

Letters Would Tell Silver Valley's Side

A letter is to be prepared and sent to the Washington, D. C., headquarters of the United States Forest Service, with copies to Senator Philip Hart and Congressman Elford A. Cederberg, giving the Silver Valley Winter Sports Committee's side of its operation of the winter sports park in Huron National Forest.

Last week, it was disclosed that district headquarters of the forest service was not contemplating renewing the permit to operate Silver Valley upon the contract expiration date of July 25, 1961.

A letter, addressed to the Tawas forest district headquarters, stated that the reason for this move was the "continued inability of the group to operate the area in a manner consistent with good safety and sanitation standards."

Plans to write the forest service giving the committee's point of view was recommended by George Baldwin, an active member for a number of years and a former committee chairman.

"Some of the items of criticism and some of the recommendations are fine—others are not," stated Baldwin, referring to the forest service's recent communication. He pointed out that safety devices on ski tows were designed along the lines of those used at the Cadillac winter sports park and were exact copies. "They are OK one year, but if there is a change in forest service engineers the next year, they are not approved."

Baldwin charged that the committee was not informed of changes until the date for inspection by the forest service.

Baldwin said that a considerable amount of pulpwood is cut and sold out of Huron National Forest every year, but no funds were ever returned to further recreational facilities. He said that other such parks in the nation receive funds for this purpose.

Baldwin said that there are six persons in the area who are going to write letters to the forest service on the subject and suggested that other businessmen should do the same. "We are not going to get anything from the efforts of a few—it is the squeaking wheel that gets the oil and if we don't start complaining now we are not going to get anything," he said. "I am not placing all of the

blame on the forest service," said Baldwin. "There are a lot of people in town lying down. I think everyone should do something for Silver Valley, not just furnish lip service—and we get a lot of that."

It was pointed out by one member that a considerable amount of improvements at the valley have been made since the 1930s, when it was first constructed through the labors of the forest service and CCC. Since that time, much of the original facilities have been replaced, the improvements and maintenance being made by the winter sports committee through receipts from the winter sports park.

"Actually, the reason for operating Silver Valley has not been as a profit-making venture," asserted Treasurer L. G. McKay Jr. "All profits are turned back into the park as improvements. The principal reason for its operation is to furnish recreation for local and out-state residents during the winter months."

Steinhurst is Member of Famed '2600 Club'

Trooper Robert Steinhurst, East Lansing, a member of the Michigan State Police No. 1 pistol team, has been admitted as a member of the famed nation-wide "2600 Club" as a result of shooting an aggregate score of 2613 out of a possible 2700 at the Indiana State Police Invitation Pistol Tournament last September 24. There are only 50 marksmen in the nation holding memberships, including one woman.

Steinhurst shot 882, 866 and 865, respectively, in the .22, .38 and .45 caliber competition at the Indiana match. He took second place in both the .22 and .45 caliber shooting.

Until a short time prior to World War II, there was no standard aggregate which the majority of pistol tournaments programmed. Now outdoor tournaments make every effort to program the same matches, 20 shots slow fire, 20 timed, 20 rapid fire and the National Match Course with each type arm. The aggregate consists of a possible 2700 score.

Steinhurst is the son of Mr. and Mrs. Julius Steinhurst of Tawas City.

Soil Erosion is Enemy of Iosco Farm Lands

"Now is the time of year that the effects of the wind on open land really show up for everyone to see. As we drive along roads in the country and look at the snow in the fence rows, where the land is open and cover crops are not used, we see snow that is red or black colored. This means the landowner has lost the best parts of the soil needed for growing a crop next summer," stated Richard Rose of the United States Soil Conservation Service.

Fertilizer, humus and the fine particles of soil have blown away. At today's prices, no farmer can afford to have this happen. A high percent of this wind erosion would not have taken place if rye had been planted to cover the land for the winter. In the spring this could be worked into the soil, Mr. Rose pointed out.

A cover crop will serve many purposes to prevent wind erosion and water erosion during spring runoff. It also becomes an organic buildup tool when it is worked into the soil in the spring. Use of cover crops on open land is not an additional expense. They are a means by which a farmer can increase his income from the land.

Red pine seedlings will be available this spring from the Iosco SCD. All orders should be in by March 1.

This is the time to make conservation plans for 1959, if landown-

ers have not already done so. Soil conservation service technicians that assist Iosco SCD are working on basic planning and follow up calls to cooperators.

The Iosco SCD annual meeting will be held Friday, January 30, at the Reno Township Hall. Starting time is 8:00 p. m. Every cooperator should make a special effort to attend.

Rangers to Make Forest Management Plans

Plans for next year's management of the forest will be discussed at the Lower Michigan National Forest annual rangers meeting at the Federal Building, East Tawas, January 27-30.

The meeting will be attended by five forest service officers from the regional office, Milwaukee, Wisconsin; seven forest service officers from the supervisor's office, Cadillac; the rangers and their assistants from the seven ranger districts in Lower Michigan National Forest; four specialists on game and forest management.

The ranger districts are East Tawas, Mio, Harrisville, Cadillac, White Cloud, Manistee and Baldwin.

The meeting will be under the supervision of Forest Supervisor Louis A. Pommerening of Cadillac.

Veeck and Wertz Coming as Guests

Bill Veeck, former major-domo of the Cleveland Indians and St. Louis Browns, and Vic Wertz, former star outfielder of the Detroit Tigers, will be among the featured guests at the annual Silver Valley Winter Sports Carnival to be held February 6, 7 and 8.

Joseph O'Connor, banquet ticket sales chairman, anticipated a turnout of more than 250 persons for the annual dinner to be held at the Barnes Hotel Saturday, February 7.

Veeck, who made an unsuccessful attempt to buy the Tigers in 1956, will be the principal speaker at the men's fish fry to be held Friday, February 6, at the Holland Hotel.

He is currently heading a syndicate which is attempting to acquire an interest in the Chicago White Sox.

Veeck started his career in baseball front offices with the Chicago Cubs in 1933 and was club treasurer when he left in 1941 to

purchase Milwaukee in the American Association. He headed a group that bought the Cleveland Indians in 1946 and was president of that club until it was sold in 1949. Veeck and associates purchased the St. Louis Browns in 1951 and sold them in 1953 when they moved to Baltimore. He is now president of a Cleveland public relations firm, Gallagher, Samuel and Veeck, Incorporated.

Wertz is well known throughout Michigan as an outfielder for the Detroit Tigers and, as of late, with the Cleveland Indians. In 1954, Wertz's big bat helped Cleveland win the American League championship. This will be his second appearance at the Silver Valley Winter Sports Carnival, having participated in the 1955 affair.

Names of other guests who have already been announced include Miss Patience JoAnn Pierce, Miss Michigan of 1958, and Bob Reynolds, well-known Detroit sports announcer.

70 Persons Attend Lutheran Pastor-Teacher Meeting

About 70 Wisconsin Synod Lutheran pastors and teachers of the Northern Conference of Michigan, met at the Emanuel Lutheran Church Monday and Tuesday of this week. Such a meeting is held annually in January at congregations having their own Christian grade school.

Pastors and teachers attending the conference were from as far away as Owosso, Scottville, Clare and Flint. They were housed overnight by members of the church and noon and evening meals were served by the Emanuel Ladies Aid in the school. Mrs. John Henry was chairman for the ladies serving on Monday. Mrs. Henry Schatz was in charge of Tuesday's meals.

Among the business discussed at the conference were ways of recruiting pastors and teachers for the church, stewardship by Lutheran laymen, method of electing church officers and synod's constitution. A paper on "The Life of a Pastor and Teacher" was read by Pastor O. Eckert of Saginaw.

The workers returned to their homes with renewed zeal for the church's work.

SLIDES OF EUROPEAN TRIP SHOWN AT KIWANIS MEET

Color slides taken during his family's recent trip to Europe were shown by Frank Wilkusi at Tuesday's meeting of the Tawas Kiwanis Club. Included were views at the World's Fair at Brussels, Belgium; Venice and Rome, Italy; Paris, France, and Switzerland.

Committee Makes SV Carnival Plans

Final plans for the Silver Valley Winter Sports Carnival, February 6, 7 and 8, and arrangements for handling the 13th annual East Detroit Lutheran Caravan, scheduled to arrive here Sunday morning, February 1, were made at Monday night's regular meeting of the winter sports committee.

Program for the annual three-day carnival is to be announced early next week, it was reported Tuesday by Ray Stecker, who has charge of promotion.

Some 40 Greyhound buses carrying Lutheran youngsters are scheduled to arrive here Sunday morning at 8 o'clock. After spending the day enjoying the facilities

Night skiing will be a feature of winter sports activities at Silver Valley this week. The ski area is to remain open Friday night until about 10 o'clock. Flood lights are to be installed on the slopes and all tows will be operating.

at the winter sports park, the caravan is scheduled to head either for the Chapel Lake Indian Ceremonials Stadium or Lumbermen's Monument for outdoor vespere services.

With Bert Leidecker in charge, the group will select a Lutheran Silver Valley winter sports queen at its banquet to be held February 13 in Detroit.

Winter sports at Silver Valley will be featured in a film to be shown over WNEM-TV tonight (Thursday) at 11:20 o'clock, as part of the Virgil O'Dell sports program.

Firemen Fight Tawas Blaze in Zero Weather

Fire of undetermined origin caused approximately \$4,500 damage to a house owned by Robert Rollin on Fourth Street, Tawas City, last Friday night. The house was unoccupied at the time and there were no injuries.

Tawas City firemen fought the stubborn blaze for more than three hours and were able to save the building although smoke, heat and water caused extensive damage to the interior. The extreme heat sagged the roof and all floors.

Rollin, who lives in a nearby mobile home, told firemen that he noticed smoke coming from the building when he went outside to check a frozen water line. His wife had smelled smoke a few minutes earlier. He opened the front door of the smoking building, but closed it immediately because of the intense heat.

Firemen, using high pressure fog, entered the building and quickly confined the blaze to the side walls and attic, but not before the kitchen area was completely destroyed by the blaze.

Rollin said that he had spent about \$3,000 in remodeling the building during the past six months and the new tenant was to have moved in the next day. Some furniture had been moved into the building that afternoon, but was removed once firemen had ventilated the front portion of the building with the aid of high pressure fog nozzles.

Rollin said his loss was covered by insurance.

Fire Damaged Home at East Tawas Monday

Fire caused extensive damage to the residence of Dr. and Mrs. Harvey H. Brinkman, 513 West Westover Street, East Tawas, late Monday night. One fireman received a minor hand injury fighting the blaze.

Dr. Brinkman told investigating officers that he and Mrs. Brinkman were watching television when they smelled smoke about 10:30 o'clock. Going to the kitchen, they found the west end of the building in flames.

Rousing their two children from bed, the couple fled to the home of a neighbor and the East Tawas Fire Department was called.

Firemen battled the blaze for about 1½ hours. The entire west end of the house was damaged. Flames had broken through a garage attached to the main structure and a utility room. There was considerable smoke damage.

Fire Destroyed Meadow Road Farm Home

Fire destroyed the Meadow Road farm home of Mr. and Mrs. Howard Scholtz Wednesday afternoon. The Scholtzes were visiting in Flint at the time. Tawas City firemen were called there by two Scholtz children shortly after noon when clothing being dried near a space heater caught fire. Apparently the blaze flared up about 45 minutes later and the fire department was called again. Only a few items of furniture were saved the second time as the building was completely leveled.

Sheriff Tells of Six-Week CD Training Program

Sheriff Ivan O'Farrell, director of Iosco County Civil Defense Administration, this week announced a six-week civil defense training program for residents of Iosco County.

Answering the question: "What is Civil Defense in Iosco County?" Sheriff O'Farrell states that it is a trained organization to maintain order and supply help to any persons or areas where emergencies exist. It is a trained organization with equipment to fight fires, floods, attack and other emergencies.

The CD program in Iosco County is under Director O'Farrell. All personnel are citizens of the county who have taken time out to train and in turn teach the methods of civil defense.

In the following weeks, a complete outline will be shown as to what is to be done and how in each of the expected emergencies which might arise.

"This week we will attempt to show what must be done in the case that any portion of the nation is put under attack and we must accept persons evacuated from other parts of Michigan. Also, what

must be done if we in Iosco County must evacuate.

"What can be expected if the nation is placed under attack? Iosco County will be expected to absorb about 40,000 evacuees. This will mean that each home will be used. Food will be supplied as well bedding. But, the people themselves will be expected to do their best to take care of these homeless. The main roads will be kept open by CD officers and a steady stream of traffic will result. We can expect from one to three hours notice of this. It is going to be the duty of everyone to maintain a level head and maintain order.

"What can be expected if Iosco County is ordered to evacuate? If we must evacuate Iosco County, the following things must be done. Everyone must leave, with the exception of CD officers and other members connected with CD. You will only be able to take a few items of your household. It is suggested that you take only what you need. A list of items must be published at a later date. Points of departure will be apparent and you will be advised

12-Year-Old Boy Survives Shotgun Blast

Chances for the recovery of a 12-year-old National City boy, who shot himself accidentally in the chest with a shotgun blast last Saturday, were reported as good this week.

Ronald W. Priebe, son of Mrs. Betty Priebe of Detroit, who resides with his grandparents, Mr. and Mrs. Lee Campbell of National City, was rushed to Tawas Hospital suffering from the gunshot wound Saturday afternoon.

His grief-stricken grandparents told investigating sheriff's department officers that the youngster had seen a rabbit running through the back yard of their home and he took a 28 gauge shotgun and left the house.

A short time later Mr. Campbell heard the shotgun blast and the boy's screams. He ran outside and found the boy hanging on a fence with the barrel sticking through the wire. The charge entered the front part of the chest and came out through his back.

Later, police theorized that the boy had crossed the fence and was attempting to pull the gun through the wire. The trigger probably became fouled in the wire and discharged.

The youngster was hauled up and rushed by automobile to Tawas Hospital. Because of the snow storm, it took 45 minutes to get the boy to the hospital. Investigating officers said that the blast, fired at close range, struck the lower portion of one of his lungs.

Carolyn Evans Visits UN and Washington

Carolyn Evans, daughter of Mr. and Mrs. D. A. Evans, East Tawas, left Sunday for New York City where she attended sessions of the United Nations Monday and Tuesday, along with 60 other members of Methodist Youth Fellowship in Michigan.

The group of Michigan young people was scheduled to attend a session of congress in Washington, D. C., on Wednesday and were to meet with legislators from the various state districts. She is to return home Friday.

During their Washington stay, the group will visit the Methodist Building, which is headquarters for the Methodist Church in that section of the nation. Seminars and lectures on government and citizenship are scheduled there.

As part of a continuing program of education for Christian citizenship, 50 percent of the cost of the trip by Miss Evans was underwritten by the local church.

Candidates recommended for the trip are those having leadership qualities and the ability to report back to their congregation on what they see and hear.

The trip was planned through her division as state outreach chairman of the Methodist Youth Fellowship. Miss Evans is a senior at Tawas Area High School.

JOHN D. WEBB, who has been a rural mail carrier at Hale for 43 years, is pictured here sorting mail for his route one patrons.

Veteran Mail Carrier to Retire January 31

John D. Webb, well-known Hale resident, retires January 31 after carrying mail on route one for 43 years. He served under two postmasters, R. D. Brown and David G. Bernard, who is the present postmaster.

On February 1, 1916, at the age of 20, he was the first regular rural letter carrier out of the Hale post office. The route had been established the previous year with mail service three days a week. Stanley Morrison and Earl Kaufman served as temporary carriers. In the spring of 1921, route two was established with J. H. (Jack) Johnson as its first and only carrier.

Mr. Webb recalls that he rode his bicycle from Hale to East Tawas to write the Civil Service Examination in June 1915. Eight men were in the contest. Postmaster James LaBerge, uncle of Louis LaBerge of Long Lake, conducted the examination.

Route one was served daily after April 1, 1916, with approximately 100 boxes in the 26 miles. At the present time, the route varies from 62 to 72 miles in length, depending on the time of year, and has 350 boxes with many resurters using the same box. Sixteen miles of the route are in Plainfield Township and the rest in Ogemaw County or on the County Line. Only five miles are paved to date. There are many beautiful lakes along the route including the two Londo Lakes, Stylus, Sages, North and South Dease, Cranberry, AuSable, Long, Loon and Hale. Mr. Webb has witnessed their development over the years. Resorts have sprung up with cabins and boats to rent. Six business places are in operation the year around where groceries, sporting goods and gasoline are for sale. This does not include the stores in Long Lake Village. The garages of Joe Coyro at Nester Corner and Otto Bell in Hill Township serve the people well in their respective districts. Mr. Webb thinks route one cannot be topped for scenic beauty. If the roads were improved, it would open this natural wonderland to many more people and be a boon to the whole area.

Many of the present patrons are grandchildren of those first living on route one. Their letter carrier has always been called "Johnny" by old and young.

Mr. Webb used horses to deliver the mail until 1919 when he bought his first Model T Ford. He found this too costly to use very much on account of the bad road conditions. There were no improved roads, some were corduroy and others swampy or had sink holes. Snow plows were not in general use. After a heavy snowfall, many folks waited to see if the mail man got through before starting out for town. In those early winters, some of the roads would be plowed out to the bare ground while others were full of snow. If he was using a cutter and came to a bare spot, he had to drive into the snow filled ditches to get through.

US-23 Crash Injured Three

Three persons were injured in a two-car crash 2½ miles south of Tawas City on US-23 last Thursday afternoon. The smashed automobiles slowed traffic on the icy highway to a near standstill for about one-half hour.

Injured were Paul F. Heckman, Route Two, Tawas City, driver of one of the cars, compound fracture of left arm and nose and chest injuries; Bernice Heckman, his wife, lacerated forehead, chest and wrist injuries; Edward L. Ulman, driver of the other car, slight concussion, lacerated head, right knee and chest.

All of the injured persons were taken by ambulance to Tawas Hospital for treatment. Investigating state police officers said that Heckman, traveling south, apparently lost control of his vehicle and crossed into the north-bound lane and collided with the Ulman vehicle.

HONORED THURSDAY WITH FAREWELL PARTY

The Rev. and Mrs. William MacFarlane and daughter were honored at a farewell party at the Fay Fisher home Thursday, January 22. The MacFarlanes left January 23 for Jamestown, New York, where he will take over pastoral duties at Calvary Assembly of God Church.

Thirty-five guests enjoyed a pot-luck dinner followed by a social hour.

The new minister, the Rev. George Kriche, is to arrive here this week. He will preach his first sermon Sunday at the Assembly of God Church, East Tawas.

Mr. and Mrs. Kriche have three children and are formerly of Holland, where he has been pastor for the past six years.

CHRISTIAN SCIENCE

How spiritual understanding of God as divine Love promotes true brotherhood will be brought out at Christian Science services Sunday.

Scriptural selections to be read in the lesson-sermon entitled "Love" include this one (I John 4:21): "And this commandment have we from him, That he who loveth God love his brother also."

Readings from "Science and Health with Key to the Scriptures" by Mary Baker Eddy will include the following (518:15): "The rich in spirit help the poor in one grand brotherhood, all having the same Principle, or Father; and blessed is that man who seeth his brother's need and supplieth it, seeking his own in another's good."

The Golden Text is from I John (4:8): "He that loveth not knoweth not God; for God is love."

By **MARVIN DAVENPORT**
Iosco Agricultural Agent

Calendar:
Thursday, January 29—North-eastern Michigan Lamb Marketing Program board of directors meeting, Extension Service Office at West Branch, 1:30 p. m.
Friday, January 30—Iosco Soil Conservation District annual meeting, Reno Township Hall, one mile north of M-55-M-65 junction on M-65, 8:00 p. m.
Monday, February 2, through Friday, February 6—Farmers' Week at Michigan State University in East Lansing.

Some of Iosco County's townships have made great strides in planning for the development of their communities. The respective township boards of Alabaster,

Tawas, Reno, AuSable and Oscoda Townships appointed zoning boards to prepare zoning ordinances for their respective townships. These ordinances are prepared by land-owners in each township and public hearings are held by the zoning boards to get other public reactions to the proposed ordinances.

The job being done by these several townships has warranted state attention. During Farmers' Week program (February 2-6 at Michigan State University) a township and county planning and zoning program will be conducted. It will take place on Friday, February 6, 1:15 p. m. until 4:30 p. m. in the Lincoln Room of Kellogg Center on South Harrison Road.

A feature of this program (1:15-2:45 p. m.) will be a panel discussion, "How We Met Problems in Zoning Our Township." Representatives from zoning boards in Saginaw, Kalamazoo, Allegan, Washtenaw, Midland, Monroe and Iosco Counties will be the panel members. Harold Hammond, Alabaster Township zoning board secretary, will represent Iosco County. The public is invited to attend. There will be a question and answer period after the panel discussion.

Another feature of Farmers' Week program concerns Christmas tree growers. There are about 6,000 Christmas tree growers in Michigan who could hear of the latest developments in improving and marketing.

Choice of species to plant and how to plant them is one of the topics to be considered.

Care of trees and protection against fire, insects and disease is another area that will be explored, according to Dr. Terrill D. Stevens, head of Michigan State University forestry department and chairman of Farmers' Week forestry programs.

About 1,500 growers are actively engaged in marketing Christmas trees.

"We will discuss marketing practices with the two major grower organizations, the Federated Christmas Tree Growers of Michigan and the Michigan Christmas Tree Grower's Association, and explain some of the work that is being done to help market procedures," Dr. Stevens reports.

The Michigan forester says there are two areas—tax problems and grading of trees—where advances have been made.

"Though we have not yet succeeded in having the Michigan Tax Assessors Code changed, we are working to get assessment practices made more equitable," Dr. Stevens said. "Right now, an acre of one-year-old trees is taxed at the same rate as a stand of four or five-year-old trees, but the values are widely separated."

He says that a program is under way to change the tax code so that assessment is based more nearly on actual value at the time of taxation.

Another plan would have Michigan subscribe to grading practices which have been formulated by the United States Department of Agriculture.

Dr. Stevens believes adopting the "grade of quality" program, which is similar to systems used for potatoes and other crops, would induce growers to strive for better products to improve Michigan trees.

Scientific advances which will aid tree growers will also be discussed.

"Soil amendments and fertilizers to improve tree color is one area where we have made gains," he reports. "Jack pine has a low market value because it is often yellow and Scotch pine, our most popular Christmas tree, also suffers sometimes."

The aim of studies is to improve color and not adversely affect tree growth.

Other work has been done in breeding fir tree species, which grow slower than other Christmas

Consumers Power Announces Two Iosco Improvements

Consumers Power Company will invest more than \$4,000,000 in its Bay City division in 1959 on projects to expand and improve electric and natural gas service to its customers, Division Manager Louis A. Vaupre announced today.

An important improvement will be the extension of another 46,000-volt transmission line to the Wurtsmith Air Force Base, where a new substation will be constructed to distribute the power to the expanding Wurtsmith facilities. These include numerous buildings, housing units and other base components recently announced by the air force for this increasingly important installation.

At Hale, a new substation will be built to help increase the power supply in the Hale area, as well as relieve facilities serving National City. The Hale substation will be connected to the company's high voltage distribution lines connecting Loud Dam and Iosco with a 46,000-volt line.

Mr. Vaupre added that numerous other electric department projects would be completed during the year and that the company expects to add some 4,330 new customers to its lines by December.

A LETTER

TO: Senator Charles Prescott
Representative James Mielock

We wish to take this opportunity to make known our views in regards to the Michigan Veteran's Trust Fund.

It is no secret to both you legislators that a movement is under way to transfer the balance of the Veteran's Trust Fund to the General Fund of the State of Michigan. We, as veterans and voters of Michigan, feel that this Veteran's Trust Fund is a necessity.

We have seen the benefits of the Veteran's Fund and we feel this fund should not be touched without the consultation of the state commander's group of nationally chartered organizations and their legislative committee.

We, the entire membership of Jesse C. Hodder Post No. 189 stand behind the "hands off" policy of the Michigan Veteran's Trust Fund.

Yours truly,
Wm. G. Murray, Commander

The February meeting of Tawas City Garden Club will be at the Iosco County Building Tuesday, February 3, at 2:00 p. m. A program will follow the business session.

trees but have a much higher price when mature.

One of the major aims of the Farmers' Week Christmas tree program is to show growers that they can no longer "just stick trees in the ground and come back six or seven years later to sell them." The tremendous increase of interest in Christmas tree farming since the war has helped point out what growers have to do, according to the forestry authority.

Correcting misconceptions about shearing is one aim.

"For example, we have found it best to shear conifers, the firs and spruces, during the winter while pines should be sheared in early summer," Dr. Stevens states.

Clarence Carpenter, DHIA tester, reports for December 1958.

4-H Clubs

By **DOROTHY SCOTT**
County Extension Agent

Calendar:
Monday, February 16—4-H Scholarship applications deadline.

Do you know when it is time to hear 4-H Clubs?

Yes, each Saturday morning at 11:45 a. m. you can hear the weekly 4-H Club program on radio station WKAR, East Lansing.

The 4-H Club program features interviews with 4-H Club members, music and a variety of subjects of special interest to members of 4-H Clubs.

For instance, Saturday, January 31, is the time to hear about the state cherry pie contest and meet the winners as they are interviewed.

A Kent County 4-H Club member is to be guest for the February 7 program and Mollie Vasold will talk about careers. By the way, a 4-H Club scholarship is one way to help a deserving 4-H Club member make a start on his or her chosen career.

On February 14, the Clinton County 4-H Service Club will tell about its activities.

Don't Lock Yourself up with Deadly Killer

Whenever you close the doors and windows of your home or automobile this winter you may be locking yourself up with a deadly, unseen killer, the Michigan Department of Health warned today.

The killer is carbon monoxide, a highly poisonous gas that can snuff out life in an instant.

Carbon monoxide cannot be seen, tasted, felt or smelled. It may not give advance warning in the form of a headache or dizzy feeling. If the concentration is high, carbon monoxide can cause instant death by paralyzing the breathing muscles.

Carbon monoxide, whose symbol is CO, is produced by the incomplete burning of wood, oil, gas, gasoline, coal or other materials that contain carbon.

CO is a danger to human life because it combines with human blood 300 times faster than oxygen is taken up by the blood. This means that when a mixture of carbon monoxide and oxygen is placed in contact with the blood, the blood cells pick up carbon monoxide instead of oxygen. When this happens, body tissues suffocate.

If you start feeling dizzy or headache inside a car or house, it may be due to carbon monoxide. Get some fresh air immediately, the health department said.

If you come across a person who has fallen victim to CO, get him into the fresh air immediately and if he is not breathing start giving artificial respiration immediately. Have someone call a doctor and an ambulance.

Last year 58 persons died in Michigan from carbon monoxide poisoning. You can reduce your chances of falling victim to CO, the state health department said, by following these suggestions:

IN THE HOME

Have an expert check the burners of all fuel-burning devices—even those designed to operate without flue connections to the outside—to make sure they are adjusted for complete combustion. If sufficient oxygen is available, lethal amounts of carbon monoxide is available. Vent connections to the outside are recommended for all gas-burning equipment except properly operating cooking equipment.

Make sure the flues and chimneys of all furnaces, stoves, heaters, incinerators and other fuel-burning devices are in good condition and are not plugged up. If in doubt, call a plumber or heating expert.

IN THE CAR

Check your car's exhaust system for blown-out gaskets, loose manifold, leaky exhaust pipe and holes in the muffler.

Open the garage doors when running your car's engine, but even with the garage doors wide open do not run the engine inside the garage longer than a minute.

Shut off the engine when sitting in parked car unless the windows are open.

When stalled or in slow-moving traffic, keep the air intakes of your car closed so carbon monoxide from exhaust of cars ahead will not enter your car.

State highway patrolmen often aid in wildlife law enforcement cases, the National Wildlife Federation reminds, and three officers of the New Mexico Department of Fish and Game recently returned the favor. On a highway between Albuquerque and Santa Fe, they noticed the erratic driving of a youth and investigated. He was driving a stolen vehicle not yet reported as missing.

GOVERNMENT ANNOUNCES CIVIL SERVICE EXAMINATION

A new examination has been announced for shorthand reporter the Civil Service Commission said today. Applications will also be accepted in this examination from reporters who use closed microphones. The jobs to be filled pay from \$4,490 to \$5,995 a year and are located in various agencies in the Washington, D. C., area.

Applications will be accepted until further notice and must be filed with the United States Civil Service Commission, Washington 25, D. C.

Further information is given in civil service announcement No. 177 which may be obtained from most post offices throughout the country or from the commission's Washington office.

President Dwight D. Eisenhower has joined the ranks of sportsmen who properly report "duck bands," the National Wildlife Federation has been advised in a communication from Hayden W. Olds, chief of the Ohio Division of Wildlife. Ike was told by the United States Fish and Wildlife Service that the mallard he killed at Little Cedar Point near Toledo, Ohio, had been banded 41 days earlier, on September 28, 1958, by the Indiana Department of Conservation at Willow Slough State Game Preserve in Indiana.

INTERIM ZONING ORDINANCE
Reno Township
Iosco County, Michigan

An Interim Ordinance to establish zoning districts and regulations governing the unincorporated portions of Reno Township, Iosco County, Michigan, including the administration thereof, in accordance with the provisions of Act 184 of the Public Acts of 1943, as amended.

THE TOWNSHIP BOARD OF RENO TOWNSHIP, OF IOSCO COUNTY, MICHIGAN, ORDAINS:

ARTICLE 1—PREAMBLE.
Section 1.01 Title.
This Ordinance shall be known as the "Reno Township Interim Zoning Ordinance."
Section 1.02 Purpose.
The purpose of this Interim Ordinance is to:
1. Improve the public health, safety, morals and general welfare;
2. Promote the use of lands and natural resources of the township in accordance with their character and adaptability;
3. Reduce hazards to life and property;
4. Lessen the congestion on the public roads and streets;
5. Provide, in the interests of health and safety, the minimum standards under which certain buildings and structures may hereafter be erected and used;
6. Facilitate the development of an adequate system of transportation, education, recreation, sewage disposal, safe and adequate water supply and other public requirements;
7. Conserve life, property and natural resources, and the expenditure of funds for public improvements and services to conform with the most advantageous uses of land, resources and properties.

Section 1.03 Continued Use of Nonconforming Uses and Buildings.
The lawful use of any land, building or structure existing on the date of enactment of the Interim Ordinance, although such use does not conform with the provisions of the Interim Ordinance, may be continued at the discretion of the owner.

ARTICLE 2—DISTRICTS.
Section 2.01 Kinds of Districts.

For the purpose of this Interim Ordinance, Reno Township is hereby divided into the following Zoning Districts:

California's Department of Fish and Game planted 5,561,390 fish, mostly trout fingerlings, by air during 1958, the National Wildlife Federation has been advised. The average planting cost was \$1.53 per thousand. In all, 852 lakes were stocked by 195½ hours of airplane flight time.

Talla Predicts Lower Food Prices

Lower food prices in 1959 were predicted today by Mr. Talla, vice president of the Detroit division of the Kroger Company, which operates stores throughout this area.

"Ample supplies of most food items can be credited for the looking-for-drop in retail prices during the next few months," Mr. Talla said. With a few exceptions, fresh fruit and vegetable prices will show the greatest change, he said, averaging about 15 percent less than last year during the first six months.

Citrus prices still reflect the loss of trees in last winter's freeze, but potatoes are in abundant supply and will present a good value to the consumer for some time to come.

The favorable produce picture reflects good growing conditions in Florida, which ships most of the fresh fruits and vegetables to the stores in this area during the cold weather months. Last winter's freeze produced a shortage and forced shipment of produce items from as far away as California and Cuba.

Overall meat prices should be down about six percent, thanks primarily to pork and poultry. A bumper crop of hogs during the first half of the year will make pork a budget buy for homemakers. Poultry continues in good supply and at 1958's favorable prices. More beef is coming to market, also, but increased consumption will balance prices at about the

same level.

Increased processing and shipping costs will hold up prices of canned and frozen foods, but prices of coffee and such oil products as shortening and salad oils should be down considerably, Mr. Talla said.

"On retail store shelves, the ready-to-serve foods are attracting more consumer food dollars, particularly in the area of frozen foods. As the growing parade of these foods, which come with homemaker-helping services built into packages, reaches the market, the spread between grower and retailer necessarily grows," he said.

"However, time and effort saving items become more necessary as a greater number of married women are employed."

An accompanying trend is the store department which offers pre-

pared foods. Many new markets now contain bakery departments, barbecue pits, lobster tanks and delicatessen departments.

Mama's grocery bill should be lower in the next year, Mr. Talla concluded, unless she decides to spend the extra money for more and better foods for her family. That has been the trend for the past quarter of a century, he said, pointing out that if Americans ate the same foods which cost them 23 percent of their income in 1935-39, they would be spending only 16 percent of their income today.

"Actually, we spend about 25 percent of our income for food now," he said, "but the extra money goes for a more heavily laden table and to pay for the time-and-effort-saving services we have come to take for granted."

UNUSUAL OCCURRENCE SPOTTED FROM PLANE

Two Wyoming Game and Fish Department employees recently observed an unusual wildlife occurrence, according to information given the National Wildlife Federation. The men were driving an elk herd by airplane when they spotted a buck deer dragging something from his antlers. They landed the airplane and proceeded on foot to the animal. It apparently had been fighting another buck when their antlers became locked. One deer died. Coyotes came upon the scene and devoured the dead deer right up to the ears. The live deer was dragging the head, hide and hind legs of its antagonist. The men relieved the burden and the deer trotted off, apparently unharmed.

Allen Prescott (right), son of County Clerk and Mrs. George A. Prescott, Tawas City, and Michael Welch, Midland, rehearse a scene from the Michigan State University Children's Theatre production of "Utah Trail," to tour six Michigan cities in early February.

The play, an action-packed drama set in 1850 in the wilderness of the Utah Territory, is keyed to the interests of youngsters in grade three and over.

It is the story of a father, mother and five children and their struggles to survive an Indian attack until militiamen arrive to drive the attackers off.

The play was adapted for children's theatre by Dr. Albert O. Mitchell, a native of Utah and a leader in the national children's theatre movement. The Michigan State University production will be directed by Mrs. Mary Jane Watkins, associate director of the MSU Children's Theatre.

RANDALL

RECOMMENDED FOR
Circuit Judge

The voters need to choose a new Judge for the Circuit Court for Alcona, Iosco and Oscoda Counties.

The attorney elected will take office January 1, 1960, for a six year term.

Many of the people of Iosco County recommend NORMAN J. RANDALL of Oscoda County for these reasons:

The term is long as public offices go and the voters should be sure of making the best choice.

Circuit Judge is a very important office, the duties of which, at one time or another, may well affect every person in the three counties.

Attorney Randall is a student of the law, has had a long legal career and is a tested public official. He is even tempered, soft spoken and has a natural sense of justice and judicial temperament.

He knows best the problems of the people of our Circuit because he was born here and has lived his entire life here, except for his later school years, his service in World War I and four years of law practice in Detroit.

Having practiced in our courts for the past 26 years, he knows best how our Circuit Court has been conducted and the quality of justice we should expect from it.

THE PRIMARY ELECTION IS FEBRUARY 16, 1959.

Slow Start Turned Into 50-20 Victory Over Orioles

After getting off to a slow start Friday night, the Tawas Area Braves raced to a 50-20 win over the West Branch Orioles. The game was played on the winners' home court.

The first quarter found the sharpshooters of both teams at a loss to find the range, the score being tied at 6-6 at the end of the frame. In the second quarter, Tawas caught fire and racked up 25 points and a 31-13 lead at half-time.

The second half found Tawas still in command as it outscored West Branch 12-7 in the third quarter. While the Orioles were being held scoreless in the final quarter, the Braves' second string scored seven points.

Bob Watts' 16 points was high

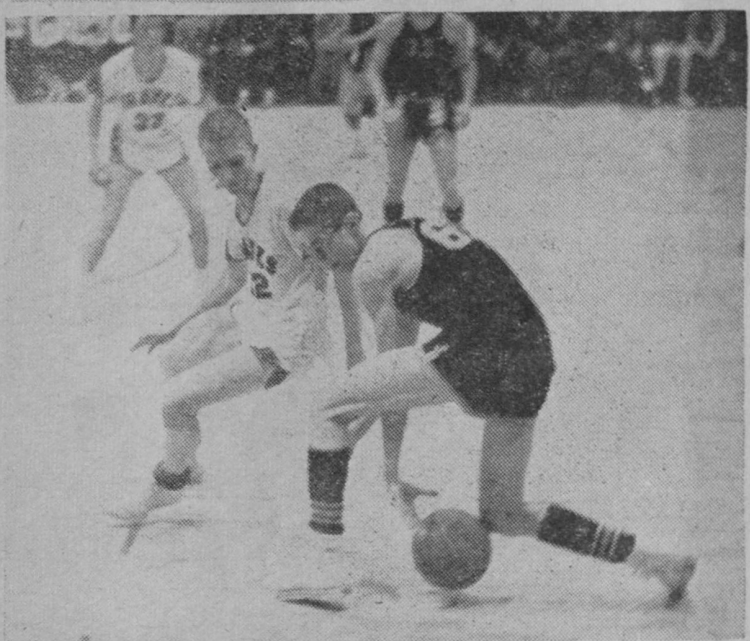

for Tawas, followed by Bill Mick with 12. The latter is high scorer for the season thus far, scoring 125 points for a 13.9 per game average. Watts is close behind with 123 points and a 13.6 average. Guard Ray Moore with 113 points has averaged 12.5 points.

The Junior Braves continued in their winning ways turning back the West Branch reserve squad, 52-43. Tawas took a 13-10 lead in the first quarter and held a 28-23 lead at half-time. The second half found Tawas meshing 24 points while the Orioles JV scored 20.

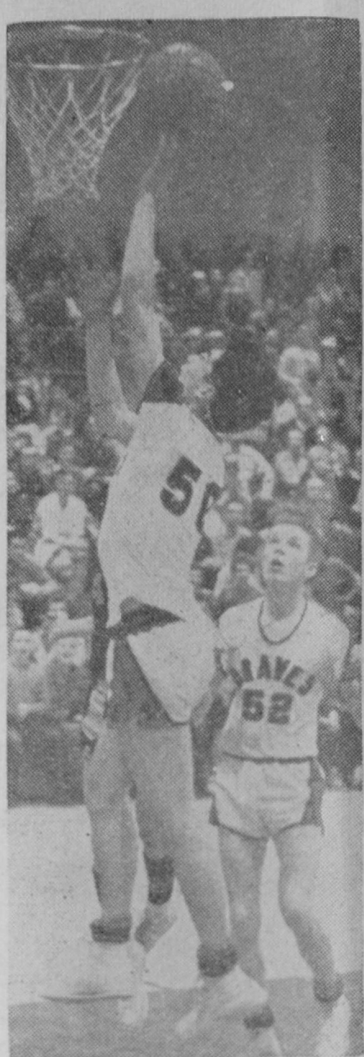

Tawas had two players who hit in double figures, led by Herman Rollin with 17 points. DeViere connected for 13 points. Dunbar led West Branch with 13 points.

Roscommon took over the top spot in the Northeastern Michigan Conference last Friday night with a narrow win over Pinconning, 53-52, while Tawas Area bounced West Branch, 5-20, and Houghton Lake grabbed an overtime victory from Beaverton, 53-49. Arenac Central and Arenac Eastern postponed their contest to a future date because of the weather.

Games on tap for this Friday night include Roscommon at Gladwin, Tawas Area at Beaverton, Arenac Eastern at Pinconning and Houghton Lake at Sterling, playing Arenac Central.

Roscommon grabbed a 9-4 first quarter bulge and added to its margin in the second period with a 16-12 count to hold an intermission lead of 25-16. A 17-13 third stanza tally gave the Bucks a 13-point spread at the start of the fourth quarter. Pinconning knotted the count in the last minute of play but lost the lead on Barry Vibber's free throw to make the score 53-52. Flynn of the losers had the opportunity to knot the count with six seconds to play, but the ball dropped away and Roscommon controlled the game to the whistle.

Forward Rick Fradl of Roscommon led the scorers with 22 points on nine field goals and four free throws. Dick Marter, Spartan forward, held down the second slot with 20 on eight and four, getting 12 of his total in the last quarter. Pinconning splurge. Center Jim Papefus of the winners had 15 while his opponent at that position, Tom Cliff, had 14. A 24-point attack by Johnson, led the Roscommon JV five to a 69-22 win in the preliminary contest.

Houghton Lake came from behind late in the fourth quarter to tie the score and force their game with Beaverton into overtime. Beaverton jumped to a three point lead at the end of the first quarter and maintained their margin to intermission, where the losers held a 20-23 bulge. Beaverton took the third period with a 15-9 count to

WHY DIDN'T THEY PICK OUR TOWN?

When an industry looks at our town then picks another . . . Why?

Perhaps we lost because of reasons beyond our control: the company's problems of markets, transportation, raw materials, etc.

But perhaps it was because we lack advantages which competing towns have and which we need if we are to attract industry. Usually a town can develop most of the advantages it needs if its citizens work hard enough and work together. Do we?

Perhaps the company felt that the community's attitude isn't favorable for new industry. Attitude of the people toward their present industry, toward their town and toward each other. Community attitude is not merely everybody's business. It is everybody's every day contribution — good or bad.

Join hands with your local industrial development organization and the Michigan Economic Development Department to help your community prosper.

This ad is one of a series published as a public service by this newspaper in cooperation with the Michigan Press Association and the Michigan Economic Development Department.

D AND M CREDIT UNION HOLDS 5th ANNUAL MEETING AND DINNER

Assets of the Detroit and Mackinac Credit Union have reached the \$62,635.43 mark. Treasurer Clyde Evril reported to the members at the fifth annual meeting of the credit union held January 22 at St. Joseph's Social Center.

Robert VanRiper, Michigan Credit Union League representative, was featured speaker following dinner. Mrs. Rosemary Klenow was toastmaster and C. R. McMullen gave the invocation. Edgar Stephan of Alpena entertained the group with feats of magic.

The D and M Credit Union has 206 members. Organized in April 1955, membership is open to active and retired employees of Detroit and Mackinac Railway Company; Mackinac Truck Lines, Incorporated; Ottawa Equipment Company, and members of their immediate families.

The business meeting was called to order by President E. S. Harris, who reported the board had again approved a four percent dividend on savings and a 10 percent interest rebate to all borrowers. Since organization, a total of \$197,418.23 has been loaned to members. Mr. McMullen of the credit committee reported there had been an increase in large loans during the past year as the assets have increased.

Re-elected to office were the following: Board of directors, James Campbell, William Rapp, Mrs. Klenow; credit committee, Mr. McMullen; supervisory, P. H. Mulholland. All were elected for three-year terms.

At the close of the business meeting, a movie on the operation of the credit union was shown to the group. Door prizes were won by Clara Spica, Dale Fisher, Gerisidine R. Robey, Helen Johnson, Mrs. R. E. Korthals and Carol Bolen.

Among the 120 members and guests present were people from Alpena, Bay City, Au Gres, Oscoda, Omer, Harrisville, Posen, Standish and Sterling. Special guests included Mr. and Mrs. VanRiper; the Rev. Fr. Joseph Castanier, president of board of directors, Immaculate Heart of Mary Credit Union; Donald Gilskey, treasurer of Immaculate Heart of Mary Credit Union, and Mrs. Gilskey, and Ronald Korthals, treasurer of Anderson Coach Credit Union, and Mrs. Korthals.

a modern homemaker speaks...
"I seem to get much more done since we got our Electric Clothes Dryer"

 Mrs. J. V. Randall
 251 Lenora Ave.
 Grand Rapids, Michigan

"My weekly wash used to be a full day's work. Since we got our Electric Dryer this tire-some chore has been cut just about in half. In our home anything that helps do work quicker and better is welcome. Our Electric Clothes Dryer fits in perfectly."

Many wives could take a lesson from a modern homemaker like Mrs. Randall. She doesn't take time on a busy day for hauling baskets of wet clothes, hanging up, taking down, worrying about the weather. Her wash is dried quickly, automatically. Electric Dryers are economical to own, economical to operate, too.

More than 6,000 Palestine refugees live in this huge camp near Tripoli, Lebanon, with only canvas tents to protect them from winter storms. At right, below, a young girl gives her baby brother his relief ration.

ARAB RELIEF: U.S. 70%; U.S.S.R. 0%

More than 1,000,000 Palestine Arabs are enduring the rigors of winter in refugee camps, subsisting largely on relief from the United Nations, and waiting for some workable solution to their plight. Thirty-three governments at a fund-raising conference for the United Nations Relief and Works Agency in October promised \$27,500,000 for agency activity. U. S. Delegate, Sen. Bourke B. Hickenlooper, Iowa Republican, pledged that, apart from contributing the largest share of the agency's budget—70%—the U. S. would give \$3,700,000 for any activity that would get at least some of the refugees permanently established in new homes. The Soviet Union, which has never contributed to the agency, boycotted the pledging conference. It also stayed away from a second fund-raising meeting for the benefit of refugees under the wing of the U.N. High Commissioner for Refugees.

Tawas Area May Hold Special Election

The advisability of holding a special election to ask voters for approval of a general obligation bond issue to finance construction of a new heating plant and electrical system at the East Tawas unit was received by the Tawas Area Board of Education at its Monday night meeting. H. E. Beyster and Associates, engineering firm hired to make a survey of the proposed construction, notified the board that such a vote could not be held at the regular spring election because of conflicting times for registration of voters. "Whether any such election will be held will be contingent upon the findings of the heating and electrical survey," stated Supt. Reoyld E. Mick Tuesday. "When the surveys are in the hands of the board, the matter will be taken under consideration." A report of the school's financial condition indicated that the state has paid three-quarters of three state aid payments and one-half of the fourth payment, leaving the state in arrear of \$40,000 for operational expenses at Tawas Area School. In September of last year, the board received permission to borrow \$50,000 to meet expenses and had borrowed \$20,000 prior to the expiration date of December 10 for borrowing. "The fact that the district only received one-half of its state aid

money in January has left a temporary financial condition which necessitates holding up some local bills," stated Mr. Mick. "Efforts are now being made to pay bills amounting to \$13,000 to school supply houses, which have been outstanding since July 1." The board reminds area residents that where the school exceeds requirements of state laws for bus transportation, it is a local ruling of the board that it is the responsibility of parents who live on dead-end roads to provide suitable turn-around areas for school buses. Mr. Mick said Tuesday that such a turn-around is necessary for the protection of school property and the children. Superintendents of all 10 North-eastern Michigan Conference schools met at Tawas Area School last Thursday night. Discussion centered around finance problems of schools and athletic schedules for the years 1961-62. Clarence Metzger, principal at Beaverton, had charge of the session. Some 23 superintendents, principals and county school superintendents attended the meeting.

When the city administration of Dayton, Ohio, provided the Dayton workhouse with a new gas oven recently, the workhouse cook showed his appreciation in a practical way. He baked a five-layer cake for city officials.

Webb

(Continued from page 1.)
on horseback. Another time when using a car, a blizzard came up suddenly. Mr. Webb had to borrow a horse from the 3-E Ranch to ride the rest of the route in subzero temperature. One day a bear stepped into the road in front of Mr. Webb and his horse. He yelled and the bear ran. Fortunately the horse did not notice it and remained calm till he caught the bear's odor further on. The horse was terribly excited but did not tip over the mail wagon as Mr. Webb had feared.
A number of years ago, Mr. Webb discovered a fire in the straw banked against John Thompson's house. He rushed in and warned the Thompsons, who were unaware of the blaze. With the aid of his fire extinguisher, he helped them put out the fire and save the house.
Webb has caught pike and carp in the middle of the road where they had been stranded when high water receded. Once he aided a deer that had caught its foot in a high wire fence when leaping across.
The Model A Ford tipped over near the Webber ranch house on the county line one icy day. Webb was not hurt and phoned Albert Gardner's garage in Hale for the wrecker to tip the car back.
A heavy rain once caught him in his Model A as he was on his way into the YWCA Camp at Loon Lake. A depression in the lane had filled with water so deep the motor was drowned and the floor of the car inundated. The mail had to be piled on the seats to keep it dry. Webb rolled up his trousers, took the camp mail on his back and walked the rest of the way to the camp telephone. There he called for his wife to bring the V-8 to pull him out. She did.
Five winters ago, his car slid off an icy hill at Wilson's Landing, down over a bank towards Sages Lake. He then drove across a corner of the frozen lake to the state fishing site where he returned to his route. Long ago, he frequently drove his horses across part of North Londo Lake near Jess Shellenbarger's when the regular road was drifted full of snow.
Webb declared there is not a 10-rod stretch on his mail route where he has not been stuck in mud or snow, or needed some kind of help even at the corner nearest his home. The good people along the route have always cheerfully helped him out. He wishes to thank them at this time for their many kindnesses to him.
In World War I he was in the service for six months. E. V. Esmond, a Civil War veteran, substituted for him, using a Model T Ford. Mr. Esmond said it took his pension plus his salary to keep the car going.
During his 43 years as letter carrier, he has used, in addition to many different horses, seven Model T, one Model A and three V-8 Fords, three Plymouths, one

Silver Valley Discussion Held Last Night

A meeting to discuss operations at Silver Valley was to have been held between the Tawas Chamber of Commerce and representatives of the United States Forest Service at a meeting last night (Wednesday). Principal discussion was to have centered around the forest department's recent decision to terminate the chamber's permit for operation of Silver Valley in 1961.
As of Tuesday of this week there were seven members in good standing in the chamber of commerce, paying 1959 dues totaling \$240. Additional memberships were to have been received at last night's meeting of the board of directors. A membership campaign is to be conducted in about one month.
A budget of \$6,200 has been set for the chamber of commerce during 1959 by its finance committee. Of this budget, \$4,750 will be for operating expenses. "If we get the kind of membership participation that we expect, \$1,250 will be used for promotions other than the regular promotions of the chamber," stated President Cecil W. Cabbie. The remaining \$500 will be used to pay a \$500 deficit remaining from last year.
The chamber president reports that requests have been received to erect a sign at the intersection of Coast Guard Road and US-23 giving the location and distance to the coast guard station, light house and Perchville.
For good washing results, do not overload your automatic washer, says Lucile Ketchum, home management specialist at Michigan State University. You will get better results with a pound or two less than the capacity which the manufacturer lists. The clothes should move freely through the water, so mix small and large pieces—not more than two sheets to a load. Overloading gives poor washing results and is hard on the motor.
Continental and nine Chevrolets. The last few years, he has had a Ford pickup to use in emergencies. The substitute carriers on route one were Charles Gardner, Will Glendon, Ross Webb, Annabel McLean Davison, Harold Rainsberg, George Brown, Vic Webb, the Rev. Sweitzer, Ira Scofield, John Morrison, Ray Gitchell, George Bissonette and Richard Matthews.
Webb has helped his five oldest children acquire a total of 15 years of college education plus three years of nurses training. The youngest girl, Charlotte, will be ready for college this fall.
He will retire to his 40-acre farm two miles southwest of Hale where, for the present, he plans to rest and read, and perhaps do some fishing. His wife confides she has a lot of odd jobs waiting for him to do.
