ski area to take care of injuries such as I had to encounter and wish to commend the fine job done by all those who helped bring Kenneth Werth off the hill to the ambulance station wagon and then the driver who drove the car to the hospital. I certainly appreciate all that you did for the boy.

"Ken is coming along fine after suffering a triple fracture of the leg. He was transported to the Alpena General Hospital Monday from the Tawas Hospital, and is resting comfortably. He will probably be laid up for quite some time, but he said when he is back on his feet again, he will be back for more skiing.

"In the future, if I should bring the group again to Silver Valley, I will know of the great help I can count on from the Silver Valley Ski Patrol."

Gypsum Trial

(Continued from Page 1)

need to consider: The interest of the general public and of the affected communities. That involves a balancing of desirable and undesirable by-products. Upon the one hand the matter of furnishing employment and the matter of taxes the industry will pay. On the other hand, the requirement for more schools, more policing and, in this case, the possible harm that may come to the tourist and resort business which is important to the community and to the state," Judge Dehne concluded.

During the first two days of

the trial, testimony was heard from property owners who instigated the suit.

On Thursday, the court heard several witnesses on behalf of the defendants. Included was the testimony of Wells F. Anderson, vice president in charge of operations for National Gypsum Company, who pointed out the importance of the Port Gypsum development in relation to supplying raw material for two new Great Lakes plants, as well as to the National City plant here.

Other witnesses heard were: S. D. Skinner Jr., engineer for the company; Edward A. Koonmen of the Dunbar and Sullivan Dredging Company; Captain Healy of the Boland and Cornelius Lines; George B. Sowers of Cleveland, consulting erosion and sanitation engineer; Ira R. Hunt, who is connected with the United States Corps of Engineers in Detroit.

National Gypsum Company's witnesses contended that every precaution was being made for safety at the installation, prevention of dust, noise and nuisance in its operation; that it would not be necessary to dredge the turning basin and ship channel installation for at least 20 years; that every precaution would be taken to prevent pollution of water and air from the lake carrier ships and that the installation would not result in the erosion of shore line property.

Other testimony was heard from Louis Beyer, marine architect from the University of Michigan, and Bernard Blumfield, sanitary engineer from the department of health at Lansing.

ARMED SERVICES DECREASE

The secretary of the navy, Thomas S. Gates Jr., and William H. Francis Jr., assistant secretary of defense for manpower, have turned down a plea by a house armed services subcommittee to hold up discharges for 60 days. They said it would throw the manpower cutback process into turmoil and would be unfair to those already sent back to civilian life.

Research has not yet found any harmful effects from gibberellin, a plant growth stimulator, according to Michigan State University horticultural scientists.
