

ICE FISHING has come into its own during past weeks and a shanty village now populates the 20-inch-thick ice at Perchville in the bight of Tawas Bay. Fishermen have reported good catches, although perch moved out to deeper water last week-end. Early this week, one veteran angler said that those fishermen hearty enough to withstand the icy blasts coming off Lake Huron could find perch at the outermost area of the bay, nearly in line with Tawas Point. The above pic-

tures were snapped last Sunday. At left, Edward Lixey, his wife, Kathryn, and son, Thomas, are shown with an eight-pound pike which he speared at Perchville. Perchville "mayor," Chester Parker, is shown directly above checking in two down-state fishermen at the city hall. At right, Victor Lake of Tawas City tries his hand with a "Russian" hook for perch. Shanties are available at Perchville for those who wish to fish in comfort.—Tawas Herald Photos.

Braves Ring Up 5th Win of Season

Tawas Area Braves rang up Robinson, f their fifth win of the season Suminski, c against one loss by defeating Olar, g Arenac Eastern Friday night, 64-28. Farro, g Tawas Area lost the preliminary Braner game, 32-31, to the Arenac Eastern

With three players hitting in double figures, Tawas lost little time in taking a commanding lead in the varsity contest. The Braves led at the end of the first quarter, 18-3, and held a 33-16 halftime

The dead-eye shooting of Olar for Arenac Eastern, with 12 points, was no match for the scoring combination of Tawas, completing 41 percent of its field goal attempts. Mick led the Braves with 14 points, followed by Watts with 12 and Moore with 10.

Arenac Eastern had some consolation during the night with its win over the Junior Braves, Until last week's loss to Roscommon, the Tawas team had run up a string of four consecutive victories.

In this game, the Junior Braves out-scored their opponents in every quarter except the first, but that was enough to give the Arenac Eastern quint a one-point edge. Long and LeViere led the winners with eight points each.

NOTICE

TO MEMBERS OF IOSCO COUNTY TREE GROWERS' ASSOCIATION

In order for your association to secure trees for spring planting it is necessary that we know the number and kind of seedlings that you will need by January 17.

We will not know the exact price of the seedlings until we know the number of seedlings needed and are able to negotiate with the nurseries. However, it appears from all available information that white spruce will cost about \$30 per 1,000 for three-year-old trees (3-0) from five to nine inches in height and that Scotch pine will cost about \$10 per 1,000 for two-year-old trees.

We will let you know the actual cost as soon as we are able to close a deal with a nursery.

ROBERT C. REASNER,

Secretary-Treasurer

from 696 to 568. In the field of agriculture some of the real drastic changes have taken place. It is not peculiar to Iosco County, alone, that agriculture is going through an industrial revolution. The small family farm must become a big family farm. Eighty acre farms are few, 240 acre farms are more common today. Ten years ago \$10,-000 bought a farm, much of the equipment and some livestock. Today that same \$10,000 would hardly buy the tractor, tillage implements and but very little Friday, January 16-Hereford harvesting equipment. Investments Calf Association annual meeting, today in farms (that might be

Another new national program that has and will continue to effect the number farming is the social security program. Much of Iosco County's population on farms is over 50 years of age. Included in Progress is not made by backing the 1957 social security benefits into the future. Let us look ahead paid to 1,168 Iosco County and base our plans and goals on beneficiaries is a contingent of what has happened. These plans farm folks. The beneficiaries reeived nearly one million dollars in 1957. It is estimated that thi on a broader aspect and be plans figure will jump 20 percent for

In 1954, total volume of agriultural products sold was \$1,137, of this figure \$14,000 was County were gradual and un-credited to forest products off losco County farms. Best sources In the last eight years, total today indicate that figure would easily be doubled on farms alone 10,000 to 15,000 people, total Wood using industries recently number of farms has dropped set up in Northeastern Michigan will have even greater influence in the next few years to come.

> Our tourist and resort industry has felt the hand of change. People traveling are expecting more and more for less and less. Bigger and more modern facilities are the order for tomorrow. The small tourist operators, like the small business man and small farmer, are finding it difficult to keep their heads above water.

But the tourist and resort industry has a great future in this area. People from industrial areas will have more leisure time in our

I'VE GOT A JOB

I've got a job and that's important to me; to my family and to my community. When I'm working, I'm happy. It gives me a feeling of security.

Other men in our town need jobs too. They have to support their families, pay their taxes, meet home payments and pay other obligations. That's why it's up to everyone of us to do all we can to keep our present industry and to attract new plants. We can let our own industry

know we appreciate it and we can tell others about the advantages our town offers.

If we all work together, we can do it. Then I'll still have my job and you'll have yours and there will be good jobs for our youngsters when they are ready to go to work.

Join hands with your local industrial development organization and the Michigan Economic Development Department to help your community prosper.

This ad is one of a series published as a public service by this newspaper in cooperation with the Michigan Press Association and the Michigan Economic Development Department.

"WINTERING" ON TAWAS BAY, far from its spring nesting

grounds, is this white whistling swan, pictured above. The large

swan which has a wing-spread of several feet, has been seen by

many area residents during the past month while it was feeding in

open water along the bay shore. These particular pictures were

snapped by the Herald cameraman off-shore from the downtown

Tawas City business district. With a 135 mm telephoto lens on his

camera and moving only when the bird extended its long neck and

head under water in search of vegetation, the photographer crept

to within 50 feet of the bird before it flew away. The swan's spring

nesting grounds is several thousand miles away, being in the vi-

cinity of the Arctic Circle. Awkward on land or ice, the bird is

strong and graceful when in flight. Also pictured is a duck, believed
