McKinley Brothers are State Lightning Champs

William and Edward McKinley of Saginaw and Tawas were crowned champions of Michigan Lightning class sailors at the annual district regatta held Friday, Saturday and Sunday on Tawas Bay. Tawas Bay Yacht Club was host to the visiting sailors.

Taking a second in Sunday afternoon's final race, the McKinleys nosed out James Schudel of Detroit with 231 to 227 points. In the five races run over the three days, the champions took a first, two seconds, a fourth and a fifth.

They won one-year possession of Michigan Lightning District's perpetual trophy, which was presented by Jack Best of Devils Lake Yacht Club, Jackson, district president. They were also awarded a permanent trophy by John Mielock, commodore of the Tawas Bay Yacht Club.

Other winners were: Schudel, second place, 227 points; Alex Carlin, third place, 220 points; Wes Wedrick, fourth place, 216 points; and Herm Nickels, fifth place.

All of these winners are eligible to participate in the international championships which will be held August 18-22 at Crescent Sail Club, Detroit, home club of Henry Cawthra, international champion.

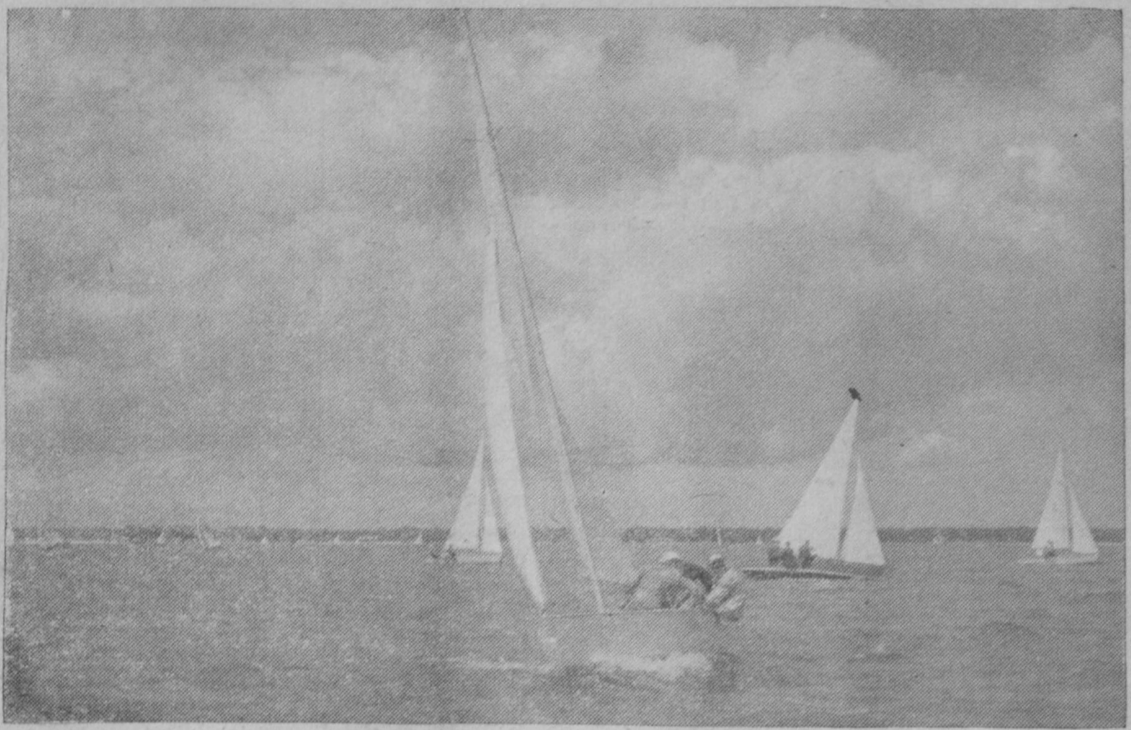

Cawthra, who twice has been the international champion and was named "sailor of the year" in 1958, finished among the first 10 in the district regatta, in spite of a foul in the second race. Cawthra's boat hit a marking buoy and he disqualified himself.

Last week-end's races were some of the best ever staged in a Lightning regatta. With 48 boats competing, the boats were well grouped and in several races only about 11 minutes separated first and last places. Sailors had to navigate about 10 1/2 miles over all legs of the triangular course in each of the five races.

Foul weather canceled but one race, that one coming Saturday afternoon when a rain storm kept all boats in the basin. This race was run Sunday afternoon as the sailors remained in their boats following the morning race. They were served lunch on the water from power boat "snack bars" courtesy of the yacht club.

OTHER WINNERS in the Michigan District Lightning Regatta on Tawas Bay are pictured here. From left to right are James Schudel, second place; Alex Carlin, third place; Wes Wedrick, fourth place, and Herm Nickels, fifth place.—Tawas Herald Photo.

TAWAS BAY was the setting last week-end for the annual district Lightning regatta. This was the third year that Michigan's fleet competed on the bay here and again proved to be a big attraction to tourists and local residents alike.—Tawas Herald Photo.

Tawas Area Voters Approve One-Year Millage Hike

Paves Way for Modern Heating Plant at ET Unit

A proposal to levy an additional 2.5 mills on the 1959 tax rolls was approved by Tawas Area School electors in Monday's annual election. The proposition won by a two to one majority, receiving a total of 269 yes votes to 132 no votes.

Favorable action by voters will enable the board of education to proceed during the summer of 1960 with a new heating plant at the East Tawas unit.

A breakdown of the vote was as follows:

Precinct No. 1, East Tawas and Baldwin Township: 150 yes, 54 no; precinct No. 2, Tawas City, parts of Baldwin and Wilber Townships: 87 yes, 24 no; precinct No. 3, Tawas and Grant Townships: 21 yes, 33 no; precinct No. 4, Alabaster and Whitney Townships, 11 yes, 21 no.

Re-elected to the board of education was Walter H. Niles, veteran trustee. Niles, who was unopposed on the ballot, received a total of 350 votes. There were six votes scattered among other write-ins.

At a meeting of the board following the election, the board reorganized with the same officers as in 1959. Named as president was Stuart H. White. William Look was named president pro tem. Niles was named secretary and Waldo Curry, treasurer. Other member of the board is Hugo J. Keiser.

In other business conducted during the meeting, the board authorized the purchase of furniture for an extra kindergarten room being set up at the East Tawas unit. The school census reveals that the kindergarten department will be somewhat larger this fall.

Also authorized was the purchase of desk chairs for the room at the high school. The chairs that will be replaced will be used in the study hall to give additional facilities for the noon lunch program.

Purchase of 35 tables and chairs for the elementary grades parts of Baldwin and Wilber Townships was authorized. This furniture will be used to fill out existing rooms.

Purchase of two new sections of bleachers for the athletic field was authorized. The bleachers are to be paid from funds from the athletic department.

BURNETTE PROMOTED BY MICHIGAN STATE POLICE

Cpl. George Burnette, former Michigan State Police trooper at East Tawas, has been promoted to sergeant and transferred from the Ypsilanti post to command the St. Ignace post effective July 19. His wife is the former Evelyn Pfeiffer, daughter of Mr. and Mrs. Matthew Pfeiffer of Tawas City.

Funds Low, But Chamber Office Still in Operation

Tawas Chamber of Commerce's office on US-23 is still open for business. At last Wednesday night's meeting of the board of directors, at which there was not a quorum present, six members voted to close the office due to the lack of funds.

Because of the lack of a quorum, this action was unofficial. A special meeting is to be held to discuss the matter. Members present at the meeting were Carlton Merschel, Lyle Mooney, Cecil Cabbie, Emery Sylvester, Emmett Cecil and Clarence Oates.

A treasurer's report revealed a balance of \$302.57 with outstanding bills of \$696.

Mrs. Bertha Montgomery, office manager, reports that some dues were received from members during the past week.

As yet, the chamber has not

conducted its regular membership drive for the year. Statements were mailed out recently to each member.

NEW GIFT SHOP

Announcement was made this week of the grand opening of the Post House Gift Shop in the Holland Hotel, East Tawas. The new shop is a division of the Gallgell Post House, Standish.

The new shop will feature imported and exotic gifts from everywhere.

Police Warn—

Sgt. Frank Roti, commander of the Michigan State Police Post at East Tawas, warns residents this week that a number of people have ignored orders to keep dogs confined for 10 days following a dog bite complaint.

"These people should realize that this order is for the protection of both parties," states Roti. "Dog bites can be very serious. The 10-day confinement period for the dog is to check against rabies. Offending dog owners will be prosecuted if such orders are ignored in the future."

Hospital Had Busy Year

Tawas Hospital has had a busy year. It admitted 2,657 patients, making a total of 12,860 days of care since this time last year.

This represents 355 more patients admitted than last year. The month of June showed an all time high of 243 patients admitted for one month.

Survey of the year shows that there were 571 births in which there were only two sets of twins; 679 surgeries, 975 emergencies and 1,532 out patients.

"The hospital wants to take this opportunity to thank its many friends of the area who have helped make this year successful by their donations of money, equipment, time, material and encouragement," states Sister M. Olivia, hospital administrator. "We are deeply grateful."

Tawas Hospital is \$2.20 the richer this week after receipt of money from the Katy Keene Club of Sand Lake. The youngsters staged a circus last week and the money represents the proceeds. Members are Dennis Sheridan, Janice Wright, Robert Cybula, Allen Sheridan, Linda Sheridan, Kathy Brown and Darleen Gage.

Favor Tax on Land Transactions— Supervisors Oppose Change in Liquor Enforcement Laws

Isosco County Board of Supervisors went on record as opposing House Bill No. 601 which is on the governor's desk awaiting his signature. This action was taken at the one-day July session of the supervisors on Wednesday.

The bill in question would give money received from liquor enforcement collections from taverns in a taxing unit to the sheriff, instead of to the townships, as is the case under the present law.

Isosco's supervisors felt that the present enforcement system works very well and stressed that it was one more move toward centralizing government. At present, townships elect four constables and these officers are paid to enforce the liquor laws.

The board instructed Clerk George Prescott to send a telegram to the governor giving that group's viewpoint.

Cong. Elford Cederberg addressed the board and briefly explained his objection to Senate Bill No. 722. The Isosco board had

Name Three New Members of Tawas Harbor Committee

Three new members have been named to the Tawas Harbor Committee, it was announced last week by Keith Wilson, director of the Michigan Waterways Commission. Formerly, the committee consisted of three members and one member was named to fill a vacancy.

Original members of the committee were W. D. Nunn, Carl Babeock and the late Nathan Barkman. A successor to Mr. Barkman had not been named until last week. New members comprising the five-man board are Charles Pinkerton, L. G. McKay Jr. and Harold Gould.

The committee is to hold monthly meetings to discuss boating problems. A representative of the Michigan Waterways Commission is to attend each meeting.

Judge Will Give Decision on Tawas Lake in 30 Days

Hearing on the petition of the Isosco County Board of Supervisors to determine the normal level of the waters of Tawas Lake concluded last Wednesday afternoon in Isosco County Circuit Court. Counsel for west side property owners, east side property owners and the county have 30 days to file briefs with Judge Herman Dehnke.

In his tentative summary, Judge Dehnke outlined a number of issues in the case to give counsel opportunity to file briefs on them. He said he would reserve final decision until after he has had a chance to give it more consideration.

Judge Dehnke expressed his

appreciation to conservation department representatives, "who have made it plain that they have no axe to grind and are merely trying to be helpful; first of all to the court in the discharge of its responsibility, and secondly to the community generally and to the public interest and general welfare as they see it."

Following a visit to the north-west side of Tawas Lake, particularly that area around what is called Sims Point, Judge Dehnke said, "There is a basic legal issue here that we will have to pass on and give pretty careful consideration to in view of the position that has been taken upon the record by the objectors through their attorney."

He said that the statute prescribes a procedure for fixing the normal level of inland lakes. It sets out certain standards which may be used with others that may be considered pertinent in determining what is the normal water level. The end to be attained is to ascertain a level "which will provide the most benefit to the public and best protects the public health, welfare and safety and which will best preserve the natural resources of the state," said Judge Dehnke.

"That was a part of the difficulty during the trial of the case, to determine exactly what the witnesses had in mind when they spoke of a 'normal water level.'" To some extent, they spoke of desirable, advantageous and beneficial. This language is broad enough to suggest to the court that it has the power to give considerable weight to the general public interest.

"The objection is made that this is not a condemnation statute. It does not set up a means of assessing damages and authorizing them to be paid. The claim is made that if the level is fixed at a point which will do substantial injury to those who have, under the usual conditions, enjoyed a benefit of which they would be deprived if the level

were raised, it would constitute an infringement of their constitutional rights and deprive them of their property without compensation and without due process.

"Before we can arrive at a final determination as to what level should be fixed here, we will have to be clear upon that point, because my present impression is that the testimony, if based upon the things that are mentioned in the statute, would justify the fixing of a level at perhaps 582.5 or 8."

"On the other hand, the testimony seems to me to show pretty

Lake Front Lots on US-23 Purchased

The City of Tawas City completed a major step in its move to preserve the Tawas Bay waterfront on US-23 for public use this week with the purchase of four lots west of the chamber of commerce office.

Purchase of the four lots from Russell J. Hadwin of Birmingham was announced Wednesday by Mayor George Tuttle. They were Lots 2, 3, 5 and 6, Block 4, in the Scheffer Addition.

Action toward purchasing this property was started in 1955 by the council. No word had been received since then until receipt of a letter Monday from Mr. Hadwin. The property purchased contains little actual land because when US-23 was widened, most of the lots were reduced in size. The purchase by the city will prevent a build-up along this narrow strip.

Will Demonstrate Range at Consumers

A demonstration on the new Tappan "400" electric range will be held Friday, July 17, from 1:00 to 4:00 p. m. at the Consumers Power Company office in Tawas City. Miss Ruth Crasper, home service advisor, will conduct the demonstration.

Fresh raspberry pies will be given away each hour during the demonstration, a Consumers Power Company official announced.

Miss Crasper will be happy to answer any questions on the care and use of electric appliances.

THREE EMPLOYEES of Tawas Hospital were honored Tuesday afternoon at a tea held in the hospital cafeteria. Receiving five-year pins were Mrs. Fay B. Fisher, bookkeeper; Mrs. Bert Sager, cook, and Mrs. Ann Harris, who works in the maternity department. Making the presentation was Sister M. Olivia, hospital administrator, right.—Tawas Herald Photo.

Time for Action!

Now is the time for all good businessmen to come to the aid of their chamber of commerce.

Although the chamber office did not close last week because of the lack of operating funds, the treasury is becoming alarmingly depleted. In fact, finances are almost nonexistent. Some dues were received this week, but more are needed.

This newspaper is not going to expound on the need for a joint chamber of commerce. Every businessman realizes the importance of having an active organization such as this. If it were not needed, it would never have been organized in the first place.

Looking back on the past year's activities of the chamber and bemoaning the fact that the "new look" did not materialize FOR NOW, will get us nowhere. What is needed is the immediate start of the regular membership campaign by the board of directors.

If such a campaign was successful, and there is no reason why it should not be a success, the chamber could continue to function. The board of directors could then move ahead with plans for its expanded program, using many of the good ideas which were suggested earlier this year. Such a plan should involve a considerable amount of study.

Let's not "cut off our nose to spite our face." If you haven't sent in your 1959 dues as yet, do so immediately. (Statements were mailed out recently to all businessmen.)

U. S. Responsibility

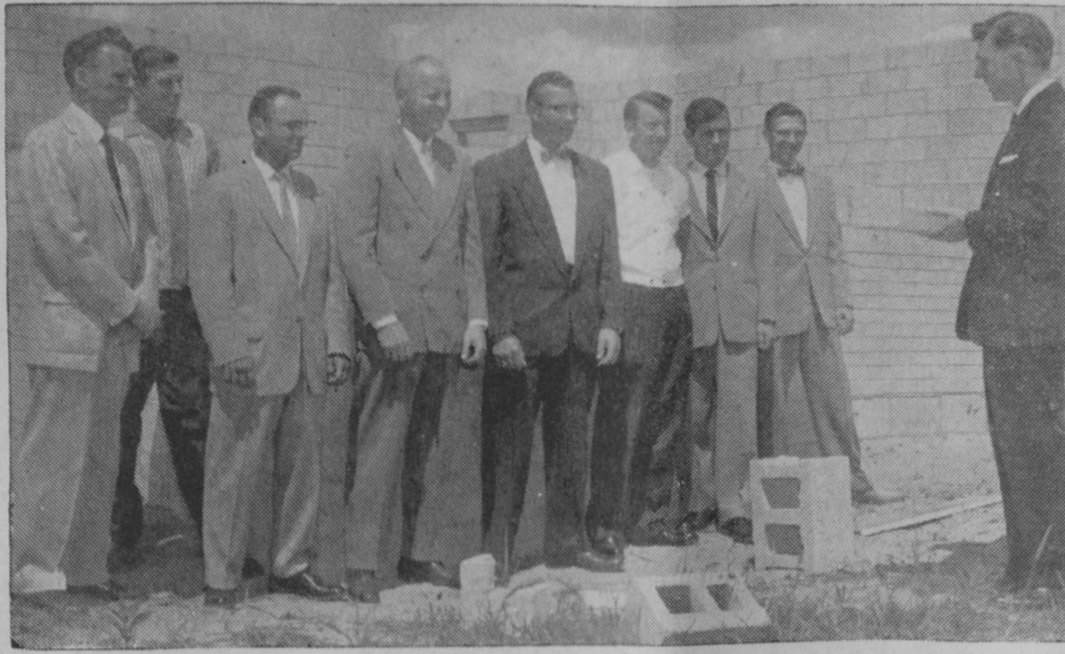

Receipt of a \$4,615 federal grant by Tawas Area School District may add fuel to a "fire" which is being kindled by a Northeastern Michigan newspaper.

We would like to set the record straight—the money received by Oscoda Area School and the small check granted to Tawas Area School, should not be considered "federal aid," as such. Rather, it is federal "responsibility."

The reason for building a new school at Oscoda is quite apparent. Several thousand new families will soon move into that area when the Strategic Air Command takes over at Wurtsmith Air Force Base.

The federal government realizes that the Oscoda school could not and should not be expected to handle this "flood" of new families. It is the responsibility of the nation as a whole. Other schools in Iosco and Alcona Counties will also be directly affected, to a lesser extent, by this influx of federally dependent children.

There are many good arguments against federal aid. But, as we said before, this particular case is federal responsibility.

Start \$35,000 Drive for Building Fund

A committee of 20 men has been chosen to take part in a fund raising drive within the membership of Emanuel Lutheran congregation for funds to complete the new Lutheran school on North Street.

The goal of the drive has been set at \$35,000 which is the amount needed to finish the new school. It is hoped that this amount, or a goodly portion of

it, be given by the members in gifts and pledges when the drive begins July 27.

The fund raising committee has been organized into teams and each team will visit a number of homes to ask for gifts and pledges. Pastor L. W. Newman will serve as chairman for this committee and the members are the following men from the congregation:

Richard Bertsch, Nelson Bean, Clyde Anschuetz, LeRoy Krueger, Bernard Look, Melbourne Kendall, Clifford Groff, Herbert Schroeder, Joseph Daly, Edward Anschuetz, William Goupil, Carlton Haglund, Howard Look, John Loeffler, Allen Anschuetz, Arthur Cadorette Jr., Carl Ulman, Neil Sheldon, Rolland Davis and Richard Yanna.

GRACE LUTHERAN CHURCH NOTES OF INTEREST
The annual Sunday school picnic of Grace Lutheran Church was held Sunday, July 12, at the home of Mrs. Edwin Anderson, Sunday school superintendent. There were games for the children, followed by a picnic dinner.

Grace Lutheran Ladies Aid held its July meeting at the home of Mrs. Edwin Anderson Thursday afternoon, July 9. A pot-luck picnic dinner was enjoyed, followed by the business session led by Mrs. Earl Hester, president.

Final plans for the annual summer bazaar were discussed. It is to be held at the church Friday, July 17, from 1:00 to 6:00 p. m. Mrs. W. D. Nunn is chairman.

The following members of Grace Lutheran Church have moved from East Tawas recently: Sgt. and Mrs. Raymond Clavir and Mr. and Mrs. Charles McCormick to Pennsylvania, Mrs. Virginia Frank and family to Lansing and Mr. and Mrs. Norman Hope to Sisseton, South Dakota.

The residence on North Newman Street recently acquired by Grace Lutheran Church has been renovated this week by members of the ladies aid.

FINAL PLANS MADE FOR RLDS DINNER
Final plans for a cafeteria style beef and ham dinner will be made at the July 16 meeting of Department of Women of the Reorganized Church of Jesus Christ of Latter Day Saints, Tawas City. The group will meet at the church at 7:30 p. m. Answer to roll call will be to name one of the 12 Apostles.

The dinner is set for Thursday, July 23, and will be held in the RLDS Church dining room. Serving will begin at 8:30 p. m. and the public is invited to attend.

GUEST SPEAKER AT FATHER-SON BANQUET FROM RHODESIA
Mrs. George Day, church missionary in Southern Rhodesia, will be guest speaker at Alabaster Community Church father-son banquet Saturday, July 18. Dinner will be served at 6:30 p. m. in the church basement.

CHRISTIAN SCIENCE
The divine, eternal source of all life and action will be stressed at Christian Science services Sunday.

Highlighting the lesson-sermon on "Life" is the Golden Text from John (5:26): "As the Father hath life in himself; so hath he given to the Son to have life in himself."

From "Science and Health with Key to the Scriptures" by Mary Baker Eddy the following will be read (289:32): "Because Life is God, Life must be eternal, self-existent. Life is the everlasting I AM, the Being who was and is and shall be, whom nothing can erase."

Scriptural selections include this passage from I John (2:25): "And this is the promise that he hath promised us, even eternal life."

Tawas City Gets Only 1 Hit in 5 to 1 Loss to Melita

Don Templin of Melita turned in a one-hit pitching performance Sunday as his mates defeated Tawas City, 5-1. Melita collected seven hits off the slants of two Tawas City pitchers, including two home runs.

Templin was never better as he struck out 12 batters and had a no-hitter slip from his grasp in the sixth inning on a single by Russ Anschuetz.

After a shaky first inning start, in which he walked two men after one out, Templin pitched himself out of the jam and no runs scored. He struck out the side in the second and third innings, the second with

the bases loaded and the third with two men on.

Gerald Potts was the starting pitcher for Tawas City and was chased from the mound in the second inning when Melita came up with four consecutive hits good for two runs. The winners next score came on a fourth inning home run by B. Hartwick.

Tawas City got its lone run and only hit of the game in the sixth inning. Russ Anschuetz led off with a single. Advanced to second on an infield out and scored on a fielder's choice.

Melita put the game out of reach in the sixth inning when Marx clouted a home run with a man on.

Errors Disastrous to East Tawas; Lose to Sterling

Twelve errors proved to be disastrous for East Tawas Sunday as Manager Harold Rollin's nine fell before Sterling, 11-4. East Tawas out hit Sterling, 10-9, but missing was their usually sharp fielding.

Sterling jumped to a three-run lead in the initial inning on the strength of a two-run homer by VanHorn and singles by Proulx and Peionciek.

Bob Binder started the game for the losers, but failed to finish the first inning. He was relieved by Herman Rollin with two men on and one out after VanHorn's blast.

Sterling picked up a single run in the third inning and two in the fourth, chasing Rollin from the mound. Bolen came on in the fifth and was nicked for four runs. The final run by Sterling came in the sixth inning.

Every run scored by Sterling, except the home run, was tainted by an East Tawas error. The losers committed two miscues in the first, one in the second, one in the third, four in the fourth, two in the fifth and one in the sixth.

East Tawas scored single runs in the fourth and fifth innings and two in the ninth.

Proulx of Sterling was top hitter of the day with three singles. Peterson and Bolen led East Tawas with two hits each. Stephan and J. Bethard both tripled for East Tawas.

\$125,000,000 Expansion Program Announces Baker

Chairman Melvin H. Baker of National Gypsum Company announced last week the most ambitious expansion program in his company's history—a five-year, \$125-million dollar plan for new plants, acquisitions and increased production at existing facilities.

"America will soon begin a decade of great growth supported by population increases and demands on industry and commerce," Chairman Baker declared.

"This will greatly increase the need for all types of construction and building materials. National Gypsum must grow with the nation to maintain our ability to properly serve America's construction needs."

Chairman Baker said the primary objectives of National's 1960-65 expansion program are "to expand our markets to include the entire North American continent and to substantially increase sales volume and income."

Mr. Baker said his company will build three new gypsum plants, "one in California opening the West Coast to our products plus new plants to serve principal Canadian markets."

"Our new plant at Waukegan, Illinois, now in production and coverage of the Great Lakes market soon will be completed when the gypsum plant at Lorain, Ohio, comes into production early next year," he commented.

July 21-24—Homemakers' Conference, Michigan State University.

Last reminder for making an application to attend Homemakers' Conference at Michigan State University next week. On the program are a number of outstanding speakers, a variety of social events, tours, daily classes and meditations.

"Let's go to Michigan State and enjoy a week of campus life," says our home economics extension council chairman, Mrs. Paul Sayles.

Write or call me asking for a complete program of activities and a reservation card.

The cantaloupes are coming with their double value—lots of vitamin C and very few calories. Can you pick a ripe, sweet melon? Best-flavored melons have a coarse netting on the outside underlaid with a yellow color. The stem end is slightly sunken, has a calloused scar when it is mature at the time of picking.

Sniff it—that "ready-to-eat ripeness" can be identified by a fresh, sweet odor.

A real different dessert idea is this one using sweet cherries. Prepare a white cake mix and put the batter in two nine-inch layer pans. Over the top arrange on each layer one cup of fresh, pitted, sweet cherries. Bake as usual. When serving time comes, spread the top and between layers with this filling which has been prepared and cooled: One cup nuts, one cup sugar, one cup sweet cream, one well beaten egg. Cook in the top of a double boiler until thickened. Garnish your dessert with fresh sweet cherries.

For summer meals the hard cooked egg is a popular ingredient in salad or deviled.

Begin with a grade A egg. Cover the eggs in a pan with cold water to at least an inch above the eggs. Bring the water rapidly to boiling. Turn off the heat, cover and let stand 15 minutes. Cool promptly and thoroughly in cold water. This makes shells easier to remove and helps prevent dark surface on the yolks.

Removing the shell is sometimes a problem. Try this: Crackle the shell. Roll egg between hands to loosen the shell, then start the peeling at the large end of the egg. Dipping in water helps to ease the shell off.

An inexpensive source of excellent protein, iron, vitamins A, B12, D, thiamine and riboflavin, these days, eggs can help build sparkling good health for your family. They are meal features at breakfast, lunch, dinner and for snacks.

Michigan State University has an unusual free clinic that makes diagnosis on sick plants. The department of botany and plant pathology runs the clinic. H. Spencer Potter, plant pathologist, and others suggest possible curative measures for sick trees, flowers, field crops or even lawn grasses.

"Farmers and gardeners should send specimens into the clinic as soon as symptoms appear," says Potter. "Quick action may save a tree or a hay crop."

The pathologist says growers should send in several affected leaves and stems. He advises moistening specimens and placing them in a protective polyethylene bag. "Include background information with each specimen," advises Potter. "Pathologists need to know whether the diseased plant was an outdoor or house plant, how and when fertilizer was applied, what earlier symptoms were and what crops had been on the involved soil in recent years."

Growers should send specimens to the plant diagnostic laboratory, Natural Science Building, Michigan State University, East Lansing, Michigan.

Each specimen requires a \$1 charge.

Most Michigan gardeners have picked their last strawberries of 1959, and it is time to remove runners between the rows if you decide to keep your patch over winter, says James E. Moulton, Michigan State University horticulturist.

"This year's hot, dry weather made strawberry irrigation especially profitable on many Michigan farms," says Moulton. "Even good irrigated stands may need renovating if runners are too thick."

Michigan growers seldom get more than two or three good crops from a strawberry garden without re-planting in the spring.

Particularly old stands or diseased plants probably will not produce a good crop next year.

The specialist does not recommend renovating a strawberry garden with lots of hard-to-kill weeds like quackgrass, sorrel or chickweed.

If you decide to renovate, narrow the rows to eight to 10 inches soon after the last picking.

A rotary tiller removes unwanted runners between rows efficiently. Growers can leave an eight to 10 inch row by removing several fingers from the center of the tiller drum. The tiller works much into the soil.

Many growers use cultivators with disk coulters attached in place of the teeth nearest the row. Enough teeth must be taken off to save the row. Mulch must also be removed to avoid clogging.

Many efficient growers broadcast nitrogen fertilizer on the row by mid-July. Where soil is fine, one heavy application should be enough. About 60 to 100 pounds of nitrogen per acre is recommended.

Light soils require two nitrogen applications on renovated strawberries between now and fall. The first application should be broadcast on the row. A side-dressing by mid-August will help new runners grow during the fall.

Interest Hike Does Not Effect GI Loans Closed Before July 2

The new higher interest rate which can be charged for GI loans on or after July 2, has no effect upon loans closed before that date, Veterans Administration officials pointed out today.

Veterans Administration officials said their explanation followed a series of inquiries from puzzled veterans following announcement of the new rate. Once a loan has actually been closed, subsequent legislation has no effect on the interest rate charged for that loan, they said.

THE TAWASES

by CHET MAHER, Manager

WE HEARD ABOUT A WOMAN who was trapped on the second floor of her house recently by a burglar. She peeked down the stairs and saw him ransacking the house but couldn't call police because the only phone was on the first floor. So she kept very quiet upstairs until the burglar left with all her valuables. Our subscriber was poorer but wiser for her experience. She bought an upstairs extension telephone the very next day. A telephone in your bedroom is not only a convenience. It's a security measure as well.

OUTDOOR TELEPHONE BOOTHS are really handy to have around—so much so, in fact, that a vacationer was found living in one in the resort town of Carolina Beach, N. C. He had set up housekeeping with an old broom, a small oil stove, a frying pan, cooking oil, eggs and cheese. There seems to be no limit to the convenience of these outdoor booths. But at the request of those who were waiting to make a call, our friend was encouraged to do his homesteading elsewhere. Folks in Michigan, incidentally, are never far from a public telephone. Michigan Bell has over 4,000 outdoor booths conveniently located along the state's highways and byways.

SONG WRITERS have been inspired by the telephone ever since 1877, just a year after its invention by Bell. That's when two marches, a polka and a solemn piece called "The Wondrous Telephone" were published. More than 70 song titles have appeared since then, many of them using the rhyme of "alone" and "phone" or "telephone." Now a new Columbia record album with songs by Polly Bergen is available. It carries the over-all title of Irving Berlin's 1924 hit, "All Alone by the Telephone"—something you needn't be any more with friends and family just a quick call away.

Needlecraft News

by Nancy Baxter

If you are a woman who appreciates the benefits to be derived from long-range planning, we have an idea that should be of special interest to you. You love the fun of house-warmings and showers, but you don't like frantic last-minute scurrying for gifts. Sometimes you can't think of what to buy. Other times you have wonderful ideas, but the items are not to be found—or, when found, are outside your price range.

Why not utilize your talent and spare time to avoid this hurried aspect of an otherwise calm occasion? Choose a sure-to-please item and make yourself a reserve. Then, when that invitation comes, just reach into your hiding place and, with the greatest of ease, pull out a gift that will be the high point of the party. A good example is today's featured idea. Coordinated pot-holders, in the form of a sugar bowl and creamer, will delight the woman who takes pride in the appearance of her kitchen. Notice how the fullness of design bespeaks the generosity of the home of which they are a part. And to derive maximum drama from the tiny twins, we've made them up in a basic white, with border and stripes of contrasting color. So tricky to the eye, they'll never divulge how quickly and effortlessly they came into being.

GIFT FOR THE GIVER

Please don't give them all away. Save a set for yourself. Your kitchen is the center of warmth, comfort and family unity. It deserves a spark of gaiety here and there. Our pot-holders, whether in use or merely "showing off," will provide just that spark. For free instructions, just send a stamped, self-addressed envelope to the Needlework Department of this newspaper and ask for CREAMER AND SUGAR BOWL, Leaflet No. S-605.

Marriage Vows Spoken at East Tawas Methodist Church

Photo by Watson

LT. AND MRS. WILLIAM H. BERGMAN

Bouquets of white gladioli and candles decorated First Methodist Church at East Tawas Saturday, July 11, for the marriage of Miss Barbara Jean Burt of East Tawas, daughter of Mr. and Mrs. Ralph Burt, and Lt. William H. Bergman of Selfridge Air Force Base, Mt. Clemens. The 3 o'clock, double ring ceremony was performed by the Rev. Ralph A. Edwards. Mrs. Dan Cater, vocalist, was accompanied by Mrs. Harold Wiley, organist.

Lieutenant Bergman is the son of H. H. Bergman of Paola, Kansas, and the late Mrs. Bertha Guy Bergman.

Escorted to the altar by her father, the bride chose a floor length dress of white nylon tulle over slipper satin, with an imported Chantilly lace overdress. A crown headpiece held her fingertip veil and she carried a white orchid on an ivory Bible.

Mrs. James Minard of Saginaw, sister of the bride, was matron of honor and bridesmaids were Miss Jean Charters of East Tawas and Miss Katherine Shrader of Midland. They wore identical

sheath dresses of pink silk chiffon over taffeta with silk chiffon overskirts and carried bouquets of pink rosebuds and white carnations.

Serving as best man was Lt. Joseph Petkash of Wurtsmith Air Force Base, Oscoda. Groomsman were Jack Burt of East Tawas, brother of the bride, and her brother-in-law, James Minard of Saginaw. Donald Black of West Branch and Richard Pfaff of Tawas City seated the guests.

Following a reception in the church parlor, attended by 200 guests, the couple left for a two-week wedding trip to Yellowstone National Park and Kansas. Upon their return, they will reside at 23110 Harrellson, Mt. Clemens.

For her daughter's wedding, Mrs. Burt was attired in a light blue lace sheath dress with matching accessories and a pink rosebud corsage.

A 1957 graduate of Tawas Area High School, the bride completed her studies at Ferris Institute, Big Rapids, this year. The bridegroom attended Kansas State University.

Out-of-town guests were present from Saginaw, Midland, West Branch, Bay City, Whitmore, Detroit, Lakeview and Flint.

Miss Shrader and Miss Charters were hostesses at a pre-nuptial shower for the bride June 23 and she was honored at a shower at Big Rapids June 9, given by Miss Ruth Peters and Miss Marianne Strzempke.

ATTENDS SPEECH CAMP AT MONTANA STATE UNIVERSITY
Donald Erickson of Tawas City, son of Mr. and Mrs. Irvin Erickson, returned Monday from Montana State University, Missoula, Montana, where he had attended high school speech camp for two weeks. He received a scholarship to the camp, one of 50 offered in the United States, on recommendation of the administration at Tawas Area High School. While in Montana, he visited Glacier National Park and a dude ranch at Flathead Lake.

Erickson attended classes on debating, parliamentary procedure, speech and diction, choral reading, oral interpretation of literature, oratory and extemporaneous speaking.

EPISCOPAL WOMEN TO SPONSOR FAMILY DINNERS

Episcopal Churchwomen of Christ Episcopal Church, East Tawas, will sponsor public family dinners each Wednesday evening, beginning July 22. Dinners will be served from 5:00 p. m. until 7:00 p. m. at the church parish hall. The ladies will hold the dinners every Wednesday evening through August 12.

MR. AND MRS. ARTHUR POVISH MARRIED 25 YEARS

Mr. and Mrs. Arthur Povish, who were married 25 years July 14, observed their anniversary and Mrs. Povish's birthday Sunday, July 12. Accompanied by John Baker and Miss Lulu Baker, brother and sister of Mrs. Povish, they attended the St. Mark's annual dinner at AuGres.

MISS GREENWOOD HONORED WITH BRIDAL SHOWER

A bridal shower honoring Miss Carolyn Greenwood of East Tawas was held at the home of Mrs. Joanne James Thursday, July 9. Miss Greenwood will be married July 18 to A-3c Gerald Millburn of Wurtsmith Air Force Base, Oscoda.

The bride-elect received several gifts from the 12 guests present. Games were played with Miss Lillian Binder and Miss Brenda Olsen receiving prizes. A dessert luncheon was served by the hostess after Miss Greenwood opened her gifts.

The fabulous "400" by TAPPAN
A bold and startling new idea in electric range design and performance. The dramatic "400" series represents the latest in styling that's new and fresh . . . a more-functional kitchen electric range for today's smartest, most functional kitchens. Dramatic new design allows custom installation as a smart wall-hung unit—at the correct height for the kitchen and the homemaker. The "400" installs in minutes—either on a wall bracket or on cabinets—no expensive cutouts or installation expense.

Experts consider NIKE missiles relatively simple—yet typical NIKE system contains some 1,500,000 parts, 217,000 feet of wire, 2,000 electron tubes, Moking equipment to control missile in flight requires more than 20,000 drawings. Battery here is located at Topel, Taiwan, first to be raised in the Far East.

Preliminary Steps Taken to Start Iosco-Alcona Cancer Screening Tests

At a meeting of the Iosco and Alcona County Cancer Societies and Michigan Public Health Department held last week in Tawas City, the preliminary steps were taken to assure the women of these counties a uterine cancer screening program. The educational phase of the program is to begin at once and the actual screening of patients will be announced at an early date. The test used in this program is the method of cytology advocated by Dr. George Papanicolaou.

This program is a product of the combined efforts of the local cancer societies and all of the physicians of Iosco and Alcona Counties. It is being coordinated by Dr. E. A. Hasty, director of Michigan District Health Department No. 2.

It has been known for several years that the Papanicolaou smear is a reliable test in detecting uterine cancer. It has also been demonstrated by a number of mass surveys to be effective in detecting pre-clinical or asymptomatic cancer. This is the stage most amenable to cure. By means of cytology, an early le-

sion may be detected long before the disease has caused any signs or symptoms.

In order to better explain the cancer screening program to the women of this area, the cancer societies are planning educational programs to that effect in various districts of both counties. Some of the important facts concerning the program are as follows: All women 25 years of age and older are encouraged to have the test whether they have symptoms or not; all of these patients will be asked to have the tests made by their own local doctors in the doctor's office; the survey is proposed to evaluate about 1,000 women of Iosco and Alcona Counties; the state health department will pay the pathologist's fees for reading smears for 1,000 cases; patients will pay their local doctor for the office examination and taking the smear; all doctors in the two counties have agreed on a common fee for this service; the health department will prepare and keep all the statistical records for the survey; all reports are confidential for the patient, her doctor and the health depart-

ment; there will be a definite starting and ending point of the survey; further information will follow in the local newspapers.

Women who are interested in this program and who would like to help are requested to call the chairman of the county cancer society.

A CHAIN IS AS STRONG AS—

How many times have you heard someone say: "A chain is as strong as its weakest link?"

On the subject of a community's attraction for industry it can be said as fairly that the community is as strong as its weakest link.

A town's pulling power with industry is made up of such links as . . . labor supply and skills . . . public facilities and services . . . schools . . . all-around livability . . . reputation for productivity . . . availability of financing . . . attitude

toward new industry . . . treatment of present industry . . . what present industry says about the community . . . what people of the community say about each other.

Let us look for weak links and if we find one let's work together to forge a strong one in its place.

Join hands with your local industrial development organization and the Michigan Economic Development Department to help your community prosper.

This ad is one of a series published as a public service by this newspaper in cooperation with the Michigan Press Association and the Michigan Economic Development Department.

Industrial Growth Based on Cooperation of Area

What do a town and a chain have in common?

All of us know the truth of that old phrase—"a chain is as strong as its weakest link."

And what is true of a chain, holds true for a community.

Some towns seldom seem to get anywhere in attracting industry, while others which appear to have no more to offer in the way of industrial opportunity, location or physical assets, seem to move ahead and prosper.

Close examination usually tells the story of the difference. The town that moves ahead is the one that keeps working to replace its weak links with strong ones.

In order to be attractive to industry, a town must have a friendly and cooperative attitude toward the industry it already possesses. That is a strong link. When it comes to attracting new industry, there is nothing like

having a record for willingness to lend a helping hand when industry in the town needs it.

A good town for industry is usually the town that has good facilities that mean a good place to live. It is a town where the people work together to keep it a warm and friendly place.

To have a growing, prosperous and live community, all its parts must be strong and cooperative. The factors which make up its appeal to industry must have continual attention by community leaders and others.

The need for each community to correct weaknesses that may prevent it from prospering is the theme of an advertisement, "A Chain Is As Strong As," which appears in today's issue of The Tawas Herald. It is another in a series of industrial development advertisements sponsored by the Michigan Press Association

and the Michigan Economic Development Department, which appear in this newspaper and more than 300 other Michigan newspapers as a public service.

A dehumidifier can perform wonders in eliminating moisture caused by excessive humidity. But, naturally, to operate at top efficiency it must receive its share of electricity (Housepower). If your new work-saving appliances have outgrown your old wiring system they are Housepower-starved. Another circuit or two and some new convenience outlets may be all that it takes to bring you full Housepower. It will pay you to look into the matter!

ELECTION NOTICE
SECTION 3. All of Grantee's towers, masts and poles shall be neat and sightly, and so placed on either side of the highways, streets, alleys and bridges as not to unnecessarily interfere with the use thereof for highway, street and alley purposes. All of Grantee's wires carrying electricity shall be securely fastened so as not to endanger or injure persons or property in said highways, streets and alleys. All work performed by said Grantee in said highways, streets and alleys shall be done so as not to interfere with the use thereof, and when completed, the same shall be left in as good condition as when work was commenced. The Grantee shall have the right to trim trees if necessary in the conducting of such business, subject, however, to the supervision of the highway authorities.
SECTION 4. Said Grantee shall at all times keep and save the Township free and harmless from all loss, costs and expense to which it may be subject by reason of the negligent construction and maintenance of the structures hereby authorized. In case any action is commenced against the Township on account of the permission herein granted, said Grantee shall, upon notice, defend the Township and save it free and harmless from all loss, cost and damage arising out of such negligent construction and maintenance.
SECTION 5. Said Grantee shall be entitled to charge the inhabitants of said Township for electric energy furnished therein, the rates, including minimum charges, as approved by the Michigan Public Service Commission, to which Commission or its successors authority and jurisdiction to fix and regulate electric rates and rules regulating such service in said Township, are hereby granted for the term of this franchise. Such rates and rules shall be subject to review and change at any time upon petition therefor being made by either said Township, acting by its Township Board, or by said Grantee.
SECTION 6. The rights, power and authority herein granted, are not exclusive.
SECTION 7. This ordinance, when accepted and confirmed as herein provided, shall repeal the provisions of the ordinance adopted by the Township Board of the Township of RENO on February 15, 1930, entitled:

IN THE SUMMER, a middle-aged man's fancy lightly turns to all sorts of thoughts, including unicycling through New York's Central Park. Milton Feher, 47, demonstrates the proper technique as the hansom in the background wait for younger men and their ladies.

Hearing

(Continued from page 1.)
definitely that for at least 50 years, perhaps 70 years, there has been no flooding except temporary flooding, above the level of 582.0 long enough to kill the tree growth. In other words, it

may be a question of whether the court has any right to weigh equities, to consider advantages as opposed to disadvantages," he continued.

Judge Dehnke said it might be argued that the injury that would accrue to the objectors from fixing a level at 582.5 or 8 would be very small, when weighed against the advantages that would accrue to a greater interests around the border of the lake and general over-all benefit. He said, however, "that small as these interests and damages might be by comparison with the benefits, we cannot say they are nothing more than trifles. They are somewhat substantial."

The judge stated that it was clear the court could not be governed either by extreme highs nor extreme lows of water levels, nor entirely by the number of days at specific levels. He said that he had done some searching on what are the rights of owners on inland lakes and the rule generally is that "a riparian owner is entitled to have the waters preserved in their natural state and remain at their accustomed level." "In other words," he said, "that is a right of which he cannot be deprived without compensation."

"As I have often said, there is danger in the court expressing itself even to this extent before the final decision is reached. Sometimes a judge has to 'eat his own words' like other peo-

ple when they speak out of turn; but I thought this would be helpful to counsel.

"Supposing the conclusion of the case is that the court says that a level cannot be fixed higher than 582.0. Then we might have a difference of opinion among the landowners and representatives of the public as to whether a raise or a specification of that level would confer enough benefit to justify the expense involved in constructing a dam. And if a dam is decided on, there is the question of the location of it."

Although stating that they are in favor of a dam, west side property owners, represented by Attorney Allan C. Miller, object to the level of 582.5 feet as recommended by the department of conservation. They seek a level of 582 feet.

Representing property owners on the east side, who ask for the normal level to be established at 582.5, was F. Duane Ross. Paul Harvey, prosecuting attorney, represented the county.

Board

(Continued from page 1.)

Supervisor Frank Wilkusi reported that the county had taken in \$13,099 at Old Orchard Park since leasing it from Consumers Power Company. Now in its second year of operation under the county, expenditures have totaled \$11,066.

The board passed a resolution favoring a bill in the state legislature which would tax real estate transactions at a rate of two percent of assessed valuation on each transfer. The resolution passed by a nine to six vote. The tax on the transfer would go to the county and the enforcing officer would be the register of deeds.

Chosen Best All-Around Musician in All-State Group

While attending National Music Camp at Interlochen for two weeks of July, Miss Nancy Allen of East Tawas, daughter of Mr. and Mrs. Joseph Allen, received the position of first chair clarinetist in the all-state band. At the end of her two-week session there, she was chosen the best all-around musician in the all-state group, which consisted of about 200 students. The honor was based on musical ability and citizenship.

Miss Allen also received an eight-week scholarship to Interlochen for the summer of 1960 and will attend University of Michigan, Ann Arbor, for five days beginning July 19, with the honors band. The honors band is composed of the best 80 players of the all-state group at Interlochen. During her stay in Ann Arbor, she will play in several concerts.

A senior at Tawas Area High School, Nancy is first chair clarinetist in the Tawas Area Senior Band.

Mr. and Mrs. Keith Melroy and two sons of Kerwood, Ontario, Canada, are guests of Mr. and Mrs. Carl Schaaaf few days this week.

Hale School Has Interesting Race

In one of the most interesting school elections in years in the Hale Area School District, Robert Pember, Perry Shellenbarger and William Wereley Jr. were named Monday to the board of education.

Of the four candidates running for the three-year term as trustee, Pember was the top vote-getter with 152. Shellenbarger had 112 to win the other seat.

Total vote cast for the other two candidates was 86 for Ira Scofield and 93 for Ernest Herzog.

Wereley topped his opponent, Mrs. Madeline Brindley, 132-100, for the two-year position on the board to fill the vacancy caused by the resignation of Clarence Brindley.

Both propositions put before

Hale voters were successful. One proposal allowing the district to sell the Taft school passed by a 186-42 vote. The other, authorizing the board to remove out-buildings at the Hale school for the purpose of making room for future building sites, passed 133-93.
