FUELGAS CO. of the TAWASES

high style

Edsel is designed to be the most distinctive car on the road. Note its fresh, crisp lines . . . its decorator-smart interiors . . . and you'll know why Edsel is singled out for high-style beauty.

low cost

Edsel

It's easy to move up to Edsel, now priced down with many models of Plymouth, Chevrolet and Ford. Low initial cost saves you money when you buy. Two V-8 engines and an Economy Six that operate on regular gas save you money when you drive.

The king-size value now in the low-price field.

SEE YOUR LOCAL EDSEL DEALER Edsels are also at many Mercury dealers

At Washington's bustling National Airport, Allied Aviation Fueling counts on its radioequipped Chevy to get crews and tank trucks to the right planes at just the right time. Aside from occasional time out for the usual service, its Thriftmaster 6-cylinder engine has been running 24 hours a day for the past 9 months!

Once you've got that kind of endurance working you don't worry much about lost job time. Breakdowns go out of style the day your Chevy goes into action.

The fact is, Chevrolet trucks are dead set on dropping the word "downtime" right out of the English language. And they just might, if precision engineering and top-quality materials have anything to say about it. Chevy trucks are put together to stay together-incorporating the most advanced chassis developments, the most efficient 6cylinder and V8 engine designs. They're built to last, built to keep Chevrolet's hard-earned reputation for reliability flying high.

Going into the real heart of Chevrolet advantages is where your dealer comes in. He'll show you, in feature after feature, that you can't buy more truck dependability - in any weight class-at any price.

No job's too tough for a Chevrolet truck! CHEVROLET See your local authorized Chevrolet dealer

OF

For want of a nail, the shoe was lost. And because the shoe was lost, the horse was lost and the soldier was lost and, the story goes, the battle was lost.

Sometimes it is that way when the battle is a community's struggle to gain new industry. Sometimes the battle is lost for want of something it would seem every community should possess.

A community's attitude - how all of us feel about our town and the industry in our town -

12

is one of the most important elements considered by an industrial prospect.

Our attitude must be good if we are going to win. It is everyone's responsibility. The attitude of everyone toward our present industry can be our biggest asset or our biggest liability in the community's effort to get new industry.

Join hands with your local industrial development organization and the Michigan Economic Development Department to help your community grow and prosper.

Treasury Proposal Would Improve U S Bond Rates

Delmar V. Cote', state director for the treasury's US Savings Bonds Division in Michigan, today reminded the public that under

the terms of the treasury's proposal to congress, improvements in rates on Series E and H savings bonds would be effective June 1.

"There's no reason for anyone to hold up on buying his savings bonds," Cote' said, "in order to await congressional action. The treasury has announced that, if congress approves the request, interest rates on savings bonds will be increased retroactive to June 1.

President Eisenhower sent a message to congress on June 8 recommending improvements in the terms of savings bonds, in connection with other public debt

matters. His message was accom-

made it possible for all cars to make very good time which resulted in fast and exciting races. A large field of cars was present. Motorcycle racing will be one of the feature attractions Saturday night, June 27, their first appearance here this year. It will be a night of both cars and bikes. Heat races were won last week by Dale Barber, West Branch; Charles Engle, Tawas City; Rick Zettle, West Branch, and Norman Dorcey, Whittemore. The Australian pursuit and feature race

were won by Barber, making him a three-time winner for the night.
